ANOTHER HUNTER IN THIS PROVINCE SLAIN FOR DEER

Victim of Latest Accident
Was Archie McLean of
Black River

A party of ten young men and women from Black River Bridge went up the North West on a hunting trip, and succeeded on Friday in shooting one deer and wounding another. Then they divided into different parties for the purpose of surrounding the wounded animal and thereby prevent the possibility of escape. One of the party saw it and fired, and the bullet struck and killed Archie McLean on the opposite side of the circle that had been formed by the hunters. He was one of Black River's finest young men. He was a son of Mr. Hugh McLean. The remains arrived in Chatham by auto on Saturday and were taken to the Town Hall, Corner Benson, after hearing the statements of the brother and sister of the deceased, who were of the hunting party, gave permission for the removing of the remains to Black River Bridge.

ADDING NAMES TO VOTERS' LISTS

County Court Judges Will Sit
as Registrars from Oct.
31 to Nov. 5

Word was received yesterday from Hon. J. B. M. Baxter, minister of customs and excise, that county court judges in the various counties of the province would sit as registrars, for the purpose of adding names to the voters lists, from October 31 to November 5, both dates inclusive.

On any of these dates any British subject who has resided in a constituency for two months, or more previous to the date of the proclamation of the election, may by applying have their names entered on the voters list in the place where they now reside and any person who has reached the age of twenty-one years since the lists were made up in 1919 may by producing the evidence of that fact, have their names added to the list, and this applies to both men and women, the Dominion franchise applying equally to both sexes.

KEYS FOUND

The party who lost two keys on Saturday can have them by calling at this office.

New Brunswick Goes Dry 2 to 1 Majority

The second referendum to be held in this province on the liquor question was held yesterday when the electorate decided in no uncertain manner that liquor cannot be imported into New Brunswick in the future. New Brunswickers by their vote yesterday definitely decided this question by a two to one vote to make the province dry.

All counties throughout the province, with the exception of three viz:—Restigouche, Gloucester and Madawaska voted strongly in favor of becoming dry. St. John City, Moncton, Fredericton, Campbellton, Newcastle, Rexton and Harcourt gave dry majorities while Dalhousie, Bathurst, Chatham, Balmoral, Richibucto and Buctouche were in the wet column.

Newcastle gave a dry majority of 96 and Chatham went wet by 137.

Northumberland again proved her metal by giving a dry majority in the vicinity of 1700. A strenuous campaign had been carried on by those in favor of prohibition, many rallies having been held in various parts of the province at which prominent men made speeches. A strong newspaper campaign was also conducted by both parties. In Newcastle a very small vote was polled, but the Temperance forces were on the job from 8 o'clock until 6 the hour of closing the poll.

The following is the returns of Northumberland Counties' polls:

WAREHOUSE BURNED AT BURNSVILLE

Gloucester Lumber and Trading
Company Loses Property
Valued at \$10,000

Bathurst, Oct. 7.—Fire destroyed one of the largest warehouses of the Gloucester Lumber & Trading Company at Burnsville on Saturday evening. The warehouse was stocked with sleds and all kinds of rigging for lumber operations, both for men and horses, and it is estimated by W. G. White that the damage approximates \$10,000.

The outbreak occurred in the early evening. As the warehouse stood alone and some distance apart from the milling property there was no danger involved to the other buildings of the company; but in spite of the efforts to subdue the flames the warehouse was practically destroyed with everything in it.

TWO SERIOUSLY INJURED WHEN A CAR HITS WAGON

Mr. and Mrs. Sylvester White
Seriously Injured Near
Burchill Hill

A serious accident, as the result of a collision between an automobile and carriage, occurred near Newcastle Sunday afternoon. An auto owned by Isaac Mitchell, merchant of Newcastle, and driven by one of his sons, was on the way to Newcastle when it met a carriage occupied by Sylvester White and wife on the Wood's bridge near Burchill's Mill. A collision occurred and the carriage and occupants and the horse were thrown over the bridge. The people alighted on logs ten or fifteen feet below and were badly injured. They were taken to the hospital and their condition is reported serious. The horse was so badly cut up that it was necessary to shoot him.

STORMY MEETING IN CHATHAM

A meeting of the ratepayers held last Thursday night in the town hall was anything but gentle. The object was to vote upon the question of a \$20,000 bond issue in order to assist the unemployed, the money to be expended upon the streets. Shortly after the meeting opened Mayor Mersereau had his hands full. Everyone wanted to talk at once and several prominent citizens left the meeting. Finally a standing vote was taken and by a majority of sixty to five the project carried.

