ST. JOHN, N. B., SATURDAY, AUGUST 7, 1909

TWELVE PAGES—ONE CENT

LICENSES BRING MANY DOLLARS INTO TREASURE CHEST AT CITY HALL

Yearly Receipts Run from \$6,000 to \$8,000—Twenty Seven Coachmen Contribute—Citizens Pay for 1,345 Dogs This Year—Amusements Add to Pile in Coffers—The Fat Years and the Lean.

The revenue derived by the city from licenses of various kinds amounts to no small sum in the course of a year. The total amount realized from this source runs from about \$6,000 to \$8,000 in twelve months. In the chamberlain's office they figure the returns for the calendar year, January to December, but the issuer of licenses makes up his books from May 1 to April 30, the licenses all dating from the first day of May.

More Than \$5,000 This Year - The chamberlain's books show that up to the present time there has been received from license fees, since January 1st, \$5,888.50. The greater part of this amount has been gathered in since May 1, as the books of Clarence Ward, issuer of licenses, show that great many licenses have been issued since that date. Up to the present time, 1,345 dogs have been licensed, the last entry of this kind being on July 26. Of the total number, fourteen owners had to pay double fees as they did not take out the necessary document until after July 1. The receipts from dog taxes this year are larger than ever before, due principally to the increase in the tax rate on bitches, but also due to a very great extent to the energetic and thorough way in which the policemen took the "canine census."

Twenty Seven Coachmen - Twenty-seven coachmen have contributed \$4 each; eleven omnibus drivers have paid a like amount, and eight expressmen have handed in \$3 each. For the privilege of driving a sloop, unlicensed, forty-six drivers of single teams have donated \$2 each, and four who have double teams have advanced \$4 each. Many more in this class have yet to be heard from and next week will probably see a large number reported.

Will Ignore Demands of Employees - Pressed Steel Car Officials Say They Will Not Consider Strikers' Request. Pittsburgh, Aug. 6.—The officials of the Pressed Steel Car Company will ignore the demands of their 3,500 employees who have been on a strike for several weeks, that the scale in 1907 be restored, that overtime in a certain ratio be paid for extra work, and that an official of the plant be dismissed.

Forest Fires Again on the North Shore - Serious Conflagration Reported at Black River District—Flames Leaping Along at Rapid Pace. Chatham, N. B., Aug. 7.—(Special)—Forest fires have again broken out in this vicinity owing to dry spell and a serious conflagration is reported from Black River district. The fire has made great headway and is now not far from Adam McLean's house and other settlements. Farmers who have come in from that section, state the fire is working through to Richibucto road at swift pace.

THREE TUGS IN TROUBLE IN RIVER

The James Holly Strikes River's Pier and Goes Down

The W. H. Murray Breaks Wheel and the Winnie Goes Aground on Brandy Point—Thick Fog Made River Navigation Hard.

A thick fog on the river this morning played havoc with the tugboats. The James Holly struck on the river's pier, below Boat's Head, and sank, the Winnie is aground at Brandy Point and the W. H. Murray broke her wheel in entering South Bay with a raft of logs.

LOCAL CROPS GOOD BUT NEED MAIN HELP IS SCARCE

There is promise of good crops, but the country needs rain. Riding through a section of Kings county yesterday and talking with the farmers, this was the substance of the information gleaned by a Times man. The very dry and warm weather of the last week has been good for the haymakers, although they have not made as good progress as they should have done, owing no doubt to a scarcity of help. Many fields were seen that should have been cut and the hay housed.

CURRENCY MONEY MATTER OVER TILL MONDAY

Judgment was to have been delivered this morning in the divorce court on the application for suit money in the case of Curry vs. Curry. Judge McKewen announced, however, that he would deliver judgment Monday morning, as he desired more time to look into the matter.

LATE LOCALS

The S.S. Campania mails have left New York and are due here at noon on Monday. Wilson Davis was arrested in Union St. this morning by Policeman Steves, on a charge of drunkenness and begging in Union street.

MORNING NEWS BY WIRE

Toronto, Aug. 6.—Dr. Wm. Brodie, entomologist of the education department of Ontario, died here today. Ottawa, Aug. 6.—Capt. Thos. Kyffin, of Liverpool (N. S.), has been gazetted master of the Canadian fisheries protection service.

PRINCESS THEATRE TO BE SOLD

Property of Company Advertized for Sale, Sheriff Seizes

G. C. JORDAN'S MOVE - Seizure Under Execution Issued - Out of Supreme Court By Him - Had Advanced Money - Sale at Chubb's Cor., Aug. 16

Announcement was made today that the property of Amusements Limited, the company which has conducted the Princess Theatre corner Princess and Charlotte streets, will be sold at public auction at Chubb's corner, on Monday, August 16 at noon. The sale is instituted by G. C. Jordan, a director and creditor of the concern, it being stated that they loaned at various times sums of money for carrying on the enterprise.

NEW SISTERS OF CHARITY

Eight Received Into Community This Morning at St. Vincent's. This morning there took place in St. Vincent's, Cliff street, the beautiful ceremony of the reception of eight new sisters, among the Sisters of Charity in the diocese of St. John. His Lordship the Bishop officiated at the religious profession, at the closing of the retreat, said the mass and addressed the sisters at some length.

POLICE COURT

Woman and Man, Arrested in Barn, Dealt With Today. In the police court this morning George Fowler, aged 30, and Celia Donovan, aged 50, pleaded guilty to lying and lurking in Starr's barn in George street, last night. The judge sentenced them to a month in the workhouse.

FELL 500 FEET AND SURVIVES

New Haven, Aug. 7.—George Drew, an aeronaut from New York, is alive after falling five hundred feet through the air here Thursday. He once escaped to the fact that he struck in the waters of New Haven harbor instead of being dashed to pieces upon the dry land at some length.

WHITELAW REID TO STAY ANOTHER YEAR

New York, Aug. 7.—Whitelaw Reid will remain ambassador to the court of St. James for at least a year longer, says a cable despatch to the World from London. It is said that Mr. Reid expected to relinquish his post as soon as Mr. Tait became president of the United States, but Mrs. Reid desired to pass the present season there and President Taft obliged her the more gladly because of the difficulty he has found in choosing a successor to Mr. Reid.

RACE ACROSS OCEAN TO GET WITHIN THE NEW TARIFF RATES

The Giant Pennsylvania Wins and Loses - Opinions of Customs Broker - Cargo Largely of the Kind Affected by New Rates.

New York, Aug. 6.—The giant steamship Pennsylvania, of the Hamburg-American Line, won and lost her race across the Atlantic yesterday for a \$20,000 prize, according to the two views of customs brokers and of Collector Loeb. The assertion of the former is that she is within the three-mile-limit—having arrived at Sandy Hook at 10 o'clock last night—and therefore her cargo must be appraised under the old tariff schedule, while, on the other hand, Mr. Loeb maintains that the captain of the ship should have delivered his manifesto at the customs house before the closing hour, 4:30 p. m., if he was to bring the cargo of his vessel into port under the old law.

RUSSIA TO BUILD EIGHT BATTLESHIPS

St. Petersburg, Aug. 6.—Russia's naval programme for the next few years according to plans just completed by the navy department, includes the construction of eight battleships, a division of four armored cruisers and 30 torpedo boats.

NEW TARIFF RELATIONS

Washington, Aug. 6.—The full amount of time stipulated in trade agreements with foreign governments, which is six months in the case of Germany and Great Britain, and twelve months in the case of Portugal, Italy, Spain and the Netherlands, will be given by the state department in abrogation of these agreements following the enactment of the new tariff law.

PLAN CHANGE OF REGIME IN EGYPT

Constantinople, Aug. 6.—The chief of the Egyptian Nationalist party, Fahmy Bey, had numerous interviews with members of the Young Turk committee, as well as with certain influential deputies, with a view of organizing a congress to discuss the introduction of a constitutional regime in Egypt, and to call upon the Khedive in the role of a Muslim prince, and vassal of the constitutional Sultan, to conform to the new regime of the Ottoman Empire.

\$17,000 IN OLD MATTRESS

New York, Aug. 7.—Seventeen thousand dollars in half-old double eagles was found yesterday concealed in a mattress in the former Brooklyn home of Daniel Applegate, a retired politician who died in New Jersey a month ago, after having lived for many years the life of a hermit.

THREE TUGS IN TROUBLE IN RIVER

The James Holly Strikes River's Pier and Goes Down

The W. H. Murray Breaks Wheel and the Winnie Goes Aground on Brandy Point—Thick Fog Made River Navigation Hard.

A thick fog on the river this morning played havoc with the tugboats. The James Holly struck on the river's pier, below Boat's Head, and sank, the Winnie is aground at Brandy Point and the W. H. Murray broke her wheel in entering South Bay with a raft of logs.

WHITELAW REID, AS PRESIDENT OF THE UNITED STATES.

THE TIMES NEW REPORTER

WHAT HE SAW AND FELT - The Times New Reporter was rather restless this morning. The noise of the office and of the street outside, appeared to annoy rather than stimulate. The young man had spent yesterday in the following games: Snout, carcinoma, sun stroke, heat failure, cerebral abscess, cholera infantum, fracture of skull, and tubercular meningitis, one each.

SPECIALY PRICED AT \$1.00

NO. 273

A stylish and charming new model, for medium and petite figures, combining the advantages of the girder top, with those of the medium long hip corset.

Produces lines of exquisite shapeliness and grace, imparts absolute comfort and a superb figure.

Made of Imported Cotton; rust-proof boning throughout, one of the best sellers ever made.

On sale at your dealer, if not, write for Descriptive Circular.

THE MESSAGE
By LOUIS TRACY

Author of "The Wings of the Morning," "The Wheel of Fortune," "The Captain of the Kansas," etc.

(Continued)

"You remember dem Captain Warden?"

"Of course I do."

"But you keep secret dem affairs, I tell you."

"Where Captain Warden's affairs are concerned, I shall certainly not discuss him or them."

"Figuero paid no heed to the intentional snub."

"You understand better w'en I tole you dem secret. You promise not speak 'im any more?"

"Well—yes."

"He fit for marry dem Mees Dane?"

"Don't be idiotic."

Mrs. Laing could not help it. She was so startled that she raised her voice and more than one of her neighbors wondered what the sallow-faced stranger had said that evoked the outburst. Figuero looked annoyed. He was not prepared for such vehement repudiation of his failure to secure an heiress during a recent wife-hunting tour in America—he tried lots of 'em, he explained, but they all said he must kill off at least one brother and two healthy nephews before they would risk marryin' a prize dude like him—so Rosamund's emphatic cry passed almost unnoticed amidst the laughter evoked by Figuero's exploits.

"You fit for chop," muttered the Portuguese sarcastically.

"You plenty much silly woman."

"But what you say cannot be true," she half whispered, and the man's attitude seemed warned him that it was dread, not contempt, that drew the protest from her lips.

"I fit for tell you Warden make wife palaver wid dem girl at Coves. If you no believe me, make 'em mouf an' ax Miss Dane."

Then the woman remembered Warden's anxiety to return to the Isle of Wight. He had not written to her for some time, and this trivial as a pin-prick before, now became a ranking wound.

"You keep dem secret," went on Figuero, watching her closely.

"Why did you tell me?" she retorted.

"Cos I no want Warden marry dem girl, Savvy?"

"Do you want to marry her yourself?" she asked, with a glitter that showed how deeply she was hurt.

He grimaced and wetted his lips with his tongue.

"You tink I tired gine by lone?" he said.

"What is your motive? Why do you choose me as a wife?"

Figuero suddenly became dense.

"I tell you leetle bit news," he said. "Dat English custom Wen we chap-taine palaver set. But you no say Figuero fore you dem ting."

Rosamund did not reply. She endeavored to eat, and entered into conversation with a man near her. The Honorable Billy was ending his story.

"So I am still single," he was saying. "I went to America full of hot air and came back with cold feet. But I learned the language—eh, what?"

"That night, in the drawing-room, Mrs. Laing carried out the opening move in a campaign she had sussed out for herself. If Figuero's story were true, she would smile and spare not. If it were untrue, Evelyn would be the first to deny it, and Rosamund trusted to her own intuition to discover how far such denial might be credited.

A man who was talking to Evelyn was summoned to a bridge table, and Rosamund took his place unobtrusively.

"Then you really were on board the Sans Souci at Coves, Miss Dane?" she began, with a friendly smile.

"Yes," said Evelyn, at a loss to determine why her brief sojourn in the Solent should attract such widespread attention.

"And you met Captain Warden there?"

The attack was so direct and unexpected that the younger woman blushed and blenched from it. Still, she was not to be drawn into admissions like a fright-mead child.

"I met several people on the island," she said. "Coves is a crowded place during a regatta week."

"Oh, come now," purred the smiling Rosamund, "one does not forget a man of Arthur Warden's type so readily—and after a violent flirtation, too! You see, I know all about it. Little birds whisper these things. Arthur did not tell me when he came to see me in town. Of

THREE DAYS IN SESSION IN MONCTON

Annual Convention of Women's Baptist Union

AUGUST 17 TO 19

Mrs. D. Hutchison of This City Will Preside—The Programme in Detail Showing Important Matters to Deal With

The annual convention of the United Baptist Women's Missionary Union will be held in Moncton, August 17, 18 and 19. The president, Mrs. David Hutchison, of St. John, will be in the chair. The programme will be as follows:

TUESDAY AFTERNOON.
7.30—Registration of delegates, etc.
8—Executive meeting.

