## PHILIP ST. BUILDING **STARTED**

Ground Broken by London Rolling Mills For Building 800 Feet Long.

A BASIC INDUSTRY

Construction Work May Require Spur Line From the L. and P. S.

Industrial development of considerable importante to London is now under way at the plant of the London Rolling Mill Company, Limited, on Philip street. Workmen have been which will be erected the structural steel work of the large new building which the company is erecting to house new equipment being added to the plant, including electric furnaces and other modern equipment for the

manufacture of iron and steel bars. The building, which, it is stated will be the largest of its kind west of Toronto, will mark the develop-ment here of a basic industry of great importance, since London is strategically well located for the manufacture of iron and steel. Through its connection with Lake Erie by the London & Port Stanley Eallway, the city is in a position to import both coal and iron ore to import both coal and iron ore to advantage and it has superior shipping facilities for the finished pro

## Eleven Years Ago Today Great Britain Declared War

Eleven years ago today, London, in common with every other city in the British Empire, was seething with excitement over the imminence of Great Britain's participation in what was realized even then would be the greatest war in all history. An ultimatum had gone forward to the German government demanding the immediate evacuation of invaded Belgium. The ultimatum was to expire at midnight, and as this hour approached and no reply had been received from Germany, excitement ran high locally, as elsewhere. Shortly after midnight came the flash bulletin: "Great Britain declares war on Germany." Newspaper extras were soon on the streets, which were crowded with people, and the news was received with a great outburst of patriotic fervor.

Processions were formed and paraded the streets the rest of the night, cheering, singing patriotic songs and otherwise giving expression to the feelings of the citizens. Prominent among the demonstrators were British reservists who had received their call to the colors and were leaving immediately to join their regiments.

Canadian youth was not slow to follow them, and the next day recruiting for the first contingent was actively under way. Once again Canadians are concerned at this time with plans for holidays, news of sport and business activities, but probably never again in this generation will come that feeling of complete security and permanence of prosperity which prevailed when the declaration of war came like a thunderbolt from a clear sky.

ESTIMATES VARY.

Associated Press Despatch. London, Aug. 4.—While many of the rank and file of the government sup-porters are prepared to make al-lowances for the difficulties surrounding the cabinet in connection with averting the threatened miners' strike. it is certain there will be much plain speaking from the governmental side of the house of commons concerning of the house of commons concerning the settlement of the trouble. The impression gains strength that Premier Baldwin had considerable difficulty in obtaining the cabinet's consent to the settlement in face of small but powerful minority of the ministers.

The estimated cost of the proposed

coal subsidy tends to increase, al-though the matter is so technical that even financial experts at present are indisposed to give any but the vaguest calculations thereon. Anyhow, between £15,000,000 and £20,000,000 per annum is commonly discussed as the probable amount, and this may easily be exceeded if the coal trade becomes worse than it is at present. Such a vertebrate animal may not have existed, even in prehistoric times, but nature conceived such a mongrel creature and drew the outline inside a rosewood tree. It was discovered 50 years ago by William Dempsey Benson, of Queen's avenue, a former maker of organ cabinets. Mr. Benson feels that the oddity is family attention and so sented it to Dr. Solon Woolverton, famous London naturalist, for his remarkable collection of curios.

But times have changed. Recently The Advertiser has made references to statements published in the Brantford Expositor as pleasing evidence that the fears and doubts of a year ago have been destroyed by the facts of steadily increasing prosperity. Supplementing and en. fore proposes that crimes committed with the larging upon these statements, the Brantford Expositor has now issued a special 36-page

It is good news. If Brantford feels pros-Expositor makes in its special edition. In its leading editorial the Expositor says:

"After a long season of industrial depression and financial stringency, which has affected Canada in common with the rest of the world, there is a general conviction that the tide has turned, and that, as far as the dominion is concerned, good times are ahead. In order to strengthen this feeling, the Expositor has issued this special number devoted to the subject. 'The Return of Prosperity.' In a series of articles and interviews this theme is developed on a sound and hopeful basis. The universal testimony of the local manufacturers and businessmen is that the conditions in the commercial world are steadily and substantially improving, and that, as a result, confidence and courage are taking the place of uncertainty and timidity.

