Mr. Justice Aylwin charged the Jury. He commenced by explaining the nature of the crime of rape, and the great difficulty of proving it. There was no proof of rape from the girl's own testimony; but it rather appeared that she had yielded to his earnest solicitations. It had been also proved that the house was of a bad tharacter. He felt it was his duty to tell the jury that there was not sufficient evidence to justify the prisoner being put on his defence.

We are informed that a Scheme is now privately in agitation for the constitution of a Line of Steam Ships, of large earrying cheatity, between the Mersey and Quebec, in order to promote the prosperity of the Canadian Provinces and the comfort of Emiliants and Passengers to the Settlements of the Far West, of Canada and the United States. Several documents bearing so the poject have been placed in our possession by the gentlemen from whom it has originated, but our restricted space will not permit of any detailed description. We believe the tending features to be, however, the formation of a Steam Line as indicated; and the advantages may be summed up in the followthe formation of a Steam Line as indicated; and Mr. Justice 'Aylvin.—Mr. Coroner you will take charge of the Jury until to-morrow; and Mr. Deliste you will set a fine of £5 on the Sheriff, and you will award process to the Coroner to levy the same.

Security's Orrice, Toronto, Oct. 26, 1800.

His Excellency the Governor General has been pleased to make the following appointments, viz.:

Janus Henry Richardson, Esquire, M. R., and M. R.C. of Sargeona, England, to be Professor of Practical Annotomy is the University of Toronto, in the room of Dr. Henry Sullivin, decessed.

The Rev. Donald McLeod and the Rev. Thomas Snell, to be Associate Members of the Board of Trustees, for Superintending the Grammar Schools. United States, or, finally, via the Ohio, Missouri, and Mississippi Rivers, even to Oregon, California, New Orleans, and the Gult of Mexico; f. urth.

And Grant, Weidenstein, Control of Mexico; f. urth.

Supposing however, that instead of Steamshipe propelled by paddle wheels—such as are now used for the mails—a line of screw-propelled vessels were adopted, the passage would probably be increased by two or three days, but the expense would be lessened, and the rate of passage-money would better suit the means of emigrants. The

would be lessened, and the rate of passage money would better suit the means of emignants. The experience of the City of Clasgow, in her voyages to and from New York, and that of the screw vessels now running in the Mediterranean and Continental trade, have fully tested the effects of the screw. We hope, therefore, that the promoters of this important enterprize will determine to commente their operations by building Vessels, suited both for the accomposition of Emigranta and Freight, which can, we think, be best ecomplished by the adoption of the Screw Propeller.

THE CANADAS AND THE BATTISH NORTH ANDRICAS POSSESSIONS.—We shall feel obliged for further observations on these most important Colonies from the Gentleman who favored us with those which appear in our Journal this day. We agree with him in thinking that if our Government will not act in the spirit he suggests, that they should ask of the "United States" to take them under their protection, or agree to assist us in making them into an "Independent Years," for as these Colonies have been micananged and mingosermed, they are an incumbrance, and a source of danger to us in every way, and that we are not acting with honor or justice towards those we found there, and those we have induced to go there, in retaining them in their present position. A great nation like England should be above acting the gause of the "Dog in the Manger" in any case, especially when it causes degradation and ruin to a numerous and deserving Population, the greater part of which are British or of British origin.

case, especially when it causes degradation and min to a numerous and deserving Population, the greater part of which are British or of British origin.

We are unable this week to make use of the information we have received relative to the Canadas and the proposed Steam Line to them and Western America. The subject, however, is one of great importance, to which we shall willingly devote a portion of our space.—Linerpool Course.

THE Suberibers have the honor of announcing to the gentlemen of the Medical Profession, that they have been appointed AGENTS for the Sule of COD LIVER OIL, from the highly respectable House of RUSHTON, CLARKE & Co., of NEW YORK, and are now prepared to furnish such as may honor them with their orders with an article of undoubted purity.

Messrs, Rushton, Clarke & Co., in order to obtain this Oil in its entire purity and freshness, have established two Meantactories on the New England coast, and one at Newfoundland, where the article is manufactured from fresh Livers by presone sepecially employed by R. C. & Co., and generally under the personal inspection of one meraber of their Firm. The great rare they have taken in the manufacture of this article, for the last two years, have exceeded that of any other House on the Continent of Ngcilt America, and have obtained the considerace and applicated of the Medical Profussion throughout the United States.

The Subscribers, wishing that the Caradus might have the advantages of procuring this valuable medicine in a sante of purity, and from a source perfectly reliable, have undertaken the Agency of Messrs. R. C. & Co., with a desire of imparting confidence in an article of such importance, now of such value to the patient, and importance now of such value to the patient, and importance to the Physician,

DR. HALDEY—DEAR SIS:—Having taken your forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered clasely to the directions which accompany the Medicines. I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to have recovered my health, howestable. Previous to taking the Wine and Palls, I had recourse to the best medical treatment, but continued to grow worse to an alerming degree. Some of my friends spoke despisitingly of my case, and aried to persuade me from making use of any advertised remedies; until I doubt not, but what there are hundreds who are dissuaded from taking your excellent Medicines, it consequence to the disception and inefficiency of many advertised remedies, put onto by unprincipled mon, in flaming advertisements. But, what a pity it is that the deception used by others should be the means of discussing many laboring under discuss, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I communed making use of them, I was in a wrotched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends; I was enthely cured, and had increased diffuse pounds in weight, having taken one box of the Pills and two bottles I the Wise. Would to God that every poor sufferer would avail himself of the aumer modies!
