CELESTIAL FROLICS.

The sun had put his night-cap on,
And covered o'er his head,
When countless stars appear'd amid
The curtains round his bed.
The moon arose, most motherly,
To take a quiet peep
How all the stars appeared while he
Her sovereign was asleep.
She saw them wink their silvery eyes,
As if in roguish play;
Though silent all, to her they seem'd
As if they'd much to say.
So, lest their frolics should disturb
The sleeping king of light,
She rose so high that her mild eye
Could keep them all in sight.

The stars, abash'd, stole softly back,
And look'd demure and prim;
Until the moon began to nod,
Her eyes becoming dim.

Then sleepily she sought her home,
That's somewhere—who knows where?
But as she went, the playful stars
Commenced their twinkling glare.

And when the moon was fairly gone,
The twinkling silvery eyes
Had so much fun to wake the sun,
And he began to rise.

He rose in glory—from his eyes
Sprang forth a new-born day,
Before whose brightness all the stars
Ran hastily away.

Miscellany.

A Bold Oil Swindle.

The *Fredericton Reporter* gives an account of a curious swindling operation, by which it was attempted to sell a hole in the ground on the pretence that it was an oil well. It appears that certain parties who had been engaged in boring near Frankford, visited the town one day last week, stating that they had struck oil, that their well was yielding 100 barrels per day, and that they would sell the whole thing for \$75,000 in cash. A couple of gentlemen were dispatched to look at the well, and on arriving they found everything as represented, the well pumping into a huge tank a very good quality of oil, at fully the rate indicated.

The visitors agreed to invest, but wanted a few hours for deliberation. They accordingly returned to Frankford and consulted some of the best "oil men" to ascertain the value of such a "supposable" investment, and were assured that it would be worth \$300,000 at least. This settled the question and they hurried back to the owners, closed the bargain, plunked the cash, and departed to make their fortunes without delay.

The next day it was found that the old employees of the company had left, but the pumps were promptly installed, and the pumping resumed. Judge the astonishment of the purchasers, upon discovering that, notwithstanding the continual pumping and flow of oil, it did not rise in the tank! In other words, there were "no indications" of a big leakage. The pump was stopped, and an excavation commenced at the side of the tank. A few feet below a smaller tank was found communicating with the upper by a small tube, through which the oil was conducted. From the lower tank another tube descended diagonally to the well about eighteen feet below the surface, a still lower depth it was plugged. This device for securing an inexhaustible well could not well be improved. But the victims couldn't see it. They went back to Frankford in search of the sharpers, but latter were not east, and up to the present they have not been arrested.

MATRIMONIAL PURSING.—Doubtless you have remarked with satisfaction how the little oddities of men who marry rather late in life are pruned after marriage. You have found a man who used to be shabbily and carelessly dressed, with huge shirt-collar frayed at the edges and a glaring yellow silk pocket handkerchief, broken of these and become a pattern of neatness. You have seen a man whose hair and whiskers were ridiculously cut, and who generally had his beard covered with snuff, abandon the vile habit.

A wife is the wielder of the moral pruning-knife. If Johnson's wife had lived, there would have been no boarding up of bits of orange peel; no touching all the posts in walking along the street; no eating and drinking with a disgusting voracity. If Oliver Goldsmith had been married, he would never have worn that memorable and ridiculous coat. Whenever you find a man whom you know little about, oddly dressed, or talking ridiculously, or exhibiting any eccentricity of manner, you may be tolerably sure that he is not a married man. For the little corners are rounded off, the little shoots are pruned away in married men. Wives generally have much more sense than their husbands, especially when the husbands are clever men. The wife's advice is like the ballast that keeps the ship steady. They are like the wholesome though painful, shears snapping off the little growths of self-conceit and folly. —*Fraser's Magazine.*

From PROFESSOR HIND'S Report:— PETROLEUM SPRINGS IN ALBERT AND WEST-MOBRAND.

Natural petroleum springs have long been known in these Counties. Attempts are now being made to reach the source of supply by boring.

The following information respecting the depth of the borings was obtained from the workmen at Steeves' Ravine well, in October of the present year:—

1. The Steeves Ravine well.—The petroleum spring here has long been known.—The oil occurs on the surface of the water in an excavation under the north bank of the ravine. Its colour and colour reminded me of the petroleum wells of Enniskillen in Canada. The depth of the wells was then, (October 13, 1864,) 106 feet. The sand pump brought up fresh water, and very little oil.
2. The Doves well, about three miles north of Hillsborough, on the east side of the Petrolodine, 106 feet down, with a strong flow of fresh water.
3. Cummings Well, Westmorland County, Dorchester Parish, about a mile from the Dover Well, 530 feet down; salt water in the pump, small show of oil.
4. Memramcook, about 140 feet down; very small show of oil.

An idea of the depth to which it will be necessary to bore before oil, in remunerative abundance may be expected, will be gathered from the fact that the main shaft of the Albert Mines has already been excavated to the depth of one thousand feet, without a trace of oil being met with. It is not probable, therefore, with this splendid test well in view, that the prospectors will be successful at a less depth than 1300 or 1500 feet, and it yet remains to be seen to what extent the Dorchester Rocks, the probable source of the oil, are developed in that part of the Province.