WEDNESDAY MORNING.
9.30—Quiet half-hour with the Word. Miss Lois Knowles, Upper Woods Harbor, N. S.

10—Convention opened. Rules of order. Appointment of committees. Roll call.

10.30—Union Reports. Resolving secretary, Miss C. E. Fullerton, St. John, N. B. Corresponding secretary, Miss M. E. Hume, Dartmouth, N. S. Mission Band treasurer, Miss Ida Crandall, Chipman, N. B. Treasurer, Mrs. Mary Smith, Amherst, N. S.

11—Discussion after each report. Prayer.

WEDNESDAY AFTERNOON.
2—Quiet half-hour with the Word. Miss Lois Knowles.

2.30—Address of welcome. Responder, Mrs. A. A. Archibald, Truro, N. S.

2.45—President's address, Mrs. D. Hutchison, St. John, N. B.

3—Provincial reports. Nova Scotia, Mrs. G. L. Pearson, Paradise, N. S. Prince Edward Island, Mrs. A. A. Wadman, Charlottetown, P. E. I. New Brunswick, Miss Rebecca Bennett, Albert Mines, N. B. Discussion.

3.45—Give and Take Question Hour. Conducted by Mrs. M. S. Cox, Mapleton, N. B.

4.30—Prayer. Adjournment. Conference of Lay and District Secretaries. Conference of W. M. A. S. officers.

WEDNESDAY EVENING.
8—Praise. Scripture Reading. Prayer. Address—The Canadian West. Address—Miss Helen Blackbar, Victoria, B. C. Address—Mrs. I. C. Archibald, Chicoutimi, India. Offering. Prayer and benediction.

THURSDAY MORNING.
9.30—Memorial Service. Led by Mrs. J. W. Manning, Wolfville, N. S.

10.15—Mission committee. Tidings. Mrs. J. W. Manning, editor. Mrs. E. H. Babson, business manager, Amherst, N. S. Bureau of Literature, Mrs. C. H. Horsman, St. John, N. B. Discussion.

11.15—Election of officers.

12.00—Prayer. Adjournment.

THURSDAY AFTERNOON.
2—Quiet half-hour with the Word. Miss Lois Knowles.

2.30—Reports of Mission Band superintendents. Nova Scotia, Mrs. Lew Wallace, Lawrenceton, N. S. Prince Edward Island, Miss Irene Clark, Bay View, P. E. I. New Brunswick, Mrs. W. E. McIntyre, St. John, N. B. Discussion.

3—Mission Band Hour.

4—Greetings. Miss Winifred Eaton, New Canard, N. S.

4.30—Estimates. Unfinished business. Prayer. Adjournment.

THURSDAY EVENING.
8—Praise. Scripture Reading. Prayer. Address—The Canadian West. Address—Miss Helen Blackbar, Victoria, B. C. Address—Mrs. I. C. Archibald, Chicoutimi, India. Offering. Prayer and benediction.

EASTPORT IS BUSY

Eastport, Aug. 4.—The sardine business is picking up these days, the drop in the price of herrings to 84 a hoghead as per agreement made at the opening of the season, together with the weather and the packers having a reviving influence on the trade.

Nearly every factory hereabouts is in operation with the exception of that of the Independent Canning Co. and this, too will be running in a few days. The supply of fish is large and of present indications there will be plenty of work for the hundreds of men and women employees of the plants for some time to come.

"FOOLS" NOT ALL DEAD YET

(Philadelphia Record.)

Of Robert Fulton, Napoleon said in 1803: "This is a fool. He proposes to transmit our flotilla to England with boiling water." After a lapse of a little more than a century another "fool" of the same kind has floated into England through the air.

Dr. James Bellamy, the oldest head of an Oxford college, has resigned the position of president of St. John's, to which he was appointed in 1871. Dr. Bellamy, who recently celebrated his 90th birthday, has been a member of the college for more than 70 years.

Fashion Hint for Times Readers

An ideal outfit rig is shown here. With a short, smartly cut circular skirt of shepherd check material worn a loose, cool, little blouse of tucked full, and over the blouse is slipped a warm sweater. This is one of the new belted sweaters, which are particularly youthful and jaunty in style. The hat is a simple sailor, rolling up a bit at one side in this year's fashion.

CHAMBERLAIN IS GOLD IS FOUND IN IDAHO

Col. Denison Talks of His Excitement Caused and Miners Rush to the Scene.

(Toronto News.)

"Hon. Joseph Chamberlain, whom I visited, is keen and full of fight and confident that his tariff reform policy will win out. From what I saw myself while over there I am satisfied that the present government will be defeated at the next election on the tariff reform issue."

Col. George F. Denison, who has just returned from England, spoke thus to The News of Mr. Chamberlain and the movement of which he had been the chief leader. I spent one day at Mr. Chamberlain's beautiful home at Highbury, and met him and his son, Mr. Austin Chamberlain.

"He looked much better than I expected to find him. He was bright and keen, and to look at him you would not think that he had any weakness. He uses a cane all the time, but takes a half-mile walk every day."

"He reads and takes a great interest in everything that is going on and writes a great many letters. He receives many inquiries for his opinion on various questions connected with the tariff reform movement. He always answers them, and his view is invariably followed."

"I don't know whether Mr. Chamberlain could take his place in the House of Commons again or not," continued Col. Denison in reply to a question.

"Since he was unwell he did not speak so fluently or readily as he did before. He could not, of course, take an active part in the election campaign."

A luncheon was given by the Comptrol's Club in Col. Denison's honor. Lord Milner presided and Mr. Rudyard Kipling was among those who were present.

"Mr. Kipling spoke, and he was quite pessimistic about the outlook. He is out of favor with the public here."

"I also met Lord Charles Bessford, whom I had known before. He expressed great pleasure in the prospect of his visit to Canada this month. As a naval strategist, I like Sir John Fisher better than Lord Charles. Mr. Fisher believes in centralizing the naval power of the Empire, while Bessford advocates protecting the trade routes. Personally I like Sir Charles Bessford very much. He is one of the best men in Britain. He is a true sailor—outspoken, blunt and plain in what he says, but he's a great man and immensely popular over there. Among his engagements here, will be a dinner at the Nottingham Club."

RAILWAY BUILDERS IN COMPETITION

Vast Expenditures by Rival Roads in Western States.

Spokane, Wash., Aug. 6.—Railroad builders, representing the Northern Pacific, the Chicago, Milwaukee & Puget Sound, the Harriman system and the mysterious North Coast company, headed by Robert E. Stralman, of Spokane, are waging a competitive campaign in Washington, Idaho, Oregon, Montana and North Dakota which gives every promise of scheduled in the last three months and there is information at hand that not less than \$50,000,000 will be added to that amount as soon as the present work is completed.

Among the contracts already awarded are the following: by the Northern Pacific, \$22,750,000; Harriman, \$10,410,000; Chicago, Milwaukee & Puget Sound, \$5,470,000; North Coast, \$3,300,000; exclusive of \$2,000,000 for terminals in Spokane, North Yakima and Walla Walla, Wash.; Pittsburg & Glimour Valley, \$2,500,000. In addition the Milwaukee road is planning to expend \$25,000,000 on branch line construction in the north-western states.

The chief battles will be fought in central Oregon, north and central Idaho, and eastern Washington. The Hill people are forcing matters by sending construction crews into so-called Harriman territory in central Oregon, now without adequate transportation facilities, and the completion of one or two lines there will open a rich district and provide homes for thousands.

There is also a stiff fight against the entrance into Spokane of the North Coast line, now recognized as part of an important transcontinental system. This line, projected between Spokane and tide-water, in all 731 miles, is a thorn in the side of the Hill people, who, with others, have been successful so far in blocking plans to give it terminal facilities in this city, where already more than \$2,000,000 has been expended in acquiring station and track sites.

BABY'S HOLD ON LIFE

Baby's Own Tablets cost 25 cents a box. A box bought now may save baby's life. Summer complaints come suddenly, and carry off thousands of little ones every year. If the stomach and bowels are kept in order there is little danger of these troubles coming on. Baby's Own Tablets is the best medicine in the world for preventing and curing stomach and bowel troubles. They can be given with perfect safety to the new born baby or to the well grown child. An occasional dose of the Tablets will regulate stomach and bowels and prevent summer complaints. The mother who keeps these Tablets beside her has a reasonable assurance that her little one is safe. If you have not got a box of Tablets, get one without delay. Do not wait until trouble comes, it may then be too late. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Of the total population of thirty-two and a half millions in England and Wales, twenty-five millions live upon 200,000 acres. The remaining 30,800,000 acres in the country are occupied only by seven and a half millions of persons.

HARVESTERS ASK \$3.00 A DAY

Spokane, Wash., Aug. 6.—Three dollars a day for 10 hours work is demanded by harvest laborers in the wheat fields in eastern Washington, where the ranchers in thirteen counties will gather a crop of 37,000,000 bushels this season. The scale paid in 1908 ranged from \$2.50 for laborers to \$7 for engineers, working from 5 o'clock in the morning until dusk. Farmers say that will be scheduled for next year. They do not expect to have any difficulty in obtaining sufficient help to harvest the crop.

Another situation is presented by the Farmers' Union of Washington and northern Idaho, which, through Y. C. Mansfield, of Endicott, Wash., a member of its executive committee, has addressed an "open letter" to the millers in Washington and Oregon, in which it is made plain that if the price of Bluestem wheat is not at least 10 cents a bushel higher than that of Turkey feed grain the growers will not mill it.

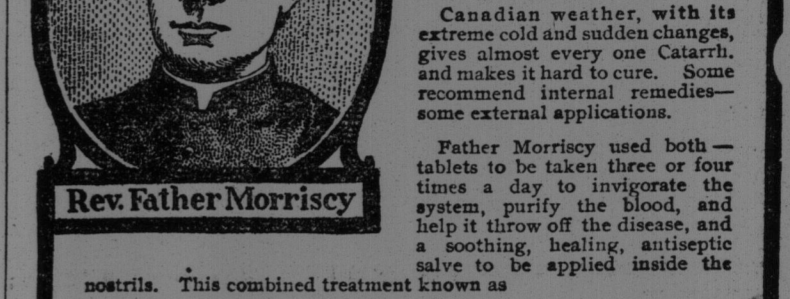

You cannot possibly have a better Cocoa than EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

COCOA

Sold by Grocers and Storekeepers

A Combined Treatment That Really Cures Catarrh.

Canadian weather, with its extreme cold and sudden changes, gives almost every one Catarrh, and makes it hard to cure. Some recommend internal remedies—some external applications.

Father Morrissey used both—tablets to be taken three or four times a day to invigorate the system, purify the blood, and help it throw off the disease, and a soothing, healing, antiseptic halve to be applied inside the nostrils. This combined treatment knows as

"Father Morrissey's No. 26"

attacking the disease from within and without, soon cures.

Mr. F. L. Mills, Box 431, Springfield, N. S., wrote on August 31st last:

"I have had two prescriptions for catarrh from Father Morrissey, No. 1 Course and No. 2, but I think No. 1 has done the most good, and that is the one I am getting filled from time to time."

I would recommend this prescription in full for Catarrh, as his tablets are the only remedy I can get to cure me. The No. 20 tablets are a great tablet."

Don't trifle with Catarrh—cure it with Father Morrissey's No. 26. 50c for the combined treatment at your dealer's.

Father Morrissey Medicine Co. Ltd. Chatham, N. B.

KETCHENER NEW HEAD OF IMPERIAL ARMY

Will Re-Organize Forces of Empire—Succeeds Duke of Connaught—Will Pay Visit to Canada.

London, Aug. 6.—Lord Kitchener, commander of the British forces in India, has been appointed to succeed the Duke of Connaught as inspector-general of the Mediterranean forces which post the duke recently resigned on the ground of "the ineffective nature of the work and the useless expense to the nation involved therein."

Lord Kitchener will take the rank of field marshal and also become member of the committee of imperial defence. The inspector-general has command of the garrisons at Malta and Gibraltar and all the British troops in Egypt, the Sudan and Cyprus.

The appointment of Lord Kitchener is coincident with added importance being attached to the post. The Duke of Connaught in an official announcement says: "In view of new developments in the organization, the Mediterranean command assumes increased importance and will be taken up by Lord Kitchener with the object of giving it its proper place in the scheme of imperial defence."

It is understood that as a result of the imperial defence conference which is now sitting, it is intended to co-ordinate all the military forces of the empire and place Lord Kitchener at the head of an organization having the imperial army for its special care. As a preparation for this work, for which he had gained valuable experience in India, on vacating the Indian command in September, Lord Kitchener will go to Japan to represent Great Britain at the Japanese grand manoeuvres in November and afterwards make a tour of Canada, Australia and New Zealand to study the military organizations and consult with the colonial governments concerning them.

Lord Kitchener is the youngest field marshal in the history of Great Britain. Lord Roberts was sixty years old when he was raised to the rank and Lord Wolsey, 62. Lord Kitchener was 59 years old in June.

Wind on the Stomach

A Well-Known Westerner Tells of Suffering, Misery and Pain that He Cured with "Nerviline."

