

SYDNEY'S Y. M. C. A. IS BADLY GUTTED BY FIRE

Sunday Morning Blaze Burned Structure Almost Beyond Repair.

AN ELECTRIC IRON IS SUPPOSED CAUSE

Heavy Rain Helped Materially to Quench What Otherwise Might Have Been Very Bad Fire—McKenzie & Giffin Heavy Losers.

Sydney, Aug. 10.—Another serious fire occurred here Sunday morning, when the Y. M. C. A. building, occupying one of the finest sites in the city, at the corner of Charlotte and Pitt streets was almost completely gutted by fire. The building, one of the wooden structures yet remaining on the business section of Charlotte street, is damaged beyond repair.

A great part of the lower floor was occupied by McKenzie & Giffin as a men's furnishing store. The firm does an extensive business, and had just laid in their fall stock. A great deal of it was burned, and the rest, except of a little which they were able to save, was ruined by smoke and water.

The fire started about 3 o'clock, breaking out, it is believed, in the pressing room of McKenzie & Giffin's store. The cause is unknown, though it is considered probable that the current was left on an electric iron, which finally became so hot as to set fire to the adjacent woodwork or cloth. The firemen were able to get the flames under control after a couple of hours work, the heavy rain which had set in helping materially. The fire only broke through the building once, and the appearance of the outside gives little idea of the damage wrought within.

McKenzie & Giffin's loss will be between \$20,000 and \$25,000, and the damage to the building itself between \$5,000 and \$6,000. McKenzie & Giffin's loss is rather more than half covered by insurance. The insurance on the building is small.

TWO HISTORIC EVENTS TO BE CELEBRATED

Extensive Preparations for Commemoration of Battle of Chrysler's Farm—Centenary of Tecumseh's Death.

Ottawa, Aug. 10.—Considerable preparations are being made for the centenary of the battle of Chrysler's Farm, which occurs on August 27 next. Mr. Andrew Broder, M. P., is organizing the celebration and it is hoped that Mr. Hon. R. L. Borden will be able to attend. The military display will be considerable and will be furnished by troops drawn from eastern Ontario. In all some twelve or fifteen hundred militia will be present, the corps to be present including the 2nd and 23rd batteries, Ottawa, and the Governor General's Foot Guards; the 41st, 42nd, 43rd, the 56th and the 58th.

Another anniversary which will be celebrated this autumn is the death of Tecumseh, the great Indian chieftain who fell at the battle of Moraviantown on October 13, 1813, and a military ceremony will mark the hundredth anniversary.

Colonel Hodgins, the officer commanding the 1st Division has been directed to spare no pains to arrange a commemoration that will be adequate and dignified.

Chief Tobias, of Moraviantown has been in communication with the department on the subject and special prominence will be given to the Indian companies of two Western Ontario regiments, the 26th Middlesex light infantry and the 57th Hamilton Rifles.

The soldierly qualities of the Indians serving in these regiments are well known and have been the subject of much favorable comment.

MAY YET ARBITRATE STREET CAR DISPUTE

Detroit, August 9.—Late tonight the members of the Detroit Street Car men's union decided to postpone until next Saturday night action on a resolution to strike. This was done after union leaders announced that it was quite possible a neutral arbitrator could be agreed upon to assist next week in settling the long standing differences between the street railway and its motormen and conductors.

NEW MINISTER TO CHINA?

President Wilson has nominated Paul Samuel Reinsch, of Madison, Wis., assistant professor of political science at the University of Wisconsin, to be Minister to China. He sent Mr. Reinsch's name to the Senate with several minor appointments.

MONTREAL WON HONORS AT HALIFAX

Entrants from Metropolis Carried Off Most of Events at Canadian Swimming Meet—Two Records Broken.

Halifax, August 10.—The swimming championships held on Saturday at the Waquoitau under the auspices of the Canadian Amateur Swimming Association, proved in every way an unqualified success. Glorious weather conditions, an immense crowd of people, fast swimming, marvelous diving performances and the establishment of new records were all features of the meet, which was conceded by everybody including the visiting officials and swimmers, to be the best yet.

The ideal summer afternoon brought out on the beautiful Northwest Arm a large number of people in boats, from which fully two thousand spectators viewed the events.

Two records were established, one for 200 yards breast stroke, and the other 100 yards speed.

Summary: 200-yards, breast stroke: 1st, S. S. Goodday, Montreal S. C. time, 3:25; 2nd, W. P. Kearns, Montreal A. A.; 3rd, D. W. Tyrer, Waquoitau, Halifax.

Variety high diving (8 dives): 1st, John Lyons, Montreal S. C. 81.78 points; 2nd, R. E. Behrens, New York City A. C. 77.56 points; 3rd, S. W. Ferguson, Y. M. C. A., Halifax.

100 yards' speed: 1st, F. McGill, Montreal A. A. (Time 1:02.45); 2nd, D. W. Tyrer, Halifax; 3rd, H. R. Kearns, Montreal A. A.

McGill lowered his previous Canadian record of 1:04. Lyons and Crosby also started.

Variety spring-board diving (8 dives)—1, R. E. Behrens, New York City A. C., 97.56 points; 2nd, P. Cameron, Montreal S. C., 91.53 points; 3rd, Lyons.

440 yards, speed—1st, Frank McGill, Montreal A. A., (Time, 6:27); 2nd, W. K. Kearns, Montreal A. A.; 3rd, R. P. Bell, Waquoitau, Halifax.

300 yards (back)—1st, S. H. Goodday, Montreal S. C. Time, 1:30; 2nd, D. W. Tyrer, Waquoitau; 3rd, F. McGill, Montreal A. A.

GIVES BANKS POWER TO INCREASE CIRCULATION

Trustees of Central Gold Reserve Soon to Organize—Factor in Financing Crop Movement.

Ottawa, August 10.—The organization meeting of the trustees of the new central gold reserve created under the revised bank act will be held in Montreal at the end of the month. The Government some time ago selected the Royal Trust Company as its trustee, the others being the Canadian Bank of Commerce and the Royal Bank. The gold reserve is designed as an additional power to the banks to increase their general and emergency circulation in proportion to their gold deposits in the reserve. It is expected to be a factor in the crop moving financing.

LIND TO GET INFORMATION FOR WILSON

President Says Special Envoy is to be "Eyes and Ears" of U. S.

WILL STUDY ALL THE PHASES OF SITUATION

Not Under Any Circumstances Will United States Recognize Huerta Government—President Outlines Situation to Senators.

Washington, Aug. 9.—Two hours of conference tonight between President Wilson, Secretary Ryan and the Senate Foreign Relations Committee brought about no change in the attitude of the administration toward Mexico.

The President took the senators into his confidence far enough to outline the following:

That John Lind, his special envoy to Mexico City, does not bear any solution of the present situation, but goes to continue this government's efforts to induce Provisional President Huerta to redeem his promises for free and constitutional elections. That under no circumstances does the administration propose to recognize the Huerta government; that Mr. Lind has gone to Mexico to be the "eyes and ears" of the Washington administration on the ground, and to explain the attitude of this government when he has fully familiarized himself with the situation; that by withdrawing Ambassador Willson and sending Mr. Lind, the President planned to have a change on the ground who was in sympathy with the administration here and was in no sense a factor in the situation in Mexico City. These policies and suggestions of the President and Secretary Bryan came out in general discussion.

