"HOME RULE" NOT YET THO BIRRELL GIVES FUTURE HOPE NEW BILL DISAPPOINTS

Irish Council Given Management of Eight Departments, But Crown Continues to Control Five Most Important, Including the Constabulary.

UNIONISTS SAY "TOO MUCH" REDMOND DEFERS JUDGMENT

LONDON, May 7.—The government to-day presented its long-awaited Irish bill to the house of commons and the country. The bill is designed to meet the demands for Irish home rule.

It was presented by the chief secretary for Ireland, Mr. Birrell, to a crowded house. The appearance of the measure it was popularly termed "the resolution bill," but to-day it is referred to as the "Irish council bill."

AUGUSTINE BIRRELL

Some time must elapse before the inclination of public opinion can be gauged, but the indications are that another general election must precede any measure of parliamentary revolution.

WILL DIE IN LORDS.

The Irish council bill, introduced by Augustine Birrell, follows substantially the lines of the measure indicated by Mr. Bryce, the British ambassador to the United States, prior to his resignation of office as secretary for Ireland.

The chief feature of the debate that followed the introduction of the bill was the unpromising declaration of hostility made by Mr. Balfour, on behalf of the official opposition. It means that the power of the house of lords will again be invoked to defeat the measure, and that it must eventually be submitted to the verdict of the electorate.

The attitude of Mr. Redmond, leader of the Irish Nationalist party, was non-committal, but, on the whole, not unfavorable. It has been evident ever since the reception accorded to Lord Dunsinane's proposals that the Ulster Conservatives would strongly oppose any devolutionary measure. The strength of this sentiment was acknowledged by Mr. Redmond when he declared that the Nationalists were prepared to accept even a nominative element in the Irish council if it would disarm suspicion, which he admitted was strong, in their opinion, groundless.

SERIOUS TIE-UP FEARED IN SHIPPING CIRCLES

Longshoremen Remain Out and Steamship Companies Refuse to Yield to Demands.

NEW YORK, May 7.—A serious tie-up of trans-Atlantic shipping now appears imminent, as a result of the strike of longshoremen at this port. Practically every one of the companies which operate big passenger and mail steamers between New York and European ports are affected.

These conditions are particularly annoying to the companies operating the big steamers just at this time, as the Imperial conference states that Winston Churchill, continuing the preference discussion, drew attention to considerations of a political and parliamentary character. He said that enormous parliamentary difficulties would be involved in the adoption of a system of preference. Colonial affairs always suffered from being brought into the arena of party politics, and the system of preference would involve them in its very midst.

MAY GET LONDON MAN TO SUCCEED J. F. JUNKIN

H. B. Somerville of Huron and Erie Probable Manager of Manufacturers' Life.

Announcement was made yesterday that J. F. Junkin has resigned his position as managing director of the Manufacturers' Life, with the intention of opening a financial office for the purpose of dealing in bonds, debentures and other securities.

It is expected that H. B. Somerville, manager of the Huron and Erie Loan Co., will be offered the position, and that he will accept. As manager of the Huron and Erie he receives a salary of \$7500 a year.

Mr. Junkin has been general manager of the Manufacturers' Life for twelve years, during which time the company's business in force has increased from \$8,000,000 to almost \$20,000,000; its assets from slightly over \$500,000 to \$2,000,000.

PREMIERS FINALLY AGREE ON TARIFF RESOLUTIONS

Respect Paid to Home Government's Views—Winston Churchill Sets Forth Grave Parliamentary Objections.

COLONIES ALWAYS SUFFER IN ARENA OF POLITICS

LONDON, May 7.—A lengthy official précis of to-day's proceedings at the Imperial conference states that Winston Churchill, continuing the preference discussion, drew attention to considerations of a political and parliamentary character. He said that enormous parliamentary difficulties would be involved in the adoption of a system of preference.

FOUR MONTHS' REVENUE TOTALS THREE MILLIONS

Cobalt Sales Account for \$1,150,000, While Other Departments Show Increases.

During the first four months of the present year, that is, from Jan. 1 till April 30, the revenue of the province was \$3,173,280, or almost double the amount the treasury department received in the same period last year.

The greater portion of this large increase has to be credited to the Cobalt sales, Kew and Cobalt Lutes accounting for \$1,150,000. Other increases were \$75,000 from crown lands, \$240,000 from succession duties, and \$58,000 from the provincial secretary's department.

ONE MAN KILLED IN CAR RIOT AT FRISCO

Attempt to Run Cars Under Police Guard Leads to Serious Clashes With Strikers in Which Many Are Injured.

SAN FRANCISCO, Cal., May 7.—The strike of the 1700 motormen and conductors of the United Railways developed this afternoon into a riot, in which more than a score of persons were seriously hurt, some of them fatally. The worst injured are: James Walsh, shot in head, will die; Alta Fernald, shot in back, may die; Policeman Harry Saker, shot thru shoulder; A. C. Jahn, shot in throat; N. Leish, shot thru chest; G. M. McNaughton, shot in forehead; Tom Buchanan, shot in abdomen, will die; Detective Sgt. Bell, shot in chest.

At 2:30 o'clock the company made its first attempt to resume operations by sending out seven passenger cars, manned by about forty strike-breakers. The men wore uniforms of car inspectors, and each carried a .38 caliber revolver. The start was made from the company's barn at Turk and Fillmore-streets, where a crowd of from 3000 to 5000 men and boys had gathered.

A Stormy Time. Twenty-seven policemen, five mounted officers and several sergeants under the command of Capt. Mooney, were on patrol guard. The appearance of the cars in Fillmore-street, from which they were switched into Turk-street, was the signal for an outburst of jeers and howls. Before the cars had gone one block they were made the targets of stones and bricks.

