TREET CARS TO ONE-LEVEL HOUSE

Commissioner Agar to Confer With Company

COMMON COUNCIL

Chief Blake Continued in Office Until End of Year—A Matter of Importance in Connection With New Falls Bridge

Authority to negotiate with the St. Railway Company to arrange a union which the company would like their line from Cooper's corner to the Mill House and thence to Cooper's corner was given to Commissioner at the weekly meeting of the council this morning and a resolution covering the agreement was approved.

The largest single item among the permits is the estimated cost of the work of remodeling the Bank of Montreal building, which is placed at \$40,000. The cost of the new building to be erected by the Royal Bank of Canada on Main street.

Other permits cover the construction of a \$10,000 two story brick residence in Lennox street for John Sealy; a block of three two story wooden dwellings, costing the same amount, in Harris street, by the Remon Land and Building Co., Ltd., and two two story wooden dwellings, also in Harris street, for Fred Johnston.

Permits for business purposes include an addition to Ungers' laundry, an office building for Haley Brothers & Company, in Broad street, and a warehouse in City Road for H. Carie.

A permit has also been issued to Edward Reid for the erection of a fumigation building, in the rear of Reid's Park, cost \$11,000.

GERMAN SCIENTIST IS VICTIM OF CANNIBALS
Brisbane, Australia, Sept. 2.—John Henry Warner, a mineralogist of German-American descent, was killed and eaten by cannibals in an unexplored region in Papua. He was heading an expedition in search of radium.

Commissioner Agar moved that the subject of agreement as to details, be given permission to attend the opportunity to view the location, be deferred until the next meeting. The motion was carried.

Commissioner Agar presented a resolution defining the terms under which the St. John Railway Company would be given permission to extend their line from Rothery street to the Mill House and thence across the One Mile House and thence across the street to Kane's corner, in accordance with the petition recently presented to the council. Mr. Agar said strong that the council is sometimes blamed for delaying such work until a company. He suggested only what he thought was advantageous without an attempt to limit such work.

The resolution was as follows:—
On motion of Commissioner Agar he was given permission to negotiate with the company, with the foregoing resolution as a basis, to report at a later meeting.

Resolved: That the Saint John Railway Company be granted permission to lay single track from their rails at Cooper's corner, called along Marsh road to One Mile House, thence southwesterly along the Old Marsh road to Kane's corner.

The railway company to make all provision and guarantee against electrolysis and place the rails so as to avoid the city's water mains.

That all the work be done to the satisfaction of the road engineer.

That the company pay the city the sum of \$2,000 per annum for relieving them of the duty imposed upon them by the act of assembly, in addition to the amount they are now paying under agreement.

BUILDING HERE SHOWS BIG GAIN

August Shows Increase of \$68,000—In Eight Months it is More Than Million

Number of building permits issued during August, 95
Approximate value, 104,800
For same months last year, 86,100
For eight months of 1913, 1,470,948
For same months of 1912, 1,417,000

These figures afford additional proof of the great increase in building operations in this city during the last year, the increase for the first eight months of the current year being more than one million dollars in the value of the buildings for which permits have been issued.

The largest single item among the permits is the estimated cost of the work of remodeling the Bank of Montreal building, which is placed at \$40,000. The cost of the new building to be erected by the Royal Bank of Canada on Main street.

Thirteen Bodies Taken Out of Wreckage on New Haven Line

White Mountain Express Runs Into Bar Harbor Train; 13 Bodies Recovered

Both Pullmans Were From Maine and Carried Forty-One People—Express Trains in England Crash Together and Fifteen or More Die

(Canadian Press)

New Haven, Conn., Sept. 2.—Twenty people are believed to have been killed and scores were injured when the White Mountain Express crashed into the Bar Harbor Express just outside the town of Wallingford, on the New York, New Haven and Hartford railway.

Wounded from the railroad wreck are being taken to this city. All ambulances available are being used. Some of the injured said the dead will run to fifty, and the injured number scores. The first section of the train had stopped to get on steam for a sharp upgrade, when the second section dashed into the rear, piling up the sleeping cars, which were crowded with passengers.

Almost immediately afterwards, several of the cars caught fire and many of the travelers found it impossible to get out. Rescuers from farms in the vicinity soon came on the scene, but too late to save many of the passengers. Nine charred bodies were taken from the wreck, and it was believed that several others were among the debris. About thirty injured passengers, after receiving first aid from doctors on the spot, were taken to the hospital.

FIFTEEN, MAY BE MORE, KILLED IN COLLISION OF TRAINS IN ENGLAND
Kirkcaldy, Scotland, Sept. 2.—Fifteen persons are believed to have been killed and thirty persons injured in a collision of two sections of the famous London-Scotland express, early today. Official reports are that the train was known to be on the track at the spot reported that the fatal accident occurred.

RESULTS FATAL
Charles Smith, Hurt in Brickyard, Dies in Hospital
Charles Smith, who was injured about two weeks ago while at work in Lee's brick yard, died in the public hospital, on Sunday. He was forty years of age, a native of Brighton, Eng., and is survived by a brother and a sister living in the city.

ATHLETES BREAK FOUR WORLD RECORDS
New York, Sept. 2.—Four world records were broken yesterday at the games of the Irish-American Athletic Club, by Pat Ryan and Pat McDonald. Ryan threw the 16 pound hammer from a nine foot circle 150 feet, 3 inches, (old record 170 feet 3 3/4 inches), put the 42 pound stone 18 feet and with follow, 38 feet 11 1/2 inches. (Martin Sheridan's record 21 feet 1 1/2 inch), and threw the 38 pound weight 57 feet 7 1/2 inches, (old figure by Matt McGrath, 52 feet 6 inches).

THIRTEEN BODIES SO FAR TAKEN OUT

Two Wrecked Pullmans Were From Points in Maine

New York, Sept. 2.—Thirteen dead have been taken out of the wreckage of the Bar Harbor express near Wallingford, on the New York, New Haven and Hartford railway.

The White Mountain express, first division, due in New York at 7:20 a. m., ran into the rear end of the second section of the Bar Harbor express due in New York at 7:30 a. m., one mile north of New Haven at 6:55 o'clock this morning. The two rear sleepers of the Bar Harbor express were damaged.

Among the dead identified at the scene of the wreck are: R. A. Hotchkiss, son of Leonard Hotchkiss of C. W. Scranon & Co., brokers of New York; Albert Green of New York; William Alford of Norfolk, Va.; Frank B. Ritter, vice-president and sales manager of the Scranon Bolt & Nut Company, Scranon, Pa.

A woman, about 125 pounds in weight, five feet six inches tall, with ring engraved "For life or death," April 30, 1874.

Man, six feet tall, weighing 200 pounds, twenty-five to thirty years old, initials S. C. F. on gold ring.

