## SMUTS WARNS BRITAIN OF SECURITY PACT

### MAY BE PARTING OF WAYS FOR THE EMPIRE, HE SAYS

#### South African's Published Statement Causes Comment

#### FEARS DISUNION

#### Former Premier Declares Some of Dominions Would Not Follow

British United Press. LONDON, July 13.—A warning to Britain not to enter the security pact, emanating from former Premier Smuts of South Africa and appearing this morning in the Daily News, is causing considerable comment and not a little consternation in official circles. It seems certain that the publication of this warning will fan the old flame of antagonism between Col. Amery and Austen Chamberlain, in that it will be regarded as at least a partial demonstration of what the Empire thinks about the security pact.

#### SOUNDS WARNING

In his letter to the Daily News, General Smuts says: "It is proposed that under this pact Britain shall disassociate herself from the Empire in certain cardinal matters of foreign policy and take a line of her own, leaving the other constituent parts of the Empire to decide their own policies. Under these circumstances I feel certain that at least some of them will not follow her. As one who believes that the British Empire is the greatest human institution on earth, I cannot acquiesce in this departure from the policy hitherto followed with equanimity."

"The past may well become a turning point, a parting of the ways, within the Empire. Why not go forward into the uncertain future hand in hand with the young nations of the Empire rather than with a few old nations of Europe? Not only as a citizen of the Empire, but as a good European have a rooted distrust for this alliance."

In commenting on the message the Daily News describes it as "a well-founded warning."

### Vote of Confidence Is Included in Chamber's Action

SESSIONS ENDED

Socialists Take Sides Against Government on Amendment and Final Vote

CLAUDES DROPPED

The vested points regarding deduction of income tax payments from the following year's wages and salaries of the main classes of French taxpayers, a business turnover tax, were largely divorced from the bill, with the government pleading that these measures dealing with them at an early date.

As finally voted the budget estimated receipts of 58,150,000,000 francs, and expenditures of 58,157,000,000 giving a surplus of 1,000,000. The Senate vote of adoption was 379 to 4, and in the Chamber there was merely a show of hands without debate.

At about 9 a.m. while the Senate was awaiting the return of the budget from the Chamber, the additional appropriations for the Moroccan campaign, already voted by the lower house, were introduced, and after a brief discussion unanimously adopted.

The Chamber, in the vote before the final one by which the budget was sent back to the Senate, passed the budget only when Premier Painleve came to the aid of the Finance Minister and made the question of retaining his revenue features intact one of conditions.

Defection of the Socialists in the Chamber on this vote came when M. Blum, their leader, moved an amendment seeking to re-instate an article, dropped by the Senate, entailing prohibition of the sale of small tractors on playing less than three persons, from the turnover tax. After the Premier had made the question one of confidence in the government, the amendment was defeated 338 to 246, with the Socialists and two thirds of the Radicals voting for it. The budget was then sent back to the Senate by a vote of 421 to 150, with the Socialists again voting against the government.

BOARD ISSUE FOR WATER WORKS IN CITY ASKED FOR

Commissioner Bullock Objects to Anything in Excess of \$25,000

RECOMMENDATION IS ADOPTED 3 TO 2

Amendments to Electoral Law At City Hall Meeting

At a committee meeting of the Council this morning water extension was again under discussion, and Commissioner Bullock expressed his intention of opposing any bond issue in excess of \$25,000 for water main renewals in the city limits, but said he would support any extension of the city limits.

WATER MAIN RENEWALS

Commissioner Wigmore brought up the matter of water main renewals and said he had decided to cut out of the programme for this year the work in Broadview Avenue, King street east and Sydney street, and this brought the cost of the work planned down to \$42,000. He moved that the work be undertaken and paid for by bond issue.

NOTION IS PASSED

Commissioner Wigmore said the work was necessary and he did not see how the programme could be cut any further. He was just as anxious as any one to keep down the bond issues, but necessary work must be done.

Commissioner Frink reported that he had received a letter from the Ryke Brothers saying that the sign which was proposed to erect on the roof of the building occupied by Louis Greener was a painted steel sign and not a paper poster sign, as at first proposed.

Mayor Potts said that in this connection he would like to point out that the \$40,000 recently advanced to the Power Commission by the city was not a bond issue, but would be repaid out of earnings of the commission and that the civic hydro was now paying all its carrying charges from revenue.

