## BRITISH AND FRENCH GAIN IMPORTANT GROUND

Italian Advance Continues, With 13,000 Prisoners---Canadians Capture Strong Outposts  
THREE AIRPLANES SHOT DOWN IN RAID ON ENGLISH COAST

### FRENCH TAKE MORE TOWNS AND HOLD ALL GAINS MADE

Going Forward With Utmost Vigor and Bravery, Troops Capture Important Points By Hand-to-Hand Fighting.

By an Associated Press Correspondent.

Grand Headquarters of the French Army in France, Tuesday, Aug. 21 (Night).—The French took advantage of the advantage of the day and made a further forward, capturing large numbers of prisoners, bringing the total to more than six thousand. The bombardment maintained was of almost unprecedented violence, especially on the left bank of the Meuse, where the Germans resisted strongly enough to bring fresh troops hurriedly up to the scene.

The slopes of Le Mort Homme have the appearance of a crumbling edifice from the effects of the fire from pieces of great calibre, while the subterranean basements on this hill have been cleared to the stone walls of Germans being temporarily buried under the wreckage before being taken prisoner.

Along the valley of the Meuse hundreds of Germans deserted, one large batch coming in with mail for their comrades who surrendered yesterday morning.

Resistance Overcome.

The Town of Samognex and a small village fell into French hands today, and, going forward with the utmost vigor and bravery, the French took a long series of trenches leading Samognex Hill, after a bitter hand-to-hand fighting in which they drove the Germans before them across to traverse. The extreme violence of the German barrage fire and the volumes of gas did not affect in the slightest the dash and impetuosity of the French troops. Then, for themselves masters, and showed it. How strong the enemy confronting them, the German resistance was overcome by French will power. The first day of the battle when the summit of the mountain was captured, attacked by Zouaves and tirailleurs and carried with magnificent courage, the French troops reached the German batteries, stationary forces on the creek and blew up eight gigantic mortars, whose breach pieces they carried off.

It was on the right bank of the Meuse where the greatest progress was made. Here the French troops were the same as won the victory at Pepper Hill on Dec. 15. They were obliged to charge on this occasion wearing gas masks, and within an hour gallantly 3,000 yards and more had been gained.

These troops tonight are pleased with their great victory that they demand to be led forward to drive the Germans farther back. The honors of organizing the successful offensive belong, besides Gen. Petain, to General Fayolle and Gouraud.

The Official Report.

"The French fighters were quite violent in the regions of Bray and Armentières," says the official communication by the war office to-night.

In Champagne, our batteries carried out efficient fires and destroyed additional gas tanks.

"On the Verdun front the enemy receded during the course of the day with artillery, notably on the left bank of the Meuse, but made no attempt to attack our new positions.

One of our heavy guns destroyed the understructure of an observatory at Romagne-sous-les-Cotes.

"German airplanes last night dropped bombs in the region of Gerardmer. There were neither victims nor damage. During the day six German airplanes were destroyed in aerial engagements, five of them falling in their own lines in a damaged condition. It is established that additional German airplanes were brought down on August 20 by our machine guns."

"In the Eastern theatre: The enemy attempted during the night two strong reconnaissances near Monastir, the other north of Monastir, which were repulsed. Our artillery carried out fire of destruction at the Cerna River."

"Allied aviators successfully bombarded enemy encampments and parks in the neighborhood of Capari, 16 kilometers northwest of Monastir. Three enemy airplanes were brought down."

**MAJOR ARCHAMBAULT WINS COVETED D.S.O.**

Canadian Associated Press Cable.

"The following Canadians have been invested by the Distinguished Service Order (Infantry except otherwise stated)—Major Archambault.

Military Cross—Majors Joseph Chenebelle, Charles Stinson, Douglas Storn (Artillery); Captains Ralph Hayes (Artillery); Captain McLaughlin (Medical); Ronald Fenton; Lieutenants Warner Bolt, John Geng (Engineers); Fred Johnston (Artillery).

### TRENCHES PACKED WITH GERMANS WHEN CANADIAN ATTACK STARTED

When Last of Them Had Been Fought to Finish, Trenches Were Packed Again, This Time With Dead Bodies.

London, Aug. 22.—(Via Reuter's Ottawa Agency).—The battle was simply boiling yesterday afternoon. The Germans launched two counter-attacks north of the railway and there was a continuous stream of men emerging from cellars and out of the heart of the ruined mounds where houses once stood. When the last of these had been fought to a finish the Canadians counted over a hundred Prussian bodies on as many yards of front.

It has been mainly a soldiers' battle for the simple fact that neither side could resort to methods of frightfulness without equally endangering its own people. Comparatively few prisoners were taken.

The Boche barrage started five minutes before ours, but luckily the infantry had formed for the attack. The German trenches were packed with men ready to assault. The casualties our artillery inflicted must have been very severe.

It looks as if the Huns fully realize that they must retake Hill 70 or clear out of Lens. What further price they are prepared to pay in this effort we have yet to see.

### ARABS BEGIN TO DRIVE TURKS OUT OF ARABIA

King of Hedjaz Associates Himself With Allies in Active Military Operations—Further Embarrassing Enemies in Eastern Theatres.

London, Aug. 22.—The Arabs in Arabia in revolt against the Turks have been skillfully conceived, and the daring and determination displayed in carrying it out were remarkable. On more than one occasion Arab forces attacked numerically superior forces and overcame them. In the Wadi district alone over 700 Turks were killed in an action, and a similar number taken prisoner. The communication adds that the King of the Hedjaz and his tribesmen evidently have associated themselves with the allied cause. The communication follows:

"Forces operating under the orders of the King of the Hedjaz have carried out a series of extensive operations against Turkish detachments and posts in Arabia. According to information available the Arabs have been working on a carefully thought-out plan, which has resulted in the destruction of a part of the railway line north of Medina and in the capture of isolated Turkish posts.

