

SEPT EMBER

MINES AND MINING

What is Going on in... Shaft, Drift, Stope, Winze, Etc., Etc.

CLOSED A DEAL

Professor Blochberger Secures Halt of the Mother Lode Group.

Quite an important deal was consummated Friday by Prof. F. R. Blochberger of this city, with some very rich mining property in the Ymir district.

Professor Blochberger is backed by some of the most influential capitalists of Portland and Philadelphia and some rich Germans in New York, for which cities he will leave as soon as he has completed the final arrangements for the Umahli Gold Mining company, on Sophie mountain.

Annual Meeting of Iron Colt.

The annual meeting of the stockholders of the Iron Colt Mines, limited, was held Thursday in the office of the company in this city.

Centre Star Shipments.

Preparations are in progress for shipping the Centre Star by the dump the night as well as day.

Timber Framing Shop.

Now that the work on the hoist and the compressor at the Centre Star has been practically finished, the management is about to erect a more commodious timber framing shop, which will be fitted with some of the most modern improvements in the way of expediting the work and saving labor.

One Crusher

The new ore crusher for the Le Roi, ordered from Messrs. Fraser & Chalmers of Chicago, has arrived and is lying at the Red Mountain depot.

Centre Star-Iron Mask.

The imminence of the litigation between the Iron Mask and Centre Star is causing quite a considerable quantity of work to be undertaken on both mines about the disputed outcrop on the surface near the side lines of the properties.

Dr. Agnew's Cure for the Heart.

Acts directly and quickly, stimulates the heart's action, stops most acute pain, dispels all signs of weakness, fluttering, sinking, smothering or palpitation.

Bought a Ten-Stamp Mill.

The Canadian Rand Drill company has sold to the Yellow Jacket mine on Champion creek, near Ymir, a ten-stamp quartz mill, a steam plant and a sawmill.

THE MINING REVIEW.

More Ore Found in the Nickel Plate—The Shipments.

The shipments from the Centre Star which it was stated were to have been begun last week, have been deferred to this.

WORK ON THE ALKI.

It is to be Resumed Under the Direction of Colonel Renfro.

Colonel John W. Renfro, managing director of the Alki Mining company, is in the city from Georgia.

Work on the Skylark Properties.

Prof. F. R. Blochberger, who had several miners at work on the property of the Skylark Gold Mining company, in the Lardeau, received yesterday three assay returns from a general sample across the vein.

Transfer of Stock.

Keewatin, Ont., Aug. 25.—Editor Miner: Is it necessary to forward certificate of Evening Star Mining company to secretary for transfer to new company.

The Trail Smelter.

Late advice from the Trail smelter is to the effect that the second copper furnace is to start up in a few days and it is to be kept in constant operation.

A SUCCESSFUL TRIP.

Mr. Spraggett Tells About the Kettle River Railway Charter.

Mr. E. Spraggett of Grand Forks, arrived from Victoria last evening, whither he went as one of the delegates to the Associated Boards of Trade of Eastern British Columbia.

That Cutting Acid

That arises from the stomach and almost strangulates is caused by fermentation of the food in the stomach. It is a foretaste of indigestion and dyspepsia.

and west on the 600 level and an intermediate level is being opened between the 300 and 400-foot levels. Slopes are being opened here as well as in the 300-foot level on the same body of ore.

The Kootenay Mines.—The crosscut from the No. 6 tunnel which is to intersect the Tiptop vein is now in nearly 600 feet. It starts from a point about 1,000 feet from the portal of the adit.

Iron Mask.—In addition to the usual work on the mine underground there has been a machine and a gang of men at work on the surface close to the side line of the Centre Star engaged in striaing and tracing the vein on its outcrop.

Velvet.—The extension of the main adit continues and is making good progress. The construction of the wagon road is being pushed, and another week or ten days should see it finished.

Green Mountain.—Crosscutting on the 375-foot level continues. The crosscut is in for a distance of 70 feet.

California.—The drift on the 200-foot level has been driven in for a distance of 115 feet. The tunnel has now reached a length of about 740 feet.

A MAMMOTH LEDGE. What is Being Done With Eldorado's Group Near Ymir.

Mr. R. C. Pollett has returned from the Eldorado group of claims, where he has been for the past month with a crew of six men doing prospecting work upon the property, the results of which are of the most satisfactory character.

Le Roi.—The development work on the Le Roi during the past week has been on the same lines. The shaft is being sunk from the 800 level and at the same time connection is being made by a raise from the 900.