"A few weeks ago I ate some green vegetables and some fruit that was not quite ripe. It first brought on a fit of indigestion, but unfortunately it developed into hiccup, accompanied by nausea and cramps. I was dreadfully ill for two days—my head ached and throbbled; I belched gas continually, and I was unable to sleep at night. A neighbor happened in to see me and urged me to try Nerviline. Well, I wouldn't have believed that any preparation could help so quickly. I took half a teaspoonful of Nerviline in hot sweetened water, and my stomach felt better at once. I used Nerviline several times, and was completely restored."

The above is from a letter written by G. E. Braun, a well known stockman and farmer near Lethbridge, Alta. Mr. Braun's favorable opinion of the high merit of Nerviline is shared by thousands of Canadians who have proved Nerviline is simply a sure remedy for cramps, diarrhoea, flatulence, nausea and stomach disorders. Safe to use, guaranteed to cure—you can make no mistake in keeping Nerviline for your family remedy. Large 25c. bottles; 50c. for \$1.00. Sold everywhere, or The Cattaraugus Co., Kingston, Ont.

There are no fewer than 4,000 women "postmen" in Great Britain. They are chiefly employed in the rural districts of Wales, Scotland, and Ireland.

Winnipeg HAS BIG STORM

Winnipeg, Aug. 6.—Winnipeg was swept yesterday and until early this morning by one of the most severe storms in its history. It was a regular cloudburst and was accompanied by hail.

Reports this morning show that the storm apparently did not extend further than Portage. There was more than three inches of rain here.

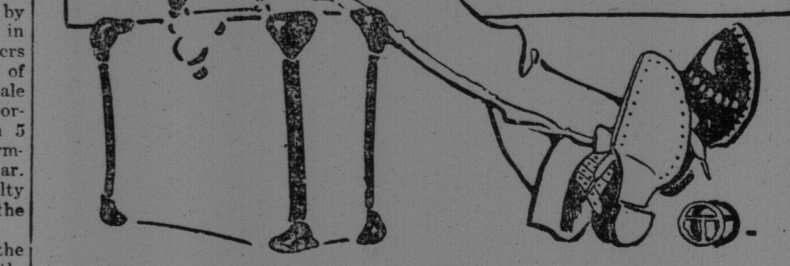

During the past two weeks, old timers say there has been more rain fallen in Manitoba at this time of the year, than for the same period for twenty years. There has been heavy loss from hail, though the damage is not general. Where work has not been retarded by rain, barley and oat harvesting is general and the yield is very heavy.

From Wanawana, Roland, Cartwright, Souris, Portage, Brandon and Swift Current, come reports of harvesting. Lethbridge has started winter wheat cutting. The yield in some cases is as high as forty-five bushels to the acre.

Gretas, in southern Manitoba, always one of the first points for harvesting, started wheat cutting yesterday. Next week, with favorable weather will see wheat cutting well under way all over the west, and by August 15, it will be general.

It has been decided by the Lords of the Admiralty to increase the wages of established ship riggers to 28s. per week, and hired shipriggers to 25s. 6d.

The Times Daily Puzzle Picture

VACATION ESTIMATES.

He should have multiplied by two; That's where he blundered. He thought that fifty plunks would do it took a hundred.

THE ASSISTANT ENGINEER

The suggestion that the city engineer should have an assistant who is also an engineer, to devote himself to outside work, and be responsible for it, will only occasion surprise now because the city council so recently decided that Mr. Murdoch did not need any assistance. This council is not quite sure that it knows its own mind, which is an unfortunate condition of affairs.

EXTENDING THE MARKETS

The meeting in the local government rooms this week to consider the question of extending trade in Cuba and the West Indies was useful to the extent that it cleared away some apparent misconceptions. It is not deemed necessary to present to send a special commission to the islands, but rather to get a good steamship service and bring produce ship pens into satisfactory relations with business men on the islands, who know the markets and their needs, and are themselves reliable. It was also very strongly impressed upon those present that they must not get the impression that the markets will absorb all grades of produce, no matter how carelessly packed and shipped. A good article is its own recommendation, once it has been fairly introduced, and there is a certainty that the quality will be sustained in future shipments.

HEALTH AND VACATION

The health authorities of Chicago recently gave warning that an abundance of typhoid fever might be expected during the coming two months, as the people spending their vacations in the country would be returning, and that these were the great disseminators of the disease. This statement may be taken by the stay-at-homes as bringing some solace. The family physician says that the wife and children must go to the country, because summer in the city is the period of high mortality among the children. Good food and healthful milk that is every day subject to scientific inspection, filtered water that is as free from contamination by such infection as typhoid; the water comes from a well, a spring, or a stream, and all these are subject to contamination by such infection as typhoid; there is no sanitation about the country farmhouse; ice is a rarity, and the food is of unknown antecedents.

Bargains in Suits For Men and Boys

This August Clearance Sale offers a great opportunity to secure a good suit at a very small price. The suits offered are not merely summer suits but suitable for wear anytime of year. The regular as well as the sale prices are marked in plain figures. You can see just what you are saving.

Men's Suits, sale prices \$4.95, \$7.50, \$9.85 to \$11.45. Boys' 3-Piece Suits, sale prices \$3.50, \$3.95, \$4.95 to \$5.50. Boys' Norfolk Suits, sale prices \$2.50 and \$2.98. Boys' Wash Suits, sale prices 73c, \$1.49 and \$1.98.

ABOUT THIS TIME OF YEAR

Where the bobolinks cry And the meadows lie In a soft, low note Sweets the feathered throat Of the brooding mother bird. There the catbird drinks And the bobolinks With a flock of rippling song Make the blue air ring: For on rainy days Summer's wild, sweet musicians throng.

IN LIGHTER VEIN

A woman is keen for new wrinkles in a milliner's stock and a dressmaker's closet. But pass up the ground And storm when you find A new one each side of her nose. —Buffalo News.

SAVING.

Why hide your light under a bushel when a great measure will answer the purpose? "Pa, what does 'Put Julia' mean?" "It means that the man who wrote to the editor didn't have the courage of his convictions quite well enough developed to be willing to sign his own name." —Chicago Herald-Examiner.

THE BEST SUBJECT.

"The late Marion Crawford," said a New York editor, "was a good, if not a brilliant speaker. It is impossible to succeed in a literary career without the gift of a good subject." "Children," he began, "what shall I talk about?" "And this little girl piped from a rear bench: 'What do you know?'"

CAUGHT AGAIN.

She—"So many men nowadays marry for money, you wouldn't marry me for money, would you, dear?" "I wouldn't, I wouldn't marry you for all the money in the world." "Oh, you horrid, horrid wretch!" —Boston Transcript.

WHY SHE SMILED.

Under the ice cream tree she sat With a basket of cherries upon her hat: Ah, what was a mortal man to do! With a hem, and a "weather is warm to-day," And there in the presence of mortal fate I bought her a heaped-up tin-plate. —Baltimore Sun.

HIS NAME.

George—"Rather than remain single, would you marry the biggest fool on earth, if I call him 'Clara'?" "Oh, this is so sudden, George!"

MERELY SATIRE.

At a diplomatic reception in Washington, Mrs. Taft, on being complimented on her husband's success in the world, said: "I am very glad to hear that. He is a very successful man, but I must say I don't think he is a very successful man." —Chicago Herald-Examiner.

Woman's Needless Suffering

Full of Aches, Frightful Back Pains, Pale and Nervous. With the Use of Dr. Hamilton's Pills, a Wife and Mother Saved From Death.

A few years ago doctors considered that only back pains and bladder disorders were traceable to the kidneys—but today science proves that many of the most fatal and dreaded diseases have their source in irregular kidney action.

Such was the case with Mrs. Anna A. Rodriguez, a well known resident of Valencia—read her experience: "For a long time I suffered with falling strength and nagging headaches. My condition grew steadily worse, my limbs became bloated and shaky, I was pale and thin, felt rheumatic pains, dizziness and chills. I unfortunately did not suspect my kidneys and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that comes to all who use Dr. Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr. Hamilton's Pills I can't describe. They speedily put me right and their steady use keeps me active, energetic, strong and happy. I strongly urge others to regulate and tone their systems with Dr. Hamilton's Pills of Mandrate and Butternut."

For perfect health use Dr. Hamilton's Pills frequently. Avoid all food which seems to distress and take as much exercise as possible. No greater medicine exists than Dr. Hamilton's Pills for the cure of indigestion, constipation, flatulence, liver, bladder and kidney troubles. Before substituting for Dr. Hamilton's Pills, 25c. per box, or five boxes for \$1.00 at all dealers or The Cataractine Company, Kingston, Ont.

POT BOILERS

(Laura W. Sheldon, in New York Times) Oh! think of the genius that's wasted, The talents just wasting away, While the hot-pot-boiling stanzas are patting To somebody's lay day by day! Oh! think of each great inspiration That never knows rhythm or feet, While poets all over creation Are writing for something to eat!

Oh! think of the musical numbers Deep down in the cells of each soul, The volume of glory that slumbers, Perfected, while we grub for life's dole! Magnificent anthems are surely Imporing some measure of scope, While we grind out our doggerel gummy, And live upon little save soap.

We yearn to design a brave sonnet On subject sublime or profound. To put our best efforts upon it— But hope is soon dashed to the ground For which of the multiple papers Would pay for a sonnet sublime? We hit ourselves back to our capers In rag-time and ting-ling rhyme.

An income to still keep us eating, Aside from the pittance we earn, And while every moment is fretting Oh! how might our geniuses burn! What muse would write us this environ For chanting some brave rhapsody, And oh! where would Shapewear and Byron.

Too many gilt edge securities are gilt-edge.

Fall Set \$4.00

We have a scientific formula which renders the extraction of teeth absolutely without pain. We fit teeth without plates, and, if you desire, we can, by a new method, do this work without resorting to the use of gold crowns or unsightly gold bands about the necks of the teeth. No cutting of the natural tooth or painful grinding.

School of Mining, A COLLEGE OF APPLIED SCIENCE, Affiliated to Queen's University, KINGSTON, ONT.

EXPLORATION OF OUR NORTHLAND. Government Learning About the Country in North of Saskatchewan.

There has just been issued from the Railway Lands Branch of the Department of the Interior, by order of the Honorable Frank Oliver, minister, a report on north-land exploration under his department during the season of 1908, covering that portion of Saskatchewan north of Prince Albert as far as the Churchill river and extending from Montreal lake and Lac la Ronge on the east, to Green lake and connecting waters as far north as Portage la Loche on the west.

Information about this portion of the Canadian West, north of existing surveys, has hitherto been difficult to obtain. The increasing pressure on the available surveyed lands in the western provinces has, however, created a demand for all possible information about the agricultural and other resources of the undeveloped north of Western Canada, and on account of the reported mineral discoveries at Lac la Ronge and in the country north of it the publication of this report at this time giving information as to the means of access meets a public want. A number of excellent cuts of growing crops and natural features, from photographs taken by the explorer, are scattered through the report.

An up to date map, which covers the country explored and for a considerable distance north of it—about three hundred and fifty miles in all, north of Prince Albert accompanies the report. A prevalent impression that in this portion of western Canada there is to be found little land of agricultural value will be found on perusal of the report to be quite erroneous and while difficulty of access will retard settlement, at present there is evidence that a large area is suitable for mixed farming, as soon as available fertile land can be considerably more than doubled by a system of drainage, which can be carried out at moderate cost.

The opinion of Prof. John Macoun, naturalist in the Geological Survey, than whom there is no better authority, is given prominence on the cover of the report as follows: "There can be no question about the value of the land north of the Saskatchewan, and settlers going in there are assured of three essentials—wood, water and hay for cattle. The low altitude and the long day are fixed conditions and will always remain the same."

The information in the report is divided conveniently under the following headings: Access, Soil, Topographical Features, Climate, Rangeland, Hay, Animal Life, Fish, Timber, Minerals and Water Powers. Copies can be obtained free on application to the superintendent railway lands branch, department of the interior, Ottawa.

NOT WISE. (Detroit Free Press.) "Does your father know you smoke, little boy?" asked the inquisitive stranger. "I guess not," replied the bad boy. "He doesn't lock up his cigars."

STOCKHOLM STRIKE. Sympathy of British Workmen Densation in Ranks.

London, Aug. 6.—The strike in Sweden is exciting the sympathy of British workmen. The dockers' union announced today that it intends to organize a national fund to aid their Scandinavian comrades.

Stockholm, Aug. 6.—The dimension in the ranks of the strikers, it is thought, may be indicative of a not far distant lapse of the movement. The strike leaders, however, seem determined that no compromise shall be made and it is therefore difficult to form a judgment on the progress of the movement or how far the funds available will carry the strike. The increasing cost of living and the difficulty of obtaining food is being felt and doubtless accounts for—

CLEOPATRA'S CODE. (Revised for the Twentieth Century.) Remember that life is not a fulfillment of one's ideals, but an eternal compromise with them.

Know how to get your own price for things. Cultivate grace in everything. Cultivate friends. They lend a pleasing background. Put up with sarcasm—don't practice it. Always finish everything artistically. Know when to change the tone of a conversation. Never let matters come to an open rupture. Don't try to mould another to your ideal, but remould your ideal according to what he is. Know how to keep people for a time in suspense. Always keep imagination under control. Live for the present. The future takes care of itself. Remember nothing depreciates a man more than to show him he's like other men. Let each man think he is the one man for the time.

