Thy Will be Done. BY JOHN G. WHITTIER.

We see not, know not; all our way Is night; with Thee alone is day; From out the torrent's troubled drift, Above the storm our prayers we lift, Thy will be done!

The flesh may fail, the heart may faint, But who are we to make complaint, Or dare to plead in times like these The weakness of our love of ease? Thy will be done!

We take with solemn thankfulness Our burden up, nor ask it less, And count it joy that even we May suffer, serve or wait for Thee, Whose will be done!

Though dim as yet in tint and line. We trace Thy picture's wise design, And thank Thee that our age supplies The dark relief of sacrifice, Thy will be done!

And if, in our unworthiness, Thy sacrificial wine we press; If from thy ordeal's heated bars Our feet are seamed with crimson scars. Thy will be done!

If, for the age to come, this hour Of trial hath vicarious power, And, blest by Thee, our present pain Be liberty's eternal gain, Thy will be done

Strike Thou, the Master, we the keys, The anthem of the destinies! The minor of Thy loftier strain Our hearts shall breathe the old refrain. Thy will be done!

On the following morning the tolling bell summoned together those who wished to pay the last sad tribute of respect to him who was missed and monrned, when a goodly number followed the shroud-wrapped remains to the open gangway where, while the beautiful burial at sea was read, they were "committed to the deep in sure and certain hope of the Resurrection to Eternal Life through our Lord Jesus Christ." The solemnity of the scene was soon forgotten by many, but there were some who did not wish it to be erased from their minds, and who think of it still with chastened feelings and humbled heart. One of these subsequently penned on the occasion the following lines with which we conclude this

"Afar from his home and his fond mother's side,
Yet dreaming of both, the young wayfarer died;
Sorely wasted and weary with langour and pain,
At length he slept softly nor woke up again.
Long, long had he fanned eager yearnings for life
And rallied as oft as overcome in the strife;
His brave spirit grew strong as vigor declined,
And the weakness of flesh was the triumph of mind.
Could love of a child for a mother have won
His mother had yet been rejoiced in her son;
And her lessons of duty, devotion and truth,
Had adorn'd still the life, not the death of the youth.
But yain was the wish to stem life's ebbing stream;

Had adorn'd still the life, not the death of the youth. But vain was the wish to stem life's ebbing stream; And faithless the flicker of each fitful gleam, For afar from his home and his fond mother's side. Ever dreaming of both, the young wayfarer died. And where did they lay him to wait the last doom? What reeks the frail dust since Christ slept in the tomb! Let it mix in the urn, or be scattered and shred "Tis enough that our Lord no more sleeps with the dead.
Yet sad was the knell on that quiet Sabbath morn—The well-shotted shroud to the ship's side was borne, As we mingled our sighs with the dige of the wave, And then dropped the calm slumberer to rest in his

But sweet were the words that inspired the glad trust.

Blackwood's Magazine for August contains an extraordinary article on " Sermons," representing the views of a certain Church party, happily in the minority, who, while nominally members of would seem that the popularity and success of to a very great extent, with the preaching of the thereto, it is proposed to form a close alliance Gospel, as being a part of the services of the is not to undertake a critical examination of the views given forth on this subject, nor to weary our readers by the unnecessary attempt at their refutation, for we conceive that no persons holding evangelical sentiments can read or hear the utterances of Pusevism, like those contained in the article referred to, without feeling their attachment to Gospel truth grow stronger, and "have not followed a cunningly devised fable."

Preliminary to the subject discussed this writer refers to different views of Sabbath-keeping resulting from a difference in religious education, as given by "the leading journal" in familiar, and in which they have been long accus-Sabbath in the English Metropolis with the Scotchman's idea of the gaiety and license by which the sacred day is profaned in that Christian city,-the utter ennui and disgust on the one hand, and the pious horror of the outraged Scotchman on the other,-both pictures being, in the estimation of this Churchman, sadly absurd. and yet both a little true,—the aspect unlovely to our Sabbath-keeping countryman, yet the part of those who are called the lovely to our Sabbath-keeping countryman, yet the altar will ensure every essential qualification, dreary enough to the stranger from the Continent-he would meet the scruples of the one by dispensing with Sunday marketings, and the this the remedy is not in setting aside a divinelypleasure-taking longings of the other by opening the avenues of recreation; or else, as the matters in question are, in his judgment, of but little moment, he would knock together the heads of the two complainers, and leave them to confute each other.

