William T. Jones

(From Big Rapids, Mich. Pioneer)

William T. Jones, one of the most prominent lumber manufacturers in this section of Michigan, and former judge of probate of Mecosta county for sixteen years, passed away about 8 o'clock Sunday morning, May 2nd, at his residence on Stewart Avenue. He was 73 years of age.

Although Judge Jones had been gradually failing in health for the past three years, it was not until about three weeks ago that he was unable to leave the house. The last time he was out of doors was a week ago when he was taken to the home of the late Warren A. Hunt, to pay his last respects to his late friend.

The death of Judge Jones was received as a shock in the community Sunday. The funeral services will be held Tuesday afternoon at one o'clock, and the Rev. J. C. DeViney will officiate. Interment will be made at Highland View cemetery. Friends wishing to call may do so after ten o'clock Tuesday morning.

William T. Jones was born at Waterdown, Ontario, March 10, 1847. He was the son of Ezekiel and Jane (Thompson) Jones. He came to Michigan with his parents in 1851, the journey from Waterdown being made in wagon, a distance of about 500 miles. The family located at Croton, Newaygo county, where the father interested himself in the lumber business. His father died in 1854 and his mother several years later.

Mr. Jones obtained a fair education in the school at Waterdown and then started his business career as a salesman for a mercantile house. Six years later he established himself in business with a partner under the firm name of Jones, Burns & Co., for the sale of general merchandise. Three years later he sold his interests in the concern and went to Morley, Mecosta county, where he became engaged in the lumber business under the firm name of Cook, Pendleton & Jones. This relation lasted one year when Mr. Pendleton withdrew and the business was continued by Messrs. Cook and Jones until the death of the former in 1882. He continued to operate the business until 1887 when he came to locate in Big Rapids.

Shortly after coming to Big Rapids, Mr. Jones purchased the land along the G. R. & I. railroad tracks, where the Jones & Green plant is now located, from a man named Hewitt who operated a stave mill. Immediately after the purchase, Mr. Jones changed the plant to a planing mill and a sash and door factory. He conducted this business alone for 5 years. In 1892 fire destroyed his mill with its stock and equipment. The loss was a great blow to Mr. Jones, and although the insurance covered part of the loss, it did not protect him within half the value of the property. In 1893 he was joined in partnership by Geo. W. Green, and the firm name was changed to Jones & Green. A retail lumber yard was then started and in the same year they erected the mill and began manufacturing sash, doors, blinds, interior finish and other building materials in large quantities. The mill gained the reputation of being one of the best of its kind in state. In 1898 Geo. W. Green sold his interest in the firm to Willard Green who was the partner of Mr. Jones until his death two years.

For four years beginning in 1885 Mr. Jones represented this district in the state legislature. At that time he had joined the republican party and has always held to it with unswerving allegiance. In 1896 the people of Mecosta county elected Mr. Jones to the office of probate judge.

From the time of his first election until sixteen years later when he published a notice a whole year before election day that he simply could not accept another term the people would let no one else fill his chair. At the time of his third term he was the only man who had ever held the judgeship for so long a period. Then after he had fulfilled twelve years of service, the people clamored for him to accept a fourth term—an unprecedented occurrence. He acquiesced to their demands and rounded out a judicial career of 16 years—a career which will go down on the pages of history as one marked with unflinching courage, stern probity, and unbiased decisions.

Judge Jones' influence during his life was keenly felt in the guidance of other business besides his own.

At one time he served on the advisory board of the Lumbermen's Mutual Insurance Co. of Chicago and was a past president of the Michigan Lumber Dealers' Association. At the time of his death he was vice-president of the Big Rapids Building and Loan Association, and was a director in the Citizens State Bank.

Judge Jones first married in 1881, his wife being a daughter of his former partner, John T. Cook. They were wed after an extended illness in 1908. In 1912 he married Miss Mary M. Zimmerman of Toronto, Ont., who survives him. Mr. and Mrs. Jones were always active in the Presbyterian church and contributed generously to its support. Their home on South Stewart street is one of the substantial residents of the city. Mr. Jones was a member of the Masonic fraternity since 1868. He was a member of "Strict Observance" No. 27, and the Royal Arch chapter No. 2 at Hamilton, Ontario.

In the death of W. T. Jones the Big Rapids region has lost a real man. Through a long career he has built himself into this community, and his name is synonymous with excellent judgement and human kindness. His character and disposition best found expression in his work as probate judge. Throughout that time he exerted himself unceasingly to lightening the business burdens which death had brought. Many a widow owes her continued residence in the family home to Judge Jones' appeals to creditors; many a boy and girl owes to him the chance for a favorable start in life. Being without children, he adopted the children of Mecosta county as his own. In handling delinquents he put into effect here methods similar to those which have since become the approved standards of procedure all over the country. He had great patience with human weakness and an untiring advocate of giving one more chance.

He was not an ostentatious man. His life ran deep. Throughout his active career he had unusual discernment and keen judgement. He was sensible and practical always. In matters of public interest he was always consulted. He left his mark upon the history of Mecosta county; he helped to shape its destiny.

Base Ball

(By the Sporting Editor)

The Seniors triumphed again over the Dominion Glass in a loosely played game on Saturday last. The Dominion Glass started out to bring Waterdown out of first place, and nearly succeeded in the early part of the game. In the fourth Waterdown started a bombardment which lasted until the end of the ninth, resulting in a score of 23 to 9. The W. A. A. showed lack of practice; the out-field being away out of form, the in-field doing a little better. Capt. Henry has been the only senior out to practice on Monday. Heads up boys, more practice is needed. Catcher Torrance can still show the way, and Manager Nicholson is leaving nothing undone to keep the boys at the top.

Colts	1	1
Tungsten Lamp	0	2

The Juniors again went down to defeat at the hands of Carlisle team in a hard contested game sparkling with sensational plays by both teams. The home umpire was good on balls and strikes, but on rules of the game he was far from being right on different occasions; with men on first and second with only one out he failed to call the batter out and allowed all runners to advance as they pleased. Such umpiring as this does more to break up the defence of a team than fast plays.

