

RESERVATION QUALIFYING OBLIGATIONS OF U.S. UNDER ART. 10, ADOPTED BY SENATE

Republicans, Reinforced by Four Democrats, Put Reservations Across Exactly as it Came from Foreign Relations Com.

RESERVATION FIGHT CARRIED TO CLIMAX

Closure Proposal Presented Designed to Bring Final Action on Ratification Within a Week.

Washington, Nov. 13.—Squaring the issue with President Wilson, the Senate adopted today a reservation qualifying the obligations of the United States under article ten of the League of Nations Covenant. A solid Republican lineup, reinforced by four Democratic votes, put the reservation across exactly as it came from the Foreign Relations Committee and in virtually the same language which the President declared on his Western tour would cut the heart out of the Covenant, and mean the rejection of the Treaty. The vote by which the reservation was 46 to 32.

Climax Reached.

The fight for reservations has thus been carried to a climax. The Republicans presented for future action a closure proposal designed to bring final action on the question of ratification within a week. A less sweeping measure, proposing limitation on the reservation debate only, had been put in by the Democrats earlier in the day, but was rejected when the Republicans voted to sustain a point of order against it.

Closure on Debate.

A vote on the question of clamping down a closure on debate will come Saturday morning, and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make closure effective. The Democratic leaders were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a program might imperil their chances to secure action on a ratification resolution of their own.

As Article Stands.

The article of the reservation as adopted by the Senate follows: "The United States assumes no obligation to preserve the territorial integrity or political independence of any other country, or to interfere with the services between nations—whether members of the League or not—under the provisions of article ten, or to employ the military or naval forces of the United States under any article of the Treaty for any purpose, unless in any particular case the Congress, which, under the constitution, has the sole power to declare war or to authorize the employment of the military or naval forces of the United States, shall, by a joint act or resolution, so provide. "In two particulars does this language differ from the proposed reservation which the President declared at Chayenne, Wyo. he would be obliged to regard as a rejection. "As read by Mr. Wilson the phrase 'Under the provisions of article ten' occurred at a different place, and the final word 'provide' was changed to 'declare'."

CIVIL SERVICE EMPLOYEES MAY PUNCH THE CLOCK

If Cost is Not Too Great Time Clocks Will be Installed in All Departments of Civil Service.

Ottawa, Nov. 13.—An Order in Council has been issued asking the Public Works Department to investigate and find out the cost of installing time clocks in all the departments of the Civil Service. In most of the Government Departments, it has been the custom to check the attendance of employees by having them sign the attendance book, but it is understood that if the cost of installation is not too great, they will in the future have to "punch" the clock on starting and finishing work.

Labor Delegates From Great Britain And India Will Visit St. John

Washington, Nov. 13.—(By the Canadian Press)—Arrangements are being made for a short tour of Eastern Canada by the members of the delegations from Great Britain, South Africa and India to the International Labor Conference. Invitations to this effect have been tendered by the Dominion Government and by the Canadian Manufacturers' Association. The date of the party's arrival in Canada will depend on the progress made at the conference, but it is expected they will be able to leave here before the end of the month. According to the present arrangements it is proposed to proceed via Niagara Falls to the Ontario industrial centres, then to Ottawa, Montreal and St. John, N. B.

Belief Yudenitch Will Be Able To Resume His Attack On Petrograd

Helingsfors, Nov. 13.—(By the Associated Press)—Officials of the Northwestern Russian Government still profess the belief that General Yudenitch will be able to resume his attack on Petrograd. Finance Minister Margulies told the Associated Press correspondent today, that the Government is working on a new plan, namely a fresh campaign with the help of Finnish and Estonian recruits, the Allies to furnish the supplies and foot the bills for the operations. Repayment, the minister asserted, would be guaranteed with furs and other products of the region. M. Margulies admitted that if the Baltic States made terms with the Bolshevik General Yudenitch's army would find itself virtually interned. He spoke bitterly of the Dorpat Conference, saying: "I do not think a peace will be concluded. The Baltic States are merely trying to force the Allies to recognize their independence."

ON EVE OF COAL CONFERENCE BOTH FACTIONS ARE HOPEFUL OF REACHING AN AGREEMENT

The Time of the Termination of the Washington Wage Agreement of 1918 Apparently is the Chief Stumbling Block—Believed Operators Will Not Stand Pat on Interpretation of Washington Agreement Time—Operators in a Conciliatory Spirit.

Washington, Nov. 13.—Coal miners and operators from the bituminous fields of the nation will enter into negotiations here tomorrow for a new wage agreement, with the question of the time of termination of the Washington wage agreement of 1918 apparently as the chief stumbling block.

Both miners and operators, on the eve of the conference at which the points in dispute in the recent strike are expected to be settled, were hopeful, however, as to the outcome and expressed the belief that the question of when the Washington agreement terminated could be disposed of through mutual agreement along with the demands of the miners for sixty per cent. increase in prices and shorter hours.

Operators Hopeful. Announcement by the Executive Committee of the operators of the Central Competitive Fields, in a formal statement to-night, that the Washington agreement is one of the matters "to be determined by the Conference," was taken generally to mean that the operators do not intend to stand pat on their contention that present contracts remain in effect during the "duration of the war," or until March 31st, 1920, in case a satisfactory settlement is made with the miners on that and other points. "It was said by those in close touch with the situation that the operators were going into the Conference tomorrow in a conciliatory spirit, and would not insist on the interpretation of the agreement."

HANDLEY-PAGE BOMBER STARTS FOR CHICAGO TODAY

Will Carry 3,600 Pounds of Explosive Matter to Demonstrate Possibility of Using Airship in Commerce.

Minneapolis, N. Y., Nov. 13.—Vice-Admiral Mark Kerr announced tonight that he expects to start from Mitchell Field tomorrow morning with his big Handley Page bombing machine on a non-stop flight to Chicago. The plane will carry 3,600 pounds of explosive for the demonstration of the possibility of using airships in commerce. Admiral Kerr will follow the route of the New York Central Railroad and expects the trip to take about ten hours. His flight was delayed because he neglected to notify the customs authorities when he entered this country from Canada, and thus because the landing field in Chicago was not in condition.

OFFICERS OF THE RENOWN GUESTS OF ALBANY, N. Y.

Given a Banquet and Shown the Sights of the State's Capital.

Albany, Nov. 13.—Sixteen officers of the British battle cruiser Paxton, which arrived at New York and on which the Prince of Wales will make his headquarters during his visit to New York, were the guests of the City of Albany tonight. A trip through the Capitol and the Education Building was preceded by a banquet. The officers will inspect the General Electric Company's plant at Schenectady tomorrow.

Military Driver of Ambulance Trying to Avoid Collision With Another Car When Accident Occurred.

Toronto, Nov. 13.—The driver of a military ambulance this afternoon was trying to avoid a collision with another car when the ambulance upset and scattered patients around on the pavement. One of them, G. Sims, was severely injured and an orderly, Thomas Simpson, came out with a fractured arm. Others received minor injuries.

NEW ELECTIONS WILL SWEEP AWAY FRENCH GROUPS

Indications Are That the Elections of Sunday Will Return a Chamber Composed of Only Two Parties.

NATIONALISTS AND COALITION

Former Claim They Will Have Four Hundred in Next Chamber and Coalition 200 Seats.

Paris, Nov. 13.—Indications in the parliamentary elections to be held next Sunday are that the small group which have, heretofore, existed in French politics will be greatly reduced, or swept away, and that the Chamber will be composed of only two parties known as the "Right" and the "Left."

The Nationalists claim they will have more than 400 members in the next chamber. Facing this party will be a coalition of various elements which claim they will have an aggregate of about 200 seats. The Radical party, in which the last Chamber comprised 175 deputies, is not expected to continue as a strong force as this party was elected through the efforts of Joseph Caillaux, the former Premier, who is now awaiting trial by the High Court and Louis Malvy, former Minister of the Interior, who was expelled from France after a lengthy trial.