In a few moments every pane of glass had been smashed and several of the operators had been struck, cut and bruised. At Turk and Buchanan-streets, an especially fierce attack was made on the foremost car. A guard on the rear platform answered the stones with a pistol shot, the bullet striking a union sympathiser in the arm.

The crowd in the wild mob and throng forward for twelve blocks there was fierce fighting. The strikers and their friends, aided by hundreds of youthful hoodlums, kept up a shower of missiles. The guards responded with fusillades after fusillades of pistol shots.

Eight men received bullet wounds, some of which will prove fatal. Among those thus injured are a detective sergeant and a patrolman. Twenty-two or twenty-three of the guards were arrested by reserves from the central police station, and union crowd boarded the rear most car and started it back to the barns.

Arriving there the strikers charged. Revolver fire was opened from the barns. In this encounter, several more men were shot. A non-union man threw a switch at Turk and Fillmore-streets, and the derailed car shot into the sidewalk, maiming two men. In the stampede that followed scores of women and children were trampled upon.

James Walsh, who was injured in a street car riot, died to-night.

The Late as It Operates For the Railway Against the People For the People Against the Railway

If a railway brakeman gets drunk, on duty, there is no trouble about having him arrested and punished without delay.

If a man boards a railway train and refuses to pay his fare, there is no delay in dealing with him. He is taken into custody at the first station and is punished summarily.

If a tramp breaks into a freight car and drinks or wastes a gallon of whiskey in transit as freight, he is promptly brought before the court and properly dealt with.

Yet in each of these cases there has been a violation of the railway act.

The theory advanced in some quarters that dereliction of duty on the part of a railway corporation can only be dealt with by an appeal to the board of railway commissioners at Ottawa has no foundation which would not support a similar contention in the case of an individual. The railway commission simply succeeded to the old railway committee of the privy council. In consolidating the railway acts, this commission was created, and all the powers of the railway committee were transferred to it. At the same time, this board was clothed with greater authority than had been vested in the railway committee.

It was never intended that the government of the day, including the minister of railways and canals, should be relieved of the responsibility of enforcing the law of the land against railway corporations, by the creation of the railway board. The duty still remains upon them to execute the law, and the board is a convenient court to which they may resort.

The railway commission is undoubtedly a court, being one of the seven or eight federal courts already created by the federal government, which keeps on protesting that it has no authority to create courts and no machinery whereby to enforce the law. But creating this court did not abolish the other courts of the land, nor did it take away from any citizen his legal rights. A citizen may indeed complain to the railway board against discrimination and may ask the board to make some order upon the railway company readjusting its tariff of tolls, but this does not foreclose any legal right which he may have to sue for damages, to procure an injunction, or, in any other way, to appeal to the courts for the enforcement of the law.

We are fond of saying that the law does not discriminate between the rich and the poor, the powerful and the weak, yet it is hard to believe that any individual would be allowed to commence at the age of 21 to defy the laws of this country and to continue to defy them until he died at the age of 75. The Grand Trunk Railway system has a record analogous to this. It has never obeyed the law requiring a penny a mile service from the day of its birth to this hour, being a period of some fifty-five years, unless we put to its credit the penny a mile service rendered for some years by the Lachine Canal railway which afterwards was absorbed into the G. T. R.

When an individual picks a pocket, or makes a disturbance in the street, there seems to be no difficulty finding out by whom he should be tried or in procuring his punishment.

In the case of a great railway corporation, a matter of half a century seems too short a time to determine what tribunal shall punish the law breaker.

Sir Wilfrid Laurier when forced to take some stand upon the defiant law-breaking on the part of the Grand Trunk railway suggested that the courts of Ontario were open and that this company might be prosecuted and punished by provincial authority. This seemed sensible enough, although it was not edifying to hear the first minister of the crown declare that the government of this nation was impotent to enforce its own contracts or to vindicate its own laws. But now when the courts of Ontario are appealed to, it appears, unfortunately, that the premier was wrong. Apparently all courts are closed, except the railway commission.

Upon application for a mandatory order to compel the Grand Trunk railway to give a penny a mile service, required by law, Judge Teetzel decided the other day that, inasmuch as the matter could be dealt with by the railway commission, he would not issue the writ asked for. This no doubt was within his discretion, but it seems to the wayfaring man a great misfortune that the ruling should have been made. Up to that time the citizen who was denied the service guaranteed to him by law could either (1) appeal to the courts for immediate relief, or (2) wait upon the convenience of the sorely overburdened and over-worked railway commission. Now he has one of his two avenues of relief blocked. He is restricted to one remedy, instead of two.

These matters are no doubt discretionary with the learned judge before whom they may come for decision, and different judges may take different views of their duty. When this complaint comes before the railway commission it may be sent back to the courts upon the ground that a plain section of the statute requires no order from the board for its validity. The petitioner who has been endeavoring to have this law enforced against the Grand Trunk railway has already gone from Herod to Pilate, and from post to pillar. He is certain to have several long and expensive trips before he can get final relief, including ultimately the last and favorite recourse of corporations, an appeal to the foot of the throne.

It is time for some legal reform to compel a corporation to obey the law, the present condition approaches anarchy.

In the meantime Hon. James P. Whitney, the Premier of Ontario, might send for the papers of Mr. Justice Teetzel's decision and read them over with a view to discovering whether or no that learned judge has not been altogether too free in denying a most ancient and honorable right of every citizen to go to the courts of the land for redress of a public grievance. Of course Mr. Wallace Nesbitt is free to make such an argument before the court.

Waxed Paper Handy.

So many uses can be made of waxed paper that it is good economy to have every scrap that comes into the house. Large sheets of this may be saved from soap-boxes and many small cardboard boxes containing candy, seedless raisins and other fruit are lined with a very good quality of waxed paper.