BLACKVILLE MAN'S NOTE FOUND OFF NORWAY COAST

(Sackville Tribune)
The Tribune is in receipt of an interesting communication from R. F. Bulmer, of Blackville (N. B.). Mr. Bulmer, says that while returning home from overseas in June, 1919 he wrote a note, placed it in a bottle and threw it overboard when one day out from Halifax. The other day he received the following communication from the person who found the bottle:

Dohn Prestgaard,

MANITOBA FLOUR TAKES A SLUMP

Manitoba flour on Thursday took another drop of 20 cents per barrel, the latest of a series of declines in prices which started on September 8th. Since that date the price per barrel has dropped \$2.75 and today the wholesale price is \$10.00. Following are the dates and amounts of the progressive declines in prices: Sept. 8th, 65 cents; Sept. 15th, 70; Sept. 22nd, 30; Sept. 29th, 50; Oct. 3rd, 20 Oct. 5th, 20; Oct. 6th, 20.

BATHURST PULP MILL TO START

Bathurst, Oct. 7.—The announcement is made by the management of the Bathurst Company, Limited, that repair and other work in connection with the pulp mill is being rushed with a view to opening up on Monday. It was the intention to resume the operation of the pulp mill at the beginning of the month, but it was found impossible to do this on account of the extent of the preparatory work to be accomplished. Men have been working on repairs for some time, and it is generally understood that by Monday the plant will be in readiness for the resumption of activities.

KILLED IN FRANCE BURIED IN N. B.

Campbellton, Oct. 7.—James Comeau, of Restigouche, has received a telegram from the graves registration service that the body of his son, Armand, who was killed in France in the United States Army, Oct. 3, 1918, will arrive at Hoboken, New York, this week and from there it will be shipped to Campbellton and thence to Restigouche for burial.

SPEAKS HIGHLY OF BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she is always pleased to speak highly of them to other mothers. She knows the good they have done her children and realizes that her experience should be of benefit to others. Concerning the Tablets Mrs. Fred Murphy, Charlottetown, P. E. I., writes: "I have used Baby's Own Tablets for the past eight months for my baby. I cannot speak too highly of them for they have been of great assistance to me in my first experience of motherhood." Baby's Own Tablets are a mild but thorough laxative which are absolutely harmless and may be given to even the newborn babe with perfect safety. They are sold by medicine dealers or direct at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ST. ANDREW'S HOLD HARVEST FESTIVAL

Sunday last, harvest thanksgiving service was held in the local Anglican Church. Good congregations were present at both morning and evening services. The Chancel step showed a display of the fruits of the earth; and the Altar was beautifully and tastefully decorated with flowers; a memorial to a departed loved one, whose remains are laid to rest in Apohaqui Anglican burying ground; and whose Father, Mother, and Sister, were present at this service. Special hymns were chosen for the occasion and the congregational singing was earnest and inspiring singing with voice and heart.

At the morning service, the Rector chose as his text: "If a man die shall he live again" and the text of the evening was: "There is a natural body, and there is a spiritual body." The sermons were listened to with rapt attention, as lessons from the growth of spiritual life, were reasoned upon, and explained, all leading up, to the glorious immortality of the eternal here after. So earnest were the services, they cannot fail to be remembered and thought upon in future days, as "a time of refreshing," to every right mind and soul, who took part therein. Both "Priest and people" were inspired with the time spirit of thanksgiving and worship. It stamped every feature of the services.

PROSPEROUS FARMER'S WIFE NEARLY STARVED

Declaring she was actually starving to keep from suffering awful misery, Mrs. Amy Peterson, wife of a prosperous farmer of Lakeville, Mass., gave out a remarkable statement, recently, in connection with her relief through the use of Tanlac.

"Sometimes I wonder how I lived through it all," she said. "I would have attacks of acute indigestion nearly every time I ate anything. Those terrible cramping pains and the distress from gas and bloating was almost unbearable and I just thought there was no hope for me.

"But now I'm eating anything and I feel as strong and well as I ever felt in my life. I've gained back all the weight I lost and six pounds besides and I know from my experience what Tanlac will do. It's the best medicine in the world."

ELECTION DAY LIKELY DEC. 5

Ottawa, Oct. 4—Parliament is dissolved as from today, it was officially announced at 5.40 this afternoon. No election date has been officially set, but December fifth is the most talked of date, with nominations on November 21. Premier Meighen's manifesto was issued this afternoon by Sir James Loughheed, acting in the absence of the Prime Minister.

NIGHT COUGH

CHESTS torn and made sore by an incessant night cough, are comforted and strengthened by Peps. When placed in the mouth, Peps dissolve away into powerful healing and germicidal vapours that are breathed straight to the lungs. THE PRIME MINISTER'S MANIFESTO

Mr. Meighen's manifesto to the people of Canada is a clarion call to all who have the real welfare of the country at heart. At a time when the forces of unrest and discontent are raising their ugly heads, when groups of politicians under the guise of promoting progress in the country, are instead endeavoring to undermine and destroy the very foundations of the system upon which all this progress is based, when all the elements of industrial

HON. ARTHUR MEIGHEN

disintegration are being fostered and encouraged by men whose only interest in public affairs is centered in achieving for themselves some personal benefit, the Prime Minister's call to the people comes with a significance that cannot be over-estimated.