the views of this writer in regard to Sermons. He tells us that in the favorite pursuit of hunting up grievances, and matters which affront the aeneral conscience, there has arisen a clamor against given to him to preach among the Gentiles sermons; which, though not amounting to much, betrays a popular sentiment; and yet we have the gratifying admission that the prevailing religious sentiment is such as to render it inexpepedient to attack the pulpit—and that to object to Sermons is regarded as being very little different from assailing Christianity itself-a fact The highest title the Christian Minister can poswhich we think speaks loudly in praise of the sess is that by which he is distinguished as a Protestantism of our country. We ask, then, Is it true, to any considerable extent, that sermon-hating are the sentiments of the enlightgenerally, regard the exercise of listening to a sermon for half an hour as a penalty necessary to be paid for the privilege of worshipping God? The veneration of the writer for the Romish Church, as exhibited in the following, is so utterly without disguise, as to be incapable of misinterpretation :- It was the Reformers and Puritans who ordained teaching to accompany prayer; the Roman Catholic Church, with that rare perception of the wants of human nature which characterises her, had made the largest provision for all the needs of piety while the privilege of worship has by Protestante and the Reformation been saddled with the burden and thraldom of sermon-hearing. This statement prepares the way for further revelations :- That in the estimation of a large number of British Christians the preaching part of of the Southern States, it is a notorious fact that be endured, or endured only in the exercise of able to Southern triumph. From the points we have presented it will be seen that the article in question strongly savours of Rome. The change in Sabbath services so highly recommended will answer for the Popish part of the English Church, and for the abettors of ecclesiasticism and of sacramental salvation, but will meet with no favour whatever from those who believe in conversion from sin to holiness by the efficacious power of the Spirit of God as the change which constitutes the true christian who believe that spiritual worship only, whether with or without a form, is acceptable; and who recognise, not priestly rites and ceremonies, but the preaching of the cross of Christ, accompanied by the Divine Spirit, as God's grand ordinance for the Salvation of men.

This ultra-attachment to ritualism, and this deeply seated opposition to Gospel preaching exhibit a vitiated taste, a depraved and dissi pated mind, -estranged from what is spiritual and holy, and therefore in love with a worship that is ideal and formal-a worship that appeals to the imagination, the senses, and the emotion nature of its votaries, but which makes little demand upon the exercise of the intellect, or the consecration of the heart to the living God. But do the preaching of the Gospel and the offering of devotion interfere with each other? Are they in any sense antagonistic? Can either be dispensed with? Is the world or the church sufficiently enlightened in Gospel doctrines t render christian teaching of no value? Is the communication of Bible truth by the christian minister to be regarded as of doubtful necessity their hearts to glow with thankfulness that they Has the Gospel no work to do even in relation to the most intelligent and enlightened of christian people? Are the careless, the worldly and the hardened likely to be reached by the reading of prayers with which their ears have become

We believe that Infinite Wisdom can be at no loss in selecting fitting instuments for His work-that He makes choice of those who can become apt to teach—that fidelity to their sacred trust on the part of those who are called to minister at and will result in their becoming workmen who need not to be ashamed and that if they fail in appointed institution, but by the exercise of godly discipline in regard to the purity and faithfulness of ministerial incumbents.

HETEREDOXY OF THE REV. NATHAN ROUSE.

The Conference of 1861, at Newcastle, had adjudicated on a book published by the Rev. Nathan Rouse, one of its ministers, and a man of great respectability and talents, in which the doctrine of hereditary sanctification was maintained. That conference had pronounced Mr. Rouse's opinion inconsistant with the doctrinal standards of Methodism, but gave him a year for consideration, requiring that a written statement of his views should be given to the May district meeting and the conference of the present year. The document presented by him to the district meeting in May was rather a justification and challenge than a retraction. The district meeting, however, recommended his suspension for twelve months from the work of the ministry, to give him yet further trial and oppertunity before proceeding to the extreme sentence of exclusion. A large and influential committee of the conference brought in a report which recommended a much more prompt and severe course. A discussion arose, and an amendment was made and seconded, that the recommendation of the district meeting be adopted.

The conference evidently leaned to the more lenient course, which I have no doubt would have been carried, when the discussion was cut short and all further proceedings rendered needless by Mr. Rouse coming forward and tenderreported that he has been negotiating with the as a court of judicature, confined its proceedings About an hour after these distinguished guests to an authoritative notice of Mr. Rouse's book,

The Cheerful Voice.

The comfort and happiness of home and home intercourse, let us here say, depend very much upon the kindly and affectionate training of the oice. Trouble, and care, and vexation will and must, of course, come; but let them not creep into our voices. Let only our kindlier and happier feelings be vocal in our homes. Let them be so, if for no other reason, for the little children's sake. These sensitive little beings are exceedingly susceptible to the tones. Let us have ation for them. They hear so much that oxen, they will do for me whatever service I ask. we have forgotten to hear. For, as we advance in years, our life becomes more interior. We stand that they must mind, and they always do. are abstracted from outward scenes and sounds. We think, we reflect, we begin gradually to deal enough to know what a fair load is; and I never with the past, as we have formerly vividly lived mean to tax them beyond their strength, nor in the present. Our ear grows dull to external work them for too long a time. In this way sound; it is turned inward, and listens chiefly to they learn to confide in me; they never revolt, the echoes of past voices. We catch no more the merry laughter of children. We hear no more the note of the morning bird. The brook that used to prattle so gayly to us, rushes by unheeded-we have forgotten to hear such things. But little children, remember, sensitively hear them all. Mark how, at every sound, the young child starts, and turns, and listens! And thus, with equal sensitivenes, does it catch the tones of human voices. How were it possible, therefore, that the sharp and hasty word, the fretful and complaining tone, should not startle and pain, even depress the sensitive little being whose harp of life is so newly and delicately strung, vibrating even to the gentle breeze, and thrilling sensitively ever to the tones of such voices as sween across it? Let us be kind and cheerful spoken.

Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "Brown's Bronchial Troches" are a most valuable article, especially so at this season of the year, when Coughs, Colds, Bronchitis, Influenza, Hoarseness and Sore Throat are so prevalent. The Troches give sure and almost immediate relief.