Cedar Rapids, Iowa, Sept. 2.—A south-bound passenger train on the Decora branch of the Rock Island road, was wrecked near Maynard last night. Thirty-five others more or less seriously injured. The cause of the accident was the spreading of the rails.

SEE MUCH IN LORD HALDANE'S SPEECH

Comment By The Newspapers of London

WILL GEMENT UNITY

(Canadian Press)
London, Sept. 2.—The address of the British lord high chancellor in Montreal yesterday is published fully here, with the editorial prediction that Lord Haldane's utterance will help powerfully to cement Anglo-American amity.

The Daily Telegraph says that the historian may some day look back upon it as one of the chief events leading to a new and beneficial relationship among three great people, the United Kingdom, the Dominion of Canada and the United States.

"A year or two ago, an attempt was made to effect a permanent arbitration treaty between this country and the United States. It failed for reasons which we regret, but peace between the English speaking race rests on a surer basis than any arbitration treaty. It is founded on that common conscience to which Lord Haldane referred yesterday, and there are abundant signs today that the peace which the Anglo-Saxon race has given to the world, will be so remote a dream as Lord Haldane seems to suppose."

MR. BROWN HOME AFTER DRUGGISTS' CONVENTION
E. Clinton Brown, who, with Wm. Hawker, was a delegate to the convention of the Canadian Pharmaceutical Association in Toronto last week, returned home yesterday, accompanied by Mrs. Brown. Mr. Hawker did not return yesterday. Mr. Brown said the convention had been most profitable and enjoyable. Including the ladies accompanying the delegates, more than 400 were in attendance.

A resolution was submitted in which there should be more or less local interest, allowing druggists, when once registered in the province, to practice in any province, but it was not passed. The matter is still in abeyance.

There was also a consideration of the Patent Medicine Act regarding some sections which the government proposes to alter but which the pharmacists do not desire changed. As a result of a resolution to be submitted to Ottawa in this connection it is hoped that no change will result.

Socially as well as from a business viewpoint, the convention was a brilliant success. All in attendance had a delightful time. The city of Toronto entertained them to a sail on the bay. There was also an excursion to Niagara, an automobile trip and other entertaining features.

DROVE INTO LAKE
Three persons on Sunday night had an exciting experience on the Loch Lomond road, two young women and a man, when they mistook a branch road for the main line to the city and went over a ditch with the horse and carriage about nine o'clock and very dark. They should have attracted the attention of a man named Nugent who was driving past and he went to their assistance. The two men succeeded in rescuing the young women and then with much difficulty got the horse and carriage out of the lake. The experience was decidedly unpleasant.

BLAMING DOCTOR FOR DEATH OF HIS MOTHER, SLAYS PHYSICIAN
Cairo, Ill., Sept. 2.—Dr. E. E. Gordon, a prominent physician of this city, was shot and killed last night by Harry R. Fields, an insurance solicitor. About ten days ago, Gordon operated on Field's mother. Her subsequent death, the insurance man declared, was caused by the physician's carelessness. There was also an excursion to Niagara. Field surrendered himself to the police. He is twenty-five years old, and has a wife and child.

RACE PROBLEM IN SOUTH AFRICA

Some White Settlers Free From Blame For Peril—Commission's Recommendations

(Canadian Press)
Cape Town, South Africa, Sept. 2.—That the problems incident to residence of whites and black in the same land are becoming as acute in South Africa as in America is indicated by a report from a commission under the chairmanship of Sir Melius De Villiers, appointed to investigate assaults on women.

Statistics and information gathered shows that a serious evil in respect to assaults on white women by natives does exist, and that it is increasing. The commissioner declares there would be no stronger race and less of a superior civilization. The report indicates that the illicit liquor trade on the Rand is creating a class of whites who are bringing into the name of white womanhood into disrepute. The commissioners also declare that there are white women and girls criminally careless in their treatment of black (coolie) boys; also that there are instances where white women, mistresses or servants, are added with a much graver culpability.

His practical recommendations of the commission promise to raise a storm which presented to parliament. The commissioner recommends that the name of the victim of an assault or any detail not published in the interests of both justice and humanity. Another suggestion, that the name of accused be suppressed, probably will meet with considerable opposition. Legal prohibition recommendations of the report, which proposes also the raising of the age of consent.

WONDERFUL FEAT OF A FRENCH AVIATOR

Flying Upside Down at a Great Height

Paris, Sept. 2.—Aviator Pegoud has performed an astounding feat, flying upside down on an airplane. His biplane monoplane was fitted with a gyroscopic engine. He advised half a dozen friends, who did their utmost to dissuade him to witness the performance, and yesterday he climbed into his machine and at the moment of departure was the calmest person present.

He rose to a height of 8,000 feet, and then turned the nose of his machine earthward. For 200 feet it fell like a stone then it turned inward till the airplane was lying on its back after which it rose perpendicularly and then completed a circle by regaining its normal flying position.

EDUCATION IN THE OLD COUNTRY Conditions Which New Bill Aims To Remedy Much Confusion Now—At Present "National System" is Not National and Not a System—A Statement by The Minister of Education

(Times' Special Correspondence) London, Aug. 21.—The defects of our so-called national system of education are two: it is not national and it is not a system. This sweeping indictment of educational conditions in England was drawn, not by an agitator or "reformer," but by J. A. Pease, education minister in Mr. Asquith's cabinet in introducing in the House of Commons a small bill, which he promises is only a forerunner of a gigantic scheme of education reform to be introduced next year and which real reformers hope will sweep away the present educational chaos and replace it with a scheme, the keynote of which, in the words of a London paper, will be "every man an M. A." Of course, no one supposes seriously that every man under the new system will become an M. A., but if the scheme proves to be anything like what the education minister promises, every man will have the chance to become an M. A. if he likes, with little or no expense to himself or his parents. Present System Misnamed The education system of England, which Mr. Pease says is not a system at all—is much like a Chinese puzzle. No one but the experts, and few of them, know where it begins and where it ends. As a matter of fact, there are half a dozen separate systems and they all overlap. All are more or less inefficient and wasteful on account of this overlapping and lack of co-ordination and most of them are supported more or less by public money. This statement will be a surprise to many good people who believe that only what is known as the "board schools" are supported from the public funds. It is a fact that the great "public schools," including Eton and Harrow and others where the children of dukes are educated are supported chiefly by endowments—bequests of long dead philanthropists for the education of the children of the poor—and that these endowments are so much considered to be public funds that they are under the control of the charities commission. Roughly speaking, the schools of England are divided into the following classes:—Elementary schools, including the "voluntary" and "provided" schools. Private schools of all grades. Secondary schools, including the great "public schools." Above these, of course, are the uni-

