VOL. X.

CHATHAM, ONT., TUESDAY, SEPTEMBER 10, 1901

NO. 243

THE BEST IS NONE TO GOOD FOR YOU

Then why not have the best? The finest goods manufactured are here at just ordinary prices. For forty-nine years this store has been noted for reliability, nothing but dependable up-to-date merchandise finds shelf room, and if you will compare prices you will find them just as low as any place in the Dominion of Canada.

Hose for the Little Folks

By giving a special order to one of the largest hosiery mills in Canada, we have secured a line of stockings that comes up to our idea, they're made of a hard twisted yarn, with six ply knees, spliced heels and soles, and will stand the hardest wear, the prices are 20c, 25c, 30c, 35c and 40c, according to size.

Scotch Flannels and Wrapperettes

You never saw more handsome patterns than these and they are fast colors, nothing like them elsewhere in the city, at 10c and 12 1-2c

Attractive Umbrellas

You may well feel proud to own one of these umbrellas, they have strong storm resisting frames and serviceable fast color covers, in addition their attractive handles—the handles give them individuality, the cover and frame give them durability, the prices are \$1.00, \$1.25 and \$1.50

A Fall Outfit

Here are some Tailor-made Suits, all ready-to-wear, they're made in the very latest style, by the best men tailors, and economical in cost.

A swell Frieze Suit, in exford, navy and black, trimmed with satin, perfect fitting, at \$10.00

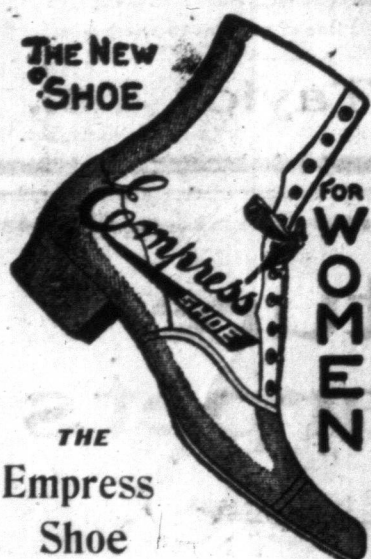

Others at \$15.00, \$17.50 and \$20.00

Gives Tone to the Home

A pair of pretty curtains will filter the light that brightens your home. We have exactly the kind you want, special at

\$1.00, \$1.50 and \$4.00

THOMAS STONE & SON

The Empress Shoe

FOR WOMEN

We have just received a large shipment of the

CELEBRATED EMPRESS SHOE

manufactured by The Walker Parker Co., Limited, Toronto.

The Empress Shoe cannot be excelled for Style, Durability and Comfort

And retails at popular prices

\$3.00, \$3.50 and \$4.00

Merchant Tailor and Direct Importer

FINE TRIP

N. H. Stevens Describes the Views on a Trip to Halifax.

N. H. Stevens returned last week from Halifax, where he has been attending the annual meeting of the Canada Flour Mills Company. The company in Halifax have been trying to secure legislation to have a branch mill erected in that place. They, however have failed to do this and at the annual meeting Mr. Stevens bought out the entire stock in the Canada Flour Mills Company from the Halifax capitalists, and in future the headquarters of this company will be in Chatham. A new Board of Directors has been appointed from Glenora and Chatham, and the by-laws have been changed removing the head office to Chatham. The mill in Halifax will not be built and the business here will be permanent.

"There is a great demand all over the country for our goods," said Mr. Stevens to The Planet this morning, "and while away I booked more orders than we will be able to fill for a month or six weeks."

"At present the Lower Provinces are doing well, everybody is busy, all of their factories and mills are crowded and the farming country looks well. I saw several fields of corn in New Brunswick which looked nicely as well as ours up here. The pasture also is good."

"Some of the farmers are just commencing to cut their early oats. The potato crop in Nova Scotia is reported small, but the Halifax markets have an abundance of potatoes of good size and quality. Cabbages and cauliflowers are better than any I have seen in this country for years."

"There is a good showing of plums and pears, as well as the usual display of blackberries, blueberries, and two or three other varieties which are not grown here at all."

There is a report of a good catch of fish this year, especially of herring. There was a fair catch of herring and carp.

The number of pleasure seekers of Boston, New York and other parts is far larger in St. John and Halifax than usual. All of the hotels are filled to their utmost capacity.

CZOLGOSZ CONFESSES CONSPIRACY TO ASSASSINATE MCKINLEY

Plan was Carefully Hatched and Executed With Fiendish Ingenuity—Emma Goldman may Soon be in the Toils.

New York, Sept. 9.—A special from Buffalo to-night says: Czolgosz has confessed to the superintendent of police that a week before the shooting of President McKinley he attended a meeting of anarchists, where the proposed assassination of McKinley was discussed.

"I agreed to do it," said he, "and an accomplice came to Buffalo about a week ago, and here met a woman believed to be Emma Goldman."

Czolgosz, who has so far refused to reveal the identity of his accomplices, says this woman and a man went to Niagara Falls, but a good opportunity to kill the President did not present itself. They followed the presidential party to Buffalo. They walked ahead of Czolgosz in the line that greeted the President in the Temple of Music.

His male accomplice was sixth or seventh ahead of Czolgosz, and had a white handkerchief tied about his right hand, the same as the assassin. "We figured," said Czolgosz, "that if he could pass safely by the guards with this handkerchief tied about his hand, I could. The President's guard allowed him to proceed, and paid no attention to me when I approached McKinley; then I shot him twice."

EMMA GOLDMAN LOCATED. Chicago, Sept. 9.—Chief O'Neill late to-day announced that Emma Goldman is under surveillance not far from Chicago, although not in this city. He insisted that she had been located and intimated that she will be arrested soon.

The following description of Miss Goldman was furnished by the chief: Between 30 and 35 years old; about 5 feet 2 or 3 inches high; pale complexion; thin features and weight about 140. She has a heavy head of hair, slightly Roman nose, Jewish cast of countenance and rather full lips. She is dressy and stylish in appearance and wears spectacles.