"The Arab movement, originating with the Sheeef of Mecca, apparently is gaining the support of all the Arab tribes in Hedjaz, and is spreading eastward."

(Continued on Page 2, Col. 6.)

### EXHAUSTION OF ENEMY TROOPS IS GIVING CANADIANS A REST

British Forces, However, Are Engaged in a Bitter Struggle in the Langemarck-Frezenberg Sector, Where the Enemy Defences Have Been Forced.

By R. T. Small, Staff Correspondent of the Associated Press.

British front in France and Belgium, Aug. 22.—Once more the British attack against the German positions on the Langemarck-Frezenberg sector, north of Ypres, has resulted in an exceptionally bitter struggle. Since dawn, when the action began, it has fluctuated back and forth within the enemy territory with less intensity than was witnessed in last Thursday's sanguinary conflict, which took place over much the same ground in the southern section of the battlefield.

At latest reports the British had forced their way to a considerable depth into the enemy defences and had been fighting in the night, as well as all day, to hold the ground at such points as the village known as Hill 36, where the Irish troops made such a valiant stand against Crown Prince Rupprecht's Bavarians on Thursday, only to retire in the face of counter-attacks from an overwhelming number of troops.

The British were under no delusions as to the strength of the German position to the northeast of Ypres and had been fighting in the night, as well as all day, to hold the ground at such points as the village known as Hill 36, where the Irish troops made such a valiant stand against Crown Prince Rupprecht's Bavarians on Thursday, only to retire in the face of counter-attacks from an overwhelming number of troops.

Throughout the British troops to the south of Ypres began a distinctly local operation near the redoubtable Inverness copse, which has seen so much hard fighting recently. Here also the Germans were making determined resistance. This elevation is some extent dominating the British line to the north, and is therefore of great value to the holders.

The battle of Lens today had diminished in intensity to the point of "comparative calm," due to pure exhaustion of the German troops, who had been

burdened time after time against the Canadians in fierce counter-attacks.

No less than eight heavy assaults were made against the Canadian positions northwest of the city proper last night, and in each case the Germans were thrown back at the point of the bayonet.

The Canadians this afternoon are holding all the positions which they

reached southwest of the heart of the city yesterday, and this morning they added two more posts to their captures.

On the northwest the situation is virtually what it stood yesterday morning, altho the Canadians have established themselves in a number of new posts which they wrested from the enemy.

The British were under no delusions as to the strength of the German position to the northeast of Ypres and had been fighting in the night, as well as all day, to hold the ground at such points as the village known as Hill 36, where the Irish troops made such a valiant stand against Crown Prince Rupprecht's Bavarians on Thursday, only to retire in the face of counter-attacks from an overwhelming number of troops.

### AIR RAIDS CHECKED AT ENGLISH COAST

British Defence Brings Down Three German Machines Out of Ten.

### MANY CASUALTIES

Germans Attempt Second Expedition Against Yorkshire Coast.

London, Aug. 22.—Ten German airplanes approached the English coast in the County of Kent today, the British war office announces. Three of the raiding machines were brought down. Bombs were dropped at Dover and Margate. Eleven persons were killed and thirteen injured. The statement says the raiders were unable to penetrate far inland.

Lord French, commander of the British home forces, announced this evening that the latest report showed that altho a number of enemy airships approached the Yorkshire coast last night only one, and at the most two, ventured overland. Twelve high explosive and thirteen incendiary bombs were dropped on three small villages near the coast. A chapel was wrecked and several houses were damaged. One man was injured.

The Boche barrage started five minutes before ours, but luckily the infantry had formed for the attack. The German trenches were packed with men ready to assault. The casualties our artillery inflicted must have been very severe.

It looks as if the Huns fully realize that they must retake Hill 70 or clear out of Lens. What further price they are prepared to pay in this effort we have yet to see.

### BRITISH IN FIERCE ATTACKS CAPTURE STRONG POSITIONS

#### BRITISH TAKE TOWN OF SHERABAN AFTER DRIVING TURKS TO HILLS

Little Resistance Was Made by the Enemy, Who Retired Hastily Before British Attack.

London, Aug. 22.—A British official communication concerning the operations on the Mesopotamian front says the British have occupied the town of Sheraban, lying northeast of Bagdad, near the Persian frontier. The communication, which is dated Sunday, says:

"Our columns attacked the Turks near Sheraban, on the left bank of the Dicle. The enemy made little resistance and retired hastily to the Hamrin hills. We remained in possession of Sheraban."

#### EIGHT COUNTER-ATTACKS REPELLED BY CANADIANS

Another Forward Move is Made Along Line of Lens-Bethune Railway Embankment—Details of Tuesday's Fighting.

By Stewart Lyon.

Canadian Headquarters in France, Paris, London, Aug. 22.—On the southern and western front of Lens we hold today all the ground won in yesterday's advance, and have made another forward move along the line of the Lens-Bethune railway embankment. By this afternoon, however, the Germans have secured possession of the southern end of a trench for which hard fighting has been going on at intervals since Sunday. On the north of Lens in the St. Laurent sector, our men were unable to establish themselves in the first half of the trench of the day's fighting. The enemy concentrated very heavy fire from guns of all calibres on them, and prevented our men from consolidating a line able to withstand the continual assault by fresh

Admiralty Report.

## DEVELOP SOURCES OF FISH SUPPLY

Hon. F. G. Macdiarmid Co-operating With Food Controller in New Scheme.

### ESTABLISH HATCHERIES

Means That Fisheries Will Be Controlled and Developed for People.

Hon. F. G. Macdiarmid, provincial minister of public works in co-operation with the food controller, has announced the intention to control the fisheries.

