WILL NOT MERGE HYDRO SYSTEM WITH T. E. L.

When the System Is Purchased by the City It Will Be Run as a Separate Institution, But Will Be Controlled by the Hydro-Electric Commission.

If the Toronto Electric Light Co., according to negotiations now under way, is purchased by the city, it will not merge with the city Hydro-Electric Commission's system.

True to expectation, the measure, as it appears before the private bill committee of the legislature this morning has suffered a considerable alteration in its facial appearance.

Not until the bill is brought before the committee this morning, and its different features subjected to examination, however, will a large part of its significance be discovered.

SIXTEEN PAGES—WEDNESDAY MORNING APRIL 23 1913—SIXTEEN PAGES

A Great Opportunity

So far as The World can gather the tremendous divisions that The Telegram would have everyone believe to exist between the various prominent and active friends of publicly-owned electric power and light in Toronto, may be reduced to a small question of detail in the method of procedure.

Here, then, is the present point of dispute. Shall there be a separate vote on the two proposals, or shall they be joined together in the voting bylaw? It is quite clear that their separation is a matter of little or no moment.

Whether there are two bylaws or one bylaw the voter will know that he must vote for both or none. It is believed that Corporation Council Geary suggested dividing the vote.

The opportunity for a general cleanup of the corporation nuisance in Toronto is one that should not be obstructed, and no crank controllers, aldermen or newspapers should be allowed to obstruct it.

Is there any legitimate deduction to be made? If the Mackenzie interests are willing to part with the Electric Light Co. and the street railway, will they not also be willing to part with the Development Company?

Government has an opportunity here that should not be passed over. The Hydro-Electric Commission will shortly require more power.

BROCKVILLE FIRE CAUSES LOSS OF \$50,000

Flames Spread From Skating Rink and Threatened the Whole Southeast Portion of the Town—Tannery, Brewery and Number of Houses Wiped Out.

BROCKVILLE, Ont., April 22.—(Special.)—The biggest conflagration of years in Brockville broke out tonight in the covered skating rink owned by Mr. Cossitt, and situated in a thickly settled portion of the town, and before the flames were gotten under control more than fifty thousand dollars worth of property was destroyed.

The blaze, supposed to have been the work of an incendiary, started over the dressing rooms, and the building being constructed of pine, the fire enveloped it from end to end before the brigade arrived.

The largest portion of the Halls Limited, one of Brockville's leading manufacturing concerns, which stands south of the rink was saved only after a desperate fight.

The rain which had been threatening for many hours, finally came down in torrents shortly before eleven o'clock, which prevented the further spread of the flames.

Some German politicians with whom The World correspondent talked this afternoon pointed out that the situation was simply this: The German Government is being run with the one idea of a future war.

LONDON, April 22.—(Can. Press.)—Pleading the conclusion of a formal armistice covering the operations of all the allies, the Montenegro are renewing their desperate efforts to capture Scutari, the fall of which, according to an official report issued at Cetinje, is imminent.

CHANGE IN THE WORLD MAKE-UP FOR READERS' CONVENIENCE

GOVERNMENT IS HYPNOTIZED BY IDEAS OF A COMING WAR AND MIDDLEMEN REAP PROFIT

German War Office Has Paid Millions to "Parasites" Who Learn of Plans and Pocket Thirty Per Cent. of Money Demanded From the Public.

Special Cable to The World. BERLIN, April 22.—(Copyright.)—Having denounced the armament firms, their methods and their enormous profits at the expense of the taxpayers, The Morgen post today switched the limelight to what it calls "Parasites"—that is the middle men who make profits out of the armament contracts.

The paper explains that certain judicious speculators, often hiding behind straw men and even straw women, have been making fortunes as middle men in connection with war office purchases of land for exercising grounds (naturally the new army bill involves also the purchase of more land).

Some German politicians with whom The World correspondent talked this afternoon pointed out that the situation was simply this: The German Government is being run with the one idea of a future war.

LONDON, April 22.—(Can. Press.)—The entire press except the Anti-Militarists, are preserving an extraordinary silence about the Krupp scandal. The absence of editorial comment is taken as a sign of a courteous rebuke to the German outbursts on the Nancy incident, and not as a suspicious sign of the truth of the charges, which, except in one or two cases, are said to be highly uncertain.

CLOSURE ANALYZED BY LAURIER WHO ALLEGES GRAVE INJUSTICE BORDEN DEFENDS HIS POSITION

Premier Admits That Power on Extensive Scale Is Given, But Promises That Fairness in Interpretation Will Be Shown—Graham and Carvell Hint at Sensational Surprises in Store.

OTTAWA, April 22.—(Special.)—The house today apparently started upon the quarter stretch in the long-continued debate upon the closure resolution. By the parliamentary device of moving an adjournment Sir Wilfrid Laurier was enabled to speak again upon the proposed amendments to the rules and made a searching analysis of them, which apparently revealed some curious inconsistencies and injustices.

Mr. Borden took the sensible position that the house was less concerned in the phraseology of the rules than it was in the interpretation and pledged the government to interpret and administer the rules in a spirit of fair play.

Mr. Graham made a slashing speech in which he declared that the closure could only be put through by "brute force," a phrase which he withdrew upon a rebuke from Mr. Speaker, substituting the phrase "physical force."

Both he and Mr. Carvell intimated that the closure rule would be defied were it adopted, and the latter warned the government that the work of the closure would be some startling surprises before the end of the session.

LONDON, April 22.—(Can. Press.)—Bulgaria and Greece are rapidly drifting towards war over the possession of Saloniki, according to the Chronicle's correspondent at that town. Grain Blockade at Soo

SULLY STE MARIE, Mich., April 22.—(Can. Press.)—A blockade of lake carriers, equalling that of the spring of 1906, when large fleets both up and downbound were detained at the Soo, and above White Fish Point, for over a week, by late ice, tonight bids fair to occur again this year.

POPE WILL WORK IN A FORTNIGHT

His Holiness Is Recovering Rapidly, Sleeping, Eating and Anxious to Resume Occupations.

Special Cable to The World. ROME, April 22.—(Copyright.)—When can I resume my occupations? asked the Pope, who is now sleeping, eating and conversing, of Dr. Marchisavi this morning.

Not under a fortnight, you replied the physician. The latter said to The World correspondent later, laughing: "One reason why I had the Pope's convalescence with enthusiasm, is that I shall avoid the annoyance of having my name quoted by every newspaper the world over, and the showers of letters which have been raining on me since the Pope has not had a paralytic seizure, Canadian jaundice, consumption and every disease, under the sun. Thank God that's over."

