CANADIAN GUNS ARE EFFECTIVE

Artillery Giving Germans Tit for Tat at Ypres Salient.—Losses Heavy But Huns' Worse

London, June 6.—"We have been pounded out of the trenches we captured, but the Germans were not able to hold them. Our artillery is now giving the Huns tit for tat, and one little gleam we are getting out of this terrific fighting is that things are just as comfortable behind the German lines as behind ours."

"Canadian losses have been tremendous, but reinforcing drafts have already arrived fresh and eager. We will get back at them somehow."

That is what a division officer, who has returned, rejoined, today to be married, tells me.

Gen. Mercer, according to the latest reports, was in the thickest of the fighting like an old warrior. At one time he was leading the Canadians to a counter-attack and his regiment was thinned out terribly and forced back.

It was found that the General was missing, so the Canadians rallied another attack and a handful held back the Huns while the others searched among the wounded.

VERDUN TACTICS EXPECTED
The information we Canadian correspondents get is necessarily second hand. We were to have visited France officially on Saturday, but because of this terrific costly fighting, our trip has been postponed, though English correspondents are watching and writing on the battle, that in importance, intensity, and cost in Canadian lives, is likely to surpass Langemarck.

Imperial officers believe that the Germans are going to use their Verdun tactics and keep throwing in regiments however great is the massacre.

There was a lull last night as far as infantry attacks were concerned, but the Huns' big guns have never stopped, neither have ours. There is practically an area of a square mile pitted with shell holes and scarred with mine craters in which there is nothing, but afterwards, whenever our troops attempt to dig up some shelter, there always comes a merciless pounding from German heavy guns, and we have to retire again.

LOSSES 5 TO 1 IN OUR FAVOR
A wounded officer tells me that in this hinterland of death there are easily three thousand corpses, many of them alas, Canadians, but the majority Huns. It has been easily a five to one toll in our favor.

Stumbling blindly through a screen of German shrapnel, splendid Canadian battalions from Eastern Ontario, Quebec, Winnipeg and Calgary, and the Scottish from Montreal, Vancouver and Toronto, have rushed these small craters and got to grips with the Huns. They have killed all who have not fled. Canadian battalions have been keeping up the last three days some of the most terrific personal combats, rivalling those of the French fighters at Verdun, which have taken place for the possession of these craters.

In the fighting the Field Ambulances have worked heroically and suffered severely. Dressing stations have been obliterated by the hellish bombardment. Our losses in officers have been serious.

FAREWELL MEETING TO SOLDIER BOYS

Opera House Crowded to do Honor to Members of 132nd Battalion

On Monday, His Worship, at the request of numerous citizens, made arrangements for a public farewell meeting in the Opera House Tuesday evening, to bid "God Speed" to our boys of "A" Company of the 132nd Battalion.

At 8.30 o'clock every seat in the large auditorium was taken and many were standing.

Upon the platform were His Worship Mayor Andrew, Capt. Rev. Fr. Murdoch, Chaplain of the 132nd, Major McKay, and clergymen and citizens.

The meeting was called to order by His Worship, and opened with "God Save the King."

His Worship then in a few well chosen remarks explained the object of the meeting and introduced the various speakers.

The speakers, each of whom addressed the audience for a few minutes, were Rev. Fr. Wallace, Rev. J. E. Purdie, B. A. Stewart, M. P. P., Capt. A. P. LeBlanc, Rev. H. Miller, Capt. Squarbriggs of S. A.

Capt. Rev. Fr. Murdoch also made a few appropriate remarks.

Major McKay of the 132nd, who has been in charge of "A" company here, on behalf of the officers and men of his company thanked the citizens for the many acts of kindness extended to them during their residence here.

One of the pleasant features of the evening was a military drill put on by a number of the boys from the Convent School under the leadership of Master Gustave Wagner. The different manoeuvres were gone through with a precision which evoked much applause from all, and they were obliged to respond to an encore.

The meeting came to a close with three cheers for the 132nd and three cheers for the citizens by the soldiers.

SOLDIER HAS A NARROW ESCAPE

Fell Off Limited Mile Above Tide Head.—Now in Hospital Here

Private Bert Robson of the 99th Battalion, C. E. F., of Belleville, Ont., had a narrow escape from instant death Monday morning, when he fell off the Limited about a mile west of Moffats.