Canada may be said to have come once again to the parting of the ways. She has reached another turn in the road which leads in the same direction as her people were urged to take in 1911, but had sense enough to refuse. It is inconceivable that they will consent to follow this year a path that they firmly refused to take in 1911, in view of the many proofs that they have had since then that their refusal was based upon sound judgment. Nothing has happened since to indicate that the course they then decided to adopt has not been beneficial, but on the contrary every kind of evidence is forthcoming that had they followed the path the Liberal party urged them to take in 1911, nothing less than irretrievable ruin to our industrial and social life could possibly have followed.

Since 1911 Canada has become a nation whose prowess the world has learned to regard with considerable respect. Canadians must see to it that this respect is maintained; and it can only be maintained by every man and woman in the country standing shoulder to shoulder in a fixed and grim determination to maintain in its entirety the fiscal system under which Canada has raised herself to her present stat-

159 AVENUE PIERRE IX, MONTREAL
"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine but I did not improve; and finally he told me that I could not be cured."
At this time, a friend advised me to try "Fruit-a-lives". After taking two boxes, I was greatly relieved; and this fruit medicine made me completely well. My digestion and general health are now splendid."

us of nationhood. Any tinkering with this system will bring in its wake a greater degree of unrest, discontent and unemployment than is already apparent in the country as a result of the war's aftermath. Now in this period of reconstruction is the time to build up rather than pull down, and it is to the work of building up that all patriotic citizens must bend their energies. Mr. Meighen's manifesto shows the way for them to take to accomplish this.

PAIN IN THE PIT OF THE STOMACH? Redmac Relieves It

Truly wonderful how quickly you can get rid of all stomach trouble. Redmac goes right to the seat of the trouble. Mrs. Vanhorn, of Winnipeg writes: I have suffered for years from indigestion. I would get such a sharp pain in the pit of my stomach, it would almost double me up at times. During this time I have not known what it was to enjoy a meal. I got very thin and weak I have been taking Redmac and what a blessing it is to me. I can eat three square meals a day now.

If you want to feel fit, if you want good strong nerves, lots of good pure blood and plenty of energy and vitality, you get a bottle of Redmac and see how quickly it will put you on the road to good health. Go to your druggist today, and get a bottle of this wonderful from foreign countries.

A BARTIBOGUE MAN KILLED IN FRANCE BURIED IN N. B.

Bathurst, Sept. 30—The funeral took place to the Church of the Sacred Heart on Tuesday morning of John Auger, a private in the United States expeditionary forces, who was killed in action during October 1918, at Chateau Thierry, and whose body was sent from France by the United States government. The dead soldier, who was a son of Mr. and Mrs. Louis Auger, of Bartibogue, enlisted in Orono (Me.), where he had been residing for several years. He was a member of Company G., 26th Infantry. Corporal Coy Crocker, of Orono, a member of the same regiment, accompanied the remains and represented the United States Army at the obsequies. A mass of requiem was sung by Rev. Wheten and interment was in the new cemetery.

The pallbearers were: Mr. or G. H. Willett, Cap. W. L. Veniot, Lieut. E. J. White, Lieut. P. J. Veniot, Lieut. H. O. Schryer, Sergt. John Smith. The C. M. B. A. Band formed part of the cortege, rendering appropriate music. The United States ensign, which covered the casket, was given to the soldier's mother as a keepsake. Besides his parents, Auger is survived by five brothers, David, of West Bathurst; Marcel, of Nash's Creek, and Patrick George and Alex. of Bartibogue.

Success in Retailing

Be Loyal To Your Own Community

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.

Its up to us to go out and meet it!

As early as June 1920 we foresaw the radical readjustment in wholesale prices. We were the first in this district to reduce our prices to lower market levels. This period of adjustment, whatever its losses to us, resulted in the utmost confidence in our policy and a gratifying success in our sales.

NOW!

Many signs indicate that a distinct turn for the better has been taken by the tide of business. The spectacular rise in cotton a couple of weeks ago, the rallying in price of soil products, re-opening of factories with resumption of employment, are a distinct indication of the firming up of prices; and that prosperity is coming on a steady basis for those who will take advantage of it. Today we say with confidence in our judgement as merchants, and mindful of our responsibility to the public, that it is both wise and safe to

