ONE CONFERENCE FOR TORONTO METHODISTS

Stationing Committee May Decide That Toronto is Large Enough to Be Treated Separately and Divide Ontario Into Several Smaller Districts.

The stationing committee of the Toronto Methodist Conference began its sessions yesterday afternoon at the Metropolitan Church.

At the reading of the reports considerable comment will be made on the method of appointing men to the mission fields. It has been stated by a member that the proper method should be to collect the funds and appoint men to missionary work afterwards. The present system has the detrimental effect of preventing rapid progress, because the net expenditure exceeded the income by a considerable amount.

Considerable trouble has been brewing in Brampton and Weston centres. The church members there state that they are of sufficient importance to be included in the Toronto west district, and have instructed their delegates to the conference to assert their claims, which they undoubtedly will, and before the present sittings are over the more prejudiced members of the committee will be prevailed upon, with pleasurable results to the westerners.

Earlscourt Also.
Earlscourt, too, is suffering from growing pains, and they resent the fact that their district is still a "mission" area by the Methodists, and are petitioning the conference to increase their area by taking Downsview Church, which will increase the appointments to four in that section of the city, this making the area a fully qualified city district.

Changes in Toronto.
Some like changes are expected in Toronto, with regard to the reorganization of the three Toronto districts, as one well-known minister said, "Toronto is becoming so large that we will have to redistribute the localities, making Toronto one conference in itself and splitting up Ontario into several minor spheres of activity. This will eliminate the discontent that is prevalent in certain circles." The present Toronto conference's jurisdiction reaches as far as Saint Ste. Marie.

So far as appointments are concerned, before the expected pulpits changes are made, the question of making new appointments for recently ordained men will be thoroughly thrashed out.

The stationing committee consists of the following: Toronto East District, Rev. J. H. Haslewood, D.D., J. H. Oke, Toronto Centre District, G. W. Robinson, B.A.; R. H. Hinkley, D.D., L.B. Toronto West, J. J. Ferguson, M.A.; J. F. Ockley, D.D. Brampton District, Jas. A. Lang, Ph.D.; F. A. Barse, B.A. Uxbridge District, A. Bedford, A. B. Haines, Orangeville; H. Hooper, M.A.; Chas. Langford, Bradford District, W. Buchan, R. J. D. Simpson, Barrie, I. G. Bowles, B.D.; J. J. Spargling, B.A. Collingwood, W. K. Hager, B.A.; Robert McKee, Owen Sound, Jas. Young, Bracebridge, F. L. FIREMEN HAD A RECORD DAY

Seventeen Alarms Answered, With Most Serious Damage Only \$2000; and the Lowest \$2

Yesterday was a record day for fires in Toronto, and although most did much damage—the most was \$200, and occurred at the Laxfer Print Glass Works, 109 West King-st.—the firemen were kept busy from an early hour in the morning until late at night, when the smallest fire of the day occurred at 119 McGill-st., and did \$2 damage. In all there were 17 fires.

What the Council Did.

Formally appointed R. C. Harris as commissioner of works. Decided to engage Engineer E. A. James to report upon the feasibility of getting water from island wells. Repealed bylaw preventing officials from discharging employees who had given evidence before a civic investigation. Agreed to release the firm of Miller, Cummings & Robertson from their contract to re-lake repair work. Decided to get plans for duplicating the filtration plant. Carried a bylaw to issue debentures for \$149,100 for the construction of special sewers. Refused to establish two chlorination plants for the sewage disposal. Instructed Dr. Hastings to take the necessary steps to control the heavy infantile death rate. Voted \$1000 to entertain the International Association of Chief Constables here July 9 to 12. Accepted \$17,501 for the Brockton Hall property. Voted \$30,000 to the board of highway commissioners to improve the roads near the city limits. Voted \$5000 to secure a topographical survey of district surrounding the city. Passed a motion asking for more decorum in the council meetings.

POLICE HAD LONG CHASE FOR BODY

Got Coroner's Warrant, and Visited Two Undertaking Establishments Before it Was Found.

The police were led a merry chase last night when they went to Grace Hospital to get the body of John J. Hart, who died at the hospital on Sunday afternoon from injuries received when he was knocked off the top of a G. T. R. box car in the Bathurst-street yard on Saturday evening. When the patrol wagon arrived at the hospital the driver was informed that the body had been removed by Miles the undertaker. The undertaking establishment was then visited, but Mr. Miles' employes stated that the body could not be removed. A visit then was paid to Dr. Pickering, the coroner, who promptly issued a warrant. When the patrol wagon went back to Miles' establishment and exhibited the warrant, the undertaker said that they did not have the body, and that they did not know where it was. The patrol wagon driver later located the body at J. Meyers' undertaking rooms at Eglinton, from whence it was removed last night, and an inquest opened at the morgue by Dr. Pickering. The inquest was adjourned until Thursday evening.

PRESBYTERIANS PLEDGED TO TEST OF CHURCH UNION

Assembly, While Not Legally Binding Itself, Entered Into Solemn Covenant to Proceed With Plan and Abide by Consequences—Discord Melted Into Harmony.

EDMONTON, June 10.—(Can. Press.)—We give praise to Thee for the great and blessed interest of this afternoon. We give thanks to Thee for all that our ears have heard. We thank Thee and praise Thee as we think of the years that are to come. We praise and thank Thee as we think of all that this will mean to the endeavorers of Thy people in other lands, foreign lands. We praise and bless Thee that in Thine infinite and divine mercy and compassion, Thou hast brought these negotiations to so blessed and happy a conclusion.

In these words Rev. Dr. Gilray of College-street Presbyterian Church, Toronto, to-day committed the Great Presbyterian Church in Canada to the cause of organic union with the Methodist and Congregational Churches, with which negotiations have been carried on for eight years.

