MEIGHEN DECIDES TO TAKE ACTION ON IRISH LEAGUE RALLY

Puts Matter Up to Roney—Carleton County Threatens Counter-Demonstration.

MEETING IS TODAY

Ottawa, Oct. 15.—(Canadian Press).—Premier Meighen this afternoon told a delegation of the Citizens' League, which waited on him in the hope of having the Dominion government take action to prevent the meeting in Ottawa of the Self-Determination League for Ireland on Saturday and Sunday, that the Dominion government could not prevent them from taking any action in the matter, unless requested to do so by the provincial government.

George Boyce, M.P., intimated to the prime minister that Carleton county was considerably stirred up over the contemplated meeting, and that if it was held several thousand residents of the county intended to come to the capital and stage a counter-demonstration. E. Barrett was of the opinion that as Attorney-General Roney had publicly stated the inability of the provincial government to intervene on the grounds that the crime of "sedition" was one against the state, and not the province, the federal government should take steps to suppress the meeting.

At a meeting of the provincial government, Mr. Meighen stated that he was unaware whether the assembly could be characterized as unlawful or not, and it was admitted by Mr. Barrett that neither he nor his associates knew what would be said at the league meeting, but were guided by what had been said at recent meetings. "If Mr. Roney has declined to interfere, it must be because he is not satisfied that this meeting will be one which will come under the definition of an unlawful assembly under the criminal code," said Hon. Mr. Meighen. "We have our part of the constitution to administer and cannot and will not impose our authority in a matter which appears to be purely a provincial matter, unless called upon to do so by them."

"You may rest assured that if our services should be required, we shall be ready to act."

The premier cited the case of the Winnipeg trouble, where he stated that the provincial and federal governments, having failed to control the situation, asked for federal intervention and the Mounted Police were sent to their assistance.

"Then you mean that we are within our rights in trying to prevent this meeting?" said Mr. Boyce.

"I did not say so," replied the premier; "it is the duty of the proper authorities. My responsibility is to see that they are unable to cope with the situation."

"We are able to cope with it," said Mr. Boyce; "we can bring 10,000 men from Carleton county to put down rebellion if necessary. They have had rebellion in Ireland, but we don't want it here. I trust you will not force us to stop this meeting."

Allege Bolshevik Plans. Mr. Barrett said that one of the delegates to the convention proposed introducing a resolution on the setting up of a Bolshevik government in Canada, together with the appointment of a Canadian ambassador to the Irish Republic. Hon. Arthur Meighen pointed out that many resolutions of the nature were adopted in Great Britain and were discarded, because it was felt they had no significance, and said that toleration should be shown to the Irish.

"If that kind of government is set up here," said Mr. Boyce, "you will not have meat in it."

"No, I am afraid I could not catch a place on it," said the premier, with a smile.

Mr. Roney has already stated to East Wellington constituents that if any action is necessary at Ottawa it is a matter for the federal authorities.

CANADIAN REFINERS HOPING FOR TRUCE IN U. S. SUGAR WAR

Premier Meighen Understood to Have Given Sugar Interests Exceedingly Little Comfort—Refiners Confer in Montreal—Atlantic Sugar Stocks Slump Heavily.

Montreal, Oct. 15.—It can be definitely stated that Prime Minister Meighen told a delegation of refiners who went from here to the capital to see him on Thursday, that he could do nothing for them; that the government would have to suspend the order of the board of commerce prohibiting the importation of sugar, and that a hearing before the cabinet next week would be allowed to all parties interested. The case would therefore seem to be closed.

The refiners have one hope left, and that is in an ending of the war now on between the two great rival sugar combinations in the States. Sugar in this case would bound up to 20 cents a pound and that price would prevail all over Canada. But such an ending of the war between the American refiners seems still far away.

Montreal, Oct. 15.—(Canadian Press).—So far as present conditions go in the Canadian sugar industry, there is every indication that matters have come to a point where there is to be a "show down," which will settle the matter for good. The big refineries here and in the maritime provinces are closed down, and it was stated today that they would remain closed for an indefinite period, or until the situation cleared. Further, the big refineries have refused to sell sugar until they can do so at a profit.

A conference was held today between Messrs. Huntley R. Drummond, D. Lorne McGibbon and J. W. McConnell, representing the majority of the big refinery interests here, at which the whole situation was thoroughly discussed and plans laid for future developments.

RUM RUNNERS RAMPANT WHILE SPRACKLIN SQUAD INVEIGLED TO TORONTO

Ingenious Bootleggers Put One Over Ontario License Commissioners—Charged Fighting Parson and Colleagues Were Taking Bribes—Whiskey Artists Did Two Fine Days' Business—Good Directing Brains.

If those responsible for the administration of the O.T.A. have any desire to catch the rum runners of Essex county, and especially those engaged in the business at Windsor, they had better employ the runners as detectives—the plan of setting a thief to catch a thief is an excellent one. These runners are full of ingenuity and pep, and have just succeeded in putting "one over" on the licensing commissioners and their trusted agent, Mr. Spracklin, and his merry men were taking bribes to allow the fire-water to get over the border. The letter was signed with the names of four well-known rum runners in the Windsor district. The facts given were so complete and convincing that the commissioners had no alternative but to order the detective parson and his squad to come to Toronto and explain matters. Mr. Spracklin arrived by motor car on Tuesday, and spent that night and Wednesday in Toronto. His exploits in the Queen City on the latter day were told in Thursday's World.

That there was no truth in the bribery charges about Mr. Spracklin almost goes without saying, but that the license commissioners considered them worthy of consideration just played into the hands of the rum runners. These gentry had been losing considerable trade, owing to the watchful waiting of Mr. Spracklin and his men, and it became necessary to get rid of them for a short period.

Known to Rum Runners. Mr. Spracklin's departure with his men was well known to the runners. (Continued on Page 3, Column 4).

GERMAN SOCIALISTS URGED TO UPHOLD REVOLUTION

Bolshevik Speaker at Convention Looks Forward to Universal Communism.

DEATH TO BOURGEOISIE

Halle, Germany, Oct. 15.—In an address before the Independent Socialist convention here today, M. Zinovieff, chairman of the executive committee of the third international, urged the Independent Socialists to create a revolution in Germany and assist in a world revolution. Several of his statements created scenes of wild disorder.