THE FIGHT IS ON

Parliament has been dissolved, the writs have been issued, and polling will take place December 6, with nominations two weeks earlier. Even Premier Meighen's bitterest opponents cannot charge that he has sought to take any advantage of the opposition or of the country. Some weeks have elapsed since Premier Meighen, on his return from London, announced his decision to ask the Governor-General for dissolution as soon as pressing business could be cleared up. The election law as amended calls for the elapse of fifty-five days between issue of the writs and polling. The government has not taken advantage of this time limit even, as two full months, or sixty-one days, will elapse before polling. This will give ample time for the full and leisurely consideration of the issues before the country. This is just what the government desires. Perhaps there never was an election in this Dominion when party counted for less, and the issues for more than in this contest. The carrying on of the government will be no easy task during the next few years, and Premier Meighen and his colleagues, taking the baser partisan view, might have decided to ride for a fall and allow the King party or the Crerar party, as the case might be, to hang itself politically. But in view of the possible consequences such a course was unthinkable. The die has been cast. The people are given abundant time in which to come to a wise conclusion. The tide, which seemed to be going in the wrong direction has turned. Strong men from all parts of the country are flocking to the government standard. It is the duty of every man and every woman to put country before party, and when the free people of Canada have registered their choice two months hence we have no doubt that the result will be the continuance in power of Mr. Meighen and his colleagues, who though not a government of all the talents, are men able, safe and sane.

WHICH?

MEIGHEN—Able, forceful, sagacious, and courageous, with broad national and imperial vision and a well defined policy, or
KING—Verbose, vacillating, and without real convictions on the vital questions of trade, finance and railways, or
CRERAR—Personally highly respectable, but the head of a trading organization which unites its trading with its politics; a man who has lost control of the movement he started and is being driven by the western hosts of free traders into impossible positions.

A WOMEN'S HEALTH NEEDS GREAT CARE

When the Blood Becomes Watery a Breakdown Follows

Every woman's health is dependent upon the condition of her blood. How many women suffer with headache, pain in the back, poor appetite, weak digestion, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness? Of course all the symptoms may not be present—the more there are the worse the condition of the blood, and the more necessary that you should begin to enrich it without delay. Dr. Williams' Pink Pills are a splendid blood-building tonic. Every dose helps to make better blood which goes to every part of the body and brings new health to weak, despondent people. Dr. Williams' Pink Pills are valuable to all women but they are particularly useful to girls of school age who become pale languid and nervous. There can be neither health nor beauty without red blood which gives brightness to the eyes and color to the cheeks and lips. Dr. Williams' Pink Pills build up the blood as is shown by the experience of Mrs. Jos. E. Veniotte, West Northfield, N. S., who says: "For several years I was in a bad state of health. I was pale and nervous, my appetite was poor, and I suffered from weakness. I got so nervous that I was afraid to stay in the house alone. All this time I was taking medicine, but it only did not help me, but I was growing weaker. Finally I decided to try Dr. Williams' Pink Pills, and after using six boxes I felt much better. I had a better appetite, slept better and felt stronger. However, I continued taking the pills for a couple of months longer and now I am feeling as well as ever I did. I give all the credit to Dr. Williams' Pink Pills, and hope that my experience may be of benefit to some other weak woman."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TEACHING THE YOUTH

The late Rev. Dr. MacVicar, for many years Chairman of the Protestant Board of School Commissioners Montreal, often said that if he had his way he would abolish home lessons, about which complaint was and is constant; but nobody had the hardihood to propose that the school curricula should be altered so as to eliminate subjects which are unneeded to need or experience. The best educationists admit that useless subjects are taught and precious time is wasted; they are aware that because of this many young boys and girls who, for economic reasons, have to commence life early, find themselves handicapped for lack of the kind of knowledge which would be useful to them in the pursuit of a livelihood.

What we call the dead languages have a certain intellectual value; but they are not related to the concrete life of the world. They do not spell dollars. They are not a part of that "complex" we call life. Greek and Latin appeal to leisure and culture; but in the desperate pursuit of the clock of knowledge what is needed is of the marketable sort. The tongues that live and thrill and influence experience and life—these have capital value. The studies that are related to the life that is lived from day to day, are those which should have first consideration. Those subjects which are theoretical and which are never encountered on the street will never express any real value. It would be

If you have a used article to sell, advertise it in the classified—**SOMEBODY WANTS IT.**

criminal to eliminate any study which made the imagination vivid or encourage the finer emotions; but convention is imperious, and convention rather than conviction shapes the curriculum not only in the schools of Montreal, but elsewhere.

It often happens that typewriters would be more useful than trigonometry, and shorthand than the classics. Poetry should be encouraged for that refines the whole mentality and gives dignity to expression and mental attitude; but the eye is an inventive and industrial one; and what is wanted is quick equipment with educational furniture which will not be burdensome and which can instantly be used the moment the boy leaves school. It often happens that the boy, leaving school, finds himself in a world of which he is a stranger, unfitted to cope with conditions with which he was not made familiar. His education has been too theoretical. It should, on the contrary, respond to the call and pressure of the commercial and industrial world all about. No post course should be necessary at private schools before the boy or girl can get a position. There should be such identity of interest and sympathy between the school and the store or warehouse or factory that one should be the complement of the other.

