U.S. ULTIMATUM TO KAISER PUTS ISSUE CLEARLY

"Strongest Ever Seen," Verdict of Ex-British Cabinet Minister.

CLIMB DOWN OR WAR

Germany Expected to Use Every Ruse to Escape Definite Reply.

Special Cable to The Toronto World.

LONDON, May 14.—The Tribune interviewed a famous ex-cabinet minister today and asked his opinion of the Lusitania note, then just printed. He had not yet seen it and read it with amazement. "Whew!" he exclaimed, and said: "This is the strongest ultimatum that I have ever seen. The loophole it gives to commanders committing the acts under a misinterpretation of orders makes it nearly impossible for Germany to accede to the demands contained therein." He continued: "The note is one series of sledge hammer blows. The man who penned it must have supreme confidence that the entire nation was behind him. It sets a new precedent in international intercourse. The question now is whether Germany will dare make the note a question of peace or war, will it make the best venture to set itself against the entire civilized world. I cannot help thinking that even the Germans will hesitate before making such an alienating the people of the United States and dispute all their contemptuous indifference to all considerations of humanity in war." To Make Germans Quail. "I still cannot help feeling that they will quail before the moral censure of the American people, if they do not do that mere fact that they attempted in a hundred ways to create friction (Continued on Page 3, Column 1).

AMERICA FIGHT? NO! SAYS COLOGNE PAPER

Uncle Sam's Specialty is "Fighting With Words," is Comment.

AMSTERDAM, May 14.—(Via London)—The Cologne Volks Zeitung, commenting upon expressions of American opinion concerning the sinking of the Lusitania, says: "Americans are very prone to criticize without any expectation that such fighting with words will make any great impression on those whom they denounce. They feel relieved when they have given frank expression to their irritation. It is, however, war is most unpopular, because it requires so many sacrifices and destroys business." There is no need, therefore, to apprehend that America will join the war against us, but it may be taken for granted that the wave of anti-German hatred will continue to rise still higher. We deplore, but we cannot prevent it. Anti-German feeling is a product of agitation. It slowly mounts, and will also slowly subside.

WHERE DID NICKEL COME FROM?

LONDON, May 14.—The Swedish steamer Augusta, from New York, April 19, for Copenhagen by way of Kirkwall, was diverted by the British authorities to Leith, Scotland, where she was ordered to discharge 50 tons of nickel plate, which is now in the hands of a prize court.

Berlin Will Receive American Note Today

Communication Was Delayed in Transmission and Ambassador Gerard Will Make Delivery This Afternoon.

WASHINGTON, May 14.—The American note to Germany was delayed in transmission, and was not telegraphed from Rome until 3:40 p.m. today, so that it probably will not be presented by Ambassador Gerard to the German Foreign Office until tomorrow. This was announced by Secretary Bryan tonight. The state department received a message from Ambassador Thomas Nelson Page at Rome, saying the note was received there at 2 p.m. today, and was immediately copied and forwarded to Berlin at 3:40. It should have reached Berlin late this afternoon, but the time required for deciphering is expected to delay its presentation until tomorrow.

BRITAIN AWAIT DEVELOPMENTS FROM U. S. NOTE

Majority of People Believe U. S. A. Will Be Dragged Into War.

FIRMNESS ADMIRER

Moral Effect of Having America in Background Tremendous Factor.

Special Cable to The Toronto World.

LONDON, May 14.—England now awaits developments between Germany and America. It is realized that war or peace depends now, as it did then, upon what those in power at Berlin decide. President Wilson's note is greatly admired. It is considered a splendid document, firm enough, courageous enough, not too weak, not too strong, but embodying America's insistence on the protection of her own rights and satisfaction for the wrongs done. Germany's course is being awaited with the keenest interest. Many believe that America is in for war. They consider that Germany will obstinately refuse to accede to the United States demands, if she does refuse then war is the only recourse in the opinion of England. There is much speculation here over the amount of assistance that America might render. It is common talk that the allies would be better off if America were not in, as if she participates the American supply of munitions to the allies must cease. Those thinking thus do not consider, as do the military people, that not only will the allies get all that they are now getting but that the American Government's munition factories will be thrown into the common lot, nor do they fully consider that the moral effect of having America's millions of men and money in the background will be a tremendous factor.

SHIPS BOMBARD TURKISH FORTS NEAR NARROWS

Good Progress Made in Reducing Batteries at Dardanelles.

FIRING DAY AND NIGHT

Chief Naval Operations Appear to Be Directed Against Asiatic Side.

BY GEORGE RENWICK.

Special Cable to The Toronto World. LONDON, May 14.—(Via London, May 14)—During the past few days the Dardanelles operations, as seen from this point of view, have been directed to a large extent against the Asiatic side of the waterway, but the position of the land forces, to judge by the localities shelled by the ships, does not seem to be greatly altered. A stubborn and continuous struggle seems to be in progress between the British and Turkish troops on the southern slopes of Treppezak. Sailing beyond the Dardanelles entrance on Saturday, I could see warships engaged in shelling the positions beyond Kithia Peak, five miles inland from the western promontory of the peninsula, very heavily. For some time as I watched, the whole of the enemy's position was ringed round by huge columns of smoke and evil caused by the bursting of shells from the men-of-war.

Uncle Sam Must Help to Capture the Madman.

Can the Kaiser answer President Wilson other than in a defiant way and by a "Mind your own affairs; I'm minding mine"? And if he does, can the president do other than "hold him to a strict accountability"? The Kaiser is arraigned in the dock, is called on to plead. Up to date he has acted as an outlaw; now he must answer the millions who will judge him. He can't dodge; he may defy. But the trial will go on. And in the meantime the American warships may be moved across the ocean and into the sea, and great guns opened. The review of the American fleet off New York harbor has a more than timely flavor. Von Tirpitz, the great German admiral, may seek the sea, and so may his sisters, etc. The Kaiser could frame up something out of the president's demand by which he might seek to save his face and get out of the war. We think, however, he will prefer to continue in his defiant mood and challenge all the world. A madman has no reason, shows less reason, the nearer his keepers approach. It will be a case of such a madman, and that is the view that the other nations ought to take. First catch the madman, and catch him for good. And that is the only course open to Uncle Sam. That versatile individual is already in the hunt after the wild man, and will and must take his share of it.