The registration of candidates for election officially closed yesterday. The list numbers 2,801 candidates for 631 seats. Prominent among the last hour candidates was E. Brizard, President of the Municipal Council of Paris. Former Premier Aristide Briand, answering during the course of a political meeting a query as to what he thought of a resumption of relations with the Vatican, said the question was one which concerned France's international relations and that the only solution possible was one compatible with the country's foreign policy. Mr. Briand declared that the patriotic attitude of the clergy during the war would facilitate a solution of the matter, but said this would be helped by the clergy renouncing politics and, under new inspiration from the Vatican, accept the law separating church and state.

Police Continue Search After The Centralia I. W. W.'s

Former Soldier Fired Upon Yesterday While Patrolling Road Between Centralia and Chehalis.

Centralia, Ill., Nov. 13.—(By the Associated Press)—Police and former soldiers today continued to seek alleged members of the I. W. W. who were involved in the fatal shooting Tuesday of former service men during an Armistice Day parade.

Toronto Citizens Stirring Up Hostility Against Vaccination

Toronto, Nov. 13.—At a demonstration by a large crowd in front of the City Hall today in protest against vaccination because of the smallpox scare in this city just now, W. F. Dargoch, a city school teacher, declared that there were more cases of sickness in the schools since the vaccination of school children had been begun than at any time when the influenza was raging last fall. He said he would not be surprised if there was not a single case of smallpox in Toronto at the present time.

"PUSSYFOOT" JOHNSON, AMERICAN PROHIBITION WORKER, MOBBED BY CROWD OF LONDON STUDENTS

Dragged from a Platform on Which He Was Speaking, Severely Beaten and Paraded Through the Streets Astride a Plank Borne on Stalwart Shoulders—Apparently Well Organized Plan to Humiliate the Anti-Saloon League Organizer.

London, Nov. 13.—William E. Johnson, an American prohibition worker and anti-saloon league organizer, familiarly known here and elsewhere as "Pussyfoot," was dragged from a platform from which he was speaking today, severely beaten, and paraded through two miles of crowded West End streets on a plank. His assailants for the most part were medical students, and against them at times he put up a strenuous fight receiving a badly damaged eye and other injuries so that finally, owing to his weakened physical condition, he was obliged to submit to the indignity. Eventually Johnson was rescued by the police, who during the early part of the march simply kept the crowd moving. He was rushed to Bow Street station where his injuries were dressed, and he was then able to go home.

Debate on Prohibition. The occasion of the attack was a meeting in Essex Hall, just off the Strand, at which a debate had been arranged, under the auspices of the Overseas Club and Patriotic League, between Mr. Johnson and Mr. Mitchell Banks, a lawyer, on "The How and the Why of American Prohibition."

The chairman of the meeting was F. A. McKenzie. He too, was seized by the crowd but was soon released. The meeting had no sooner opened than there was an uproar, due to the activities of a few young men who immediately engaged in heckling both prohibitionists and anti-prohibitionists pleading for order.

Well Organized Group. Outside the building there were patent signs of pending trouble. A great crowd of students had gathered, and after Mr. Johnson began to speak hundreds of the students, who evidently were organized, broke down the iron gates of the entrance to the hall, brushed aside the police, charged down the aisles and seized Johnson and McKenzie. These two replied with bags of flour. They hoisted them into a wagon and proceeded to Kings College nearby where both were invited to state their case for prohibition for the students, but were not allowed to proceed because of the howls.

The rioters then discarded McKenzie and mounted Johnson on a plank. This a stalwart group mounted on their shoulders and marched through the Strand, Covent Garden, Leicester Square, Piccadilly Circus and Oxford Circus to Portland street where the police intervened and effected a rescue. The police blind.

As the procession passed through the streets with banners adorned with black cats, pictures of beer steins and other decorations, there were frequent cries of "We've got Pussyfoot." But Londoners, accustomed to student marches recently, did not really believe that it was Johnson, and the march did not cause as much excitement in the streets as might be expected.

Some of the prohibition campaigners, mostly Americans, declared to the Associated Press that they did not believe the police had made a sincere effort to break up the crowds, and contended that they could have rescued Mr. Johnson much sooner if they had so desired.

Feel Confident Federal Court Will Rule in Their Favor on War-time Prohibition Act.

Chicago, Nov. 13.—So certain were Chicago saloonkeepers today that Federal Judges Carpenter and Fitz-Henry would decide against the War-Time Prohibition and Enforcement Acts, that they were arranging for delivery of liquor stocks. Among liquor men it was hoped that bars would be selling liquor as of old by Saturday night.

Decisions in Kentucky and Rhode Island, favorable to the liquor interests caused saloon keepers here to expect a similar decision in the local district court where injunction suits filed in Perola and Chicago were combined.

Filing of briefs by attorneys for the petitioners, and the government today completed the case and the court announced a decision would be given on or before Saturday.

PREMIER DRURY ANNOUNCES THE NEW MINISTRY

The First Cabinet Council of Farmers in Ontario Will Enter Upon Their New Duties This Afternoon.

MEMBERS MET IN CONFERENCE

Premier Drury Professes to be Confident That His Government Will be Strong Enough to Carry on.

Toronto, Nov. 13.—Premier E. O. Drury and his Ministers will be sworn in at Government House at 11 o'clock tomorrow morning, and will enter upon their new duties in the Parliament Buildings tomorrow afternoon, by holding a Cabinet meeting. This is the programme arranged today at a conference of the majority of the members of the Government, and next week will see the Drury Government fully established as an administration. The only absentee from today's conference was Walter R. Rollo, of West Hamilton, the Minister of Health and Labor.

The conference was virtually a Cabinet meeting, though the Ministers were minus the halo that will be theirs when sworn in by the Lieutenant-Governor. It is of interest to note that this first Cabinet Council of farmers in Ontario was held in the simple, unadorned quarters of the U. F. O., over the Farmers' Co-operative Store on King Street, East, where all the preliminary gatherings were held with the farmers and labor representatives were arranging the joint party for the legislature.

It is thought that amongst the first matters given attention by the government will be the question of investigating the Board of License Commissioners, as asked by Chairman J. D. Flaherty, as asked by Chairman J. D. Flaherty. The appointment of the government representative on the Provincial Hydro-Electric Commission probably will be made at an early period, and it is expected that Lieutenant-Colonel Carmichael, minister without portfolio, will be the appointee. Another question which will have to be dealt with before long is the fixing of the date for the meeting of the legislature which will not likely be called until next February. One of the things to be done at the first sitting of the legislature will be to create the portfolio of minister of mines, pending which Mr. Mills will be without portfolio.

Mr. Drury professes to be confident that his government will be strong enough to carry on. He said tonight that half a dozen members of the two old parties had assured him that they would stand by the government on any question of confidence action. The question of bye-elections has not been dealt with yet by the premier. He and Mr. Doherty, and Mr. Roney will have to find seats.

The Hearst cabinet had farewell to office today, when Sir William and his late colleagues held final cabinet council.

H. Hartley Dewar, K. C., M. P., P. leader of the Liberals, said today he was officially recognized as the leader of the opposition, and that he was occupying the quarters of the leader of the opposition at the parliament building. Mr. Dewar said he had not conferred with Mr. Drury.

Rumanian Gov't Consents To Sign Peace Treaty of St. Germain

Paris, Nov. 13.—(Havas).—According to the Presse De Paris, the session of the Supreme Council had just closed today when Victor Antonescu, Rumanian Minister to France and General Comand, former Premier of Rumania, transmitted to the French Foreign Office a telegram from the Rumanian Government, sent November 6th, but which only reached Paris Wednesday. The telegram, says the newspaper, announced that Rumania had decided to sign in its entirety the Treaty of St. Germain without enforcing reservations on the article concerning minorities, but would demand an understanding with the parties of the compact as to a friendly spirit in the application of this article. The Council was unable to deliberate on the communication.

