SMITH-DORRIEN GIVES UP POST

SMUTS LEADER

British General Resigns Command in East Africa Through Ill-Health.

CAMPAIGN SUCCESSFUL

Smuts Has Been Given Rank of Temporary Lieutenant-General.

LONDON, Feb. 9, 8.25 p.m.—Gen. Sir Horace Lockwood Smith-Dorrien has relinquished the command of the British forces operating in East Africa, owing to ill-health, it was officially announced tonight.

Gen. Jan Christian Smuts, the minister of the interior, mines and defence of the Union of South Africa, has accepted the vacancy, with the rank of temporary lieutenant-general, the announcement added.

Last November, when the Union contingent for East Africa were being formed, the government offered the command to Gen. Smuts. For various reasons he was then unable to accept it. Now it has again been offered to Gen. Smuts, who, in the circumstances, accepted.

On Dec. 14 last Gen. Smith-Dorrien, who had command of the British second army in Flanders, was appointed to the supreme command of the forces operating in East Africa. That he was active command there was indicated as recently as Feb. 2 when an official statement issued in London, embodied a report from him on satisfactory progress that was being made with the campaign. While the British expedition against German East Africa was organized in November, Gen. Smuts was placed in command and early in December he sailed for the theatre of operations.

The sending of Smith-Dorrien to Africa to take the supreme command of all the forces for the East African operation followed shortly afterward.

WAR SUMMARY Today's Events Reviewed

THE latest addition to the crop of rumors of a coming offensive by the Germans in France is the report from Dutch, and, therefore, from German, sources, that the kaiser has sent 600,000 more men to northern France, to be added to the two million men that have been retained in that theatre of the war.

But the Germans have also been circulating rumors of a pending sortie of their high seas fleet, of an attack on Saloniki about a week hence, of a renewed offensive against Riga, of an invasion of Egypt, of a dash for India, and of other adventures, and the one certain thing is that they cannot conduct offensives on every front at once.

The allies have probably one million British troops and two and one-half million French troops in France and Flanders, and to conduct any sort of major operation against them, the Germans would have to amass an army of superior numbers. At the fight for Ypres and the Calais ports, a concentration of less than one British man per yard, or 1500 a mile, defeated a German concentration of 10 to 18 men per yard in a three weeks' battle, and the Germans were so badly beaten that they have not seriously attempted a big offensive since that time, unless the gas attack on Ypres is counted. So to open a general engagement to defeat the French and British armies, the Germans would require probably four or five million men, but their total field armies number 3,600,000, so they would be forced to call the Austrians, who are putting old men of 60 under arms, to their assistance. But the Russians cannot be ignored.

As this war has falsified all predictions, it is only reasonable to assume a sceptical attitude towards every report till it has been verified.

GERMANS IN CIVIL SERVICE SHOULD GO, DECLARED CLORAN

Senator Said Employe of Postoffice Department Exulted Over Parliament Buildings Fire—Exclusion of Damrosch Orchestra Demanded.

By a Staff Reporter. OTTAWA, Feb. 9.—Hon. J. H. Cloran of Montreal called the attention of the senate today to the concert to be given in Ottawa next week by the New York Symphony Orchestra, under the leadership of Walter Damrosch. He said he had learned that this musical organization was composed largely of Germans and German-Americans. There had been many protests against this organization being permitted to enter Canada, and he asked if the government were taking any steps to have the Canadian public from the exasperation and possible hazard which would follow upon the entrance of this organization into Canada.

Germans in Civil Service. Senator Cloran said the Canadians had no hatred of German-Americans, but did not want to be bothered with them. He also desired, he said, to call attention to the fact that there were persons of German birth and German sympathies in the employ of the government. He could inform the senate that the day after the fire on Parliament Hill a person of German blood, in the postoffice department, expressed satisfaction over the fact that the parliament buildings had been destroyed. He declared against the employment of persons of German birth, and condemned the government for its inaction in not having got rid of such employes when the war broke out. He said that day before the senate had assembled in their new quarters in the Victoria Memorial Museum, he said he had visited the chamber, and he found many men at work and he was informed that four of the workmen were Germans. He had spoken to the contractor about this, and the reply he was that it made no difference because they were all German-Americans.

DISMISS ALL GERMANS NATURALIZED OR NOT

This was Decision Arrived at by Mass Meeting of Citizens Last Night.

HIDE UNDER CITIZENSHIP

Prominent Toronto Men Form League to Fight Everything Teutonic.