Italy Will Wage War On Teutonic Alliance

Russian Official Announcement Thru Washington Embassy Refers to Decisive Step Italy is About to Take Against Germany, Austria and Turkey.

Special Cable to The Toronto World.

WASHINGTON, D. C., May 14.—Italy has come to an agreement to enter into the war on the side of the allies, since her ministerial crisis may delay her taking the final plunge and crossing the Austrian frontier. Strangely enough, the first official word of her intention comes from Russia in a communique given out thru the military attaché of her embassy at Washington. The occasion of this official statement was the denial of the big German claims of victory in Western Galicia. These were made, the Russian Government affirms, to intimidate Italy. The exact wording of the statement from Petrograd is: "The boom about the great victory in Galicia seems to be intended to raise the spirits of the public in Germany and to restrain Italy from the decisive step she is now about to take." It is Turkey that is bringing Italy into the war, for future Italian hopes of expansion will be killed, if Italy gets no share of Asia Minor. Italy is also desirous of obtaining the port of Trieste which does an immense business in the near east, chiefly with cheap German goods, which neither British nor French manufacturers deem it worth while making. The Transference of Trieste to Italy would bring about the transference of this near eastern trade to her and would deal a big blow to German commerce after the war. The occupation of Trieste and other Adriatic ports would also make the Adriatic Sea an Italian lake. This is deemed necessary for Italy's future defence.

A New Race Suicide

What mean these anti-German riots since the Lusitania was torpedoed? In the British Isles, in Italy, in South Africa, the people are ready to wreck German property, to attack Germans, to chase them out of the country. The meaning is that Germans have put the brand of Cain on themselves by slaughter of innocent men, women and children, non-combatants; by destroying inoffensive neutrals or non-combatants journeying by sea, the world at large. For this the Germans will never be forgiven in the lives of living men and women. German professors have closed the doors of all other countries to themselves; their books, their work even is discredited. Nor can a German ever pretend to be a gentleman hereafter or any German artist a citizen of the world. Art will not speak a hated tongue. The most hospitable homes in the world—the country houses of England—are closed to guests who proved to be spies. German servants will look in vain for employment in the world at large. Native races will not trust German adventurers in the darkest continents. You can't be a Hun or an apologist of the Hun methods and not incur public odium; and as a consequence many innocent persons may be unfairly stigmatized. The great German population of the United States have had their loyalty questioned by a hyped name imposed on them by their fellow citizens. There never was such a castigation administered to a nation and the apologists in articles written these past months by the educated men of Great Britain. The most stinging philippic of the world has yet to be hurled at the two-faced head of the House of Hohenzollern; but it will be written sooner or later, and Nero's record will be defunct as a consequence. No responsibility will ever be again placed on the Kaiser's shoulders. The Kaiser and his sons will only survive in infamy. German statesmanship stands but for defeat, for trickery; German warriors rank with the savage treachery of the Iroquois. The Turk will be ashamed of his latest companion-in-arms. The British will not be glad of his dropping. How will Carlyle and Voltaire greet Frederick the Great the next time they meet him? Will Wagner repeat that he was once ashamed of the ancient lineage which gave him his heavenly strains? The Germans are all declassified for a day, and all hereafter must be under suspicion. It's a new kind of race suicide, set a-going by a madman.

WHOLE BATTALIONS MAY GO TO FRONT

Decision Depends on Strength of Reinforcements Required Monthly.

NO PRESENT CHANGE

Need of Company Officers to Fill Many Gaps is Pressing.

By a Staff Reporter.

OTTAWA, Ont., May 14.—While the reinforcements that are being assembled to keep the two Canadian divisions at the front up to strength are made up of companies taken from the different battalions of the third contingent now mobilizing all over the country, there is a possibility that whole battalions may be sent as reinforcements later on. This will depend partly on the amount of reinforcements required per month. The sending of companies with only company officers is feasible just now because of the surplus of Canadian officers in England. The casualties also, have not been so heavy among the higher officers of the battalions as among the company officers. The organization of new and additional battalions has not been officially authorized, but is expected. The only orders so far have been for recruiting up to strength again of the battalions from which companies are taken for reinforcements. While mounted infantry are very likely to go forward as infantry they may be converted to cavalry units again before they actually reach the front.

COMMONS OVERAWED, SAYS LLOYD GEORGE

Chancellor Makes Acrid Reference to Influence of Irish Distillers.

LONDON, May 14.—"We miss his fearlessness now more than ever, when we have the house of commons quailing before the angry crowd of Irish publicans and distillers," said David Lloyd George, chancellor of the exchequer, in a tribute to the late Rev. Hugh Price Hughes, when a memorial portrait of the clergyman was unveiled today at an anniversary meeting in the London mission, which the Rev. Mr. Hughes founded.

MINISTER OF FINANCE IS ACTING PREMIER

Sir George Foster on Few Days' Visit to New Brunswick.

OTTAWA, May 14.—Sir George Foster having gone to New Brunswick for a few days, Hon. W. T. White is acting prime minister. A cabinet meeting was held this afternoon, but only departmental business was dealt with. Sir Robert Borden, who is resting in the Galtineau district, may be back early in the week, but it is not definitely known just when he will return to Ottawa.

Music Time in Italy

Italy is still a riddle, but the answer is only one way, and that is to take part in rounding up the wild man. Territorial advantage and entrance into the first rank of nations can only be achieved now by joining the allies. Italy would gain no little for the redeemed possessions but by virtue of arms. Only Uncle Sam may get the game before the man with the drooping tail-plumes in his hat. But all the organs are playing in Italy today and the bombardment that is bound to give the czar a warm water seaport. Still greater changes will come to Asia Minor and Asia by the opening of the Dardanelles. To get into this home of the ancient civilization was the Kaiser's dream, more than to occupy even Belgium. He will get nothing.

The Dardanelles

The greatest fighting for the moment is in opening up the Dardanelles. Great ships and little ships, mines, torpedoes, and land and sea and great guns on wheels and trains. Probably the most terrific warfare yet known to the world. The greatest fighting for the moment is in opening up the Dardanelles. SALANDRA MINISTRY MAY RETAIN POWER

Rumor Spreads Thru Rome That King Victor Will Not Accept Resignation, and Public Anger Is Appeased.

