SPORTING MATTERS

THE RING

THE SULLIVANS AFTER MATCHES.

Tommy Burns, who fought Jack O'Brien, is a much younger man than is generally supposed, being but 25 years of age. He has been boxing since 1900 and has not been out of training since then.

Jack (Twin) Sullivan, of Cambridge, attended the O'Brien-Burns fight and will challenge the winner. Jack has a 20-round decision in his credit over Burns and has fought a 20-round draw with O'Brien.

Billy Rhodes, who is to fight the winner of the Walcott-Melody fight, has already started in training and will be fit as a fiddle by the time of the battle. As the time for the Thanksgiving Day fight approaches the sports seem to be more in the dark as to who the winner will be.

Mike (Twin) Sullivan is working now in hopes of getting a match with the winner of the Gan-Herman fight. Failing in this Mike will fight Joe Thomas at 142 or 145 pounds this night. If the match can be arranged, or is ready to meet any white man in the world at the water weight limit, Mike has written to Jimmy Croft and Morris Levy of San Francisco acquainting them with these facts.

YOUNG DONOHUE WINS.

MONTREAL, Que., Nov. 28.—Young Donohue of Boston knocked out Dinah Glaney in the 18th round at Riverside Park tonight. A left on the point of the jaw did the trick. The two men met two weeks ago, when it was claimed that Glaney's friends threw up the sponge too early, and they made another match for a finish tonight. Donohue showed the greater science, but Glaney was apparently able to stand a lot of punishment. It is announced that Terry McGovern is to meet some of the local men about New Year's.

THE BURNS-O'BRIEN FIGHT.

LOS ANGELES, Cal., Nov. 28.—"Philadelphia" Jack O'Brien and Tommy Burns of Los Angeles tonight fought twenty terrific rounds before the Pacific Athletic Club to a draw. When the end came it found the two men in the center of the ring engaged in a terrific struggle. The whole upper part of their bodies was covered with blood. While Jeffries held up the gloves of both fighters a shout of disapproval went up from the Burns admirers who believed their man had won. Burns, who fought like a bulldog from the beginning to the end, was always on the aggressive, crowding his opponent to the ropes and frequently rushing him about the ring almost in sight. The fighting practically from the first round to the last was terrific and interesting. Burns landed undoubtedly many more blows than his opponent and they seemed to show great force. O'Brien's footwork, however, was fast and clever and his ducking saved him time and again from severe punishment. Burns, however, landed many stiff blows on O'Brien's face and had the latter's nose bleeding and his right eye laid open in the early rounds of the fight. Burns, too, was severely punished about the 10th and

land a knockout. The round, through Burns' exhaustion to attack, was his. O'Brien appeared somewhat dazed when the bell rang. O'Brien's eye was badly hurt.

Round 10—Burns continued his rushing tactics and O'Brien slipped in vicious swings. Burns hit hard in a clinch. They exchanged straight lefts to the face. O'Brien seemed to be landing straight lefts to the stomach. Burns straightened Burns with a right uppercut. O'Brien poked Burns with two straight lefts in long range for the first time using a lead that has always been his style of battle. He repeated the blow as the gong sounded. Burns stood with disgust in the center of the ring.

Round 11—Burns pushed his way across the ring. He met O'Brien in a clinch, using his hands whenever the opportunity offered. Burns took a straight left and also several rights and lefts to the face. He continued to rush O'Brien landing straight lefts and a stiff uppercut as they clinched and put a straight left to the face as they broke apart.

Round 12—Burns pursued O'Brien around the ring and landed a left on the face, which caused O'Brien to break out. Burns hooked a light left to the heart. Burns ducked a left and reached for the throat. O'Brien rallied, landing two uppercuts to Burns' chin. Burns was compelled to do by far the most leading and as they separated from a clinch Burns swung O'Brien from him with apparent disgust at his tactics.

Round 13—Burns appeared eager to come to close quarters but O'Brien evaded and suffered punishment. Burns clinched Jeffries used all his strength to break them. Then they clinched again and Burns took two damaging lefts that renewed the stream of blood from his mouth and nose.

Round 14—Burns began the round with one of his rushes and as soon as released by the referee Burns was released in O'Brien, landing hard right hook to the head and then several body blows at close range. Burns slipped under left lead and assaulted O'Brien's kidneys. Burns shot his right hand to the jaw as they clinched and O'Brien ended. O'Brien made a much better showing than he did earlier in the fight and the crowd called on him for a speech.

Round 15—O'Brien landed a clean uppercut and Burns traded a left and right hook. Burns slipped, going almost to the floor, while pursuing O'Brien. O'Brien put a straight left to the mouth and followed with a tap to the head. Again O'Brien's left reached Burns' face. Burns lifted his eye as close as he could and O'Brien landed a much tugged savagely in a clinch.

Round 16—They met in a clinch in which O'Brien landed a straight left to the face. Burns' right hand struck O'Brien's jaw as they clinched and O'Brien put a stiff right to the ear as the gong sounded.