Commissioner Harding presented the following proposed amendments to the electrical by-laws: Page 20, paragraph 1—Strike out the whole paragraph and substitute the following: No service outlet shall be brought out from a building at a less height than 18 feet from the ground, nor more than 30 feet from the ground, except in the case of buildings under 18 feet in height in which case said service outlet shall be brought out at the highest point.

IN ALL CASES where service outlet cannot be brought out at or near the street line of building, location of said service outlet must be obtained from the supply companies or from the city electrician.

Page 16, section 15, paragraph 2—Strike out the whole paragraph and substitute the following: First 5 outlets, \$1; next 20 outlets, 15c, each additional; next 75 outlets, 10c, each additional; over 100 outlets, 5c, each additional.

He said that the charges were the same under both sections, but the amendment made the matter a little plainer than the former section. The common clerk was instructed to prepare a by-law incorporating the amendments desired.

A letter from A. E. Everett called attention to the fact that the early closing by-law relating to furniture stores was so worded that they could keep open on both Friday and Saturday evenings during June, July, August and September and it had been the purpose of the petitioners that stores should be open only on Friday evening during these months. It was decided to amend the law to meet the wishes of the furniture dealers.

THE WHEAT CROP TONIC

The big wheat crop and a profitable price for it will have a strong tonic effect upon all Canada. It should prove to be the greatest factor of business encouragement the country has felt in many years.

The earlier estimate of a 350,000,000 bushels crop made by the Dominion Bureau of Statistics is followed by a second survey, based upon conditions as at June 30, raising the figure to 365,000,000 bushels. This is accompanied by some suggestions as to price prospects, based upon the probable world crop, and indicating that the outlook for a profitable marketing of the Canadian crop is excellent.

The West, which regarded the estimate of 350,000,000 bushels as too conservative, will be disposed to think that 365,000,000 bushels is still too low in view of conditions at this date, although the Prairie people are fully sensible of the fact that much may happen within the next six weeks to change the situation. Crop observers there believe that, barring most unexpected developments, the actual yield will far exceed the Dominion Bureau's figure.

Speaking of the earlier estimate, the Edmonton Journal suggests that what the Bureau intended to convey was that a crop of 350,000,000 bushels is now reasonably assured, that the production cannot very well be lower, and that it may be much higher. Support for the more optimistic view is found by the Journal in the fact that in 1923, although damage from drought was serious in large areas, the yield was well up to 400,000,000 bushels. In 1924, the year of a record crop, Manitoba made a poor showing as compared with Alberta and Saskatchewan. Having regard to the crop conditions as they stand to-day the Journal regards a yield of 475,000,000 bushels, or even more, as "quite a possibility."

"No one in his senses will speak of it at this stage as a certainty," says the Journal, "but it is quite as foolish to shut one's eyes to the fact that the chances of its realization are the very best."

This strong note of confidence runs through other western comment. The really cheering feature is the satisfactory evidence provided by the official survey that the crop will exceed the ten-year average. Coupled with the fact that the market for wheat is unusually strong in Europe, it is expected to produce much more wheat this year than last, but in the United States, India and some other wheat-producing countries the outlook is for reduced crops, particularly in the United States, where a shortage of some 250,000,000 bushels as compared with last year is anticipated. The market reviewers are fairly unanimous in predicting that Canada's crop will be marketed at a figure leaving a highly satisfactory margin of profit.

MR. RHODES TAKES OVER

The Armstrong Government in Nova Scotia is to resign this week, and Hon. Mr. Rhodes will then be in the saddle and clothed with full authority to deal with the Cape Breton mining trouble. The impatience of the whole country because of the prolonged idleness and disorder in the Cape Breton area is reflected in some of the advice which Mr. Rhodes is receiving. The Toronto Star says of the matter:

"It should be possible for the nation to protect the interests of the public by ensuring a supply of fuel at a price that will pay adequate wages and ensure inviolate capital in the profit for the service it performs. Coal is a raw product taken out of the earth; the work that is done in connection with it, the service that capital performs, are easily measured and ascertained. It should not be difficult for mine owners and mine workers to adjust their disputes, provided there existed a desire to have them adjusted. But perhaps there isn't always this desire. At that case, so real and so imperative is the interest of the country in the affair that control over the whole fuel supply may have to be established, and if control is not enough national ownership and operation may in the end have to be resorted to."