Formation of an anti-German League was effected at the open meeting held at Foresters' Hall last night, when opinions were forcibly expressed about people of German birth or descent holding positions in Canada. There was a sparse attendance, but everyone present gave a strong expression of opinion. Dismiss all Germans whether naturalized or not, was the substance of one of the many resolutions placed before the meeting, and it met with a hearty response. The meeting was called by Mayor Chamberlain, and he was represented by Controller Cameron, who presided.

Controller Cameron's remarks made a strong protest against Germans who had become naturalized Canadians and being allowed to hold positions in Canada, either before or after the war. "I came here because I love the boys," he said, "and I know you love the boys." The Y.M.C.A. men could do what the chaplains could not do, and their work in the camps and in the front lines was of a different order. "I am not in the Y.M.C.A. for a free use of the word 'snack' or 'shirker' as applied to the Canadian portion." The result of this was the creation of misunderstanding, which was harmful.

An appeal to the council to adopt a much larger plan for keeping the soldiers at the front was made by Mr. W. Bishop, the general secretary.

NEWS FROM HAMILTON

New G. T. R. Station Replaces Building at Corner of King and Ferguson Avenue.

HAMILTON, Thursday, Feb. 10.—

Plans for the bridge over the Valley Inn, to be used in connection with the extension of the Toronto-Hamilton highway to the city will probably be considered by the board of control. It is estimated that the bridge will cost about \$250,000. As a result of the conference between the board of control and the hospital board yesterday it was decided to erect a nurses' home in connection with the Mountain hospital at a cost of \$30,000. The new building will be situated on North Ferguson avenue, to replace the old structure at the corner of King and Ferguson avenue.

WAR SUMMARY

Today's Events Reviewed

(Continued from Page 1.)

By coming to pass. The Germans may embark on some partial offensive to gain a mile or so of ground for the purpose of encouraging those at home, and that is probably all. For the past 100 days, British and French artillery has been bombarding German positions which control the roads leading north, along which an army would advance. To be in shape to make a successful advance southward, the Germans would have to subject the allied defensive positions covering the roads from Belgium to shell fire of probably equal prolonged intensity.

One hundred thousand Serbian troops have been taken out of Albania by the allied fleet without a mishap, altho the Austrian navy is encamped in Cattaro, and has been attempting to molest the allied transports and escorts by submarines and torpedo boats. The Austrian high seas fleet does not move, for it fears a concentration of allied warships in superior force at some base near at hand.

The Germans claim that they have captured 800 yards of French first-line trenches near Vimy, and the French say that they have already partially ousted them. This operation is a mere incident in the ebb and flow of trench warfare. The French later repulsed a German infantry attack.

German seaplanes dropped three bombs on Ramsgate and four bombs on Broadstairs, two towns on the Kentish coast, doing no damage except to glass. The allies, it is said, are making preparations for a vigorous offensive in the Balkans. Another Zeppelin airship is reported to have been destroyed by French aviators. Welsh miners have gone on record against any extension of conscription.

The story of the capture of the German cruiser Roon by H. M. Cruiser Drake, some hundreds of miles off Bermuda, has not been supported by additional facts sufficient to prove its verity. The story was quite plausible as published in New York, about the only weak point being the report that the warship had been captured, for in this war the result of naval engagements has previously been "two to the victor," and it is not surprising after an engagement like cracked ice, that conquered ships sink on either hand, the report may be true enough, for the British admiralty has been quite reticent of British achievements at sea. Not an official word of the wholesale destruction of German submarines in the North Sea has been uttered by the admiralty. The great German battleship cruiser Von Tann, one of the latest and best creations of German shipyards, has been sunk by the navy, and its destruction has never been revealed by the press bureau.

Austrian forces have penetrated into Albania as far as Prezija, about 12 miles northeast of Durazzo, and they have occupied the heights near that town. Forces of Serbians, Italians and Albanians, under Essad Pasha, attacked the railway station at Likono, seven miles northwest of Durazzo, a short combat developed near Valia, five miles from Ternia. Austrian air men have been bombarding troop camps near Durazzo and troop ships in the harbor.

Some critics say that they do not see why on earth the British navy did not set about the reduction of Austrian sea power in the Adriatic a year ago by capturing the Austrian naval bases at Pola, Plume and Cattaro. If that had been done the way would have been opened for many useful operations on the exposed coasts of Dalmatia and Albania.