A Foreign Field Of White Crosses

The Graveyard of the Allies at Vladivostok, Siberia, Described by a St. John Nursing Sister—How the Resting Place of Canadians was Cared for.

"Some corner of a foreign field Which is forever England."

This substituting "The Empire" for "England" might be the inscription at the gates of the Allied soldiers' graveyard at Vladivostok, of which Miss Frances Hanington, recently returned from serving in the American Army Medical Corps as a nursing sister, tells what the Empire stood for and how it is linked together by these graves all over the world.

Opposite the Allied graveyard is the plot where the Czechs are buried, and here is a tall shaft topped with the national bird of the people—a falcon—as a memorial to their brave men.

Sister Hanington, who left for New York yesterday, wears on her uniform three ribbons, the Victory, Allies ribbon and a special ribbon for foreign service. On her sleeve are two gold stripes for the year's service with the American army.

She has been visiting her mother, Mrs. A. H. Hanington, Duke street, St. John, N. B., and while in the city was warmly welcomed by many friends.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excess hydrochloric acid in the stomach creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the lining of the stomach, often leading to gastritis accompanied by nervous stomach ailments. Food ferments and sours, creating the distressing gas which distends the stomach.

IF THIN AND NERVOUS, TRY PHOSPHAT

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless propositions and treatments which are occasionally being advertised for the purpose of making thin people fleshy, veering arms, neck and bust, and placing ugly hollows and angles the soft curved lines of healthy beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply the deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists and a guarantee of satisfaction or money back. By feeding the nerve direct and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, full eyes open to brighter, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 16 pounds and never before felt so well."

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, full eyes open to brighter, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 16 pounds and never before felt so well."

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ailments. Food ferments and sour, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often afflicting the heart.

It is the worst of folly to suspect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acid. Instead get from any drugist a few ounces of Blaud's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Blaud's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

TENDER GUMS A WARNING

Beware of gum tenderness that warns of Pyloritis. Four out of five people over forty have Pyloritis—many under forty also. Loosening teeth indicate Pyloritis. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infected the joints or tonsils—causing other ailments.

Forhan's positively prevents Pyloritis, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum discharge has already set in, start using Forhan's and consult a dentist immediately for special treatment.

IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often

due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerve directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 16 pounds and never before felt so well."

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Fat That Shows Soon Disappears

Prominent fat that comes and stays, where it is not needed is a burden; a hindrance to activity, a curb upon pleasure. You can take off the fat where it shows by taking after each meal and at bedtime, one Marmola Prescription Tablet. These little tablets are as effective and harmless as the famous prescription from which they take their name. Buy and try a case today. Your druggist sells them at \$1, or if you prefer you may write direct to the Marmola Company, 84 Woodward Ave., Detroit, Mich. You can thus say good-bye to dieting, exercise and fat.

THE COUNTY COURT

In the County Court yesterday morning Judge Armstrong passed sentence on Crawford, who pleaded guilty to the charge of breaking, entering and stealing from the store of T. Collins and Company, Market Street. His Honor, in sentencing the prisoner to four years in the penitentiary with hard labor, said that it was the worst case of youthful crime that had ever come before him, and that it was on account of Crawford's bad influence and it being a first offence for McMurray that the latter was allowed to go on suspended sentence. His Honor went on to say that he hoped that Crawford would learn a useful trade while serving his sentence and might have the latter reduced by good conduct.

The criminal business of the court having been concluded the civil docket was taken up. There were two jury cases entered—Crawford vs. Webber and Cairns vs. Mosher. Both were settled out of court. G. Earle Logan appeared for the plaintiff in the first named case and H. A. Powell, K. C. for the defendant. Wm. M. Ryan appeared for Cairns and Heber S. Keith for Mosher. There being no non jury cases the court adjourned sine die.

Thursday in lat. 39 19 N, lon 68 35 W. No particulars have been received regarding the cause of the wreck, but it is believed that the vessel, which was only 276 tons net and had a heavy cargo, was caught in the big storm of last week.

To the Protestant People of New Brunswick

Some of the little boys and girls at present having all the comforts of a well-conducted private home in the Britain Street Protestant Orphans' Home, St. John.

YOUR ASSISTANCE IN CASH AND HOUSE FURNISHINGS—particularly the former—is respectfully asked in behalf of The Protestant Orphans' Home situated in St. John for the past 66 years, which is now broadening the scope of its work by the temporary leasing of the Martello Hotel in the western part of the city.

THE PROTESTANT ORPHANS' HOME is an old familiar and very worthy institution with hundreds of splendid citizens, male and female, to its mothering credit. It is now in need of funds to pay the rent of the additional building, in which 85 more parentless children may be cared for, and to renovate and furnish it costly and homelike.

TO FEED, CLOTHE AND HOUSE THESE EXTRA KIDDIES will take many additional dollars and in spite of Victory Bonds and other righteous claims upon the people's funds just now the appeal is made widespread throughout the province, for the Protestant Orphans' Home conducted under provincial charter, and is open to all N. B. orphan children of the Protestant faith.

MARTELLO HOTEL, THE NEW ANNEX TO THE OLD ORPHANAGE is practically brand new, with modern heating and plumbing, nicely renovated; bright, airy, and unquestionably healthful and pure. Medical experts say it is ideally located and sanitary throughout. The building is surrounded with spacious lawns and it is located on a public park, Queen Square, (W. E.)

A SPECIAL WARD FOR INFANTS OF ALL AGES, is being furnished in the Annex Home and with the greatly increased facilities the work and scope of the orphanage will be more than doubled. All this will be but a stepping stone to the directorate's scheme for a magnificent central institution on the most modern lines in a short time, this being the ultimate aim of the present expansion.

PLEASE REMEMBER THIS IS THE OLD ORIGINAL PROTESTANT ORPHANS' HOME OF BRITAIN STREET, St. John, and well-wishers and intending contributors should not confuse it with any other similar movement at this juncture. Having alone been caring for the Protestant Orphans of New Brunswick for over three score years, the institution merits the whole-hearted assistance of the community in this day of its expansion and greater effort.

600 CONTRIBUTORS HAVE KEPT THE ORPHANAGE GOING IN THE PAST. SURELY NEW BRUNSWICK CAN DO BETTER THAN THIS?

THE FARMERS' PLATFORM.

In view of the growing strength of the Farmers' movement, their programme in the field of national politics is of interest. The United Farmers of Ontario, the Grain Growers of the West, and the United Farmers of New Brunswick are standing on a common platform, of which the principal planks are:

(1) An immediate and substantial all-round reduction of the customs tariff.
(2) The reduction of the customs duty on goods imported from Great Britain to one-half the rates charged under the general tariff, with such further gradual uniform reductions in the remaining tariff on British imports as will ensure complete free trade between Great Britain and Canada in five years.

(3) The acceptance of the reciprocity agreement of 1911 and the placing of all foodstuffs not included in the agreement on the free list.
(The Manitoba Grain Growers and the United Farmers of Ontario also demand that any further reduction of the tariff of the United States towards Canada be met by a similar reduction of the Canadian tariff towards the United States.)
(4) The placing of all agricultural implements, farm machinery, vehicles, fertilizers, coal, lumber, cement, illuminating oil, and of all raw materials and machinery used in their manufacture on the free list.
(5) The immediate extension to Great Britain of all tariff concessions granted to other countries.

