### ELLIS—GREEN

The Evening Journal of Edmonton (Alta.) of June 29 says:—

"Yesterday evening a quiet wedding was celebrated at All Saints' Church, when Miss Miriam Green, daughter of Mr. Aaron Green of this city, was married to Mr. George E. Ellis, B.A., Mathematical and Science teacher of the Edmonton High School. The bride looked lovely in a beautiful gown of white Louisiana silk, trimmed with handsome lace, and wore a veil garlanded with orange blossoms. Little Miss Vera McLennen in white silk and poke bonnet made a charming flower girl.

"The service was choral and the chancel was prettily decorated by the Chancel guild, of which Miss Green was an active member. Rev. Hy Allan Grey performed the ceremony.

"Mr. and Mrs. Ellis left last night on a honeymoon trip to eastern cities. In September they will return to their handsome new residence on Ninth street."

Both bride and groom are graduates of the Athens High School and are deservedly held in high esteem by the people of this district. We have pleasure in extending congratulations and best wishes to Mr. and Mrs. Ellis.

### Swept Away by the Current

Particulars of the drowning of Mr. George Oliver, at Saskatoon, N.W.T., have been received. It seems he drove into the river to fill a barrel of water, but as the stream had risen rapidly during the last few days the swift current carried the horses and vehicle away. He attempted to jump, but was apparently unable to swim, and disappeared from sight in a few seconds. The horses and wagon were found about two miles away from the place of the accident, but no trace of Oliver's body has been found, and with the high water and swift current it is probable the body will never be located. He was working in a livery stable owned by his brother.

INTERNATIONAL LESSON NO. IV. JULY 23, 1905

The Gracious Invitation—Isaiah 55: 1-13.

Commentary—I. An invitation to the blessings of the gospel (vs. 1-5), I. Ho—A word calling immediate and earnest attention to what is to follow, every one—Every one who has a keen sense of need and an intense desire for these things (see Matt. v. 6). In this verse note, 1. The need. 2. The provisions made. 3. The price. 4. The source—(1 not from Christ; (2) from Christ. It is Christ that satisfies. To the waters—The plural denotes abundance. "In countries like Palestine where water is scarce, where there are many months without rain, this figure, would be well understood." These waters typify the blessings of the gospel. The Holy Spirit is given in abundance (see John iv. 14). The water of life which Jesus gives is 1. Pure. 2. Satisfying. 3. A never failing supply. 4. Free. 5. For all who thirst. Water in various forms is frequently used in the Scriptures to represent the grace of God (see John vi. 35; Rev. xxi. 6; Ezek. xxxv. 20-27; Isa. lviii. 11). Buy... without money—A paradoxical expression. We are to buy salvation by parting with everything which comes between us and Christ, (Matt. xiii. 44, 46; Luke xii. 33; Rev. iii. 18). Wine and milk contains all the elements necessary for the growth of the animal framework. Without price—the freeness of the offer is again repeated that there may be no mistake and the poorest and most needy may feel sure of a welcome. The best things in this world and those which money cannot buy and which are absolutely free to all. Purity, sunlight, pure water, character, contentment, love, forgiveness, joy, peace—these cannot be purchased, but all may have them who will. The poor cannot receive these choicest treasures of the rich water unless they lack—Trumbull. "Since salvation is spiritual and belongs to the Creator it cannot from its very nature be bought. Forgiveness, the gift of the Holy Spirit, the blessings of abundant love, and heaven, must be received as gifts from God, or they cannot be received at all. To undertake to purchase them would destroy their value. What is purchased love, or sympathy or forgiveness which we have paid for?"

2. Wherefore—There is a recompense here as well as a reward; against making much of that which is of the least importance.—Bannister. Not bread—Contrast the "bread of deceit" (Prov. xx. 17) with the "bread of life" (John vi. 32, 33). Satisfying—not—Men often give labor and money to obtain the honors and pleasures of this world and yet these do not satisfy the soul or give peace to the conscience. The religious life is a receiving without spending. The worldly life is a continual spending without lasting profit or satisfaction. "Nothing but God can meet the boundless desires of the soul. God has not created a single human soul small and poor that all the material universe can fill it." In factness—This expression pictures to us the choicest things that God has provided for his ample and satisfying (1. Cor. ii. 9; Psalm xxxvi. 8; Luke. 5). Incline your ear—Pay attention. Soul shall live—Life is more than mere existence. Real life is spiritual life—a life in Christ; and given by Christ (John vi. 6). Everlasting covenant—The covenant made first with Abraham and renewed with David; the covenant promised of Christ in His humiliation and ending with a crowned Christ, exulting in royal victorie and a restored church. "Sure mercies"—That is, the mercies promised to David and his house (see II. Sam. vii. 8-16, 23-25).

4. Given him—God continues calling attention to the great Messias. He is the central figure of these three chapters. "David was the type and Christ the antitype. David in supreme royalty, king over all foes and friends; Christ in ascended majesty, but dispensing his rich blessings, which He has provided in His redemptive work to all who will receive them. A witness to the times even unto death for God, to His law, to His claims and to His plan of redeeming love. Leader, etc.—He was the great lawgiver, originating laws and institutions for his people. One of our greatest needs is a law. A law that God will enforce and that we may safely through this world to the final victory and reward. We have such a leader in Jesus Christ. People—People.—R. V. We must keep in mind that no race distinctions are allowed. All the peoples and nations of the world are included.

5. Call a nation—The Christian church a holy nation, a peculiar people, knownest not.—The Gentle word which he had hitherto not distinguished by covenants and blessings.—Bannister, know not ye, etc.—The gentle nation was to become one with the people of God (see Eph. 2, 14-15).

6. Conditions of accepting the invitation (vs. 6, 7). 6. Seek—The only way to find God is to seek Him; but how? By repentance and forsaking sin. May be found—This implies that there will be a time when we cannot find Him. "There is a limit to the offer of salvation which is made to all. If the sinner could suspend his choice forever there would be no punishment. Even in this life there is a limit. If there is a time when God is near and when he may be found, there must be a time when he is no longer near and no longer to be found.—Hom, Com. 7. Wicked, unrighteous—The wicked man sins more evidently in this way. The mercies of our refers to the more subtle workings of sin in the thoughts." All are guilty in the latter respect though many fancy themselves safe because not openly wicked in their ways.—E. A. E. For safety return—The sinner must first forsake his sins. Yet this is not sufficient, he must actually come to God. Repentance therefore implies both the negative and the positive duty. Repentance, when suggests that all have sinned and that God while these words may seem strictly applicable only to the backslider, yet they are appropriate to all mankind. Will have mercy—However far away the sinner may have gone yet when he returns with his whole heart God will not reject him. Abundantly pardon—God's pardon is free and full. The margin renders it "multiply to man."

III. Reasons for accepting the invitation (vs. 8-13). 8. My thoughts—the heart's thoughts transcended those of man

as much as the heaven is higher than the earth. The thoughts and ways of Jehovah are his purposes of redemption. Thus we have here not only a motive for repentance, but also for eager, expectant hope.—Cam. Bib.

9. My ways higher, etc.—This is a natural and beautiful illustration of the previous verse. One fellow man might not be willing to forgive, but God is always ready to pardon the true penitent.

10. Rain... snow, etc.—By quick association of the ideas mentioned in verse 9 there is a comparison here made. Rain and snow fall from heaven to water the earth and so prepare it for its annual growths to feed the bodies of men and beasts. Just so God's word falls from heaven to produce fruit of righteousness among the millions of Israel and of out-lying peoples, and it shall not be void, for every word that proceedeth out of the mouth of God is bread (Deut. viii. 8).

