St. James' Church, Brooke, at R. J. Lucas.

THE WEATHER

This may be spring of which I sing—
The ice has left the streams and channels.
This may be May
But still, I say
I'm keeping on my heavy flannels.
Every brand of climate of the abominable kind was served up for Victoria Day the first great spring-time holiday of the year.
Starting in early Friday afternoon the weatherman didn't let any false impression of his temper abroad, and the rain fell without ceasing for nearly 20 hours, causing a halt in almost every department of social and sporting activities.
Following the rain there was a bitter blast from the north—
It was all bad—very bad.

LAMBTON RURAL DEANERY MEETS

Chapter Discusses Celebration of Huron College Centenary

The semi-annual meeting of the rural deanery of the County of Lambton was held on Tuesday of this week in Trinity Anglican church, with the largest attendance of clergy and laymen in the history of the deanery. Rural Dean F. G. Newton, of Sarnia, being the presiding officer.
The morning session opened with the celebration of holy communion, with Rev. Rural Dean Newton and Rev. J. H. Hosford, M.A., B.D., rector of Trinity church, as the celebrants. Separate business sessions were held by the Deanery Chapter, the Laymen's Association and the Women's Auxiliary.
In the Deanery Chapter the clergy discussed the plans for the centenary of Huron College, London, confirmation classes and candidates, the Eskimo appeal and the needs of the work among the Indians.
The Laymen's Association transacted routine business and discussed the missionary budget, while the Women's Auxiliary transacted its special business and then listened to a fine address from Miss I. L. Isaac, of Matsuno, Japan, a missionary, home on furlough.

Luncheon was served by the ladies of the church.
The general meeting in the afternoon was of an inspirational character and several stirring addresses were enjoyed. Rev. George Pugsley, of Stratford, was the first speaker, his subject being "The Church and the Community." Mr. Pugsley, in a forceful and eloquent address made a strong appeal for the development of a deeper religious interest in the community life, to aim to get men interested in God, in love to the church and a realization of its great value and influence.
Miss Isaac was the next speaker and she delighted the large audience with some interesting descriptions of Japanese life and customs. Happily mingling humor with pathos she held the close attention and deep interest of the meeting as she told of mission work in Japan, and pointed out Japan's great need of Jesus Christ.
The closing address of the deanery meeting was delivered by Rev. Rural Dean F. G. Newton, of Sarnia, speaking on the subject, "The Holy Spirit," the rural dean made a stirring appeal for loyalty to the old truths and in the Holy Spirit and His Work.

The splendid attendance at this meeting of the Lambton Deanery indicates a wonderful enthusiasm for the work of the church prevails throughout the County of Lambton.

Pale Wan Cheeks And Dull Eyes

Is Proof That The Blood is Thin and Impure.

It is the blood that gives color to the cheeks and lips, as well as brightness to the eyes. If your blood gets thin the color will fade and the eyes grow dim. By the time this happens you will notice that you tire easily and are subject to headaches and backaches, for the blood goes everywhere and the entire system feels the effects when it becomes thin. Dr. Williams' Pink Pills contain the elements necessary to enrich the blood, and this better blood strengthens the nerves and all the organs of the body, brings a glow of health to the cheeks, brightness to the eyes and a general feeling of renewed health and strength. Miss Florence Johnson Stratford, Ont., who has proved the value of Dr. Williams' Pink Pills in cases of this kind, says: "A few years ago I was greatly run down; my blood was very poor and my nervous system in bad shape. The doctor said my condition was due to improper diet and lack of fresh air. I then commenced eating the food he advised and went out daily for a walk. I did not improve, however, and was much discouraged. A friend advised me to try Dr. Williams' Pink Pills. I lost no time in getting a supply and can truthfully say that when I had finished the first box I could note an improvement. From then on the progress was steady. My complexion, which had been pale and sallow, began to take on a healthy glow, I felt a great deal stronger and my appetite became normal, and soon my health was fully restored. Before using Dr. Williams' Pink Pills I did not know anything about their wonderful qualities, but now I recommend them to all suffering from similar ailments."

You can get these pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Foe to Asthma. Give asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

ALVINSTON

This village celebrated the holiday in a very fitting manner and despite the very disagreeable weather it was very successful. The huge calathumpian parade which commenced the afternoon program contained a float of nearly every business man besides those of the high school and individuals. The program at the park included caladonian games in which there was keen competition especially the pole vault, running high jump, and shot put. There was a lively baseball game staged between Walkers and Inwood, Inwood winning by a small margin. There were foot races, relay teams and last but not least a chase after the greased pig the captor being George E. Whitton. Owing to the slippery track the motorcycle races were not held.