Government to develop large areas of the unexplored waters of Ontario as a permanent source of fish supply for the people of the province. As a beginning of this important national undertaking Lakes Nipissing and Neponset will be immediately developed. The resources of these important waters have been ascertained, and while it is not at present possible to state with exactness the quantity of fish obtainable for public use, it is known that the added food supply which will be derived for the people of Ontario by this act of the government will in the aggregate amount annually to several million pounds. The chief fish of these waters are whitefish, trout, pickerel and sturgeon, of which whitefish is the most abundant.

It is proposed to establish hatcheries at points to be selected in order that the waters may not become depleted. Warehouses and storage facilities will also be provided. The price of the fish will be controlled from the water to the consumer.

#### Fish-Ranching Scheme.

The ranching effects of this important act can scarcely be overestimated. It means that for all time a considerable portion of the fish required by the people of Ontario will be directly controlled and developed in their natural habitat. So large a portion of the total provincial requirements will be directly under government control that the price of the total supply will be largely regulated by the prices asked by the government. This is made possible by the fact that the waters referred to are now undeveloped reservoirs from which the fish can be procured at a less cost than from the already commercialized and more or less depleted waters.

The policy to be adopted by the government in placing the fish upon the market is now clearly set out. The principles which will undoubtedly govern this policy are: First, to increase the national dividend from undeveloped resources without discouraging production in the less favored waters; second, to make a source of supply in the public interest available to the interior, may not, as a result of the growing scarcity of food, exact an unfair price for their product.

#### To Control Prices.

To students of the problems of distribution it will be evident that price can be more easily controlled from a relatively available and less costly source of supply than from an attempt to regulate the prices asked by the already established distributors. The cost of production varies largely under present methods, but this may, to a large extent, be stabilized in the waters now to be developed by the government. With the growth of provincial population the importance in value of this nationalized supply will be increasingly apparent as a means of regulating prices.

The government has decided that, looking to future increasing requirements of the whole people, the time has arrived when measures should be adopted which will not only greatly increase the permanent supply of fish food, but at the same time will safeguard the people from prices fixed at artificially high price levels by private interests.

#### Chance for Municipalities.

Lake Neponset has never been fished commercially and Lake Nipissing since 1905. The former is about 75 miles long and 40 miles wide and the approximately the same dimensions. It is expected that fish from these will be on the market in one or two weeks. D. McDonald, deputy minister of game and fisheries, has said to the effect that parliament would act favorably upon the Doherty Act. We didn't contemplate any adverse action by the senate, Now Ontario will have to take the matter up on its own footing."

#### EMULATES DEADWOOD DICK.

Young Desperado Sent to Ontario Reformatory.

Armed with a United States police badge and abundant new money, Mr. Rockwell began to emulate the lawless escapades of Deadwood Dick and other heroes of red-blooded fiction, by breaking into the bakeshop of Allen Holmes, Bathurst street. After helping himself liberally, he hiked to Clinton Street School. Manning aware of where he stole a gun, and ran across the interior of the place. The next place C. Curman's fruit store. Vaughan Parade was won over to him in the police court yesterday on a charge of robbery and sent to the Ontario Reformatory for six months.

#### SCHOOLS GREATLY IMPROVED.

Considerable Repair Work Done at Givens and George Street Schools.

Givens and George street schools have shared in the general summer repair work that has been going on during the past few weeks. At the moment, new windows have been installed, and a lighter appearance given to the halls by fresh coats of paint.

Givens has a cabinet for school trophies in addition to many small pairs.

#### WORK OF WOMEN'S CLUBS.

The Parkdale Soldiers' Aid has received a donation of \$50 from the patronesses of the Parkdale Canoe Club thru Mrs. George Dutchie and also a cheque for \$100 from the Beardmore Company thru Mrs. Edward Job. This body of patriotic workers have continued their work during the summer months.

"It is our desire," he concluded, "to co-operate with the wholesalers and dealers who have the special equipment necessary in the handling of fresh fish in order that the public may be furnished with an abundant supply of fish."

German lines these days doubt, but there is every

## MEDICAL OFFICERS' TRAINING SCHOOL

Doctors Wishing to Qualify  
for Army Medical Corps  
May Attend.

Camp Borden, Aug. 22.—On Mon-  
day, August 27, a divisional school  
for doctors will be opened as offi-  
cers of the Army Medical Corps will  
be opened at the A.M.C. training de-  
pot at Camp Borden. It will last  
about three weeks. Applications for  
attendance at the school should be in  
the hands of Lieut.-Col. Ryerson, A.  
D. M. S. No. 25. Not later than  
Aug. 25. They should be addressed to  
him at Camp Borden.

Under the authority conferred upon him by an order-in-council, Major-  
General Logie, G.O.C., has made ap-  
plication for the release from custody  
to complete the trial of the 11 men of  
a number of whom sentenced to terms  
of imprisonment for absence without  
leave, many of whom gave themselves up without being apprehended; all be-  
ing men who have no other criminal  
record. It is understood that other  
deserving cases are under considera-  
tion, but no leniency will be given in  
the case of men with a previous bad  
record.

Hon. Capt. C. E. Jenkins has been  
permitted to resign his temporary ap-  
pointment as acting principal chaplain  
of Military District No. 2. Capt.  
Martin is acting in his stead at Camp  
Borden.

Lieut. Charles Alvarez, chaplain's  
services, who was secretary to Hon.  
Lieut.-Col. A. E. Burke, former editor of  
The Catholic Register, has been  
struck off the strength of the C.E.F.  
with effect from September 10. Capt.  
E. Penbrooke, 31st Regiment, pay-  
master of the P.P.C.L.L., has also been  
struck off.

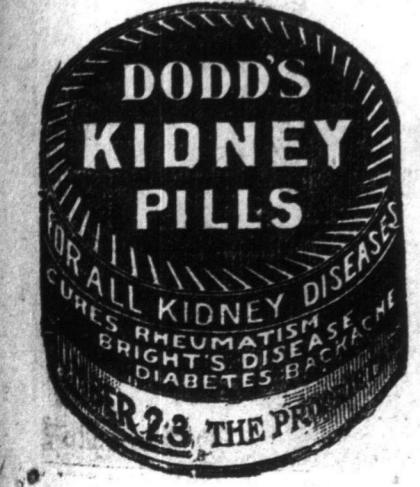

Changes Among Nurses.