Bridges Are Burned.
The actual statement adopted by the assembly does not formally and legally bind the body to this course; but the denomination will never forget the solemn ceremony of the afternoon and can never, even if it is desired to do so, escape its consequences. In it the chief leaders of the union cause and the chief opponents of the proposal, with the assembled delegates, entered into covenant to test the plan by actual experiment and to follow faithfully wherever they might be led by the great head of the church. Everything that was said and done, both before and after the service, in praise and prayer, which concluded the discussion of church union, was based on the idea that the denomination had terminated

SEEK TO TIE UP ALL PORTS IN BRITAIN

Incensed at Utter Refusal of Employers to Negotiate, Transport Workers Order a General Stoppage of Work—French Steamers Hampered by Mutiny of Crews.

LONDON, June 10.—(Can. Press.)—Three hundred thousand transport workers in this island will give up their jobs, and all foreign and coastwise shipping will be tied up indefinitely, if the union men obey the orders of the General Council of the Transport Workers' Federation, which tonight sent telegrams to every port in England, Scotland and Wales calling for a national strike.

The shipowners to-day decided to reject a compromise, the terms of which the government has been attempting to arrange. The principal points of the government's proposals were a general organization of the employees to treat with the unions, and money guarantees by both sides as insurance against violations of agreements.

Employers Are adamant.
The employers maintain that their interests are so diverse that any organization would be impossible; they consider the cabinet's proposals, particularly the financial feature, impracticable, and set their faces strongly against giving a tacit monopoly to the unions.

When the Federation Council learned of the employers' decision it sent telegrams broadcast, signed by Robert A. Williams, secretary, and Harry Gosling, chairman, reading: "The employers' political scheme to accept the proposals for a general agreement. The national executive recommend a general stoppage at once."

France Has Her Worries.
HAYTI, June 10.—(Can. Press.)—The strike which was begun by the crew of the French liner France yesterday is spreading, and 1500 men are now on the port, being almost tied up. The steamship company has informed the passengers of the France that the government has been requested to provide blankets to man the liner, but an answer is still awaited. In any case the France will not sail until Tuesday night and the company has decided to refund the passage money to all who desire to leave the ship. The emigrants who were aboard the vessel have been placed temporarily in the company's hospital.

The steamship St. Louis, which is expected to arrive here to-morrow, is to bring a certain number of sailors, who will be transferred to the France. The company's steamer Bassin-Terre is also without a crew, and the departure of the Quebec for Hayti to-morrow will have to be canceled.

The country has not been thrown into a panic by the calamity which threatens, because there is general hope that comparatively few of the men will respond to the leader's manifesto. Notes of disaffection are reported in several cities. At Newcastle, one of the most important ports, Peter Miller, the leader of the northeast coast unions, said there will be no strike. Manchester, on the other hand, appears to favor a strike.

Spells Dire Disaster.
If successful, the strike will be the most disastrous of the labor revolts which have kept the country in a turmoil for the past year, disturbed business and strained the diplomacy of the Liberal government in keeping the good will of its labor allies. The real question to-day being fought out is the recognition of union labor, and the cause of the trouble which has already cost business and wage earners hundreds of thousands of pounds, is a stevedore named Thomas, who refused to join the union. The employers desiring to discharge him, and the dockmen stopped work. They took advantage of the occasion to demand a general readjustment of terms from their employers, who, on their side, asserted that the men had already violated last year's agreement.

The transport federation comprises the following unions: Sailors and Firemen's Union, 50,000; Dock, Wharf and Riverside Workers, 75,000; London Car-men's Trade Union, 30,000; Gas Workers, 77,000; Watermen and Lightermen, 5000; Stevedores, 5000; Enginemen, 6000; and some 20,000 laborers belonging to special unions.

Persistent efforts have been made to persuade the railway men to join the federation, but they have always refused.

INSULTING LANGUAGE TO GIRLS AND WOMEN ON THE HUMBER RIVER

Gangs of Ruffians Pass Remarks and Swear at Canoeists, Who Must Listen to Insults as They Pass—Lack of Police Protection is Blamed for Existing Conditions.

Because there is absolutely no police protection on the Humber River at any hour of the day or night, that beautiful water course, frequented by hundreds of young people from the city, is rapidly becoming the favorite haunt for a gang of young hoodlums, who have no respect for themselves or anyone else, and who take keen delight in insulting women and girls. During the past few weeks, the language that has poured from the mouths of these young toughs, while either boating or fishing on the river, has been so disgusting that escorts are becoming ashamed to take lady-friends up the stream.

All day Sunday a number of boys were standing on the bank at the second bend. Some of them wore bathing suits, while others wore only trunks or nothing at all. As girls went by in canoes with gentlemen friends, these youths cursed in loud tones or passed suggestive remarks about the occupants. The slightest rebuke from the escort would be met with a stream of profanity and there was nothing left for him to do but to paddle on.

Even the foreigners who are working on the G.T.R. construction work have sufficient command of English to make insulting observations to the occupants of boats and canoes.

One young man became so incensed at a remark passed by a lounge that he lost control of his temper and threatened to punish the offender then and there, but he was restrained by the young lady accompanying him.

At night parties of these young ruffians make a practice of lying along the wooded banks of the river for the purpose of watching those who should chance to draw beneath the trees. On several occasions fights have ensued where the canoeist has discovered the watchers.

Altho arrangements have been completed for a police patrol along the Lake Shore road at the Humber, the question of protection for the river has never been taken up, and as the county has its hands full immediate relief is not promised.

GAS EXPLOSION WRECKED CAFE

Foundation of Building at Queen and Beverley Streets Badly Damaged and Fire Broke Out.

A terrific explosion of gas in the basement of G. Kaphalago's restaurant, corner of Queen and Beverley-sts., last night, caused considerable excitement in that neighborhood. The employees of the restaurant immediately rushed to the street and found flames issuing from the cellar windows. The fire department was quickly summoned and soon had the blaze under control, before any great damage was done. It is said the building will have to be torn down, as the explosion has completely wrecked the foundation. The plate glass windows were not broken, and the trays of candy were scarcely disturbed. The foundation, however, was badly cracked.

