The court circles of Baltimore have been much agitated within the past day or two, by a trial which has been going on before the County Court of that city, in which the claims of Mrs. Julia, wife of the Hon. L. Levin, M.C., to be esteemed a peace respecting and law abiding citizen, were brought into serious question. It seems that Mrs. Levin was the widow of a Mr. Gist, by whom she had a daughter, Miss Thomisiani Gist, passing fair, and this daughter is supposed to have the advantage of Jepthah's ill-fated offspring in being a great heiress. Hard by the residence of Mrs. Levin, dwelt a swain by the name of Fite, a dealer in shoes, who was attracted by the varied charms of the heiress, and did not let concealment, like a wind prey upon him at all, but made some dean trations of regard, which the proud mother, was had a soul above leather, resented by giving him a cow-hiding on the highway, he having provoked the punishment, as she claims, by looking into her carriage for the impertuent purlooking into her carriage for the impertment pur-

"Mr. Fite proved the rescult, testifying that, at the time of its occurrence, he was riding along the road in a buggy, and passed the carriage of Mrs. Levin, into which he looked on passing it, as he would have looked into any other. The carriage afterwards passed him, and soon afterwards the man, McMakin, who was driving a carriage in front of that in which Mrs. Levin was, got down front of that in which Mrs. Levin was, got down and came to him and seized his horse, stopping him upon the road. Mrs. Levin also immediately drove up, and charging the witness with impertinence, struck him three blows with the whip; McMakin still holding the horse attached to witness.

ess' buggy.
"On the cross-examination it appeared that Mr. Fite had formed an intimacy of limited extent with a Miss Gist, the daughter of Mrs. Levin by a former husband. This young lady, not quite sixformer husband. This young lady, not quite six-teen, was receiving her education under the charge and tutelage of a Mr. and Mrs. Daniel. Mr. Fite admitted that he had met her and walked with her sammered that he had been her and waited with messeveral times; stated that his manner had always been respectful; that he had been introduced by his annt, had accompanied her, upon an invitation from Mrs. Levin, to visit her house.

"An affidavit was introduced from Mrs. Powell,

from Mrs. Levin, to visit her house.

"An affidavit was introduced from Mrs. Powell, who was in the carriage with Mrs. Levin at the time of the affair, which represented that Mr. Fite had passed the carriage two or three times, looking into it on doing so in a very offensive and insulting manner. That Mrs. Levin, indignant at his conduct, desired McMakin to stop his horse and punish him. McMakin first required Mrs Levin to ho him harmless, and then the young man was struck by both Mrs. Levin and McMakin.

"Miss Gist, being called to the stand, gave a general history of the extent of her acquaintance with Mr. Fite. She had been shown his picture by his aunt, taken when he was twelve years old, and had passed an opinion that it was landsome—had changed her opinion since. Had been introduced to him on a visit he had made, in company with his aunt, to her mother's house. He was not invited. Had met him several times afterwards, and had some intimacy with him.—The young lady underwent a long examination.

Whilst in Nottingham, ajor General Thorn made very particular inquiries respecting the threats that had been used by private Alfred Brocker—to the effect that the 3rd Dragoon Guardehad made up their minds, previous to leaving Nottingham, to maltreat every policemen who fell into their hands, on account of some few members of the police force having assisted in apprehending several of the privates who broke from barracks. The positive, but unnecessary, and somewhat vexatious injunction, not be publish any portion of the evidence taken at the five courts-martial held last week, still remains in force, and is likely so to continue for a few days longer. Mr. Bowley is retained to defend the three men to be tried to-morrow. One of them, Butterworth, is the man over whose head Sergeant-Major Davis broke his sword. He is charged with seizing the Sergeant-Major Davis broke his sword. He is charged with seizing the Sergeant-Major Davis entered the house with his sword drawn, and, seeing a number of men there whom he wanted, he exclaimed, bouse with his sword drawn, and, seeing a number of men there whom he wanted, he exclaimed, "If any man stirs an inch I will ran him through!" Butterworth having had some beer during the short time he had been away from barracks, and being the strongest man in the regiment, instantly jumped up, and, seizing hold of the naked sword, said, "Nay, Sergeant-Major, you shall not hurt me, neither shall you run any of my comrades through." A struggle ensued, the Sergeant-Major struck him and broke his sword, and ultimately he was thrown to the ground in rather an unceremonious manner. Butterworth is alleged to be an extrenely well-meaning man, though by this indiscretion he has rendered himself a first-class offender; and Knox and Ball, his secomplices, are similarly implicated.