Nursing Sister E. Goodhead, A.M.C.,  
has been taken on the staff of the  
Toronto Base Hospital and Nursing  
Sister S. J. Arnold has been permitted  
to resign her appointment at the  
same institution.

Troopers Harold Adams, E. F.  
Reardon and James White, of the  
Canadian Mounted Rifles, have been  
struck off as illegally absent.

Mr. W. Wood, an old gentleman of  
over 90 years, came up from Toronto  
today to see Camp Borden. Lieut.  
Col. Osborne, A.A.G., had him taken  
over in his own motor and he departed highly pleased with  
his visit. Mr. Wood has a son on the  
editorial staff of The Toronto Globe  
and a grandson at the front, as a  
lieutenant of the Royal Flying Corps.

In the men's canteen of the Royal  
Flying Corps this evening silver cups  
were presented to the 18th Squadron  
for the championship in the  
squadron football and to the repair  
section, winners of the relay race in  
the inter-squadron sports held in  
July. The latter cup was not pre-  
sented with the other prizes, as the

## THE WEATHER

Meteorological Office, Toronto Aug. 22.—A disturbance, which was in  
Saskatchewan last night, has moved east-  
wards and is now over Manitoba and Mani-  
toba. From Ontario eastward the weather  
is a little higher and yellower in Ontario and  
Quebec, and a little lower in the  
Maritime Provinces.

Minimum and maximum temperatures:

Vancouver, 53, 78; Victoria, 52, 74;

Kamloops, 48, 80; Edmonton, 44, 70;

Battleford, 44, 74; Prince Albert, 58, 74;

Saskatoon, 54, 74; Fort Garry, 54, 74;

Perry Sound, 48, 76; Kingston, 54, 80; Ottawa, 42, 80;

Montreal, 50, 78; Quebec, 52, 76; Halifax, 58, 66.

—Probabilities:

Lower Lakes and George Bay and  
Ottawa Valley, 50 to 60% chance of  
Moderate easterly winds; local  
showers, but fairly fair, with much  
the same temperature.

Lower St. Lawrence, Gulf and North  
Shore—Southerly winds; warm; becoming  
moderate.

Lake Superior—Southeast winds and  
showers, followed tonight by a moderate  
northwest gale and change to cooler.

Maritime—Fair to good moderate winds;  
much fog near coast; fair inland; no  
much change in temperature.

Manitoba—Strong northwest winds;  
moderate.

Saskatchewan and Alberta—Fair and  
comparatively cool.

STREET CARS

Wednesday, Aug. 22.—College cars eastbound,  
delayed 5 minutes at 11:05 a.m. at Dundas and Moray  
by wagon broken down on track.

Harbord cars westward, delayed 5 minutes at 6:42 a.m. on Adelaide, between  
Victoria and Yonge, by wag-  
on track.

Dundas and College cars,  
southbound, delayed 5 minutes at 1:35 p.m. at Bay and  
Queen by auto on track.

In addition to the above  
there were several delays of  
less than 5 minutes each,  
due to various causes.

BIRTHS.

ZEAGMAN—On Saturday, Aug. 18th, at  
Beachcroft, Oakville, Ont., a daughter.

DEATHS.

JOHNSON—On Aug. 21, at  
her home, 575 Jarvis Street, To-  
ronto, Elsie Strachan Johnson, widow  
of the late William Robert Johnson.

Funeral private. No flowers.

MCCRISON—On Wednesday, Aug. 22, at  
604 Jarvis street, John Morrison, in his  
Funeral Saturday, the 26th inst., at  
2:30 p.m. (Motors.)

race had to be re-run owing to a  
false start. An excellent concert  
was given by the Flying Corps or-  
chestra—a really fine organization  
and a number of vocal and other artis-  
tists took part.

Lieut.-Col. A. D. Lepan, of the  
school of infantry, has been granted  
eleven days' leave of absence.  
Lieut. Corps Leader.

The Dental Corps is the sub-  
staff at Indoor Hospital by 2 to 1. This puts them ahead of the northern  
group, and they will try the winners of  
the southern group for the champion-  
ship of the camp some day next  
week.

An exhibition game of out-  
door baseball the B.F. and P.T. school  
beat the First Depot Battalion, Central  
Ontario Regiment, by 7 to 2.

A big and enthusiastic crowd saw  
the Scotland vs. England soccer match  
at which the natives of the land of  
the lion and Johnnie Walker, et al.,  
triumphed. The Sassenach by a score  
of 3 to 1.

LETTER FROM SOLDIER MEMBER

At last night's meeting of Lodge  
St. Albans, No. 16, S.O.E.B.S., in  
the S.O.E. Hall, president over by J. Jones,

an interesting letter from  
the front was read from a member,  
Lieut. Clarke, who left as a private  
and was promoted about a month ago.

It was reported that his sister-in-law,  
Mrs. Clarke, is arranging a sale of  
work to help the fund for  
soldiers' comforts.

At a recent meeting of the  
S.O.E. Hall, a report was made that  
four new candidates were initiated into  
the order during the evening,  
and following the close of the business a program of songs  
and recitations was rendered by the  
various members.

HELD SPECIAL MEETING.

A special meeting of Lady Alex-  
ander Lodge, M.U. I.O.O.F., was held  
last evening in the S.O.E. Hall, when  
Sister McCoy, noble grand; Sister  
Coggin, vice-grand, and Sister Grant,  
grand mistress, officiated. An official  
visit was paid by T. Hastings, pro-  
vincial grand master, and J. G. Col-  
ley, past grand master, who addressed  
the meeting.

