OTTAWA, 31st December, 1895.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber, to open the Session of the Dominion Parliament, on Thursday, the 2nd proximo, at Three o'clock, P.M.

I have the honour to be, Sir,

Your obedient servant,

ARTHUR GORDON,

Governor General's Secretary.

The Honourable

The Speaker of the Senate.

The Senate was adjourned during pleasure.

After some time the Senate was resumed.

His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, &c., &c., Governor General of Canada, being seated on the Throne,

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House,—" It is His Excellency's pleasure they attend him immediately in this House."

Who being come with their Speaker,

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In accordance with the announcement made during the last Session, Parliament has been summoned somewhat in advance of the usual period.

The bountiful harvest with which Canada has been blessed is a cause for the deepest thankfulness to the Giver of all good.

I congratulate you upon the evidence of increased activity in the various branches of commerce and industry.

Several such indications have come under my personal observation during a tour made recently in the North-west Territories and British Columbia. In particular, I noticed the extension of mining enterprise in British Columbia, where the vast mineral resources are in certain localities being now developed and utilized upon something like an adequate scale.

A special feature of the same tour consisted in the opportunities obtained for visiting a number of the Indian Reservations and also the Indian Industrial Schools. On the former I was received with hearty demonstrations of loyalty and good-will, while in connection with the latter the proofs of proficiency and intelligence on the part of the children were highly encouraging.

As to the work of the Indian Department as a whole, the manner in which it is directed and administered appears to be very satisfactory.

A reference to these topics would be incomplete without an allusion to the valuable services of the North-west Mounted Police, which may justly be regarded by Canadians generally as indispensable, under present conditions, to the well-being of those extensive and promising portions of the Dominion in which they are stationed.

Immediately after the prorogation of Parliament my Government communicated through the Lieutenant-Governor of Manitoba with the Government of that province,

in order to ascertain upon what lines the local authorities of Manitoba would be prepared to promote amendments to the Acts respecting education in schools in that province, and whether any arrangement was possible with the Manitoba Government which would render action by the Federal Parliament in this connection unnecessary. I regret to say that the advisers of the Lieutenant-Governor have declined to entertain favourably these suggestions, thereby rendering it necessary for my Government in pursuance of its declared policy to introduce legislation in regard to this subject. The papers will be laid before you.

I am happy to inform you that the representations of my Government and the suggestions of the Ottawa Conference respecting steamship communication have resulted in an announcement by the Imperial authorities of their willingness to grant a substantial subvention towards the Atlantic portion of the scheme. This will, I trust, ensure the successful establishment of a line of steamers between the United Kingdom and Canada, which, in point of speed and equipment, shall fully meet all requirements. My Government have also learned with satisfaction that it is the intention of the

Secretary of State for the Colonies to appoint a Committee to consider a proposed Pacific Cable to connect Canada with Australasia. You will, I am sure, share the gratification with which my advisers welcome these announcements as affording further evidence of the desire of Her Majesty's Government to draw closer to each other and to the motherland the outlying portions of the Queen's Dominions. The papers on these subjects will also be submitted to you.

Your attention will be asked to measures intended to provide for the better arming of our militia and the strengthening of Canadian defences.

The growth of population in the North-west Territories as disclosed by the last enumeration calls for additional representation in Parliament. A Bill for this purpose

I am happy to be able to inform you that the Commissioners appointed by Great will be laid before you. Britain and the United States for the purpose of delimiting the boundary between Alaska and Canada have concluded their labours and have signed a joint report for presentation to their respective Governments. This report will be laid before Parliament

At the request of the Right Honourable the Secretary of State for the Colonies a in due time. delegate of my Government visited England last summer to confer with the Imperial authorities upon the question of Copyright. His report will be laid before you, and I doubt not that this subject will again receive your earnest attention.

You will also be asked to consider measures for the extension and development of our trade in agricultural products with the United Kingdom, and other markets.

Gentlemen of the House of Commons :

The accounts of the past and the estimates for the ensuing year will be laid before The latter have been framed with every regard for economy consistent with the vou. requirements of the public service.

You will be pleased to learn that the revenues of the country show a gradual and continuous increase, and that the promised equilibrium between income and expenditure on Consolidated Fund account for the current year bids fair to be realized.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I commend these subjects and others which may come before you to your earnest consideration, relying upon your wisdom and prudence under the Divine guidance to discharge with dignity and effect the high trust committed to your care.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Honourable Sir Mackenzie Bowell, President of the Queen's Privy Council for Canada, presented to the Senate a Bill intituled : "An Act relating to Railways."

The said Bill was read a first time.

The Honourable the Speaker reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honourable Sir Mackenzie Bowell, seconded by the Honourable Mr. Masson, it was

Ordered, That the Senate do take into consideration the Speech of His Excellency the Governor General, on Wednesday next, at three o'clock in the afternoon.