The round in O'Brien's favor to a very slight degree.

Round 17—They met in the usual clinch and Burns traded a left and right hook. O'Brien landed a stiff right uppercut and escaped a rush by Burns in the neutral position. O'Brien put a straight left to the body and followed with two straight lefts to the face. O'Brien landed a stiff right to the jaw as they clinched and O'Brien ended. O'Brien rang with the men in a clinch.

Round 18—Both men were fast and appeared to be in the best of form. O'Brien landed a right hook to the head and followed with a stiff left. Burns landed a right hook to the head and followed with a stiff left. Burns landed a right hook to the head and followed with a stiff left. Burns landed a right hook to the head and followed with a stiff left.

Round 19—Burns was aggressive but O'Brien wrapped him in an embrace that required the referee to break it. Burns landed a right hook to the head and followed with a stiff left. Burns landed a right hook to the head and followed with a stiff left.

Round 20—Burns attempted to strike with his left arm and Jeffries used all his strength to force them apart from a clinch. His efforts sufficed to keep them apart but a short time later Burns appeared somewhat less vigorous and weakened when O'Brien landed a hard left to the jaw. In a clinch that followed Burns' head seemed to vibrate and he was not so vicious. He closed his eyes and avoided punishment and Jeffries used his shoulders to push Burns away. The entire house was standing.

ROLLER SKATING

(Quebec Chronicle)

Work is now being pushed forward rapidly on the new and palatial roller skating rink, which it is proposed to open on the site of the old Academy of Music, St. Louis street, shortly before Christmas Day. All the contracts for the work have been signed, and it can now be announced to the public that Quebec will possess a rink up-to-date

in every respect and second to none in the country.

Charles Campbell, manager of the company which is to operate the new rink, is at present directing successful rinks in St. John, N. B., Moncton and Amherst, and is in receipt of other rinks in Montreal. When the Quebec rink is completed Mr. Campbell will make his city his headquarters for his chain of rinks and will reside here permanently.

In conversation with Mr. Campbell last evening, a Chronicle reporter was informed that a long lease had been secured of the old Academy site, and that it was intended to erect thereon a roller skating rink which would include all the latest features of the modern rink now in operation. The building would be of two stories. On the first floor would be the offices, slat rooms, check rooms, ladies' rooms, etc. The second floor will be the skating rink proper, with a 22-foot surface 170 feet by 85. A hanging gallery to accommodate from 1,500 to 1,600 spectators would be installed, thus leaving the floor perfectly free to skaters. The floor will be the finest that money and skill can devise. The building will be steam heated throughout. There will be exits in the rear.

It is proposed to have competent instructors and attendants for lady patrons, etc., and the skates used will be of the very latest pattern. The best fancy skates will be brought along to the rink, and there will also be races between some of the crack flyers of the present. It is proposed to form a polo team and league. There will be band afternoon and evening, and nothing will be left undone to make the rink a popular place of resort for Quebecers.

ATHLETIC THE BOYS' RACE.

The road race for boys under the auspices of the Star Athletic Club was held yesterday afternoon at the old course. The following is a list of those who took part in the race: F. Knodell, W. Knodell, R. Mitchell, R. Pearson, Bowes, Compton, McDade, McAdam, Latimer, Campbell, Howard, Marsden, Murphy, Danaher, Ricketts, Pendleton, McKinn, Smith, McCann, Merrick, McKeck, McKee.

The boys were driven out to the starting point, about one-quarter of a mile past Fernhill cemetery, where they were lined up. Each contestant was accompanied to the starting point by a trainer, and at 12:30 the word was given for the boys to start. There were twenty-five of them and until the One Mile House was reached they kept well bunched. Danaher, who had been leading from the start, kept up a strong pace and soon the crowd thinned out.

While running along the road near the One Mile House, Roly McKeck, who was in the lead, was struck by a passing team and slightly injured. He gamely started again and finished in 13th place. Danaher, Harry McCarthy, starter, and William Knodell, judge, followed the boys in the following places: 1. Milligan, 2. Noble and John Lipsett were the judges at the finish.

On the whole, the boys did well, and the following prizes, which had been on exhibition in Scribner's window, were distributed:

- 1. Danaher, hockey outfit. 2. Smith, fishing rod. 3. Pendleton, sweater. 4. Knodell, pair of gloves. 5. Knodell, pair of gloves. 6. McKee, box of candy.

Summary of the race: Starters, 25; finished, 20. Time, 13:30. Race started at 3:29; finished at 4:43.

MEMORIES OF TOM COOPER.

The death of Detroit's famous bicyclist, Tom Cooper, in an auto accident in New York, brings back to the mind of the old sport fan—and not such a very old fan at that—memories of a time on the coast when he was a grand cyclist. Of course, there are still bicycle racers—men and women alike—who were thought so wonderful ten years ago no longer stand, but the bicycling of the present time is not the sport it was in the days of Bald, McLeod, Cooper, Oldfield, Tully, Cabanus, Longhough, Taylor and a host of others. Then bicycling was one of the great sports of the country, in fact of the world. It was popular alike in the United States, in France, in Germany and in England. Motor races were then unknown, and the bicycle was for the comparatively few, but cycle races—they were the things which excited the imaginations of the people.