Nine alleged anarchists under arrest here were brought before Magistrate Prindiville to-day. The hearing was postponed until Sept. 19. The six male prisoners were held without bail, pending the hearing.

"MCKINLEY WILL LIVE," THE VERDICT OF PHYSICIANS

Debating on the Length of Time it will Require for U. S. President to be Fully Restored to Health Again.

Milburn House, Buffalo, Sept. 9.—Dr. P. M. Rixey, one of the President's attendant physicians, and also private physician of the President and Mrs. McKinley, said to-night regarding the distinguished patient: "I am not a specialist in abdominal surgery, but from a general knowledge of gunshot wounds I can say that the only possibility of complication was by blood poisoning or peritonitis, and that I consider both now a very remote probability. Peritonitis might set in as a result of the two apertures in the stomach, but up to this time, a time beyond the usual standard record, not the slightest symptom. There is not the slightest evidence of blood poisoning."

"As to the bullet not yet extracted I do not believe we need worry about that. The presumption is that it is lodged somewhere in the muscles of the back. Pursuing natural courses it would now be encrusted and cut off from possible harm. There will be no attempt to extract the bullet at present. Neither will there be any operation for its removal at present. I see no reason why the President will not recover rapidly."

Dr. McBurney says that all the indications continue favorable. "No bad symptoms have appeared," said he. "No one can say now that the President is out of danger, and for a week still the possibility of complications may exist. At the end of that time, if all goes well, we may be able to say that he is convalescent."

"But I like known cases," put in Dr. Mann, who was with the noted surgeon, "to go well for ten days and then change for the worse."

MAY BE REMOVED IN THREE WEEKS.

"That is true, perhaps," said Dr. McBurney, somewhat deprecatingly, "but it is entirely unusual. If the President continues to improve for a week," he continued, "we may safely say that he is a convalescent. It will probably be three weeks before it will be safe to move him. We must wait until the outer wound is healed and strong. The inner wounds through the stomach proper will be strong before the exterior wound is healed. How long it will be before he will be able to sit up will depend on the rapidity of his improvement, and I may say further that his improvement, if it continues, promises to be rapid."

Dr. McBurney was asked to compare the Garfield case and its treatment with that of President McKinley. He smiled as he replied that to do so would be to give the whole history of the progress of surgery during the last 20 years. "Besides,"

said he, "the cases are utterly different. Garfield's wound was an extremely unfortunate one in every way. It was difficult to handle; it was impossible to get at the bullet, while the wound of President McKinley is in many respects lucky one. No comparison is possible."

Turning to the Associated Press correspondent, Dr. McBurney said: "You can assure your clientele that all goes well. The President's condition could hardly be more satisfactory. Furthermore you can impress and emphasize the fact that the bulletins issued state the truth."

ALL ARE OPTIMISTIC.

Milburn House, Buffalo, N. Y., Sept. 9.—"God's contribution to the American people will be the sparing of the President's life."

As the evening shadows were falling to-night John G. Milburn, president of the Pan-American exposition, reverently uttered these words as he stood before the house in which the nation's patient was fighting so bravely with death. All who have been at the Milburn residence to-day reflect the view that the battle will be won and the prayers of the world will be answered.

Since last night not an unfavorable symptom has appeared. Every hour has been a victory. Faith grows stronger and stronger and hope mounts higher and higher until in the minds of some the danger of all future complications is brushed aside and hope has become conviction. Indeed, many of the President's friends seemed possessed with a sort of superstitious confidence in the President's recovery which nothing but an absolute change for the worse can shake.

And the basis for the confidence that is expressed is solid. There has been nothing but improvement, gradual and slow, but steady improvement. Every bulletin, every private and public word of the physicians in attendance breathes encouragement. The reports that they exist from a scientific standpoint, unimpaired by sentiment. Still, that the President is by no means out of danger is the verdict of each of them. Not one of them will risk his professional reputation with a statement that the President will live. All they will say is that with every hour the danger of complications from peritonitis or blood poisoning decreases. The fear of peritonitis, it can be said, positively has well-nigh disappeared. With the expiration of the 72-hour period at 4 o'clock this afternoon danger from that source has almost gone.

PRESIDENT WAS CHEERFUL.

The President himself has been cheerful all day and has expressed confidence in his recovery. To-day he asked for a morning paper, but this, of course, had to be denied him. It is with some difficulty that he can be

A Pair of Shoes

—FOR—

A Pair of Dollars

Our two dollar Shoes for ladies and men are certainly great value. They're made of the best Dongola Kid and Box Calf that it is possible to put into a \$2.00 Shoe. Solid leather inner and outer soles, and not only solid leather, but the best of hard wearing sole stock.

They have a certain flexibility about them too that make them extra easy on feet. At the price they are very easy on the pocket.

Peace's

restrained from talking, and Col. Myron T. Herrick, of Cleveland, is quoted as authority for the statement that he has spoken at intervals of several things he proposes to do in the future.

HIS WISH

Talmage Delights 10,000 Applauding Churchmen with an Irrational Exclamation.

New York, Sept. 9.—In the course of his sermon in Ocean Grove, N. J., yesterday, Dr. T. DeWitt Talmage, of Washington, said:

"I wish that policeman in Buffalo, who seized the pistol of the scoundrel who shot our adored President, had taken the butt of the weapon and dashed the man's brains out on the spot."

Ten thousand people in the auditorium applauded the sentiment.

STRIKE STILL ON

Latest Efforts to Settle it Result in Failure.

Pittsburg, Sept. 9.—The last effort to settle the strike has failed. The general executive board of the Amalgamated Association adjourned without date this evening and without either accepting any of the peace propositions which have come indirectly from the United States Steel Corporation or without making any counter propositions, according to the official statement. The semi-official report is that the proposition secured for the Amalgamated Association through the intervention of the representatives of the National Civic Federation was unsatisfactory, and that the entire matter of arranging for a settlement was left with President T. J. Shaffer. The board, in its session of three days, has been clamoring for a settlement, but satisfactory terms and means were not at hand, and the sessions resolved themselves into an informal discussion of the situation. At the close of the meeting of the national executive board this evening, President Shaffer declared that he had no statement to make, but subsequently said: "The board has adjourned, and the out-of-town members will probably leave for their homes to-night. No peace proposition has been received and none made."