These predictions are based upon wellfounded facts. The tone of the markets is becoming stronger, and there is an increasing demand for the products of the factories. As a consequence of the increased orders the factories have enlarged their operations and there has been a substantial increase in the volume and steadiness of employ-The foundation of this prosperity goes back to the soil. The abundant harvest of wheat that is practically assured, combined with the promise of a good price, has brought a tone of confidence to the whole country. This has stimulated the purchasing power of the markets, and has everywhere quickened production. Added to the promise of a good harvest are the enormous activities that prevail in the mining, lumbering and pulp and paper industries. Another factor is the huge amount of money that is being expended in the country by tourists. This traffic has exceeded all records, and has become of enormous value to

the dominion. One sentence in that editorial has a particular significance. It is in the second paragraph: "The foundation of this prosperity goes back to long years of public service. the soil." No one sentence ever written has expressed more adequately the principle upon which Right Hon. Mackenzie King and the Liberal government have based their tariff policy. And no one sentence could express more convincingly than these words from Brantford, center of tariff doubts, a complete vindication of near the North Pole. These are obviously false comparisons and it is doubtful if any proper court would hold such rulings as enforceable in the face of established law. Murder is murder, be it by pistol or bare hands. And robbery is robbery, be it by motor car or bicycle or afoot.

Commissioner Enright is surprisingly lacking in foresight. If the state of New York were ever sufficiently misguided to pass the double penalty law which he recommends the effect would be not to decrease crime, but merely to turn the criminal to seek other methods equally effective. The ingenuity and purpose of the criminal brain is not to be balked by so amateurish and futile a law. The man who is determined upon crime will find a way to commit it. The only effective deterrent is strict and prompt punishment, not for the means by which the crime is performed, but for the crime itself.

## Danny Mouse Feels Uncomfortable As Big Pickerel Threatens Him

By THORNTON W. BURGESS.
Danny Meadow Mouse felt more uncomfortable every minute. He couldn't recall ever having felt quite so uncomfortable as he did sitting on that board in the Smiling Pool with a great big fish, called a pickerel, close along side. Every time he looked at that pickerel, Danny shivered. Somehow that board which had seemed plenty big enough before that pickerel came along, now seem-

In this that great fish was watching him. He sat so still for so long that at last he began to feel stiff and uncomfortable.

Suddenly that big fish shot ahead like a flash. Danny had just time to see a small fish, and then that great mouth full of sharp teeth opened and that little fish disappeared.

You may be sure that Danny sat perfectly still. He even wished that his heart didn't have to beat. Every time a merry little breeze rumpled up his fur Danny shivered. It seemed to him that that great fish was watching him. He sat so still for so uncomfortable before he was twice.

"Oh, dear." thought Danny. "Oh, dear, this is dreadful! This is the most dreadful fix I ever was in Whatever shall I do? It's bad enough to be in a tight place when you have to be in a tight place when you have a chance to do something, but to be in a place like this with a hungry enemy on each side and sitting right out in plain sight all the time with nothing to do but to keep still, is awful. ## **GIFTS BECOMING**

Traditional Presents of Candy and Flowers Now Losing Favor.

By JULIA HOYT.

Luckily people are growing much nore sensible than they used to be with egard to the giving of presents. According to Mr. Heywood Broun, sensible presents should never be given, but I cannot agree with him. For instance, we all know that both flowers and candy are ridiculously expensive things, though both delightful. But the money spent on them is money thrown away except for the pleasure given for a very

In the old days, however, no matter how expensive a bouquet, or how large and magnificent a box of candy the daughter received from ner men friends the parents felt it to be perfectly proper. Let him send her some silk stockings. which undoubtedly cost no more, and they were scandalized and quite sure it was not at all right for her to accept