11. So, etc.—So every word that God utters shall be made a blessing to man. The gospel promises and commandments are all important and beneficial. Not return void—It shall not return without results. God's purposes shall be realized. "The full accomplishment of this verse and verses 12 and 13 is to be at the Jews' final restoration, and the conversion of the world."—J. F. & B. 12. Go out with joy, etc.—The words are used as illustrative of the people of God from the mosaic dispensation and brought into gospel privileges under the Christ. They go forth bounding with joy for Christ, and all nature—the mountains, the hills and the trees—take on the happy spirit of the church. The result shall be of the world's renewal.—Whedon's Com. 13. Instead of the thorn, etc.—Christ's work in the world is to remove the needless and injurious, and to plant the good and the helpful. Where the gospel goes sin must give way to holiness. For a name—That is, "for a memorial to his praise" (Jer. xiii. 11).

14. Buy wine and milk (v. 1). Coming to Christ, the fountain of living waters, we find not only water, which refreshes and satisfies, but wine which gladdens and milk which strengthens—everything essential to spiritual life and growth. God offers not only necessities, but luxuries (Isa. xxx. 6).

15. Abundantly pardon (v. 7). 1. Abundant love. A love which in its breadth and length and depth and height passeth knowledge (Eph. iii. 18, 19). When man, in his finite love, pardons, he says, "I will forgive, but I can never forget." God, in his infinite love, says, "I will cast your sins into the depths of the sea of oblivion" (Micah vii. 19). 2. Abundant means. The inspired word of God, the blood of the crucified Jesus, the intercession of the risen Christ, these, applied by the ever faithful Holy Spirit, are His provisions. More than all the sands of the sea, and all the stars of the heavens, and all the drops of the ocean, and all the leaves of the trees, is the multitude of the "transgressions which God has forgiven. 4. Abundant ease. Seek the Lord, call upon him, forsake your own way, and your own thoughts, return unto the Lord and he will have mercy, to our God, for he will abundantly pardon" (vs. 6, 7).

16. A SCHOOL FOR BRANDING. Starting Conditions of the Mafia Revealed in Pennsylvania.

Seraton, Pa., July 10.—The hearing given Sam Rita, the member of the Mafia arrested in a cave, took place in Carbondale to-day, and revealed a startling state of affairs among the members of the Mafia now existing here. It appears that it was not the intention of the Mafia to murder Father Cerruti, the Italian priest of Carbondale, but to brand him, and the meeting in the cave was for the purpose of instructing the men selected for the outrage how to do the branding. The branding was to consist of slashing the victim on each cheek with a razor, so as to mark him for all time as an enemy of the society. Detectives scouted outside of the cave heard all the details of the plot. The men who were deputized to do the slashing were furnished with wooden razors and instructed how to do the work by making use of a dummy victim. The hearing developed the fact that Rita was the chief of the gang, and he was committed, without bail.

17. A MAD CAT SCARE. Bites Little Girl in Dumfries Village and Disappears in the Bush.

Galt, Ont., July 10.—The neighborhood of Sandy Knoll, in Dumfries township, on the outskirts of Galt, is suffering from a mad cat scare. The scare had origin in the conduct of a cat belonging to the family of James Houghton, a teamster, which, although it had never before shown viciousness, but on the contrary, was a pet of the family, today suddenly attacked its little mistress in the garden and bit her severely on the leg.

The girl's brother kicked the cat off and it thereupon pursued a passing hen which it chased into the bush. Then the cat disappeared and has not been seen since. In the four years it has never before left home.

18. PARIS INVITES MANUFACTURERS. Canadians Having the Time of Their Lives in the Old Country.

Toronto, July 10.—Mr. John Flett, fed- of Commerce, through the French Ambassador in London, sent an invitation to-day to visit the French capital, and already over a hundred have accepted. The date of the visit will likely be Tuesday next. This will delay the great Liberal banquet in London, but it will likely follow at the end of the week. To-morrow the Canadian Manufacturers' Association goes to Edinburgh.

The Newcastle and Gateshead Chamber of Commerce and Mayor Baxter Ellis gave an enthusiastic reception to the manufacturers to-day. Luncheon was served in the famous Guild Hall after their arrival at noon, when Mayor Ellis and Vice-President Gashish, of the Chamber, and former Mayor Sir William Stephenson welcomed the visitors. R. C. Wilkins, of Montreal, and John M. Coates, of Ottawa, replied, and Sir William Stephenson called to Earl Grey the greetings of the visiting Chamber of Commerce, as this is Earl Grey's home.

The visitors divided into four parties,

NEWS IN BRIEF

A combination of 26 coal companies in Indiana has been affected. William J. Evans, the assistant City Commissioner of Toronto, has resigned. Colonel Jefferson E. Doolittle, a prominent mine owner and capitalist of New Jersey, is dead.

News has reached Sydney, N. S. W., that great damage has been caused in Samoa by a hurricane.

Mr. R. C. Wright's box factory and planing mill were destroyed by fire at Thorndale, Mass., \$6,000.

Edward Shufelt, found guilty at Regina of having stolen horses in his possession, was sentenced to five years' imprisonment.

Islands on Lake Temagami will be leased by the Government at \$20 for islands half an acre, and \$3 per acre additional up to five acres.

According to the final estimates of the Commissioners of Taxes and Assessments, New York City this year is worth \$8,923,627, and this year is \$27,613,570 over the value of the city last year.

The body of Wm. Gander, of Cincinnati, who shot his wife, his brother-in-law, another man and one of the policemen who tried to arrest him, was found not far from his home on Line of Heights. None of the persons whom he shot will die.

It is reported in Montreal on good authority, that the Caledonian Springs Hotel property will pass into the hands of the Canadian Pacific Railway within a week or ten days. It is now controlled by Mr. David Russell, who is negotiating the transfer.

It is generally expected that Medicine Hat will be the headquarters of Strathcona's Horse, the new mounted regiment to be established in the Territories. The climate here is good for the conditions otherwise good for the economical maintenance of a mounted corps.

A Shocking Tragedy at Stellarton, Nova Scotia.

A Halifax report: A terrible tragedy occurred about midnight last night on the main street of the town of Stellarton. John McKenzie, of New Glasgow, shot and killed John W. Ferguson, of Stellarton. McKenzie was coming down the street when he saw Ferguson, deceased Ferguson and Malcolm Campbell, ran after him and justified McKenzie. McKenzie evidently thought he meant to attack him. When they came up to him he called out to them to stand back. They still came on, and he drew a revolver and shot Ferguson through the heart. He then ran for home without waiting to see the effect of the shot, and evidently thinking nothing serious had happened, went to bed.

Campbell in the meantime ran for a doctor, but Ferguson was dead. Campbell at first denied that he knew who fired the shot, but after being locked up a few hours he informed the jailer who it was.

McKenzie was arrested in bed at his father's house.

The inquest to-day brought out the fact that Campbell and deceased had been drinking, and were on the street. The dead man seemed to have worried McKenzie, who drew a revolver and fired. The prisoner is respectfully connected, and previously bore a good name.

The jury found that McKenzie shot Ferguson.

FOUND SPANISH TREASURE. Workmen Tearing Down Mansion Discover Hidden Gold.

New York, July 10.—An iron box filled with Spanish gold has been dug out of the ground at Riverhead, L. I., and the story at once grew that it was buried there by Captain Kidd, the pirate. It is certain the money was buried more than a century ago. It was found by men engaged in tearing down the old Ostrander mansion, that is more than a hundred years old. A passage-way was discovered leading from the cellar straight to the box. The entrance was hidden by a large stone.

DANGER OF TUBERCULOSIS.

Want Assistance in Preventing Consumption.

Disease Held to be as Contagious as Smallpox.

The Law Respecting the "Fifth Healers."