Score by innings:
Waterdown 1 1 0 2 0 0 1 0 2 - 7
Carlisle 1 0 3 0 0 0 0 3 0 - 8

PANSIES.

Here's How to Raise Them for Yourself.

If you would have pansies this summer sow the seed at once. These gay, impudent little blossoms with so much individuality grow and germinate more rapidly at this season when the nights are still cool than later. Many people make the mistake of sowing their seeds in June.

To be successful with pansies you must plant them where there is not

Rake it quite level before attempting to sow the seed.

Sow the seed in drills, covering them not more than four times the diameter of the seed. Firm the soil well above them. A general mistake is to cover them too heavily—in other words, plant them too deep. The seed germinates in five to ten days. During this period they must be kept damp. Never at this time pour water over them directly. Better cover them with newspapers that have been previously soaked in water and filter all water through this medium for the first ten days. This method hastens their period of germination.

As soon as they are up and large enough to handle they should be thinned out and transplanted to their permanent home. Set them nine inches apart each way.

Thorough cultivation should be given from the start. Weeds and pansies never make amicable neighbors, and it will resolve itself into the survival of the fittest, which means that the weeds, if permitted to remain, will win and the pansies develop into indifferent, sickly specimens.

During warm weather the bed should be cultivated every day, and in prolonged dry spells twice a day. Seed sown in May will produce blooming plants by June 30.

It pays to buy seed from reliable

TEMPLETON'S RHEUMATIC CAPSULES
For fifteen years the standard specific for Rheumatism, Neuralgia, Gout, Sciatica, Lumbarago, Neuralgia. Many doctors prescribe them. Write to Templeton, 148 King St. W., Toronto, for sample. Sold by reliable druggists everywhere for \$1.00 per box.

even the least bit of shade from fence, tree or house. They demand much sun and all the full sweep of the wind.

If planted at this time they will be in full flower by June 30. And if you keep all withered flowers removed you will have a wealth of blooms until late fall.

If you soak the seed for 24 hours in cool water previous to planting you will hasten their season of flowering ten days, which more than pays for a moment's work.

Much of the success of pansy growing depends upon the preparation of soil. The soil should be well prepared, containing a proportion of leaf mould enriched with well-rotted cow manure.

WOOD'S PHOSPHODINE.
The Great English Preparation, tones and invigorates the whole system, stimulates new blood to the brain. Used for Nervous Debility, Mental and Brain Worry, Drowsiness, Loss of Energy, Palpitation of the Heart, Falling Memory. Price \$1 per box, six for \$5. SPAGHETTI FOR ONE-PIECE MEALS

Foundation for Many Simple Dishes

That Save Time for Housewives.

There are many dishes using spaghetti as a foundation that can be used for the one-piece meals that are so popular with the busy housewife. These can be made in the morning, put into the ice box and warmed up in the oven in a very short time. With a salade and a simple dessert they form a perfect meal, and can be made on shopping or club day, and it won't matter how late the cook gets home.

The Italians give us this receipt: Take a saucer of three tablespoomfuls of butter or butter substitute, three of flour and a cupful and a half of tomato juice strained out of a can of tomatoes. The whole tomatoes can be used the next day for a salad or baked tomatoes. Season well with salt and pepper. Add six tablespoomfuls of chopped ham, six mushrooms if you have them, and three cupfuls of cooked spaghetti. Put in a baking

ROYAL YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Breadmaking is a simple operation and requires no previous experience. Full instructions in Royal Yeast Bake Book, mailed free on request.

MISCELLANEOUS

DOMINION EXPRESS MONEY ORDERS are on sale in five thousand offices throughout Canada.

Ottawa, May 7.—Last November Hon. J. A. Calder, Minister of Immigration and Colonization, authorized a competition in which settlers in Canada were invited to tell their experiences in the form of a letter to the Director of Publicity of the Department. The conditions of the competition emphasized that neither literary style nor correct spelling were essential.

SHILOH
30 DROPS COUGHS

dish, cover with grated cheese and bread crumbs. Bake until the crumbs are brown.

WITH SAUSAGE.

Buy a half pound of chopped beef and a half pound of sausage. Put through the meat chopper, with a small onion. Have three cupfuls of cooked spaghetti ready and put it in a baking dish with the meat, in layers. Pour over it a cupful of tomato juice and cover with buttered crumbs. This is very good with the sausage alone, omitting the beef.

OYSTERS ARE GOOD.

Oysters are very good baked with spaghetti. Cook one-quarter of a box of spaghetti. Buy 25 oysters and scallop in their own liquor. Butter a baking dish and put in a layer of the spaghetti and one of the oysters until they

trial to winning a prize, but that letters should be written with a view to interesting new settlers who decide to locate in Canada. Three cash prizes were offered for each province, the first prize being \$5, the second \$50, and the third \$25.

The competition closed in February last and brought 1,076 entries. After nearly three months' careful study of the contributions, the judges have announced the following as prize winners, to whom cheques for the amounts of their prizes have been mailed:

British Columbia—Donald Graham, Armstrong; J. A. Edgecombe, Peachland; W. J. L. Hamilton, Beaver Point.

Alberta—W. Spindler, Berrymoor; Mrs. William A. Sargeant, Banff; Joseph H. B. Smith, Westholme, Wolfe Creek.

Saskatchewan—Mary V. Rowland, Hoosier; Ernest Booth, University of Saskatchewan, Saskatoon; Mrs. F. E. Shepherd, Senate.

Manitoba—W. W. Moloney, Kaleda; Sylvester T. Holden, Deloraine; John P. Hamelik, Hodgson.

Ontario—James Grant, R. R. No. 5, Bellwood; John B. Beaton, Brigden; Bruce M. Jones, Denfield.

Quebec—Mrs. Amy Kirby, Cook.

Hardwood Hill; William MacDrum, Mineral Rock.