INI SUCH PAIN WOMAN TORE HER CLOTHES Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Malone, N. Y.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a lot of good. I first heard of it when I was a girl and I always said that if I ever had female trouble I would take it. I suffered from organic inflammation and would have spells when I would be in such pain that I would tear my clothes. One day my husband got the neighbors in to see what the matter was but they could not help me. My first thought was for Lydia E. Pinkham's Vegetable Compound and I sent my husband out for it and took it until I was entirely cured. I am a woman of perfect health and my health and happiness came from Lydia E. Pinkham's medicine. You may rest assured that I do all I can to recommend your wonderful medicine to my friends."—Mrs. FRED STONE, Route No. 3, Malone, N. Y. The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

LUNGHEON TO REV. DR. GORDON Friends of Baptist Pastor in Montreal Say Farewell (Montreal Gazette, Friday) Prof. Lungheon to his departure to Brandon, where he will take up his work as professor of theology in the Brandon College, a number of friends of Rev. Dr. Gordon, late pastor of the First Baptist church gathered at the Edinburgh Cafe yesterday noon to tender him a farewell luncheon. There were nineteen guests in all, including Dr. Gordon and his wife. Each of the Baptist churches in the city was represented and each representative in turn expressed the regret felt at the departure of Dr. Gordon from the city, where for the last fourteen years he had done such good work for the denomination and society as a whole, and wished him well in the new work which he is about to take up in the west. The Rev. Dr. Gordon, pastor of the Temple Baptist Church, was the chairman, and among those present were Messrs. L. H. Packard, H. A. Barnard, Leslie Barnard, C. P. Rice, J. H. Reid, E. T. Davidson, Arch. Waters, Louis Waters, W. Elliott, Weldon, J. H. Roberts, Dr. Cameron and Rev. Mr. Wilson. Dr. Gordon replied in an address which was reminiscent of his work in the city, where he had spent the best years and devoted the highest energy of his life to the forwarding of the work in which he had been engaged for over a generation. Dr. Gordon will leave for Brandon next week.

Other features of the legislation to be proposed next year said the minister for education, are that the government should have the right of appointing a comprehensive survey of educational institutions of every kind that an obligation should be placed on the local authorities to provide intermediate education for all who desired it; and that there should be co-ordination of supervision between authorities to prevent overlapping and waste. The government proposals will impose upon the council of every county and county borough the duty of providing for the development and maintenance of a complete progressive system of education in their area. It will further impose on them the duty of affording the children during the latter years of their elementary school life opportunities of obtaining instruction in agriculture, manual character. For that purpose the resources of the authorities will be extended by removing the limit imposed by the act of 1902 on the amount that might be raised by way of rates for the purpose of higher education. To secure co-ordination it will be the duty of the board of education to review the schemes made by authorities for those purposes so as to secure the maximum of economy and efficiency by removing the limit imposed on the amount that might be raised by way of rates for the purpose of higher education. With the same object it is proposed to facilitate the establishment of advisory provincial boards of education which will be empowered to undertake any administrative duties which the authorities are unable to perform. Problems of more than local interest, such as the creation and management of training colleges, and the co-ordination of work in higher technical schools and universities will be referred to provincial boards. The board of education will have the power to prohibit or limit the exercise of powers for higher education by the smaller authorities, and to make such arrangements as may be necessary to complete autonomy. The board of education will have the power to provide for the maintenance of day and night schools, and to provide for the maintenance of day and night schools, and to provide for the maintenance of day and night schools.

As to Teachers' Pay One omission in this scheme which has aroused much criticism is the provision of better pay for teachers. The teachers in the elementary schools now are miserably underpaid and this is being reflected in the increasing difficulty of obtaining recruits in England; for instance, 64.76 per cent of the head teachers receive less than \$1,000 a year, while 21.7 per cent receive less than \$500; 72.80 per cent of the assistant teachers receive between \$300 and \$400 a year. These figures apply to certificated teachers, while the uncertificated teachers, of course, fare much worse. 78.03 per cent of the male assistants and 78.33 per cent of the women receive between \$250 and \$375. The average salary of male certificated head teachers is \$880 and of men assistants, \$265, while the figures for women are \$615 for head teachers and \$210 for assistants. In Wales the average figures are, men \$740 and \$375 and women, \$560 and \$480. The Suffragists are a very small band indeed, and, therefore, easily overcome, but they definitely take up their movement. Anti-Suffragists, on the other hand, are an exceedingly large band; if they would ally themselves with their movement, broken windows, burned houses and churches and similar abominations would cease from that moment.—Miss Leonora M. Truby.

Dr. Fowler's EXTRACT OF Wild Strawberry SOON Relieved Their Sufferings. THEIR TROUBLE WAS DIARRHOEA.

Mrs. EDWARD KINGSTON, Mirror Alta, writes: "Coming to the North West from B.C. in the summer of 1910, we were free of the water with the serious problem of being able to secure good drinking water; this we could not get so were obliged to drink water containing a great deal of alkali; with the result that we were all troubled with Diarrhoea. Fortunately we had a bottle of Dr. Fowler's EXTRACT OF WILD STRAWBERRY in the house, which soon relieved our sufferings. I have always kept a bottle in the house since obtaining such beneficial relief from its use. My boy, as a baby, was similarly troubled. It has always proved a friend in need. Make up your mind to insist on getting 'Dr. Fowler's' when you go to your local dealer. Beware of cheap imitations of the 'phony' preparations that some of the unscrupulous dealers try to pass off as 'Dr. Fowler's.' See that the name 'The T. CATHEDRAL RECONSECRA... Frederick, N. B., Sept. 1.—The consecration services of Christ Church Cathedral, which marked the completion of the restoration of the edifice which was seriously damaged by fire upward of 15 years ago, and also the sixtieth anniversary of consecration of cathedral was held at 10 o'clock on the morning of Tuesday, Aug. 21, 1888, took place in the cathedral. The new chimes, which were donated to the cathedral by James Dunn, of London (Eng.), a former president of the cathedral, were heard for the first time in connection with the morning service, the doxology being played upon them. The Bishop of Fredericton preached at the morning service, and Very Rev. Dean Scholfield officiated.

Lord Haldane's Eloquent Plea for Anglo-Saxon Unity British Lord High Chancellor at American Bar Association Meeting in Montreal—Urges Arbitration in Place of War

Montreal, Sept. 1.—In the legal wisdom, its literary style, its ethical tone and human touch, the address delivered before the American Bar Association this afternoon by the Lord High Chancellor of England, the Right Hon. Viscount Haldane, has formed the principal feature of a great gathering which, in its programme, contains many items of absorbing interest.

That ancient law was based on experience rather than upon logic, was the argument, and this fact had influenced the law and constitution of the three great nations—England, France and America.

