The special Report of Raoul Lavallée, Election Clerk for the Electoral District of Richelieu, in the Province of Quebec, is hereto annexed.

H. G. LAMOTHE,

Clerk of the Crown in Chancery for Canada.

I, Raoul Lavallée, of the City of Sorel, solemnly declare:

That the 17th of October last, I was duly named Secretary of Election for the Federal Election in the County of Richelieu, according to the formalities required by law, by J. D. Plamondon, Returning Officer for the said Election.

That the same day I took the oath required, as such, promising to act in the capacity of Secretary of Election, and also, in the capacity of Returning Officer, should it be required, faithfully, and in conformity with the law, without partiality, fear, favour, or affection.

That I then, and since, and during all the time of the said Election, acted as the said Secretary of Election, assisting the said J. D. Plamondon, and replacing him, when necessary.

That the 18th of November last, the said J. D. Plamondon left Sorel for Ottawa, taking with him in a travelling bag, to deliver them personally to Mr. Henri G. LaMothe, Clerk of the Crown in Chancery, the writ of the said Election, his report, and the sundry accounts of the Election.

That to the said writ were attached my commission appointing me Secretary of Election, my oath of office, and the certificate of the Returning Officer of the taking of the said oath.

That I am informed, and that I verily believe that the said J. D. Plamondon has lost all the above-named documents, including my said commission, and my said oath of office as Secretary of Election.

That since the 18th of November last, I have not seen the said J. D. Plamondon, that he has not written to me, and that he has not returned to Sorel.

That I have continued since, as I had done before, to act as Secretary of Election, replacing the said J. D. Plamondon when necessary, and retaining in my possession all the documents, papers, etc., that had been used for the said Election.

That my expenses and fees as Secretary of Election have not been paid.

And I subscribe this solemn declaration, believing it conscientiously to be true, and knowing that it has the same force and the same effect as if it were made under oath, under the authority of the Evidence Act of Canada, 1893.

(Signed) RAOUL LAVALLEE.

Declared before me in Sorel this Seventh day of December, 1904.

(Signed) C. O. PARADIS,

Mayor of Sorel.

The Commissioners then administered the Oath to the Members who appeared, which being done, and the Members having subscribed the Roll containing the Oath, they repaired to their seats in the House.

The Clerk communicated to The House the following letter:—

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA,

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA.

OTTAWA, 11th January, 1905.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber, to formally open the First Session of the Tenth Parliament of the Dominion of Canada, on Thursday, the 12th instant, at Three o'Clock, P.M.

I have the honour to be, Sir,

Your obedient servant,

J. HANBURY-WILLIAMS, Colonel,

Governor General's Secretary.

The Honourable

The Speaker of the House of Commons.

A Message was brought by Captain Ernest John Chambers, Gentleman Usher of the Black Rod:—

MR. SPEAKER,

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Senate Chamber.

Accordingly Mr. Speaker, elect, with The House, went up to the Senate Chamber; and there Mr. Speaker spoke to the following effect, viz.:—

MAY IT PLEASE YOUR EXCELLENCY:

The House of Commons have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favourable consideration.

Then the Honourable the Speaker of the Senate said:—

MR. SPEAKER,

I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to his

Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow their constitutional privileges.

I am commanded also to assure you, that the Commons shall have ready access to His Excellency upon all reasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

And The House having returned:—

Mr. Speaker reported That The House had been in the Senate Chamber, and that he had informed His Excellency that the choice of Speaker had fallen upon him, and also, in the name of this House and on its behalf he had laid claim to all their rights and privileges that they may enjoy freedom of speech in their Debates, and have access to His Excellency's person as occasion shall require, and that all their proceedings may receive from His Excellency the most favourable construction; to which His Excellency was pleased to say that he readily and willingly granted and allowed the Commons their constitutional privileges as well as ready access to His Excellency on all reasonable occasions, and that their proceedings, as well as their words and actions, will constantly receive from him the most favourable construction.