AMENDEMENT AFTER AMENDEMENT VOTED DOWN BY LEGISLATURE

Opposition Members Had a Long List of Proposals on Which They Argued For Hours, But Each One Met the Same Fate.

An hour before the adjournment of the afternoon session of the legislature Hon. W. H. Hearst's bill providing for the construction of the new colonization railroad thru New Ontario came up for discussion in the committee of the whole.

The members of the opposition immediately began to offer amendments to the bill and four hours later they were still pursuing the same obstructive tactics.

N. W. Rowell, K.C., was the first to offer an amendment. This was no sooner defeated than Z. Maczuga, Sturgeon Falls, moved a further amendment providing that the railway company should pay a certain price for the timber on the lands which it was to receive for the construction of the railway and the bringing out of settlers.

In reply to Mr. Maczuga, R. R. Gamay, Manitoulin, gave an able defence of the government's plan.

Mr. Rowell moved to interrupt the member for Manitoulin on several occasions, but Mr. Gamay paid no attention to his questions.

Mr. Gamay claimed that building of a line on the proposed route was a venture which the government would be foolish to undertake of itself. He pointed out that it would be difficult for the government to go into the business of building sawmills, and claimed that the building of sawmills was necessary to the development and settlement of the country.

In concluding, just before 6 o'clock, Mr. Gamay stated that the government had made a good bargain with the promoters of the road.

"Here's a bargain," he said, "that if you were on the government side of the house you'd fall over your necks to get before me."

At the evening session Allan Studholme, East Hamilton, took a hand in the debate and spoke for one hour on the subject of the ownership.

Public Ownership. Allan Studholme's stand at the railway bill was the most unkind one he tried to be non-partisan in his remarks. He referred to the success of the Hydro-Electric project, and said that if he understood anything he understood that the government was renowned for its public ownership scheme. In giving a private corporation power to build this railway, he thought the government was taking a departure from its usual practice and "making the biggest mistake" it had ever made.

You cannot serve God and Mammon, he said, and he was taking a departure from its usual practice and "making the biggest mistake" it had ever made.

MAGNAVENTS "SECOND TRIAL"

Toronto Man Is Putting Up a Strenuous Fight in Reno to Obtain a Divorce.

Special to The Toronto World. RENO, Nev., April 22.—Douglas MacNair, whose wife, emphatic denial of her husband's allegations in the divorce motion heard here last week and her counter charges of desertion, accompanied by letters involving names of several young women, resulted in the Reno courts denying a decree to MacNair, and instructing his attorney here to immediately proceed with demands upon the court for a new trial, and a transcription of all testimony as being prepared for this purpose. His attorney, however, followed, Mr. Rowell stated that he had been advised by the court that if the motion for a rehearing is denied the case will promptly be taken to the supreme court of law and equity.

With reference to the prosecution of the alleged conduct of J. C. Elliott, Mr. Rowell moved an amendment which amounted to a declaration of want of confidence in the government, and in the discussion followed, Mr. Rowell stated that he had been advised by the court that if the motion for a rehearing is denied the case will promptly be taken to the supreme court of law and equity.

In reply to Mr. Elliott, Mr. Rowell stated that the history of the prosecution of the case combined dated back to the year 1882, when the Liberal government was in power. For thirteen years thereafter, not one step at prosecution had been taken. Mr. Rowell stated that when direct charges had been made, the government had always conducted investigations, and had found that the evidence was not sufficient to secure a conviction.

A Test Case. Mr. Rowell claimed that the government should have conducted a test case. He maintained that there was sufficient evidence to warrant the attorney-general's department in conducting a prosecution.

"Those who have kept in touch with the investigations into combined with the United States, followed, Mr. Rowell stated that he had been advised by the court that if the motion for a rehearing is denied the case will promptly be taken to the supreme court of law and equity.

TRAFFIC CHANGES No Public Hearings to Be Held in Senate-Debate in Congress Tomorrow

Washington, April 22.—(Copyright)—By a strict party vote the senate finance committee today decided that no public hearings will be given upon the tariff bill when it reaches the senate. Interested persons are urged to write their representatives today from the ways and means committee bearing on any of the tariff schedules.

The decision is expected to materially shorten the time that will be consumed in getting the tariff bill before the senate for consideration.

Tariff debate opens in the house at 11 o'clock tomorrow and in the hope that general debate can be limited to five days Mr. Underwood will attempt to hold the hour to 12 hours of conference and discussion.

Another week of amendments will send the bill to the senate soon after May 5, it is believed. The tariff bill came back to the house today from the ways and means committee, with a vigorous supporting report from the Democrats on the committee and an opposing report from the Republicans.

General Debate Today. The general debate that begins tomorrow will be followed by concerted efforts to amend the bill in the house to amend the bill in all its important schedules.

While the senate finance committee has decided to hold further hearings unnecessary, Democratic members of the committee will center tomorrow with Democratic senators from the Pacific Coast and Rocky Mountain states.

Members of the committee who are opposed to the free wool and sugar provisions of the new bill, a number of western senators, including Messrs. Myers of Montana and Ashurst of Arizona, will not participate in the conference, as they have decided to support the free wool and sugar program if it is approved by the house.

HUMAN AGENCY CAUSED DEATH SAY JURY IN OAKVILLE CASE

Crossing of Street Wires With Those Entering Hotel Resulted in Garfield Till Being Killed in the Basement of Building—An Open Verdict.

(By a Staff Reporter.) BROCKVILLE, April 22.—At the resumed enquiry into the cause of the death of George Garfield Till on April 13, 1913, thru the following verdict:

"That George Garfield Till came to his death on the morning of Sunday, April 13, 1913, thru the following causes:

1. That deceased grasped a dropped cord while standing on the floor of the basement of the Murray House, such floor being of straw and shavings on earth, and being sufficiently damp to carry current of the voltage involved.

2. That a contact existed between the street lighting current and the house lighting current in front of the Murray House.

3. That a contact existed between the primary high voltage circuit and the street lighting circuit at the corner of Union and Second streets, allowing an excessively strong current to pass thru the body of the deceased.

We are of the opinion that the contact in front of the Murray House was due to weather conditions, when at the corner of the Murray House streets it appears to have been due to human agency. The wires that were in contact at the latter point were "loose" which was of such thickness that they could not have been placed in contact without application of exceptional force.

