Crowd Swarmed in Prince William Street at Noon Today

A. P. Barnhill Goes to Toronto, Backed by Strong Resolutions - Photographs and Moving Pictures-Commercial Club on the Job-Thirteen Berths for Twenty-six Steamers—Railway Yards Choked.

Bubbling over with enthusiasm and with a desire that St, John should not be discriminated against so far as her terminal facilities are concerned, a large body of representative citizens packed Prince William street near Chubb's corner at noon today to take part in a demonstration at which a committee from the mercial Club presented to A. P. Barnhill, K.C., a member of the board of directors of the Canadian National Rail ways, a resolution calling upon the railway board to make provision for adequate facilities to handle the traffic here and protesting against the present conditions which have caused a blockade. The resolution, which is as published elsewhere in the Times, was read by R. D. Paterson, and Mr. Barnhill spoke briefly in reply.

During the morning "still" pictures were taken of the congested yards and idings, both on the city side and at Bay Shore. Motion pictures were taken of

Patricin, and Mic Harman space strong, an analysis of the congested yards and the factors.

Tobacco prices, too, have soared, in keeping with the price of board, of clothing, books and boots; and now we feel some mental jars when we dig up for punk cigars and cauliflower cheroots. There was an olden, golden time when I could take a hard-earned dime, and buy a royal golden time when I could take a hard-earned dime, and buy a royal smoke; a torch that drove away my care, restored the color of my hair, and made grief seem a joke. But now the torch that costs a dime would drive the purchaser to crime, to arson and the like; it's made of rhubarb leaves and sage, and oft the smoker, in a rage, invokes the shade of Mike. The time has come, I must admit, when it is wisdom true to quit the habit, once for all; for most cigars are made of tripe, the stuff we purchase for the pipe is ground up overall. And only plutocrats can buy the honest weed, it comes so high, and "higher still's" the news; what wonder that the poor man grieves? I'm tired of smoking cabbage leaves and dessicated shoes. I'm tired of throwing coin away for sacks that should be labeled hay, but bear tobacco's brand; and so I say to every toff, "This is the time for swearing off! Let's do it, hand in hand!"

MINT MAKES RECORD.

Philadelphia, Jan. 10—In a valiant effort to meet the abnormal demand for "small change," the Philadelphia Mint established a new high-water mark in 1919, having turned out the enormous total of 500,915,000 pieces for domestic use and 90,529,195 for foreign account. The 1918 output was 367,845,006 of domestic and 28,480,000 of foreign. The value of the 1918 output was \$14,080,381,04, while that of 1919 was \$13,849,610, the tremendous demand for pennies being responsible for the decrease in value in 1919.

The transaction was that in 1914 the properties of the Great Northern Land Company were taken over by the Sterling Trust Company as trustee, and for which \$368,500 was paid, about \$50,000 in cash and the balance by an issue of guaranteed trust certificates.

It has been suggested that the right of the Sterling Trust Company to make such a purchase might be questioned by the shareholders and also its power to pay for the properties by the issue of trust certificates. However, the connection between the Great Northern Land Company and the defunct Standard Reliance Loan Corporation is, the Telegram understands, to be aired before the master, J. A. C. Cameron, at the present inquiry, and the land deals, including the various sub-divisions secured and operated by the Burnaby syndicate, and afterwards turned over to the Standard or its subsidiaries, will also be investigated.

"Most of the work of Northeastern College in the past has been devoted to courses of study which have been vocational or professional in nature. But it has been found that the young man who is compelled to go to work upon the completion of a high-school course is not always satisfied with specialized education, but is desirous of securing something broader, something which will develop all his latent abilities, will broaden his vision and enlarge his appreciations, something which will open to him the rich field of contact enjoyed by the day college student.

What Will Happen When The Railroads Go Back?

Will lower wages, the present scale, or even higher wages, be paid to employees? Will freight and passenger rates be increased? Will the public enjoy better service? These are a few of the questions that are current in the minds of the American public since the announcement of President Wilson that the railroads will be returned to their owners on March 1st.