A DOCTOR VOLUNTEER IN THE WORK OF GRENFELL

English Physician Gives Account of Conditions in the Mission Work on the Labrador Coast.

Dr. Wakefield, who last year, at his own charge, came from England to Newfoundland, and took charge of the work at St. Anthony during Dr. Grenfell's absence in returning this year to undertake the same duties, giving up another season of valuable service to the cause. Before leaving England he attended and addressed the annual meeting of the Royal Newfoundland Mission to Deep Sea Fishermen. His account of the work, brief as it is, is full of interest.

Dr. Wakefield said: "Mr. Chairman, Ladies, and Gentlemen,—It would be quite absurd for me to attempt to compress even a little corner of Labrador into ten minutes, and you will understand that it is impossible to adequately describe the breadth and scope of the work going on there in the time at my disposal. I will only just mention the Orphanage, with some 20 children, many of whom, I believe, would not have been alive if had it not been for that institution, but who are now happy and healthy. The hospital, with which I was more particularly concerned; the experimental farm and garden, the importance of which it would take me several minutes to explain; the co-operative store, the second-hand clothes shop, the industrial and technical schools, elementary schools, and more advanced classes. I cannot speak about all these to-night, but I want to tell you something about the hospital, where my work chiefly lay. I will tell you of a little boy who came into the hospital looking more like a skinned rabbit than anything else. He was very bad with consumption; he had consumption in his shoulder, in his hip, and in his leg, and he was jolly bad. After a time he began to improve, and one place after another got well. As he was getting better, he came to me one day—was awfully rushed at the time, and very pressed for help—he came into the surgery and said, 'Doctor, can I do anything to help you this morning?' I said 'Yes, Willie, you can clean out the bottles for me. He cleaned out the bottles and he did it well and carefully. The next day he came again—'Doctor, can I do anything to help you?'—and he again cleaned out the bottles well and carefully, and so he came time after time, sometimes two or three times a day, when he might have been out playing with the other boys, and repeated his question, 'Doctor, can I do anything to help you?' and from cleaning the bottles he went on to cleaning some instruments for me, and from one thing to another until he was helping me to make up physic and weigh out powders. Everything he did was done carefully and well, nobody could have done it better. While Willie was at St. Anthony he learned more than the way to wash out bottles and make up physic, and this was his way of following the Great Example. He tried to help others. I had a letter from Willie about Christmas saying that he was quite well and that he would like to be a doctor himself. (Cheers) I could go on for a long time telling you about the patients who came to St. Anthony, some of them from hundreds of miles away, and many of them utterly unable to see any other doctor than the Mission doctor. Many of them came as a last resort, considering themselves invalids for life; I am thankful to say that many of these got home quite cured. But I want to try and bring before you the difficulties under which we have to work this work. The hospital where I was at St. Anthony was supposed to have accommodation for 19 at the greatest possible crush. We used to get batches of coming one day. Of course, many of these there was no need to keep in the hospital, but many of them could only be treated in the hospital. Put yourself in the position of the doctor in charge, the hospital crammed full, patients coming hundreds of miles, with perhaps only a chance of seeing a doctor—what are you going to do? Send them away? Well, I confess that I do not think a sanitary institution many times would have passed the crush we had in our hospital. The work has quite outgrown the accommodation. There is one over in that oven we cooked all the food for the servants, patients, and everybody; on that oven the instruments were sterilized for the operations, and we heated all the water that we needed for the dressings and patients; everything was done on one oven. The accommodation for the nursing department was so utterly meagre and bad that it would not have been tolerated for one moment in any little cottage hospital in this country. The nurses were working under the most extreme difficulty, owing to lack of accommodation in ways that I cannot describe—the accommodation is so utterly short of what is needed. Now, I had a letter less than five minutes before I entered this hall from Dr. Grenfell, telling me how urgent he considers the enlargement of this hospital. I think you will agree after what I have told you that it is really needed. The work is there. We are not trying to increase the work, we can hardly cope with the work we have but the hospital is not there—not such a one as we need. It would take about \$2,000, Dr. Grenfell says, to make that hospital such as it should be. If you could only see the need I think everyone would do his best to help.

Hay's Hair Health

Never Fails to Restore Gray Hair to its Natural Color and Beauty.

No matter how long it has been gray or faded. Promotes a luxuriant growth of healthy hair. Stops its falling out, and positively removes Dandruff. Keeps hair soft and glossy. Refuse all substitutes, 2 1/2 times as much in \$1.00 as 50c. size. Is Not a Dye.

LIKELY NOMINEE FOR GOVERNOR

Richmond, Va., Aug. 6.—With return from the Democratic state primary still incomplete, indications tonight are that Judge William Hodges Mann of Nottingham, has been nominated for governor over Harry St. George Tucker of Rockbridge by a majority of from 3,000 to 5,000.

A writer in the London Lancet recommends Epsom salts as a sure remedy for warts.

THE MIRAMICHI FISH HATCHERY

Over Five Millions Ova and Young Fish Distributed This Year.

(Chatham Commercial). The work of planting the salmon fry bed at this hatchery last season, was completed during the past week. The total output for the year has been the largest since the hatchery was first established, as over 5,250,000 ova and young fry were distributed.

Last autumn 1,630 parent salmon were bred and placed in the retaining pond near the hatchery. From these fish 5,275,000 ova were collected, which were transferred from the retaining pond and placed in the following hatcheries:—

- Windsor, N. S. 1,040,000 Charlottetown, P.E.I. 1,220,000 Ottawa, Magog and other West-ern hatcheries 470,000 Miramichi 2,515,000 Total 5,275,000

The ova placed in the Miramichi were successfully carried through the hatching period and produced 2,260,000 healthy fry—being fully 90 per cent. of the number of eggs laid down. The fry were distributed on the following rivers:—

Northwest Miramichi and tributaries. Little South West. Seville River. Renous River. Barnaby River. Barriboigne River. Millstream Brook.

Preparations are now being made for the collection of parent fish for this coming season. It is intended to increase the capacity of the ponds, so that fully 2,000,000 ova can be carefully cared for. The hatchery has had a large number of visitors during the past year, who were very appreciative of the success attending the fish breeding operations on this river.

JOHNSON FINED

Woodstock, Ont., Aug. 6.—Jack Johnson, prize fighter, passed through Woodstock at 7:30 last evening at a fifty-mile gait. Between Woodstock and Ingersoll he very nearly ran down a party of motorists who were returning home. The chief conductor wired to London and had him arrested, and this morning he paid a fine of \$50 and costs.

Yesterday Johnson was fined \$5 in Toronto for exceeding the speed limit.

PILES

Dr. Chase's Ointment is certain and guaranteed cure for every form of itching, bleeding and protruding piles. Get testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 65c. and \$1.00. Sold by Dr. Chase & Co., Toronto.

HUNDREDS OF CADET CORPS IN ENGLAND

Col. McLean Home From Old Land—Imperial Defence Holds First Place in People's Minks.

Lieut.-Col. H. H. McLean, M. P., P., arrived home yesterday from England where he had been appearing before the privy council in the St. John pilotage commissioning case.

Col. McLean appeared for the Cumberland Railway and Coal Company in the case which has become almost a cause celebre. The question involved was the liability to pilotage dues of certain barges owned by the Cumberland Railway and Coal Company. The pilot commissioners claimed that these barges were subject to compulsory pilotage, while the contention of the company was that the barges being towed by tugs came under the classification of vessels partially propelled by steam and as such were exempt. Judgment in the case was reserved and Col. McLean does not expect to hear from the case before October.

"The leading men in Great Britain," said Col. McLean, "feel that there should be an imperial defence line and that there should be a common defence policy. Naval defence is regarded as the most important factor in the defence of the empire. The proposal of raising the navy to the two power standard has been made. The people have now become fully convinced that the most effective insurance of peace can be secured only by becoming fully prepared for war. Referring to the army and militia matters in Britain, Col. McLean spoke with the enthusiasm of an old soldier of the splendid success with which the new British army scheme is being worked out. When this project was launched for the purpose of raising in Great Britain a trained soldiers the leading men in each county were sent for and became interested in it. Since its inception it has spread very rapidly until now the units are practically up to strength. King Edward is very wisely keeping the interest and enthusiasm thoroughly alive by encouraging the movement in every way possible such as by presenting colors to the troops and similar means. The large employers of labor have also shown a practical interest in it by giving their men holidays and full pay for the time there engaged in military duties. Committees of the leading men in each county have given much valuable aid in the administration of the business affairs of the territorial army and in assisting young men to enter it. In every way the movement has worked out very successfully and to the entire satisfaction of Mr. Haldane and Sir Edward Grey who were particularly interested in it. Another important development of the volunteer movement and one which must have a most important effect on the future of the British militia system was the formation of England of hundreds of cadet corps. In these corps boys are banded together and receive thorough military training. The military work is of an interesting nature to the boys in many ways. Some of the corps are uniformed as scouts and receive special training along the lines of successful scouting, carried out by Baden-Powell. Others take up other branches of the service so that really, in the opinion of Mr. Haldane and Sir Edward Grey, they are trained soldiers. Eventually these boys will join the adult forces of the great territorial army."

FEWER CIGARETTES SMOKED IN CANADA

Ottawa, Aug. 6.—The consumption of cigarettes in Canada, which has been increasing for a number of years as an alarming rate, has substantially decreased last year. It is believed that the decrease is altogether among boys under sixteen and is due to the stringent anti-cigarette legislation passed by the dominion parliament which became effective on July 28, 1908.

Before this went into effect there had been an annual increase in cigarette consumption which amounted to over 75,000,000 in six years. If it had not been for the restrictive legislation, there would have been an increase of a good many millions last year. However, instead of an increase the figures show that the consumption of cigarettes declined by 50,000,000. About 28,000,000 domestic cigarettes and about 2,000,000 fewer imported cigarettes were smoked in Canada during the year.

The total consumption of domestic cigarettes was 326,750,000, while the total consumption was over 384,750,000. Imported cigarettes were smoked to the number of 12,750,000 against 14,750,000 the year before.

It is probable that the law stopped the boys from smoking from 40,000,000 to 50,000,000 cigarettes, while the decrease was only 30,000,000 compared with the year before, had it not been in force there would have been an increase of from 10,000,000 to 20,000,000.

When the law was passed it was declared useless by those who wanted the absolute prohibition of the importation, sale and manufacture of cigarettes. However, its stringent provisions seem to have accomplished a good deal. What makes the reduction more impressive is the fact that it was only in operation for eight of the twelve months of the year covered by the statistical returns.

The law provided a penalty of from \$10 to \$100 for any person selling or supplying cigarettes or cigarette material to a boy of sixteen or under. Under this provision a father was fined for having given his son a cigarette.

The law also declared it the duty of the police to seize cigarettes or tobacco being in the possession of boys of sixteen or under in public places. If any boy found in a public place with cigarettes and it further provided that they must tell where they got the cigarettes or be liable for contempt of court.

SPAIN'S TROUBLES

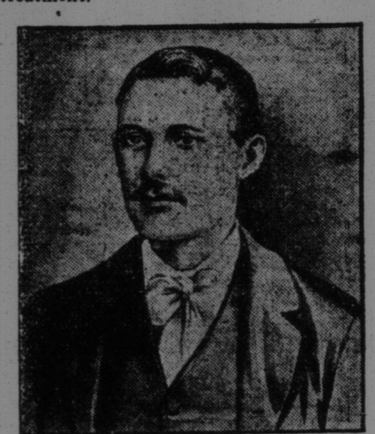

Madrid, Aug. 6.—Official despatches received today from Melilla say that the Moors in increased numbers again attacked the advanced posts of the Spaniards and that one soldier was wounded. Artillery shells the Plain of Nador, where horsemen were seen to be assembling.

Cerbere, France, Aug. 6.—Advices received from Barcelona say that the situation there is unchanged. It was rumored tonight that a general strike would again be proclaimed Monday.

FRIGHTFUL STOMACH TROUBLE

For Four Long Years He Suffered --Then "Fruit-a-tives" Brought Relief.

Stratford Centre, Wolfe Co., Que., May 11th, 1908. I have been completely cured of a frightful condition of my stomach through this wonderful medicine, "Fruit-a-tives." I suffered for four long years with this trouble. My head ached incessantly. I could not eat anything but plain, soft, sweetened puddings from indigestion. I used every known remedy and was treated by physicians, but the dyspepsia and headaches persisted in spite of the treatment.

I was told to try "Fruit-a-tives," and I sent for six boxes, and this was the only medicine that did me any good. I am now entirely well. I can eat ordinary food and I never have a headache, and for this relief I thank this wonderful medicine "Fruit-a-tives." My case is well known in this vicinity and you may publish this statement.

ALCIDE HEBBERT. See a box, 6 for \$2.50, or trial size 25c. If, for any reason, your dealer does not handle "Fruit-a-tives," they will be sent postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

INDOMITABLE NOW FLAGSHIP

Picturesque Scene on the Great Cruiser at Portsmouth

The cruiser Indomitable is now the flagship of the First Cruiser Squadron. Rear Admiral Colville transferring his flag from the cruiser Drake, which supersedes the Good Hope as the flagship of the Fifth Cruiser Squadron.