SEARCHING FOR TRAFFIC EXPERTS

Mayor Returns and Drayton Stays in New York to Secure Men to Clear Up Railway Problem.

Mayor Geary returned from New York yesterday morning, where with Corporation Counsel Drayton, he went to negotiate with a firm of traffic experts regarding the securing of a report upon the city's transportation problems. His worship stated that nothing had been definitely settled but that Mr. Drayton was still in New York, and hoped to make satisfactory arrangements before returning.

The mayor would say nothing as to what firms had been approached in the matter, but he was optimistic that the city would get the best advice obtainable.

ENGINEERS' STRIKE AGAIN THREATENED.
PHILADELPHIA, June 10.—(Can. Press.)—The committee representing the Orders of Conductors, Trainmen and Brotherhood of Firemen and Enginemen on the Pennsylvania Railroad east of Pittsburgh and Erie, in the dispute over certain working arrangements, this afternoon sent out a call for a referendum vote on the question of giving the committee the power to call a strike. About 25,000 men are said to be involved.

Can't Scare Langlois.
MONTREAL, June 10.—(Special.)—Langlois, M.L.A., who returned to-day, gave out a statement to the effect that as Le Pays had published nothing against the church or any other gentlemen on the Pennsylvania Railroad, he will publish the archbishop's letter this Sunday, and will reply at length to the referendum vote on the question of giving the committee the power to call a strike, and believes that men of all denominations will stand by him.

THE NEW STOCK CO. COUNCIL APPOINTED R. C. HARRIS TO IMPARTAN CIVIC POSITION

Phillips - Shaw Combination Give a Splendid Performance of the Canadian Play, "The Wolf."

The Grand opened a summer season of stock last night with the Phillips-Shaw Company of Chicago, and if the opening production of Eugene Walter's play, "The Wolf," is to be taken as a sample of what the company is to deliver, then the theatregoers can rest assured that they are going to get the goods. From a scenic standpoint the play was given a more complete equipment than that provided by the company that presented it in this city at high prices. As for the company, it is an exception to the rule. The several characters are portrayed in an intelligent manner and the act climaxes worked up with an artistic finish that indicated the masterly supervision of a competent stage manager. In most stock companies the first performances are a noticeable hesitancy in delivery and a tendency to drag, but these were absent in last night's performance and made the production all the more enjoyable.

The story that the author has constructed is an interesting one, dealing with a hard-hearted old Scotch settler and his pretty motherless daughter. The father's affection for the girl is not what one would expect from a Scotch settler, but as the story is unfolded, it is shown that his harshness in treatment is brought about from the fact that his wife had deserted him, and his nature makes him turn from her child. The love story of the French Canadian and the girl is beautifully told and romantic in atmosphere, lending a charm to the play that is fascinating. Albert Phillips as Jules Beaufrere has a character part that is difficult to portray, but he carried the role through in a manner that delighted the audience. Miss Shaw, as Hilda McTavish, gave a pretty interpretation of the role and her work was appreciated by the audience. Sam McHenry as the old Scotch settler, had a splendid conception of the character and added greatly to the success of the performance by the work of the company at the opening performance, they are deserving of a liberal patronage, and from the standpoint of the theatre, good support. During the week two matinees will be given, on Wednesday and Saturday.

Pleased Crowds at Scarborough.

There was a good attendance at Scarborough Beach yesterday, and the feature was the gymnastic act of the two Lanes, and the act was a very fine one, indeed, from a variety of points of view. Belle's monkey is an act advertised as a "great for the children." It is all of the kind that is "new" and "modern" and is being given in the city. The monkey, which has been remarkably trained, and go thru a surprising number of stunts. They probably the cleverest monkeys that have appeared in this city. Philon on his spiral tower was another feature. The performance of Philon is particularly effective, because of the works that accompany his act. Day or night, he does a daring stunt, and while he is doing it, he is making madcap whim. His act is a good one, and the end may be taken as happy.

As is usual in all Mr. Sothorn's productions, the company was one of all-around excellence, and mutual support. The vaudeville act was very artistically staged and the play was very well put together. As Miss Marlowe will not be able to take the part of the heroine, the place will be filled by Miss Percy Haggard, who is a very good actress. As Miss Marlowe's horse is unable to resume on Wednesday, when "The Merchant of Venice" will be presented.

A Night Off.

When Sothorn and Marlowe depart, "A Night Off" will be presented at the Star Theatre by Miss Haswell and her company. "A Night Off" is one of the funniest farces that were ever adapted. It was produced by the late Augustin Daly, and is a masterpiece of farce. The German, it is cheerful of German comedy and laugh-producing complications. NECESSARY BYLAW PASSED GIVING THE LATE PROPERTY COMMISSIONER HIS NEW OFFICE OF COMMISSIONER OF WORKS AND DELEGATING TO HIM SUPREME CONTROL OF THE WORKS DEPARTMENT—SALARY \$8000—DECIDED TO SPEND \$30,000 TO IMPROVE THE ROADS OUTSIDE CITY LIMITS—ALDERMEN PASS A MOTION TO DISCIPLINE THEMSELVES.

Uneventful and brief was the meeting of the city council yesterday, uneventful because, with the exception of the appointment of R. C. Harris as commissioner of works, there was no question of any importance, and brief because the first time this year the aldermen managed to get thru without a night session.

For Good Roads.

Of the other measures adopted, the decision to spend an additional \$30,000 to improve the roads just outside the city limits was perhaps the most important. The council, by a motion moved by Ald. Yeomans asking the council to demand more dignity and a stricter observance of the rules of debate in the future.

McBride Opposed.

Controller Church brought up the by-law to create the office of commissioner of works, delegating to it the full powers of city engineer as provided in former bylaws, besides the powers of the works department. This brought a storm of protest from Ald. McBride, who claimed that Mr. Harris was an engineer, and should not be called such in the bylaw. He moved that the words in this effect be struck out.

Money for Roads.

The board's proposal to vote \$30,000 to the board of highways, to be used for the purpose of laying out roads within two miles of the city limits was opposed by Controller Hooker, who said that the money should be used for the purpose of laying out roads within two miles of the city limits.

