DRY KILN, DOOR AND SASH FACTORY

CAMPBELLTON, N. B.

**BEAVER BOARD.**  
If you are building or going to complete some unfinished room, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.  
We carry a large stock in assorted sizes.

**MAIL ORDERS.**  
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the relation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

## COUNCIL TALKS OF CONSERVATION OF COAL BY TURNING OFF ARCS

Board Of Health Accounts and Annual Reports Before Council At Last Night's Meeting.

A meeting of the Town Council was held last evening. His Worship Mayor, Andrew presiding, Councillors Patterson, Miller, Champoux, Harquail, and Alexander were present.

The minutes of the previous meeting were read and approved.

The clerk read a letter from Chief Superintendent Hayes of the C. G. R. in reply to resolution, re taking of of suburban train between Campbellton and Newcastle explaining that under existing circumstances it would be impossible to restore this train at the present. Letter filed.

**BOARD OF HEALTH**  
A report from the Local Board of Health with accounts for caring for smallpox case was taken up.

Coun. Alexander said that this was a county case and the town should not have anything to do with it. These bills or some of them had been before the County Council, and had been held over until the July session.

His Worship explained that although the accounts would have to be paid by the County, the local Board had contracted the bills and are responsible for their payment. The account of the caretaker Miller, \$48.00 should be paid as he was hired by the local Board, and was extremely hard to get.

Coun. Harquail moved that the account of Miller be paid and that Town Council take the matter up with the County Council to refund the amount properly chargeable to the County.

No one seconded this motion.

Coun. Alexander moved that Board of Health accounts be laid over until next meeting in order to get further information.—Carried.

The following department accounts were passed:—

Public Property and Streets.	\$511.03
Jones & Schofield.	2.75
Jas. Alexander.	2.75

Coun. Patterson read the annual report of the Public Property and Streets committee which was received and ordered printed.

Coun. Miller read the annual report of the Water and Sewerage committee which was received and ordered printed.

His Worship spoke of the necessity of conserving coal and suggested that the street lights might be turned off during the winter after 12 o'clock and all night, on moonlight nights.

Other councillors spoke in favor of this, and the matter was left with the chairman of the Electric Light Committee to arrange.

His Worship brought up the matter of the Stewart exemption.

Coun. Miller said he was opposed to any exemptions. The time had come when we must all put our shoulders to the wheel if we wanted our town to progress.

Coun. Patterson agreed with Coun. Miller.

The matter was held over until the next meeting as the yearly statement of the electric light department had not been completed.

The council then adjourned.

**CHANGED NAME.**  
The name of Seven Mile Ridge post office has been changed to Val d'Amour. For many years under rule of both governments the change was asked for but was not accomplished until the Union Government was formed.

**CITIZENS GIVE TO QUARTER DAY FUND**  
Soldiers' Comfort Association  
Raise Handsome Sum For Good Work.

Monday Jan. 28th, was Quarter Day and although the day was very cold, the different collectors received a very warm reception wherever they went. When the money boxes were opened it was found that the handsome sum of \$240.00 had been realized in this way.

The Soldiers' Comfort Association wish to thank all those who so generously and willingly contributed to the funds which are to be used to purchase yarn for the knitting of socks for our boys in the trenches.

**NARROW ESCAPE IN BARN FIRE**  
Fire Causes Heavy Loss To Balmoral Farmer—No Insurance.

On Saturday afternoon a barn owned by Elide Arsenault, one of the pioneers of Balmoral parish was destroyed by fire with nearly all contents. The fire was caused by a boy of seven years of age playing with matches. Loss about \$1500., no insurance. Mrs. Arsenault, who is a very old person had a very narrow escape from death, while endeavoring to save some sheep her husband at the same time having managed to save two horses.

## THANKS RECEIVED FROM HALIFAX

Campbellton Firemen Receive Letter of Thanks For Money Forwarded.

The members of the Campbellton Fire Brigade are in receipt of the following communication from the Chairman of the Halifax Fire Department, which speaks for itself:—

Halifax, N. S., Jan. 15th, 1918

Dear Sirs,—

I am in receipt of your cheque for \$100.00 from the Campbellton Fire Department for Halifax Relief and I can only thank you most sincerely on behalf of the officers and men, for your most generous subscription.

Would say it is very much needed, for relief for many of the families who have lost the bread winners and have very little to depend upon and are in real need.

I would also thank all those who have so willingly contributed including the ladies and assure them their kindness and goodness of heart is more than appreciated.

Yours sincerely,  
JOHN L. HINES,  
Chairman, Halifax Fire Dept.

To Mr. A. E. O'Donnell, Chief  
Mr. W. S. Welsh, Sec.  
And Members: Campbellton Fire Brigade.

This is the second contribution of \$100.00 from the Campbellton Fire Brigade.

**FUNERAL OF LATE CADET McMILLAN.**  
Body Delayed And Did Not Reach Jacques River Until Saturday.

The funeral of the late Cadet Evan McMillan took place from the home of his parents on Saturday last. Services at the house were conducted by Rev. Mr. Jobb. Interment was in the New Mills cemetery. A very large number attended the funeral.

**"JOAN the WOMAN"**  
by JEANIE MACPHERSON

"Joan the Woman" is the highest achievement of the motion picture. The story of the immortal Maid of Orleans as related by Geraldine Farrar is a gripping episode of history—more wondrous than any other story in history.

The players who appear with beautiful Geraldine Farrar are Raymond Hatton as King Charles VII; Wallace Reid as Eric Trent; Theodore Roberts as Cauchon; Hobart Bosworth as General La Hire; Charles Clay as La Tremouille; Tully Marshall as L'Oiseleur; James Neil as Laxet; H. B. Carpenter as Jacques d'Arc; Larry Peyton as Gaspard; Lillian Leighton as Isambard d'Arc; Ernest Joy as Robert de Beauchamp; John Oaker as Jean de Metz; Hugo B. Koch as Duke of Burgundy; William Conklin as John of Luxembourg; Walter Long as the Executioner, and Eustius Jorgensen as Michael Me singer of God.

## COMMITTEE OF BUSINESS MEN FORMED TO LOOK AFTER POOR

Some Cases of Suffering Being Attended To—Cold Weather Has Made Conditions Very Bad.

The present winter has been exceedingly hard on the poor of the district. The unusual high cost of living together with the very cold weather has caused much suffering. In many cases the poor have suffered unknown to the majority of our citizens.

This week a committee was formed to do what was possible for needy cases. Twenty-five prominent citizens with Mr. Hawelock Samson as organizer, contributed \$10.00 each and the work of assisting the needy is being undertaken.

One family at Athol consisting of a mother and seven small children have been made comfortable. The family in Balmoral which was assisted last year, is again in need of assistance and are being cared for. Any person having old clothes where they will be called for, and given to the needy. This is a good work, and should be encouraged by our citizens.

**COMMISSION TO SOLDIERS COMFORTS**  
Victory Bond Canvassers Hand Over Commissions for Patriotic Work.

The kind of patriotism which counts has already come to light. Five of the Victory Bond Salesmen have set an example which others might emulate. The Victory Bond Salesmen who made this generous donation to the above Association are His Honor Judge McLatchy, W. F. Napier, D. E. Richards, Alex. McLennan and W. E. Miller. These gentlemen made their gifts without any show or display and have assisted in helping along a most glorious work. It is needless to say the members of the Society are deeply grateful to these generous donors who have so materially assisted in the work they are performing for our soldier boys.

## MOTHER GAVE THIS DELICATE CHILD VINOL

And He Got Well and Strong.  
That's True

Monaca, Pa.—"My little boy, who is the youngest of three, was weak, nervous and tired all the time, so he was most unfit at school, and nothing seemed to help him. I learned of Vinol and gave it to him. It has restored his health and strength and he has gained in weight."—Mrs. Frederick Sommer, Monaca, Pa.

Vinol is a constitutional cod liver and iron remedy for delicate, weak, ailing children. Formula on every bottle, so you know what you are giving them. Children love it.

### SWEDEN AND NEW BRUNSWICK IN FOREST MANAGEMENT

The prosperity of New Brunswick is substantially due to her forest possessions and the excellent use that nation makes of them.

The prosperity of New Brunswick is to the same degree the product of forest industries.

Half of the whole area of Sweden is held permanently for growing timber crops. From that area, the national government gets a revenue of \$6,000,000 a year, about two thirds as much as the entire public revenues from all the forests of Canada.

New Brunswick is about one sixth the size of Sweden and keeps about the same percentage under timber. New Brunswick's public revenues from forests are \$500,000 a year comparing not unfavorably with those of Sweden.

The great gulf between the forestry policies of the two countries is that New Brunswick's forests have grown continuously weaker while Sweden's have maintained their strength. Sweden's revenues are from the "interest" of national growth of the timber, while New Brunswick has been cutting deeply into "forest capital."

One spells permanent prosperity; the other does rot. A sufficient reason is found in the fact that Sweden employs more than 600 technically-trained foresters, supports a modern protection policy and does not permit wasteful cutting.

New Brunswick, however, is on the point of adopting similar precautions. This year the fire protection service will be organized and the Division of Forestry at Fredericton will have an oversight of the cutting operations.

