Single Copies 5 Cents.

LOCAL HAPPENINGS

The Guide-Advocate welcomes all items of interest for this column. Call Phone 11, send by mail or drop item in GUIDE-ADVOCATE Letter Box.

NEXT Tuesday is Hallowe'en.
24 SMALL BOY'S School Suits \$1.50 each.—SWIFT'S.
VON KLUB has been placed on the retired list. No more clucking from him.
THE Methodist young people will hold a bazaar some time before Christmas.
THE Presbyterian Synod of Toronto and Kingston wants Thanksgiving Day on a Wednesday in future.
THE Postoffice Department has been able to show a surplus of well up toward \$3,000,000 for the past year.
THE annual show of the Lambton Corn Grower's Association will be held at Petrolia on January 24, 25 and 26.
SEVERAL from here motored to Forest Monday night to see "The Battle Cry of Peace," a movie of considerable merit.
TIGER brand and Penman's all wool underwear for men.—SWIFT'S.
MORE barn fires of mysterious origin are reported in Western Ontario. Herr von Spontaneous Combustion is evidently still on the job.
THE Ontario License board is watching the sales of invalid wines, with a view to prosecuting druggists who sell such for beverage purposes.
ON Sunday evening next, Oct. 29th, in the Methodist church, Rev. F. G. Robinson will discuss the subject, "Is it possible to work miracles?"
MANTOBA ladies having secured equal rights are now moving to prevent foreign women from having the vote. Getting right into politics, aren't they?
33BOY'S tweed school suits, sizes 28 to 36, good sound tweeds, \$3.50 to \$4.50.—SWIFT'S.
THE High School basketball team went to Petrolia by auto on Tuesday to take part in the sports there. They were chaperoned by Mr. and Mrs. R. N. McKenzie.
At a meeting of the Tecumseh Chapter Daughters of the Empire it was decided to send parcels to the Watford boys at the front for Christmas. Over sixty parcels will be required.
PEABODY LODGE, I. O. O. F., meets Monday night at 8 p. m. sharp. As there is special business to be done a full attendance of members is requested.—SAC. 020-4
WE'RE IN STOCK a full line of rubbers. Ladies', gents' and children's, all sizes, high and low, heavy and light, in styles and half sizes. These we sell at the very smallest margin of profit.—P. DODDS & SON.
The Guide-Advocate does all kinds of Job Printing in a neat and attractive manner. This office is well-equipped for this class of work, and your order will receive prompt attention.
ADVERTISING, it is claimed, contributed to the success of the Canadian million dollar loan. There is no doubt of it. Judicious advertising is a factor in the success of every enterprise.
38 BOY'S overcoats, single and double breasted, high storm collars, sizes 28 to 36, \$4.00 and \$5.50.—SWIFT'S.
THE Christmas parcels for the boys on the firing line and in the hospitals, will soon be going overseas. Send your share before it is too late. The boys cannot be home for Christmas. Send a gleam of home to them.
MR. W. E. FITZGERALD had the misfortune to cut his foot with an axe last week while cutting kindling at his office in Wyoming. The wound required the attention of a physician, but is now healing nicely.
ANOTHER of Watford's young men was added to the list of heroes this week. Percy Mitchell makes the fifth Watford boy to lay down his life for King and country. The flag at the armory is at half mast in his honor this week.
Some time ago the merchants of the town of Essex entered into an agreement with each other to hold a weekly bargain day, and the results have been so profitable that they have decided to continue the practice. This bargain day idea has been successful wherever tried. Why not start the ball rolling in Watford?
Boy's combinations, 85c. and \$1.00 a suit.—SWIFT'S.
JAS. MCCLURE, of Hartshorn, Alberta, formerly of Brooke, in renewing his subscription says:—"We wish you every success. We are not in the hall belt but weather has not been very favorable for threshing. Very little done around here yet and the recent snow won't help out any." This was on Oct. 17th.
THE 43rd anniversary of the building of Watford Methodist Church was held on Sunday last, when Rev. C. R. Flanders, D. D., of the First Methodist church, London, preached at 11 a. m. and the evening John X. 4. Both discourses were scholarly and eloquent and were greatly enjoyed. The choir gave three anthems in splendid style, and Miss Clark rendered a solo entitled, "Jesus, lover of my soul." The minister, Rev. F. G. Robinson, assisted at both services. Offerings were taken in aid of Trustee

It pays to pay cash for your dry goods and clothing. Try it for a year.—E. D. SWIFT.

DR. W. A. HENDERSON of Sarnia died while driving his car along Christina street on Wednesday.
STRATHROY has been ordered to put in a chlorination plant to purify the water supply and close all flush closets emptying into sewers.
SHOES of all kinds for all kinds of people. Good, substantial working shoes that will give the best of wear, also fine walking shoes in many makes. Some of these shoes were bought at old prices.—P. DODDS & SON.
THE members of the Women's Institute have been working for the new Ontario fire sufferers and have forwarded three large bales consisting of 20 good quilts and other warm clothing kindly donated by members and friends, which will be much appreciated.
REV. H. P. S. LUTTRELL, B. A., who has spent seven years in Weiweiwei, Honan province, North China, under the Presbyterian church, will tell of his work in that marvellous country both morning and evening in the Watford Presbyterian church next Sunday. All are welcome.
SMARRY new pinch-back and Norfolk suits, the new bloomer pants. Also long first trousers, sizes 33 to 37.—SWIFT'S.
It speaks well for our town to see so many of our citizens improving their dwelling houses and others building new homes. Work on the new houses of J. W. McEwen, Huron Street, and F. W. Rogers, Victoria Street, is progressing rapidly and when completed both residences will be a valuable addition to the town.
MR. ALFRED NASH, one of Watford's expert gardeners, left at this office on Thursday last two ripe tomatoes that together tipped the scales at two pounds ten ounces. They were two mounds, solid and of good shape, and the largest we have seen this season. We can testify that they made good eating.
ELSEWHERE in this issue will be found the advertisement of the Dominion government offering debenture stock on very attractive terms. The stock is sold at par, principal repayable October, 1919, and draws 5 per cent interest. Read the ad. and if you have any idle money the proposition is worth considering, and you will be doing the country a good turn by investing.
YOUNG men and youth's nifty overcoats, snappy styles, \$10.00 to \$20.00.—SWIFT'S.
THE Rev. R. J. Murphy, of Dutton, preached in Trinity Church, Watford, and St. James' Christ churches, Brooke, on Sunday last to good congregations. In Watford he took his text from Romans 8:1, and delivered a pointed sermon in a quiet and impressive manner. He urged his hearers to do all in their power to assist the allies to crush Germany and militarism, and thought that all billiard rooms and dance halls should be closed until after the war.
THE directors of the East Lambton Agricultural Society met on Saturday and closed up the business of the year. Checks have been mailed to all prize winners and after all other expenses have been met a comfortable cash balance will remain. The directors decided to make some improvements on the fair buildings by placing storm shutters on the windows and giving the building a coat of paint. The grounds also will receive attention and be levelled and put in better condition.
WHERE the wishes of the ratepayers in many municipalities considered it is very probable that few, if any, municipal elections would be held at the beginning of the year. Not only will the expense incident to such elections be saved, but the divisions with its accompanying feeling, no matter how small, will be obviated. With the terrible war still raging and when the concentration of every effort is required to overcome the murderous Hun, an election contest might profitably be deferred.
As a result of a ruling of the Ontario License Board, plum puddings, mince pies and other Christmas delicacies of Ontario citizens will be minus brandy sauce this year. Bakers and confectioners have been notified by license inspectors that the board considers the use of brandy and other liquors in puddings and pies a violation of the new Temperance Act, and that prosecutions will follow if any kind of liquor is used in bakeries. Old John Barleycorn is receiving many a severe jolt lately.

T. B. R. Westgate Released

The Essex Free Press last week records the release of Dr. Westgate, son of Mrs. Jarvis Westgate, fourth line, Warwick, a missionary of the Anglican church in German East Africa, who has been a prisoner since the early days of the war. The Free Press says:—"When the British colonial forces, operating in German East Africa, succeeded in capturing the fortified town of Tabora, Rev. T. B. R. Westgate, D. D., a missionary, and a brother of Rev. H. P. Westgate, rector of St. John's church, Sandwich, was released. The missionary was taken prisoner by the Germans at the outbreak of the war, and was interned in the fortress until the town was taken by the allied forces. Word to that effect was received by the Sandwich rector from the colonial office in London via Ottawa, on Tuesday morning. Mr. Westgate, the missionary was formerly rector of the English church at Comber."

Lambton's Casualties

Among the casualties reported this week are:—
KILLED IN ACTION
Pte. Clifford Atcheson, Alvinston
Pte. Hector Morrison, Petrolia
Pte. C. H. Aichison, Alvinston
Pte. G. T. Giles, Sarnia
Pte. H. Rolertson, Oil Springs
Pte. H. M. Morrison, Petrolia
DIED OF WOUNDS
Pte. Percy A. Mitchell, Watford
WOUNDED
John Mann, Petrolia
J. G. North, Watford
M. Maidwent, Forest
Alex. C. Mainisley, Sarnia
Stanley Thornton, Watford
N. G. Lamb, Petrolia
A. H. Bannister, Forest
L. C. Garnham, Wanstead
H. O. Sharkey, Petrolia
M. Maidwent, Forest

Death of Mrs. Joseph Chittick

There passed away at the home of her parents, Mr. and Mrs. W. G. Willoughby, Brooke Tp., at about 3 o'clock Thursday morning, Mrs. Martha Chittick, wife of Joseph Chittick, Deckerville, Michigan. For a period of over a year Mrs. Chittick had been in failing health and in spite of all that loving hands could do, no relief could be afforded. The funeral took place on Saturday afternoon at St. James' Cemetery when a large number turned out to pay their last tribute of respect. An impressive service was conducted at the house and at the graveside by Rev. S. P. Irwin, assisted by Rev. M. Fasson. During the service at the house a beautiful hymn entitled "Farewell" was rendered by Mrs. Peter McGregor. The pall-bearers were John Hawes, William Annett and Sam McLellan, Brooke; Ephraim Willoughby (uncle) Pt. Huron; Mrs. Neve, Glencoe; Robert Campbell, Petrolia; Robert Holme and daughters Aberfeldy; and Mr. and Mrs. Alex. Watson, Aberfeldy.
The late Mrs. Chittick was born in the township of Brooke, Lambton Co., in 1877, where she resided until the time of her marriage in 1906, after which she lived at Deckerville.
Beside her morning husband, she is survived by the children, Clara C., Gerald W., and Erdene E., her parents, one sister, Miss Minnie Willoughby at home and two brothers Hernandez Willoughby now overseas with the Canadian Expeditionary forces and George M. Willoughby, Toronto.
The following were present from a distance: Mr. and Mrs. George Treastin, Detroit; Mrs. Meacham, Mr. and Mrs. Cowan, Mr. and Mrs. Chris Chittick, Deckerville; Ephraim Willoughby, Pt. Huron; Mrs. Neve, Glencoe; Robert Campbell, Petrolia; Robert Holme and daughters Aberfeldy; and Mr. and Mrs. Alex. Watson, Aberfeldy.

