

Attempt to Rob a Bank at Waterville.

An attempt was made on the night of Nov. 21, to rob the National Bank at Waterville, Me. About midnight, as Geo. Vigue, private watchman, was going to the bank to lunch with the bank and town watchman, Augustus Wood, he saw two men coming from behind the bank building, who almost instantly attacked him, threatening his life if he made any resistance. He, however, while a pistol was held to his head, cried "murder," whereupon they gave him a terrible blow and fled. He fired twice at them without effect. Vigue's cry and pistol shots brought several to his assistance, who soon learned that Wood was missing. Being unable to find him a general alarm was given at 3.35, when a thorough search began, and he was found in a horse shed in the rear of the Catholic Church, bound hand and foot, gagged, blindfolded and with his ears filled with cotton. Wood states that he was met on Silver street by four men, one of whom said "Good evening you are the man we are looking for." Then all four attacked him, to kill him to the shed, two standing guard until the report of Vigue's pistol, when one left and soon after the other. Wood thinks that he could identify one, but nothing has been discovered to lead to their detection. The officers of the quiet, Waterville town are very much excited over the affair. All feel that a bold prearranged plan of bank robbery has been defeated when, but for Vigue, might have proved successful. It is thought that the men who contemplated the robbery went to Augusta. It undoubtedly was a daring attempt.

Maine Free Press, Nov. 18.

There was a heavy fall of snow Tuesday which gave further indications, if any were needed, that old Father Winter had come to stay. Prairie fires have been playing the mischief west of here. A poor settler, named Karmar, residing on the other side of Long Lake, had his whole place—house, barns, and grain—swept away by fire on Sunday. His loss is considerable.

News information brought by Mr. Geo. McPhillips, D.L.S., who returned from the north a few days ago, it is to be feared that the reports current of the spread of the terrible small pox amongst the Icelanders and Indians at Sandy Bar, are only too true. Mr. McPhillips left that on the 4th, at which time there were twelve Indians ill in one wigwam, and several Icelanders, one of whom had died, were prostrated with some disease, the exact nature of which was not then known. From letters since received by Mr. McPhillips from his father, who is engaged in laying out villages for the Icelanders, there can be no doubt that it is the small pox that is raging, and that too of a most virulent type.

Mails received now are ten days out from Toronto. The steamers and ferryboats are now in winter quarters.

Winnepeggers generally make good use of their time. Two young men were observed on Notre Dame street west, at a late hour last evening, putting the finishing touches on a chimney of a new house they were erecting—one holding the lamp and the other laying the brick.

A NEW WEAPON OF WAR.

According to the San Francisco Chronicle, another terrible instrument of war has been invented by a resident of that city. The new gun, patented by Leonard and De Vry, and christened "Peace Conservator," was exhibited at the Pacific Iron Works. The prompt action of the instrument, delivering seventy shots in four seconds, and ten hundred and fifty shots in one minute, through a thick oak barricade, proves that it is one of the most terrible death-dealing inventions ever known. The machinery is simple and easily worked requiring but few attendants, who are perfectly protected from their adversaries' bullets; and it can be transported with greater ease than an ordinary six-pounder. The bullets from this terrible machine, will, it is claimed, diverge 300 feet in 1,000 yards; the distance claimed at which it will effectively deliver shots—and the gun can be easily worked by any one person in any direction, or made to shoot almost solid.

The American Climate and the Voice.

Dr. LeRoy Browne, surgeon, in Her Majesty's Italian Opera, in a paper recently read before the London Medical Association on "the Voice as a Musical Instrument," says that the notion that our American climate is destructive to the voice is unfounded. People who never learned to sing properly may complain; but the well trained vocalists do not suffer. He also combats the idea that alcoholic stimulants of voice lozenges are beneficial to the singer. The latter are merely irritating, and the numerous pots of beer, which some celebrated operatic artists are reputed to indulge in, are useless to assist the voice. A glycerine lozenge, Mr. Sims Reeves states is useful, but on very rare occasions a small quantity of claret and water may be necessary; but all alcoholic stimulants are detrimental.