This platform was drawn up by a committee, of which Hon. T. A. Crerar was a member. It has the appearance of being the handwork of politicians rather than of the straight-forward farmers. It is as indefinite as the Liberal platform, and it promises the farmers a lot of things they already have—a favorite device of the politicians. The promise of an all-round reduction of the customs tariff may serve as an election cry, but it may be doubted whether a Farmers' government called upon to bear the responsibility of running the country's affairs would make any sweeping reductions. If the Farmers' government looked into the matter they would find that the Canadian farmer sells about eighty-five per cent. of his products in the home market—a market which has been created by the development of our manufacturing industries. And they would realize, too, that with the American manufacturer now utilizing cheap black labor on a vast scale, as well as cheap foreign-born labor, they might soon, if given free access to our markets, cripple our manufacturing industries, and destroy the Canadian farmer's home market.

The wisdom of the framers of the platform in promising "the acceptance of 1911" and the placing of foodstuffs not included in the agreement on the free list" is open to serious question. Conditions have changed greatly since 1911, when the Canadian people emphatically rejected reciprocity, and the change has abolished any arguments there may have been for reciprocity. Owing to the war the United States has become an immense exporter of foodstuffs, compared with what she was in 1911. Under reciprocity now the western grain growers might sell a considerable quantity of the better grades of hard wheat to America, but the general farmer would have good reason to fear the competition of America's big surplus of foodstuffs in his home market.

As regards the fourth plank, Mr. Crerar and his committee must have known—if they knew enough to frame a platform—that practically all the raw materials used in the manufacture of farming implements (when not produced in Canada) enter the country free of duty, or subject to a drawback of ninety-nine per cent. As for the fifth plank, it is in the present situation at least mere patriotic buncombe, for there are no tariff concessions which are not accorded to the Mother Country.

It may be inferred that the purpose of Mr. Crerar's committee was to suggest that a reduction of the tariff would bring down prices and the cost of living. But nobody is in a better position to judge the validity of that idea than the farmers themselves. Most of the basic foodstuffs are now on the free list, but that has not kept the cost of living from soaring. Wheat and wheat flour have been placed on the free list, but the price of bread only continued to advance. Since grade cattle were placed on the free list, the price of beef has shown no downward tendency. Since potatoes, potato products and desiccated potatoes were placed on the free list, have prices fallen?

And has free trade in lumber benefited the farmer? Since 1907 lumber has been on the free list, or of any rate the following descriptions of lumber: Blocks in the rough; sawed boards, planks, deals, and other lumber when not manufactured other than dressed on one side only; handles, throwing mud at others."

heading staves and shingle bolts in the rough; spokes and fellows of hickory or oak, rough sawn or bent to shape but not planed or smoothed; fence posts, firewood, and hop-poles, laths, logs, and round, manufactured lumber, pallings or pickets, sawn or split only; shingles and wagon blocks in the rough.

THE SCUTTLED NAVY.

Germany applauded the sinking of German fleet interned at Scapa Flow, and now Germany will be called upon to pay the piper. The decision of the Supreme Council of the Allies to hold Germany responsible is not surprising. A Government is responsible for the deeds or misdeeds of its servants, and whether or not the Berlin Government ordered the scuttling of the ships is immaterial.

That it should be reported that the British Government has accepted responsibility to her Allies for the future to prevent this act of sabotage is, however, rather surprising. While the Supreme Council had entrusted the guardianship of the surrendered ships to the British Navy, conditions had been fixed that prevented effective measures against scuttling.
Great Britain has undertaken that France shall not suffer from the sinking of the warships which should have been her share of the spoils. France was to have four or five dreadnoughts to replace the units on which she abandoned work when war broke out in order to manufacture guns and munitions for the Allies. If the ships in Scapa Flow cannot be salvaged at Germany's expense, France will be compensated by older dreadnoughts still to be handed over by Germany. Most of the Allies are doubtless better pleased that they will be able to command the value of the ships.

CANADA'S NAVAL POLICY.

Lord Jellicoe, who has arrived in Canada, will give the Government the benefit of his advice as to a permanent naval policy for the Dominion. It is understood that the main features of the proposed naval policy are pretty well worked out. Its basis was settled in London last year when Sir Robert Borden and other Ministers had many conferences with the heads of the Admiralty. But there are still details to be considered, and these will be settled by the Government, after conferences with Lord Jellicoe.
The working out of a complete scheme may take some time yet, but it is expected that the Government will be able to present its policy in detail at the next session of Parliament.

At present the Government is giving a great deal of attention to the development of its mercantile marine, mainly with the object of expanding the export trade of the country, and assisting the reduction of the big war debt. Already it has a considerable fleet of merchant ships in being, and the new boats are now carrying Canadian products to South America and other distant markets where previously Canadian products were unknown. Its shipbuilding programme now in progress will give Canada a fleet of fifty odd new freighters ranging up to 11,000 tons, and there seems a possibility that this programme will be enlarged to provide for the building of still more ships in this country. With the ships which the Government will take over from the Grand Trunk, the Government Merchant Marine will be one of the most important features of its kind afloat. Operated in conjunction with a vast railway system they should assure a very considerable development of the foreign trade of Canada, and the progress of our agricultural and manufacturing industries.

INVESTIGATION NEEDED.

The Fredericton Gleaser says: "The Provincial Government has decided not to proceed further in its action against the Hon. J. K. Fleming through which it sought to have certain moneys returned. This is the natural result of a long drawn out affair which had its start in the efforts of the present Government to play politics. Now that the purpose cannot be further served, action is abandoned. There have recently been some rumors as to actions against the present St. John & Quebec Railway Company, or members thereof, in which the public will be quite interested if a settlement is not soon made at the expense of the province. These actions, it is said, will, if settlement is not effected, let in a ray of light upon methods recently employed by the purist friends and hangers-on of the Provincial Government; and it may be that the ray will be let in upon the methods whether the actions proceed or not. The Foster Government has devoted its energies almost wholly to efforts to discover and make known the weaknesses of its predecessors; and now the time is arriving when the public are likely to hear much of interest of the weaknesses and the irregularities of the men who gave up so much time to dressing on one side only; handles, throwing mud at others."

BUY VICTORY BONDS.

Canada offers a better inducement to investors than does any bank. Victory Bonds pay 5 1/2 per cent. interest. The average bank only pays 3 per cent.
Nearly twice as much interest is obtained from the same sum invested in Victory Bonds as in the savings bank.
If you have \$100 and you put it in the savings bank at 3 per cent. in 15 years you will have \$45 interest.
But if you had put it into Victory Bonds, your interest would have amounted to \$82.50.
It ought to be an easy choice. Which do you prefer—\$45 or \$82.50?
Buy Victory Bonds.

WHAT THEY SAY

I. W. W. Diet (The Review).
"You cannot pacify hungry men with high-sounding platitudes, or feed un-nourished children with academic philosophy," says Acting President Lewis of the United Mine Workers. But he fails to explain how the nourishment of the children is to be improved by their fathers working six hours a day instead of eight, or five days a week instead of six. Of platitude it is at least to be said that they don't directly cut down the food supply.

"Then There Was None."

(New York Commercial.)
Sixty magazines have gone away from New York for their printing because of the labor trouble here. Some of them will not return. Other business has left New York also for similar reasons. When the strikes are over the men will find their jobs gone and will have to look elsewhere. A man was once admonished for looking for a gas leak with the aid of a match. His reply was that he had been doing it for a long time and "hadn't" but that there was an explosion later there was an explosion. Labor has been trying to see how far it could go without an explosion.

Selfish and Cynical.

(Louisville Courier-Journal.)
The President would have been a striker had he not been upon his sick bed, declared the strike "wrong morally and legally." It is, functionally, a strike to cause a fuel famine and establish the supremacy of a mere faction of the population upon the establishment of which democracy would be destroyed as surely and as wholly as if that class wore Prussian helmets or American silk hats instead of the miner's cap. It is a strike called in the hope of proving the power of an autocratic minority, which would be, if successful, as selfish and as cynical as was the military autocracy of the late German Empire.