Ordered, That Sir Wilfrid Laurier have leave to bring in a Bill respecting the Administration of Oaths of Office.

He accordingly presented the said Bill to the House, and the same was received and read the first time.

Mr. Speaker reported, That when The House did attend His Excellency the Governor General, this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to The House, as followeth:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I desire on this occasion to assure you how sensible I am of the great honour conferred on me by the King, in appointing me to the distinguished position of Governor General.

My pleasure in being called upon to represent His Majesty in the Dominion has been heightened by the cordial welcome I have received on all sides and from all classes.

This favoured land, with its vast resources and improving facilities for transportation, is attracting people on an ever ascending scale, not only from the United Kingdom, but also from the United States and from many other countries.

As the opportunities for settlement under the advantageous conditions which exist are better known, this Dominion will become the home of an increasing number of happy and contented people, whose character and prosperity will add strength to the great Empire of which you are so important a part.

It is gratifying to note that the trade of the Dominion, which in recent years has so steadily increased, is not diminishing, the aggregate trade for the last fiscal year being the largest on record. The revenue for the past six months is also greater than for the corresponding period of the preceding year.

On the invitation of the President of the United States, my Government has joined in the formation of an international commission composed of three representatives from each country to investigate and report upon the conditions and uses of the waters adjacent to the boundary line between the United States and Canada, and to make such recommendations for improvements and regulations as shall best subserve the interest of navigation in said waters.

The rapid growth in the population of the North-west Territories during the past two years justifies the wisdom of conferring on these Territories Provincial autonomy. A Bill for that purpose will be submitted for your consideration.

The surveys necessary for the location of the line of the National Transcontinental Canadian Railway are being vigorously prosecuted, and it is confidently believed that tenders for the construction of several sections may be invited during the coming season.

The display of Canadian products made last year at the St. Louis Exhibition proved such a marked success in attracting emigrants to the western prairies, that it is proposed to accept the invitation of the Government of Belgium to send samples of our products and manufactures, to the exhibition to be shortly held at Liège.

Gentlemen of the House of Commons:

The Accounts of last year will be laid before you. It will be satisfactory to you to learn that the expenditure has been less than the revenue, leaving a surplus over all charges.

The Estimates for the coming year will be submitted at an early date; they have been prepared with a due regard for economy consistent with the development of the resources of the Dominion.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I invite your best attention to the subjects I have mentioned and invoke the Divine blessing on your deliberations.

On motion of Sir Wilfrid Laurier, seconded by Sir William Mulock,
Ordered, That the Speech of His Excellency the Governor General to both Houses of Parliament of the Dominion of Canada, be taken into consideration on Monday next.

On motion of Sir Wilfrid Laurier, seconded by Sir William Mulock,
Resolved, That Select Standing Committees of this House for the present Session be appointed for the following purposes:—

1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Agriculture and Colonization,—which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by the House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

On motion of Sir Wilfrid Laurier, seconded by Sir William Mulock,
Resolved, That a Special Committee of Five Members be appointed to prepare and report with all convenient speed, Lists of Members to compose the Select Standing Committees, ordered by this House this day, and that Sir Wilfrid Laurier, Mr. Foster, Sir William Mulock, Mr. Hyman and Mr. Haggart do compose the said Committee.

Mr. Speaker communicated to The House the Report of the Joint Librarians of Parliament on the state of the Library of Parliament. (*Sessional Papers, No. 33.*)

On motion of Sir Wilfrid Laurier, seconded by Sir William Mulock,
Resolved, That when this House adjourns this day, it stand adjourned until Monday next.

And then The House adjourned till Monday next, at Three o'Clock, P.M.

Monday, 16th January, 1905.

H. G. LAMOTHE, [L.S.]
Clerk of the Crown in Chancery, Canada.

To T. B. FLINT, Esquire,
Clerk of the House of Commons, Ottawa.

Ordered, That Mr. Gervais have leave to bring in a Bill to incorporate the Provident Savings Association (Limited).