Zinovieff declared the agrarian policy of the soviet has been necessary because the peasants would not be satisfied to work the land solely for the state. He defended terrorism on the ground that it had been necessary in the early stages of the revolution. The speaker asserted that the Balkans now were ready for revolution, which later would be extended to Asia and America.

The speaker declared that the Bolshevik would use Germany to attack France, but he declared that if the Germans joined the third international, they would not accept Moscow's orders. He predicted that it would require a generation to accomplish universal realization of communism. The Asiatic movement has been mobilized, "after being freed from such religious tradition" for a holy war on capitalism. The English proletariat now were undergoing an evolution of world significance, in which the double-edged sword already was in existence there which meant eventual death to the bourgeoisie.

Zinovieff declared that the bourgeoisie was not entitled to any quarter, as they would not hesitate to slaughter hundreds of thousands more of the world's proletariat.

May Offer a Reward. The attorney-general's department today considered offering a reward for the capture of the bandits. The question will be placed before the next meeting of the cabinet council.

City, suburban and provincial police today worked on the assumption that the bandits might have doubled back after making for the border, and come to Winnipeg or vicinity.

TO VOTE ON HYDRO. Brookville, Ont., Oct. 15.—The village of Kempville will shortly submit a bylaw to raise \$25,000 with which to build a new hydro distribution system.

Philadelphia, Oct. 15.—Sir Auckland Geddes, the British ambassador to the United States, told the members of the Medical Club here tonight that the present unrest in the world was due to physical unfitness, and not to the "ravings of radical agitators."

"Fundamentally, the unrest is due to a physical condition," he declared. "Doubtless the agitator does much harm. But agitators could not do much harm with their poisonous words if the soil were not already germinating and ready to bring forth fruit. Unrest did not come from the war. It preceded the war. It existed in Europe in the great cities before the war."

"I believe that, in England, where conditions are the greatest, more intense than they are with you, the medical profession not thru any vice, but thru carelessness and upon a lack of constructive imagination, failed to foresee and warn the government of conditions that would have been avoided."

The ambassador urged co-operation between the English-speaking countries and the great powers of the world in making the population of industrial districts physically fit, stating that physical unfitness had, as a result, a tendency toward discontent.

SMOKE OVERCOMES MAN WHILE FIGHTING FIRE. George Balfour, 35 Grant street, Buffalo, was removed to Grace Hospital at 11:30 last night in an unconscious condition from smoke fumes. At 1:15 a.m. today it was stated that the man had regained consciousness and his condition was improving. Balfour, it is stated by the police, was fighting a fire in the hold of a tug, owned by the Russell Construction Co., at the foot of Cherry street, when a fire overcame by the smoke. He was found by a fellow employee, who rescued the man from his dangerous position and reported the occurrence to the police. The police ambulance was dispatched to the scene and removed the man to the hospital.

BODY OF UNIDENTIFIED YOUNG WOMAN BURIED. More Than Eighty Persons Viewed Victim of Railway Tragedy. The burial took place yesterday afternoon from N. B. Cobble's undertaking parlors, Danforth avenue, to the City Cemetery of the unidentified young woman, whose body was found on the G.T.R. tracks near the Woodbine avenue crossing early Saturday morning last.

During the time the body lay in the morgue more than 80 persons viewed it, but none was able to identify it. The woman's clothing is being kept at the morgue and a picture was taken so that identification, if any, will have to be made from these. Interment of the body was carried out at the order of the chief coroner.

BRITAIN PREPARES FOR FINISH FIGHT IN MINERS' STRIKE

CHURCHILL UTTERS A NOTE OF WARNING

London, Oct. 15.—Speaking at Dundee, Scotland, today on the subject of employment for former soldiers, Winston Spencer Churchill, secretary for war, said that if the great coal strike occurred, its consequences would be felt in the de-arrangement of every industry. It was a coal strike he did not see any hope for dealing with un-employment in a satisfactory manner, even if the stoppage of the mines was of only a fortnight's duration.

No Signs of Mediation to Avert Walkout of Million Men—Consumption of Domestic Coal Limited and Embargo on Export—Much Depends on Action of Rail Men and Transport Workers.

London, Oct. 15.—There were no signs last tonight of any intervention or mediation to avert the coal strike, which by decision of the miners' delegates in conference this morning goes into effect on Saturday night, taking from the mines more than 1,000,000 men. The cabinet at a meeting today discussed and decided upon all necessary steps to protect the public services, and the interests of the public in general. The fact that the government has had such a long time to make preparations has tended to give a feeling of confidence to the people. Mr. Lloyd George will remain in London over the week-end, instead of taking his customary visit to the country, so as to be ready for any new development.

Emergency orders empowering the local authorities to take steps to economize in the use of coal and light have been issued by the secretary of mines. These orders will limit the consumption of domestic coal to one hundredweight weekly per household. The food ministry has been given permission to resume partial rationing if it becomes necessary.

As the strike has been brewing for so long the authorities have accumulated large stocks of coal, while private consumers have laid in supplies. Hence, unless the strike is unduly prolonged or the railwaymen decide to join the strikers, it is not expected the country will suffer seriously.

Public sympathy appears to be entirely with the government. Many people concede that the miners are entitled to an increase in wages by virtue of the (Continued on Page 5, Column 5).

PARIS OPERA STRIKE IS STILL UNSETTLED. Paris, Oct. 15.—The strike of the chorus and stage hands at the opera continues. The opera house is still closed. Negotiations are in progress, looking to a compromise between the management and the employees, but as yet there is no indication when the strike will end.

No Canadians Are Appointed To Order of British Empire. London, Oct. 15.—Two hundred and sixty-eight dominion appointments have been made to the British empire order for service in the war. There are no Canadians.

Australians include one Knight Commander of the Grand Cross South Africa has four knight commanders.

U.S. IS LIKELY TO BAR WHEAT FROM CANADA PRICE HAS 13c UPTURN. Chicago, Oct. 15.—After fluctuating thru a narrow range for several days, wheat on the Chicago Board of Trade today advanced sharply, reaching a point 18 cents a bushel higher than yesterday's close, and closing today 9 to 10 cents above yesterday's market. Possibility that the request of Gov. Allen that the president take steps to protect wheat raisers might bring an embargo on Canadian imports was given as one of the causes for the rapid climb of the market, shorts covering their commitments hurriedly.

