THE COURIER. THURSDAY, OCTOBER 2, 1851.

We understand that considerable dissatisfaction has been expressed among the Government people regarding the amount of money secured by them for the purpose of paying their expenses from Toronto to Quebec.

Our gentleman, who it seems, keeps his carriage, is greatly incensed because he was awarded only one hundred pounds. It appears to us that this gentleman, who can afford to keep his carriage, and of course horses and servants, might, without any injustice, have been left on his way down the river.

Ma. Gouge's Lecture.—This gentleman spoke to a crowded audience last evening, and the lecture was characterized by all the speaker's usual ability and force of argument against the interference of his particular vice of intemperance.

On the 1st of the month, a man, who has a large family, gets ten pounds to pay his expenses, while another gets fifteen pounds for the expense of his home.

From Constantinople, we have news to the effect that the Turkish fleet, in the Mediterranean, is considered to be the best.

Among the prisoners sent to Spain by the Cuban Government, we were to see the names of two Canadians—J. N. Levey, of Quebec, and W. L. Constantine, lately of Montreal.

the bill of St. Sepulchre tolled almost every morning. There is only this difference, that the unfortunate culprit at Newgate were suffering their lives to a sanguinary law, which was hanging them for stealing or otherwise defrauding the value of a shilling; whereas the most reckless villains that ever disgraced the name of humanity, it is certainly not a very comfortable state of society, nor does it give a very alluring picture of the model Republic, to find eight men at once arraigned for murder in one city, and out of that number three already tried and condemned to death.

It is a very doubtful question, it appears that in America the authorities are prompt in avenging crime by hanging up transgressors by the neck, but we have never heard that either publicly or privately they ever themselves much for the prevention of it.

The episcopal gazette, which was very long, and which, as we have seen, has been a long time in the air, and which, as we have seen, has been a long time in the air.

We should like to know what proportion there is between the expense of those (or any one of those) persons going from Toronto to Quebec and that which Mr. Harker's former creditors to Washington on the country, when like another Jack-o'-diamond, he set off in quest of the stone of wisdom.

Competitive on Constitution was read, but no great effect was produced, and the subject was not discussed. It was only a matter of fact, and not a matter of principle.