THE LITERARY DIGEST in its leading article in the issue of January 10th, presents a comprehensive survey of the railroad question. It gives the arguments pro and con for private control, for government ownership, for the installation of the Plumb plan, etc. The article is graphically illustrated with pertinent cartoons on various phases of the situation,

A SUGGESTION

The suggestion that pictures be taken to emphasize St. John's demands for increased terminal facilities was made by T. F. Drummie. When it was proposed that a committee from the Commercial Club go to A. P. Barnhill with a strongly worded resolution from the club, Mr. Drummie suggested that the whole club go, and have a moving picture of the invasion of Mr. Barnhill's office. The idea was seized with ent'usiasm. Just then W. H. Golding arrived. A hurried consultation between him and Mr. Drummie enlarged the scheme, with the result that it was decided to have photographs for Mr. Barnhill and a set of moving pictures for all Canada, showing the congestion now existing at this port. Hugh Bruce, chairman of the publicity committee, called the committee together, though it was then nearly 11 o'clock, and in a twinkl'ng it was arranged to have an autonobile, a photographer, a movie man and a tugboat on the job today. Thus all Canada will see St. John's needs, as a result of quick action following Mr. Drummie's suggestion to the Commercial Club

This is Important Only if You Are Interested in Extraordinary Furniture Service

The growth of our business has been extraordinary—but not surprising.

It was founded on a few simple ideas—in fact so simple that they are a great many times overlooked by merchants who are interested only in quick commercial success. We have never been interested in a quick success one-half as much as we have been

In other words, we have not been as interested in sales as we have been in customers. That is why we feel we are not employed to sell furniture, but solely to show it, and to offer helpful suggestions when necessary—a broad statement, but just as true as it is broad. And—the service that goes with every sale is as unusual as the furniture itself. It is a service in the customer's interest first—and in the interest of Everett's ultimately, of course, but our profit must result, if at all, from the continued satisfaction and patronage of the people of St. John.

Everett's has long been the first choice of those who seek quality and style in furniture—while many buy here because of economy alone.

All who buy furniture here, whether it be one piece or the furnishings for a complete home, are sure of one thing—that they are buying guaranteed merchandise, chosen first of all because of its high standard of quality, and at less expense than in any other store.

An added tone to any home - The McLagan Phonograph,

Present conditions at the University of New Brunswick are more encouraging than they have been for several years, according to the Chancellor, Dr. C. C. Jones, who addressed a largely attended meeting of the Associated Alumni Society in the Equity court room last evening. The new students at the university number more than ninety, a large proportion being registered in the freshman class. It was pointed out, however, that more money must be forthcoming for the college if its good work is to be continued.

SEARCH FOR FOXES IN TORONTO

Toronto police have been invited to elp search for two foxes stolen on Dec

28 from Young's Point, near Peterboro.
One is not an ordinary fox. It is described as a "silver grey male fox, grey on the back with stripes of red on his shoulders, breast all black, head grey."

The other, a female, is merely a red fox,

and would probably pass unnoticed on the streets of the city.

Siderably, it was stated last night.

The chief of police of Peterboro has sent word to the local police to keep

Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a twinge of pain or soreness before applying, or afterwards. This may sound like a dream to corn-pestered men and women who have been cutting, filing and wearing tortorous plasters. Yes! corns lift out and calluses peel off as if by magic.

A small bottle of freezone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off.

Freezone dries instantly It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice.

They were, Lord Haldane declared, rather apt to take the standards that had been handed down to them by their grandmothers and to think there was no question about them.

Bolshevism had done very terrible things, it had committed many outrages and cut off the head of a king; a king, according to his lights, no doubt as innocent, and possibly more innocent. The question was, what was the value of his lights? Looking back after two and a half centuries opinion was clearer today than "twenty years after" the event.

French Revolution Understood.

Then again France had cut off the head of the king, and a very innocent and good king he had been in many respects; and, so far as good intentions went, when they read the modern French stories, and he had been reading lately some of the works that had been done as the result of research by members of the academy, they found a clearer light on the meaning of the French revolution conly after 100 years had elapsed. They found that the revolution had not really been against Louis XVI. The French nation had wanted only a constitution and that constitution to work out its own salvation, and the reason why it had

The sale of the matters of the moment—it was directed against a great deal more than the matters of the moment—it was directed against a bad past. That had been the case in Russia just as in the case of France, and as in their own country, when it had uprisen against the Stewarts. What was the moral of this? It was that when they came to deal with the quetsion of the demerits and the merits of a revolutionary movement the dominant test was what did the people themselves concerned, what did the democracy which was engaged, make of the matter in the end.

today existed in Russia by foreign intervention.

