GOT A NEW TROPHY

THE CARNIVAL COMMITTEE PRESENTED WITH HANDSOME HOCKEY CUP.

OTHER PROGRESS MADE IN CONNECTION WITH THE MID-WINTER CELEBRATION.

The handsome hockey trophy presented to the Rossland Winter Carnival by Harry P. Dickinson, of the Giant Powder company, was formally handed over to the committee yesterday, and accepted on behalf of the citizens of Rossland with cordial thanks.

At yesterday's meeting of the carnival executive a hockey committee was formed as follows: Robert H. Anderson, Harry P. Dickinson, H. Dalby Morkill, Frank G. Stevens, Dr. A. W. Kenning and Charles E. Barrett.

Another idea adopted was that of arranging for a bonspiel during the carnival as a means of attracting curiers to the city.

MORE ORE THAN EVER

Bright Reports Are to Hand Anent the Le Roi Mine.

Review of Past Week's Progress in Rossland Mines.

The event of the week in connection with Rossland mining industry was the gratifying nature of developments on the 900 level of the Le Roi mine.

In the Le Roi mine stoping is now under way on the 450, 500, 550, 600 and, in a small way, on the 900 and 1350 levels.

Boundary shipments for the past week and year to date were:

Table with columns: Granby, Mother Lode, Oro Donoro, Athelstan, Senator, Totals.

HUM OF INDUSTRY

RESOUNDS AT ROSSLAND POWER COMPANY'S CONCERN-TREATING WORKS.

DETAILS OF WORK ACCOMPLISHED TO DATE-FOUR CHILLIAN MILLIS IN.

That excellent progress is being made with the work on the Rossland Power company's concentrating works is the testimony of a number of Rossland people who visited the mill site yesterday.

The company is working from sixty to seventy carpenters and mechanics about the plant.

The twelve-inch steel pipe connecting the works with the Rock creek flume has been completed.

It is suggested that the company should be allowed to erect a dam at the mouth of the Rock creek.

At the Rossland Power company's concentrator the work of installing machinery is progressing apace.

At the Le Roi Two concentrator the test run was continued during the week and will be extended to some extent.

The tonnage of ore shipped from and milled at the Rossland mines for the week ending January 20 and for the year to date is as follows:

Table with columns: Mine, Week, Date, Total tons.

LE ROI-The developments of the week at the Le Roi mine have already been reviewed.

It is probable that the crew at the big mine is steadily increasing, over 170 men being at work yesterday.

Development continues to give most satisfactory results, and is being maintained on a good scale.

LE ROI NO. 2-In the Joste mine the week's work has been along the usual lines.

Development west of the mine continues to be satisfactory, and in other parts of the mine reports are of a satisfactory nature.

As already stated, the No. 1 mine resumes operations tomorrow with a preliminary crew of fifteen to twenty men.

When a second shift is added, as will be the case shortly, the crew will be increasing to about 30. The ore bodies on the

200 and 300 levels, which will be attacked for shipment on the week to include considerable quantities of the iron sulphides in which the No. 1 is rich.

WHITE BEAR-The work of installing the new equipment has been carried steadily at the mine, and deep level preparations for shipping have also made such progress as to lead to the belief that shipments may be commenced during the present week.

WAR EAGLE-No unusual feature is reported for the week in connection with the work at the mine, which has been carried ahead along conventional lines.

CENTRE STAR-This property also has adhered closely to the usual lines of development.

SPITZEE-The work on the first level is confined to the winze in the new ore body already referred to, whilst on the second level the drift is being continued steadily.

Since the new council took office there has been much street talk concerning the "patronage" at the city hall.

At the original motion, remarking briefly that he was prepared to give his chances in resigning and offering himself for re-election.

SPOILS TO VICTORS

Doctrine Introduced in Civic Affairs by New Element.

Warm Discussion Over the Dismissal of Officials.

From Wednesday's Daily.

The leadership of Alderman McDonald, Messrs. Petch, Martin and Stout voted at the regular meeting of the city council last night to dismiss at the end of the present month every official employed by the city hall.

A strenuous attempt was made by Mayor Clute and Alderman Rolt and Lockhart to prevent this wholesale dismissal without due cause, and they argued well and earnestly that nothing should be done without a full and careful investigation.

Since the new council took office there has been much street talk concerning the "patronage" at the city hall.

At the original motion, remarking briefly that he was prepared to give his chances in resigning and offering himself for re-election.

BURNT MIDNIGHT OIL

CITY FATHERS IN SESSION TILL MIDNIGHT-MANY DISSENSIONS.

OUTLINE OF ROUTINE BUSINESS -MAYOR WON'T SIGN CHECKS.

Under the head of routine business a variety of matters of more or less interest came up in the course of last night's midnight session of the city fathers.

The session will go down in red letters as the most animated council meeting of recent years.