An impressive ceremony took place aboard the Indomitable at Portsmouth when Rear-Admiral King Hall, who has retained command of the cruiser since his promotion, took leave of the officers and men. The whole of the ship's company assembled on the upper works of the ship, and, on their behalf, Rear-Admiral King Hall was made recipient of a silk replica of the admiral's flag and a silk Union Jack by Commander Kemble Lambert.

Both were hoisted in due form, so that the great cruiser presented the unusual sight of having two rear-admiral's flags flying at the same time, as that of Rear-Admiral Colville had been hoisted as usual previously. After these proceedings, Rear-Admiral King Hall's successor, Captain De Bartolome, was formally received by the officers of the ship.

Then followed the farewell to Rear-Admiral King Hall. A double guard, composed of Royal Marine Artillerymen and Royal Marine Light Infantrymen, was formed upon the North Railway Jetty, alongside which the Indomitable was lying, and as Rear-Admiral and Mrs. King Hall followed by the new captain, passed over the gangway, they were piped out the whole of the boatswain's mates of the ship. An Admiral's salute followed, and the band played "Auld Lang Syne," while the crew gave three vigorous cheers.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfection in hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflammation of the mucous surface.

We will give One Hundred Dollars for any case of deafness caused by catarrh that is cured by Hall's Catarrh Cure. Send for circulars to Dr. J. C. CHENEY & Co., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.

LOSS IN WHISKEY REVENUE

Washington, Aug. 5.—The United States Treasury suffers a big shrinkage because of the prohibition being during the fiscal year ending June 30 last, during which period there was a decrease of \$2,291,773 in whiskey tax receipts, as shown by the preliminary report of the internal revenue bureau just issued.

Whiskey tax collections last year were \$134,869,034, as against \$138,807,807 for the preceding year. The receipts on beer and other fermented liquors amounted to \$87,496,411, a decrease of \$2,851,205 compared with 1908.

The nation's tobacco bill, however, showed an increase. The government tax on all sorts of tobacco aggregated \$31,887,178 an increase of \$2,294,423 over the previous year.

WOMAN'S WEAKNESS

Mrs. R.—When they say that anybody "takes the count" it is a prize-fighting expression, isn't it? Mr. R.—Not necessarily, my dear; it may refer to an instance of woman's weakness for titles.

THE LONDON DIRECTORY

(Published Annually) Enables traders throughout the World to communicate direct with English MANUFACTURERS AND DEALERS. In each class of goods. Resists being a complete commercial guide to London and its suburbs. The Directory contains lists of EXPORT MERCHANTS with the goods they ship, and the Colonial and Foreign Markets they supply; STEAMSHIP LINES arranged under the Ports to which they sail and indicating the approximate sailing; PROVINCIAL TRADE NOTICES of leading Manufacturers, Merchants, etc., in the principal provincial towns and industrial centres of the United Kingdom. A copy of the current edition will be forwarded, freight paid, on receipt of Postal Order for 5s. Dealers seeking Agencies can advertise their trade cards for 5s. or larger advertisements from 15s.

ARGONAUTS CAPTURE THE INTERMEDIATE EIGHT OAR RACE AT DETROIT

Canadians Get Places in Several of the Big Regatta Events—English Bantam Out-Fought By Brannigan—Interesting Events in Sporting World.

Detroit, Mich., Aug. 6.—In the National regatta today the intermediate double scull shells were won by the Argonaut Club, Baltimore; Springfield Rowing Club, Springfield, Mass., second; Grand Rapids Boat Club, Grand Rapids, Mich., third; Walnut Hill Boat Club, Flushing, N. Y., fourth, time, 7:52.

Senior double scull shells—Harlem Rowing Club, New York, first; Western Rowing Club, St. Louis, Mo., second; time, 8:53.

Intermediate four oared shells—Hamilton Rowing Club, Hamilton, first; Detroit Boat Club, Detroit, second; time, 9:47. Association single sculls, senior—First heat: James Cosgrove, Argonaut Rowing Club, Toronto, first; A. Warnock, Springfield Boat Club, Springfield, Mass., second; Geo. A. Allison, West Philadelphia Boat Club, Philadelphia, third; time, 7:24. Association single sculls, senior, second heat: Samuel Gordon, Vesper Boat Club, Philadelphia, first; William Merth, Nassau Boat Club, New York, second; Fred P. Wessel, Harlem Rowing Club, New York, third; time, 7:52.

Association single sculls, senior, second heat: Samuel Gordon, Vesper Boat Club, Philadelphia, first; William Merth, Nassau Boat Club, New York, second; Fred P. Wessel, Harlem Rowing Club, New York, third; time, 7:52.

International scull shells—New York Athletic Club, New York, first; A. Warnock, Springfield Boat Club, Springfield, Mass., second; Ottawa Rowing Club, Ottawa, third; time, 8:23.

Intermediate eight-oared shells; Argonaut Rowing Club, Toronto, first; Detroit Boat Club, Detroit, second; Wyandotte Athletic Association, Wyandotte, Mich., third, time, 8:15.

New York. Aug. 6.—Patsy Brannigan's strength and aggressiveness proved too much tonight at the Fairmont A. C. for Jim Kendrick of England.

Games St. John and in Fredericton will be arranged and Montreal will probably be the only other place in this province visited.

Baseball. Mike Donlin had a notion that he could become a successful manager if he were given an opportunity to try in Philadelphia. Others in the baseball world thought that he might prove more of a success than a few gave him credit for being likely to make.

Mr. Iman now declares that he will not take up the stock on which he had secured an option. It is to be presumed that this ends the deal by which the Durham estate would have sold its share of the ownership in the Philadelphia club.

A letter from Denver brings the information that Herman Long, the famous old shortstop, is dying from consumption and is penniless.

a chew of tobacco. Mickie got a handful of "hay," as he called it, shoved it to one side of his mouth and then shouted, "Batter up." The crowd howled with delight at the sight.

Lynona won the score of 2 to 1. M. Pherson scored in the fourth inning by an error. Laganaar pitched the first 17 innings without hitting or walking a man.

George Moriarty, the Detroit third sacker, is credited with having stolen home three times out of five attempts this year.

Tad Jones, the famous Yale catcher, of the past several seasons, will probably join the Giants within a few days.

Jimmy Bannon, field manager for Birmingham in 1908, and one time member of the Toronto, Newark, Montreal and Rochester Eastern League teams, is the latest recruit of the forces of the Syracuse club.

Clarke Griffith, of the Cincinnati Reds, is of the opinion that his team will finish third in the National League race.

"Oh, Bill's all right," said Hughie Jennings when asked about the condition of Bill Donovan.

Heine Rafael says he will get some money with Johnny Frayne within the next few months.

Jack Johnson finished up his road work at Toronto Wednesday.

VERY MUCH SO. Visitor—So this town is strongly opposed to corporal punishment? Water—Yes, sir. Why mister, dey don't even let us serve whipped cream.

Under the caption, "Wildfang has his fangs removed," the New York American relates a bout between Harry Scroggs, of Baltimore, and Young Wildfang, of Canada.

Harry Scroggs beat Young Wildfang, in a ten-round mill at Brown's gymnasium last night. Scroggs had ten points the advantage in weight and Wildfang put up a game battle but was outclassed in every round but the fourth.

The Canadian is just "Wild" now. Scroggs drew his fangs in proper style. Seven times during the bickering Harold stretched King Eddie's superior legman flat on the matting. He did not lose much time in going about his work, either.

At one stage of the game it looked as if the Canadian might surprise the lad from Baltimore. In the fourth round Wildfang, still fresh, showed at his very best.

At first Wildfang seemed to rather enjoy the tumbling sketch. He would arise each time with a smile and full of fight. After the cropper got to be a habit, though, it was different.

CANADIAN HORSE WON GREAT RACE

Kalamazoo, Mich., 6.—The Grand Circuit meeting wound up here today with great racing and the fastest heats of the year.

The two minute race brought out four starters and was the first clash of The Bel with the free-for-all brigade.

The El also proved a hard race and the veteran Country Jay lasted just long enough to win the first heat by a neck.

Men's Pants, 88c. to \$3.48, were \$1.50 to \$5.00 Boys' Pants, 38c. to 98c., were 65c. to \$1.50 Men's Boots, 98c. to \$3.38, were \$1.50 to \$5.00 Women's Tan Calf Low Shoes, \$1.98, were \$3.00 Children's Boots, 23c. to 98c., were 50c. to \$1.50

Thanking the public for their kind appreciation of our special offerings in this greatest value giving event and inviting their future patronage,

I am, faithfully yours, C. B. PIDGEON

FIFTY MILES, A LITTLE OVER FIFTY MINUTES

French Speed Marvel Almost Equals World's Record—Big Race on Today.

Buffalo, N. Y., Aug. 6.—Louis Chevrolet, the French speed marvel, fell short only a few seconds of equalling the world's record for fifty miles over a circular track at Fort Erie today in a race with E. S. Lorimer.

As a preliminary to the big match race the Frenchman covered the 50 miles in 52:10 1/2. Chevrolet was forced to stop in the 48th mile to change a tire, losing a minute and a half, making the time for the three piles being 2:48.

The amateur drivers entered in the five mile handicap free-for-all had narrow escapes from death. At the three quarters pole one of the driver Harry Hughes, lost the corner too close and plunged through the fence of his machine and it went through the barrier on the opposite side of the track.

SLEEPLESSNESS. You can't sleep in the stillest night, if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach and establishes the condition in which sleep regularly comes and is sweet and refreshing.

HARD ON THE PATIENT. The Doctor—You'll excuse me if I present my bill now, for you know how hard it is to collect money after the estate has been divided.

BRIGHT BOY. Her Father—So you want to marry my daughter, eh? Her Suit—That's the idea. Her Father—What are you going to live on? Her Suit—I was thinking about living on you.

There's a Reason

SOME POINTS IN THE COMPENSATION ACT

The following points from the compensation act are printed by request for the benefit of employers.

1st—Not of injury must be given to employer within two weeks after occurrence of accident. This notice is as per form at foot. It has to be addressed to the employer and signed by the person injured or by his representative.

2nd—Damages can be claimed under common law for any amount, but the decision of the court is not final and can ultimately be appealed to England. Or damages can be claimed under Workmen's Compensation Act of 1908 and 1909. In this case the workman can petition to any judge of the Supreme Court whose decision is final.

3rd—The total amount of damages payable under the act is not more than three years' wages, or \$1,500; in case of injury causing worker to stay home, not more than half of the worker's weekly wages, and for a period not longer than 100 weeks.

4th—Printed copies of employer's rules and orders must be kept posted where they can be seen.

5th—Workmen have no claim for injuries sustained by their own carelessness or willful act or disobedience of recognized rules; or if caused by reason of a malicious or purposeful act of a fellow workman.

6th—If a workman is hurt by an accident caused by an earthquake, or any sudden freak of natural law, or by an accident neither caused by defects in machinery or by fellow-workman's carelessness, then such workman cannot recover damages.

7th—A workman can get damages under the 1908 Compensation Act if he is hurt by the carelessness or negligence of another man working alongside of him, or if he is hurt by any breakage due to a fault or defect in the machinery or in the gear. For example, if the gang-way on a steamer are not in proper condition, due to the carelessness of certain men not setting them properly, then if a workman going over such gang-way gets hurt, he has a case against the ship. Or if a workman in loading a vessel was hurt by a wrong act or order of the winchman—or by a misplaced sling on the derrick—or by breaking of an old worn chain, then such workman would have a case against the owner. Likewise, in any factory or mill if a workman is hurt by the carelessness of a fellow workman, he has a case against the employer.

NICKEL'S BIG ATTRACTION MONDAY

This afternoon and evening at the Nickel there will be a big wholesome show for the Saturday half-holiday makers, when Holmes and Buchanan will farewell with a big programme of four numbers, including the comedy hit, The Boy Who Stuttered and the Girl Who Lapsed.

The Nickel will certainly strengthen its already firm hold on the best wishes of the St. John people Monday, when it presents to music-lovers the famous Bush Family of New York, a string quintet of exceptional merit, one that has already charmed the best audiences of New York state and which will be heard in Keith's vaudeville houses across the continent during the coming season.

11th—If it can be shown that the accident was caused by a defect entirely unknown by employers and workmen, then the employer is liable if workman is injured.

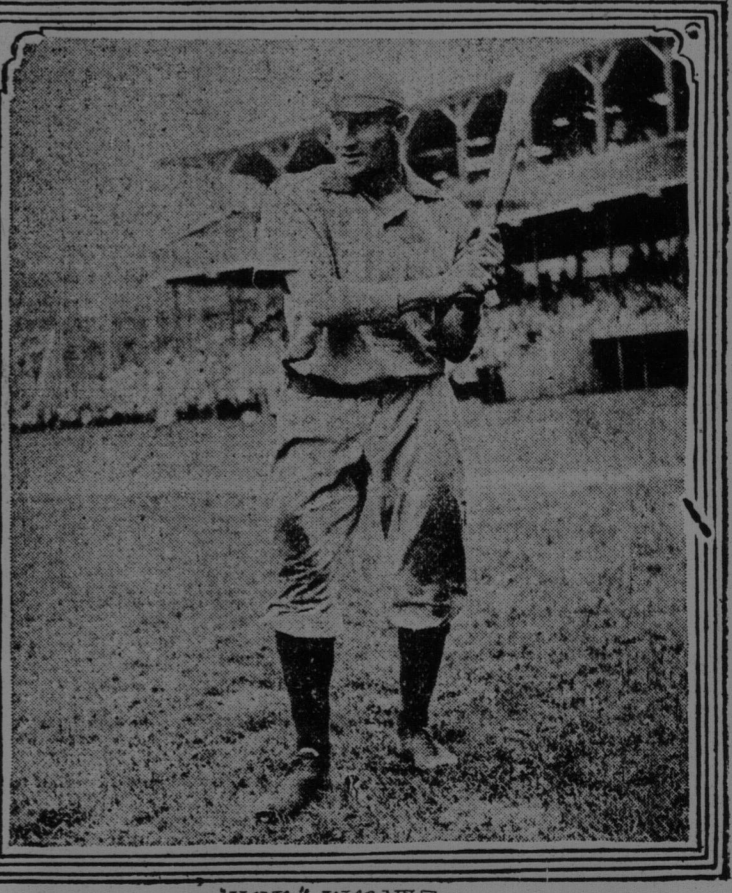

12th—Workmen in factories, mills, steamers, docks, foundries, laundries, quarries, mines, timber ponds, warehouses, railways have the benefit of this 1908 act.