"We were very much pleased with the design you sent. It was beautiful and appropriate." The Victoria Ave. Greenhouse receive such words of commendation every day. Telephone No. 181.

"The Planet"

gives an advertiser the kind of satisfaction he wants, at a price he is satisfied to pay. It is the real reason—The secret others are seeking to solve—That The Planet is ever winning increased patronage and approval.

TUESDAY, SEPT. 10.

THE GRANARY OF THE EMPIRE.

The announcement that the wheat product of the Northwest this year will run over fifty million bushels lends additional interest to a recent military debate before the United States Institute in England, comments the Ottawa Citizen. The statement was made there that a combination of Russia and the United States against Great Britain would starve the latter into submission by cutting off the bulk of the wheat supply. It was stated that "of our total imports of wheat, or 22,500,000 quarters, 14,500,000 came from America, 5,000,000 from Russia, and Romania and 3,000,000 from the British Empire. So we are completely dependent on Russia and the United States for our food."

Lieut.-General Lord William Seymour, recently commanding at Halifax, suggested that of the 160,000,000 bushels of wheat now imported from the United States and Russia, Canada could supply a large proportion in case of war if the line of communication was kept open, but Lieut. Bellairs, R. N., doubted the ability of Canada to prevent the line of railway to the seaboard being interrupted.

Last year Canada exported wheat and flour equal to 30,000,000 bushels. This year the Northwest crop is 23,000,000 bushels greater than any previous year and tops the fifty million mark. In 1900 Ontario produced over 30,000,000 bushels of spring and fall wheat. In 1891 the total production in Canada was given as something over 42,000,000 bushels, so that the country is making great strides towards taking its place as the chief granary of the empire. This year the amount available for export on the basis of home consumption last year should be at least 45,000,000 bushels.

CONTROL OF TRUSTS.

The impression which prevails widely on this continent that trusts are a distinctive American creation and comparatively little known in the Old World, is shown by the Industrial Commission of the United States, which issued its report a few days ago, so lack foundation in fact. On the contrary, the report states, industrial corporations have been gathering strength everywhere throughout Europe for several years past, and in Germany and Austria their power is probably as great as in the United States. Nor is their development in these States attributed by the Commission to the influence of the protective tariff in facilitating combinations by removing the fear of foreign competition and promoting them by guaranteeing the members high prices on their domestic sales. The Commission is of the opinion, on the contrary, that it rather has a tendency to minimize the influence of the tariff and even the tendency of combinations to increase their prices. The essential difference between European and American trusts is that complete publicity in all their opera-

tions is required from the former by the law. For this reason the Commission concludes that there is relatively little objection to European combinations, and in some countries the people believe that they are needed to meet modern industrial conditions. They insist, however, that they shall be carefully supervised by the Government, and, if necessary, controlled. Probably the most objectionable of the American trusts are the railway combinations, and of these there are hope in Europe, in consequence of the abolition of railway discrimination. Again, the publicity exacted in the organization of corporations in Europe prevents the evils which arise from the watering of stocks, and has the effect of keeping prices steady and reasonable, and wages steady and just. For these reasons, European combinations have never excited the hostility which the American trusts have roused. There is in fact no antagonism to them, and so long as they are under the present control, they are believed to be to the advantage of industry.

This continent, with all its self-confidence, has plainly something to learn from the Old World. We talk of the political tyranny under which the Europeans groan, but such investigations as that of the Industrial Commission make it clear that they, at least, permit no industrial tyranny, and so far as the great mass of the people are concerned, industrial tyranny is infinitely the more oppressive of the two. In the United States the trusts, unfortunately, have too strong a hold on the governing bodies to give promise of success to any attempt to subject them to the regulations which are applied to them in Europe. The present prospect is that the battle between them and labor will be fought out, not in the legislatures, but in the workshops, and that the field will be widely strewn with the wreckage of American industry before they are brought under public control. We Canadians, however, should profit by the European example and be warned by that of the United States. It is not too late for us to make regulations which will reduce such corporations to their proper place, but if we want to avert the unhappy labor laws, like that which is in progress across the border at the present time, we must take the control of corporations under our most vital public question and convince the parties that the only road to efficiency through acquiescence in the popular will on this question.

WANTED—A GERM THAT WILL PROVE FATAL TO MOSQUITOES.

If anyone knows of a nice, fatal disease for mosquitoes, but which will prove quite harmless to human beings, he will confer a lasting favor upon mankind by making it known. The disease must be a contagious one—to mosquitoes only—and it must not be too quick to kill. Something lingering will be preferable, so mosquito invalids will have plenty of time and opportunity to get among their kind and spread the good work of mortality.

Dr. R. N. Connolly, the bacteriologist of the Newark Board of Health, is on a still hunt for a disease germ which will send mosquitoes to an early grave and be as harmless to human beings as, say, housemaid's knee or writer's cramp. Having once discovered such disease germs, it is the intention of Dr. Connolly to propagate them and encourage them by every means in his power, and then turn them loose on the Jersey mosquito in hordes. He thinks in this way the mosquitoes may be killed off in short order and at far less expense than is required for the kerosene oil treatment.

The principle is not original with Dr. Connolly, but the application to mosquitoes is original with him, and subscriptions for his monument will be in order later on. In Africa, where the locusts devoured all the green things of earth, the pests were decimated by means of a disease communicated to them from a few locusts which were infected by laboratory cultures. A sort of bubonic plague was turned loose among the locust tribes and they perished in large numbers.

The same means were employed not many years ago in getting rid of millions of rabbits in Australia. Dis-

A KIDNEY SPECIALIST

South American Kidney Cure is compounded to cure Kidney diseases, and nothing else—it relieves in six hours.