There is no available evidence to support the view that national ownership and operation would permanently cure, or even temporarily improve, the situation in Cape Breton, or in the mining districts of Alberta or British Columbia. Emergency control of the country's fuel supply, as in time of war, is a necessary but costly expedient, unavailing under such circumstances. Much of the comment offered on the Cape Breton situation serves only to bring out more clearly the difficult nature of the task confronting Mr. Rhodes. Public impatience is quite natural under the circumstances, but it does not change the facts. Already the Nova Scotia mines are the property of the province. If they were nationally owned it is highly improbable that labor troubles would be more easily prevented. Yet too much can scarcely be said to the pressing need for the resumption of mining, and if Mr. Rhodes has extraordinary talent as a mediator, or if he knows any way by which the power of public opinion can be brought to bear effectively, or, indeed, if he should uncover any Je-

feasible method whereby mining could be resumed and steadily maintained, he will be the man of the hour. Any real solution must give both labor and capital an even break. Any variation of that rule, although it might produce a temporary settlement, would only invite even more serious trouble later on.

ELECTION GUESSES

Writing from Ottawa to the Manitoba Free Press its political correspondent discusses some federal election possibilities and probabilities. He is inclined to think the Nova Scotia election increased the uncertainty as to the date of the federal contest, but he says: "On the whole, the judgment of most of the politicians who haunt the capital is that a general election will be held probably in November."

After taking soundings in Ottawa among men of both parties, this correspondent, who assumes an attitude of independence, comes to the conclusion that the fighting ground to which the old parties will devote most attention is to be found in Ontario, Quebec and British Columbia. "Propaganda, aside," he says, "the Liberals and the Conservatives alike do not expect to make much headway in the Prairies. The Progressives, it is admitted, cannot be weakened to any extent in the Prairie provinces, although both Grits and Tories expect to win the seventeen or more seats now held by the Progressives in Ontario." He summarizes some of the claims of both sides in this way:

"During the past nine months the federal government has shaped its policy so as to obtain the greatest possible strength in Ontario and Quebec—particularly in Ontario—while the Conservatives have been equally active in endeavoring to overcome the West. Hastings defeat and restore their prestige. "Members of the government tell you that if the Liberals gain a few seats in Ontario at the expense of the Progressives and the Conservatives, if they can hold Quebec and split 50-50 in the Maritimes, they will still be the strongest group and will remain in office. As against this the Conservatives point to the Nova Scotia results as an evidence of a wave of Toryism which is rising and which, if the elections are deferred a little longer, will have a marked effect on Quebec. In Ontario, they say, their strength is greater than it is to-day."

British Columbia he regards as providing good fighting ground for both the old parties.

The glorious Twelfth seems to have passed off quietly nearly everywhere except in Glasgow. Fifty thousand Orangemen paraded there and hostile elements caused several riots, the result being injuries to more than a hundred persons, and fifty arrests.

Parliament's action in providing higher penalties for smuggling is being followed up by the Department of Customs and Excise, which is employing 300 secret service men in work along the border. The problem of smuggled liquor and the greater use of motor cars in evading the customs have greatly increased the work of the department. Stories of the profits made by smugglers, a great many of them unfortunates, have multiplied the law-breaking forces. The United States is also increasing the size of its preventive forces along the border, and as a result of increased vigilance by both countries smuggling in the future will be neither so safe nor so profitable as it has been.

Sir George Perley was one of those present in London the other day when a league to promote buying within the Empire was launched under the auspices of Lord Jellicoe. Sir George said that Canada would quickly follow any lead given by Britain in the matter of making the Empire self-sustaining, and he went on to say that "all loyal Canadians are ashamed because the Dominion buys only ten shillings' worth of the products of Britain for every pound that country spends in Canada." Sir George will find some work to do among his political friends in Canada, some of whom would like to abolish the British preference.

It is announced to-day that the British mine owners, while they decline to withdraw the notice that they will terminate the existing agreement with the miners three weeks hence, have notified the Government's mediator that they are willing to re-open the discussion at the point where it was suspended some time ago. In view of this, a proposal that negotiations be resumed will be considered to-day by the miners' federation. This is regarded as providing only a ray of hope, as the miners are thought to be opposed to any further discussion unless the mine owners recede from their demands for lower wages and longer hours. The situation threatens the whole industrial fabric of Great Britain and is causing the Government and the general public very grave anxiety.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Waitress."