FORM OF NOTICE. To (insert the employer's address, or the company as the case may be) Take notice that on the day of 19 I (insert address of injured person) a workman in your employment, sustained personal injury (add "of which he died" if such is the case). And that such injury was caused by (state shortly the cause of the injury, e.g. the fall of a beam).

Dated, etc. Yours, etc.

13th—If a workman is injured by the carelessness or negligence of another man working alongside of him, or if he is hurt by any breakage due to a fault or defect in the machinery or in the gear. For example, if the gang-way on a steamer are not in proper condition, due to the carelessness of certain men not setting them properly, then if a workman going over such gang-way gets hurt, he has a case against the ship.

14th—If a workman is injured by an accident caused by an earthquake, or any sudden freak of natural law, or by an accident neither caused by defects in machinery or by fellow-workman's carelessness, then such workman cannot recover damages.

MAY LOSE A BIG FORTUNE

New York Society Woman May Have to Give up All to Son's Wife.

New York, Aug. 6.—Mrs. Edward Lauterbach, who inherited a fortune of from \$100,000 to \$200,000 when her son Alfred was killed in an automobile accident July 29, 1908, will be deprived of every dollar of her inheritance if the woman who proves to be the dead man's widow proves her claim.

May Not Oppose Claim

Edward Lauterbach was busy yesterday trying to corroborate his alleged daughter-in-law's claim. His son-in-law, Mr. Herchberg, went to Philadelphia, where the marriage is said to have occurred, to examine the marriage certificate supporting the claim to the possession of a lawyer there.

The Coupon Worth
10c at Your Dealer's

FREE
Infant's
Delight
Soap

FREE COUPON

This Coupon, when properly signed and presented to your Dealer any time within one week from date with 5c in payment for a cake of Taylor's Borax Soap, entitles bearer to a 10c cake of *Infants' Delight* Soap Free.

Name _____

Address _____

NOTE—Only One Cake of *Infants' Delight* Free to a family.

JOHN TAYLOR & CO., Limited, Toronto, Canada

Cut It Out Now

Take this Coupon with 5 cents to your Dealer and get a cake of Taylor's Borax Soap and a cake of *Infants' Delight*.

This is the Coupon—It is Worth 10 cents to You
Only One Cake Free to a Family

Taylor's Infants' Delight

Toilet soap should do just two things—remove the dirt and nourish the skin. Let us then show you how we have blended both qualities into a single cake.
For in 43 years we have learned the secret of perfect soap—one that leaves the skin as soft and pink as an infant's. So we call it *Infants' Delight*.

The olive oil in this soap comes from the gardens of France. There we pay the highest prices—often double what we might pay. But our oil is pure enough to use on your table.

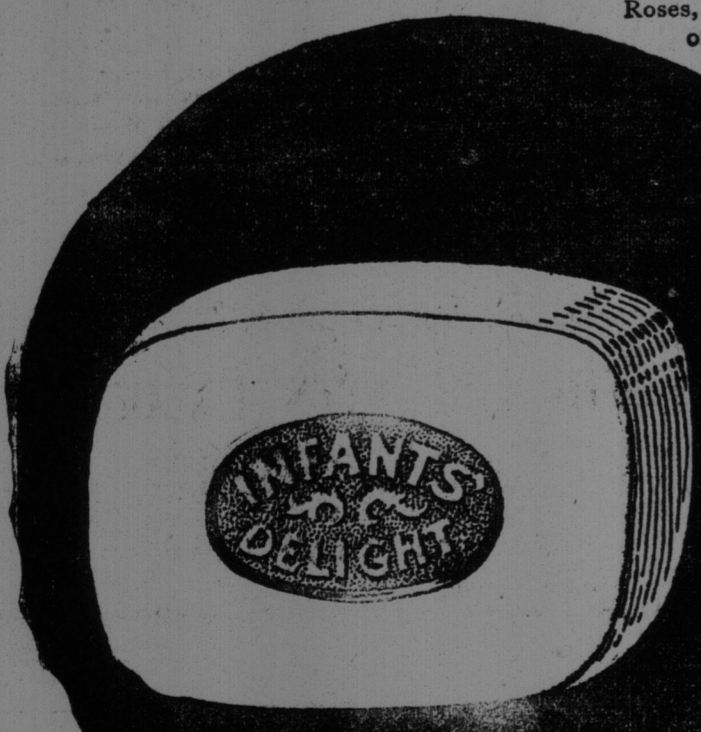

Then we bring coconut oil over 12,000 miles from the isle of Ceylon. This oil has for centuries kept the Egyptian's skin soft and beautiful in spite of the tropical sun.

Please use a single cake—then let the results decide for the future. See for yourself how it lathers into a rich, creamy foam. Note how it wears as thin as a wafer—how it leaves the skin as soft as velvet and as smooth as silk.

Besides this it is the loveliest soap for the baby's skin. And if it is best for the sensitive, pink skin of an infant, it surely is best for your own.

You will like the dainty perfume, too. We pay over \$100 a pound for pure Otto of

Roses, but it requires 3,000 pounds of rose leaves to make a single ounce. The fragrance is simply exquisite, for it is only the scent of roses—the breath of a million flowers.

Taylor's Borax Soap

Here again is a soap different in every way from the ordinary—it contains borax. Where other soaps merely cleanse, this goes further—it whitens and purifies. The effect of the borax is almost magical—it is the most wonderful soap ever made for the laundry.

In this soap we use only the finest grade of coconut oil, for it lathers with greatest abundance. Then we mix in the borax which softens the water and also softens the hands.

Soft water is pure, but hard water contains mineral matters which prevent the soap from lathering. Borax makes the hardest water as soft as rain water, so you require only half the amount of soap.

It cleans the daintiest of laces as well as the heaviest of woollens—and it prevents shrinkage of both. Every odor is removed and the cloth is pure and sweet. This soap also prevents starch from sticking, and adds greatly to the stiffness.

It sterilizes and destroys every germ, so as to avoid any possibility of contagion. Send a bar to the laundry and protect the health of your family.

This powerful cleanser is utterly harmless to the hands—it leaves them whiter and softer than before.

It requires twenty-one days to make a single cake. The labor of more than 200 persons is needed. Yet this wonderful soap costs no more than the ordinary. Simply because we make every year millions of cakes—we can buy at the lowest prices and give you the highest quality.

Don't Wait—

Cut Out the Coupon This Minute

We ask you to do us a favor—we want you to learn for your own interests the difference between these soaps and the ordinary. You have been using some soaps in the past and you naturally consider them good.

But now we ask that you compare them with these—try them both and note how vastly they differ. We gladly invite the comparison because we have made it ourselves and we know just what must be the result.

But it would be unfair to ask you to bear the expense of the test so we have made you this generous offer. We only ask that you buy one soap and we'll buy the other. Cut out the coupon on this page and take it to your dealer this week. Pay him only 5 cents and you will then receive both cakes worth 15 cents.

THE UNDERWATER BATTLESHIPS

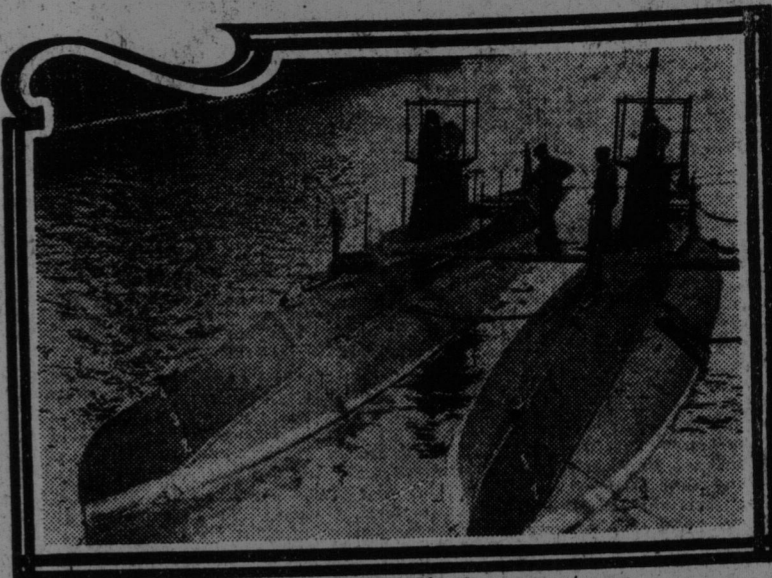

By Thomas Wilson

Bow View Showing Torpedo Tubes

Testing the Submarine Emergency Jacket

Deck View of Submarine

Although slower, perhaps than some other nations to adopt the submarine vessel as an adjunct to its naval force, the United States government has at last awakened to the necessity for ample provision for vessels of the submerged type, and now has in course of construction a fleet of underwater craft that will have no superiors afloat.

There has been a great tendency on the part of writers to declare that the submarine will eventually replace the larger and more powerful battleships and to decry the building of these immense floating steel fortresses, on the ground that they are becoming more and more costly and yet may readily be sent to the bottom in a few minutes by one small submarine boat.

Frightened naval officers, however, do not look upon the matter from that point of view. While they consider the submarine boat to have been developed to a remarkable degree of efficiency, yet they feel that the work of the underwater fighter will be confined to coast-defense duties, and that the arm that will win the victories for the nation will be the gigantic, heavily-armed battleships, fighting far from land.

The submarine is a solution of the problem of securing mobile coast defense at a comparatively low cost and in short lines. Instead of being restricted to night attacks in the manner of surface torpedo boats, the submarine can go on its deadly mission in daylight and, unobserved, approach her \$10,000,000 prey to the modern battleship.

With their ample demonstrated ability to protect our coast and harbors by making blockades by an enemy's fleet impossible, submarine flotillas will increase the value and importance of our battleship and cruiser squadrons, enabling them to assume an offensive role—that of steam ing forth into other seas to meet and cope with the enemy, rather than constituting

“home guard” on our own coast. The need of so freeing our battleships was illustrated during the Spanish War. Admiral Dewey, after witnessing the performance of the original submarine boat exhibited to the navy, said, on April 23, 1900, that from what he had seen of the boat's performance, he was convinced that had the Spaniards had two such boats at Manila he could never have held it with his squadron. He said, further, more, that, in his opinion, with two such boats in Galveston harbor all the navies of the world could not blockade that place.

The Admiral thereupon recommended the building of 20 submarine boats. Wonderful as the boat was the Admiral witnessed, it was but a crude forerunner of the improved type of the submarine of the present day.

Since the trials of the early submarine, before Admiral Dewey, some of the most eminent officers of the navy have endorsed the submarine and the official trials of the boats built for the government, particularly that of the Octopus, have shown results exceeding the claims to this type of vessel.

The new French submarines are called “submarine cruisers” and are said to be of 600 tons displacement. Our latest ones have a displacement when submerged of nearly 400 tons and carry large torpedo

tubes. They are provided with officers' quarters and have a radius of action on the surface of some 1,400 miles. The official trial of our navy submarine, the Viper, demonstrated clearly that the sphere of usefulness of these boats is not restricted to sheltered harbors. This boat remained at sea, self-sustaining for four days.

In the opinion of some of our leading naval experts, the great trouble with our navy today is that it is “top heavy.” We have a great number of battleships, but our torpedo service—destroyers and torpedo boats (surface and submarine)—compare unfavorably with that of even fourth rate powers, and it is time, they say, that the navy was balanced up.

This indispensable small craft are in expensive, both as to original cost and maintenance. Thus the latest type of battleship—the American “Dreadnought”—cost \$10,500,000 to build and \$1,000,000 a year to maintain, whereas our largest and most improved submarines cost less than \$400,000 and the expense of maintenance is negligible.

Great Britain, the nation having the greatest number of battleships, nevertheless has a most efficient submarine navy. Having in 1900 become satisfied that the submarine torpedo boat had come to stay, the British Admiralty began to build these boats, each succeeding year built

a group of homogeneous design and now has on hand or building about 60 submarines of the same American type which has been adopted in our navy. Japan is also a great believer in submarines and has built and is building a number of the American type similar to those in the United States navy.

France has about 104 submarines, built and building. The French Admiralty consider their submarine fleet one of the most important branches of their navy. These boats have performed some remarkable feats in torpedo work against the battleship, Vice Admiral Kourier, of the French navy, has made a report on the work of the submarines in the French naval manoeuvres of 1908.