If seven ministers resigned, or some six ministers died, there would be no difficulty about the resignation. The speaker of the house was asked to assure him that all his apprehensions would be removed, and freedom of debate would be preserved. The motion to amend a bill upon the third reading was carried.

Opposition Trying Gag. The prime minister said the government was not trying to gag the opposition. It was the opposition which was trying to gag the government by preventing the passage of the bill.

GOVERNMENT IS HYPNOTIZED

Continued From Page 1.

secure them foreign contracts, all with the one idea of enabling them to subsist during peace time. In fact, the whole government is hypnotized by ideas of a forthcoming war, which its own measures go far to provoke.

The budget committee of the reichstag today passed a resolution requiring the chancellor to appoint a commission of enquiry into the army and navy contracts. The resolution itself is to appoint delegates and experts as members of the commission and legislation for the removal of abuses suggested by the committee was to be laid before the reichstag.

Meantime the committee has placed the war office in an unpleasant position by rejecting the government's proposal of money to the middleman on account of the new buildings for the military cabinet. The war office had entered into recognizances to pay this middleman for his expenses and trouble without previously consulting the reichstag.

WEIGHT

I want to emphasize the fact that all well babies are fat. When baby is born he usually weighs about seven pounds. He loses a few ounces the first few days, and then he starts out in earnest. Each week he gains six ounces, sometimes a little more, sometimes a little less, until he is six months old, when he has doubled his weight at birth. After that he gains more slowly, about four ounces a week, until at a year he has trebled his birthweight. After that he gains about five pounds each year until he is eight or nine years old.

Of course this schedule is not absolute. Even well babies can't keep to a standard all the time. If he falls in for a week or two, but is otherwise well, there is no need to worry; he may be cutting teeth, or the weather may be trying. Then, again, some babies gain very rapidly in weight, but not in strength. These are generally fed on prepared infant foods. In these cases the fat is flabby, showing that the food has made fat, but has not built up muscle. These babies must never be strong babies. Sometimes the wrong kind of food causes mishapen heads, or chests, or large wrist-bones. The flesh of these babies must be solid and his muscles firm.

A knowledge of the baby's weight is very important to the young mother. It tells her how well the baby is progressing, and by no other means can one find out how well the little one is getting along. It is not well to weigh baby more than once a week, lest you become unnecessarily worried over a slight loss or no gain. Keep a record of the baby's weight and development. It is very helpful in case the child should fall ill, to be able to show the doctor a record of the patient's progress from birth.

The best scales are ordinary grocer's scales. Spring scales are not accurate, and not very safe for baby; but if you cannot get a baby scale, use the spring scale rather than none. After the first year weigh the child once in two or three months, to enable you to judge the nutrition.

A table showing the average weight, height, circumference of head and chest for four years is as follows: At birth, weight 7 1/2 pounds, height 20 1/2 inches, chest 13 1/2 inches, head 14 inches. At one year, weight 21, height 29, chest 18, head 18. At two years, weight 26 1/2, height 32 1/2, chest 19 1/2, head 19. At three years, weight 31, height 35, chest 20, head 19 1/2. At four years, weight 35, height 38, chest 20 3/4, head 19 3/4.

SUFFRAGETTES' CRUSADE

NEW YORK, April 22.—(Can. Press) Fraise of the militant suffragettes in England and America is not yet over. Today she is a strong, healthy woman. Dadd's Kidney Pills did it.

BEST PLAYGROUND RIIS HAS SEEN

That at Queen Alexandra School is a Model, He Says.

BOYS NEED MORE ROOM

Results of Campaign in New York Shown to Large Audience.

Just before taking his train yesterday afternoon, Jacob Riis gave the last of his Toronto talks on playgrounds, and the work they are doing. The speaker was introduced by Miss Elwood, of the Evangelical Settlement, who, adopting the title of Mr. Riis' pamphlet, "A Modern St. George," applied to Dr. Possum, declaring that he was indeed deserving of the name for the great work he had done and was doing in the overturning of social misadministration. "He is the friend of the poor and the prophet of social betterment," was another of the terms used by the Toronto visitor, St. James' Parish lady, who presided at St. James' Parish Hall was filled with members of the Social Science Club, the University Women's Club and the Canadian Women's Club.

Finest Playground. In his opening remarks, Mr. Riis said he had come to preach the gospel of playgrounds, and he believed he had come to Toronto at just the psychological moment, for even since his coming, he had noticed that three boys had been brought before the magistrate for playing on the streets.

To counterbalance this, however, Mr. Riis told his audience that the finest playground he had seen in his life, he had seen here, that attached to the Queen Alexandra School. He said he knew that gracious lady when she was a princess in Denmark, whom he had seen here, and it had given him great pleasure to see the beautiful school and playground which bore her name.

The playground movement in New York had grown out of an incident in which some boys playing on the street had broken a window and were being chased by the police. In the heat of the chase, a boy was shot, and Mr. Riis who was at that time reporting the police news and whose sympathy had long been roused for the children, made the most of the incident. Others joined and the first playground in New York was born. Now the city has 22 of these and with their coming, the entire complexion of things is changed for the children and this means for citizenship.

While playgrounds are needed for all, it is for the boy particularly that they are most desirable. A girl can play with her doll for hours in a space three feet square, but a normal boy wants at least an acre of ground. Mr. Riis illustrated the differences brought about by changes in the congested parts of New York by a number of fine limelight views. The slum thrown on the screen was a revelation in the way of teaching what the slum really was. The audience were glad to be able to substantiate Mr. Riis' statement, that we have no such places in Toronto. One room shows the slum, and the other shows the surroundings being of the most orderly and wretched order. The house commission in New York had found 400,000 such places, but so hard were they worked that with 300,000, and it was hoped that in the next five years the remaining 100,000 would be obliterated.

Mr. Riis is very optimistic in his opinion of boys. There are no bad boys born, he says, and the audience doctrine. There are different degrees of good boys, and it is circumstances that make them bad. Another theory of Mr. Riis is that of the "ciple of sunlight and air holds is that poverty is the cause of three-fourths of the drunkenness among the poor, and the other one-fourth is due to oftentimes stated.

The reformation that has been brought about in the slum districts of New York was graphically shown by the pictures of the slum before and after. Old rookeries, for example, the notorious Mulberry slum, were seen transformed into smiling parks, where children, graceful and happy, played and danced in the poetic hues of their native lands across the sea. In the last 12 years one and a quarter million boys and girls formerly lived in darkness and vice, had been moved to new and bright tenements. A lesson taught all who have yet time to profit by it, when the speaker told of New York giving three and a half million for a block of land for a playground, that might have been bought for three and a half million more.