He accordingly presented the said Bill to the House, and the same was received and read the first time; and ordered to be read a second time at the next sitting of the House.

Mr. McKenzie (Bruce), from the Select Standing Committee on Agriculture and Colonization, presented to the House, the Third Report of the said Committee, which was read, as followeth:—

Your Committee have had urgent and repeated complaints laid before them to the effect that farmers in Ontario were handicapped in the export of their products and their profits correspondingly reduced by discriminating rates charged by Canadian railways as between competing and non-competing points within Canada; and also, by discrimination by these same railways running through territory in the United States, by their giving farmers of the latter much more favourable freight rates than those given to the farmers of Canada for similar and comparative distances, to market points.

Your Committee deemed it advisable to appoint a sub-Committee to investigate these complaints, with authority to procure such evidence as deemed by them pertinent to the charges preferred; your Committee having in view, if substantial evidence of the said charges were procured, to recommend a reference of the case to the Railway Commission of Canada.

The sub-Committee having made report to your Committee substantiated by the evidence contained in the several Schedules hereto annexed, as an essential part of this report, and your Committee having taken the said report and evidence therewith into consideration, have adopted it as their own report, and as such, submit it with the Schedules annexed, to the consideration of the House, as follows:—

“ Live Stock.

“ Live stock shipments, via Grand Trunk Railway, from United States points.

“ Tariff L.C.C. No. A-708 shows rates charged on cattle, sheep and hogs from Bancroft, Belsay, Duffield and other points to New York, Boston and Montreal.

“ Live stock shipments, via Grand Trunk Railway in Ontario.

“ Tariff E-54 shows rates charged from points in Ontario, namely, Sarnia, Windsor, Ridgetown, Thamesville, Stratford, Lucknow, Bothwell, London, Listowel and other points to New York, Boston and Montreal.

“ Tariff (Grand Trunk Railway) I.C.C. No. A-748, shows the local rates charged on horses, cattle, sheep and hogs in the United States.

“ The standard mileage tariff (Canada Atlantic Railway) on live stock, C.R.C. No. 1, shows local rates charged on similar shipments in Canada.

“ Tariff (Michigan Central Railroad) C.R.C. No. 409, shows rates on live stock from the United States to the sea-board.

“ Tariff (Grand Trunk Railway) C.R.C. No. W-8, shows rates on live stock from the United States to the sea-board.

“ Tariff (Grand Trunk Railway) C.R.C. No. 54, shows the same. Comparison of the above tariffs will show the material difference in favour of the United States farmer.

“ The above tariffs will show the rates charged out of the United States territory from points under the exclusive control of the Grand Trunk Railway to be very much lower than from points on their line in Canadian territory. This applies to shipments for both local and export, for instance, the rate from Chesterfield, Mt. Clemens, Lennox, New Haven, &c., on cattle for export is 22 cents, whereas from Windsor, Sarnia, London, &c., the rate is 25 cents per 100 lbs. On shipments between local points the difference is very much greater.

“ Grain and Grain Products.

“ Tariff (Grand Trunk Railway) No. B-12, shows rates on grain and grain products to New York, Boston and Philadelphia and Montreal.

“ Tariff supplement to C.R.C. No. 81, tariff G.B.J. No. 16, tariff G.B.J. No. 17, shows the rates charged on local shipments in Canada.

“ Tariff C.R.C. No. W-48, rates on grain products to the sea-board points for local and export shipments, G.F.D. No. 859, shows local rates on grain and grain products in the United States.

“ On grain and grain products the rates from United States points are very low when compared with the rates from Canadian points, more particularly when for local use or for shipment via United States points for export.

“ The rate from Chesterfield, Lennox, Mt. Clemens, New Haven, &c., in the United States, for export on grain is 2 cents and on grain products 11 cents. For local shipment the rate would be 13½ cents to New York and 15½ cents to Montreal, the shorter distance. From Canadian territory the rates would be for export from Windsor, Sarnia and east 500 miles 13½ cents and over, while for local shipments to Montreal from Windsor and other intermediate points the rate would be 19 cents, or 5½ cents above the New York rate.