Wall Papers and Typhoid Fever.

An Englishman, several members of whose family had been sick with typhoid fever, had a room repaired, and found that there were no less than twenty-five wall papers already on the wall. The presence of this mass of decomposing paste and paper sufficiently accounted for the disagreeable smell that was always noticeable, although drains and water closets were well trapped.

To determine whether beeswax is adulterated with paraffin, heat the suspected material to 329° Fahr., with sulphuric acid. On cooling the paraffin, if any be present, will rise to the surface.

The Standard.

SAINT ANDREWS, DEC. 6, 1876.

LATEST NEWS.

The disturbing elements are still in agitation in Europe. The French Ministry have tendered their resignations.

Russia and Turkey are terribly in earnest in preparing for war. The Porte has sent Prince Gortschakoff a reply unfavorable to peace. The Russian regiments are being sent south. By the latter part of December 250,000 men be ready to cross the South. Russia has ordered 20,000,000 cartridges from the United States; and the Turks are erecting strong fortifications at several important points.

A frightful gale prevailed in the British Isles from the 2nd to the 4th inst., which caused damage to shipping, loss of life and other damage. A freight steamer, the Prince, foundered with all on board.

The U. S. Congress met on Monday last, and elected Randall (Democrat) Speaker. The situation in the South is unchanged and it is believed by Republicans and Democrats that the returns are false. It is generally supposed that Tilden is elected.

The President's Message was delivered yesterday, and there was much speculation as to how the Presidential contest would be treated. It is hinted that President Grant has expressed the opinion that Tilden is elected even without the votes of Louisiana or South Carolina.

The Lieut-Governor of Quebec is reported to be dying. The last rites of the Church were administered to him.

The position of the Bank robbers at Halifax is unchanged.

The Ontario Legislature is called for business on the 3rd January.

ANOTHER RAILWAY MIDDLE.—The fare of running the trains from St. Andrews three times a week was commenced yesterday. A few days will settle the matter, as we are informed legal measures are being taken to have the terms of the Act carried out in good faith. The train went yesterday within three miles of the connecting link, and returned without the mail at 4 p. m. It was, however, received by stage at 8 p. m. and promptly delivered by the Postmaster.

DEATH OF A ST. ANDREWS MAN.—We omitted to mention that Mr. Samuel Billing received the melancholy tidings of the death of his son, William, at Brunswick, Georgia, on the 13th of Nov., from yellow fever. He was a native of St. Andrews, popular among his companions, and respected by all who knew him.

We learn also that Mr. David Watson, another native of this town, was attacked by the same disease, but from latest accounts he was recovering. Yellow fever has been very fatal during the past season at the South, carrying off its thousands.

The weather for the past few days has been more like September than December. At this date last year the frost was intense and sleighs instead of carriages were used.

GREAT REVIVALS.—From late accounts we learn that the labor of those celebrated revivalists, Moody and Sankey, at Chicago, are wonderful and crowned with great success. Hundreds of professional men, merchants, mechanics and the laboring classes, are being truly converted. This is admitted by those outsiders who do not profess to be religious. The meetings are attended daily by thousands. There is now no question even among the irreligious that the labors of the evangelists are blessed.

The Charlotte County Agricultural Society celebrated its 57th Anniversary by dining at Kennedy's Hotel on Thursday evening last. The usual patriotic toasts and sentiments were given, speeches made and songs sung. Several old and familiar faces we learn were absent. Several of the members remained after 12 o'clock and devoted a couple of hours to celebrating St. Andrews Day.

CARD.—We direct attention to Dr. Grant's card in another column, and his intention to visit St. Andrews regularly. The Doctor gave every satisfaction to his patrons here.