Under "Inquiries" the fact was elicited that no committee meetings had been called since the new board assumed office.

This was objected to, and it was further settled in a preliminary way that chairmen of committees had no authority to take the initiative save with the approval of the committee as a whole.

A communication was read from The Miner company drawing the attention of the council to a grave breach of business principles in connection with city officers.

Alderman Rolt spoke to the question, remarking that he didn't care a brass farthing who did the city printing, but that he would insist on this and all other city business being transacted in a manner as to prevent the suspicion of undue handling.

In this stand Alderman Rolt corroborated the sentiments of the Mayor's letter, which was an appeal for fair play in the matter of city printing.

The statement was made that if the city did not quietly settle the award in the Blue & Deschamps by City arbitration a costly legal action would be commenced.

Alderman McDonald expressed the opinion that there was something technically wrong in connection with the right of way for the flume, and that the matter should be investigated, because the dam on the corporation took over all the Rossland Water company's rights of way.

Major Clute explained that this was correct, but that the flume now under consideration was no part of the old company's system, but an extension thereof.

CHARITY POSSIBLE.

The finance committee's report provided for payment of accounts aggregating \$2589, the principal items being civic salaries of \$1200 and school teachers' salaries of \$800.

The mayor said he had instructed the treasurer to make the checks payable to the mayor and aldermen under the Mayor and Aldermen's Indemnity by-law, which was still in force and would remain so until next month.

Any alderman who didn't want to take the check in his name could turn the amount back to the city or give it to the Sisters' Hospital.

Alderman McDonald held that the by-law didn't bind this council to which the chair retorted: "You don't know what you're talking about."

Alderman Rolt said he came into the council without a platform on his feet or back, but personally he did not intend to accept a salary and would be glad to learn the legal means of escaping the acceptance of the salaries provided in the by-law now in effect.

The mayor said that the council made out, and Alderman Stout had refused to sign them, in fact he wouldn't sign any checks himself.

A by-law to borrow \$50,000 in anticipation of the year's revenue was carried through, rules being suspended for the purpose.

TEMPEST IN TEAPOT.

A suggested amendment to the Trades License by-law was then introduced, reducing fees for places of entertainment from \$2 per annum to \$1 and from \$25 per month to \$1 for each six months.

Alderman Rolt said that this was his pet idea and he would allow Alderman McDonald to steal it.

The by-law governing the arrangements for the celebration of the centennial of the city's incorporation was not observed, and one reason ascribed was that the license fees were too high to warrant licenses being taken on the occasion.

A lengthy debate of little interest arose on the subject, after which Alderman Rolt withdrew his amendment upon securing a majority of the council.

The by-law was enforced. It was not done, he asserted, he would go into his pocket and provide the necessary funds to prosecute breaches of the ordinance.

Major Clute said he had already instructed the police chief to notify all owners of buildings used for entertainments that the by-law must be strictly complied with.

THE FIRE FIGHTERS.

Alderman Rolt brought down his motion to fix salaries for the fire department as follows: Chief \$125 per month, foreman \$50, three year men \$30, others \$20.

The resolution also called for the abolition of uniforms.

Alderman McDonald bitterly opposed the suggestion, recommending a lieutenancy of \$5 per month on present salaries of \$5.

He wanted uniforms maintained.

At the suggestion of Alderman Lockhart, Alderman Rolt amended his scale to give the foreman \$85, three year men \$50 and others \$75.

He stated, however, that uniforms constituted and unnecessary and useless outlay, which he would fight against to the end.

NO MORE MONEY.

Major Clute announced that he had refused to sign city checks, and that the finance committee could make its arrangements with the banks without his assistance.

Alderman Stout gave notice of a by-law to amend the Mayor and Aldermen's Indemnity by-law, doing away with salaries to these officials.

WILL RESIGN AND RUN AGAIN.

Alderman Petch followed as second at the original motion, remarking briefly that he was prepared to give his chances in resigning and offering himself for re-election.

Alderman Stout said he desired to see the same done as Alderman McDonald, the majority members of the council polled three-fourths of the votes cast for aldermen, and must rule whether it was to resign or to run again.

General News Of the Kootenay

Work is progressing favorably on the long tunnel at the Rambler. The lumber for the remodelling of the S. concentrator is arriving.

The improvements to the Ivanhoe mill are nearly complete. A zinc separator plant is expected to be in operation at Kaslo the coming summer.

Mr. Byron N. White company has commenced the renovation of the Star mill.

The ore shoot in the Unexpected is yielding out five tons of galena per day out the past few days.

It is rumored that there is a deal on for the Chapleau.

It is rumored that the Emily Edith will resume operations in the spring.

A small force of men will be put to work at the Mountain Chief early in May.

There are over 2000 tons of zinc ore on the ancient dumps of the Mountain Chief.