The Honourable the Speaker presented to the Senate,—The Report of the Joint Librarians on the state of the Library of Parliament, for the year 1895.

TO THE HONOURABLE THE SPEAKER OF THE SENATE.

The Joint Librarians of Parliament have the honour to report as follows for the year 1895 :---

The recess has been largely devoted to changes and improvements in the catalogue of the Library, the law catalogue being in process of re-copying and the card catalogue being put into type-writing.

The United States Government having after much delay published the proceedings in the Behring Sea case, complete sets of the American volumes have been provided for the Library, in addition to those printed by Great Britain.

Attention is being given to the collection of the reports of all Royal Commissions issued in Great Britain for the investigation of important public questions. The Library already contains many of these reports, on Trade, Criminal Law, the West Indies, the Public Service, Labour, and other subjects.

The Royal Commission on Agriculture in England having almost completed its labours, a full set of the volumes as far as published has been provided in advance of the general set of Imperial Commons Papers.

The Royal Commission on Secondary Education having published its report in full, a separate set has been provided in like manner.

The reports of the various Boards of Trade and Chambers of Commerce in England for the past year have been collected, and will be found upon the shelves.

The date of the meeting of Parliament renders it impracticable to provide the bound sets of periodicals for the use of Members at as early a period as is desirable; but arrangements have been made to procure as speedily as possible the newspapers and periodicals most likely to be required for the purposes of Parliament.

The instructions of the committee with regard to the distribution of certain exchanges were duly carried out during the recess, and the replies of the recipients have been duly received and filed in the Library.

The latest additions to the literature of Political Economy, Statistics and Trade will be found on the shelves, as usual; but the annual statistical compilations for 1895 will not be available at this early date of the new year.

Among the most valuable of the donations of the year may be mentioned the Report of the Constitutional Convention of New York in seven volumes, received from the library of the State.

At this last session of the present Parliament the Librarians desire to acknowledge the courtesy and consideration they have received from the Speakers of the Senate and House of Commons, in carrying out the rules and customs of the Library.

The list of donations and copyrights will be found appended as usual.

The catalogue of accessions during the year is ready for distribution.

All of which is respectfully submitted.

The Honourable Sir Mackenzie Bowell moved, seconded by the Honourable Mr. Masson,

That when the Senate adjourns this day, it do stand adjourned until Tuesday next, at eight o'clock in the evening.

The question of concurrence being put thereon, the same was resolved in the affirmative, and

Ordered, accordingly.

MAY IT PLEASE YOUR EXCELLENCY :----

We, Her Majesty's dutiful and loyal subjects, the Senate of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of this Session.

We also thank Your Excellency for informing us that, in accordance with the announcement made during the last Session, Parliament has been summoned somewhat in advance of the usual period.

We heartily share Your Excellency's feeling that the bountiful harvest with which Canada has been blessed is a cause for the deepest thankfulness to the Giver of all good.

We rejoice that Your Excellency is able to congratulate us upon the evidence of increased activity in the various branches of commerce and industry.

We are gratified to hear that several such indications have come under your personal observation during a tour made recently in the North-west Territories and British Columbia, and that, in particular, Your Excellency noticed the extension of mining enterprise in British Columbia, where the vast mineral resources are in certain localities being now developed and utilized upon something like an adequate scale.

It affords us much pleasure to hear that a special feature of the same tour consisted in the opportunities obtained for visiting a number of the Indian Reservations and also the Indian Industrial Schools. We are glad to learn that on the former Your Excellency was received with hearty demonstrations of loyalty and good-will, while in connection with the latter the proofs of proficiency and intelligence on the part of the children were highly encouraging.

We are glad to be informed that as to the work of the Indian Department as a whole, the manner in which it is directed and administered appears to be very satisfactory.

We agree with Your Excellency that a reference to these topics would be incomplete without an allusion to the valuable services of the North-West Mounted Police, and we respectfully note Your Excellency's opinion that that force may justly be regarded by Canadians generally as indispensable, under present conditions, to the wellbeing of those extensive and promising portions of the Dominion in which it is stationed.

We thank Your Excellency for the intimation that immediately after the prorogation of Parliament Your Excellency's Government communicated through the Lieutenant-Governor of Manitoba with the Government of that province, in order to ascertain upon what lines the local authorities of Manitoba would be prepared to promote amendments to the Acts respecting education in schools in that province, and whether any arrangement was possible with the Manitoba Government which would render action by the Federal Parliament in this connection unnecessary. We receive with a deep sense of its importance Your Excellency's statement that you regret to say that the advisers of the Lieutenant-Governor have declined to entertain favourably these suggestions, thereby rendering it necessary for Your Excellency's Government, in pursuance of its declared policy, to introduce legislation in regard to this subject. We also thank Your Excellency for the information that the papers will be laid before us.