Irreconcilable Traits.

(Yorkshire Post.)
Two traits in German character which it is difficult to reconcile are the tendency to mass brutality, and the love of music and the drama. They seem antagonistic. The one is barbaric, the other refined and intellectual; yet, through their ages, and the highest education, the more deliberately cruel and vicious did the German people display themselves during the war. Now that the war is over, and notwithstanding that all their barbarities have contributed to their own undoing, the Germans are filling their theatres, nightly and finding their own emancipation from the misery of defeat and the distraction of internal politics.

THE OLD-FASHIONED MOTHER.

(By Mrs. C. Montagu Ward.)
I have lived my young life
She has here all before her,
That is why I stay at home,
Sit here in my big chair and read or write.
Yes, I was invited to the gala opera to see the queen.
When I'm asked to a concert or the play I say
Give my ticket to one of your friends,
And this makes me happy all the day.
Because I love my darling daughter,
I want her to enjoy life while she is young.
Enjoy life in every way that's proper,
Spill her? Make her selfish? Not a bit!
She begs me to join the party! God bless her!
How much jollier to enjoy a gallant escort.
With courtly manners and clever repartee.
Than little mother, who needs as much attention.
With her nervous jumps as the motor speeds along.
And my eyeglasses will fall off when they ought to stay on.
Ah, no I have lived my young life.
And now I am living life to its full,
For my darling daughter comes to me
And tells me all about her job in life.
Tells me far more than I could ever see.
She will say, "Oh mother, I wish you

STOCKING BINS OF C. N. R. ELEVATOR
ort of stocking up the bins at the C. N. R. grain elevator, Reed's Point, began Wednesday, and by yesterday afternoon over 40,000 bushels had been stored away.
Manager Smith says there are on the way now consignments of grain from the West aggregating 525,000 bushels, which is 25,000 more than the capacity of the elevator. Steamers for grain are already en route.

Basket Ball Is Very Popular Here

Basketball is now in full swing in this city and a considerable programme of games has been mapped out for the various leagues during the winter months.

Three games were played in the Y. M. C. A. High School League yesterday afternoon, resulting in victories for the Thomas, Robinson and Jones quintettes. The scores were:

Thomas (5), Secord, Bomar, Spang, Wilson.
Current (4), Conley, Hollis, Holden, Williams.
Robinson (5), McMarvey, Ellison, Wilson, Anderson.
Robertson (3), Lee, Stamer, Ryder Oldfield.
Jones (14), Rockwell, Hart, Anderson, Hayes.
Pattison (4), Potter, Holder, Fowler, Johnson.

Two senior games were played last night, when Pendleton defeated Copp and Thorne outplayed Ryan. The scores were:

Pendleton (32), Long, White, Sweets, Marshall.
Copp (19), Cochrane, Turner, B. Thorne (19), McKee, Hoyt, Nixon, Turner.
Ryan (13), Dykeman, Crowley, Slocum, Christie.

Wednesday night the Business Boys scored the final victory over the High School basketball team at the Y. M. C. A. by 13 points to 10.

New York, Nov. 13.—The New York American Baseball Club announced today the purchase of Pitcher Robert McGraw from the Boston Americans for the waiver price. McGraw was sent by the Yankees to the Red Sox last August in the deal which brought Pitcher Carl Mays to New York.

BAD COLD LEFT HIM WITH BRONCHITIS

However slight a cold you have you should never neglect it; if you do it can have but one result. It leaves the throat and lungs, or both, affected.

Bronchitis is one of the most common afflictions of a neglected cold, and neglected bronchitis the most general cause of consumption.

Dr. Wood's Norway Pine Syrup is just the remedy you require to cure the throat and lungs, and stimulates the weakened bronchial organs, allays irritation and subdues inflammation, soothes and heals the irritated parts and thus prevents it becoming chronic.

Mr. R. P. Sundblad, Francis, Sask., writes: "I had a very bad cold which left me with bronchitis. I tried several cough remedies and oils of all kinds, but they all failed. At last I got Dr. Wood's Norway Pine Syrup and after using two bottles I have never had a sign of bronchitis since. I therefore can honestly recommend it for coughs and colds."

Don't accept a substitute for Dr. Wood's. The genuine is put up in a yellow wrapper; 3 pine trees the trade mark; price 25c and 50c. Manufactured by The T. Millburn Co., Limited, Toronto, Ont.

Trust the people was the battle-cry of the U.S.O. Socialist-Labor alliance in its appeal to the province. If the U.S.O. Socialist-Labor alliance had undertaken to trust the people with the name and address of its leader, the United Farmers and the Socialist-Labor party would not have carried twenty-five seats in the new Legislature.

Ontario never voted, and Ontario never would vote for a Drury Premiership if the architects of that Premiership had dared to trust the people as an alternative to a Hearst Premiership.

Dr. Cody Decides Wisely. (Farmers' Sun.) The Minister of Education and St. Paul's has acted wisely in declaring that he would not accept the office of Minister of Education in the new Government, even if that post were offered him.

The decision is a wise one, from a personal standpoint, because no such offer as that spoken of is likely to be made. Dr. Cody has shown wisdom from a public standpoint because it is not in the interest of the people that he should continue to serve as Minister of Education.

In the first place, Dr. Cody has the city and university point of view in educational matters. What Ontario requires at the head of the Education Department is a man who has a clear knowledge of the needs of rural as well as urban people, and whose chief interest will be in the ninety per cent odd of our lads and girls who never reach the university, rather than of the few who do pass on to the highest seat of learning.

In the second place, Dr. Cody's purpose, more or less openly avowed, was to make the public schools of Ontario a means of imperialistic propaganda. These schools should be Canadian schools for the development of the Canadian idea, imperialism, as a Calgary paper recently well said, means war. Canadianism means peace and the well-being of humanity.

It is well for Ontario that a change is being made before a militant cleric has had opportunity of repeating in Ontario as a whole the work that former Chief Inspector Hughes carried out in this city in the making of a lot of lingo out of the young men and women whose early education was largely directed by him.

Mon. Jas. A. Murray Again Named Leader. (Frederickton Gleaner.) The Provincial Opposition Convention, held at St. John recently, again named Hon. Jas. A. Murray the party leader. The convention was a large gathering and admirably representative of the party throughout the province. It was also exceptionally enthusiastic. Mr. Murray was practically the unanimous choice of the party as represented at the convention, and had the election taken place earlier, before many of the delegates who were favorable to Mr. Murray were obliged to take the evening trains to get to their homes, the vote of the party's choice would have been much larger. The election of Mr. Murray by such a great vote of a thoroughly representative convention is more than a personal triumph; it is more than a hearty party endorsement of his course; it is also an expression of confidence in his leadership and followers in the Legislative Assembly. As at all other party conventions, there was naturally some criticism, but in this instance the criticism came only from a section of the St. John City representation, and was probably

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Inspired more by the personal ambition of those who took part than by regard for party or public welfare; and now that there can be no doubt as to the strong preference of the party generally, there will be less disposition or inclination to continue an attitude not broadly based. In the election of Mr. Murray, in the hearty reception accorded, there is also the party endorsement of his lieutenants who were condemned by the vicious report of a crude partisan commissioner appointed for mere political purposes. From a Party standpoint the convention was eminently successful.

A Safe Water. (Calgary Herald.) Grain men and the farmers are agitated about the proposed lifting of the export embargo on wheat shipments and opinion is divided as to what effect such action would have on the price in the United States. It is a safe water that should there be any considerable quantity of Canadian wheat pass over the border the United States price on the markets there would come down. American millers are not fool.