The speaker further showed that the great force that actuated mankind in obeying the law was not fear of the officers of justice, but fear of public opinion, so that the latter really tended more than arbitrary execution of justice, to restrain men from law breaking.

Developing this argument, Lord Haldane proceeded to suggest that the same policy might possibly be adopted by nations and that the time had come when nations might be as much ashamed to follow ancient methods of settling differences and disputes as individuals had become in late years.

In conclusion Lord Haldane spoke as follows: "But the occasion has seemed to me significant of something beyond even his personal health. I have interpreted it, and I think not wrongly, as the symbol of a desire that extends beyond the limits of his personal health."

Lord Haldane was visibly moved as he rose to thank the members of the Bar association for the magnificent way in which they had tendered him, and for the totally unexpected honor they had conferred on him by electing him to be one of themselves. "It seems as though one of the lessons I have endeavored to inculcate by my address, that we lawyers of the Anglo-Saxon race are all of one brotherhood had already begun to fructify in a most marvellous manner," said his lordship, at which the demonstration was renewed.

DRURY COVE PEOPLE HAD GOOD SPORTS FOR THE HOLIDAY Tennis, Baseball and Aquatic Events, and Masquerade Dances in the Evening

At Drury Cove, Labor Day was well celebrated with sports of various kinds, and a social gathering in the evening. The programme was opened with a tennis tournament, played from nine o'clock until one. The results were: First round—T. E. Simpson, and E. Thomas, defeated H. Wilson and L. Christie.

With one second to spare. The Wild Cat was second and Georgia third. The next event, a swimming race, was won by L. Suller, with F. Withers second.

Single canoe race—Won by Sandall and Withers. In this event a third canoe was entered at the turning point, while leading by quite a margin and the occupant, S. Hamm, got a ducking.

Tilting in canoes was won by Sandall and Suller, after a spirited contest. At 8:30 p.m. an interesting game of baseball was played between Grand Bay and Drury Cove, resulting in a victory for the former by a score of 12 to 3.

The first event was a game of water polo between teams captained by L. Sandall and W. Stewart and a great success. The second event was a motor boat race. Those starting were the Wild Cat, Capt. Jim Proctor, scratch; Georgia, Capt. W. Charlton, four minutes; Veylar, Capt. H. Colwell, five minutes; Onilaj, Capt. Hopkins, seven minutes; Tally-ho, Capt. Duncan, ten minutes. It was won by the Onilaj on time allowance W. R. Stewart.

HOW OFTEN have you stopped some well-dressed friend going down the street and said to him: "Hello, got a new suit, again?" And how often have you heard that well-dressed friend reply: "No; this is not a new suit. I bought this last year."

You go away saying to yourself, "How carefully that fellow keeps his clothes. Looks as if he didn't do anything else but take care of them. Just think, he has worn that suit a year and it looks like new."

But that was the one point where you made a mistake. He hasn't worn that suit a year. He probably hasn't worn it at all. He has had it hanging in his clothes closet a year.

The only difference between him and you is, you buy your clothes at the beginning of a season; he buys his at the end. He pays about half price and so has twice as many suits for the same money.

When the new season begins, he has a suit ready for it. He always looks well groomed. You always look shabby. He doesn't make any more than you do, and you wonder how he does it.

The answer is, he is not more careful of his clothes than you are. He is merely more careful of his money.

You have the same opportunities that he has. He watches the advertising in this paper each day. When he sees the suit he wants, get down to the price he is willing to pay, he buys it.

He buys his collars, his shirts, his shoes and ties in the same way. He follows his Clearance Sales. He knows every day where the best bargains are to be had. When the right time comes, he buys.

If you care to follow his example, you may know that the right time to buy is now. This is the Clearance Season of the year—the time for him and you and every sensible man to lay in a good supply.

Try it now. Look over the advertising in this paper now. See what is being offered. You are going to wear clothes and shoes and straw hats next year. By then now.

The only man who shouldn't follow these Clearance Sales is the man who is expecting wings.

LABOR DAY

The cleavage between labor unions and those who are not members of labor unions in St. John is not strongly marked. This city has not as yet attracted large numbers of foreigners, and therefore the members of the labor unions are our own people, who have the same ideals and have had the same early training in a general way as have the members of the community who are not members of the unions.

CO-OPERATION

The recent address of Earl Grey on co-operation as the basis of the ideal state of the future has attracted world-wide interest. The fact that his address was heard by delegates representing two million members of successful co-operative societies gives added force to his remarks.

MEMORABLE CELEBRATION OF LABOR DAY

Finest Parade in Many Years—Impressive Showing Made by Union Labor—Garden Party and Sports Completed Successful Programme

What was generally considered to be one of the finest labor parades conducted in St. John for many years was that held yesterday, under the auspices of the Trades and Labor Council, which excited much favorable and admiring comment. Every detail of the arrangements for the big parade was well attended to, and that this is so reflects great credit upon the committees in charge who certainly had an abundance of work thrust upon them. The day was clear and fine and large crowds of people lined the streets through which the lengthy procession-wended its way, and amongst them a large number from out of town. It would be difficult to discriminate concerning the most attractive features of the parade, for there was praise heard on all sides concerning each portion of it. The advance body of two hundred horses nicely groomed, upon which rode members of the Trades and Labor Council, the parade, was a feature which came in for many compliments. The floats in the long line were artistic and original, besides being, for the most part, representative of the craft accompanying them. Here and there along the line of march there were outbursts of cheering or hand-clapping as some particularly fine looking float or body passed by. About fifteen or twenty automobiles, helped to swell the procession to a considerable degree, besides adding to its attractiveness, and it was said to have been about two miles in length.

In order to endeavor to have an attractive display of saddle horses in the parade, prizes had been offered by the council, and J. V. Russell and P. Kane, who acted as judges, awarded the first honors to Robert Sheehan, a cash prize of \$10; second with \$6 to John Bain, and third \$4 to Wm. Cronin. John Bain was marshal of the parade, and the assistants were John Pyle, H. Ingraham, C. T. Jones, J. Nichols, W. Fiedt, H. Creighton, and S. Selig.

Free-for-all—P. B. Miller, first; J. McCormick, second.
Consolation—J. A. Kave.
In the evening the crowd was as great as in the afternoon, and the garden party was much enjoyed. Music was provided by the City Cornet Band. The weather during the evening was warm and dry, and was all that could be desired for the auspicious occasion.
At Moncton.
Moncton, Sept. 1.—With 700 or 800 men in the parade this morning and the streets lined with thousands of people, including many visitors from the surrounding towns, Moncton today witnessed the biggest thing in the line of Labor day demonstrations in her history.
In the afternoon 2,000 people witnessed a lengthy programme of sports on the M. A. A. grounds. The ten-mile road race was won by W. C. Chambers, St. John, in 1 hour 5 minutes 5 seconds. Summary of other open events:

Child Killed at Halifax.
Halifax, N. S., Sept. 1.—A shocking accident occurred at McNab's Island this afternoon during the progress of St. Joseph's picnic. The victim was Dolly Harrington, a nine-year-old girl, who had her life crushed out while she was enjoying herself swinging. The swing collapsed.