### The High Cost of Curiosity

A thin haired customer went into a barber shop to have his hair trimmed. Having sat down in a chair, he glanced at the looking glass in front of him and saw reflected therein the attendant, who, to his surprise, was wearing rubber gloves. This fact caused the gentleman to become curious, so he said to the barber:

"Why do you wear rubber gloves?"  
"For the purpose," replied the attendant, "of keeping our celebrated hair restorer from causing hair to grow on my hands." He held a bottle.

### Hunting The Pickled Onions

The new curate's wife was a very sweet natured and truly kind little soul and did a great deal of practical good in her husband's parish. During the festive season she decided to give a feast to the aged and poor of the district.

All went well, and the old people were having a fine time, when the curate's wife suddenly noticed that one old fellow did not seem to be getting on very well with his dinner.

"What is the matter, Mr. Smith?" she asked. "Isn't it out to your liking?"

"Fine, Ma'am—fine, thankee!" mumbled the old chap. "But ye see, ma'am, I've a pickled onion in me mouth, and, having no but one tooth left in me head, it's a bit awkward like to catch it. I'll be all right, thankee, ma'am. Just 'ee wait till I get hold on um!"

"Certainly," said the average man. "If all the fools were dead our ideas would soon become universal."

### GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of his little bowels without grilling, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

## BILLY SUNDAY LETS LOOSE ON THE GERMAN EMPEROR

When U.S. Gets Ready the Hot Dog Bunch Will Know It—Kaiser Has Devil Fanning For Air—If You Turned Hell Upside Down, You'd Find "Made In Germany" Stamped On the Bottom.

Billy Sunday (the Rev. William S.) packing a punch in each fist, landed on the Kaiser and the Potsdam gang at Chicago, and after smiting them hip and thigh as "partner of Beelzebub," removed the skins of trimmers and pacifists, saying they are "so many Judas Iscariots."

He called for a blank wall, and he urged the need for every one of the 100,000,000 men, women and children in America to mobilize themselves to do something to help win the war.

The evangelist spoke with a naming tongue. Flaming—it was a torrent of scorching language that continually pulled the audience out of its chair. It blazed like a fire in a paint factory.

In his characteristic way Mr. Sunday made it gymnastic as well as an oratorical hour. He exercised on every inch of the platform from which he had asked that all chairs be removed to give full swing when he got going.

And he came up to the scratch with a running start. Hardly had he been introduced when he speared a high one on left field and slammed it over the plate with the following:

"When Uncle Sam gets ready to strike, the Kaiser and Hindenburg and the rest of the hot-dog bunch will know General Sherman was right."

He followed it with another that brought them out of their seats:

"It's the Kaiser against the President; Hohenzollern against Uncle Sam; Germany against the United States; Kaiser Bill against Woodrow; Hell against Heaven—show your colors."

Some More Hot Stuff.

Here's another that made the roof ring:

"We've drawn the sword for liberty and freedom and by the eternal God, we'll not sheath it until the gang of cut-throats and murderers is on their knees with their tongues hanging out pleading with us to call it off."

Another that shook the dome with applause:

"The Kaiser says God and he are partners. Not so! The Kaiser has the devil backed, off the boards and fanning for air."

"The hell the Kaiser has raised on earth makes the hell below look like a side show."

"As for lying, the Kaiser has Ananias outstaged so far you can't see his dust."

"As I've said before, turn hell upside down and you'll find 'Made in Germany' stamped on the bottom."

"Let me give you a tip, old top. I don't purpose to buy anything stamped 'Made in Germany,' not unless I'm nuts."

Like a Lewis Gun.

Epigrams came like plums in a Christmas pudding, and were shot out so fast it sounded like a Lewis gun in action. Meanwhile Mr. Sunday flew over the platform up and down, gyrating, and shooting curves, vol-planning to the deck and smashing it with his fist, slam, bang. It was an airplane shooting it into a Zeppelin.

And he started by bawling that the English language "hasn't a million words more than it has, and that wouldn't be enough to paint them as they are."

Here are some more of the high spots in his address:

"You never catch God napping. God is always ready to slam the hall over the fence when He steps up to the plate."

"No man can be true to his God who is not true to his country. Patriotism and religion are twin brothers."

"I say down with I. W. W. calamity howlers, down with socialists and pacifists who are making utterances bordering on treason. Blackhearted traitors ought to face a firing squad."

If you pour sunshine into a rathole you destroy it as a home for the rat. Let's uncover sedition where it may lurk. And anyone who doesn't like it can beat it back across the seas to where they were kneaded."

### Can See It Through.

"We can deliver the goods, express charges prepaid, when it comes to a showdown. The Saxon has seen everything through he got into ever since he saw the Black Prince through Cressy, and it's that Saxon blood that pumps through the veins of our army and navy."

"No ship was ever wrecked on Plymouth Rock, and that's the kind of crowd that's going over against the Kaiser's bunch of international crooks and murderers."

"We got some croakers, but God has no use for a man who slanders his country, and no battle was ever won with the flag at half-mast. The Stars and Stripes has been in many a fix since 1776 but has never touched the ground, boys."

"America has got to win the war and we've got to help America win. For one thing, let's put our dollars to fighting. You can no more win a war without money than win a ball game without a ball."

Hell Has Vomited.

Mr. Sunday took the position of a pitcher winding up in a post-season series, and cried:

"Hell has vomited forth a fountain of groans and blood; we are at death grips with the most rapacious, piratical, treacherous, villainous, mendacious, skulking, murderous, stinking, black-hearted gang of cutthroats the ever wriggled their carcasses across God's green earth. This monster devours women and children, outrages sacred womanhood, crucifies prisoners of war and makes slaves of men and women, and we've got to take this slimy skin off this scaly, moldering, scabby, pestiferous serpent."

"I think the Kaiser would like us to go on indulging ourselves in pleasures with no restraint, buying what you can afford but don't need."

War Not Yet Won.

"We didn't win the war when we declared it—that's only the kick-off. That camouflaging bunch in Germany can't put it over. But we've all got to help. Too many people are invincible in peace and invisible in war. Patriotism means more than getting to your feet when The Star-Spangled Banner is played; more than sticking a flag on the hood of your automobile; more than wearing a Liberty bond button. It means getting into the game or shut up your mouth and shut it damned soon."

Ten million men have lost their lives in this war, 12,000,000 have been crippled, 4,500,000 are prisoners, \$25,000,000 of property has been destroyed. God has had to draw his sword in the past. A noble cause backed by noble men is invincible, and we'll give the gang a run.

Thought They Were Pickers.

"The Kaiser thought we were a lot of pickers and bush leaguers and that he could cram his damnable, treasonable heresy that wriggled its ugly gut out of the beer mugs of Heidelberg."

"Kultur! What of a kultur that will stand by and see Turkish soldiers outrage American women, and hoist unborn infants on the sword's point?"

"A priest returned from the firing line told me that the thing that made the most haunting impression upon his mind was the shrieks of women being outraged in German trenches, by German soldiers."

"When Germany turned from Jesus Christ to Krupp she lost out."

"The Kaiser was going to eat his Thanksgiving dinner in Paris in 1914. He'll be lucky if he eats it in Berlin next year."

Mr. Sunday put in a word for universal military training, and went on:

"If you enjoy the nation's blessings you've got to share her sorrows. Pacifism and indifference now are evidence of treason. A pacifist is a Judas scoundrel."

"And this cursed Hohenzollern gang—we'll dig its cursed gang so deep they won't hear the toot of Gabriel's horn."

"Man is like a chicken—he's no good with no sand in his craw."

"Come up, men and women; line up for God and Country."

## WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering. It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

INCREASE IN THE PATRIOTIC FUND GRANT

Maximum Monthly Allowance is Now \$40 Per Month.

Ottawa, Jan. 26.—A number of important changes to the schedule of a woman's allotment to dependents of soldiers have been made by the executive committee of the Canadian Patriotic Fund.

By the new regulations the maximum allowance for dependents in Eastern Canada has been raised to \$40 per month, instead of \$35 as formerly. This increase, which amounts to \$10 within the last three months, is due to the increased cost of living and will assist those wives of soldiers who have large families.

Another regulation provides that different branches shall not deduct \$5 per month from the wives of non-commissioned officers, with the rank of sergeant or sergeant-major, as has been done in the past. This is due to a uniform scale of separation allowances having been adopted for privates and non-commissioned officers.

It is also provided that there shall be no reduction in the allowance granted to returned soldiers who are "out patients" at convalescent homes on account of the subsistence allowance having been raised from 60 cents to 80 cents per day.

Rome's Quiet Unbroken.

One of the good stories in circulation is told by Joe Tumulty, secretary to President Wilson. He likes it so that he can't tell the boys—the friendly reporters—about all they wish to know. He illustrated his inability to give information once by quoting the case of Johnny.

Johnny was crying in the hall as his mother came along, hatted and coated. She asked what had happened.

"You are going away; and so is papa," Johnny sobbed.

"Why, child, I shall be away two or three days, but father is not going away."

"Yes he is," cried Johnny. "He's going to Rome."

"Rome. What do you mean, dear?" asked the surprised mother.

"He said today to Mr. Brown that he would make Rome howl when you left."

"Indeed, Well dear, I shan't leave you now."

Craftily.

"Shall I sing Tosti's 'Good-bye'?" inquired the young man who tried so hard to be entertaining.