The inflammable gas which is copiously evolved near the Albert Mine, and in several places in Albert County, is not necessarily connected with petroleum, as it proceeds from rocks destitute of bitumen.

A CURIOUS FEATURE OF NEW YORK SOCIETY.—The New York Leader furnishes the following information respecting the beggars who sit around the streets holding babies in their laps to excite the pity and charity of the passers-by:—These children are kept by unworthy women, and hired at so many cents a day. Some of them are drugged, to make them lie still and pale on the beggar's lap. Some are tortured by pins, artfully disposed, so as to constantly irritate them and make them wail. Some are tied and bandaged with excruciating tightness so as to cause them to gasp for breath. All these cruel devices attract the attention and contributions of the charitable. Honest poverty does not sit on stoops and hold their babies in the face of the public all day long—whether it rain, or snow, or the sunbeams come scorching down. Women are worthy of relief do not drug and torture their own infants or anybody's else. It is evident then, that those who contribute to these beggars with babies not only throw their money away, but actually foster vice and encourage criminals.

FEARFUL TORNADO.—On the evening of the 11th a tornado swept over many parts of the States, doing a vast amount of injury. In New York, several large factories, buildings, storehouses, etc., were unroofed, and a shop and factory on 48th street was completely demolished. In Brooklyn, nearly a dozen houses were demolished and as many more unroofed, a large storehouse was struck by lightning and damaged to the extent of \$10,000, and much other property injured. In Philadelphia, thirty houses were blown down, and the damage to Fairmount Park caused by the blowing down of trees will, it is thought, barely be covered by \$20,000. In Danbury, Conn., the steeple of the Congregational Church was thrown down through

the roof, making a complete wreck of the building—loss about 50,000 dollars, several houses have been more or less damaged. In New York, New Jersey and other places, houses were blown down, trees uprooted, and telegraph lines prostrated. Several persons are said to have been more or less injured in the different places named, and one boy was killed in Philadelphia.

A REMEDY FOR DIPHTHERIA.—Dr. R. H. Allnatt says:—It cannot be generally known that the progress of diphtheria may often be at once arrested by the chloride of potassa. A saturated solution should be kept in every family medicine chest in the kingdom—especially in the districts where the medical man is not easily accessible—ready to be administered in every suspicious case of sore throat. The solution is made by dissolving a quarter of an ounce (or four drachms) of the chloride in a pint of boiling water. It should be preserved in a bottle closely corked, and when used the bottle should be shaken with sufficient violence to diffuse the crystalline sediment through the water. The dose is a table spoonful thrice daily.

PUNISHMENT AFTER DEATH.—A DOG STORY.—A friend of his—says President Lincoln—passing along a village street, was painfully bitten by an ugly dog. A single blow of a heavy stick, aimed, was sufficient to kill the animal instantly; but the enraged pedestrian still continued to pummel the corpse, till little vestige of the canine form remained. At length he was accosted with, "What are you about? That dog has been dead this ten minutes." "I know it," was the reply; "but I want to give the beast a realizing sense that there is a punishment after death."

A story is told of the colonels of two regiments engaged at Mission Ridge. They had been classmates and chums at Waterville College, Maine, and when the war broke out, one went with the South, and the other remained true to the Union. They were both mortally wounded in this battle, and after the fighting was over a mutual friend found them side by side on the battle field, with their right hands clasped and both dead. They had evidently recognised each other after being wounded, and the old ties of friendship asserted the supremacy, and together their spirits had passed into the eternal world. Side by side, in the same grave, they slept their sleep. Their names are not stated.

We accept the following as an excellent and honest Yankee criticism on Professor Goldwin Smith:—"A number of very respectable and wealthy gentlemen of the city of New York, by no means averse to the music of their own voices, gave Professor Goldwin Smith a breakfast, after which they stroked his self importance, and he purged; and then he stroked his self-conceit, and they purged; and then they commenced licking their own coats, and he purged." [Exchange paper.]

FREDERICTON, May 17.
Treasury Note bill adopted with additional section that notes be used for construction of railways and other public works, by a vote of 26 to 8.

Amendment of Mr. Cudlip, that the notes be used for railways only, was lost by same vote.

Mr. Hill from the Committee of Dominion Lake drainage, reported and submitted an amend bill. He also brought in a bill to amend the Act of Incorporation to the St. Stephen Branch Railroad Company.

Supply taken up, and Legislative, judicial and revenue appropriations granted.

Opposition was offered to the Post Office grant until the bill relating to the Department be submitted.

House in supply voted appropriations for various services without division.

Discussion on navigation. McMillan moved that subsidy for North Shore steamer be increased to \$14,000. He explained that last year was small because contract was for short period—for full summer term \$5,000 was entirely useless; motion ruled out of order.

On military appropriation of \$30,000 discussion arose, Boyd contending it was entirely too small; others thought it too large a sum to vote away until House knew provisions of Bill under which it would be expended.