Le Roi No. 2.—The mine is shipping steadily and has sent out about 250 tons of ore during the week. There was a change in the management on Monday last, Superintendent Desmond, who was in temporary charge of the mine, handing over control to Mr. R. Angus.

Before After Wood's Phosphodine. The Great English Remedy. Sold and recommended by all the leading druggists in Canada.

Wood's Phosphodine is sold in Rossland Goodeve Bros. and Rossland Drug Co.

Oriel Mining and Milling Co., Limited

THE ROSSLAND MINER'S

MAP

...OF THE... Rosland Camp

The Rosland Miner's Map

The mines and mining claims of the Rosland camp, and their buildings, such as shaft houses, compressor plants, ore houses, boarding houses, etc., are all on the map.

All physical features of the surrounding country, such as mountains, hills, valleys, plateaux are shown just as they are. The winding of railways, wagon roads and trails are correctly represented.

It is the most complete and elaborate map of Rosland and the surrounding country that has been published.

Complete. Renew your subscription to the ROSSLAND WEEKLY MINER by paying \$2.00—the 10 cents to cover cost of mailing—and receive a copy of this beautiful map.

Send orders to..... The Rosland Miner Printing and Publishing Co., Limited, Rosland, B. C.

Accurate. The map is almost a photographic picture of the Rosland camp, with the exception that it is produced in colors and shows the country as it is in the early summer.

No expense has been spared to make this map a really first-class production of artists, engineers and engravers. Two skilled, active and experienced men were constantly employed on the work for three months.

Wood's Phosphodine. The Great English Remedy. Sold and recommended by all the leading druggists in Canada.

Wood's Phosphodine is sold in Rossland Goodeve Bros. and Rossland Drug Co.

THE SUBSCRIPTION PRICE OF THE WEEKLY ROSLAND MINER for all points in the United States and Canada is Two Dollars a year or One Dollar and Twenty-five Cents for six months...

CORDUA'S PUNISHMENT.

The execution of Lieut. Cordua, who was found guilty of complicity in the plot to murder the British officers at Pretoria is universally approved throughout the Empire, and will receive the sanction of the people who condemn resort to secret assassinations for political purposes.

THE GENERAL ELECTIONS.

The leaders and organizers of both political parties have got actively to work in the campaign which precedes the next general election. That the contest will take place in the very near future is now almost beyond a doubt, and it is hardly to be questioned that British Columbia's representation in the next parliament will be the same as it has been up to this time.

MINING AT NOME.

The conditions at Nome gold fields do not seem to change, unless for the worse, says the Engineering and Mining Journal in its last issue. The recent decision of United States Commissioner Stevens, declaring that no strip of land is reserved by the government for a road a long the water front, and that the original holders of claims there are entitled to the ground, helps no one.

from the creek claims to the south and southeast, particularly from Shovel creek and from Anvil creek. The Nome district seems likely to be a considerable producer of gold for some years, but the production will not come from the efforts of those deluded victims of outfitting and transportation companies that rushed to the district, expecting to find gold by the bucketful as soon as they arrived.

BANQUET TO MR. MINER.

The success of the banquet to Mr. S. H. C. Miner, which was held at Grand Forks on Thursday night was due in as large measure to the courage and confidence which that gentleman displayed during the early part of the present year, when labor troubles existed in the province, as it was to the satisfaction felt by the people in the Boundary county at the liberal investment of money in that district by him and his business associates.

MORE SONG BIRDS WANTED.

People at the coast are favorable to a plan which contemplates the importation and acclimatizing of some of the better singing birds of Europe, and the coast papers are devoting considerable space to discussing the subject. The Pacific coast while it has many ords, has but few singing birds, like those of Europe.

A SUCCESSFUL CELEBRATION.

Yesterday's celebration of Labor Day was one to which those who assisted in making it the success it was may well point with pride. To be sure the weather clerk was on his good behavior and gave almost perfect weather—not too hot nor yet too cold—which was totally unlike the stormy weather which he furnished on former labor days.

LABOR DAY TOMORROW.

On Monday the residents of this city celebrate Labor Day. The mines will be shut down, the banks and stores closed and all the people of Rosland will enter heartily into the spirit of the occasion. A splendid program of events has been prepared and there is fun for all classes in them.

IMPERIAL OFFICERS.

In referring to the publication of Colonel Brown's look on the war in South Africa, in which the Canadian writer indulges in some very severe strictures regarding the conduct and efficiency of the regular army officers, the World of Toronto has this to say: "Out of all this discussion in regard to Canadian and Imperial colonial much good will come."

A NEW SITE NEEDED.