ROME, May 14.—(6:40 p.m., via Paris)—News that King Victor Emmanuel will not accept Premier Salandra's resignation, and that Salandra and Baron Sonnino, the foreign minister, will remain in power, is spreading like wildfire throughout Rome and creating an excellent impression. Premier Salandra has convoked a council of the ministers, who are now meeting to make a decision relative to the present crisis. Serious riots broke out at Milan during the day. When it became known that the cabinet had been forced to resign, the popular indignation began to show itself. A large crowd of people started rushing thru the city, and there were frequent conflicts between groups holding opposing political opinions. The police made strenuous efforts to maintain order, but they were not sufficiently strong numerically, and troops had to be called out.

TRANSYLVANIA IN WAR ZONE TODAY

If Anchor Liner Passes Safely, Will Dock at Liverpool Tomorrow.

ADRIATIC NOT SAILING

White Star Liner Unable to Make Trip Because of Strike of Crew.

NEW YORK, May 14.—If the Anchor line steamship Transylvania equals her record time on her previous trip across the ocean, she should enter the German war zone sometime late tomorrow, and if she passes thru it safely, should dock in Liverpool early Sunday morning. This was according to the calculations of the Anchor line officials and was made public because of many inquiries regarding the whereabouts of the vessel. Inquiries at the American line were told that the steamship Philadelphia, which sailed under the American flag on May 8, would probably arrive in Liverpool tomorrow afternoon. Reports that the White Star liner Adriatic failed to sail from Liverpool on Wednesday last as scheduled were accepted by the line's officials here as correct in the absence of the usual cable notifying them of the ship's departure. The delay was reported to be due to a strike by the crew for increased wages.

Austrians Put to Flight From River Dniester Line

Russians Drive Enemy Before Them in Full Flight Back of River Pruth on Front of Ninety-four Miles, and Concentrate Forces on River San.

Special Cable to The Toronto World. LONDON, May 14.—Great success is attending the Russian offensive in eastern Galicia, on the River Dniester front, dispatches from Petrograd affirm tonight, the Austrians being now in full retreat from their positions extending from the River Bistritza to the Roumanian frontier, to new lines back of the River Pruth, on a front of 94 miles. In retreating, the Austrians evacuated strongly-fortified positions without making much of a defence, and fell back with great precipitation. The rapid success of this new offensive of the Russians is taken to indicate that for his big demonstration in western Galicia from behind Craiova the enemy was forced thru lack of troops to weaken his other lines, and thus exposed himself to a smashing blow at a point where the political effect in the Balkans will be tremendous. Austrian Cavalry Used Up. The Austrians endeavored to cover their retreat with a large force of cavalry which attempted by repeated charges to check the Russian pursuit, but these horsemen were used up and sacrificed to no avail, for they were repeatedly captured by the Russian artillery and machine gun fire. The Russian Cossack divisions were then let loose upon the Austrian front, broke clear thru the columns of the enemy at a number of points, and threw them while on the march into great disorder. The last information from this front indicated that the pursuit was being incessantly kept up, and that conditions were very favorable for the Russians. The demoralization of the enemy appears to be growing, for the great number of prisoners that are being taken is rapidly being increased.

Thousand Yards of Main German Trenches Captured on Aix Houlette-Souchez Road, Wood Nearby Cleared of Germans and Second Line of Trenches Carried.

Special Cable to The Toronto World. LONDON, May 14.—Continuing their offensive in a violent rainstorm, which waterlogged the ground and made progress slow, the French armies operating north of Arras took a strong German trench north of the Aix Houlette-Souchez road, a forest south of this road, and behind this wood a trench of the second German line of defence today. The first trench, captured extends on a front of about five-eighths of a mile. The attack was launched southwest of Angres, and was made on both sides of the Aix Houlette-Souchez road. As an example of the slaughter in this fighting, the French War Office reports the finding on the ground of the bodies of 500 dead Germans who were killed in this vicinity. The French also continued clearing the slopes south of Notre Dame de Lorette of isolated German detachments. The effectiveness of the French artillery is attested by German prisoners, who say that heavy losses were inflicted by its fire. The prisoners taken since Sunday include 100 German officers. The French have also captured 20 guns, including eight heavy ones, and 100 machine guns and bomb-throwers. Four German blockhouses were destroyed and several trenches leveled in the Aisne valley yesterday, and it is believed that the French are about to begin a great offensive in this locality. British Need Ammunition. Further north at Ypres the British troops are waiting for a big supply of ammunition before commencing a great offensive. The soldiers of the King are confronted by two large armies, those of the Crown Prince of Bavaria and of the Crown Prince of Westphalia. Those troops are holding their lines at full strength and have formidable artillery supports. The British troops are also still suffering from the aftermath of the first gas attack at Ypres. High explosives to level the parapets of the enemy are still lacking, and the army still requires thorough preparation for trench warfare. More howitzers, more men and more plowives are needed to break thru the hard crust of the first German lines, in the opinion of a British correspondent who visited the front yesterday. French Official Account. The following is the French official version of the day's fighting, from the north of Arras the conditions (Continued on Page 2, Column 3).

GOVERNOR-GENERAL VIEWS SHAM-FIGHT

At Niagara Camp—Compliments University Men on Tactical Manoeuvres.

CAMP BREAKS TODAY General Hughes and General Lessard Impressed With Work.

By a Staff Reporter. NIAGARA-ON-THE-LAKE, May 14.—Compliments by H.R.H. the Duke of Connaught, Major-Gen. Sam Hughes and Major-Gen. Lessard were paid to the Varsity and McGill men at the C. O. T. C. camp for their efficient work both upon the parade ground and in their tactical manoeuvres.

"The best thing I have ever seen for training and efficiency," said General Lessard, referring to the work of the C.O.T.C. camp in general. He said that as a result of his inspection he had found the camp to be well equipped and excellent.

Provisional Infantry School. Colonel W. B. Ingham, of Toronto University, will be in charge of a provisional infantry school, which will be opened at Niagara on May 25.

The overseas company, commanded by Captain Gregory Barclay of McGill, will go to Valcartier to complete their training, as announced by General Lessard, for a few days. The second overseas company, which will be attached to the Princess Patricia Light Infantry, will be in charge of the camp, according to a statement given out by Capt. MacDonald of McGill, who is in charge of the camp.

The shanty which the collegians made at Montreal and was pointed out by the duke were the steadiest which the attacking party displayed in their advance on the defensive lines of the latter party if holding their fire when their opponents were under cover. Only the Toronto General Lessard remarked, had been to receive fire when an enemy was under cover.