YORK COUNTY AND SUBURBS

EXTENSIVE FACTORY FOR MOUNT DENNIS

Canadian Kodak Company's Plant Will Be Finished Some Time This Year.

IS FOUR STOREYS HIGH

Immense Storage Tanks for Water Supply—Buildings Are Absolutely Fireproof.

One of the big city enterprises which will within the next twelve months be located outside the city limits in York Township is the Canadian Kodak Company, the firm having within the last year or more secured an extensive site in York Township at the corner of Keele street and Eglinton avenue. On this site the company has already erected an immense plant covering about two and a half acres of ground and giving, according to John G. Palmer, the general manager, eleven and one-half acres of floor space. The structure when finished will be constructed wholly of steel and reinforced concrete and will be absolutely fireproof in every respect.

The new location of the company will give them unexcelled shipping facilities, and the site is situated on the Grand Trunk Railway running through the company's hands and adjacent to the buildings. While good progress has been made on the construction of the new plant, considerable work will elapse before the firm will remove from their present West King street site to Mount Dennis, within which limits the new factory is situated. The great work in this as in many other cases, is to secure an abundant supply of water, which is necessary to construct a sewer to carry off the surplus water from the site. The water tanks have been built and everything points to permanency and stability of construction.

MALTON VILLAGE IS STRONG FOR RADIALS

Sir Adam Beck Was Well Received Last Night When He Outlined Scheme.

One of the most enthusiastic and well-attended meetings of the present hydro-electric campaign in the Townships of Etobicoke and Toronto was held in Malton last night, Sir Adam Beck and F. A. Gaby, the chief engineer of the hydro-system, speaking at some length in support of the Toronto-London radial railway. Sir Adam was in excellent form and his statements relative to the advantages which would result from the building of the line were loudly cheered. Malton Village is at the northern part of the township and will not be immediately served by the project, but the residents are taking a broad-minded view of the matter and will give a large vote in its favor.

GOOD ROADS SCHEME FOR COUNTY OF YORK

Consider Plans to Build Two Hundred and Ten Miles of Highway.

PRESENTED BY ENGINEER

Construct Four Thoroughfares From Southern Limits to Lake Simcoe.

The members of York County Council yesterday outlined one of the most ambitious and important schemes ever brought before that body when they practically decided upon the building of 210 miles of modern constructed highways at a cost of \$300,000.

The meeting, a special one, was called to discuss the extension of the present system as it exists in South York, the idea being to construct four leading highways running from the southern to the northern limits of the county at Lake Simcoe. While the plan is not fully worked out, the scheme as drafted by E. A. James, the engineer, and the members of the committee, provides for the extension of the Kenworthy road from its present completed portion, north of Unionville, thru Markham and the adjoining townships to its northern limit. The whole of the extension of the great thru highways and Vaughan road another and Weston road the other two to be built. The grant of \$250,000 to the patriots and Red Cross fund will cut something off the amount to be expended this year, but a good start will be made and the entire system will be built within four years. When the full cost of the scheme is known, the scheme outlined will be fully discussed by the county council, in accordance with the request of the provincial department of works, which has defined the suburban area, making it Lake Simcoe on the northern limit and taking in practically the whole of the county. Over 50 per cent of the cost of construction, however, is to be borne by the ratepayers.

YORK HIGHWAYS BOARD NOT YET APPOINTED

Failure to Agree on Composition Has Delayed County Council Session.

Inability to agree on the personnel of the county commission, which will have in charge the construction of the system of roads to be built in North York, is said to be responsible for the delay. The inclusion of North York in the system will mean that at least one new member, a northern one, will be chosen, and his selection will have been practically agreed upon. The system hitherto has been for the county council to name two members, the City of Toronto two more, while the fifth man will be named by the four already chosen. The board last week suggested to name two members, H. Pugsley for the county, Controller Foster and Ald. Dave Spence for the city, together with George S. Henry, M. L. A.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist. As a specialist who has spent many years in the study of the stomach, I have been forced to the conclusion that most people who complain of indigestion, flatulence, acid stomachs, and food fermentation, are actually suffering from a condition which is usually healthy and normal. The real trouble, that which is the cause of the indigestion, is acid in the stomach, usually due to over-acidification by food fermentation.

GOVERNMENT TO GIVE SOLDIERS PREFERENCE

Premier Announces Policy in Regard to Civil Service Appointments.

