HUDSON DRAWING TABLES
ARE THE LATEST ADDITION
TO OUR LINE OF
DRAFTING ROOM FURNITURE

They are of practical design, and thoroughly well made and finished.

We frequently furnish drawing tables of these and similar styles in large lots to Schools and Drafting rooms, and solicit an opportunity to submit designs and estimates when drawing tables are wanted.

All these goods are of our own manufacture and special facilities for making them have been provided in our new factory. This is important, as it gives us absolute control of the quality of every component part of our products. Our workmanship is of the highest grade and we are therefore able to guarantee every piece of our Drafting Room furniture to be exactly as we represent it.

It is impossible to show quality and finish of such goods by illustration and description, and the buyer who does not want to be disappointed must rely on the reputation and standing of the manufacturer.

We are so well convinced of the superior quality of our Drafting Room Furniture that we will take back at our expense, any article which does not prove satisfactory to the buyer upon receipt.