Cooper's death brings to mind the fact that we have in this city one of the best known riders in Canada and the United States. Curtis P. Boisvert, now proprietor of the Evangeline Cigar Store here, has ridden against Cooper. That was in 1898, when Boisvert, then 18 years of age and known as the boy wonder, was making a reputation for himself. He continued to be a prominent figure in bicycling until it ceased to be a popular sport. He was among his victims twenty-two provincial and Canadian championships, and his collection of medals and prizes would stock quite a large jewelry store. The watch he carries was won in a one-mile motor-paced race in 1:42 1/2 and for a charm he was a medal won in Montreal in a one-mile standing start, time-paced Canadian championship race in 2:02 1/2.

He has defeated some of the fastest men Canada has produced, both in amateur and professional, including Angus McLeod, Harley Davidson, Greig, and many others who were mighty men of the wheel and has beaten Eddy Bald, Cooper's celebrated rival, twice in one day.

He is better known on American tracks as Greenwood, which is the English translation of Boisvert. Mr. Boisvert was also well known in Boston and other American cities as a fancy skater, both on ice and rollers, and has some fame as a hockey player.

GIRL STUDYING IN BED BADLY BURNED.
CAMPBELLTON, N. B., Nov. 28.—Edith, the fifteen-year-old daughter of Robert Nelson, residing about a mile below town, had a narrow escape from being burned to death last night. It appears that the girl, according to custom, after going into bed, commenced to study her lessons with the lamp quite close to the bedside. In some way it was upset and the bed clothing became ignited.
The girl shrieked for her parents, who were sleeping in another room, and on their arrival the flames were extinguished, but not before the girl had been considerably burned about the body and arms. Her injuries are not considered very serious but it will be some time before she is fully recovered.

The Allan line intends placing a new twin screw steamer on the Liverpool-Montreal route. The C. P. BURNING ALL THE SCHOOLS SET APART FOR NEGROES
necessaries in St. Louis are Not Anxious for the Establishment of Such Institution.
EAST ST. LOUIS, Ill., Nov. 28.—A large brick building on Missouri avenue, which was leased last week by the board of education for a negro school, was destroyed by fire today and there is evidence that the prejudice against the establishment of a school for negroes caused the building to be set on fire. Late last night the building was discovered to be on fire, but prompt action saved it. The firemen found rags soaked with oil on the second floor hallway. The destruction of the building today marks the second building leased for a negro school that has been burned within the last two weeks. The board of education two weeks ago leased a building for a negro school and immediately it was destroyed by fire.

LONDON PAPER WANTS A CANADIAN APPOINTED
LONDON, Nov. 28.—The Morning Post gives prominence today to a long letter urging the opportunity of appointing a Canadian as ambassador to Washington in succession to Sir Mortimer Durand, to facilitate the settlement of questions affecting Canada and Newfoundland and to meet the persistent complaint of Canada that her interests are neglected at Washington because of the European bias of the British ambassador.

THE SPANISH CABINET RESIGNED YESTERDAY
Radicals Give Way to Liberals on Internal Affairs, Much to the Pleasure of Rome.
MADRID, Nov. 28.—The resignation of the cabinet today came as a surprise. It is declared that before Premier Dominguez went to the palace to confer with the king he had no intention of resigning. The king, it is said, in well informed circles, showed the Premier a letter from Senor, Morey Frendergast, the former premier, pointing out serious differences between the advanced moderates and the Liberals relative to internal affairs. Thereupon the premier, who is a Radical, immediately gave up his portfolio and those of his colleagues. Senor Frendergast, who is a moderate Liberal, has been received with satisfaction at the new cabinet.
ROME, Nov. 28.—The news of the resignation of the Spanish cabinet has been received with satisfaction at the Vatican, which is strongly opposed to the proposed bill on associations. Italian authorities believe that the real object of presenting this bill was a last effort to gather together a Liberal majority in the face of Senor Maura, Conservative, would be made premier.

Posses are searching for the negro and if he is caught lynching will follow. The excitement here is great.

DEATH IN EXPLOSION
German Factory Blew Up on Tuesday Evening
Great Loss of Life Followed—Inhabitants of the District Fled in Panic—Other Explosions Feared
DORTMUND, Germany, Nov. 29.—A roborit factory, situated close to the town of Amten, seven miles southwest of here, blew up yesterday evening and was wiped from the face of the earth. It is estimated that 300 persons were killed or wounded, but the exact number has not been ascertained. Up to half-past one o'clock this morning eight dead bodies had been recovered and 181 of the severely wounded persons had been conveyed to hospitals. The work of rescue now going on is attended with the greatest danger from the possibility of a renewal of the explosions. The accident occurred at about half-past eight o'clock. There were two tremendous detonations heard throughout the entire surrounding industrial region, which is thickly settled. The inhabitants of the neighborhood fled in panic, fearing further explosions. The town of Amten is nothing more than a heap of ruins. Houses were shattered right and left, and no house escaped injury.