We are likely to see the greater triumphs of industrialism buttressed by amazing inventions; and to cope with these vital experiences our young people will need the education that will enable them to keep up with the procession. The conquest of the air, the greater international intercourse, the keen pressure for industrial supremacy—these are the immense realities with which the youth of the country will have to deal. Superfluous studies, which are not encountered in the struggle of life, might be eliminated with advantage.

WEDDINGS
MALONEY—SULLIVAN
 On Tuesday morning at St. Mary's Catholic Church at 7 o'clock, Miss Margaret Theresa, only daughter of Mr. and Mrs. James T. Sullivan of Newcastle and Patrick Joseph Maloney, of Rogersville were married by Rev. P. W. Dixon, who also celebrated the nuptial mass.
 For the wedding the sanctuary was prettily decorated with flowers and colored lights.
 The bride entered the church to the strains of Mendelssohn's wedding march rendered by Miss H. M. Morris. The music during the mass was well rendered and during the offertory Miss May Morrison sang "Salve Regina." The bride was becomingly attired in a suit of blue tricotine with moleskin collar and wore a blue hat. Her bouquet was composed of bride's roses and fern.
 Miss Tessie Gallivan, of Chatham, was bridesmaid and wore a blue suit and carried a bouquet of pink roses. James Sullivan, brother of the bride, attended as best man.
 Despite the early hour the church was filled with friends of the contracting parties to witness the happy event.
 The ceremony was followed by a wedding breakfast at the home of the parents of the bride, to which only the relatives and near friends of the happy couple were invited.
 Later Mr. and Mrs. Maloney left on an auto trip to Boston, New York and Connecticut, and will be absent a month.
 The collection of wedding gifts was both beautiful and valued, representing the interest of friends not only in Newcastle, but in other parts of the country and across the border.
 Among out-of-town guests were Mrs. John Maloney, mother of the groom, and the Misses Marianne, Irene and Hazel Maloney of Rogersville.

BALDWIN—BALDWIN
 A very pretty wedding took place in St. Paul's Church Chatham Head on Tuesday afternoon at 3 o'clock, when Miss Edith Baldwin, daughter of Mr. and Mrs. William Baldwin, of Douglasfield was united in marriage to Mr. John Baldwin of Douglasfield. The ceremony was performed by Rev. Archdeacon Forsythe, of Chatham, in the presence of a number of relatives and friends. The bride wore a travelling suit of navy blue serge with marabou collar, feathered hat of blue and grey.
 Immediately after the ceremony the happy couple left for Fredericton and points in Maine. On their return they will reside in Douglasfield. The bride was formerly on the teaching staff of Harkins' Academy, Newcastle.

OBITUARY
MRS MARY C WILLEY
 The Daily Evening Item, Lynn, Mass., of September 23rd says: Mrs Mary C. Willey, aged 73, wife of William A. Willey, former park commissioner and member of the City Council, died today at her home, 1 Bulfinch street, after an illness of two months. She was born in Dorchester, N. B., and came to Lynn more than 40 years ago. In December Mr. and Mrs. Willey were planning to celebrate their 54 wedding anniversary. Mrs. Willey was a member of the Universalist church of Lynn and leaves, besides her husband, two sisters, Mrs. A. P. Rolph of London, England, and Mrs. L. K. Fleming of Newcastle, N. B.
 Mrs. Willey was the daughter of the late Amasa Weldon, the first collector of customs of Moncton, and a granddaughter of James Robertson and Mary Trites, thus being a descendent of the oldest family of Moncton.

Another Trial For John Paris
 It is likely that the second trial of John Paris, indicted on a charge of murdering Sarah Jane McAbley, in whose case the jury disagreed at the first trial, will be commenced before Judge Barré, at an adjourned sitting of the circuit court here on November 1. Dr. W. B. Wallace, K. C., crown prosecutor, said on Saturday that Mr. Justice Barry had agreed to take the case up on that date if the crown was ready to proceed. Dr. Wallace said that he hoped to have the matter ready for the opening day of the court.

 Miss Evelyn Harris of Boom Road has returned home, after spending two weeks vacation with friends and relatives in St. Stephen.

PARTRIDGE SEASON IS EXTENDED
 A delegation of local sportsmen composed of ex-Ald. Joseph Walker, H. G. Chestnut, R. T. Mack and others waited on Hon. C. W. Robinson, Minister of Lands and Mines and urged that the open season for partridge be extended. They pointed out to the Minister that the open season of twenty days was too short, that the birds were plentiful but city and town sportsmen were placed at a disadvantage in comparison with rural residents. They thought that an extension of the season would place all on an even footing. The Minister after listening to the arguments advanced by the delegation agreed to extend the season until November 1st. The limitation as to the number of birds to be taken in a single day and in the season remains as previously fixed by order in council.