Large Canadian imports have been given as one of the reasons for the continued recession of the market. While October options at Winnipeg went above \$2.48 and closed at \$2.41, the December wheat option in Chicago was around the \$2.18 mark. Difference in exchange has held the United States price equivalent to the higher Canadian figures.

Other midwest grain markets showed increase similar to those recorded in Chicago, the December option closing at Kansas City at \$2.12, nine cents above yesterday's price, and at Minneapolis the same option went from \$2.11 yesterday to \$2.13 today. Other (Continued on Page 6, Column 4).

PRESS OF LONDON CONDEMNNS ACTION OF THE MINERS

Accuses Them of Wanton Folly and Tyrannizing Over Nation.

ALARM FOR INDUSTRIES

London, Oct. 15.—The public attitude on the threatened coal strike, as voiced by many of the London newspapers, is hostile to the position taken by the miners, who are accused of lack of reason, wanton folly and wickedness, and a desire to impose their will tyrannously upon the whole nation. The miners are told by the newspapers that the public will support the government, and it is insisted that if they strike they must learn thru defeat and disappointment that powerful as they are, the nation is still more powerful. Alarm for the country's economic position is gravely expressed.

"A large number of important industries already are in a tottering condition, and only the slightest push is needed to cause them to collapse completely. A stoppage would be immediately fatal," is the opinion of The Daily News.

The Times and Daily Mail, claiming a desire to show fairness to both sides, refrain from condemnation of either, and make suggestions by which they believe the difficulty might be met, but declarations ascribed by various newspapers to the miners indicate such proposals are not likely to be considered.

Anxiety generally is expressed as to how the other members of labor's triple alliance—the railwaymen and the transport workers—will act in the event of a strike. Their attitude is as yet uncertain, although it is believed a large section of the railwaymen favor making common cause with the miners. The Laborite mouthpiece, The Daily Herald, says it has every hope and every confidence that the other great unions will stand by the miners, and declares:

"The day of the capitalist is at hand." The newspaper appeals for solidarity on the part of all the workers.

IRELAND FOOLISH TO CREATE A NAVY

Asquith Does Not Regard Fear as Obstacle to Dominion Home Rule.

London, Oct. 15.—Former Premier Asquith, speaking at Ayr last night, made the following reference to Dominion home rule in Ireland: "There were, however, dangers which they thought they saw in regard to the question of strategy and foreign policy. He saw no difficulty, however, in Dominion having anything more than a consultative voice in these matters. They did not propose to give Ireland more than they gave to any other dominion.

As regards the maintenance of forces for loyal defence this could not possibly deny to Ireland what had been given to the other dominions. Anybody who thought that the maintenance of an Irish militia would be a real menace to Great Britain or the empire, must be left to his own imagination. He did not believe Ireland would create a navy. She would be a great fool if she did. She could get all her navy work done for her much more cheaply and efficiently by the imperial navy close by her door. Ireland had all sorts of inlets and creeks, in which smaller vessels might enter, but it was a cardinal principle with the self-governing dominions that the imperial navy should have unrestricted use of all their ports. He would never agree to give dominion self-government to Ireland on any other terms.

BRITISH STUDENTS KIDNAP APOSTLE OF PROHIBITION. London, Oct. 15.—H. S. Warner, of Chicago, secretary of the American Students' Temperance Movement, while addressing a prohibition meeting in Sheffield was kidnapped by Sheffield University students and driven in an automobile to the moors, where he was left, according to a despatch from Sheffield this afternoon to The Evening News.

Mr. Warner was not injured, and eventually got back to town alone.

Note also that very special value is afforded in Winter Overcoats at \$28.75.

FALL Coats of the quality of these we offer at \$19.75 are not often seen at a special price, but our reason for the price-cutting in this instance is that the collection is made up of many odd coats that remained from several higher-priced groups depleted in size range by popular demand!

There are all-wool fabrics, union wool and cotton mixtures, chevots, homespun, Scotch tweeds and knitted jersey cloths, and in patterns you'll find medium and dark greys and browns, blue greys, fawn and olive green in faint checks, herringbone effects and heather mixtures.

The Heavier Overcoats at \$28.75

This gathering consists of full-fitting, half-belted storm ulsters, the shorter all-round belted ulsterettes, the plain fitted knee length models, the semi-conservative Chesterfields, and the slip-on and welted waist seam types.

CITY CONTRACTORS FORM ASSOCIATION

To Link Up and Consolidate
Construction Interests of
Toronto.

A special meeting of the paving and
sewer contractors of the city of Tor-
onto was held last evening in the
board room of the Toronto Builders'
Exchange and Construction Indus-
tries, to discuss the advisability of
forming an association of paving and
sewer contractors operating as a
branch or sub-organization of the
Builders' Exchange.

L. C. Reynolds, business manager
of the Toronto Builders' Exchange and
Construction Industries, addressed the
meeting, pointing out the necessity of
organization in the construction in-
dustry, and the advantages to be de-
rived thru the linking up of the vari-
ous trades and businesses with the
idea of consolidating the construction
interests of the city.

James Pearson, president of the
Construction & Paving Co., suggested
that the representatives of the sewer
and paving contractors present at the
meeting unite in forming an associa-
tion embracing the roadway, sewer
and sidewalk contractors of the city,
making application for permission to
operate as a sub-organization of the
Builders' Exchange. This motion was
seconded and carried unanimously.

A. W. Godson of the Godson Con-
tracting Company was elected chair-
man, and Mr. L. C. Reynolds, secre-
tary.

The meeting then considered the
question of membership, bylaws, etc.
The chairman appointed Messrs. Jupp,
McGuire and Dransfield to act as an
executive committee, in conjunction
with the secretary, with instructions
to make a complete organization re-
port to be presented at the next
meeting.

TO INSTRUCT ITALIANS ON CITIZENSHIP DUTY

Local Italians have been called to
attend a lecture by Mr. Vanni Op-
nova, general organizer in Canada of
the Italo-Canadian Educational and
Political League, on Monday, at 3:30

The aim of the league is to instruct
Italians in the system of government
in their adopted country, so that they
will seek to take up full citizenship
and to fully discharge their duties as
Canadians. Mr. Corti, editor of the
local Tribuna Canadiana, will also
address the meeting.