WAS IN MANY BATTLES BUT DIED IN BED

NEW YORK, Nov. 28.—Word was received in this city tonight of the death today at Asheville, N. C., of Brigadier Gen. G. W. Baird, U. S. A. (retired).

General Baird was born in Connecticut in December, 1839, entered the Union Army during the Civil War as a private and rose to the colonelcy of a colored regiment.

He served in the operations in South Carolina, Georgia and Florida and after the war entered the regular army. He served on the frontier and participated with much gallantry in several Indian campaigns.

He was promoted to major general in 1893. He was retired two years ago, and came to this city to make his home.

His health had been failing for some months and about a week ago he was taken to Asheville. He is survived by a widow, a son, who is first lieutenant in the army, and is in the Philippines, and two daughters.

General Baird was the author of a book on General Miles' Indian campaign.

ST. CLAIR FRANCIS CAPTURED AT LAST

(Continued from page one.)

The officers next got word of the fugitive at Searmont, Montville, New Brunswick, and he was taken to the workhouse most of the time.

There were many conflicting stories and the officers who were searching vigorously exploded many false reports.

Then came a definite clue. Apparently forced by the pangs of hunger, the negro attempted to get provisions at the store and postoffice at Park Lane.

Now the pursuers were hard on the trail of their quarry. Rendered almost desperate by cold and hunger it seemed as though an early capture was inevitable.

The force in pursuit was a large one. First there was the squad from the state prison led by United States officers led by Inspector Robinson and Deputy Marshal Leader of Lewiston.

There seemed little chance for Francis, who had lost his team, and the prospects for his obtaining another seemed scant for the countryside was up in arms and the streets were soon to be patrolled.

The scent got very hot at this point and on one occasion the pursuing officers were confident that they got sight of the convict climbing Trembley Mountain in the town of Monrovia.

It was supposed that the feet of the fugitive would be in very bad condition, as it was known that he made a long part of his journey clad in rubber boots and the oldest watch.

With great presence of mind Mrs. Gilman sent her young son to the railway station with the news that Francis was at the house, and while the convict was quietly eating his breakfast at the Grover residence the officers were flushed over the wire to the news.

Deputies Bowen and Spratt at once started for Glenburn and were followed a short time thereafter by Deputy Sheriff Leader, Inspector Robinson and Deputy Emerson.

BANGOR, Maine, Nov. 28.—Minot St. Clair Francis, the negro, who escaped from the state prison two weeks ago last Monday, was captured today without a struggle, at Glenburn, N. B.

The negro is in bad physical condition and plainly shows the effects of cold and exposure. His feet are frozen and sore, so that he walks with difficulty.

His courage had evidently ebbed away with his strength, and he made no resistance when the officers surprised him.

Since the finding of the team which Francis had broken into Penobscot county, had driven through the heart of Bangor, and was in hiding not far from north Bangor.

About 4 o'clock this morning he crawled into the barn of A. L. Grover, and went to sleep in the hay. There he was discovered by J. E. Warren, George L. Beard and L. L. Smith of Kenduskeag and Frank M. Smart of Glenburn.

After he had been given a warm bath, and had had his feet and wrists dressed, he was taken up to his old cell and once more gazed through prison bars.

ADMISSION 25 CENTS. 25-CENT.

On Tuesday the deputy sheriffs and Deputy Marshal Leader searched the woods at Yensie and were about to resume the search Wednesday morning when the word came to Sheriff Gilman from the Bangor & Aroostook offices, that a strange negro, light complexioned and answering the description of Francis, had been seen at the house of A. L. Grover in Glenburn.

Deputies Bowen and Spratt at once started for Glenburn and were followed a short time thereafter by Deputy Sheriff Leader, Inspector Robinson and Deputy Emerson.

ENOUGH TO MAKE OLD JESSE'S GHOST SHUDDER

Young Jesse James Wants no Horse Stealing—He Favors Observance of the Law

KANSAS CITY, Nov. 28.—Attorney Jesse James, Jr., son of the notorious outlaw of that name, was in court today to prosecute his brother-in-law, Luther Magowan, for taking James' horse without permission and mistreating it.

Magowan pleaded guilty and said he had been drinking. "You are his brother-in-law; what do you want me to do with him?" Judge Kyle inquired of James.

He ought to be fined, I believe in law enforcement," said James. Judge Kyle imposed a fine of \$100.

THOMASTON, Me., Nov. 28.—Minot St. Clair Francis, the negro convict and desperado, who was captured this morning in Bangor, reached the station here at 10:30 o'clock tonight, and half an hour later was once more locked in his cell after being absent without leave for fifteen days and six hours.