Prince Edward Island—David Brooks, Abney; Percy O. Frederick, West Devon; Robert Rhynes, Charlottetown.

MURINE A Wholesome, Cleansing, Refreshing and Healing Lotion—Murine for Redness, Soreness, Granulation, Itching and Burning of the Eyes or Eyelids; "Drops" After the Movies, Motoring or Golf will win your confidence. Ask Your Druggist for Murine when your Eyes Need Care. Murine Eye Remedy Co., Chicago.

AND IT DID.

(Dallas News) Bax—"I hear your friend, the naturalist, has met with an accident. What was it?"

Cox—"Someone gave him a tiger cub and said it was so tame it would eat off his hand, and it did."

Minard's Liniment used by Physicians

Muggins—Who started that insane theory that two could live as cheaply as one? Buggins—I suppose it was the same fellow who first said it was cheaper to move than to pay rent.

DR. WARD The Specialist

79 NIAGARA SQUARE, BUFFALO, NEW YORK.

Men, Are You in Doubt

As to your trouble? Have you some skin eruption that is stubborn, has resisted treatment? Is there a nervous condition which does not improve in spite of rest, diet and medicine? Are you going down hill steadily? ARE YOU NERVOUS and despondent, weak and debilitated; tired mornings; no ambition—lifeless; memory gone; easily fatigued; excitable and irritable; lack of energy and confidence? Is there failing power, a drain on the system? Consult the old reliable specialists.

SYMPOTOMS OF VARIOUSAILMENTS.

Weak and relaxed state of the body, nervousness, despondency, poor memory, lack of will power, bad, irritable disposition, diminished power of application, energetic concentration, fear of impending danger or misfortune, depression and tendency to sleep, unrefreshing sleep, dark rings under eyes, loss of weight, insomnia. Dr. Ward gives you the benefit of 30 years' continuous practice in the treatment of all chronic, nervous, blood and skin diseases. The above symptoms, and many others not mentioned, are now painless attention.

Men, why suffer longer? Let me make you a vigorous man. Let me restore your physical condition to full manhood. Don't be a weakening any longer. Make up your mind to come to me and I will give the best treatment known to science—the one successful treatment based on the experience of 30 years in treating men and their ailments.

Dr. Ward's Methods Unrivalled, Thorough and Permanent.

Do you realize that you have only one life to live—do you realize that you are missing most of that life by ill health? A life worth living is a healthy life. Neglect of one's health has put many a man in his grave.

I have been telling men these things for many years but still there are thousands of victims who, for various reasons, have not had the good sense to come and get well.

Specialist in the treatment of nervous conditions, nervous exhaustion, backache, lumbago, rheumatism, stomach and liver trouble, acne, skin disease, catarrh, asthma, rectal troubles, piles, fistula and blood conditions.

OFFICE HOURS: 9 a.m. to 5 p.m. Sundays—10 a.m. to 1 p.m.

FREE CONSULTATION EXAMINATION.

Before beginning treatment you must make one visit to my office for a personal physical examination. Railroad fare will be considered as part payment of fee. Canadian money accepted at full value.

79 Niagara Square, Buffalo, N. Y.

BATTLING THE HOPPER PLAGUE

Manitoba and Saskatchewan Working Hard

To End the Menace to Their Crops.

Winnipeg, May 22.—The Governments of Manitoba and Saskatchewan are fully alive to the danger of the grasshopper menace to the western crops. In Saskatchewan last fall, grasshoppers laid eggs in from 40 to 50 rural municipalities. The eggs have been examined carefully during the last few weeks by the provincial field experts, who state the young are beginning to emerge.

The Saskatchewan Government Department of Agriculture, in an effort to fight the menace, has purchased 50,000 gallons of molasses, 90 tons of arsenic, 1,000 tons of bran, and two carloads of lemons, most of which has reached Regina. Large quantities have already been transported to the needy places.

Unless a good battle is waged it is probable that in two weeks' time the two varieties of the pest most dangerous may get ahead; these are red-legged locusts and the clear-winged locusts, now beginning to hatch.

In Manitoba the locusts are reported in Melita district in millions. The few hot days of the past week have caused concern, but there is no need for panic, and the hungry state of the hoppers leads the Government to think that, as in the state of Kansas, early vigilance will defeat the danger. No effort is being spared in any of the provinces to deal with the situation.

GERMAN OFFICER SHOT TO DEATH

Was Accused, Wrongly, of Hiding Arms,

And Killed by Unknown Detachment.

Berlin, May 22.—(By the Associated Press.)—The strange story of the shooting of Captain Hans Paasche, a former commander of a mine layer, and the only son of the former Vice-President of the Reichstag, Dr. Hermann S. Paasche, on his estate near Kreuz, Pomerania, is exciting great interest.

According to the Tageblatt's Kreuz correspondent, Captain Paasche had been denounced in Berlin for hiding arms and ammunition on his estate, whereupon a Reichstag detachment was sent to Kreuz and surrounded his house. Paasche was found bathing in the lake, and subsequently was shot while still wearing his bathing suit.

The stories are in conflict with regard to their circumstances. According to one version, Paasche was shot without warning, while according to another, he was trying to escape at the time. No arms were found on the premises, except sporting guns.

The indignation in Kreuz, says the Tageblatt, is very great, as no search warrant was procured. The officers gave no names, and hence it is not known what detachments were involved in the shooting.

It is said that Captain Paasche was strongly inclined toward Communism and inclined to be a pacifist dreamer and on that account had become estranged from his father.

SOVIET GAINING AGAINST POLES

London, May 22.—Retchitsa, a village on the right bank of the Dnieper River, approximately 125 miles north of Kiev, has been occupied by Russian Bolshevik forces, which are also advancing on the fortified outskirts of Bobruisk, on the Beresina River, according to an official statement issued in Moscow yesterday and received here by wireless.

Fighting is proceeding sixteen miles northeast of Kiev, the statement declares, and attacks by Polish and Ukrainian troops southeast of Kiev, along the Kiev-Poltava Railway, have been repulsed.