In the evening an interesting program was staged by The Wright Concert Co. of Strathroy and Mr. W. E. Edwards, and Miss Jessie MacGregor of Caledonia. Music for the day was furnished by the Petrolia Band.

Mrs. Clara Wall and son Charles and children and Miss Annie Parley, of Thamesville spent the holiday in town.

Alvin Paper of Detroit, was a week-end visitor at his home here.

Misses Jean and Eva McCallum of London visited at their home here.

The death occurred in London on Friday of Nelson Lorne Gough, son of Nelson Gough, River St. Deceased who was in his twenty-ninth year had been in poor health for the past year having been gassed in the recent war. He is survived by his father and two brothers, Charles and Frank.

NAPIER

Miss Margaret Douglas of Vancouver is visiting her aunt and uncle, Rev. and Mrs. Mackintosh.

Mrs. M. L. Woelard of Toronto, visited the Napier branch of the Women's Institute on Wednesday, May 21, and in her pleasing way delivered a most eloquent address. She spoke on canning also gave some sewing hints. A report of last year's work was given, showing over \$70 being made and over \$30 yet in the treasury. A community song was sung and a dainty lunch was served.

Mr. and Mrs. John Field and Miss Enid Elwood of Strathroy spent the holiday at the home of Mr. and Mrs. Basil Smith.

Mr. and Mrs. Richard Searson and the Misses Mabel, Dorothy and Beatrice Clothier spent the 24th. with friends on the 10th line.

Note and Comment

The village of Chesley enjoys a unique position. All its taxes are paid.

The tortoise went under the wire first. The hare, no doubt, was an efficiency expert and sat down to work out a time-saving method.

Burns Lodge A. F. & A. M., Wyoming is planning to attend the Anglican service in a body on June 8. Members of near-by lodges are invited.

Blankets that have been washed and dried should be well beaten with an ordinary carpet-beater. This will make the wool light and soft, and freshen up the appearance of the blanket.

It was formerly said that the Chicago pork packers used every part of the pig except his squeal. This now seems to be used by broadcasting stations on nights when we have a few friends in to listen to our radio.

Inspector Morrison, who has charge of the looking after the proper grading of eggs, was in town Tuesday. He found that several merchants were not grading the eggs which are being purchased from farmers, and in each case gave a warning that this must be done, or a fine of \$200 would be imposed.—Forest Standard.

The backward and wet weather which has prevailed this spring is expected to bring compensation in the form of better pasture and hay crops this year, but because of the lateness of the season, it is anticipated that there will be a larger acreage than usual planted of the standard late sown crops such as corn, millet and buckwheat.

Mr. and Mrs. John MacHobie, of Petrolia, have announced the engagement of their only daughter, Marion Hobbie, to Frederick Arthur Fitzgerald, son of A. E. and the late Mrs. Fitzgerald, of Detroit, Mich., the marriage to take place on June 8.

Parents of Ontario will undoubtedly enthuse when Hon. G. H. Ferguson, premier, announces details of his proposed revision of the school curriculum. It is already indicated that many of the fads and frills are to go, to make room for the return of the much more important three "R's."

Shingle, belles, shingle, belles, Shingle while you may. Can't you hear those shears snip, snip, snip?

The shingle's come to stay. Shingle, belles, shingle, belles, The barber has his day; The shingle is in favor, belles, And the woman has to pay!

A man's work is from sun to sun, but a woman's work is never done. So runs the old saying. New Hampshire checks up and discovers that the average woman on its farms works 4,000 hours a year. That is about eleven hours a day, Sundays included. Mother never gets a real vacation. Did it ever occur to you what would happen if she struck for an eight-hour day?—Vancouver Evening Sun.

As the result of a gasoline war in Strathroy the Imperial Oil Co. are placing a new filling station in that town and this week it is expected that gas will be selling around 20c per gallon. It has been selling at 24c all spring and the Imperial are determined they will run the opposition out of business or put a stop to the price cutting. The opposition is getting his gas from Oklahoma.

Young men who left Western Ontario for Detroit and other U. S. points are moving in the opposite direction. The reason why they left Ontario was that work was plentiful and wages good in United States. There are many plants there now where there is no work to be had. The magnet toward the republic has ceased to pull. There are cases not far from Strathroy where young men left the farm for Detroit. They could not be blamed because they were sure they could make more money. Today a number of them are back. They did work for a time and made good wages, but they had to part with a large percentage of them to pay living costs. Then the work ceased, and they once more made a wise move—they came back to Ontario and took the first work they found, on a farm. The tide has turned in the opposite direction. Canadians are coming home, and Canada today is fundamentally in better shape than United States.