“ Butter, Eggs and Cheese.

“ Tariff (Grand Trunk Railway) G.D. No. 57, shows the rates charged on shipments in Canada for export only.

“ Tariff R.R.G.B. No. 12, rates on general merchandise in Canada to the sea-board for export shows rates from United States points to the sea-board.

“ Tariff C.R.C. No. W-17, shows rates from the United States points to the sea-board as class rates.

“ Tariff C.R.C. No. E-196, the same.

“ Tariff G.J. No. 20, shows the prevailing rates charged on butter, eggs and cheese from various points in Ontario to the sea-board.

“ By comparing the above it will be seen that for local consumption in the United States cheese is carried a distance of 382 miles for 23½ cents, while for 400 miles in Canada at the rate of 36 cents, or 12½ cents per 100 lbs. in favour of the United States producers. It will also be seen that 7 cents per 100 lbs. more is charged from Lucknow, Listowel, Palmerston and other points in that vicinity than from London, Ingersoll and Woodstock to Montreal. The rates are not only very high, but no allowance is made for car-load shipments, notwithstanding the enormous proportions to which the trade is developing.

“ General Merchandise.

“ Tariff C.R.C. No. W-17, shows rates on general merchandise in effect from United States territory to the sea-board, and also from points in Canada. Distances are not considered.

“ Beans.

“ We also desire to call the attention of your Committee to the fact that beans are shipped in class rates instead of being hauled at commodity rates, the same as grain products—their weight is the same—they are shipped in the same manner, and their value as a rule is about that of wheat.

“ Tariff G.D. No. 57, shows rates on packing-house products to be very high, and distance not considered.

“*Tan-bark.*”

“Tariff (Ottawa, Arnprior and Parry Sound) shows rates on tan-bark. Very high for service rendered.

“We also desire to call the attention of your Committee to the fact that the rates on imports are from 50 to 60 per cent less in Canada than the rates on commodities exported, whereas, in the United States both the exports and imports as a rule are equal. We might enlarge indefinitely, but the purpose in view will be served by pointing out a number of instances which illustrates the difference in rates given to Americans as compared to those given to Canadians. It does not appear fair to favour those who have contributed nothing to the building of our national highways, but, on the contrary, they not only have lower rates accorded to their products, but, in addition, tax their railways heavily as well.”

Your Committee recommend that this Report, with the Schedules annexed thereto, be referred to the Railway Commission of Canada for the Commission's consideration and decision forthwith. (*Appendix No. 2.*)

Mr. Belcourt, from the Select Standing Committee on Banking and Commerce, presented to the House the Fourth Report of the said Committee, which was read, as followeth:—

PRAYERS.

Mr. Mackenzie (Bruce), from the Select Standing Committee on Agriculture and Colonization, presented to the House the Sixth Report of the said Committee, which was read, as followeth:—

Your Committee having had under consideration the question of the embargo on cattle from Canada entering the ports of the United Kingdom, and, after a careful review of all the circumstances connected with the subject, past and present, your Committee are unanimously confirmed in the opinion that the said embargo is most unfair and unjust, as it is a publication to the world at large that the Board of Agriculture considers it unsafe to permit Canadian cattle to come in contact with the herds in the United Kingdom; whereas it is a well known fact that in no other country than Canada can herds be found so free from disease.

That the scheduling of Canada by the Imperial Government is considered, from a financial point of view, a serious loss to the Canadian cattle trade, the farmers and the stock raisers of the Dominion.

That the action of the Imperial Government is not justified by the facts of the case, it having been clearly proved that the disease of pleuro-pneumonia has never existed in Canadian herds.

That in view of such conditions the removal of Canada from the schedule would be but an act of justice, and should be strenuously pressed.