Vancouver, B.C., June 10.—(Can. A steady shower of ashes, presumably from the recent volcanic eruption in Northern Alaska, started to fall in the sea and on to the vessel's deck soon after clearing from the northern port. The shower kept up steadily from Saturday morning until last night at midnight.

Denials.

The various members mentioned as having been insulted by Ald. McBride on the occasion of his appointment to the office of commissioner of works, had good evidence that they were correct. Controller Hooker denied the numerous allegations which had been hurled against him by the alderman in question, and Ald. McBride denied that he ever had anything to do with the C.N.R. insurance, as was intimated at the last meeting.

Baseball Buffalo 8 Toronto 6

Note and Comment

That the game of cricket in Toronto is more than holding its own is evidenced by the various number of what might be called first-class matches that are being played. On Saturday last no less than fifteen were decided. They were championship games in the City and County leagues, and friendly events. Of these, thirteen were reported in the Monday World, leaving two over for Tuesday, the secretaries of the Rivedale and Lovat-Scott clubs being a day slow in making their returns.

The quality of cricket was good for early in the season, except that the bowlers are having a big margin on the batsmen. Besides the top scores against Rivedale, but at that they had barely better than double-figure batting averages, and but for the splendid stand of the Swan brothers their margin would have been cut in two.

For Rivedale, the bowling of Tom Swan and Cap. Woskey was most destructive. Like Le. Black for Simons against the Toronto Club in the exhibition game at respective merits of top of the lately clubs, one of which was already being eliminated from the cup by the defeat of Rivedale last month, and if there is form in cricket, they should defeat Toronto. However, the game, like most others, furnishes surprises, and the vicissitudes may never this season get that far, having yet to meet the victor of the Eaton-Hamilton preliminary.

The first of these matches is to be decided this week, and the Rivedale fixture prior to Dominion Day. Next, the winners of Rivedale, Eaton and Hamilton play the holders on July 19 and 20 at Varsity. That will not settle it, the three should be little left but the cheering. Lachlan of Montreal, Aug. 5 and 6, and the Wanderers of Winnipeg, Sept. 1 and 2, having been accepted by the trustees.

However, there will still be more cricket this season likely in Toronto. For your old friend W. J. Sheehy, the hero of the fight with the burglar, is off to England next month to interview the Australians, and the Cornishmen are expected to come to Cock's winning ways and make the tour this way round the world home of the antipodes.

It is worthy of note that in the Montreal Gazette's form chart of the closing day at Bice Bonnets the mutuals beat its pet book prices against the odds, the odds of the eight races, the first and second races being only a bare fraction ahead of the books. The old book had placed \$100 to \$100, while the iron men paid \$10 to \$10.

LEAFS STILL ON THE TOBOGGAN BUFFALO CAPTURES FIRST GAME

Stallings' Herd Make Their Hits Tell and Defeat Toronto 8 to 6—Lush Batted Out of Box—Scores.

BUFFALO, June 10.—Buffalo won the first game of the series with Toronto today by a score of 8 to 6. It was a fairly good game, but not as fast and snappy as both teams have showed they could play the game. Errors figured a good deal in the scoring on both sides, although some opportune swatting by Bues, Truesdale, Jameson, Jordan, Hilly, O'Hara and Fischer featured in the run-making. Jameson, the Herd twirler, made three hits out of four times at bat, and one of them was in the fourth, Mueller replacing him. Umpire Byron was the star figure of the day, however. He started right out refusing to go a few feet to the grandstand to get the bag of balls. He said it was the captain's place to bring the balls to the plate, and while the crowd jeered, he refused to give them to Byron, who had stopped toward him, but placed the bag on the ground. Happening to see a few of the Buffalo and Toronto players sitting near the fence over the foul line in the left, he ordered them away. While a fight started on the home boys a scuffle broke out between the boys and the manager of the decisions. In the second inning Murray beat his grounder to Fitzpatrick, and a little later stole second. Higgins' throw was perfect, and from all appearances scored the first run. The visitors had a confidential talk over the decision, which resulted in Higgins being ordered from the grounds and Fischer taking his place.

Higgins opened the game with a single, and, with the assistance of two hits and a score, scored the first run. The visitors scored again in the fourth, when Bradley opened up with a double, and after Fitzpatrick had gone out, Hilly brought him home with a single to left. Truesdale, Lush was dropped by him, hit in the stomach with a pitched ball, and he went to the hospital. Bues shut him out, the sun blinding him, filling the box with O'Hara's ray into right scored Hilly, but Dalton ended the innings with a fly to Murray.

Stuck's error runs in the eighth almost broke up the game. After Fitz had scored the first run, Beck, Hilly drew four balls. Fischer singled to Murray, but Truesdale let the throw-in get from him, and Hilly continued to tangle. Mueller sent a bounding one to yards Bues, who again closed his eyes and ducked, allowing Hilly to score. Fischer scored on Meyer's out and O'Hara grounded to Truesdale, which he beat to first. In trying to catch O'Hara asleep at first, Jameson threw the ball into the field, O'Hara going to third, where he died.

Totals: Buffalo, 8; Toronto, 6. A. B. R. H. O. A. E. Buffalo, 8; Toronto, 6.

TORONTO.—A. B. R. H. O. A. E. Meyer, 1; Beck, 2; Dalton, 1; Fitzpatrick, 2; Hilly, 1; Jameson, 1; Lush, 1; Murray, 1; O'Hara, 1; Truesdale, 1.

Totals: Toronto, 6. A. B. R. H. O. A. E. Meyer, 1; Beck, 2; Dalton, 1; Fitzpatrick, 2; Hilly, 1; Jameson, 1; Lush, 1; Murray, 1; O'Hara, 1; Truesdale, 1.