The "blue" force, under command of Col. Lang, consisted of nine Varsity companies and "D" Company of the 58th Battalion, under Capt. Barclay. The "red" detachment, under the command of Col. Robert Starke, was the McGill companies and the Ridley Cadets, numbering about sixty.

The aggressors were supposed to be an army from Toronto, which had as its object the invasion of the Niagara Peninsula. The defenders were a battalion from Niagara Falls, reinforced by a detachment from the Niagara-on-the-Lake, who had the task of preventing the invaders from breaking thru.

The object of the attack was attained by the overseas men, who were the reinforcements of the Toronto battalion. They got around the flank of the enemy with comparatively little resistance and were forward just as the umpire's whistle blew.

The attacking party moved out of camp shortly after 8 o'clock in the morning, and after marching about six miles turned for their position at the camp. The plan was admirable, as the men were within two miles of camp at the close of the engagement.

The McGill force left camp about an hour and a half later, marching out past the Chautauque rifle ranges. The advance guard of the Toronto force, under the command of Capt. Massey, caught sight of the enemy not far from the rifle range, and the engagement started at 11 o'clock.

Great German Victories

Russia Effectively Answers Teutonic Claims of Successes and Points Out False Statements of German Military Authorities About Operations on the Russian Front.

WASHINGTON, May 14.—The military attaches of the Russian Embassy have received the following despatch from their government in Petrograd: "The Russian general staff, in a statement issued May 12, says that last week the German military authorities made erroneous statements about operations on the Russian front.

"The Germans affirm that they have driven back the Russian attacks at Kalvary, Augustowo, and Prasnayz, but the Russians made no attacks there. The Germans attacked the Russian forces at Vaskiedo, Rajet and at the farm Pomicany, but some of their attacks were only demonstrations, and the others were for the purpose of reconquering the necessary points they had lost previously.

"The Russian general staff, in a statement issued May 12, says that last week the German military authorities made erroneous statements about operations on the Russian front. This they said that the Germans took twelve miles during the battle at Lioua, whereas the Russian artillery detachment operating there had but four guns. At Rostenie the Germans not only did not cause the Russians heavy losses, but had no success at all.

YORK COUNTY AND SUBURBS

SPOTTERS KEEPING TAB OF ITINERY PASSENGERS YOUNG MAN ARRESTED ON BURGLARY CHARGE

Reported to Be Preparing Date for Case of Metropolitan Versus City. Fred Wardell Accused of Breaking Into House at Lambton Ward Seven News.

County Constable King yesterday afternoon arrested Fred Wardell, a youth 18 years of age, living at 146 Jane street, on a charge of house-breaking. It is claimed that Thursday night Wardell broke into a private house at Lambton and stole several articles, and a further charge of breaking into the upper floor of the building.

It is now some weeks since the small sanitary drinking fountains in various parts of West Toronto were turned on by the city, near the one at Keele and Dundas streets, which in the weather is used daily by thousands of thirsty pedestrians as has yet not been forgotten by the John Strubbar bus line long before and after the inauguration of the line, and it was only the competition induced by the electric line that finally relegated the Strubbar bus to the scrap heap.

The executive of the West Seven Ratepayers' Association will meet this evening in W. H. Adair's office on Keele street.

Reports coming in from different parts of the county indicate that the frost of last Tuesday evening has wrought more injury than was at first anticipated, and gardeners in the county are making preparations for the worst, as the ground is so hard and the frost has been so long in coming.

The four corps of the Toronto Military Training Association of North Toronto after an enforced delay of 12 weeks, in which they were unable to practice, are now ready to begin practice.

The annual meeting of the York County Beekeepers' Association will be held in Lorne Hall, Richmond Hill, on Saturday afternoon, May 22.

For the convenience of cottagers and other interested parties desiring to make arrangements for the summer at Bals and vicinity, the Canadian Pacific Railway will operate their train No. 25, leaving Toronto at 9:15 a.m. on Saturday, May 22, and Monday, May 24.

Commencing May 31, these trains will be operated daily, except Sunday, between Toronto and Sudbury, making close connection at Bals with steamer for Muskoka Lakes points.

FIRE CAUSES SERIOUS LOSS AT THREE RIVERS

Gres Falls Mill Totally Destroyed—Damage Hundred Thousand Dollars.

Special to The Toronto World. THREE RIVERS, May 14.—The Gres Falls Company Sawmill was destroyed by fire at 8 o'clock this evening, and is a total loss. The fire started in the sawmill, and the mill was all ready to start working about June 16, and it is a great loss to the company and the Three Rivers, as it was giving employment to 250 men all the summer months. The loss is estimated at \$100,000. The fire is under control now.

JURY COLLECT FUND FOR BASE HOSPITAL

Mr. Justice Lennox made an appeal to the jurymen doing service at the city hall in the assize court for funds for the University Base Hospital. His appeal resulted in these men turning over to him \$161. The grand jury contributed among them \$60, while Sheriff Mowat added \$10, and G. H. Nicol, clerk of assize, gave \$5, also did A. J. Lowry. The petty jury subscribed \$42, and the constables contributed \$19. The money has been forwarded to Miss Grant-McDonald by Mr. Justice Lennox.

COUNT BERNSTORFF WILL BE RECALLED

President Wilson to Make Demand When Appropriate Time Arrives. German Ambassador Has Out-lived His Usefulness in United States.

WASHINGTON, May 14.—President Wilson will ask for the recall of Count von Bernstorff, the German Ambassador, as soon as an appropriate time arrives. This was the construction placed on that part of President Wilson's note to the German Government, in which he referred to the recent advertisement published in the newspapers in Berlin concerning the Imperial German Embassy, in which he referred to the people of the United States through the Imperial German Embassy.

Displeased President. No other construction was placed on the president's words in Washington today. There was no concealing the belief that the German ambassador is now in readiness to depart, and the president that his usefulness in this country had come to an end. It is apparent however, that for the obvious purpose of not further irritating the president of the present time that President Wilson will continue to tolerate Count von Bernstorff. Just how long he will stay is not known, but the indication is clear that von Bernstorff will go as soon as some suitable time arrives demanding his departure.