There can be no beautiful, healthy, rosy-cheeked, steady-nerved woman without iron. When the iron goes from the blood of women, the roses redden from their cheeks—their chins and nostrils redden. I always insist that my patients take organic iron—Nuxated Iron—(not metallic iron which often corrodes stomach and does more harm than good). Nuxated Iron does not blacken nor irritate the teeth nor upset the stomach. It will increase the strength and increase of weight, nervous, irritable, nervous, hysterical women in two weeks' time in many cases. I have used it in my own practice with most surprising results. WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

NUXATED IRON

Come! Here's New Health and New Life

Remember that your health is your most valuable possession. It is health apart from the misery it causes, deprives you of your rightful enjoyment and handicaps you in your daily duties. But good health—genuine, glowing health—can be yours if you take Wincarnis. Because it possesses a four-fold power in creating the health you need.

Wincarnis is a tonic, a restorative, a blood-maker, and a nerve food—all in one. Therefore it promotes new strength, new blood, new nerve force and new vitality. That is why over 10,000 doctors recommend Wincarnis. And it is also the reason why you can take Wincarnis with the certain knowledge that it can give you new health.

If you are weak Wincarnis will give you new strength. If you are anemic Wincarnis will give you new rich red blood. If you are nervous Wincarnis will give you new nerve force. If you are run-

down, Wincarnis will give you new vitality. Wincarnis has been famous in Europe for a third of a century. Thousands have testified that it has restored them to health and strength. Don't confuse it with the many inferior preparations of apparently similar nature. Buy Wincarnis itself, the tonic that has been successfully marketed for nearly 40 years.

FOR PURCHASE SHELLS FOR CANADIAN CREWS

Toronto, Nov. 12.—At a meeting of the executive committee of the C. A. A. O. negotiations were commenced for the purchase of the necessary shell boats for the 1920 Olympic crews, and every endeavor is being made to secure these boats in England.

The committee were very optimistic as to the available material for the crews. These will probably be chosen at the 1920 Canadian Henley regatta.

Joseph Wright, of Toronto, has been requested to act as coach for the crews and no man is better fitted to bring a crew together and into perfect condition than Mr. Wright. It is understood he will accept.

Columbus, Ohio, Nov. 12.—The Federal Prohibition Amendment was defeated by Ohio voters by the wet majority of 542, according to final official figures announced by the secretary of state.

MARKET REPORTS

STOCKS, BONDS AND PRODUCE

CALL RATES BROKE AND STOCKS WENT UP WITH BOUND

Rates Reached Normal and is Believed to Mark the Passing of the Stringent Money Period.
New York, Nov. 13.—When call money rates broke to six per cent. in the final hour of trading the stock market rebounded today from its low levels and closed at appreciable advances throughout the list. Trading was heavy before the closing and many stocks, notably Motors, Oils, Steels, Equipments, Affiliated Industrials and a score of miscellaneous specialties showed gains for the day of from five to twenty points. Sales for the day approximated 2,300,000 shares. Rates for call loans held at 15 per cent. until about 2 o'clock, then they broke to 12 and rapidly went to 6, the normal rate. This was believed to mark the passing of the stringent money period.
Leaders in the railway which followed were the issues which broke most severely yesterday and the day before. The market was steeper at the opening today but the initial high rates for call money caused an avalanche of selling in the next hour or two. Factors which contributed to the lower rates, were the lending of money by brokers who offered their surplus funds, and announcement from Washington that the Federal Reserve Board had taken no action on credit conditions here.
One of the leaders of the spirited rally was General Motors, which opened at a fifteen point rise, only to lose its advantage and finally advanced by leaps and bounds to 325, an extreme recovery of forty-five points. Mexican Petroleum in which spirit seems at most altogether lacking yesterday, rose over thirty points.
The extent to which the short interest involuntarily participated in the rebound by covering of contracts is naturally a matter of debate, but the market's recuperative power suggested that a small part of the recent reversal was due to bearish aggressions.

SPECIAL BONUS TO SHAREHOLDERS OF ROYAL BANK

Will be Made on Dec. 20th to Commemorate the 50th Anniversary of the Founding of the Bank.
Montreal, Nov. 13.—To commemorate the fiftieth anniversary of the founding of the Bank, a special bonus of two per cent. has been declared by the Royal Bank of Canada and will be paid on December 20th to shareholders of record at the close of business on November 29th.
This will make a total distribution for the current year of fourteen per cent.
November 30 is the end of the Royal Bank's year, and it is understood that the annual statement, which will be published next month, will show very satisfactory results.

PRICES WENT UP ON MONTREAL

Montreal, Nov. 13.—Wild buying drove prices upwards on the local exchange today. Weakness was still prevalent in the morning, but the afternoon saw rapid recovery. Paper stocks were prominent. Brompton touched 7 1/4 before noon and closed at 7 1/4, a net gain of 2 1/4 points. Laurantide gained six points to 237, Riordon, 5 points to 146. Spanish River 3 points to 69 1/4. Wayagamack netted 5 1/2 points to 81. Steel of Canada rose to 74, netting 5 points. Iron rose to 70 1/2. Atlantic Sugar was down to 70 in the morning and closed at 73 1/2. Loyal went as low as 125 and closed 5 points higher. Total sales listed, 37,295, unlisted, 550; bonds \$447,000; vouchers 100.

Maltese Cross Tires

Possess the Limit of Reliability

When you drive on slippery pavement you want tires that will hold your car safe. The tire that is skid-proof is the tire motorists are seeking. Maltese Cross Tires have the most effective non-skid tread yet devised.

When you turn off the asphalt—on to a cobblestone, clay, mud, macadam or fresh cut stone road—you want sure, dependable service. Maltese Cross Tires give it.

Many tires will stand up well under favorable conditions—city pavements, for example. But Maltese Cross Tires yield big mileage—ALWAYS—on good roads or bad. And the reason is the plain, logical reason that makes any product superior, year after year—better and better quality.

Middle Aged Women

Women should take warning from such
symptoms as heat flashes, shortness of breath,
excessive nervousness, irritability, and the
blues—which indicate the approach of the
inevitable "Change" that comes to all women
nearing middle age. We have published vol-
umes of proof that Lydia E. Pinkham's Veg-
etable Compound is the greatest aid women can
have during this trying period.

Read About These Two Women:
Fremont, O.—"I was passing through the critical period
of life, being forty-five years of age and had all the sym-
ptoms incident to that change—heat flashes, nervousness,
and was in a general run-down condition, so it was hard
for me to do my work. Lydia E. Pinkham's Vegetable
Compound was recommended to me as the best remedy
for my troubles, which it surely proved to be. I feel bet-
ter and stronger in every way since taking it, and the annoy-
ing symptoms have disappeared."—Mrs. M. Goddard,
225 Napoleon St., Fremont, Ohio.

**Urbana, Ill.—"During Change of Life, in addition to
its annoying symptoms I had an attack of grippe which
lasted all winter and left me in a weakened condition. I
felt at times that I would never be well again. I read of
Lydia E. Pinkham's Vegetable Compound and what it did
for women passing through the Change of Life, so I told
my doctor I would try it. I soon began to gain in strength
and the annoying symptoms disappeared and now Veg-
table Compound has made me a well, strong woman so I
do all my own housework. I cannot recommend Lydia E.
Pinkham's Vegetable Compound too highly to women
passing through the Change of Life."—Mrs. FRANK

AROUND THE CITY

Door prize tonight, Cathedral High Tea, Vacuum Sweeper.

QUARTET OF DRUNKS. At the police court yesterday morning four drunks pleaded guilty and were remanded.

BOARD OF TRADE. The Board of Trade yesterday received an inquiry from Trinidad concerning manufacturers of hardware and wire nails here, and from Atlanta, Georgia, asking for general information about the city.