Four new candidates were  
initiated into the order during the  
evening, and following the close of the  
business a program of songs and  
recitations was rendered by the  
various members.

TORONTO LODGE, I.O.O.F.

At the regular meeting of Toronto  
Lodge, No. 8128, M. U. I.O.O.F., in  
the Armstrong Hall, the chair being taken  
by W. Wallace, noble grand, a report  
was received of the death of a member,  
John F. O'Brien, of the 216th Infan-  
try, who had died in France.

Letters were also read from  
Past-President G. Lacey and Pte. A.  
Gidley, both members now over-  
seas.

PLAYED CARPETBALL.

First League Game of the Season is  
Won by Lodge Shrewsbury.

The regular business meeting of  
Lodge Shrewsbury, No. 155, S.O.E.R.S.,

was held last evening in St. George's  
Hall, Bullock, president being in  
the chair. A report was received that  
the windows of the hall had been  
broken.

Amelia, wife of the

president, was present.

Another report was received that  
the windows of the hall had been  
broken.

Amelia, wife of the

president, was present.

Amelia, wife of the

**RECIPE:** Keep on hand a syrup made up of one half cup of FRY'S Cocoa, one cup of sugar, one cup of warm water. Stir until smooth. Take a glass for 5 minutes and chill and add one half teaspoonful of Vanilla Extract. To serve, allow two tablespoonsfuls of this syrup to a glass with a little chopped ice and fill with cold milk. Stir well.

Try this cooling, delightful FRY drink. You'll want it often.

William James Morrison of Montreal and Mrs. Morrison (Miss Camilla Murray), who were married yesterday at the home of the bride's parents, in Strathearn road.

## CHILDREN DANCE AT LESLIE GROVE

Spend Delightful Afternoon  
at the Annual Summer  
Festival.

A delightful afternoon was spent by some 400 parents and a large number of children at the annual summer festival of Leslie Grove playground centre yesterday afternoon.

The weather being cool and sunny was ideal from every point of view. A number of supervisors from other centres were present with the chief director, A. H. Armstrong.

Folk dances, singing games and amusing games, given by senior and junior girls and boys, made up a good program representative of the summer work of this centre.

To a stranger coming upon the gathering, the playground presented a pretty sight with its crowds of summer clad children and parents. Leslie Grove is one of the most fortunate of all city playground centres outside of Moss Park, having a splendid open green space for games, with plenty of shade trees, where the apparatus is placed.

Swings, teeter-totter, horizontal bars, and two generous sand piles afford ample amusement for the children every day throughout the summer.

Great credit is due to the supervisors who expend so much energy upon teaching the children "how to get the best out of play time." Miss G. Hadley is the chief supervisor for girls, while Mr. Armstrong, by Miss M. E. McCollum, J. Hiley is supervisor of the boys' department. The average attendance of children per day at this centre is well over 400.

### SOLDIERS ENTERTAINED.

Under the auspices of Ward Two ladies' Conservative Association a vegetable dinner was given the soldiers of the Convalescent Home, Davisville, the entertainment taking place at the home of Ald. Beamish, on the Lake Shore road. Games, swimming and other amusements were also provided.

### FOR RED CROSS WORK.

By means of a Red Cross evening held by the guests of the Lake Shore House at Port Stanton, Muskoka, the sum of \$100 was collected and sent to the Canadian Red Cross Society.

### LUNCHES AT FAIR.

The W.C.T.U., the Ladies' Work Deputy and Rosary Hall are among those who will have their usual lunch rooms at the Exhibition. Bellfair Women's Circle will also have a stall.

## GENERAL HOSPITAL NEEDS GRANT FROM THE CITY

Opinion Expressed That Government Should Meet Part of the Maintenance Deficit.

The Toronto General Hospital is reported to be in straitened circumstances financially, and the city council will likely be asked to make a special grant to the institution.

There will be a deficit in the maintenance account at the end of the year, and there is an opinion in the city hall that the government should assume a portion of the shortage.

The city's per diem grant to the hospital this year was increased from \$1 to \$1.25 per patient, and the government grant has just been increased from 20 to 30 cents per pa-

tient.

Folk dances, singing games and amusing games, given by senior and junior girls and boys, made up a good program representative of the summer work of this centre.

To a stranger coming upon the gathering, the playground presented a pretty sight with its crowds of summer clad children and parents. Leslie Grove is one of the most fortunate of all city playground centres outside of Moss Park, having a splendid open green space for games, with plenty of shade trees, where the apparatus is placed.

Swings, teeter-totter, horizontal bars, and two generous sand piles afford ample amusement for the children every day throughout the summer.

Great credit is due to the supervisors who expend so much energy upon teaching the children "how to get the best out of play time." Miss G. Hadley is the chief supervisor for girls, while Mr. Armstrong, by Miss M. E. McCollum, J. Hiley is supervisor of the boys' department. The average attendance of children per day at this centre is well over 400.

## HELP WIN THE WAR BY USING CORN

Herbert C. Hoover Appeals to  
Women for Food Conser-

vation.

Mr. Herbert C. Hoover, Food Controller for the United States, with whom Hon. W. J. Hanna, Food Controller for Canada, is working in close harmony, has issued the following card of instructions to housewives:

Win the war by giving your own daily service.

Save the wheat—One wheatless meal a day. Use corn (oatsmeal, rice or barley) bread and non-wheat breakfast foods. Order bread twenty-four hours in advance, so your baker will not bake beyond his needs. Cut the loaf on the table and only as required. Use bread for cooking, toast, etc. Eat less cake and candy.

Wheat harvest is far below normal. If each person weekly saves one pound of wheat flour, that means 150,000,000 more bushels of wheat for the allies to mix in their bread. This will help them in democracy.

Save meat—Beef, mutton or pork not more than once daily. Use vegetables and fish at the flip.

—Photo by Mr. Lyonde.