BERNSTORFF MAKES RAPID FIRE DENIALS

German Ambassador Talks in Explosive Sentences After Conference. WASHINGTON, May 14.—"I have not received any instructions, I have not received anything, I have not heard anything, I don't know anything," said Count Bernstorff, after a conference with Counsellor Lansing at the state department.

"The German Ambassador has brought to our attention the fact that statements have been made in newspapers purporting to be made by members of the embassy staff, statements which were pure inventions. He asked us to warn the press against false statements about the embassy."

"At the same time the Queen Elizabeth was engaged in firing repeated broadsides on the slopes of the valley that runs across the peninsula, roughly from Gabastepe to the shores of the straits opposite Nagara. She must have done tremendous damage, for at times all the hillsides seemed one mass of burning shells. Shortly before 2 o'clock one of her shells caused a great explosion at a point a little above Nagara, but on the western side of the straits all day firing on and from the Asiatic side inland from the line drawn between Chanank and Erenkeui on a section of the straits seaward from the straits has been going on without cessation, and occasionally the Turks in Asia have landed a shell on the European side. The Turkish position beyond the straits appears to be a strong one.

between the United States and Britain, notably in the Wilhelmiana and Dactis instances, is a proof they are anxious not to allow antagonism to exist between themselves and America. I am perfectly aware they laugh at the military power of the United States, because they know that it is impossible in any circumstances for Americans to participate with the allies in the coming offensive, yet to my mind they cannot underrate the moral, and, above all, the financial power of the United States. Even taking into account their blood lust and military domination, I cannot see them adding such a terrific power to their present antagonisms. They must realize that to do so would make their downfall as certain as anything absolutely can be. Apart from naval considerations, they fully appreciate just as much as the French and British do the tremendous military potentialities of the United States.

Reasons for Peace

There are some reasons why we would rather not see the United States of America involved. Primarily, it means a stoppage of the work of Hoover's commission and millions of Belgians dying like flies. That, of course, would mean the lesser consideration being swallowed up by the greater. But one cannot get away from the note. It over and over anything it means that Germany has to climb down all round or else war. There can be no other meaning. No great nation would ever address such a note to a friendly power unless it intended to secure absolute compliance to its demands. On the other hand, Germany's acceptance means a moral defeat hundreds of times greater than all her material losses. My conviction is that she will use every ruse of diplomacy trying to ride off on a side issue or to escape a definite reply. She can afford neither war nor peace with the United States. The question remains in Germany clever enough to find a halfway-house.

"Certainly Ideal Life for a Lazy Man," Said Binkley in Last Letter

Noted Athlete, Killed in Action, Gave Interesting Sidelights on a Soldier's Work—Other Letters From Canadians Speak of the Thrills of Warfare.

Probably one of the most interesting letters yet received from the front was the last written by Ross Binkley, the noted athlete, who was killed by the same shell that killed his "pal" and superior officer, Mado Macdonald. This letter has just been received by his mother and it gives some inside views of soldiering.

"Bink," as he was popularly known by thousands of rugby followers, wrote about the life from a different angle. About actual fighting itself he said very little.

Except when on duty Lieut. Macdonald, who was in command of the 3rd Battalion machine gun section, and Pte. Ross Binkley did not recognize the rules laid down by military disciplinarians. Before the war broke out they were the best of pals, and it was only natural that "Bink" should join "Mado" Macdonald's suicide squad, as machine gun sections are dubbed. At Valenciennes, Salisbury and in France they were generally together and neither felt that he would return from the war. Both knew what they were up against and accepted the inevitable, fighting until the last.

One time at Salisbury, when the officer and private had gone from the camp for a few hours, Binkley left Mado Macdonald at one of the hotels while he himself went out shopping. Returning with a motor car to carry both back to camp, Binkley could not see his commanding officer for some little time. Finally Lieut. Macdonald was discovered talking to a couple of British colonels.

"Mado" shouted Binkley, forgetting for the moment that he should have said "Lieut. Macdonald," or "Mr. Macdonald." Then he yelled again. "Mado, the car's here," said Binkley, and then realizing his mistake, he murmured, "Beg pardon, sir," and withdrew. Macdonald and Binkley were inseparable pals and perhaps it is only natural that they should die together. Following is Ross Binkley's last letter: From a Maymow. "Dear Mother: What am I going to say and how am I going to say it? It is a most peculiar thing that since coming to France there has never been any period of time when I felt like writing, and as a result I have written only two letters. "When I wrote you last I expected that before now our machine guns would have been engaged in real action. We anticipated having some part in the Canadian division in an important advance movement, but while we have moved about 15 miles to another billet, nothing of such a nature has taken place, and we are now no wiser as to our future than we were then. "A Soldier's Life. "This life is most certainly the ideal one for a lazy man. Your meal is provided, your hour of retiring and arising is announced, your actions during the day are governed by rules that concern you not in the making. In fact, the only thing required of a soldier is that he obey orders. The one thing beyond parsonage is to think for yourself or to do anything on your own initiative. You are looked after as a cow or a horse is looked after, and in the eyes of the officers are regarded in much the same way. "You are merely a mechanical something that gets up, revolvers, answers to a name at roll call and responds to the day's orders without question or hesitation. The officer pulls the strings, and you are a puppet. "Going 'Somewhere.' "The morning may bring a German bullet or a route march or an inspection by General Somewhere or other, but the one necessary thing for you to do is to take heed for it. You don't know where you are going; you are simply on your way, and you don't know where you are when you arrive somewhere. You pass thru villages, before and of which you never heard the name of, and you don't know where you are, but you cannot pronounce. If the end of your march is a billet, you know it will be a barn and that your bed will be of hay or straw, one used before by other troops and as 'lousy' as a cuckoo, and

Toronto, were lying on the field either dead or wounded.

"I guess that if my wound doesn't soon get better they will send me to the base hospital in England. I don't want them to do this as it will take a long time to get back to the field. I think that the war will last at least two years.

"There seems to be millions of the Germans and it takes a long while to kill them off. I don't like to put it that way, but that seems to be the only thing that can be done with them, as they are nothing much more than a bunch of dogs. They kill women and children with great glee and then let us know about it, because I guess that they know that it will incense us all the more. We have been fighting with the French and the Turks. The latter are big black fellows, but they are crackerjack fighters and good fellows. We are treated royally in the hospital."

"Cause to Remember. "Sergt. Corderly of Princess Patricia writes: "We have been in the trenches for six days and nights, the longest time we have spent there since we came over here. I don't suppose we shall be relieved yet a while. However, I suppose we are safer here than we would be outside."