Joe Butler has a deal on with New York people for 14 of his Slocan and Poplar claims.

The Speculator is closed down, probably awaiting the erection of the Arlington mill in the spring.

The Fisher Maiden once more has resumed operations, and pays its bills through a Spokane bank.

Last week the Port Hope shipped seven tons to Nelson. It is under lease to Charles McNeil and partners.

A deal is on again for the Mollie Hughes. There are some good showings in the Mollie Hughes, and the ore is ready for shipment will run 250 ounces in silver and 10 in gold to the ton.

The ore shipped at present from the Star is mine from the rich deep workings. The ore body is large, streaked with grey copper, and nets in handsome smelter returns.

Enough ore is being shipped to ensure ready shipping for an indefinite period.

Over 200 feet of the upper K. & S. Madison side was torn up and twisted by the slide last week. The damage was repaired last Saturday and the ore shipments again resumed from the slide.

The ore shipments from the mines of the district had silver-lead and zinc, total over 1300 tons for the month of January. A good beginning for the year 1904.

Experts will examine the Star workings next week to prepare final report for the lawsuit over the Rabbit Paw case, which comes up for a hearing in the court on the 27th inst.

The expected litigation between the Last Chance and American Boy mining companies has commenced. The Last Chance is suing the American Boy for \$100,000 damages for ore, it is claimed, mined from the Last Chance ground. This and the Rabbit Paw case will try at Nelson next week.

The following resolution regarding zinc separators was passed at the last meeting of the Kaslo board of trade: "That an application not outstanding for the legislature of British Columbia to amend sub-section 50 of the Mining Clauses Act by adding a proviso therein declaring that zinc or lead concentration works shall not be works in competition with smelters, sampling

date and business-like basis, reaching Throgmorton street and the market with equal facility by means of a thoroughly interesting yet economically conducted press bureau, lectures and carefully prepared literature of an explanatory nature. British Columbia should spend not less than \$25,000 a year on her London office, but it should be disbursed only by a really competent agent-general. To waste Mr. Turner a cent is to incur a useless expenditure.

DODDERING DICK.

We those who have watched the backward antics of Premier McBride while addressing the legislative assembly, the following from the Victoria Times will be keenly appreciated: "There is an expression on the face of the leader of the opposition as he watches the leader of the government, which is so remarkable in its character as a caricature of a man who regards as a broadside, punctuated with desk-smashing blows, which would indicate that Mr. McBride is regarded as a most 'amusing' case."

"What a staid blacksmith the man would have made if Providence had directed his talents into the proper channel. The instinct is in him yet. You can hear him strike his heavy blows."

THE COPPER SITUATION.

During 1933 copper had an interesting career and it promises no less interesting features for the year 1934. A little more than a year ago New York quotations for Lake copper were \$11.81-1 per hundred. Early in February the price had advanced to \$12.75, going to \$13.15 the first week in March, and before the end of the month Lake copper found a ready market at \$13.20 to \$13. This was the highest price reached during the year, though the price was maintained at \$14.50 to \$15 until June. In June a slight decline was noticeable, and, with more or less fluctuation, the price fell throughout the summer and fall, going as low as \$13.12-13 on November 1. It rallied to \$14. During December the quotations fell to \$13.50, and at present the quotation is \$12.75 to \$13. The rise in price in the early part of 1933 was due to a large and steady demand for the metal, and the falling off in the latter part of the year is attributable to a constantly increasing demand until the latter part of the year, when it seemed to be a game of waiting on the part of both seller and consumer. The seller waited for larger stockpiles of orders, and the buyer held back in the expectation of a lower price. The market is at present more active, and the prospect of war in the far east has also had a material influence on the price. Should war actually be declared, a strong and materially higher market may be looked for. It is also said that, although industrial activity is less pronounced in America than a year ago, the European demand for copper has constantly increased. The methods of mining and treating copper ore are being simplified each year, making it possible to produce copper under given conditions at a lower cost than ever before. On the whole, the outlook for the copper mining industry for 1934 is encouraging, and a price at least equal to that prevailing throughout the greater part of 1933 may be anticipated.

WAS MERGER JUDGMENT.

NEW ORK, Feb. 3.—The annual meeting of the Northern Pacific shareholders, adjourned until today, was held in a session which was held in the city of New York. The meeting was held in the city of New York, and the shareholders were present in large numbers. The meeting was held in the city of New York, and the shareholders were present in large numbers. GOVERNMENT RETREATS

Thought Better of Legislating McDonald into a Seat.

Scandalous Work Done on Government House Contract.