THE SCIENTIFIC AMERICAN.—We direct attention of our readers and others to the Prospect of the Scientific American in our columns. It is a most useful and ably conducted journal. \$3.20 U. S. Currency per annum.

A WINTER PORT.

HALIFAX has been made the Winter Port for the Dominion. This however can only be for the present, for as soon as there is more direct connection by rail with the Upper Provinces, St. John, with its magnificent harbor and facilities; and its immense trade will surely be made the permanent Winter Port for the Dominion. Its claims cannot be ignored; among its numerous advantages may be mentioned that its harbor has never yet frozen, it is at least ten hours nearer Montreal than Halifax, in a more direct line, and is connected by rail with the United States and all the principal places in New Brunswick, and is destined to be Liverpool of the Dominion; and, when a Government is in office which will construct the Bale Verte Canal, St. John will stand unrivalled as a port on this continent. May that time be in the near future.

WITHDRAWALS.—The Hon. Edward Willis has resigned his seat as an Executive Councillor; and in the Nov. of the 1st instant, gives at some length his reasons for so doing. He concludes by defining his future course, as follows:—"Mr. Willis will continue to serve his constituents to the best of his ability. In the performance of that duty he will treat the Government according to its merits, approving its acts and measures when he honestly can, and co-operating cheerfully with other members in every well considered effort for the benefit of their common country."

CHRISTMAS ADVERTISEMENTS are now being published where there is any trade carried on, in the various Towns in the Province. Can our Merchants afford to let such a medium pass without availing themselves of it.

A BOSTON NOTION.

Almost anything can be bought for money enough, but one would hardly suppose that in a country whose government is based on a principle which ignores all rank, nobility and aristocracy, there would be sufficient business done in titles and patents of nobility to warrant the opening of an office for the purpose. However, there has been lately in a New York paper the following advertisement:

PERSONS desiring European titles of nobility, orders, medals and memberships of literary and scientific societies, address Amosson, 375 Tremont Street, Boston.

A New York man, Mr. Angell, saw this little notice, and thought he should like to know more about it. So he wrote to "Ambassador," and received this reply:

578 Tremont street, Boston, Nov. 14, 1876. D. M. ANGELL, Esq. Sir,—In reply to yours will state when the applicant has the necessary qualifications, I can procure any of the following titles, orders, &c.: 1. The hereditary title of Earl or Count for \$10,000. 2. Various orders of the cross of Knighthood, officer's cross, commander's cross, or almost any of the European orders from \$200 to \$10,000. The person who is decorated with any of these orders has the right to wear the gold cross and ribbons belonging to them. 3. Memberships of European literary and scientific societies I can procure for \$2.50. A gold medal and sash belongs to them also.

The countries from whence they come, but are prevented by the different governments who grant them, except in person. But I can answer you that they are genuine titles, orders, &c., and are given to the person decorated by the Ambassador of whatever country it came from. After a personal interview, I will give you responsible references. No money is paid until the titles are procured and given to the applicant.

Yours respectfully, F. C. STICKNEY. Mr. Angell thinks that the market price of the titles is too high unless the estates are thrown in, but it is surely a fine chance for those persons, who, while they possess plenty of money, have an uncomfortable sense that they have no nobility, and can only achieve it by purchase.

Maintinasse, Beaver, Nap & Seal Skins Cloths of superior quality, and Low Prices, at the "ALBION HOTEL." JOHN S. MAGEE.

DREAMING TO SOME PURPOSE.

Mrs. Allen of Calaveras, Cal., lives on the stage road between Railroad Flat and West Point, and she dreams strange dreams. On Oct. 24 her house was entered by a robber during her absence, and her watch and pocketbook were stolen. That night she saw in her dream a thief enter her house, take the watch, and follow the trail up the river. In the morning she whistled for her dog, mounted her horse, and followed the trail up stream. A ride of a mile brought her to an old abandoned quartz mill, and in the ruins she discovered the man she had seen in her dream. She accused him of the theft, but he stoutly denied having committed it. Dismounting and arming herself with a stout club, she coolly informed him that she knew he had the watch and money. She let loose the dog upon him, and dealt him a blow upon the head which felled him to the ground. She found her watch and her wallet in his boots. Mrs. Allen of Calaveras then went home.