REPORTS OF COAL FINDS USUALLY GROUNDLESS

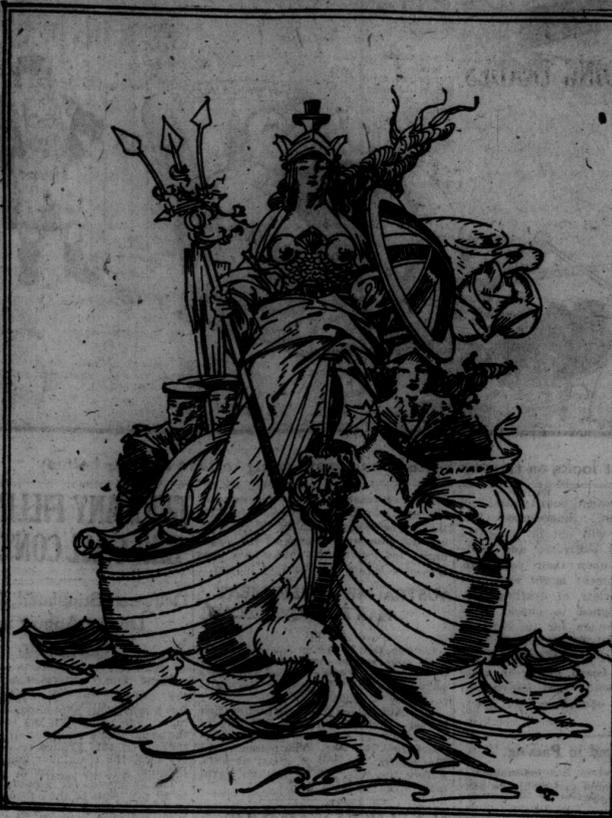

Hon. H. Mills, minister of mines, in
speaking of the reported find of coal
near Shelburne, stated that such re-
ports should be treated with much re-
serve. There is nothing new in the
so-called discovery. Years ago frag-
ments of carbonaceous material were
found in that locality, or in the soil,
but not in the rock formation. There
is an entire absence of any indication
of a true coal seam. The department
obtained samples of the alleged find
this week, and on examination they
proved valueless. Mr. Mills said no
one would be more pleased than he
to find a good coal mine in Ontario,
but the occurrence at Shelburne gave
no promise of filling the bill.

To Continue in Public Service—

The Navy League of Canada Needs \$760,000

Since the money must come from the people, explanation is due
to them of the need for it. The work of the Navy League is:

To Continue the Sea-Conscious Spirit in the People and in the Government.

To enlighten people upon the importance of the
sea; so that Canadian products may be shipped,
through Canadian ports, in Canadian ships,
officered and manned by trained Canadians.

To Continue the Sea-Conscious Spirit in the Schools.

As a Merchant Navy is the first step to sea
power in any nation, so is the seed-sowing of fun-
damental national ideals in the schools, the first step
to national greatness.

To Continue Training 2,000 Canadian Lads for the Sea.

The continuous training of over two thousand Can-
adian lads, in the Boys' Naval Brigades of the
Navy League of Canada, is to-day having an effect
upon our maritime future.

Since May last, sixty of these lads have completed
their training and passed into the Canadian Mer-
chant Navy. Fifty more have gone to England to
man the new ships of the re-organized Royal Can-
adian Navy.

Under the guidance of Experienced Sea Minds, it
is being planned to give chosen lads from the Boys'
Naval Brigades an ocean-going education second to
none, so that Canada will have efficient master
seamen.

To Continue to Relieve Distress of Canadian Merchant Sailors.

After this year the League expects to cease asking
for funds for the relief of the Canadian dependents
of Merchant Sailors who were killed on Active Ser-
vice. With the trust funds now in hand, together
with the sum set aside in the Budget, to be raised by
public subscription, it should be possible to establish
an endowment, the income from which will be suf-
ficient to provide these dependents with a pension
equal to that granted to the dependents of Naval
men killed on Active Service.

As many of these dependents are young children,
the endowment must continue for a number of
years, until the children become self-supporting.

To Continue Upholding Every Sailors' Home, Institute and Sailors' Welfare Society in Canada.

The Navy League seeks to make life comfortable
for our sailors when ashore. After all, Canada is
their home; and the home, while they are here, of
the sailors of other lands.

The Navy League endows, maintains or assists in
maintaining every Sailors' Home, Institute, and
Welfare Society in Canada. And every dollar sub-
scribed for the maintenance of these Homes and
Institutes will be money well invested and redound
to our national prosperity.

These objects can only be achieved through an
organization representative of public responsibility
and outside party politics.

The obligation is apparent, simple, easy! Borne in proportion, from coast to coast,
the weight is felt, but not the strain. The public expect this work to continue and
to be maintained by public subscription "until it yields the true glory."

Montreal Will Benefit No Less Than Toronto by Making the St. Lawrence an Ocean Highway.

The great advantage of damming and deepening the St. Lawrence will be the almost unlimited generation of electric energy. This will benefit Montreal no less than Toronto and make them even more than now great centres of industrial activity.

A certain number of passengers may be transferred from boat to train and a certain amount of cargo may be broken at Montreal, which under the new big scheme of development would come on direct to Toronto.

The outcry against the embargo on sugar gives rise to the suggestion that the board of commerce should be abolished. The idea seems to be that the board ought to be punished.

British miners would do well to remember the old fable of the greedy dog who lost his bone in reaching for its reflection.

Ask a hundred people taken at random who constitute the board of commerce and ninety-nine will shrug their shoulders and reply "search me."

The government's final action on the sugar question was no doubt precipitated by the news that if something was not done Mackenzie King was going to cuss right out in public.

Our governments, Dominion and provincial alike, should have a legal staff equipped for all emergencies, and assured of steady employment. As it is, there seems to be a fatal hiatus between imposition and prosecution.

Our Dominion attorney-general is a good lawyer, but he takes the position that he is not called upon to enforce the law. It took him only a few hours to pronounce the board of commerce's embargo on sugar as contrary to the spirit and letter of the law.

The board of commerce has fixed the price of a pound of sugar at twenty-one cents, which is just nine cents cheaper than its own valuation in the estimation of the public.

It looks as tho the British miners are going to take another holiday.