We are happy to be informed by Your Excellency that the representations of your Government and the suggestions of the Ottawa Conference respecting steamship communication have resulted in an announcement by the Imperial authorities of their willingness to grant a substantial subvention towards the Atlantic portion of the scheme.

We share Your Excellency's trust that this will ensure the successful establishment of a line of steamers between the United Kingdom and Canada, which, in point of speed and equipment, shall fully meet all requirements.

Your Excellency has informed us that your Government have also learned with satisfaction that it is the intention of the Secretary of State for the Colonies to appoint a Committee to consider a proposed Pacific Cable to connect Canada with Australasia. Your Excellency may be assured that we share the gratification with which your advisers welcome these announcements as affording further evidence of the desire of Her Majesty's Government to draw closer to each other and to the motherland the outlying portions of the Queen's Dominions. We thank Your Excellency for stating that the papers on these subjects will also be submitted to us.

We observe with great interest that our attention will be asked to measures intended to provide for the better arming of our militia and the strengthening of Canadian defences.

We are gratified to learn that the growth of population in the North-west Territories, as disclosed by the last enumeration, calls for additional representation in Parliament, and that a Bill for this purpose will be laid before us.

We are happy that Your Excellency is able to inform us that the Commissioners appointed by Great Britain and the United States for the purpose of delimiting the boundary between Alaska and Canada have concluded their labours, that they have signed a joint report for presentation to their respective governments, and that this report will be laid before Parliament in due time.

We are also pleased to hear that at the request of the Right Honourable the Secretary of State for the Colonies a delegate of Your Excellency's Government visited England last summer to confer with the Imperial authorities on the question of Copyright, and that his report will be laid before us. Your Excellency may be sure that this subject will again receive our earnest attention.

We receive with interest Your Excellency's announcement that we shall also be asked to consider measures for the extension and development of our trade in agricultural products with the United Kingdom and other markets.

Your Excellency may rest assured that these subjects and others which may come before us shall have our earnest consideration, and Your Excellency may safely rely upon our wisdom and prudence under the Divine guidance to discharge with dignity and effect the high trust committed to our care.

After Debate.

On motion of the Honourable Mr. Boulton, seconded by the Honourable Mr. Dobson, it was

Ordered, That further Debate on the said motion be postponed until to-morrow.

Then, on motion of the Honourable Sir Mackenzie Bowell, seconded by the Honourable Sir Frank Smith,

The Senate adjourned.

We receive with a deep sense of its importance Your Excellency's statement that you regret to say that the advisers of the Lieutenant-Governor have declined to entertain favourably these suggestions, thereby rendering it necessary for Your Excellency's Government, in pursuance of its declared policy, to introduce legislation in regard to this subject. We also thank Your Excellency for the information that the papers will be laid before us.

We are happy to be informed by Your Excellency that the representations of your Government and the suggestions of the Ottawa Conference respecting steamship communication have resulted in an announcement by the Imperial authorities of their willingness to grant a substantial subvention towards the Atlantic portion of the scheme.

We share Your Excellency's trust that this will ensure the successful establishment of a line of steamers between the United Kingdom and Canada, which, in point of speed and equipment, shall fully meet all requirements.

Your Excellency has informed us that your Government have also learned with satisfaction that it is the intention of the Secretary of State for the Colonies to appoint a Committee to consider a proposed Pacific Cable to connect Canada with Australasia. Your Excellency may be assured that we share the gratification with which your advisers welcome these announcements as affording further evidence of the desire of Her Majesty's Government to draw closer to each other and to the motherland the outlying portions of the Queen's Dominions. We thank Your Excellency for stating that the papers on these subjects will also be submitted to us.

We observe with great interest that our attention will be asked to measures intended to provide for the better arming of our militia and the strengthening of Canadian defences.

We are gratified to learn that the growth of population in the North-west Territories, as disclosed by the last enumeration, calls for additional representation in Parliament, and that a Bill for this purpose will be laid before us.

We are happy that Your Excellency is able to inform us that the Commissioners appointed by Great Britain and the United States for the purpose of delimiting the boundary between Alaska and Canada have concluded their labours, that they have signed a joint report for presentation to their respective governments, and that this report will be laid before Parliament in due time.

We are also pleased to hear that at the request of the Right Honourable the Secretary of State for the Colonies a delegate of Your Excellency's Government visited England last summer to confer with the Imperial authorities on the question of Copyright, and that his report will be laid before us. Your Excellency may be sure that this subject will again receive our earnest attention.

We receive with interest Your Excellency's announcement that we shall also be asked to consider measures for the extension and development of our trade in agricultural products with the United Kingdom and other markets.