Some Interesting Figures

The combined battle fronts now measure 2,464 miles as follows:—
Eastern front.....720 miles
Transvaal front.....324 " "
Russo-Rumanian front.....360 " "
Macedonian front.....330 " "
Italian front.....320 " "
Western front.....410 " "
Total.....2,464 " "
To give a comparison, the distance across country between Quebec and Vancouver is 2,400 miles.
George Mills, a well to do farmer of South Yarmouth, was found drowned in a deep well on his farm. Mills it is believed, became faint and fell into the well while drawing water for the cattle.
Igniting his nightdress with matches, which he got while his mother was out of the house, the four-year-old son of Mr. and Mrs. Silas Brown, 12th concession, Metcalfe, suffered burns Monday morning, from which he died three hours later.
Police Magistrate Andrews, of Clinton, dismissed the charge against Jacob Weber, of Seaforth of bringing 12 half barrels of whiskey, for other than personal use. The liquor is valued at \$782. Mr. Weber calculated that this large supply would last him and his wife for 14 years.
Petty thieving has been going on among the farmers of Lambton county. One farmer found that 56 hills of potatoes were missing. He was in the field shortly after the thieves as the ground was still moist from the recent digging.—Canadian.

PTE. PERCY A. MITCHELL

Pte. Percy Mitchell Dies of Wounds

On Friday morning Mr. Angus Mitchell of Watford received a telegram from the Casualty Record Department at Ottawa stating that his son, Pte. Percy A. Mitchell, had been wounded on October 10th, and was in No. 13 Military Hospital, Boulogne, France.
On Tuesday morning another wire was received from the Record Office stating that he had died of his wounds on October 14th.
Pte. Percy Angus Mitchell enlisted with the 33rd Battalion as a stretcher bearer and went overseas with that battalion, being sent to the front with a draft when the 33rd was broken up. He was the youngest son of Mr. and Mrs. Angus Mitchell and was 33 years old. He was born in Watford, educated at the Watford public and high schools, and afterwards served his apprenticeship as a druggist and attended the College of Pharmacy. Until he enlisted he worked as a druggist in several places, and made many friends among the people he became acquainted with. Besides his father and mother he leaves four brothers to mourn his loss, namely, Bert, of Oshawa; Joseph of Prince Albert; Harry overseas with the forces, and Charley at home.
Thus another of Watford's sons is added to the rapidly increasing honor roll of men who have died for the cause of humanity. All should deeply appreciate the sacrifice thus made to enable us to live in comfort and security, and each casualty should be an incentive to more of our young men to enlist for service. More men are needed and must be had if we expect to conquer the meanest foe in the world's history.

WARWICK

Mr. Chas. Barnes who has been ill for the past couple of months is improving slowly.
PAY your bill by 4th November, we need the money.—SWIFT'S.
Timothy Gavigan has sold William E. Gavigan the west quarter of lot 14, con. 3, S. E. R., Warwick.
Mrs. W. M. Luckham spent the week end with her sister-in-law, Mrs. J. L. Luckham of Glencoe.
Chas. E. Stewart returned home today after a visit of four months with relatives in the north west.
Owing to bad weather Frank Jenkin's live stock sale was postponed until Friday, Oct. 27th. See ad.
Mrs. Henry Vance arrived home last Sunday from an extended visit with her daughter, Mrs. Dr. Thomas of Medicine Hat.
NOTICE—Any person hunting, shooting or trespassing on lot 14, con. 1, N. E. R., Warwick, after this notice, will be prosecuted.—W. BARTLEY. 013-3t
Rev. and Mrs. Shore, Mr. and Mrs. B. B. Dann, Miss Myers and Miss Archer attended the Anglican Sunday School Convention at Alvinston last week.
Mrs. George Brent, sr., has returned home after a four months' visit with her sons, William and John of Edmonton and her daughter, Mrs. Ed. Ross of Port Arthur.
2 PIECES old blue dye \$27.50, a suit, made to order.—SWIFT'S.
Rev. W. R. Vance visited his brother Harvey Vance, and with his sister Miss Jennie Vance, attended the funeral of their aunt, Mrs. Blough, at Sarnia on Tuesday afternoon.
Dr. Bell of Toronto, field secretary of the Dominion Alliance gave a very interesting and instructive address which was much appreciated by the large congregation at Bethel church last Sunday afternoon.
Mr. W. A. Spalding former Secretary and Superintendent of The Pullman Sleeping Car Co., at Buffalo, N. Y., and who has been spending the past two weeks at his home on the second line, left for Toronto on Thursday he having been appointed Cashier and Asst. Agent of the company at that point.
Biram Red Cross League met in the basement of Bethel church on Friday, the 20th inst. and enjoyed a very busy afternoon in packing a bale for Hyman Hall, consisting of the following: 28 pairs socks, 6 pyjamas, 9 pillows, 20 pillow slips, 30 trench towels, 4 dozen handkerchiefs and 1 helpless shirt. All honor to the faithful Red Cross workers for the

noble work they are doing.

The annual meeting of the Women's Patriotic League was held at the Rectory on Wednesday afternoon, Nov. 1st. An exhibit of work will be shown. We hope to have the pleasure of an address from Captain Chalk who has lately returned from the front. A musical program is also being arranged. A cordial invitation is extended to all to be present and a liberal contribution is asked for.
ORDERS for ladies tailoring should be placed now to ensure quick delivery.—SWIFT'S.
The meeting of the Women's Patriotic League held at the home of Mrs. Oliver Tanner was well attended, and an unusually large amount of work was accomplished. Of the amount collected (\$13.50), ten dollars was donated to the British Red Cross Society. A splendid donation of Christmas stockings numbering 36, were sent to the C. R. C. S. last week from this Society. Their value was \$40.00.
Rev. H. P. S. Luttrell, B. A., of Weiweiwei, North China, will speak in Knox Presbyterian Church, Warwick, next Sunday afternoon on, "Among the Chinese in China." We invite our neighbors heartily to be present on this occasion. On Friday evening of the same week, Nov. 3rd, at eight o'clock a special meeting will be held to hear Rev. J. D. Byrnes, B. D., Supt. of Missions for North Ontario, tell of his work in that new and interesting country. Rev. J. J. Patterson, B. A., of Sarnia will also speak. This is a treat that no one should miss. All are invited.
The Warwick Branch of the Women's Institute held a very successful meeting in the Forrester's Hall on Thursday, Oct. 12. A very large quantity of clothing and bedding was brought in for the relief of the sufferers in Northern Ontario. Eight quilts were quilted, which made a total of 14 quilts that were packed together with a quantity of clothing to be shipped. The bales were valued at \$85.00. The donation to the prisoner of war amounted to \$5.10. Mrs. Jas. Robinson and Mrs. A. Auld were appointed delegates to attend the London Convention. Next meeting will be held on Nov. 8th, in aid of Red Cross work. Members and friends are requested to be present.
A memorial service was held in St. Marys Church, on Oct. 22nd in honor of the late Pte. Geo. Morton Fountain. Rev. Marston Shore delivered a very excellent discourse to a large congregation including a goodly number of Orangemen, taking as his text Key 21-7, "He that overcometh shall inherit all things." Pte. Fountain came to Ontario from Nottingham, England, in July, 1913 at the age of 16 years. In September, 1915, seeing the Empire in need, he enlisted in the 70th Batt. Training rapidly he secured promotion to an earlier Batt., the 33rd, eventually reaching France about June 6th last, and later being appointed to Mounted Rifle duty. Lieut. Muirhead in writing to his mother says, "Your son was killed in an attack on Sept. 16th, meeting his end as a soldier shield. He was buried near the spot where he fell." Much sympathy is felt for and much honor is due his brave mother who has given her all to the cause of right against might.

BROOKE

Sutorville Red Cross Sewing Circle met at the home of Mrs. Richard Lucas on Thursday, Oct. 19th, and packed a box of Red Cross supplies consisting of pyjama suits, helpless shirts, trench towels, hospital sheets and pillow covers.
Mr. Joseph Chittick of Deckerville, Mich., whose wife died at the home of her father, Mr. W. G. Willoughby, last Thursday, has had a full share of life's troubles lately. Within the space of a little over two years he has lost by death his father and mother and wife.
Mr. George McCormick motored to Sutorville on Wednesday night accompanied by Misses Ruby McCormick, Mary McKenzie, Kathleen Elliott and Mr. Alex. McKenzie. Miss Allie McCormick who has been visiting her friend Miss Pearl Lucas returned home with them.
Owing to the fact that the annual convention of Women's Institutes in London comes on our regular Institute day, Nov. 9th, the meeting has been changed to Nov. 2nd. It will be held at the home of Mrs. W. Shugr, her assistant hostess being Miss Pearl Maddock. A collection will be taken for our war prisoner in Germany, and a good program is also promised. Papers given by Miss M. McGuffin on, "Our Flag and what it Stands for" and by Mrs. F. King on, "Women and War." Roll call, Patriotics. Don't forget the day, Nov. 2.
The very fine weather on Wednesday 18th, brought many out, who had not been coming, to attend the meeting of the Red Cross Worker's Union at Mrs. J. Beattie's. The workers sent a bale to Hyman Hall this week containing 18 dayshirts, 22 pyjamas suits and 31 trench towels. The meeting on Wednesday Nov. 1, will be at Miss Olive Davidson's. Hope many will be stirred up to come out and put in a few stitches for the boys.
Story book romance has its counterpart in real life in the marriage of Miss Adelaide Judson to Harold Jarvis, the well known tenor soloist of Detroit. The old but ever delightful plot of a pupil being wooed and won by her teacher saw its last chapter written when the pair were wedded the other day.