The erection of a third school house in this city is contemplated by the Provincial school department. It is proposed to erect this school house alongside of the one in the southern part of the city at the intersection of Kootenay avenue and Earl street. Considerable objection has been raised to this site and for two very good reasons.

Two yards square. The bed is the usual plank, and bread and water the food. In winter a single blanket is allowed at night. Silence is still enjoined; the only concession is the door being opened a few inches. The food is given only once in the 24 hours. If the prisoner is sick the doctor can have him removed to the prison infirmary, where he is kept in a separate chamber. Prisoners in solitary confinement may neither read, write, smoke nor work. They are condemned to absolute idleness and absolute silence.

The extra punishment of the "irons" is terrible. The handcuffs are joined by chains to similar rings on the ankles. The prisoner is seated on a bench the shape of an ass's back. At night, still in irons, he can lie on his plank. The "strait-bed" is a strong wooden case resembling a coffin without lid. At the foot the sufferer's feet are fastened in a kind of stocks, so that the legs cannot be moved, while the arms are confined by the strait-waistcoat. Unless by order of the governor the prisoner cannot be moved, and his gaoler has to feed him.

AGRICULTURAL FAIRS.

The season of annual fall fairs is at hand, and the various agricultural societies of British Columbia are sending out notices of the dates of their exhibitions. While British Columbia is rather a mining than an agricultural province, still it possesses immense areas of arable land and grazing land, the products of which can compete in point of quality with any similar productions on the continent.

PROVINCIAL EXHIBITION.

The Provincial Exhibition will be held at New Westminster on October 2nd, 3rd, 4th and 5th, and quite a number of citizens of Rosland propose visiting it if the C. P. R. gives reduced rates during the period it is running. It is said that the fair this year will be larger than ever before.

TO ORGANIZE NATIONAL LEAGUE OF RIFLEMEN.

Sea Girt, N. J., Sept. 5.—A convention of riflemen is being held at the club house of the New Jersey State Rifle association today, in connection with the interstate rifle shoot, for the purpose of organizing a national league of riflemen. The idea was broached some time ago, the members of the different state organizations believing that such more good could be accomplished through a national organization than through the lesser state associations.

CENTRE STAR IS SHIPPING.

After a shut-down of shipping of about seven months the Centre Star yesterday resumed shipments, and it is probable that they will be kept up indefinitely. Further on the War Eagle will follow the example of the Centre Star and commence the extraction of ore. All will remember what consternation was created in this camp in February last when the announcement was made that the War Eagle and Centre Star would discontinue the production of ore and that the payment of dividends would cease for a long period.

alarming decrease in price. To the stockholders this was a great misfortune, as they lost large sums through the depreciation of their holdings. Its effect on the general stock market was little short of disastrous, and other shares fell in sympathy with those of these two great mines. The stock market had already been demoralized by the outbreak of war in South Africa in October. This is shown by the fact that a short time before hostilities commenced War Eagle was selling for \$3.30 a share, and a month or two previous to that for \$5.70. The final climax came when the two mines ceased the output of ore and when the labor troubles began.

The statement has frequently been made in Eastern Canada that the shut-down was caused by the fact that the mines had given out. This is far from the facts in the case. The Centre Star has long been considered one of the largest mines, if not the largest mine, in the camp, and some go so far as to declare that it is the biggest mine in the province. We believe that it is a wonderful property. When it was purchased by the War Eagle all the development that had been done was evidently made for the sole purpose of showing off its possibilities so that it might be sold.

As to the War Eagle, owing to many untoward incidents and trouble with the big hoist, it was found that the production must cease in order that advance work might be done. There is plenty of ore in the mine. The same surface bodies that were found near the surface extend into the deeper and undeveloped portions of the mine. The ore shoals are being developed, and as soon as the management considers that sufficient advance work has been done shipments and dividends will be resumed. This is the situation in brief, and the stories spread by persons who were not conversant with the facts had no foundation beyond the unsupported suspicion that veins in the mines had pinched out.

However, the long looked for resumption of shipping on the part of one of the two mines has at last come to pass, and in all probability it will not be long before the other will resume the putting out of ore. The effect of this incident when coupled with the generally healthy condition of the mining industry in the province, the fact that the war in South Africa is virtually over, and that money is becoming easier, should produce a healthier tone in the stock market and bring prices somewhere in the vicinity of what they were in the summer of 1899, when there was no war or rumors of war, no thought of a shut-down or a cessation of dividends and no tight money market to vex the investor in mining shares.

With the disappearance of the causes of the depression in the stock market surely there will come a revival, and when it arrives we believe it will abide with us for a long time.

MUNICIPALITY.