Progress reported at 3 o'clock.

Connell stated that his resolution on military matters must come forward to-morrow, and all strength of Government would not choke it longer. Anglin replied warmly, followed by Smith, during whose remarks Connell intimated that Government supporters were puppets. Standing order was moved and House remained in secret session half an hour, breaking up at 6 30.

Extracts from the Report of the Provincial Board of Agriculture.

CHARLOTTE COUNTY AGRICULTURAL SOCIETY.

This Society is progressing very favourably, and with the aid of the farmers of the surrounding neighbourhood, who now take a much greater interest than heretofore, it promises to accomplish much good in the encouragement of a good agriculture.

The Society has experienced much benefit and advantage from having a Hall and Grounds for the special use of their Show; and as the energetic officers of the Society have overcome the difficulties they for a time were under, consequent on securing a location and furnishing means to defray the expenses of erecting a Hall, they now are anxious of enlisting many who heretofore were indifferent to the support of the Society.

The statistical report not being at hand, no statement is offered of the estimate of crops, &c. Much improvement is plainly discernible in the cultivation of the farms in the district; root crops are cultivated to a considerable and increasing extent, and particular attention is given to composting of manures.

SAINT CROIX AGRICULTURAL SOCIETY.

The returns from this Society speak favourably of the advancing interests of agriculture in the district. The grain crops are largely cultivated, and the barley is becoming a favourite crop, and found to be sure and profitable. Large quantities of land have been cleared, and thorough cultivation is beginning to be practised generally. Roots are grown to some extent, but not in sufficient quantities; but their value is becoming known. Considerable attention is being given to sheep raising, and superior breeds are sought after. The Society has purchased a lot of land, on which it is intended to erect a building for agricultural purposes. The show of roots and grain was peculiarly good, and much improvement is visible in the cattle and horses. The Society has increased in members over former years. During the season the Committee adopted the plan of awarding premiums for the best cultivated fields of different produce, which was found to have a good effect.

SAINT GEORGE AND PENNEFIELD SOCIETY.

The above Society is in a prosperous condition, and is largely extending its usefulness; attention is given to procuring improved stock of sheep and cattle, and much of a good agricultural spirit pervades its members.

By the statistical returns it is stated that the wheat crops uncertain, and only in some soils and localities will it succeed in any degree. Oats are extensively grown, the black kind most used and found the most productive. The cultivation of the barley crop is on the increase. Rye not much grown.—Buckwheat is largely grown, and always yields well, and thought to improve the soil. The hay crop is represented as having been not more than a half one. A large increase in the cultivation of turnips is stated, being double that of former years. Other reports not much grown. Attention is being given to fruit culture, apple trees being to some extent imported.

The cattle considered most suited to the locality, and hardy, are the native, crossed with Durham, and Ayrshire.

The Society is desirous of improving the breed of horses, and offers encouragement to have larger sized than heretofore. Much improvement is mentioned in the breeds of sheep; several rams of Leicester breed have been purchased by the Society, and sold under restrictions for benefit of locality. A steady and marked improvement in attention to manure saving and composting is stated; and greater and increasing attention is being given to farm buildings, and use of labour-saving machines; and the officers of this Society are doing their utmost, prudently, to encourage the agricultural interests of their district; and the importance of the Society is becoming generally felt. Home-spun cloth is made in larger quantities than formerly; and there is within the district a very superior carding and manufacturing machinery, complete in all departments, and presenting a ready market for wool. The machinery is the private property of Messrs. M'Gill.

SAINT PATRICK AGRICULTURAL SOCIETY.

From the Report of the Audit Committee concerning this Society, it will have been observed that its position is not a satisfactory one, either as regards the Society, or its means for usefulness. It is hoped, however, that in future its affairs may be rectified, and the Society assume its useful place in a locality where much good may be effected through a properly conducted association.—The Parish of Saint Patrick and, Dunbar, adjoining each other, have the necessary material in active, energetic, and intelligent men, to form and conduct, with the best results, an Agricultural Society; and there can certainly be no reason against the union of such Parishes in one common object, and so selecting officers from both Parishes as will protect the interests of each, and thus give a fair share of the benefits to be obtained.

The place for holding their show should be convenient in its position for both Parishes, and the management of the affairs of the Society entrusted to representatives from each. There are few localities that afford a better opportunity for obtaining a good Agricultural Association, and if all animosities were laid aside—such as seem to have existed by the returns made—the Saint Patrick Society would become one of the most prominent in the Province.

Call at A. D. STEVENSON'S, Auctioneer and Commission Merchant, ST. JOHN.

Dealer in Groceries, Hardware, Crockery ware, Ladies and Gents Boots and Shoes, &c. Particular attention paid to Auctioneering and Goods on consignment. Corner of Berry's building, opposite Bradley's.

Earthen, Crockery & Glassware Show Rooms, 29 Dock Street, St. John.

F. CLEMENTSON, has on hand and for sale every description of the above ware direct from the manufacturers in Staffordshire which he offers for sale wholesale and retail on the most reasonable terms. An inspection solicited. St. John, Oct. 19, by F. CLEMENTSON.

