

RELIEF FOR FIRE VICTIMS IN ONTARIO

Request That all Money and Supplies be Sent Through Ontario Agency to Prevent Over Lapping.

Toronto, July 17.—The following statement, signed by J. T. Englehart, chairman of the Temiskaming and Northern Ontario commission, and R. S. Gourlay, president of the Toronto Board of Trade, was issued today.

Reports having reached us that there is great danger of overlapping in the matter of sending provisions and other supplies into the burned district of Northern Ontario, it is emphatically urged and emphasized on contributors from all parts of the Dominion by the commission of the Temiskaming and Northern Ontario railway, and also the members of the Toronto committee that all supplies or money from this time onward be sent through either the chairman of the Temiskaming and Northern Ontario commission, or the Toronto committee. This matter is deemed sufficiently important to warrant this statement.

Establishing a Hospital. Toronto, July 17.—The central relief committee of Toronto have sent out \$5,000 to Porcupine and \$5,000 worth of equipment for a 20 cot hospital at Porcupine. The committee urge that all relief be sent through them as a lot of money has been misdirected.

Relief from United States. Ottawa, July 17.—Huntingdon Wilson, chairman of the International relief fund of the American Red Cross Society at Washington, wired Sir Wilfrid Laurier today expressing sympathy with the Porcupine fire sufferers and authorizing the Premier to draw on the society for \$1,000 for relief. Sir Wilfrid wired a message of gratitude on behalf of the sufferers, in reply.

Hudson Bay Post in Danger. North Bay, Ont., July 17.—Fears are entertained for the safety of the Hudson Bay post at Fort Matabeewan. The last word coming out by Indian runners from the "Victor," "Steve" and "Francis," was that the fire was coming across both sides of the river and was all about the post, and that the Indians were leaving, but that he would stay until the last stick was burned or the fire had passed over. Laurier is a man well up in years who has been with the Hudson Bay Company many years and is well known and has many friends throughout the north country.

Government Aid Asked. Ottawa, July 17.—A deputation from the local committee of the Porcupine relief fund waited upon Sir Wilfrid Laurier and Hon. W. S. Fielding today asking that the government contribute to the local fund for the sufferers. The Premier intimated that the government had already sent \$15,000 worth of tents to the scene of the disaster. The question of a money grant was one which the cabinet would have to deal with. It was questioned if the government would be justified in establishing such a precedent as the request of the committee rendered necessary. Nevertheless the cause was a worthy one and he promised the delegation that their request would be given consideration at the next meeting of the cabinet, probably tomorrow.

IT RAINED SHREDS OF HUMAN FLESH

Three Men Killed as Result of Awful Explosion in Dupont Powder Company's Plant Near Denver.

Denver, Colo., July 17.—Fragments of human flesh found within a radius of 200 yards, give evidence that three men were killed early today when 5,000 pounds of nitro-glycerine exploded, destroying the neutralizing plant and storehouse of the Dupont Powder Company, 15 miles south of Denver.

The force of the blast was almost entirely upward. Men in the vicinity saw the two buildings rise in a cloud of black smoke with a circle of flame at its base. When the buildings had reached a height of 100 feet, they collapsed and fell in a shower of fragments.

THE CRUISER NIobe SENT TO YARMOUTH

Possibly Yarmouth's Old Home Week Celebration is Responsible for Sudden Change in Her Plans.

Quebec, July 17.—Unexpected orders were received by the Niobe today to proceed to Yarmouth, N. S., tomorrow.

VETO BILL RESTS WITH THE LORDS

Much Speculation as to Whether House of Lords Will Pass Bill or Force Asquith to Act.

London, July 17.—An entirely unexpected contingency confronts the career of the veto bill tonight. It is a possibility that the House of Lords instead of passing the third reading of the bill with their amendments on Thursday, thus sending it back to the House of Commons, for consideration, may reject it, even with amendments, lock stock and barrel. In that event Premier Asquith is fully expected to announce, as he probably would, that he had advised the King to create a large block of new peers. The Liberal party is no more anxious for an inflated peerage than the lords themselves are, but they will not balk at the creation of peers if the necessity is forced upon it.

The parliamentary programme of the Liberals is, as the Right Hon. Walter Runciman, president of the Board of Education, said in a speech on Saturday—The bill, the whole bill, and nothing but the bill. Two moves in the lords' game today excited great speculation. One was a conference of the Conservative leaders, the Marquis of Lansdowne, the Earl of Selborne, Baron Middleton, the Marquis of Salisbury, and others.

FIGHTING THE COAL BARONS

United States Government Determined to Force the Railways to Get Out of Coal Mining.

Washington, D. C., July 17.—A government suit to compel a bona fide disassociation of the Reading Railway Company from the Reading Coal Company was filed today in the federal court at Philadelphia. The action parallels a recent one against the Lehigh Valley and is the government's second move in its new fight to separate the coal carrying roads from their virtual control of the coal business.

The government's suit takes the form of an amended complaint to the original commodities clause action of 1908, which in a conference with the commodities clause decision of the supreme court. It is charged by the government that Philadelphia and Reading Coal and Iron Company, the Pulton Coal Co., the Locust Gas Improvement Co., the Tremont Coal Co., the Mammoth Vein Coal and Improvement Co., and the Delaware Coal Co. are merely dummies of the Reading Railway Company and the Reading Coal Company which is the holding corporation. As in the Lehigh Valley suit, the government charges that the Reading Coal Company and its subsidiaries are buying anthracite from independent operators along the line of the Reading railway, with the object of removing competition, transporting to market at a loss charged by the government, and then reselling the coal at a profit. The coal company loses on such transactions, the government alleges, in order that the railway company may profit from the freight charges.

MR. WIEGH GAVE THE SNAP AWAY

U. S. Senate Committee on Lorimer Charges Hears Evidence About That Notorious Election Jack Pot.

Washington, D. C., July 17.—The \$100,000 legislative jackpot, about which revolved charges affecting the election of Senator Lorimer, figured in the testimony at the open today's hearing before the senate Lorimer committee. Wm. Burgess, manager and treasurer of an electrical company at Duluth, Minn., testified before the Helm investigating committee today of the Illinois senate that on a train running out of Duluth about March, 1911, C. F. Wiegh, who is associated in business with Edward Hines, declared to him that "there was a jackpot raised to elect Mr. Lorimer; I know what I am talking about because I subscribed \$10,000 to it myself."

It had been expected that the Canadian warship would remain here for at least three weeks and it was even stated that the vessel might take a trip to Montreal. However the orders received today cut the vessel's stay short. No explanation for the reason of the change in plans is given.

AN ELECTION INEVITABLE, PROBABLY IN SEPTEMBER

Parliament Reassembles Today and Struggle will then be Resumed.

Laurier will Undoubtedly Refuse to Submit Reciprocity Question to the People for Ratification and Conservatives will then Force Him to the Country.

Special to The Standard.

Ottawa, Ont., July 17.—No one here sees a way out of the critical political situation, which must develop within the next fortnight, except a dissolution of parliament and a general election. The only point upon which doubts are expressed, and as to which opinions differ, is as to the date of the appeal. Government followers want October, which they say is the ideal month, but the coming of the Duke of Connaught early in that month makes the hastening of the election something of a social necessity. If the House sits for three weeks or a month, as is expected, the electoral machinery, if invoked at once, would bring the election on during the harvest. The government will not run the risk of a general election even on an issue of which the Western grain organizations have declared their approval. The Borden tour, moreover, has solidified the Conservative ranks in the West if it has done nothing else, and every Liberal vote that can be got out of the prairies is wanted and wanted badly.

That means an election date coming between the end of the harvest and the arrival of the Duke of Connaught, or the first week in October.

Parliament's Position. In so far as the reciprocity issue is concerned Parliament is in exactly the same position on re-assembling as it was at the time of adjournment in May. The government is as determined as ever to force the agreement upon the country. The opposition is undeniably more united. The pact with every legitimate parliamentarian weapon. That is R. L. Borden's attitude and the opposition in caucus will undoubtedly follow it. Caucuses of both parties will be called immediately.

The chances are all against a protracted struggle in the house. The seasonal indemnity runs out on the first of August. Party discipline will be sorely tried to keep the big Liberal majority from quebecing in May. The government is determined to force the agreement upon the country. The opposition is undeniably more united. The pact with every legitimate parliamentarian weapon. That is R. L. Borden's attitude and the opposition in caucus will undoubtedly follow it. Caucuses of both parties will be called immediately.

The government can take the easy course of agreeing to submit the reciprocity issue to the people, in which event supplies would be voted, but the indications are that this is not the course that will be pursued.