After dwelling at length upon the remarkable efficiency of the submarine, citing numerous instances in which it had proven its ability to torpedo battleships under conditions incident to the warlike manoeuvres, the Admiral, in his conclusion, declared that in the future no battle fleet will be able to retain its full efficiency, defensive and offensive, and above all as a preventative of all possible aggression, unless there be associated in its composition submarines with the heavy fighting ships.

All of the other leading naval powers are building submarine boats. We hear a great deal of the security afforded by

submarine mines, but Great Britain has abandoned submarine mines and, to a great extent, other fixed coast defenses in favor of submarines and has turned over the shore stations to her submarine boat service.

The submarine boat appeals particularly to those who favor an economical defensive naval policy rather than an enormous outlay for huge, floating fortresses for defensive purposes. Former Secretary of the Navy Metcalf, in one of his reports, states:

“Of the submarines two have been sent to the Philippines where they are now in commission; two on the Pacific Coast have been commissioned; and on the Atlantic Coast all of the newer ones have been kept employed with gratifying results. The enthusiasm and zeal displayed by the officers and men of these craft point to real efficiency and indicate that they will prove valuable to the service in time of need.”

After speaking of battleships and cruisers, the report continues:

“In addition to these fighting ships intended for the line of battle, all navies are building scouts, or unarmored cruisers, of displacement ranging from 500 to 5,000 tons, lightly armed, but of very high speed, 23 to 28 knots, as well as torpedo craft, which include destroyers, torpedo boats and submarines.”

What the submarine boat of a decade hence will be cannot be guessed at, but it is probable that it will be as much of an improvement over the present type as this is over the type of 10 years ago, if not more.

Despite its development up to the present time and its wonderful efficiency, though most of the tests made are conducted with such secrecy that no one else saw the crews and the naval boards know anything of them, the submarine is not a new craft; that is, the theory is not.

Alexander the Great used diving bells in his siege against Tyre in 332 B. C., so history states, but the report is exceedingly vague. There are also some other references to submarine experiments made from the eleventh to the fifteenth century, but the first real attempt to

navigate beneath the surface was made by a Dutch physician named Cornelius Drebel, who, in 1620, launched a submersible craft that was so successful that two other larger boats were constructed along his lines.

In 1601 a John Holland took out English patents on a submarine vessel and it is a curious coincidence that the submarine invented by the present John Holland should be accepted by the English Admiralty as the highest type of vessel of that class.

From 1601 until 1850 there were a score or more of inventors who presented their types of underwater craft, all of which failed, many of them drowning their original inventors. In 1859 a German named Wilhelm Bauer entered the contest for the supremacy of the sea, and it is said, did more to materially advance the science than any other man up to his time.

His first two craft, were failures, but he did build in Russia in 1866 a vessel 32 feet long, 12 1/2 feet beam and 11 feet depth, in which he conducted 134 experiments, one of them being a four-hour submergence with a number of people on board. He finally lost his vessel by its sinking, and, having reached the end of his resources, left Russia and dropped out of men's sight and records that particular sphere.

The most notable use of a submarine vessel in warfare was during the Civil War, when the Confederates successfully attacked the United States ship *Houma* off Charleston, in which the submarine and its crew of nine were lost. There stands today in a cemetery in Charleston a marble shaft as a memorial to those nine brave men who were actually killed in naval warfare.

This vessel, which was named the *Houma*, was made of a cylinder boiler 30 feet long and 48 inches in diameter. Fore and aft were placed water tanks for ballast, and the bottom was made of iron castings, which could be emptied or filled by valves, which could be released from the outside by means of a lever. The vessel was fitted that they could be released from the inside in case the water ballast could not be ejected. The releasing of the castings would thus bring the boat to the surface quickly.

To propel it was an ordinary screw propeller attached to a shaft on which there were eight cranks at different angles. This shaft eight of the crew worked, while the other man steered and looked out for the torpedo, which was a copper cylinder, holding 50 pounds of explosive and was rigged on a long boom.

Three times the boat sank and each time from six to nine men were drowned, but despite her evil reputation and the 23 lives volunteered to go to their deaths, thus making up the roll of 32 who sacrificed their lives in her.

To her fast crew, however, belongs all the credit and glory for, despite many handicaps and narrow escapes from perishing, while practicing their way down seven miles to sea on February 17, 1864, and snaked up in the *Houma* calmly evening the other 32 the watch of the warship saw what appeared to be a large plank approaching. Two minutes later “plank” struck the ship about amidships, there was a terrific explosion and what had been a stately frigate became a hopeless wreck and sank so quickly that few of her crew were saved.

At the same time it was thought that the submarine had escaped, but three years later when divers went down to view the wreck, the submarine was found fixed in the hole which its torpedo had made and into which the section of water had drawn

There is a vast difference between the *Houma* and the *Octopus*, but it is highly probable that 40 years hence the difference between the *Octopus* and the boat of that time will be as great, and it is also highly probable that from now on the American navy will not cease in the development of the under-water battleships.

NEVER LOOKED YOUNG.

Stella—Yes, she has one of those prehistoric faces.

Evil of Substitution Exposed.
A dealer substitutes because he makes more profit on an inferior article. A local citizen was induced to take a substitute for Putnam's Corn Extract, with the result that the substitute burnt his toes and failed to cure. Putnam's contains no acid and is guaranteed. Always get Putnam's—no other.

THAW'S FATE TO BE DECIDED ON THURSDAY

White Plains, N. Y., Aug. 6.—Harry K. Thaw's latest struggle for release from the Mattawan asylum for the insane will be decided tomorrow. The submission of testimony in his habeas corpus proceedings before Justice Isaac N. Mills closed this afternoon and all that remains is the final arguments of the attorneys. Justice Mills will file his decision with the county clerk here on the morning of Thursday, Aug. 7.

Several possibilities confront Thaw. The court may grant his plea and may make him absolutely free. It may decide that he has not established his sanity and refuse to interfere, in which case that state authorities will probably send him straight back to Mattawan. But Justice Mills may feel that the young man's mental condition is still in doubt and for that reason delay a final order, meanwhile paroling Thaw in custody of some officer or possibly of his family, or he may declare Thaw insane but regarding his mother's complaint moved by his surroundings at Mattawan, send him to some other state hospital not peopled by criminals.

Thaw left the court room this afternoon with jaunty step. The strain of the past four weeks, during which he has submitted personally to fourteen hours of cross-examination, was not apparent either in his face or his bearing. At no time during the proceedings has he expressed anything but satisfaction with the results

and confidence in the success of his case. This afternoon he was as hopeful as ever. “I am sure,” he said, “that I shall be free.”

The evidence presented in behalf of Thaw closed today with a dramatic outburst by his mother, Mrs. Mary Copley Thaw, who was the final witness. Her last words were a denunciation of District-Attorney Jerome. Earlier in the day she had read a list of names distinguished in New York society there were guests, she said, at a dinner she gave in New York which Harry attended and which she referred to this list of names.

“I brought in the names of those who attended that dinner to my son,” she said, “because of the statements of Mr. Jerome regarding the company Harry was accustomed to keep. I do not have any special enmity toward Mr. Jerome but he certainly has not behaved in this matter in a gentlemanly way nor in a Christian way. Mr. Jerome always talked about Harry being a frequenter of the ‘Tenderloin’ when he knows as well as any one that my boy never went to that Tenderloin until he met a certain person who dropped him down.”

“That,” said Attorney Morechauser, “ends our case.”

On the stand today Mr. Thaw's testimony was again frequently interrupted by sobbing, as he described Harry's surroundings at Mattawan. “That place seemed to me like the ves-

tribute to the infernal regions,” she said solemnly.

The principal new witness today was Roger O'Mara, formerly chief of police in Pittsburgh and employed by the Thaws as a detective in Harry's case. He testified to the corroborations of the stories about Stanford White. The greater part of the day was devoted to a re-examination of Thaw's disavowal of the stories about White. Dr. Evans is superintendent of the New Jersey State Insane Hospital at Morris Plains. The expert replied that he declined to go into personalities.

Both the alienists testify to their assertions that whatever Thaw's mental condition was when he shot White, he was now sane.

“You sat here yesterday and listened to Thaw drop over the stories about Stanford White. What did you think of his condition. Was it sane or normal?” Mr. Jerome asked Dr. Harris.

“I think his condition throughout the entire proceedings has been one of embarrassment,” replied Dr. Harris.

NEW ZEALAND PREMIER ON THE NATION'S DEFENCE

Montreal, Aug. 6.—A London cable says: Sir Joseph Ward, premier of New Zealand, speaking at a luncheon today, tendered by the Imperial Co-operation League, said there were different conceptions of naval defence.

Some considered that should be controlled by one central authority, while others considered that there should be local navies, but the value of any navy was considered as that upon which they were engaged was to consider all these points and evolve some final system which would be best in the interest of the empire.

He also alluded to the cheapening of cable communication as a means of bringing the people of New Zealand closer in touch with the mother country.

I. C. R. MEN STATE POSITION

E. Tiffin and F. P. Brady, of the I. C. R., who were in the city meeting the water board with reference to the I. C. R. water supply, went out last evening to a Telegraph reporter the commissioners said that the city's present proposition was nothing more or less than a case of exacting toll. “At Halifax,” said Mr. Tiffin, “we pay seven and a half cents per thousand gallons; at Montreal ten cents, while here we pay annually \$2,500 and are limited to 25,000,000 gallons and are asked to pay twenty cents a thousand gallons for all over that quantity. We are quite willing to pay the same rate we pay at Montreal.”

Mr. Tiffin said it looked as if the city were exacting toll just because the I. C. R. were large users of water. Unless the board's recommendation is acted upon it will mean that we will have to arrange for our own water supply in self-protection,” said Mr. Tiffin.

The commissioners say that the I. C. R. use here about forty-five million gallons a year.

VERY LIKELY.

Poor Digestion?

This is one of the first signs of stomach weakness. Distress after eating, sour eructations, sick headache, bilious conditions are all indicative that it is the stomach that needs assistance. Help to regain health and strength by taking

BEECHAM'S PILLS

for they are a stomach remedy that never disappoints. They act quickly and gently upon the digestive organs, sweeten the contents of the stomach, carry off the disturbing elements, and establish healthy conditions of the liver and bile.

Help Weak Stomachs

The wonderful tonic and strengthening effects from Beecham's Pills, make them a safe remedy—they

GUILTY OF FORGERY

Toronto, Aug. 6.—John A. C. Anderson, formerly lodgkeeper at Portland street branch of the Bank of Montreal, pleaded guilty to two charges of forgery before Magistrate Denison in the police court this morning.

Anderson was arrested in Vancouver after he had traveled throughout the continent and taken a side trip to Europe, leaving behind him, it is believed, a swath of forged checks. Before he left the bank he obtained possession of a rubber stamp used for marking accepted checks, and by its use was able to avoid falling under suspicion in passing off his forgeries.

The charges preferred against him this morning were the forging of two checks on the T. Eaton Company for \$75 and \$50 on the 29th of June. He was remanded for sentence.

Up to the present \$20,700 has been subscribed toward the restoration of Selby Abbey.

GREAT GROWTH OF REVENUE IN CANADA

Ottawa, Aug. 6.—The revenue of Canada shows a handsome gain. For the first four months of the present year the revenue totals \$30,630,311, an increase of \$4,900,000.

During July alone the revenue was \$8,437,483, or \$1,750,000 more than during the previous July.

The increase in revenue came chiefly from customs collections, which show a gain of \$3,500,000 during the four months. There was a decline of 100,000 in excise collections, an increase of \$25,000 in postal revenue and an increase of \$330,000 from railways and public works.

The expenditure on consolidated account for the four months, as far as the report shows, is \$29,730,000, which is an increase of \$3,000,000.

The expenditure on capital account, as far as returned, for the four months, is \$8,500,000, an increase of about \$1,000,000.

MINE WORKERS' PICKETS PLACED UNDER ARREST

Glouce Bay, Aug. 6.—Pickets for the U. M. W. may find the law considers them to be mere loiterers. Thirty-four men were arrested at No. 2 mine last night charged with loitering on the streets. These men were at the time doing picket duty for the U. M. W.

In Glouce Bay there is a by-law which prohibits loitering on the street after 12 midnight. The Dominion Coal police, who are county constables, gathered in the thirty-four men at No. 2. The U. M. W. say the police committee had no authority to appoint the police who made the arrests.

The thirty-four pickets will be tried on August 18 when judgment will be delivered, appeal perfected and the causes entered on the county court docket. The men are now out on bail.

The U. M. W. held a meeting at Caledonia tonight with Vice-President McCulloch and McLennan as the speakers.

The eviction cases are dragging along at Sydney, about half a dozen cases out of the 29 have been finished this week. Honors are even between the coal company and tenants.

Orders of ejectment against three tenants of the Dominion Coal Company were made yesterday by Judge Finlayson. Ejections may therefore be made within a day or two.

More men are reporting for work but there is little chance in conditions at the collieries. Another large batch of men from Montreal were landed last night and were taken to the mines.

The output yesterday amounted to 10,488 tons, of which 5,000 tons came from the collieries, the rest from the banks.

BUBONIC IN CALIFORNIA
Sacramento, Cal., Aug. 6.—The first case of bubonic plague in California in a year was discovered yesterday in Alameda County. The victim is Joseph Mendosa, nineteen years old.