THE SLENDER FIGURE

It's a great mistake for a woman having a slender figure with no flesh to take care of to think that she need pay no particular attention to the selection of her corset but that she can wear any corset at all. The slender figure should be as carefully and particularly corseted as any type of figure. It is equally impossible to fit gowns perfectly over an imperfect corset, whether the figure is slender or stout. We highly recommend

AMERICAN LADY CORSETS

for all figures; slender, medium and stout, and among the many models which insure exactly the right type of corset for every individual figure there is a wide range of exquisite models for slight figures, varying in prices

\$1.50 to \$5.
Ask in our Corset Department to see the latest models. Let us show you.

EVER HAD THIS EXPERIENCE?

George A. Murphy, the versatile editor and manager of the Middleton, O., Journal invites attention to the accompanying poem, "What She Did to It." He said that it evidently came from the pen of some man who has a stenographer in whom he has abundant confidence.

What She Did to It
Can you sympathize with the Chicago Journalist who dictated a poem to his typewriting lady; and had this handed to him:
"In the church the bride was standing on her head. The orange blooms in her heart. And in her spirit are a dozen sweet perfumes. Down the aisle the groom comes walking, on his hands. There was her ring in his ear! The organ music made him think. His soul must sing through an alley. Sweet with flowers, the hand is on the march, blowing bugles with their noses! They inhale the scent the arch and the flagstones on the floor. Echo forth the happy day! Then the groom cuts off her head. One small treat to wear for aye."
As He Dictated It
"In the church the bride was standing on her head the orange blooms; in her heart and in her spirit. A dozen sweet perfumes; Down the aisle the groom comes walking. On his hands there was her ring; in his ear, the organ music made him think. His soul must sing! Then an alley, sweet with flowers, the hand is on the march, blowing bugles! With their noses they inhale the scent! The arch and the flagstones on the floor. Echo forth the happy day. Then the groom cuts off her head, one small treat to wear for aye."
—Ryan's Never-Sleep Gazette.

Some Don'ts

Don't eat fast.
Don't stay up too late at night.
Don't put tobacco in your ears to stop pain.
Don't forget to take your tooth-paste out every night and wash it.
Don't sleep with your window shut, and don't breathe with your mouth open.
Don't use for yourself a prescription which the doctor wrote for somebody else.
Don't have false teeth put in over rotten stumps; have the stumps taken out first.
Don't have the child's ears pierced in the hope that it will improve weak eyes; it's a silly superstition.
Don't spend on worthless "cure all" money which might be put by to help towards a summer holiday.
Don't wear spectacles which were ordered for somebody else, and don't buy spectacles from a hawker in the market, but have your eyes properly tested. The two eyes are seldom of equal strength.
Buenos Ayres has planted along its streets and in its parks no fewer than 142,000 trees within the last ten years.

WHAT DYSEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most food which are pleasant to the taste as well as those which are rich in blood, deal and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products I would suggest that you should try a meal of food or foods which you may like in moderate amount, taking immediately afterwards a teaspoonful of Bism Magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeble uneasiness and fullness, you will find that your food agrees with you. Bism Magnesia is double best food corrective and antacid. It is not a medicine, and has no action on the stomach; but by neutralizing the acidity of the food contents, thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of the trouble. Get a little Bism Magnesia from your druggist, eat what you want at your next meal, take the Bism Magnesia as I have said above, and see if I'm not right!"

Strange Case

Prof. C. J. Dillon of Manhattan tells of a farmer who met a doctor on the street. "Doc," said he, "if you're out our way this week you might as well come in and see my wife."
"What ails her?"
"Dunno. After gettin' breakfast an' fixin' the children for school an' churnin' an' sloppin' the hogs an' doing a little washin'—they's only seven in the family, y'know—she plumb declared she'd have to lay down before gettin' dinner!" Says she is tired out. Kicks about gettin' the Sunday dinner."
"Yes," said the wise doctor. "I come out and see her. It's a strange case."—Kansas City Star.

THINGS WORTH KNOWING TO THOSE INTERESTED IN THE DRINK CURE

One year ago we opened a Neal Institute treating the drink habit at 48 Crown street, St. John (N. B.), to demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time. Some few call it a "take" while others tried it with the remarkable result a cured several score of men and women. St. John was only one of our places where there were established branches that we have established throughout Canada, U. S. A., and foreign countries. After running it at a big expense for one year we closed eastern branch as well as several other places where there were established branches that certain prominent people had taken the drink trouble. For the self-same reason we establish a large central hospital at the Capital City Ottawa some two years ago. The highly trained male nurses and grad six female nurses for women. Our twenty private rooms with electric bath and every modern conveniences. For the outside patient a cot and privacy while taking treatment. While the ride may seem rather a bit the ride is well for the patient to arrive here perfectly exhausted as we never cut a path straight off from Newcar. Another feature that adds to taking treatment is from home is the fact that a good ride after completing the Neal treatment acts as a tonic, the fresh change of scenery and the knowledge that when one returns nobody will be a bit the wiser. Remember our fee charge is \$125 out of which we all you transportation both ways and understanding that we guarantee to return all money paid if the patient is not perfectly satisfied that all desire for desire for liquor has been destroyed, when leaving the Institute. If you are loved one at home who is near a dear to you speak kindly to him a try and persuade him to take the treatment.

P. S.-There is no charge should patient wish to stay with us a few days longer after completing treatment make sure he is perfectly cured.

FREDERICTON NEWS

The Normal School — Aunt of C. J. Milligan and Brother of H. Hammond Dead

Fredericton, N. B., Sept. 2.—The Normal school reopened this morning with a total attendance of 801—sixty-six, Class 1; 138 Class 2; 62 Class 3 and 99 in the French department. F. A. Good assumed his duties on the teaching staff in succession to Dr. Hamilton. Roland Murray succeeds Miss Wathen in the manual training department. E. S. Hammond of Kingsclear, is dead, aged eighty-four. He leaves his wife and two daughters, Mrs. H. A. Penley of Calgary and Mrs. T. C. Everett of Kingsclear. Harry Hammond of St. John is a brother. Mrs. David Douglas of Stanley died last week in her 90th year. She was formerly Miss Milligan, a native of Thornhill, Scotland. C. J. Milligan, now of Regina, is a nephew. Charles A. Cliff of Preston, Iowa, and Mrs. Berle Squires of Gagetown, were married in the Reformed Baptist church yesterday by Rev. S. A. Baker. The bride is the daughter of Mr. and Mrs. W. H. Squires, a well-known citizen. One day Mrs. Squires, a comedy widow, came to the city to attend to some banking business. The teller of the Bank made it compulsory for her to be certified, and, knowing Mr. Barry, she visited his home to procure his services. She accepted an invitation to dine with the family and met her husband. The bridegroom, who is a well-to-do retired farmer, had been a widower for seven years. He left with his bride for the west last evening.