PERSONAL

M. J. Roche, Forest, was here on Monday.
Mrs. J. W. McLaren is visiting her parents in Sarnia.
W. E. Fitzgerald was in London Wednesday attending court.
Roy Hollingsworth and Ken William son arrived home from the west Tuesday night.
Mr. and Mrs. Frank Cowan of Deckerville, Mich., spent the week end with Miss Gladys Shrapnell.
Rev. S. P. and Mrs. Irwin spent a few days in Dutton where Mr. Irwin preached thanksgiving sermons on Sunday.
It is said by growers that the sugar beet crop this year will not come up to last year's average. Last year's average was ten bushels to the acre, while this year's is estimated at seven.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 6657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

PROPRIETORS

Guide-Advocate HARRIS & CO. PROPRIETORS. WATFORD, OCTOBER 27, 1916

NOTE AND COMMENT The commander of the German submarine U-53 has been awarded the Order of Pour le Merite for sinking 126 vessels totalling 270,000 tons.

From Puck—The kindly Germans passed an eight-hour bill long ago. Little children are not murdered before nine in the morning nor after five in the afternoon.

The Protestant Episcopal Church of the United States, a denatured Anglican institution, has resolved not to pray for the President any more probably realizing that the Democratic National Committee is doing all that can be expected.

As one of the consequences of the western real estate boom, the city of Saskatoon publishes a list in one of the newspapers, seventy-two columns long, of city lots to be sold for non-payment of taxes. Having no present value for use or speculation, the lots will probably be left on the hands of the city, which will pray for another boom in which to realize its unpaid taxes, interest and a profit.

MOTHER TELLS HOW VINOL Made Her Delicate Boy Strong New York City.—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles and there seemed no hope of saving his life. The doctor prescribed cod liver oil, but he could not take it. I decided to try Vinol—and with splendid results. It seemed to agree with him so that now he is a strong healthy boy." —Mrs. THOMAS FITZGERALD, 1090 Park Ave., N. Y. City. We guarantee Vinol, which contains beef and cod liver peptones, iron, and manganese peptones and glycerophosphates, for run-down conditions. Taylor & Son, Druggists, Watford, Ont., also at the best druggists in all Ontario towns.

The first soldier from Western Ontario to win the coveted honor of the Victoria Cross is Captain Montour, who enlisted as a private in Hamilton and was promoted to his captaincy for gallant conduct at the front. Captain Montour is a member of the Six Nations Indians, and comes naturally by his fighting blood, being a descendant of the famous Mowhawk war chief Captain Joseph Brant.

American newspapers contain many letters protesting against the action of United States warships in getting out of the way of the U-53 in order that she might sink British and neutral vessels. There is indeed some contrast between their attitude and that of the British admiral at Manila harbor, who put his ships between Dewey's and the German fleet that was about to attack them, thus preventing war between the United States and Germany.

Price of Meat Foods The U. S. department of agriculture finds that producers of most animals of all kinds are getting more money now than they received six years ago. On September 15th the index figure of prices for these animals was about 23.7 per cent higher than a year ago, 10.5 per cent higher than two years ago and 22.5 per cent higher than the average price of the last six years. These figures are based on reports of several thousand correspondents of the department and probably are fairly near the fact.

If the big meat packers are making more money than ever, so, too, are the men who raise the cattle. It is the householder who pays the bill, and, unfortunately, every indication is that he will have to continue paying at about the present rate for an indefinite time. There is no prospect of an early decline in the price of meats. Whatever decline might have been caused by big grain crops will fail to materialize because we have not the big grain production which will permit free feeding to cattle. The hay crop is big, but something more than hay is needed to fatten food animals.

There were great hopes that under the new tariff regulations the Argentine producers would be able to send enough beef to this country to have a noticeable effect on prices, but nothing much has developed in that direction. The situation is greatly aggravated, of course, by the war, which has enormously increased the export demand, but the meat problem is one that will be with us long after the war ends. In fact, it is not apparent now that we ever again shall be without this problem to disturb us. Population is increasing rapidly and with it the consumption of meat. Production of food animals is not increasing at the same rate. As long as this condition prevails prices will be high. There is money in raising cattle.—Buffalo Express.

A Really Notable Achievement The phenomenal success of Sir Thomas White's second domestic war loan has drawn the eyes of the world upon Canada. Bonds aggregating one hundred million dollars have been offered and applications aggregating two hundred millions have been received. The first domestic loan issue of fifty millions was over-subscribed by one hundred per cent. The second issue of one hundred millions has been over-subscribed by one hundred per cent. That means that in one year the Canadian people have offered the Government for war purposes three hundred millions of dollars—double the amount asked for.

This was done in a country which, prior to the outbreak of the war, was a borrower. To-day the people of Canada are lending, not to the Canadian Government alone, but to the Imperial Government as well by means of the credits established here. Out of these credits payments are made for the enormous quantities of munitions and other war supplies purchased by Great Britain in Canada. The last credit of fifty millions brings the total up to \$150,000,000. It is a proud chapter in the history of the war. Great things are being done by Canada's sons on the battlefield; great things also are being done by Canadians at home.

Hard and soft corns both yield to Holway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action. Mrs. Francis Atwell of Washington is one of the several who are running for congress in the west.

A New Spy Stunt

Britishers everywhere would do well to be on their guard against projects for the supposed benefit of British soldiers. The uses to which the enemy can put these is illustrated by the unmasking of a spy agency in France. A Swiss firm despatched thousands of circulars to French addresses:

"Desirous of manifesting our warm affection for France," they ran, "we should feel obliged if you would send us the address of a soldier to whom we could forward gratis a few packets of cigarettes and cigars."

The German intelligence department in this way received the addresses of soldiers at the front, with the indication of the regiment, of the division, and of the postal sector.

Queens Sold Almanacs

The sale of almanacs was once a lucrative monopoly. Queen Elizabeth granted the sole right to publish "almanacs" and prognostications" to the Stationers' Company, and James I, extended the privilege to the Universities of Oxford and Cambridge, but for centuries only these three bodies were permitted to issue printed calendars. The monopoly ended when the claim of the king to the privilege of granting or withholding permission to issue calendars—a survival, perhaps, from days when kings asserted their right to regulate all things, including even the times and seasons—was definitely disproved and proclaimed non-existent. Now anybody can say who's who anywhere. London Chronicle.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

Emmet's Presence of Mind.

A story is told of Robert Emmet which proves his secretive power and resolution. He was fond of studying chemistry, and one night late, after the family had gone to bed, he swallowed a large quantity of corrosive sublimate in mistake for some acid cooling powder. He immediately discovered his mistake and knew that death must shortly ensue unless he instantly swallowed the only antidote, chalk. Timid men would have torn at the bell, roused all the family and sent for a stomach pump. Emmet called no one, made no noise, but, stealing down stairs and unlocking the front door, went into the stable, scraped some chalk which he knew to be there and took sufficient doses of it to neutralize the poison.

Your Tramping Companion.

He may be all right in the city, a pleasant chap to lunch with and a good companion for an evening at the club, but beware of taking him along on a fortnight's hike through the woods or a cruise in a twenty-five footer. Test him thoroughly before you give him the chance to spoil your vacation. He may be grouchy, before breakfast, or he may be a plain shirker. Possibly the thin veneer of civilization conceals the primordial hog.—Outing.

Electric Light.

The basic discovery of the possibility of electric light was made by Sir Humphry Davy in 1810, but for the next fifty years the developments were solely scientific and no practical use was made of them. In 1822, however, an arc light was installed in a lighthouse at Dungeness, and this is generally believed to be the first electric lamp in regular service.

Conscience Money.

A West Virginia man sent a farmer \$3 in payment for a watermelon he stole fifteen years ago. If every boy that ever lived in the country were to develop a conscience like that the farmers would own most of the money in the world.

Different Route.

"How far is it to Guildford?" "Well, sir, as the crow flies, I should say it be ten miles."

"But if the crow were riding a bicycle how far would it be?"—Pall Mall Gazette.

Proof. "How do you know she's older than you are?" "Why, she admitted it herself. She said 'You and I are just the same age, dearie.'"—Cleveland Leader.

The Late Alexander Karr

Alexander Karr, one of the early settlers of Warwick township, and a resident of Forest and Bosanquet for several years, passed away Wednesday of last week, at his home McHenry street, aged 83 years, and 11 months. Deceased was born in the County of Fermanagh, Ireland, and came to Canada when quite young, with his parents. They first settled in Peel, but came to Warwick township over fifty years ago, where deceased resided some time. While a resident of Forest, several years ago he held the position of chief of police, and for a number of years he held the same position in Point Edward. He was twice married, his first wife being Mrs. Maggie Shelling, by whom one son was born George, who with his second wife, Agnes Broad, survives him; also three brothers, George of Forest, William of St. Thomas, and John of Warwick. He was a member of Bismarck Lodge, No. 419, A. F. & A. M., and the funeral which was held Saturday, was under Masonic auspices, conducted by members of Forest Lodge, No. 263, the pall-bearers being P. W. Campbell, J. Fraser, J. Greenlees, Thos. Ross, T. W. Mayor and A. Kent. The services were conducted by Rev. D. J. Cornish.—Standard.

A Remedy for Bilious Headache.

To those subject to bilious headache, Parkman's Vegetable Pills are recommended as the way to speedy relief. Taken according to directions they will subdue irregularities of the stomach and so act upon the nerves and blood vessels that the pains in the head will cease. There are few who are not at sometime subject to biliousness and familiar with its attendant evils. Yet none need suffer with these pills at hand.