I repeat I am glad to say this idea has undergone quite a change, and though flowers and candy are still sent (I hope they always will be), a man does his money that way if he prefers to spend it on something more lasting. Nor does the girl or young married woman of moderate means feel that she has been insulted if she receives a present which is useful in addition t being attractive.

early hours of the day, the Aces greatly resembled the chalk moun-tains, and had a 9 to 0 count smear-ed all over them, but in the aftered all over them, but in the afternoon the paint was almost spilled on
the painter, the tune sounding 6 to
1 for Saginaw. The whole thing in
a nutshell is that Coogan took too
big a bite. He had the Aces eating
out of his hand quite tamely in the
morning fixture, but in the afternoon
they become nexty and bared their

Totals 34 they became nasty and bared their teeth, with the result that Bill beat it and left Pete Harris to finish off.

The morning game was a rather quiet affair since the Aces failed to register much protest, and as a result the Tecs had everything their own way, even to pounding Lefty Jacobs, the state of Nunamaker, kernan, the state of the star of Nunamaker's hurling de-partment, all over the lot. The Bakermen collected variously assorted blows, and not many of them were wasted. A good beginning came as a result of Sandquist's triple and Baker's sacrifice fly. Then triple and Baker's sacrifice fly. Then there was a long lull between that and the fifth inning, mostly due to the spectacular fielding of Melvin Kerr out in the left garden. Three times he made running spears of drives that looked at least good enough for two bases. His best catch of the tilt came in the third enough for two bases. His best catch of the tilt came in the third on Coogan's humpback over the keystone sack. Starting with the crack of the bat, he sprinted over into the centre gardener's territory behind second to stab the ball going

Then the fifth inning, and the ame was all sewed up. Joe Klein, up, singled to center. Kernan with a breef cut of course. Sewed up in Fifth. up, singled to center. Keinan bwed with a boost out of everydy's reach, and made second on it, lein stopping at third. Vermilyea poked a two-bagger into right field that Calbert fell all over trying to locate, scoring Klein. Coogan singled through the box to send Kernan in, took second on a passed ball, camped there while Sandouist fanned and Baker got to first on Foster's boot and came in Foster's boot and came in Stimpson slammed a triple out to the Stimpson slammed a triple out to the Ttoals

The next three innings also produced counters, one in each frame. In the sixth a base on balls to Klein.

Kernan's single and Vermilyea's choice did the trick. Ernie Calbert donated a run in the next, when he pegged wildly over second base also produced in the pegged will be pegged by the pegged will be pegged by the pegged will be pegged by the pegged by donated a run in the next, when he pegged wildly over second base, allowing Brower to count. Coogan doubled along the right-field foul line, went to third on Sandquist's putout, and rambled home when Jacobs threw one past Beumel for the final run the final run.

The afternoon affairs found as its main features the remarkable performance of Clink, in the box for the Aces, His work far outrivalled that of Coogan in the morning tilt, for the Tecs, when they did hit the ball, Aces. The Stratford Bards will now have to take two games from St. Thomas to tie London for the right to meet the Tom Cats in the play-off of the Southern Counties league as a resuit of the locals' 5 to 1 victory over the Classic City nine at Queen's Park yesterday.

The Bards have nobody to blame but themselves. They were guilty of five boots that had a lot to do with the locals' win, and, besides that, they were rather weak at the willow. Maybe that was because "Hank" Down was right in form, for the big boy let them down with six hits that were pretty well scattered, except in the third.

London, Aug. 4.—Today will furnish the first opportunity of gauging the effect on the rubber business of Friday's announcement by the colonial office of the granting of permission for an increase in the rubber exportation from Ceylon, the Federated Malay States and the Straits Settlement, bringing the exportations to 75 per cent of the rubber production.

Because of the week-end and yesterday's holiday, the market has been closed since Friday.

Such comment by financial and commercial writers as has appeared since friday.

Such comment by financial and commercial writers as has appeared since friday.

Such contention is made that it embodies a common sense view of the situation.

The contention is made that it ought to dispose of the protests from the United States against restrictions of the rubber output.