THE REFINERY

We fully expect to have all our buildings erected and closed in by January 1, according to the terms of our contract, said F. H. Hanson, president of the Atlantic Sugar Refineries, Ltd., who arrived in the city from Montreal at noon today. The foundations are practically complete, all the sub-contracts for the superstructure have been awarded, the plant is ready for work and the progress of the work now depends only upon the rapidity with which the structural steel can be brought forward. Mr. Hanson will be here for several days making an inspection of the work already accomplished, and to complete arrangements for the further progress of the undertaking.

BACK STAMPING OF MAIL IN LOCAL POST OFFICE DISCONTINUED

The practice of "back-stamping" mail arriving at the St. John post office has been discontinued in accordance with instructions from Ottawa. It has always been the custom to stamp all in-coming mail with the local stamp showing the date and hour of arrival through the post office. The chief advantage of the extra stamping was the clue it gave to the identity of the clerk who handled any mail which was delayed or sent to the wrong destination. This occurred very rarely, however, and the objections to the stamping were numerous enough to overbalance this one advantage. It was urged that many pretty picture post cards were practically destroyed, that orders received by business houses on postage cards were frequently made undecipherable, and that enclosures in letters were often lost when the envelope was broken by passing through the stamping machine. In addition to this it took two men from twenty to forty minutes to stamp the letters through the machine and resulted in this much extra delay in their distribution.

LATEST TURN IN CASE IS 'BAD FOR THAW'

Sherbrooke, Que., Sept. 2.—The Quebec governor intervened today and demanded that steps be taken to bring Thaw's liberation from jail. Thaw may be in the hands of the immigration authorities tonight and perhaps on his way across the border. Chicago, Sept. 2.—"Thaw has no legal right in Canada and I see absolutely nothing to do, but send him back to the United States," declared W. D. Scott, superintendent of Canadian immigration, before he left here this morning for Ottawa. He said he would take up the case immediately upon his arrival.

LOCAL NEWS

Ladies' night at Queen's Rink.

Ladies' night at Queen's Rink. J. Grandnes, 24 Waterloo street, is the place to get old jewelry made. Don't forget Brass Band concert St. Philip's, A. M. E. church Thursday, Sept. 4, 8 p. m. J. M. Humphrey & Co. are staking their reputation on solid leather shoes made by their "every pair" stamped "Humphrey's Solid" on the soles. TO FREDERICTON The body of W. A. Gibson, who died last Friday was taken to Fredericton on the train this morning for burial. MEETING OF 'LONGSHOREMEN' International "Longshoremen's Association, Local 278, regular monthly meeting this evening, September 2; a full attendance is requested, by order of the president. BAND NOTICE The members of Sons of England are requested to attend a special meeting tonight at 7.30. SAVINGS BANK During August the deposits in the St. John branch of the Dominion Savings Bank totalled \$67,901.14; the withdrawal during the same period were \$86,780.36. THE CARLETON FUND Additional contributions of \$1 each for the Fulton and Collin fund were received by Mayor Frink this morning from J. K. Percy, J. S. Flagg and I. W. Morrison. Young men delight to wear clothes from this store. Grace, dash, distinction—call it anything you like—our clothes possess it. Our fall stock is complete and the prices are exceptionally low. C. B. Flagg, corner Main and Bridge streets. POLICE COURT Owing to the lateness of the Montreal express this morning Magistrate Ritchie will leave for Sanford, Me., and will not open court till nearly one o'clock. About twelve prisoners were on hand. Two on drunkenness charges were fined \$8 or thirty days in jail and the rest were remanded until this afternoon. IS BETTER Friends of Mr. and Mrs. Joseph Lewis wish to please to know that their little son, Raymond, who was injured by falling from the steps on the King Edward stand about two weeks ago, is much improved and has been able to leave the hospital. He is now at his home in Prince William street, and has almost entirely recovered. SAFETY AND PROFIT Money is kept in the bank for safety and a guarantee of three per cent. The \$100 debenture shares to be issued by J. S. Gibson & Co., Ltd., guarantee the safety of the money invested and the payment of the interest. But the interest yield is eight per cent. When these debenture shares are repaid back to the investor each \$100 share will receive a premium of fifteen per cent in addition to the eight per cent interest paid during the time the money was invested. This is one reason while applications for debenture shares of J. S. Gibson & Co., Ltd., are coming in by mail from people who have money earning less than eight per cent. STAR THEATRE'S WINNING SHOW The quality of film productions which comprise the current programme at the Star Theatre, North End, clearly indicates the giant strides with which the picture-play is advancing. In "Father's Day" the picture is simply grand, no scenery or expensive travel being spared in getting the picture settings. The Biograph comedies "Oh You Bunch" and "The Press Gang" are farces that drive the blues to kingdom come. The Star has another new show for tomorrow.

LARGE AUDIENCE ENJOYS SEVEN HOURS IN NEW YORK, AT OPERA HOUSE

Musical Comedy Given With Vim and Dash and Wins Approval

It was not the seven hours spent in New York by an ex-prime merchant and his brother-in-law that caused so much trouble afterwards in the suburbs of Brooklyn, where the former resided, but the fact that they indulged too freely in something stronger than lemonade and forgot almost everything except their names. They had hired a taxi and driven round to see the sights, visiting the cabarets, dance halls, restaurants, and various other centres where respectable married men do not adventure themselves as such. The newspaper next morning published a sensational story that a man answering the description of the prime merchant's brother-in-law had been murdered. The peculiar part of the story is that they were unknown to one another, although they had been companions all night with another friend, and when they were gravely accused of having committed the murder, the fun began. The complications became fast and amusing. Miss Lighton, the company's manager, and the prime merchant, got the case of the murder, while Will Hebert and Fred Wright also were part of the fun. There were some pretty song numbers in the piece, and they were very well received. The chorus makes up in volume what it lacks in numbers, and such numbers as "The Rag Time Baseball Game," "Sleepy Line," "Chief Song," and "Oriental Ray" were heartily applauded. There was also a fine dancing specialty by Will Hebert. The members of the cast, Fred Bailey, in the role of the man from Springfield, provoked much merriment in his acting and in his singing and dancing numbers. The company is small with a chorus of a dozen or so, but the vim and enthusiasm with which they present the piece seem to make one overlook this, and then the laughs are coming so swiftly with entertaining specialty features interpolated that the deficiencies in the respect referred to are forgotten. GREATEST HEADACHE CURE IN THE WORLD

Tortures of Chronic Dyspepsia Cured By "Fruit-a-lives."