The outcry against the embargo on sugar gives rise to the suggestion that the board of commerce should be abolished.

The board of commerce has fixed the price of a pound of sugar at twenty-one cents, which is just nine cents cheaper than its own valuation in the estimation of the public.

The Winkler constable whose wife made him stay in bed while robbers rifled the local bank must have been reading some of that safety week literature.

A glance at the front pages of the New York and Chicago dailies these days would seem to indicate that both those cities are in a state of war.

Montreal is laughing because Toronto failed to come across with any well-

considered reasons for the deepening of the St. Lawrence waterways. Just for that it behooves somebody to get busy and put into writing some of the arguments and figures that should have been presented before the board of inquiry.

There is work to be done by the right kind of board acting in close co-operation with the department of justice and backed by the power of the nation.

Perhaps MacSwiney has determined to hold out on a liquid diet until the price of food comes down.

A gentleman in London has been sent to prison for "quadroonism"; he had four wives. Just how would you describe King Solomon's way of doing it?

Stranger things have happened than that the bite of a monkey should result in the founding of a Greek republic.

Judging from the reports from Moscow the Bolsheviks must be enjoying an uninterrupted series of successes—if you believe them.

Ask a hundred people taken at random who constitute the board of commerce and ninety-nine will shrug their shoulders and reply "search me."

The board of commerce has fixed the price of a pound of sugar at twenty-one cents, which is just nine cents cheaper than its own valuation in the estimation of the public.

The Winkler constable whose wife made him stay in bed while robbers rifled the local bank must have been reading some of that safety week literature.

The government's final action on the sugar question was no doubt precipitated by the news that if something was not done Mackenzie King was going to cuss right out in public.

A man went to sleep in a New York barber chair and when he woke up had \$4.55 worth of barbering done to him.

A glance at the front pages of the New York and Chicago dailies these days would seem to indicate that both those cities are in a state of war.

THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER X. (Continued.)

"I'll go and sit with Percy a little while now," said Marguerite. "Poor fellow! What a shame he should have with this mishap after his gallant walk today. Perhaps that is why he fell. His muscles may have relaxed owing to over-exertion. Will you ever forgive me, Bob, for all the worry I have caused you?"

"No," he said. "I want you to remind me by it so often that we shall lose count of the number of times. But, before you go upstairs, let me warn you that Dr. Scalfie gave our young friend about twenty grains of bromide in one gulp. He may be dosing. If he is, don't wake him."

In a couple of minutes she was back in the library, where Armathwaite was seated with a book and a pipe. "He's asleep," she whispered. "I'm glad to hear that. Would you sit down. Are you too tired to answer questions?"

"Concerning your change of name—can you explain more definitely how it came about?" "I told you. It was on account of a legacy."

"But from whom? Who was the Oglivey who left the money? A relative on your father's side, or your mother's?" "Dad's, I understood."

"Yes. Some people of that name lived here years ago. We were distantly related. In fact, that is how the property came into dad's possession. But he never really went into details. One day he had made a will, leaving me everything, subject to a life interest for mother, and that when he was dead a lawyer would tell me all that I ought to know. Then I cried at the horrid thought that he would have to die at all, and he laughed at me, and that was the last I ever heard of it. Why do you ask?"

"You remember that we promised not to hide anything from one another?" "Of course I remember."

"Well, then, I think I have hit on a sort of a clue to the Oglivey part of the mystery, at any rate. By the merest chance, while awaiting the return of Mr. Burr's man from the village, our talk turned on the history of this house. He spoke of the Faulkners, and mentioned the fact that the eldest son of a daughter of the family, a Mrs. Oglivey, was born here. That would be some fifty odd years ago. How old is your father?"

McMASTER HEIGHTS. The location of this property, as shown in the above key plan, is sufficient guarantee for a great increase in value. The WATER MAINS are already laid on Roselawn and Latimer Avenues. The proposed new CAR LINE will strike Eglington Avenue just east of this property, which occupies a high and unrivaled position. At \$16.00 Per Foot and Up. An opportunity is offered to builders and investors unequalled elsewhere in the city. Terms \$1.00 per foot cash.

Will Dedicate Citadel of Salvation Army This afternoon, at 3.30, the official opening of the Erieport new Salvation Army Citadel will take place. Commissioner Richards will perform the dedication ceremony. He will be assisted by Lieut.-Col. Ady, Lieut.-Col. and Mrs. Morahan, and the staff quartet. The full band of the Salvation Army soldiers, led by Alex. Gordon. The new home of the army on South Dufferin street will seat around 800 people. The entire cost is nearly \$40,000, part of which has been met by public subscription and from headquarters. The Salvation Army public has also contributed generously. There remains, however, quite a sum to clear off.

ISSUE WARRANT FOR WANTED OIL BROKER

Case of Alleged Swindler Now in Hands of Toronto Detectives.

A warrant has been issued for the arrest of H. W. Hodgkinson, late stock broker of Toronto and selling agent for the Imperial Production Co., Dallas, Texas. The case has been placed in the hands of Detective Whitlaw of the city detective department.

The feeling regarding the board of commerce's action in raising the price of sugar is growing in the east end," said A. J. Smith, president of Riverside Horticultural Society, "is I."

The alleged delinquency of York Township assessment department in the prompt delivery of assessment and tax papers was the subject of much discussion at a well-attended meeting of Danforth Park and Eastdale Joint Ratepayers' Associations, held in Second School, Harrington avenue, last night. Dave Harris, president in the chair, it was pointed out that bills should be in the hands of ratepayers on the first day of each month, thereby giving ten days from that date for appeal, if desired.

A letter was read from W. A. Clarke, township clerk, stating that the council was doing everything possible to supply the eastern section with water, and hope to commence laying the pipes at an early date.

The resignation of A. Oxley, secretary, was accepted to be appointed at next meeting. Indignation was expressed by the meeting regarding the board of commerce's action in advancing the price of sugar, and it was decided to co-operate with other organizations in a united protest.

Danforth Lodge, No. 413, L.O.O.F., held a well-attended meeting in Phyllis's Hall, Danforth avenue, when the bylaws were revised. District Deputy Tom Robinson has a talk on his recent visitation, and urged members to visit other lodges as often as possible during the winter season.