Private Robson with a number of other soldiers, in charge of an officer, were proceeding to Halifax to join their Battalion. It is supposed that he was standing on the platform and a lurch of the train threw him off. No one seems to have seen the accident except that a little boy reported that he saw a soldier fall off the train. The officer checked up his men here and one was found missing.

A freight train crew following the Limited were telegraphed to and they found the unfortunate man lying at the foot of the embankment in an unconscious condition.

He was brought to the hospital here, where he is still in a semi-conscious condition. There are no marks on his body, and his face is only slightly marked.

Letters and papers found on him provided means of identification and his mother lives at Middleborough, England.

As the Limited was travelling upwards of forty miles an hour, the wonder is that he was not instantly killed.

CANADIANS FIGHT TO FINISH WITH GERMANS

London, June 7.—The tremendous German thrust to break the Canadian lines from Hooge to Hill 60 seems for the time at least, to have spent itself.

From an officer who was in the fighting yesterday noon I learn that the last great attack early on Tuesday morning, was completely shattered by the terrific artillery fire which Canadian and English batteries poured into the Huns before Hooge and Sanctuary Wood.

The heavy losses among prominent Canadian officers have already been cabled to Canada. These lists do not include the men who fell during Monday and Tuesday's fighting.

Col. Buller, flourishing a stick, dashed with the remnant of the Pats into a large crater which the Huns were fortifying.

A wounded officer tells me that he was twice wounded before an exploding bomb killed him. The Pats fought like furies to recover his body, and it is believed that he was brought back to the Canadian lines.

Col. Baker also, who was seriously wounded, insisted in carrying on, and fell surrounded by his men when a shrapnel burst within half a yard of him.

GASPE RETURNS DR. G. LEMIEUX BY MAJORITY OF 1,500

Cap Chat, Que., June 5.—Another seat in Quebec went Liberal Thursday, when voting took place in Gaspe county. Dr. Gustave Lemieux, was re-elected by a majority of 1,500.

SEVERE FIGHTING STILL CONTINUES

Russian Steam Roller Has Started With Good Results.—Canadians Retire

Petrograd, June 7, via London, 6.35 p. m.—In their new offensive movement the Russians have captured more than 40,000 men, it was announced officially today.

The statement says that on the line between the Pripiet and the Roumanian frontier, over which the campaign is being fought, the Russians thus far have taken 900 officers, 40,000 men, seventy-seven guns, 134 machine guns and forty-nine bomb throwers.

Amsterdam, via London, June 7, 10.50 a. m.—The Telegram says that a German destroyer struck a mine and went down off Zebrugge on May 31.

Paris, June 7, 2.55 p. m.—The French destroyer Fantassin has been sunk in a collision. Her crew was rescued. Hard pressed Canadians on firing line have retired.

Vort Vaux at Verdun isolated and capture feared.

Italians follow up successes. British gain in East Africa.

NO WORD OF 132ND MOVING YET

Advance Party Ready But No Instructions to Proceed.—Whole Battalion Here

No more definite word of the removal of the 132nd has been received here yet.

An advance party has been ready for some days, but no instructions have been received to send them forward, although these are expected at any hour.

We are glad to announce that Col. Mercereau has made arrangements whereby the entire battalion will spend several hours here on their way to Valcartier. They will march through the town, with their hands, and no doubt our citizens will give them a warm welcome.

It is not likely the regiment will move before the middle of next week.

THE GASPE S. S. SERVICE DELAYED

Steamer Elaine Not Ready and Public Given no Truthful Information. Still at St. John

The Graphic regrets that it has knowingly been the means of giving the people of the Gaspe reference to the steamship Elaine, which was promised. Each week we enquired when the steamer would be here, and each time received the answer that she was on her way and would arrive any day.

Now from private sources we learn that the steamer was not at her dock in St. John this week, but that Capt. Landry had gone to St. John to bring her around. We are sorry it is impossible to say.

The delay has caused much inconvenience to shipper and the cause of much chagrin and many letters to our merchants.

We trust that in another week she will have arrived and be on the route.

To the Editor of the Graphic.
Sir: Since the amount asked for, for the 132nd Band has been realized in contributions already received or donations promised, I would suggest that this fund be closed so far as it concerns the public. However, any parties such as schools, having entertainment, and many the proceeds of which were intended for the band fund, may donate the same to the 132nd Battalion towards Regimental funds or Field Commissions. Any such contributions will be most thankfully received.
It has been decided that no schools will be overlooked in regards giving of the Panoramic picture, although the amount contributed did not reach the required sum mentioned in my circular letter to the schools.