Barnado Boy Fires Barn

Sarnia, Oct. 19.—The mystery in many barn fires in Lambton County was dispersed to-day by the arrest and confession of George Edward Parker, a Barnado boy, aged 14 years. Parker, who has been employed with Robert March, near Wilkesport, told Constable T. E. Poland this morning that he had set the March barns on fire on the night of October 5th, because he "liked to see a fire." The boy was taken to Sarnia jail to-day and will appear before a county magistrate at once. Two barns were burned near Wilkesport on the night of October 5. Parker had been visiting at the home of a neighbor when the first fire was seen half a mile away. Soon afterwards, so Parker says, he slipped away and went home. Going first to the barn, he set fire to the hay, then went into the house and waited for a time. He then went out the back door and "discovered" the fire, saving at the same time he had seen a man running away from the burning barn. Detective Stringer made an investigation into this fire and added weight to the story of young Parker about the running man, by the discovery that an automobile without lights had been seen to pass along the road. Constable Poland states Parker has said nothing to indicate he was connected with any other fires in the district.

Stop Gushing Letters to "Lonely Soldiers"

London, Oct. 17.—Lieut. Samuel Jarby, states that letters are received by Canadian Red Cross and similar institutions, the writers asking that they may correspond with some lonely soldier. Such letters are not now allowed to be forwarded to any soldiers further, and the Red Cross and like institutions, are forbidden to put soldiers into communication with unknown correspondents. One letter received at Lady Drummond's office today from Canada stipulated that it should be sent to some soldier "who must be good looking." It has been incorrectly stated that Canadian soldiers are not allowed to draw pay in English hospitals. The regulations are precisely the same on this point as in Canada, soldiers being allowed to draw up to two pounds monthly in addition to sending money to friends. THE LATEST ONE

belted low. Cording and much stitching are both signs of autumn's note, so the long coat skirt has a corded hem. The collar and cuffs are organdie.

HOMEMADE CARAMELS.

No Reason Why One Should Not Be Successful With Them.

To make chocolate caramels take a quarter pound of grated chocolate, three ounces of butter, three-fourths pound of sugar, one gill of milk, two good dessert spoonfuls of syrup, a small dessert spoonful of glucose, half a tea-spoonful of vanilla essence. Put everything except the vanilla into a pan, and dissolve over a slow fire. Boil to 246 or 248 degrees, take off the fire and add the vanilla essence, and turn into a well greased tin. Mark with a knife when set and cut into squares and wrap each in wax paper.

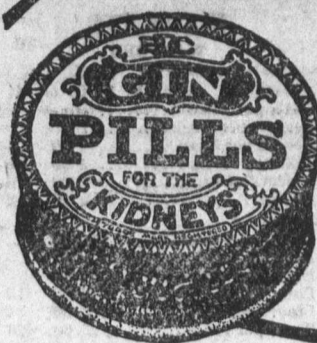

The tin should be greased with oil or clarified butter—i. e., butter that has been put into a pan and heated and the scum taken off as it rises.

Molasses candy (caramel) is made of three-fourths of a pound of sugar, a quarter of a pound of butter, one and a half pints of milk, two tablespoonfuls of molasses. Melt the butter and sugar in a saucepan, then add the sirup and milk, and boil, stirring till it leaves the sides of the pan clear. Pour on to a buttered plate and when nearly cold cut into squares and wrap each in wax paper. If a thermometer is used it should boil to 252 degrees. Ten to fifteen drops of vanilla can be added, if liked, before turning it on to the buttered plate.

Galatea For Frocks.

It is astonishing to note that galatea is being used in dresses for grown-ups. Hitherto it was confined to dresses for the schoolgirl and little tot, but at the present time it is also adapted for mother. It is shown in plain colors, such as blue, green, rose and white, and often trimmed with pique or a combining fabric. Other models are shown in striped effects, the foundation being white and the stripe in color. One particularly attractive dress was seen recently, the colors being blue and white. The arrangement of the stripes affords a novel detail. The odd flat collar with flat satin tie and deep cuffs are of white pique. The broad brimmed hat and high button boots are details of interest. A gown of this type is especially useful for morning and informal wear. Galatea is an excellent fabric for use in middy blouses and sports skirts, because it has sufficient body to avoid getting crumpled. It is also very suitable for simple sports shirts, where the skirt is a two piece model and the coat a box cut, which is belted at the waist line. With appropriate hat and shoes a suit of this type proves an ideal and practical summer outfit. As a "tub" frock, that is so indispensable during the equal months, there is nothing to equal the waist dress of galatea in plain or

Gin Pills FOR THE KIDNEYS

Rosebank, Man., April 15.
National Drug & Chemical Co., Montreal.
Dear Sir:—
I was troubled with my kidneys and I bought a box of Gin Pills. By the time I had used one box the pains in my back were gone and my kidneys were much better. I can recommend Gin Pills to all suffering from Kidney Trouble as I know they helped me.
Yours truly,
E. L. Fennell.

At all druggists, 50c. a box or 6 boxes for \$2.50. We guarantee absolute satisfaction or your money back. For free sample write to National Drug & Chemical Co. of Canada, Limited, Toronto 54

striped effect.

Homemade Motor Veils.

Just a length of chiffon or similar weight veiling, twenty-seven inches or more in width and about one and one-half yards in length. Both ends are finished with a tiny hem. Insert a nine inch length of round elastic and attach at each end of the elastic a narrow ribbon string. The veil is adjusted by placing the elastic edge well down over the hat in front and holding the veil in place over the hat by tying the ribbon strings at the nape of the neck. Many of the bordered motor veils frequently sold so reasonably are long enough to make two of these handy requisites.

Lye and Insects.

[C. P. Gillette, Colorado station.]
There is an old notion, more or less prevalent among farmers and fruit growers, that lye applied to the trunks of trees during the dormant season will destroy the insect pests that may be living over winter upon the bark in the egg, larva or pupa stages.

Investigations at many experiment stations throughout the country have all indicated that lye is practically useless for the destruction of insects in any stage of development. It is better to make the application of some particular insecticide that is known to be efficient for the destruction of the particular insect pest that is known to be present. The application of lye seldom does enough good to pay for the time or expense in putting it on.

Rye For Pasture.

Have you provided plenty of pasture for your hogs during the fall months? asks the Kansas Farmer. If not, rye may be sown any time during September or October on stubble land or after corn has been cut for silage or fodder. Live stock farmers find that rye makes excellent temporary fall and winter pasture. One and a half bushels to the acre is enough for early sowing, but two bushels should be used later in the season. Cover crops furnish a large amount of pasture at little expense and leave the soil in a better condition. Rye protects the soil from washing during the winter, which often takes more fertility from the soil than a growing crop. Next spring the rye may be turned under as a green manuring crop.

Apple Gluts Unnecessary.

The chief cause of a glut of apples and consequently the practice of feeding apples to hogs is lack of spraying, according to a Nebraska horticultural expert. Sound apples, the result of spraying, can be placed in cold storage because they will keep. But the apple grower who has not sprayed his apples finds them wormy and unfit for storage. So he with thousands of others throws his perishable apples on the market at the mercy of dealers and the public.

He takes what he can get because he must sell. You seldom hear of a glut of apples late in the winter, and the winter and the spring are the times when the man who raises sound apples sells them and gets his money.

Engineer Found Dead

Petrolia, Oct. 18.—James Codling, 55 years of age, was found dead at noon today in his engine house at the plant known as the John McDonald refinery, where he was employed as an engineer. Dr. R. M. Calder, coroner, was called, but considered an inquest unnecessary. Heart failure is assigned as the cause of death. A widow and family survive him. The family came to Petrolia from Forest about 20 years ago. One of his sons, William F., is a private in the 14th Battalion.

Warts are unsightly blemishes, and corns are painful growths. Holloway's Corn Cure will remove them.

Sarnia Man Killed in Clam Ore Bucket

Sarnia, Oct. 19.—Caught in the crushing jaws of a two-clam shell bucket which was unloading an ore boat, the Midland King at the Point Edward docks of the Steel Company of Canada, David Barclay, an employee of the company was killed today shortly after starting to work. The big bucket was descending to be oiled on the dock and he in some manner ran right into the jaws, which were being closed as the bucket came down. The engineer in charge of the hoist was taken to his home after the accident suffering from shock. An inquest was started at the city police station to-night, but was adjourned until later on in the week, after the jury shall have viewed the remains. The man was 56 years of age and had only been employed at the dock a few days. A widow survives.

If you really believe in Safety First, get a box of Takase pills for your sleeplessness, neuralgia, or rheumatism for they are absolutely harmless, and are sure to relieve you. Fifty cents a box at your druggists, or by mail from the Georgian Mfg. Co., Collingwood, Ont. 1

The Berlin Arms Manufactory has reduced the working period of its 4,000 woman employees to eight hours daily.

While mortality among women is lighter than among men, insurance companies have found risks on the lives of women unprofitable and write policies on their lives for limited amounts only.

In Lombardy, Italy, women have raised a great number of rabbits on their lands in order to supply furs for the soldiers.

A new club has been started in New York for women over 60 years of age which already has a membership of over 130.