Laurier will force it. The Laurier plan, as understood by his followers, is to so direct the business of the house as to force the opposition to adopt tactics which can be represented to the liberal electorate as obstruction. The game of the government is to throw the whole responsibility upon the opposition, and that the returns in many cases are a hopeless tangle.

Government legislation, probably the grain bill, will occupy most of this week, followed by a debate on the conference. It is reported tonight that the government intends to proceed at once with the reciprocity bill, but this is generally regarded as unlikely. There is no sign yet of preparations for the threatened closure.

(Canadian Press.)

Ottawa July 17.—From three to six weeks more session and then a general election with reciprocity as the issue seems to be the accepted programme for the Canadian law makers who are today returning to the capital for the resumption of business where it was dropped on May 15th when the adjournment took place. There has been no great rush of parliamentarians yet and it is expected that there will not be full houses before next week. However, men are in from the east, west and centre representing both political parties and they all seem to feel that dissolution must take place in three weeks and must take place within six weeks.

FOUR GERMANS KILLED IN MEXICAN RIOTS.

Berlin, July 17.—The murder of 4 Germans during the rioting of Puebla, Mexico, has attracted general attention to the anomalous conditions in

HAYTI SENDS HURRY CALL FOR YACHT, AMERICAN

Special to The Standard.

The revolutionary movement in the northern section of Hayti is becoming more and more active and is threatening to extend widely. The foreigners in Cape Haitien are beginning to show anxiety concerning their safety, and it is not unlikely that the American Consul will ask that a war ship be sent there for the protection of neutral interests, including those of Americans, if conditions continue menacing.

The Haytian government has sent hurry telegrams to New London, Conn., for the yacht American, now in possession of Evor R. Dick, of that place. She left New London on July 12 for Hayti. It is believed that the American will be converted into a gunboat.

FOREST FIRES IN CUMBERLAND VALLEY ROAD

Much Damage Done to Valuable Timber Lands—No Mills Burned as Yet—O'Regan Liquor Case.

Special to The Standard. Montreal, July 17.—Great clouds of smoke are overhanging the city to night, apparently from the forest fires in Cumberland county. Reports have been current of fires in Westmorland and Albert but so far as can be learned these are without foundation with the exception of a small fire near Barry's Mills.

Hon. C. W. Robinson, who is interested in the Robinson Wright lumber business at Shulee, had a telegram tonight from his brother, stating that the fire was still raging and doing tremendous damage, but so far no mills have been burned. The fire in the Robinson-Wright property which suffered severely from the same cause a few years ago.

The case again John O'Regan, of St. John charged with shipping liquor to Montreal, contrary to the Canada Temperance Act, was finally disposed of today after several adjournments, the complaint being dismissed, as witnesses failed to appear.

The Bankers and the Pickups, leaders in the intermediate league, played a tie game this evening, 9 to 9, at the end of seven innings.

FOREST FIRES ON THE NORTH SHORE

Serious Fires Reported From Upper Blackville—Warden Doyle and Men Busy—Game Law Violations.

Special to The Standard. Newcastle, July 17.—Very serious forest fires are reported from Upper Blackville and there is dense smoke in this vicinity. Chief Game Warden Dennis Doyle, received a message to this effect about 4 o'clock, and a large force of men are at work. No Crown lands have been destroyed. Fires are also reported from McGivneys.

Two cases for violation of the game act engrossed the attention of Magistrate Malby at the police court today. R. A. Lawlor prosecuting and T. W. Butler defending. Evidence was given by several witnesses for the prosecution. John Hare for the defence, denied both charges. Adjournment was made until Thursday for judgment.

Mexico. The German government is awaiting the results of the investigation by the German minister at Mexico City before taking definite steps in the matter. There is little apprehension of serious international complications. Thus far the attitude of the Mexican government has been satisfactory.

U. S. SENATE ADOPTS BILL FOR ELECTORAL PURITY

Washington, D. C., July 17.—The revised house campaign publicity bill unanimously passed the senate today. It prohibits a senatorial candidate spending more than \$10,000. A congressional candidate, \$5,000, requires publicity before election of all campaign pledges, all primary campaign expenditures, and all general election expenditures.

KING AND QUEEN IN SCOTLAND

Cheering Thousands Shouted Loyal Welcome to Edinburgh—King Gets Silver Keys of the City

Edinburgh, July 17.—King George and Queen Mary arrived in the Scottish capital today, and received a rousing welcome. The city was bright with color, the decorations being the most elaborate that the present generation of Scotchmen have seen. The way from the railway station to Holyrood Palace, was lined profusely with obelisks, columns and Venetian masks, with magnificent triumphal arches at advantageous points.

On the station platform the Lord Provost presented the King the keys of the city made of silver in 1625 for presentation to Charles II. Subsequently the procession was formed and their majesties traversed streets bedecked with cheering Scots to the eighth century old palace which has been rejuvenated in the interior in anticipation of the royal visit. The old apartments of state used by Mary, Queen of Scots, have been readorned and the historic home of the Stuarts will see a revival of imperial pomp during the five days stay of King George and Queen Mary.

ICE INCREASE WAS ENTIRELY DUE TO GREED

Investigation by New York Police Shows Jump in Ice Prices Not Due to Crop Shortage.

New York, July 17.—From the facts as they are alleged to have been found in an investigation by Police Commissioner Waldo, it would appear that the present high price of ice is largely due to the greed of the ice companies in refusing to take necessary measures to supply the city's wants. In reporting his findings to the mayor today, the commissioner says that 430 independent ice dealers have been interviewed and that 229 complained of prices charged by the larger wholesalers. That about July 1, when the hot weather set in, the largest of New York ice companies, the Knickerbocker Ice Company, raised the price from \$2.25 to \$3 and at one East Side dock more than doubled the price to \$5 a ton. The advance was made, the commissioner finds, in the face of a plentiful supply in storage along the Upper Hudson, over 100,000 tons of ice on barges in the river, and he finds no basis for the excuse that the Knickerbocker Company could not find men enough to handle the commodity.

Westly M. Oler of the Knickerbocker Company is quoted by the commissioner as saying: "Nothing can be done to improve the situation. God help the public." The commissioner would be done if another hot wave should succeed the cool weather which set in today. President Oler was closeted with District Attorney Charles S. Whitman for nearly an hour today, but neither party would discuss the nature of the conference. Mr. Oler was shown Commissioner Waldo's report, and denied the allegation made in it.

LABOR LEADERS WILL BE IN COURT MONDAY

Gompers, Mitchell and Morrison Must Appear in Contempt Cases in Connection With Bucks Stove Case.

Washington, July 17.—Protests against further hearing before Justice Wright on the ground that he already had formed an opinion and expressed an opinion against the defendants and attempted to stop the hearing by technical objections having proved futile today, Samuel Gompers, John Mitchell and Frank Morrison, the labor leaders, will appear in the district supreme court again next Monday to insist that the contempt charges against them in connection with the Bucks Stove and Range case be made more specific.

Continuation for a week was agreed upon after the prosecutors had demanded the two days allowed by the law to answer a motion of a bill of particulars. The American Federation officials today showed no disposition to offer the apology which the report of the committee of lawyers suggested might end the proceedings.

A NEW RUSSIAN LOAN.

Berlin, July 17.—A Holland German financial syndicate today arranged a new Russian loan totalling \$24,288,750.

WILL FIGHT A CHOLERA INVASION

United States Public Health Department to Take all Possible Measures Against Inroads of Dread Disease.

Washington, July 17.—The entire public health machinery of the government has been put in motion to fight off the cholera invasion from Europe. All consular reports from Europe bearing on cases at any points are being carefully studied by officials here and the public health officer at Naples has been instructed to cable a report every five days as to developments in the epidemic that is ravaging Italy.

All ships are being watched here and abroad, and special instructions have been issued throughout the service to safeguard this country from the disease. A public health service expert hurried to New York city is expected to work in cooperation with Dr. Dohy and other health authorities there in a vigorous handling of the cases already brought in and guard against further cholera intrusions.

New York N. Y., July 17.—The cholera situation at quarantine is reassuring tonight to Dr. Alva H. Doty, health officer of the port, and his assistants. During the past 24 hours, there has been one death, but no new cases have been reported, and a number of the 15 persons in the Swinburne Island hospital are reported as convalescing. Several of those now suffering from the plague are seriously ill, however, and the death list may be swollen within the next few days. The painstaking task of making bacteriological examinations in the case of each of the 100 persons from the steamer Moltke and upon the Peruvian was begun today. Tonight Dr. Doty issued a statement saying that he regarded the situation as satisfactory.

