PADLLE YOUR OWN CANOE. My father died-peace to his soul '-When years I numbered two, And left me "midst this world, alone,

To paddle my own cance. A step-granddaddy now no more, l'aught me my P's and Q-

And ever in my ears he dinned: "You'll paddle your own canoe."

My home was no Elysian spot, Of bright and sunny hue ;

And, therefore, I thee sooner left

And though the world & roamed at large,

And though the struggle oft was hard

To paddle my own canne.

O'er land and ocean blue,

I paddled my own canoe.

For thus I argued-man to man

As partners in the strife for gain,

But I one cherished object sought, And ever kept in view;
A friend of pure unsullied heart,
To paddle in my cause.

A triend she is in word and deed-

Her interest mine is too; We twait are one—I still may say I paddle my own cauce.

Self interest will pursue;
And leave you with their debts perhaps,
To paddle your own cance.

And, then, no sympathy you'll find, From friends that once were true— They know you lost, when first you ceased To paddle your own canoe.

Scenes at the Post Office in San Francisco.—The Pacific News contains the following notice of the Fost Office arrangement and duties at San Francisco;

"The scene, daily exhibited at the Post Office in this city, is probably without a parallel in any part of the world. In their anxiety to obtain letters, many persons are on the ground before daylight, and the string of applicants, at each window, amounts to an hundred or more, before the office opens.—The crowd increases throughout the day, the late arrivals being obliged to stand several horrs in the franks, before their turn. "From this information, it appears that Messis. Gilmour, Rankin & Co's Steam Mill in Chattam, between the month of Cctober last and the 1st of February, there were ground of the growth and production of the County, 847 barrels Flour, 1,478 barrels Oatmeal, 116 farrels Barley meal, 20 barrels Indian meal, 15 barrels Rye Flour. 10 barrels Pease meal, and 7 barre's Buckwhat Flour, making in all 2,493 barrels of Bread Stuffs; and the Committee are credibly informed in-formed that at least 3,000 barrels additional will be ground at the same Mill before the 1st May next. When it is considered that other Mills are at work constantly in the same vicinity, and are engaged in manufacturing the produce of the country, it affords a most ratifying and encouraging illustration of what may be done in the prosecution of Agricultural labour. From the same source,

the Committee have been informed, that Alexander M'Laggan, Esquire, of the South West, killed dast Autumn II Hogs, weighing 4.686 pounds,—nne, being two years ald, weighing 630 pounds, and the other 10 from fifteen to eighteen months, making an average of 424 pounds each, besides five The Steamship Niegara arrived at Halifax on average of 180 pounds exch.