VICTORIA, Jan. 28.—When the government announced the introduction of its bill to recall McDonald of Lillicoet, the Times recanted the dismissal of Prior for failing to appreciate the meaning of the independence of parliament act, and suggested that as the cases were somewhat similar it was not unlikely that Governor Joy would veto the bill. McBride seems to have taken alarm, for he has now announced that this measure is to be dropped. It is also stated that as soon as the session is over McDonald will resign, having made provision for some commercial venture in the riding, and that a bye-election will be called. McDonald has not been voting in the house for some days.

of the afternoon today was given up to bills of little interest to British Columbians outside of Vancouver Island, which is more immediately affected by Hawthornthwaite's bill for the protection of deer. This measure reached the third reading stage having its provisions extended for the protection of trout as well. Hawthornthwaite's hand is also seen in a measure introduced by the premier to secure to certain settlers in the E. N. railway belt their surface and under-surface rights. This revises the old squatters' rights, which has been the subject of some commission and of numerous motions, bills, etc. in bygone parliaments. The committee to inquire into the government house arbitration met this morning. Those who have seen the arbitrators report say the arbitrators declare the largest freight paper in British Columbia to be the one issued by the Pacific Coast Steamship Co. The arbitrators report that the freight paper issued by the Pacific Coast Steamship Co. is the largest freight paper in British Columbia. The arbitrators report that the freight paper issued by the Pacific Coast Steamship Co. is the largest freight paper in British Columbia.

TO LOOK AT FINANCES

The McBride Government Sends East For an Expert.

Premier's Course Discredits Him With His Own Followers.

VICTORIA, Jan. 29.—Today was a comparatively light one in the legislature. There was no night sitting, and the discussion on bills was mainly a repetition of those in a committee stage repeated on report. The supply committee finished its work, and the estimates are therefore practically out of the way. It now looks as though the house would get through next week. A prominent government supporter today said there would be no railway legislation, as promised by the premier, the proposition being that the ministry is unable to reconcile the warring interests in this respect. Millson got back to the capital last night, and there was a caucus of government members this morning. The opposition are having a caucus tonight. The government, it is said, has abandoned the enabling bill to recall McDonald, and is now bringing in a bill freeing him of penalties and giving him his seat for this session, the seat to become vacant concurrently with resignation. McDonald is intending to retire anyway, and enter a commercial partnership with a brother-in-law of the premier, the firm getting the benefit of government contracts in Lillicoet district. McBride is losing caste steadily, even with his own supporters. The latter are disgusted with his fulsome references to the Socialists, whom he declares he is proud to work with, and they say there is a heavy reckoning for him in the country when he faces another general election. McDonald, on the other hand, is winning confidence and respect just as rapidly as his opponent is losing it. The commercial interests regard McDonald as safe.

The Socialists were unsuccessful today in getting the candidate's deposit reduced to \$50, and McNiven was again unsuccessful in his motion to substitute for the deposit a regulation signed by fifteen per cent of electors where a candidate offers himself. McNiven's model ballot was adopted by the house. It is black, excepting the white circle for the cross, and the names are to be printed in white. The government announced today its committee of supply that they intend to retain Crown lands in the employment of the Ontario government in connection with the commission to ascertain whether there was a surplus in that province, to serve on the commission to inquire into

British Columbia finances. The opposition challenged this choice as unconstitutional and upbraided the government for investigating after causing mischief by disturbing the whole system of taxation. The sum of \$500 is set apart for the House to declare it unnecessary, just as the proposed commission a few years ago to investigate the mining tax was unnecessary. He said he and Green killed the latter commission.

WORE LIKE BUILDING

Signs of Great Northern Proceeding in the Boundary.

Refusal of C. P. R. to Switch Rossland Ore to Smelter.

PHOENIX, E. C., Jan. 30.—For some days past there has been a number of who were formerly located at or near points on what is known as the Kail-terata rows of ruffed chiffon and their ruffles of silk were placed at intervals half way up the train, the upper portion of which was covered with a full train of finely dotted white point crepe that floated back in graceful folds. The ruffles of silk were placed at intervals half way up the train, the upper portion of which was covered with a full train of finely dotted white point crepe that floated back in graceful folds.

These facts, taken in conjunction with the information that Jap F. Graves, manager of the Granby company, the largest freight paper in British Columbia, has been seen by the Pacific Coast Steamship Co. The arbitrators report that the freight paper issued by the Pacific Coast Steamship Co. is the largest freight paper in British Columbia. The arbitrators report that the freight paper issued by the Pacific Coast Steamship Co. is the largest freight paper in British Columbia.

THE GRIP AGAIN

THIS DANGEROUS EPIDEMIC HAS MADE ANOTHER APPEARANCE.

Every winter influenza, or as it more generally known, the grip makes its appearance in Canada. Every few years it spreads and causes alarming proportions. From all appearances this is one of the years in which it will arise upon a great number of victims, for every day new cases are reported. As is so often the case, the grip is left with a debilitated system, subject to headache and heart palpitation, affected by every change in the weather, and is a physical condition to invite the attack of more serious diseases, such as pneumonia and complications.