He was in a bad condition physically, and upon the arrival of the train in Rockland tonight from Bath Francis, who was shackled to Deputy Marshal Leader, had to be assisted to a carriage by Warden Norton and two of his officers.

A dense crowd had gathered at the station when he was half carried from the train. The carriage drove off at once for the prison. Upon being taken into the warden's office, Francis was examined by Dr. Walker, the prison physician, who found that his feet were swollen and that his right wrist was sprained.

His words were sprained. He wore considerable clothing, having on two overcoats, a jacket, a vest, two sweaters, four shirts, besides two suits of underclothing.

After he had been given a warm bath, and had had his feet and wrists dressed, he was taken up to his old cell and once more gazed through prison bars.

WINTERPORT NOTES. The big C. P. R. line's Empress of Britain leaves Liverpool tomorrow for St. John after a short delay at Halifax. The Donaldson liner Alcides shifted to No. 4 berth yesterday morning and sails in a couple of days for Glasgow. The Allan liner Lauriston sails from Liverpool today for St. John. The big Tunisian is now on her way to this port. The I. C. R. intend making some changes that will increase their facilities for handling both import and export freight. They will erect in the outer yard beyond Gilbert's Lane a telegraph tower. A day and night operator will be placed on duty to look after the freight trains and have the cars shunted promptly. There is room in the outer yard for about 500 or 600 cars. Grain is coming in rapidly to the I. C. R. elevator and it is expected that over a million bushels will be handled through the big elevator this season, as all the Allan, Manchester and Head line boats will be loaded from the I. C. R. elevator. The I. C. R. is preparing for the season's work by securing shunting engines of the latest and most powerful type. One of the new class of locomotives has already arrived and another is expected in a few days. These shunters are much heavier and more powerful than the ones previously used and should be of great assistance in the rapid handling of the heavy freight trains.

INDIAN OPINION OF SIKH INVASION. LONDON, Nov. 28.—Anglo Indians are inclined to take a serious view of the consequences of the invasion of British Columbia by Sikhs, of whom 2,182 already have arrived. Recent inquiries here indicate that the Indian Council who are advisers of John Morley as Secretary of State, have no knowledge of this invasion, though it is not doubted that Lord Minto and the Indian government could on the initiative of the India council stop emigration by representing to the intending emigrants the unfitness of British Columbia to their settlement in view of the fundamental differences in their social and religious habits. Anglo-Indians agree that these Sikhs are magnificent men. Many have fought valorously for the Empire, and would be admirably suited for small farming of the character proposed in the newly irrigated Canadian Pacific lands east of the Rockies, but they are a most sensitive people, especially proud of their citizenship in the Empire, and the rebuffs they are now receiving at the hands of British Columbia do not understand them, must have the worst possible effect upon Indian opinion. It is suggested that the Canadian Pacific Company could create an excellent colony with them but it is strongly urged in the general interests of the Empire that if Canada is unable to assimilate them the Canadian Government should immediately move the Indian Government to stop further emigration and to repatriate those now in British Columbia. The Oak Bay philosopher is to the front with the following excellent relation:—"If Mrs. Russell Sage is at a loss to know just how to dispose of her surplus millions, it might be suggested that the men who, in the early history of the Grand Southern worked on the road, be paid. Such an opportunity for right doing may never happen again."—St. Andrew's Beacon.

TORONTO, Nov. 28.—For conspiring to defraud the University of Toronto, Thomas Holway was this morning committed for trial by Magistrate Denison. It was proven to the satisfaction of the court that Holway had acted as a trusted agent of the University. He affected to make bona fide sales to one Foulds; that these sales were in reality to himself; that subsequently on his own behalf he disposed of lands at a price very much higher than had been afforded his employer, the University of Toronto. Holway was released on bail. The stated case regarding charges Chas. L. Hays, general manager of the Grand Trunk, who appeared in the police court last week, was submitted to Magistrate Denison this morning. No decision was given, there being a further remand until tomorrow. The stated case regarding charges Hon. Col. Matheson, provincial treasurer, announces that the final \$171,000 of the provincial loan had been taken up at par with accrued interest. The total loan is \$3,000,000 at 3 1/2 per cent. It has been almost all taken by Ontario capitalists. Accrued interest on the amount sold since 31st of July is more than enough to pay for advertising and engraving bonds. Moreover, it has been floated directly by the government, thus obviating the payment of a commission.

MANUFACTURES FAVOR ANY PLAN BUT WAR In the Event of Dispute in Which Arbitration Falls, Mediation Should be Accepted.

MONTEAL, Nov. 28.—The Executive Council of the Canadian Manufacturers' Association, at a meeting recently held in Toronto, unanimously put itself on record as favoring the recommendation of the inter-parliamentary union to the Hague conference to the effect "that if a disagreement should arise between the contracting parties, which is not to be submitted to arbitration they shall not resort to any active hostilities before they separately or jointly invite as the cause necessitates the formation of an international commission of enquiry or the mediation of one or more friendly powers."