FARMERS' BANK STOCKHOLDERS GOING TO WEST

Selling Their Ontario Farm Property And Moving to Alberta to Evade Double Liability Demands.

Toronto, Ont., July 17.—A surprise has been sprung in the Farmers' Bank affairs. A cleverly conceived and well executed attempt to evade the double liability demands of the bank's curator, has been made in Halton county. Over a dozen farmers are now on their way to the northwest, having sold out their property in Ontario. Against this property was the claim of the bank for the double liability, but the parties in question were acting under skilled advice and had no fear of the consequences. Others are said to be planning a similar move.

In few, if any, cases, are the exits being made to the United States or other foreign territory, where international laws would apply. Instead, the money acquired from the sale of their Eastern farms is being placed in Alberta and Saskatchewan homesteads, where the investors were advised no proceedings of the curator could reach them. It was stated this morning by a legal authority that the homestead laws of the two provinces mentioned were proof against any interference on the part of any claimant, such as the bank curator. The money was invested, it was asserted, the investor would be safeguarded against inquiry. This feature of the prairie homestead laws, according to the legal informant, had provided certain Farmers' Bank shareholders with a refuge that would be found impregnable. The offices of the Farmers' Bank, since the bank's failure have occupied the former head office at the corner of Bay and Adelaide streets, have been removed to the office of the liquidator at 33 Scott street.

JAPANESE PAPERS CALL IT A TRIPLE ALLIANCE

The New British-Jap Treaty Amounts to Alliance Between Great Britain, U. S., and Japan.

Tokio, July 17.—The newspapers here continue to discuss the revised Anglo-Japanese treaty and while the majority of the papers favor the new alliance, still there are a few which strongly condemn it. The situation, some of the papers state, practically amounts to a triple alliance between Great Britain, Japan and the United States. The minority press, on the other hand, severely criticize the agreement as being one sided and thus weakening the position of Japan. The isolation of Japan in this section of the papers, is complete and the United States has greatly secured its position in international politics.

THE COUNTRY CALLS

LAURIER—"AN" it was you two darn fellers that got me to play truant.—From the Toronto News.

MR. BORDEN FACES ELECTIONS

UNITED FIGHTING PARTY
The Conservative Party Presents a Solid Front on Reciprocity-- Mr. Borden's Western Tour was Most Successful in More Ways than One.

Ottawa, July 17.—Mr. Borden's three weeks of hard travel and hard work upon the reciprocity issue has only one important effect. His tour has rallied and steadied the Conservative party of the three provinces, or perhaps it would be better to say of the two new provinces, for Manitoba Conservatism had taken its stand before his advent to Winnipeg. From Lake Superior to the Rockies the Conservative party today presents one solid front on reciprocity. The Conservatives will go into the impending election with an united and aggressive and hard-fighting anti-reciprocity party. The day did this. Prior to it the situation was that the Manitoba Conservatives had hoisted the anti-reciprocity flag, had shown a bold front but were in need of hard work and hard fighting; that the Saskatchewan party was in a deplorable state of confusion due to causes not mentioned at a moment later; and that in Alberta there was perplexity. Mr. Borden's tour has united and ready to fight on the issue. A political party is a very big fact in our affairs of today and reciprocity can be beaten only by a ballot-box marked for Conservative candidates, by the Conservative party working hard, and working harmoniously.

The Manitoba Situation.
The Manitoba situation is fairly clear, and a highly courageous stand; the Conservative Dominion members took their position by Mr. Borden's side, and the work has been fairly begun in arguing the case addressed thirteen meetings in the province, other Federal members already have addressed twenty or so considerable meetings, and the party has settled down to a determined campaign. In Saskatchewan the case seemed desperate, to the outsider at least, because some time ago the Provincial Rights party acquiesced in a resolution approving reciprocity. To afford a clear idea of the situation an explanation is necessary.

Provincial Opposition.
The provincial opposition in Saskatchewan, began as an alliance of Conservatives and Liberals against the reciprocity bill, and was styled the Provincial Rights party. The backbone of the party, however, was Conservative; the Liberal wing showed little inclination to stick to it, and widespread desire soon developed to call it Conservative, and at a convention held some time ago, a resolution was passed in favor of coming out on party lines. However, the change was not made formally and the party continued under the other day, the daily Conservative, but bearing the old official name. The party was strongly represented in the little legislature at Regina and when reciprocity came on the scene, had fought a remarkable battle and won a signal victory. The Scott government hitherto has refused to conduct elections in the proper manner; in particular the province has had no voters' lists as we understand them in eastern Canada. When the election lists were called the lists were prepared, in the heat of conflict, under pressure of the strongest temptations and influences of partisanship and under the control of a government with an unenviable record for unscrupulousness. The opposition demanded a pledge that lists should be prepared before another dissolution took place; the government refused; and by a desperate struggle which involved obstruction, all night sittings, etc., and which left all in a condition of great bodily weariness, the opposition carried its point. The government capitulated and gave an explicit pledge that no election would be held until proper voters' lists had been drawn up.

Opposition Amendment.
Immediately after this episode the Scott government put forward the resolution expressing approval of reciprocity. The opposition took counsel and resolved to move an amendment. The amendment was drawn up, considered and approved; among other things it expressed a desire to see trade routes in British waters than American channels, and voiced the desire of the prairies for free agricultural implements. The Conservatives in the caucus agreed in their intense dislike of the reciprocity agreement and resolved in the debate to assail it with vigor.

THE BENDU RELEASED.
Quebec, Que., July 17.—Steamer Bendu, which was detained at Grosse Ile, was released this evening and proceeded during the night for Montreal.

500 MILE AUTO RACE.

An automobile match race which will attract wide attention has been arranged between Ray Harroun and Ralph Mulford. The match will be decided in connection with the twenty-four hour race of August 4 and 5 at the Brighton Beach track. The distance will be 500 miles.

LATE SHIPPING.

New York, July 17.—Arrived—Behrs Laune, Golden River, 18; James William, Bridgewater, NS; Peerless, St. John, NB; Mersey, Bonaventure, Que and Lunenburg, NS.
New Haven, July 17.—Arrived—Schr Fiera M., St. John, NB.
Norfolk, July 17.—Sailed—Str Ethelreda, Campbellton, NB.

YACHTSMEN WOULD NOT RACE IN FOG.

Bar Harbor, Me., July 17.—Only two yachts of the Eastern Yacht Club fleet were entered for the Norman cup race to Marblehead when the hour for the start arrived today, and only one, the Venona, owned by E. J. Bliss, left the starting point off Egg Rock when the gun was fired more than five hours later. The other entrant, Harold Vanderbilt's Vagrant, was withdrawn because of the heavy bank of fog which hung over the water. Last year E. Walter Clark, of Philadelphia, won the first race of the series with his smaller schooner Irolata. This year he had planned to enter his new Irolata, a much larger vessel, in the race, but like the others, objected to a run of 161 miles in the dense fog which prevailed today.

COLLIDED IN FOG IN BOSTON HARBOR.

D. A. R. Liner Prince Arthur and Steamer Halifax Came Together Bow On—Halifax Was Previously Aground.
Boston, July 17.—While feeling her way through a dense fog off Boston harbor today, after being aground on Georges Island for several hours, the steamer Halifax, inward bound, from the provinces, collided with the Dominion-Atlantic liner Prince Arthur outward bound. As the vessels were proceeding cautiously neither sustained any serious damage. They struck nearly bow on, the Halifax having some of her plates indented and a small piece of the deck rail broken. There was considerable excitement for a few minutes on board both vessels. After a superficial examination both steamers proceeded. The Halifax reached her dock here without further mishap. The Halifax which grounded while threading the Narrows early during the thick weather, was floated at high tide this afternoon. The passengers earlier in the day were removed by tugs and brought up to the city. Shipping in general was tied up by the fog, several coastwise steamers being anchored below Boston light throughout the day, including the City of Macao from Savannah, and the Bunker Hill, from New York. Two fishing vessels were aground in the harbor but were later floated.

NETO BILL RESTS WITH THE LORDS.

Continued From Page 1.
The second was a strong appeal by Lord Morley, of Blackburn, to the Liberal followers in the House of Lords. Lord Morley in a circular letter said: "It is possible that a certain number of opposition peers may force division on the third reading of the parliamentary bill. That moment, the matters at stake, both immediate and in the future, make it in the highest degree desirable that no supporter of the bill should be absent from his place, earnestly trust, therefore, that your Lordship will not fail to give His Majesty's government the advantage of your presence on what may prove so truly critical an occasion. The rejection of the bill has never been part of the programme of the Conservative leaders. The report went around today, however, that they would assume the attitude that the bill, even with the amendments, was so dangerous and revolutionary that they would refuse to have any hand in its passage, but would compel the Liberal lords to take all the responsibility for voting its third reading. That aroused the fear that sufficient insurgent peers might be found to carry a motion to reject the bill outright, instead as Lord Lansdowne desires, of permitting the bill to go its third reading as amended. It is Lord Morley's desire to have the Liberal peers vote with the adherents of Lansdowne to support the third reading, because if the bill is rejected it would necessitate an autumn session of the House of Commons to pass the veto bill again through the necessary stages to return it to the House of Lords.