A timely suggestion as to how to enable the system to resist the inroads of the grip and its after effects, is to take a box of six for \$1.50 by writing to the Dr. Williams' Pink Pills for Pale People, Inc., 600 North Dearborn St., Chicago, Ill. These pills are very effective in helping one to resist the grip and its after effects, and are very effective in helping one to resist the grip and its after effects.

Ans. to Correspondence.

J. McK. An Sabie.—We are informed that a local bank has foreclosed a mortgage on the assets of the Rossland, Bonanza company, which brings the company's corporate existence to a close.

WEDDING

Wedding of Miss Jean Robinson and Dr. Couillard at Debusque, Ia. The Debusque newspapers devoted much space to the recent wedding of Miss Jean Robinson, daughter of Rev. J. Miller Robinson, M. A., formerly of Rossland, and now pastor of the Westminster Presbyterian church at Debusque, Ia. The wedding took place at 7 o'clock p. m. amidst elaborate church decorations and impressive vocal and instrumental music. The groom was accompanied by Miss Robinson, brother of the bride. The report proceeds: "While the melody of the old story filled the church, the bride party entered, led by the ushers, Messrs. A. Macleay, Dr. Consett, C. W. Walton, Kiesel, Warburg, James (Green), P. A. Penikese, Walter Patterson, Phillip Puruch, W. R. Bach, Arthur Lathrop and Charles Ibach. The groom stood with his best man, Mr. Miller Robinson, at the marriage

shrine. Rev. Dr. Ruston and Rev. Dr. McClelland also stood within the altar rails of evergreen and awaited the coming of the bride party. The little ribbon bearer, Miss Eleanor Robinson and Wesley Walton, opened the sides for the bride party to the entrance doors to the altar with broad satin ribbons and carried them to the chancel where they stood with the bride party during the ceremony. "The bride accompanied by her father and the maid of honor preceded them alone. As the singing ceased, the Rev. Dr. Robinson advanced the front of the garlanded chancel and performed the marriage rites according to the rite services of the Presbyterian church, assisted by Revs. McClelland and Ruston. "The bride gown was almost fair in the delicacy of its texture, dainty arrangement and graceful folds. Soft and filmy as thistle down a full train of finely dotted white point crepe that floated back in graceful folds. The ruffles of silk were placed at intervals half way up the train, the upper portion of which was covered with a full train of finely dotted white point crepe that floated back in graceful folds.

On J. R. Peoria, Ill.—The reason for quitting the Green Mountain-St. Louis Consolidated Gold Mining Company is that the miner failed absolutely to secure any information about the company's plans, and with you and your partner, you are at a loss as to what to do. The mine has not been operated for the past eight months, and no reason is given for this. The miner is at a loss as to what to do. The mine has not been operated for the past eight months, and no reason is given for this.

CITY HOCKEY LEAGUE

FIVE TEAMS ENTER INDUSTRIAL LEAGUE AND ELECT OFFICERS. SCHEDULE OF GAMES ARRANGED—TROPHY TO PLAY FOR. Rossland is to have a brand new hockey league composed of teams from various commercial and mining institutions. The organization has already taken shape under the name of the Industrial Hockey League of Rossland. Five teams are entered and the league games commence next week. The officers of the city league are as follows: J. S. C. Fraser, honorary president. James Hunter, E. R. Kirby, Louis A. Campbell, Robert Hunter and R. P. Parrish, honorary vice presidents. John P. Cosgro, president. Garnet P. Grant, secretary-treasurer. J. P. Grant, D. B. Hunter, D. B. Morkill, A. F. Paddon and William Terwanon, executive committee. The teams entered are representative of the Rossland area: Hunter Bros., Bank of Montreal and West Kootenay Power & Light Company. Players must be connected with the city or the district, or be of the firm interested, and it is expressly understood that players connected with any other team may not compete in the league games. The players will be selected from the following, all of whom have been approved by the executive committee as eligible to compete: War Eagle—H. G. Oliver, Arthur A. Cole, Jay Tuttle, James K. Cram, W. Dunn, C. McBride, A. E. Sherry, Carl R. Day, Robert Hunter and R. P. Parrish, Cosgro, E. B. Kirby and G. Crick, Shanks. Bank of Montreal—W. G. H. Phippe, E. B. Dwyer, C. B. White, E. B. Sutherland, Homer Falding, R. Lamont, A. E. Paddon, E. Duthie and J. S. C. Fraser. Hunter Bros.—Robert Hunter, G. Brown, G. Hicks, E. H. Hatrup, T. Levasseur, W. G. Burke, J. Lee and W. G. West Kootenay P. & L. Co.—John D. McDonald, L. A. Campbell, F. D. Forke, J. W. Parker, Charles B. Summers, Robert Hunter, R. P. Parrish, E. Barrett, Garnet P. Grant, J. Schuller and A. J. Riech. The Rossland D. B. Morkill, A. E. Bowers, J. P. Grant, D. B. Hunter, D. B. Morkill, A. F. Paddon, C. E. Simpson, George Cloherty, George Fraser, Al. Keating and John Anderson. The schedule of games has been drafted as follows: February 4—West Kootenay P. & L. Co. vs. Hunter Bros. February 11—West Kootenay P. & L. Co. vs. Bank of Montreal. February 18—Whimsy of Montreal vs. Hunter Bros. The directors of the skating rink have ordered a trophy to be competed for by the teams, and a trophy of games is expected.