EXAMPLE TO COUNTRY

Provincial Governments to Do Likewise—Perley's Tenure of Office Indefinite.

By a Staff Reporter.

OTTAWA, Feb. 9.—In appointments to the civil service of Canada preference is to be given hereafter to veterans of the present war. This was the announcement made in the house of commons today by Sir Robert Borden, who stated that a copy of order-in-council had been already laid on the table of the house. The prime minister further intimated that all the provinces would give a similar preference in making appointments and it was hoped that the same course would be followed by all municipalities.

The announcement was made during the course of a debate upon a resolution offered by W. S. Middlebro, Conservative member for North Grey. Middlebro's resolution declared that "in the opinion of this house, in all future appointments to the civil service of Canada preference should be given to those properly qualified candidates who have served with the Canadian expeditionary forces in the present war."

Mr. Middlebro argued that the government should set the example to other employers in making appointments. He said, "prevalent in Great Britain, France and the United States, it is a matter of course it would be impossible for the government to find employment for all the returning veterans. Some of them would be totally disabled and have to depend upon their pen- sions; others would be able-bodied men who would return to their old jobs or rapidly find employment elsewhere. There are many men who, though disabled from pursuing their former callings, would still be able to fill many places in the civil service."

Hon. George P. Graham said that they were now living in a new Canada; a Canada more fruitful in resources than formerly. He supported the Middlebro resolution and called attention to the fact that in Germany the returning veterans were employed on state-owned railways in many capacities.

Hon. Frank Oliver thought a great deal might be done for returning veterans thru the technical school and vocational training. He thought many soldiers disabled by other jobs might be able to do technical work. There was a big technical school in Edmonton, he said, which the city was scarcely able to keep up at this time. He thought there were other schools thruout the country which could be secured by the Dominion Government.

Mr. Burnham (West Peterboro) and Mr. Aguire (Stormont) supported the resolution. Mr. Burnham, however, did not think much of the present plan for taking care of the veterans. There was a flavor of tutelage and guardianship about it. The soldier, he said, was a man who enlisted for hazardous work and should be paid a high salary; his life should be insured for the benefit of his family. If he were injured he should be compensated along the lines provided by the Workmen's Compensation Act.

Vocational Training.

Sir Robert Borden said that an order-in-council had already been made which practically carried out the terms of the resolution. He had had laid upon the table of the house, but was not now in the possession of the house. He was having been destroyed by the fire in the question of vocational training. In England he had visited the great institution founded by Mr. C. A. Pearson, the publisher, for the education of the blind. A great deal of information gathered concerning this institution he had communicated to the economic commission also to the war hospital commission. He was glad to say that all the provincial governments were co-operating with the Dominion government in the matter of returned soldiers. The preference to soldiers in appointments to the civil service would be established, not only by the government of the dominion, but also by the provincial governments, and he hoped also by all municipalities.

Want Advice on Pensions.

"Our veterans must stand around on street corners asking for charity," declared the prime minister, "the government has outlined a pension scheme and invites discussion. We were disappointed last session that members of the house did not have more to say upon the subject, and hope that this session they will help us with advice and suggestions."

The house then went into supply on civil government estimates. There was some discussion on various subjects. Sir Boulay (Rimouski) thought too many girls were employed in the civil service. A young lady getting \$1500 or \$1800 a year, he said, was disinclined to marry. A young man on the same salary would find a family. Mr. Boulay also suggested that there should be some discrimination in our treatment of soldiers. The men who guard at the parliament buildings at the night of the fire who perpetrated indiscriminate looting deserved little consideration.

Immigration Inspectors Lax.

Hon. George Graham thought when enemies and other undesirable citizens came too freely into Canada from the United States, a man leaving New York for Montreal or Toronto merely filled up and signed a blank form given him and then slept the rest of the journey undisturbed. His answers might be true or false, but the immigration inspector had to accept them.

Sir Thomas White on the other hand complained that returning citizens of Canada were subjected to unnecessary inconvenience by immigration officials on the trains.

Pressed for some statement about the high commissionship at London, Sir Robert Borden said that he could not reason for suspending Sir George Perley's name was acting high commissioner, and was rendering valuable service to the country without compensation.

Mr. Graham said it was a subject of comment that the place was being

PRODUCE MEN CLOSE SUCCESSFUL MEETING

Many Topics of Trade Interest Discussed at Two Sessions Held Yesterday.