That as the Dominion is a stock-raising country, and capable of producing a large and constant supply of beef cattle, it is considered important to the Empire that no obstructions or difficulties should be placed in the way of Canadian cattle breeders which would tend to decrease the food supply within the Empire.

Your Committee realize that an injustice is being done to the people of Canada through the British embargo on Canadian cattle being maintained, and believe that it would be in the best interests of the farming industry of the Dominion to have a deputation consisting of the Minister of Agriculture of the Dominion, and the Minister of Agriculture of each Province in the Dominion wait upon His Majesty's Government of the United Kingdom, giving as much publicity to their proceedings as possible, to lay before said Government the equity of the request to have the Imperial Act authorizing the said embargo repealed.

And your Committee further recommend that the Government of the different Provinces be invited to co-operate by sending the Ministers of Agriculture for their several Provinces, to act in conjunction with the Minister of Agriculture from the Dominion, in presenting the case, in behalf of Canada, and that action be taken in the premises at the earliest possible date.

“Whereas in and by the British North America Act, 1867, being Chapter 3 of the Acts of the Parliament of the United Kingdom, passed in the Session thereof held in the 30th year of the reign of Her late Majesty Queen Victoria, it was among other things enacted that it should be lawful for the Queen, by and with the advice of Her Majesty’s Most Honourable Privy Council, on an Address from the Houses of the Parliament of Canada, to admit Rupert’s Land and the North-western Territory into the Union on such terms and conditions, in each case, as are in the Addresses expressed and as the Queen should think fit to approve, subject to the provisions of the said Act; and that the provisions of any Order in Council in that behalf should have effect as if they had been enacted by the Parliament of the United Kingdom of Great Britain and Ireland.

“And whereas in and by the ‘Rupert’s Land Act, 1868,’ of the Parliament of the united Kingdom, it was, among other things, enacted that it should be competent to Her Majesty, by Order or Orders in Council, by and with the advice of Her Majesty’s Most Honourable Privy Council, on Address from the Houses of the Parliament of Canada, to declare that Rupert’s Land should, from a date to be therein mentioned, be admitted into and become a part of the Dominion of Canada.

“ And whereas, pursuant to such powers and authority, and to such Addresses, by “ and with the advice aforesaid, the Queen by Order in Council on the 23rd day of June, “ 1870, did order and declare that from and after the 15th day of July, 1870, the said “ territory should be admitted into and become a part of the Dominion of Canada, upon “ the terms and conditions set forth in Schedule ‘ A ’ to the said Order in Council, and “ that the Parliament of Canada should from the said date of admission have full power “ and authority to legislate for the future welfare and good government of the said “ territory; and it was thereby further ordered that, without prejudice to any obliga- “ tions arising from an approved report therein recited, Rupert’s Land should, from and “ after the said 15th day of July, 1870, be admitted into and become part of the Dom- “ inion of Canada upon the terms and conditions in that behalf in the said Order in “ Council also set forth.

“ And whereas, in and by the British North America Act, 1871, being Chapter 28 “ of the Acts of the Parliament of the United Kingdom, passed in the Session thereof “ held in the 34th and 35th years of the reign of Her late Majesty Queen Victoria, it “ is enacted that the Parliament of Canada may from time to time establish new Pro- “ vinces in any territories forming for the time being part of the Dominion of Canada, “ but not included in any Province thereof, and may, at the time of such establishment, “ make provisions for the constitution and administration of any such Province, and “ for the passing of laws for the peace, order, and good government of such Province, “ and for its representation in the said Parliament of Canada.

“ And whereas, in and by the British North America Act, 1886, being Chapter 35 “ of the Acts of the Parliament of the United Kingdom, passed in the Session thereof “ held in the 49th and 50th years of the reign of Her said Majesty, the Parliament of “ Canada was empowered to make provision for the representation, in the Senate and “ House of Commons of Canada, of any territories which for the time being form part “ of the Dominion of Canada, but are not included in any Province thereof; and it was “ thereby also enacted that the said Act, and the British North America Act, 1867, and “ the British North America Act, 1871, shall be construed together.