LOVE OF THE OLD LAND.—Mary Maguire journeyed from Ireland six years ago, and settled in Bayonne, N. J., with her son John. He died, and she was sent to the Snake Hill Almshouse. Last week she returned to Bayonne, and begged for money to send her to Ireland, where she could be surrounded by her friends. She was over 70 years old. Chief-of-police Whiney procured her the passage money, and on Wednesday, the 23rd ult., visited the residence of a friend where the old lady was living.

She could hardly restrain her joy when told that he was to conduct her to the steamship. After she had laid farewell to the boatmen, and was on the threshold of the door she uttered a slight scream and fell to the floor. She died before medical assistance could be procured. Death, the physician said, was from excessive joy.—Boston Pilot.

Gen. MCKENZIE'S VICTORY over the CHEYENNE.

ABOUT TWENTY INDIANS KILLED.

New York, Nov. 29.—From details of the capture of a Cheyenne village on the north fork of Powder river on the 25th inst., it appears that the attack was made by Gen. McKenzie at the head of his column, the Indians having entrenched themselves behind the rocks. The village contained 200 lodges and perhaps 500 warriors. Gen. McKenzie's fighting force numbered nearly one thousand men. He lost one officer (Lieut. John A. McKenny of the fourth cavalry) who was killed in the first charge, and three or four privates and non-commissioned officers, besides having a dozen or more dangerously wounded. Our men behaved splendidly, exposing themselves perhaps a little to much at times. The valley in which the hostile village stood is about a third of a mile wide and its hillsides are steep bluffs of red sandstone with sufficient brush to hide a large force of Indians. We are camping on the battle field to-night, though guns are flashing from behind a hundred bushes still, and shell cries are heard whenever the leaves see a head, or think they have hit one. Most of our enlisted Indians behaved well at the start, but after the first heat of the charge, many of them relaxed into apparent indifference to everything except plundering the abandoned tapes of the Cheyennes, and trying to run off horses. The destroyed village was tolerably well furnished, and we captured about 250 ponies. Half the camp being located in a deep difficult country, we should have crushed the whole band. As it was killed about twenty that can be counted, and doubtless many more have fallen behind rocks. About five or six of our horses were killed.

It is rumored in camp that Gen. Cook with infantry armed with heavy rifles, will be here by to-morrow evening, if it is found necessary to resume the contest.

The 87th Regt., R. I. F., seem to have been quite a favourite in Halifax, several young men have joined the Regiment during its stay in Halifax. Three more were sworn in on Wednesday last. The "Chronicle" in alluding to its departure, says:

"There has seldom been a regiment in this garrison the men of which have conducted themselves in such an orderly manner, and given so little trouble to the police, as the 87th, notwithstanding the fact that most of them come from a country the natives of which are proverbially hot headed. The red coats and bear skins of the Royal Irish will be greatly missed from our streets."

THE TROOPSHIP "TAMAR."—The long expected troopship "Tamar" arrived yesterday at 1.30 p. m. from Bermuda, which port she left on Saturday last, the 25th. Heavy weather was experienced, but no casualties are reported from that cause. The ship brought the 1st 20th regiment, which is to relieve the 87th in this garrison. The regiment proper, numbers 634 soldiers—2 field officers, 6 captains, 11 subalterns, 1 paymaster, 1 Adjutant, 1 Quartermaster, 1 Surgeon, 38 sergeants, 37 corporals, 16 drummers, and 560 privates. Besides there were 33 women, and 57 children. Annexed will be found the record of the regiment and list of officers:

20th (THE EAST DEVONSHIRE)
"Minden," "Egmont-on-Ze," "Egypt," ("Rhine")
"Maida," "Vimiere," "Coruna," "Victoria,"
"Pyrenees," "Orthes," "Toulouse," "Peninsula,"
"Alma," "Inkerman," "Selastopol," "Lisbon."
Besides the 20th, the "T." brought some Royal Engineers for the garrison.—Halifax Herald.