It was made clear that the purpose of the conference was to establish more frank and intimate relations between the senate and the administration in the development of the Mexican policy, and in the furtherance of this idea the President talked freely and answered many pointed questions. While the President disclosed the definite plan for the pacification of Mexico the implication remained that upon Lind's reports would depend to a large extent the future policy of this country. There was practically no talk of lifting the embargo on the importation of arms into Mexico, which some members of the committee had talked with a speedy end to the difficulties.

Senators who expected to be informed of a definite plan or a formal message, Mr. Lind might be bearing to the Mexican government, were disappointed. The President told them that upon the arrival of Mr. Lind in Mexico City, there would be transmitted through the charge d'affaires at Mexico City, as well as to the foreign governments generally, an explanation of Mr. Lind's mission.

This explanation, as developed at tonight's conference, is expected to be a reaffirmation of the American government's attitude of the last few weeks, favoring efforts to secure a temporary cessation of hostilities in Mexico so that constitutional elections may be held.

It was reiterated after the conference that Mr. Lind's movements and procedure will be left largely to his discretion after he had talked with William Bayard Hale and other close friends of the administration familiar with the situation in the Mexican capital.

JAPAN TAKES CHINA SHARPLY TO TASK FOR DISORDERLY ACTIONS

Demands Execution of Tribesmen who Destroyed Property and Compensation for the Damage Done.

Amoy, China, Aug. 9.—The Japanese government today sent a formal message to the Chinese authorities here for the execution of three of the semi-Mongolian Tungan tribesmen and also an indemnity for the destruction of property and the killing and wounding of a number of Formosans in the recent clan fighting in this city. The demands must be fulfilled by tomorrow according to the note sent by the Japanese.

The Chinese officials replied agreeing to the conditions except as to the time for carrying them out. They declare it impossible for them to effect the arrest of the clansmen in the period stated as they have fled to the interior of the province.

SYLVIA THE MILITANT IS CAUGHT AGAIN

Suffragette Attempt to Take Premier Asquith's House Fails

POLICE USE CLUBS ON FRENZIED WOMEN

Headed by Sylvia Pankhurst and Supported by Husky East Enders Women Made Mighty Dash.

London, Aug. 10.—The third attempt of the suffragettes under command of Sylvia Pankhurst to take Premier Asquith's house in Downing street by storm failed today when the militant leader was captured by a cordon of police drawn across Whitehall after a stiff fight in which the police used their clubs.

The trouble began after a mass meeting held under the auspices of the Free Speech Defence Committee, which was called to demand the unconditional release of George Lansbury, former socialist member of the House of Commons who was sentenced July 30 to three months' imprisonment for making inflammatory speeches, but who was released August 2nd under the "cat and mouse" act while on a hunger strike.

Miss Pankhurst had refused an invitation to make a speech at this meeting, but who was released August 2nd under the "cat and mouse" act while on a hunger strike. Miss Pankhurst had refused an invitation to march upon Downing street. The free speech speakers today advised the crowd not to attack the premier's residence, but at the close of their meeting Miss Pankhurst, true to her promise, led the "cat and mouse" column and in fiery words ordered her sympathizers to follow her.

Hatless, her hair bound close to her head, the young militant leader started down Whitehall, surrounded by several women, carrying the women's social and political flag surmounted by a red liberty cap and headed by a flying wedge of dockmen and other husky East Enders. The squads of police in Trafalgar Square allowed the procession to leave the square and then fell in behind. The suffragette sympathizers saw the reason for this strategic move when they found a battle line of heavy policemen drawn across Whitehall at the subject of a query to Ottawa. The inspector general of the forces.

The militants attacked this line with such dash and courage that a few of them penetrated the first row where the fight became so fierce that the police used their clubs.

Reserves of police then rushed up and Sylvia Pankhurst and five other women and nine men were arrested and taken to the police station in taxicabs.

Disheartened at the arrest of their leader the mob sullenly dispersed. The police, blaming the suffragettes for many months of enforced Sunday work, cleared the streets with unusual roughness, mounted officers riding down women and children without discrimination.

Miss Cook, who carried a suffragette banner during the fight, said tonight that Miss Pankhurst was badly injured during the melee. The morning session at Westminster Abbey was interrupted by twenty suffragettes who repeated the scene enacted in St. Paul's Cathedral last Sunday by chanting "save Emmeline Pankhurst." They were ejected with but slight disorder.

TECUMSEH WON MATCH.

Toronto, August 9.—The Tecumsehs got even with the Toronto today in a good style, when they defeated the Blue Shirts at the island by a score of 9 to 3.

PORFIRIO DIAZ TO RETURN TO MEXICO

The Maderista agent at Honolulu reported that General Porfirio Diaz, erstwhile President of Mexico, left from Southampton for the Orient, via Suva, to meet General Felix Diaz in Japan and accompany him back to Mexico, leaving Japan September 1st.

General Felix Diaz said he would be the Presidential candidate of the liberal democratic party, the aim of which is the separation of church and state.

SULZER HELD BACK FACTS OF IMPORTANCE

New York's Governor Did Not Tell of All His Campaign Fund.

ALMOST CERTAIN TO BE IMPEACHED NOW

Should this Action be Taken Sulzer Would be Tried Jointly by Senate and New York State Court of Appeals.

New York, Aug. 9.—While Governor Sulzer remains silent members of the joint legislative committee which concluded its hearings here yesterday began today drafting a report which was submitted to the legislature on Monday with reference to testimony adduced showing that the governor had speculated in the New York stock market using therefore campaign contributions which he failed to include in his sworn statement as required by law. In the opinion of Chairman Frawley of the committee and of Eugene Lamb Richards, counsel, no other course than to recommend impeachment proceedings is open to the investigators.

When the committee will subsequently return to New York to inquire further into the governor's Wall Street deals, they will be discussed by the committee at a meeting to be held in Albany on Monday prior to the convening of legislative Monday night. In the words of Chairman Frawley as expressed yesterday: "We've got enough already."

Never in the history of this state has a governor been impeached. Should such a fate await Mr. Sulzer, he would be put on trial before the senate and the state court of appeals.

The constitution in the process and will not convene until September 29.

INTERESTING POINT TO BE LOOKED INTO

Does Advance of \$25 Made by Banks to New Settlers Constitute Evasion of Immigration Law?

Ottawa, Aug. 10.—Whether the advance by certain banks or collateral agencies of the \$25 which each immigrant, save certain exempted classes, is supposed to have on landing in Canada, constitutes an evasion of the immigration regulations has been the subject of a query to Ottawa. The claim is put forth that organizations interested in immigration are assisted by financial institutions advancing the required \$25 as a loan secured by a note, and bearing a good rate of interest. It is not urged that the custom is followed extensively, but in certain cases, at least, it is claimed to have been done, and it is looked upon as an evasion of the law.

The superintendent of immigration states that no such cases have been brought to the attention of his department but the point will be looked into.

SUFFRAGETTES USE WHIP ON AN OFFICIAL OF HOLLOWAY JAIL

Dr. Pearson's Threats of Rigorous Treatment for Window Smashers Aroused Ire of Arson Squad.