EARL KITCHENER AND STAFF LOST OFF THE ORKNEYS

Were on Board the Hampshire Which Met With Disaster—Torpedo or Mine Mentioned, But No Information Given

London, June 6.—Earl Kitchener, British Minister of War, and his staff were on board a British cruiser which was sunk by a mine or torpedo, off the Orkneys. It is feared that all were lost.
Four boats were seen to leave the Hampshire, but a heavy sea was running. Only a capsized boat and some bodies have been found.
Earl Kitchener was on his way to Russia. Admiral Jellicoe reports that there is little hope that there were any survivors.
The Orkney Islands, off which the Hampshire went down, are off the north coast of Scotland. The Hampshire was on her way into the Atlantic and around the northern end of the Scandinavian peninsula, into the White Sea. Earl Kitchener probably intended to debark at Archangel.

LORD KITCHENER

CANADIANS AGAIN IN HEAVY FIGHTING

Uphold Reputation of Canadian Army.—Casualties Will be Heavy

Ottawa, June 5.—The severest fighting in which the Canadians at the front have yet engaged, with the all too pronounced probability of a casualty list in keeping with the intensity of the battle, occurred on Friday and Saturday in the Ypres salient.
While the Third Canadian Division bore the brunt of it, the mention of other battalions in the casualty list this morning indicates that some troops from another division participated as well.
Ottawa has not yet received the descriptive particulars of the fight, but what has come through is a list of casualties which show losses which, put it as mildly as possible, are heavy indeed.
The officer's names came first, and it is shown that a hundred and three of them have fallen, the greater proportion belonging to the cavalry brigade which General Victor Williams, now wounded and a prisoner in the hands of the enemy, had under his command.
When among the officers the losses are so severe, it is all too easy to surmise the proportionate losses sustained by the men in the ranks. There are some prominent men among the fallen. Col. Harry Baker, M. P. for Bromes, who commanded a Quebec cavalry brigade, is dead of his wounds; Lieut. Col. H. C. Buller, the third commander of the Princess Pats, and former A.D.C. to the Duke of Connaught, is killed outright; and Lieut. Col. A. E. Shaw of Brandon, is also reported killed.
For the third time Major A. Hamilton Gault has been wounded. As stated, Major General Mercer and General Victor Williams are seriously wounded.
There are only two Maritime Province names in the list received by General Sir Sam Hughes this morning, as follows:
On June 2nd, killed, Lieut. P. S. Nisbet, St. John.
On June 3rd, wounded, Lieut. C. R. Mersereau, Chatham, N. B.
The brunt of the battle apparently was borne by General Williams' cavalry brigade, serving as infantry and made up of troops from Toronto, Montreal and the Maritime Provinces, St. John, Brandon, Victoria and other points.

GRAPHIC DESCRIPTION OF NAVAL BATTLE

Pride of German Navy Sent to Bottom by Destroyers.—Torn to Pieces

Edinburgh, June 5.—Survivors arriving here from British destroyers, which made a massed attack on a German battleship in the Jutland battle, are convinced that they sent to the bottom the dreadnought Hindenburg, the pride of the German navy. These sailors say that the Hindenburg was struck successively by four torpedoes, while the destroyers dashed in alongside her hull tearing her to pieces, until the mighty ship reeled and sank.
An officer from one of the destroyers gave the following graphic account of the battle:
"The pride of the Grand Fleet went into action as if they were going into manoeuvres. From every yard arm the white ensign flew, the flag which is to the sailor as the tattered colors were in the days of old to a hard pressed regiment. That it went hard with the little cruisers, is apparent, but one ship cannot fight a dozen. They had fought a great fight, a fight to be proud of, a fight which live longer than many a victory.
"We fought close to the foe, and if anything is certain, in the uncertainties of naval battle, it is that we gave at least as good as we got. We passed along the line of German ships some miles away and let off broadside after broadside. The air was heavy with masses of smoke, black, yellow, green and every other color, which drifted slowly between the opposing lines, hiding sometimes friend and sometimes foe. The enemy ships were firing very fast, but watching the ships in front one came to the conclusion that the shooting was decidedly erratic.
"Again and again salvos of shells fell far short of the mark to be followed immediately by others which screamed past high in the air.
"I watched the Iron Duke swinging through the seas, letting off broadside after broadside, wicked tongues of flame leaped through clouds of smoke. The direction of battle was stunning, stupendous, deafening, as hundreds of the heaviest guns in the world, roared out at once. Great masses of water rose in the air, like waterspouts, reaching as high as the masts, as the salvos of German shells fell short or went over their target. Now and then a shell found its mark, but it left me absolutely cold, as is its effect on each man at a time like this. A dozen men may be knocked out at one's side. It makes no difference. It is war.
"It was impossible to see what was happening among the ships of the foe.