The Florida board of canvassers has been notified to assemble for the purpose of counting the votes. This is what the order before Judge White contemplates, and leaves no occasion for any action on the part of the court.

NEWFOUNDLAND COPPER MINES.—The subject of the great development of copper mining in Newfoundland is attracting much interest in some quarters in England, particularly as regards the copper mining interests in Cornwall. The increased expense from the great depth at which these mines are now working and the small percentage of copper (not over 5 or 7 per cent. to the ton) found in the ore, leads to the impression that with the increasing influx of Newfoundland ore, its facility for being worked so near the surface and yielding from 15 to 25 per cent. the Cornwall mines will in time have to be wholly or in part abandoned. Such a change would be of vast interest to Newfoundland, as it would give plenty of experienced miners, which is about all that appears to be wanted by the English parties represented as about to engage in extensive mining operations in Newfoundland.—N. Y. Commercial Bulletin.

The Island of Valentia, the terminus of the Atlantic cables in Ireland, is the property of Mr. Fitzgerald, "Knight of Kerry," and its extreme point is the most extreme westerly point save one, not easily accessible in Europe. The Knight is a

constant resident, and takes great interest in his estate, which presents a most favourable specimen of Irish property. The traveller finds a neat and comfortable inn, and the scenery from Killybegs to Valentia, and thence via Waterville and Keshmone to Cork, will amply repay him. Valentia produces enormous slabs of slate.

March 4th, 1877, falling on a Sunday,

the United States on that day will be without a President, as Grant's term expires on a Saturday night. During the Sunday, Senator Ferry, of Michigan, acting Vice-President, will be President of the United States. Every seventh Presidential term the fourth of March falls on Sunday, and since the rebellion this has occurred three times in the Presidential inauguration year—1793, 1821 and 1849, and will not occur again until the year 1925, excepting in the present year.

The Baptist Church has been handsomely pointed outside. Our Baptist friends determined that their next little church shall look as well as any in the town.

Farmers should know that a broken bone may be set and the injury cured in a much shorter time, as well as considering their different natures, as in a human being. I once saved a young horse which got well and strong after his hind leg was broken; and not long ago had a year-old heifer which got her hind legs broken above the hock joint. The steer that broke it chased her over the bars, and the broken bone projected through the skin some inches. I got her into a pen well provided with litter, and set the bone as well as the circumstances would admit, and splinted and bandaged it up, and in 6 weeks it was apparently as well as ever, with the exception of a small callus at the place where broken. The animal may now be seen at my place.—Maine Farmer.

A newspaper has just been started in London, in which the advertisements are printed in different colored inks, the advertiser having a choice of colors.

Twenty-five Chicago drunkards accepted a "Meady" invitation to be talked to in a room by themselves, and twenty-four of them subsequently announced that they had been converted.

A stone cathedral is being moved in Chicago. Five hundred big jack screws are employed, and not a stone is to be dislocated.

WHAT PAYS?

IT PAYS every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional Man, to keep informed on all the improvements and discoveries of the day.

IT PAYS THE HEAD OF EVERY FAMILY to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and encourages discussion among the members.

The Scientific American

which has been published weekly for the last thirty-one years, does this to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States devoted to MANUFACTURES, MECHANICS, INVENTIONS and NEW DISCOVERIES in the Arts and Sciences.

Every number is profusely illustrated, and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical and Scientific Progress of the world; Descriptions, with beautiful Engravings of New Inventions, New Inventions, New Processes, and Improved Industries of all kinds; Useful Hints, Receipts, Suggestions and Advice for Practical Writers, for Workmen and Employers, in all the various arts, forming a complete repository of New Inventions and Discoveries; containing a weekly record, not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty-one years. It is the oldest, largest, cheapest and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the world.