Keep Young.

"Dietetics furnishes mankind with the nearest approach to the fountain of youth," according to Dr. Cohen, a noted London physician, who has prepared a diet that people may eat after middle age to keep them from growing old too rapidly.

The World's Serial Story.

"He opened the outer door of the hut and whistled twice. Something stirred in the darkness near by and a great buzzard, which had made such a demonstration over the bent little tramp on the occasion of his first arrival, came into the light. The animal stepped quickly past the man, pressing against the door-casing, and disappeared into the four-room. The man Kansas stared for a moment looking after it."

KANSAS MEETS WITH A MISADVENTURE.

On the morning after this day, Faring came down to breakfast as usual. Beatrice was not in the breakfast-room, but that was not in the least surprising, for she was always late, not only at breakfast, but at every other occasion. He waited a few minutes, and then, since she still did not appear, lighted a cigar and went out upon the garden porch. There was a broad strip of turf between the porch and the first ranks of roses, and the man went to the edge of the basket, busy with nothing.

Patrick O'Connor of Toronto has been made defendant in an action brought by Rosa Millar to have it declared that she is the owner of the equity of redemption in 505 Yonge-street, and for an injunction restraining O'Connor from interfering with her possession of the premises.

Motorman Injured. John Harris, a motorman on the London Street Railway, met with an accident in August last, due, he alleges, to the negligence of the company. At the trial he recovered a judgment for \$1500, but the company appealed to the court of appeal. After hearing the argument yesterday the court reserved judgment.

FATAL TRAIN WRECK. Four Trainmen Killed and Eight People Injured. WHEELING, W. Va., May 7.—In a dense fog early to-day the New York Chicago Express, No. 7, on the Baltimore and Ohio, crashed into an east-bound freight as it was taking a siding at Rosby's Rocks, near here, killing four of the railroad men, seriously injuring three others and slightly injuring five passengers. The engines, baggage, mail and express cars were demolished, but the passenger coaches and the sleepers were uninjured. The cause is said to be the fog which prevented the engineer of the passenger train from seeing a flagman who protected the freight. All the injured were recovered.

ANTI-BUCKET SHOP LAWS CLOSES 'EM UP IN WEST

Diversion of the Business Into Legitimate Channels Will Help Boards of Trade.

CHICAGO, May 7.—Bucket shops thru out the west, and in many states in the south, appear to be nearly at the end of their existence.

Conceded legislation against them in several states and the passage of stringent laws prohibiting them from operating further, together with the activity of the Chicago Board of Trade in prosecuting cases against them, has caused many of the leading bucket shop concerns, which have had a network of private wires, covering practically every state in the west, south and northwest, to decide to quit.

The volume of business transacted by the different bucket shop concerns has been enormous, especially as they have charged only half the commission exacted by regular houses. The wire rentals of some of the big concerns have been larger than those of the largest legitimate houses. One Indiana concern paid upwards of \$100,000 annually for wires.

The diversion of immense business handled by these concerns to regular channels will prove of great advantage to the board of trade.

The anti-bucket shop bill now before the Illinois legislature is still among the uncertainties. A strong bucket shop lobby is present in Springfield, however, trying to block its passage.

WATCHMAN FOUND DEAD.

Ephraim McGee Dies in Shack on I. & O. Wharf.

Ephraim McGee, 63, a familiar figure for years about the Richelieu and Ontario wharf, of which he was night watchman, was found dead in his bed at 2:30 o'clock yesterday afternoon.

At that time William Courtney, a carpenter engaged on the wharf, was passing the old man's shack, when he detected a heavy odor and went to investigate the door and the old man stretched upon the bed, dressed as he had been the night before.

Chief Coroner Johnson viewed the remains yesterday and decided that an inquest would be unnecessary. He permitted the remains to be removed to the undertaking establishment of F. Roese, East King-street.

LEPERS LEAVE CANADA.

Leave Western Coast for the Celestial Empire.

VICTORIA, B. C., May 7.—This morning the entire colony of six Chinese lepers, which hitherto has been located on D'Arvey Island, in the gulf, was shipped to China by special steamer, chartered by the Dominion government.

This step is the result of an arrangement arrived at between Canada and China, and in future all leprous Chinese caught within the Dominion will be returned to China at the expense of the government of the Celestial Kingdom.

Gourlay Pianos THE PRIDE OF OWNERSHIP

To own a Gourlay Piano is to be proud of your Piano. If you are a musician, the sympathetic bond between you will be strong indeed, for a Gourlay Piano responds to every mood of the player.

There is a crispness and delicacy of tone for the daintiest improvisation, and a richness and volume for the most exacting bravura passages.

If you are not a player but a lover of music, the pleasure of your friends' enthusiasm will more than repay you for the amount of your investment, to say nothing of the extra years of service over an ordinary Piano.

BIG STAKE WITH HUMAN LIFE AS FINAL FACTOR

Syndicate Takes Risk of Man Dying, But if He Lives, Over a Million Will Be Made.

SANTA MONICA, Cal., May 7.—A stake of \$80,000, played against a fortune of nearly \$1,500,000, with a human life as the final determining factor, are features of an unusual transaction entered into yesterday between Henry C. Keating and a syndicate composed of four local men.

In about three years, if he lives, Keating will fall heir to \$1,500,000 of an estate to be settled at that time, when the younger heirs will become of age. The syndicate gave Keating \$80,000 for his interest in the estate, taking the risk of losing the \$80,000 if Keating died before the estate is settled, as the other heirs will come into the whole estate of \$5,000,000.

BELLEVILLE BOY KILLED.

Electrocuted by Taking Hold of Live Wire.