Amherstburg Echo— "Williams Luckham, of Sarnia, father of Mrs. (Dr.) Maxwell, of Kingsville, made an interesting call at The Echo office Tuesday morning, having driven over from Kingsville with Dr. Maxwell. Mr. Luckham is just returning from Toronto, where he was attending the 91st anniversary of the Upper Canada Tract Society, the significance of this being that his life is concurrent with that of the Society, with which he has been associated for many years. Mr. Luckham was 91 on the 31st of October last. Despite his years he is erect as a soldier, clear of vision, hearing and mental functions, and takes an active interest in public and family affairs. He is the youngest old man it is our pleasure to know."

Prest-O-Lite Plates produce Prest-O-Lite Power

PREST-O-PLATES make Prest-O-Lite the all-weather battery, just as they make it the long-lived battery. Heat cannot buckle them nor cold impair their efficiency. In construction, Prest-O-Plates are designed to withstand the abnormal conditions under which batteries are often expected to perform. Prest-O-Plates are found only in Prest-O-Lite Batteries.

The Prest-O-Lite Battery is 100% made-in-Canada—the product of the largest battery manufacturing plant in the British Empire. For that reason it can be sold at a price far lower than its quality would seem to warrant. There is a Prest-O-Lite Battery to suit your car, and a thousand Prest-O-Lite Service Stations in Canada to keep your battery up to full efficiency.

In Unhurried Quebec

"These 'chicns' of Quebec have no Jackie Coogan to do them justice."

Old fashioned Quebec tugs at the heartstrings of the summer visitor, because her appeal is personal, without intention, so to do, she has struck what the advertising men work so hard to acquire...the human interest angle.

Quebec is natural, simple, lovable. In our race for a living we of the cities have reduced life to a system with every action in subordination to hours and minutes. But in Quebec the habitant rises above the leash.

He has something in himself which holds him to old ways. To family life, to the farm, to the horse and hand-plough; to the scythe, to cows. Wives and daughters and boys of all ages lend a hand at everything. All the changes of the seasons fit in to the scheme of life. And yet there seems to be no particular scheme, no hurry, none of that driven feeling. No friction.

And so when we get into Quebec we are sensible of a freedom of spirit. The shackles of "the drive" fall away as we come once more under the benison of the simple and the fundamental.

Here by the road are the wayside Crosses common in Old France and once in Old England. The Mower is abroad in the fields. The dogs drawing their little carts still hold the road.

And nothing is more humanly appealing than these dog carts of the Quebec highway. The "Dog of Flanders" has won his way to publicity on the screen, but these "chiens" of Quebec have had no Jackie Coogan to do them justice.

And yet what a part they play in the life of this great Province, far larger in extent than Flanders. How the dogs fill niches in the households, jobs long ago eliminated from our scheme of life, are performed by the dog carts as a matter of course, in Quebec. Boys of the family break their hand in from babyhood, harnessing, unharnessing, driving "le chien." The boy that as

soon as he is big enough will have the horses in hand. "Deep meaning oft lies hid in childish play" down in Quebec.

And yet the dog cart is not merely a means toward an end. As farm life is arranged in Quebec, the dog cart is no mere child's toy, but part and parcel of French thrift.

Boys sent an errand cover the miles in the dog cart. Wood to be brought from the distant woodland on the mountainside is loaded into the little cart. With the aid of these "tiny horses and carts" small boys do this work quite easily, releasing their fathers and big brothers to men's jobs at the plough or with the heavy scythe.

Textile workers in the big mill below Montmorency Falls, living in Saint Gregoire and other villages nearby, have their dinner-pails brought to them by their small boys in dog carts, and if you happen along this road at dinner-time it is to see perhaps as many as thirty or forty of these little chariots.

The speed attained of the dog is surprising, especially when homeward bound. Then, little M'sieu can hardly hold him in.

But you must not think 'tis only youth that these gay dogs of Quebec serve, their tails wagging, flying along with the baby in the cart and the family brood of boys and girls running hither and thither gathering frambiose in their pails. What would the old... the old couples, the old women, do without their old dog and his little cart?

But, I think perhaps one never realizes more, how much a part of every day life the dog cart is, until you happen along by some wayside smithy and see the smith hard at work turning, twisting, heating, hammering the miniature axles and tires in the most matter of fact manner, part of the day's work, as much as shoeing a horse.—Victoria Hayward.