MORE NEW GOODS.

JUST RECEIVED and now open for sale at the very LOWEST PRICES:—HATS, BONNETS, Feathers, and Ribbons. SHAWLS, MANTILLAS, AND FANCY DRESS GOODS. Grey and White Cottons, Shirting, Stripes, and Regatta Prints, and CORSET CLOTH. Crashes; Towels; ling & Table Linens, Shirt-fronts, Collars, and Fancy Neck Ties, Boots and Shoes. Balance of Summer Stock daily expected per Steamer "Europa," and when received will be sold at a very small advance on cost.

BRITISH HOUSE, D. BRADLEY.

Per Ship Landed from Liverpool

58 BRL Crushed Sugar, 1000 lbs each. Heavy Ready-made shirts, 1000 each. Grey Cottons and stripes, 1000 each. Lowest rates for cash. H. J. GODDARD & CO., Dec. 7.

A BOOK EVERY ONE SHOULD READ. WILDERNESS JOURNALS.

NEW BRUNSWICK. BY THE Hon. A. H. Gordon, late Lieutenant Governor, &c., &c., &c. Price 25 cents at H. W. Goddard & Co.

NOTICE

Is hereby given, that an application will be made at the next sitting of the General Assembly of this Province—for the passage of a Law for the preservation of Deer on the Island of Grand Manan and the outer islands within that Parish, for a limited period.

H. W. Goddard & Co.

Have received a lot of GREY COTTONS from the St. John Cotton Mills, Grey Homespun and Salts of Mincek manufacture, at reasonable prices. Mar. 22, 1865.

TO LET.

The Springle House, at present occupied by Miss Andrews, Alnwick, occupied by Hugh Gurney, in the house adjoining the "suburban." Apply to C. GILLILAND.

KEROSENE

A SUPPLY of the genuine article for sale at the lowest prices of J. L. TRENT. Feb. 15, 1865.

White Lead, Oil, &c.

BRANDRAM'S No. 1 White Lead. Balled Oil. For sale by J. L. STREET.

April 6, 1865.

FROM THE STATES.

Boston, May 19.
At the assassination trial yesterday a letter was read addressed to Jeff. Davis explaining the project of burning Northern cities and American shipping, by some new chemical process. The letter was endorsed with the approval of Davis.

Other important testimony was introduced implicating Richmond leaders with the projected arson and with knowledge of the conspiracy to assassinate the President and Cabinet.

Rebel Governor Brown of Georgia has reached Washington and is confined in the old Capital Prison.

A review of the armies will take place on Tuesday and Wednesday, when the troops will march through Washington.

Gold 131 1/2.
A despatch from Montreal says Dr. Blackburn, who intended to ship infected clothing from Bermuda to the Northern cities was arrested to-day on a warrant from Toronto for breach of the neutrality laws.

Footes publishes a long letter to Secretary Stanton. He says he was ordered to leave the United States in forty-eight hours; he is willing to go back for trial.

The rebel General Pillow was captured recently near Selma, Alabama; he was afraid to go home on account of the guerrillas. It is understood that President Johnson's proclamation will withdraw the unconditional amnesty proffered by Mr. Lincoln, and substitute an offer of amnesty in certain specified terms below the rank of Brigadier General. Rebels in the Civil Service at home and abroad will be excepted from the amnesty.

Gold 130.

May 22.
Additional details of arrest of Jeff. Davis and party are published. They confirm previous accounts.

Soon after the arrest, a paper giving the rewards offered by the government, including \$100,000 for Davis himself was shown him. Davis read it and trembled; his hands dropped to his side, and with a groan he dropped the paper; his wife picked it up and read it aloud, when the entire party burst into tears.

Steamship Hansa, with Liverpool dates of the 10th, arrived last night.

Prince of Wales opened the Dublin International Exhibition on the 9th. 10,000 persons were present.

The borough franchise bill was defeated in the House of Commons by a majority of seventy-four.

Commodore 90 1/2 a 90 1/2.
Little change in general markets.

Gold 130 1/2.
Mrs. Lincoln, having partially recovered from her severe indisposition, has announced her intention of leaving Washington for home.

The rebel Governors are in trouble. Governor Brown of Georgia was arrested in Milledgeville, Ga., on the 9th; he is now incarcerated in Washington. Governor Vance of North Carolina, and Ex Governor Alken of the same state, are also under arrest. Governor McGovern of South Carolina is being pursued by Federal cavalry.

Gen. Johnston requested permission to go to Canada, but was refused.

Admiral Somers, Capt. Darington, and other rebels are said to be en route for Lone Island in the Pacific.

HEAVY DEFLATION IN PHILADELPHIA.
The officers of the Commercial Bank of this city yesterday detected a deficit in the account of Charles E. Clark, the paying teller of that institution, to the amount, so far as could be ascertained by actual count, of about \$150,000. The existence of this deficit, of perhaps \$150,000 more, which there is reason to apprehend will come to light through this morning's exchange by the banks. The first intimation that the cashier had that anything was irregular was the discovery of due bills issued by the teller as for the bank, and realized on at some of the brokers' offices on Third street. He was then desired to make up his account in money and hand it to the bank committee for counting.