VEGETABLES IN CHICAGO DROP

Chicago, May 22.—Prices of all vegetables dropped from five to thirty-five per cent. on the Chicago market in the last ten days, commission merchants said to-day. Market experts said the decline in prices was due to increased receipts.

It is the intention of the Government of Jamaica to open factories for the manufacture of cement.

A CORK CROWD CHASES A "POLICE SPY."

After the inquest on Thomas MacCuratian, Lord Mayor of Cork, when the jury returned the verdict of murder against Premier Lloyd George and others, the crowd caught sight of a man in the street near the City Hall, and when some one shouted the words: "Police spy," the people set off in pursuit.

Soft or Piebald Wheat

(Experimental Farm's Note)

It is well known that, when grown on certain soils and especially in certain seasons, wheat instead of being dark and translucent, is pale or spotted with patches of light color. If this condition is very marked, the wheat is called "soft," and if it is often used. In Kansas and some other states the phrase "yellow berry" is employed to designate the same condition. There is considerable apprehension in regard to softness in wheat. Some varieties, such as Pueblo for instance, are extra hard in their nature and very seldom produce soft kernels, while others, such as White Russian, are essentially softer. But most of the popular sorts, though usually hard in character, become soft under special conditions of soil and climate. Even the extra hard wheats of the Durum class, such as Wild Goose, sometimes show softness.

Soft kernels of wheat contain a lower proportion of gluten and higher proportion of starch. The interior of a hard kernel is horny and translucent, while the interior of a soft kernel is whitish and opaque. As bran also is translucent, the soft kernels are paler than the hard ones. The bran itself, however, does not change color when the wheat becomes soft, and the term "yellow berry" is quite misleading. A soft sample of a so-called red wheat (which is really a reddish-brown, rather than red, in color) is not yellowish but pale reddish-brown. The popular idea that Red Fife wheat turns into White Fife when it becomes soft is entirely erroneous; the difference between these two varieties lies only in the color of the bran. White Fife is just as hard a wheat as Red Fife though of a different color, yellowish rather than reddish.

Softness is the outcome of peculiar soil conditions, especially in regard to soil structure and the quantity of moisture present. Land from which trees have recently been cleared is particularly liable to produce soft wheat. It is also well established that in countries where the summer is rather long and where the temperatures are moderate the wheat is usually softer than in districts where the summer is short and where great extremes of temperatures occur. A full explanation of the causes of softness has not yet arrived at.

It is generally believed that soft wheat is inferior in quality to hard wheat for bread making; this is usually true, provided the samples compared belong to the same variety. However, some soft varieties are superior to some hard ones. For milling purposes hard wheat is preferred as it is easier to handle and it usually gives better satisfaction to bakers who desire to make extremely light bread. For pastry and cake, flour from soft wheat is better. Hard wheat being more in demand usually brings a higher price than soft wheat. As a rule, therefore, farmers whose wheat is soft suffer a financial loss on that account. Such wheat, however (if of a usually hard variety) is perfectly good for seed purposes, because the softness is not inherited.

Not very much is yet known as to the best way to overcome the tendency of any soil to produce soft wheat. To a certain extent this is doubtless beyond control, but it appears probable that cultivation and especially the ploughing under of sod will, in time, tend to bring about such a condition of soil as will produce harder wheat. This could be expected particularly if the land under tillage were formerly covered with trees. —C. E. Saunders, Dominion Cerealist.

FATAL ITALIAN RIOTS

Rome, May 22.—Clashes between strikers and police have occurred in Palermo, where one person has been killed and many wounded, according to newspaper despatches. Ortino and Maro have also been the scenes of encounters, two persons being killed and three wounded in the latter city. A general strike has been declared in Palermo.

Lieut.-Col. A. K. Tylee, O.B.E., of Toronto, has been appointed Air Commodore of the Canadian Air Force, to continue in command nine months.

FIGHT RAIDERS IN WEST KERRY

Coastguard, Aided by Families, Lose at Last.

Cavalry at Westmeath—First Raider Sentenced.

Dublin cable says: A flying column of cavalry has arrived in the district of Westmeath to protect the farms in the region from raiders. Several cattle drives have occurred there during the week. It is stated on good authority that the Sinn Feiners will take action in view of the arrival of the military.

Raiders have attacked and burned the Brandon coastguard station in West Kerry. Six members of the coastguard, aided by their wives and families, desperately resisted the raiders, but were overcome.

The Ballyconnell court house in County Cavan, which recently was burned and had just been rebuilt, was again burned to day.

What is said to be the first sentence for participation in an armed attack on police barracks was promulgated to-day. Michael Condon, a civilian, of Rathcormack, County Cork, was sentenced to five years' penal servitude for participating in an attack on the Athlone police barracks.

A serious extension of the railway trouble here occurred this morning when the railwaymen refused to transport war material which had been landed from a steamer and loaded into a train by soldiers after the dockers had declined to work.

The supplies were destined for the west of Ireland, and when the soldiers tried to move the train the signalman struck and all work was stopped. The men employed in the station supplying power to the giant cranes at Dublin wharves were also withdrawn, and the cranes are at a standstill.

Some steamers from Ireland to England were held up, owing to the men on the docks refusing to load luggage.

ALLY SPIES IN SOVIET CABINET

Paris cable: Amazing disclosures of the existence of an International secret service with world-wide ramifications, organized by France, Britain, the United States and Italy to combat Bolshevik plots to Sovietize the world, were revealed to-day when it was learned that hundreds of arrests have been made in France during the last two weeks, including practically every prominent radical agitator.

The French police, in making these arrests, are said to have been acting on information obtained by international secret service agents, who have in some cases actually held important posts in the Soviet Government and therefore know the inner workings of the Leninist system. Among these agents are Americans, Frenchmen, Englishmen, Spaniards and Danes.

The founding of the International Secret Service is believed to have been broached by the Secret Service Chief of the United States Department of Justice, following admissions by United States radicals that there is a plot afoot to Sovietize the world.