A little success is apt to make a small man dizzy.

WOMEN'S WOES

St. John Women Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must “keep up” must attend to duties in spite of constantly aching heads, and headaches, dizzy spells, bearing-down pains; they must stoop over when to stoop means torture. They must walk and bend and work with ringing pains and many aches suffering than any other organ of the body. Keep the kidneys well and healthy which Japan considers reasonable, regard for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. J. R. Ryan, of 52 Clarence street, St. John, N. B., says:—

“I was languid and run-down and I had no ambition to attend even to the least duties of the house, but, instead, they seem to drag on me and tire me out completely. Bad headaches were very frequent and often attended by severe attacks of dizziness and faint. Spots would dazzle before my eyes and everything would turn black. I had tried several different remedies but found little relief in any of them and it was through an advertisement in Mr. Watson's drug store, 100 King street, that I learned of Booth's Kidney Pills. I used only two boxes and they cured me. I have not had an attack of headache or headache since and I feel like a new person.”

Sold by dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

AT ST. PETER'S

There was a large congregation present at St. Peter's church at the jubilee service last night. The deep interest that the people of St. Peter's parish are taking in these services was readily shown by the close attention paid to the words of the speaker. The sermon last evening was delivered by the Rev. Father Leonard, C. S. S. R.

Father Leonard took for his theme the King of the True Church, and treated his subject in a masterly way. Father Leonard first spoke of the doctrine of the sacrament of the Blessed Eucharist as held by the Roman Catholic church and said that it was a way whereby men could come in closer touch with their Saviour. It had been given to man through the great love of Jesus Christ and His sacrifice.

Father Leonard spoke of the good resulting from attending the sacrament. Through it they were enabled to come closer to their Lord and thus live better lives. He pointed out that it should be attended by at least once a month and to the heart of the priest than to see a father and his family coming regularly to the sacrament.

At the conclusion of the service the benediction was imparted.

James Lowell, M. P. P., last night received a telephone message from Sacramento, Cal., that A. B. Copp, M. P. P., who has been dangerously ill at his home there, is much improved. He was able to sit up yesterday and his physician expects him to be around in a week or so.

And a woman seldom stops talking for the purpose of thinking.

JAPAN AND CHINA AT ODDS OVER RAILWAY

Pekin, Aug. 6.—The negotiations between China and Japan for the reconstruction, by the An-tung-Mukden Railway, in accordance with the convention signed several years ago, have failed, owing to disputes between the contracting parties arising from the interpretation of clauses in the convention, providing for the policing of the line, etc.

Japan has formally intimated to China her intention to proceed with the reconstruction of the line within a time limit which Japan considers reasonable, regardless of the Chinese objection.

The entire railroad question, therefore, will be transferred from Mukden to Peking, and be made part of the whole China-Japan question concerning Manchuria, the negotiations for the reconvenement of which were concluded July 27.

SEEK \$1,500,000 DAMAGES

New York, Aug. 6.—Armour & Company, Swift & Co. and Morris & Company, the Chicago packers are named today as defendants in a complaint filed under the provisions of the Sherman anti-trust act by the minority stockholders of the New York Butchers' Dressed Meat Company, who seek to recover \$1,500,000 damages.

The complaint is the latest move in a suit originally brought two years ago and is essentially a protest against the majority management of the company's affairs, which, it is averred, has been dictated by the packers ever since 1907, when they bought a controlling interest and seated their own directors.

THE EVENING TIMES, ST. JOHN, N. B., SATURDAY, AUGUST 7, 1909

OUR YOUNG FOLKS CORNER

Naughty Bill and Bun. A Story of Two Bears.

Away up in the mountainous country lived a great many bears. Two of the best families lived as close neighbors, the mother bears being very great friends.

"I fear we'll have to live farther apart, my dear friend," said the mother of Bun. "The mother of Bill one day as they were two sat discussing a most ferocious fight there sons had engaged in that morning."

"Ah!" he mused. "I believe I'll take a hand in the fight myself." way, my dear, except to move far apart. And the mother of Bun sighed, for it was a great sacrifice on her part to live a great distance from her dearest friend.

home that morning (she was out cave hunting for she had decided to move from the close neighborhood of her dear friend, all on account of their ungrateful sons) there was none to interfere with the combatants.

Adolpho, the Boy Tenor. BY WILLIAM WALLACE JR. He was commonly known as Dolph, though his Italian mother had called him Adolpho. He was born in the city of New York, his father a German and his mother an Italian.

Helpful Hints For Our Young Artists. LESSON NO. 62—A SPANISH TORREADOR.

Little Redbreast

Far up in a tree Little Redbreast, Happy and free In his snug little nest.

"Oh, if you'll stop beating me this minute, Grandfather Bear," cried Bill. "I promise to never, never fight with anyone again. I'll only fight in self-defense."

A DELICIOUS LUNCHEON SALAD. This is the time of year when luncheons are the joy of the high-school girl. There are no lessons to be comeled during the afternoon and evening, and the day is given up to rest, recreation and light reading, preparatory for the coming of the next school term.

Adolpho, the Boy Tenor. BY WILLIAM WALLACE JR. He was commonly known as Dolph, though his Italian mother had called him Adolpho. He was born in the city of New York, his father a German and his mother an Italian.

Helpful Hints For Our Young Artists. LESSON NO. 62—A SPANISH TORREADOR.

Gracie's Confession. By Helena Davis.

Gracie's mother had gone shopping and I'll answer the door, for Nancy is busy in the kitchen making preserves, and mamma told me to answer the door during her absence.

Gracie thought it over and decided that perhaps it would be all right to go into the library to get a book, so she said to Maybelle: "Well, we'll run into the library and find that book; but we'll not stop in there a minute."

Gracie thought it over and decided that perhaps it would be all right to go into the library to get a book, so she said to Maybelle: "Well, we'll run into the library and find that book; but we'll not stop in there a minute."

CIRCULATION

The following is the average daily circulation of the Times for the last six months:—

January	6,716
February	6,976
March	7,165
April	7,189
May	7,003
June	7,029

The Times does not get its largest sale through newsboys. It is delivered at the homes. That is the kind of circulation which is of value to advertisers.

LATE LOCALS

Rev. W. Camp will be the speaker at the Every Day Club tomorrow evening at 8.30 o'clock.

The forty-second annual communication of the Masonic grand lodge will be held in this city on Tuesday, August 24.

There were five births—three boys and two girls—and seven marriages reported to Registrar John B. Jones, during the present week.

Yesterday afternoon the grand stand of the Shamrock grounds was inspected by Director Wisely and some repairs ordered. This morning a crew of men effected the repairs and D. B. Donald, of the Marshalls stated that all was satisfactory.

All members of LaTour, Alexandria, Rockwood, Victoria, and Fairville sections, and members of visiting sections, are urgently requested to be present at No. 2 drill hall, E. E., this evening at 8 o'clock for drill and distribution of uniforms for the Sunday parade.

A great treat is in store for all who attend the readings to be given in Rothery's Presbyterian Hall on Wednesday evening next. Rev. Roy Carruthers, professor of elocution of Pine Hill College, Halifax, has kindly consented to come here and give selections from MacLaren's "Bonnie Briar Bush." Prof. Carruthers is a gifted and popular reader, and comes to New Brunswick specially for this entertainment naming the date most convenient for his plans. Tickets at 25c. each.

The newspaper men's baseball team challenged the policemen to a diamond fray this morning, and the deal was accepted by Detective Killen and Patrolman Marshall on behalf of the guardians of the law. It was arranged that an admission fee would be charged and the proceeds contributed to the police relief fund. Time was made by the policemen to practice, as a number are over weight. Detective Killen, in addition to acting as manager will play and of fourteen men in view it is believed that nine can be obtained who can measure up to the standard of the pencil maulers. The game will be played on the E. D. C. grounds.

HALIFAX WANTS OUR ATHLETES

Wanderers Urge That Team be Sent From St. John for Sports.

The president of the Every Day Club has received a letter from the chairman of the Wanderers' sports committee of Halifax, urging that a team be sent from St. John to take part in the Wanderers' annual electric light sports on the evening of Aug. 17.

The events are 100, 220, 440, 880 and three mile runs, and two bicycle races. There will also be a relay race. The entries will close on Aug. 12. It would be in the interests of sport for St. John to send a team to compete in these events, and if one is not sent it will be because St. John is itself so poor a patron of athletic sports that no club can afford to compete to any extent in outside affairs. The Wanderers' annual sports are always well contested, and St. John athletes would be heartily welcomed to the competition.

WINDING UP ORDER SET ASIDE

Yesterday afternoon Judge McLeod set aside an order for the winding up of the Thomas W. Flett Co. Ltd., with costs. In his decision his honor stated that the directors had no power to declare the insolvency of the company, and ask for the consent to be wound up, without having the authority of the shareholders. His honor also found that the petition as presented was insufficient.

PERSONAL NOTES OF INTEREST

Mrs. John Burpee, who has been visiting Mrs. G. J. Clarke, in St. Stephen, has returned.

Misses Doris and Natalie Reed, of this city, are guests of Mrs. W. J. Porter, St. Stephen.

Mrs. Charles Beard and her son have returned home after a visit to Calais.

A. J. Teed, of St. Stephen, who was operated on in Boston, a few days ago, is reported to be resting comfortably.

Miss Beanie Neuber, of Woodstock, is visiting her friend, Miss Annie Hipwell, of this city.

Harry H. McCleskey, of New York, now on a visit here to take part in a concert in Woodstock on Thursday evening next.

C. C. Avar, of Sackville, was a passenger on the city on the Boston train last evening.

Mrs. Babbitt, Mrs. Deedes and Messrs. Richard and Skinner, who have been here this week attending the provincial tennis tournament, returned to Fredericton last evening.

Mrs. J. E. Idone, of Boston, left last evening for Burton to join her husband, Professor J. E. Idone, of the Boston conservatory of music, who is spending a short vacation there.

Miss Jean Leitch, who was operated on in the hospital yesterday rested comfortably last night and is somewhat improved today.

MANY WAYS TO PASS HOLIDAY

Sporting Attractions are Many for This Afternoon—Only Good Weather Now Needed.

An attractive array of pleasing events has been prepared for this afternoon in the way of outings for the half-holiday.

On Nase's picnic grounds at Westfield, under the auspices of the Westfield Outing Association, an unusually fine programme of field sports will be carried out, consisting of 100 and 200 yards races, both for boys and men; high jumps, shot put, hop, step and jump, running broad jump, tug of war, standing broad jump, relay races and races for ladies. A large number of entries have been received for each event, from Lingley, Hillandale, Onnette and Westfield. Edwin A. Ellis has donated a medal for the one making the highest number of points among the juniors and the sports committee one for the highest points in the senior competition.

The Prentice Boys outing to Ludgate Lake today is expected to attract large crowds. This afternoon's train will leave at 2 o'clock. A good list of sports has been drawn up and an enjoyable time is expected.

At Millidgeville this afternoon the yacht race will prove a drawing card. Some of the speediest of the boats have been entered for the race and all that is wanted to ensure a lively competition is a stiff breeze and fine weather.

Seaside and Rockwood Parks will probably be chosen by many picnickers who could hardly find more pleasant places to enjoy themselves.

For those who remain within the city limits, the baseball game on the Shamrock grounds, the second in the championship series, is expected to be a big attraction. The St. Peters and the Marshalls will play.

Much interest is being shown in the golf match to be played between this city's team and one from Halifax. The Nickel and the Star moving picture houses have prepared excellent programmes.

If the weather man is willing to cast a friendly glance on the people expecting to enjoy these events there is no doubt they will all be successful and well attended.

SOLEMN CLOSE OF JUBILEE

Impressive Ceremonial at St. Peter's on Sunday—This Evening's Services.

In St. Peter's church this evening Rev. J. Barry, C.S.B., will deliver a sermon on the "Queen of the True Church," after which there will be a procession around the church by the clergy, altar and choir boys, and the little girls and boys of the Sunday school. The girls, who will wear white dresses and wreaths, will scatter flowers before the altar of the Blessed Virgin.

Tomorrow morning at 10.30 there will be a solemn high mass, followed by the imparting of the papal benediction by His Lordship Bishop Casey. The jubilee services will be brought to a close in the evening. At 4 p. m. there will be a grand parade from the old cemetery in the rear of St. Peter's school, to the church. It will be in the nature of a funeral procession, consisting of the remains of deceased Redemptorists, and in the cortege will be seen the clergy of the parish and parts of the choir, the altar boys, choir and the married and single men's Holy Name families.

In the evening there will be solemn vestries, benediction and sermon preached by Rev. A. Wynn. It is thought that the remains of the dead priests will be kept in the sanctuary of the church during Sunday night, with a guard of honor from the Holy Name societies.

WILL PLEASE VESSEL OWNERS
New England ship owners will save one-third of their tonnage taxes when Section 98 shall go into effect 60 days after President Taft signs the new tariff law. The section reduces from three cents to two cents per entry and from 15 to 10 cents annually the tonnage tax payable by vessels entering from New Brunswick, Nova Scotia, Newfoundland, the West Indies, the Bermudas, Mexico and Central America. In these days of low freightage even this little reduction in the running cost of a vessel will come in very handy.—Portland Argus, Aug. 6.