To obey this order, and raise the required amount of currency, he made liberal use of due bills, and at two o'clock, the task completed, he left his desk in charge of his assistant, and has not been seen since, though diligently searched for. The bank it is feared will lose largely, but not to an extent that is at all likely to affect its solvency. It was never in a more prosperous condition than now and it had already been determined on after adding \$100,000 to its contingent fund, to make to day its usual semi-annual dividend of five per cent, and an extra dividend. The probability is in face of this disaster, that the proposed dividends will be passed. The defaulting clerk has been in the bank some fifteen years, and was supposed worthy of all confidence, though some of his outside transactions recently were hardly consistent with his salary as a bank clerk.—[Philad. Ledger.]

STABBING AFFRAY.—A sailor, named Wm. Cummings was severely stabbed in a drunken brawl on Brittain street, between 1 and 2 o'clock on Sunday morning. David Morris, John Parker, Frank Miner, and Peter Curran, parties implicated in the affair, were arrested by the Police and lodged in Goal to await examination before the Police Magistrate.—[News.]

Admiral Robert Fitzroy, who cut his throat on 30th ult., was three years Governor of New Zealand. He was a distinguished scientific man. His researches in meteorology have specially won him reputation. His friends think severe study caused sudden temporary derangement.—[News.]

THE LEGISLATURE.

FREDERICTON, May 19.
Motion to go into further consideration of Mr. Giffert's bill to simplify the practice of law, was rejected, and measure referred to special committee.

Long discussion, occupying House in committee the whole forenoon on Mr. Hill's bill to amend the act to incorporate the St. Stephen Branch Railroad Company. The object is to authorize the people of St. Stephen to endorse the bonds of the Company to the extent of \$20,000. Mr. Hill presented a petition representing a large proportion of the property holders as being in favor of it; and Mr. Boyd presented a petition and spoke against the bill.

Majority of the House appear to favor the bill, and it cannot become law unless a vote of the inhabitants, representing two thirds of the property agree to its provisions.

Mr. Hill declared that the petition in its favor, represented four fifths. Still before the House.

Bill of order discussion at dinner recess adopted with amendment that Railway Company expend \$50,000 before debentures be issued by St. Stephen.

Attorney General introduced Bill to amend practice of Law in Supreme Court. Referred to committee.

Kerr brought in a bill to amend Chatham Police Act.

Bill to amend law of jurisdiction of Magistrates in civil suits agreed to.

Also bill relating to debt and property of St. John.

Bill compelling causes in civil suits to be tried before a Magistrate residing in same Parish as either plaintiff or defendant adopted.

Progress made in Bill to authorize Municipality of Charlottetown to issue debentures for Railway purposes.

Smith introduced a Bill in addition to Railway facility act.

May 22.
A bill enabling the President and Directors of the Charlotte County Bank to wind up its affairs; a bill in addition to the St. Stephen Branch Railroad Company's Act of Incorporation; a bill to authorize the Municipality of Charlottetown to issue debentures—the latter with amendments—were agreed to.

The discussion on the 24th section of the Militia bill still continues—point of dispute being the amendment of Mr. Connell, that the Commander-in-Chief should consult the Executive before ordering a draft for instruction—opposition contending that the Executive must be responsible for the Governor's acts, while the supporters of the measure argue that the Executive cannot interfere with him as Commander-in-Chief.

The Standard.
ST. ANDREWS, MAY 24, 1865.

It does not appear from some of the leading provincial journals that they view favorably the leading features of Mr. Wilmo's "Treasury note" bill. It looks much like an experiment copied from the United States Greenback operation which has worked well to many and ruined many others. But it should be borne in mind, that the United States is a large country with vast resources, and for several years past enjoyed unexampled prosperity, with a large annual increase of population, in addition to having a national credit and status, which a small Province such as ours, cannot now hope to attain, having rejected the only measure which would have accomplished so desirable a consummation. It is also asserted that there is no provision for redeeming these notes with gold, and that the Banks will not receive them.—On the other hand it is urged that the Government cannot obtain money to carry on Railways and other public works, and that the Treasury notes will answer the purpose. At least as before stated, it is an experiment, the success of which remains to be proved.

The first and St. Stephen Branch Railway was turned on Thursday last. We congratulate our industrious and enterprising friends in that locality, upon that, to them, auspicious event; feeling assured that they should have been now enjoying the benefits which will result from their connection with the main line. "No bent up Uices" contracts their powers, they put their hand to the plow, and having weighed the cost push onward to success. While the road is making, it will afford employment to the surplus population—give a ready market to the farmers for their produce; and when finished and in running order, will undoubtedly give an impetus to the trade of the rising port of St. Stephen. We believe also that it will be a direct benefit to St. Andrews for at least five months of the year, during the winter. As we before mentioned Mr. Smart the contractor, will drive on the works, and the Engineer, Mr. Buck, will look well to the interests of the Company, and take care that the construction will be substantial.