THE GHURKAS' REVENGE

The Canadian Magazine for June contains an unusual short story of the war. It is entitled "The Ghurkas' Night," by A. Judson Hanna, and is an imaginative account of the manner in which a regiment of Hindu soldiers avenged what they regarded as the killing of Lord Roberts by the Germans. The wonderful affection of the Indians for Roberts is shown and also their native proneness to smite back whenever they suffer an offence that peculiarly affects their emotions. In this instance, after the announcement of the death of Roberts, they waited silently until after nightfall, and then made a raid upon the Germans, with results which the story graphically depicts.

TO OUR SUBSCRIBERS
We again wish to call the attention of our readers to the fact that on and after July 1st, the price of the yearly subscription to the Graphic will be \$1.50 per year in advance, to addresses in Canada or Great Britain and \$2.00 per year to the United States. As already explained this increase is due to advance in the cost of all material which go into the preparation of a weekly paper. In the past the advertiser has been paying more than his share of the deficit from the subscription end of the paper, but now it is time to place the burden, or a part of it at least, where it belongs. Subscribers remitting before July 1st can pay for a year or more in advance at the \$1.00 rate.

CANADA'S UNDYING GLORY
We Canadians who cannot go to Flanders to fight the empire's battles, but must remain at home, cannot but express the pride we feel at the magnificent bravery displayed by our boys, for boys they nearly all are, who only a few short months ago were working in our offices, stores and factories, but who are today showing the iron hearted German that the made of as good stuff as the best. Their heroism will live in the history of Canada, and their glorious deeds will always be remembered. The casualties will be heavy, and to those who have lost dear ones, the sympathy of all will go out in this their dark hour.

EARL KITCHENER
The news of the past week has been of grave importance to the British Empire, and none was of graver importance than that announcing the death of Earl Kitchener. Wherever the British flag flies there will be eminent regret at his untimely removal. As a soldier he has accomplished much to bring the British army up to its present state of efficiency. Had his death taken place at an earlier period of the war, the disaster would have been felt much more keenly, as it is his place will be hard indeed to fill.

THE NAVAL BATTLE
Traditions of the British navy were nobly upheld in the great naval battle off The Horn, Denmark, last week. A British squadron came in contact with the German High Sea fleet, and although greatly outnumbered, without a moment's hesitation gave battle and kept the Germans engaged until reinforcements arrived.

CONSTIPATIENS

Read This—

It must be remembered, that the bowels should move freely once a day to ensure perfect health. When this is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning. The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward. Abbey's Effervescent Salt, sold everywhere at 25c and 50c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

forcements of heavier weight came up, when the Germans turned and ran for their safe harbors. Not, however, before they had suffered severe losses in men and ships. Latest reports estimate the German loss at 7,800 men, and eighteen vessels, with a total tonnage of over 125,000 tons.

CANADIAN CEMETERY IS CONSECRATED
London, June 7.—Pathetic scenes marked the consecration of the Canadian Garrison Cemetery at Shorncliffe, where the heroes of the Princess Pats and of the 49th and 42nd Regiments are already buried. The cemetery is three acres in extent and is beautifully situated on a hill overlooking the sea.

FRENCH AGAIN DRIVE HUNS BACK
Paris, June 7.—The repulse of a powerful German attack on Fort Vaux, on the Verdun Line, with heavy losses to the attackers, is announced in an official statement issued by the War Office today. Violent bombardment of the fort is still being carried on by the Germans. The attack on Fort Vaux started at eight o'clock last night and was promptly checked by the fire of the French machine guns. It is announced that the Germans retreated in disorder, abandoning many dead. At Hill 304 an artillery duel is in progress and also at the Caurettes woods. Two German patrols which tried to cross the Aisne, west of Soissons, were dispersed.