Shanley, Ont., Sept. 2d, 1910. "You certainly have the greatest Headache Cure in the world. Before 'Fruit-a-lives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders. One of your travelers called on me when I had one of my raging Headaches and had my head almost raw from external applications. He insisted on my trying 'Fruit-a-lives.' I did so with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health."

MOST OF THE GREEKS TO LEAVE TONIGHT

Here's Good Luck and a Welcome Back Next Year

Most of the Marathon players are busy packing their grips today in preparation for their return home. A large number will be leaving on the Boston boat tonight. Charlie O'Brien is visiting at one of Connie Mack's in Boston. He expects that he will be sent for a couple of weeks to Atlantic City, where he played before. O'Brien will return to college about October 1. Thaw left last evening for Cape Breton. He is expected to be at his home in Haverstone, N. Y., for the rest of the season, and will play Sunday ball in one of the leagues there. Waterhouse will not be playing any more ball this season. He expects to be at his home in Swampscott, near Lynn, for the first part of the fall at least. Thaw left last evening for Cape Breton. He is expected to be at his home in Haverstone, N. IS BETTER Friends of Mr. and Mrs. Joseph Lewis wish to please to know that their little son, Raymond, who was injured by falling from the steps on the King Edward stand about two weeks ago, is much improved and has been able to leave the hospital. He is now at his home in Prince William street, and has almost entirely recovered. SAFETY AND PROFIT Money is kept in the bank for safety and a guarantee of three per cent. The \$100 debenture shares to be issued by J. S. Gibson & Co., Ltd., guarantee the safety of the money invested and the payment of the interest. But the interest yield is eight per cent. When these debenture shares are repaid back to the investor each \$100 share will receive a premium of fifteen per cent in addition to the eight per cent interest paid during the time the money was invested. This is one reason while applications for debenture shares of J. S. Gibson & Co., Ltd., are coming in by mail from people who have money earning less than eight per cent. STAR THEATRE'S WINNING SHOW The quality of film productions which comprise the current programme at the Star Theatre, North End, clearly indicates the giant strides with which the picture-play is advancing. In "Father's Day" the picture is simply grand, no scenery or expensive travel being spared in getting the picture settings. The Biograph comedies "Oh You Bunch" and "The Press Gang" are farces that drive the blues to kingdom come. The Star has another new show for tomorrow.

WHEN FARMERS MEET

A boastful member of the staff of this paper proudly informed A. W. Baird, barrister-at-law, this morning, that on a recent date, yesterday to wit, he had, on the farm of one Charles Parker at Public Landing pitched on a load of oats, and later, at the barn of the afore-said Charles Parker, had moved them away in the northeast corner of the barn. Thereupon Mr. Baird, who is some farmer himself, put in evidence the following exhibits, namely, to wit:—One large blister, two large calouses and one section of raw fat produced by a too close application of the tools of the farm. "Oats," said Mr. Baird, "also hay. Did you pitch hay?" The boastful one had not, and moreover his hands were without bruise or blister. The gown is mightier than the pen.

MISSION THIS MONTH

In the Catholic churches of the city this year a mission is to be conducted by the Hieronymist fathers. The mission will start in the Cathedral this month and will follow in St. Peter's, St. John the Baptist, Holy Trinity and other churches. It is expected that the priests who will conduct the mission will be from St. Patrick's in Toronto.

GREEKS ARE CHAMPIONS OF NEW BRUNSWICK

The Greeks made a brilliant finish of the baseball season by taking both of yesterday's games from the Fredericton Pats. In the morning the local team had their batting bats on and knocked out fifteen hits off Morey, these with the seven errors by the Capital team accounted for the score which was 11 to 2.

Howard pitched good ball for St. John and was given excellent support. A crowd of over two thousand watched the Greeks whitewash the Pats yesterday afternoon's game by a score of 4 to 0. Conley's pitching was a big factor in the result. The Marathon defence also showed their calibre by handling all their chances without a mislay. Detrich was also given good support; he was not as effective in the inches as Conley was, however, and the regies had little trouble in flogging him for nine hits. The box score:

Constipation

Is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. It neglects its slow growth. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or grip. Preserve your health by taking

BANGOR TEAM IS DEFEATED IN A FINE GAME

Brownville Jct., Aug. 30.—In a hard fought game here today the C. P. R. Beavers defeated the Bangor league team by score of 1 to 0.

It was a pitchers' battle, both men receiving fast support. James for the home team pitched great ball, striking out fifteen men and allowing only four scattered hits. Hart for Bangor also did good work, striking out fourteen men and allowing but four hits but was unsteady in the eighth inning when he allowed a hit and walked three men, forcing in the winning score. Up to the eighth inning neither side was able to score. The Beavers got a man around to third in the first inning while Bangor did not get a man past second during the entire game. In the last half of the eighth inning Fischer, first man up, fanned. McClain walked, Roberts walked, Evans fled out to right field, York hit for a single, filling the bases. Hart then walked McClain forcing in the winning run. Both teams played errorless ball.

The box score as follows:—

NICKEL'S NEW MUSICIANS MAKE FINE IMPRESSION

Kendall Trio a Very Superior Offering—Miss Ashe Still a Favorite.

The holiday programme with which Nickel Theatre opened the week is one of unusual merit and seemed to please the great rush of patrons all Labor day. The same bill is on today and includes a refined musical act, the Kendall Trio—harpiste, cellist and soprano; Gertrude Ashe in the waltz-song from Delibes's Coppelia; a fine underworld story, The Girl and the Gangster, and a Vitagraph comedy in which Sydney Drew, Roger Lytton and other serious actors assume ludicrous roles.

WHAT IS THE SINGLE TAX?

(The Square Deal) The single tax is a fiscal method of securing a great moral reform. The basic principle is, that the earth, being created by God for the use of men, and all men being equally the children of God, all have an equal right to the use of the earth. In order to secure the equal right to the use of the earth and at the same time encourage industry and secure to the man who builds a house or sows a crop, absolute ownership of the house or the crop he planted, it is necessary that security of possession

be arranged for. All this is obtained through the single tax and without any serious disturbance of the present system of land ownership. Land values now are taxed, and all that is necessary is to abolish every sort of tax except that on the value of land, and then gradually to so increase this until there can be no profit in land ownership apart from its best use. When this is done, no one will want to buy a piece of vacant land to make a profit out of a future user; and the first step is to secure an amendment to the assessment act, permitting municipalities to reduce the tax on improvements, and to increase the rate upon land values until buildings and business is entirely exempt. In this way industry will be encouraged instead of penalized as now, and as a result more buildings will be erected and more men employed. And as the system is extended, the benefits resulting therefrom will be increased until the demand for labor and labor products will be such that homes will be so multiplied that rents will fall, while wages will rise until involuntary idleness and the poverty that it produces will be a thing of the past.