Toronto report: It was the consensus of opinion at the session of the Council of the College of Physicians and Surgeons of Ontario yesterday that immediate steps should be taken to prevent the spread of what has become known as the "White Plague," and that the Medical Association was the proper body to deal with the question.

The matter came up on a resolution of Dr. W. H. Moorehouse, of London, providing for the appointment of a committee to interview the Ontario Government and endeavor to secure a liberal grant to assist in preventing the spread of tuberculosis. The resolution met with the cordial support of the members, and the opinion was expressed that the Province should lay aside a specified sum annually for this purpose.

Dr. Thornton, of Gravenhurst, stated that the sanitarium at Gravenhurst was filled to its utmost capacity, and in consequence he had been unable to find suitable quarters for several consumptive patients he had under his charge.

It was shown that with the gain in knowledge as to the contagious character of the disease people had as yet failed to regard persons affected with tuberculosis with alarm. General hospitals were enjoined under pain of forfeiture of Government and municipal grants from receiving consumptive patients, and this was a wise precaution, as it was a highly dangerous thing for sick people to be thrown in contact with persons suffering from tuberculosis.

Dr. E. H. Thornton, of Coneseon, related a significant case that had come under his observation. A young girl from the village of Coneseon had gone to visit relatives at Kingston. While there she had kissed a person afflicted with tuberculosis, and in this way contracted the malady. On her return to Coneseon she in turn was kissed by several friends in the village, and by this means three families became infected with the disease and three deaths resulted. The malady he regarded just as contagious as smallpox, and in order to stamp it out, or at least prevent its spread, provision should be made so that consumptives could be isolated and at the same time given the treatment necessary to their recovery. The Medical Association were the proper body to take charge, and the Province should bear the expense of such a movement. Dr. Meares, of Woodstock, spoke along the same lines. The matter was referred to a committee to present a report.

Senate is Interested. In his opening speech Hon. Dr. Sullivan, of Kingston, stated that he bore a message of greeting from the Senate of the Dominion of Canada, requesting them to aid in formulating some means which would apply to all Canada in the arresting and prevention of that widespread disease called consumption. Dr. Edwards, the chairman of the National Association in Ottawa, was throwing his whole powers into this great work. Dr. Sullivan stated, and would gladly receive any aid from wherever source it came.

It was announced that a large number of doctors throughout the Province were behind in their fees, and it was recommended that a notice should be sent out to the delinquents that unless the amounts owing were paid their licenses as practitioners would be revoked. The fee is \$2 per year. This matter was also referred to a committee.

Dr. Charles Rose, was submitted, and will probably be issued to-day. A bill fore-shadows an appeal to the Legislature to amend the code so as to expedite the prosecution of Christian Scientists, who are not particularly vulnerable under the existing Act.

MOBILIZE SWEDISH ARMY. A Means of Lending Force to the Riksdag Proposals.

Stockholm, July 10.—The Associated Press is in a position to state that an order for the mobilization of the Swedish army has been made, and that a proclamation to this effect will probably be issued within a week.

The mobilization is intended as a means of giving added force to any proposal for settlement which the special committee appointed by the Riksdag may make to the Norwegian Storting.

King Oscar granted a private audience to a correspondent of the Associated Press at the royal palace to-day. In a lengthy conversation His Majesty expressed his views on the present situation and said emphatically that he would never allow any of his sons or his grandsons to accept the Norwegian throne.

In the course of conversation King Oscar reiterated his official utterances regarding his position on the consular bill passed by the Storting and the events which followed his veto to it, and said: "When the King of Norway considers that the welfare of the country demands that he should veto a bill passed by the Storting his right to do so is unconditionally shown in Norway's constitution, and he would be false to his oath if he does not exercise this right in accordance with his conscience."

"The King of Norway it was of the most necessity that I should always keep before my eyes the first article of the Norwegian constitution, which reads: The Kingdom of Norway is a free, independent, indivisible and inalienable country, united to Sweden under one king. Therefore, it was imperative before approving a bill separating the consular systems of Sweden and Norway that I should consider the welfare and interests of both countries, and I had a perfect right as King of NORWAY to refuse my sanction."

Market Reports

The Week. Toronto Farmers' Market.

The offerings of grain to-day were all, and prices are purely nominal. Hay is steady, with sales of 25 loads at \$9 to \$10 a ton for timothy, and at \$7 to \$8 for mixed. Straw sold at \$10 a ton for one load. Dressed hogs are unchanged, with sales at \$9 to \$9.25, the latter for light weights.

British Cattle Markets. London.—Cattle are quoted at 11 to 12 1/2c per lb.; refrigerators being 8% to 8 1/2c per lb.; sheep, 32 to 34c per lb.

The Cheese Markets. Woodstock.—There were 670 colored cheese boards; 8% bid; no sales.

Pictou.—Seventeen factories boarded 2144 boxes, all colored; 8% bid; 1000 sold. Buyers, Miller, Benson, Sessmith, Bailey, Morgan, McEwan.

Stirling.—One thousand and sixty-five boards; all sold at 8 1/2-10c.

Bradstreet's on Trade. Montreal.—Trade conditions here have a slightly better tone than was noticeable a week ago although business is still unusually quiet. A fair amount of dry goods business is being placed for fall delivery. The hardware trade has not recovered the brisk tone of earlier in the season. First deliveries of steel rails are being made for the Grand Trunk Pacific Railway and this city will soon be feeling the effects of the commencement of the building operations of this road. There is a fair sorting demand for all lines of staple groceries. Prices of refined sugar have declined 5c per cwt. Prospects continue to favor an improvement in wholesale trade.

Toronto.—While there is still a quiet tone to wholesale trade here and the volume of business is not large, there is a hopeful tone about business generally that shows confidence in the future. There has been a better retail demand for summer dry goods consequent upon the more reasonable weather. Hardware goods are moving well. The trade with the Northwest is now good. It is generally expected here, and all signs point in that direction, that the business of the coming fall and winter will be very active. Wholesalers seem confident of this and some of them are already making preparations accordingly.

At Quebec.—The wholesale trade in general report trade quiet, although a slight improvement in wholesale trade is noticeable. Collections are still backward. City trade is fair. Shoe manufacturers are busy.

Winnipeg.—There is a very satisfactory tone to trade here. The building trade continues very active. While collections are still a little slow here and there they show steady improvement. Crop prospects continue firm, and the feeling regarding the outlook is generally optimistic.

Victoria and Vancouver.—Wholesale trade here is good in all lines. Good shipments are being made to the interior and the volume of trade is generally normal. Provincial industries are unusually active.

Hamilton.—Wholesale trade conditions show little change from those of a week ago. Warmer weather has given an impetus to the retail demand for summer goods, but there is little doing in this line in a wholesale way. The business in fall lines, however, is more active. Collections are fair to good.

Business generally continues fairly active at London. The retail trade is fairly active.

Ottawa.—Trade there still has a quiet tone and collections are a little slow.

THE WEEK. Improvement is reported in retail trade, although weather conditions are still far from ideal, and excessive rain retards agricultural progress sufficiently to cause conservatism among dealers; yet confidence in the future is the prevailing sentiment, and leading dry goods jobbers are unanimous in anticipating a large fall trade. Manufacturing plants are busy, especially in heavy steel lines, except where usual repairs are being made or seasonal closing is necessitated. Shoe factories find difficulty in starting work on fall footwear, owing to numerous supplementary spring orders, and there is little idle machinery in textile lines, which feel the impetus of advancing raw materials. Building operations make favorable comparisons with recent years, and there is little controversy regarding wages or hours of labor. Foreign commerce at this point for the last week shows little change in comparison with the same period a year ago. Railway earnings thus far reported for May exceed those of a year ago by 8.0 per cent, and after falling to the lowest point of the year, prices of securities recovered materially. Money is abundant and easy, and commercial payments are more prompt in most sections of the country.—Dun's Review.