A Canadian History Test

It would not be surprising to find that in a test of knowledge of Canadian history westerners made a poorer showing than those in the older provinces, for the reason that there are more people here who were not educated in Canada. As a diversion for Dominion Day it might be well to submit oneself and friends to an examination recently conducted by an Ontario man among a group of young people of at least average intelligence and scholastic training. He queried them as to their knowledge of Sir John A. Macdonald, the statesman being chosen because he seemed to the examiner to be the most conspicuous figure in our annals. The question with the results are as follows:

(1) Where was he born? 11 per cent. answered correctly. (2) Where was he educated? 20 per cent. answered correctly. Several of those questioned had lived in Kingston.

(3) What was his profession? 47 per cent. answered correctly. If it was not to enter public life? 23 per cent. answered correctly. (4) What great Act of Parliament is his name associated with? Only 82 per cent. answered correctly.

(5) What high position did he hold after this Act was passed? 77 per cent. answered correctly. (6) For how long did he hold this position? Any answer within 5 years either way of being correct or any interpretation of the question was considered right and 16 per cent. answered correctly.

Only two out of the two hundred were given full marks and it was found that one of them was so well informed because she had just finished reading Macdonald's biography in preparation for a school oration upon him. The second choice was Lord Strathcona. The young people were not expected to know as much about him as about Macdonald, but it was thought that they should be fairly familiar with his career.

This was the report in his case: (1) What was Lord Strathcona's original name? "Smith" was accepted as right and 17 per cent. answered correctly. (2) Where was he born? 12 per cent. answered correctly. (3) With what great corporation was he associated for most of his life? 11 per cent. correct. (4) With what rebellion was he connected? In what way? His sort of answer to either question was taken as covering the ground for both. 25 per cent. answered correctly. (5) With what great national enterprise is his name associated? If it was found that any one had failed to understand about the C. P. R. was referred to and failed to answer correctly for that reason he was allowed to revise his answer. 28 per cent. answered correctly.

(6) What high position did he hold during the latter part of his life? Any answer indicating that he was occupied in England was accepted. 8 per cent. answered correctly. (7) How long did he live? Any answer indicating that his life was a long one was accepted and 4 per cent. answered correctly.

The showing is a startling commentary on the results of the teaching of Canadian history in the Ontario schools. In calling attention to it in the columns of Toronto Saturday Night, Mr. W. A. Deacon tells of approaching a man of about thirty, a product of the best educational institutions in Toronto, who had displayed much general ability, and seeking to find out how much he knew about the country's past. He admitted that he knew absolutely nothing and went on to say that his most vivid recollection of his school instruction in this subject was the advice his teacher had given the class to purchase a little "crum book" of a few pages—lists of dates and that sort of thing—by which he and others had been able to pass his examination. A noted Canadian writer on political and historical matters confided to Mr. Deacon an hour later that his child, a brilliant student half way through the arts course, had just come to him with a rudimentary question about a famous Canadian historical figure, whose name, apparently, was quite unknown to the student.

As a matter of fact the Animal Rescue League of Saint John has provided a not unimportant factor in solving the problem of sick and injured pet animals and simplifying to a commensurate degree the difficulty that used to exist in the matter of homeless cats and dogs.

Between 7,000 and 8,000 animals have passed through the systematic hands of the league and were either impounded as "strays" until claimed by owners, boarded white household folks were out of town or put to sleep in an approved lethal chamber rather than the old unsanitary haphazard method of drowning the pets in Courtenay Bay or ponds and creeks roundabout the town.

As a matter of fact the Animal Rescue League aside from its humane objective amongst dumb animals is very directly helping to improve public health by placing itself in the hands of the pet-owning public as an agency to care for their dogs, cats—and sometimes horses—when difficulties arise, particularly of intractable sickness or injury.

Every city of any size has some such rescue organization devoted to the welfare of dumb animals, particularly pet animals so tenderly linked with the household life of the average home, mostly homes wherein there are growing children. This large field of people in itself offers sufficient reason why the Animal Rescue League should appeal next Wednesday for a tag day offering, designed to make improvements in the league's property. The amount required is not a large one and donations expected from well-wishers need not be over-generous. It is hoped the response will be generous enough to amount to a sum adequate to the needs.