London, Aug. 9.—A group of militant suffragettes armed with horsewhips today assaulted Dr. Aron Campbell Pearson, the medical officer of Holloway Jail as he was entering the prison for breaking through the windows. Miss Pearson, while undergoing a sentence of three months' imprisonment for breaking through the windows, threatened to deal with the militant suffragettes in such a way as to make them physical and mental wrecks, after which they would be confined in lunatic asylums.

DALLOW WON MARATHON.

BALKAN STATES SIGN A TREATY OF PEACE

MEXICO TO BUY AIRSHIPS

Asserting that the most powerful modern warship is wholly at the mercy of a bomb-throwing aviator and that within the next five years flying machines will be as commonly used as automobiles are to-day, Mayor Miguel Lebrija, chief of the army aviation corps in Mexico City, said that he was on his way to Europe to purchase for the Mexican government twenty flying machines at a cost of \$400,000 and two dirigibles at a cost of approximately \$500,000.

SIX WOMEN DROWNED IN MOTOR BOAT

Bound for Saturday Night Dance When Boat Sprang A Leak—Darkness Made Rescue Work Difficult.

East Freetown, Mass., Aug. 8.—Six women and a man were drowned, and three others were saved when a motor boat sank in Long Pond tonight. The dead:

George Wright, Brockton; Miss Haven, Brockton; Miss Hattie Hamilton, Taunton; Miss Annie Sweeney, New Bedford; Miss Sadie McCabe, New Bedford; Miss Mabel Brown, New Bedford; Mrs. Emma Doyle, New Bedford.

The rescues were made by Frederick Mackey, treasurer of the Soule Mill of New Bedford, who has a cottage at the pond. Responding to the cries for help, he was able to pick up four persons with his motor boat. One of these, Miss McCabe, failed to revive.

The party was bound for a dance at Lakeside Park. Soon after leaving shore the boat sprang a leak. Some reports say that the bottom dropped out, throwing all into the water.

Darkness added to the difficulties of rescue work. Mr. Mackey's boat was the first to reach the scene and by the time other boats arrived no other bodies could be found.

New Bedford police, with grappling irons, and a pulmotor, were hurried over the twelve mile road in automobiles, but by the time they reached the pond there was no need for the pulmotor.

RICH PRIZES FOR GERMAN AVIATORS

\$75,000 of National Aviation Fund to be Distributed Among German Aviators for Distance Prizes.

Berlin, Aug. 9.—It was announced today that \$75,000 of the National aviation fund, which is being raised through popular subscription, will be distributed as prizes among German aviators shooting German aeroplanes for distance flights made between September 15 and October 31 of the present year.

At least 1,000 kilometres (621 miles) must be flown in one day, half the distance in one direction, to make a flier eligible for a prize.

The sum of \$50,000 will be divided into six prizes and a special prize of \$25,000 is to be awarded to the aviator who exceeds 1,000 kilometres (approximately 993 miles) in a single day.

GERMAN METAL WORKERS REFUSE TO JOIN STRIKE

Berlin, August 9.—The German Metal Workers' Association here today rejected a resolution to join the strike of workmen in the shipbuilding yards. The strike was declared at Hamburg on July 15 last and later was extended to the yards at Kiel and Stettin.

Action Officially Ending the War Taken at Bucharest Yesterday

BULGARIANS STILL SHOW THEIR ANGER

Decorations Offered in Conciliatory Spirit by Rumanian King Refused by Bulgars—Exchange of Good Wishes With Kaiser.

Bucharest, Aug. 10.—The peace treaty between the Balkan States was signed this morning at 10.30 o'clock. In honor of the occasion, the city was decorated with flags, guns were fired, bells were rung and the bands played. A solemn Te Deum in the Cathedral at noon was attended by King Charles, Queen Elizabeth (Carmen Sylva) and other members of the royal family and the delegates to the peace conference.

King Charles conferred high decorations on all the delegates except the Bulgarians who refused to accept them.

The peace treaty provides that the Rumanian army shall evacuate Bulgarian territory in fifteen days after its signature and the Serbian and Greek armies in three days. It also provides for arbitration by Belgium, Holland and Switzerland in the event of a disagreement over the delimitation of the new frontier. Bulgars engage themselves immediately.

Berlin, Aug. 9.—Emperor William and the King of Rumania today exchanged the following telegrams in connection with the conclusion of peace among the Balkan states:

Bucharest, August 9.—"The conclusion of peace is assured after great difficulties have been overcome. Thanks to you, it will be final. I thank you with my whole heart, for your loyal friendship and warm good will."

(Signed), "CAROL." Wismunde, Aug. 9.—"Your telegram, which reached me tonight, is a great and real joy to me. I offer you my sincerest and heartiest congratulations on your splendid success, for which not only your people but also the belligerent states and all Europe have to thank you for your wise and truly statesmanlike policy. At the same time, you mentioning that I have been able to contribute something to the result achieved is very gratifying to me. I rejoice that our mutual co-operation was in the cause of peace."

(Signed), "WILHELM." Bucharest, Aug. 9.—"The kind words in your extremely cordial telegram fill me with pride and sincere gratitude. Once again I extend my heartfelt thanks for your warm interest and your effective share in the recent events so significant for my country."

(Signed), "CAROL." Emperor William today created King Constantine of Greece a general field marshal of the German army and conferred upon the Greek crown prince the grand cross of the red eagle.

"FADE AWAY" SWELL THE LATEST IN AMMUNITION

Fired During Test at Petawawa and Hasn't Been Located Yet—Completely Vanished—May be Going Still.

Ottawa, August 10.—Experiments which are being held at Petawawa go to show that a proportion of the artillery ammunition made at the Quebec arsenal may be salvaged sufficiently to permit of its being used for practice. It will not, however, be used in competitive firing.

Major Lafferty, the new superintendent of the arsenal, examined the shells that had been made and where practicable had them ground down and otherwise repaired. They then were tested at the practice camp at ranges of some four or five thousand yards. The result shows that those so treated have been improved greatly but that when so they are inferior in accuracy to the Vickers shells.

They accordingly will be used for training while batteries engaged in competitive work will have the English made shells.

An odd incident was the utter disappearance of one shell which was fired. All the projectiles discharged were inspected, the 14 had no explosives inside. This shell was fired; it did not fall near the target, it was not seen to strike the ground and a careful search failed to disclose any fragments. Either it is still going or it disappeared without any explosion into thin air. Its disappearance has been the joke of the camp.

MRS. MARVIN, TITANIC WIDOW, TO WED AGAIN.

MRS. DANIEL WARNER MARVIN, 2nd

Friends of Mrs. Daniel W. Marvin, whose husband perished on board the Titanic while he and his bride were returning from their honeymoon trip to Europe, have been informed during the last few days that her engagement to Mr. Horace De Camp, of New York, is soon to be formally announced.

Both Mrs. Marvin and Mr. De Camp are well known socially, and he is an old friend of the Marvin family.

Lucy Stone, tied to the foot of one of the following messages: "We shall celebrate in a most picturesque fashion this year the birth month of Lucy Stone, the woman who brought into existence the oldest woman suffrage paper in the world. Homeing Pigeons Bring Tidings From Campaigners Telling Boston Friends of Their Experiences on the Road.