APPEARS IN COURT

GIANT MINING COMPANY PASSES INTO HANDS OF RECEIVER. UTLIN OF LITIGATION UP TO DATE OVER WELL KNOWN ROSSLAND MINE.

The affairs of the Giant Mining Company are in a somewhat complicated condition. The legal standpoint and the denouement of the next week or two in connection with the company are of great interest to the shareholders in the company on both sides of the Atlantic. At the present moment the company is in the hands of a receiver, Judge J. P. Grant, and the receiver has taken possession of the company's assets and liabilities. The receiver has taken possession of the company's assets and liabilities. The receiver has taken possession of the company's assets and liabilities.

THE PULP INDUSTRY

A Coast Company Getting Ready for Extensive Operations. J. M. McKinnon, manager of the Oriental Paper & Pulp Company, Vancouver, states that his company has already commenced work at Greenwood Bay property in preparation for the pulp and paper mills there to be established. Thirty men are on the spot erecting buildings and preparing for housing purposes, and work will be proceeded with now until the plant is completed. This will be a year or eighteen months hence, before the plant is going to be a very large one and machinery for it will have to come from all parts of the world. The wharves referred to are about finished. They are among the finest, says Mr. McKinnon, in the province, being capable of accommodating the largest vessels at the lowest tide. The number of men employed will vary according to the amount of work in progress, as a good many of the undertakings will be let out by contract. When the plant is completed the company expect to have a payroll of three hundred men. Swanson Bay is opposite Princess Royal Island, and the location for the mills is described as ideal in respect to shipping facilities, water power and timber limits. The mill will have a capacity for a daily production of 300 tons of news print, but at present machinery will be installed for just half that amount, a market for all has already been found in Australia, Japan and China, and the company is now negotiating with the C. P. R. company for the handling of the product. In addition to what is shipped abroad it is hoped to supply the local provincial demand, which is put down at 1500 tons a year. The Canadian Finance Syndicate of London will be the directors of the concern.

SOCIETY EVENTS

From Sunday's Daily. Miss Florence Verge leaves this morning for her home in Minneapolis after having spent a month in the city. The guest of her sister, Mrs. A. G. Cressman. During her stay in the Golden City Miss Verge has delighted a wide circle of friends by her talent as a violinist. A pleasant little dance followed the recital by Herr Kaufmann's pupils at Union hall on Friday night. Many of those present had entertained, and stayed to trip the light fantastic for an hour or so, and this feature of the program, was by no means the least enjoyable.

RESTLESS AND CROSS.

When infants or young children are restless and cross or peevish it is a very certain sign that they are not well. The mother may not know just what the trouble is, but she can depend upon it the trouble exists. Give the little one Baby's Own Tablets; see how promptly it will be changed into a happy, smiling, good natured child. The little one will sleep soundly and naturally and the mother will also obtain her much needed rest during the proof given by Mrs. John E. Ramsay, Port Hill, P. E. I., who says: "My baby was cross, restless and did not sleep well, but after giving him Baby's Own Tablets he became better natured, sleeps well and is growing finely. The Tablets have been a great blessing to both baby and myself."

The Tablets are a prompt and certain cure for such troubles as indigestion, sour stomach, colic, constipation, diarrhoea, simple fever and other minor ailments. They always do good and cannot possibly harm the most delicate child. You can get the Tablets from any medicine dealer, or they will be sent by mail at 25 cents a box by writing to The Dr. Williams' Medicine Co., Brockville, Ont.

THE LEAD BOUNTIES

G. O. BUCHANAN GETS PERMANENT APPOINTMENT AS INSPECTOR. LEMIEUX SUCCEEDS CARROLL AS SOLICITOR GENERAL AT OTTAWA.

OTTAWA, Jan. 29.—G. O. Buchanan of Kelso has been appointed inspector of lead bounties in British Columbia at a salary of \$2400.

Solicitor General Carroll has been appointed a justice of the supreme court of Quebec for the district of Gaspere, in place of Judge Deblay, and Rodolphe Lemieux, M. P. for Gaspere, has been appointed solicitor general. Lemieux was sworn in at noon. The election of Carroll, has been issued, the election to take place on February 19th.

