LONDON, Feb. 17.-Advices from Cam eroons, Africa, state British Consul Hewitt has convened a court of equity to compute the damages suffered by English settlers from the bombardment of the German fleet. When the German admiral heard of

the matter he forbade the court to sit on German territory. This was practical prohibition against holding the court, as the entire territory is claimed by Germany. The admiral subsequently moved up his fleet and opened a vigorous fire upon Fosstown, keeping the bombardment up two hours. Land Law Reform.

A few years ago the task of instructing the public on the defects and dangers of sur present method of conveying land from one person to another was voluntar 'ly undertaken by one or two legal gentlemen, whose efforts were after a time seconded by a few laymen whose business made them acquainted with the subject. is to be brought about, we should wonder The result was the formation of an associa- rather how it can possibly be avoided. tion for the promotion of land law reform,

under the presidency of J. Herbert Mason, manager of the Canada Permanent savings company. as extensive and instructive as that of any other lawyer in the dominion. Mr. Jones has long been an earnest advocate of the adoption of the Torrens system of transfer, which nas the double merit of economy and cer-tainty. It was devised by Sir Robert Torrens, an Australian statesman who was not a lawyer. It was adopted in his own provinces and in nearly all the other vrovinces in Australia, as well as in New Zealand and Tasmania, and is about to be Zealand and Tasmania, and is about to be introduced into the Northwest Territories by the dominion parliament. Its influence has produced a measure of reform in Eng-(and, and now Mr. Mowat has resolved to nake the system optional with owners of eal estate in this province.

The essence of the Torrens system is (1) that it does away with the necessity of searching the title back to the crown in every separate conveyance, and (2) that it gives the purchaser and holder of real property an absolutely indefensible title. At present if a man wants to borrow a few hundred dollars on a farm or city lot he must pay for having his bitle searched, and the cost of doing so greatly increases the

He defended the over-expenditure in the item of administration of justice on the ground that there were more crimes committed in hard times. He contended that the administration of the affairs of Ontario was more economical than that of, any of the other provinces. The cost was only $7\frac{1}{2}$ cents per head. Chairman of Committees-Effort to Ob tain the Dominion Show This Year-Dates of the Next Fair Confirmed.

The annual general meeting of the direct tors of the Industrial exhibition association was held yesterday afternoon in the board's offices, public library building. President J. J. Withrow occupied the chair, and there were in attendance N. C. Love, James Crocker, D. C. Ridout, Capt. McMaster, W. S. Lee, R. W. Elliot, W. B. Hamilton, Wm. Rennie, Lt. Col. Gray, M. P. P., James McGee and Manager-Secretary Hill. The election resulted in the return of

all the old officers. Mr. Withrow strongly all the old oncers. Mr. with the with any urged the board to elect another member to the presidency, but they would not listen to the proposition. Capt. W. F. McMaster was re-elected first vice-president, Wm. Rennie second vice-president and James McGee treasurer. The chairmen of the different commit

The chairmen of the different commit-tees of management were chosen as follows: horses, Wm. Christie; cattle, Dr. Smith; sheep and pigs, James Crocker; agricultural products, James Fleming; horticulture, Lieut. Col. Gray; poultry, A. McGregor; agricultural implements, Wm. Rennie; dairy products, honey and apiary, P. G. Close; machinery, D. C. Ridout; manufac-tures and main building, Capt. W. F. Mc-Master: stoyes and castings. Geo. Mitchell; reception and transportation, President Withrow; finance, W. B. Hamilton: special attrac-tione D. C. Bident. tions, D. C. Ridout.

Mr. Christie is at present in New Or leans, and Mr. Withrow stated that before going he left word to be sure and elect him chairman of the horse committee, "for," said Mr. Christie, "I would sooner be chairman of the horse committee than premier of the dominion.

The president thanked the meeting for is re-election. He strongly urged a year of economy, and hoped that the directors would be able this year to pay off their floating debt and hand over the affairs of the association to their succes-sors with a clean slate and to the citizens the beautiful park and build-ing which the chibitizen we held. ings where the exhibitions are held. While admitting the need of additional grounds, he thought that was a matter for the sity council to look after. Speaking of a debate in the Ontario assembly on the provincial exhibition, Mr. Withrow said they did not

now look upon the provincial as a rival. The Toronto exhibition, he believed, was the best in the dominion, and it was just what the directors had made it. They gave the most liberal prizes, and the whole of the prize list was available. Mr. Withrow defended the special attractions of last year, and said they tended to make the exhibition more popular. He hoped zoon to see a music hall on the grounds.

[Applause.] Lieut. Col. Gray left for Ottawa las night, and the board entrusted him with the mission to use his best offices with the government to obtain for Toronto the minion exhibition this year, which would e run jointly with our own, ensuring, as the president stated, if Lieut.-Col. Gray were successful, the greatest exhibition that the dominion had ever witnessed. The dates of the next exhibition were

confirmed, September 7 to 19. The pro vincial will be held during the first week of the Toronto show:

The truth is that the present serious illness of the German emperor is attributable to precisely the same cause, his majesty hav-ing been so imprudent as to indulge in a heavy meal of hot lobsters, washed down by Rhine wine, with the result that he was attacked by violent indigestion, which had to be subdued by such strong remedies that he was reduced to an alarming state of weakness. The emperor's admirers really ought to impress upon him that at the age of 85 the only form in which letters can safely be continued is in the shape of a bisque.