For breakfast, for that after-school hunger, for tea or Sunday supper, few dishes can be served with so little trouble or such wholesome, appetizing satisfaction as

**Kellogg's  
TOASTED  
CORN FLAKES**

Get the original—made from carefully selected southern sweet corn by a strictly Canadian Company in their up-to-date plant at London, Ontario.

Ask for the red, white and green package—the kind Canadian families have been buying for over eleven years. Refuse all substitutes.

### ONLY MADE IN CANADA BY

### ANNOUNCEMENTS

Notices of any character relating to funds raised for any purpose, whether in the raising of money, are inserted in the advertising columns at 25 cents an agate line.

Announcements for churches, societies, clubs or other organizations of future meetings, for the purpose of the raising of money, are inserted in the advertising columns at two cents a word, with a minimum of fifty cents for each insertion.

A GENERAL MEETING of the Women's War Time Thrift Committee will be held in the City Hall Friday, at 3 o'clock.

THEATRE CROWD CAUGHT  
BY ELECTRICAL STORM

Rain Fell in Torrents and Flooded Lower Entrance to Union Station.

For the second time within the present week the city was last night visited by a violent electrical storm which was accompanied by a heavy downpour of rain. Altho lacking the intensity of the previous storm, last night's affair was quite a respectable summer shower flooding the streets and causing general discomfort to pedestrians. The theatre had closed prior to the outbreak of the storm and the downtown streets were crowded. The rain, however, caused a general rush for shelter.

The electric storm was particularly brilliant, but no accidents or fires were reported. The storm was purely local and did not extend far beyond the northern city limits.

Station street was again flooded during the progress of the storm water pouring down across the lower entrance to the Union Depot from Front street and was soon nearly a foot deep. Street cars which usually go round the station turned at York and Front streets and a number of taxicab drivers were left to attempt to take passengers to the station entrance. Pas-

### ORDER BLANK... TEAR OUT... MAIL TODAY

THE TORONTO WORLD,  
TORONTO, CANADA.

Gentlemen: Enclosed find \$1.00, for which please ship me, all charges paid, one complete set of RUDPATH'S LIBRARY OF UNIVERSAL LITERATURE, 25 volumes, bound in Hoster Linen, and I agree to pay the balance of \$27.00 at the rate of \$3.00 per month, beginning on the first day of the month following receipt of books. When I have paid for the Library it becomes my property.

### No Collectors to Annoy You

2, 26300 lbs. at \$19.

## MINING PROMOTER ACHIEVES SUCCESS

C. Millar, Well-Known Lawyer, Started Twelve Years Ago.

### IN ON THE LAWSON

Now Director of Burton-Munro, Which Adjoins Famous Croesus.

**World Special Correspondent.**  
Porcupine, Aug. 21.—Charles Millar, the millionaire lawyer, seems to be getting into position for some decided success in the mining field. He began about twelve years ago with a large interest in the Lawson mine at Cobalt. On this was the "silver sidewalk" famous over the whole country. There was also a large amount of 14 inches wide ore running into thousands of tons per ton. But the vein outcropped in fragmental rock and a short distance down the keewatin series came in and the phenomenal values gave out. The same thing could be seen on the Timiskaming in the fall of 1914. On that property there was an open cut 50 feet long and 30 feet deep. This yielded \$200,000. in silver. But a short distance to the west the vein entered the igneous rock and there carried only 10 per cent. Dr. Willard G. Miller, the provincial geologist, has promulgated a theory which is unreservedly accepted as to this phenomenon. He says that originally the veins carried only the base metals, that subsequently there was a gentle movement which caused the veins in the fragmental but not in the igneous rock, and during this movement the silver was deposited. As the tough keewatin was not as a rule affected by this later movement the veins therein are low in silver.

It is therefore probable that had the movement been stronger, had there been shearing and shattering of the keewatin down to the zone of drawage as there probably is in Porcupine, the output of cobalt would have to be reckoned in billions of ounces.

Mr. Millar is now largely interested in three very promising gold properties. One of these, the Adair, adjoins that on the Wasapika Gold Mines Limited in the very promising district of West Shiningtree. The famous Ribble vein, with its many rolls or folds, after crossing the Wasapika continues on the Adair. We have not any data as to its values on the latter but on the Wasapika the assays are more than 1000 and contain 10 per cent gold. The other two properties of which we have any knowledge in Northern Ontario. Out of 100 assays made at the provincial assay office there was not a single blank.

The world known lawyers also a director of the Burton-Munro, which immediately adjoins the famous Croesus in the Township of Munro. The Ontario Government have now in their possession about 80 lbs. of ore from the latter mine for which they paid \$100, or over \$100 per lb. A ton of such ore is worth \$100,000.

**Working Properties.**

Active development is now going on at the Burton-Munro. The shaft is down 200 feet and from it one can almost throw a stone to the principal workings on the Croesus.

There are the Anderson farm at Bourkes about 15 miles north of Swaytak on the T. & N. O. Ry. Here exceptionally rich ore was discovered by mere accident less than a year ago. Different buyers claiming the property under the former owner but the litigation has terminated in favor of Mr. Millar and his associates, A. C. Burton and C. A. Gentles.

Specimens which we have seen contain the rare telluride nayagite which carries values up to gold with some minor metals. It is a bright, dark steel black mineral with a splendid lustre and when treated with any corrosive acid the pure gold shows up very plentifully, and it is identified with the "mustard gold" or "mustard gold" as common in the great Kalgoorlie field in Western Australia.

Mr. Millar has made his money by hard work and fair play. He is just and evenhanded with his associates. In fact he has never been known to attempt to take an undue advantage of any one. He has no guile. He has friends, and few, if any, enemies, and whether he wins with the Adair, the Burton-Munro or the Anderson or with all three there will be none to envy his success.