“ And whereas that part of the said Land and Territory, hereinafter described, has “ not been included in any Province of the Dominion and has heretofore been provision- “ ally governed by and pursuant to legislation of the Parliament of Canada.

“ And whereas it is expedient to establish, as a Province, that part of the said Land “ and Territory, hereinafter described, and to make provision for the constitution and “ administration of such Province and for the passing of laws for the peace, order and “ good government thereof and for its representation in the Parliament of Canada;

Mr. Perley, from the Joint Committee of the Senate and House of Commons, appointed for the purpose of considering what further steps should be taken and what suggestions can be made in the direction of the suppression of Tuberculosis in Canada, presented to the House the First Report of the said Committee, which was read, as followeth:—

THE SENATE,

COMMITTEE ROOM No. 8,

TUESDAY, 11th July, 1905.

To the House of Commons of Canada:—

The Joint Committee of the Senate and House of Commons appointed for the purpose of considering what further steps should be taken and what suggestions can be made in the direction of the suppression of Tuberculosis in Canada, with power to send for persons, papers and records and to report, have the honour to report, as follows:—

1. The Canadian Association for the Prevention of Consumption and other forms of Tuberculosis, and various organizations of the same character in Canada, and prominent medical men were invited to make such suggestions as they might deem advisable on the question which was the subject of reference to this Committee, and valuable suggestions and a large amount of information have been received, and have been made use of by the Committee.

2. Until quite recently Tuberculosis was regarded as generally hereditary and incurable, but modern discoveries have established that it is a communicable disease, and to a large extent curable as well as preventable.

3. There is in Canada a permanent corps of consumptive invalids, numbering at least forty thousand persons, of whom over eight thousand die annually. In the Provinces of Ontario and Quebec it is an ascertained fact that the deaths from tuberculosis alone are more than twenty-five per cent greater than from diphtheria, scarlet fever, typhoid fever, measles, and whooping cough combined. Apart from the humanitarian considerations involved in the question, the financial loss alone entailed upon Canada by such an annual mortality is enormous, estimated by competent authorities at over \$8,000,000 a year, which makes it imperative for the State to adopt the best possible measures of prevention and cure.

4. The problem of Tuberculosis involves a social movement which does not affect one province, but all provinces; one district, but all districts; one class, but all classes in the community, in country as well as in town. It is a movement of so wide a char-

acter that, for it to have adequate practical results, the co-operation of the central Government is absolutely essential.

5. The principle, involving the interference of the Dominion Government for the suppression of diseases of this kind, was recognized immediately after Confederation, and is embodied in the Statutes of 1868, 31 Victoria, Chapter 63, from which the following is extracted:—

“7. Whenever Canada, or any part thereof, appears to be threatened with any epidemic, endemic, contagious or infectious disease, the Governor may, by proclamation, make such regulations as he thinks proper and necessary to prevent the introduction of such disease from beyond the limits, or to prevent its spread within the limits of Canada, and otherwise protect the public health, and he may, from time to time, revoke or amend the same, or make others in their stead in like manner, and may impose penalties, forfeitures and punishments for the breach thereof, and such regulations shall be published at least twice in the *Canada Gazette*, and the production of copies of the *Gazette* containing such proclamation, shall be evidence of the making, date and contents of such regulations.

“9. By such regulations the Governor in Council may appoint for any specified time, one or several ‘Central Boards of Health’ and may name the members thereof, and also, such medical and other officers and such servants as he may deem necessary to assist such boards, and the powers and duties of the said boards shall be such as are affixed to them by such regulations, and may be exercised by any number of the members thereof mentioned in the said regulations, as constituting the quorum thereof; and the powers and duties of such boards shall cease on the revocation or at the time of the expiration of the regulations aforesaid.