The past season's work around and in the city that the city has hands pretty well to touch with the work done by the city and other remains to be planned for the waterworks, a thorough system for water, the sewage of garbage, the graving of the levels streets and many are all more or less the office work in and with the property of next year, and the beginning of the work in connection with the straightened out.

MINES AND MINING (Continued from Page 1)

and the time necessary to raising funds delayed matters until it is now recognized that the mill must be dispensed with until next year. The tramway will be built immediately and used to bring ore to the railroad, from where it will be shipped to one of the district smelters...

THE STOCK MARKET. Centre Star Resumption of Shipments Has Good Effect.

The resumption of shipments on the part of the Centre Star, which has been an event long looked for in stock circles has at last taken place and it seems to have already had a stimulating influence on the stock market. This is shown by the despatch which came from Toronto yesterday stating that the market there was lively. It has been many long days since such a report has come from Toronto and it was cheering news to those who deal in shares...

THE NEW ST. ELMO VEIN. Ore Found That Was Up to \$36.50 to the Ton.

On the New St. Elmo the work of development is making good progress. The work of drifting along the south vein continues. This drift is now 225 feet in length. In this drift the ore body is now four feet in width and the values are better than they ever have been, running up to \$36.50 in gold and silver alone to the ton. The ore is that characteristic ore of the camp, chalcopryite and pyrrhotite, with a quartz gangue...

SAMPLING MILL. The plans of the sampling mill at the Le Roi are now ready and the work of construction has already been started.

NICKEL PLATE. The work on the ore bins and sorting floor of the Nickel Plate is well advanced.

FROM THE RECORDS. Bills of Sale.

PASED AT LAST. Charter Granted to the Grand Forks and Kettle River Railway.

Victoria, B. C., Aug. 31.—(Special.)—The legislature rose this morning at 6 o'clock after a rousing all-night session, in which a clean sweep was made of all public business. Time after time sleeping members were shaken up to vote, and Smith Curtis' brilliant speech in favor of Jim Stratton's Grand Forks & Kettle River railway bill, was punctuated with long drawn snorers...

DOUBLY DEFEATED. Nelson Wins Both Cricket and Tennis Matches.

Nelson, B. C., Sept. 3.—(Special.)—The Nelson Tennis club scored a victory over Rossland yesterday, winning four out of seven events. Some of the games were the best exhibition of tennis seen in Nelson this season and elicited warm applause. In the doubles Severs and Walker of Rossland took first match, defeating Williamson and Pollock; Dickson and Haines defeated Morkill and Dewdney; and then Severs and Walker defeated Dickson and Haines. Each club had then two games to its credit. In the singles Williamson beat Severs, Walker beat Pollock, tying again. Dickson of Nelson solved the problem by defeating Morkill easily two straight sets...

THURSDAY'S SALES.

Table listing various commodities and their prices, including items like Giant, Peoria, Winnipeg, and various grades of coal and oil.

A CONSERVATIVE CONVENTION. FIRST SESSION IS HELD IN NEW WESTMINSTER.

Condemnation of the Policy of Sir Wilfrid Laurier—Approval of the Attitude of the Conservative Party. Vancouver, B. C., Aug. 31.—(Special.)—The following is the text of the 16 resolutions passed by the Conservatives at the province in convention at New Westminster, at their first session:

- 1.—That only federal questions be discussed. 2.—The endorsement of the Conservative policy since 1896. 3.—Condemning the Liberal administration for lavish expenditure of funds and ignoring the necessities which exist in this province. 4.—Condemnation of the lavish expenditure on public works and the failure of the government to provide the necessary public works in British Columbia. 5.—Condemnation of the flagrant neglect of the government to improve the navigation of the Fraser river and protect the low lands from floods. 6.—Deploping the abuse of power of the government on the fishery question in spite of the privy council declaring the fisheries to be vested in the provinces. 7.—Deploping the neglect of the government in fostering the fishing industry. 8.—Regret that the nationalization laws of Canada have not been amended by the government, thus preventing the notorious abuses prevailing in this province. 9.—Denunciation of Premier Laurier for not carrying out his ante-election pledges regarding Chinese immigration. 10.—Condemning the government for encouraging and assisting Mongolian immigration into the country. 11.—Regret that the government has failed to refund money paid by settlers for Dominion lands. 12.—Indignation that the claims of the province for representation in the federal cabinet had been ignored. 13.—Condemning the government for not offering an impartial investigation into the affairs of the Yukon. 14.—Condemning the government for the duplicity practiced in the prohibition question. 15.—Regarding with gratitude the attitude assumed by Charles Wilson in connection with the late provincial contest. 16.—Favoring the increase of duties on white lead, red lead, orange lead and litharge, adequate to insure the manufacturers of these substances in Canada. The convention concluded its deliberations this afternoon. The following officers were elected: President, R. Mc Bride; vice-president, R. Reid, New Westminster; secretary, J. C. South, treasurer, F. S. Barnard. A vote of confidence was passed to Sir Charles Lupper. A motion to leave out the word Liberal in the party name was withdrawn. A resolution that Charles Wilson be party leader in the province was carried. The next convention will be held at Revelstoke on the second Thursday in October.