A vote of thanks was given the speaker by Mrs. Plunkte, seconded by Mrs. Warren, and Mrs. Strathly, thanked the Play-ground Association for the opportunity given to hear the address of Mr. Riis, the first apostle of playgrounds on this side of the water.

UNCLE WIGGILY AND JIMMIE WIBLEWOBBLE

Copyright, 1913, by Howard R. Garis. Uncle Wiggily, the old gentleman rabbit, walked to the door of the hollow stump where he lived, and looked out.

"Oh, dear!" he exclaimed, as he scratched one long ear with the other, "it's raining. I wonder if Dr. Possum expects me to take my automobile ride in such weather as this?"

"I certainly do," cried a voice on the side porch. "Why shouldn't you go out in the rain? You're not sick, are you?"

"No, I'm not sick," said Uncle Wiggily. "What put such an idea into your head?"

"Never mind that. Nor yet are you sick," went on the doctor animal. "Certainly not! The dear Sugar! I should say I'm not sick! But I like it on my carrots just the same," said Uncle Wiggily.

"Of course I'm not sick," said the old gentleman rabbit. "What put such an idea into your head?"

"Then, if you're not sick, nor am I," said Uncle Wiggily. "I came around specially to see if you would give up your automobile ride just because it rained."

"Oh, I'll go out if you say so," spoke Uncle Wiggily, "but if I get the sniffle-sniffles you'll have to doctor me."

"But don't worry. Fresh air, even if it's wet, never gave anyone a cold. Only keep yourself dry; that is all, and you have your nice fur coat that you can't get cold. Get ready now; off on your ride!"

For you know Uncle Wiggily had been ordered by good Dr. Possum to ride around for his health, as the old rabbit gentleman was getting too fat. He had ridden some, and had had some adventures, as I told you a few nights ago.

The last one was where he found the little girl with the box of candy she could not open, and the elephant chases after her, and the dog barks, and nothing had happened, and that night Uncle Wiggily reached home again, having been out all day.

"Well, if I have to go out in the rain I suppose I'll have to," said Uncle Wiggily. "But may I take an umbrella?"

"You may," said Dr. Possum. "There is no harm in that. I want you to get exercise and fresh air. I don't so much care about you getting wet. But you must not get any fatter, for if you do your fur coat will not fit you, and new fur coats for old gentlemen rabbits are very expensive."

"I'll start right after breakfast," said Uncle Wiggily. So Jane Fuzzy-Wuzzys, the kind mucker nurse who used to look after Sammie and Susie Littletail, the rabbit children, when they were little, got Uncle Wiggily's breakfast for him and he gave some to Dr. Possum.

"I am on my way to see Grandfather Goosey Gander, the old duck gentleman," said Dr. Possum. "He ate too much corn-meat pudding the other night, and he has the indigestion severely. Now, don't forget, Uncle Wiggily, ride around whether it rains or not," and off he started to doctor Grandfather Goosey Gander.

"I'll go," promised Uncle Wiggily, and off he started to his auto that had big, fat German bologna sausages for tires, and a turnip for a steering wheel.

He was all alone, and the rain was coming down pretty hard. Still, with the umbrella fastened over him and in his warm fur coat, the rabbit gentleman did not mind it very much. He wished he had someone with him, for he was lonesome, but all his little animal friends were at school.

Well, Uncle Wiggily was riding along and along, over the wet meadows and thru the woods with the trees all dripping with rain, when, all of a sudden, a great big black bear jumped out from behind a stump.

"Hold on!" cried the bear, holding up a hairy paw with long claws on it. "Where are you going?"

"I'm riding for my health," said Uncle Wiggily politely.

"Nonsense," cried the bear, coming closer. "No one rides for their health in the rain. Come with me and I can soon fix you."

"Yes, I guess he can fix me," thought Uncle Wiggily. "He'll scratch all my fur off playing tag with me, that's what he'll do. And he was wondering what he could do to get away, when the bear happened to notice the German bologna sausage tires on the auto."

"That's queer!" he exclaimed. "What are those?"

"German sausages," replied Uncle Wiggily.

"Are they good to eat?" asked the bear.

"Germans eat them," answered the rabbit gentleman.

"How lucky that I am a German," growled the bear. "I will eat your sausage tires, and then—well, I'll see about you later! Ahem!" and he coughed loudly.

But just as he was going to bite off one of the sausage tires, that bear came so near the auto that Uncle Wiggily tickled him in the ribs with the cow's

TRAVIS POPULAR LEGITIMATE ACTOR.

Charles W. Travis, who is taking the heavens and strong character parts in Rex pictures, is a well known legitimate actor. He has been in the profession for more than thirty years and played in the first Bison production, and since then has taken heavies and characters with the Gen and Republican. Mr. Travis has been with the Rex company for seven months and is a screen favorite.

AUTO WIND SHIELD SPOILS PICTURE.

A director and his camera man of the Powers company had a curious experience during the taking of a recent picture. An automobile figure in the action, and when the film was developed it was noted that both the director and the camera man were reflected perfectly in the windward of the auto, and the scene had to be retaken.

EVEN MAKE THE COWBOYS CRY.

Talking about cowboys, did you ever see a cowboy cry? The other day, during the taking of a pathetic scene

LOIS WEBER, leading woman of the Rex Co. moving pictures.

In a frontier production, one of the cowboys was found weeping silently. He was somewhat annoyed at being found out, but freely admitted that he loved to go to "pathetic motion picture shows and dramas" and that he always wept when he saw women or children oppressed or injured. This cowboy is a particularly manly fellow, too, and one of the finest "bulldozers" in the country.

DON'T LIKE CAR TRACKS.

Recently in the taking of a scene in a Nestor comedy, Eddie Lyons, the popular screen comedian, was supposed to contemplate suicide. He lies down and places his head on the car tracks. Eddie acknowledged to nervousness, and the rest of the company enjoyed his uneasiness.

"It's all right for you fellows standing on the sidewalk," he said, "but supposing the car came a little too far."

"Don't worry," came the response. "You won't derail it."

"Two ladies passed and one of them cried out in horror, but was somewhat relieved when her attention was called to the camera."

"They ought not to be allowed to frighten people so," she said.