MAKING HISTORY AT GRAND PRÉ

At Grand Pré, Nova Scotia, the other day, three hundred members of the Acadian National Congress assembled, and kneeling reverently at the statue of Evangeline, the heroine of Longfellow's immortal poem, accepted on behalf of the Acadian race a gift of two acres of the Evangeline Memorial Park from the Dominion Atlantic Railway.
 There are in all about fourteen acres in Evangeline Park, and the two acres were presented to the Acadian race on the condition that they would build a church there.
 George E. Graham, general manager of the Dominion Atlantic Railway, expressed his pleasure at welcoming the delegates. With regard to the proposed church, the D. A. R. would still further beautify the grounds and would give it perfect setting. The company would open the old post road that had been closed for fifty or sixty years. He asked them to cast their minds forward the next five years when this chapel would be erected, a beautiful sanctuary in the midst of a beautiful country.
 Mr. P. J. Venoit, minister of highways for New Brunswick, subscribed \$100 for the erection of the new church and George E. Graham \$100 and the Rev. Father Cormier addressed the people, saying that the church would be erected on the site of the old church of St. Charles. It would be a facsimile of the church of their ancestors.
 Hon. D. V. Landry, Moncton, president of the Acadian Congress, formally took possession of the plot and returned thanks to the Dominion Atlantic Railway for the gift.
 Men and women knelt reverently on the ground, their arms streaming down their faces, murmuring blessings on the day that had restored to them the land of their ancestors. They plucked flowers and leaves and dipped their fingers into the water, all of which were more sacred in their eyes than words could tell.
 The pilgrimage to Grand Pré took upon itself all the characteristics of a pilgrimage to Holy Land. In the past, said Mr. Landry, the Acadians had been reproached as an inferior people. That reproach was now eliminated. The ambition of the Acadians now was to unite in work that would make not only for the returning of progress but for the advancement of all Canada. These sentiments were the sentiments of the whole race.

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Meaford, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache, and I also had a female weakness. I felt dizzy and nervous, and was without energy. I had to force myself to do my work, and was always tired. Saw a Pinkham advertisement which induced me to take the Vegetable Compound, and my back gradually stopped aching and I felt lighter in spirits. I am recommending the Vegetable Compound with pleasure to all I meet who complain as I did."—MILDRED BROOK, Meaford, Ont.

Woman's Precious Gift
The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. HARKIN'S ACADEMY NEWS BUDGET

William Ronan
Editor
Harkins Academy Gazette, Newcastle.

Harkin's Academy Booster
The debate which was mentioned in last week's edition was carried on with much success by both affirmative and negative sides. The result was a tie.

The following points were emphasized by the affirmative side. The poor as a rule are stronger physically, and mentally because they use their faculties; and they use those faculties because of necessity. In the case of the rich man the necessity is lacking. Through idleness the rich often fall into evil. In this way the rich often make failure of their lives. Many poor men can be quoted who have become great as Lloyd George. It is difficult to cite examples of rich men who have become failures because their name have sunk into oblivion. To quote from the Bible, it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven. This means that the rich man, cumbered with superficial things, finds it difficult to lead the ideal life.

It is better to be born poor than rich as all the noted men were born poor when they began their career. The rich men depend on their goal and if they lose it they have nothing.

The poor people have to work to gain their place in life and when they gain them they appreciate them while the rich may buy their places. Poor parents encourage their children more than rich parents do.

Points given by negative side
The word rich is not confined to strictly financial sense but can be taken in a broader sense. The affirmative side have already pointed to the men born poor that have achieved great success but this is not so as these were born rich in intellectual power and self-determination.

The philanthropy of the rich greatly over-balances any good done by the poor. There would be no churches and colleges if not for the large donation of the rich men. Charitable institutions are built by rich men to keep the poor from going to utter destruction and if it was better to be born poor these would not need to be built.

A poor boy stops his education before it is finished while the rich boy does not. He can travel which is part of his education. Queen Elizabeth was one of the greatest women in England and she was rich.

The majority of crimes in the world are caused by want.

Rebuttal of Aff.—Queen Elizabeth was not the greatest English woman. She was mean, vain and deceitful. The neg side said that poor meant mean. Therefore she was poor. The majority of crimes

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

are committed by the poor classes because they form the majority of the population.

Often the best churches are found in the poorer districts. Some rich men are very mean, so if poor means mean, then the rich are very often poor. This argument means finance, and to say it is not is begging the question.

A school master in England promised a crown to any boy who could give a riddle he couldn't answer. One bright boy said why am I like the Prince of Wales? The school master couldn't guess. Because I am waiting for the crown, said the boy.

A composition on Geese
Geese is a low heavy set bird, composed mostly of meat and feathers. His head sits on one side and he sits on the other. Geese can't because of the dampness of the moisture. There ain't no between to his toes and he carries a toy balloon in his stomach to keep him from sinking. Some geese when they get big are called ganders and have curls on their tails. Ganders don't have to sit or hatch, but just loaf and go swimming. If I was a goose I'd rater be a gander any day.