WATFORD, OCTOBER 27, 1916

CHOP STUFF

Do your bit for the Red Cross. J. C. Creery has been appointed bread inspector at Alvinston. Petrolia is troubled by chicken thieves. One man lost 40 on Friday night. The Presbyterian churches of Wyomington and South Plympton are vacant. Theford council has placed 300 tons of crushed stone on the main street. The township of West Nissouri voted \$2000 to the British Red Cross Society. Wm. Codling of Petrolia dropped dead on Thursday last. He was 60 years old. Strathroy's water supply has been condemned by the provincial board of health. Wm. Dyke, an old resident of the second line of Plympton, passed away last week in his 74th year. Middlesex ranks first among the counties of Ontario in the bee-keeping industry. Simcoe comes second. Young men eligible for military duty are beginning to find it difficult to obtain employment in Windsor. Rev. W. E. Donnelly of Gesto has accepted an invitation to become pastor of the Alvinston Methodist church. For twenty years the Excelsior Band of Forest has given an open-air concert once a week during the summer season. Mr. and Mrs. Jas. Ferguson of Forest celebrated their golden wedding last week. They were the recipients of many tokens of good will. Pte. Clifford Miller, son of Mr. and Mrs. J. H. Miller of Bothwell is missing. He is supposed to have been in the gigantic struggle in Somme. The names of Lieut. R. Y. McLean, 161st Huron, and R. P. Brown, 149th Lambton Battalion, appear in militia orders as struck off the strength. Little John Brock Thompson, the first Indian baby born in St. Clair county in over seventy years died in Port Huron on Sunday. He was nine months old, and died from cholera infantum. George Precious has sold his grocery business in Glencoe to Frank Hayter, who has been assisting him in the store for some time. Mr. Precious has been in business in Glencoe for some twenty-eight years. F. W. Avery of Strathroy and Geo. B. Faulds of Bosanquet Twp., have arranged a deal whereby Mr. Avery comes into possession of Mr. Faulds' 85 acre farm near Arkona, and Mr. Faulds becomes owner of Mr. Avery's meat shop and business. While directing grave-digging operations on Monday, Edward Singular, the veteran grave-digger of Nairn Cemetery, was seized with a paralytic stroke and is now in a critical condition and unable to speak. He is 75 years old. George A. Annett, of Cairo, reeve of Euphemis Township, has entered an action against the Homewood Sanatorium of Guelph, to recover \$10,000 damages. He claimed that he was assaulted and forced into the Sanatorium and kept there for nearly a year against his will.

In Brooke, on Thursday, Oct. 19th, 1916, Martha Ann, beloved wife of Joseph Chittick, aged 33 years, 11 months, 15 days.

Homemade Socks for the Boys

Let everyone remember our boys especially in active service, with a contribution of socks. Reports say the Canadian soldiers in the trenches suffer less from trench foot disease than any because of the supply of homemade socks. Relatives have received word from the boys in the trenches stating that the best socks last only from a week to a month at the longest, while the machine made last only a few days. It is the boys in active service who need the fine homemade socks the women of Canada are making. The boys in the trenches are the ones who are suffering for the comforts. Their officers are appealing for SOCKS, SOCKS, SOCKS. The winter season is approaching with trenches filled with water and mud in which they have to stand for days with mud and water all the way from mid leg to their hips. You can well imagine the suffering they have to endure. Comfort them with a supply of socks.

LET US HELP WITH THE 'XMAS PARCELS TO BE SENT OVERSEAS

Everyone with friends and relations at the front is intensely interested, just now, in the planning of Christmas parcels for overseas. We are making special arrangements to help our friends in carrying out their ideas in thus conveying kindly thought to the brave lads in the trenches.

We will securely pack your selections of KHAKI TIES, HANDKERCHIEFS, SOCKS, SHIRTS, UNDERWEAR and so on, made from the ample stocks in our Men's Furnishings Section; will address, weigh, stamp and mail your parcel for you, charging only for the cost of postage. Its none too soon to arrange for the sending of these parcels this week. Let us hear from you soon. We will pack anything you wish to send—Drugs, Candy, Smokes, Gum or Eats of any kind.

SWIFT SONS & CO.

THIS WEEK'S SPECIALS---SCARCE GOODS

A Gentle Reminder

Proud and pompous, the doctor was strolling down the street, when he was accosted by a poor woman. "I expect you are making a good thing out of attending to that rich Smith boy?" suggested the lady. "Oh, yes, fairly good." "Well," whispered the lady, "I hope you won't forget that it was my Willie who threw the brick that hit him."

Practically everybody gets a little time off for lunch. It's an ate-hour principle that isn't arbitable.

For application forms apply to the Deputy Minister of Finance, Ottawa.

DEPARTMENT OF FINANCE, OTTAWA,
OCTOBER 27th, 1916.

The Cheapest Thing in the Modern World

The publisher of an important Canadian daily newspaper has said in his newspaper this:

THE newspaper is about the cheapest thing in the modern world for its value. If nothing else were considered save the usefulness of the advertisements and the market prices, to the average home, a dollar spent in newspapers must mean the saving of many dollars in a home.

It is not necessary to argue the value to you of your home newspaper. But we ask this of you: Isn't three cents a week little enough for The Guide-Advocate, delivered to your home, and which gathers together for you all the news of this community? No city daily can do what The Guide-Advocate is doing for and in this county and neighborhood. It does not give you with desired fullness the news of Warwick, Brooke and surrounding townships. It does not tell you what local merchants have to offer you. Local news and happenings are told only sufficiently in a local newspaper.

The price of The Guide-Advocate becomes \$1.50 on and after December 1st. This increase of 50 cents a year is made necessary by rising costs in every direction—paper, ink, type, wages, cost of living and other things.

WHAT we are concerned about is that you value your weekly newspaper to continue as a subscriber at the higher rate. Three brown coppers a week! You cannot say that you cannot afford them. They are the price of a postage stamp, half the price of a 'smoke', the money you would give a child to buy candy with, the price of a pair of laces.

Be loyal to your local Weekly

Wednesday evening of last week, while returning home from London, in Dr. Huffman's automobile, Messrs. W. Scott, Jr., Robt. Hair, J. McPherson and Donald Livingston, along with the doctor, met with an accident. They were coming along the second line of Warwick, and when opposite Mr. C. Smith's a horse walked out in front of the auto. It was impossible to stop, and in the collision there were some narrow escapes. The occupants of the car were thrown clear of it, and the machine turned over. Dr. Huffman and Mr. Scott received

some bad bruises, but the others escaped unhurt. The horse was dragged some distance by the impact, but was not seriously injured. The automobile was badly damaged.—Forest Standard.

James W. Hill of Strathroy, has entered an action for \$7,000 damages against the Grand Trunk Railway for alleged injuries which the plaintiff claims were sustained due to the defendant's negligence. The plaintiff's claim is that on January 23rd, 1916, that he was driving across the G. T. R. tracks on Caradoc street, Strathroy, when he was struck by a moving

train, due, he claims, to the alleged negligence of the railway employees.

Walkerville's tax rate for this year has been struck at 26.8 mills. This is ten mills higher than last year, but owing to the amount of revenue lost by the clause in the Canada Temperance Act, which exempted breweries from business tax, nearly \$1,500,000 in assessable values was lost to the town.

Pte. Harold Willoughby of Oil Springs, a well-known young man of that town, has been killed. He gave up stripes to get to the firing line.

THE STERLING BANK OF CANADA

SAVE, Because---

The man who saves will not be in constant fear of adverse circumstances.

Epworth League Convention

The Epworth League Convention of the Strathroy District was held in Mt. Brydges on Wednesday the 18th inst. There was a good attendance at all three sessions, and a cheerful earnest spirit pervaded the whole convention.

In the morning Mrs. C.W. Snell of Watford spoke on "Leadership." The speaker showed that as the war is carrying off so many of our best young men who would naturally become leaders of society, the church must not slacken its effort in any direction to create leaders. The Epworth League is the best training school for this purpose. Get the boys to do something, give them work—literary, social or religious.

In discussing missions Rev. R. Blackburn said the foremost need in getting a right view of the work is an experience, a knowledge of Christ. This experience brings an atmosphere congenial to missionary effort.

In response to the roll-call the representatives of the various societies described the progress of their work, and the methods used.

The district Sec.-Treas. G. W. Thompson, of Petrolia, reported a good year in spite of difficulties. The president of the association had entered military service leaving the organization without a visible head. Last year \$520 was raised for missions in support of Miss Morgan our missionary in China. This year the executive aim at \$800 for this purpose.

Rev. A. B. M. Thompson, M. A., of Aylmer, introduced the question, "Is the Christian Endeavor Department important?" contending that "It is the first purpose of the E. L. to create and develop spiritual life." We ought to teach our young people how to pray before others. "Clubs and entertainments without religion are a failure in building up a society."

"Equipment for service" was the subject introduced by J. R. Littleproud of Muncy Institute. For it we need knowledge of God, understanding of men, consecration, prayer and a message from Christ to men.

Dr. Rason of the Presbyterian church, Delaware, was then introduced and commended the society for the spiritual tone of its program.

Mrs. W. Longfield gave, with thirty of the Juniors, an exhibition of a "Model Jr. League." It was well executed.

A feature of the evening session was the presentation of the District Banner to the Appin League, marking their greatest progress on all lines through the year.

Rev. S. McVitty of Mt. Elgin Institute and the Rev. A. E. M. Thompson were the speakers of the evening. Both men emphasized the importance of spirituality in the League's work.

The officers of the Association elected for the coming year were as follows:—Hon. Pres. Rev. A. E. Jones; Pres.—Rev. R. Blackburn, Oil City; 1st Vice Pres.—Arthur Wright, Strathroy; 2nd Vice-Pres.—Mrs. C. W. Snell, Watford; 3rd Vice-Pres.—Elva Fuller, Arkona; 4th Vice-Pres.—Louise Park, Alvinston; 5th Vice-Pres.—Mrs. W. R. Vance, Melbourne; Summer School Correspondent—Rev. S. Hanna, M. A.; Conference Representative—Rev. A. H. Brown B. A.

The Mt. Brydges E. L. entertained the visitors in the basement in a very hospitable manner.

A resolution of appreciation was sent to the past president, Will Cowan of Strathroy, now in France with the king's forces.

Corn Show Date Fixed

At an enthusiastic meeting in Petrolia on the 18th the Directors of the Lambton County Corn Growers' Association decided to hold their Annual Corn Show in Petrolia on January 24th, 25th, 26th, 1917. Every effort will be put forth to make the event bigger and better than ever, and that's going some.

A resolution was passed authorizing the Treasurer to return all money to each township from their grant that is not taken up in prizes by competitors from the individual townships. Some new classes have been added to the prize list, adding to the efficiency of the show and the Association.

Fruit Show

It has been decided to cancel for this year the Lambton County Fruit, Flower, Honey and Vegetable Exhibition which was to be held in Sarnia on November 8, 9, 10, 1916.

The Association did not feel justified in holding the Exhibition this year in spite of the lack of help in all the departments which is required to stage this Exhibition, also the state of the fruit crop which is away below normal this year.

Plans are being laid for the holding of a much larger and improved exhibition next year. The Association is in good financial condition.