The practical Receipts are well worth ten times the subscription price, and for the shop and house will save many times the cost of subscription.

MERCHANTS, FARMERS, MECHANICS, ENGINEERS, INVENTORS, MANUFACTURERS, CHEMISTS, LOVERS OF SCIENCE, and PEOPLE of all professions, will find the SCIENTIFIC AMERICAN indispensable. It should have a place in every Family, Library, Study, Office and Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1876.

A year's number contains 52 pages and several Hundred Engravings. Thousands of volumes are preserved for binding and reference. Terms, \$3.20 a year by mail, including postage. Discount in Clubs. Special circulars giving full rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

IN CONNECTION with the SCIENTIFIC AMERICAN, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made to patents through their agency.

Patents are obtained on the best terms. Models of New Inventions and Sketches examined, and advice free. A special notice is made in the Scientific American of all Inventions Patented through this Agency, with the name and residence of the Patentee. Estimates often sent in part or whole, to persons attracted to the invention by such notice. A pamphlet containing full directions for obtaining Patents sent free. THE SCIENTIFIC AMERICAN Reference Book, a volume bound in cloth and gilt, containing the Patent Laws of Great Britain, the U.S., and 142 Engravings of mechanical movements. Price 25 Cents.

Address for the Paper, or concerning Patents, MUNN & CO., 37 Park Row, New York Branch Office, Cor. F and 7th Sts., Washington, D.C.

NOTICE!

THE Partnership heretofore existing between the Subscribers, was dissolved by mutual consent on the 21st day of October, 1876.

A good Livery Stable connected with the House.

Livery Stable

THANKFUL for the patronage extended to late firm of HUGHES & WHELOCK, the subscriber begs to inform the public that he will continue the Livery Stable business, at the old stand, Megantic Hotel premises, and hopes, by diligent attention and efforts to please, to meet a continuance of patronage.

W. H. WHITELOCK,
St. Andrews, Nov. 22, 1876.

WANTED.

WE WANT reliable, energetic canvassing agents in every town in the Dominion of Canada. This work is truly magnificent, containing over 2,000 double column quarto page engravings. The work is published in Paris, on a plan which insures its welcome to every English reading family. To energetic young men or ladies, who are willing to work, we will guarantee a permanent position for two years, and good pay! Don't fail to write for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over \$20,000 for the literary, artistic and mechanical work of producing the plates by the old well known, reliable Lovell Printing and Publishing Co. of Montreal. All letters from agents must be addressed to the Publishers, general agents as follows:—

HAZEN B. BIGNÉY & CO.,
20 and 30 St. Francis Xavier Street,
MONTREAL, QUE.

FURNITURE UPHOLSTERED.
All kinds of Furniture upholstered in the Latest Style.

LOUNGES and EASY CHAIRS,
For sale, and made to order.
DESIGNERS PATENT FOLDING TABLE, PATENTED MAR. 10, 1876. W. H. BIGNÉY & CO.,
20 and 30 ST. FRANCIS XAVIER STREET,
MONTREAL, QUE.

Letters by mail will receive immediate attention.
W. H. BIGNÉY & CO.,
ST. ANDREWS.

St. Andrews Drug Store.

THE Subscribers respectfully announce to the Habitants of St. Andrews and vicinity that they have purchased the stock and trade of the

ST. ANDREWS DRUG STORE,
and added a Fresh Supply, will keep on hand:

Drugs, Chemicals,
PROPRIETARY MEDICINES,
PATENT MEDICINES,
Fancy Articles
and Stationery,
and other articles usually found in a Drug Store.

Prescriptions Carefully Compounded.
J. C. COCKBURN,
E. A. COCKBURN.

Dr. Cockburn can be Consulted at his Office at the Drug Store, Residence on Edward Street St. Andrews, May 31, 1876.