Work of grading the recently-subdivided Globe estate has now commenced, and the following streets opened up: North to south, Gilemeont and Woodbourne avenues; east to west, Strathmore, Wolveliegh, Milverton and Gilemeont boulevards. The sewer and water service will be laid shortly. It is stated.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY Rub Pain From Back With Small Trial Bottle of Old "St. Jacobs Oil."

When your back is sore and lame, or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" in any drug store, pour a little in your hand, and rub it right on your aching back, and by the time you count fifty the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless, and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

OVER MILLION ON WATER EXTENSIONS

Formal Turning On Witnessed by Representative Body of Citizens.

Yesterday morning at 10.50 water extension of the western section of the township of York, representing a complete expenditure of \$1,165,000, were formally turned on at the corner of Eglinton avenue and Weston road, Mount Dennis, by Reeve F. H. Miller and the council, in the presence of a good representative body of citizens as well as representatives from Toronto.

"It has been a big undertaking," said Mr. Miller, "it was started under ex-Warden Thomas Griffith in the year 1917, when the first part was turned on for Mount Dennis, and with changing prices and increasing labor costs, it has been no small task to bring to completion. I am glad to be here today to have a part in the turning of the water to one of the greatest extensions north of Toronto."

Ex-Warden Griffith, who had been connected with York township had council for eight years, spoke feelingly of the amount of work that was done by municipal officials that took years sometimes to show results. "I am glad to see the work carried out to a success, and I think it a great tribute to the engineers who have thus connected East and West York with this water system." Mr. Griffith expressed a hope that the work of the councillors would be more appreciated, as the general public knew nothing of the hours they spent laboring over "such questions as this."

Warden J. Mark Gardhouse, of York County, represented also the town of Weston in congratulations on the extension of the water mains to Mount Dennis.

Immense Undertaking Many phases of the immensity of the undertaking were brought to light as the different speakers added their compliments. Representative Hitchcock, of the water works of Toronto, made a pleasing reference to the ability of R. C. Wynne Roberts, the township engineer, and Engineer Frank Barber also referred to extensive work done by him in Cape Town and in Great Britain on the same lines of work.

The work of W. A. Clarke, in preparing the water bylaw for the legislature, and which has since been used by many municipalities in the province, was commented upon by Second Deputy Reeve W. M. Graham. Mr. Clarke told of the changing assessment of the township due to annexation to the city of Toronto. "We have an assessment of about \$450,000, and we have had taken from us \$27,000,000 in assessed value, or an amount equal to that of Hamilton," he said. Mr. Clarke spoke of the harmony of the council, and he did not think it right that so much responsibility should devolve upon so few men. "We have five men here doing what that is being done by other five men in Canada," he stated.

The address of Engineer Wynne Roberts contained some amazing information. The individual consumption of water, per individual daily in the township is 20 gallons," he said. "In the city of Toronto it is 120 gallons. There is a population of 26,000. The work just completed has been going on for three and a half years, and relations with both the township and city councils has been harmonious. The mains are of 12, 16 and 24 inches diameter, the cost being respectively, \$76,000,000, \$274,000,000 and (16 and 24), \$315,000. The water mains of schedule A and B, extend from Upper Canada College to the Humber, cover 4 1/2 miles; from Swansea to Mount Dennis, 4 1/2 miles; and from Mount Dennis, 4 1/2 miles. The whole has been completed at a cost of \$1,165,000. Pay Tribute to Work.

There were many other speakers to pay tribute to the work. Councillor James King, who presided, congratulated the contractor, Graham & Co., Superintendent Palmer, of the Kodak Co., spoke for the manufacturers.

Early in the program, Reeve F. H. Miller was surprised by the gift of a handsome signet ring from the water-works department, presented by Engineer Barber.

A wave of humor was experienced when it was found that the key for turning on the water had not arrived in time, and the work had to be delayed. The key was eventually found by the west-enders thought it would be a fine trick to swipe the key when it did come and have it gold-plated for a souvenir. When the key was eventually arrived, it was found to be about 16 feet in length and weighing 100 pounds in weight, and required Reeve Miller, ex-Warden Griffith, Warden Gardhouse and several others to push hard to operate it.

BOYS' PROMPT ACTION STOPS RUNAWAY HORSE By the prompt action of Samuel Servant, aged 16, 383 Main street, a runaway horse attached to a delivery wagon, without a driver, was brought to a standstill at the head of Kingwood avenue, near the Kingston road, where the roadway is under repair, yesterday afternoon.

With remarkable presence of mind the boy, who is employed at Spillers grocery store, East Queen street, jumped into his motor delivery truck, and leading off the animal along its reins, bringing it to a standstill, thereby preventing a possible accident.

Personal Banking Service

Because of the present money situation, the collection of notes and drafts has become increasingly important to every business.

As an indication of what our "Personal Service" policy means in the matter of Collections, we cite the following: A stereotyped reason for refusing payment will not be accepted by us. If after every effort to collect, a note or draft still remains unpaid, a complete and satisfactory reason for non-acceptance must be obtained before it is returned. This saves time and the cost of double drawing.

The adoption of this personal attention to each individual client has resulted in a speedier Collection Service with notably better results.

If you would learn more regarding "Personal Banking Service" and its beneficial effect on every Banking transaction, let us get acquainted—in your office or ours.

WOMAN SHOTS MAN IN CALM MANNER

Fired Five Shots Into Body and Wiped Her Fingers on Handkerchief.

New York, Oct. 15.—(Special)—Pushing her way gently thru the morning rush-hour throngs at 106th street and Second avenue yesterday a modestly dressed young woman slipped quietly up behind Frank Rucolano, an electrical engineer, pressed a revolver to the base of his brain and fired. His body fell and rolled over into the gutter. While scores looked on, the young woman gazed at her victim for a moment, and then walked over and fired four more bullets into the body. Each bullet lodged in a vital spot. Reaching into a gold mesh bag, the slayer withdrew a lace handkerchief, wiped the smoke and powder stains from her fingers and a well-modulated voice said: "That is done." Pursued by a crowd, the woman vanished into the hallway of a tenement house, and all efforts to locate her hiding-place were unavailing. The woman is said to be Rucolano's common law wife.

