To the Electors of West Middlesex

Some time ago I announced myself as an Independent Liberal candidate in West Middlesex for election to the Legislature f Ontario. I have never withdrawn that announce

ment, but a change of circumstances in the riding led me to further desire to defer to the wishes of the ex-president of the Liberal Association for West Midof the Liberal Association for West Middlesex, as well as to await the action of a new convention upon the candidature of a gentleman whose position as a nominated candidate for the Legislature had been injuriously affected by a change of the boundaries of the riding, as well as their action upon the candidature of other prominent Liberals of the riding, whose claims as leading agriculturists and as lifelong Liberals I would have been pleased to see recognized. have been pleased to see recognized.

Now, after a conference with Mr. McDougall, the ex-president, and in deference to his wishes and to those of other prominent Liberals who share my views, prominent Liberals who share my views, I repeat the announcement previously made by me, and request the honor of your support in the ensuing election.

In making this announcement I follow, as I have previously said, a good British practice, which must again be resorted to in this country if party conventions, which are an American innovation, should be permitted to consist of delegates appointed at the instance of the candidate.