Preparations for a demand for a nine instead of the present 10 hour work-day are being made by union factory employees at Boston, Mass.

Everybody Should Learn to Swim. (New York Mail).

It has been said a good many times before. We have said ourselves a number of times. We shall venture to say it again. Learn to swim. Anybody can do it. It is a duty to others as well as to one's self to learn to swim, if one does not know how. It is not within the possibilities that all should be, come expert swimmers; but a slow and steady swimmer may keep himself afloat a very long time by alternating methods of swimming if exhausted, by treading water and by floating. Water is a buoyant medium, and it will hold up a man as well as a fact. The inability to swim is usually a mental or moral defect, not a physical one.

SCHOOL BOARD MEETING

The regular meeting of the public school board was held on Monday evening, at which all the members were present.

The subject of how best to heat the new school building had engaged the careful attention of the board for several weeks, and at this meeting a decision was made to accept the tender of Messrs. Brown & Sempie of Brockville for the installation of steam-heating apparatus.

On invitation of the board, Dr. Kinney, I.P.S., and Mr. C. R. McIntosh attended the meeting to discuss the subject of promotions. The inspector fully endorsed the present method of conducting promotions in this school, and said that the control of this matter was vested in the principal and himself. Trustee G. F. Donnelly contended that the present system of yearly promotion examinations retarded the progress of the pupils through the different grades of the school, thus placing the children of the village at a disadvantage when compared with pupils of country schools.

It was pointed out that the new school building would have ample accommodation for all the pupils of the village, and Dr. Kinney was asked if some arrangement of classes could not be effected that would enable the board to dispense with the services of a fifth teacher. The present average attendance would give only 35 pupils to each of the four teachers. The Inspector said the board had full power to deal with this matter, but he advised strongly against any reduction in the staff being made.

On motion, Mr. C. R. McIntosh was re-engaged as principal of the A.M.S.

If last winter's cold, and the heat of the past few weeks, are not the "old-fashioned" kind, the absence of which has been so much deplored in recent years, they are a pretty good imitation.

A deputation of Brockville's leading citizens waited on the police commissioners at a special meeting, and urged the reinstatement of ex-Chief Adams, dismissed a year ago for alleged insubordination to the chairman of the police committee of the town council, before the department was put under the control of commissioners. It was claimed that he had been unjustly dealt with. The commissioners promised to take the matter under consideration, and it is not unlikely that an investigation will be instituted. Sergt. Burke succeeded Adams as chief constable.

The Kingston and Pembroke railway runs a weekly excursion train to Kingston, and there is an agitation among business men along the line to have it discontinued. Referring to this, the Whig says: They claim that their trade is being carried to the city and that they feel the effect considerably. They also contend that they have as much right for consideration as the bands of the road as the city merchants and hence the contemplated action. In speaking of the matter one of the employees of the road stated that the average citizen had no idea of the volume of business brought to Kingston from the territory covered by the Kingston & Pembroke railway, and that while no order had been received to cancel the Thursday trip there certainly had been considerable agitation towards that end.

A Sustaining Diet

These are the overeating days, when, as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

### PHILIPPSVILLE

N. Phelps, of the North Bay Times, wife and daughter, are the guests of Mr. and Mrs. W. B. Phelps. It is over 40 years since Mr. Phelps moved from this vicinity; 83 years ago he returned here for a visit for a week. He finds a great many changes in that time. He is visiting all the old friends that he knew in his boyhood days. He is also taking snap shots with his kodak of some of the old landmarks, even to where himself and chum used to roast eggs and corn under the lodge by the creek. Listening to his yarns brought all those boy-days back to our memory; it nearly made us feel young again. But when we wandered with him over the old grounds, until our collar hung like a rag around our necks and the sweat trickled down our spinal column, it nearly drowned all the happy thoughts of our youth.

A number of our farmers have commenced haying and find it hard work to cure his heavy crop. This week will find the hay-makers in the hay up to their eyes.

W. E. Phelps has another car of feed and flour just in. Owing to the farmers not keeping so many pigs as heretofore and the pastures being so good this year, the farmers say that when it rains porridge their dish is bottom side up; in other words, pigs are high in price and they have none to sell.

This township's road Divisions have several hundred cords of stone already piled for the crusher. We understand that there has been crushed about 600 cords and placed on the roads this season. If our councilors keep on making roads at this rate, our roads will be second to none in the province in a few years. Every section of the township is getting its share of the good roads.

## Is "Royal Household" Really the Best Flour?

Thousands of women who do their own baking know it is the best, by results—they don't care about the reasons—but those who have not tried it may want to know why it is the best.

Of course any maker of flour—with the same experience—the same facilities for selecting the best wheat—the same tremendous plant equipment for milling, and the same process for Electrical Purification of flour could make just as good flour as ROYAL HOUSEHOLD—if he had the genius for flour making.

But no other flour maker in Canada has all these requisites and facilities, therefore no flour equal to ROYAL HOUSEHOLD is made in this country.

In these talks we shall give you good reasons why ROYAL HOUSEHOLD is the best flour and why it is the cheapest flour for you to use.

### Tarred and Feathered Him

Tony Raggazio, an Italian 57 years of age, residing about five miles above Brockville on the river road, was made the victim of a ferocious assault Tuesday night. Raggazio retired at 9 o'clock, and at 12 was awakened by two men who entered his house. He was immediately pounced upon and assaulted. He was then taken from his bed and in the kitchen was made the victim of a liberal coat of tar and feathers. His assailants never left until his body was completely covered. Raggazio became unconscious but toward morning staggered to a farm house and was conveyed to Brockville on a boat and cleaned up at the police station. Raggazio incurred the displeasure of the citizens of that locality last summer, when he abducted two

little daughters of Fred Widdis, for which he served eight months in the Central prison. At present he is suffering considerably from his burns, but nothing serious is anticipated.

# PSYCHINE

(PRONOUNCED SI-KEEN)

## WEAKNESS

There is nothing else in the whole world that will bring back the color to the cheek, restore the dormant energies, revive drooping spirits, or put new life into the tired, listless, weakened system, as "PSYCHINE" will do it. There is really only one great tonic, and that is "PSYCHINE." Combining all the properties that make rich, pure blood, bringing back the lost appetite, driving away melancholy, creating new strength.

### THIS WILL PROVE IT

Dr. Slocum, Limited:

Amrpor, Ont., Sept. 16th, 1904.

"It's twenty years or more since I used PSYCHINE, and I write these words not to gain publicity, but that suffering and ailing humanity may learn of its great merits. I had felt weak and miserable for a long time; had no appetite, or couldn't obtain proper sleep. Was unable to work or enjoy life. People said I was so old my constitution was breaking up, but, fortunately, through using the Dr. Slocum remedies I have proven this false. PSYCHINE is the only remedy I ever took that agreed with my stomach, which was exceedingly weak. Twenty years have passed since my recovery, and I am now eighty-nine years old, and so strong and well that I work all summer in my garden."

THIS ORIGINAL DOCUMENT IS IN EVERY POOR CONDITION

WHAT HE SAW IN HER.

"What I can't understand is what you ever saw in poor little me," said the girl. The young man laughed. "I guess some of the other girls will be saying that," he replied.

"Saying what?" "Wondering what I saw in you." "Well, of all the conceited things." "You aren't mad, are you?" "Mad! Oh, dear, no. Why should I be mad?"

"I don't see any reason why you should be, but you talk as if you were." "Certainly I'm not. It would naturally please me to have you make insulting remarks. Please let go of my hand. I don't wish you to hold my hand. Do you hear?"