ARKONA

Mrs. S. Lucas and Mrs. Connor of Alvinston, spent Sunday with friends in town.

Mrs. W. Williams has returned to London after spending a few weeks with her parents, Mr. and Mrs. C.W. Lucas.

Mrs. J. Cochrane of Detroit is renewing old acquaintances in the Ark.

Mr. and Mrs. Mark Hagle of Isles of Pine are visiting friends in town.

Mrs. Lowrie is visiting with Mrs. Harry Utter.

Mr. and Mrs. H. Eastman of Clinton are visiting at Mr. N. C. Eastman's.

Miss Adel Mellor is spending her vacation with her sister in Brigiden.

Rev. Moule is attending the Baptist convention in Hamilton.

Ladies' and men's underwear, our stock complete, selling at less than wholesale prices to-day. Buy early while the stock is complete.—Brown Bros.

KERWOOD

Mr. Alf. Rogers has returned from visiting friends in Toronto.

Mr. and Mrs. Pollock motored to Pt. Huron Saturday.

Miss Margaret Patterson of Sarnia is visiting old friends near the village.

The Woman's Institute held a very pleasant meeting at the home of Mrs. Arthur Morgan Oct. 18, with a good attendance. The program was one of special merit. After the meeting a dainty luncheon was served, consisting of all kind of pies by members, and sandwiches and coffee by the hostess. The next meeting will be held at the home of Mrs. William Waddell on the evening of Nov. 15.

CHILDHOOD AILMENTS

Childhood ailments in most cases come through some derangement of the stomach or bowels. Baby's Own Tablets have been proved by thousands of mothers to be the greatest medicine known for the cure of these ailments, simply because they regulate the bowels and sweeten the stomach. Concerning them Mrs. Napoleon Lambert, St. Ignace, Que., writes: "Baby's Own Tablets are an excellent medicine for childhood ailments and I am well pleased with their use." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Pte. J. B. Nichol of Wyoming who enlisted with Lambtons 149 last spring and was in the Pioneer unit at Camp Borden has been honorably discharged owing to the fact that his age is over the limit permissible for Overseas service. He will enlist in the Construction Batt. now being recruited for Overseas Service at Chatham.

Wm. Dyke of Plympton died at the residence of his son Ross, con. 3, Plympton, in his 75th year.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-TIVES" — The Wonderful Fruit Medicine — will Protect You

Autointoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the Kidneys and Skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema — and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-tives" will always cure Auto-intoxication or self-poisoning — as "Fruit-a-tives" acts gently on bowels, Kidneys and skin, strengthens the bowels and tones up the nervous system. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

MRS. MELTON'S LETTER

To Tired Worn-out Mothers

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have. "I have a family of five, sew, cook and do my housework and I became very much run-down in health. A friend asked me to try Vinol. I did so and now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers." —Mrs. J. N. Moxon, Jackson, Miss.

A Royal Gem

It Was a Bone of Contention

By F. A. MITCHEL

One morning I was aroused by telephone from my bed by my chief and directed to go to the house of a Mr. Ackley. I was to apply at the basement door, where I would be admitted by the gentleman himself.

I found a residence that indicated its occupant was wealthy. Mr. Ackley was waiting for me at the basement door. He gave me the points in the case.

Not long before, while traveling abroad, he had purchased a sapphire which had originally been in the crown of a Balkan sovereign. Whether it had been stolen or purchased by the

did not himself know. He was told, however, that his majesty was in financial straits and had parted with it for ready money. At any rate, the king now desired to regain it. He had sent an agent who had bargained for it, offering a very low price for it, basing his offer on the theory that it was stolen property. Ackley preferred not to sell it at any price, but, not being willing to keep it from its original owner, offered to exchange it for a price equal to what he had paid for it, which, though less than its value, was considerable. This offer was declined, and the agent withdrew from further negotiations.

Not long after his withdrawal a Frenchman named Du Pierris brought a letter of introduction to Ackley from a gentleman the latter had met in Rome, a member of the court of Victor Emmanuel. Du Pierris proved so attractive to Ackley that he had invited the Frenchman to visit him in his own house. Du Pierris had become Ackley's guest, and Ackley had introduced him to society.

The Balkan sapphire Ackley kept in his own house in a safe where many of his valuables were deposited. One night while lying awake he decided to go downstairs for a bite and a glass of wine, as he often did when awake, hoping that he might thus regain slumber. On such visits to the larder he usually turned on the electric light in the hall after leaving his room, but on this occasion he saw a man's silhouette against the window at the other end of the hall. The safe was located midway between Ackley and this window. He paused and waited and watched. But he dare not turn on a light for fear of scaring the person away and could see nothing more of the figure. Presently he heard faintly a sound that resembled the closing of a safe door, then saw the silhouette between him and the window. The silhouette vanished, probably entering one of the rooms on the hall.

Ackley went back to his room and, after waiting awhile, stole down into the hall with an electric lamp, flashed it against the safe lock, opened the door and looked about for his valuables. The sapphire was gone.

Closing the safe as gently as possible, he returned to his room.

Only members of the family and guests slept on the floor in question. None of the family would steal anything, and the guests, excepting Du Pierris, were old and long tried friends. It suddenly flashed upon the host that the Frenchman was an agent of the former royal owner of the sapphire and that he had imposed upon Ackley's Roman friend and secured the letter of introduction in order that he might become intimate with him and steal the gem.

If this theory were correct the next move on the part of Du Pierris would be to get away with the gem, and he would not likely allow much time to elapse before doing so. Ackley decided to forestall him, so, putting on a gown and slippers, went downstairs to the telephone booth and called up our office, where he had before applied for detective service.

Such were the facts given me by Mr. Ackley, who added that so far as fixing the theft on Du Pierris was concerned that was very simple. If he were the thief he would either disappear without bidding his host goodby or he would offer an excuse for departing immediately. To this I assented. I asked Mr. Ackley for a description of the stone, for I might have to leave him at any moment to follow Du Pierris. It was of that variety of sapphire called asteria, or star stone, the color being a reddish violet, with an opalescent tinge. Mr. Ackley had scarcely given me this when we heard a step descending the grand staircase as of some one treading softly. The steps were of wood and uncarpeted or we would not have heard it. Ackley put his finger

NO ALUM

to his lips and, moving noiselessly to the door of the room, peeped. Then he turned and by a meaning look assured me that it was our quarry. But before any action could be taken Du Pierris had opened the front door and passed out. Ackley hurried me to a window, and I saw a man with a pointed beard and waxed mustache hurrying away, carrying a suit case.

There was no time for another word between us. I hurried to the front door and when I saw the Frenchman turn a corner ran after him. I kept him in sight till he entered an unpretentious hotel. Not daring to follow him in at once, I waited about the entrance, saw him write a name on the register, take a key and start to go upstairs. A bell-boy offered to carry his suit case, but the owner kept it in his possession. I then went in and on the register saw the name, Francois Tribadeaux, South Carolina.

The problem before me now was duplex. I must procure funds with which to follow the man—perhaps to Europe—and I must prevent the possibility of his transferring the sapphire to a confederate. The former of these two matters must be attended to at once. I shut myself in a telephone booth, called up Mr. Ackley and informed him of what had occurred. He at once sent me by messenger an envelope containing ample funds for immediate use and a letter authorizing me to draw on him for further necessities.

The Frenchman remained in his room till 8 o'clock, then came down stairs, walked with deliberation to a newsstand, bought a morning journal and went into the breakfast room. A number of persons were now about, and I did not fear being spotted as a shadower. I followed my man into the breakfast room and ordered a meal for myself. I finished before he did and waited for him outside. He went to the rack containing time tables and selected one of the Pennsylvania railroad.

I could have called for assistance to arrest him, but feared that I might not find the gem on him. I preferred to wait till I could get him where he could not pass it to some one else or hide it. If he took a train, this would indicate that he had it with him. I felt confident that he would take a train on the Pennsylvania road, and when he left the hotel soon after breakfast he went out, called a taxicab, and I in another followed him to the station of that road. He bought a ticket to Philadelphia and I being at the window at the same time bought one for the same city.

The train was not an express, but I felt confident that my quarry was going to Philadelphia to sail for Europe. I determined to prevent his leaving the country if possible, but I wished to settle the matter between us without the interference of any one else. How could I do this?

I determined to give him a clew to the fact that I was on his trail, hoping that to elude me he would leave the train. Taking a seat near him I began to ogle him suspiciously, and I saw at once by his expression that he had taken alarm. When convinced of this fact, I took a cigar out of my pocket and put it in my mouth and by my expression indicated that I was eager for a smoke. Then shortly before the train was to stop at a way station I feigned to be so anxious to light my cigar that I could no longer resist and went into the next car ahead, which was a smoker.

But I was on the lookout for my man. The train had already started on from the station at which it had stopped when I saw my man walking away from the track. He had left himself down from the rear end of the car. The train was going at a good speed, but I jumped off and hurried after him, heading him off from the houses about the station. Seeing me, he made in the other direction. Aiming to cross his track I drove him into the open.

He had made a mistake in leaving the train at a very small town. I had secured a condition that I had earnestly wished for. He undoubtedly had the gem with him, and no possible opportunity to pass it to any one else or to hide it. But the French are ingenious people, and he had perhaps a method of outwitting me that I had

not counted on.

There could not have been any doubt by that time that I was a detective seeking the sapphire in his possession. As it turned out he was figuring to get me where he wanted me, just as I was figuring to get him where I wanted him. He led me along the railway track till he reached a cut and a turn in the road at the same time. Then he turned and, drawing a pistol, said to me in broken English:

"Stop where you are or I will kill you."

I had been routed out of bed early in the morning and had started off in such a hurry that I had not provided myself with my revolver. Somehow I did not believe the man would carry out his threat, and I kept on toward him. But he fired at me. Then, to my surprise, he threw down his pistol and said:

"Monstieur, I do not know what you want of me. At any rate I am ready to convince you that I am a citizen of France traveling in America and that you cannot have any real interest in me."

I was now convinced that he had got rid of the sapphire and was very much taken aback as to how he had done it. I did not propose to leave his pistol behind and picked it up. It was an old fashioned weapon with a single barrel large enough to contain a large sized hickory nut.