There will be no choice of a speaker for some time, but Victor Geoffroy, M. P. is prominently mentioned, but was organized by a committee of ladies and gentlemen who thought the juncture opportune. The affair was thoroughly enjoyable, and the pleasure of the dance was substantially increased by reason of the carpet having been removed from the main floor. Some exceptionally handsome gowns were worn. The full list of the guests is as follows: Madames McKenzie, Jenkins, Kenning, Watson, Barker, Clute, Richardson, Davis, Goodeva, Dockrell, Whitley, Madge, Morrow, Campbell, Dickson, Hinton, Winter, Moseley and Thompson.

THE RAZOR STEEL TEMPER CROSS-CUT SAW

THE RAZOR STEEL TEMPER CROSS-CUT SAW. We take pleasure in offering to the public a saw manufactured of the finest quality of steel and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than any process known. A saw to cut "true" must be made of this steel. This secret process and temper is known and used only by ourselves. These saws are elliptic ground this way, and are made of the best quality of steel. They are made of the best quality of steel. They are made of the best quality of steel.

IN THE FIELD OF SPORT

From Sunday's Daily. The Rossland hockey team has done well on tour. The tie game at Vernon was by no means a disappointment; for the local enthusiasts would not have been greatly surprised had Vernon downed the Rosslanders. Vernon plays exceptionally fast hockey, and has had the advantage of other matches in the present season, while Rossland was testing its metal against outsiders for the first time, and with a re-organized combination this ordeal is by no means one in which betting is to be done. At Revelstoke the team was in better shape and had more confidence in itself. The result that Revelstoke club was hopelessly defeated. The home team was outclassed, but in the first half the honour was more or less even.

FELL FROM A CAGE

ALBERT RASMUSSEN MET HIS DEATH IN WHITE BEAR SHAFT LAST NIGHT.

TERRIBLE FATALITY CUTS OFF HARDWORKING AND FRUGAL MINER.

From Sunday's Daily. Albert Rasmussen, miner, was killed at the White Bear mine last evening. The accident was of a ghastly nature, the deceased man's skull being crushed like an eggshell through being precipitated from a rapidly moving cage to the bottom of the shaft. An inquest will be commenced tomorrow.

Rasmussen was on the afternoon shift, and was working on the 1,000 level with his partner, John Nohli. About 8:30 o'clock the men started to move their machine to the 850 level, and got on the cage with Patrick J. Bonner, foreman. Rasmussen carried in his arms the seven foot bar of the machine drill. The cage had only been raised about four or twenty feet when the end of the bar caught on the timbering of the shaft. It immediately rebounded, struck Rasmussen and knocked him from the cage. As speedily as possible the cage was stopped and dropped to the bottom of the shaft, where Rasmussen was found with his head on the floor. His skull was frightfully crushed, and he had sustained other terrible injuries. The injury to the skull, however, was sufficient to cause instant death, and that this was the cause seems to be indicated by the fact that neither Rasmussen nor Nohli were found from the deceased man. The body was raised to the surface and later brought to the undertaker's establishment, where it awaits the examination of the coroner's jury.

The statement is made that the usual practice under such circumstances to insure safety is to fasten a machine drill bar to the side of the cage, but that miners frequently hold such articles in their hands for some time and trouble. The mine officials say that the cage was not hoisted with more than usual speed. Police Chief Bradshaw visited the White Bear mine immediately after the fatality and secured information from Bonner, Nohli and others present. This was placed before Dr. McKenzie, acting coroner, who decided to hold an inquest tomorrow.

The late Albert Rasmussen was about 35 years of age and a native of Denmark. He crossed the Atlantic many years ago, and for a time was employed as a miner on the Great Northern railroad. Later he was a miner in the Coeur d'Alene, coming to Roseland from Washington, D. C., in 1914. Since that time he has resided in the camp. He was married six years ago, and leaves a wife and four children, the eldest of whom is but four years of age.

Deceased was a hardworking and frugal man. He resided near the Lion brewery in property which he owned. He was insured in various companies, and was a member in good standing of the Roseland branch of the I. O. O. F., Western Federation of Miners.

The date of the funeral will not be determined until Monday.

TEN DAYS TO PASS

BEFORE WINTER CARNIVAL COMMENCES—ARRANGEMENTS PROGRESSING.

SOME OF THE FEATURES CROWDING UP DURING THE PAST FEW DAYS.

From Sunday's Daily. Roseland's seventh annual Winter Carnival is now only ten days away, and the committee in charge of the celebration is making every effort to have all arrangements shipshape for the opening day of the Carnival. Posters advertising the celebration have been liberally distributed throughout the country, low railroad rates have been secured, personal letters have been written to scores of ex-Roselanders, and the program of events is now in the printer's hands.