"Why, Marguerite." "I never heard of such a thing. Well, I'm glad you said it before it was too late. They can wonder now why I threw you over. I suppose I must be absolutely crazy to do it; men like you are so rare, and any girl they are kind enough to distinguish with their attentions should consider herself lucky, no doubt, but—"

"Marguerite," said the young man, imploringly, "you are not going to take off that ring! Wait, just tell me what I've done or said. I didn't mean—"

"If you had not meant it you wouldn't have said it. You must have a highly exalted opinion of yourself, or a very poor one of me." "Marguerite, I haven't any opinion of myself, but—"

"Will you kindly tell me in what respects I am inferior to all the other girls? I'm asking in all humility. Perhaps I may be able to correct some of my faults." "How absurd!"

"Absurdity is one of them, is it? Thank you, go on." "I meant that it was absurd to suppose for a moment that you could fall below any standard. What I meant to say was that the girls might say so—out of mere jealousy and envy."

"Because I was fortunate to get you." "Because you are far above them in every way." "Oh, I dare say," said the girl, relenting. "You think they would say that because I am not better looking?"

"How could they say that?" "Well, out of jealousy and envy, perhaps." "Marguerite," said the young man, earnestly, "jealousy and envy could never go so much to the heart as that. Even if a girl wanted to say it she wouldn't because she would know that people have eyes to see for themselves how beautiful you are. They might as well say out of malice that black is white, that daylight is midnight gloom."

of the scene. A grand, sad face peeped round the corner of the grass. Our eyes met. The wondering expression broke into a hideous snarl—and before I could recover from my surprise the lion had gone. Sick at heart, I dashed round the intervening clump; the wide stretch of grass forty yards beyond, parted to the rush of a great yellow form; loud spoke my gun; plump came the answer of the bullet speeding home; a fierce rumbling growl; and now, south, east and west the seemingly unattended world was dancing in the noontide heat, while a smoke-wreath idly drifted down the plain.—Ewart Scott Grogan in June Outing.

Not Too Trustworthy. Ex-Fire Chief Hugh Bonner, of New York, addressed recently the Woman's Municipal League on the subject of fire peril. "At the end of his address a woman told Mr. Bonner that she had been informed by an actor that every theatre in New York was absolutely fireproof."

Mr. Bonner laughed, and he replied, "He is about as trustworthy," he replied, "as the average Alpine guide." "Once, some years ago, a Swiss guide took an American and his daughter on an excursion upon the Jungfrau."

"As they climbed, the guide, as is usual, pointed out the various objects of interest on the way. On the edge of a horrible abyss, he said: "This is where Thorwaldsen, the celebrated Swedish mountain climber, lost his life in '97."

"But the American, who had done the Jungfrau before, said: "Why, no, it isn't. This is not the place. Where Thorwaldsen died is two miles further on."

"Monsieur is quite right," said the guide, "but I thought it was too far for the young lady to travel."

The increase of postal savings during the first eight months of the war, for example, shows an increase from \$15,380,000 to \$18,612,000, indicating an astonishing increase of the savings from which such savings are drawn—the incomes provided by industrial employment.

A Query for the Business Men. "How much do you buy that you did not first see advertised?" asks a business man's magazine. It would be well for every man who has something to sell and who is not already a convert to publicity to put that query to himself. The answer is bound to convince him that advertising is good for other things, and that it must be good for any one who has an honest dollar's worth to offer for a dollar.

Some of the Meaneast Men. (Kansas City Journal.) It is said that a man who won't take his home paper because he can borrow one has invented a machine by which he can cook his dinner by the smoke from his neighbor's chimney. The same fellow sits in the back pew in church to save interest on his contributions, and is always borrowing a ride to town to save the wear and tear on his own horseflesh.

Missouri Wins at Prayer. (Salina, Kan., Journal.) Missouri has the best of it. At Wells-ville the other day a party of devout church members met and prayed for rain. It rained. Out here in Kansas the farmers have been praying for the rain to be held back for two weeks on account of the harvest, but Missouri won.

The "Why" of Buying. "Every time you make a purchase stop a moment and think just why you bought the article you did buy in preference to some similar article," suggests a magazine devoted to publicity. And it might well have added: "And yourself why you bought it at the store where you did buy it in preference to some other store that sells the same sort of goods." Ninety-nine times out of a hundred the article purchased is advertised, and the store that sells it advertises. The man who is influenced by other people's advertising ought to be pretty well convinced that he can influence other people by his advertising.

Pity the Poor Rich. (Eureka, Kan., Herald.) Lord help the millionaire! There is Rockefeller with no appetite; Morgan so restless he can't stay long in one place; Carnegie has long been a sufferer from dyspepsia, and the rest of 'em are dying with envy because they are not as rich as the three of 'em. Blessed be bacon and beans and health with the grace of God!

Edguateive "Ads." The best way to win support for a business enterprise is to get people interested in it. The best way to interest them is to tell them something they don't know, but are likely to want to know, about it. For instance: Few people know anything about the ins and outs of professional photography. Any good professional photographer will confirm the statement that nine persons out of ten don't know what to wear when they sit for a portrait. And perhaps almost as great a proportion don't know an artistic photograph when they see one. It is the photographer's business—if he knows it—to educate them (and at the same time increase his clientele) by running informing "ads." in the newspapers. The photographer is cited only as an example. There are others. Edguateive advertising pays because it is read attentively and remembered.

A Legitimate Endless Chain. When Shakespeare put into the mouth of King Edward the phrase, "We are advertised by our loving friends," he used the word "advertised" in the sense of "advised"; yet the statement would serve very well if the modern understanding of "advertised" were substituted. The business-getting power of a well-constructed "ad" is vastly enhanced by the fact that every buyer whose commercial friendship it wins himself becomes an auxiliary advertiser of the goods extolled. The newspaper advertisement, provided that the space it occupies is skillfully employed to produce the desired impression, is the starting point of a sort of endless chain of business.

Baggage Easily Identified. (New York Sun.) Some English tourists who are in the habit of traveling with a good many trunks have a way of marking their baggage for identification purposes which looks strange to American eyes. It is not at all unusual now to see lashed on the steaming pile a big pile of trunks and bags around each of which will be a stripe of some vivid color. O bright red stripe around a soiled leather trunk, look queer, but its usefulness is apparent in the ease with which baggage is picked out by the owner. An Englishman who came over recently had his trunks not only decorated with a white stripe, but on the top of each was his coat of arms in color. His baggage was handled with much dispatch.

THE KNAZ POTEMKIN.

Kruger Again Ordered to Go After Her.

Her Torpedo Boat Fired Two Shots at Akkerman.

The Crew Issues a Proclamation to the Powers.

A Theodosia, Crimea, cable: The battleship Potemkin has arrived at Theodosia, a port on the eastern shore of the Crimean Peninsula.

Summoned by the Kniaz Potemkin, representatives of the Town Council went on board the battleship, and were received in the admiral's cabin by the commission commanding her.

The commission demanded the delivery of 500 tons of coal and provisions of various kinds within 24 hours, and threatened that, in the event of non-compliance, after due warning to the inhabitants, the town would be bombarded.

The commission also proposed that the Mayor shall transmit to the population a proclamation demanding the termination of the war, a convocation of Zemstvos, etc.

Learning of these demands, many inhabitants fled the town. The workmen insisted that the demands be granted.

A special meeting of the Municipal Council was called, and the Council consented to deliver the provisions, but refused to comply with the demand for coal, for the reason that the town had none.

OBTAINED SUPPLIES.

Two Shots Changed the Minds of Akkerman Residents.