Your Excellency may rest assured that these subjects and others which may come before us shall have our earnest consideration, and Your Excellency may safely rely upon our wisdom and prudence under the Divine guidance to discharge with dignity and effect the high trust committed to our care.

Pursuant to the Order of the Day, the Senate resumed the adjourned Debate on the Honourable Mr. Owens' motion, viz.:--

That the following Address be presented to His Excellency the Governor General, to offer the respectful thanks of this House to His Excellency for the gracious Speech he has been pleased to make to both Houses of Parliament; namely :---

To HIS EXCELLENCY the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia; Governor General of Canada.

MAY IT PLEASE YOUR EXCELLENCY :--

We, Her Majesty's dutiful and loyal subjects, the Senate of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of this Session.

We also thank Your Excellency for informing us that, in accordance with the announcement made during the last Session, Parliament has been summoned somewhat in advance of the usual period.

We heartily share Your Excellency's feeling that the bountiful harvest with which Canada has been blessed is a cause for the deepest thankfulness to the Giver of all good. We rejoice that Your Excellency is able to congratulate us upon the evidence of

increased activity in the various branches of commerce and industry.

We are gratified to hear that several such indications have come under your personal observation during a tour made recently in the North-west Territories and British Columbia, and that, in particular, Your Excellency noticed the extension of mining enterprise in British Columbia, where the vast mineral resources are in certain localities being now developed and utilized upon something like an adequate scale.

It affords us much pleasure to hear that a special feature of the same tour consisted in the opportunities obtained for visiting a number of the Indian Reservations and also the Indian Industrial Schools. We are glad to learn that on the former Your Excellency was received with hearty demonstrations of loyalty and good-will, while in connection with the latter the proofs of proficiency and intelligence on the part of the children were highly encouraging.

We are glad to be informed that as to the work of the Indian Department as a whole, the manner in which it is directed and administered appears to be very satisfactory.

We agree with Your Excellency that a reference to these topics would be incomplete without an allusion to the valuable services of the North-West Mounted Police, and we respectfully note Your Excellency's opinion that that force may justly be regarded by Canadians generally as indispensable, under present conditions, to the wellbeing of those extensive and promising portions of the Dominion in which it is stationed.

We thank Your Excellency for the intimation that immediately after the prorogation of Parliament Your Excellency's Government communicated through the Lieutenant-Governor of Manitoba with the Government of that province, in order to ascertain upon what lines the local authorities of Manitoba would be prepared to promote amendments to the Acts respecting education in schools in that province, and whether any arrangement was possible with the Manitoba Government which would render action by the Federal Parliament in this connection unnecessary. We receive with a deep sense of its importance Your Excellency's statement that you regret to say that the advisers of the Lieutenant-Governor have declined to entertain favourably these suggestions, thereby rendering it necessary for Your Excellency's Government, in pursuance of its declared policy, to introduce legislation in regard to this subject. We also thank Your Excellency for the information that the papers will be laid before us.

We are happy to be informed by Your Excellency that the representations of your Government and the suggestions of the Ottawa Conference respecting steamship communication have resulted in an announcement by the Imperial authorities of their willingness to grant a substantial subvention towards the Atlantic portion of the scheme.

We share Your Excellency's trust that this will ensure the successful establishment of a line of steamers between the United Kingdom and Canada, which, in point of speed and equipment, shall fully meet all requirements.

Your Excellency has informed us that your Government have also learned with satisfaction that it is the intention of the Secretary of State for the Colonies to appoint a Committee to consider a proposed Pacific Cable to connect Canada with Australasia. Your Excellency may be assured that we share the gratification with which your advisers welcome these announcements as affording further evidence of the desire of Her Majesty's Government to draw closer to each other and to the motherland the outlying portions of the Queen's Dominions. We thank Your Excellency for stating that the papers on these subjects will also be submitted to us.

We observe with great interest that our attention will be asked to measures intended to provide for the better arming of our militia and the strengthening of Canadian defences.

We are gratified to learn that the growth of population in the North-west Territories, as disclosed by the last enumeration, calls for additional representation in Parliament, and that a Bill for this purpose will be laid before us.

We are happy that Your Excellency is able to inform us that the Commissioners appointed by Great Britain and the United States for the purpose of delimiting the boundary between Alaska and Canada have concluded their labours, that they have signed a joint report for presentation to their respective governments, and that this report will be laid before Parliament in due time.

We are also pleased to hear that at the request of the Right Honourable the Secretary of State for the Colonies a delegate of Your Excellency's Government visited England last summer to confer with the Imperial authorities on the question of Copyright, and that his report will be laid before us. Your Excellency may be sure that this subject will again receive our earnest attention.

We receive with interest Your Excellency's announcement that we shall also be asked to consider measures for the extension and development of our trade in agricultural products with the United Kingdom and other markets.