Eddie made the jump of his life when the word came, and just in time to keep his little place on this earth.

EARNINGS OF CITY'S SURFACE CARS WILL BUILD THE TUBES. Subways Will Be Even More Necessary When We Own the Street Railway System, Says Mayor Hocken.

"The tubes will be even more necessary when we acquire the Toronto Street Railway Co. system, and the earnings then of our surface, and the car service will build the tubes," said Mayor Hocken.

There, and are also brought there, causing the intolerable packing of cars in the rush hours. Second, this comes from moving the people of the outlying districts to and from work, the tubes would shoot these crowds to and from their homes, and the surface lines down town would then have only normal traffic. Third, the value of outlying property will be brought up to an equality with central districts by the tubes bringing the residents of outlying districts, by express service, as quickly to and from downtown as will the residents of central districts be taken on the surface lines; this will bring up the assessment of outlying property.

Toronto Has No Right to Control Subdivision of Land Outside the Limits They Claim—Bradford Horse Show Tomorrow—Brampton Council Did Much Business.

It is evident that the township councils think the city has acted in a rather high-handed manner in applying for legislation to control the subdivision of land outside the city limits. From opinions expressed by township councilors, there seems to be a feeling of the city might have taken the matter up with those municipalities affected in the first instance.

WARD SEVEN. Citizens on Woodville avenue and Annette street are righteously indignant over the vile emanations from the sewers in that locality. Last night the odor for many blocks was indescribably offensive, and it looks as if ward seven citizens will have to wage continuous war against the health department if they are to get relief from this unhealthy nuisance.

WINNIPEG GOLFERS AND THEIR COURSES

The Prairie City Possesses Three Courses of Unusual Quality—Difficulties Being Overcome.

Winnipeg has taken rapid strides in the golfing world in the last year or so and they are now the possessors of three fine courses. The only drawback that they have been unable to overcome as yet is the transportation question. The suburban railways do not extend their lines far enough and the roads at places in the springtime have been practically impassable. A determined effort is being made, however, to have this remedied as soon as possible, and within a year everything should be in good shape.

The St. Charles Country Club, the premier golf club, is situated eight miles from the city and a street car service communicates directly with the course. An asphalt road has been laid to within two miles of the club house, and will be completed this year, and motoring will be possible at all seasons then. A series of fires have been a heavy drawback to this club, and in October, 1912, the burnt down, and in October, 1912, the new club house, built at a cost of \$140,000, was also destroyed by fire, after only five months use. The course is only fair, as the soil is practically a "gumbo" variety, and bakes easily under the heat of the sun's rays. The golfing is very interesting, however, as one has to be perfectly straight to escape punishment. Trees border the links at nearly every hole.

The Winnipeg Golf Club play at present on their links at Norwood, but next spring will move to their new course at Bird's Hill. The new course is reported to rival any in Canada, and the soil is a rich sandy one, which in a year or so should support some excellent turf. The club house is located on a hill which provides a wonderful view of the surrounding country.

The Winnipeg Golf Club officers have been elected for the year as follows: President, H. D. Patterson; vice-president, Dr. R. B. Swan; secretary-treasurer, Harold Keane; grounds committee, H. D. Patterson, T. E. Middlemiss, Geo. Wilson, and B. G. Baker; match committee, Harold Keane, C. A. Richardson, Crawford Gordon and C. H. Allen; house committee, Dr. R. B. Swan, D. R. Finkelshtein, B. G. Baker.

The Pine Ridge Club is situated about a mile and a half to the west of the Winnipeg course on the same hill, but as it was only laid out last fall by Tom Bendelov of Chicago it will hardly be ready for playing for at least a couple of years.

Both of the latter clubs are situated over two miles from the city, and the roads are very bad that lead to them.

The railways run their tracks into the gravel pits right near them, however, and the clubs are trying to get them to run a train out there three or four times a day. This would in some measure counteract this disadvantage.

Both of the latter clubs are situated over two miles from the city, and the roads are very bad that lead to them.

TEN POINT WINS THE HANDICAP

Frederick L., the Favorite, Runs in Third in Havre de Grace Feature—Some Long Ones.

HAVRE DE GRACE, April 22.—A big crowd saw Ten Point win the Belair Handicap today. Like Ayala, winner of yesterday's feature, the Aste colt had been resting up since last fall. He was well backed, the Frederick L., the Hallenbeck entry, was the favorite, both on form and in the ring. Like yesterday, too, the place money went to horses that were not seriously considered in their races, this being most pronounced in the last race, when Eddie Graney, at 50 to 1, got second money.

Gordon, after nearly a month's retirement, carried off the honors in the two-year-old class, the first event of the day. Bulgar being third. Besides taking the feature, the Aste stable with Phyllis Antoinette, a 10 to 1 shot, took the second race, beating out Flying Fairy which, with the scratching of Luce, had become the best backed mount for this event. Trade Mark, an odd favorite, led the third race, but Double Five was largely fancied for the last race, which he won handily, outside sharing in the money.

The bidding up of winners in selling events continues, and is attributed to the revival of racing in New York. Sam Louis is the most persistent bidder, and after yesterday's race he forced Hellenbeck to bid up Ayala to \$1000 from the price of \$1800, at which she had been entered.

ISLAND PEOPLE HAVE COMPLAINT

Lack of Fire Protection Aired Before Board of Control.

ANOTHER PLAN WASTED

Harbor Board and Chief Thompson Asked to Make Report.

Arthur Dinns, heading a deputation from the island, said to the board of control that there was utter lack of fire appliances during the fire on the island on Sunday, and the loss was over \$40,000, or nine-tenths more than was necessary.

"I had not been notified that the water was on, or I could have had men and appliances there two weeks ago," said Chief Thompson.

"The water was turned on much earlier this year than any other year. I had ordered the alarm system to be in operation some time ago, and an alarm was given at the department of the island on Sunday.

Chief Thompson and the harbor commission will be asked to report upon a plan for better fire protection at the island.

A reception at the island, which will cost about \$600, will be given to the delegates to the international convention of the Christian Commercial Travelers' Association in July.

Officials of the Veterans of 1866 Association asked that the monument in Queen's Park to those who fell in the Fenian raid be cleaned, renewed and have a bronze tablet. The request was granted.

Steamer Uganda Was Sunk in the Straits of Mackinaw.

SARNIA, April 22.—(Special.)—The steamer John A. Donaldson, Captain Beggs, arrived here today with the crew of the steamer Uganda.