“10. When, and so long as such regulations are in force, it shall be the duty of every Municipal Corporation or County Session within Canada to organize a ‘Local Board of Health’ for the limits of their respective jurisdictions, and such ‘Local Boards’ or any three members thereof, shall have power to act under the regulations aforesaid, and the direction of any ‘Central Board of Health,’ designated in such regulations, and the duties of such Local Boards of Health shall be to enforce, generally, all sanitary measures required, and to carry out the regulations of the Governor in Council, and such orders as may be issued by the ‘Central Boards,’ in pursuance of the provisions of such regulations.

“11. In the case of Municipal Corporations or County Sessions neglecting or refusing to appoint a Local Board of Health, as aforesaid, or in the absence of any such authority in any locality, the Governor in Council may nominate persons within the limits of such Municipal Corporation, county or locality, to constitute such Local Boards of Health.”

6. The problem of preventing and curing the disease is exceedingly complex and necessarily entails a very large expenditure. The work may be taken hold of by the Dominion Government or by the Provincial and Municipal authorities with the aid of the Dominion Government.

7. In the opinion of the Committee the Federal Government should be prepared to contribute yearly to each province a considerable share of the annual cost of dispensaries, inspection, the erection and maintenance of sanatoria and whatever other agencies may be found necessary to secure the desired end; the Province, Municipalities, individuals and benevolent associations contributing the balance; the Federal Government to prescribe the conditions upon which the several institutions shall be entitled to their share of the subsidy, and also, to have the right of inspection of each institution and of its books at any time, and also, power to withhold its contribution in respect of any institution not fulfilling its requirements.

8. The Committee further suggest that unless the Dominion Government feels prepared to take hold of the matter itself, a conference should be held at as early a

date as possible, between the Federal and Provincial Authorities, for the purpose of determining the best action which should be taken in the premises.

9. The Committee suggest that the recommendations embodied in the present Report be presented to the Government by a joint delegation of both Houses; and that their attention be again called to the Resolutions passed unanimously by the Senate and by the House of Commons, respectively, of which copies are hereunto annexed. All of which is respectfully submitted.

WILLIAM C. EDWARDS,
GEORGE H. PERLEY,
Joint Chairmen.

“1. The Company may construct, develop, acquire, own, use and operate the water-power now or hereafter existing on the Rainy River at or near the Town of Fort Frances, in the District of Rainy River, in the Province of Ontario, and construct, develop, operate and maintain works, canals, raceways, water-courses, dams, piers, booms, dykes, sluices, conduits and buildings, in connection with the said power, including any increase of the said power on Rainy River by storage or other works on waters tributary to Rainy Lake, which the Company now has or may hereafter have power to construct: Provided that no work authorized by this Section shall be commenced until the plans thereof have first been submitted to and approved by the Governor in Council.

“2. The Company shall, from the said water-power, including any increase thereof, from time to time provide power or electrical energy for use on the Canadian side of the International Boundary line concurrently as it provides power or electrical energy for use in the United States, so that from time to time, except as herein provided, there shall not be less of the said power or electrical energy available for use on the Canadian side of the International Boundary line than on the American side; and, subject to the provisions of this Act, such power or electrical energy shall be delivered on the Canadian side as and when demanded.

“3. The power house, generators, transmitters, machinery, appliances and connections necessary for the delivery by the Company of such power or electrical energy for use on the Canadian side of the International Boundary line shall be on the Canadian side thereof.

“4. In case of any dispute as to the price for power or electrical energy in use or to be provided for use upon the Canadian side of the said International Boundary line, or the methods of distribution thereof, or the time within which or the conditions upon which the same shall be furnished for use, such dispute shall, notwithstanding the provisions of Section 13 of the Railway Act, 1903, be settled by the Board of Railway Commissioners for Canada on the application for any user or applicant for power, or of the Company, or of the Town of Fort Frances.