Some \$5,500,000 dozens of poultry were exported from Denmark in 1911, as compared with 11,000,000 dozens in 1890.

FOSTER AND RECIPROITY

(New Freeman) The Hon. George E. Foster has just returned fresh from the Orient. As a result of his eight months' sojourn, he informs us that the Yaps produce a surplus quantity of rice, which they are prepared to exchange for Canadian grown commodities. This is indeed a splendid reciprocal trade in the eyes of Mr. Foster, but free access of our national products to the markets of a country having ninety million people was not, in this same Mr. Foster's judgment, beneficial for Canada. If such as Mr. Foster's ideas of business, then we must say Canada does not want such business men.

BANGOR BASEBALL DEFICIT OF \$1,000

The Bangor Commercial says:—While it is not generally known, there is a deficit on the part of the Bangor team of about \$1,000 for the season and this deficit must be met. The directors of the baseball association are endeavoring themselves to pay the deficit and it is to aid them that the team is to play the Labor day games.

It is hoped that some arrangement can be made whereby the money may be paid back to those who put it up. The players will receive their full pay, all bills will be paid, and the season will end with a clean slate.

Bangor also has the satisfaction of knowing that its team has acted in true sportsmanlike manner and that there have been several good sports behind it. The liberal way in which Bangor has supported a baseball league this season, indicates, according to one of the directors, that the town likes baseball, and he says that there is no reason why Bangor cannot have baseball next year.

DUCK SHOOTING

The duck shooters were early on the scene on Monday morning. Some in motor boats were at the mouth of the Nerepis the night before, and others journeyed to the lakes. The reports of guns were heard by the early risers at Public Landing, and during the day some hunters returned from small lakes several miles back bringing with them a number of wild ducks.

When the Oceanic crossed Grand Bay this morning, a flock of ducks were resting on the smooth surface but took flight as the steamer approached. They had no doubt been frightened from more congenial resorts. On Saturday afternoon a swarm of black birds were flying over the Nerepis marshes, and doubtless some of them also provided sport for the gunners yesterday.

FISHING ON THE TOBIQUE.
Gleaner—Sir Herbert Samuel, postmaster general of England, who came to Canada on the S. S. Empress of Britain is spending a few days fishing on the Tobique. He was met at Rimouski by F. P. Taylor of St. John left Saturday for the Tobique to join Sir Herbert.

BIG DREDGE IS ON THE WAY HERE

The Don Frederico Left London on Last Tuesday For Courtney Bay

The big dredge Don Frederico, which has been secured by Norton Griffiths & Co., Ltd. to carry on the dredging operations in Courtney Bay, left Tilbury Docks, London, on last Tuesday and was afterwards spoken off Dover. She is heading for Halifax and, after renewing her supplies there, will continue her voyage to St. John.

The dredge is equipped with twin screws and, as she is adapted for long ocean voyages, she is traveling under her own steam and so does not have to depend upon towboats. Only recently she completed a voyage from South America to England. The dredge is a powerful one and will be a great addition to the harbor fleet.

It is impossible to say exactly when she will arrive as the only estimate given on the other side is that she may take from fifteen to thirty days for the voyage. Another large dredge has also been secured by the same company for work here and is now supposed to be in the docks on the other side preparing for the long voyage across the Atlantic.

BACK TO CITY TILL SPRING COMES AGAIN

Many Summer People Home From Points Along the River

Most of the summer people along the river have returned or are returning to the city today. A very large number took advantage of the holiday to spend Saturday afternoon, Sunday and Monday at the points along the river where they have been staying during the summer months, and never throughout the summer has there been more life on the river than during the last three days. While many returned to the city yesterday, the Oceanic had a very large crowd this morning and others will come down this afternoon.

This was a perfect morning in the country. The sun rose in a cloudless sky and there was scarcely a breath of wind. The river and Grand Bay were as calm as a mill pond.

The Oceanic will make one more early Monday morning trip, bringing her passengers into the city at half past eight. She would make early Monday morning trips throughout September if there were enough patrons desiring to arrive in the city before those who came down on the Oceanic this morning.

Several families returning to their homes in the United States after having spent the summer in cottages on the river. The people of Public Landing have just had a dance at the pavilion and, in addition to the regular summer people and their friends, there were many visitors, as five sailing yachts and several motor boats were anchored in the bay. On Sunday a number of members of a city band were at the Landing and during the afternoon gave an interesting concert. Monday was a very delightful day, and last evening there was a dance and general good time at the pavilion, refreshments being served by the ladies and fully 100 people being present. Hew Walker, who was one of the week-end visitors, took part in the musical programme during the evening.

TOOK MORE THAN 2,000 SALMON FROM WESTFIELD WATERS THIS YEAR

Catch Twice as Large as in 1912 and Worth More Than \$3,000

Salmon to the value of more than \$3,000 were taken from the St. John river in what are termed the waters of Westfield this year. The waters thus indicated extend from about the middle of Grand Bay to a mile and a half above Public Landing. More than two thousand fish were taken, varying in size from the "dicker," which sold for less than \$1 to a 26-pounder, which brought a little more than \$5.

The best netting grounds are at Woodman's, Belyea's, Craze's and Carter's points. The number of salmon taken by the different persons having license to fish varied from twenty to more than 500, according to the locality and the attention paid to the fishing. Needless to say, the farmer who could take even twenty-five or fifty salmon in the season found it a welcome source of easy revenue. The catch this year was at least twice as large as that of last year.

Of course salmon are found all along the river to Fredericton, and beyond, but probably not in as large numbers as in the waters of Westfield. Shad are also taken in small quantities, but the sturgeon and eel fisheries which formerly attracted considerable attention have practically been abandoned.

ST. JOHN LADY COMPLIMENTED

The delegates of the Association of Canadian Clubs arrived at Niagara Falls on last Wednesday morning and were welcomed by the President and members of the local Canadian Club, who entertained them at luncheon at the Clifton Hotel. President Dewart occupied the chair and Mayor Cole and Evan E. Fraser, M.P.P., gave the addresses of welcome. These were replied to by Mrs. E. Atherton Smith, of St. John, N. B., in a remarkably fine speech.

A most entertaining and instructive address was then given by J. Joyce Broderick, British Consul at New York, on "The British Empire's Service," followed by a very eloquent speech by Sir Edmund Walker, of Toronto, on "The One Hundred Year Peace." The Hon. Peter Porter, from across the border, and Col. McCullough, of Hamilton, also addressed the gathering. The party was then taken in automobiles to all points of interest in the district and later left by special train for Hamilton.