Weddings

SULLIVAN—ROCHE

On Tuesday morning, May 20th, a very pretty wedding, solemnized by Rev. Father Smith, took place at St. Vincent de Paul church, Toronto, when Anna Marie, youngest daughter of Mr. and Mrs. David Roche, became the bride of Dr. Orland P. Sullivan, son of Mr. and Mrs. J. J. Sullivan, Orillia. Owing to the illness of her father, the bride was given in marriage by her brother, Dr. Norbert J. Roche, of Chicago. She looked very charming in a gown of tea rose, crepe madonna, with lace bertha and petals of lace medallions falling over a full skirt. Her hat was a large drooping leghorn with pastel facing and pastel chiffon crown trimmed with French flowers. She carried a shower bouquet of Ophelia roses and lilies of the valley. The bride was attended by her sister, Miss Loretta Roche, who was gowned in powder blue georgette, with hat to match, and carried Columbia roses. Mr. Foster Frume was best man. The bride's mother wore castor kitten's ear crepe, with corsage bouquet of sweet peas, while the groom's mother was becomingly attired in black beaded crepe. Mr. John Roche, brother of the bride, presided at the organ. Rosewig's "Ave Maria," by Miss Florence O'Neil, and "Ave Maris Stella" and "O Salutaris," by Miss O'Neil and Messrs. Roche and Farnon, were beautifully rendered. Following the ceremony a reception was held at the home of the bride's parents, Parkside Drive. Later Dr. and Mrs. Sullivan left for Montreal and Quebec, the bride travelling in a sand French suit with hat to match, and champagne fox fur.

The Toronto Globe of Monday, May 19th, says:—"Mrs. David Roche Parkside Drive, entertained at a delightful trousseau tea on Saturday for her daughter, Miss Marie Roche, whose marriage to Dr. O. P. Sullivan will take place this week. Mrs. T. Langan assisted her mother in receiving. Miss Roche was charming in a becoming frock of pink georgette, with a corsage bouquet of pink roses. The attractively arranged tea table, over which hung from the chandelier a shower of pink sweet peas, was done with a silver basket filled with pink sweet peas, and silver candleabra, Miss O'Meara and Miss McDonnell presided with the

Misses Loretta Muckie, Sadie Piggett and Mildred McCrohan assisting. During the afternoon John Roche and Miss Florence O'Neil sang delightfully.

BALL—PATTERSON

One of the most interesting events of the season was the marriage of Miss Hazel Freeda, only daughter of Mr. and Mrs. Robt Patterson, to Mr. Robert Hugh Ball of Warwick, second son of Mr. and Mrs. Ball of Adelaide, which was solemnized at the home of the bride's parents, Oakland Farm, Kerwood, Saturday May 24th at three o'clock in the presence of about sixty-five guests, relations of the bride and groom. Rev. R. A. Brook, pastor of the Kerwood Methodist church, officiated. The bride who was given away by her father entered the drawing room to the strains of Lohengrin wedding march played by Miss Mildred Richards of Courtright, cousin of the bride, gowned in sand canton crepe. The bride looked charming in a gown of white charmeuse satin with rhynstone trimmings, her only ornament being the groom's gift, a necklace set with pearls. She wore the customary bridal veil caught with orange blossoms on her prettily arranged hair, she carried a shower bouquet of Ophelia Roses and fern tied with white satin streamers. Little Marguerite Brooks, cousin of the groom, wearing a white silk frock with touches of lace and ribbon carrying a basket of sweet peas, made a winsome flower girl. The ceremony took place beneath an arch of cedars roses and tulips banked with flowers and ferns. The bride and groom's mother received the guests. The bride's mother gowned in navy blue canton crepe trimmed with sunset and roses. The groom's mother wearing black satin crepe

embroidered with old gold beads. After the signing of the register the bride and groom led the way to the dining room, which was prettily decorated in pink and white streamers and pink tulips and where the wedding dinner was served at daintily arranged tables by six girl friends of the groom. The grooms gift to the flower girl was an engraved locket and chain, and to the pianist a silver mesh purse. Mr. and Mrs. Ball left on the evening train for Toronto, Niagara and points east, the bride travelling in a navy tricotine suit embroidered in sand, with grey hat and shoes to match. Guests were present from Detroit, Port Huron, Windsor, Sarnia, Appin, Dorchester, London, Melbourne and other neighboring towns. Toasts were rendered to the bride and groom, also the guests. The bride and groom were the recipient of many beautiful gifts, including, some valuable cheques. Mr. and Mrs. Ball will be at home to their friends after July 1st, at the groom's farm in Warwick.