South American Kidney Cure touches the weak spot firmly, but gently; gives the best results in the shortest time; cleanses the kidneys in return cleans and purify the blood, for which blood becomes impure only by passing through weak and ailing kidneys. Let us live up to the light of the 20th century. Employ the means, and enjoy robust and vigorous health. Sold by J. W. McLaren, Chatham.

cases rabbits were set free to live among their fellows and in a short time the effect was very evident in the decrease of the rabbits.

The Newark bacteriologist is making microscopical studies of mosquito invalids and has great hopes he will succeed in finding the germs for which he is searching. If he does, he will welcome them with open arms and start a mosquito infirmity with no isolated wards. But, if in the meantime you should happen to meet such a germ, will you kindly communicate at once with Dr. Connolly? He will know what to do with the dear little stranger.

And like all who preceded him, Jake Gaudaur appears to have rowed one race too many.

Thorough loyalty may have inspired the selection of Columbia to defend the America cup, but it seems to be against the Constitution.

It is not likely Sir Wilfrid will write another open letter to R. L. Richardson. Up to the present Sir Wilfrid has just written one too many.

Anyone who has listened to that stirring little Englishman, Joe Gibson, of Ingersoll, will appreciate the truth of the cable statement that he handed out some sound British sentiment to the pro-Boers in the Ecumenical conference. Joseph is nothing if he is not loyal and silent when he is not eloquent.

If this thing keeps on, we shall have to establish a museum for the exhibition of trophies taken from our cousins. The capture of the Seawan haka cup, the Canada cup and the Palma trophy, all in one season, is pretty good fishing. If Sir Thomas lifts the America cup, which is more than likely, the Yankees will scarcely have anything left to drink out of.

Now, if Mr. Towns had come along in the days when Ned Hanlon was the crowned king of the aquatic world and created the proud title from us we would have felt real bad. There has been so little doing in rowing of late that people have almost forgotten who the champion is and consequently are not much perturbed over the loss of an honor that had already lost its prestige.

Some amusement has been occasioned by the disposition of baseballists to throw away their playthings when affairs are not going exactly as they wish. Hence the juveniles who "fag" for the teams have to dodge flying bats when a man is "struck out," and gloves are frequently hurled hard upon the cold ground when the umpire is with the enemy. But, after all, human nature is the same everywhere.

Mr. Thomas W. Lawson built a yacht at a cost of a million or so to contest for the America's Cup. Those in charge wouldn't let him play, so he is breaking up his yacht. Men continue through life to have much of the same spirit which actuated them when infants to dash their rattles upon the floor and howl lustily.

HE OFFERS TO QUIT.
Ottawa Citizen.

Rev. Mr. Walkley has offered to resign his pastorate in expiation of his action in expressing disloyal sentiments in Boston. It is not at all likely that the congregation of his church will deem it necessary. It is only in the liberty-loving Republic that a free citizen dare not speak his mind. In this monarchy-ridden Empire and its down-trodden dependencies the Divine right of men to shoot off his mouth on any conceivable subject is only limited by the laws on slander and using abusive language.

Miss Ellen Cameron, of Wallaceburg, arrived in the city yesterday, and has commenced a course in the C. B. C. College.

James Stewart, of Tilbury, is having some up-to-date plumbing put in his residence. Watt & Sons, of this city, are doing the work.

Father Bray, of Wallaceburg, is having his residence remodelled and improved, including the addition of plumbing, electric lighting and hot water heating.

The Erie Stuart is unloading cedar posts for Piggott & Sons. She clears to-night for Georgian Bay for another load of lumber.

Mrs. Jas. Hamilton, of Jeannette's Creek, passed through the city to-day en route for Toronto to attend the funeral of her brother, Wm. Stinson.

Thomas O'Reilly, of Hastings, who has been visiting Mrs. O'Reilly, Colborne street, has gone to Saginaw, where he will attend the medical college.

Mrs. Jos. Holman and sister, Della Tremblay, who have been visiting in Moline, Ill., were suddenly called home to the bedside of their mother, who is seriously ill.

Miss Clara Blight, of Wellington street, has returned from Cleveland, where she has been attending the Cleveland Hospital staff, her sister, Miss Flo Blight, being one of the graduates.

Rev. C. A. Anderson, of Kingsville, took the services and preached two interesting and instructive sermons in Christ Church on Sunday, in the absence of the Rector, who conducted the Harvest Home services for Mr. Anderson, at Kingsville.

Mr. and Mrs. J. M. Ross, of Munton, New Brunswick, after spending a few days with Mr. and Mrs. Jas. Graves, Stanley avenue, have returned to their home in the east. Mr. Ross is very much delighted with the city and its public buildings.

D. P. Green, of Tupperville, was in the city to-day.

Geo. Smithson is at the Pan American exposition.

V. C. Menier, of Louisville, was in the city yesterday.

George Lydett, of Wallaceburg, was in the city yesterday.

Jas. H. Oldershaw is in Cleveland attending the G. A. R.

W. M. Hood, of Walkerville, was a Chatham visitor yesterday.

Clifford McFarland, of Wallaceburg, was in the city yesterday.

John Jackson, of Leamington, was a Maple City visitor yesterday.

E. Harold Rankin has returned from spending his vacation in Paisley.

Division Court is being held by Judge Woods in Dresden to-day.

Theodore Smith, of Dresden, spent Sunday with his parents, Selkirk St.

Miss Burns will re-open classes in Chalmers Printing, Tuesday, September 10th.

Jacob Bloude has returned from a trip north.

Miss Wilhelma Sauermann, Selkirk St., is spending a few days with Detroit friends.

Miss Gertrude Sommerville, Wellington street, is spending a week with friends in Ridgeway.

Bert Liddy, son of ex-Ald. Liddy, Colborne street, is suffering from a severely burned face.

Blonde Bros. & Co. are shipping a carload of lumber to Tecumseh to-day to be used in the erection of the new school.