BELLEVILLE, May 7.—A sad accident occurred shortly before 9 o'clock this morning at the corner of Geddes and Ridley streets here, when a young lad named Robert Cecil Thompson, son of Charles Thompson, plumber, was electrocuted by taking hold of a live electric wire.

When found the boy had the wire in his hands, and some comparisons had to be used to knock the wire from his hands and feet, and the former were badly burned.

OSIATAWA, May 7.—W. Ryan, a commercial traveler for James Forsyth & Co., was staying at the Commercial Hotel Monday night. During the evening he complained of pains in the chest. Three doctors were called, but despite their efforts he died. Heart failure was given as the cause of death.

Made Money Tight.

WINNIPEG, May 7.—W. C. Matthews of Toronto, general manager of H. O. Bennett & Co., in the course of his annual tour through the west said, in reply to a question as to the effect of the grain blockade upon patients, that it had had little effect in tightening up money, except in British Columbia.

SWAN BOAT DROWNS GIRL CRAFT FAULTILY MADE

Seat Platform Slid Into Central Park Lake—Girl Jammed Under in Lake Bed.

NEW YORK, May 7.—Thrown into the 59th-street lake in Central Park yesterday afternoon because of faulty construction and careless handling of a swan boat, two men, five young women and two boys, who survived, contributed to the death of a 16-year-old girl. They did not know she was under the plank platform on which the benches of the swan boat rested, which, floating, offered them a chance of safety and rescue.

When the catamaran was tilted the platform slid from its supports and the girl was jammed under it. They clung upon this floating piece until it sank deep, passing into the bottom of the lake the head of the girl drowning below.

MURPHY, Mary, 16 years old, daughter of William Murphy, painter, No. 247 East 47th-street, was the only one who survived. In addition nine people were sent to the Presbyterian Hospital.

THAW GOT GOOD INCOME.

Had Received Second Largest of Any of the Heirs.

PITTSBURGH, May 7.—Four trustees' accounts under the will of William Thaw were filed for audit here to-day. The executor, Title & Trust Co., as trustee, prepared the accounts, and will present them to the judges of the orphans' court on Monday, June 3. Harry K. Thaw is shown to have been the recipient of the second largest income of any of the heirs, nearly \$60,000 having been paid to him from this source alone, exclusive of the income from various other bequests under his father's will. The account of Harry Thaw shows there is due him under the direct legacy allowed by the trustee during the three years covered by the account \$29,900.00. Of this sum expenditures have been made bringing the amount actually paid him down to something less than \$60,000.

EXHIBITION BOARD.

Tenders Accepted for Erection of Railway Building.

Little more than detail business was transacted at the monthly meeting of the exhibition board yesterday. The contract with Harill & Co. for the production of the Storming of Endicott with the customary fireworks, was approved. Tenders were also accepted for the new railway building to be erected, at a cost of \$20,000, to be met by the railway companies. Two hundred dollars was set aside for bicycle races under the auspices of the C.W.A.

I Want No Money Until I Cure You. That's a fair and square proposition—no cure no pay. No man can make it unless he knows what he can do. I'm no novice in the business of curing men. I've been at the business 26 years, and in that time have learned that Electricity will cure hundreds of cases where nothing else will. I know of what kind of cases I can cure, and will not take a case that I can't. When I found that I could feel sure of success in certain cases, I saw then that it was possible to make this proposition—no pay unless I cure you. There may be some people who would not pay me when I cured them. I can take chances on those, as there are very few men who, when they feel the exhilaration from my Belt, will not be glad to pay the small price it costs them. I cure some men for \$5. My \$5 Belt cured one man of lame back who had not been able to bend over to unlace his shoes for five years. You pay a doctor a little money every month, and a druggist some more for the stuff he sells you to dope your stomach. It's no fun to look back after you have taken this stuff for years, and are just as bad off as when you started—and your stomach the worse for the poison you have put into it. I'll give you his name, and you can ask him about it. Now, let's get together. If you would like to be a stronger, younger man than you are, come to me. Call, send this coupon, and I'll send you, sealed, free, a book that will tell you how I do these things, and of men who would not sell my Belt now for ten times what they paid for it. Heart, Throat, Liver and Skin

DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.

Heart disease will affect people differently, but in all cases it must be viewed with great alarm. Dr. Agnew's Cure for the Heart is the one remedy that can be safely depended upon in times of trouble. It will give relief in thirty minutes.

Mr. Thomas Petry, of Aylmer, Que., was troubled with severe heart complaint for five years, the pain at times being so severe that he could not attend to business. Every year he would be laid up for three weeks. He finally tried Dr. Agnew's Cure for the Heart, which gave him immediate relief, and his words are these: "I have now taken four bottles of the remedy and am entirely free from every symptom of heart disease."

A cold in the head need not be trifled with, for it is catarrh in an incipient condition, and catarrh is not to be trifled with. Dr. Agnew's Catarrhal Powder, as scores of clergymen, members of parliament, and prominent citizens in the Dominion have borne testimony, drives away a cold in the head like magic, and where this has assumed the shape of aggravated catarrh, producing deafness and throat trouble, it effects a permanent cure. It is not always safe to take pills for liver trouble. They not infrequently create other troubles that are serious. Dr. Agnew's Liver Pills, whilst thoroughly certain, are pleasant to take and cost only 10 cents. The faculty that Dr. Agnew has displayed in getting at the seat of trouble is manifest in his Ointment, as in the other three remedies. This contains the elements that give speedy and permanent relief in all skin diseases and is peculiarly effective in curing piles. 25 cents.

PROGRESS IN WARD ONE BIG ADVANCE IN VALUES

Assessment Increase is Well Over Two Million Mark, and Population Advances Over 3000.