Why Shamed by Blotchy Skin

THE MARITIME PROVINCES Summer Tourist Travel.

The United States railway authorities are expecting a big tourist travel to New England resorts this year, and advance many reasons for their optimism in this respect. They cite the facts that war conditions have closed the door to European resorts, that the San Francisco Exposition which last year led thousands to spend their vacation on the Pacific Coast, is over, and that the extraordinary prosperity in the United States has provided many people with ready money for extended trips. Another indication is the large number of requests for summer literature. The numerous enquiries received by the Canadian Government Railways is a sure index that great interest is being taken in the summer resorts of the Maritime Provinces, and all its principal passenger representatives in the United States and Canada have been provided with a large supply of 1916 descriptive literature.

With the unlimited possibilities that Maritime Canada possesses for summer enjoyment—conditions as enjoyable as those in the most favoured part of the world that may be chosen for comparison—sunny skies, delightful temperature, invigorating air, an endless variety of picturesque beauty—nature evidently intended the "provinces by the sea" to be a land for recreation.

The value of summer tourist business to the New England States is estimated in the millions. Now is the time for our Maritime people having accommodation for summer visitors to put their house in order, advertise the fact at home and abroad, welcome the stranger and reap the golden harvest.

BRITISH ARMY IN MOURNING
London, June 7.—The British army went into mourning today for its late chief. Every officer wore a band of crape on his left arm. Throughout the country flags were at half-mast.

AIMED TO CRUSH CANADIANS
An interesting suggestion has been given me by a Canadian staff officer that the Germans hoped to get through the Canadian lines, but failing this, at any cost they intended to inflict such severe losses on the Dominion troops, even at the terrific price of German lives, that it would be impossible for Canadians to figure in any strong offensive which might be planned. Battles are rapidly being filled up.

KILLED IN ACTION
The casualty list of June 7th has the name of Farquhar McRae of St. Godfrey, Que., Infantry, killed in action.

True to their inherited love of a smart and clean-cut appearance, these brave soldiers are not content till each one has a Gillette Safety Razor.

Those who have returned from the firing line speak enthusiastically of the convenience—the comfort—almost the necessity of having a Gillette if a man on active service wants to enjoy a clean and regular shave.

Ornamental Fencing that keeps its good appearance

Almost any kind of fence looks well when it's first put up; it's only *first* quality fence, such as the Maritime, that keeps its good looks in spite of the years. The quality is put into the fence and naturally the fence shows it in the wear. Ignoring altogether the temptation to make a few extra cents by skimping and cheapening on material, we use only large, strong, resilient No. 9 wire—heavily galvanized. Rare, indeed, is the

exception where wire so strong, so smooth and so heavy is used for ornamental fences and gates. At the same time it's the best in the long run—for it retains its good appearance longer than the house. Maritime Ornamental fencing enhances the appearance of your home and thus adds appreciably to its value.

Regret to inform you Lieut. Cecil Rhodes Mersereau infantry officially reported admitted No. 7 Hospital, Boulogne, June 4th, suffering from gunshot wounds in chest, legs and face. Condition serious. Further information when received will be sent you.

NEEDS NO PAINTING

Amatite stands alone in the ready roofing world. It is the one roofing you don't have to paint. Once laid, it will last for years without any attention from you. For eaves and steep roofs it is supreme. If you could only see how it is made—see the tough, fibrous felt, the dense, non-volatile saturating compound that keeps it water-tight, you would understand our claims. Try some.

A Roofing Triumph

The durability of Amatite is only one of its fine points. The same structural feature which makes it unnecessary to paint Amatite, gives it a beautiful and beautiful appearance. We refer to its sparkling, mineral surface. Improves the appearance of any building. The best buy in the ready roofing market.

The deceased was a son of Mr. and Mrs. Edmund LeGallais, Sr., of Paspébiac West; a brother of Mrs. T. C. LeBoutillier, 114 Gray Ave., Montreal; Major J. P. LeGallais, 193 Royal Highlanders, Truro, N. the sub-branches at New Carlisle, Port Daniel and Chandler. He was organist and choir-master of the Episcopal Church in his home town.

Socially he was very much beloved, as was shown by the very large funeral, and the numerous and beautiful floral offerings. He was buried with Masonic honours, conducted by the Good Samaritan Lodge.