S. R. Clarke.

### INDEFATIGABLE EXERTIONS HAVE WON THE REWARD

Adanac Stopping Still Goes Forward and the First Shipment Should Bring Big Values.

**Cobalt, Aug. 22.**—Steady and consistent progress is being made at the Adanac. Stopping is proceeding as fast as present conditions will permit and the ore being barged is expected to run well over 2,000 ounces to the ton. Three engineers who have inspected the veins are as typical of those in its neighbor, the Timiskaming. The first shipment from the Adanac will probably run into a large sum owing to the high prices now being paid for the white metal. There is no satisfaction here that indefatigable exertions have won out at the Adanac, as was also the case in the Timiskaming, and it is believed that many other strikes will follow in Cobalt if similar conscientious work is carried out.

SAMPLE ON REQUEST.

### The Rise in Silver.

The above chart graphically indicates the unprecedented appreciation in the price of silver during the present European war. The wide swings in the price of the white metal are shown from the low in 1914 to the record high which continues to hold in a quarter of a century. It will be seen that in this period an advance of over 40 cents an ounce has been made. What this means to the

### UNUSUAL CHARACTER OF RIBBLE VEIN

Only Known Example of its Kind in the Camps of the North Country.

### COUNTERPART IN INDIA

Big Mines in India Located on Famous Champion Reef.

Koshbow, Aug. 21.—The Champion Reef in the State of Mysore, Southern India, is the most noted vein on the continent of Asia, and is a crumpled or folded gold bearing vein. This reef carries five large mines, and from it has come practically all the gold production of India during the last thirty years, amounting to fully \$300,000,000.

In all the gold districts of Northeastern India, the Champion Reef is the most pronounced roll or fold, and that is on the Ribble Vein in West Shiningtree, now owned by the Wasapika Gold Mines Ltd.

The deformation, dislocation and pronounced folding on the Ribble Vein on the Wasapika properties has been caused by the intrusion of several diabase dykes striking north 10 degrees west, crossing the vein diagonally at different points. While the folding of this vein is very pronounced, it does not signify that it is in any way detrimental to the mineral deposition.

Folding Vein.

Mr. Waldemar Lindgren, in the seventeenth annual report of the United States Geological Survey describes the folding and folding of the veins on the Omega and Graha Mines of Grass Valley, California, and most people know of the wealth produced by these mines. It has been generally noted that where there has been any folding of the vein the ore has been concentrated richer and more gold is found either in or along the upper curves or folds, or may be described as anticlines also in or along the lower curves or folds, which may be described as synclines.

On the New Chum Consolidated Mines, also the Gold Chum Railway and the Victoria Queen Mine located in the Bendigo Gold Fields in Australia, all of which produced millions of dollars in gold, conditions of this nature were particularly noticeable. The quartz veins occur in highly folded Silurian sandstone.

The ore bodies were especially large and profitable at the apex of the anticlines and synclines of the folded veins.

Peculiar Formations.

In the United States Geological Survey, Mr. Walker H. Read describes the pitching arches or folds of the veins on the Elk Horn Mines in Montana.

The rock formation in which the Ribble Vein was discovered is described by Mr. W. H. Collins of the mineral department, Ottawa, as "andesite," an old igneous rock striking in a westerly direction from Michigawakena Lake. The disease diagnosis referred to by him are of a much later period and were a strike at about due north or at right angles to the andesitic flow.

It is generally recognized that intrusive rocks are the most favorable for promoting the formation of ores. Like all igneous rocks, they contain disseminated minerals, and are often being distant from the surface, they cool with comparative slowness, especially if they are in bodies of considerable size, and thus the conditions for ore concentration are prolonged.

The igneous rocks are better fitted for the formation of veins for investigating the process of ore deposition and for furnishing the disseminated metals to the mineralizing waters.

Assays Higher.

It is particularly noticeable that where the Ribble Vein is in contact with the diabase dykes the ore assays higher and more gold is to be found in the quartz.

As it would naturally be expected this vein is proving up well under active development.

George R. Rogers, the general manager, is engaged only in opening up this very promising vein. He is in thorough prospecting other portions of the property, and the results so far have been very encouraging.

S. R. Clarke,

### Obituary.

The final annual report of the Seneca-Superior Mines, covering the period from Dec. 31, 1916, has just been issued. The management having decided to close operations at the mine. The report is an interesting document, showing the remarkable performance of the mine during its brief existence.

The company, in a word, has left for distribution a balance sheet of \$700,000 minus certain tax adjustments and small charges since Dec. 31, 1916. Profits from operations during 1916 amounted to \$251,359. The profits and loss account, including \$306,555 brought forward from the previous year's operations, showed \$614,850. The company paid \$58,605 in dividends during the year. The manner in which the surplus left for distribution is arrived at is shown in the balance sheet, as follows:

Assets.

Cash in bank..... \$11,628

Accounts receivable..... 988

Furniture, etc..... 250

Liabilities.

Accrued expenses..... \$ 2,215

Taxes..... 5,526

Realizable surplus..... 7,709

The company was in actual operation from Jan. 31, 1916, to May 31, 1916, and during this time produced \$2,191,280 worth of silver. Dividends paid amounted to \$1,578,517, equal to 226 per cent, on the issued capital of \$848,280.

Price of Silver

New York, Aug. 22.—Bar silver, 88½¢.

London, Aug. 22.—Bar silver, 44½¢.

### PROSPEROUS TIMES FOR NIPISSING MINES

High Price for Silver Puts Premier Property in Strong Position.

### COUNTERPART IN INDIA

Big Mines in India Located on Famous Champion Reef.