CARUSO'S ACCUSER
TELLS HER STORY

Husband Who Is Ball Player Wanted to Go to Hotel and Punch the Tenor

NEW YORK, Nov. 28.—The Evening World says today that the woman who gave her name as Hannah Graham and who failed to appear in the police court to press the charge which she made against Caruso...

Mrs. Stanhope denied ever having seen Cain before the time he asked her to make the complaint against the singer. Finally after repeated requests to do so she consented to accompany the officer and the prisoner to the police station.

When asked why she did not write a letter to Magistrate Baker, Mrs. Stanhope replied, "I was afraid. After I told my husband he acted like a mad dog and I was afraid to go to the Hotel Savoy and punch the tenor. Gus Meehan, his friend, had a hard time holding him in check, but both Mr. and Mrs. Meehan finally persuaded him to let the court punish Caruso."

Mrs. Stanhope said she went to the Central Park zoo with the little son of Leonard Bronner. She had been employed as a governess in Mr. Bronner's home before her marriage.

"It was in the monkey house that I first saw Caruso," she said. "I did not know that the foreign looking man was Caruso at the time. He lies when he says that I forced him to punch the tenor. I was attracted to him when I felt something heavy pressing on my right shoulder, it was the man's elbow, and as I supposed it was by accident, I walked away from him."

"The man followed me across the building. I was looking into a cage where there was but one monkey, when I felt the knuckles of a hand rub against me. I turned. It was the foreign looking man, standing close. There was no mistake about the insult being intended."

NEW YORK, Nov. 28.—Enrico Caruso was given a cordial welcome to-night when he appeared at the elements after the curtain had risen on La Boheme at the Metropolitan Opera House. The only suggestion of disapproval of the tenor was a little hissing from different parts of the house.

HE SHOT THE GIRL WHO SCORMED HIM

Put a Bullet in Her Heart When She Called Him 'Pig' And Spat in His Face—Little Joe, the Tailor, Nursed a Grudge Which Grew Out of Tonietta's Treatment

For a long time now little Joe Paglia has taken his place early each morning at his sewing machine in the factory of Heller & Co., on the fourth floor lot at 47 Spring street, knowing that every time he looked up from his work he would see just across the table from him the black eyes of Tonietta Macochia, flashing blacker looks at him, or what hurt more, Tonietta's face distorted into disdainful grimaces. When Joe's glance dropped quickly to the work again he would hear, even above the irritating rattle of the machine, whisperings among the girl operators on the other side of the long table and perhaps a shrill giggle.

Just what was back of Tonietta's dislike for Joe could not be learned yesterday, because Tonietta had been shot through the heart by Joe at the luncheon hour and Joe had been locked in the Tombs charged with her murder.

"She spit in my face when I was washing my hands at the sink," somebody who was with Joe at the time, explained the reason for the girl's death merely by brought to an end the indignities he had received for many months and that now he would have peace.

It took the combined efforts of Foundaman Von Diepsiel and Patrolman Falvey to pull Joe through the howling mob of men and girls in the lot and take him down to the Mulberry street police station. Through it all Joe was the coolest in the room. Captain Kemp, followed by six of his reserves, ran up the steps and made the crowd into a semblance of order.

THE ROOSEVELT WILL COME TO ST. JOHN

Capt. Bartlett Deems it Advisable to Hug the Coast All the Way to New York

NORTH SYDNEY, Nov. 28.—All yesterday afternoon Diver Scott had been engaged in ascertaining and repairing the damage to the Arctic steamer Roosevelt resulting from her trip north. Diver Scott will continue his work, and expects to finish this afternoon. Outside the two flanges of the propeller a considerable portion of the keel is gone, but otherwise her planking is safe, and it is likely the steamer will not require any further repairs until she reaches New York. Capt. Bartlett expects to take the Roosevelt to the International pier this evening or tomorrow, when she will receive a bunker, sailing immediately afterwards for New York.

PLUM FOR ROSEBERY'S SON.

Aunt Leaves Neil Primrose a Fortune to Start Him in Politics.

LONDON, Nov. 27.—It is well known that Lord Rosebery strongly approves of the British custom of the eldest son of a great family inheriting the bulk of the family fortune, so that the younger sons are compelled to carve out their own careers by their individual efforts. This custom he is credited with believing has been the salvation of the British aristocracy.

Lying on the floor was Tonietta with one bullet wound in her left breast and another in the left cheek. She had died almost instantly. Her sweetheart, Vincenzo, lay near her with his leg fractured by one bullet and a bullet wound in the left shoulder. Dr. Lord, who had arrived on an ambulance, took Vincenzo to St. Vincent's Hospital. When Vincenzo's wounds have healed he will be taken to the House of Detention as a witness.