How, then, was Bolshevism, assuming it was as bad as it was made out to be, to be put down? How were all these outrages and atrocities to be ended? By the people themselves. They were the only ones who could do it. They must leave it to Russia, and the reason why was because there was one faith so far in the world's history that had never betrayed those who held it and that was that in the main the instincts of the people were right. The way of dealing with it was to let the people of Russia work it out themselves and not to make things worse by attempts to interfere, which were certain to be feeble and ineffective; and even if they were much more powerful than they promised to be, could not hope to attain success.

Seven people were killed and thirty-five injured in this raid, which damaged the railway goods depot at Bishopsgate (city.) The divisions more directly affected were H, J, K and N. Two bombs fell at Leytonstone (J) without doing serious damage (on two later occasions the town had a similar experience.) No fewer than twenty-five bombs fell between High street, Shoreditch, and Christian and Ducket streets, Stepney, where two people were killed and ten injured, much damage was done to property. In seven thoroughfares of Stoke Newinton the enemy left his mark. Three of the ten bombs which exploded in the locality landed in Cowper road, killed two people and damaged three dwellings. In other streets of Stoke Newinton five citizens were injured and house property was damaged. Kent and Essex were visited on the night of Aug. 17-18, Essex got some bombs in a raid which killed six and injured twenty-four people were injured. In this raid London (J division) fared ill. There was spirited local work to be done, and how well it was accomplished is indicated by the fact that Special Constable W. A. Goodman of Leyton was awarded the certificate of the Carnegic Heroes? inion as to whether it is cheaper to travel in England or America, visitors to either country insisting that the advantage lies at home. The truth probably is that an American finds it more expensive to travel in England, while the Englishman finds Canada and the United States more expensive. That is because each understands his own country best, and knows where to go, how to go and what unnecessary outlays to avoid. This aside, the English tipping system is an unmitigated nuisance, and while the Englishman might say the same thing of America, it is because he carries on there the same system that he has become used to at home. There is this difference, that in Canada and the United States one does not tip servants and officials without some reason. They are paid when they do something for you, otherwise not. In England the less they do for you the greater are their expectations, and the more bitter their indignation if they are ignored.

GOOD BUSINESS

IN PROVINCE IN

Business during 1919 appears to have been generally satisfactory in most lines of trade. Failures have been comparatively few, there seems to have been plenty of money throughout the province, and wholesalers report that payments have been well looked after during the twelve months, quite a high percentage of trade paper being met at maturity. Prices in most commodities have adanced during 1919 and it would appear that there are likely to be firm markets during 1920. In some lines no predict-

Retail trade has been well maintained even at the increased values, volume of turnover in most lines showing that actually more goods have passed over the counters than in the preceding year.

In "Human Desire," in which Anita Stewart will be seen at the Imperial Theatre commencing Monday, Anita Stewart has the part of an Italian girl who is intensely fond of babies, and who for this reason makes a splendid Madonna for an American, artist who indo her friendless on the steps of an old stately home in Washington Square North, New York. The love affair between the artist and the girl is developed as the picture proceeds. Conway Tearle, Naomi Childers, Eulalie Jensen and others are in the cast.

"THE SQUAW MAN"

ANOTHER GOOD ONE

AT THE UNIQUE

No photoplay produced in recent years presents a better cast of screen players than that employed by Cecil B. De Mills in his superb production of "The Squaw Man," a picturization of Edwin Milton Reyle's famous stage play, which will be presented at the Unique Theatre next week. From start to finish, the cast in this photoplay is made up of stars or players of stellar importance.

Elliott Dexter is in this stellar role, with Ann Little playing opposite to him

as the Indian girl. Katherine MacDonald, Theodore Roberts, Jack Holt, Thurston Hall, Tully Marshall and others have exceptionally strong parts. Nearly all of those named have been seen in many of the more famous Paramount and Arternst nicture productions. 'Human Desire' Tells of most graphic character, with intense human interest, stirring heart appeal and unrivalled charm of character depiction.