PEERS SWORN TO FIGHT.

A group of extremist peers estimated at from between 50 and 80, are sworn to fight the bill to the last ditch.

NEVER FORGET THIS!

When packing for the country cottage, don't forget your box of Zambuk and your Zambuk Soap! Blisters, sunburn, scratches, insect stings, etc. If not immediately attended to, are likely to spoil your pleasure. Zambuk ensures you against trouble from these.

BOY KNOWN HERE IS ARRESTED IN BOSTON.

Son of Wealthy Halifax Man in Hands of Boston Police For Passing Bogus Checks—Confessed to Forgery.
Boston, July 15.—Russel S. Hubley, 16 years old, whose father is a wealthy grocer in Halifax, N. S., was arrested charged with forging seven checks and uttering five of them. Young Hubley, it is claimed, forged the name of Frank M. Fuller, a lawyer, with offices at 53 State street, to the checks and made them all payable to himself. The amount of money secured on the five checks which he had cashed totals \$250. The two checks which he forged but did not get cashed were one for \$200 and the other for \$50. Hubley made a clean breast of the forgeries, but gave no explanation as to why he committed them. He told the police that he came to this city last spring and that he intended going to his home today if he had not been arrested. On Thursday he called at the jewelry store of E. B. Horne, 423 Washington street, and asked to see a gentleman's diamond ring. Hubley selected a ring valued at \$55. He drew his check book and gave a check for \$10 as deposit on the ring and said he would call yesterday and pay the balance of \$45 as he wanted the ring and was going to his home in Halifax. A clerk was sent from the jewelry store to the bank with the check and the cashier pronounced it a forgery. Lawyer Fuller called on the cashier at the bank and, examining his cancelled checks, declared five forgeries. Soon after noon young Hubley put in an appearance at the bank and the cashier two checks, one for \$200 and the other for \$50. The cashier wrote a note to a clerk and had him call Inspector John Harrington of the bank squad. When the officer appeared and told young Hubley that he was under arrest, the boy smiled and said, "Well, all right, I suppose I have to go with you." Young Hubley's parents have been notified. Hubley was in St. John recently and is said to have got away after forging a check for a good amount.

WALTON'S MARRIAGE.

Walter Walton, 28, of Philadelphia, won the first race of the series with his smaller schooner Irolata. This year he had planned to enter his new Irolata, a much larger vessel, in the race, but like the others, objected to a run of 161 miles in the dense fog which prevailed today.

WALTON'S MARRIAGE.

Walter Walton, 28, of Philadelphia, won the first race of the series with his smaller schooner Irolata. This year he had planned to enter his new Irolata, a much larger vessel, in the race, but like the others, objected to a run of 161 miles in the dense fog which prevailed today.

SAINT JOHN, TUESDAY MORNING, JULY 18, 1911.

THE BEAUTIFYING OF FORT HOWE.

Sometime during the commission campaign at a meeting in the North End, Mr. Miles E. Agar, speaking on the need of improving the vacant spaces within the city, referred to Fort Howe as a spot which might well be given some attention by the Council on account of its commanding position and the opportunity it offered for development. Walking home with Mr. T. H. Estabrook after the meeting Mr. Agar's suggestion was further discussed and Mr. Estabrook volunteered to bring the matter to the attention of Mr. Pugsley with the idea that, as the representative of St. John in the cabinet, the minister might suggest the improvement of Fort Howe to the Militia Department.

Quite by accident, as we might suppose, Mr. Pugsley and Mr. Estabrook found themselves on Fort Howe recently and drove all over it in a carriage. Then Mr. Pugsley made the great discovery. We learn from his organ, the Times, that "the minister was not only charmed by the magnificent outlook, but saw at once its possibilities as a park." Not only that, but the Times goes on to tell how "on his return to Ottawa Dr. Pugsley got in touch with the Militia Department with the result that an engineer has been instructed to come down and submit a report on the projected improvements." Mr. Pugsley poses, resplendent in the limelight, as a public benefactor, and the man who took the initiative, realized the possibilities of development and made the suggestion on which Mr. Pugsley acted, being a mere conservator, and therefore not entitled to any credit, is discreetly relegated to the background.

There is no particular need to get excited over the future development of Fort Howe. We note that the engineer who, according to the first interview with Mr. Pugsley, had been "instructed to come down and submit a report" in a later interview published in the Telegraph, has only been "asked" for. If the elections are not called on with undue haste, the engineer may yet materialize. In any event the beautifying of Fort Howe can now take a companion place with the development of Courtenay Bay in Mr. Pugsley's campaign speeches. That is the most important consideration.

There seems to be a tendency on the part of Mr. Pugsley's organs to resent an inclination to skepticism which has been apparent in the columns of the Globe and The Standard in commenting on the good news. As far as The Standard is concerned we are heartily in accord with Mr. Agar's original suggestion that some improvements should be made on Fort Howe to render the site more attractive. When it comes to converting this "half eminence, treeless and frowning" into "a place of beauty, cool, restful and in every way delightful," knowing Mr. Pugsley, we smile.

A NEW INSURANCE IDEA.

The Insurance Monopoly Bill which has been introduced into the Parliament of Italy with the support of the Government contains so many unusual features that discussion as to how it will work out has proceeded from many different angles. State intervention in the insurance field has long a good deal of its novelty; not enough, however, to take from a feeling of astonishment over some phases of the venture that Italy is contemplating.

It is proposed, in brief, to convert life insurance into a national monopoly with a central administration, quasi independent of the Government, at Rome. The distinction is made that it is to be a national, not a state, monopoly. That is to say, it is to be administered by employees who are not servants of the state; the alleged reason for this being to guarantee the business against the costliness and maladministration associated with a purely governmental enterprise—while on the other hand the state will hold aloof from any responsibility if the business fails financially.

This feature in itself, the creation by the Government of the monopoly and the Government's claim to take the profits but not assume the losses, says the Montreal Gazette in commenting on the measure, appears an extraordinary method of establishing confidence in the undertaking. Except for mutual associations which insure amounts not exceeding 500 lire (equal to about \$100) and pensions not exceeding 100 lire per annum, and public and private institutions conducting funds for the benefit of their employees, all existing companies doing business in life insurance must go out of business. Both home and foreign companies operating in Italy will be allowed to continue to collect their premiums and fulfill their obligations to policyholders. They will, of course, be debarred from underwriting any new business and it is provided that they can claim no indemnity for losses consequent on the operations of the proposed act.

As the London Times correspondent at Rome points out, an insurance company condemned to extinction by absolute inaction cannot outlive a large proportion of its policy holders. A foreign company, through the strength of its business outside of Italy, no doubt, will be able, but what of the Italian company. And when it dies who is to pay its policies? Not the state; the bill makes perfectly clear that the state is not to be held liable. Protests based on this argument have resulted in the bill being modified in committee, so that Italian companies which can prove their solvency may be taken over by the Government, thus protecting, so far as the bill protects any one, shareholders and policyholders, in existing Italian companies. The foreign companies are left with no alternative except to close up business, shoulder the expense sustained in building up their Italian connection, and get out of the country.

An extraordinary as any clause in the bill was that which made it a penal offence for an Italian to insure his life with a foreign company abroad. The clause has been struck out since the introduction of the bill in Parliament. In considering its general features, it is to be remembered that the bill puts an end to the healthy rivalry and competition which has built up life insurance on firm foundations the world over; there can be more than reasonable doubt whether the agents and officials of such a monopoly as is proposed will exercise the economy of administration, the careful selection of risks and the cautious investment of funds

through which private companies are enabled to secure the interests of their policyholders.

Two things apparently have contributed largely to the bringing forward of the bill. There has been criticism for some time that foreign companies have been doing more business in Italy than Italian companies, the proportion a few years ago having been 73,166 policies to 66,201 respectively. Italian enterprise has been backward in the insurance field and the government apparently feels that it will win popular favor by taking over the business itself. And just as in the case of the Associations Law in France, the plea is made that the profits of the business can be made to go a long way to pay the old age pensions.