CITY HALL TO-DAY. 11 a.m.—Board of control. An increase of \$2,303,433 in the assessment of the first ward, and a population increase of 3036, are shown in the figures compiled by the assessment commissioner and issued yesterday. The progress for the year is regarded as highly gratifying, being 11 per cent as against 14 per cent, but the assessment shows a marked increase. In the past ten years there has been a jump from \$5,933,588 in assessed value to \$12,113,634 or more than 100 per cent, while, during the same period, the population has grown from 17,876 to 20,553, or 46 per cent. The value of the buildings has leaped from \$296,764 to \$5,394,083, or 130 per cent.

Progress With Sea Wall.

The project of a sea wall from Bathurst-street to the Hubber, is well under way. Indeed, sufficient progress has been made to satisfy even Controller Ward, who is the most enthusiastic advocate of the undertaking. The contractor, who was acting mayor yesterday, announced that the city had thus far obtained 2 3/4 miles of the stretch required along the lake-front, leaving only half a mile to be acquired. The cost to date is about \$300,000. Harbors to serve as shelters for small craft will be placed along the line.

GREAT POSSIBILITIES IN TEMAGAMI RESERVE

Island Properties in Cross Lake Section Are Making Splendid Displays of Wealth

COBALT, May 8.—(From the man on the spot.) The great possibilities of the Temagami Reserve district will be thoroughly exploited during the present year. Gold, silver and probably nickel deposits will doubtless be discovered. Gold and silver are known to be there.

W. A. Cockburn was one of the first to exhibit faith in the Cross Lake section of the reserve not to be considered with the Cross Lake section of Coleman, and had a gang of men at work all last summer on his properties there, which consist of three islands in the Cross Lake arm of Lake Temagami. These properties have been transferred to the Temagami Silver Mining Company, a company controlled by men who are recognized as of New Ontario's best. The directors are residents of Kingston Falls and North Bay. George Gordon, the well-known lumberman of the former town, is the president, and W. A. Cockburn vice-president; Thomas Foster is the secretary-treasurer, and the districts are J. B. Watson of the Imperial Paper Co.; George P. Cockburn, merchant; and James F. Lindsay and James H. Dixon of North Bay.

A more than modest capitalization is one of the many recommendations of this company—\$150,000, and there are 30 per cent shares being offered. The shares have a par value of one dollar, and are being sold by the firm of Ferguson & Dixon, the well-known North Bay brokers, at par.

There will be no salaries paid to any officials until dividends are in sight. The properties consist of 120 acres and the islands are known as A, B and C. The principal development work to date has been done on island A and here several veins have been uncovered. There are seven acres on the island. One of these veins is a strong silver galena. At the surface the vein is 2 feet deep and at the bottom of shaft had widened to 3 feet. A shaft has been sunk 60 feet and 18 feet of drifting done at that depth on the vein from 100 to 200 dollars per ton of silver and 350 lbs. of lead are the values of ore from the shaft. Forty feet distant from the shaft, a rich copper vein has been discovered. A rich copper vein and another galena vein have also been discovered and this entire island seems one big ore body. The copper vein has surface width of 5 feet and was encountered in the shaft.

On the southern end of island B three veins have been exposed, but the development work has been done on A, where the formations are Keewatin, greenstone and conglomerate. A small plant has been installed and one of the shafts is presently being worked. Superintendent R. E. Patterson predicts a shipment of two cars of ore from island A within six weeks. He has had wide experience and was superintendent for the Clergue Copper Co., Lake Superior, before coming to the new Temagami camp.

A good shanty, sleeping and eating houses, blacksmith shop and small power house, have been erected. On island A has been erected a B and C each three acres, but the company has the bedrock of 120 acres of the lake. Their property lies about 17 miles south or south-west of Temagami, and a good water route from Temagami to about two miles from the camp is available during the open season. When the lake is frozen, access to the camp is easy and during the past winter this summer's supplies were all taken in. Ample provisions were arranged by the directors from North Bay to the camp. The date is not decided on, but it will be in about two weeks and a general invitation is extended to the public to take it in.

Shipments Disappointing. The shipments for April from Cobalt camp, at first reading, may appear disappointing, but when one realizes that there are still three feet of snow in the woods and that the roads were in many sections of the camp almost impassable during last month, there need be no surprise. An immense amount of machinery has been brought to camp and has been being used either waiting for machinery or installing new plants. There were only six shipping properties during April and only 122 tons of ore sent out of the camp. The Nip did not start out any ore, neither did the Drummond. As soon as the ice is out of Cobalt Lake, the shipping will start. At least 13 cars brought over to their siding and shipped. The Drummond will continue to start at once until the Kerr and Nip are up. The shipping for April shipments are as follows: O'Brien 228.90 tons; Coniagas 108.03 tons; Freshwater 108.03 tons; 40,000 tons; Green-Meehan 33.60 tons and Buffalo 20 tons; 127.73 tons were sent to the Copper Cliff smelter; 25.55 to Detroit and the balance went to the American Smelting & Refining Co. at Perth Amboy.

Nip Strikes Big Vein. T. R. Drummond, the new superintendent, is now in charge of the Nip. Mr. Linnex is going to New York and will return to Cobalt in a few days, when an announcement will be made of his future movements. The present indications are that he will not be allowed to leave the camp entirely. Two hundred and fifty men are at work at the Nip, and in the 12 sleeping camps, now in course of erection, are completed over six hundred men will be employed. In at least one Wall-street street, it is now in course of erection to belittle the development work and plans for this year at this mine. The work will be most systematic and thorough. The shafts are being sunk and one of the most important development features is that in this property, when in a few days ago at this property, when in the cross-cut which is being run at the level from one of the new shafts, they struck vein 28 at its depth. This vein was found to be nine inches wide at that depth and very rich. This depth is the richest of the continuation of that depth of the vein. It is very important, when it is remembered that nearly a quarter of a million dollars has been received from vein 26, out of the big open-cut 40 feet long and 80 feet deep. This vein lies up in the north angle of that part of "Nip," which lies to

LONDON ELECTION CASE TO BE TRIED IN TORONTO

Judge Britton Refuses Motion for Change of Venue to London.