Miss Mae Starkey, who has been visiting Mrs. Jas. Lowrie, of Raleigh, returned yesterday to her home in Toledo.

Jas. C. Northwood left yesterday for Cleveland to attend the G. A. R. and also to visit his daughter, Mrs. Egan.

Mrs. John Rose Walker, Head St., will be at home to her friends on Wednesday and Thursday, the 25th and 26th inst.

The case against Peltier, for alleged well poisoning, will come up in the County Police Court to-morrow morning at eleven o'clock.

The water commissioners will hold their regular monthly meeting next Thursday evening in Secretary Weir's office, Harrison Hall.

Mrs. Robinson and sister, Miss Evelyn Crumblorn, of Detroit, are the guests of Mr. and Mrs. Wm. Sommerville, Wellington St.

Roy Toby, of The 2 T's, has returned from spending his holidays in Montreal, Quebec, Ottawa, Toronto, Buffalo and other eastern points.

Miss Annie Shaw, of Wallaceburg, passed through the city to-day en route to St. Thomas, where she will resume her studies in Alma College.

Mr. and Mrs. Alfred Shaw, of Wallaceburg, passed through the city yesterday en route home from a visit to Mrs. Shaw's former home in Hamilton.

The little daughter of A. W. Thornton, Wellington St., severely cut her face while playing near a stove this morning. A physician was called and dressed the injuries.

The schooner Kolfage came into port yesterday afternoon from Johnson's Harbor, Georgian Bay, with a cargo of lumber for Blonde Bros. & Co. She left this morning for Alpena for another cargo. The Kolfage experienced a very rough voyage on Lake Huron coming from Georgian Bay. She came through it safely, however.

The first case to be tried at the assizes this fall was registered this morning, that of Ernest Brewer vs. the L. E. & D. R. R. This is an action brought by the plaintiff against the Lake Erie Company for damages sustained by him on the latter's track near Dresden, on the 15th of December, 1901. J. B. Rankin appears for the plaintiff, and J. H. Cockburn for the railroad.

TYPHOID FEVER

Is invariably caused by impure water or from unclean cellars, yards, etc. To guard against it at this time of the year it is well to drink water which has just been boiled, and keep your cellars and yards well disinfected by scattering around at least once a week a liberal supply of Copperas or Chloride of Lime.

Copperas, 12 lbs. for 25c
Chloride of Lime in 5c, 10c or 15c Boxes.

A. I. McCALL & CO., Druggists and Opticians

FOR SALE

Joe Smith is on a few days vacation.

D. A. Ross, of Sarnia, was a Chatham visitor to-day.

A. J. O'Flynn, of Wallaceburg, was in the city yesterday.

Mr. and Mrs. Geo. Summers have returned from the London Fair.

Mr. Crow and Jas. Sterling, of St. Joseph's Hospital, are progressing very favorably.

Mrs. Jean Blewett was in the city to-day. Her son Jack has typhoid fever at Blenheim.

Mr. Weese, who has been in the General Hospital suffering with typhoid fever, is progressing nicely.

The little daughter of S. Daniell, Dover South, was brought into her grandmother's, Mrs. Peter Robert's, yesterday, dangerously ill.

His Honor Judge Bell has delivered judgment upon the motion brought by the defendant in the action of Carter vs. Woodward, for an order directing the plaintiff to give security for costs in the action. Judge Bell finds in favor of the defendant and makes the order as asked for.

Ward Stanworth for plaintiff and J. B. Rankin, K. C., for defendant.

Mr. Seymour has received the contract for all granite sidewalks, which will be put down in Chatham this year, the P. L. Morden Co. having been relieved of their contract.

The sidewalks put down by Mr. Seymour are considered superior in quality to the former walks as crushed stone will be used for the foundation instead of gravel, as formerly. It is very uncertain as to the amount of sidewalks that will be put down. Already petitions have been received against four of the proposed walks. Three of these are sufficiently signed and the other was received last night and has not yet been examined by the clerk.

YANKS ARE IN THE LEAD

International Cricket Match now on at Ottawa.

Still Have Two Good Wickets to Fall in First Innings—Canadians' Weak Bowling.

Ottawa, Sept. 9.—Judging from the play to-day it would seem that the American eleven will win the international cricket match. When stumps were drawn at 5.45 o'clock this evening the score was 168 for 10 in favor of the visitors. They completed their first innings about 4.25 o'clock and disposed of eight of the Canadians for 77. The Americans only tried two bowlers, J. A. Lester and P. H. Clark. None of the Canadians collared their bowling. Lester taking five wickets for 37 runs and Clark three for 20 runs.

Lownsbrough made the top score, 18, and Harry Ackland was next with 13. Gillespie and Cooper got in the double figures, scoring 11 and 12 respectively. Saunders, Bristow and Mackenzie were in hard luck, and a zero had to be placed opposite his name on the score card. Forrester, Chambers and Hal McGivern have yet to bat. All are good batters and may increase the score materially.

J. H. Mason, captain of the Americans, was unfortunate, being run out through the poor judgment of his partner, when his score was 18. Altemus scored 22, N. Z. Graves 13, F. H. Bohlen 13, and D. H. Adams 15.

The Americans were without exception finished batsmen, and it was only good bowling and fielding that kept their score below the 200 mark.

Gillespie, Bristow, McGivern and Lester were the Canadian bowlers. McGivern took three wickets for 59 runs. Several chances were missed off his bowling. Bristow took two wickets for 31 runs, Lester two for 16 runs, Gillespie one for 21 runs, and Chambers one for 33 runs.

The fielding of the players from over the line was superior to that of the Canadians, and they did not miss a chance. They did not hit as hard for their runs, but were more careful. The score was as follows:

Americans.
D. H. Adams, c. Gillespie, b. McGivern..... 15
F. H. Bohlen, b. McGivern..... 13
J. A. Lester, b. Bristow..... 12

The umpires were "Duke" Collins, of Toronto, and Mr. G. Brownhead, of Philadelphia. The scorers were Mr. J. E. Stokes, of Toronto, for the Americans, and Mr. J. E. Hall, of Toronto, for the Canadians.

