In addition, through the legislation of the last Session of Parliament, relief has been granted to the Montreal Harbour Commissioners and to the Quebec Harbour Commissioners to the extent of \$3,104,174.15, less the amount at the credit of the Quebec Harbor Sinking Fund \$223,929.23.

Investments were made to the amount of \$300,769.96, viz. :—

During the year there has been received on account of Dominion Lands \$217,083.07; the investments on account of the Sinking Funds amounted to \$1,939,077.79; amount of Debt redeemed \$3,185,638.09.

The amount at the credit of the Savings Bank depositors was increased by \$538,782.86 during the year, making the total deposits on the 30th June last \$41,371,058.23.

The circulation of Dominion Notes advanced from \$15,059,836.06 in 1887 to \$16,249,318.53 on the 30th June last, an increase of \$1,189,482.47.

The net Debt of the Dominion shows an addition of \$7,216,582.72, and on the 30th June stood at \$234,531,358.16, the increase almost entirely arising from the relief granted the Harbour Commissioners of Quebec and Montreal and from the capital sums expended on Public Works and Railways.

A still further reduction has taken place on the rate of interest paid on the gross Debt, the rate at Confederation was \$4.64, in 1887 \$3.54 and for the past year \$3.45.

Owing to the recent 3 per cent. Loan, a portion of which was paid in before the 30th June last, the funded debt payable in England has been increased and at that date amounted to \$176,601,775.89; the Sinking Funds on the other hand have increased from \$19,054,576.60 to \$20,993,654.39.

Since the last Session of Parliament, as above mentioned, the Government through the High Commissioner succeeded in placing a 3 per cent. Loan £1,000,000 in the London market. The average rate realized attained the high figure of £95 1s. 0d. as will be seen from the schedule of tenders annexed. This is the first 3 per cent Loan that has been placed in the English market by any British Colony, and proved very satisfactory both as regards the rate received and the amount tendered for, the total subscriptions reaching £12,000,000 sterling.

Since my last report the Treasurers of the Provinces of Ontario and Quebec met in Ottawa for the purpose of forwarding a settlement of the outstanding accounts. I am glad to state that progress has been made and that the Province of Canada account has been practically settled. There have been left in suspense a few items

of no great importance, which doubtless will be disposed of at an early date. The entries in connection with the closing of this account form a part of the operations of the present fiscal year.

Progress has been made in making out the accounts of Ontario and Quebec, and copies are being sent to the respective treasurers. Owing, however, to a difference of opinion as to the method of computing the interest, no definite settlement has been arrived at in regard to the accounts of these two Provinces, but I earnestly hope, as far as the cash items are concerned, that before this year closes the matter will be settled.

I would again urge the desirability of finally disposing of these accounts, inasmuch as owing to the length of time that has elapsed since Confederation, and the gradually diminishing number of those who are cognizant of all the circumstances, every year's delay only makes a settlement more difficult.

The cost of the management of the Department for the year, including contingencies, was \$72,886.69, a sum more than covered by the profits received on the silver and copper coined during the same period, the profits thereon being \$75,826.08.

From the staff of the Department I have received cordial assistance, for which I have in conclusion to express my thanks.

I have the honour to be, Sir,

Your obedient servant,

J. M. COURTNEY,

*Deputy Minister of Finance.*

\* The figures in smaller type in these two columns exhibit further withdrawals not paid to depositors in cash, but at their request paid over to the Finance Department to be inscribed in their names in Dominion Stock. The amount of Dominion Stock held by P. O. Savings Bank depositors, having, as shown, passed out of the Books of the Post Office Savings Bank, does not appear in this Statement.  
 The fluctuations in the expenses of management, and the average cost of each transaction,—where not explained by variations in the amount of business and the number of transactions,—are mainly attributable to payments in one year for services not wholly chargeable to that year.  
 The total cost of maintaining the Post Office Savings Bank, including interest allowed to depositors and all expenses of management, averages about 4 $\frac{1}{10}$  per cent. on the average Savings Bank balance in the hands of the Government.  
 Note—(a) The result of burglaries at three country Post Offices.

Future returns to Parliament will, hereafter, cover the period from 1st July to 30th June in each year.