"I don't care whose you use," replied Miss Cayenne. "And don't bother to sing it. Just say it."

Speaking of canoodlers, Miss Eugenia Cutler, of Boston, tripped up the desk in the Hotel Majestic yesterday carrying a knitting bag that could have held anything from a ton of coal to a sky scraper.

Carefully she placed the bag on the blotter and started to register when an unusual sound caused her to look up at the clock.

"Madam," he said, "I assure you I haven't touched a drop of ice Jan. 1, but it seemed to me that your knitting bag moved."

Miss Cutler—disregarding the clerk's mistake—smiled, reached into her recesses and pulled out a real diamond.

"I knew they wouldn't let Ramona on the train with me," she remarked sweetly, "and so I concealed him in the knitting bag."

As she went away the clerk began to hum "In the days of old Ramona, everybody had paresis," and the bell boys joined in the chorus.

## DRINKING MEDICINE AND ESSENCES

Chief Inspector Wilson Says He Is Ready To Take Drastic Measures to Curb Evil

St. John, Jan. 28.—Rev. W. D. Wilson, chief liquor inspector for New Brunswick, expects to leave here for outside points some time today. Speaking to a Times reporter this morning he said that the inspectors throughout the province were having more than ordinary trouble with essences and patent medicines containing a high percentage of alcohol as a preservative. Wherever the liquor regulations were more than ordinarily strict, there the inspectors had trouble with the essences and medicines which were taken only as a means to intoxication.

"An officer phoned me this morning," he said, "and said that he wished something could be done about it. On Saturday night he had seen a crowd of soldiers in a store coaxing the proprietor to sell them lemon extract. In my opinion something must be done immediately if the enactment of the liquor law is to keep the province dry."

"On my trip through the country recently I found exactly the same conditions prevalent. I am prepared to go to drastic lengths to stop the growth of the evil and if necessary will propose legislation on the point."

On Saturday Inspector Wilson said he found, going through to Madawaska county, a large shipment most of which was not properly addressed. He commanded ten bottles on the train and took them with him as confiscated goods. They will be placed in the Smythe street depot here.

Unprepared case of a student.

Tommy Tomkins was born on a baseball and particular ambitions to make his mark as a catcher. Any hint, however small, was welcome if it helped on his advance in his department of the game. When he began to have trouble with his hands, and somebody suggested soaking them in salt water to harden the skin, he quickly followed the advice.

Alas! a few days later Tommy had a misfortune. A long bat at the bottom of the garden sent the ball crashing through a neighbor's sitting-room window. It was the third Tommy had broken since the season began.

Mrs. Tomkins nearly wept in anger when Tommy broke the news.

"Your father'll skin you when he comes home tonight," she said.

Poor Tommy, trembling, went outside to reflect. His thoughts traversed the strap hanging in the kitchen, and he eyed his hands ruefully.

"Ah," he muttered, with a sigh, "I made a big mistake. I ought to have sat in that salt and water!"

A True Friend.

Andy Foster, a well-known character in his native city, had recently shuffled off this mortal coil in destitute circumstances, although in his earlier days he enjoyed financial prosperity.

A prominent merchant, an old friend of the family, attended the funeral and was visibly affected as he gazed for the last time on his old friend and associate.

The mourners were conspicuously few in number and some attention was attracted by the sorrowing merchant.

"The old gentleman was very dear to you," ventured one of the bearers after the funeral was over.

"Indeed," he was answered the mourner. "Andy was one true friend. He never asked me to lend him a cent, though I knew that he was practically starving to death."

Fooling the Neighbors.

"What makes that hen of your cackle so loudly?" inquired Jenkins of his neighbor.

"Why, they've just laid a cornerstone for the new workman's club across the road and she's trying to make the neighbors think she did it."

A resolution of confidence in the Food Controller was passed at a meeting held in Brandon, Manitoba under the auspices of the Local Council of Women.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained to a fine mesh through three ounces of chard white, makes a whole quart of the most remarkable lemon skin whitener at about the cost of one penny for a small jar of the ordinary cream. Care should be taken to strain the lemon juice through a fine cloth so lemon pulp gets in, then this lotion will keep fresh for months. Every day wash and remove such blemishes as freckles, sallowness and tan and in the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of chard white at any drug store and two lemons from the grocer and make up a quart of this lovely fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

### SAYS THAT WOODEN SHIPS SHOULD BE BUILT IN CANADA

Mr. H. H. Blanchet, who takes a deep interest in shipbuilding, was in town this week. Mr. Blanchet says: "At the recent investigation in Halifax of the explosion, by the Dominion Government, I saw the Honourable C. C. Ballantyne, Minister of Marine and Fisheries and he said he could not build wooden ship building in Nova Scotia. The last appeal that Hon. Lloyd George made, in the British House of Commons last week, he practically said that if America, which means Canada, does not build more ships and at a faster rate, the war is practically lost to our enemy. In a recent despatch from Ottawa, the Dominion Government have issued a program of shipbuilding and the only part which they are acting on my advice is to bonus the Steel Company building a ship plate mill. As this will take over a year to build and is too large an undertaking to be made in Canada the chances of immediate operation of the program going into effect is impossible. My suggestion to the Government which is the only feasible one at the present moment, is to build a thousand ton wooden vessel with auxiliary engines, burning crude oil, and the Imperial Munition Board agree with me that this is the most sensible way Canada can aid England against the German submarine pirates, at the present time so that by the Dominion Government giving a bonus of \$20.00 per ton on to wooden vessels for fifteen years all the present shipbuilding yards in Nova Scotia told me they would build their capacity. This is feasible and the Dominion Government program is hardly possible as any ship builder in Canada will vouch for.

### WARNING NOTE.

The Family Herald and Weekly Star of Montreal are this week publishing a warning notice that their offer of a great war map is shortly to be withdrawn, and also advising subscribers to renew promptly, otherwise they may miss a copy or two as the enormous increase in expense of publishing compels them to cancel promptly all expiring subscriptions. The Family Herald and Weekly Star at \$1.25 a year, including their great war map, is wonderful value, and those who fail to take advantage of this offer now are sure to be sorry. There has been an enormous demand for that paper and this season.

### THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try Kt Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have also heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

## PRESENTATION TO S. S. WORKER

Miss Gerrard of St. Andrew's Sunday School Remembered By Friends.

On Thursday evening, Jan. 24th the monthly meeting of the teachers and officers of St. Andrew's Sunday School was held in the Church Hall. After the usual business was transacted Mrs. John Dickie read the following address and Mrs. John Blisset presented Miss Marjorie E. Gerrard with a purse of gold and silver on behalf of St. Andrew's Congregation as a token of their appreciation of her work in the Sunday School. Miss Gerrard has been Secretary Treasurer of the Sunday School for a number of years and an energetic worker and deserves much credit for her labors.

The following is the address:—  
Dear Miss Gerrard:  
Our gathering here this evening will partake of a social as well as of a business nature. As a Sunday School we have greatly admired your many good qualities and regret that only now have we given any tangible evidence of our appreciation of your work. You have been exceedingly faithful in your office of Secretary Treasurer and by your splendid example are making a genuine contribution for the moral uplift of our Sunday School. This sterling quality of faithfulness which you possess in such a marked degree is only given at the cost of self-sacrifice a prime necessity as a force in the life of both church and state.

### ARE YOU HELPING.

Every town has its advantages and should make the most of them. Every town is peculiarly fitted for some enterprise more than another, and as soon as it is ascertained what would be most conducive to the growth and prosperity of the place the citizens should take hold of the matter and push it for all there is in it. One man cannot do it. But one man or a newspaper with the help of the wide-awake men of the place all pulling together can make a wide difference in a place. Every man who succeeds in a town is a help to it. The more money he makes, if he spends it the better for the community. The larger business he builds up, the more he advertises, the more attention is called to the town. A man cannot build up an honorable business in a town without helping the town. A town cannot build up without helping the country. The interest of one is the interest of all. The rivalry that sometimes exists between towns in the same county is a short-sighted policy.

### IT'S TRUE.

Boon your town. If you don't who will? Get in live and energetic men and the town cannot help but prosper, go forward and grow. You never saw a town amount to anything where business men and citizens were always engaged in telling how dead it was—lifeless and that all the powers that be could not start it moving, building up, and endowing it with new life. This is enough to kill any town, while the statements are not true. Make the best of everything. Take the progressive side of every reasonable question. Advertise your town and business in every possible way and your brightest hopes in regard to it will be fully realized.

### PATRIOTIC HENS' WORK.

(Ottawa Citizen.)  
The hens at the Dominion Experimental Farm are working overtime to beat Germany. Instead of their old working day from sunrise to sunset, the electric light is switched on in the poultry houses about 5 a. m., and the hens don't retire for the night till about 9 p. m. The blissful day of sixteen hours' sleep and eight hours' work has been reversed. The hens are evidently the happier for it, and they show their gratitude by laying as generously in winter as they do in summer.

### Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.  
A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.  
This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dress.

### COMPULSORY VACCINATION NOTICE IS HEREBY GIVEN THAT

the Provincial Board of Health has ordered that Compulsory vaccination and revaccination be carried out in the health districts of the County of Restigouche.

It is urgent that this order be carried out at once as unfortunately smallpox has broken out in some parts of this county.