KHAKI WEDDING HELD

Capt. Ponton, Returned Veteran, Married to Miss Olive B. Agnew.

Special to The Toronto World.

BELLEVILLE, Ont., Feb. 9.—The fourth annual convention of the Canadian Produce Association was brought to a close this afternoon after one of the most successful gatherings ever held in the history of the association. Two sessions were held today and a number of topics of interest were discussed in reference to the adoption of free egg cases, exportation of eggs and poultry, ocean transportation of eggs and poultry, refrigeration of eggs and poultry, national standard for butter for trading, national standard for poultry, live and dressed, and finished poultry for market.

Many members took part in the discussion of these various subjects. Mr. Ault, who is connected with the department of agriculture at Ottawa, gave an address relative to the conditions in the western provinces, which showed that everything possible was being done to improve the condition and supply of eggs, butter and other dairy products in that part of the Dominion.

Resolutions Passed.

Before the close of the convention several resolutions were introduced and passed, including one of sympathy to Hon. Mr. Burrell, minister of agriculture, owing to his recent injuries caused by the fire at the parliament buildings at Ottawa. Montreal was selected as the place of meeting next year.

The officers selected for the ensuing year were: President, A. H. Dalrymple; Montreal; vice-president, J. J. Ritchie, Charlottetown; P. H. L. Thacker, Toronto; secretary-treasurer, A. Vallancourt, Montreal.

Directors: A. B. Calwell, Halifax; T. Ritchie, Charlottetown; P. H. L. Thacker, Toronto; H. R. Gray, Montreal; C. H. Laberge, Ottawa; A. E. Bailey, Belleville; J. K. Richardson, St. Mary's; H. B. Ducloux, Edmonton.

Capt. Ponton Married.

Capt. Richard D. Ponton, youngest son of Col. Ponton of this city, a member of the first Canadian contingent, who was wounded at the front and returned home, was married in this city today to Miss Olive B. Agnew, daughter of Mr. and Mrs. John P. Agnew of this city. The groom since his return home has done much to inspire recruiting. Capt. Ponton and his bride left for Ottawa.

L. B. Cooper of this city, grand master of the L.O.O.F. Society of Ontario, was this evening in this city tendered a banquet by the members of the two city lodges and the Daughters of Rebekah. He was presented with a jewel to commemorate his 25th year as a member of the order. Grand Secretary Brooks of Toronto and other prominent members of the order were in attendance.

FINAL READING OF BYLAW IS HELD UP

Hydro Radial Proposals Vetoed by Mayor of St. Mary's.

ST. MARYS, Ont., Feb. 9.—The St. Mary's Council, at its last regular meeting, refused to pass the final reading of the agreement between the Town of St. Marys and the Hydro-Electric Commission of Ontario, known as the hydro radial bylaw, by the casting vote of the mayor, Wm. Weir, who claims that he was acting on the advice of his legal adviser.

The bylaw was submitted to the ratifiers and carried at the last January election. It is claimed the town has exceeded its borrowing powers and cannot legally pass the measure.

Blanchard Township, which defeated the bylaw last January, has decided to re-submit it to the vote of the electorate on March 13.

QUEEN'S OWN PARADE IN ORDER OF BRIGADE

Special March Thru City Last Night First of Its Kind in History of Canada.

LOOK OUT FOR RECORDS

Hundred and Ninth Will Engage in Great Recruiting Campaign Today.

"A brigade" of Queen's Own men marched out for a special parade of the city last night, it being the first occasion in the history of Canada that one regiment has been able to parade in "brigade order."

There were three battalions, over 1300 men, in line—two of the Q.O.R. and one of the Q.O.R. overseas. Lieut.-Col. R. C. McNamee acted as brigade commander, and Captain W. J. Rooney as brigade major. Major Mitchell commanded the overseas men. The march-out was by way of Queen, Parliament, Wilson, Yonge and Agnes streets, returning down University avenue.

Before the parade the men were formed up in brigade formation in the armories and paraded column of route, headed by the bugle band. The Q.O.R. and 16th Brigade overseas were between the overseas and home regiments.

One hundred and fifty-eight men came forward for enlistment yesterday, 110 being accepted. At the armories, 111 offered and 89 were accepted. At the 109th Regiment, 47 offered and 21 were accepted. Yesterday's recruits brought the strength of the overseas battalions now actively recruiting up to 1248 (Highlanders), 1161; 169th (Q.O.R.), 813; 169th (109th Regiment), 1003; 170th, 160; 180th, 229.