YOUNG BOY SHOT DEAD AT SALISBURY

Dennis Ayles, Was Hunting Moose With His Father; When Gun Was Accidentally Discharged

MONTON, N. B., Nov. 28.—News reached the city tonight of a fatal shooting accident at Salisbury, the victim of which was Dennis Ayles, the only son of Hillman Ayles of Cherryvale. In company with his father, the young lad was out moose hunting. John C. Milton's young son also accompanied them. The young man met death by his own gun. He was at some distance from the others when the accident occurred, and the lad's father, hearing the report, looked around and saw the boy fall. The shot had entered below the jaw, severing the jugular vein and passing out through the head. It is thought the discharge was caused by the boy pulling the gun over a brush pile.

BUCKINGHAM RIOT INQUIRY POSTPONED

MONTREAL, Nov. 28.—The preliminary inquiry into the Buckingham riots came to a sudden end today, being postponed for a week, when the court will sit at Hull, owing to the non-appearance of witnesses summoned by the crown. Evidence was heard today on the charge of manslaughter against the police. At the end of the day's hearing Judge Choquette remarked that there did not appear to be much of a case against the members of the regular police force, who appeared merely to have done their duty. With regard to the others it was different.

Government Will See That Canadian Sailors Arrested in Uruguay Will Get Fair Trial—Life Saving Stations for P. E. I. Coast—Ownership of Water Power Discussed.

OTTAWA, Nov. 28.—In the senate today Sir Mackenzie asked why in the contract with the Elder- Dempster Company for service between Canada and Mexico boats were forbidden to call for cargo at Cuban ports on the northward voyage.

Mr. Richard Cartwright said that Mexico furnished half the subsidy for the service and objected to steamers carrying cargo from Cuba to Canada, as Cuba was a competing country.

Secretary of State Scott introduced a number of bills. One amends the naturalization law to enable British citizens from other parts of the Empire to naturalize in Canada without three years' residence.

Another amends the criminal code and gives magistrates wider powers in dealing with juvenile offenders, boys under the age of sixteen and girls under the age of seventeen.

SHOT BY BROTHER MILES LIKELY TO DIE

Small Boy Playing With Gun, Pulled Trigger Ball Passed Through Young Man's Neck Lodging in Wall Behind—Blood Poisoning Feared

FREDERICTON, Nov. 28.—Shot by the hands of his younger brother, Miles Hawkins, son of James Hawkins, a well known farmer of Douglas, York county, may die.

The accident occurred last evening in the family home at Douglas. During the afternoon Miles Hawkins and his father had been out hunting, and on their return they were sitting in one of the rooms.

Miles had been found by his younger brother, who was playing with it. Later there came a terrific report. The little fellow had pulled the trigger, and a cartridge which had been left in the magazine had been fired.

The bullet ploughed its way into Miles Hawkins' neck, passing within one-sixteenth of an inch of the spinal column and continuing its passage through the neck from side to side, where it continued to the wall behind, through which it passed and out into the field.

Medical assistance was summoned from St. Mary's, and Dr. Mullin hurried to the Hawkins home, where he found Miles suffering excruciating pains, while the family were almost prostrated from the terrible occurrence.

The doctor did everything possible to alleviate the sufferings of the young man, and dressed the wound as carefully as he could.

It occurred at 8 o'clock, and the doctor worked over his patient until midnight. Owing to the great quantity of blood poured out, it is impossible to tell whether young Hawkins will recover or not.

HIGH DEGREE OF TENSION OVER MOROCCAN SITUATION

Some of the Residents of Tangier's Suburbs Have Fled, Others are in Daily Fear.

PARIS, Nov. 28.—The Moroccan situation has apparently reached a high degree of tension, although, from the non-official point of view, the whole affair seems sufficiently simple to afford every opportunity for a reasonable solution, always expecting the possibilities of disturbance which are absolutely certain.

It is now more than ever the key to the whole situation, certainly, so far as the view held in circles in a position to foresee the result. Such, at least, is the view held in circles in a position to foresee the result.

SAVING WATER EXTENSION IS A "MISERABLE JOB"

Ald. Christie Gets Busy in the Water and Sewerage Board Too—Charges That the Wood Stave Pipe is Leaking 70,000 Gallons a Day, and That Concrete Work Has Been Done in Violation of Contract.

At the regular meeting of the board of water and sewerage yesterday afternoon, the water works extension received an airing, and the work on the wood stave pipe and on the concrete line through the dry lake was severely criticized.

The tenders for feed for the department were opened and the lowest tenders accepted. C. H. Peters' Sons offered 1,500 bushels of oats at 8c.

Director Murdoch said that the wharf properties in the city have never been assessed for water rates.

It was decided, on motion of Ald. McGoldrick, that the matter should be looked into by the mayor, the director and the recorder in the future.

A communication from H. A. Austin asking for reduction on his water rates to the Institution for the Deaf, was referred to the committee.

Director Murdoch, who was asked to look into the matter of relief in water rates to the Institution for the Deaf, reported in favor of giving a reduction of \$8 by lowering the assessment value of the building.