Good Sale of Horses
At Maher's Exchange

An exceptionally good sale was held at Maher's Horse Exchange yesterday. The attendance was very good, the number of buyers large, bidding sharp and prices fair. Prices have been very low of late and there was no appreciable increase or decrease yesterday. Out-of-town buyers were very scarce, the majority of those sold being for city work. Some of the buyers were: Huggs & Conn, Ottawa, Ont.; J. Hood, Deer Park; James Leach, Fort Credit; Douglas Stoop, Cedarvale, Ont.; Some city buyers: W. Harris & Co., D. McGregor, Lake Simcoe; Lee Co., J. Y. Espinosa, W. Wilson, Wm. Harris, Honkrave's Livery, J. J. Walsh, John Ewing, City of Toronto, E. Mead, Union Dairy Co., C. M. Richardson, T. F. Dove, M. Nicholson, A. R. Fowler & Co., J. McPherson, F. A. Musgrave, A. Smith, Ed. Corvan, E. R. Woodward, Rutherford, Marshall & Co., T. Hammer, Charles Williamson, O. Torrance & Co., L. Eisenburg, Wm. Hunter, J. McKee, T. McKeel, C. J. Davis, Rathbone & Brown, J. Levi, R. Payne, R. Hurton, Abel Boyd, Wm. Boyd, J. Peeter, S. Stevens and others.
 A large number of horses are still on hand for sale at this exchange and several fresh shipments are reported for Thursday.

Chicago Nose Out New York 9 to 8
and Cincinnati Afs Defeated
10 to 1—Score.
 At New York—Chicago defeated New York in the most exciting game played in New York this season. Chicago won in the tenth, when, with Trinker on third, Candall was ordered to pass Zimmerman. Zimmerman reached out of the batter's box and drove a wide pitch into the right-field wing of the grand stand for a home run. Earlier in the game Zimmerman hit a homer into the left-field bleachers. Myers' hitting was responsible for most of New York's runs. He made a homer, triple, double and single in five times at bat. His triple drove in New York's tying run in the eighth, and his double in the tenth drove in a run and put men on third and second. Fletcher, however, was thrown out.
 Chicago 9
 New York 8
 Cincinnati 10
 Batteries—Rhinie, Lavender, Reulbach and Archer; Wilke, Candall and Myers.

At Philadelphia.—This home team scored an easy victory over Cincinnati here, 10 to 8, in the fifth inning, Philadelphia scoring eight runs off the pitcher in the eighth, and his double in the tenth drove in a run and put men on third and second. Fletcher, however, was thrown out.
 Chicago 10
 Cincinnati 8
 Batteries—Rhinie, Lavender, Reulbach and Archer; Wilke, Candall and Myers.
At Boston.—Boston broke its losing streak, St. Louis being the victim, 11 to 2, from the box. Boston bunched nine of their twelve hits into two innings. Heas pitched good ball and was given good support.
 St. Louis 10
 Boston 11
 Batteries—Salise, Dale, Woodburn and Wingo; Hess and Kling.
T. C. C. Handicap Race.
 The Toronto Canoe Club held a mile handicap race last night. There were about 20 entries, and despite the strong wind, they made very good time. The winners were: 1. Hurst, 2. McGregor, 3. Gooch. The two war canoes had an excellent workout last night. They had a launch in commission and made record time.

"Flying Water Witch" Bait

We are at the front again with the very latest invention in Baits for Trout, Bass and Loach.
 (Made in sizes 2in, 2 1/2in, 3in)
THE LURE OF ALL LURES
 The "Flying Water Witch" Bait is a deadly lure for Trout, Salmon, Pike, etc., and suitable for River, Sea or Lake. It is composed of a series of graduated metal bars with hinges, each a separate unit, which spin independently, revolving on a single metal bar running right through the centre of the bait, and when drawn through the water whilst spinning gives the most attractive Ball ever put into water. It makes the fish fairly wild to see this bait with five hinges all spinning at the same time in the water, being equal to five ordinary baits.

The Nursery

The Daily Hint From Paris

A Novelty in Decoration.

The lines of this suit are similar to many others, and the material is the fashionable white serge.

The new effect is made by using brightly printed pongee for the facings on the coat and by trimming the skirt with small tabs, cut from the pongee, in place of buttons and loops.

While the tight skirt which compelled the wearer to a mincing gait is no longer worn by smart people, it is quite true that women have up to this moment refused to accept full skirts, while waiflers met with a cold reception from the great majority of women.

When a skirt of this material is not draped, it is generally composed of straight breadths, measuring about two yards in width, and cut to fit snugly if a little more fulness is necessary at the hem it is gathered by a rounded arch in the middle of the front.

A fascinating finish, a gown of blue and white striped taffeta, was a large collar of perfectly plain white linen frilled with white mull; under this chin it turned into a shawl and was fastened with a large flat bow of black velvet ribbon.

A fascinating dress, a gown of blue and white striped taffeta, was a large collar of perfectly plain white linen frilled with white mull; under this chin it turned into a shawl and was fastened with a large flat bow of black velvet ribbon.

Others again would like a short and easy road into the ministry and they have been properly excluded.

Regarding the Bible Prof. Ballantyne says: "There is an honest effort to give the student a thorough knowledge of the Bible. Although the point of view is not English, English is employed so far as is necessary to give a broad, comprehensive knowledge of the theology, ethics and history of the Scriptures."

Tulips Like Roses.

Tulips that look like roses are an attraction at Scarborough Beach that need not be advertised. They are well known, and many flower lovers would say that they are the chief attraction at the park at the present time.

They are mostly pink and dainty, and stand more than two feet tall, not counting the foot under ground. These tulips are of the Darwin variety, imported direct from Holland, and are blooming when nearly all the other old tulips are dead.

They are a new and rare variety, and those who would like to see tulips that are as beautiful as roses ought to go to Scarborough Beach, and they will not be disappointed.

LENIENT TO MRS. PANKHURST

LONDON, June 10.—(Can. Press.)—The sentences on the militant suffragists, Mrs. Emmeline Pankhurst and Mr. and Mrs. Pethick Lawrence, joint editors of Votes for Women, were today modified by Reginald McKenna, home secretary, and the prisoners will finish as first-class misdemeanants the term of nine months imprisonment to which they were condemned at the Old Bailey sessions on May 12, instead of serving as ordinary criminals.