N. B. POPULATION IS 388,092 IN 1921

Ottawa, Sept. 30.—New Brunswick' population by the 1921 census is 388,092 as against 351,889 in 1911 and 331,120 in 1901, an increase of 10.29 per cent in the last ten years as compared with a 6.27 per cent increase in the preceding ten years. Nova Scotia's population is 524,579 as compared with 492,338 in 1911 and 459,574 in 1901, a 6.55 per cent gain in the last ten years as against a 7.13 per cent gain from 1901 to 1911. Prince Edward Island's population is 88,536 as compared with 93,728 in 1911 and 103,259 in 1901, thus showing a progressive decrease of 9.23 per cent from 1901 to 1911, and of 5.54 per cent from 1911 to 1921.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. WELL QUALIFIED FOR POSITION

Professor McKnight Appointed to Chair of Electrical Engineering, Nova Scotia Technical College Has Splendid Record

Professor William F. McKnight, who has lately been appointed in the chair of electrical engineering in the Nova Scotia Technical College comes well qualified to fulfill the duties of his new position. He was born in Douglstown, N. B., of Scotch Presbyterian parents and received his primary education at Harkins Academy, Newcastle, and the Provincial Normal School, Fredericton, graduating from the latter institution with a first class teacher's license for New Brunswick. He spent two years in the shops of the Robb Engineering Co. at Amherst and entered Mt. Allison University in 1905 for the first two years of a science course. At this time Mt. Allison had just become affiliated with McGill so Prof. McKnight went there to complete his course. He received the degree of Bachelor of Science in Electrical Engineering in 1909 graduating with high honors in Thermodynamics and Electrical Engineering Lab. work, taking first prize for his graduation thesis. He spent four years with the Canadian General Electric Co. in Peterborough, Ont. taking up their two year practical testing course and spending some time in their Engineering Department doing special work on transformer design. During this period he had responsible charge of the testing of the large generators at Niagara Falls, among the largest in Canada.

Prof. McKnight then transferred to the Northern Electric Co., Montreal, as cable sales engineer, covering Eastern Canada and afterwards Ontario. He was engaged in this work five years, during which period installations on a very large scale were made. He gave up this work to organize an educational department for the company in manufacturing, telephone engineering and salesmanship. This was the most extensive programme taken up by any commercial concern in the Dominion. Prof. McKnight's appointment, which was made this summer is part of a general scheme to make the Technical College the equal of any Engineering Institution in Canada.

THE HOME-TOWN PAPER

It is a notable fact that with all the wonderful things that have been written about the so-called "country newspaper" very few of them realize all their possibilities, or what an influence they are in the world.

It is also a notable fact that very few of the readers of those papers realize what a loss it would be to them and to the world if the country paper should cease to exist.

The large papers, with immense circulations tell of "world happenings" as they understand them, and display heads telling of the latest scandals, prize fights, and the misfortunes of humanity.

But, it remains for the "local paper," the "country weekly," the "home town paper" to really give the news of the world, or that of Mr. Common People and his wife.

It is time that the country newspaper should do something to place itself on a higher plane, and also make some noise. Just one paper to start something would not amount to much, but if the 15,000 country papers would join the chorus, a noise that would go around the world would be the result.

Some time ago I was going through some trade paper, or bulletin of a state press association, or something of that kind, and noted that somebody wrote that it might be a good idea to have a "Subscribe for Your Home Town Paper Week" started at the idea at first, but some way the idea stuck, and then I started to find out who originated the idea, but the paper was lost.

The publisher who thought of the idea just let it go at that, but I decided that it was so good, that it should not die, so at once asked all the trade papers, printers' magazines, and the great printers' supply houses what they thought of the idea.

The result was that everyone wrote that the idea was just the thing, and by common consent it was decided that the week of November 7 to 12 be adopted as the week to be known as "Subscribe for Your Home Town Paper Week."

It is now up to the newspapers of the country, the home town papers, to see the wonderful possibilities of such a week, where in every locality readers will be asked to subscribe for the other fellow, to print item after item about this and that kind of a day or week—the time has come for it to boost and blow its bugle for itself, to print several columns about itself, and all home town papers, to put on a campaign of publicity, and take advantage of what other parts will do.

In other words, throw its hat into the ring, and put up a fight that will get it somewhere instead of sitting on the side line and hollerin' for the other fellow.

Here are some items that the country newspaper can use, which as suggestions will lend themselves toward writing other items along the same line, or making display advertisements, or circulars.

"Subscribe for Your Home Town Paper Week," is the second week in November, 7th to 12th. If you don't take the home town paper, subscribe then. If you do take it, renew your subscription then.

News your friends forget to write to you: news about the folks you are interested in: the current history of your native town: it is all in Your Home Town Paper. Subscribe to-day.