We learn that nine miles have been let to sub-contractors, who at once commenced building shanties along the line for the navvies.—The Government have granted the subsidy to the Company, which if even paid in Mr. Wilmo's "Treasury notes"—will answer all purposes, as the notes will pay Government debts. A bill has also been passed to authorize the people of St. Stephen to endorse the bonds of the Company to the extent of \$20,000, in accordance with a petition from a large majority of the inhabitants of that section of the County. The fact is, the people are fully alive to the benefits which the Branch Railway will confer upon them and their locality, in the increased value of their property, and the extension of their trade.—With such men as the Todd's, Chipman's, Watson's, McAdams's, Hill's and other enterprising persons, the work will not flag for want of means. An undertaking which will benefit any portion of the County, will always have our support, even should its advocates, as in the present instance, not be our patrons, with the exception of one.

The frequent heavy rains which have fallen during this month prevented the farmers from ploughing their lands, and agricultural operations are consequently retarded. The low lands on some farms are so thoroughly saturated that the ground will be unfit for crop for some time.

We are gratified to learn that the gentlemen from St. Stephen, composing the Railway delegation to Fredericton, have returned; and that they have been entirely successful. The construction of the Branch Railway from St. Stephen to a point near Lawrence's, about 40 miles distant from St. Andrews, where it will join the New Brunswick and Canada Railway may now be considered as certain. There were some short time since some disturbing causes, which occasionally alarm but they are now happily removed. The work has now actually commenced, our enterprising friend, Nathan Smart, Esquire, is the principal contractor, and under his management we have no doubt the work will be pushed rapidly forward. Mr. Smart has considerable experience in Railway construction, he is a person of property and standing, and we think that the contract could not have fallen into hands more competent to carry it out.

The following article which is copied from the St. John "Courier" presents a sad picture, but nevertheless faithfully drawn. The prospect is dreary, yet it is not too highly coloured, and the tone although harsh, is true; in a word there is much force in the concluding interrogatory.—"What is in store for New Brunswick?"

This Province is now in much the same deplorable predicament as the old hen who hatched a brood of goslings. The younglings were well content to stay at home as they were fedged they immediately took to the water, and to Biddy's great wonder seemed to succeed far better in their new element than in the old. Every day we hear of our most energetic and enterprising young men emigrating to the States. Ship-builders, millers, mechanics, tradesmen and farmers, the bone and sinew of the land, are leaving us in scores, and the same is true of the population of all the Provinces. The number from Canada is said to be much larger this spring than ever before. That their choice is made with judgement is shown by the fact that few ever return to us; but we hear of many in after years, who have become prosperous and whose names are prominent in the leading enterprises and speculation of the day. On both land and sea the names of Nova Scotians and New Brunswickers are among the foremost. Like the goslings they succeeded better in their new element than in their native land, and the reason is simply, that they find more scope for their toil. They accumulate in a few years a competency equal to that for which their fathers grubbed for a lifetime, and reach stations in life which they could never at attain here.

Now, as advantageous as emigration is to them individually, it is proportionally ruinous to the Province. Letting our young men go, is like grinding our seed-corn.—If we would preserve ourselves, we must speedily find some remedy. We must present such inducements as will cause our people to remain at home. And what shall these be? We have an unfavorable climate, but the earth nevertheless brings forth abundantly. We must stimulate agriculture by making it remunerative; we must supply the farmer with a market and the means of taking his produce there. We have mineral wealth in abundance—what should induce our miners to emigrate? If we will only supply the means of developing this mineral wealth, and of carrying the ore to a market, we shall afford our miners employment here and be able to pay them fair prices for their labor. Why should our ship-builders leave a country where facilities and materials are abundant, for a country that has to purchase its materials here? Why should our vessels be repaired in foreign dry docks when our great tides afford us the best and almost the only natural advantages for the construction of such docks here? Why, in a word, do we starve when plenty is around us? why do our resources lie undeveloped, except when an occasional Yankee steps in and skims the cream from our milk? We complain that

New Brunswick is lethargic and "slow," and yet make no effort to arouse her. Some few enterprising men suggest internal reforms and improvements, but the people do not act. We talk thirty years of the necessity of railroad communication with our neighbors, but we build no railroads. Remote parts of our Province have no access to each other. Labor finds no employment anywhere because its profits would be lost. Emigrants from Europe want more than bread and potatoes, but they can get no more in the wilds of New Brunswick. If our own people do not stay in their own country, how can we expect strangers to settle among us? Such doings as our present Legislators, are a cons and drag upon the energy and the spirits of the people. Those old fogies who are satisfied with "things as they are," are an incubus that paralyzes everything. We have what is called a Legislature and a Government at Fredericton; now is the time for them to act, but they merely stroke their beards and look wise.—We ask for Western Extension, and they tell us to wait another year. One progressive member asks for facilities and land grants to induce immigration, but his motion is shelved. We seek for the means of accumulating and employing capital, and the Fredericton Ovis give us a batch of irredeemable Treasury Notes. We are promised everything and get nothing.—What is in store for New Brunswick?