All residents of the County are therefore required to present themselves to a doctor of their choice and be vaccinated. Vaccination is free to everybody. After the 10th of February the whole county will be canvassed and all those who have not been vaccinated will be vaccinated by the Doctor appointed for that purpose.

While it is advisable that every person submit to vaccination, children under 4 years and those who have been successfully vaccinated within ten years will not be compelled for the present to be vaccinated or revaccinated.

A doctor will visit the different schools throughout the County to vaccinate the school children. Notice will also be given by means of posters, on what days a doctor will visit the River Crossing, Balmoral, Charlo, Upper Charlo, New Mills and elsewhere for the purpose of vaccinating the people. In the different localities that a doctor will visit for the purpose of vaccinating the people it is requested that all who can, present on the day appointed for the doctor.

N. BOUCHER, M. D.,  
Chairman of Board of Health for Restigouche County.

### "OVER THE TOP."

(From the Boston Transcript.)  
"While we have not been under fire, or even within sound of the guns, and have seen none of fighting activities of the war, save a most plausible submarine attack during our long and monotonous voyage hither, yet one begins to understand the horrors of the war a little better every now," writes a Yale man from France. "I do not think that people dwell on them as much, perhaps, as they do back in America. The human mind cannot dwell on the realities of them, and so people learn, I think to live their lives more evenly, and to think of the horrible part of life only when it is inevitable."  
"Some call it the hardening of one's nature to suffering, but I have always insisted that it is but a deepening of one's nature and an increase in the power and will to endure. I have had big discussions on that point. I believe in an increased fineness of nature in the man who has come from the trenches; not in all cases, nor in any case if one is considering an aesthetic fineness. But I feel a stronger moral fineness, paradoxical as it may sound, when the final tale is told. I doubt if there will be found any greater glory in the Thermopylae and Balaklava, than in the unassuming thousands who are daily sent 'over the top.' And the heroism of the celebrated women of the past never can seem greater to me than that displayed by the magnificent French women. When during the bitter Verdun struggle, 15,000 wounded French soldiers flooded the town, the doors of the private homes were opened, and the men all had care."

### LOYD GEORGE AND THE AGRICULTURISTS.

In a recent address to a deputation of English agriculturists, Rt. Hon. David Lloyd George said that unless it were possible to supply with food the population behind the lines, as well as the soldiers at the front, the prospects of winning the war were remote. "The enemy is not going to starve us; but that is not enough," he declared. "We have got to produce such a quantity of food that we need not go into the American market and snatch the food out of the mouths of our Allies. If the Allies are short it is because the farmer is handling a rifle to defend his country, instead of the plough."

### What Sandy Thought.

Sandy had been courting Janet for the last two years. One evening after a silence lasting nearly an hour, Janet murmured:  
"A penny for yer thochts, Sandy?"  
"Weel," replied Sandy, with sudden boldness, "I was just thinking how fine it wud be if ye were to give me a bit kissie!"  
Janet complied and again there was silence.  
"An' what are ye thinking about noo Sandy?" Janet ventured after a bit.  
"Anither?"  
"Na, na, lassie; it's mair serious the rool! I was just thinkin' that it was about time ye were payin' me that penny for me thochts!"

### NEW BRUNSWICK'S

#### GOOD RESPONSE.

Full Quota of Men Will Soon Be Completed.

St. John Globe:—New Brunswick is doing her duty under the Military Service Act as she did it under the voluntary system, according to military men. Whatever may be the result of the action of other provinces, New Brunswick has not failed to do her full share in furnishing fighters in the great cause. This fact was brought out in discussion of the report in a morning paper that only 10,300 men had been obtained so far through the draft method.

To local military heads, the announcement from Ottawa that so few had been enrolled comes as a bomb-shell, in view of the splendid showing of New Brunswick. There may be something wrong with the rest of Canada, but this province stands steady and ready with her allotment practically achieved.

By the 31st of this month the province will have completed her quota under the first call and will have done it with three counties cut off operation of the act through the small-pox quarantine.

In addition, men have been coming forward so fast that the accommodation at the local depot has been taxed and it has been with difficulty that housing and clothing has been provided.

To meet this situation, increased accommodation is being provided in the fitting up of the dairy building at the barracks square for 700 more recruits. In all, accommodation will soon be available for 1,600 soldiers and it will not be many days before that number will be available for call.

So far as reports of absentees go, it is said that they are exaggerated and that the operation of the act has gone on with smoothness and general satisfaction.

To sum up, New Brunswick is sending her men up according to schedule and a little better, she will furnish her quota within the stipulated time. January 31st, and she is now required to provide extra accommodation in view of her excellent response of her sons under the call.

### SAVING BRITISH HALF A MILLION A YEAR.

A huge scheme of salvage which is expected to save Great Britain \$500,000,000 a year is about to be put into operation under a board of twelve army experts, for the purpose of collecting and bringing back from France the whole of the war material that has been lying there unused or half-used and re-making it for the army. In this fashion enormous quantities of copper, steel, and various commodities which otherwise would need to be brought from the United States, will be made available, effecting a large saving in tonnage.

There are dumps in France so extensive that it will take a thousand men weeks to remove them. The task will be undertaken systematically and spread over a period long enough to avoid a strain at the front.

### Some Farmer.

The applicant asked for exemption on the ground that he was a farmer. "What did your farm produce last year?" the judge asked.  
"A hundred barrels of potatoes," he replied, and then paused.  
"That is good," said the judge, with evident satisfaction. "And what else?"  
"Ten barrels of other table vegetables and enough turnips to feed the cows all winter," he went on.  
"Yes, yes. And what else?" Any eggs or poultry?"  
"I don't know," the farmer admitted.  
"Don't know! How is that?"  
"Well, you see I only bought the chickens last week."

### A DARK MYSTERY.

(New York Evening Sun.)  
A news item said the other day: Col. E. M. House arrived at an American port—a few hours after his arrival he gave a reception to his friends at his city home 53 East Sixty-second street. ### Unsafe Experiment.

The party of tourists were watching Professor X as he examined the wrapt body of an ancient Egyptian.  
"Judging from the utensils about him," remarked the professor, "this mummy must have been an Egyptian plumber."  
"Wouldn't it be interesting," said a romantic young lady, "if we could bring him to life?"  
"Interesting, but a bit risky," returned Professor X. "Somebody might have to pay him for his time."

"Can your husband claim exemption?"  
"Well, I don't see how he can be strong enough to fight abroad when he is too weak at home to take up a carpet."

### FAMILY FRICTION

Parents' Quarrel Works Irreparable Harm on Minds of Children.

A few sarcastic words from the father, a sharp retort from the mother, that was all. But was it all? What about the effect upon Johnnie and Susie, sitting there quietly at the evening lessons? And did not the parents notice that Thomas slipped out of the house at the first intimation that there was to be a quarrel between his father and mother. For quarrel is really war, although brief and clothed in the language of educated, respectable persons; and long after these harsh and unkind words had been spoken the atmosphere of the family living-room remained charged with an emotional disturbance in which no one could concentrate his mind upon his reading or study.

Family friction is always fatal to happiness, and when there are children in the home, it is almost sure to work irreparable harm upon their minds and souls.

One of the most common causes of the exodus of young people from their homes at an age when they are fitted to enter upon the work of life is friction in the family. Young people are by nature loyal to their parents, and it is a rare case when a young person will go as a rebel from his leaving home the fact that his father and mother quarrel or nag at each other or do not agree upon certain points.

Friction in the home creates an intangible impalpable atmosphere in which the sensitive child chafes and pants for the free air of happiness or is warped and stunted mentally and morally.—Mother's Magazine.

### No Trouble to Try.

The smart boy stood at the garden gate and howled and howled. A passing old lady paused beside him.

"What's the matter, little man?" she asked in a kindly voice.

"O-o-o!" wailed the youngster. "Pa and ma won't take me to the picture tonight!"

"But don't make such a noise," said the dame admonishingly. "Do they ever take you when you cry like this?"

"So sometimes the do, an' can sometimes they do an' can't," bellowed the boy. But it ain't no trouble to yell!"

**THE WATER POWER QUESTION**

Those people who are familiar with the districts in the southwestern portion of Ontario are probably well aware that light, power and heat are available to the residents in those districts at a mere fraction of the cost of such service in nearly all other parts of the country. Industrial plants of all kinds are able to effect enormous savings in their power outfits, farmers find their operations greatly assisted by having light and power available at any hour by merely turning a switch, and the poorest residents are able to have all the advantages of light and heat always "on tap" at the lowest possible cost. All these things have been made possible through the use of the various water powers that are to be found about the country, which have been harnessed and made available for generating electricity.

The report on the survey of the water powers of New Brunswick made some time ago under the authority of the Commissions of Conservation discloses the fact that there are in this province water powers with a potential horse power of at least 300,000, of which only a paltry 15,000 horse power has as yet been developed. It is easy, therefore, to estimate the possibilities that lie before the province in the matter of cheap power, which, as everyone will admit, is something that is needed in the worst possible way, more particularly now that fuel of all kinds is so costly, with very little prospects of better times to come. There is power enough going to waste every day at Grand Falls to drive every piece of machinery on the St. John river, including the trains, but the privilege of putting it into use has been tied up in the hands of a corporation which, so far, has pursued a policy of masterly inactivity in everything relating to it, except tightening their hold on their privileges. So long ago as 1895 a charter was first granted to assist in the development of the Grand Falls water power, and this charter has been altered, amended, added to and tinkered with generally about every alternate year ever since, and the people are no nearer getting the power light and heat, promised them than they were twenty years ago.