If you think there's nothing in patriotism, just try to knock a man's home town! It's a fine way to start a fight. The folks at home are big folks to you. Read about them in Your Home Town Paper.

Maybe the ol' swimmin' hole is dried up—maybe it has become the lily pond in a beautiful park. Anyway, it's the centre of things around which your memories gather. And your Home Town Paper still prints the news of the ol' swimmin' hole and the folks up and down the street

MY WHOLE LIFE

was spent in trying to cure an ulcer by using ordinary ointments. The pain was terrific. For years I could hardly walk and had to remain in the house. For twenty-five years I received doctors' treatment but got only temporary relief. Then I heard of some wonderful cures worked by Zam-Buk and commenced using it. The relief experienced was wonderful. The inflammation was gradually drawn out. The pain was soon ended, and at last after thirty-three years of misery, I was on the road to recovery. To cut a long story short—perseverance with this wonderful balm resulted in a complete and permanent cure. Zam-Buk is also unequalled for eczema, ringworm, abscesses, boils, blood-poisoning, burns, scalds, cuts, and all skin injuries. All druggists or Zam-Buk Co., Toronto, Sec. box, 3 for \$1.25.

The women were booked on the police blotter as held on "suspicion of murder," although the only scratch on his cheek, and the county autopsy surgeon reported his death as probably due to acute alcoholism.

Railroad Men Have Reached An Agreement

Montreal, Oct. 9.—After ten days of argument and conference with the commission of conciliation and investigation, headed by Chairman Judge F. S. MacLennan, the representatives of the brotherhoods and railway managements came to a provisional agreement late on Saturday evening, under which the men agreed that the reduction in pay running from ten to twelve per cent put into force last July, shall be continued tentatively.
Provision is however made for further conference as to this, with the understanding that if the final decision is that the wages should be reduced, this decision is to stand. Should, however, the wage cut be less than that enforced by the companies, the latter will have to refund the differences between the reduction authorized and that actually in force. If more, no refund will be collectable by the railways.

BOY ARRESTED IN MURDER CASE

Mr. R. A. Murdock, of Chatham has been appointed Returning Officer for Northumberland County in the Federal election to be held on December 6th.

TOENAILS

By Sir Robert Baden-Powell, Bt., in THE SCOUT

A lady told me lately that she liked Boy Scouts because they were "gentlemen." Well, that sounds nice, but perhaps you don't quite see how a boy—a poor boy—can well be a gentleman.

A boy was asked what he thought was meant by the word gentleman. I suppose nine out of ten boys would have said: "A man with plenty of money, a big house, and fine clothes," but this lad was smarter than that—smarter than perhaps he knew, when he said: "A gentleman. Why he's a bloke that keeps his toenails clean!"

It may seem odd, but that boy was not so far off the mark. A man who keeps clean in small things of that kind is the more likely to be clean in big things, clean in his dealings with other people and in his business; and that is the biggest step towards being a gentleman.

It does not at all follow that a man who is rich and has money is therefore a gentleman.

A gentleman is a man who has honour; a fellow you can trust; one who would scorn to tell a lie.

A coward will tell a lie because he has not the pluck to tell the truth, and a gentleman is not a coward.

To be a gentleman you have honour and four other things, each of which begins with letter C.

The first Courage, because, as I have said, if you mean to stick to the truth, to see fair play, or do the right.

Another C that makes the gentleman is Chivalry, that is, readiness to risk his own safety to help someone weaker than himself. Like the knight of old, he will help women and children, and old or infirm people. He is courteous and polite to all, even the meanest of the mean, aggravating. He doesn't lose his temper, but sees the other fellow's point of view and takes things easy instead of firing back at him.

Another C is Cheeriness in doing all this. A fellow who does his duty in a grouching, surly way is only half doing it. We are in this jolly world to enjoy it, not to be miserable. And we can not only enjoy it ourselves, but, through being happy, we can pass on happiness to other people.

And then there is the Cleanliness which I spoke of just now—the "cleanness in thought, word, and deed" that you Scouts carry out in your Tenth Law—the cleanness in your dealings with other people, down to cleanliness of your own body, even down to your toenails, as our young friend put it.

And there you have the points by which any boy can make himself what the lady declared a Scout to be, a gentleman.

Honour, Courage, Chivalry, Cleanliness, and Cheerfulness. These all come in the Scout Law, so that if you are a true Scout you are a true gentleman.

SPANIARDS BOMBARDING MELLILLA

Mellilla, Oct. 7.—Moroccans resumed their bombardment of Mellilla last Sunday, and the fire continued through Monday without, however, causing serious damage. A small group of Moors, whose commander is alleged to be a reformed sergeant of native police, occupied a position in the southern suburbs of the city, and sent a number of shells into Spanish positions. They also operated a machine gun, the bullets from which fell into a thickly populated region.
The population of the district was compelled to take refuge in the centre of the city.