The net profits of all foreign and Italian life insurance companies in Italy in the last five years are said to have averaged about \$300,000 a year. The cost of the pensions is estimated at \$20,000,000. Even an outside estimate of what the life insurance business will realize for the state comes very far short of an inside estimate of what the pensions will cost. Italy will be more fortunate than France if the actual discrepancy does not prove many times greater than the estimated. Apart from the general principle of state intervention to a properly conducted business, with which no fault is to be found, that is one practical consideration which the business interests of Italy are asking the politicians to take into account before committing themselves to the monopoly plan.

SUNDAY BASEBALL.

The views of clergymen of various denominations on the question of Sunday baseball, have been published in one of the Boston papers and are significant as well as interesting. Their opinions refer only to the amateur phase of it—of baseball as a recreation for the players, not as a sport for the entertainment of the public and a source of revenue for those who take part in it. In the majority of cases those interviewed expressed at least a qualified friendliness toward the allowance of such a privilege, and as the question is a somewhat delicate one it is probable that in no case was the declaration stronger than the conviction.

Those who take the conservative and opposing view are generally the older members of the profession. Their prejudices deserve respect because they are honest ones as the Boston Transcript points out, but it hardly disposes of the matter to say that the proposed privilege would be a violation of the commandment to keep the Sabbath day holy. Few influences have had a more palpable effect upon the young than the requirement to observe the day according to prescribed and rigid forms that exclude all the joy of life and make one day in seven a day of penalties. Sunday should be the happiest day in the week, but for thousands it has been made the most gloomy, and that is a condition in which lurks danger.

Rev. Dr. S. A. Elliot thinks amateur baseball played upon a Sunday afternoon in a quiet way perfectly feasible. Rev. Robert B. Kimber, head of the New York city Episcopal mission, has the courage of his convictions and permits his hundred boys in camp on the southern shore of Connecticut to play baseball every Sunday afternoon. Rev. James C. Flinders of Rochester, N. H., one of the delegates to the Episcopal conference at Cambridge, probably represents the conclusions of a great many who have considered this question. He was brought up with the idea that Sunday baseball was all wrong, but he is coming more and more to believe that we must have some clean sport for Sunday afternoon. Tens of thousands are going through the same mental processes.

We can hardly agree with Rev. Martin D. Kneeland that in opening the playgrounds on Sunday we should be "preparing the way for hoodlumism, lawlessness and civic degeneracy." Those evils do not develop on the baseball field. The first day of the week is the only opportunity for recreation that is offered to a great number of boys and men. The Monday morning records of crime in large cities are not made by those who have used Sunday for baseball or any other clean sport. A commonsense conclusion upon this vexed question can only be reached by carefully weighing the alternatives.

JAPANESE AGRICULTURE.

The Japanese Agricultural Bureau has just published in English the "Outlines of Agriculture in Japan," which throws much light on the methods by which the Japanese, who have been forced for centuries to produce enormous quantities of food, continue to keep all their farmlands in the highest state of fertility. In the first place no farmer tills more land than he can care for. Seventy per cent. of the farms include only 2.45 acres, or less, and only 3 per cent. of the agriculturists cultivate more than 7.35 acres. Naturally the density of the population in proportion to the cultivable area and the small size of the fields lead to the most intensive methods of cultivation, and two crops a year are raised on most of the farms.

The book shows how every particle of fertilizer produced at home is utilized on the fields, even to weeds along the roadside, the ashes of plants, the sweepings of the streets, the rich fertilizing material which ex flows away in the sewage of our cities and the many thousands of tons of fish caught for the purpose; and in addition to the home product millions of dollars are expended every year for foreign commercial fertilizers. In spite of the mountainous nature of most of the Japanese farmers are tilling by their intensive methods more than one-fourth of the entire area of the Japanese islands; and they are producing immense crops year after year without any deterioration of their acres to the condition of "worn out lands."

Current Comment

(Montreal Gazette.)
Reports from Ottawa say Sir Frederick Borden has intimated that he will accept the Canadian High Commission in London, and that the rate of pay will be raised to \$20,000 a year. Many had wished that when Sir Frederick Borden stepped out of the Government of Canada it would be by resignation after the defect of that Government for its sins, for a share of which he is responsible. Still, if he goes to London he goes out of the Government, and that is something.

(St. Thomas Times.)
A news item states that "Canadians last year drank more beer, spirits and wine and consumed more tobacco than ever before." Well, but how about those local options showing the increase of the "dry" municipalities over the previous year? Are the "wet" municipalities responsible for the increased consumption of liquor, or is it possible the "dry" sections are being irrigated?

(Woodstock Sentinel-Review.)
The line between the public school and the High school is too sharply drawn. It is, perhaps, not so easy to apply the remedy as it is to point out the defect; nevertheless it is a misfortune that for so many children the so-called "entrance" examination means farewell to school life.

(Denver Republican.)
"The hottest city in the country Sunday was Rock-life, Canada," says the Washington Post, which paper seems to have annexed "Our Lady of the Snows" without waiting for any official formalities.

MEN AND WOMEN CURED DAILY

By "Fruit-a-tives", the Great Fruit Medicine.

Few people realize the enormous amount of good which "Fruit-a-tives" has done and is doing today. "Fruit-a-tives" is curing hundreds of sufferers from Rheumatism, Neuralgia and Chronic Headaches—hundreds of others who were almost frantic with Stomach Trouble, Indigestion and Biliousness—still others with Kidney and Bladder Irritation—many with apparently "hopeless" cases of Constipation, Nervousness and Sleeplessness. "Fruit-a-tives" will do the same for you if you give it a trial. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

ALLAN RYAN TO FLY.
Allan Ryan, president of the Aero Club of America, has taken up aviation in real earnest. Although always an enthusiastic spectator at the big meets, Mr. Ryan could never muster the nerve to go up alone. Now, however, he has more confidence, and to show his friends that he means business he has purchased a machine and will take lessons at the Masses (L. J. Aerodrome).

A PROGRESSIVE WESTERN COMPANY.
The B. C. Permanent Loan Company, of Vancouver, B. C., has created a steady growth during the past six months as evidenced by the fact that gratifying increases have obtained in all departments. Sterling debentures have increased \$50,000.00, and negotiations now under way insure a steady stream of this cheap money deposits have increased \$25,000.00, very desirable proofs of confidence and stability. Applications for mortgage loans have been greatly in excess of the company's funds, so that only very choice properties have been considered and the funds have been constantly employed.

A feature of the period just ended is the increase in permanent stock. The company decided at the beginning of the year to bring the permanent capital up to \$1,000,000.00 by the issue of 4,000 new shares, a large amount of which have already been applied for. The issue is payable either in full or by instalments. The company's 5 per cent. debentures, redeemable at the end of any year, meet all the requirements of the conservative funds. Full particulars may be obtained on application to NATIONAL FINANCE CO. LTD., J. Herbert Crockett, Provincial Manager, Room 21, Canada Life Building.

ALLAN RYAN TO FLY.

Allan Ryan, president of the Aero Club of America, has taken up aviation in real earnest. Although always an enthusiastic spectator at the big meets, Mr. Ryan could never muster the nerve to go up alone. Now, however, he has more confidence, and to show his friends that he means business he has purchased a machine and will take lessons at the Masses (L. J. Aerodrome).

GENTLEMAN BURGLAR GETS CHANCE TO RETURN HOME.

New York, July 17.—Carl Metz-Meyer, a former army officer in Norway, where his father is rated a wealthy man, will not have to serve time for his robberies in Brooklyn. The Norwegian confessed to a score of burglaries. Judge Dike gave him the choice of five years in Sing Sing, or immediate departure for his home in Norway. Metz-Meyer, who has been called the "gentleman burglar" was delighted to go home.

TWENTY-ONE BODIES TAKEN FROM MINE.

Dubois, Pa., July 17.—The bodies of the twenty-one victims of the explosion in the shaft of the Cascade Coal & Coke Co., at Sykesville, were brought to the surface today. The bodies were not mutilated or burned, and it is quite evident that they died as the result of after damp.

Reports and Disasters.

Perim, July 16.—The British steamer Antiochus, from Tacoma, Seattle and Victoria, B. C., via Yokohama for Liverpool, has arrived here with the cargo in No. 1 hold on fire.

Recent Charities.

Br. Stmr Fernandina, 1146 tons, from Cape Tormentine, N. B., to West Britain or East Ireland, including Preston deals, 409, July. Stmr 620 standard capacity, Miramichi to two ports in the Mediterranean, deals, 558, September; Schr Wm. K. Park, 1151 tons, Bridgewater N. S., to Buenos Ayres, lumber, \$9, with option. Br. bark Ensenada, 999 tons, from New York to Montevideo, lumber, basis \$3.50 and options. Danish Steamer, from Nordmarka, 1855 tons, from Philadelphia to Quebec, coal, private terms. Br. Schr Monma, 284 tons, Philadelphia to Halifax.