His sorrowing parents and relatives have the deepest sympathy of the community and the consolation of knowing that their son and brother was loved and respected by all with whom he associated in business, church and social life.

SUBSCRIPTION PRICE

TO BE INCREASED

Toronto, June 1.—The Canadian Press Association opened its annual convention today in the new technical school.

Problems faced the Canadian newspapers as a result of the war, especially regarding the large enlistment from staffs and the effect upon advertising receipts, were alluded to by W. E. Smallfield, of Renfrew, in his presidential address. The efforts being made for higher subscription rates were not "money grubbing or money grabbing propositions." The trade situation in war time had aggravated conditions, but beyond that, there were weaknesses in business methods demanding attention.

The newspaper has been looking to the advertiser to carry his load, and when war conditions upset the advertising situation, the need was made plain to distribute the load more fairly—that is to put it where it properly belongs, on the subscriber.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

NEWPORT
For some time past we have not seen any notes from Newport, so a few words of the social doings of our thriving town will likely be appreciated by the Graphic readers.
The town's most imposing edifice, the Roman Catholic church, is rapidly nearing completion. Practically all the exterior being finished, although there is still a lot of work to be done on the interior.
Under the management of Messrs. Dr. Richard and E. Beu, a salubrious stand has been established. Although the catch is still somewhat meagre, these gentlemen are hopeful of a large catch, their's being the only stand in Newport for years.
Among the commercial travellers who visited our merchants lately, we notice Messrs. Holt, Kerr, Paquette, Crothier, McMurry & Luthier.
Captain Joy of Halifax is in town. He will shortly install a plant for refined oil for Job Brothers of Halifax.
Mrs. James Jessop and Miss Bessie Jessop paid a flying visit to Chandler Sunday.
Mr. Edmond Levesque of Pasphebie was in town on Friday.
Mr. E. LeMarquand was in Pasphebie Thursday, returning here Friday with his new automobile.

CANADIANS SUFFER WORST ARTILLERY FIRE OF THE WAR

London, June 5.—An officer who
reached London early this morning and
who has been at the front since last
year, says that never, not even in the
second battle of Ypres, have the Cana-
dians had such an experience.

"If there is anybody at home or in
England," he said, "who thinks that
the Germans are short of ammunition,
as I have seen stated in papers on both
sides of the water, it is the most com-
plete nonsense ever written. If the
Canadian front had been a powder fac-
tory on fire there could not have been
a bigger hell while the Germans made
their first bombardment. We had ex-
pected it for some time as there are
usually indications long before such a
big storm bursts.

"It was pretty well on towards Fri-
day morning when the enemy's guns
opened in earnest. What an opening
that was. Everything in the way of
explosives that could and did play all
sorts of devilish tricks with our de-
fences were used. Plump would come
an enormous shell into a section of a
trench, where there was a crossway.
Everything here would be churned up
into nothing. Scarcely a single man in
that section would escape without a
wound of some kind and some poor
chaps would be blown clean away. No-
body had much time to look around
them. We could only wait our turn.
If it was to come we just stuck where
we were. We did not know how things
were going in the rear. That is one
of the most harassing matters at such
a time. It is as well that one's thou-
ghts are pretty well occupied with
what is going on around you.

"I expect the German guns were
miles away, but the noise was deafen-
ing. This infernal artillery program
on Friday morning lasted for three
hours. There was not one bit of our
front lines I hear, which had not trenches
blotted out. In my section our
losses were grievous. Half a dozen
men would be buried together.

"Of course the Germans sent up men
to occupy the ground we had been ob-
liged to relinquish, then on Saturday
morning we brought up fresh men, who
moved forward. How they got on I do
not know, for I was moved down to the
base with a host of others who had
been holding the line against the pre-
liminary bombardment.

THE REAL FRIEND IN A LARGE BOTTLE

The greatest friend to sick people
is the one that helps them toward
health. But nearly every human fri-
end has heretofore suggested a differ-
ent means of regaining lost health due
to nervousness, overwork, debility and
worry. Now there are dozens of fri-
end will agree that the best friend to their
health is Zocite—the health tonic. This
already famous remedy for "nerves,"
and their consequent ailments is a
combination of glycer-phosphates—the
actual elements of the human
body—with Cod Liver Oil and deli-
cious tonic wine. A short two weeks
of faithful trial will put you fair and
square upon the path of bounding
health. We know this so absolutely
that if you cannot report real progress
at the end of that time we will refund
the purchase price. You who suffer
and suffer and suffer should not delay
beyond today. Sold by Thomas Wran,
Distributing Agent.