Orders of Sessions.
—Ordered—That Eber S. Polley be paid the sum of \$3 from the Town funds of St. Andrews, for his services in keeping the accounts of the Market Wharf, while repairing the same.

—Ordered—That the Commissioners of the Alms House pay Justice Smith's account the Parish for \$2 40 passed the present Session.

—Ordered—That the St. Andrews Dog tax be paid to the Town funds of St. Andrews, instead of the Parish fund as heretofore.

—Ordered—That the Committee appointed to report upon the rights of Justice B. J. on the North-west line of his leasehold premises at the Market Wharf be continued, with leave to report at September next, and have power in the meantime to cause a survey to be made of the public Landing and premises leased by the County from the Madras Board; and that Justice Smith be substituted for Justice Fitzgerald as said Committee.

—Ordered—That the rent of the 25 acres of lands held by the widow of the late G. G. McKelvey be reduced from three to two shillings per acre.

—Ordered—That a new lease be given to Richard McKetton of 50 acres of the School land now held by him, and that the rent be reduced from 2s. to 1s. per acre.

—Ordered—That James Hartor's rent be reduced from 2s. 4d. to 2s. per lot No. 25, and that the 25 acre lot No. 2 held by him be reduced from 2s. to 1s. 6d., and that he have a new lease.

—Ordered—That \$60 per annum be paid for ringing the Bell in St. Andrews, instead of \$80 as heretofore.

—Ordered—That all Parish lists not passed be now confirmed.

—Ordered—That the Clerk of the Peace take proceedings under the lease of the late Henry Smith, a tenant upon Commons land, to regain possession of the premises leased to him, for non-payment of rent, and that the said premises be disposed of after possession obtained, in satisfaction of said balance of rent, and a new lease given to the purchaser at the same rent for 21 years.

—Ordered—That the Parish of West Isles be assessed in the sum of \$1340, to be paid to the Commissioners of highways for that Parish, to be applied in satisfaction of damages and costs of road laid out through Smith Stewart's farm.

—Ordered—That the application of Thomas Armstrong for the balance of bounty to late James Carmichael be recommended by the Court, to the favorable consideration of the Government.

—Ordered—That \$200 be assessed in the town of St. Andrews for the use of the Fire department.

—Ordered—That Justices Russell and Stevenson be a Committee to ascertain the lines of Mr. Alexander's land, with power to have the same surveyed, and report to the next Sessions.

—The Bangor people are agitating the building of the Atroostock Railroad. They are fast getting their eyes open to the "situation." A communication in the Whig says:

Bangor cannot afford to loose the trade which is gone or fast disappearing unless our people awake to its importance. Already the upper portion of our Penobscot, with all of the Atroostock County, is sweeping down St. Andrews Head, or down the St. John river, carrying with its gulf the trade produce and manufactures of the Northern portion of our State, and their returns, go and come by the same unnatural highway.

We were never before aware that a river was an "unnatural" highway.

Many officers of volunteer U. S. regiments are entering the regular army as privates.

—Lieut. Gov. John Neptune, of the Penobscot tribe of Indians, died at Indian Oldtown, 8th inst., aged over 100 years.

—Dr. Decussine, of Antwerp, announces that the itch may be cured instantaneously by simply applying (without rubbing) petroleum to the parts affected. Will it cure the itch for speculation?

—They had a fall of snow in Vermont on Friday last. The ground was covered for some time.

—The released Union prisoners from Andersonville, Georgia, state that in and around the infamous rebel prison pen at that place, there are graves of over nineteen thousand national soldiers.

—A German in Dubuque, Iowa, went to the war thirty months ago, leaving behind a good looking wife. At Vick-burg he was shot and supposed killed, and his wife married a Dubuque miller a few months after. Last Saturday morning the supposed dead man came home again, told his story, and after a long discussion got his wife back by paying twenty five dollars to the second husband.

The Steamer Montreal ran on shore in the fog on her last trip from Boston, and was obliged to throw overboard some flour, &c., to lighten her, no damage to the vessel.

Married.
On the 20th inst. by the Rev. W. G. Ketchum, Mr. Charles E. Benson, of Grand Manan, to Sarah, second daughter of Mr. Warren Wooster, of the same place.

On the 11th inst., at St. Ann's Church, Westport, Sackville, by the Rev. G. G. Roberts, J. Henry Frink, Esq., of St. Stephen, N. B., to Miss Clara, eldest daughter of G. G. Estabrooke, Esq.

Died.
Of consumption, at the residence of Mr. Walter Gilley, Oak Bay, Miss Hannah A. Rogers, in the thirtieth year of her age.

By her constant and exemplary life she adorned her christian profession, and her many virtues, and obliging disposition endeared her to the hearts of all who knew her. She has left a large circle of relatives and friends to mourn their loss.

CHARLOTTETOWN GENERAL SESSIONS,
April, 1865.

Upon motion of Justice Th. Mason seconded by Justice Bradley.

Whereas it hath pleased Divine Providence to remove by death Thomas Jones, Esquire, late High Sheriff of this County.