BYLAW ON TELEPHONES FOR COBALT RATEPAYERS

Cobalt, Ont., Oct. 15.—Another state has been reached in the telephone controversy which has been agitating the people here more or less for several years. The town council has decided to submit to a vote of the people at the next municipal election the measure which was defeated on a small vote last July. This was a bylaw providing for granting the Temiskaming Telephone Company a new franchise on the terms of the old franchise, with the exception of a reduction of \$5 yearly in the rental of business telephones. If the bylaw is carried on the next vote, the rebate on business telephones will be retroactive from August 1 of this year.

EXPLAINS HIGHER COST OF BUILDING RADIALS

Due to Increased Labor and Material Rates, Chief Engineer Gaby Tells Commission—Higher Revenue Figures Also Expected From Proposed Lines — Government Could Have Secured All the Information Required.

Defence of the increased radial railway construction estimates submitted to the Sutherland Radial Railway Commission, as compared with estimates previously submitted to the government, was continued yesterday before the commission, sitting in Osgoode Hall, by chief engineer F. A. Gaby, of the Hydro-Electric Commission. The increased estimates, Mr. Gaby maintained, were due to proportionately increased costs in labor and material during the years 1918 and 1919, the original estimates to the government having been based on these costs as of 1918. Similarly, higher figures as expected revenue from the proposed hydro lines were based upon increases of forty per cent. in railroad passenger rates in 1918 and 1919.

It was disclosed that the estimates submitted to the government in May, 1920, were based on present day conditions whereas the estimates later submitted to the Sutherland commission were based on conditions projected to 1925. Population estimates as submitted to the government and to the commission differed slightly. For instance, in the case of Mimico, New Toronto and Etobicoke, the original estimates based on 1918 figures, gave a combined population for these three towns totaling 5750, whereas the later estimates gave the population as 1152. To this later figure forty per cent. has been added in arriving at the probable population in 1925.

Questioning further as to the estimates, I. F. Hellmuth, crown counsel, said that evidence showed that for the Toronto-St. Catharines radial the government had been given \$1,441,460 as the probable passenger revenue, while the commission had been given the figure, \$1,694,876. Mr. Hellmuth asked for an explanation for the difference of about \$250,000 in the estimates.

"It must be remembered," said Mr. Gaby, "the estimates which were submitted to the government were based on information as to the 1918 population. No attempt was made then to find the population for 1920."

Population Estimates.

As to the population estimates submitted in any of the Hydro reports, Mr. Gaby said no figures could be given as to the inevitable increase of population following the installation of a new radial line. He explained that the estimates obtained in July were partly sifted from the records of the clerks of the various towns, but that even they did not then show accurate figures as to the 1920 population. "There has been in the last year a tremendous growth in New Toronto—wards of new houses not yet shown in the assessment records," said Mr. Gaby.

Mr. Robertson, representing critics of the Hydro radial plans, presented a copy of estimates as submitted to the government last spring, containing information as to passenger and freight rates which the commission had not received. It was explained that the report Mr. Robertson had was data submitted to the municipalities.

"We never undertook to supply this commission what we supplied the government; we never understood it was wanted," said Mr. McKay for the Hydro.

Mr. Hellmuth read the original letter addressed to the Hydro-Electric Commission on March 18, 1920, requesting information concerning Hydro's radial plans. The letter asked for detailed particulars as to the situation of each of the proposed Hydro-Electric railways, lines, the

commission contemplated operating, and estimates of costs of construction and of operation.

"You are proposing in your estimates to this commission," said Mr. Hellmuth, getting back to the reports, "a different service from that proposed to the government? You propose an increased cost of construction?"

Mr. Gaby pointed out that the Hydro Commission had stated to the government at the time of making its report in May, 1920, there was no proposal to go ahead with the plan at the then existing high prices of labor and material. He added that there was practically no difference in the costs now as compared with the costs at the time the latest estimates were made.

Additional Car Mileage.

The latest place the cost of construction of the proposed Toronto-St. Catharines radial at \$2,238,635, including new equipment and rolling stock, whereas the original estimates submitted to the municipalities was \$1,886,792.52. Mr. Gaby explained this wide difference was partly due to additional car mileage and additional equipment provided in the later plans.

"Then the information you are now giving the commission is not what was asked for," said Mr. Hellmuth, "is a result of the inquiry by this commission that has brought about these estimates?" "Yes."

ORDER FOR OPENING DOUGHTY'S BANK BOX

An order was obtained yesterday from J. A. C. Cameron, official referee, by G. T. Walsh, acting for Mrs. Doughty, on the Dominion Bank, ordering them to hand over the safe deposit box belonging to John Doughty to the Chartered Trust & Executor Company, who are acting as a committee for the estate. An application was made to the bank for the box some days ago, but they refused to part with it unless under the authority of an order of the court.

Miss Clara Brett Martin, the solicitor acting for the Doughty children and the missing man's sisters, told The World last night that she handed over the key to the safe.

Miss Martin did not think the box had been opened yet, as she had received no notice to attend and it was understood such notice was to be given to her.

BIG WOODBRIDGE FAIR ON THANKSGIVING DAY

Everything is in readiness for the big Woodbridge Fair on Thanksgiving Day. The new grounds are in first class condition. The entries are larger than ever before known, especially in horses, cattle and poultry, and the races promise to be the best ever held in the province. The new half-mile track is in beautiful shape. A special train leaves Toronto Union Station at 12.30 noon. The Toronto suburban cars leave Keele and Dundas streets every 20 minutes and promise to accommodate the largest crowd of any rural fair ever held in the Dominion. The roads from Toronto to Woodbridge are in excellent shape for motoring, and it looks as if Woodbridge is to have the biggest day in its history.

POWER IS SHUT OFF FOR ONTARIO COMPANY

The Electrical Development (Mackenzie) Company ceased last night to supply the Ontario Power (Beck) Company with 13,500 horsepower with which the Mackenzie concern had contracted to furnish the Ontario Power Company prior to the latter being acquired by the Hydro.

It is understood that a contract for the same amount which has been supplied to the Buffalo General Electric Company by the Electrical Development expires on October 25. But this (about three-quarters of the total amount exported by the E. D.) is being renewed for a five-year period.

MEN YOU HEAR OF Seen as Their Friends Know Them

REGISTRATION BOARD WILL NOT TAKE ACTION

The registration board for Northeast Toronto decided to take no action on the application made on behalf of the Liberal candidate in the by-election to have the time for receiving appeals to have names added to the voters' lists extended from October 19 to October 21.