"The Germans have set fire to G—, and sprayed the trenches of the Turks with some corrosive fluid. The poor fellows came back blinded. I expect you will read all about it in the papers. The Germans will have a lot of things to answer for before very long. The Germans are being pushed away from the Canadians before this war is finished. British and French troops are being rushed up as fast as possible, and we are anxious waiting the result of this battle. If it goes awry, with the allies it will probably be the turning point of the war."

"Don't Notice Shells. "We are in the woods, and the Germans are only thirty yards away in some places. I wish they were one hundred miles away. If we could only get things moving and get them on the run it would help to finish this war all the quicker. The Germans are shelling the wood as I am writing this note, but we are going on as usual. It that we take very little notice. However, they generally do a lot of damage. I should like to see a little more artillery in action than there is at present. I have just heard that our men are driving the Germans back."

"Killed Women and Children. "In a letter from Hamilton, Ontario, Munro, 42 Plyater Crescent, writes of the terrible effect of big shells. "We got back in good quick order. We left after we saw the trench artillery retreat with shells flying all over and getting the horses as they ran. At first we went over to look round a town which had been shelled by German 'Jack Johnsons,' which are 17 inches in diameter. They cleared a number of British soldiers out who were killed there and a lot of women and children. One shell killed 39 soldiers. The people of the town were given orders to move out some time ago but would not do so. When the Germans came and shelled the town, the people went out with bundles and some only with shawls over their heads. It was a sad sight. That night we had to beat it. I was up town earlier in the evening and when we were about to go a Jack Johnson landed about 200 yards from us and we made ourselves scarce. Then our guns started some shells going over our heads, and when a German shell would come whistling over we would drop flat on the ground."

"Deadly Gases. "The Germans have a shell, which when exploded, throws out a deadly gas. One of the Cameron Highlanders told me that he had seen some soldiers in a trench who were victims of this gas. Some, he said, were in the act of eating a piece of bread, and others smoking cigarettes, sitting in a position as if alive. Another Highlander was kneeling down with his bayonet thru the body of a Prussian Guard, while another was in the act of having a hand-to-hand fight with one of the same regiment. This shell kills everything within 200 yards of where it explodes."

"Score's Clothes. "Score's (being anxious to illustrate the values (that are worth having) urge all young men to notice their ad on page 8."

"CHAS. L. WEISNER DEAD "Charles Leonard Weisner, 52 Russell Hill road, died very suddenly at his home yesterday. He was 52 years old, and is survived by his widow, two sons—Philip and Richard—and one daughter—Louise. Mr. Weisner was general manager of the National Fireproofing Company of Canada, Limited, Dominion Bank Building.

GRENADIERS CELEBRATE BATTLE OF BATOCHÉ

Over Ninety Officers and Sergeants Sat Down to Thirtieth Annual Dinner.

The 30th annual dinner of the 10th Royal Grenadier sergeants' mess, to celebrate the battle of Batoche of the Northwest-rebellion of 1885, was held last evening. Over 90 sergeants and officers and representatives of other corps sat down to a well-appointed table in their mess-rooms at 77 West Queen street. The finely decorated room presented a most attractive appearance. Numerous trophies of the Batoche and other campaigns adorned the walls.

Among the speakers were Mayor Church, Controller J. Thompson, Col. Mason, Col. Brock and Col. Wallace. Those present included: Staff-Sergt. Murdison of foreign mess, Buffalo; Sergt.-Major Creighton, Q.O.R.; Staff-Sergt. Stanforth, 8th M. H.; Sergt. Q. M.S.; J. S. Dymond, 109th Regiment; Sergt. E. H. Cuckoo, 91st, Hamilton; Sergt. Dick, 12th Royal Regiment, Hamilton; Sergt. G. Walton, R.C.D.

GERMANS IN U.S. BACK REPUBLIC?

Staats-Zeitung Says They Will Always Uphold Starry Flag.

OTHER PAPERS BITTER

German Organs in Cincinnati Give Lecture to Wilson Cabinet.

NEW YORK, May 14.—While the Staats-Zeitung, the most influential German paper in America, makes no editorial comment on President Wilson's note today, it has the following to say printed in English: "Nor is this the time to burden millions of the American people with unjust and unnecessary anguish of mind. The German-Americans must suffer in any conflict between the United States and Germany pains of which their fellow-citizens can never know anything. It is rather a time for showing them the greatest degree of consideration. They have fought to uphold the flag in the past and they will do so again, against any enemy whatsoever. They deserve the fruits of past loyalty, until they have forfeited the right to claim them. There has never been but one flag under which the German-American has fought. There never can be but one flag under which he will ever fight. And that flag is the Stars and Stripes."

Cincinnati Volksblatt: "The note is disappointing in that it disregards the just complaints of Germany and appears to espouse the cause of Great Britain. Unwillingly the president sheltered British cowardice, which tries to make British ships immune to German attacks by taking American passengers aboard." Cincinnati Free Press: "That part of the note dealing with the loss of lives in the Lusitania catastrophe more properly ought to have been directed to London. England alone is responsible for the Lusitania's destruction through her brutal threat to starve a nation. Germany cannot stop the undersea war without surrendering herself, bound hand and foot, to a brutal enemy. We are not obliged, and have no right, to set up ourselves as the protectors of British shipping."

AMERICAN PRESS UPHOLDS WILSON

President Has Taken Stand Worthy of Dignity of the United States.

WHAT WILL ENSUE?

Situation is Admitted to Be One of Extreme Tension.

NEW YORK, May 14.—President Wilson's note to Germany appears to have met, broadly speaking, the warm approbation of the press of the country.

A few typical comments are: Tribune: "President Wilson has drawn an indictment against the German nation which will lie for all ages to come if the kaiser's government fails now to meet the demands of the President of the United States promptly and completely." Vigorous, Also Dangerous. The American: "The president's letter is undeniably vigorous, but it is possibly dangerous as well. The nation desired that the rightful demands be laid before the German government, and that the president goes on practically to protest against the use of submarines by Germany in the war commencing." "This offers Germany the opportunity to retort that so far as we are concerned the method of her warfare against England is none of our business."