It is alleged, for instance, by a Montreal paper, that they have bloody riots in the American cities!—leaving it to be inferred that nothing of the kind ever happened in this enlightened and Christian province. Did anybody ever hear of the President of the United States height patch with stones and rotten again in the being pelted with stones and rotten eggs in the streets of Washington för signing or vetoing any bill? Again, if a crime is committed, we see it paraded with a plentiful sprinkling of exclamation points, as 'horrible'!' 'atrocious!!!' Again, it is alleged that some of the States, after having obtained loansin England, have repudiating States are now paying up these debts. We have the auhority of the London Economist in saying, that the credit of Permsylvania is better in the London money market than that of Canada.

But were all these allegations true, does it necessarily follow that Annexation to the United States would be synonymous with demorilization!—

Look a little at facts: Each State has the power of regulating its own internal affairs, makes its own reminial and other laws, and, in fact, is more independent of the General Government than Canada is of England. The first district of the control of We hear a great deal from the Tory and Ministerial Press, of this country, about the extraordinary and, in their eyes, unjustifiable remedy many "svile which afflict our country." What, say these worthy, but very squeamish gentry, dis-member the Empire, and transfer so splendid a portion of British territory to the United States we would remark, that it is an admitted principle among all the advocates of popular rights, genuine freedom, and the moral and intellectual amelioration of the human[species, that there may he, in the best established Governments, abuses for which the people are justified in seeking a remedy, by having recourse to the ultima ratio, direct physical force. History, both ancient and modern, abounds in immunerable examples of this mode of suppressing the abuses of monopoly, of resisting the oppressions of tyranny, and relieving Tache, and the refusal of his colleagues to induct Malcolm into the vacant berth (£1000 per annum.) The Globe, the Ministerial organ, explains that, the delay in the Postal arrangement is caused by the fact, that New Brunswick has not pessed any Law for her part in the matter, and it is necessary that there be concurrent action on the part of all the Provincial Legislatures. We have heard a rumor that New Brunswick is not likely to pass any Act, from fear of having to make up a heavy deficiency annually, owing to the reduction of rates; but we trust that this is not the case. We think that the present high rate of postage is one of the greatest grievances under which the Colony labors.

Br. HALSEY—DRAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered cheely to the directions which accompany the Medicines. I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unsylincipled men, in flaming advertuements. But, what a pity it is that the deception used by others should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in air when a commercial making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cuted, and had increased fifteen pounds in weight, cured, and had increased aftern pounds in weight, having taken one box of the Pilla and two bottles of the Wine. Would to God that every poor suferer would avail himself of the same remedies!

Six.—I cannot resist informing you of the extraordinary effect that I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, that denied all that had been prescribed for me; end yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or dipentive organs. My Dan Sta,—I have great pleasure in informing you that my wife has received great benefit from the use of Keating's Cough Lozongas, you recommended her a short time since. Previous to this she had been troubled with a severe cough, and was under some of our first medical men here without experiencing any relief; however, Keating's Lozenges have done wonders.

COUGH LOZENGES.

GLASOW, 12th January, 1847.

SIR.—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe odd from riding two or three miles, one very wet night, which settled in my lungs, and quite took away my voice, so that I could not speak above a whisper from that time until December last. Tried all kinds of medicines, but they were of so avail I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 9d. tin, my voice, to my great joy, came back as strong as ever. 1 am, Sir, your's respectfully,