It flashed upon me that the gem had been fired out of the pistol. My man remained in the position from which he had fired at me, and, turning and looking in the direction he had fired, I saw a little ridge of clay made by the cut. Going to it, I soon found a hole and, probing with my knife, took out the sapphire. Rubbing off the dirt, I saw the most beautiful stone I ever beheld of the reddish violet color with an opalescent luster as described to me by Mr. Ackley. My man jumped for me to snatch it away from me, but I stepped aside, and he missed me. He came for me again, and I knocked him senseless. When he came to himself again he was too badly shaken up to resist me, and I took him to the station.

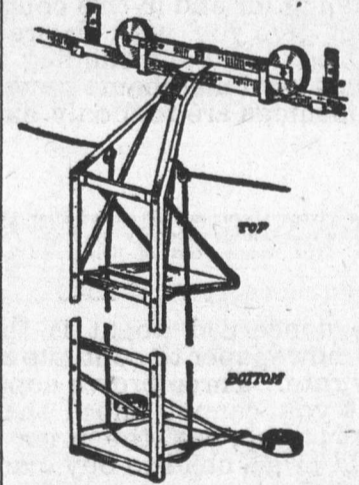

I telegraphed Mr. Ackley reporting the result of my labors, and he replied, "Let him go." I did so and the same evening restored the gem to its owner.

MANY IN WATFORD TRY SIMPLE MIXTURE

Many Watford people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowels, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. — Taylor & Son, druggist.

Movable Ladder For Silo.

A ladder that hangs on a track encircling the silo just under the eaves is a new safety device that will be appreciated by the man who must look after his hoops every few months. By means of this ladder you can ride

around the outside of your silo simply by pulling a draw line provided for that purpose.

It is also handy for painting and general repairs. The idea seems to be an ingenious improvement over the light ladders used in shoe stores for getting stock from the top shelves, only in this case the track is circular instead of straight.—Farm and Fireside.

Weeds Take Much Moisture.

The sunflower, Russian thistle, smartweed and many other weeds are particularly liberal in using the water supply intended for the growing crop.

It is not only because of the water used that weeds injure crops, but also because they use plant food which has been dissolved in the soil and which should be used by the useful plants. The shading effect of rapidly growing weeds likewise injures the young corn.

Silage For Calves.

Feed silage to calves as soon as they will eat, picking out for them the best portions at first.

I HAD ALMOST GIVEN UP."

Sarnia, Ont.—"About 27 years ago I was taken very bad, my blood, too, was in bad shape. I got so I had to go to bed and I was there for over three months. I could not eat and suffered untold agony. I had three of the best doctors I could get but it just seemed nothing was going to help me. I had almost given up. I thought I would never be any better and was willing to give up and die rather than suffer as I was. A neighbor of mine told me of Dr. Pierce's wonderful medicine and I decided to use them. My husband bought me six bottles of 'Favorite Prescription.' I had not taken it long until I felt better. In less than six weeks I was out of bed, and in less than six months I was cured and have been well ever since. Do all my own work. I have raised three daughters, two are married and have children. They have used it and they are healthy, so are their children. I am sure it was all on account of my having them use the medicine.

"I keep all of Dr. Pierce's medicines in the house. Have 'Favorite Prescription,' 'Golden Medical Discovery' and 'Smart-Weed'—anything prepared by Dr. Pierce is good. I also have a copy of the People's Common Sense Medical Adviser, which I have had 26 years; it has been very valuable to me."—Mrs. J. WAX, 232 Ontario St., Sarnia, Ont.

If you are a sufferer, if your daughter, mother, sister need help, get Dr. Pierce's Favorite Prescription in liquid or tablet form from any medicine dealer to-day. Then address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and get confidential medical advice entirely free.

A most valuable book in any home is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy will be sent to anyone sending fifty cents in stamps, to pay the cost of wrapping and mailing only, to Dr. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up nearly 50 years ago.

INSECT TRAVELERS.

Moths, Butterflies and Beetles Make Long Distance Journeys.

Mr. William Evans, a Scottish naturalist, who has made a lifelong study of the fauna of Scotland, obtained from a dozen Scottish lighthouses 241 species of insects, which include two butterflies, 159 moths, eighteen caddisflies and lacewings, forty diptera, ten beetles and a dozen other species. Most of the specimens were males. To reach the Isle of May, in the Firth of Forth, where Mr. Evans collected most of the insects, many of the specimens must have flown across several miles of sea.

In his records Mr. Evans calls attention to several other extraordinary flights of insects.

Thus, the "painted lady," or thistle butterfly (Pyraucis cardui), has been known to cross the Alps; the red admiral butterfly (Vanessa atalanta) has landed in numbers on the deck of a vessel 500 miles from the coast of England; the common white butterflies cross the English channel in clouds; the famous painted butterfly (Danais archippus), abundant everywhere in the United States, is said to make the 2,000 mile journey from California to the Hawaiian Islands and has gradually progressed by way of the south sea islands as far as Australia.

A death's head moth has boarded a steamer 200 miles off the Cape Verde islands. Clouds of ladybirds miles in extent, so that they resembled smoke from a steamer, have been seen at sea. A swarm of locusts that passed over the Red sea in 1889 is said to have extended over 2,000 square miles, and it was estimated to weigh 42,850,000,000 tons!

SLOW ACTING NERVES.

Earthworms and Clams In No Danger of the Strenuous Life.

The common earthworm has two sorts of nerves.

One of these is a thread running lengthwise of the body between the places where head and tail would be if the creature had either. This nerve has only one use—to carry the signal to shorten up.

So when the worm, keeping underground by day, comes by night halfway out of its hole and suspects, though he cannot see, the early bird looking for breakfast, whisk goes the signal along the nerve thread, one end of the body flattens out and locks fast in the burrow, and the rest pulls into safety.

This sort of nerve carries a message at the rate of a yard and a half a second, or about seventy times more slowly than our own do.

The other sort of nerve takes care of the crawling. Signals along these nerves travel only an inch a second. If our inner telegrams were sent as slowly, it would be a whole minute from the time the pitcher threw the ball till the batter started to swing his club at it.

Yet, as the simpler creatures go, the earthworm is not especially sluggish. The fresh water clam, for instance, gets word from one part of its body to another at only half the earthworm's rate. So it is 2,400 times slower than a man.—Edwin Tenney Brewster in St. Nicholas.

Making the Little Farm Pay

By C. C. BOWSFIELD

A high rate of profit in turkey raising is among the reasonable certainties for small farmers. Experts say that the outlook for this industry is greatly improved. Prices are high, and risk and labor are not unreasonable, considering profits.

One of the reasons for predicting success in turkey raising is that the disease known as blackhead has been brought under control throughout a large part of the United States. If

GOOD OUTLOOK FOR TURKEYS.

flocks can be kept healthy there is no doubt about making money from them, as turkeys are good foragers and pick up the greater part of their living in the fields.

Turkeys of average weight are worth \$2.50 in retail markets. Perhaps farmers will sell most of their flocks in a wholesale way and therefore can hardly count on more than \$2 for each bird, but at this price there is still a profit of \$1.50. It is certain that turkey raising belongs in the line of mixed farming and should become a feature of many places where ten or twelve distinct products are brought forward.

There are many mixed farming enthusiasts who wish to balance up their programs with poultry. They can accomplish this object in part with turkeys without excluding other fowls. Of course a field for range is necessary either with turkeys or geese, and the different flocks will not interfere with each other, but if turkeys can have a small field all to themselves so much the better, especially while the young birds are becoming hardy and vigorous. It is a wise plan to have a patch of ground fenced off for newly hatched poults, so that the parent fowls will not be giving the little things too much travel. This danger is over in the course of two or three weeks. It is a good custom to turn the young birds over to broody hens, but as the latter are usually troubled with vermin it is necessary to apply insect powders. Lard and kerosene may be applied to the hen, but not to poults. Pyrethrum should be dusted on the latter when lice appear. When turkeys are handled in a careful way the business will almost equal that of chicken raising. At any rate, it works well with a mixed farming program. Owners have only to bear in mind that they must engage in the business extensively enough so that they can afford to handle it right. If it is worth doing at all it is worth doing well, and this principle should apply to all farming projects. Turkeys and chickens should not be treated as side lines and allowed to go along in a haphazard way. The flocks need to be started right and given a good chance to develop in a healthy manner.

Nearly all poultry raisers say the Bronze variety is best, possessing as it does hardness with large size. All over the west the Bronze type is popular and gaining fast. Breeders are selecting the finest specimens that are obtainable, and the new flocks now coming forward in such large numbers show good characteristics. Dealers expect to get a larger proportion of their fall and winter supply in localities which heretofore have not furnished many turkeys. Prices will be high enough to afford farmers at least \$1.50 net profit for each fowl, and in cases where they have private customers the returns will be still larger.

In a general way turkeys require the

same management as chickens, only they should have a wider range in pleasant weather than the latter. The poults require no food until a day old, but water and sand should be within reach. In the course of thirty-six hours a simple kind of feeding may begin. Breadcrumbs moistened and squeezed dry are as good as any other food. Curds or Dutch cheese is relished, and the little birds thrive on this in connection with such things as onion tops and dandelion leaves minced fine. Corn bread is about the best food when they are two-weeks old, and a little later cracked corn or wheat should be provided.

Photographs on Living Leaves.

A process of taking a photograph on the leaf of a plant is described in an article by Dr. Hans Mollisch in Die Umschau, a translation of which appears in the Scientific American. Briefly, the process is as follows:

Fasten a negative with strong contrasts to a very smooth, thin, hairless growing leaf, such as the Indian cress, scarlet runner or nasturtium, and leave it exposed to strong sunlight for several hours. Then cut the leaf from the plant, steep it in boiling water for half a minute, then immerse it in warm 80 per cent alcohol. After a little time the leaf, now white, is immersed in a dilute tincture of iodine. The result is a positive photograph, often of surprising sharpness.

Capable of Correcting the Dictionary.

It is futile to attempt to instruct the forward youth of this our day. One who sat at lunch with us the other day remarked in the course of a narrative, "and then the poor fellow sat and wrang his hands."