There are considerable water powers going to waste also on the Nepigon and other rivers of the province, which could readily be made available for use. We have them on several of the tributaries of the St. John river, which engineering ability should surely be able to turn to good account. It has become very plain during the last few years that hydro-electric power is the greatest of all factors in modern industry—Gleaner.

We have thousands of horsepower running to waste in the tributaries of the Restigouche. The Upsalquit has many fine sites for power development.

**THAT FIRE STATION**

So far as we are aware no more has been done to improve the condition existing at the present fire station, or to provide for the erection of a suitable fire station, one in keeping with the town of Campbellton. So far as the Graphic is concerned we are not concerned about the site. Let us have the fire station where it will be of most service, and where it ground will not cost too much. The difference of a few hundred yards either up the street or down the street, makes little difference as a quarter of a mile can be travelled by the fire team in about a minute. If the majority of the rate payers think that it is not necessary to pay out good money for a site when the town owns several pieces of property, we have nothing to say except urge that the work be undertaken.

If the Council thinks that under existing conditions it is not wise to build there the present quarters should be made habitable. This could be done by an expenditure of about five hundred dollars. Something should be done at once.

Of daylight-saving the Boston Commercial Bulletin says: "Under daylight saving plans we shall begin our day's work an hour earlier and end it an hour earlier during about half the year, giving one hour more of daylight every minute from hours of sleep. The

**The "Waacs" Are at Work**  
Helping British Army  
To Complete Its Victory

"WAACS" is the newest word in the war vocabulary to-day. It is the merry appellation which good luck and the soldier girls have bestowed upon England's soldier boys. No time was wasted over there in wrangling and writing to the editors about the respective merits of "Susie Atkins" or "Mollie-go-to-the-war." Women's Auxiliary Army Corps is the name of the organization, so "Waacs" they were, without more ado.

Prosaic-minded persons cabled to the newspapers in this country that "the women are to wear a uniform consisting of khaki tunic and trousers, high boots, and sombrero hats." It remained for Miss Cleely Hamilton in a recent letter to inform a waiting world that the proper title for the costume is "Somewhere in France." This reinforcement of those strangely faraway days when the Paris couturiers vied with each other in devising peculiar names for their creations and manikins leaped beyond all possibility of imitation in the "Waacs" who buoyantly retain their feminine interest in clothes, even in the responsible hours of establishing history for the first women to participate in the business of making war.

They are a strange contrast to the pitiful "Ladies of War" in Russia. One cannot, of course, imagine Russian peasant women hunting about for a cherry name for their uniform, any more than one would expect the tragic soul of the Russian woman to be content to do her "bit" rubbing down an officer's horse or typing his reports after a day in the trenches. The women of England go about their warring chuckling, as the men do, and probably would thank no one to point out that the chuckle drowns out the sob.

Everything that women can do at home can be done behind the firing line. It has taken the world many thousands of years to discover this, but England, having made the discovery, sent her women in a matter-of-fact way to the war and said no more about it. They live in barracks exactly like those provided for the men and are subject to rigid army discipline. They perform duties which release thousands of men for actual work in the trenches. Women as mechanics, automobile drivers, cooks, stenographers, bookkeepers, and telephone operators, milkers, haymakers, horsekeepers, and gardeners are coming to be the accepted thing in the British army of to-day, as the nurse was in the army of to-morrow.

**In Ireland**

A prominent member of the Irish convention was recently in England, and at his club was asked how things were going in Ireland. "How can I tell you how things are going in Ireland?" he replied. "But I'll tell you a little story to help you to realize how things go over there. A master of hounds in the south had, as usual, to pay for losses of poultry from the depredations of foxes. Last year, owing to absence from home, he had to delegate the job to his first whip. On his return he found that the account was less by about half than in former years, so he called his whip and asked him the reason. 'Ah, sure, your honor, ye don't know the people like I do,' was the answer. 'I just told 'em all to come and bring their claims, and I put all the good straight ones in the shed on one side of the yard, and I put all the rascals in the shed on the other side; then I said to the rascals, 'Now, phwat's your claims?' and sure I paid 'em all every way. Then I went over to the good folk and said, 'Phwat's your claims?' and when they told me I just said, 'Phwat do ye mean by bringing a pack of lies like this here?' and I just drove them all out.'"

**New Mine Props**

Mr. Edwin Seward, a Cardiff architect, after several years of patient study has patented a substitute for mine props which has been tried and found to give every satisfaction. The main points about the new props are that they are simple in construction, are indestructible, and do not deteriorate in water or damp. The chief component materials are colliery clinders, stone, and crushed timber, which when washed, manipulated, combined, and duly strengthened result in a prop the finished weight of which is light enough to allow of efficient handling by one man.

Leather waste is an important ingredient of the best grade wall paper.

for work or recreation without substrain for individuals and for business and social life will be enormous. The saving in fuel for artificial light will be a big gain, and the advantages to health, comfort and conscience are manifest that Congress should take the matter up at once as one of the most important war measures.

Melting snow has caused destructive floods in Germany. Cold weather is not an unmixed evil.

**London Has War Museum**  
Where German Propaganda  
And Methods Are Shown

IN the near neighborhood of Dickens' Old Curiosity Shop in Central London, there stands a big modern building, the property of W. H. Smith and Son, news agents, the contents of which form an excellent war museum, and at the same time constitute another proof of German impudence and stupidity in the face of the fact that their enemies have a brain. Talk of German thoroughness and then look at a copy of the Deutsche Rundschau (the German Round Table), which was caught in the censor's net. The outer cover shows it to be, for September, 1902, but this magazine was the issue for September of last year. Surely superficially could not be surpassed, for 15-year-old periodicals are not generally in circulation. The Odyssey of Homer, too, naturally suggested the German student, but it also suggested something else to the eagle eye of the censor when he found it addressed to an internment camp, and, turning over its leaves, he found not the exploits of ancient days, but the wonderful exploits of a man who had escaped from that camp. Grammars teaching syntax, orthography and etymology looked harmless, but instead of the simple quotations familiar to every student in any country used to exemplify the rules of modern sentence were given which were directed against the Allies.

Kultur, as studied in this enemy library, was of profound interest. There were sixteen books on Hindenburg, five on Mackensen, several on the cruises of the Emden, the Dresden, and the Deutschland. Moreover, the Hun has adopted a favorite political device of reviving a man's past utterances to deprive his present veracity of credence. The French had dashed up in recherche fashion what our French allies had to say of us in Flanders and South Africa was to point out that the education of Holland they reproduced an old work, The Tyranny of the English, published in 1781 in Amsterdam, dealing with British relations with the Dutch East India, at that date.

This propaganda has been diverted into three channels:

(1) Religious, moral, and sentimental.

(2) The attempt to sow discord among the Allies.

(3) Efforts to condemn the Allies in the eyes of neutral nations. Some of these efforts have been brazen, as, for instance, the publication and circulation of a pamphlet in India, leading British rule in that land, which purported to emanate from an English firm that is not in existence. Because the average Englishman had not gone to Germany as a waiter or hairdresser to study their language, the German assumed we had no language, and therefore sent books, papers, and letters through the mail in a variety of obscure languages. But in the room in this building there were men who could read a letter from an Iraqi or a Zulu chief, from a Chinaman, an Arab, or a Portuguese gipsy, and for the most part they were British subjects. The consular staffs have been largely used by Germany for propaganda purposes, and the caricature, generally in very gross taste, looms large.

But the censor's dog has taken the more material of evil spirits. The letter mail was turned into a very parcel mail. Imagine the censor's dog pawing through the mail to find out what the ten pounds of meat, addressed to him from a sympathetic cousin in the United States, landed in England. This "hyphenated" must have been a very painful process. The censor was requested to allow the package to pass "for the consular staff" and next time (same handwriting) "to an old lady."

Even Kaiser William's mail has not escaped. In the library is a booklet from a Cincinnati citizen, all about the Kaiser's "Armadillo" on the fly-sheet of which was expressed the author's hand-written hope for an early and permanent world peace. Another letter commended a Scriptural passage to the attention of the Kaiser, which, rather pointed, insinuated as book, chapter, and verse were given, and on looking it up, it has to do with the casting out of evil spirits. A scarabaeus was also sent from Egypt, marked "cursed," but counterbalancing this ill-omened scarab was a letter from a Brazilian, who, across, revealed a perfect iron cross. The supposition is that the Kaiser wished to cheer the Kaiser by showing that even if he exhausts his stock of iron in dealing out the awards of nature has a plentiful substitute in the forests of Brazil.

**A Great Demand for Gas**

Fears of a British coal shortage have led to an enormous increase in the demand for gas fuel for household purposes. All gas undertakings report an excessive demand for gas fuel, cooks, and heaters. Difficulties of manufacture have led to the cancelling of numbers of orders, and the Gas Light and Coke Company, the largest of its kind in the world, is now working entirely on its reserve stocks of appliances. The increased consumption of gas, the editor of the Gas World stated, also extends to a number of munition works, and in many districts the day load for cooking and power is considerably greater than in the past, when lighting is at its fullest.