THE GIRLS CLUB. The regular meeting of the Girls' Club of St. David's Church was held last evening. A social time with music and refreshments was enjoyed. This will be the last meeting to be held in St. John's church as the next Thursday the new building will be opened.

INJURED MEN IMPROVING. John Thompson, injured by a powder explosion at the spoon plant quarries on Tuesday, was reported to be resting comfortably at the hospital yesterday. The patient's eyes are bandaged following an operation performed on Wednesday, but it is believed that the danger of his losing his sight has been eliminated.

Door prize tonight, Cathedral High Tea, Vacuum Sweeper.

ADDRESSED THE BOYS. C. C. Kirby, chief engineer of the C. P. R., in this district, gave a most interesting address last night on engineering to the High "Y" Club in the Y. M. C. A. rooms. About 26 boys were present, with the president, Thomas Robinson, in the chair. Refreshments were later served by the boys themselves.

WAS ENTERTAINED. The Y. M. C. A. of the Germain street church entertained the young ladies of the Philanthropic Club at a theatre party in the Imperial last evening and after the show they all went to the church hall where they had a pleasant social time and enjoyed refreshments. The evening was a great success.

SHIPS WERE SEARCHED. Complaints have reached the liquor inspectors that several ships coming into the harbor recently had on board a supply of liquor. Several ships were searched by inspectors McAlinh, Merryfield and Kerr but nothing was found except some medicinal wine which were for ship's stores. This information was given yesterday by inspector McAlinh.

Ten cents admittance to the Cathedral High Tea tonight gives you a chance to win a vacuum sweeper.

ENTERTAINMENT WAS GREATLY ENJOYED

Good Attendance Last Evening in Natural History Rooms When Concert Was Given in Aid of Charity.

Despite the inclement weather, there was a very good attendance at the concert in the Natural History rooms last night, and those who braved the storm to be present were surely repaid in pleasure for their discomfort during the journey.

Among the vocal solos were: Unfolding, June Hapture, The Bee, Ye Cupids and Graces, I Attempt from Love's Sickness to Fly, April, The Star and Maytime, by Miss Louise Knight; The First Rose, A Song of Old London, Irish Fiddlers, by Miss Freda Jenkins; violin solos comprising Liebesfreud, and Walter's Prize Song, by Miss Winifred Barked; and a piano solo, Grande Valse, by Miss Dorothy Hayward, who was accompanist of the evening.

The proceeds were for a charitable purpose.

Meeting of N. B. A. A. in Board of Trade rooms tonight.

COLLUM LODGE FAIR. There was a good attendance in the Orange Hall, Simonds street, last night to enjoy the music of the Dominion File and Drum Band and the many other features of the Collum Lodge Fair. The door prize, a bag of flour was won by James McAfee. Mrs. J. McAfee won a fruit cake as ladies prize for the bagatelle, while Mr. Ware captured the fender's prize, a bag of flour. In the bean bag contest a card receiver donated by W. H. Hayward was won by A. E. Kierstead and the ladies' prize, fancy writing paper, donated by the Schofield Paper Company was captured by W. Ramsey. A fortunate letter was present during the evening and this booth was very largely patronized. Tonight the door prize is a bag of coal donated by R. F. and W. F. Starr.

Engineers' Meeting Held Last Evening

St. John Branch of Engineering Institute of Canada in Session—Interesting Papers Read and Discussed—Next Meeting in December.

Last night's session of the St. John branch of the Engineering Institute of Canada was one of the largest held in the city.

After the routine business was transacted a very interesting paper on the Cape Bald Breakwater was read by Jeffrey Stead, A. M. E. I. C., Chatham, engineer of the public works department. Mr. Stead considered the process he described to be one that will supersede the ordinary crib work on wharves, especially since lumber has increased in cost and is difficult to obtain.

A discussion of the action of concrete in tide waters was entered into by those present, all tending to show that frost will cause the erosion of concrete below high water mark.

B. M. Hill, M. E. I. C., provincial road engineer, read a comprehensive paper on the highways of the province. He told of the history and development of road making right up to the present system and gave a detailed description of trunk, secondary and bye roads, as planned by his department. There are some 16,000 miles of roads in the province, he said, and not ten per cent. of that number have been located with an idea of efficiency from an engineering standpoint. The worst section are being gradually repaired until now the roads are in good shape and the whole system is being built up into first-class condition.

The plans of his department is to make sections of the roads nearer the centres of population permanent highways, after the trunk road is made passable. At present there are about 1,400 miles of trunk roads in the province, constructed at an average cost of \$5,000 a mile, and 1,800 miles of secondary roads at a cost of \$3,000 a mile. The evolution of the motor car and the auto truck has made new demands on road making and now roads that would last for several years are worn down in very short time by the motor truck traffic.

There are 500 cars a day on the Rothesay road alone, at ordinary times, and he thought that there would be an average traffic next summer of 3,000 cars on the streets of St. John every day, and their part in wearing down the roads is not inconsiderable.

Mr. Hill, in his very interesting paper, also touched on the St. Stephen St. John road, saying that the road was only bad in spots and would have attention with the other thoroughfares. He spoke of the Gondola Point road and described the wearing of the surface there, which, though under heavy traffic all the time, is as smooth as when the road was laid.

Cecil Kirby presided at the meeting and announced that the next session would be held on December 15, when a discussion of town planning would be held.

Competitive Plans To Be Called For

Competitive plans for a new municipal building on the present site of the court house, and also plans for a building to take in the site of the fire station and the registry office will be called for if the resolution adopted by the building committee yesterday is endorsed by the county council. The committee also decided to secure the advice of the city building inspector as to the character of the roof that might be constructed on the present shell of the court house, and if his advice is favorable tenders for the work of repairing the building may be called for to find out what it would cost.

The committee had been called together because notices had been sent out asking for tenders to tear down the old court house and remove the material. But no tenders were put in, contractors evidently thinking it would not be worth while making estimates.

It is probable the question of doing anything will remain in abeyance till the next meeting of the county council, when there will be some new members from the parishes in attendance.

CATHEDRAL HIGH TEA IS LARGELY ATTENDED

Another very large attendance marked the Cathedral High Tea last evening. Supper was served to 510 persons and the total number who have been present during the week is 2,400. Up to this time last year the total was 2,775.

The door prize, last night, a mahogany serving tray, was won by ticket No. 34,839. Tonight's prize is a Vacuum Sweeper, and Saturday night a ton of coal.

The door prize at Iceland was won by No. 80. This afternoon from 2:30 to 4:30 will be Children's Day, supper will be served for them, and the City Cornet Band will be present. The fair closes Saturday night. At 10:30 o'clock the voting contest will close. The Juvenile City Cornet Band will be present, and the entire room will be turned into an ice cream booth at which three prizes may be won.

This afternoon will be Children's Day at the Cathedral High Tea, Y. M. C. A. Club, 1000 St. John. Doors will be opened at 2:30 o'clock and all the arrangements will be going. Supper served at 5:30.

MAZOLA. Call at Gilbert's Grocery—see French potatoes fried, Balleston Doughnuts cooked with the wonderful new cooking oil Mazola.

Pioneer Lodge Fifty Years Old

Event Will Be Celebrated Tonight by Grand Banquet in Clifton House—Largely Attended Meeting Last Evening.

A largely attended meeting of Pioneer Lodge No. 5, I. O. G. F., was held in their rooms, Germain street, last evening and a large number of candidates were initiated.

This is the fiftieth anniversary of the lodge and the event will be celebrated tonight with a banquet at the Clifton House.