A SUBSTITUTE FOR WOOD FUEL

Leeds, Eng., May 22.—Experiments are being conducted at the Textile Institute in manufacturing by a chemical process artificial wool from cellulose derived from cotton waste. The efforts have been very successful, and, although it is only a substitute for wool, it is said to have great wearing possibilities, especially if used with other fabrics.

BOLSHEVIKI STILL ATTACK

In Waves, On the Polish Lines of Defence.

Most of the Assaults Repulsed.

Paris cable says: The Reparations are attacking in waves on the northern fighting front in a thrust to break the Polish lines and open communication with East Prussia. The fiercest fighting in months is raging along the 90-mile battlefield. Villages are changing hands daily and the lines are swaying to and fro.

The fighting has mostly been infantry encounters through the open swampy country. The latest official statement says that the Bolsheviks were thrown back at most places in a two-day battle. The Bolsheviks suffering heavy in men killed.

The fighting spirit of the Poles was stimulated by the finding of bodies of Polish soldiers, who, it is declared, had been wounded and then killed by the Bolsheviks with rifle butts. The Bolsheviks were aided in the fighting by aviators, two of whom were brought down by Polish fliers. The Bolsheviks also brought up armored trains. All the trains on this front are officered by Germans with many trained machine gunners.

Since the Bolshevik offensive began, twelve divisions have been identified among the reinforcements constantly appearing. A Bolshevik division numbers about 6,000 men. Dvinsk, one of the objectives of the Bolsheviks, is a railroad junction on the Dvina, whose capture would give the Bolsheviks a direct rail line to East Prussia across Lithuania.

BULGARS JOIN WITH THE TURK

Pouring in to Aid in Opposing Greeks.

Constantinople cable says: The new Thracian Government at Adrianople has dismissed all the old officials. Former sub-governor, Erdjumian Ekran Bey, who has arrived in Constantinople, said to-day that Bulgarians are crossing into Turkey in large numbers and joining the Turks, who are preparing to resist the Greeks.

Bulgarians, according to Ekran Bey, will form the backbone of the forces opposing the Greeks, but he declared Col. Jafar Tayar, who was the Turkish commandant at Adrianople, has 20,000 Turkish soldiers available.

Turkish Nationalists have seized the village of Kouni Kalej, at the southern entrance to the Dardanelles, and are either defeating the Sultan's troops, or are persuading them to desert to the army of Mustapha Kemal Pasha, the Nationalist leader, at various points along the Sea of Marmara.

Anzenvour Pasha, the only conspicuous supporter of the Sultan in Anatolia, has been seriously wounded, and his chief of staff, hanged by Nationalists near Gouve. At Eskil Chehir and other points along the Anatolian railway, the Nationalists are bringing in unwilling recruits in groups of five or six with iron rings locked about their necks and connected by chains with fellow shirkers.

Frequently draft evaders have broken heads and bandaged arms and legs as a result of rough treatment by the guards, whose bayonets are fixed. Only Moslems are conscripted, the Nationalists declaring Christians to be untrustworthy.

Damat Ferid Pasha, the Grand Vizier, went to Ismid Wednesday, where it is reported he will have a conference with some of the Nationalist leaders from Angora, probably Djemal Lading and Arif Bey.

A Nationalist official statement says a British officer was at Angora on May 6th, conferring with Mustapha Kemal Pasha. It is believed the officer was probably Colonel Rawlinson, who formerly commanded the Angora Government when he was arrested near Siyan and offered to act as liaison officer with the British.

MAY LET GERMANY KEEP SOME SHIPS

Warsaw cable says: The Bolshevik Commission has just notified the German Government to begin building 200,000 tons of ships in German yards this year, in conformity with Paragraph 5 of the Treaty of Versailles, this being the maximum tonnage prescribed. Germany has turned six merchant ships over to the Allies, but has made application to be allowed to keep a portion of her merchant marine. The commission has just decided to give her a recharing on this, and a majority of the members of the commission are now decidedly disposed to grant the German request.

LOCAL MENTION

KNOX CHURCH SERVICES

Morning Services—Address by Mr. A. R. Hassard of the Dominion Alliance.

Evening Services—"God's Overtures of Partnership" by the pastor.

Miss Lillian Vance of the Mountain hospital is home for a few holidays.

Miss Velma Featherston of Toronto is spending her holidays at her home here.

Rev. R. A. Facey is attending the Methodist Conference in Hamilton this week.

Mr. S. English of St. Catharines visited with friends in the village on Tuesday last.

Miss Nellie Hearne of the Guelph Hospital is the guest of Mr. and Mrs. John English.

Miss A. Raybould of the Hamilton City Hospital is spending a weeks holidays in the village.

The Rev. A. Higginson and family of Hamilton are visitors in town, the guests of J. F. and Mrs. Vance.

Mrs. J. Mack and sister, Miss D. Davidson of Chicago were visiting with their neice Mrs. C. Bowman.

Master Ward Spence entertained about 20 of his young friends to a birthday party last Tuesday afternoon.

Miss Fanny Miller, who has been visiting her sister, Mrs. E. Bechthold, returned to her home at Baden on Monday.

The W. M. S. will meet with Mrs. W. R. Pearson on Wednesday June 9th at 2:30 p. m. A good program will be provided. All the ladies welcome.

Mr. R. W. Withington and daughter of Philadelphia, Miss Anna Carpenter of Brantford and Mr. Arthur Field of Clarkson were the guests of Mr. and Mrs. Wm. A. Drummond over Sunday.

The ladies of Grace church Auxiliary held a very enjoyable social evening on Tuesday last. About 60 members of the congregation and friends attended, the evening being pleasantly spent in music, cards and games.

The following Waterdown students attending Toronto University were successful in passing the recent examinations in the third year in faculty of arts: Miss Lena M. McGregor and Gordon V. Ryckman. We congratulate them on their success.