ALVINSTON VETERAN SUCCUMBS

Nelson Lorne Gough, a returned soldier and resident of Alvinston, died in Byron Sanatorium on Friday, aged 28 years. Deceased was born in Middlesex County, and with the exception of the time spent overseas had spent his life-time in this district. He is survived by his father, two brothers, Frank of Windsor, and William H. of Alvinston, and two sisters, Mrs. John Shannon of Forest, and Mrs. Thomas Edworthy, of London. The remains were forwarded from the Oatman Funeral Home to Alvinston, where funeral services were conducted on Monday afternoon. Interment in Alvinston Cemetery.

Crimean Veteran Praises "Fruit-a-tives"

MAJOR GEO. WALKER
Major George Walker, now a familiar figure in Chatham, Ontario, is one of the men who went through the terrible Indian Mutiny. As he says: "I am a veteran of the Crimean War and the Indian Mutiny, serving under Lord Roberts. Fierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. My bowels were so constipated that I was in terrible shape until I began to use 'Fruit-a-tives.' They relieved me both of the Rheumatism and the Constipation. Today, I enjoy perfect health—no more Rheumatism or Constipation."

And in another letter, written December 1st, 1923 (eleven years after), Major Walker says: "Fruit-a-tives" are keeping me in the best of health and I shall never be without them.

"Fruit-a-tives" are the famous Fruit Treatment—intensified fruit juices combined with tonics—that make you well and keep you well. 25c and 50c— at all dealers or from Fruit-a-tives, Limited, Ottawa, Ont.

Cheaper Cuts Of Beef

The pot roast which is frequently used by the thrifty housewife in the effort to keep down her butcher bill and still provide good meals, may be made from many of the cheaper cuts such as the chuck, of the beef carcass. After being wiped with a damp cloth it is placed in a covered bake pan or casserole, with two cups or more of hot water. It should be covered tightly and baked in a moderate oven or on top of the stove keeping the heat just below the boiling point. Pamphlet No. 43 of the Department of Agriculture at Ottawa, obtainable from the Publications Branch, shows how the meat bill may be reduced by utilizing the cheaper cuts of beef. One-half hour's time for each pound of meat in the roast is recommended. About an hour and a quarter before serving, pared potatoes and sliced carrots and onions may be added. When ready to serve, the roast should be removed to a hot platter and gravy thickened and seasoned. If the meat is very fat, it is advisable to remove the fat from the top of the gravy before thickening. The pamphlet contains many other recipes for utilizing the cheaper cuts of beef.

MRS. MISENER'S AGES AND PAINS Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branchton, Ont.—'When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound Tablets and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and, in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctored for several years without getting permanent relief, when I started to take your medicines."—Mrs. GOLDWIN MISENER, Branchton, Ont.

HAIRLESS LITTERS POTASSIUM IODINE

(Experimental Farms Note.)
Certain definite abnormalities in pigs such as complete or partial hairless, undeveloped hoofs, blindness, large flabby and unnaturally developed neck and head all arise from the same cause or causes. Pigs so affected usually die although the sow remains normal.

Pregnant sows are fed a highly nitrogenous ration, given insufficient exercise, and little or no vegetable or mineral matter are usually the heaviest sufferers.

This indicates a deficiency of some necessary element in the ration. Control of the trouble lies in preventive feeding and improved management of the sow. It is imperative that the sow be encouraged to take daily exercise. In so far as is practical, separate the feed trough, sleeping cabin, and hay rack, or if the sow is housed in a shed or straw stack adjacent to or situated in the barn yard, the feeding trough should be placed some distance away so that she has no alternative but to take exercise. Close confinement of the pregnant sow must be carefully avoided.

Bran should always form part of the ration and to this should be added such meals as shorts, screenings, oats or barley supplemented with 5% of tankage and 1% of bone meal. Pulped mangels or boiled turnips and clover hay, preferably alfalfa, are suitable roughages. Minerals in the form of charcoal, earth, soft coal or wood ashes, etc., should always be available for the sows.

If these measures fail, medicinal treatment must be restored to. Scientific investigation has demonstrated that the addition of iodine in some form to the sow's ration may remedy the trouble. In Eastern Canada where only an occasional litter may be affected, exercise and proper feeds should be successful, but where hairlessness is common iodine should be administered during the gestation period, or at least for the greater part of it. A solution of one ounce of potassium iodine in a gallon of water may be prepared and when this solution is supplied to the sow in the meal ration at the rate of one tablespoonful per day she gets a daily allowance of about two grains of the drug, which is sufficient.