Boston, August 8.—Two homeing pigeons bearing messages for Miss Alice Stone Blackwell reached Boston from New York this morning. The birds were set free in City Hall Park, New York, yesterday, by four young women campaigners who are traveling over the road from there. The birds are named Henry Blackwell and

Lucy Stone. Tied to the foot of one of the following messages: "We shall celebrate in a most picturesque fashion this year the birth month of Lucy Stone, the woman who brought into existence the oldest woman suffrage paper in the world. We are selling journals at every step. What do you think Lucy Stone would say if she knew we were collecting crowds by the music of a hurdy-gurdy and taking collections in a tambourine."

WOMAN LOCKED DOOR AND TACKLED THIEF

Found Him Ransacking Bureau—Collared Him and Marched Him Downstairs—But He Eluded Her Grasp.

New York, Aug. 9.—Mabel Kunzmann, wife of Joseph E. R. Kunzmann, a lawyer of 5 Nassau street, was alone in her home at 1716 Ocean avenue, Flatbush, yesterday afternoon when a man came to the door and asked if she wanted any decorating done. Mrs. Kunzmann was expecting some one to make measurements for parquet floors and she permitted the man to enter. He borrowed a tape measure and went to work.

Shortly afterward he asked Mrs. Kunzmann if she had any servants. When she replied that she had none at present the stranger went away. He came back shortly, however, and said that he had forgotten to measure the floor in the upper front hall. Mrs. Kunzmann again let him in.

Soon after that she heard suspicious noises in her bedroom, and rushing up stairs she found the "decorator" looking through the bureau drawers and fingering jewelry worth \$4,000.

Mrs. Kunzmann calmly locked the bedroom door and ordered the intruder to drop the jewelry. He did so. Then he found himself grabbed by the coat collar and marched downstairs. He made a bolt out the front door, leaving part of his clothing in the grasp of Mrs. Kunzmann.

He ran toward Avenue L, with Mrs. Kunzmann after him. At 688 Pacific street the pursuers commandeered a passing automobile and as the ma-

THE PINK LADY TONIGHT.

The Pink Lady, the Pink of Perfection Girls, and all the rest of John C. Fisher's big company arrived yesterday on a special train from Fredericton in order that tonight's big production might be put on in its entirety.

So massive is the scenic and electric end of the show that a crew of 25 stage hands and electricians are necessary to handle it and in order to accommodate the 53 people of the cast and chorus it has been necessary to use the carpenter shop, the wardrobe room and the ladies' waiting room in the Opera House as dressing rooms for the company.

Owing to the elaborate nature of the production the curtain tonight will rise promptly at 8.10. The management request that all patrons will make an effort to be there before that time. On Wednesday and Thursday the suburban train to Wolford will be held until 11.45 p. m.

THE LABOR PICNIC ON SATURDAY A SUCCESS

Despite Bad Weather Outing at the Ferns was well Attended—Prize Winners in Sports.

Although the weather was unfavorable quite a crowd of people attended the picnic held at the Ferns on Saturday under the auspices of the Trades and Labor Council. The City Cornet Band was in attendance, and played an extensive programme of selections besides furnishing the music for dancing.

One of the features of the programme of sports was the fat men's race, which was won by J. E. Tighe with James Connelly second.

Among those present was A. Verrielle, M. P., who has come to the city to address meeting in Oddfellows' Hall tomorrow evening.

WANDERERS DEFEAT THE GARRISON ELEVEN

Interesting Cricket at Halifax Watched by Large Crowd—Col. Vawdrey and Capt. Larks the Stars.

Halifax, Aug. 10.—The Wanderers defeated a Garrison cricket eleven, captained by Captain Willetts on Saturday afternoon by four runs. The Wanderers scoring 140 to their opponents' 136. Good exhibitions of batting were given by Major Wood for the Wanderers and Colonel Vawdrey and Captain Larks for the soldiers. The game was played on the Garrison grounds before a large crowd of people.

JOHNSTON WON CHAMPIONSHIP.

New York, Aug. 10.—William M. Johnston, of San Francisco, won the New York State lawn tennis championship in the singles today, and becomes the successor to Maurice E. McLoughlin, also of California. In the final match of the tournament on the turf courts of the Crescent A. C. at Bay Ridge, the 17-year-old boy defeated S. H. Voshell, of the Borough Park Club, 6-4, 4-4, 6-2. The point totals were 113 to 103.

Voshell is the only competitor in this tournament who has been able to win a set from the phenomenal youth.

ORGANISTS BAN "RAG TIME" IN THE CHURCH HYMNALS.

Ashbury Park, N. DEATH OF A FRATERNITY.

Kansas City, Mo., August 10.—The death of Meta Zook, an eighteen-year-old high school student, after a criminal operation resulting in the arrest of two physicians and the bringing out of names of a dozen high school boys as being implicated, is attributed to the use of automobiles by the students and their fraternities, by I. I. Cammack, superintendent of schools.

Mr. Cammack said there was a rule against fraternities in the high schools. He stated, however, that there was no rule against boys coming to school in automobiles. This practice, he said, upon others had resulted disastrously in many cases, when the boys took girls out riding.

JUDGMENTS DELIVERED.

Judge Drysdale delivered two judgments in Halifax last week. The first was in the case of Charles Bristol, owner of the steamer "Bridgewater" against the S. S. "Maia." Judgment given for the plaintiff for the sum of \$20,000.00. This case was tried Saturday.

The second was Robert E. Lov and five others of Clarke's Harbor, Sheburne Co., against the "Maia," which Judge Drysdale awarded to plaintiffs the sum of \$800 and costs.

ENGINEERS ON STRIKE.

Liverpool, Aug. 9.—Two hundred engineers and fitters of the Cunard liner Lusitania went on strike yesterday at the Liverpool docks over a dispute with the boiler-makers. For engineers of the Mauretania also went on strike. Officials of the Cunard line say this trouble will not interfere with the sailings of the two vessels.

NEW PASSENGER STEAMER.

Work is progressing rapidly on the new passenger steamer building at the yard of the Portland Shipbuilding Co. for the Cape Breton Electric Co. of Sydney, C. B., and it is expected she will be ready to go overboard about the 1st of October. She is a ready about half framed out, and it is plainly to be seen that she will be one of the staunchest boats of her class ever built in this vicinity. As an especial reinforcement to her frame a protection against ice, commencing at the stem and extending aft to the stern, a piece of 31/2 inch hard pine will be placed in between each frame rooming, to extend from about 18 inches above to about two inches below the water line. The best of oak and hard pine lumber being used in her construction. She will have a passenger capacity of over 500 with the powerful engines which she is to take on at Yarmouth, N. S., she is expected to prove a very speedy craft.

IS IT THE TITANIC?

Much of the mystery that surrounded the sinking of the White Star line Titanic on April 14, 1912, may be dispelled by the discovery of a wreck believed to be part of the bulk of the ill-starred vessel, standing on end in the Atlantic ocean, off the Grand Banks of Newfoundland, practically in the spot where the disaster occurred.

Capt. Remnant of the British steamship Luciline, which arrived at Philadelphia from Bordeaux several days ago, reported sighting the derelict and the United States hydrographic office has begun an investigation to learn more about the wreck. Lieutenant Commander Landenberger, United States hydrographer, stationed in Philadelphia, said the matter was of the utmost importance.