DIAMONDS

REASONABLE RECIPES FOR A MEATLESS DIET.

Rice Baked With Cheese Sauce.

Put on the stove two cupsful of water in a suitable saucepan. When it boils add a cupful of very thick cream and a level teaspoonful of salt.

Close the saucepan with its lid and stand it where it will steam and stand it until the water has been absorbed. Meanwhile put a table-spoonful each of butter and flour on the outside and into the centre, and cook it a little.

Smooth the rice inside and out and pour the prepared sauce evenly over the outside and into the centre.

Spinach With Egg Sauce.

THE CARE OF CAGE-BIRDS

These poor little prisoners are more absolutely in the owner's mercy than any other household pet.

Many particular housekeepers fail to establish a positive time for giving them their meals, so that association of ideas will insure remembrance.

Vegetable food of some kind is also a necessity. A lettuce-leaf, water-cress, a small piece of apple, grape, or small thin slice of raw potato, if you have nothing else, should be given every day.

DUKE NOT TO SHORTEN STAY.

MONTREAL, June 10.—(Can. Press.)—Absolutely without foundation, it is said Col. Lowther, aide-de-camp to the Duke of Connaught, this afternoon when a statement published in the Manchester Guardian in reference to his royal highness resigning the position of governor-general of Canada at the end of the year, was read to him.

NO ACADEMIC DEBATE THIS

NIAGARA FALLS, Ont., June 10.—(Can. Press.)—Frank Brunschw was reminded this Friday when he appeared in court for the trial of a charge of assault on the Duke of Connaught, that the duke took the office for two years, and would occupy it for that length of time, with the possibility of extending his stay here for five years, the regular governor-general's term.

NO ACADEMIC DEBATE THIS

NIAGARA FALLS, Ont., June 10.—(Can. Press.)—Frank Brunschw was reminded this Friday when he appeared in court for the trial of a charge of assault on the Duke of Connaught, that the duke took the office for two years, and would occupy it for that length of time, with the possibility of extending his stay here for five years, the regular governor-general's term.

NOT UNION MEN

Men Sentenced for Assault Had no Connection With Strike.

Business Agent James Watt of the striking journeymen tailors has asked the World to state on the union's behalf that the men who were sentenced last week for assault by Judge Denton were not connected with the local strike, nor had they anything to do with the union.

REASONABLE RECIPES FOR A MEATLESS DIET.

Rice Baked With Cheese Sauce.

Put on the stove two cupsful of water in a suitable saucepan. When it boils add a cupful of very thick cream and a level teaspoonful of salt.

Close the saucepan with its lid and stand it where it will steam and stand it until the water has been absorbed. Meanwhile put a table-spoonful each of butter and flour on the outside and into the centre, and cook it a little.

Smooth the rice inside and out and pour the prepared sauce evenly over the outside and into the centre.

THE CARE OF CAGE-BIRDS

These poor little prisoners are more absolutely in the owner's mercy than any other household pet.

Many particular housekeepers fail to establish a positive time for giving them their meals, so that association of ideas will insure remembrance.

Vegetable food of some kind is also a necessity. A lettuce-leaf, water-cress, a small piece of apple, grape, or small thin slice of raw potato, if you have nothing else, should be given every day.

DUKE NOT TO SHORTEN STAY.

MONTREAL, June 10.—(Can. Press.)—Absolutely without foundation, it is said Col. Lowther, aide-de-camp to the Duke of Connaught, this afternoon when a statement published in the Manchester Guardian in reference to his royal highness resigning the position of governor-general of Canada at the end of the year, was read to him.

KEELE ST. AND NEWTONBROOK FARMS SOLD

Phillips Property on Mason Avenue Going at \$700 an Acre—Eglinton Macdonald Sells Hundred Acres at Downsview for \$60,000—Patton Farm Bought

Keele-street seems to be the rendezvous of the farm buyers at the present time. Reuben Phillips' farm at the northeast corner of Mason-avenue and Keele-street is reported sold at \$700 an acre. Mr. Phillips says this is the price, but will not divulge the name of the purchaser. The Duncan farm, adjoining the Phillips property at the east, was bought two years ago by Robins, Limited, for Sir Henry Pellatt, at \$200 an acre. The price being paid for the Keele-street farm shows a decided climb in vicinity values.

TWO CHURCH STREET SALES

Baptist Publishing Company Buys Double Frontage Lot for \$13,000—Adjoining Property Transferred

The Standard Publishing Co. have purchased the property at 223 Church-street and will demolish the building and move their business there from Church-street. The property has a frontage of 25 feet by a depth of 110 feet to Dalhousie-street. The vendor is Evan M. Early, and the deal was put up by McArthur-Richey-Trimble, Limited, at a price of \$13,000.