Shipping Notes.

Span, str Eranda arrived last night from Philadelphia to load deals for K. John E. Moore and Co. will supply the cargo.

Br. str Buckminster, under charter to the Munson West India line, arrived from Philadelphia yesterday morning to load for Havana, Cuba.

Eastern Line str Governor Dingley, Capt. Mitchell, from Boston, landed 382 passengers at 6 o'clock yesterday. She sailed again today on return.

Battle liner Tanagra, Capt Dalton,

sailed from Sagua La Grande, July 7th, for Matanzas, which port she reached July 8th and sailed again on the 10th for New York.

Br. schr Emily Anderson, loading lumber at Matland for Philadelphia, has been purchased by Capt Isaac Hopkins of Halifax.

Montreal, July 17.—Capt Jones, of str Canada, from Liverpool, reports sighted 81 icebergs in the Straits of Belle Isle.

Str Aureole, reports July 8 lat 41 N, lon 61 W, passed 3 bank of timber about 35 feet long and 20 inches square; also several piles covered with ice.

It is expected that five sealing schrs will go out from Halifax this year and some of them are now fitting out to sail in August. The report that the treaty regarding pelagic sealing in the north Pacific will affect their operations or that the London market will be seriously affected is not regarded seriously. Capt Robbins, formerly of the Village Belle, is expected to go in command of the Ida Clarke this season and one of the fleet is having an auxiliary engine installed. Mr. Bechtel, owner of the Ysabel May, who came here recently, was recalled to Victoria, B.C., by business, but expects to return to Halifax shortly.

VESSLS BOUND TO ST. JOHN.

Buckminster, 1297, at Philadelphia July 12. Erando, 1726, at Philadelphia July 9.

WEDDINGS.

Hayes—Hooley. A very pretty wedding was solemnized in St. Rose's church at six o'clock yesterday morning when Rev. Fr. O'Connell officiated.

British Ports. Fortfished, July 13.—Ardr. Stmr Johanna Russ, St. John. Cardiff, July 13.—Ardr. Stmr Orthis, St. John.

Funerals.

The funeral of the immaculate Conception was the scene of an interesting event at 2 o'clock yesterday morning when the marriage of Miss Annie Loretta Hennessey, daughter of John Hennessey, 100 City Road, England, to the son of Mr. H. Comeau, of the I. C. R. employ, was solemnized by Rev. Mr. O'Brien.

OBITUARY.

Allan R. Macdonell. News was received in Montreal on Saturday of the death of that morning at Frimley Park, Frimley, Surrey, England, of Allan R. Macdonell, of Macdonell & O'Brien, one of the leading firms of railway contractors in Canada.

Mr. Macdonell had been in ill health for several years, and he had been seriously ill for some time. Mr. Macdonell's father was an engineer on the International railway in New Brunswick when that road was being constructed. Mr. Macdonell went into the railway construction business, making his home at Montreal, and was very successful. He is survived by his wife, a daughter of the late John Ryan, of Toronto, and seven children, also two sisters, Mrs. S. R. Thomson, formerly of St. John, and Miss Flora Macdonell, Montreal. The latter has been in England with her brother and his family of late. Mrs. Thomson has been spending the summer, as usual, at St. Andrews. Mr. Macdonell was a visitor to St. John more than once, when Mrs. Thomson had her home here, and the sad news of his death will be heard with regret.

Mrs. Charlotte Elliott. The friends of Mrs. Charlotte Elliott, wife of George C. Elliott, will regret to hear of her death. She took place on Sunday at her residence 137 Broad street. She is survived by one brother, Richard Heans, and three sisters, Mrs. B. Leggett, Mrs. E. Hor-

FUNERALS.

James H. Costley. The funeral of James H. Costley was held from his late home, South Bay, yesterday afternoon at 2.30. The service was conducted at St. Rose's church by Rev. Charles Collins. Interment was in Sand Cove cemetery.

Mrs. Ellen McGeragale. The funeral of Mrs. Ellen A. McGeragale, wife of Edward McGeragale, was held from her late residence, 223 Germain street, west, at 8.30 yesterday morning to the Church of the Assumption for requiem high mass by Rev. J. J. O'Donovan. Interment was in Sand Cove cemetery.

H. H. Smith, of J. C. Mackintosh and Co., left last night for Sherbrooke, Que., where he will inspect the properties of the Sherbrooke Railway and Power Company.

Semi-Steel Fire-Pot—Not Gray Iron

A FIRE-POT of a furnace should be able to endure tremendous heat and to repel the attacks of sulphur fumes. The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.

Now, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration. On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-pot.

A Semi-Steel fire-pot weighs 20 per cent. heavier than the same size and pattern in gray iron. It is therefore better able to endure tremendous heat.

Semi-Steel is made by an exclusive McClary process. You can only get a Semi-Steel fire-pot with a McClary furnace. That is one strong reason why you should have

SUNSHINE FURNACE McClary's London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary.

Will Build Receiving Vault and Chapel

The directors of Fernhill Cemetery have decided to build at once a receiving vault and chapel and tenders are asked by G. E. Fairweather, architect. The buildings will be near South front facing north. Here all services will be held in winter and at the back of the chapel sliding doors will permit the removal of the bodies to the receiving tomb. Mr. Clayton lately visited Montreal and other cities and inspected existing chapels and vaults.

Married in the West.

Miss Mabel P. Driscoll, daughter of Mr. and Mrs. Michael Driscoll, who left on Wednesday for Calgary, was married yesterday to William Sharkey. The groom is a son of Peter C. Sharkey, and is in the employ of the McClark Co. in Calgary.

WE ASSUME THE RISK

You are not to pay us one cent unless suffering from chronic kidney ailments are asked to call at our store, purchase a box of Rexall Kidney Pills and, in the event that they do not prove of benefit to them, we agree to promptly refund the purchase price. Our experience in selling Rexall Kidney Pills has been such as to demonstrate to us the promptness and certainty of their action, and we want every sufferer from any form of this peculiar disease to accept our offer. Rexall Kidney Pills may be had only at our store—the Rexall Store, Sixty Pills in a box, price, 50 cents; Wauson, 100 King street.

TO CURE SNIFFLING COLDS. The easiest and pleasantest cure is "Catarhizone," which kills the germ, throat and lungs with healing balsams.

THE ST. JOHN'S CALAIS

Manager Joe Page team will play where they will play. It looks as if there is nothing but there is nothing showing against Woodstock.

THERE'S SOMETHING DOING

With Fredericton men for the game, determined to take into camp this afternoon the Marathon ground.

MINORS AND

New York, N. Y., er the moans of you, regardless of how hard they are trying, that stands an undeniable fact.

The minors have a rush. There is no Andrew Morris vs. York.

Wade Dick Howell vs. Ed Mackey vs. Ed Hyland vs. Tommy Rawson Adams.

On Mrs. Isabella Brannan, was continued. Mrs. Brannan and her husband gave evidence. Nash was remanded.

THE ST. JOHN'S BATTING AVERAGES IN THE BIG BASEBALL LEAGUES

WILL PLAY IN CALAIS TODAY
Manager Joe Page and his St. John team will leave this morning for Calais where they will meet Happy Holt's classy players this afternoon.

THERE SHOULD BE SOMETHING DOING TODAY

With Fredericton saving their best men for the game, and the Marathons determined to take the capital team into camp, this afternoon's game on the Marathons grounds between Fredericton and the Marathons should be the fastest of the season.

MINORS AND THE MAJORS

New York, N. Y., July 14.—Whatever the moans of baseball may tell you, regardless of how they may moan their own game, there is one thing that stands out notoriously as an undeniable fact—the big leagues are going back.

The minors have come up with a rush. There is no getting away from the fact that the real stars of the minors at present are the veterans who were let out of the big leagues.

BOUYS THIS WEEK
Today: Forke Flynn vs Joe Jeannette, and Andrew Morris vs Jim Savage, New York.

WEDNESDAY
Dick Howell vs Jim Mitchell, and Sir Madkey vs Mike Mulla, New York.

THURSDAY
Dick Hyland vs Matt Wells, Albany.

FRIDAY
Ted Nelson vs Joe Thomas, and Young Kenney vs Frankie Madden, New York.

AMERICAN LEAGUE

Four more players dropped from the list of leading batters of the American last week and there are now but 17 who are batting for or better.