The Uganda cleared from Chicago with corn for Buffalo, and everything went well until they got in the heaviest part of the ice of White Shoals.

The captain started the pumps, but the water gained. He blew distress signals and the Don-aldson, which was close behind the Uganda, worked her way thru the ice.

The boat was owned at Erie, Pa.

TOO MUCH RAIN IN BRITISH ISLES

Crops Are Suffering From Moisture—European Outlook Favorable.

Broomfield's weekly review of foreign crop conditions, issued yesterday in Liverpool, is as follows:

United Kingdom.—Outlook for the wheat crop is less favorable, owing to the continued wet weather.

France.—There is some mention made of a thin plant and loss of color; otherwise the outlook is favorable.

Russia.—Some damage to winter crops is confirmed. Spring crops mostly favorable.

Italy.—Outlook generally favorable. Native offerings firm and scarce.

Spain.—The recent improvement has been maintained.

India.—Harvesting is progressing favorably. Arrivals at the ports increasing.

CATTLE MARKET PRICES STEADY

But Market Slow—Sheep, Lambs and Hogs Firm—Calves Easier.

Receipts of live stock at the Union Stock Yards were 150 cars, 2323 cattle, 1032 hogs, 231 sheep and lambs, 230 calves and 36 horses.

At 9 a.m. there were 2323 cattle reported to the market, but during the day there was enough arrived to make the number considerably over 3000.

**BIG INDIAN LOAN
IN LONDON MARKET**
Speculative Interest at Low Ebb
—C. P. R. Leads Upward
Movement.

LONDON, April 22.—Money was in
good supply and discount rates were
firmer today. Despite the settlement
in the mining section, speculation for
the new account was good. Mexican
Rails, Kafirs and copper stocks were
generally higher, the latter on favor-
able reports from the metal market.
Home Rails were supported by invest-
ors and Consols hardened a fraction,
but foreign bonds were dull owing to
new issues. Indian stocks closed low
under the influence of an Indian
railway loan of \$12,500,000.
American securities opened steady,
and a fraction higher. An upward
movement followed with Canadian
cotton leading the advance, but New York
selling caused the list to recede in the
early afternoon. Covering hardened
prices again in the late trading and
the market closed steady.

**TORONTO PAPER UP
TWENTY-ONE POINTS**
Interest in the Stock Market
Centred Wholly in the
Specialties.
"RAILS" UP AND DOWN
And Close Leaves Decline in
Evidence—Poor Market
For Some Industrials.

Speculative interest in the Toronto
Stock Exchange was largely centred
in the specialties yesterday. Several
of these were in the limelight, with er-
atic price changes running into mat-
terial volume, and these served to at-
tract more attention to the exchange
than has been apparent in some time.
The general list was quiet in the ex-
treme, with no particular alterations in
current quotations.

The action of the Toronto Paper Co.
directors in putting the stock on an 8
per cent dividend basis was accepted as
a very favorable factor, as it will
serve to brighten up the industrial end
of the list to a material extent. The
incident came as a complete surprise
to "the street," and the shares simply
soared when the news was made pub-
lic, the movement rivaling anything
witnessed in the market in years. The
opening price was 82, and, after reach-
ing 85, the stock took a clean jump to
92, and later on to 102, a gain of 21 1/2
points for the day. A month ago the
price was ruling around 78. It opened
the year at 69 1/2.

Another prominent feature of the
day's events was a further rise in St.
Lawrence Navigation, which got up to
a new high record of 129, compared
with 127 1/2 at close on Monday. The
advance did not hold, however, and the
last sale at 125 left a net loss of two
points. The usual favorites were duller
than usual. Toronto Railway scored a
point rally at 146 3/4 during the morn-
ing, but the shares turned weak after
the noon adjournment, the first sale
during the afternoon being a full half
point below the previous transaction,
and the close at 145 3/8 left a shade
loss for the day. Brazilian held be-
tween 98 and 99 1/8, closing unchanged.
A measure of anxiety was expressed
at the continued weakness of certain
of the industrials, which met with a
poor market. Canada Bread made
a new low record in its history at
25 1/2, a loss of 1 1/2 for the day; Mon-
arch sold at 75, compared with
two weeks ago, when the previous
sale occurred, and Macdonald at 52 3/4
was a new low since its listing. An
upturn in Interlake preferred was
accepted as an indication of the prospect
of the company being included in the
R. and O. merger scheme. City Dairy
new stock sold at par, the lowest figure
attained since the new scheme was
promulgated.

**MONTREAL MARKET
LISTLESS AGAIN**
And Trend Was Downward, Tho
Some Firm Spots Were
Apparent.

MONTREAL, April 22.—The local
stock market showed a further ten-
dency towards listlessness today with a
trend downward. C.P.R. failed to fur-
ther a feature of interest and Power
was similarly listless, holding un-
changed through the day. Both leaders
closed virtually unchanged. On actual
transactions C.P.R. showed a gain of
1-4, but the close was 1-4 below Mon-
day's rest.
The rest of the market exhibited
much the same dullness. Toronto Rail-
way opened strong at 146 1/2, an over-
night gain of two points, and advanced
a small fraction higher. On light trad-
ing it fell back to 145 3/4 in the after-
noon and closed offering at 145 1/2 with
145 bid, or virtually unchanged. Cot-
tons preferred was fairly firm on its
two point rise to 79 on Monday and
held between that price and 78 7/8.
Textile eased off to 1-4 to 38 1-2. Co-
ment common was firm between 30
and 30 1/2, closing unchanged at 30,
while the preferred was 1 to 1 1/2. De-
troit and Iron were both heavy, Iron
declining 1-2 to 51 and closing at that
price asked, while Detroit fell back 1-4
and closed at 49 1/2. Both heavy, Iron
and Richelleu showed losses of
1-2 point each.
On the surface the market appears
to have settled back into a waiting
mood, with more attention again di-
rected to New York. Locally the money
situation remained a depressing in-
fluence.

MARKET RECORD.

level in their history, the gain for the
day running into 21 1/2 points. The de-
tailed record follows:

**PROFITS INCREASED
BY FIFTY PER CENT.**
Excellent Showing of Toronto
Paper Co.—Dividend Is
Increased.

The directors of the Toronto Paper
Manufacturing Company, Limited, in-
creased the dividend rate from 5 to 8 per
cent, and as a result the stock took a
sensational flight in the Toronto market
yesterday.
The resources and liability statement
for the seven months' broken period end-
ing the financial year at 31st March, 1913,
showed net profits at the rate of \$138,503
for the year, equal to 14 1/2 per cent. on
the capital stock and equal to four and
one-half times the bond interest. These
profits evidenced a 50 per cent. increase
over the preceding year. The balance
carried forward to the credit of profit
and loss was \$46,900.