Should the vessel sighted by the Luciline prove to be the remains of the Titanic the story of the memorable wreck would be rewritten. The

NO SEPARATISM FOR NEW ZEALAND.

The New Zealand Minister of Defence has informed Parliament that the scheme of naval armament to be submitted by the Government will have regard to the principle of undivided control for Imperial purposes. As the details are a matter of pending correspondence with the British Admiralty, the scheme is not yet ready for presentation, but the important point of control for Imperial purposes is settled beyond question. The appearance of the bill in advance of the presentation of the scheme, commenting on this announcement, the Toronto Mail and Empire justly points out that one of the many falsehoods made use of by the Laurier press in its foul-fighting against the Borden Naval Aid Bill was this one, that New Zealand contemplated a naval policy like that of Sir Wilfrid Laurier. When Colonel Allen was in England conferring with the British Government about matters of common defence, and even when he was in Canada on his way home, opposition newspapers in this country endeavored to make it appear that New Zealand had its mind made up against any further adaptation of her naval arrangements to those made by the British Parliament. Now comes Colonel Allen's statement that for Imperial purposes New Zealand's navy will be subject to Imperial control. There was never any reason for believing that the New Zealand Government would depart from that principle. It was never for a moment in the slightest degree probable that the Dominion which had presented the Mother Country with the splendid battle cruiser now visiting British Columbia waters, a separatist navy of the Laurier type. No New Zealand politician of any prominence ever talked of keeping his dominion neutral in a time of war between Britain and any other power. Whatever arrangements the New Zealand Government has to propose for local defence purposes, it will associate itself with the Mother Country in the work of Imperial defence.

THE NEW DELHI.

Plans for the new capital of India have been designed on an elaborate scale. According to the report of the town planning committee, which has had the work in charge, the site of the proposed new city will begin from the walls of the present city of Delhi, and will extend in a southerly or south-westerly direction. On the east the frontier will be the River Jumna. On the west the site is bounded by a ridge. The total area prescribed has a width of about four and a half miles at the broadest part, narrowing to two and a half miles as it approaches the present town. Only about one and a half square miles of the present city lies within the area of the new capital. The central point of interest in the plans is Government House at Raisina Hill, near the centre of the town. It commands a view on every side. Behind the hill on which it is to be situated will be a raised platform, or forum, flanked by the large blocks of secretarial buildings. The Council Chamber will be located near Government House, with its wide flight of steps, portico and dome. Arrangements will be made for gardens and parks, and a spacious amphitheatre is to be hewn out of a quarry. To the east of the forum will be a forecourt, defined by trees, and linked up to the great main avenue or parkway which leads to Indrapat, the site of the oldest of all the Delhis. The forecourt will be adorned by fountains and contain decorative features, emblematic of the various provinces of the Indian Empire. The Administrative and Municipal buildings, banks, shops and hotels will be grouped around the railway station, and two processional routes have been marked out. Spacious areas have been provided for parks. All future development work is planned out in advance, the scheme providing for one of the most spectacular of world capitals.

AUSTRALIAN FARM LOANS.

A report on rural credit in Australia has been prepared by Mr. D. H. Ross, the Dominion Trade Commissioner at Melbourne, to meet numerous enquiries from Canada and is published in the last weekly report issued by the Department of Trade and Commerce. It appears that all the Australian States have established systems under which financial assistance is rendered to farmers, the funds being generally raised by the state governments through the issue of inscribed stock, mortgage bonds or as investments made by the state savings banks. No uniform plan has been followed by the Australian states, the conditions under which loans are granted, and the maximum amounts of the advances made varying considerably. New South Wales permits a maximum loan of \$10,000 on a three-

DIARY OF EVENTS

HISTORIC DAYS IN CANADA

BISHOP PERRIN.
The Rt. Rev. William Wilcox Perrin, of Wilkeson, long the bishop of British Columbia and one of the best known churchmen in Canada, was born sixty-five years ago today, Aug. 11, 1848, the son of Thomas Perrin, of Gloucestershire. He was educated at King's College, London, and Trinity college, Oxford, and was ordained in 1870. For eleven years he served as curate of St. Mark's in Southampton, and then became vicar of St. Luke's, in the same city. Twenty years ago he came to Canada as the Bishop of British Columbia, and during his long residence in Victoria he attained a foremost position among the leaders of the church in the Dominion.
Upon returning to England Bishop Perrin did not lose interest in Canada, and he has usually been among those present at any gathering of Canadians in London. In a despatch several months ago the bishop was reported to have urged the advertising of religious services in the daily press.
The bishopric of British Columbia was established in 1858, soon after the beginning of the gold rush, with the Rev. George Hill as first bishop. The late Baroness Burdett-Coutts contributed \$75,000 for the endowment of the new bishopric. Next April will mark the centenary of the birth of the famous philanthropist, and the church in British Columbia will no doubt observe the anniversary of its birth.
FIRST THINGS 6AET

FIRST THINGS

OBSERVATORIES.
The first English observatory, and still the greatest, is that at Greenwich, which was founded 238 years ago today by Charles II. It was erected on the summit of Flamsteed Hill, in honor of the first astronomer-royal, John Flamsteed. The longitude of all English charts and maps is reckoned from this observatory, and all ships take their time as given at 1 p. m. Longitude is also reckoned from the meridian of Paris, Washington, etc., but the reckoning from the meridian of Greenwich is most general.
The first real observatory in the world was that of Alexandria, by Ptolemy Soter, about 300 B. C. The first observatory in Europe was founded at Nuremberg in 1472 by Bernard Walther. Tycho Brahe's celebrated observatory was built in 1576. The French Royal Observatory at Paris was established in 1669, and the Royal Observatory at Greenwich, Kent. The first American observatory was that of Cambridge, Mass., in 1836, and that at Harvard four years later.

THE HUMAN PROCESSION

BARON TENNYSON.
Baron Tennyson, son of the immortal poet, was born sixty-one years ago today, and has had a noteworthy career as a colonial administrator and author. After leaving Cambridge he became private secretary to his father and continued in that capacity until the death of the poet. In 1890 he became governor and commander-in-chief of South Australia, and in 1902 he was chosen to be the governor-general of the Australian commonwealth. He returned to England in 1904, and since then has edited an edition of his father's works, and has written numerous articles and poems. Lord Tennyson was roused to indignation by the sale of the Browning love letters, and wrote to "The Times":
"Mr. Browning was walking one day with me in Eaton Place. He said: 'I have destroyed 150 letters of mine to my father. He will rejoice, for he loathes as much as I do the casting of one's heart into the streets as garbage for fools!'"

ROBERT B. GLENN.

Robert Brodnax Glenn, former governor of North Carolina, was born in that state fifty-nine years ago today. He became an international figure several years ago by successfully bluffing the United States government in a railway case, but that isn't his chief claim to fame. He was a classmate of President Woodrow Wilson at Davidson College, played the same baseball nine with the future president, and is thus privileged to call him "Tommy."