Your Excellency may rest assured that these subjects and others which may come before us shall have our earnest consideration, and Your Excellency may safely rely upon our wisdom and prudence under the Divine guidance to discharge with dignity and effect the high trust committed to our care.

After Debate.

The question of concurrence being put thereon, the same was unanimously resolved in the affirmative.

Ordered, That the said Address be presented to His Excellency the Governor General by such members of this House as are members of the Privy Council.

The Honourable Sir Mackenzie Bowell moved, seconded by the Honourable Sir Frank Smith,

By the Honourable Mr. McInnes (New Westminster) :--

1896.

1 March 2—Will call the attention of the Senate to the fact that there is no Rifle or Artillery Company at present in Nanaimo, in many respects the most important port on the Pacific Coast,—and will ask if is the intention of the Government to at once take the necessary steps to have a military company formed, and to put a sufficient sum in the Supplementary Estimates to build a suitable drill hall in the city of Nanaimo?

By the Honourable Mr. McInnes (New Westminster) :---

2 March 2—Will call the attention of the Senate to the incomplete condition of the drill hall in New Westminster, B.C., which is about to be handed over to the commanding officer, Lieut. Clinton, No. 4 Company, 5th Regiment, Royal Artillery,—and will ask if it is the intention of the Government to place in the Supplementary Estimates a sufficient sum to have the building properly heated and lighted, and a paid caretaker appointed forthwith ?

1 March 2—Will call the attention of the Senate to the necessity of having a dredger exclusively for the Fraser River, in order to carry on necessary improvements to navigation at the sandheads and elsewhere,—and will ask if it is the intention of the Government to put in the Supplementary Estimates a sum sufficient to build a first-class dredge for the purpose above named ?

For Thursday, 12th March, 1896.

By the Honourable Mr. Boulton :---

1 March 2—That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

That an excess of imports over exports in the British returns amounting to six hundred and fifty-two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty-five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of

1896.

imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.

By the Honourable Mr. McInnes (New Westminster) :--

2 March 2—Will call the attention of the Senate to the incomplete condition of the new drill hall in New Westminster, B.C., which is about to be handed over to the commanding officer, Lieut. Clinton, No. 4 Company, 5th Regiment, Royal Artillery,—and will ask if it is the intention of the Government to place in the Supplementary Estimates a sufficient sum to have the building properly heated and lighted, and a paid caretaker appointed forthwith ?

For Monday, 9th March, 1896.

By the Honourable Mr. McInnes (New Westminster) :---

1 March 2—Will call the attention of the Senate to the necessity of having a dredger exclusively for the Fraser River, in order to carry on necessary improvements to navigation at the sandheads and elsewhere,—and will ask if it is the intention of the Government to put in the Supplementary Estimates a sum sufficient to build a first-class dredge for the purpose above named ?

For Thursday, 12th March, 1896.

By the Honourable Mr. Boulton :---

1 March 2—That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

That an excess of imports over exports in the British returns amounting to six hundred and fifty-two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.

NOTICES OF MOTIONS.

For Monday, 9th March, 1896.

By the Honourable Mr. McInnes (New Westminster) :---

1896.

1 March 2—Will call the attention of the Senate to the necessity of having a dredger exclusively for the Fraser River, in order to carry on necessary improvements to navigation at the sandheads and elsewhere,—and will ask if it is the intention of the Government to put in the Supplementary Estimates a sum sufficient to build a first-class dredge for the purpose above named ?

For Tuesday, 10th March, 1896.

By the Honourable Mr. Primrose :---

1 March 5—That he will inquire of the Government, whether it is their intention to include in the Supplementary Estimates a sum sufficient to provide adequate wharf accommodation at the terminus of the Intercolonial Railway at Pictou, Nova Scotia, for the trade of the port, exclusive of five thousand dollars now embraced in the Estimates, and which it is the intention to devote to the purpose of yard improvements ?

By the Honourable Mr. Boulton :--

1896.

2 February 28—That he will inquire if it is the intention of the Government to despatch a vessel to the Hudson Bay, with the view of ascertaining further information in regard to its navigability as an ocean route ? And that he will ask that all the papers relating to this matter be laid before the Senate.

For Thursday, 12th March, 1896.

By the Honourable Mr. Boulton :---

1 March 2—That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

> That an excess of imports over exports in the British returns amounting to six hundred and fifty-two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

> That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.

1896.

1 March 5—That he will inquire of the Government, whether it is their intention to include in the Supplementary Estimates a sum sufficient to provide adequate wharf accommodation at the terminus of the Intercolonial Railway at Pictou, Nova Scotia, for the trade of the port, exclusive of five thousand dollars now embraced in the Estimates, and which it is the intention to devote to the purpose of yard improvements?