NEW MANAGER

F. H. Brisco has assumed charge of the Chatham Grand.

Fred. H. Brisco has, through J. F. Cairns, been appointed manager of the local theatre. Mr. Cairns' duties as manager of the London Opera House are so great that he has found it necessary to appoint a man to look after the theatre here. Mr. Brisco was thus appointed and no doubt will prove a very efficient manager. The Maple City will be treated to a number of good operas this winter and already a number of good ones have been booked. The inside of the building will be greatly improved and the curtain will be freshly painted.

CANUCKS WIN

Beat Irishmen by Thirteen Points in Special Rifle Match.

New York, Sept. 9.—The Canadian and Irish riflemen met to-day on the long ranges at Sea Girt in a special contest between teams of five men each.

They shot over the 800, 900 and 1,000-yard ranges, the Canadians using the English military rifle, and the Irish representatives shooting with Manchester guns.

The Canadians received an allowance of 8 points each, on 40 points for the total, and the honors went to Canada by 13 points on the gross score.

The net scores: Canada, 593; U.S., 620.

MORE CAPTURES

Kitchener Orders that Troops and Materials be Supplied to Prisoners in Burgher Camps.

Pretoria, Sept. 9.—Kekewich, Allenby and Featherstonhaugh have made further captures of Boers in the Western Magaliesberg District, mostly of men belonging to Kemp's command, who were hiding in kloofs.

Kemp escaped northward. Within five days about 150 Boers have been captured in this district, and smaller numbers have been made elsewhere.

General Kitchener has ordered that food and materials be supplied to the men in the burgher camps to enable them to work at such trades as tanning, cabinet-making, etc. The articles made by them will be sold for their benefit.

POLICE COURT.

There was a full police court docket this morning.

James Oxendine was charged by Selma Oxendine with assault. This case came up some time ago, but was postponed. It was finally withdrawn to-day.

Elijah Owens was charged with violating the dog by-law. This case was also withdrawn.

John Grant was charged with a like offence, and his case was likewise withdrawn. W. R. Peck, proprietor of the Rankin House, was charged by Frederick Jolley with assault. Withdrawn.

Thomas Green, barber, was fined \$1 and costs, \$3.75 in all, for fighting and disorderly conduct.

Dress Goods

.... That Tell of

Autumn's Coming

From all sides they come thronging in—these new Dress Goods in new weaves and colorings for Autumn wear. Elaborate stuffs for fancy dresses mingle with the rougher, more virile goods for tailored costumes.

Varieties in the moderately priced kinds are numerous and attractive. Self-colored goods seem to be marked for great popularity. The following list of new goods in all the popular colorings will prove attractive.

- At 25c a Yard—Heavy Tweeds 44 inches wide.
- At 25c a Yard—All-wool Serges 42 inches wide.
- At 25c a Yard—Fancy Tweeds 42 inches wide.
- At 25c a Yard—Fancy Plaids 40 inches wide.
- At 40c a Yard—Black Henriettas 42 inches wide.
- At 40c a Yard—All-wool Serges 44 inches wide.
- At 50c a Yard—Heavy Tweeds 48 inches wide.
- At 50c a Yard—All-wool Cashmeres 46 inches wide.
- At 50c a Yard—All-wool Poplin 44 inches wide.
- At 50c a Yard—All-wool Amazons 46 inches wide.
- At 75c a Yard—All-wool Cheviots 44 inches wide.
- At 75c a Yard—All-wool Homespuns 54 inches wide.
- At 85c a Yard—All-wool Frieze 54 inches wide.
- At \$1.00 a Yard—All-wool Cheviot 54 inches wide.
- At \$1.00 a Yard—Heavy Wool Frieze 54 inches wide.
- At \$1.00 a Yard—Silk Warp Henrietta 44 inches wide.
- At \$1.00 a Yard—Pure Wool Broadcloth 54 inches wide.

JOHN'S JOKE

He is Having Oceans of fun With the Latest Addition to his Menagerie.

Ex-Ald. John Liddy wears a very broad smile these days. When asked by The Planet as to the nature of the joke, he laughingly remarked, "Well, you see, I have added a menagerie to the list of attractions around my place."

John likes a good practical joke, and he sprang a good one on his neighbors the other day. He secured a stuffed Moose which was used by Thomas S. one & Son in their window decorations last Christmas, and placed it under a tree in the field to the left of his residence on Colborne street.

He then placed a box of hay under the tree and to make the scene more realistic put some hay in the mouth of the stuffed moose. The tree is situated a good distance from the road so that any passer-by would inspect the deception until a closer inspection was made.

The crafty ex-Alderman was well aware of this fact and, after fixing his moose, he lay cautiously in wait to see the fun.

The first to bite was a man walking to church last Sunday morning. Seeing the moose, he stopped, looked, and quite naturally wondered how it got over and found out, and this was exactly what Mr. Liddy wanted him to do.

The man armed himself with a club to protect himself from any vicious attack which might occur on the part of the moose, and proceeded on his journey of discovery. He made a very cautious approach and had not gone far when he wondered that the moose did not move, but stood staring steadily at him. He proceeded slowly a little further, when the idea suddenly struck him that the animal was probably preparing to make a rush.

This was exactly the thing he was in such a case it would be safer to be in the lead he immediately turned and scrambled for the fence.

He was treated in his flight by the sound of "Huge Ha! Ha!" proceeding from a neighboring corn field where Mr. Liddy had been a delighted spectator of the whole affair. He did not stop, however, until he reached the fence, when he found to his relief that he had performed his 100 yard sprint alone.

It did not take long for him to see the joke after that and he was determined not to be the only one caught. As a result, Mr. Liddy in the corn field has had the greatest cause for merriment ever since.

\$100 REWARD. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c. Hall's Family Pills are the best.

Just as you are pleased at finding faults, you are displeased at finding perfection.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Poison's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c. bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

THE STANDING

How the Competing Bowling Clubs Made out this Season.