It was fifty years ago, on August 25th, that Pioneer Lodge was the first lodge in New Brunswick to be initiated. The charter members were as follows: Robert G. Barnes, Alex. Robertson, B. T. Knollin, John Y. Blain, Christopher Armstrong, William Kennedy, William Hillman and W. J. Whiting. All of these gentlemen have passed away, the last being William Hillman who died in Boston some time ago. An officer of the lodge stated last night that probably Pioneer has produced more Grand Masters than any other lodge in the jurisdiction including R. B. Barnes, Alexander Robertson, Joseph Wilson, Gilbert Murdoch, Dr. James Christie, Andre Chausse, J. L. Stewart, Dr. A. D. Smith.

Members of Pioneer installed Peary, James Beaver, St. Andrews, Silas and Golden Rule lodges. It can also claim to be the parent lodge of Alberta Lodge No. 1, Calgary, Alberta, George Murdoch who instituted that lodge withdrawing from Pioneer to do so.

Victory Loan Now Looks Successful

Returns Show St. John Has Almost Achieved Its Objective—Members of Y. W. P. A. Have Opened Booths—The Provincial Returns.

Though the ladies of the Y. W. P. A. did not get their 35 booths in operation yesterday, the chief reason being the shortage of time at their disposal, they did get six ageing and no more alone managed to secure eight applications for Victory bonds.

The six booths are located at the Imperial Theatre, the Western Union building, King street, St. H. Hawker's store, Main and Paradise Row, R. B. Irons, Portland and Main; E. H. Robertson, Douglas avenue; Math, and Allan's Pharmacy, Fairville. The ladies are not content with staying in the booths and waiting for the people to come up and apply, but go out after the smaller investors, and are making a success of the undertaking as well.

Returns published below are mostly for Wednesday night's totals and it will be seen that St. John has almost achieved its objective. It is believed by the headquarters staff that the city and county is well over its objective now, and when the returns from the Million Dollar Club are made known, it is not impossible that the city may have a look-in at the German sub.

Many of the districts are going 50 per cent. to 100 per cent. over their objectives, so if St. John is to win premier honors it will have to better than it did last year, when the sum of \$6,125,000 was subscribed.

One of the outstanding features of the present campaign is the fact that it is really a big investor's proposition so far.

Last year the average investment was about \$250, this year the average is \$750. Last year there were 3,211 local applications for smaller bonds, this year the same applications number only 4,000.

Returns up to Wednesday night are listed below:

County	Amount	Applications
St. John	\$2,125,000	5271
Kings	350,000	623
Madawaska	107,600	663
Queens	138,500	158
Queens	27,000	47
Gloves	400,000	385
Gloucester Lower	10,000	18
Beauséjour	486,600	546
York	993,300	1373
Albert	332,000	192
Westmorland	936,550	1272
West	150,300	99
Northumberland	278,100	297
West	273,000	468
Victoria	151,500	163
Carleton	406,000	625
Charlotte	950,000	939
Total	\$9,175,900	18,227

CHILDREN'S AID SOCIETY MEETING

The monthly meeting of the Children's Aid Society was held last night in the Children's Home, A. M. Building being in use chair. There was a fine attendance and a great deal of business was transacted. A number of new cases were reported and action ordered in some of them.

The report of the agent, Rev. George Scott, showed that since the last meeting sixty-three letters had been written, sixty-three visits made, while six people called at the house in connection with the work. Six children were admitted to the Home, and one was placed in the General Fostle Hospital for the removal of adenoids.

MAY BE FISH SHORTAGE. St. John is facing a fish shortage today, as it is not believed that there is sufficient sea-food to meet the ordinary demands. Salmon is again on the market and retails at 25 to 50c. Haddock is on the market and retails at 15c. Halibut 25c.; mackerel 20c.; eel 20c.; herring 15c.; cod 15c.; kippered 15c. each; blonkers 5c. each; clams 5c. each; crabs 5c. each; scallops 12.5c a quart.

Were Banquetted At Union Club

Sir Frederick Lewis, Chairman of Furness Withy Co. Ltd. With H. C. Blackiston Were Honored Guests Last Evening.

One of the "biggest" men in the world of shipping was here yesterday in the person of Sir Frederick Lewis, London, chairman of the Furness, Withy Co., Ltd., and chairman and director of many other steamship lines, including the Prince Line, the Holder Line, and the Manchester Line.

Sir Frederick Lewis succeeded Viscount Furness as chairman of the Furness, Withy Company early in October of this year. He was born in 1870, and at the early age of thirteen entered in the present career, and started from the bottom of the ladder. Now he is one of the foremost figures in the entire world of the merchant marine.

He was accompanied by H. C. Blackiston, one of the directors of the Furness Line, with headquarters in New York, and manager of the company's interests in the United States.

Yesterday the two distinguished visitors were taken about the harbor in the company tug Neptune, inspecting the various port facilities and properties, and later motored to East St. John, where the engineers in charge of the construction work there explained the progress of the work and the operation of the dry dock and proposed terminals.

Last night Sir Frederick and Mr. Blackiston were the guests of the local representatives at a dinner in the Union Club. About twenty-five representatives of the leading city enterprises and shipping firms were also present, and a very enjoyable time was had. The health of the guest was toasted by Mayor Hayes, and Sir Frederick responded in his own genial way.

The noted visitors left on the midnight train for Halifax, where they will inspect the company property, as they have here.

Lady Lewis and daughter also arrived in the city yesterday, but went through on the noon train to Halifax.

County Council Finance Committee

At a meeting of the finance committee of the county council yesterday it was decided to recommend the construction of an annex to the Public General Hospital to provide accommodation for a modern kitchen. It was estimated that the extension, with the necessary equipment would cost about \$15,000. The proposal involves equipping the kitchen with up-to-date appliances such as have been installed in the St. John County Hospital. A small service lift to the kitchen would be required, and steam tables would be needed in the ward parlors. All the kitchen equipment would be portable.

Commissioners of the hospital were present at the meeting and urged the need of an annex for kitchen purposes, and that is, that when these are all commodated in any other branch of the building, the present facilities were somewhat taxed.

The finance committee also recommended the purchase of a filing cabinet for the county treasurer's office.

Will Present Bill To Legislature

Cecil C. Kirby presided at a meeting of the provincial, executive of the New Brunswick Association of Professional Engineers last night, when it was decided to present a bill to the provincial legislature asking that engineers, civil, mining and civil engineers and those engaged in any other branch of the calling, be placed on the same scale as the same as law and medicine.

The bill will permit only qualified engineers to practice in the profession, and in this connection the committee in charge of arrangements is trying to get in touch with all electrical, mechanical, mining and civil engineers and those engaged in any other branch of the calling.

Members from all parts of the province were in attendance and the meeting was a most interesting one.

NOVELTIES IN SEPARATE SKIRTS

are now being shown at P. A. Dykeman's. Unusual values, too, every one of them. One thing is certain, and that is, that when these are all sold it will be impossible to buy them again to sell at such a price for a long long time to come.

Especially smart designs in large plaids, navy so popular—come with row of buttons down the back. These are very special and being bought at a big discount we are able to offer them at \$9.95. The regular values are \$15.00. Pure Wool Cloth Skirts from the Oxford Woolen Mills, heather tweed effects, in Grey, Brown and Green, tailored styles with pockets. Regular \$15.00 for \$9.95.

A very extensive range of Navy and Black Serge in all sizes. Some are plain tailored styles, others have fancy yoke effect, from \$6.90 up. Accordian Pleated Navy Serge, trimmed with Black Military Strid is one of the newest models, priced at \$15.00. Also Black Serge styles in Navy and Black at \$14.75.

JUNIOR BOYS' SOCIAL. The Junior Boys' Boys at the Y. M. C. A. had a social last night when a permanent organization for the winter months was arranged and a motion picture exhibit and refreshments were enjoyed. Albert Angel was elected president of the club, and E. G. Innis was appointed secretary. The boys intend to take up a varied programme for the winter months.