The new Bus service, which has been established between Waterdown and Hamilton, will be run on the following schedule after this week. Leave Waterdown at 6:15 a. m., 8:15 a. m., 1:30 p. m., 5:15 p. m. Leave Hamilton at 7 a. m., 10 a. m., 4:15 p. m., 6:15 p. m. On Wednesday and Saturday evenings will leave here at 7:30 p. m., returning at 11 p. m.

The Wentworth Historical Society will hold their annual picnic this year at Waterdown on Saturday afternoon, June 5th. The picnic will be held on the grounds back of the Methodist parsonage. Dr. J. O. McGregor and Mr. R. Sparks will be among the speakers. The society extends a very cordial invitation to all citizens interested in the history of Waterdown to be present.

LAST BIG BLOCK Of Canadian Pacific Reserve Farm Lands In Central Alberta and Saskatchewan

We would call your attention to these lands, the last large block of good virgin farm land in Western Canada, which marks the end of wholesale prices for virgin farm lands in the Prairie West.

News of this block being opened up is being advertised throughout Europe and the United States, and is being read by hundreds of thousands of people every week.

The American farmers have been quick to see the opportunities offered in the Western Provinces of Canada in the past, and I am sure that they will see this last opportunity as quickly as any, and that there will be thousands of them going to see these lands as soon as the snow begins to thaw in the spring. It is, therefore, up to us in Eastern Canada to make arrangements to visit the West and see these lands at the earliest possible opportunity, and I cannot urge you too strongly if you are at all interested in getting a farm of your own, to take advantage of this last opportunity. Those who act now and secure some of these lands will reap the benefit of quicker increase in value than at any period in the past, and the land will pay for itself from the crops in a few years.

Those who do not wish to improve the land at once may purchase land on ten year contract, one-tenth cash, balance in nine equal payments at 6%, which does not require improvement of the land, or you can pay in full if you choose.

Those who get there first will get best selection and best location.

CARLISLE, ONTARIO

Chevrolet One-Ton Truck, Express Body and Top, \$1945 Waterdown

A National Highway.
The Rotary clubs of Northern Ontario have joined forces with the Canadian Automobile Association in urging the construction of the important link of the trans-Canada Victory Highway lying between the great lakes and Winnipeg.

Recently eighty delegates representing the district extending from Fort William to Winnipeg met in conference at Dryden and formed the Canada Colonization and Highway Association. It was pointed out that the only difficult new construction necessary to the completion of the Fort William-Winnipeg highway will be encountered in the rocky, broken country between Scovell and Vermillion. It is said that the proposed trunk road will open up some fifty thousand acres of rich arable country and induce settlement and development. Lateral roads would rapidly be constructed. While the trunk road, it is estimated, would cost approximately five million dollars, it would do for this great country what the Asouan dam has done for the Nile basin—make it not only habitable, but richly tributary to the nation. With the completion of this road, but one considerable gap will remain to be closed in the trans-Canada Victory Highway—that on the north shore of Lake Superior, Port Arthur and Fort William, and the "Soo," the western terminus of the Great Northern Highway.

Money for Imperialists.

Some 50,000 residents of Canada who served in the Imperial forces during the war will be entitled to share in the appropriation voted by the Canadian Parliament to supplement the gratuities they receive from the British Government and bring them up to the Canadian scale. Some of the Imperial veterans are enquiring when they may expect a distribution of the fund. The Government is now engaged in the preparation of an order-in-Council setting forth the manner in which the gratuities will be distributed. Furthermore, the Government will need as a guide in the distribution of the money a concise record of each soldier's service. This, it is stated, is not available in Canada. An Imperial soldier with three years' service, it is understood, receives from the British Government about \$160 as a gratuity. He would be entitled to about \$400 additional from the sum appropriated by the Canadian Parliament at its last session.

Monkey-talk.

Prof. Garner reports that the female ape says "moochoo," and the male ape replies "Wahoo." Evolution doesn't appear to have carried us very far. A chap on the moonlit beach last night said, "Who is oo?" and the girl replied, "It's oo's."

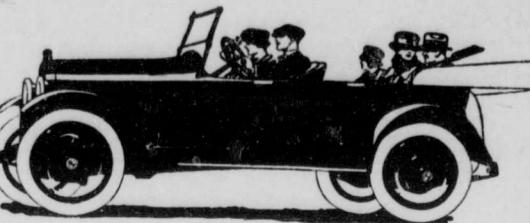

Dry Dock In St. John, N.B.

Work is being pushed on the Courtenay Bay dry dock and breakwater by the St. John Dry Dock & Shipbuilding Co. An appropriation of \$700,000 for the contract has just been made by Parliament. It is anticipated that a British shipbuilding firm will establish a mammoth plant in the vicinity of the dry dock.

Bears Kill Trees.

Hundreds of trees in the Northwest, including Douglas fir, white fir and western white pine—the wood of all of which is used more or less in airplane construction—have been seriously damaged by bears peeling the bark. About 100 trees to the square mile have been peeled.

SUNDAY SCHOOL LESSON

SUNDAY SCHOOL

Lesson X. June 6, 1920.

Saul's Failure. 1 Samuel 15; 1-35.

15; 13-26.