THE PASSING DAY

HAMILTON'S CENTENARY.
Hamilton, sixth in size among the cities of Canada and often called the "Birmingham of the Dominion," invites the world to be its guest during the week beginning today. The bustling city on the bay at the western end of Lake Ontario was born just a hundred years ago, and, in order that the centennial may be properly marked, Hamilton will for this week lay aside its business cares and devote itself to the entertainment of such portions of the world's population as responds to its invitation.
A hundred years ago England and the United States were at war, and the loss of battle flowed up and down the Niagara frontier. Among the citizens of that section was George Hamilton. He was young and he had a wife and children to support and protect, and he decided that the Niagara neighborhood was not healthful. So he removed with his family and his goods and chattels to a pleasant spot on the western extremity of Lake Ontario, and there laid out a town.
The community thus founded was given the name of Hamilton, after its founder, while a number of the streets were named after members of his family—Orestes, Hannah, Mary, August, James and John. The founder of the town was a public-spirited citizen, and gave to the city the Court House square, the Wood market and Gore park. Hamilton grew slowly but surely, and in 1846 assumed the dignity of a city. It is now a municipality of nearly 100,000 people, and one of the principal manufacturing centers of the Dominion. An industrial exhibition and a reunion of Hamilton "old boys" will be features of centennial week.
The common ancestor of the real founder of the town there were a number of settlers in the vicinity long before his arrival. Probably the first was Richard Bessley, who carried on a flourishing traffic with the Indians.

CURRENT COMMENT

Not True Patriotism.
(Winnipeg Telegram.)
The Saskatoon flag incident has been happily settled. It is unfortunate that such occasions should ever arise, but good will result if the lesson be learned from the affair, that "flaunting the flag" is not always nor of necessity significant of true patriotism, sometimes it is mere impertinence—even in a young woman.

Roumania.

(Hamilton Herald.)
There is grim humor in the fact that the Balkan state which will profit most by the late Balkan wars is Roumania, which didn't lose a man or spend a dollar to humiliate the Turkish power. But it is not to be expected that the Greeks, Serbians, Montenegrins and Bulgarians will enjoy the humor of the situation.
Banking by Mail.
(London Free Press.)
"Banking by mail" is to be made a feature of the parcels post system of the United States. Depositors will no longer need to go to a savings bank but will have their savings deposited for them by a responsible agent of the Government.

LABOR MEMBER CAME TO CITY SATURDAY

Alphonso Verville Making Tour Through Maritime Provinces - Will go to Cape Breton.

Alphonso Verville, of Montreal, the only representative of Labor in the Dominion Parliament, arrived in the city on Saturday, and attended the Labor Picnic at the Ferns during the afternoon. Mr. Verville is making a trip through the Maritime Provinces under the auspices of the Trades and Labor Council, and will then go on to Cape Breton.

To a reporter he said that the main object of his trip was to look into the labor conditions obtaining in Cape Breton, where it has been reported on the authority of a minister of the gospel that portions of the foreign population have been reduced to such straits that they have to be content with dog meat. When J. C. Walters, president of the Trades Congress, and J. W. Bruce, an organizer from Toronto, visited Cape Breton a while ago it was claimed that private detectives supposed to be employed by the Steel Corporation, insulted them and tried to get into a fight with them. Mr. Verville said he did not expect to be interfered with in his investigations, as he was in a position to let the country know if the slanders bothered him.

Speaking of the growth of the labor movement in Canada he said it had been very satisfactory during the past year and that the coming convention of the congress at Montreal would probably be the largest in its history.

FUNERAL SATURDAY OF MISS FRANCES A JACK

The funeral of Miss Frances Allen Jack took place on Saturday at the Mission Church of St. John, Baptist, Paradise Row at 2:30 p. m. The service was conducted in the usual dignified manner. The Rev. Father Collins, priest in charge read the lesson and listened the service most impressively which was of a character to fill the mind with resurrection joy.

The church was filled with friends and members of the congregation and an unusual number of mourners. The 90th Psalm, "The very Thought of Thee," 280, "Now the Laborer's Task is O'er," 520, "Jesus Lives," The music was beautifully conducted by Prof. Ford as organist, who played Oh Rest in the Lord, at the conclusion of the service in an unusually beautiful manner. The music and hymns were selected by Miss Jack herself before her death.

Many flowers from relatives and friends were received. On the altar was simply one beautiful wreath, the gift of many loving friends, and a very large and in falling crescent composed of tea roses, "from three faithful friends." The other flowers were banked on either side of the casket.

One gift of flowers arriving too late was used on the altar for the service of St. Lawrence's Guild, held on Sunday, a guild in which Miss Jack was much interested, having presented them with a beautiful banner of very old and valuable embroidery. A few of the boy choristers accompanied the remains to the cemetery where they stood round the grave and sang with much expression the hymn, "Let Saints on Earth in Concert Sing, and Hail Gladdening Sight."

THE FARMING SPECIAL'S TOUR CONCLUDED

Visit of Coaches to Agricultural Centres was Taken Advantage of by Thousands of Farmers.

Special to The Standard.

Fredericton, Aug. 10.—The tour of the Better Farming Coaches through New Brunswick over the lines of the Canadian Pacific Railway came to a conclusion with the arrival of the cars here yesterday morning.

The last stop was at Rustia Station, Sunbury county, where Friday was spent and the experts who were with the train during its tour arrived here Friday evening, many of them leaving for their homes yesterday morning.

H. P. Timmerman, Industrial Commissioner of the C. P. R., who was with the train for the closing day, also arrived here and had a conference with J. B. Dugas, secretary for agriculture, at the Barker House. Both were enthusiastic over the success of the tour. The cars will next go to the Province of Quebec for a month or over the C. P. R. lines in that province.

The tour of the Better Farming Coaches in New Brunswick was made possible by the co-operation of the Canadian Pacific Railway and the Provincial Department of Agriculture and although starting perhaps a little late in the season for the best attendance, the tour met with large and enthusiastic crowds at the various places on the itinerary, the number of visitors aggregating 4,421. The staff of experts and all connected with the project are to be congratulated upon the success of the tour in this province.

PAY LAST TRIBUTE TO LATE EDWARD LANTALUM

Funeral Cortege One of Lengthiest Seen in Years - Representative of all Classes—Floral Gifts.

The funeral of the late Edward Lantalum was held yesterday afternoon from his residence, Union street, to the Cathedral of the Immaculate Conception.

The funeral cortege which left the house at 2:30 o'clock was a fitting tribute to the deceased, who during a useful and active life by his kindly and charitable manner won for himself a host of friends. The funeral procession bore evidence to the popularity of the late Mr. Lantalum. The cortege was one of the largest seen in the city in recent years. Representatives of every class and denomination and all phases of the life of the community the funeral procession numbered hundreds of citizens. Heading the procession were the members of C. M. B. A., 134 of which deceased had been an active member for many years. Following the hearse after the mourners came members of the Knights of Columbus and representatives of the provincial and municipal governments. Immediately following these came the general procession representative of the business and professional life of the city.

Another testimony of the esteem in which the deceased was held was to be found in the floral tributes on the casket which were many and beautiful. As the funeral procession wended its way to the church the Cathedral chimed intoned the "Dead March," and "Lead Kindly Light." At the close of the service the "Dead March" was played on the organ.

At the church the funeral service was conducted by Rev. E. J. Conway. Following the service the remains were conveyed to the new Catholic cemetery where interment took place. Relatives of the deceased acted as pall bearers. A large number of citizens followed the remains to their last resting place.