**Independence of Greece**

The independence of Greece was gained in 1830, when it was declared a kingdom under the protection of Great Britain, France, and Russia.

**SAWDUST**

Been vaccinated yet?

Och! Don't touch that arm.

A tax on bach-dors is being discussed in Montreal. It will no doubt meet with the approval of the young ladies.

Another pre-election promise has been broken. It is now officially announced that there is practically no chance for soldiers overseas to get leave or discharge on "compassionate grounds." That hope has been dashed very soon.—Kx

**VACCINATION IS NOW COMPULSORY**

Provincial Board of Health Says All Residents Must be Vaccinated at Once.

The following notice was addressed to the chairman of the Campbellton Board of Health: "Dr. L. G. Pinault, Chairman Board of Health, Campbellton, N. B. Dear Sir:—

I am instructed to inform you that at a meeting of the Prov. Board of Health held here on January 20th inst., it was ordered under Section 39 of the Public Health Act of 1911, that compulsory vaccination and revaccination be carried out in the health districts of the counties of Restigouche, Northumberland, and Kent, and in the city of Moncton.

Notification was ordered to be given to the local Boards of Health in these districts and they were urged to put this order into effect immediately. I have the honor to be, Sir, Yours obedient servant, (Signed) ROY McGRATH, In New Brunswick unfortunately, there is an epidemic of SMALLPOX in some districts of the lower end of this county, and the disease is also reported as existing in some lumber camps and other places.

Campbellton being situated as it is, and being the centre of the lumbering industry in this part of the Province, the infection is bound to spread in Town if we take no means of preventing it.

An epidemic of smallpox in Campbellton means serious losses to trade and industries, means closing of schools, and churches, and heavy expenses to ratepayers, it also means days of suffering to those who are sick with this hideous disease, and danger of death in severe cases.

All this can be avoided by vaccination and revaccination as it is almost a sure preventive, as it is proven that recently vaccinated people very seldom take smallpox. The little inconveniences caused by vaccination are nothing compared with those of smallpox and are practically nil on people who have been vaccinated once before.

The orders of the Prov. Board of Health will be carried out at once and people are requested to present themselves to a doctor of their choice and be vaccinated.

Although it is advisable that every person submit to vaccination, children under 4 years and those who have been successfully vaccinated within 10 years will not be compelled for the present.

The doctors wish that as much as possible, people needing these services call on them in forenoon, in order to allow them to do office work and vaccination in the afternoon.

Vaccination free to everybody.

L. G. PINAULT, M. D., Chairman, Campbellton Board of Health.

**TO COMBAT FOREST DESTRUCTION BY MODERN FOREST SERVICE**

Forest protection has made greater advances in Canada during the past five years than in the previous fifty years. Those acquainted with the growing scarcity of timber and the higher prices constantly being offered feel convinced that the next two or three years will witness tremendous further advances in Government forestry policies.

New Brunswick has more than 7,500,000 acres of public owned forest lands under lease, for the greater part, to scores of wood using industries. While the industries are providing the chief source of employment in the province, paying more wages and attracting more capital than any other industry New Brunswick possesses, nevertheless the responsibility for maintaining the raw materials, the growing timber rests mainly with the public administrators. Contrary to common belief, forest supplies in New Brunswick are not great enough to admit of the slightest extravagance in their use. Destructive fires are, of course, the first great extravagance and after them comes careless cutting by jobbers. In order to rule out forest fires and supervise the cutting methods on the public timber areas, it is understood that the Government will introduce at the coming session a special bill giving the Chief Forester and his staff such powers as will enable them to apply business-like management to the licensed Crown Lands.

Another pre-election promise has been broken. It is now officially announced that there is practically no chance for soldiers overseas to get leave or discharge on "compassionate grounds." That hope has been dashed very soon.—Kx

**ALL RAIL ROUTE to Prince Edward Island**

With the inauguration of the car ferry service between the two nearest points of land, Port Borden and Cape Tormentine, a distance of eleven miles, Prince Edward Island may virtually be said to be connected with the mainland by rail.

Heretofore freight, mail, and express have had to be unloaded from the train at Charlottetown and Summerside, transferred to the steamer, unloaded from the steamer at Pictou and Point du Chêne and reloaded on the train. It took about an hour to transfer the cars and be ready to leave the train again in an hour, transhipping the cars and be ready to leave the train again in an hour, transhipping the cars and be ready to leave the train again in an hour.

At Port Borden a standard gauge track has been constructed alongside the Island track, so that freight can be conveniently transferred from the smaller Island cars to the larger ones operated on the Canadian Government Railways, the latter having double the capacity. Thus there will be in actuality standard mainland freight cars loaded on the Island ready for the mainland rails. The car ferry, "Prince Edward Island," is capable of carrying twelve freight cars, which means twelve cars will be landed from the Island to the mainland without breaking bulk, and vice versa. In other words, a through freight service has been established between Prince Edward Island and the mainland railways. The twelve cars are capable of carrying a tonnage equal to one steamer load. The ferry is scheduled to cross the Strait in an hour, transhipping the cars and be ready to leave the train again in an hour, transhipping the cars and be ready to leave the train again in an hour.

A refrigerator car service for perishable goods is to be established. Another important feature is that heavy freights, such as undressed lumber and coal which has up to the present been dependent upon sailing craft, can now be assured of through rail carriage. Special facilities are being provided for the unloading of coal shipments, and development may be expected along similar lines where commodities require special handling.

Express, mail and baggage will be transferred at Port Borden, but will the Island Railway gauge is standardized there will not be any necessity to ferry passenger cars. The "Prince Edward Island" provides a handsomely furnished first-class saloon, dining room, ladies' room, gentlemen's smoking room, and second class accommodation, so that the comfort of the passengers while crossing on the ferry will be well looked after.

Under the winter passenger schedule the ferry will make one round trip a day.

The summer service contemplates two round trips of the ferry daily (Sunday excepted), which will mean that passengers from the Island will be able to arrive at Halifax much earlier in the evening, and also make connection with the two expresses, the "Ocean Limited" and the "Maritime Express," for the west. From the mainland there is to be connection with the two expresses from the west, and passengers from the east will arrive at their destinations on the Island much earlier.

So that with a passenger, mail and express daily service the year round, the saving in time and money of handling freights—one transshipment instead of four, and through one terminal instead of four, a frequent freight service with refrigerator facilities for perishable goods and without breaking bulk—the ferry making such extra trips as business warrants will be a valuable asset to the Island in the open season with the two expresses for the west and the earlier arrivals on Prince Edward Island, the new route must lead to the greater development of the "Garden of the Gulf," a freer intercourse between its people and those on the mainland, and be a powerful factor in removing its feeling of isolation from the rest of the Dominion—an improvement of conditions in which Canada, and particularly Eastern Canada, will equally participate.

SHIRLEY-DEVEREAU.

(Crowded out last week)

A very pretty wedding was solemnized at the home of Mr. and Mrs. Jean Devereau of Campbellton, on Wednesday evening, Jan. 16th when their eldest daughter Laura was united in marriage to Mr. Fred Shirley of Bathurst.

The bride who wore a gown of white georgette crepe with pearl trimmings, and wearing a bridal veil entered the room on the arm of her father. The wedding march was played by Miss LeLacour of Bathurst. The house was very prettily decorated for the occasion with potted plants and cut flowers.

Many beautiful and useful gifts were received by the bride, including cut glass, silverware and furniture.

After the wedding ceremony a dainty lunch was served the happy couple leaving on the Maritime Express for a trip to Bangor, St. John and other cities, followed by the good wishes of a host of friends. The bride's traveling suit was of tanpe broadcloth with hat to match and beaver furs.

Less Can<sup>e</sup> Sugar Used in Canada

The consumption of cane sugar in Canada has been reduced as a result of the measures taken by the Food Controller to control the trade and to appeal to the public to economize.

Information has been received showing co-operation of many women's organizations and other bodies with the Food Controller in promoting such conservation.

The kind-hearted woman stopped to improve the youngster who had chased a cat up a tree. "You bad boy, suppose you were a cat would you like to have anyone chase you in this fashion?"

"Gee wouldn't I though, if I could climb like that!" said the youngster, grinning.

#### RESOLUTION OF CONDOLENCE.

Whereas it has pleased Almighty God in his infinite wisdom to call to her eternal reward the beloved wife of our esteemed fellow member, Brother Alfred Blake.

Be it resolved while bowing to the Divine Will, Campbellton Court 135, Catholic Order of Foresters extend to Brother Blake and family its deep and sincere sympathy in this their sad bereavement.

Further resolved that a copy of these resolutions be forwarded to Brother Blake and family and entered on the minutes of the meeting.

Hoping that God in his great mercy will comfort them in their sorrow.

Signed on behalf of Campbellton Order of Foresters.

INDIVIDUAL DRESS.

Douglas Fairbanks was talking about the striking new fashion in evening gowns—the gown cut out under the arms like a swimmer's jersey.

"A girl," he said, "asked me the other night how I liked her gown. It was, of course cut in the new way, and I said I liked it fine."

"Don't you think," said the girl, "that there's more individuality to be observed in women's dress than formerly?"

"Yes," said I "Ever so much less dress, and ever so much more individuality!"