GRAPHIC DESCRIPTION OF NAVAL BATTLE

(Continued from page 2)
The smoke obscured everything so ef-
fectually that one could only get a
glimpse at intervals, when a kindly
wind blew a lane through the pall. It
was apparent that the best ships of
the enemy were engaged, but how
many neither eye nor glass could make
out. The number was certainly large.
It was equally impossible to see what
damage we were causing. Only the
high command knew the progress of
the battle. That the damage inflicted
on the German ships was great does
not admit of any doubt. At one time
two vessels red with fire gleamed through
the smoke.

"It is a curious feeling to be in the
midst of a battle and not to know to
which side fortune leans. Where only
a few ships are engaged it is different.
Our own losses were known with some
degree of exactness, but even that was
uncertain. Thus at one time it was
thought that the Lion had been lost,
as she did not answer any calls. It
transpired that her wireless had been
destroyed.

"With the dusk came the great op-
portunity of the mosquito craft and
both sides made use of it to the full.
It was in this way that one of the sad-
dest of many sad incidents occurred.
A destroyer, true to its name, dashed
for the big enemy ship. She soon got
into effective range and loosed her
torpedoes with deadly effect on a Ger-
man battleship.

"The ship went down and the de-
stroyer raced for safety, the comman-
der and officers standing on the bridge
indulging in mutual congratulations
at their success. At that moment a
shell hit the bridge, and wiped out the
entire group.

"It was curious to note the effect of
the fight on the sea. Calm at the be-
ginning, the water soon looked like as
if it were under the influence of a gale,
as great waves the height of a leviathan
ships plunging at terrific
speed through the waves.

"The sea also seemed to be stiff with
fish killed by shells bursting in the
water."

"I think it my duty to tell you what
"Fruit-a-tives" has done for me.
Three years ago, I began to feel run-
down and tired, and suffered very much
from Liver and Kidney Trouble.
Having read of "Fruit-a-tives", I
thought I would try them. The result
was surprising. During the 34 years
past, I have taken them regularly and
would not change for anything. I have
not had an hour's sickness since I com-
menced using "Fruit-a-tives", and I
know now what I haven't known for
a good many years—that is, the blessing
of a healthy body and clear thinking
brain".

DOES THIS MEAN YOU?

Are you one of the many who
are suffering with eczema, obstinate
sores, ulcers or any other skin
trouble? If so, lose no time in
trying Zambuk, and you will be
amazed at its curative powers.

The healing power of any ointment
is in proportion to its medi-
cinal ingredients. Ordinary oint-
ments being composed chiefly of
animal fats, with only a small per-
centage of medicinal ingredients,
have not sufficient healing power
to overcome a bad case of skin
trouble. Zambuk, on the contrary,
is purely herbal, and is all medi-
cine, which explains its superiority
over other ointments, and its many
marvellous cures.

Besides being best for eczema,
ulcers, and skin diseases of all
kinds, it is equally good for blood-
poisoning, piles, burns, cuts, heat
rashes, sore and blistered feet, in-
sect bites and sunburn. 50c. box

THICK, GLOSSY HAIR
FREE FROM DANDRUFF

Girl Try It! Hair gets soft, fluffy and
beautiful—Get a 25 cent bottle
of Danderine.

If you care for heavy hair that glist-
ens with health and is radiant with
life; has an incomparable softness and
is fluffy and lustrous, try Danderine.
Just one application doubles the
beauty of your hair, besides it imme-
diately dissolves every particle of
dandruff. You can not have nice
heavy, healthy hair if you have
dandruff. This destructive agent robs
the hair of its lustre, its strength and
its very life, and if not overcome it
produces a feverishness and itching of
the scalp; the hair roots flake,
loosen and die; then the hair falls out
fast. Surely get a 25-cent bottle of
Kaoil's Danderine from any drug
store and just try it.

GERMAN FLEET WAS OUTFOUGHT

And Chased in Disorderly Retreat,
Says Expert.—Loss of British
Cruisers Ascribed to Accident

London, June 5.—The naval battle
off the coast of Jutland is claimed to
have been a complete victory for the
British, by the naval expert of the
Morning Post, who writes in this
morning's issue:

"The salient fact is that the German
fleet was completely outfought, lost
heavily and was chased in disorderly
retreat into its ports. Admiral Jellicoe
brought his forces to bear upon
the enemy at a time and place chosen
by him.