The 109th Regiment's Overseas Battalion will put the whole of the overseas unit and part of the home regiment members on a recruiting scheme today. The city will be divided into 40 districts, and all places of business are to be visited. As a thousand "recruiters" will be on the job, some record-breaking enlistment results are anticipated.

Typhoid Outbreak.

Word of an outbreak of typhoid at Farry Sound yesterday. Medical officers were immediately sent to inoculate the soldiers in training in the Farry Sound district.

Lt.-Col. Edward Baxter, commander of the 114th Battalion, with headquarters at Cayuga, is very ill, suffering from a similar fever. He has been taken to Toronto General Hospital.

Word was received last night at the 16th Overseas Battalion (109 Regiment) offices that General Sir Sam Hughes told Lt.-Col. J. G. Wright to go ahead with his campaign as before. Col. Wright also had a most satisfactory interview with Adjutant-General Hodgins.

Lt.-Col. John A. Cooper of the 198th Toronto Battalion is trying to get some "soldiers of experience" into his battalion and expects to bring over from the firing line the sons of two prominent Toronto citizens. These young men have been in the trenches for a year or so. The intention is to make them lieutenants in the 198th.

The recruiting campaign of the 201st Battalion, Lt.-Col. E. W. Hagar, commander which will begin as soon as accommodation for headquarters in the Technical School has been granted by special permission of the board of education, will be directed by Lieut. C. F. Schell, assisted in the east end by Lieut.

KEATS WAS THE HERO TORONTO IN A DRAW

Centre Player Scored Two Goals in Ten Seconds at Quebec.

QUEBEC, Feb. 9.—After getting a lead of three goals on the Toronto, Quebec could get no better than a draw tonight, Keats being responsible for the salvation of his team in the second period, when he scored two goals in ten seconds, and McNamara evening up in the third period, while there was no score in the overtime.

Quebec made the mistake of trying to hand out the tough stuff, but they got as good as they gave. On both sides there was a constant procession to the penalty bench, and it was a good thing that Russell Bowie and Brennan were handling the game.

The showing of the so-called bull dogs has not taken with the critics lately, and it was a small crowd that watched the game.

Keats and Cameron starred for Toronto and Ritchie and Crawford for Quebec. Both goalkeepers were at the top of their form.

FINANCIALLY WORRIED TRIED TO END HIS LIFE

Harry Applebaum Threw Himself in Front of Trolley, But Escaped Injury.

Harry Applebaum, 231 McCaul street, was picked up on College street by a police ambulance last night, following an attempt to end his life by throwing himself in front of a College car. The action of the motorman in applying the brakes alone saved Applebaum from being seriously or fatally hurt. He was taken to the General Hospital, examined, and pronounced of unsound mind. He was removed to Agnes street police station.

Financial worries are said to be the reason for his act.

GRAND JURY AT BOSTON TO PROBE TEUTON PLOT

Alleged Evidence of Conspiracy to Harass Canadian Cities to Be Sifted.

DICTOGRAPH EMPLOYED

Identity of Suspected Group Known and Movements Kept Under Observation.

BOSTON, Feb. 9.—Investigation by federal officials of an alleged conspiracy by German sympathizers here to harass Canadian cities in various ways, has proceeded so far that United States Attorney George W. Anderson is prepared to place the matter before the grand jury, it is understood tonight. The jury, which meets next Tuesday, will hear evidence of several lines of activity by groups of men said to be operating in the interests of the Teutonic allies, if information gained from attaches of federal offices is substantiated.

Dictagraph records, containing reports of a conference of the alleged conspirators, are in the possession of the prosecutor's staff, it is said. The identity of the individuals of the suspected group is known and they are under surveillance, according to federal employees. Their place of meeting, which has been watched by investigators for several days, has been abandoned.

The inquiry begun in this city is said unofficially to account for the presence in Washington of District Attorney Anderson and Edmund Billings, collector of the port. Members of their staffs are under assignments in connection with the case, which has taken at least one of them into Canada.

The coupling of this fact with the recent fire in the house of parliament at Ottawa, developed an intimation that the inspector's errand was to determine whether there was any evidence in Ottawa to support the local enquiry.

BRANTFORD, Ont., Feb. 9.—Brant Avenue Methodist Church has decided to grant Mrs. Lavell and family fifty dollars a month and free use of the parsonage while Rev. A. E. Lavell is at the front as chaplain of the 125th Battalion. No successor will be appointed until July, 1917.