An Odessa cable: The Roumanian Consul here has received a telegram from Bucharest, saying that the Kniaz Potemkin landed 30 or 40 civilians at Kustendil, including some women.

The ship sailed from Kustendil with the avowed purpose of bombarding Yalta, a summer resort on the coast of the Sea of Azov, near which one of the Czar's palaces is situated.

It is reported that the Potemkin appeared today at Akkerman, 27 miles southwest of Odessa.

On July 3 a torpedo boat entered the harbor of Akkerman and demanded coal and provisions. The authorities refused to furnish this, whereupon the torpedo boat fired two shots. She afterward obtained all the supplies she required.

MUTINEERS' PROCLAMATION.

Text of the Manifesto Issued by the Crew of the Potemkin.

An Odessa cable: Following is the text of a manifesto issued by the crew of the Kniaz Potemkin, Tavrichesky, while that vessel was at Kustendil, Roumania.

"From the crew of the battleship Kniaz Potemkin Tavrichesky to the foreign powers: A decisive struggle against the Russian Government has begun. We hereby inform all foreign powers of it. We consider it our duty to declare that we will give a complete guarantee of inviolability to foreign warships navigating the Black Sea and to the foreign ports of that sea."

TO PRODUCE GENERAL RISING.

Object of the Potemkin in Sailing for the Caucasus.

A St. Petersburg cable: In circles closely in touch with the revolutionists it is regarded as a foregone conclusion that the commandant of the Kniaz Potemkin, knowing the situation in the Caucasus, will lead for Bori or Batoum, where the revolutionists are exceedingly strong.

Despatches from this received last night say that reports of the floating at Odessa and the action of the Kniaz Potemkin have aroused the most intense interest and the widest joy among the revolutionists.

The report of the revolutionists was followed immediately by a complete strike, even the lamp-lighters quitting work. The city is in darkness, and the inhabitants generally are fleeing to the northward.

TO HUNT THE MUTINEERS.

Admiral Kruger Receives Orders to Pursue.

An Odessa cable: Admiral Kruger's squadron, consisting of the battleships Bogatir, Bismarck, Apostolof, and Trisvitielia, a cruiser, and a half dozen torpedo boats, with the repaired battleship, Georgi Pobiedonostev, has arrived at Sebastopol, where learning that the Kniaz Potemkin Tavrichesky was at Theodosia, orders were immediately given to pursue her. It seems certain the mutineers will now be hunted down fearlessly.

The excuse for inaction which obtained at Odessa cannot prevail upon the open sea. At the same time the encounter may be terrible. Naval officers at Sebastopol declare positively that the Kniaz Potemkin has comparatively little ammunition, having expended a quantity during the maneuvers.

There is reason, however, for taking this statement with reserve. Meanwhile the freedom of the mutineers to roam the Black Sea is paralyzing trade.

TO PROTECT COMMERCE.

Powers May Decide on an International Agreement.

A London cable: The Vienna correspondent of the Morning Post says that steps are being taken in official quarters to raise the question of an international agreement to protect commerce in the Black Sea, and to collectively refer to Russia the dangerous consequences of allowing the Kniaz Potemkin Tavrichesky to sail unmolested

ed among neutral shipping. England, France, Italy, Austria, Turkey, Bulgaria, Roumania and Greece are believed to be the powers that are most likely to act.

COSSACKS STILL AT WORK.

Brutally Attack Odessa Crowd, Killing Many of Them.

A London cable: A despatch to the Standard from Odessa says Odessa's communication with Nicolaieff and Communication with the Caucasus is suspended. There was a crowd at Cap Fontaine Tuesday night watching for the expected reappearance of the Kniaz Potemkin Tavrichesky.

Cossacks attacked the people and brutally dispersed them, killing and wounding 30. There has been more shooting in the Peressy district. It is stated that 27 persons were killed.

Early rumors are current regarding the future, one of an impending anti-Jewish outbreak. The chief of police says there are grave reasons to fear that such an outbreak is being organized.

STRIKE IN THE CAUCASUS.

Russian Railway Employees Have All Quit Work.

A London cable: The St. Petersburg correspondent of the Times ascribes the more threatening turn the strike movement has taken to the fact that mobilization is still proceeding. The workmen have become alarmed and restless. Their mood thus far has not been ugly, but they are notoriously under the control of the revolutionary organizations, which may or may not decide upon extreme measures.

The correspondent adds that Batoum is cut off from the world, all steamers having stopped. The railway employees in the Caucasus are striking.

LIFE GUARDS REBEL.

Fight Between Them and Cossacks Result in the Death of Several.

A Berlin cable: A correspondent at Kattowitz, Silesia, says he learns from a reliable source that sixteen men who were designated in each company of the Lithuanian Life Guard Regiment in Warsaw to go to Manchuria, June 28, refused to go and their comrades declined to make them do so.

Their refusal to go was a direct challenge to the authority of the Russian Government. The Lithuanian Life Guard Regiment for help, but those men also refused to obey orders. Upon a similar refusal of a third Life Guard Regiment the colonel of the Lithuanian Regiment applied to the military commander of Warsaw, who sent a detachment of Cossacks to the Mokotow Camp.

Some of the mutineers fired on the Cossacks who returned the fire, fourteen altogether, being killed, before those who resisted were arrested.

THE PIRATE SHIP.

Conjectures as to Where She is and as to Her Fate.

A St. Petersburg cable despatch says: Rumor at the admiralty this morning failed to confirm the report current here last night that the Kniaz Potemkin had already left Theodosia. Admiral Vitkevich, chief of the naval staff, informed the Associated Press that according to the latest advices the battleship is still at Theodosia.

"What will be done?" asked the correspondent. "We cannot tell you," was the reply. "The whole affair is in the hands of Vice Admiral Choukounov and he has not communicated his plans to us. Admiral Kruger's ships were due to leave Odessa yesterday afternoon; they should now be arriving at Sebastopol."

"Do you think that upon their arrival Vice Admiral Choukounov will dispatch the squadron to try to capture the Kniaz Potemkin?"

"We do not know what he will do. In my opinion the easiest and promptest solution would be to send a torpedo boat to sink her, and I have advocated that course. The situation is grave. The ship is not in the hands of her crew, but in the hands of the revolutionary committee which went on board at Odessa. They have issued a bold sounding manifesto to the powers. They want to be considered insurgents. I presume their next step will be to ask for recognition as belligerents. They know their heads are on the line and will stop fighting in the event of the law they are outlaws and pirates. The first thing necessary is to make an example of the crew and restore discipline in the Black Sea fleet. Admiral Witkevich said there was no truth in the report from Vienna that four hundred Russian soldiers had destroyed a cruiser and sought refuge on board a British steamer bound for Constantinople."

Want to Go Home.

A Vallois, Cal., report: More than 100 members of the crew of the Russian cruiser Lena, which is interned at the Mare Island navy yard, have made a demand upon Commander Genter, in command of the vessel, that they be accorded the same privileges as those granted the enlisted men on the Russian ships interned at Manila, that is, that all of the crew except enough men to man the ship be paroled and allowed to return to their homes in Russia. Commander Genter told the men that he would have to communicate their wishes to the State Department at Washington.

The Japanese Loan.

A London cable: The negotiations for the Japanese loan of \$100,000,000 for the tobacco monopoly as security, were practically completed today, and the terms will be signed this evening. The issue price will be 99, the interest 4 1/2 per cent, and the loan, which will be equally divided between New York, London and Germany, will run for twenty years.

The issuing house in New York will be Kuhn, Loeb & Co., the National City Bank and the National Bank of Commerce; in London, the Hong Kong and Shanghai Banking Corporation, the Yokohama Specie Bank and Paris Bank, and in Germany thirteen houses in different cities will issue the bonds. The prospectus will be out July 11.