The London election charges will be tried in Toronto. That is the decision which Mr. Justice Britton handed out yesterday. E. F. B. Johnston, K.C., on behalf of John O'Gorman and others moved to have the venue changed to London. His Lordship admitted the reasonableness of the defence's application to have the venue changed to London on the ground of economy, but decided that as the alleged offences were said to have taken place in Toronto and as there was no suggestion that a fair trial could be had in London here, it was impossible to change the venue on the grounds laid down in the application.

Mr. Justice Britton, in handing down his judgment, said: "If the accused have not committed these offences in Toronto they should not be tried here unless in pursuance of an order specially made so directing." Upon the assumption that the accused will not be convicted unless the crown establishes that they did in fact commit one or more of these offences at Toronto, as charged, what is there before me to show that it is expedient to the ends of justice that the trial should not take place in Toronto?

It is but fairly suggested, I suggested at all, that there is any prejudice, or likely to be any, in Toronto against the accused, and so far as one can see, no reason why the trial should be held in London, and it might be said that there is a probability of more partiality and prejudice in London than in Toronto. The accused have made a strong case for a change of venue, if balance of convenience is to be considered. No doubt they will be put to more greater expense by having to stand trial at Toronto, if it happens that so many witnesses from London are required at the trial as were called at the preliminary investigation.

"This materially touches the question of a fair trial, so far as the accused may be unable to bring to Toronto witnesses that they could get at London if tried there. It cannot be expedient to the ends of justice that the accused or any of them should be convicted if there is evidence material, relevant and competent which can be obtained to establish their innocence or to meet the case the crown may make, and if it shall so happen that the accused really are innocent, or that the crown to have necessary and material witnesses in their behalf brought to Toronto, such assistance ought to be given, and it should be given. There is such ample power the accused will, whatever may arise, so far as I can see, have a fair trial. If matters really do occur in court are at all likely to influence jurors, either prejudicially to the accused or otherwise, there is no more chance of that in Toronto than in London."

"It was suggested by counsel for the defence that some of the accused in London, near to London, say, St. Thomas or Woodstock, would not be objected to. It is clear to me that such a change would be no benefit to the crown or accused and would be attended with much inconvenience, to say nothing of imposing the burden of such a trial upon the country that is in no way implicated in or connected with the alleged transactions as to which a trial is to be had."

THE TEMAGAMI RESERVE. The power-house is on the shore of Peterson Lake and two 150 hp. boilers, a 20-hp. Rankine-Jackson compressor and the hydraulic pump and engine are installed there. The buildings for the new sampling plant is completed and the Alpha-Chalmers' rolls, crushers, etc. are on the ground and are being set up. This is the first plant of that nature to be installed in the camp. The operation expenses and all disbursements for the first year amounting to only 7 per cent of the output, and, despite the heavy construction and buildings outlays, the expenses for 1906 were only 14 per cent of the mine's output. Mr. W. H. Lindsay arrived in Cobalt on March 15, 1905, to take charge of this property. It was then a wilderness. To-day on the same spot there is a thriving little village.

The Temagami could not get the smelter to accept its rich ore, so their shipment has been still further delayed. The probability is that they will delay it now until the roads are good. Frank Burr Moore.

Work on "Little Silver" has been discontinued but a shaft will be put to work on it again this summer. The work to date on this consists of a hole open-cut and 149,000.00 worth of ore has been taken out. A shaft will now be sunk on it. A shaft is being sunk on Vein 19. At a depth of 50 feet the vein dipped. At the 100-foot level the vein was found again, but the values in silver are said to be low. Drifting will now be done. For the first three months of the present year ore has been produced to the value of \$240,000.00 and half a million dollars worth of ore, as a result of the above development work, is said to be in sight.

WANT RESTRICTION REMOVED. OTTAWA, May 7.—(Special.)—It was expected that the request of a deputation from Kewatin, which was here yesterday, would be dealt with at the cabinet meeting to-day, but the matter of the request was not considered. The deputation wanted the district of Keewatin exempted from the effect of the proclamation of the government prohibiting the sale of liquor within 20 miles of the construction of the Transcontinental Railway in the new district.

FOY TO GO TO ENGLAND

TO EDUCATIONAL CONFERENCE

Will Represent Ontario at Imperial Conference to Secure Uniformity.

While there has been no definite announcement it is understood that Hon. J. J. Foy, attorney-general for Ontario, will be sent to represent this province at the imperial conference of education, which will take place in London this summer.

Representatives will be present from all the dependencies of the Empire, and among the matters to be dealt with are a number which are of special interest to the colonies.

It is proposed to endeavor to secure a uniform standard of qualifications for teachers throughout the Empire, and an effort may be made to have text books as nearly alike as possible.

Special attention will be given to institutions for educating the deaf, dumb and blind, and university matters will also have a prominent bearing at the conference.

Mr. Foy is said to will go to the conference armed with a complete outline of the educational plans of the Ontario government, and if he picks up any proposals at the conference which are deemed worthy of adoption the government may enhance their present scheme of improvement.

TORONTO JUNCTION.

TORONTO JUNCTION, May 7.—A fire was burning to-day in the southwestern part of the town, between Elizabeth and Jane streets, on the north side of Block 1. The fire broke out in the bushes and spread to a number of temporary frame houses going up around the outer districts of the town, the owners of which are liable to be losers.