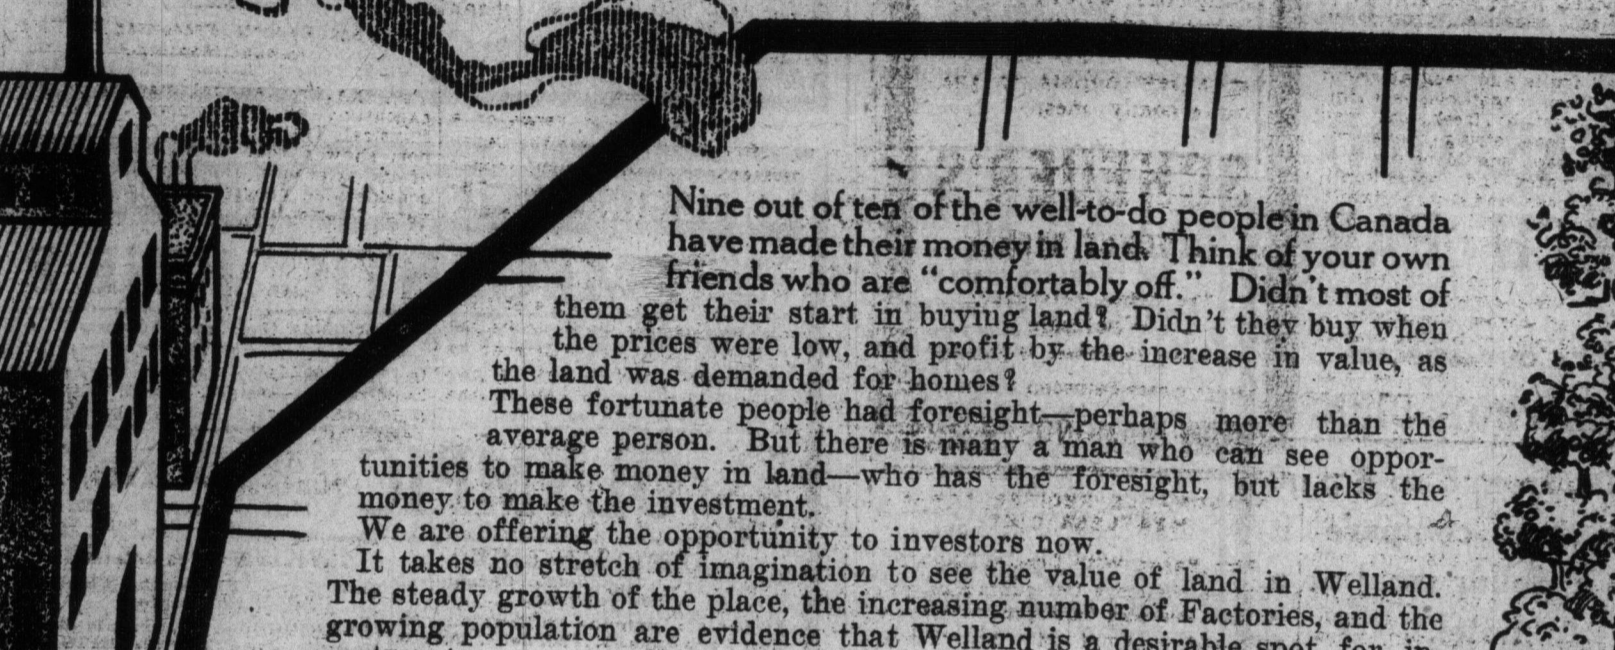

Scholes Deal Is Confirmed

Confirmation of The World's story that a deal had gone thru for the property occupied by Scholes' Hotel and Parker's dry goods was had yesterday from Jenkins and Hardy, agents for the former owner, William Ramsay of Scotland. The price it went thru at was \$200,000, or \$500 a foot, including buildings. The property has a frontage of 42 feet by a depth of 140 feet, the land fronting on St. Nicholas-square being occupied by many storehouses. The name of the purchaser is not disclosed. Both the occupants of the property hold leases that have five years to run. John F. Scholes is not the buyer.

THE HIGHLANDS NORTH TORONTO

Many beautiful homes will be erected on the Highlands because of its superb location, high elevation, beautiful layout and artistic surroundings. The Highlands will be the future abode of the elite of the city.

Welland's factories are next door to the Rosedale Sub-division

Nine out of ten of the well-to-do people in Canada have made their money in land. Think of your own friends who are "comfortably off." Didn't most of them get their start in buying land? Didn't they buy when the prices were low, and profit by the increase in value, as the land was demanded for homes?

ROSEDALE

is located near the Factories in the Northern End of the Town. The Quality Beds Company is two short blocks from the subdivision, as are also the Imperial Mfg. Company, Hamilton Tile Company, Supreme Heating Company, and Chipman-Holton Knitting Company.

The Street Railway, which has been completed between the Grand Trunk and Union Station, will be extended into "Rosedale."

DUTY REDUCTION WOULD GOVERNMENT'S ACTON WILL CAUSE CLOSING OF CANADIAN PLANTS, THEY SAY—CAN'T STAND THE COMPETITION, AND CLAIM THAT AMERICAN OUTPUT WILL KILL CANADIAN TRADE.

Local men who are interested in the manufacture and sale of cement are very pessimistic as to the outcome of the government's decision to reduce the duty on American cement to 26 cents per barrel, from June 12, until Oct. 31. All claim that it will result in the closing of the Canadian mills in view of American competition, and that Canadian markets will be flooded with the product from the other side.

Alfred Rogers said that mills owned by ten companies, which he represented, would have to be closed down as a result of the better rates which could be offered by American firms. A first Mr. Rogers could not believe that the duty was to be reduced to 26 cents per barrel through the Dominion, but he was soon convinced. He predicted that all the mills in Ontario would have to stop operating. The cement merger might be able to withstand this assault, he stated. There was, however, no hope for the smaller concerns.

Will Flood Market. It was pointed out by the local cement men that the duty in the past has been sufficient to hold back the American manufacture. Cement is now selling at 60 cents per barrel on the other side of the water, and 48 cents per barrel on the other side. The cost of freight the cement from the States can be placed on the market here at a cost of \$1.35 per barrel, or 15 cents lower than the present market rate. Although the reduction in the duty is only for the period between June 12 and Oct. 31, it may as well be all the year around, as the Canadian mills are only able to operate for about six months in the year owing to weather conditions, he said.

The Canadian market will be flooded by the excess product of the American cement mills, continued Mr. Rogers. "So much cement has been produced over there that a number of mills have closed down in the last year and cement has been a drug on the market. Cement is being sold almost at the cost of production, and that cost for a number of reasons is less than the cost of production in Ontario."

Goal and Labor Cheaper. Cement is cheaper on the other side of the water, and so is labor. The cost of labor here is the lowest in the world, while the Canadian mills only operate during the summer. The companies represented by Mr. Rogers employ over 1,000 hands. They have plants at Owen Sound, Durham, Orangeville, Kirkfield, Hanover, Warton and Attwood, and from 125 to 150 men are working in each place.