St. Andrews Foundry

THE SUBSCRIBER having become Proprietor of this Foundry, respectfully informs the public, that he is prepared to execute orders for

Foundry Work,
with punctuality and despatch.

STOVES of approved patterns, MILL, and SHIPS CASTINGS, and other foundry business attended to.

STONE and STOVE PIPE for sale.

He returns his thanks for the liberal support given to the late firm of Lamb & Co., and from long experience and knowledge of the business, trusts to receive a continuance of patronage.

JAMES COAKLEY,
St. Andrews, Feb. 23 1876.

WESLEY'S HYMNS

—AND—
Bibles & Hymns,
in variety of Bindings

Also—A few copies of the METHODIST DISCIPLINE, CHURCH SERVICES, and COMMON PRAYERS

A SPLENDID Assortment of BIBLES in new styles of Binding just received.

H. R. SMITH,
St. John, Oct. 14 King St.

Valuable Stand FOR SALE.

THE SUBSCRIBER offers for sale a valuable stand for Travellers' House or Tavern situated near the junction of the Boix Road and Great Road to St. George.

On the premises are a well finished story and a half House, with a large Barn; there is 18 acre of cleared land, a portion of which is under crop of Oats and Potatoes, also a kitchen garden with beans, peas, carrots, &c.

The above stand is well calculated for a Tavern or private residence, being within 5 miles of the Town of St. George.

Terms made known by the proprietor on the premises, or at the Standard Office.

JAMES ORR, Jr.,
St. George, July 13, 1876.

JOHN R. HUGHES,
W. H. WHITELOCK,
Nov. 17, 1876.

Representative and Champion of American Art Taste.
PROSPECTUS FOR 1875—EIGHTH YEAR.
THE ALDINE,
THE ART JOURNAL OF AMERICA.
ISSUED MONTHLY.
A MAGNIFICENT CONCEPTION, WONDERFULLY CARRIED OUT.

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures, which so invariably attended each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or fluctuating interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, good, and graceful literature, and a collection of fine works, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound upon the end of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume can not dispute the quality of this paper and engravings in any other magazine number of volume for the time its cost, and then, there is the chromo, besides!

The national feature of THE ALDINE, "the chromo," has been taken in no narrow sense. The artistic merit, while THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. It infuses into its pages a broad and appreciative taste, one that will discriminate only on ground of intrinsic merit. Thus, while placing before the patrons of THE ALDINE as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters.

The artistic illustration of American scenery, as given with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersions of landscape, marine, figure, and animal subjects, sustain an unabated interest, impose where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic work, with only such technical discussions as do not interfere with the popular interest of the work.

PREMIUM FOR 1875
Every subscriber for 1875 will receive free of charge a beautiful portrait, in all colors, of the same noble dog whose picture in a former issue attracted so much attention.
"MAN'S UNSELFISH FRIEND"
will be welcome in every home. Every body loves such a dog, and the portrait is executed in type to the life, that it seems the veritable presence of the animal itself.

Removal.
JAMES STOOPL, MERCHANT TAILOR, begs to intimate to his friends, and the public generally, that he has removed his Establishment to the building lately occupied by W. D. HASTY, next door to J. R. BRADLEY, where he will be happy to see his customers, and by promptness and efficiency to receive a continuance of the patronage hitherto afforded him.

A CARD.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc. I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. INMAN, Station D, Bible House, New York City.

Dr. J. Walker's California Vinegar Bitters are a purely vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California. The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient restores his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded, possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

No Person can take these Bitters according to directions, and retain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon those organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretory action of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Gout, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. Our Bitters will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting, Blowing, Spinning, Pressing, Barbering, Gunsmithing, Hitting, Wood Head, Sore Eyes, Erysipelas, Itch, Scour, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectively destroyed and removed. No system of medicine, no vermifuge, no anthelmintic, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of youth, or at the turn of life, these Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, read assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose, use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