THE B. C. MEN WHO CARRIED OFF THE HONORS.

Ottawa, Sept. 1.—The D. A. R. meet was finished yesterday afternoon. In the governor general's match, Sergeant Major Richardson, Fifth regiment Victoria, won \$10 and Sergeant Bodley, of same regiment, \$5, with a score each of 182. Sergeant, J. C. South, of same regiment, won \$10 and Driver J. L. Beckwith, also of the same regiment, with a score of 178 and 177 respectively, won \$5. Sergeant Major McDougall, with a score of 173, won \$4. Lieutenant Colonel Anderson, of the 43rd Ottawa, as stated yesterday, won the cup and D. R. A. holds the medal and \$200, with a score of 189.

CHARTER GRANTED TO THE GRAND FORKS AND KETTLE RIVER RAILWAY.

Victoria, B. C., Aug. 31.—(Special.)—The legislature rose this morning at 6 o'clock after a rousing all-night session, in which a clean sweep was made of all public business. Time after time sleeping members were shaken up to vote, and Smith Curtis' brilliant speech in favor of Jim Stratton's Grand Forks & Kettle River railway bill, was punctuated with long drawn snorers. This charter, which was voted down a week ago, was however carried in the teeth of the government by 17 to 15. A series of divisions failed to change a single vote. During the night an attempt to introduce a special or referendum into the Vancouver charter was voted down, as also a further reference to the eight-hour law, although Premier Dunsmuir assured the B.C. that the government did not intend to interfere. All railway charters asked for have been granted except those affecting the Alaskan boundary. Martin, over the Columbia & Western land grant and Vancouver re-shore question, made a bitter attack upon the Canadian Pacific railway. This afternoon brilliant weather attended the prorogation function held at the 28th session. Joly assented to a bill. Mrs. John Y. Cole has returned from a visit to San Francisco.

Two Dollars VICE-REGA

It is Entertaining During

The second day of the royal party opened bright and the members enjoyed the enjoyment of the for them. Carriages were the party, accompanied members of the city council of the reception committee at the corner of Columbia and Kingston street. Here they who were grouped on the direction of Prince his assistant Mr. Mc King the stirring notes. Queen" while the so Lord Minto stood up in head uncovered. Who finished the Lord and Lord Minto made the cordially thanked citizens of Rossland for the reception which had been his party. The future into whose hands the country would be given them. The speech with a round of applause rendered "The Maple exercises had concluded were driven west along Miners' Union hall made and a drive to avenue as far as But Visited the Then the party was the Star mine. The consisting of Messrs. B. Kirby, C. V. J. and Carl R. Davis, first the 40-drill company Star was inspected. ed to the head works the visitors were provided change of cost were furnished overall. The ladies remarked, Lady Minto remarks that she would like to have a souvenir of the world that belonged were taken of the costumes. Several speeches by members of the club. There were tableaux taken by the Governor-General in his hand, Captain bar Mr. Arthur S. edge and Mr. A. car. The people were warmly welcomed to the mine and were between the 300 and The mine was special occasion. The visit steps to the floors in shown the method of treating ore. The seemed to greatly emerge from the hill. Eagle boarding house head works on top pressed themselves gations to the mine and the War Eagle; the many courteous pains taken that the underground views of A Lunch at the In the afternoon were entertained at A. C. offices by M. A. half of the directors of the America Corporation was one of the most of the visit to the room at the Corporation and of the valley. Lumber, river, and was spent by the mountain scenery, fully arranged. They were simply magnificent escorted Mrs. G. by Mr. Edwin D. not by C. St. L. Eileen Elliot by Mrs. Hector McR. Mr. Edwin Duns occasion, occupied and Hon. C. H. director of the B. the vice chair in mer. To the right His Excellency the on his left Lady Hector McR. Mr. Kirby, (War Eng E. Capt. Graham C. O. Lalonde, re trade; J. M. Lo Roi mine; C. R. Guise, S. W. H. J. B. Kerr, Editor. At the conclusion luncheon, Mr. D. Her Most Gracious which was received of loyalty.
