The car was designed to be an efficient, economical, easy running and easy riding automobile for the man who does not care to invest in a six-cylinder model and it fulfils all these functions admirably

The specifications alone are sufficient evidence to the man who knows motor car values. Read them and compare them point by point with other makes of cars selling under \$1000.00.

We already have many orders for this model and our output for 1917 is fixed. The demand will doubtless be greater than the supply, but orders will be filled in rotation.

The face which is admired for its John E. Brayler, Montreal; 171604 John Mawer, 8 Lynn street, Boston, The face which is admired for its beauty must have a satin-smooth skin, pink and white and youthful looking. The only thing known that can make such a complexion out of an aged, faded, or discolored one—that is, a natural, not a painted, complexion—is ordinary mercolized wax. This remarkable substance literally absorbs the unsightly cuticle, a little each day, the clear, healthy, girlish skin beneath gradually peeping out until within a week or so it is wholly in evidence. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nebody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one it through your hair, taking one strand at a time. By morning the grey hair disappears; after another applications or two it is restand at a time. Do You Possess an Assured Income Or Fortune?

When a young man takes a Life Insurance Policy it is often his first step on the road to a successful career. He is impressed with the fact that he should economize and save part of his earnings to secure his future welfare. These impressions help the young man to moid a better character. He is more attentive and energetic in his work that his earnings may be greater. He discards excessive and expensive habits earnings may save. When a young man takes this turn he is more valuable to his home, to his employer, and to the community, and it is usually safe to predict for him a successful future.