The Herald: "If Germany takes offense at the president's note it may declare war upon the United States if it wishes. On the other hand, if it does not, it will not fulfill the ideas of right as clearly expressed by President Wilson, then another bridge is crossed, because it will have been reached. And if another American ship is torpedoed, the only thing to be done will be to start the Atlantic fleet toward the war zone."

Germany's Way Out. The Times: "The president brings clearly into view Germany's way out. She may disavow acts of naval commanders which he with the greatest candor assumed to have been committed without orders or approval, and she is asked to prevent effectually the recurrence of such acts. It may be said that we have left to her a hard choice, but it is hard for her to disclaim the intent to carry on maritime warfare barbarously, in disregard of the laws of nations and humanity? Will the great German nation confess that it is resolved to carry on the unchristian and inhuman war? The choice is hard only if Germany makes it so."

The World: "President Wilson is courteous but with a cold, directness that gives added emphasis to every word." The Star: "The note is impeccably urban, eloquent and without a trace of its tone, friendly in spirit, resolute in its assertion of American rights and of the freedom of the seas."

LIEUT. BISHOP WOUNDED. BRANTFORD, May 14.—Lieut. Arthur Bishop, a Brantford boy with the Middlesex Regiment of England, was severely wounded at the front according to a cable received by his parents today.

OFFICIAL STATEMENTS

FRENCH "It has been raining without stopping since last morning. Last night, in spite of the handicap of a difficult and slippery terrain, we occupied several German positions in the southwest of Souchez, and we have maintained on the rest of the front from Loos to Arras all the gains recently made by us. "In the valley of the Aisne we yesterday destroyed four German blockhouses and leveled several trenches."

RUSSIAN "In the region of Shavil the fighting is developing under conditions favorable to us. Yesterday we took more than 1000 German prisoners and captured nine machine guns. "In western Galicia the intensity of the fighting lessened on May 10. "Our troops are concentrating gradually on the line of the River San, with the object of occupying a shorter front. "The Austrian army evacuated, on the 11th, a strongly fortified position extending from the Bistratza River to the Roumanian frontier. In length 140 versts (about 94 miles), and fell back precipitately on the 12th beyond the River Pruth. The enemy's cavalry, which was sacrificed in repeated charges to protect the general retreat, was dispersed by our fire. "Our cavalry divisions broke through the enemy's front at various points and by successful charges threw the enemy's columns, which were on the march, into disorder. Our vigorous pursuit of the enemy continues under conditions particularly favorable to us. The great number of prisoners we already have taken is being rapidly increased."

GERMAN "In the western arena: "Strong British attacks against our newly acquired front at Ypres yesterday failed with heavy losses to the enemy on the Menin-Ypres highroad we gained further territory in the direction of Hooge. "In the district southwest of Lille the enemy attacked yesterday in only a few places, and then after heavy preparatory artillery fire. All these attacks were repulsed. "In the Lorette Hills and to the north of Arras the day passed comparatively quietly, and there were no important attacks by the enemy. "Our losses during the capture of Carony by the enemy amounted to between 600 and 700 men. A further attempt on the part of the enemy to recapture from us a section of the trench we had taken to the northwest of Berry au Bac again resulted in failure. "Between the Meuse and the Moselle the advance of the enemy in the forest of La Prele broke down in front of our positions under our fire. "The occupants of a French biplane, which was forced to land at Hageno, were captured."

AUSTRIAN "The retreat of the enemy in Russian Poland continues, influencing also the sectors on the former Galicia front. "From the east of Piotrkow to the upper Vistula the retreating enemy is being pursued by the Teutonic allies under Weyrich and Danke. The allies' troops have gained a footing in the hilly district northeast of Kielce. "In mid-Galicia the Russians are retreating across the San before the vanguards of the army under Generals Borowitch and Von Boehm-Ermall. Our troops have reached the heights southwest of Dobromil, Stryl and Sambor. Allied troops under General Linsinger are advancing across Turka and Skole and joining the general advance. "The battle in south Galicia continues. Strong Russian forces have advanced across Olsztyn to the north of Snietyn and Mahada."

CANADIAN SOLDIERS TO HAVE FRANCHISE King George Issues Proclamation Putting Into Effect Sections of Act of Parliament.

Canadian Associated Press Cable. LONDON, May 14.—The London Gazette contains a proclamation by King George V. bringing into force two sections of the Act of Parliament of Canada which will enable Canadian soldiers on active service during the present war to exercise their electoral franchise.

The proclamation recites sections two and three of the act, which makes provision for the distribution of ballot papers to the Canadian soldiers and for their return by military officers to the returning officers of the electoral districts in Canada in which an election is to be held.

EARLSCOURT SOLDIER REPORTED AS MISSING Wife of Pte. John Alexander Page Received Notification From Ottawa Yesterday.

Mrs. J. A. Page, 158 Ascot avenue, Earls Court, wife of Pte. John Alexander Page, has received official notification that her husband is reported missing.

Mr. Page is a private in the 3rd Battalion Royal Grenadiers, the Canadian overseas contingent, and enlisted during the early stages of the war, coming to Canada from Belfast, Ireland, 16 years ago. He worked at his business as picture frame maker for a number of years at Turwell's photographic works, Bay street, Toronto. He is 32 years of age and has two small children.

In his last letter to his wife he says: "I am working at the base loading trucks at present. We are stepping in a bit now for from the firing line and previous to my present job I was attached to the garrison military police."

Issue Made Clear. Providence (R.I.) Journal: It the very and not far from the firing line and previous to my present job I was attached to the garrison military police. "It is the love of liberty confronting the lust of power." Duluth (Minn.) Herald: "Behind these firm the courteous demands this nation cannot afford to let any nation in the world think for a moment its interests can be lightly regarded with impunity. Manifestly it is the purpose of the president to leave no room for doubt on that point."

FIND MORE BODIES FROM LUSITANIA

One Was Remains of Young Toronto Bride, Married Few Days.

OTHERS IDENTIFIED

Those Drowned Included British Explorer and American Shipbuilder.

QUEENSTOWN, May 14.—Twenty-eight bodies of victims of the Lusitania were landed here tonight by a British torpedo boat and the tug Stormcock. Among them was the body of a beautiful young woman, whose wedding ring showed that she had been married only two days before the Lusitania sailed. Letters found in her body indicated that her maiden name was Anna Hill and that she resided at 18 Farnham avenue, Toronto. Several of the bodies were identified, among them those of Commander J. Foster Stackhouse, the British explorer, and A. L. Hopkins, president of the Newport News Shipbuilding Co.