## Here is the way to glistening teeth that dentists now advise

It removes that dingy film from your teeth. It clears cloudy teeth. Start beautifying your teeth today—why wait?

MODERN science now tells us how to clean and brighten dingy teeth. A new way widely urged by leading dentists of the world. Different in formula, action and effect, it does what no other method has yet attained-removes and combats, without harsh grit, the dangerous film that covers teeth and which old type dentifrices do not fight successfully.

Run your tongue across your teeth. You will feel that film. Under it are the prettier, whiter teeth you envy in others. If you combat that film your teeth will quickly glisten in a way that will delight you. Ask your beautifying your teeth today. MADE IN CANADA

druggist for a tube of Pepsodent. Results will amaze you. The great enemy of teeth

Film is the great enemy of tooth beauty. And a chief cause, according to world's dental authorities, of pyorrhea and most tooth troubles. It clings to teeth, gets into crevices and stays. Germs by the millions breed in it. It holds food in contact with teeth, inviting the acid that causes decay.

You can't have prettier, whiter teeth; you can't have healthier teeth unless you combat that film.

Widely Diverse Crop Reports in Various Sections of Province.

Canadian Press Despatch. Regina, Sask., Aug. 3. - Crops throughout the province are good, fair and poor in patches. So stated F. H. Auld, deputy minister of agri-

culture for Saskatchewan, today. Reviewing the situation the minister said that there was promise of a big crop with a small percentage of failures. Lately, he said, the crops had been maturing rapidly, and in some districts cutting would be com-menced this week, while next week it would be general. Most of the dam-

age had been caused by hail.

Estimates of the yield, he said, ranged from eight bushels in parts of the south to 35 bushels in parts of the northern districts. The district in the extreme southwest of the Reports of failure there were frequent. Ten bushels was the best Owing to the fact that they were out

Wall Street's Belief in Soundness of Dominion-Increase in American Purchases in Canada and Influx of Tourists Keep Canadian Dollar Above Par On New York Mart.

New York, Aug. 3.—Confidence of United States capital in the dominion, optimistic preparations for new Canadian financing, prospects for an excellent crop, large United States purchasing in Canada and heavy expenditures of American tourists in the deminion, were some of the reasons offered by financial experts here tonight for the consistent above par stand of the Canadian dollar on the New York exchange.

Today the Canadian dollar stood at a premium of 3-32, and since April, save for a single dip in May, it has been on a parity with the United States dollar or at a premium.

Experts pointed out that trade reports showed heavy purchases by United States customers in the dominion, that a large development of power was shortly to be made by United States capital in Quebec, and that this year was a bumper one for tourists

**TROOP 4 CHAMPIONS** 

Flying their old regimental banner the comrades of the old Canadian light horse regiment came together from far and near yesterday to take part in a reunion celebration.

The morning was spent in talking over old times. At 1:30 p.m. upwards of one hundred members of the famous regiment left in twenty cars for Brooks' farm, where a jolly afternoon was spent. The sport card included a baseball series. The team made up of members of Troop 4 won the championship by winning from Troop 2. In the pre-liminary games Troop 2 beat Troop 1, and Troop 4 beat Troop 3.

Railway and Textile Industries Seethe With Wage Question.

Associated Press Despatch. London, Aug. 3 .- The incidence of a popular bank holiday today did not prevent a continuance in increased measure of adverse criticism of Prime Minister Baldwin's so-called surrender to the trade unionists in the coal miners' dispute

A curious feature of the situation has been the sudden growth in the amount of criticism of the hasty restoration of the gold standard as Stiff Fight Predicted in New the main cause for the slump in the coal industry. This criticism, for-merly confined to a few newspapers, has taken a new lease of life from the strictures of Sir Josiah C. the strictures of Sir Josian C. Stamp, the well-known economist, in the report of the government court of inquiry into the coal dispute. Premier Baldwin was asked in the House of Commons today whether the government purposed to investi-gate this matter. He replied that it was receiving examination and con-