A GOOD CAUSE—HELP IT. To the Editor of The Times-Star. Sir,—In the last twelve years the Animal Rescue League of Saint John has provided a not unimportant factor in solving the problem of sick and injured pet animals and simplifying to a commensurate degree the difficulty that used to exist in the matter of homeless cats and dogs.

Between 7,000 and 8,000 animals have passed through the systematic hands of the league and were either impounded as "strays" until claimed by owners, boarded white household folks were out of town or put to sleep in an approved lethal chamber rather than the old unsanitary haphazard method of drowning the pets in Courtenay Bay or ponds and creeks roundabout the town.

Case Puzzles Mountaineers

LAWRENCE BOWMAN (ABOVE) AND DR. W. D. MASON. CHATTANOOGA, Tenn., July 13.—A mountain kidnapping that nearly cost the lives of two men is proving one of the toughest puzzles to Tennessee mountaineers that ever popped up here.

Dr. W. D. Mason, veterinarian, and Lawrence Bowman, assistant prohibition agent, were found chained to a tree on Mt. Mountaineers near here, after they had been missing for 10 days.

They saw feudists had bound them there. But the mountaineers say it's mighty strange. Never heard of a feudist that didn't kill. Never heard of one that tied his man. Those fellows either kill or nothin'. It's mighty strange.

Mr. Smith came along then and carried the boy to a car in which he was conveyed to the hospital. There he was attended by Dr. D. C. Malcolm. His face was cut and an X-ray examination showed that he was suffering from internal injuries necessitating an operation.

Mr. Crowley went to the hospital and then reported the accident to the police. At noon today it was reported that Saint John Hospital that a slight improvement in the condition of the lad was manifest.

FAVORABLE REPORT MAY BRING TOURISTS FROM MIDDLE WEST

R. S. Cummins Acting For Manager of Big Scale Automobile Tours—He and Family Traveling in House on Wheels That Excites Curiosity

MONCTON, July 12.—Motoring to the Maritime Provinces, accompanied by his wife and two sons, R. S. Cummins, president of the Yorktown State Bank, Yorktown, Indiana, arrived in Moncton Saturday, one object of his visit being to investigate the attractions of this part of Canada for a large party of tourists who may come this way in 1927 from the Middle West.

Mr. Cummins announced here that James H. Brown, of Battle Creek, Mich., who manages automobile tourists, had requested him to report on conditions in the Maritime Provinces from a tourist's standpoint.

It is not known how many cars would come if the proposed tour were organized, but it is expected that several hundred people would be traveling in the party.

Mr. Cummins traveled via Detroit through Ontario and Quebec. He has been very favorably impressed by the tourist possibilities in the east. He will leave Moncton soon for Nova Scotia, returning here in about ten days. He will proceed to the New England States via Saint John and St. Stephen.

Police Constable McBride was called on Saturday to shoot a dog that had been badly injured when run over by an automobile in Main street. The dog was owned by G. E. Conley.

SEVEN YEAR OLD BOY IS STRUCK BY AUTO

Lawrence Smith is Taken to General Hospital and Undergoes Operation.

Lawrence Smith, seven-year-old son of William T. Smith, 10 Wall street, chauffeur with the Canadian National Express Company, is in a serious condition in the General Hospital as the result of an accident on Saturday evening when he was struck and knocked down by an automobile driven by Stockley Crowley, of Sandy Point Road. He suffered internal injuries that necessitated an operation.

Mr. Crowley, in his report to the detective department following the accident, said that he was coming down Burpee avenue and was turning into Wall street when he met a grocery wagon going towards Rockland road. Just as he was passing the wagon the boy stepped in front of the car. He did not know whether he had been behind the wagon or whether he stepped off it.

STRUCK DOWN. The lad was too close to the car for him to avoid striking him although he put on his brakes and swerved sharply to the right. The front mudguard of the automobile struck the boy and knocked him down.

When he stopped the car and went back he saw the lad lying in the road about six feet behind the car. He picked him up and the boy commenced to cry.