“5. No part of the power or electrical energy to be provided under this Act for use upon the Canadian side of the said boundary line, shall be diverted to or used in the

“United States without the order of the said Board of Railway Commissioners made on an application of which two weeks notice in writing shall have been served upon the Mayor and Clerk of the Town of Fort Frances, or, in the absence of either one of them, upon a member of the Town Council in his stead.

“6. The said Board of Railway Commissioners shall have full jurisdiction to enquire into and hear and determine any application of the Company for leave to make such diversion, and if, and so often as, it appears to the said Board on such an application that there is not a reasonable prospect of the utilization within a reasonable time of power or electrical energy unemployed, though actually available for use, on the Canadian side of the International Boundary line, the Court shall make an order permitting the diversion of the whole or part of such unemployed power, or electrical energy, and may impose such terms and conditions, including the fixing of the time during which such diversion may continue, as the Board may deem expedient.

“7. The Board may order and require the Company or any person to do forthwith, or within or at any specified time, and in any manner prescribed by the Board, so far as is not inconsistent with this Act, any act, matter or thing which such Company or person is or may be required to do under this Act, and may forbid the doing or continuing of any act, matter or thing which is contrary to this Act; and shall have full jurisdiction to hear and determine all matters whether of law or of fact, and shall, as respects the attendance and examination of witnesses, the production and inspection of documents, the enforcement of its orders, the entry on and inspection of property, and other matters necessary or proper for the due exercise of its jurisdiction under this Act or otherwise for carrying this Act into effect, have all such powers, rights and privileges as are vested in a Superior Court.

“8. The practice and procedure under this Act on applications to the Board shall be as nearly as possible that followed on applications thereto under the Railway Act, 1903, and otherwise shall be subject to the direction and control of the Board.”

“The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

“In the name of the Commons, I present to Your Excellency a Bill, intituled: “An Act for granting to His Majesty certain sums of money for the Public Service “of the financial years ending, respectively, the 30th June, 1905, and the 30th June, “1906,” to which I humbly request Your Excellency’s Assent.

To this Bill the Royal Assent was signified in the following words:—

“In His Majesty’s name, His Excellency the Governor General thanks His Loyal “Subjects, accepts their benevolence, and assents to this Bill.”

After which His Excellency was pleased to deliver the following Speech to both Houses:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from this laborious and long protracted Session, I desire to express my hearty congratulations on the passage of the two important measures providing for the entry into the Confederacy of the Provinces of Alberta and Saskatchewan.

The unparalleled increase in the population during the last three years, of the areas the new Provinces embrace, affords the strongest evidence that at no distant date they will be the homes of many millions of prosperous and contented people.

The fair prospect of an unusually abundant harvest not alone in the three prairie Provinces, but also in other parts of this wide Dominion will, I trust, under a kind Providence, be fully realized, justifying the hope that the stream of immigration now flowing into the Dominion will continue for many years to come, adding wealth to this highly favoured land.

The addition to the number of the Permanent Force which you have authorized will enable my Government to relieve the tax-payers of the United Kingdom from the burden of keeping up the garrisons at Esquimalt and at Halifax.

It is very gratifying to note that the revenue of the Dominion continues to maintain the high level it had reached two years ago, thus enabling my Government to meet the increased expenditure chargeable against Consolidated Revenue, leaving a surplus to apply on Capital Account.

The numerous Private Bills for industrial objects to which I have assented point to the existence of many new enterprises.

Gentlemen of the House of Commons:

I thank you, in His Majesty’s name, for the Supplies you have so liberally voted.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In returning to your several homes allow me to express the hope that you will find abundant evidences of the growing prosperity and that before we meet again at another Session some progress may have been made in the work of constructing the National Transcontinental Railway so soon to become a necessity for the transportation of the annually increasing products of the West.

Then the Honourable the Speaker of the Senate said:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is His Excellency the Governor General’s will and pleasure, that this Parliament be prorogued until Tuesday, the Twenty-ninth day of August next, to be here holden, and this Parliament is accordingly prorogued until Tuesday, the Twenty-ninth day of August next.