She—They tell me, Mr. Gibbs, that your marriage was the result of love at first sight.

Gibbs (with a sigh)—That's true. Had I been gifted with second sight I'd still be in the bachelor class.

## NEWSY ITEMS FROM NEARBY PLACES

Gathered by Graphic Correspondents.—Contributions to this Column are Solicited from every District of the Day Chaiuer.

**UPSALQUITCH.**  
A very pleasant evening was spent by the children of this district on Saturday last, when they gathered in the school house to enjoy a treat which had been sent them by Mrs. James Robertson of St. John. After a short programme of songs and recitations, each child received a remembrance, and bag of candy. Mrs. Robertson's kindness was highly appreciated by all.

Sgt. W. H. Clarke one of our returned heroes, has been recalled to St. John. Sgt. Clarke went overseas as a member of the original 26th, spent two years in France, being invalided home some few months ago. Mr. James Bury truckmaster of the N. T. R. spent the week end with his family here. Mrs. Tom. Firth and children were the guests of Mrs. Firth's sister Mrs. Thompson, of Whites Brook last week. Miss Mary Robertson, Mrs. E. Robertson, and daughter Hazel spent a very enjoyable afternoon with Mrs. James Bury on Monday last. The many friends of Mr. John Parker will regret to learn that he has been confined to his bed for a week, and will wish him a speedy recovery. Mr. Elderfield our genial postmaster, made a flying trip to Campbellton on Saturday last. Mr. and Mrs. E. Robertson accompanied by Mr. Allan Robertson, of Portland, Oregon and Miss Maud Lodge of Runnymede were the guests of Mrs. Robert Jeffries on Saturday. Miss S. Good of Dawsonville was the guest of Mrs. Wm. Robertson for the week end. Dame Rumor says we are to lose one of our popular young ladies in the near future. Pte. George McEwen of the R.C.R.'s, Halifax, spent several days with his parents here. Mrs. Branch and Miss Branch of Bathurst, who have been visiting the latter's sister, Mrs. Warman, returned last week to Bathurst. Under the direction of Mr. M. Murray and Mr. Sherman McKnight a considerable amount of pulp wood is being cut. Miss Hilda Borden is visiting relatives in Campbellton and Kempf Road. The young people are taking advantage of the beautiful moonlight nights, a "straw ride," to the Nelson Bros. lumber camp was enjoyed by all the young people. Mrs. Munroe and Mrs. Elderfield were the chaperons. Among those present were Mrs. Robertson, Mrs. George Thomas, Mrs. Wm. Murray, Mrs. Wm. Mann, and the Misses: S. Good, of Dawsonville, Winnie Elderfield, Mina Mann, Clara Bury, Cora Robertson, Mabel Murray, Irene Bury, Messrs. Grant Jordan, Wm. Mann, J. Nelson, A. Murray, J. Murphy, A. F. F. lotte, S. Cleveland, Wm. Thomas, Westbury, Austin Harris, J. Munroe, Hazen Bury. A taffy pull was the event of the evening. The party broke up with "Auld Lang Syne," three cheers, and a vote of thanks to the genial Nelson Bros. who so cordially opened their camp for the enjoyment of the young people.

**NEW RICHMOND.**  
Is it possible, Mr. Editor to push the others over a bit in your valuable paper, and squeeze in a few items which, in spite of the cold weather and the war, still fills an important part on the map. Everyone is glad to learn that our boys at the front still continue to distinguish themselves. Word being received that Lorne C. Montgomery has been awarded the Military Cross, and Arthur Montgomery, Cobby Campbell, and Arthur Campbell have each been awarded the Military Medal. There is no doubt but that the large number of boys gone from New Richmond have all certainly done their bit towards driving back the Boches. The many friends of Mr. John Watson Sr., and Mr. Malcolm McLellan, will be pleased to note that they are recovering from their recent illness. Mr. Watson has been laid up for some months with a slight attack of paralysis and Mr. McLellan has been confined to the house for a couple of weeks with a severe attack of La grippe. Miss Amy Brach, who was seriously ill some time ago with an attack of appendicitis is quite well again and at present visiting relatives in Cascadia. Miss Mona Henderson accompanied by Miss Wanda McLellan left last week for Boston where they will visit Miss Henderson's aunt, from where they are proceeding to New York where Miss Henderson has to undergo an operation. We understand that the boys of the New Richmond and New Carlisle hockey clubs are planning a match sometime within a couple of weeks, everyone is on the lookout as both teams are fairly strong, and prospects are fair for a fast exciting match. On last Saturday night Mr. Wm. Moore, manager of the rink held a Masquerade Carnival which was quite a success, in spite of the blustery evening, a large crowd attended and there were quite a number of costumes. Miss Mary Robertson winning first prize dressed as Ireland, while Mr. Keith Campbell won first prize for gentlemen, dressed as a Highlander. Among the other costumes worth mention were the costumes of Misses Rita Henderson, Bertha Starak, Ellen Campbell, Lily Campbell. Among the gents were, Tugmas Scott Robertson, Patrick Campbell, Harold Gilker, and Jimmie Henderson. The judges were, Messrs. John Cail, and Henry LeBlanc. Last Thursday evening the 24th at a meeting held for the purpose, a company was formed for the purpose of acquiring land for, and building a new skating rink in New Richmond. A committee was appointed to study the matter, get legal advice, and to have everything in readiness for the next meeting. The members of the committee are Messrs. Jas. Henderson, R. L. Montgomery Geo. A. Clapperton, Lawrence Lynd, and Charles Guite.

**PORT DANIEL.**  
The Port Daniel Red Cross Workers and friends in the vicinity have forwarded to the Provincial Red Cross Headquarters on Jan. 26th, a box containing the following articles:—  
6 pillows, 27 slings, 11 scarfs, 17 pairs socks, 1 pair bed socks, 1 trench cap, 1 balacava cap, 12 fomentation wringers, 1 pair gloves.  
**MRS. HERBERT SWEETMAN,** President.  
**EDITH LAWRENCE,** Secretary.  
**NEEL—MACKENZIE.**  
Miss Mary MacKenzie, daughter of Mr. and Mrs. Wm. MacKenzie of Esquimaux, Province of Quebec, and Thomas Evans Neel, of Brookville, Pennsylvania, were married January, 23rd, 1918 by Rev. W. H. Wray Boyle, D. D., pastor of Central Presbyterian Church, Denver, Colorado.

**EVANESCE.**  
"Does your family have any trouble with sore throats?"  
"No," replied Mr. Crossroads; I don't believe any of them stay around the place long enough to become really troublesome."  
**GOOD ADVICE.**  
Don't advise "the preacher how to preach—help him and he will preach better. Don't tell the lawyer how he ought to plead—pay him and he will plead better. Don't tell the physician how he should do—pay fees and you will get better treatment. Don't tell the reporter or editor how he could make a better paper—patronize and pay for the paper and make it better each week."

**Bakers Helping Food Controller.**  
The bakers of Canada are co-operating with the Food Controller in an effort to bring about a setting in consumption of wheat flour in the Dominion, so that larger quantities may be released for export to the Allies overseas. At the annual meeting of the Ontario Bread and Cakes Manufacturers' Association held in Toronto lately Professor R. Harcourt, head of the Department of Chemistry, Ontario Agricultural College, Guelph, represented the Food Controller. The bakers expressed their willingness to do anything in their power to help in the attainment of the Food Controller's objects. A committee was appointed to draft resolutions outlining the views of the Association.

## HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-LIVES"

**MATTIE WARREN**  
Port Robinson, Ont., July 28th, 1915.  
"We have used 'Fruit-a-lives' in our house for over three years and have always found them a good medicine. Our little girl, Mattie, was troubled with Dropsy. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-lives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-lives' and would never be without them."

**WILLIAM WARREN.**  
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

Your marked ability for and deep interest in the work are worthy of our warmest gratitude. We cannot too highly estimate its influence in moulding the character of our young people. The spirit of practicalness you have shown in all branches of church work bespeak a consecrated life. We ask you to accept this purest trust you may long continue in this work.

Donated by St. Andrew's Congregation, Campbellton, N. B.

Miss Gerrard, although completely taken by surprise, thanked all for their thoughtfulness and the gift. Mr. G. E. Little then addressed Mr. John MacLean and in a very effective manner spoke of his untiring energy as Superintendent of St. Andrew's Sunday School for a number of years and how this was appreciated by all when Mr. W. F. Vorton presented to Mr. MacLean an oak chair from the congregation.

Mr. MacLean also replied and heartily thanked all for their kindness. Refreshments were then served after which the meeting adjourned.

**That Was Different.**  
Fierce anger revealed itself in Arnold's eyes as he talked. "I tell you, if I ever come in contact with Bill Taylor I'll thrash him so his own wife won't recognize him. He's going around telling that I beat him out of ten dollars in a poker game." "You're wrong there, Al. I heard the remark, myself. He said you beat him out of ten thousand dollars in a wheat deal!" "Oh, well, that's different. I hardly thought Taylor was the type of man to go around telling stories that reflected on my character."

**Fixed Prices for Bran and Shorts.**  
The Food Controller has fixed prices for bran and shorts at \$24.50 and \$29.50 respectively, per ton in bulk, F. O. B. Port William. The prices for feed at Western points will be the fixed prices less freight to Port William. A places west of the points of milling, the prices will be the Port William fixed prices less freight from the mills to Port William plus freight from the point of milling to destination. At Eastern points the prices will be the fixed prices, plus freight from Port William. The cost in bags will be about \$6.30 per ton higher in each case.