The Women's Auxiliary of St. John's Church held their regular weekly meeting in the basement of the church this afternoon.

An alarm was sent in from box No. 25, corner of Annette street and Fairview avenue. The department found a grass and bush fire and 100 feet of sidewalk was destroyed.

A horse owned by R. Patterson & Co. shied at a motor-car on Dundas street, near the Keele Institute, and the driver, Harry Stephenson, was thrown to the ground and sustained several bad cuts on the right arm and thigh. Several stitches were necessary by attaching a brass memorial plate.

Harold Weeks, aged 8, strayed away from his home at 44 Kitchener street, this evening about 5 o'clock. He turned up at Councilor Ryding's about 8.30 o'clock and was taken home by Sgt. Peters. He wandered over a mile from home.

Wallace Lodge O.Y.E.B. held their regular monthly meeting in St. James' Hall to-night.

At the police court this morning Dr. Clendennan charged a man named Patchett, who lives in Toronto, with taking lod of vacant lots. Patchett was fined \$2 by Magistrate Ellis. The practice of taking sod off lots without the consent of the owners is very common in the Junction and outskirts.

The Daughters of England Lodge, Rose of Kent, gave a very successful concert to-night in St. James' Hall.

East Toronto.
T. EAST TORONTO, May 7.—There was a representative attendance at the meeting called in the Y.M.C.A. to-night for the organization of a baseball club under the auspices of the Y.M.C.A. and Amateur Athletic League. E. Zelman was unanimously elected president, and E. Hodgson, secretary. A schedule of games was arranged for the season, and at another meeting, to be held on Monday evening, the matter of the schedule will be further considered, and together with the constitution, will be adopted. It is proposed to hold two games in East Toronto every Saturday, and Wednesday at 6.30, and at a meeting for the election of a new manager. There will be a game on Saturday afternoon with a team not yet selected, that with the St. Simon's Club having been cancelled.

That troubles never come alone is once more demonstrated in the case of the residents of wards one and two, who are engaged in the struggle for the preservation of the district from the spread of the steam railway. The residents are now threatened with losing the electric railway. The statement attributed to Manager Fleming, that the cars will "cut" on Howard avenue will not be allowed to pass unchallenged. The East Toronto Council have all been taken by the railway company are bound to provide adequate service for the people living east of Howard avenue, and it is safe to assume that they will not be allowed to "cut" on Howard avenue as this thorefore is not alone wholly in the town, but a strip of land one foot in width is reserved along the whole length of the western side of Howard, precluding any possibility of coming out on that street. No concerted action has as yet been taken by the residents living east of Leuty Park, but the residents are in good fighting trim, owing to the preliminary skirmishes with the other municipalities, and another contestant will only ways, and another contestant will only

serve to give added zest to the proceedings. The roads running south from Queen street are somewhat slowly, and some of them, more especially those on which the drains were recently laid, are in an almost impassable condition.

North Toronto.
NORTH TORONTO, May 7.—The board of works committees recommended to the council to-night that the large tree in the centre of Sherwood avenue be removed.

A petition, circulated by F. Boulden, was presented, praying the council to spare the tree, and the petition prevailed.

Petitions were received from property owners on the south side of Sherwood avenue, for a four-foot concrete sidewalk, and one from property owners on the south side of Blair Hill avenue, for a four-foot tar and gravel walk. Both petitions were granted and referred to the engineer for a report.

Mr. Fielding of Sherwood avenue wrote to the council that he would hold the town responsible for any injury done to members of his family on account of the dilapidated condition of the sidewalks.

Councillor J. M. Anderson was in fighting mood and wished to know as to who gave instructions to the street commissioner to remove the broken stones from north of Glengrove Park to Davisville. He ventured the assertion that the northern part of the road was not used fairly, as the grading and scraping of the street had been stopped north, the sidewalk torn up and stones removed. Councillor Murphy, chairman of the board of works, stated that he ordered the stones to be used on the hill of the south end of the town, which came impassable and eventually in the town used that part of Yonge street.

Councillor Lawrence enquired if it would not be appropriate for the council to do small manufacturers to locate in town. He knew of several concerns wishing to locate and he thought that these people should only be located on the land occupied by them and not for the factory buildings. The proposition will be considered in committee meeting.

Councillor Brown wondered why the L.O.L. have not sent a report as to whether the town was successful in the tender for the Orange Hall, and asked the clerk to communicate with the proper authorities.

H. L. Johnson received the contract for grading, building concrete steps and other matter at the water-tower, for the sum of \$100.

The Polson Iron Works, Limited, have removed their machinery from Kensington avenue, after the erection of the new steel water-tower. Their finishing work will be given to the contractor by attaching a brass memorial plate.

Ex-Councillor James Pears is still adding to his brick making plant, and he had a new brick press installed, weighing eight tons.

The Toronto Hunt Club had a run in this district this afternoon.

Deer Park.
DEER PARK, May 7.—Next Thursday being Ascension Day, the services will be held in Christ Church at 10 o'clock in the morning. In the evening the Anglican Young People's association will hold a meeting, when addresses will be given by Miss Tilley, president of the Women's Auxiliary, and Miss Cartwright.

Rev. Canon Pollard of Ottawa is visiting at the rectory. He preached in Christ Church both morning and evening on Sunday.

WYCHWOOD, Wychwood.
WYCHWOOD, May 7.—The Wychwood Brass Band has been selected to play at the closing hours of the meeting last night. It is a very comprehensive band, and involves altogether, it is said, an expenditure of about \$12,000.

The condition of the lake shore road from Mimico to the Humber has been such this spring as to call for speedy action on the part of, not alone the municipality, but it is a question if the county council ought not to take a hand in the work of improvement.