The Peace Educational Society of Boston has started a movement for "national celebration of the Fourth of July."

UNITED STATES TROOPS IN PARIS.

Paris, July 10.—The usual sight of a large detachment of United States sailors and marines marching through the streets aroused great interest and brought out an enthusiastic ovation from the crowds along the line of march.

The American naval contingent numbering 500 men with 25 officers, arrived in two special trains this morning from Cherbourg. They were uniformed and a landing party, wearing the regulation gaiters and carrying rifles with fixed bayonets. A company of French infantry was drawn up fronting the station to receive the Americans. After the French band had played the "Star Spangled Banner" and the "Marseillaise," the escort took up the line of march across the esplanade of the Invalides to the Avenue Piquet and thence to the Military School, where they were received by a battalion of French troops drawn up in the court. Again the national anthems and salutes were exchanged. The visitors were then taken through the military school, which will serve as their barracks during their stay here. The ceremony of the delivery of Paul Jones' body takes place at the American Church on the Avenue De Lulamaie at 6.30 this afternoon.

The ceremony of the delivery of the body of Admiral Paul Jones to the representatives of the United States was held this afternoon in the American church on the Avenue de l'Alma, in the presence of a distinguished gathering of the highest official, military and naval dignitaries of France, the diplomatic representatives of many countries, and the special commissioners and naval authorities sent from the United States to receive the body.

ARMISTICE DECLINED.

Basis of Peace Proposals Must First Be Accepted.

St. Petersburg, July 10.—It is ascertained from official sources that an armistice cannot be arranged. Japan has made it known that she will not consent to an armistice until the Russian peace mission has formally accepted the basis of her proposals, which will not be communicated till the peace conference has assembled.

The situation regarding the armistice is as follows: Russia has formally signified to President Roosevelt her desire for a lasting peace, not only by the appointment of plenipotentiaries who will be accompanied by experts fully empowered to conclude a treaty subject only to the ratification of the respective Governments, but as a final step has indicated her readiness to suspend hostilities. She has avoided formally asking for an armistice as a matter of pride, but under the circumstances Russia could hardly go farther than this.

In diplomatic circles the most earnest hope is expressed that Japan will change her decision not to consent, both for the sake of avoiding further bloodshed in Manchuria, and perhaps in order to prevent a catastrophe in Russia, which may shake the Komonoff's throne and signal the world by its horrors. An eminent Ambassador of a great European power said to the Associated Press: "If Japan declines it may prove to be a misfortune for the whole world. The position of Russia is critical in the Far East, and with almost civil war at home, has bowed his head to the inevitable. He wants peace, and Japan, has violated the admiration of the world, and has become a victor so much as a by-product of magnanimity. If Japan still insists in humbling the Emperor's head into the dust and forcing a useless battle which will result in the loss of tens of thousands of lives, she will produce a cataclysm of anarchy greater than that of the French Revolution, which will leave Russia no Government to negotiate with, besides threatening the usual precedents in this case. An armistice generally precedes an agreement on the time and place for a meeting of negotiators. Now that the steps which usually follow a suspension of hostilities have been arranged, why should Japan insist on a military situation, inflict another defeat, with its accompanying slaughter of much might be lost?"

TWELVE STATES IN REVOLT.

Will Join in Petition for Royal Actumun Convention.

New York, July 10.—A surmount of cooperation have been received by the committee of nine appointed by the initial councils of the Royal Actumun Convention, and Long Island from seven grand jurisdictions, as requested by the law of the order, to request a special meeting of the supreme council.

These seven states or jurisdictions are New Jersey, Pennsylvania, Massachusetts, Rhode Island, Connecticut, Maryland and Michigan. With New York they will make eight, and the committee have not taken into account Illinois and Indiana, which have not been heard of, but which are in perfect sympathy with the revolt.

The committee men are confident that they will have at least 12 states behind their petition for a supreme convention of the supreme council when it is presented to the supreme council.

BABY WAS DROWNED.

Careless Maid Left Its Carriage Standing by a Lake.

Newburgh, N. Y., July 10.—An infant grandson of Mr. Huffel, a brewer of New York, was drowned today in an ornamental lake in the grounds of the Huffel estate. The nurse, who had been watching the carriage containing the infant, left it for a moment, and on returning found that it had disappeared. A sudden gust of wind blowing it down a bank into the water.

The nurse's cries summoned members of the family and workmen on the estate, and no time was lost in dragging the lake, when the carriage was recovered with the body of the little one securely strapped in it.

AFTER THE EQUITABLE.

Directors to Be Prosecuted on a Criminal Charge.

New York, July 10.—Reports today of the Equitable case, created a big stir among the directors and officers of the society, which is now a pretty certain that the district attorney is going to bring criminal proceedings against some of the men concerned in the scandal. They have heard that he wants to prosecute some of the directors on a charge of conspiracy to defraud the society, if he is unable to do so, then on any stronger charge.

Along with the news of Mr. Jerome's purpose, a pretty definite report was current today, that enough evidence has been obtained in other quarters to

DEATH IN TEXAS TORNADO.

Wind Storm Wipes Out Families and Carries Away Houses.

Nocona, Texas, July 10.—A tornado and thunderstorm passed a few miles west and south of here this morning, killing fourteen persons and injuring many others and destroying a number of houses. The latest reports from the storm-swept district give the following casualties:

Dead—Mrs. C. C. Shackelford, Miss Shackelford (daughter), Mrs. S. E. Tomblinson and three children, Mrs. Mary Lester and four children, Caleb White, Mrs. Irb Williams, Irb Williams, Frank Hakin, killed by lightning.

Many farm houses were swept entirely away. The school house three miles west of here, was damaged. Reports of the work of the tornado are still coming in. The number of killed and injured will probably reach sixty.

Montana, Texas, July 5.—Ten persons are dead as a result of a tornado which passed over Montagu this afternoon. They are: A. P. Earl; Miss Sadie Earl, daughter of A. P. Earl; Earl Earl, his son; baby of Lawrence P. Earl; Tomlinson's children. Many houses were demolished, including five year dwellings. The tornado lasted perhaps thirty minutes. Hundreds of head of stock were killed.

ENDEAVORS AT BALTIMORE.

Many Canadians at the International Convention.

A Baltimore report: Incoming trains today brought thousands of additional delegates and visitors to the 22nd International Convention of the Christian Endeavor Society. Every state in the Union, Canada, and many foreign countries are represented here. Preceding the formal opening of the convention in the afternoon there was held a business meeting of the United Society of Christian Endeavor (Corporation), at which officers and trustees for the ensuing year were elected and national reports were presented. All the old officers were re-elected.

President Clark was not present owing to ill-health. Rev. Dr. Smith Baker, of Portland, Me., will preside at the sessions of the convention. George B. Graft, manager of the publishing department, reported the total receipt for the year as \$66,515, and the expenditures \$44,797, leaving a cash balance of \$21,718. Included in the expenditures is \$8,384 contributed by the publishing department to the United Society to carry on its work of organization and extension.

VISITORS IN SCOTLAND.

Manufacturers Given a Cordial Welcome at Edinburgh.

Edinburgh, July 10.—President Blackie, the members of the Chamber of Commerce, the Lord Provost, Sir Robert Craigmiles and members of the Chamber of Commerce, had been waiting since the visiting members of the Canadian Manufacturers' Association on their arrival at noon from Newcastle. At luncheon the Lord Provost extended an invitation to the Canadians to join in the ceremony to-morrow of the unveiling of the memorial to the Gordon Highlanders who fell in the war. Sir George White, who is here representing the King, and will receive the freedom of the city, the Vice-President Ballantyne, of the Canadian Manufacturers' Association, replied.