Hon. W. T. White, minister of finance, stated that there was a great demand for, and also a scarcity of, cement in various sections of the Dominion because the cement manufacturers could not make prompt shipment by rail and water. He has received many requests and urgent appeals from boards of trade and other organizations asking that partial or total reduction of customs duties be granted during the remainder of the season, as great financial loss and suspension of business was threatened.

Senator W. C. Edwards, president of the Canadian Cement Association, said that the trouble was due to inadequate transportation facilities, and not to a shortage of the product. "There are over a million barrels of cement in our bins ready for the west," said he.

King and Queen, the famous diving horses, which produced such a great drawing attraction and made so much amusement to ladies and children last season, arrived in the city yesterday, and will give the wonderful exhibitions of diving at the Grand Fireworks Display at the Point, free, every afternoon and evening, from June 12 to 15.

But Toronto Market Fails to Show Any Real Vivacity--Winnipeg Railway Spurts Again.

While the Toronto Stock Exchange maintained an appearance of activity at the opening session of the week, the market yesterday was by no means as prolific of feature as it had been on several previous occasions. The tone of prices was more irregular than anything else, and while it was true that some of the more prominent issues demonstrated a firmer disposition than at the close of last week, nevertheless there was still evident a feeling of uncertainty in regard to the leading active spots, which could only be accepted as clear proof of the hesitancy now existent in regard to speculation.

Another upturn in Winnipeg Railway, which sold up to 2 3/4, a gain of 1/4, was noted, and a figure with a shade of the high record established on the bulge a week ago, gave rise to a good deal of comment. The general idea on the street was that the deal on the purchase of the property was near completion than most people believed. In fact, it was stated that the report of the valuator as to the plant of the company had been placed in the hands of the New York syndicate, and that following its presentation, the legal agents of the company had gone to New York to further the closing of the arrangements. The usual mask of secrecy was observed by those who might have been expected to be in the "know," however, and the street was consequently unable to get any verification of the various rumors which accompanied the movement.

The South American Traction issues, Rio and Sao Paulo, showed a firm upturn. The former, in fact, displayed a buoyant disposition, which carried the price up a full point. Sao Paulo was quoted at 24 1/2, and with a slight to 24 1/4, or about unchanged from the preceding session. Other firm spots in the list were Richelieu, Dominion Iron, Toronto Railway, and Spanish River, the latter of which underwent another flurry, presumably representing a drive against a short interest, attaining 65 1/2, and closing three points. The reduction in the duty on cement attracted considerable interest here, but the market standpoint was not a material factor.

The statement of bank clearings at leading centres across the border affords some interesting comparisons when taken in conjunction with the Canadian record published in last Saturday's World. Montreal stood seventh in the list in volume of clearings, and Toronto trailing following table shows the totals and the percentage increase or decrease compared with the corresponding week of 1911.

ON THE CURB

A feature of the Toronto stock market yesterday was a rise in Consolidated Smelters, which added to its recent appreciation in value by retaining \$60 a share. Last week the stock was quoted around 55, and a couple of points were lagging at 40. The fiscal year of the company a dividend is looked for in the near future, the president having intimated that such might be expected at the time of the last annual meeting. The advance in the price of copper to above \$1 cents a pound is also cited as a bullish argument on the stock.

Canadian Goldfields Syndicate, which holds a large block of Smelters and will benefit from any dividends there by, advanced to 3 7/8 on the curb.

MANIPULATION RULES IN THE COTTON PIT

Erickson Perkins & Co. had the following: Bullish manipulation continued to-day and prices were carried nearly a dollar a bale above Saturday's closing level. Trading was more active, but there was no evidence of outside speculative interest to any great extent. Advance started in Liverpool, where cotton spinners were good buyers; spot sales there ran up to 10,000 bales. The July option in New Orleans was conspicuously strong and it was said that exporters were taking all offered. The July option in Orleans was held by the market, the steamer tone to their orders. The steamer tone to their orders has moderated bearish sentiment; but we can see nothing to base a bull campaign on. The market promises to continue in a trading position. We prefer sales to this bulge.

WALL ST. COMMENT

Erickson Perkins & Co. had the following: Traders sold stocks down as soon as the government crop report came out, although spring wheat and oats showed up extremely well. The winter wheat, the condition being 74.3 per cent, and the total for all crops promises to be a good average. This is the thing to look at, within appointment because the supreme court did not hand down a decision in the coal cases. This ties the matter up, and in this respect disappointing, but we consider it favorable that the court has adjourned for the summer. It removes temporarily a source of uncertainty, and attention will now be riveted more particularly on politics. Stocks can be bought on all drives for momentary turns as heretofore. They showed good resistance to-day.

Chas. Head & Co. to J. E. Osborne: The market to-day has been a waiting one, waiting for the supreme court decision. Considered in a broad way, the speculative situation is broad way, and has been only exceeded six recent years any month in the history of the country. When one stops to think that the present business represents to a great extent than ever before a great legitimate trade for speculation in all clearings show doubtless a basis on record. Money promises to be easy, although the loans are large. Much financing remains to be done by the Spanish and industrial corporations. The outlook would seem to favor the purchase of selected securities for turns on an decided weakness.

STEEL REPORT REFLECTS BIG BUSINESS

NEW YORK, June 10.—The unfilled tonnage of the United States Steel Corporation at May 31, totals 5,700,853 tons, an increase of 83,069 tons over the preceding month. It is very much larger than a year ago and there has been an increase in each month of this year except in March. Following is a comparison of the monthly results showing the steady expansion of business:

Month	Unfilled orders tons
April 29, 1911	5,215,340
May 31, 1911	5,113,187
June 30, 1911	5,084,761
July 31, 1911	5,379,721
Aug. 31, 1911	5,304,856
Sept. 30, 1911	5,624,885
Oct. 31, 1911	5,760,983

TWIN CITY

For the last ten days of May the earnings of the Twin City Rapid Transit Co. were \$229,171, an increase over the corresponding period of 1911 of \$90,010, or 4.06 per cent.