Mr. Smith came along then and carried the boy to a car in which he was conveyed to the hospital. There he was attended by Dr. D. C. Malcolm. His face was cut and an X-ray examination showed that he was suffering from internal injuries necessitating an operation.

Mr. Crowley went to the hospital and then reported the accident to the police. At noon today it was reported that Saint John Hospital that a slight improvement in the condition of the lad was manifest.

Not a sign of wear!

Silk hosiery, of dainty weave and exquisite colour! Underthings so sheer and delicately pale! In fact, any dainty fabric can be washed time after time in the gentle Lux suds, without showing a sign of wear.

Of course, with Lux, there is no rubbing to break the slender fibres, or to streak and fade the lovely colours. Just dip your things up and down, pressing the creamy Lux lather through and through, and they're as lustrous and beautiful as new again.

Lux will not injure anything that water alone will not harm.

PITTSBURG PIRATES STILL LEADING THE NATIONAL LEAGUE

KEEP IN FRONT OF GIANTS WHO LOSE TO CUBS

Both Washington and Macken Win In Am. League

NEW YORK, July 12.—The Pirates were still leading the National League this morning, notwithstanding a setback by Brooklyn.

Zach Taylor, of Brooklyn, did his best for his neighbors by lacing out a home run in the ninth, to make the score 4 to 3, but meanwhile Chicago upset the Giants in a sixteen inning game at the Polo Grounds and the Corsairs are still a few points higher up the ladder than New York.

Mackens Wild Heave. With Chicago one run ahead of the Giants and the bases loaded, Gabby Hartnett's disgust over rulings of the umpire took form in a wild heave.

Rommell Wins Game. Balancing the twin defeat of leading National League contenders, both Washington and Philadelphia triumphed in the American.

Is After New Record

WALTER JOHNSON, with so many pitching records to his credit that he needs a traveling auditor to keep track of them, threatens to add another very important one to the long list.

Since the inception of the American League, no pitcher has ever achieved the distinction of leading that organization in games won more than twice.

This year, Johnson, one of the four pitchers who has twice topped the twirlers, is in a fair position to again show the way.

With 12 victories in his first 16 starts, Johnson has been the mainstay of the Washington pitching staff. If he can continue his consistent work he is certain to score 20 victories, possibly 25.

The great Rube Waddell, now dead, was the first pitcher to twice top the American League in pitching. His record was the best in 1902 and 1905.

### THORNTON'S PAY GOES UP \$25,000

**C. N. K. Head Rejected For Five Years, in Report From Ottawa**

**Additional \$25,000 For Expenses, Annually, Says Montreal Correspondent.**

MONTREAL, July 13.—In the absence from Montreal of Sir Henry Thornton, it was impossible to obtain confirmation or denial of a report from Ottawa published in this morning's Gazette that the president of the Canadian National Railways had been engaged by the Canadian Government for a further five-year term, after the expiry of his present term in October, next, and that his salary has been increased from \$50,000 a year to \$75,000 with an additional allowance for expenses of \$25,000 a year.

### CORRESPONDENT'S STORY.

The Gazette's Ottawa correspondent says in part: "While there has been no official announcement of the results of the negotiations between the Government and Sir Henry Thornton for the renewal of his contract as president of the Canadian National Railways, it is understood the terms have been arranged and that he will remain in his present position for another term of five years from October, next, when his original term of three years is concluded."

### SALARY REPORT.

"Sir Henry at present receives an annual salary of \$50,000 a year, the same as paid the president of the Canadian Pacific, but, under the new agreement, will receive \$75,000 per annum, with an annual expense allowance of \$25,000."

### She Was Weak, Thin and Nervous

One of the greatest strength given and producers of good healthy flesh in the world is Cod Liver Extract—it's full of vitamins.

"Thank goodness that now, when a woman is weak and haggard and doesn't know what she ought to do, she knows where to go for help as all druggists are now selling McCoy's Cod Liver Extract Tablets, sugar coated, and as easy to take as candy.

Men and women, weak, thin and nervous, are urged to put on weight and get back their health and strength with these wonderful tablets. One woman gained 15 pounds in five weeks and that's going fast enough for anyone. Only 60 cents for 60 tablets, and if they don't put five pounds of flesh on you, this price is 80 days—why, money back and no quibbling about it, either.

But be sure and get McCoy's, the original and genuine. Watson's two stores, Ross Drug Co., Wm. Hawker & Son.