By the Honourable Mr. Boulton :---

2 February 28—That he will inquire if it is the intention of the Government to despatch a vessel to the Hudson Bay, with the view of ascertaining further information in regard to its navigability as an ocean route ? And that he will ask that all the papers relating to this matter be laid before the Senate.

For Wednesday, 11th March, 1896.

By the Honourable Mr. Dever :---

1896.

1 March 6—That he will ask why it is that the Government, in advertising the Intercolonial Railway business and general traffic, studiously avoids to make mention of the port of St. John, New Brunswick, now that that port is proved beyond question to be the most advantageous and convenient route Canadian and western shippers can select for transmitting their goods to the West Indies, and all other countries, merchants find it profitable to do business with ?

For Thursday, 12th March, 1896.

By the Honourable Mr. Boulton :---

1 March 2—That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

That an excess of imports over exports in the British returns amounting to six hundred and fifty-two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.

For Friday, 13th March, 1896.

By the Honourable Mr. McInnes (New Westminster) :---

1 March 2—Will call the attention of the Senate to the necessity of having a dredger exclusively for the Fraser River, in order to carry on necessary improvements to navigation at the sandheads and elsewhere,—and will ask if it is the intention of the Government to put in the Supplementary Estimates a sum sufficient to build a first-class dredge for the purpose above named ?

1896.

1 March 2—Will call the attention of the Senate to the necessity of having a dredger exclusively for the Fraser River, in order to carry on necessary improvements to navigation at the sandheads and elsewhere,—and will ask if it is the intention of the Government to put in the Supplementary Estimates a sum sufficient to build a first-class dredge for the purpose above named ?

By the Honourable Mr. Primrose :---

2 March 5—That he will inquire of the Government, whether it is their intention to include in the Supplementary Estimates a sum sufficient to provide adequate wharf accommodation at the terminus of the Intercolonial Railway at Pictou, Nova Scotia, for the trade of the port, exclusive of five thousand dollars now embraced in the Estimates, and which it is the intention to devote to the purpose of yard improvements?

By the Honourable Mr. Boulton :---

1896.

3 March 2—That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

> That an excess of imports over exports in the British returns amounting to six hundred and fifty-two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

> That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.

MONDAY, 16th March, 1896.

The Standing Committee on Divorce beg leave to make their Fourth Report, as follows :---

In the matter of the Bill (D) "An Act for the relief of James Pearson,"-

At a meeting of your Committee held this day to hear and inquire into the allegations set forth in the preamble of the Bill, the Petitioner being represented by counsel and the Respondent having due notice of the application herein referred to, as was evidenced by a letter from her counsel, it was stated to the Committee by counsel for the Petitioner :

That it would be necessary to call a large number of witnesses on behalf of the Petitioner.

That there would be great difficulty in obtaining the attendance of many of them who reside in the United States.

That the probability of a protracted defence by the Respondent would necessitate the procuring of many other witnesses in rebuttal.

That it is doubtful whether, at this period of the Session of Parliament, it is possible to procure the passage of the Bill this year.

That, on these considerations, the Petitioner had been advised by counsel to apply for leave to withdraw the Bill.

Counsel for the Petitioner then applied to your Committee to recommend that your Honourable House give leave to withdraw the Bill.

And your Committee recommend that such leave be given.

All which is respectfully submitted.

1 March 16—Third Reading (Bill J) An Act respecting the Revision of the Statutes. —(Honourable Sir Mackenzie Bowell.)—E.F.

2 March 13—Resuming the adjourned Debate on the motion of the Honourable Mr. Boulton :—

That, in the opinion of the Senate, a protective duty imposed in the United Kingdom, in any form, will reduce the purchasing power of its population, and to the extent that it does so, it will impair its value as a market for our surplus products; that an increase of one hundred million dollars (£20,665,000) in the foreign trade of the United Kingdom, in 1895 over 1894, is an evidence of great national prosperity, while a decrease of sixteen million dollars in the foreign trade of Canada, during the past financial year, is an evidence that our national prosperity is not being maintained under protection.

That an excess of imports over exports in the British returns amounting to six hundred and fifty two million dollars (£130,548,000), during 1895, at the same time reducing their national debt and producing a surplus revenue of twenty-five million dollars, is an evidence that the purchasing power of the people of the United Kingdom for the products of the world, under free trade, has been increased, and that the comforts of the population have been added to by the excess of imports, while a reduction in our exports of four million dollars, and a reduction in our imports of twelve million dollars, during the past financial year in Canada, with an increase in our debt of \$7,000,000, and a deficit in our revenue, is an evidence of a decrease in our purchasing power, and a reduction in the comforts of our population.

That a closer union of the British Empire can be more successfully effected by the adoption of the present commercial policy of the United Kingdom as a basis, insuring greater prosperity to its component parts, greater freedom of action, and greater power for good in its inherent strength, than by the imposition of any form of a protective tariff upon the necessaries of life.—(Honourable Mr. McCallum.)