Ald. Baxter's motion was carried. It was decided that in the spring, an extension of the water system should be made through that portion of Germain street (West) which lies between City Line and Lancaster street.

A communication was received from George Martin of the water and sewerage department asking for \$100 for extra work.

Applications for increase of salaries were received from Wm. Fye, Andrew Martin and James McCarthy. They were referred to the salaries committee.

Ald. Christie said that he had heard of a bad leak in the wood stave pipe and that a waste pipe worth 70,000 gallons a day.

Mayor Sears said that he did not know whether it was so. He said that he had found it most difficult to get in touch with Engineer Harbour, who comes and goes whenever he pleases and does not come to see him.

BURNS DISSATISFIED, O'BRIEN WELL PLEASED

LOS ANGELES, Calif., Nov. 28.—After the fight last night Burns said: "I won fairly and I think the decision was bad. I chased O'Brien miles all over the ring. Just compare our faces and draw your own conclusions." "O'Brien said: 'I am very well satisfied with the decision. Jeffries did the right thing. I outpointed Burns, I think, but I was a little light for him. Hereafter I shall fight in the middle-weight class.' Referee Jeffries defending his decision, said: 'There was nothing to warrant a different decision in favor of either. Both were strong at the finish. There was not enough leading done to justify a selection of the better man.'

STORY THAT ISLAND HAD DISAPPEARED IS UNTRUE

MEXICO CITY, Nov. 29.—Eugene Mote, Chilean consul to Mexico, received an official notice from his government last night to the effect that the report circulated last August at the time of the disastrous earthquake, that Juan Fernandez island had sunk into the ocean, was untrue. The document said that the disappearance of the islands was at first credited everywhere and no efforts were made to verify it. A short time ago, however, war specialists were sent out by the Chilean government and its inhabitants were found uninjured.

PAID TAXES FOR 15 YEARS ON ANOTHER PERSON'S PROPERTY

Statement Made in 1891 by "Jigger" Davis Results in Patrick Mooney Paying Assessment on Real Estate Which Never Belonged to Him—A Queer Mixup Discovered.

For the past fifteen years, Patrick Mooney, of the firm of P. Mooney & Son, has been paying to the city taxes on a west side property which never belonged to him, and which he never expects to own. The queer part of the thing is that until a few days ago Mr. Mooney did not know that he was being assessed on this real estate, and it now appears that the mixup has been caused by a declaration made in 1891, by "Jigger" Davis, then an alderman in St. John, and now a judge in Honolulu. The property in question was owned by four or five years ago by Mrs. Daniel Davis, mother of the famous George, and the latter hid for years past the taxes on it. But in 1891 while in the assessor's office one day he told the officials that he had recently transferred this property to Patrick Mooney, and that Mr. Mooney would, of course, hereafter pay taxes on it. Accordingly Mr. Davis was relieved of the assessment and the extra amount was added to Mr. Mooney's bill. The latter, knowing that taxes were steadily increasing paid no particular attention to his bill for that year, but paid it in the belief that the increase was accounted for by the higher assessment. He has done the same thing year after year, but until 1906 the property remained in the possession of Mrs. Daniel Davis. A few days ago when Mr. Mooney was looking at his bill for this year he decided to ask why it was larger than usual, and at the assessor's office was informed that he had been paying taxes on some west side property. This was news to him, and on investigation the whole story came out. Another interesting feature in the case is that the Davis' estate has been free from taxation on this property since 1891. Some four or five years C. B. Lockhart bought the place from Mrs. Davis, and Mr. Lockhart has also been paying taxes on it, so that the city has been getting along very well. Mr. Mooney was very much surprised when he heard today that Mr. Mooney had been paying on this property. Mr. Mooney treated the matter as a huge joke, observing that he was out so far some sixty or seventy dollars, and A. W. Shury, chairman of the assessors, added that the affair would soon be investigated.

IL TROVATORE SUNG HERE LAST NIGHT

Private Performance of Great Excellence Done on a Talking Machine Giuseppe Verdi's most brilliant work, "Il Trovatore," was presented in this city last evening before a small party of young men who like good music, even though sung in Italian without the spectacular features with which it is produced in larger cities. It was a gramophone concert, a gathering of some half-dozen or more talking-machine enthusiasts, to hear for the first time the whole opera on a big "Victor" machine. Complete operatic performances by this medium form a new departure, but those who heard Verdi's masterpiece last evening were charmed with the music, as rendered by the La Scala Grand Opera Co., of Milan, Italy—principals, chorus, orchestra and all. The hearing of the opera consumed nearly two hours, without intermission, the dramatic intensity of the music-story being plainly discernible in high-class vocal and orchestral effects. Tolling bells, clanking chains, etc., gave additional realism. Individually, the records would make fine concert numbers. "Machine music," as some have called it, is certainly doing much to lead St. John people as well as people in every city and hamlet in the civilized world to a keen appreciation of the greatest harmonies and the introduction of "Il Trovatore" in this city is evidence of how the "machine" is creating a refined taste here.