ANNUAL SHOOTING AT SUSSEX.

The fifty-seventh annual meet of the Provincial Rifle Association will open on the Sussex range today, and will continue until Saturday.

The executive committee have prepared for a larger contingent than ever before. The shooting will start today this year instead of on Tuesday as formerly, to give the members an opportunity to accustom themselves with the Mark 7 ammunition, containing the pointed bullet, which is being used for the first time this year. It requires about 21 degrees more elevation at 1,000 yards than the old Mark 6, besides quite a difference in the wind gauge. Although there will be no league match in the first day, the scores made in the extra series will be totaled in with the aggregate for the highest averages.

One of the features of the meet will be a cadet match to be shot on Tuesday. The teams will be composed of three members from any authorized cadet corps within the province. Messrs. Ferguson & Page have presented a silver shield this year to be competed for by the cadets.

SHOOTS HUSBAND IN JEALOUS ANGER

MRS. JOSEPH J. DARE.

Mrs. Joseph J. Dare is lodged in a cell at Savannah, Ga., charged with shooting her husband during a fit of jealousy. Mr. Dare is dying, and the young wife is alternately weeping in her cell over his condition or bemoaning her prospective fate in facing a murder charge.

SEES GOOD OUTLOOK FOR FOX INDUSTRY

J. E. Dalton Confident Prices will Soar - New Company is Started Under Favorable Auspices.

The Dalton-Howatt Silver Black Fox Company has been launched under particularly favorable auspices, and the future is decidedly rosy for the new concern.

J. E. Dalton, director of the company, when interviewed as to the prospects for the silver black fox industry, was very enthusiastic and confidently stated that the prices of the foxes will go much higher now as the demand is enormous and there is a great scarcity of animals.

As regards the supply of foxes in the western provinces he said that the pure black foxes are very scarce there and shipments of foxes have been made from the west, but of the number brought down they are mostly all patch foxes, commonly called cross foxes.

The outlook for the Dalton-Howatt Company is very bright as the animals are of the very best breed procurable and the ranch management is the most efficient that could be secured.

He expressed his opinion that the dividends of the company should be very close to 100 per cent., as Mr. Howatt, under whose supervision the ranch is to be conducted, has agreed to defray all expenses in connection with upkeep of the farm, the feeding of the foxes and salaries of the men employed on the ranch.

MARKET QUOTATIONS ON STOCKS AND BONDS

BACHE & CO.'S CURRENT PRICES OF NEW YORK LETTER

New York, Aug. 9.—S. Bache and Company in their weekly stock letter dealing with the situation has this to say: Mexico as a burning fuse seems still to be alive and even here are watched with much interest, but there is great confidence, as there has been all along, that President Wilson will deal with matters as they present themselves, in a wise and conservative manner. A representative on the spot to report the situation and developments, inasmuch as the President cannot be there himself, commends itself as a good business move. The attitude of Huerta is becoming more and more threatening. It may be that this provisional President, feeling that his authority is doomed, prefers to go out in a spectacular way with the United States rather than in the old road of revolutionists. This he can easily bring about by insult or injury to the President's representative.

Perhaps of more immediate importance is the condition of the general crop, in which wheat bids fair to come out with record figures and corn has undoubtedly been severely damaged. The official figures of the Government's report as of August 1st shows an estimated yield in corn of 2,672,000 bushels. The indicated yield at this time last year was 2,835,125 bushels. The average ten year yield is 2,650,499 bushels. So that it will be seen that the Government report is up to an average yield. Weather, however, since the first, has been continuously adverse, and should rains not come, the yield may be reduced 200,000 bushels or more, to 2,470,000 bushels. If we figure that this is 550,000 bushels less than was expected in July, we have a loss of \$388,000,000. These figures are not negligible, still if we consider that the worth of the total crop is between \$8,000,000,000 and \$9,000,000,000 it will be seen that we still have an enormous amount of new wealth coming to us this year.

Copper stocks, by the Producer's statement, as of August 1st, show an increase of 460,333 lbs., which is a smaller increase than was expected. Probably the August figures will white the this down, as the Lake Superior strike has to be reckoned with.

The business of the country is in a surprisingly large volume. The stock market is due for a reaction. The rise has been largely due to and at the expense of the parties, who were short of stocks. Southern Pacific is centering attention upon itself because of the probable near announcement of dissolution price. It is one of the stocks which has been for some time under abnormal pressure and has undoubtedly been crowded much below its real worth. For 22 years this stock went without a dividend, but the earnings being turned into improvements. It has paid dividends now since 1906 and its dividend power is established. At the present time it yields 6 1/2 per cent. on the investment. Taking its past record and its present earnings, indications are favorable for the increase in the dividend to 7 per cent. per annum in time. Considering the safety of its dividends, its prospect for ultimate substantial appreciation in value, and its present yield, it looks like one of the best railroad stocks on the list for permanent investment.

SATURDAY'S STOCK MARKET DEVOID OF DEVELOPMENTS

New York, Aug. 9.—The two hour session of the stock market today was devoid of developments or incidents of any kind, other than the week-end and an underlying feeling of optimism. A few noteworthy railroad returns were submitted, especially that of the Erie road for the fiscal year, its net income increasing by over \$4,000,000 with a surplus gain of \$3,800,000. Vabash whose securities have recently shown unwonted activity and strength reported a new increase for the year of \$1,850,000. From the sluggish movement of leading stocks, mainly afternoon, it was inferred that more sober consideration of yesterday's crop report, with its brilliant promise for wheat, did not altogether allay alarm for other staples, although granaries were abundantly inactive. Harbinger shares were under steady pressure, likewise Reading and Smelting, while special issues like International Paper preferred, Virginia, Carolina preferred, and American Express, fell one to two points. Reading was the only relatively active issue of the first hour, and its heavy tonnage was associated with a recent advice from Washington suggesting that further action against the anthracite roads is imminent. The market became altogether inert in the later dealings, such changes as then occurred indicating increased irregularity. Unfilled tonnage figures for July, as submitted by the United States Steel Corporation after the close of the market, showed a decrease of practically 400,000 tons, and marked the seventh successive monthly reduction reported this year. The volume of business reported today, 5,399,356 tons, is over half a million tons less than that of a year ago. The bank statement threw little light on the week's monetary operations, actual loans increasing \$5,640,000 while the cash gain of \$1,157,000 was below most estimates. Bonds were irregular. Government bonds advanced from 1/4 to 1 per cent, on call this week. Total sales, par value, \$52,000.

LIDLAW & CO'S CLOSING STOCK LETTER

(J. C. MACKINTOSH & CO.) New York, Aug. 9.—Today's stock market was the usual mid-summer half holiday affair, the bulk of the transactions representing the evening up process over the week-end. No definite price tendency developed, and it was plain that the Mexican situation and the condition of the corn crop was restricting outside participation. There was little evidence of the support from important quarters which had been extended, but there was really no need for it and pressure was mild, and from widespread sources. The market looks to be in position to respond moderately to transient developments of any character. Professional interests profess to be gravely alarmed over the Mexican situation and the droughty condition in the corn belt, but thus far developments have not been serious in either particular.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

A NEW DALTON COMPANY

The Dalton-Howatt Silver Black Fox Company, Limited Of Coleman, P. E. I.