The profit and loss account for the
seven months follows:
—Profit and Loss Statement—
By profits for the
period \$80,973.23
Less bond interest 35,000.00
paid and accrued.. 17,500.00
Net profits \$63,473.23
Less—
Dividends Nos. 1 to 12 \$12,500.00
Directors' fees 1,400.00
Written off organi-
zation expenses, etc. 2,635.97
\$46,937.26

The showing of the corporation is cer-
tain to attract much attention. It is the
oldest company in Canada engaged in
the manufacture of high grade book,
linen and bond paper. It was reorgani-
zed last year and the record made by
the new management must be regarded
as excellent. G. P. Grant, president of
the Dominion Bond Company, is presi-
dent of the Toronto Paper Co. H. H. Watson,
vice-president of the Spanish River
Pulp and Paper Mills, Limited, is vice-
president of the Toronto Paper Co. Other
directors being the Rev. Dr. Wil-
liam Briggs, Richard Brown, R. S.
Waldie, R. A. Lyon, W. Wallace
manager and A. W. Briggs secretary.

**BANK RECORD AS
TRADE BAROMETER**
Lower Basis of Clearings Plain
Evidence of Reaction in Busi-
ness Activity.

The bank clearing record of Canada
and the United States continues to evi-
dence a slight reaction in trade from the
active level of a year ago. Last week
clearings in the Dominion totaled \$172,
562,465, which compared with \$171,619,123
in the previous week, and \$175,576,494
in the corresponding period of 1912.
Brought down to a percentage basis the
clearings showed a decrease of 1.1 per
cent. against an increase of 28 per cent.
in the preceding week (owing to holidays
last week) and a decrease of 1.1 per cent.
in the week April 3, and an increase of only
2.5 per cent. for the whole month of
March.
Bank clearings across the border last
week were \$2,990,867,734, a decrease of
2.1 per cent. from the preceding week.
The fall-off was due mainly to a reduction
of 13.6 per cent. in the record of New
York, attributable to a smaller volume of
clearings in the stock markets, the plain evi-
dence of a slower movement of trade.
Average daily clearings for the week
to date across the border are given below:
1912. 1913. 1911.
April .. \$504,255,000 \$633,234,000 \$443,797,000
Mar. .. 463,881,000 489,890,000 437,136,000
Feb. .. 424,000,000 326,000,000 222,114,000

GOOD COAL AT SYDNEY MINES.
Immense Force Will be Put at Work
by Nova Scotia Co.
SYDNEY MINES, N.S., April 22.—
Considerable excitement has been cre-
ated here by the announcement that
a new coal seam has been located on
the area owned by the Nova Scotia
Steel and Coal Company in the ter-
ritory adjacent to the town. The find
is especially valuable in that the coal
is of an extra high quality, and the
company will have no difficulty in
finding a ready market for all they
can mine. The only difficulty is the
matter of a large production in the
scarcity of men. The company is
seeking to secure 1,500 more employ-
ees, and is making a special effort to
restrict the usual flow to the west this
spring. The latest seam has been
found in the area that extends from
the north side of Sydney Harbor to
some ten miles, and the prospect is
that it contains an almost limitless
quantity of high class coal, which is
bound to prove of immense value to
the industries of this district, as
well as an asset of great value to
the company.

**HEAVINESS RULES
IN CLOSING HOUR**
New York Market Lost Buoy-
ancy After Trading of
Forenoon.

When Pearl Lake displayed symptoms
of passing into the vortex of another
bear campaign yesterday, and the
shares began to drop in an alarming
manner, sentiment in the mining
market veered off from the favorable
condition in evidence at the commence-
ment of the week, and the whole list
adopted an easier trend. Sharp de-
clines were general in the Porcupines,
while several of the Cobalts also hit
the bumps, so that a new series of low
records for the month were registered
before the movement culminated.

The slump in Pearl Lake was much
akin to the recent downturn when the
shares dropped from 71 to 44 in a com-
paratively few days. The stock opened
at 60 1/2, and sank a full 7 points to
53 1/2 before the bears ceased their
pounding. The close at 56 left a net
loss of exactly 6 points for the session.
At the same time Dome Lake worked
back to 24, which compared with 23 1/2
at the close of last November, and
sold off at 23 3/4, both these issues
moving into new low ground for the
present month. Jupiter at 61 was off
a fraction for the day.
In the Cobalts the same frenzied
selling was in effect at the same time.
Chambers-Ferland, which has been paying
the penalty for the dissention among
the minority shareholders over the re-
ported sale of the property, sold at a
new low record since last November, at
26, off a point for the day. City of
Cobalt was down to 46 again, and Coni-
agas at 71.90 on the Toronto board was
a new low for the year. Buffalo
lost another 6 points at 24.00, a figure
not duplicated previously since Febru-
ary, and a full 35 cents below the re-
cent high of 28.40.
The market did not lack firm spots,
but these were the exception rather
than the rule. Cobalt Lake moved up
another point to 59, its highest level
since years ago. Rochester was in demand
at a fractional advance, and Crown
Reserve was strong with \$9.95 bid at
the close, and traders predicting higher
prices. In the Porcupines, McIntyre
reached \$4.00 again, thus duplicating
the recent top level for the month.

ST. LAWRENCE NAV.
AT NEW HIGH RECORD
Big Profits Afforded by Recent
Upturn in the
Shares.
St. Lawrence and Chicago Navigation
shares sold up to a new high record
in the Toronto stock market yesterday,
the net gain for a full 29 points, ac-
cording to the four weeks' report sent out
to the shareholders with the dividend
checks yesterday. Since the profits to
February 25 were \$241,600, the excess
earnings for the last four weeks of
the period must have been \$128,852.53,
or at the rate of \$1,668,532.89 per an-
num, equal to 55.6 per cent. on the out-
standing capitalization of \$3,000,000.
In the four weeks' period ending
March 25 the mill ran 87 per cent of
the possible running time, treating a
total of 10,681 tons of ore, compared
with 9,240 tons in the previous simi-
lar period. The average value of all
ore treated was \$11.81 per ton, and
the approximate extraction was 36 per
cent. A significant fact was that the
total costs showed a decrease of ap-
proximately 25 cents per ton, and gen-
eral manager P. A. Robbins took pains
to state that with the gradual restora-
tion of systematic work, a further re-
duction in cost was looked for.