Kemerer, Matthes & Company have issued a special letter on Nipissing, which states that the financial statement of the Nipissing Company as at July 2nd, reveals a very strong position showing as it does cash in bank, \$1,662,200; bullion and ore in transit, \$14,500; bullion and ore in hand, \$2,579,903. This total compares with \$2,460,505 on June 2nd; \$2,281,505 on December 16th, and \$1,966,919 at the beginning of July a year ago. The present earnings of \$2,579,903 is equivalent to \$1,15 per share, and the 5,000,000 shares which are outstanding is a new point of cash assets for the past two years. It is also to be borne in mind, when considering this steady improvement of the Nipissing Company, that the dividend of 5 per cent, each quarter, which calls for the distribution of \$300,000 each three months and likewise paid two 5 per cent bonuses, one in October and one in January last.

The production, dislocation and pronounced folding on the Ribble Vein on the Wasapika properties has been caused by the intrusion of several diabase dykes striking north 10 degrees west, crossing the vein diagonally at different points. While the folding of this vein is very pronounced, it does not signify that it is in any way detrimental to the mineral deposition.

Folding Vein.

Mr. Waldemar Lindgren, in the seventeenth annual report of the United States Geological Survey describes the folding and folding of the veins on the Elk Horn Mines in Montana.

The rock formation in which the Ribble Vein was discovered is described by Mr. W. H. Collins of the mineral department, Ottawa, as "andesite," an old igneous rock striking in a westerly direction from Michigawakena Lake. The disease diagnosis referred to by him are of a much later period and were a strike at about due north or at right angles to the andesitic flow.

It is generally recognized that intrusive rocks are the most favorable for promoting the formation of ores. Like all igneous rocks, they contain disseminated minerals, and are often being distant from the surface, they cool with comparative slowness, especially if they are in bodies of considerable size, and thus the conditions for ore concentration are prolonged.

The igneous rocks are better fitted for the formation of veins for investigating the process of ore deposition and for furnishing the disseminated metals to the mineralizing waters.

Assays Higher.

It is particularly noticeable that where the Ribble Vein is in contact with the diabase dykes the ore assays higher and more gold is to be found in the quartz.

As it would naturally be expected this vein is proving up well under active development.

George R. Rogers, the general manager, is engaged only in opening up this very promising vein. He is in thorough prospecting other portions of the property, and the results so far have been very encouraging.

## STOCKS SAG DOWN FOR WHOLE LIST

### DOMINION STEEL ONE STRONG ISSUE

Coolers React Downward Owing to Reduction of Coal Price.

New York, Aug. 22.—The action of the government in enforcing reduced prices for soft coal, with the belief that similar proceedings are to be undertaken in regard to anthracite, has created widespread interest in the stock market today.

Coolers and shares of stocks which derive their greatest revenue from the transportation of that commodity reacted sharply at extreme depths of two to seven points, with the Lachlan and Western declining 10 points.

Labor conditions in their bearing upon the shipbuilding situation and reports of a fresh Canadian offensive against Russia are among the additional developments noted by the bears.

The company is self-contained, and when war activities have ceased and there is a possibility of keenest competition for business, Dominion Iron can readily face this because it is self-contained.

Nova Scotia Steel is also self-contained and situated and has thereby gained the confidence of American financiers. Dominion Iron struck 66 yesterday, and was barely influenced by the general feeling of depression. There was little market for the general list, and any outside buying was limited to short-term speculation.

The money market reflected to an extent the nervous state of the stock list, call loans at 3 per cent. Time and short bonds unchanged, but funds were in lighter supply.

Bonds were heavy, Liberty 5% selling at \$50.50, Royal bond 5% (par value aggregated \$2,855,000). United States bonds (old issues) were unchanged on call.

### MORGAN TO FLOAT NEW BRITISH LOAN

#### Firm Places First Fifteen Millions on New York Market.

New York, Aug. 22.—J. P. Morgan & Co., acting for the British Government, announced here today the sale of \$15,000,000 of British War Bonds at a discount of 5% per cent. It is the intention of the bankers to make weekly issues of these bills not in excess of ten thousand units.

The rate of discount will vary according to the condition of the money market, it is understood, and the proceeds of the sales will be applied to the payment of bank loans incurred in this country by the British Government for various supplies.

The bills were originally intended to be sold to American investors last year, but the failure of the foreign exchange board at Washington then proved an obstacle. The change in international conditions since that time it was said, more than removed any objections on the part of the Washington authorities.

#### THIRD INSTALMENT PAID ON KIRKLAND

Only One More to Be Made by Beaver on Promising Property.

According to F. L. Culver of the Beaver Consolidated the third payment on the Kirkland Lake property, which is being acquired by the former company, was made yesterday. The cheque handed over by the Beaver amounted to approximately \$75,000. To date in the neighborhood of \$225,000 has been turned over by the Beaver, and there is only one payment left to make. In return for the money paid over and work done the Beaver has received about 1,600,000 shares of Kirkland Lake gold mine stock.

#### HARD TO MAINTAIN INTEREST.

Heron & Co. had the following at the close:

Montreal, Aug. 22.—There was less activity today, and a heavy New York market, a few of further American Government regulations having a depressing effect here in sympathy.

Dominion Steel and Steamships were the active stocks, and best prices of the day were made at the opening.

The immediate future seems to depend on the New York market. It is hard to maintain interest in local stocks with New York prices falling down, but on the other hand any improvement in that centre would start the local market up again.

#### LONDON STOCK MARKETS.

London, Aug. 22.—The stock market was cheerful today with a broadening business in oil and various Mexican railroads. Bonds were strongly held and home and foreign stocks and higher on the settlement of the trouble in the Argentine. Shipping shares were firmer. Argentine improved, mining and rubber stocks, including meat, were a good buy, inquiry for misnomer was quiet. Money was in short supply, and discount rates were again increased. Substantial increase in the sales of treasury bills took place when the total reached was £57,000.

One Passenger Injured.

Special to The Toronto World.

St. Thomas, Aug. 22.—One woman passenger and two young girls were slightly injured when two sleeping cars on the eastbound Wabash express were derailed at Nixon this morning about 11 o'clock. The accident was caused by a freight en-

gine belching with the express.