Therefore Resolved—That this Court desire to express their sorrow at the intelligence of that distressing occurrence, and their heartfelt sense of the loss sustained by the County, in the removal from his sphere of usefulness of one, who as a man, a citizen, and a friend, won the confidence and esteem of all classes of the community, and also for a quarter of a century, as the first executive officer of the County, conducted its affairs, with singular honor to himself and benefit to all.

And further Resolved—That the foregoing Resolutions be published in the "Standard," and a copy thereof under the seal of the Court, be transmitted to the family of the deceased, and to express to them the Justice's sympathy with them in their sorrow; also resolved that the foregoing resolutions be entered on the minutes of the Court.

A true Copy from the Records.
GEORGE S. GRIMMER,
Clerk of the Peace

40 Halfdoz Fine Congo Tea.
November, 1864. J. W. STREET & SON.

SHERIFF'S SALES

Sheriff's Sales to take place at the
Court House, St. Andrews.
N. B. & C. Railway do June 8.

To be sold at Public Auction at the Court
House, in St. Andrews, in the County of
Charlotte, at 12 o'clock, noon, on WEDNES-
DAY, the eighth day of June, 1865:—

ALL the right, title, interest, claims and de-
mand, whatsoever, of the NEW BRUNSWICK
AND CANADA RAILWAY AND
LAND COMPANY, LIMITED, of, and to all the
following lands, described as follows:—

First, all that certain tract of land, (excepting
so much of the same, as lies and is situated in the
County of York)

Beginning at a birch tree standing on the west-
erly side of the railway and in the northerly
angle of block number six, granted to the Saint
Andrews and Quebec Railroad Company, in the
parish of Saint James, thence running by the
magnet of the year 1868 south seventy-three de-
grees west, three hundred and fifty-six chains
along the northerly line of said grant, (crossing
the road from Oak Point Bay to Woodstock, and
the south branch of Canoe river), or to the north-
erly line of lot number four, surveyed for Hugh
Pinkerton; thence along the same, north eighty
degrees west, seven chains, or to the southeasterly
line of a lot of land surveyed for John Reid;
thence along the easterly line thereof, north two
degrees east, fifty chains to the northerly angle
of the same; thence along the northerly line
thereof, and the northerly line of another lot sur-
veyed for John Reid and the northerly line of a
lot surveyed for Wm Johnston, north eighty-eight
degrees west, fifty chains to a spruce tree standing
in the northerly angle of the last mentioned
surveyed lot; thence along the northerly line
of said survey, north thirty-one degrees, or to a
cedar tree; thence north seventeen degrees
west, forty-two chains or to a hemlock tree stand-
ing on the easterly line of a grant to the Trustees
of Greenock Church, in the parish of Saint An-
drews, in connection with the Established Church
of Scotland; thence along the same, north three
degrees and thirty minutes east, eleven chains and
fifty links (crossing Canoe River) to a stake
standing in the northerly angle thereof; thence
along the northerly line of said grant, north
thirty-one degrees and thirty minutes west, three
chains and fifty-seven links, to a hemlock tree;
thence, north seventeen degrees west, two hun-
dred and thirteen chains, or to a cedar tree; thence
south seventy-three degrees west, three chains and
fifty links to a spruce tree standing on the
easterly line of a grant to Freeman H. Todd;
thence along the same, north seventeen degrees
west, one hundred and forty-four chains and fifty
links, (crossing Mud Lake road and the line di-
viding the Counties of York and Charlotte) to a
hemlock tree standing on the northerly angle thereof;
thence north two degrees east, one hundred and
thirty-seven chains, (crossing Trout Brook) or to
a cedar tree; thence north seventeen degrees
west one hundred and twenty-six chains and fifty
links, (crossing Glen Campbell road, Ed Wood
Brook) or to a dry birch tree; thence north seven
degrees east forty chains, or to a post standing on
the southerly bank or shore of the Chipmunk
creek Outlet; thence north seventy-three degrees
east one hundred and twenty-eight chains, (cross-
ing a brook running into said outlet, and recross-
ing the road from Oak Point Bay to Woodstock)
or to a post standing on the southerly line of lot
number two, granted to John McAllister; thence
along the same, south 88 degrees east, twenty-
eight chains and fifty links, or to a hemlock tree
standing in the southeasterly angle thereof; thence
along the easterly line of the same, norths
two degrees east, nine chains and twenty-five links
to a hemlock tree; thence north seventy-three de-
grees east, one hundred and twenty-four chains,
(crossing a brook and the second Digdigwash
Lake) or to a maple tree standing on the westerly
line of lot A, granted to John Porter; thence
along the same, south two degrees west, six
chains and seventy-four links to an ash tree stand-
ing on the northerly bank or shore of the second
Digdigwash Lake above mentioned; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
easterly direction (crossing a brook at its mouth)
to a cedar tree standing at a point where the
southerly line of said last mentioned grant, (cross-
ing a brook running into the second Digdigwash
Lake) above mentioned, meets the southerly line
of lot A, granted to John Porter; thence follow-
ing the various courses of the same in a south-