The Lake Shore road may be said to be even more than a county road, and it is not unlikely that the provincial government will be asked to assist by a substantial grant. The presence of the Industrial School for boys, and the Methodist Church on Friday last, the sender the construction of the road for some dramatic change a timely one. At the next meeting of the council Mr. Warner will outline more fully his plan to which he has given a great deal of thought and attention.

Mimico.
MIMICO, May 7.—Deputy Reeve Warner's plan for the improvement of the township roads, submitted in the closing hours of the meeting last night, is of a very comprehensive nature, and involves altogether, it is said, an expenditure of about \$12,000.

WESTON, May 7. Last night's meeting of the town council was comparatively unimportant one, a number of routine matters being disposed of, among others the appointment of a pound keeper. A communication was received from Dr. R. S. Tyrrell, in answer to the request of the council, for a portrait of his father, the late William Tyrrell, who for many years occupied the position of reeve. Dr. Tyrrell stated that he did not desire to accede to the request of the council, and the portrait will be at once placed in position. The defeat of the council was barely mentioned upon, but on motion it was decided that in future all sidewalks shall be laid on the local frontage tax plan.

part of the expense. They were promised a grant, but nothing further. The ratemakers of U. S. S. No. 3, Etobicoke, asked for the appointment of an arbitrator to settle in connection with Etobicoke, to dissolve the union section. The petition was not legally drawn out and was referred back to the ratemakers. The council advanced them \$500 on their levy for this year.

Twenty-three ratemakers asked for a plank sidewalk on the east side of Howard avenue, from theavenport road to the C. P. R. crossing.

Mr. Miller asked for a sidewalk on Somerset street, Dovercourt. The sidewalks were referred to the respective committees.

A large deputation from west of Toronto, that of the improvement of the streets, asked for several improvements as to sidewalks, road improvements and lights.

Mr. Pears and John Bayless applied for a re-arrangement of school boundaries of S. S. No. 28, Mount Dennis, as that section receives children from other sections of the town, and the children are being educated. They were informed that the council will meet in two weeks for re-arranging school boundaries.

W. S. Dennis submitted a declaration as to ownership of lots on Reid avenue, and the proposed sidewalks can be laid on the lot. He suggested tar and gravel walks on the lower end of the street, overlooking the water-tower.

Mayor Coatsworth of Toronto invited a delegation from the council to meet the city committee next Thursday afternoon at the office of the T. E. A. E. Hudson of Wychwood wrote saying that the members of the Church of Christ, on the corner of Alice-avenue and the street, proposed to build a sidewalk and bridge two ditches, for which they applied for a rebate of \$15.

F. Johnson and J. E. Booth are preparing to build a new house on the east side of Moore Park, on each side of Rose Hill avenue, and asked the council for an extension of the main Grace-terrace easterly about 200 feet to Constance-avenue.

The solicitor was instructed to consent to the closing up of Peake street, the lane extending from Peake street to Leighbourne street, at the north of lots 24 to 100, and the lanes lying to the west and north of block J, according to plan 1249.

OSTRACIZATION VERSUS WAR.
Editor World: In a few days on the 16th and 17th of the present month a peace conference will be convened in the City of New York, to discuss the principles of arbitration as a substitute for war in the settlement of all international disputes, and this peace conference is only a prelude to the international conference, which will assemble at The Hague in June.

In the interests of peace and the welfare of humanity of all nations and races, you will kindly allow me thru The World to point out to the general public the only true method of securing a universal peace thru the world, and the sphere is neither at The Hague conference, nor at the peace hall. For it must be remembered that there are two systems of government, and the more recognized by all civilized nations, and those systems are known by the name of imperialism and republicanism, and the only difference is in name.

The imperial method is based on the sacredness of "vested rights," and republicanism on the "rights of party," and both claim the same as "one man power." Imperialism holds communication international by diplomatic means, and the general public excluded, and ratification is not allowed in form after the wrong is committed. Republicanism on the other hand, is a public and open contest by means of a shirt sleeve diplomacy, and the people examine the deal in progress and party exigencies compel the public to intervene, and the harm begins. In both cases the people are the unwilling spectators and have to provide the funds to execute the will of the majority.

It therefore might well be asked by the general public why this servile system of secrecy with the general public excluded for centuries, has been tolerated for centuries? The only possible answer seems to be that the moral and political law of nations is not on the high and noble ground of the ethical teachings of nations out of reach of the ordinary people, and supervision placed as a stepping stone to the high and noble ground of the political law of nations based on the sacredness of vested rights and the rights of party, and the sentimentality of the general public and laws that make them servile sympathizers.

It never seems to have entered into the mind of the general public that mankind that government is a political combination, a craft and that all connected with the trade must be satisfied to the general public, and that the political law of nations based on the sacredness of vested rights and the rights of party, and the sentimentality of the general public and laws that make them servile sympathizers.

Well Nourished System is the Best Safeguard Against Disease.
The body, nerve-system and brain are many a heavy eater is partly starved all the time, because he does not eat food suitable to his needs. He lacks vitality and strength, but does not know the reason. Such unfortunate often have stomach trouble, heartburn and other ailments. Men and women often have lassitude, headaches and sleeplessness. They are easy victims of epidemic and other diseases.

Whole wheat in the form of Maltita-Vita supplies all the elements required in every part of the system for perfect nutrition. It does more good than any thing else for tired body, brain and nerves.

Maltita-Vita is made of choicest whole wheat bran, thoroughly cleaned, steamed, mixed with malt-extract, flaked, and baked in absolute purity. It contains the starch of wheat is converted by the distaste of malt-extract into maltose, a nutritive element of high value, which does not impede the digestion, but gives immediate strength to brain and body.