**NIP REPORT WILL
CONTAIN SURPRISES**
It is understood that the annual re-
port of the Nipissing Mines Company,
which has been delayed owing to the
necessity of correcting errors made
in its preparation, will be mailed to
the stockholders this week. It is re-
ported that the condition of the mine
will be shown to be better than ever
before. The ore reserves, it is said,
will be reported at 10,000,000 ounces,
while the liquid assets, in spite of the
retardance of dividends at the rate of
1.50 or 30 per cent. annually, will be
fully equal to what they were a year
ago. Ore reserves at the end of 1911
were estimated to be worth \$4,500,000,
the greatest in the history of the mine.

**MINING COMPANY
PAYS BIG DIVIDEND**
NEW YORK, April 22.—The Ken-
necott Copper Mine, the great Ken-
necott Copper Mine, owned by the
Morgan-Guggenheim
syndicate, has declared a million dol-
lar dividend in dividends during last two
years.

LIVERPOOL GRAIN EXCHANGE.
LIVERPOOL, April 22.—The market
opened with shorts covering, higher re-
closing the strength in America, and the
closing strength in Buenos Ayres. Fol-
lowing the opening, there was a further
advance, with shorts in May leading.
There were fewer and firmer Plate offers,
with a larger business being done by
particulars No. 2 Manitoba, with cargoes
being ordered at 1 1/4 to 3/4 advance.
Toward midday there was some realizing,
from the extreme high, as the demand
appeared to be slackening. The King-
dom, Germany and the United King-
dom were better, and the visible expected
to show a liberal increase.

Savings Investors
The Savings depositors of the
United States have entrusted the
banks with \$4,250,000,000 of which
the banks have invested 43 per
cent. in bonds.
Savings investors may now pur-
chase bonds for \$100 upward, re-
ceiving the larger returns.

**PEARL LAKE ON
TOBOGGAN AGAIN**
And Whole Market Turned
Weak in Consequence —
Sharp Declines Shown.

When Pearl Lake displayed symptoms
of passing into the vortex of another

shares began to drop in an alarming
manner, sentiment in the mining
market veered off from the favorable
condition in evidence at the commence-

back to 24, which compared with 23 1/2
at the close of last November, and
sold off at 23 3/4, both these issues
moving into new low ground for the
present month. Jupiter at 61 was off
a fraction for the day.
In the Cobalts the same frenzied
selling was in effect at the same time.
Chambers-Ferland, which has been paying
the penalty for the dissention among
the minority shareholders over the re-
ported sale of the property, sold at a
new low record since last November, at
26, off a point for the day. City of
Cobalt was down to 46 again, and Coni-
agas at 71.90 on the Toronto board was
a new low for the year. Buffalo
lost another 6 points at 24.00, a figure
not duplicated previously since Febru-
ary, and a full 35 cents below the re-
cent high of 28.40.
The market did not lack firm spots,
but these were the exception rather
than the rule. Cobalt Lake moved up
another point to 59, its highest level
since years ago. Rochester was in demand
at a fractional advance, and Crown
Reserve was strong with \$9.95 bid at
the close, and traders predicting higher
prices. In the Porcupines, McIntyre
reached \$4.00 again, thus duplicating
the recent top level for the month.

**FOUR WEEKS' RECORD
OF THE HOLLINGER**
Profits Are at Rate of Fifty-Five
Per Cent.—Costs
Lower.
In the period from January 1 to
March 25 Hollinger Gold Mines, Limited,
had profits of \$369,852.63, accord-
ing to the four weeks' report sent out
to the shareholders with the dividend
checks yesterday. Since the profits to
February 25 were \$241,600, the excess
earnings for the last four weeks of
the period must have been \$128,852.53,
or at the rate of \$1,668,532.89 per an-
num, equal to 55.6 per cent. on the out-
standing capitalization of \$3,000,000.
In the four weeks' period ending
March 25 the mill ran 87 per cent of
the possible running time, treating a
total of 10,681 tons of ore, compared
with 9,240 tons in the previous simi-
lar period. The average value of all
ore treated was \$11.81 per ton, and
the approximate extraction was 36 per
cent. A significant fact was that the
total costs showed a decrease of ap-
proximately 25 cents per ton, and gen-
eral manager P. A. Robbins took pains
to state that with the gradual restora-
tion of systematic work, a further re-
duction in cost was looked for.

**ROUTINE BUSINESS
AT BEAVER ANNUAL**
Only routine business was transac-
ted at the annual meeting of the Beaver
Consolidated Mines yesterday.
fairly large representation of the
shareholders was present, and the re-
sults were adopted without discussion.
The election of officers and directors
resulted as follows: President and
general manager, Frank L. Culver;
vice-president, C. C. James; secretary,
treasurer, H. E. Tremain, all of To-
ronto; directors, Wm. T. Mason, Mon-
treal; F. L. Lovelace, Niagara Falls,
and Wm. Stevenson, Bay City, Mich.
The latter three succeeded Wm. Muir
and George Giendinning, resigned,
and the late W. L. Churchill.

**QUARTERLY REPORT
OF LA ROSE MINES**
The following brief financial state-
ment of La Rose Consolidated Mines
Co., Limited, the operating company,
as of April 1 last, has been received
by stockholders together with the
checks for the dividends on the stocks
of the La Rose Mines Co. Cash sur-
plus \$1,472,510; ore in transit and at
smelters, and ore sacked at mines
ready for shipment, \$322,222; total
\$1,794,732.

**COBALT OUTPUT
BELOW AVERAGE**
Only Five Companies Sent
Out One Last Year—One
Bullion Shipment.
Cobalt ore shipments were light last
week, both in ore and bullion. Four min-
ing companies and one customs reduction
company despatched less than half a mil-
lion pounds of ore. All of this was high-
grade or concentrates. The Right-of-
Way despatched a carload of ore to Mar-
shalls and the Consags and McKinley
company despatched with two
cars of concentrates each.
The Nipissing was the only shipper of
bullion, tho it atoned for the others by
billing to the English market 107 bars,
worth at the market price over \$75,000.

The Standard Bank of Canada
Quarterly Dividend Notice No. 90
Notice is hereby given that a dividend at the rate of Thirteen per cent.
per annum upon the paid-up Capital Stock of this Bank has been declared