COMMENTARY—I. Saul untrue to his mission (vs. 1-9). Samuel stood between Jehovah and King Saul, the Lord sending messages through him. When Saul had reigned about twenty-five years, the Lord sent Samuel to tell him to go out against the Amalekites, and destroy them utterly, man and beast. It was included in the message that Amalek had laid waste for the Israelites on their way from Egypt to Canaan and had opposed them in their journey (Exod. 17: 8-14). Saul at once gathered an army of two hundred and ten thousand men and set out on his campaign against Amalek. The Kenites dwelt among the Amalekites and Saul notified them to go away from among their neighbors for their safety, for they had assisted the Israelites in their journey to Canaan (Exod. 18: 10-19; Num. 10: 23-32). Saul gained the victory over the Amalekites, but he spared Agag, the king, and the best of all the sheep and oxen. II. Saul rebuked (vs. 10-23). 10-12. The Lord told Samuel what Saul had done, and expressed his displeasure at his failure to obey his commands, hinting at Saul's removal from his position as king. Samuel was grieved and "cried unto the Lord all night." In the morning Samuel learned that Saul had gone to Carmel and set up a monument for himself, and had gone on to Gilgal. 13. Samuel came to Saul—He had most important message to bring to him. Blessed be thou of the Lord—This was Saul's salvation to Samuel, and in it he recognized Samuel's close relationship with Jehovah. I have performed the commandment of the Lord—Saul's statement was definite and positive, but it was a falsehood. He was either self-deceived or he meant to deceive Samuel. From what was said in the course of the conversation it is clear that the king was guilty of intentional misrepresentation. 14. What meant then this bleating of the sheep—Samuel did not directly charge Saul with falsehood, but he called for an explanation of the sounds he heard of

III. Saul's repentance vain (vs. 4-26). 24. I have sinned—This confession is in sharp contrast to his declaration in vs. 20-21. Because I feared the people—Saul admits his guilt and confesses his weakness of character in giving heed to the men of his army. 25. Fardo, my sin—Saul desires forgiveness and asks Samuel for it. We may suppose that he seeks Samuel's pardon for what he has done against him and begs him to intercede with God in his behalf. Turn again with me, that I may worship—Saul feared the outcome of his sin and earnestly desired Samuel to join with him in acts of worship that the doom pronounced upon him might not be fulfilled. 26. I will not return with thee Samuel would not in any degree even appear to approve of the course the king had taken, nor would he do anything that might show that he was out of sympathy with the Lord's will. 27-35. As Samuel turned to go away, Saul caught hold of his garment, and it tore in token of the fact that God had taken the kingdom of Israel away from Saul. Saul continued a king as long as he lived, but the kingdom would not pass to his son.

Questions—Who were the Amalekites? What evil things had they done to Israel? What message did God give to Samuel for Saul? What response did Saul make? How did Saul perform his mission? What did the Lord tell Samuel? Give the conversation between Samuel and Saul. What was to be the penalty for Saul's failure?

London, Ont.—"I suffered with periodic pains, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of remedies and had been treated by physicians, but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it, and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends, and if these facts will help some poor woman use them as you please."—Mrs. J. F. PEASEY, 200 Berry Street, London, Ont.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

A Pill That Proves Its Value.—Those of weak stomach will find strength in Parmelee's Vegetable Pills, because they serve to maintain the healthful action of the stomach and the liver, irregularities in which are most distressing. Dyspeptics are well acquainted with them and value them at their proper worth. They have afforded relief when other preparations have failed, and have effected cures in ailments of long standing where other medicines were found unavailing.

sheep and oxen. Saul said, They have brought them—Saul attempted to place the responsibility for the sparing of these animals upon his army. Amalekites—The Amalekites were descendants of Amalek, a grandson of Esau. Saul was sent forth to accomplish this destruction. Spared the best...to sacrifice unto the Lord—An attempt was here made to throw a cloak of religion over this act of disobedience.

16. Stay—Samuel did not argue the question, but he notified Saul that he had a message from the Lord for him. 17. Little in thin sight—Saul was humble at the time the Lord chose him to be king over his people. His humility and modesty were evident from his words in 1 Sam. 9, 21: "made the head of the tribes of Israel, in response to the demand of Israel for a king." He was a man of distinguished appearance and there was "none like him among all the people" (1 Sam. 10: 23, 24). 18. The Lord sent them on a journey. Jehovah intrusted to him an important work. He had ability in leadership, he had a military force sufficient for the purpose and he had divine authority, therefore there was no reason for a failure in accomplishing the mission. The sinners, the Amalekites—See note on vs. 1-9). 19. Wherefore didst thou not obey. Samuel ignores the declaration of Saul that the people spared the best of the animals for the purpose of making a sacrifice to God. Didst fly upon the spoil—Saul is directly accused of greed, which was the cause of his disobedience. He attempted to make an excuse for his conduct, but Samuel told him that he had done "evil in the sight of the Lord." 20. I have obeyed the voice of the Lord. Saul persists in his declaration that he had fulfilled his divinely-appointed mission. He seems determined to carry his false profession through to the end—"have brought Agag, the King of Amalek." The Lord's command was to destroy the Amalekites utterly, and it was violation of that command to keep Agag alive. Saul's statement that he had "utterly destroyed the Amalekites" was inconsistent with his admission that he spared Agag. 21. To sacrifice unto the Lord thy God. Saul speaks of Jehovah as Samuel's God. This may have been out of deference to Samuel as the prophet of the Lord, and from a desire to gain his favor. 22. To obey better than sacrifice. This is a great truth applicable to all time. No amount of sacrifice can take the place of obedience. Love and obedience are inseparably joined and are the basis and essence of true religion. No mere forms of religion will please God. There must be with them heart devotion. 23. Rebellion. The throwing off of rightful authority, is as the sin of witchcraft—sorcery. The presence of securing information regarding the future by consulting signs or by consulting spirits. Rejected—Saul's self-conceit led to his downfall.

III. Saul's repentance vain (vs. 4-26). 24. I have sinned—This confession is in sharp contrast to his declaration in vs. 20-21. Because I feared the people—Saul admits his guilt and confesses his weakness of character in giving heed to the men of his army. 25. Fardo, my sin—Saul desires forgiveness and asks Samuel for it. We may suppose that he seeks Samuel's pardon for what he has done against him and begs him to intercede with God in his behalf. Turn again with me, that I may worship—Saul feared the outcome of his sin and earnestly desired Samuel to join with him in acts of worship that the doom pronounced upon him might not be fulfilled. 26. I will not return with thee Samuel would not in any degree even appear to approve of the course the king had taken, nor would he do anything that might show that he was out of sympathy with the Lord's will. 27-35. As Samuel turned to go away, Saul caught hold of his garment, and it tore in token of the fact that God had taken the kingdom of Israel away from Saul. Saul continued a king as long as he lived, but the kingdom would not pass to his son.