The Victor—"Yes, she said I was not, but I gave her a lick that made her change her mind, I'll bet."

Judge—"What is the verdict of the jury?"

Foreman of Jury—"We find the culprit not guilty, sir. But we recommend that he be warned not to do it again."

### Three Horses Die In Fire When Russell Street Barn Burns

Three horses were burned and damage estimated at about \$1,500 was done by fire which broke out about 12.30 o'clock yesterday morning in a barn in Russell street owned by John M. Fitzgerald. The damage was about one-half covered by insurance, Mr. Fitzgerald said last night.

The blaze was first seen by one of Mr. Fitzgerald's neighbors about 12.40 o'clock. He dressed and went to the house of the owner to tell him to leave after 1.30 o'clock in the evening of the fire. By the time Mr. Fitzgerald reached the barn it was found to be impossible to do anything for the horses or to save the building.

### LADIES' RACE WILL BE FEATURE EVENT

Will Vie For Honors at Moosepath Park on Wednesday Evening.

The race programme which had been carded for Moosepath Park on July 1 and had to be postponed on account of unfavorable weather conditions will be staged on Wednesday evening according to an announcement of Fred A. King.

In the free-for-all "The Finisher," owned by Walter Sullivan, and "Patience King," owned by Fred A. King, have already entered and others are expected. Both horses have been put through some hard training and are expected to have a battle royal for premier honors unless some faster stepper enters.

There will be a feature event in the form of a ladies' race. Three have consented to drive and as there is considerable rivalry between them it is expected to be one of the most novel and interesting events yet staged at the Park.

Jack Seely, who owns and drives Lady Byng and who had his bike broken during a mile-up on June 20 is ready to start again and will appear in the 240 class.

There will also be an exhibition half mile between a hobbled pacer driven by a young woman and paced by a man on horseback.

**Mr. and Mrs. George A. Kimball 50 Years Married Today**

**Groom of 1875 Has Been Prominent in Business Life of Saint John.**

Mr. and Mrs. George A. Kimball, 46 Carleton street, are celebrating quietly at their home today their 50th wedding anniversary. They will have with them at a family dinner party this evening their children, Mrs. J. D. Dodd, of Montreal, Mrs. G. Bruce Burpee and John H. Kimball, of this city. Miss Marjorie Dodd of Montreal, will be the only grandchild present. There are three others, one sister of Miss Dodd and two brothers. G. Bruce Burpee will also be among the guests. Many lovely flowers have been received by Mr. and Mrs. Kimball.

**ONLY THEY REMAIN**

The bride of 1875 was Miss Emily Pearson, daughter of the late Captain and Mrs. William Pearson. The marriage was a very plain one, said Mrs. Kimball, with just the family in attendance at her mother's home, King street east. Captain Pearson died when Mrs. Kimball was very young. Rev. George M. Armstrong, rector of St. John's (Stone) Church was the officiating clergyman. Mrs. Kimball said that all who attended the wedding are now gone, so that the anniversary is fraught with sadness, as compared with many such events, where often many or all of those who were guests are still living. Her bridesmaid was her sister, Catherine, the late Mrs. H. A. Baker, who resided in Boston for several years before her death.

Mr. Kimball is president of the John Kimball and Sons, Ltd., Haymarket Square, and is still actively associated with the business affairs of the city. He and his wife are enjoying their anniversary day at home to their mutual friends. J. H. Kimball, their son, is known in many activities in the city, as a Rotarian, in the R. Y. C., and in the R. C. N. V. R., in which he takes a prominent place, and in the Saint John Playgroup Association. He is manager of the business which is one of the oldest firms in the city.

Patterson, rector of the Westfield church, will officiate at the service. Interment will take place in Fernhill.

**Noel Fleming Jumps Into Loch Lomond When Trouble Comes in Motor Boat.**

Noel Fleming, 17-year-old son of Mr. and Mrs. H. Fleming, of Loch Lomond, suffered severe burns to his face, arms and chest on Friday afternoon while he was cranking the engine of his motor boat on the lake. The engine backfired and the sparks caught in his blouse, which must, it is thought, have been on fire. With presence of mind, the young man jumped into the lake, but before his blouse was all burnt off his face, which blistered, one eye also being scorched. Fortunately his eyes were not injured.