"The vanguard of the British fleet
was composed of the battle cruiser
squadron, supported by a squadron of
four fast battleships. Behind this
vanguard followed the main battle
fleet. The German fleet adopted the
same formation, and the Germans lost
one, if not three, battle cruisers, in
the first part of the action, which was
fought between the two vanguards of
the two fleets.

"Admiral Beatty, after engaging the
German battle cruisers, must have
turned away when the German battle
fleet approached, in order to allow the
British battle fleet, which was also
drawing near, to engage. The armored
cruisers which were following the
battle squadron, should also have turned
aside, and if they had done so it is
difficult to see how three of them could
have been lost.

"It is possible that, owing to some
confusion, always likely in such cir-
cumstances, they went on, whereupon
the approaching German battle fleet
sent them to the bottom. Their loss is,
therefore, due to an accident.

"We now come to the moment when
the two main fleets joined battle. The
action was fought in line, according to
the accepted theory of tactics. As the
two fleets approached the line began
to overlap, the first ships of each line
probably concentrated their fire on the
leading ship of the other. One and
perhaps two German battleships were
sunk, but no British, and therefore
British gunnery was evidently superior.

"The speedy loss of one and perhaps
two battleships determined the Ger-
mans to retreat for their harbors and
pursued by the British fleet.
London, June 5.—German sailors
rescued by Scandinavian steamers, de-
scribing the Teutonic losses in the Jut-
land battle as colossal, according to a
despatch to the Telegraph Exchange
Company. A large number of the
crew of the cruiser Wiesbaden and
men from several German torpedo
boats have been rescued and brought
to Copenhagen. They report that many
of their companions, after floating for
36 hours, on rafts, without food or
water, drank the sea water, became in-
sane, and jumped into the ocean.

The German survivors say that sev-
eral of their torpedo boats and sub-
marines were captured by the British
shells and sunk instantly. Bodies of
both British and German sailors are
beginning to be washed ashore on the
coast of Jutland.

Captains of steamers arriving in
Scandinavian harbors report that the
big German cruisers which were oper-
ating a large squadron of destroyers,
which had been patrolling the South-
ern Baltic, were not sighted last week.

CANADIANS IN SEVERE FIGHTING

They Attacked Germans With Great
Coolness and Skill

British headquarters in France,
June 5.—Around famous Hill Sixty,
and Sanctuary Wood the Canadians
have been doing the stiffest fighting
of their experience in the course of the
last two days when they suddenly
opened up the heaviest bombardment,
using all kinds of guns from howitzers
to trench mortars, not only battering
the trenches, but covering a wide area
of ground, to prevent the bringing up
of supplies.

But it was not this time as in the
earliest fights of the Ypres salient,
when the Germans threw three or four
to our one," said an officer. "The Brit-
ish guns returned equal volumes on
the Germans after they were in our
trenches."

Under support of gun fire the Cana-
dian battalions which include many
Americans, maintaining the tradition
of the first contingent last year at St.
Julien, immediately turned on the Ger-
mans in a series of counter attacks.
Parties rushed in at different points
bombing and bayonetting right and
left and before they had regained all
but a few yards.

The German advance had been made
over a front of 3,000 yards from the
Ypres-Comines Railway to Hooge
point. This was the most extensive
front of any recent front attacked. The
Canadians responded to the test coolly
and skillfully. In the Hooge sector the
German attack was stopped with
heavy loss.

NEW MANAGER FOR

JONES & SCHOFIELD
Mr. E. A. Hoyt of St. John, N. B., arrived in town on Tuesday last, to assume the management of Messrs. Jones & Schofield's branch in this place, and will take up his residence here.

Mr. Hoyt is well and favorably known to many of the trade in this district, and comes to his new position with considerable experience, having represented Messrs. Hall & Fairweather on the North Shore for a number of years, and lately has been with The Ogilvie Milling Co.
About twelve years ago Messrs. Jones & Schofield selected Campbellton as a suitable place in which to establish a branch, thinking its natural advantages should make it a good distributing centre. A gradual and steady growth of business is sufficient evidence that they selected the proper location, and no doubt, they will continue to grow with the growth of our enterprising town and surrounding district.