UTILIZE OLD WALLS FOR NEW STRUCTURE?

Architects Pearson and Marchand to Report on Parliament Buildings.

By a Staff Reporter.

OTTAWA, Feb. 9.—In the house this evening Sir Robert Borden announced that the minister of public works had appointed Messrs. Pearson of Toronto and Marchand of Montreal, architects, to make an examination of the walls of the burned parliament building with a view to determine whether or not they can be utilized in its reconstruction.

The Canadian Serbian Relief Committee met in the Round Room at the university yesterday afternoon, when the chief business transacted was the adopting of the constitution. President Falconer occupied the chair at the request of the committee.

"WE KNOW HOW" CLUB

At a monthly meeting of the "We Know How" Club of the New Method Laundry, held in its clubrooms last night, a moving picture program was run off by J. Stillwell. Musical numbers were contributed, and Col.-Sergt. Hammond of the 124th Battalion recited. There were over 150 employees of this institution present at the meeting.

BASKETBALL.

The final game in the City Playground Junior Basketball League was played last night on Oster floor between McCormick and the Indians. McCormick, winners in the western series, and Elizabeth, winners in the eastern series, McCormick won 23-13 after one of the best and hardest junior games played during the series. In the first half Elizabeth boys were successful in finding the basket 10 times, while Oster only caged the ball five times, and the half ended 21-12 in favor of Elizabeth. The second half Oster scored 7 baskets and kept the Elizabeth boys from making a field shot. Teams: McCormick—G. Langdon, I. Clarke, T. London, E. McMahon, B. Brooks, F. Platt. Elizabeth—E. Sager, J. Pearl, I. Greenbaum, R. McCallum, S. Sager.

NEVER HEARD OF PLOT.

WASHINGTON, Jan. 8.—George W. Anderson, United States district attorney at Boston, said here tonight that he never had heard of a German plot to use Boston as a base from which to direct hostile activities in Canada. He declared he had come to Washington solely for the purpose of attending the senate committee hearing on the nomination of Louis D. Brandeis for the supreme court.

ON SHOPLIFTING CHARGE.

Elizabeth Kydd, 48 Hook avenue, was arrested by Detective Taylor yesterday afternoon on a charge of theft from the T. Eaton store.

Ruth MacDonald, 18 Ryding avenue, was arrested on a similar charge in Eaton's store by Detective Twigg.

ARGONAUTS DOWNED BY THE RIVERSIDES

One Goal Margin for East Enders—Scullers Finished Like Whirlwinds.

The Argonaut-Riverside senior tussle at the arena last night was by the kind of game to warm the hearts of the 6000 odd fans...

Vic Gilbert, the Argonaut captain and star goaler, was unable to play owing to acute stomach trouble...

It took Argonauts a long time to learn their cue, having checked and then being let down with two and three men strung out across the ice...

Riversides played hockey for two weeks. They have bunched checked smartly and shot every time a chance offered...

It was poor hockey in the first period but mighty interesting. Both sides bunched at the start...

The first goal came 11 minutes after the start. Smith checked Argonaut press and set for Stewart...

Argonauts had not learned their lesson when the second round opened with useful checking...

It was Jerry Laflamme who started the Argos on their spurt in the closing round. The tooth-puller opened up a burst of speed...

The scullers came like mad and made attack after attack. It should have been tied up when Laflamme tore away again...

It was a great game to win and a mighty tough one to lose. The attendance was 3221 and the receipts \$2101.50.

Referee—Oscar Bernhardt, Bradford. The summary: First Period—1. Riversides—Smith 11.00...

In the Coast League at Portland, the Vancouver and Portland teams furnished an interesting contest...

OSLER RECREATION CENTRE.
After the regular gym class at the centre last night, the Third Junior Basketball House League got away to a good start. Gourlie v. McCammon provided the contention in the first game. Gourlie's team combining cleverly in their first time out, and had a comfortable margin at the finish. The second game resulted in an easy victory for Wilson over Handy, the latter's team, owing to the absence of two of his players, being considerably weakened. The third and final game brought together Crawford and Plummer. This contest proved the best of the evening, Bugler Plummer losing out in the last few minutes of play. Following are the scores:
Gourlie.....18
McCammon.....10
Wilson.....12
Handy.....12
Crawford.....11
Plummer.....8