3 March 16—Consideration of the Fourth Report of the Standing Committee on Divorce re Pearson relief Bill.—(Honourable Mr. Kirchhoffer.)

4 March 16—Second Reading (Bill K) An Act respecting Building Societies and Loan and Savings Companies carrying on business in the Province of Ontario.—(Honourable Mr. Aikins.)—E.F.

5 March 16—Committee of the Whole House on (Bill H) An Act further to amend the Railway Act.—(Honourable Sir Mackenzie Bowell.)—E.F.

PRAYERS.

The Honourable Mr. Dickey, from the Standing Committee on Railways, Telegraphs and Harbours, to whom was referred the Bill (81) intituled: "An Act to revive and amend the Act to incorporate the Alberta Irrigation Company," reported that they had gone through the said Bill, and had directed him to report the same to the House, without any amendment.

On motion of the Honourable Mr. Dickey, seconded by the Honourable Mr. Kirchhoffer, it was

Ordered, That the said Bill be read a third time to-morrow.

The Honourable Mr. Kirchhoffer, from the Standing Committee on Divorce, presented their Fifth Report.

Ordered, That it be received, and

The same was then read by the Clerk, and it is as follows :---

THE SENATE,

COMMITTEE ROOM No. 28,

WEDNESDAY, 8th April, 1896.

The Standing Committee on Divorce beg leave to make their Fifth Report, as follows :---

The Divorce Committee in the discharge of their duties have frequently to consult works upon marriage and divorce. Such of these books as are in the Parliamentary Library are in much request when Bills are contested or involve important points of law or procedure, and are, therefore, not always readily procurable, nor can they in fairness to other persons entitled to their use be kept by the Committee ready for reference at all times during the session. The Library rules very properly prohibit writing in or permanent marking of books. This prevents such annotation of them as would record in a convenient way the manner in which the doctrines and cases referred to in the text have been applied in the practice of the Committee and in the legislation of Parliament. Your Committee think it would be convenient and advantageous to have a few of the leading and latest works on marriage and divorce for the special use of this Committee and of Senators generally. They therefore recommend the purchase of the following books, the cost of which will be a moderate sum :—

Macqueen—Practice of the House of Lords.

3 April 14—That the Remedial Bill now under consideration by Parliament is unconstitutional; that clause 23 of the Remedial Bill requires the municipalities to levy and collect twenty dollars a month from all their Roman Catholic ratepayers for the support of each separate school, and clause 39 of the Manitoba Act, which has been declared constitutional, requires municipalities to levy and collect twenty dollars a month for the support of each public school from all the ratepayers of the municipality, and the exercise of this double authority would prove oppressive to the Roman Catholic minority in the matter of taxation.

> That it is evident the framers of the Act of Confederation did not design, by the insertion of the appeal clauses in the British North America Act, that there should be such an invasion of the constitutional right of the Provinces, as is contemplated by section 28 of the Remedial Bill, forbidding the municipality to levy upon Roman Catholic ratepayers for the support of Public Schools; therefore, the remedy for the grievances of the Roman Catholic minority in Manitoba, now the subject of appeal, should be applied by some other means than by this Remedial Bill, and in the interest of constitutional legislation it is the opinion of the Senate it should be withdrawn.

PRAYERS.

The Honourable Mr. McKay, from the Standing Committee on Internal Economy and Contingent Accounts, presented their Third Report.

Ordered, That it be received, and

THE SENATE,

COMMITTEE ROOM No. 8,

WEDNESDAY, 15th April, 1896.

The Standing Committee on Internal Economy and Contingent Accounts beg leave to make their Third Report, as follows :---

1. Your Committee have examined the accounts of the Clerk of the Senate for the year ended 30th June, 1895, and find them correct.

2. The amounts received during the said year are shown by the accounts, as follows :---

Letters of	credit and bills of	exchange \$134,158 \$	51
Cash from	various sources		46

Total...... \$136,012 97

3. The Clerk has accounted for the above to the satisfaction of your Committee, as follows :—

Amount of	cheques issued	\$121,890	05
do	bills of exchange remitted	158	
do	cash deposited to the credit of the Receiver		
	General or otherwise accounted for	1,854	46
Balance in	bank at close of the year (after providing for		
outstar	nding cheques) written off	12,109	95

Total..... \$136,012 97

4. The books are kept in a clear and comprehensive manner, each item being accompanied by a voucher. They also show the comparative expenditure of each period of three years, in accordance with the Order of the Senate made on the 29th April, 1889.