The International Music hall has been secured for the use of tug-of-war teams desiring to practice for the contests during the carnival, and the premises will be opened for this purpose tomorrow. Cleats will be put down and ropes supplied.

H. N. Galer, of the Granby Smelter, has written the committee to say that he will take up the matter of forming a smelter team with the employees of the plant and recommend that the smelter enter a team for the event.

The carnival will not be graded by the presence of F. Aug. Heintze, Mr. Heintze has sent the committee an exceedingly neat letter acknowledging the committee's cordial invitation to visit Roseland for the celebration, and remarking that pressing business engagements prevent his leaving Butte on the dates of the carnival.

The committee has decided to place on the programme a ski race for ladies, provided four entries are made. These entries can be filed immediately with the present secretary, Mr. Mackenzie, who naturally desire to be assured of competition before announcing the races. Good prizes will be offered if the event is successful.

The toboggan slide will be opened this week, and the toboggans brought out of the warehouse where they have resided since last February. In opening the toboggan slide before the carnival commences the management expects that citizens will become familiar with the use of the toboggan.

The suggested excursion from Spokane will materialize if the matter of railroad accommodation can be satisfactorily arranged. The Spokane Athletic club has the matter under advisement, and the Chamber of Commerce will lend its assistance. Former Roselanders who have been in Spokane recently report that considerable interest in the celebration is

FOR PUBLIC SAFETY

BILLS TO BE AMENDED TO SECURE SAFETY OF PUBLIC BUILDINGS.

PRESENT BYLAW UNWORKABLE BECAUSE OF ENORMOUS FEES EXACTED.

From Sunday's Daily. The question of the safety of buildings used for public purposes was brought at last meeting of the city council by Alderman Rolt. The opinion was apparently unanimous at the council that the matter was imperative, and it was verbally referred to the city engineer to make a report on the subject.

In 1901 Major VanBuskirk inspected the opera house and the International music hall. At that time his report to the council was brief and succinct. He reported briefly that he refused to grant the necessary certificate. Since then, however, it is worthy of note that changes have been made at the opera house and the International music hall. At that time his report to the council was brief and succinct. He reported briefly that he refused to grant the necessary certificate. Since then, however, it is worthy of note that changes have been made at the opera house and the International music hall.

The engineer takes the position that he knows nothing to lead him to alter his opinion on these buildings as expressed in 1901, and that the nature of the bylaw is such that he cannot legally go to these buildings until certain steps are taken. The bylaw—No. 6 of the consolidated municipal ordinances—says that no opera house or music hall shall conduct its business without the payment of a license fee, and that on application for a license the premises shall be inspected by the building inspector and pronounced safe before the license is issued. Pending application for a license the building inspector has, he asserts, no more authority to enter any building than to enter a private residence, the application for a license being his "warrant to search" in a manner speaking.

Another point in connection with the bylaw in question is that no provision is made for any inspection of churches or premises other than theatres and music halls. Presumably the provision has been omitted because no license is required for public buildings used for purposes other than these specified.

The bylaw placed the license fees for music halls and theatres at a figure regarded as absurdly high, higher in fact than certain amusements in the west. For instance, the opera house is required to pay \$25 per month as a general license and \$5 as a special license every time an entertainment takes place. No theatrical venture could stagger under such a burden, so that the fees have never been paid, and the conditions were so arranged that succeeding municipal administrations made no effort to enforce the bylaw in that particular.

Alderman Rolt has secured leave to bring in a bylaw amending the present ordinance and reducing the fees to a figure which is reasonable. The bylaw in question is that no provision is made for any inspection of churches or premises other than theatres and music halls.

WOODMEN OF THE WORLD.

Events of the Week in Roseland Lodge Circle.

From Sunday's Daily. On Wednesday the Woodmen of the World held their second monthly meeting. There was a goodly attendance, and things went off with a swing. The Ladies' Circle is now fairly on its way and ten of the many applicants were given the protection degree at this meeting. It is the intention of the ladies to get the balance of the 25 in line that are required for them to procure a charter and then branch out for themselves. The circle already has a nice little sum of money on hand, which is held in trust by the local camp. The ladies claim they are going to make the chips fly in the local forest, and it is rumored that they are already having them.

They have an idea already of getting up an excursion to Spokane camp and circle. Three other applicants were admitted and given the protection and explained degrees. There are about 15 applications now before the camp, and things look well for the future in this order in Roseland. The timber campaign is in sound and excellent.

The next meeting will be on Tuesday, the 9th of February. Please keep this in mind. Woodmen sovereigns, and bring your wives to the next session, so as to give the Circle a good boost at the start.

Do you take your lunch with you? Clark's Delicious Pork and Beans & Condensed strength and complete satisfaction.

HOME WITH TROPHY

ROSSLAND CURLERS BROUGHT BIG GRAND CHALLENGE CUP HOME.