"There is no such word as 'wring,'" said we.

"There wasn't before I spoke, perhaps," said he, "but there is now."

He Needed It.

She—Do you really love me? He (a modest clerk, with still more modest salary)—Yes, dear, with all my heart. She—Swear it to me by something sacred, by something that you could not possibly renounce. He—Well, then, Mathilde, I swear it to you by my salary.—London Tit-Bits.

Graded Down.

Great is America! People of means may hear the world's greatest voices for \$10; those in moderate circumstances may obtain phonographic records of the same voices for \$2.50, while the very poor can see the same singers act in the movies for a dime.

No Flowers in 'Em.

Mrs. Flatbush—She has no artistic tastes. Mrs. Bensonhurst—Why not? "Just look at all those empty cans in her backyard. Not a flower in one of 'em!"

Know the true value of time. Snatch, seize and enjoy every moment of Lord Chesterfield.

The Proven Asthma Remedy. Since asthma existed there has been no lack of much heralded remedies, but they have proved short lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

PUMPKINS AS HOG FEED.

Form an Appetizing Ration for Fall and Winter.

[R. A. Gatewood, Kansas station.] Pumpkins and squashes form an appetizing ration for fall and winter for young pigs and brood sows.

Hogs that are being fed for fattening purposes should receive all the concentrates they will eat before they are given the pumpkins. When feeding pumpkins most of the seeds should be removed, because when they are fed in large quantities with the concentrates they have an injurious effect on the urinary organs.

Pumpkins will take the place of roots in winter and form a succulent food. Their feeding value is not as high as that of turnips or mangels. Pumpkins, like wheat bran, are useful adjuncts to the more concentrated kinds of foods, but cannot, if fed alone, be depended upon for fattening. Pumpkins form an excellent food for brood sows. The seeds are rich in protein and oil and will take the place of corn in ration.

It Testifies for itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine powers itself and needs no guarantee. This shows why this Oil is in general use.

SOLDIERS ARE NEEDING

more Zam-Buk. They are asking for it in their letters home. They say that nothing takes the place of Zam-Buk for cuts, burns, blisters, sores, etc. Pte. J. R. Smith of the "Princess Pats." writes: "Tell my friends, if they want to help me, to send some Zam-Buk. We find it very useful indeed, and we can't get too much of it." Pte. Johnson, writing home, says: "Mrs. — has offered to send me a rug. Ask her to send some Zam-Buk instead. It will be of more use here than all the rugs in creation."

Nothing ends pain and heals so quickly as Zam-Buk, and being germicidal, if applied to a wound as soon as sustained, prevents all danger of blood-poisoning. The soldier who carries a box of Zam-Buk in his pocket will be saved much needless suffering. Don't let your friends go without. All druggists, or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

Why A Child Needs Glasses
(Parents should realize this)

MANY children are born with a defect of vision. Unless it is very great the child does not particularly suffer until the school period. Then the young mind becomes intent upon study and any defect of vision becomes a direct strain upon the brain. To relieve this the child will squint, or turn the head, in many cases using only one eye. This habit grows until we almost have a deformity of the eye. Parents; do not let this be the experience of your child. We will gladly and thoroughly examine your child's eyes, and tell you truthfully how best to remedy it. See to it now.

T. V. RIDLEY, Auct.

Charging that there was an illegal combination in an effort to increase price of bread in Chatham and also that a flour mill had endeavored to coerce a local baker by refusing to ship flour now on order unless the local man would increase his bread price, Alderman E. L. Bedford introduced a resolution which was adopted by the city council calling for an investigation. Another resolution asks Parliament to grant municipalities the right to raise funds to operate municipal stores or manufacturing plants to keep living costs down.

EAST LAMBTON TEACHERS' INSTITUTE

Officers Elected and Splendid Sessions Held in Petrolia Last Week—Special Addresses by S. Pickles, Neil McDougall and Dr. Knowles.

The East Lambton Teachers' Institute was opened on Thursday morning last at the Methodist church, with devotional exercises by Rev. Dr. Knowles.

Miss Stinson of Oil Springs dealt with Physical Training, advocating its use in all classes as a cure for physical defects as well as wakening up the scholar. She explained how various kinds of equipment could be made and how they were to be used.

Inspector McDougall read a paper on spelling prepared by Miss W. Morris. There was a discussion on the various methods but all thought that the spelling should be started in the primary and that throughout the public school life of the pupils it should be emphasized.

Rev. Canon Hill opened the afternoon session, and president, W. Windover gave an address on Play. He advocated the teacher taking part in the play of the pupils' game; keeping an active control over them.

Mr. S. Pickles of the London Normal school gave two addresses on Manual Training work. These were very instructive. This work develops the imagination and originality of the pupils, as an appreciation of the beautiful things around is aroused. Let the pupil work mainly undirected by the teacher. A hearty vote of thanks was tendered the speaker for his addresses.

Miss L. Park discussed reading and Mr. F. Thompson Entrance Literature, after which Mr. N. McDougall, B. A., spoke on Educational Loss. The speaker claimed that teaching failed from lack of use of school equipment and lack of high aim. The end of education is to teach pupils to have high and proper ideals to make them keep upright citizens.

A splendid evening program was given with Mayor Strittre as Chairman. Vocal solos by Mr. H. McDougall, instrumental solos by Miss M. Fraser, a drill by girls of Oil Springs School under Miss Stinson, followed by a fine address by Rev. Dr. Knowles on "What to Read" all of which were thoroughly enjoyed.

Rev. Mr. McCrae of the Presbyterian Church conducted the opening services on Friday evening.

Mr. W. R. Stephenson of Petrolia Business College explained Business Letter writing pointing out many mistakes and how they could be rectified.

Mr. J. J. Matthews pointed out in connection with Home Gardens that in many cases the seed sent was not used. Teachers should take an interest in the garden work and make out an accurate list of the pupils for use of the Agricultural Department.

REPORT OF NOMINATING COMMITTEE

Hon. Pres.—N. McDougall, B. A.
Hon. Vice-Pres.—Mr. A. B. Steer, B. A., Principal Watford High School and Mr. P. McKichan, B. A., Principal Petrolia High School.

2nd Class—Arithmetic, Miss Long; Geography, R. J. Campbell; Composition, Annie Ross, Watford R. 2.
Committee on Physical Training.—Mr. N. McDougall, B. A., Chairman; Miss Windover, Miss Stinson, Mr. K. Henderson.

son.
Delegates to the O. E. A.—Mr. R. J. Campbell, Miss E. Long.
A short address by Mr. A. B. Steer of Watford High School brought a most enjoyable and instructive meeting of the association to a close.

THE SHADOW OF BROKEN HEALTH

Can Be Quickly Dispelled Through the Use of Dr. Williams' Pink Pills

When the shadow of poor health follows your life: when hope begins to fade and friends look serious, then is the time you should remember that thousands just as hopeless have been cured and restored to the sunshine of health by the use of Dr. Williams' Pink Pills. These pills actually make new, rich blood which brings a glow of health to anaemic cheeks; cures indigestion, headaches and backaches, drives out the stinging pains of rheumatism and neuralgia, strengthens the nerves and relieves as no other medicine can do the aches and pains from which womanfolk alone suffer. In any emergency of poor health give Dr. Williams' Pink Pills a fair trial and they will not disappoint you. Here is a case that will bring hope to many a weary sufferer. Mrs. B. C. Taylor, Ascot Ave., Toronto, says: "A few years ago I was so run down with anaemia that I could scarcely walk about the house, and was not able to leave it. I had no color; my appetite was poor and I was constantly troubled with headaches, dizzy spells and general disinclination to move about or do anything. I tried many medicines, but none of them helped me, and my friends thought I was in a decline. One day a friend who was in to see me asked if I had tried Dr. Williams' Pink Pills. I had heard of this medicine often, but had not used it, so I determined to give it a trial. I certainly got a pleasant surprise, for after using two boxes I could feel an improvement in my condition. Continuing the use of these pills I began to gain in weight. People began enquiring what I was taking and I was not slow to give Dr. Williams' Pink Pills the credit. I took the pills for less than two months, and completely regained my old time health and strength. I hope my experience may convince some doubting person as to the great merit of Dr. Williams' Pink Pills, as I certainly have cause to be a firm champion of them."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Peanut race, girls—Gladys MacDougall, Margaret MacKenzie, Violet Wright.

Needle and thread race, girls—Alma Barnes, Gladys MacDougall, Margaret Cameron.

Half mile, open—Barrie Vail, Leigh, Strathroy, Ballantyre, Strathroy.

Baseball match—Watford High School 7, Alvinston High School 6.

The baseball game was perhaps the most exciting event of the afternoon. On a previous occasion the Alvinston High School nine succeeded in defeating the home town boys in a fast thirteen inning game, and expected to again repeat the feat, but to the satisfaction of the spectators they were unable to do so on account of the fine pitching of J. McPheeran and the opportune hitting of Bruce and Irwin.

As it was the game resulted in a score of 7 to 6 in favor of the Watford High School after a hard fight of seven innings. Mr. Althouse of the Strathroy Collegiate Institute staff umpired the game satisfactory to all. The box score:—

WATFORD H. S. ALVINSTON H. S.
ABRH ABRH

R. Squire c	4	1	1	Lightfoot 1st	4	1	0
C. MacKenzie 1f	1	1	1	Munroe 2nd	4	0	0
J. Irwin 2nd 1st	4	2	3	Brewer 3rd	4	1	1
J. Bruce c f	4	2	3	Nicholson c	4	2	2
J. MacPheeran p	4	0	2	MacPheeran r f	3	1	0
W. Waltham ss	4	0	2	W. Richardson ss	4	0	0
G. Cox 3rd	4	0	0	Warren p	2	0	0
D. Snell 1st 2nd	3	0	0	B. Richardson c f	3	0	1
N. Cox r f	2	1	0	Nicholson 1f	3	1	1

Total 37 12 31 6

Summary—Two-base hits, Irwin, Bruce; struck out by Warren 7, by MacPheeran 10; base on balls off Warren 1, off MacPheeran 1; time of game 1 hour; umpire, Althouse.