Capital Stock \$165,000. Offers for Subscription 1650 Shares. Par Value \$100 Each.

WHAT THE SHAREHOLDERS GET FOR \$165,000

Six Pairs of Foxes of the Famous Dalton-Lewis-Raynor Strain. Four Pairs are Tested Breeders and Not More Than Three Years.

MANAGEMENT

T. MAJOR HOWATT, who is Ranch Manager, is one of the largest and most successful fox men of Prince Edward Island.

THE RANCH

The ranch is built on the most modern plan which knowledge and experience have proven the best for the comfort and safety of the foxes.

EXPENSES

All expenses for the upkeep of the ranch, feeding of the foxes, salaries of the men employed on the ranch, also Mr. Howatt's salary, will be paid for one year's time.

DIVIDENDS

Dividends will be very large as the foxes of the Company are mainly TESTED BREEDERS. The average litter of one pair of foxes is four pups, and as the foxes are mainly breeders the average should be even higher.

Should the foxes only have a litter of Four to a pair, then we would pay dividends of 133 per cent. Should the foxes only have a litter of Three to a pair, then we would pay dividends of 100 per cent. Should the foxes only have a litter of Two to a pair, then we would pay dividends of 66 per cent.

This is one of the very best and the soundest propositions in the Silver Black Fox Industry. The other Dalton Company has earned 85 p. c. for their shareholders, 40 p. c. cash dividends and their shares are selling at \$145 each.

CHARLES PITCHED GREAT GAME; F.M.A. TEAM BANGOR FALLS TO FREDERICTON WON GAME OF 6 INNINGS

There was a large crowd of fans at the North End grounds Saturday afternoon to witness what proved an excellent game of ball between the Marathons and the St. Croix team, which the Greeks won by a score of 6 to 4.

McPhee was the hurler for the visiting team and pitched a good steady game with a couple of exceptions, when in the eighth inning he presented the Marathons with a score hit making two wild pitches. The best that the Marathons could do with the Rastporter was to make seven safe ones of him, one of these being a two bagger hit by O'Brien, and which proved the only one in the game.

Charles was the pitcher for the home team, and he pitched a great game. He only allowed four singles. Two were made in the first inning and two were made in the sixth. The black made two of the hits and Tetreault and Jacobson made the others. He struck six visitors out and certainly showed what class he is in when he wound up in good shape in the last inning and struck out the three men to face him. In five innings not a St. Croix man reached first base. One man reached first in the third inning and another got that far in the eighth on bases on balls and then the side was retired.

St. Croix made two runs in the first inning and two in the sixth, and this is how it happened. In the sixth Black singled to right field and was then thrown out trying to steal second. Lynch hit to Waterhouse at short who missed. Tetreault singled to centre, and a wild pitch advanced these runners a bag. Jacobson hit to Pinkerton who let the ball get away from him which allowed Lynch and Tetreault to score. Jacobson was thrown out trying to steal second, and Parker retired the side flying out to centre.

In the sixth Black beat out a hit to Shankey at first on a very close decision. Lynch hit to Waterhouse who missed. Tetreault followed with a hit to Waterhouse, who again missed and Black scored. Jacobson hit to right safe Lynch scored. The next two to bat went out to the infield. The four runs were practically handed to the St. Croix team on errors.

The Marathons made one run in the first inning. O'Brien drew a base on balls and went to second on a pass. Pinkerton sacrificed. O'Brien going to third. Shankey hit out short to first, and O'Brien scored on the play. Pease struck out.

In the second inning with one out Waterhouse drew a base on balls and advanced to third when Lynch singled to centre. Kley going to second on the throw. He fouled out to catcher. Charles beat out a hit to short and Waterhouse scored. O'Brien retired the side by going out short to first.

Special To The Standard. Bangor, Me. August 10.—With "Bobbie" Keeler holding the indicator and hustling both teams along, Fredericton won from the home team today by a score of 6 to 5. It was the best game seen here this season, full of brilliant plays on the part of both teams.

It was a great game to witness and not until the last man was out was the game safe. In the first Fredericton got two lucky runs. Keanev hit to right and the ball was lost in the grass and he circled the bases.

They got two more in the third. Duggan singled and Stone tripled. In the fourth and fifth Bangor scored two runs two runs in each inning. In the fourth a single and a triple by Dolan resulted in another run. In the fifth three singles sent two more across.

It looked as if the home team would tie it up in the ninth. Connaughton singled after O'Brien. Connaughton poled one down the third-base line, but that was all. The game was over and both teams were given a splendid award for last man was out.

The large number of people who assembled on the East End League grounds Saturday afternoon were treated to a 15-inning game of ball. The teams to play this long-drawn out battle were the F. M. A. of the City League and the All-Stars, a team picked out of the East End teams.

The F. M. A. team was leading in the sixth inning by a score of 5 to 4. The Stars made a run in the eighth inning which tied up the game. Then for seven innings the teams failed to score and the interest was intense.

Lynch was in the box for the Stars and Ancoyne for the F. M. A. and both were working well. At last the 16th inning came and Lashor weakened so that the Association batters got to him. Graves got a two-bagger, Myers singled, Garnett walked, Milan hit for two bases and Ancoyne walked hit for two bases, with the result that four runs were scored.

The Stars made one run in the last inning and the game finished: F. M. A. 5, All-Stars 6. One noticeable feature of the game is that Nixon, the F. M. A. first baseman, had no less than 23 putouts to his credit.

BOATS COLLIDE ON RIVER; ERNEST EARLE LOSES LIFE

Another Added to the List of Drownings—Boys being Towed in Tender when Motor Boat Psyche ran into it—Young Mealey Rescued in Exhausted Condition.

As a result of a motor boat collision on the river last evening another was added to the list of drowning accidents when the body of Ernest Earle was hurled from a tender in which he was being towed, and cast into the water, where he sank beneath the waves and was carried to the bottom of the river.

Young Earle, who was but a lad of 14 years, was the son of Robert J. Earle, longshoreman, who resides in Murray street. He was a member of the party which were sailing on the motor boat Frigilla M., which was returning to the city from near Boar's Head, where the father of the drowned boy has a summer residence.

It was shortly after they had commenced the homeward journey, about 9 o'clock, and when opposite a projection in the cove known as Ragged Point, that they were confronted by the motor boat Psyche, with Fred Smith at the helm, loomed into sight at short distance away.

Owing to the shouts and confusion of the passengers in both boats, which immediately followed the collision, no word was heard from either of the boys, neither of whom could swim. They clung for a short while to the upturned tender but were finally forced to release their grasp.

CANKER WORM AT WORK IN THE PROVINCE

Doing Considerable Damage to the Apple Trees—May be Fair Crop with Favorable Weather.

According to the July Bulletin of the Fruit Division of the Dominion Department of Agriculture the prospects for the fruit crop all over Canada are rather poor.

The average apple crop for the whole Dominion will not be more than sixty per cent of a full crop, according to the correspondents of the department, but this production is qualified by the assertion that should good weather intervene between now and picking time, it is quite possible that a fair crop of apples may be harvested.

In Great Britain and Europe the apple crop is reported to be very poor and in the United States it is below the average. The ravages of the tent caterpillar in eastern Canada have left serious consequences and are undoubtedly largely the cause of the low yield of apples in many sections.