Fewer divorces are being asked for this year than formerly. Blame it on the war!

## RECEPTION HELD AT PUGWASH

Rev. J. R. and Mrs. Millar Receive a Cordial Welcome.

Pugwash, Jan. 21, 1918.—The Presbyterian Manse was the scene, on Friday evening, 18th inst., of a very happy gathering when the members and adherents of the congregation met to extend a hearty welcome to the new past-Rev. J. R. Millar and his estimable wife. Every action of the congregation was represented and spacious rooms of the Manse were taxed to their utmost to accommodate all those who assembled. The early part of the evening was spent in social converse, interspersed with vocal and instrumental music. Mrs. E. M. Cutten and Mrs. (Rev.) J. R. Millar were heard in vocal solos which were heartily enjoyed. Mrs. Cutten, Miss Myrtle Mackintosh, and Rev. A. R. Morgan rendered piano solos while a Pathe Gramophone kindly loaned by Mr. F. M. Brown played some excellent records.

At 11 p.m. a delicious luncheon was served after which the company was called to order and Dr. D. Mackintosh elected chairman. The chairman gave a very splendid address reminiscent of his connection with St. Matthew's congregation during the past forty years. He referred to the faithful work of the pastors who ministered to this congregation in that time. He then called on Messrs. Daniel Matheson, D. J. Mitchell, A. M. McLean and J. M. Melvor of St. Matthew's session, and Mr. S. P. Borden all of whom gave splendid addresses. Rev. A. Lund of the Methodist Church and Rev. A. R. Morgan of the Baptist Church who were present by special invitations were called on, and on behalf of their respective denominations, a very hearty welcome to Rev. J. R. and Mrs. Millar. Rev. Mr. Millar followed in a few well chosen words thanking the people as a whole for the kind words and good wishes extended.

After singing "God Save the King," and "Auld Lang Syne" the company dispersed to their respective homes.

**A TERRIBLE RETRIBUTION**  
Indiana Steel What They Think is Whiskey; it is Wood Alcohol; Three Die.

Prince Rupert, B. C. Jan. 27.—A report from Atlin tells of an unusual tragedy near there. A white man, seeing prohibition coming, cached a lot of liquor in his cabin. He soon had reason to suspect, that during his absence, some one had helped himself to the liquor. He put what was left in a new hiding place and left a few quarts of wood alcohol in the cabin. One night he returned to find three dead Indians in his cabin. A fourth had barely lived to get outside. They had drunk the poison, believing it to be a brand of whiskey.

**QUEBEC MAN KILLED BY FALL OF NEWSPRINT ROLL.**  
Quebec, Jan. 25.—Adelard Drouin, 20, married two months ago, was instantly killed today when a huge roll of newspaper paper fell on him, crushing his head into a pulp. The accident occurred in the freight yards of the C. P. R.

**How The Boys Can Help.**  
A novel and practical plan to use school boys to assist in keeping pigs and thus to help in the campaign for increased hog production in Canada has been taken up by the Council of the Hamilton Board of Trade.

**IN IRELAND.**  
A Frenchman was waiting at a railroad station in Ireland, when two natives sat down beside him. Said one: "Sure, Pat, it's down to Kilmarry I've been, and I'm on my way back to Kilpatrick."

"Ye don't say so," said the other. "It's myself that's just after being down to Kilmarry, and I stopped here a bit before I go to Kilmarry."

"What assassins!" exclaimed the Frenchman. "Would that I were safely back in France!"

"GASCARETS" WORK WHILE YOU SLEEP

For Black Headache, Stomach, Bluggish Liver and Bowels—Take Gascarets tonight.

Fatred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Gascaret-to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

### G. W. V. A. MEETING.

A largely attended meeting of the G. W. V. A. was held in the Council Chamber at Dalhousie last evening.

Messrs. W. S. Montgomery and D. A. Stewart honorary members were present. The meeting was held for the purpose of awakening some enthusiasm among the returned veterans so that all would attend the meeting here next Wednesday evening. A very pleasant time was spent. The meeting next Wednesday Feb. 1st is to be of special interest. Officers will be elected and after the business is transacted refreshments provided by the Women's Institute will be served. All returned veterans are requested to be present.

Mr. and Mrs. F. A. Ferguson are receiving congratulations on the arrival of a daughter at their home on Jan. 22nd.

## DALHOUSIE

Dalhousie, Jan. 30.—On Thursday evening last there was a good attendance in the Star Theatre to listen to the very interesting address delivered by Mrs. E. Atherton Smith of St. John, N. B., her subject being the Halifax disaster.

W. S. Montgomery acted as Chairman.

Mrs. Smith who is a native of the parish of Dalhousie, and who is known by all for the splendid work she has been doing for years, and especially since the war began, was given a hearty welcome.

Mrs. Jenner gave a reading which was enjoyed by all present.

Following a successful entertainment a subscription was started to aid the cause of the unfortunate people who lost their sight in the Halifax disaster.

Music was furnished by Mrs. H. Hubert, piano, and Miss Geraldine Sheehan, violin.

On Friday evening the basement hall in St. John's Presbyterian church was crowded with citizens of all denominations to give a "welcome home" to Private Melvin Alexander of Upper Charlo, who had enlisted with the 132nd battalion, and had drilled in Campbelleton for several months before going overseas. He was at the famous battle of Vimy Ridge, where he was badly wounded, which resulted in his losing one of his limbs. The young hero, who was the honored guest of the evening, was accompanied by his parents, Mr. and Mrs. James Alexander, and many of his friends of Upper Charlo, commencing from La Nim and Dalhousie.

At the request of the Ladies' Aid Society of Dalhousie, who take such a deep interest in giving a welcome to our returned soldiers, Rev. J. H. McLean presided, and in a very genial manner made all feel at home.

A very enjoyable programme was carried out, including gramophone selections, vocal solos by Miss L. Nelson (Campbelleton), and by Mrs. H. Hubert, and by Miss Minnie Powell. Brief patriotic speeches were made by Mr. W. S. Montgomery, Hon. C. H. A. Billois and Mr. Thos. G. Scott. Each speaker dwelt on the splendid work done by the young hero Melvin Alexander, and the great sacrifice he had made in defence of his country.

The grand work done by the Community of Restigouche to aid in the prosecution of the war was emphasized by each speaker.

Dainty refreshments were served and a most enjoyable ceremony was brought to a close by the singing of the National Anthem.

Private Melvin Alexander has a brother at the front.

Councillor W. G. Mahoney of Colborne, was among those who attended the "Welcome Home" on Tuesday evening.

Mrs. Narcisse Roy passed away here on Friday after several months of illness. Mrs. Roy came from Carleton, P. Q., to Dalhousie a few years ago, and was always a hard working woman. She was a daughter of the late Roman LeBlanc, formerly of Maria Capes.

The advertisement from the war office at Washington calling for bright young girls to enlist for telephone service with the American army in France, is being considered by some of our Restigouche talent, and it will not be surprising if the war continues, to see our country represented in the great army that is to assist England and France to defeat the Hun.

A young farmer at Maguasha had a narrow escape recently from losing his home by fire. Mice were attracted to the pockets of a coat in which there were biscuit crumbs and matches. Fire originated from the coat which was hanging in a room and before the fire could be extinguished several dollars worth of wedding garments etc. were destroyed.

Yesterday while the tractor motor was drawing a heavy load of pulp wood on William St., the load upset.

A famous jockey was taken suddenly ill, and the trainer advised him to visit a doctor in the town.

"He'll put you right in a jiffy," he said.

The same evening he found Benjamin lying curled up in the stable kicking his legs about in agony.

"Hello, Benny! Haven't you seen the doctor?" he said.

"Yes."

"Well, didn't he do you any good?"

"I didn't go in. When I got to his house there was a brass plate on his door. 'Dr. Kurem. Ten to one—' wasn't going to monkey with a long shot like that!"

A NEW DEFINITION.

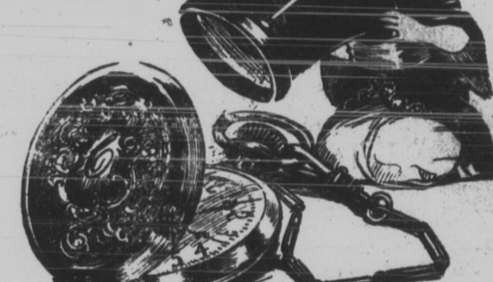

"What's an optimist?"

"An optimist is a person who'll go into a restaurant without a cent in his pocket and figure on paying for the meal with the pearl he hopes to find in an oyster."

POINTED PARAGRAPHS.

Pains in the Head Due To

Defective Eyes.

IF you suffer from pains anywhere in the head; at the base of the skull; over the temple; over or behind the ears; on the crown of the head—the chances are that your eyes are defective, need examination and fitting of proper glasses.

You may not feel actual pain in the eyes, yet you may need glasses in the worst way.

If you suspect your eyes being other than perfect, come and let me examine them. You cannot afford to neglect those valuable organs for a week or a day. I have all the most modern and scientifically exact instruments for the purpose.