5. The vote last year for the supply of stationery for the Senate was \$5,988, of which amount \$4,988 has been expended, leaving a balance of \$1,000 unexpended, and though a portion of this sum may be expended before Parliament rises in the purchase of "Hansard" envelopes for which there is an extra demand by a few Senators, yet it is probable there will be a saving over last year of about \$700. The accumulated stock of former years has been gradually reduced, showing the value at the present time to be about \$1,500.

6. Inasmuch as the contractor who in 1891 furnished the trunks which, by recommendation of the Printing Committee adopted by Resolution of both Houses of Parliament on 15th May, 1890, are at the first session of each Parliament to be substituted for the large stationery trunks theretofore supplied at each session, has submitted a sample equal, if not superior, to the one furnished in 1891. Your Committee recommend that he be instructed to supply the trunks for Senators at the first session of the next Parliament.

7. Your Committee recommend that the stationery and other articles required for the next session be ordered according to the list approved by your Committee and deposited with the Stationery Clerk.

8. Your Committee recommend that John G. Meagher, who has been employed temporarily during the present session, be paid for his services, for the present session only, at the same rate as a sessional messenger.

9. Your Committee recommend that the account of Mr. J. A. Guignard, of the Department of Agriculture, for \$336, for translating from English into French the Experimental Farms Report for 1894, presented to the Senate by the Minister of Agriculture on 4th June, 1895, be paid out of the amount voted for contingencies of the Senate.

10. Your Committee regret that the Manual to include the rules of 1893, the British North America Act and certain information as to the forms of proceeding in the Senate, which was ordered to be ready for distribution in 1894, has not yet been placed in the hands of Members. Your Committee trust that the officer whose duty it was to prepare the Manual will have it ready for distribution at the next session of Parliament.

All which is respectfully submitted.

THOS. McKAY, Chairman.

PRAYERS.

The Honourable Mr. Bellerose, from the Standing Committee on Debates and Reporting, presented their Report.

Ordered, That it be received, and

The same was then read by the Clerk, and it is as follows :----

COMMITTEE ROOM No. 2,

TUESDAY, 21st April, 1896.

The Standing Committee on Debates and Reporting beg leave to report as follows:

In order to reduce the cost of printing the Senate Debates, your Committee recommend :---

1. That the Debates continue to be printed in the type now in use.

2. That the present mode of having the Debates sent to the reporters in galley form be continued; the Bureau to proof-read by copy before sending out. The reporters shall send to each Senator his speech for revision, and to ensure Senators' corrections being made to their speeches in the revised edition of the Debates, the corrected galleys should be returned to the reporters' office within twenty-four hours of delivery. When that time has elapsed, the reporters shall return the galleys to the Bureau for publication as the revised edition.

3. The revised edition to be printed in double columns as at present and the form of the House of Commons Hansard followed as much as possible.

4. That the Book shall be paged consecutively in page, and rot by column.

5. The reporters to send to the Chief Messenger, the whole report of the sitting between 3 o'clock and 6 o'clock, not later than two hours after the sitting is over; and should there be an evening sitting at 8 o'clock, the report thereof will have to be placed in the Chief Messenger's care not more than two hours after the adjournment of the Senate.

6. It will be the duty of the Chief Messenger to see that these reports are at once sent to the Printing Bureau, and that the messenger carrying the same has received a receipt from the proper party at the Bureau charged with the duty of receiving the same.

7. In the Messengers' Room will be kept a book recording the hour of the delivery of the report by the reporters (the entry to be made by them) to be sent to the Bureau, and also the time it was received at the Bureau, this book to be carried with each message and to be signed by the proper party there.

Your Committee finds the Index to the Debates very voluminous and are of the opinion that it could be largely condensed and still be of equal benefit and value.

All which is respectfully submitted.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I am glad to be able to relieve you from further attendance in Parliament.

I desire to express my regret that the mission which my Government recently despatched to confer with the local authorities of Manitoba has been unproductive of any immediate result, and that the question relating to schools in that province still awaits settlement.

I thank you for the appropriation which you have made towards providing for the better arming and equipment of the Militia Forces of the country.

The powers with which you have endowed the Commissioners appointed under the Behring Sea Claims Convention will, I trust, facilitate the investigations of that tribunal and hasten a just settlement of these long standing claims.

Gentlemen of the House of Commons :

I have to thank you for the Supplementary provision you have made for carrying on the services of the current year.

Honourable Gentlemen of the Senate ;

Gentlemen of the House of Commons:

Inasmuch as in the opinion of my advisers it is desirable that the judgment of the people upon the questions which now engage public attention should be obtained at an early day, I have to announce my intention of causing this Parliament to be immediately dissolved.

Then the Honourable the SPEAKER of the Senate said :

Honourable Gentlemen of the Senate, and Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Tuesday, the second day of June next, to be here holden, and this Parliament is accordingly prorogued until Tuesday, the second day of June next.