The following is the standing of the bowling league. There is but one more game to play, that between Ridgeway and Chatham. The game will be played here either Thursday or Friday. If Chatham wins it will bring them in the lead with Dresden and Thamesville.

	Won	Lost	To play
Dresden.....	5	3	1
Thamesville.....	5	3	1
Chatham.....	4	3	1
Ridgeway.....	3	4	1

EMMA STREET SIDEWALK

Creates Another Commotion in the City Council Chambers.

Correspondents Complain That Something Must Be Done to Right Matters—Other Business Transacted.

Alderman Edmondson in his own quiet way, created quite an excitement in the City Council last evening, by bringing up the question of the sidewalk on the south side of Emma street.

As the readers of The Planet have already been informed, the Board of works wished to put down a granolithic walk on this street, as the old one was past repairing. The ratepayers on that street did not feelable to put down a granolithic walk at the present time, so they were given permission to put down a plank walk. The ground here is very low, and Mr. Crow, who did the work, followed the lay of the land.

The engineer, however, objected to this, and ordered the walk torn up and has it put down about three feet higher.

Ald. Edmondson read two communications, one from Mr. Crow, and Mr. Blomde, complaining of the way the walk is being put down, and threatening to issue an injunction to have the work stopped. Both claim that, by putting the sidewalk down where it is the present intention of the Engineer to put it, their property will be greatly reduced in value. The other communication was from Mr. Crow, complaining of language used by the City Engineer in addressing him.

Ald. Edmondson, upon taking the floor, said:— "These people have a grievance, and I wish this matter acted upon tonight. This same state of affairs occurred on St. Clair street, when the present engineer came here. The late engineer, Mr. Shackleton, built a sidewalk on St. Clair street, which was raised far above the level of the ground. The people complained of it, and when Mr. McNab came he immediately condemned the walk and had it lowered. Now he is building a similar walk on Emma street, and the people are complaining.

"The sidewalk put down by Mr. Crow was a good, substantial work, and suited everyone concerned. I am told that the engineer when speaking of the sidewalk said that if the people wanted their medicine he would make them swallow the whole bottle full. This is no way to deal with the heavy ratepayers of the city."

Ald. Marshall said:— "The uproar over this sidewalk has been going on for two years. Mr. Crow was given permission to put down a plank walk. He put it down too low, and when in the spring it fell it would be covered completely with water and slush. The engineer, I understand, is putting the sidewalk down at a proper level."

The following special committee was appointed to go over and view the walk, and report back to the council: Ald. McCow, Cowan, Taylor, Fleming and Edmondson.

The regular meeting of the City Council was held last evening in their chambers Harrison Hall, with the following members present: Mayor Sulman, and Ald. Marshall, Edmondson, Mounter, Marshall, Edmondson, and Fleming. Ald. Taylor arrived after the proceedings had commenced.

A communication from Mrs. Thomas G. Steen was received. The petition was signed by Mrs. Weir. Referred to Property.

A communication was received from Mr. Woollett, Mgr. of the L. E. & D. R. R., agreeing to the proposed meeting, as suggested by Chas. Mounter. Re the matter of dispute on Colborne street.

A petition to enforce the L. E. & D. R. R., to remove all their tracks from Colborne street was received. The petition was signed by Chas. Mounter, E. Ingram, H. Baxter, D. McMillan, Maggie Beaver, David Moore, Thomas H. Baxter, T. H. Farley, Robert Milner, George A. Maynard, Mary Reilly, W. Bedford, John Ion, Margaret Hawkins, E. J. Willard, Lewis Brady, E. Jones, J. A. Stringer, Mrs. J. Richardson.

David Holmes asked remittance of dog tax. Referred to Finance.

An account from the General Hospital, for keeping one Fred Locke, was referred to Finance.

A communication was read from W. S. Richards, President of the Maple City Gun Club, asking permission to hold their shoots on the Fair ground. Referred to Finance.

A notice was received from Lewis & Richards, solicitors for Blomde Bros. & Co., threatening the city with an injunction to have the work on the Emma street sidewalk stopped.

FINANCE
Ald. Scane, for the Finance committee, reported:—

1. That we find no mistake in the taxes of Geo. Schoonith.
2. That the account of John Henderson for \$10.50 be paid.
The report was adopted.
Ald. Cowan, for the Industrial committee, reported no action in the case of D. R. McGarvin, who asked for free water and more fire protection.

Ald. McCow enquired as to the electric light which was to have been put in two months ago near Geo. Kelly's, Queen street. Referred to Board of Works.

Ald. McCow asked re the opening up of St. Patrick street. The work has not been commenced.
Ald. Marshall replied that the work would be attended to.

Ald. Cowan called the attention of the Board of Works to a bad crossing on the west end of King street.
Ald. McCow also called the attention of the Board of Works to a bad rut on Harvey street.

Ald. Marshall replied that it had been made by the people employed by the water works people.

Ald. Marshall was given permission to consult the city solicitor with a view to finding out whether or not the water works department are responsible for any damage caused through ruts in the road made by them.

Ald. Scane moved that in the payment of taxes in year that 2 per cent. be added in January, 2 per cent. more in February, and 1 per cent. in March on all taxes unpaid. Carried.

Ald. Marshall moved that as there will be very little granolithic sidewalk done this year that if proper arrangements can be made with Mr. Seymour, who is at present in the city, that the contract be given to him. The P. C. Marden Company have a lot of work in Warton and will not be able to come to Chatham until late in the season, and wished to be relieved of their contract here.

The motion, carried.
Ald. McCow called attention to the bad condition of the cemetery bridge.

A committee, composed of the Finance committee, Parks and Cemetery committee and Ald. Marshall, were appointed to go out and view the bridge and see what should be done. It was suggested advisable to build a new bridge.

The by-law to close up part of Colborne street was read a third time and finally passed.

The Council then adjourned.