Questions—Who were the Amalekites? What evil things had they done to Israel? What message did God give to Samuel for Saul? What response did Saul make? How did Saul perform his mission? What did the Lord tell Samuel? Give the conversation between Samuel and Saul. What was to be the penalty for Saul's failure?

A Pill That Proves Its Value.—Those of weak stomach will find strength in Parmelee's Vegetable Pills, because they serve to maintain the healthful action of the stomach and the liver, irregularities in which are most distressing. Dyspeptics are well acquainted with them and value them at their proper worth. They have afforded relief when other preparations have failed, and have effected cures in ailments of long standing where other medicines were found unavailing.

JUST THE THING.

"I want to get something for my husband," said Mrs. Newby, "that he will keep a long time and not give away." "I know the very thing, then," said Mrs. Experience, "buy him some cigars of your own selection."

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

"I hope you'll like me, Miss Shye; good looks run in my family." "That so? Too bad in your case it decided to ease down to a slow walk."—Florida Times-Union

NEURALGIA AND SCIATICA

Caused By Starved Nerves Due to Weak, Watery Blood.

People generally think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. This neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same. The cause is the same, and the remedy to be effective, must be the same. The pain of neuralgia, whether it affects the form of sciatica, or whether it affects the face and head, is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason no longer does so and the excruciating pain you feel is the cry of the starved nerves for food. The reason why the blood fails to properly nourish the nerves is usually because the blood itself is weak and thin.

When you build up the thin blood with Dr. Williams' Pink Pills, you are attacking neuralgia, sciatica and kindred diseases at the root. As proof of the value of these pills in cases of this kind we give the statement of Mrs. Thomas McGuire, North Malden, Ont., who says: "I have been a severe sufferer from sciatica, which attacked the sciatic nerve in the left leg. At times the pain was most excruciating and as a result of the trouble there was a distinct shrivelling of the leg. I could only hobble about by using a cane, and if I attempted to walk to the fields I would have to sit down every little while to ease the agony I felt. I was under medical treatment, but as there was no improvement shown, I was getting very despondent, as the trouble was affecting my general health. Finally a friend advised me to try Dr. Williams' Pink Pills and I decided to do so. I took the pills faithfully for several months, finding a gradual and increasing improvement in my case, until finally every vestige of the trouble had gone, and I was again enjoying the blessing of good health and freedom from pain. What Dr. Williams' Pink Pills did for me seems almost a miracle and I hope that my experience may benefit some other sufferer."

If you are suffering from any ailment due to weak blood avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

DIDN'T SUFFER.

(London Answers.)

Mistress—Mary, I hope you have taken good care of my pets while I have been away?

Mary—Indeed I have, ma'am. Only once did I forget to feed the cat.

Mistress—I hope she didn't suffer.

Mary—oh, no, ma'am. She ate the canary and the parrot.

When Holloway's Corn Cure is applied to a corn or wart it kills the roots and the callous comes out without injury to the flesh.

Small kindnesses, small courtesies small considerations, habitually practiced in our social intercourse, give a greater charm to the character than the display of talents and accomplishments.—Keltz.

Take the thought for the dead and you won't have to pay the conveyancer.

for Colds, Catarrh or Influenza

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and barks is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alterative and tonic is wild cherry bark with stillingia, which is good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root—all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alternative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy.

Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

SPRING SEEDING IS NEARLY DONE

Recent Rains Have Helped the Grass.

Fruit Prospects Are Encouraging.

The following is a summary of reports made by Agricultural Representatives to the Ontario Department of Agriculture.

Grass has been improved by recent rains and warmer weather, but some representatives still regard pastures as being much behind, compared with average conditions at this time of year. Spring seeding and planting is being pushed along vigorously. In some counties the grain crops are practically all in.

The land is said to be working well for the sowing of roots, speaking generally. An increased acreage of sugar beets is assured in the southwestern portion of the province.

A considerable acreage of potatoes has already been planted, but potato seed was never harder to procure, and it has been very high in price.

Fruit prospects, taken all together, are encouraging. Orchard trees of all classes are blossoming more or less freely, and although some raspberries have been frozen back, even they are making a fair renewed growth. Strawberries are looking well.

Cattle are in good health, but as a rule are rather thin on account of the backward condition of pastures.

Beef did not winter well. Halldemand reports that many apiaries have lost more than half of their colonies.

Farm help is still very scarce, although many farmers have got along with their spring work much better

MOST EVERYONE USES THEM FOR THE STOMACH

They Act Quickly, and Make You Feel Lively As a Kid.

A crowning curative triumph in medicine is now given to the world and all who have been sufferers from stomach ailments, indigestion and headache can be cured by a purely vegetable remedy.

Calomel salts and such like are no longer necessary. They are harsh and disagreeable. Science has devised something far superior, and you can go to-day with 25c to any druggist and buy a box of Dr. Hamilton's Pills, which are considered the very quickest and safest cure for the stomach, bowels, liver and kidneys.

Half sick men and women who scarcely know what ails them, will be given new lease of life, with Dr. Hamilton's Pills. Depressed spirits disappear, headaches are forgotten, appetite increases, blood is purified and enriched, pains at the base of the spine are cured, the nerves are toned up, ambition to work is increased, and day by day the old-time health and vigor return.

A trial only is necessary to prove how beneficial Dr. Hamilton's Pills are to all who are weak, nervous, thin, depressed or in failing health.

Waterdown

We show this week a cut of the latest in Electric House Pumps, with automatic cut-out. This pump regulates the supply of water at regular pressure to Tank, and brings it from a well or cistern if not over 25 feet deep and any reasonable distance. This pump has no gears, is almost noiseless in operation, self oiling, self regulating, high-grade motor.

We endeavor to keep the latest and very best ideas in Hydro-Pneumatic Force and Lift Pumps. We also supply Electric and Gasoline driven Washers and Wringers and a complete line of Farm Equipment.