The board was not sure that it had the power under the act as amended at the last sitting of the legislature to grant the extension, and in view of this uncertainty and the fact that any voter may appear before the revising judge at any time, without notice, and have his name placed on the list, unless it can be shown that he has no right to vote, no action was taken.

JUDGE MORGAN'S WILL.

Alfred H. Joyce has been appointed to administer the estate of Judge Edward Morgan who died intestate, August 30, leaving a store in Port Arthur, valued at \$500, a mortgage for \$5,000, life insurance, \$4,500; uncashed cheques for \$316. The heirs are his widow, Mrs. Theresa M. Morgan, and Mrs. Vera M. Gzowski, Florence and Minnie Hope Morgan, daughters of the deceased.

HAD LEG BROKEN.

Joseph Parrish, 218 Chestnut street, a workman for the Toronto Street Railway, had his leg broken yesterday afternoon, while working on a new road bed on Parliament street, near Gerrard street. He received the injury when part of the traveling concrete mixer collapsed and fell on him. He was taken to the General Hospital in the police ambulance.

STRUCK BY WAGON.

Struck by a wagon at the corner of Queen and Chestnut streets yesterday afternoon, Kenneth Croker, 123 Quebec avenue, received slight injuries but was able to proceed to his home, Arthur Bench, 108 Oak street, was the driver of the wagon.

DISTRIBUTE PRIZES AT UPPER CANADA

Principal Grant Urges Greater Latitude in Curriculum of Schools.

Prize day, the nineteenth since the establishment of the school, was observed at Upper Canada College yesterday. Principal W. L. Grant, in his address, deplored the fact that greater latitude in the matter of subjects for school curriculum is not given to local bodies. "It is absurd," he said, "that the child of the farm, the child of the city, of the industrial centre, and of the mining community should be taught the same things, the same way, and the same type of teaching. The part the residential schools play in differentiating this unfortunate uniformity is worthy of public attention."

The principal also stated that the past year had been signalized by marked improvement in the school. Short addresses were made by friends of the college in presenting the prizes.

Colonel G. T. Denison made the presentation by W. G. Gooderham to E. S. Davis, winner of the gold medal, and J. Y. W. Braithwaite, winner of the silver medal.

W. Craft and E. Grier won the lieutenant-governor's medals, which were presented by the Hon. G. C. Smith, minister of education for Alberta. A. K. McIlwraith received the governor-general's general proficiency medal, which was presented by Dr. Wilfred Grenfell, who gave a short address.

Among other prizes presented were: Mathematics, old boys' prize, A. K. McIlwraith; French, J. T. Pemberton; classics, old boys' prize, A. K. McIlwraith; Glazebrook prize in Latin, A. K. McIlwraith; the Maurice Clarkson memorial scholarship, M. F. Auden; the James Scott scholarship in mathematics, A. K. McIlwraith; the J. A. Culverwell scholarship in mathematics, W. Craft.

ADD TO EXECUTIVE ON SOCIAL DISEASE

At a meeting of the Toronto branch of the Canadian National Council for Combating Venereal Diseases, held yesterday afternoon, several additions were made to the local executive. Mrs. D. O'Sullivan was appointed chairman of a committee on social aspects, with Miss Helen Austin as secretary. Mrs. Amy Huestis was named as temporary chairwoman of the membership committee; Mr. Lionel Davis chairman of the program committee, while Mr. McEad was appointed Toronto secretary, R. H. C. Cruikshank retiring from the position of honorary secretary. Preparations are under way for a membership drive, the objective of which, it is understood, is 20,000 members in Toronto. It is hoped that the visit to Toronto early in November of Mrs. Neville Lofie, D.B.E. (Mrs. H. C. Gotta) will greatly stimulate interest in the committee's work. Mrs. Rolfe is general secretary of the British National Council and has been largely responsible for the organization of the present body, whose branches are to be found in all the corners of the British Isles.

LARGE QUANTITY CLOTH IS TAKEN BY POLICE

In different parts of the house at 225 Simcoe street, Detectives Ward and Nicholls yesterday afternoon found a quantity of cloth, valued at \$800. The cloth was removed to detective headquarters at the city hall, where it has not yet been claimed.

Immanuel Cohen, living at the above address, stated to the police that he had bought the goods from a man off the street. He, along with Jacob Altberger and Benjamin Altberger, both of that address, and Max Rosen, 19 Baldwin street, were all taken in custody on a charge of vagrancy.

BOY FALLS FROM TREE

When he fell from a horse chestnut tree on Garden avenue, up which he had climbed to secure some of the nuts, seven-year-old Gordon Ellison, 121 1-2 Fern avenue, received a broken left arm. He was taken to the St. Michael's hospital.

LOCAL IMPORTERS BUY SUGAR IN U. S.

Local Customs Officials Have No Instructions to Prevent Such Course.

While it cannot be ascertained with absolute certainty, until the board of commerce's sugar order is formally rescinded, that the embargo on importations from the United States will be lifted, the consensus of feeling among local men in the trade is that the order will be given a knockout blow at Ottawa on Wednesday next. It is known that sugar importers in Toronto are, in many cases, going ahead with importations from the United States without any regard for the present rather mixed situation in Ottawa. The local customs officials have no instructions to prohibit imports, and are passing shipments in the regular way.

J. Allan Ross of the Wrigley Company expressed the opinion that the price will settle down around the 16c level, or lower, a number of large sales having been made in the past few days at 16c.

Rhys D. Fairbairn, formerly one of the sugar controllers for Canada, in his capacity as a member of the Canadian trade commission, said yesterday that the public was inclined to be unjust to the refiners.

"If, thru causes not generally known, a keen fight comes between American corporations for control of the sugar market, thereby causing a tremendous slump in price, the ultimate effect might be to hit Canada hard by forcing her refiners out of business. This would place the control of Canada's essential food product in the hands of American corporations," he said.

INJURED BY AUTO.

Joseph Ryan, 11 Prescott st., received a compound fracture of the left ankle yesterday afternoon when he was run down by an auto at King st., and Elm Grove. Mrs. Sprink, 59 Wilson ave., driver of the auto reported the accident to the police and was not detained. Ryan was taken to the St. Michael's Hospital in a passing auto.