Because Peoria refused to sell him to the St. Louis Browns for any amount of money, Rowan, who covered the bag for the St. Louis team in a number of games, has gone to his home in Canada.

In four games last week McNelis of the Athletics made but one hit and in consequence his average tumbled 17 points. His hitting was so feeble in the Detroit series that he was replaced by the veteran, Harry Davis.

Neal Deal of Chicago and one big surprise of the season and his consistent stickwork is convincing the fans that he is not a flash in the pan.

Unless Jimmy Callahan, of the White Sox takes a brace, he will soon fall below the 200 mark. His average has declined for the past month. The averages:

Table with columns: Player Name, Team, AB, R, H, AV.

MANAGERS MAY LOSE POSITIONS

Fred Tenney's days in Boston are numbered. It is officially denied, but nevertheless it is a certainty that Johnny Kling has been offered the management of the Rustlers.

The remarkable shifting of managers in the major leagues two and three years ago is likely to be outdone at the end of the present season.

Who is going to resign? The remarkable shifting of managers in the major leagues two and three years ago is likely to be outdone at the end of the present season.

As long as John I. Taylor owns the Boston Red Sox, John I. Taylor will be their manager. He may not hold the official title, but he is the boss.

GOOD BASEBALL IN THE MARSH CREEK LEAGUE

While the N. B. and Maine league claims the attention of fandom generally, another league has sprung up, numbering in its personnel several quondam stars in baseball circles.

MILAN, WASH., PHIL., LITTLEW., WHITE, LAUGE, HARRIS, DRAKE

Some of the greatest ball players of the game have ever known have been discovered by accident or sheer luck. Five players have been picked up at random, but they stand among the best just to show the truth of the assertion.

The men are the late Ed Delehanty probably the greatest and undoubtedly the hardest hitter who ever put on a pair of spikes.

Amos Rusie began his ball career with the old Grand avenue team in Indianapolis when Indianapolis was a member of the 12 club national league.

Jack Glasscock was playing shortstop on the Indianapolis national league team at that time and Jerry Denney was holding down third base.

The youngsters didn't have any money, and no transportation was enclosed, but he started for Wheeling and made his way there by riding freight trains and walking.

Several years ago, after looking the situation all over, the late Mark Twain made the home by very pat observation: "I am convinced that it is in some way more detail. Since he is the first secretary in the Grand Circuit to promulgate rules under the handicap plan, the outcome of the handicap plan, the outcome of the handicap plan, the outcome of the handicap plan."

St. John Artillerymen To England. St. John's representatives on the All-Canadian Artillery team which goes to England to take part in the Imperial Artillery tournament during the latter part of August, will be Sergeant Dodge, of No. 5 Battery, Sergeant Biddiscombe of No. 4 Battery, and Sergeant Price of No. 4 Battery.

ST. STEPHEN WALLOPED THE FREDERICTON TEAM 13-5

er, had his finger badly hurt in the seventh inning and had to retire from the game. The following is the box score and summary:

The League Standing. P.C. Calais 7 4 .536 Fredericton 7 4 .536 Marathons 7 7 .500 St. Stephen 5 6 .450 Woodstock 5 4 .562 St. John 3 7 .300

Today. At St. John—Marathons vs. Fredericton. At Calais—St. John's vs. Calais. At Woodstock—St. Stephen vs. Woodstock.

Thursday. At St. John—Marathons vs. St. John's. At Woodstock—Fredericton vs. Woodstock. At St. Stephen—Calais vs. St. Stephen.

Friday. At Fredericton—St. John's vs. Fredericton. At Calais—Woodstock vs. Calais. At St. John—Marathons vs. St. Stephen.

Saturday. At St. Stephen, 13; Fredericton, 5. Special To The Standard. Fredericton, July 17.—The Fredericton club went all to the bad today, and the St. Stephen Thistles romped away with the game by a score of 13 to 5.

While Crowley pitched fine ball for the Thistles until the last couple of innings and got pretty good support, Duval was driven from the box in the sixth inning, due to hard hitting and poor support, and bases who followed, got miserable support, too.

The Fredericton team's errors of omission were a lot worse than their errors of commission. There was some talk of Fredericton protesting the game on a decision of Umpire in Chief Staples in declaring a run count a play when another base runner was out for being hit by a batted ball.

Grand Rapids Association, firmly believes he has solved the intricate problem of handicapping harness horses. Kilne argues along practically the same lines as did Fasig and Wilson, but in somewhat more detail.

LOTS OF PROTESTS. The meeting of the executive of the New Brunswick and Maine Baseball League has been postponed until Tuesday evening, when the managers will gather at McAdam Junction.

THE INTERSOCIETY LEAGUE. In the intersociety league last night the Y. M. A. team defeated St. Michael's 8 to 4. Hazel and Harrington were the battery for F. M. A., and Cunningham and Elliott for the losers.

THE WEATHER.

MARITIME—Showery today, clearing at night, a little lower temperature.

Toronto, Ont., July 17.—Showers have been general today from Lake Ontario to the Eastern portion of the province, also over the greater portion of Quebec, while they have occurred very locally in Alberta and Saskatchewan.

Table with 2 columns: City, Min. Max. Includes entries for Atlin, Victoria, Vancouver, Kamloops, Edmonton, Calgary, Regina, Que'Appelle, Winnipeg, Port Arthur, Parry Sound, London, Toronto, Ottawa, Montreal, Quebec, St. John, Halifax, Lower St. Lawrence.

AROUND THE CITY

Non-Rate Payers Reported. Louis Dritz, of Chapel street, and Michael Weibel, of Bond's Alley, have been reported by Detective Killen for working in the city without a license.

Mr. Murdoch's Condition. Wm. Murdoch, the city engineer, who was injured on Saturday evening by being thrown out of his wagon was reported to be doing well last evening.

Confectionery Store Looted. Harry Sparks's confectionery store near the suspension bridge was broken into Saturday night and about \$15 worth of goods stolen. The work is thought to have been done by boys.

West End Picnic. The annual picnic of the West End Charlotte street United Baptist church will be held at Westfield Beach on Wednesday. Trains leave Carleton at 9.10 a. m. and 1.15 p. m., returning leave Westfield at 6.36 to arrive about 8 p. m.

Camping At Lepreau. Rev. Gustav Kuhring and P. Cathers and E. Merritt left yesterday morning with 15 days to spend ten days camping at Lepreau. During Rev. Dr. Kuhring's absence from the city, Dr. Manning will receive any necessary communications for him.

Sentence Suspended. William Peterson and Charles Ritchie, arrested for lying and lurking on Faddock street early Friday morning, were before Magistrate Ritchie yesterday afternoon and allowed to go under suspended sentence.

Slapped His Wife's Face. Yesterday afternoon a Mrs. Fordan, who is in a delicate state of health, called at the central police station and complained that her husband was drinking and gave her a slap in the face. A policeman called at the house and found that the husband had departed, and accordingly his visit was fruitless.

Everybody Come. A grand excursion to Brown's Flats will be held on Thursday evening under the auspices of the Victoria Street Brotherhood. Steamer May Queen will leave her wharf at 6.45, arriving at Beulah Camp in time for evening service. Rev. Dr. Walker will speak. The Victoria Street Orchestra will furnish music. Refreshments can be obtained on the boat. Return tickets 50 cents.

Takes Prisoner to Dorchester. Sheriff H. A. P. Smith, of Digby, N. S., arrived in the city yesterday afternoon, having in custody Arthur Walton aged 19 years, whom he is taking to the Dorchester penitentiary to serve a term of twelve years for robbing stores in Yarmouth and Digby. The break in Yarmouth was on Friday, 7th inst, and Digby the day later. The prisoner was locked up in the county jail and will be taken to Dorchester this morning by the sheriff.

English Capital in Gibson Co. It is understood that the Nashwaak Lumber Co., Ltd., which is being organized with a capital of \$5,000,000, will be the Canadian branch of the Farnsworth and Jardine Co., of Liverpool, Eng. It will take over the control of the Alexander Gibson, Railway and Manufacturing Company's lumber property. Col. McLean, who is named as one of the incorporators of the Nashwaak Lumber Company, said they were merely acting for the Farnsworth and Jardine interests. He did not know what the plans of this company were.

The West Indian Trade. A delegation of local merchants interested in the West Indian trade held another conference with the minister of public works yesterday afternoon, at which the question of improving the steamship service with the British West Indies was discussed. Although the present contract with the department of trade and commerce made with the Pickford and Black Company will run for only a year, the local merchants want it amended so as to give St. John a sailing every 11 days instead of every 22 days, as they believe that if the present arrangement continues in force any length of time, St. John will lose much of its trade with the West Indies. Hon. Mr. Pugsley promised the delegation to do all in his power to have the government meet their wishes in the matter. Mr. Pugsley left last evening for Ottawa.