Lord Rosebery sent a letter of regret at being unable to be present, as he is in Aylesbury, in England, making a political speech. He sent an invitation to the Canadians to visit and have luncheon at his home at Dalnappery. The Duke of Buccleuch also sent regrets, and an invitation to visit Dalkeith. Both visits will be made to-day.

There was a reception by the Lord Provost and Council of Edinburgh at the city chambers. To-morrow visits will be made to historic places, and many will go to Glasgow.

"THE BREAD-WINNERS."

There is No Certainty That John Hay Was the Author.

New York, July 10.—The statement that the late John Hay, Secretary of State, was the author of "The Bread-winners" has aroused considerable discussion. When soon at his summer residence in Tisbury, Mass., in regard to the authorship of the story "The Bread-winners," which was published anonymously in the Century Magazine nearly twenty years ago, and has been credited to Mr. Hay since his death, Mr. Richard Watson Gilpin was sorry to say he had no right to divulge the name of the person, who he believes was the author, either by stating who wrote it or by denying, according to the inquiry-plan. He says it was published in the Century Magazine by a person, who credited the story to another person.

A HOLE IN HIS HEART AND BULLET IN LUNG.

And the Man Still Lives to the Great Surprise of the Doctors Who Examined Him.

Physicians Declare This to be the Most Remarkable Case on Record.

Chicago Actress Charged With Stealing a Pearl Necklace From Christie's, London.

New York, July 10.—According to the Tribune, a man in Livingston, Staten Island, is alive with a bullet in his lung, which passed through his heart. Unable to trace the course of the bullet by a probe or to credit the indications, Drs. Brady and Ross Ford, of St. Vincent's Hospital, borough of Richmond, put on the X-rays yesterday and found the probe had been telling the truth. They were so startled they repeated the examination, and then, that there might be no question to what they found, they called in several physicians. All agreed that the bullet had passed through the heart and was in the lung.

The patient who thus lives with a punctured heart and lung is Harry Novok, of Manhattan Borough. He started out for a celebration on Tuesday, but while crossing the bay on a ferryboat he was hit in the left breast by a bullet from a revolver which Major Dasher was showing a friend. It seemed as though Novok would not live until the Staten shore was reached. By that time, however, he appeared stronger, having rallied from the first shock. The next day he was alive with a bullet hole, indicating the bullet entered his heart caused the doctors to think the bullet must have taken another course. The probe found no resistance, and then the doctors used the X-ray. Those who were called in say it is the most remarkable case they ever heard of.

U. S. Actress in Trouble.

London, July 10.—"Annie Grant" of Chicago, claiming to be an actress, was committed to-day at a police court to stand trial at the Old Bailey on a charge of stealing a pearl necklace worth \$10,000, from Christie's auction room. The woman, whose real name is thought to be Annie Gleason, according to the prosecuting counsel visited Christie's, inspected the necklace, and secured a duplicate of imitation pearls which on a second visit she substituted for the genuine while the attendants were turned. The prisoner obtained a continuance of her trial at the American embassy in London, but the name of Annie M. Grant, of Chicago, but nothing further is known of her.

NO COMFORT FOR JOE.

Mr. George's Speeches Must Chill the Chamberlaines.

London, July 10.—W. H. Lever, Port Sunlight, Liverpool, writing to The Liverpool Post, says: "I fail to detect in Mr. W. K. George's speech the slightest indication of any intention to give English manufacturers the opportunity of supplying the Canadian market with an article that can by any possibility be made in Canada. Mr. George's speech was exactly the speech that would be made by a majority of representatives of any of our colonies, and appears to me to entirely cut the ground from under Mr. Chamberlain's statement as to our colonies being ready to welcome English manufactured articles. To my mind, it is Mr. Chamberlain's and his followers who must view Mr. George's statement with alarm."

BRANTFORD MILKMEN.

Strict Rules to Prevent Adulteration—No Prosecution at Present.

Brantford, July 10.—The local Board of Health have decided not to prosecute city milkmen who admitted having put "frozenee" in the milk supply. The members of the board thought it somewhat unfair that some should suffer while others who are thought to be equally guilty would go unpunished. New permits will be issued and rigid rules laid down guarding against the use of adulterants. If any foreign body is found in the milk the dealer will immediately lose his license.

The milkmen who swore at the investigation that they have used the harmful drug have lost a large part of their trade. This action of the Health Board ends the formaldehyde scandal for the present.

AFTER TWENTY YEARS.

Mother's Long Search for Daughter Proves Successful.

Burling, July 10.—Mrs. Jennie Simms, through a court order allowed her to inspect the records of the Randolph Orphan Asylum, has located her daughter, whom she had not seen for 20 years. The girl is happily married at Eldred, Pa., and is the mother of three children.

Twenty years ago Mrs. Simms, then Mrs. Burap, was deserted by her husband, who placed three boys and a girl in the Orphan Asylum. The woman was too poor to care for the children, but later came to money and set out to find them. The boys and one of the girls were found, but the mother refused to assist in the search, and the mother could not find the daughter. So she went to court and sued them to do so.

CIRCUS MEN ON TRIAL.

Two Colored Men Sentenced to Short Terms for Carrying Arms.

Quebec, July 10.—The trial of the four Lemon Bros' circus employees arrested at Grand Mere nine days ago in connection with the abduction and alleged assault of a young girl, shooting of an Indian guide at Roberval, where the circus was performing, and subsequent shooting of a young girl of Chambord Junction is still in progress at Roberval. The two colored prisoners, Jordan and Austin, have been found guilty of carrying firearms, contrary to law, and sentenced to jail for short terms, and the pending investigation into the more serious charges of assaulting the girl preferred against the white prisoners is in progress.

A UNION STATION.

Joint Terminals for G. T. P. and Canadian Northern.

Winnipeg, July 10.—The Grand Trunk Pacific Railway and the Canadian Northern are to have joint terminals and a union depot in Winnipeg. This was the substance of the announcement made by D. D. Mann, vice-president of the Canadian Northern Railway, who reached the city this morning from Port Arthur. Mr. Mann said: "Negotiations are proceeding in regard to joint terminals and a union depot. The plans of this scheme are in such shape that a decision and a final announcement will be made very shortly."

TO VISIT UNITED STATES.

Dowager Queen Margherita of Italy to Tour This Continent.

Rome, July 10.—The Dowager Queen Margherita is hastening her preparations for her journey to Japan. This is interpreted as meaning that official news has been received in high quarters that the conclusion of peace is near. The Queen, who is an expert chauffeur, intends to spend several months in Japan, in an automobile tour, and then go to San Francisco, and crossing the American Continent, return to Rome via New York and Genoa.

BALTIMORE FLOODED.

Holiday Street is Already Under Water Near City Hall.

Baltimore, Md., July 10.—The lower lying sections of the business district of this city are under water, the result of a cloudburst in Baltimore county and the backing up of the waters of the harbor by recent southwest winds. There will be much damage, which, however, cannot be estimated at present. Cars and houses on all lines running through the central part of the city are paralyzed. Last before midnight a heavy rainfall began in the city. Holiday street, upon which the city hall fronts, is under water half a block north of that building.

EFFECTUAL BAR TO CHINESE.

\$500 Far Too High for Them—Revenues Reduced.

Victoria, B. C., July 6.—The Customs returns for the past fiscal year, just completed by the collector here, show how efficacious the \$500 head tax is in excluding Mongolians. The revenues of the past year are probably as high as those of a year ago, a notable feature being the fact that during the whole twelve months not a single Chinaman paid a head tax for entering the country. Of course, many Chinese have come and gone, but the arrivals are those who have previously been in the Dominion, and are therefore exempt from the tax. The tax is demanded from new immigrants.