A GREAT EXHIBITION.
The West Kent Fair this year promises to be one of the best, if not the best on record. The interior of the main building, and of almost all the outbuildings, are now being thoroughly cleaned and decorated and by the date of the fair, October 8, 9, 10, will present a fine appearance. Entries have been coming in very fast and indicate that the main building will be fully occupied with fine, interesting exhibits. The poultry exhibit will be particularly good this year, as it has been left under the very capable management of some of our city and county breeders.

The trials of speed this year will without doubt be the most interesting ever held in Chatham. We might draw particular attention to the 2.40 race. The purses and prizes held out for these two races are certainly worth going after, and we look for an exciting contest.

Everybody in the county should take an interest in the county fair and render all the assistance in their power to make it a success.

MALT BREAKFAST FOOD
Has Important Advantages Over All Other Grain Foods

Malt Breakfast Food possesses special and important advantages over all other grain foods. While it has become the chosen breakfast dish of the well and strong, keeping digestion perfect and the brain clear, it has become the popular food with thousands suffering from dyspepsia and indigestion. Dyspeptic subjects find Malt Breakfast food an infallible cure for their troubles. Weak stomachs relish the great health food; it is easily digested, and furnishes all the nourishment needed to do its work. Appetite is lost, it is a nerve tonic, it aids the stomach to do its work. Appetite is lost, it is a nerve tonic, it aids the stomach to do its work. Appetite is lost, it is a nerve tonic, it aids the stomach to do its work.

Opp deeds determine us, as much as we determine our deeds.

The Anaemic Young Girl
Perhaps she is sixteen. Suddenly she seems to lose strength, her beauty fades, her strength fails, her eyes lose their lustre. How her spirit droops! It alarms you, but all this may be corrected quickly. Get her Ferrozone, it is a nerve tonic, it aids the stomach to do its work. Appetite is lost, it is a nerve tonic, it aids the stomach to do its work. Appetite is lost, it is a nerve tonic, it aids the stomach to do its work.

Ferrozone is an absolute specific for the anaemia of young people. Sold by McCall & Co.

Avarice increases with the increasing pile of gold.

A SPRAINED ANKLE is not an uncommon accident. Pain-Killer relieves and cures almost as if by magic. The greatest household remedy, substitutes, there is but one Pain-Killer, Perry Davis'. 25c. and 50c.

Stiff Front Colored Shirts

It's swinging round to the time of year when starched shirts get comfortable again. Let us remind you that this store is headquarters for the comfortable kind.

There's a natty shirt here for the modest little price of 75c. A shirt that is liked and bought and worn with thorough satisfaction. It's a blue and white cluster stripe with open fronts and loose cuffs—looks cool and trim and clean.

If you like variety choose from these regatta shirts at a dollar. Three styles in percale with short or long bosoms. Check patterns and plain and fancy stripes. Separate cuffs, open fronts.

Then this fine shirt. Three styles, short or long bosom, open back and front or fronts only, just as you choose. Dollar and a quarter for this one.

Really, we have any sort of stiff front shirt you can want.

Thornton & Douglas

MUNICIPAL CONVENTION

Mayor Sulman Reports Upon it and the Objects of the Union.

Calculated to do much Good—Organization and its Prospects.

At the meeting of the City Council held last evening, Mayor Sulman tendered the following report of his Toronto trip:— Chatham, Sept. 9th, '01.

To the Municipal Council of the City of Chatham.

Gentlemen,—In accordance with the resolution passed by you, appointing me as a delegate to attend the meeting of executive officers, called by Mayor Howland in Toronto, on the 28th August, I beg to submit the following report in connection therewith.

The meeting was held in the City Council Chambers, at Toronto, and lasted three days, it being the first meeting of the Association, there was not the same chance for discussion of interesting topics as there will be at future meetings, as it took considerable time to organize and elect officers, draw and adopt a constitution for the government of the Union.

O. A. Howland, Mayor of Toronto, was elected president, and Mayor Light-hall, of Westmount, Quebec, was elected secretary, and by-laws were passed for the proper control of future sessions, and regulations for municipalities or members who desire to join the Union. The attendance was thoroughly representative, every section of Canada being represented, from Winnipeg to Halifax, and I am thoroughly satisfied, that if the objects of the Union are properly looked after, much good will follow. The general opinion of the meeting was that a great deal of legislation we now have, which militates against the municipalities, has been caused by publication where necessary in obscure county newspapers and passed without a thorough grasp of the subject by our members of parliament and legislature, and cannot be attributed to any one political party, but has been caused by the working or lobbying of members of both parties, by persons employed by large corporations, interested in the passing of acts, which in a great many cases have become law before the interested municipalities are acquainted with the fact that such legislation is before the house. The Union will try and impress upon parliament and legislature that no act affecting any municipality should be passed until the council of such municipality should have a chance to study the same, and if objections have an opportunity at least to have their opinions known, before it becomes law. If this idea is properly carried out, it is sufficient in itself to amply repay for the meeting just held. Among other resolutions passed was one favoring municipal and governmental ownership of all public franchises. The abolition of the scrap iron assessment of railroads, telegraph, and telephone companies; in favor of government buildings being assessed for municipal taxes; that control of the streets of the towns and cities be vested in the people, and they alone shall have exclusive control over the same, and many others of importance. The question of establishing municipal coal yards similar to those in Glasgow was discussed, but finally voted down until such times as the scheme has passed the experimental stage in that city.

Before closing I wish to say that the Mayor and Aldermen of Toronto and the directors of the Toronto exhibition entertained the delegates right royally, and I will look back on this meeting as one of the most enjoyable, and highly profitable that I have ever had the pleasure of attending.

Respectfully submitted,
G. W. SULMAN, Mayor.

W. E. Risip, City Passenger Agent Grand Trunk and Wabash Railways, is advertising special excursion rates to London Fair Tuesday and Thursday at \$1.35, and other days \$1.05, all tickets good to return Sept. 16th; also special excursion to Pan-American, Buffalo, via G. T. R., good going via any regular train Sept. 18th, returning Sept. 16th, at \$3.25. tt