Pants. Sale of men's pants, 200 pairs working and dress pants. We sell them at murdered prices. No crime for you to get a pair at The People's Dry Goods Store, 14 Charlotte street.

B. C. Permanent Loan Company. In another column of this issue the B. C. Permanent Loan Company notifies its shareholders of a dividend at the rate of 3 per cent. per annum on the permanent stock of the company for the half year ending June 30th, 1911. This company has experienced a very profitable half year, large additions having been made to assets and surplus.

WILL TENDER GRAND BANQUET TO PREMIER HAZEN, IN AUGUST

Friends and Supporters of New Brunswick's Premier will Pay Fitting Tribute to Him on His Return from His Trip to the Coronation.

A large number of the friends and supporters of Hon. J. D. Hazen will entertain him upon his return from England at a banquet to be held in the Assembly Rooms of Keith's Theatre on the evening of August 10th. Tickets have been placed at \$2.50 each, and will be sold by the following committee: Manning W. Doherty, Miles E. Agar, W. F. Hatheway, J. P. Hon. Robert Maxwell, M.P.P., Frank R. Fairweather, Gerhson S. Mayes, W. H. Harrison, J. R. M. Baxter, K.C., John A. Chesney, Dr. H. C. Wetmore, Leonard P. D. Tilley, W. B. Tennant, W. H. Thorne and G. Earle Logan.

It is expected that there will be a large attendance from the outside counties as well as from the city as there will be a great deal of general interest in the many events both public and private in which the premier has participated while on the other side. It is understood that Hon. Mr. Hazen has devoted a great deal of time to the working of the New Brunswick government offices in London with a view to bringing the claims of this province more strongly to the attention of desirable immigrants and in other ways tending to develop our resources and advance our interests.

NEW POWER SCHEME MAY BE TRIED HERE

English Plan of Developing Tidal Power Attracts Attention of Member of the Board of Trade.

That St. John will presently be able to command a solution of the power question which will make it independent of coal mines and rivers and enable it to take first rank among Canadian cities in so far as low priced power is concerned, is the opinion of a well known citizen connected with the Board of Trade. He bases his expectation on the fact that a solution of the problem of harnessing the tides which has been engaging the attention of engineers for some time, has evidently been discovered. An English company has taken out patents for a scheme to harness the tides in both Great Britain and the United States, which it is said will prove a great boom to coastwise towns and cities. The plan involves the use of two ponds, one of which is drained at low tide and the other filled on the flood tide. Power is developed by turbine engines through the process of draining the flooded pond into what is called the dry pond. A working model of the scheme has been tried at Bath and it is said to give all the results claimed for it by the inventor. It is said power can be developed on an extensive scale by this system, even when the range of tide is only a few feet; and in view of the fact that the tide at St. John has a range of 24 or 26 feet its possibilities here should be immense. It is claimed that by means of this system power can be developed cheaper than by fresh water, and that it should give St. John a decided advantage as a site for manufacturing industries over the cities of the interior, which must rely on water falls. Owing to the fact that salt water is considerably heavier than fresh water, a lesser head of water is required to develop a given amount of power, while the amount of power obtainable will be practically constant and will not vary as in the case of fresh water power plants, which are liable to have a limited supply of water during certain months of the year. If the system proves as successful as the models already tried indicate that it will be, it will no doubt be adopted in this province, as it would but very little business will come before it in the way of committee reports. A communication will be received from the Board of Health calling attention to the lack of sanitary arrangements in the district of the parish of Lancaster lying near the City Line. The complaint is that this section of the parish is without sewers, and that as it is being built up rather thickly the lack of drainage is becoming a menace to the public health, not only of the locality itself, but of that portion of the city adjoining. The Board of Health will ask that the County Council take steps to remove the cause of complaint by providing a proper system of drainage for the district. It is expected that the special committee on the subject, of which Councillor Potts is chairman, will bring in a report recommending that the system of assessment be changed so as to conform with the principle of the land tax, and this may cause an interesting discussion. Councillor Donovan is also expected to submit a report recommending that the county take steps to secure a prison farm upon which to employ the members of the chain gang. This matter has been discussed in a delectory way before, and it is believed a majority of the members of the council are favorable to the idea of establishing a prison farm.

WORKING TO GET A FAIR WAGE CLAUSE

The Labor Unions Ask Acting Premier Flemming to Have Such Clause in Provincial Government Contracts.

A communication was recently sent to the acting premier of the province calling attention to the resolutions adopted by a number of local trade unions, requesting the provincial government to insert a fair wage clause in all contracts for public works in the province. In reply Hon. J. K. Flemming has notified the secretary of the building trades council that he would be glad to make arrangements to receive a delegation of labor representatives at the first meeting of the provincial government in August, as he had no doubt the other members of the government would be willing to hear the views of the labor unions and to give careful consideration to their request. Trade unions in Moncton, Fredericton and other places have also resolutions calling upon the government to insert a fair wage clause in public contracts, and it is intended to try to arrange to have delegations of labor men from other cities on hand when the matter is laid before the government. A movement has been started to induce the city council of St. John as well as other public bodies throughout the province to adopt a fair wage resolution, similar to that adopted some years ago by the federal government. In Great Britain and the Australian colonies public bodies have long obliged contractors for public works to pay a standard wage usually based on the trade union rate prevailing in the district where the public work is being done.

WILL ASK COUNTY TO START PRISON FARM

Councillor Donovan May Introduce Resolution of this Kind Before County Council, at its Meeting Today.

The regular meeting of the County Council will be held this afternoon, but very little business will come before it in the way of committee reports. A communication will be received from the Board of Health calling attention to the lack of sanitary arrangements in the district of the parish of Lancaster lying near the City Line. The complaint is that this section of the parish is without sewers, and that as it is being built up rather thickly the lack of drainage is becoming a menace to the public health, not only of the locality itself, but of that portion of the city adjoining. The Board of Health will ask that the County Council take steps to remove the cause of complaint by providing a proper system of drainage for the district. It is expected that the special committee on the subject, of which Councillor Potts is chairman, will bring in a report recommending that the system of assessment be changed so as to conform with the principle of the land tax, and this may cause an interesting discussion. Councillor Donovan is also expected to submit a report recommending that the county take steps to secure a prison farm upon which to employ the members of the chain gang. This matter has been discussed in a delectory way before, and it is believed a majority of the members of the council are favorable to the idea of establishing a prison farm.

ENGLISH FARMER SAYS GOOD WORD FOR ROADS

Arthur Trapp Thinks New Brunswick Highways are Much Better than Those he Saw in Ontario.

Arthur Trapp, the English farmer, who after spending six years as manager of the big stock farm of Stewart Cameron, at Bolton, Ontario, came down to New Brunswick to look for a farm, was in the city yesterday. "I haven't found just the kind of a farm I want," he said to The Standard. "But I like the country very much—what I've seen of it—and I calculate to stop down here. I'm now at a house at Public Landing, and intend to look round some more before I decide to settle down. "The farmers take things much easier here than they do in Ontario, and the farm laborers are not required to work so hard or so long hours. I've noticed that much since I've been in the province. "And there's another thing I'll say about what I've seen. The roads I've travelled over are in much better condition than the roads in the part of Ontario I came from, and it was supposed to be one of the most prosperous farming districts north of Toronto. I rode into the city this morning on my wheel and could not expect to find better roads. It's a great country you've got down here, but I don't think the farmers are as enterprising as they might be."

POLICEMAN CRAWFORD'S HORSE IS A GOOD ONE

Horse Purchased by City for Use of Mounted Policeman is well Worth the Price.

Of late there has been considerable publicity given to the horse purchased by the city for the Policeman Crawford, who patrols the Rockwood Park and Mount Pleasant. Chief Clark states it is not true that he wished to inspect the horse purchased and did not claim any right to do so, but held it was the duty of a veterinary to pass the animal before it was put to use by the department. There were also other stories in circulation regarding the purchase of the horse, but at all events the horse is in commission and Policeman Crawford looked "grassy to be seen" yesterday, as he rode the pretty bay through the streets on his return from the Park.

PERSONAL

Wm. Fitzgerald of Montreal is visiting his parents, Church street. Rev. J. F. Carson of St. George is registered at the Victoria. Dr. A. H. Prescott of Woodstock was at the Victoria yesterday. Miss Elsie B. Olive, daughter of E. Percy Olive, of West Somerville, Mass., arrived by steamer Governor Dingley yesterday morning, and is the guest of Mrs. J. C. Beattie, 228 Tower street, West St. John.