PTE. GEORGE FRANCIS REPORTED AS MISSING

Wife Received Official Notification From Ottawa—Expected to Be Home Soon.

"Sincerely regret to inform you that 10,120, Pte. George Francis, 3rd Battalion, Q.O.R., officially reported missing. Further particulars when received will be sent you. Adjutant-General."

Such was the cable received from the military department at Ottawa yesterday by Mrs. George Francis, 18 Harvie avenue, Earls Court. Mr. Francis is 27 years of age, and has one little daughter, Gwendie, aged two years. They came to Canada four years ago from Shrewsbury, Shropshire, England, and Mr. Francis has worked most of that time in the Canada Foundry Works at Davenport. He enlisted at the commencement of the war, and in all his letters to his wife he wrote in a cheerful manner and expected to be home soon.

SHORTAGE OF COAL IN SPAIN CAUSES CONCERN

Cabinet Will Guarantee Payment for Orders Placed in the United States.

MADRID, May 14.—The Spanish Government is so much concerned over the scarcity of coal that the cabinet is willing to guarantee the payment of orders placed in the United States by opening a credit in New York to the amount of at least 1,000,000 pesetas (\$200,000). This deposit will be maintained so long as necessary.

The object of the government is specially to enable smaller concerns, those least known in the financial world, to have their American orders filled promptly. The cash thus deposited is to be used only in the event of purchasers failing to pay.

Something like a coal famine exists throughout Spain, and large orders are being placed in the United States by Spanish companies. A royal decree promulgated today suspends the import duties on coal and the transport taxes which were discriminatory against America.

A Live Sporting Club Formed in Old Quebec

QUEBEC, May 13.—A sporting club, such as the large cities of Canada and the United States boast of, at which boxing bouts will be staged for the benefit of its members, has been launched in this city, the organization, which will be known as La Societe de Sport de Quebec, having been duly incorporated.

The directors include Messrs. Napoleon Laviole, Arthur Paquet, Raoul Bergevin, Ernest Gagnon and Arthur Drapeau. The purposes of the association are to promote athletics and sport in the Province of Quebec and elsewhere, and towards that end, to hold athletic exhibitions, tournaments and contests in all and every kind of sport and athletic plays, and in connection with these exhibitions, tournaments and contests, to give various shows for the public amusement.

To buy, lease, acquire, own, manage, repair and maintain all property, buildings which the company may require for the above purposes. To enact rules and bylaws relating to the internal management of the company's business, to amend, repeal and alter same at any time, and to do all such things as may be possible for the company to attain the above objects or any of them or objects resulting therefrom, under the name of "La Societe de Sport de Quebec, Limitee," with a capital stock of five thousand dollars (\$5000) divided into two thousand and five hundred (2500) shares of two dollars (\$2) each.

Boxing, wrestling and other athletic exhibitions will be held in the Princess Theatre. The first entertainment will take place on the 25th inst. Over a thousand spectators were at the armories last night to see the 48th Highlanders drill and to listen to the inspiring band concerts given by the brass and pipe bands. Drill was carried on under command of Col. Duncan Donald. There were 25 men on parade and a march-out was held. Forty new members were sworn in last night.

Germany has as free access to British ports as Britain herself. This ideal of freedom is one thing which Germany, with the selfish lust of possession, could never understand.

It is true that British self-governing dominions did not insist on the same freedom that the mother country did in dealing with commerce...

Germany never seems to have understood that prosperity cannot be monopolized. Had the Kaiser been willing to go partnerships with the rest of mankind there had been no world-war.

COURT REVERSES USURER'S HOLD

Bought Thirty-Thousand Dollar Estate for One Thousand Dollars.

FRAUD WAS PRACTICED

Edward Gallow Induced Broken Down Man to Sacrifice Property.

That a money lender influenced the legatee of a \$30,000 estate to sign an agreement relinquishing all right to the property for \$1000 is alleged in a judgment handed out yesterday at Osgoode Hall by Mr. Justice Clute in the action of John D. Hamilton, and Guardian Trust Company, committee of the estate of the late John D. Hamilton, against Edward Gallow and Oser Wade, assignee for the creditors.

Hamilton is sole beneficiary under his father's will and is entitled to the full income of the estate, subject to the payment of \$400 per annum to his step-mother. The estate consists of 110 shares in the Bell Telephone Company, par value \$100, 64 shares of company stock in Mackay Company, 128 shares of preferred stock in the Mackay Company of par value and 5 shares in the Western Assurance Company, par value \$20 per share. The yearly income has always been \$1700.

For some years prior to the agreement in question the plaintiff borrowed sums at a high rate of interest from Gallow, and repaid them by borrowing on his interest in the estate. In September, 1910, the estate had a value of \$30,000 and the plaintiff, who was a nervous wreck due to excessive drinking, desired to obtain \$1,000 to enable him to take a trip to California to recover his health.

Mr. Justice Clute finds that the defendant Gallow was well aware of the plaintiff's condition and knew of his temperate habits; and further finds that the agreements are fraudulent and void and should be cancelled. It was agreed by opposing counsel that if the verdict went against the defendant the sums advanced to the plaintiff should be fixed at \$1331.

The second division appellate court dismissed the appeal of the Toronto Railway Company against a verdict awarding Charlotte Deed \$1000 damages for injuries sustained in a collision with a street car at the corner of King and Dufferin streets.

The same court disposed of two other appeals, one of which was by Fred Woods against the decision of Judge Denton, awarding Pringle and Randall \$120 in their action for commission on the sale of property in the west end of the city. The defendants contended that Rev. Bertram Wetherall, pastor of the vendor had been consulted as an agent in the transaction, but Mr. Wetherall stated that he had not regarded it in that way. The appeal was dismissed.

The other was an appeal by Horace L. Enman from the finding of the trial court dismissing his action against Lewis Grossman for \$1000, which he alleged that the defendant had stated that he, Enman, had made an assignment, thus doing him financial injury. The court confirmed the verdict.

Chancellor Boyd granted an enlargement for one week to enable the parties to reach an adjustment in the application of R. C. Orchard for the custody of his four-year-old daughter, Edith Frances Orchard, who is at present with her grandparents, Mr. and Mrs. M. T. Lester, 71 Heath street. The mother of the child died last month. List for Monday.

The second division court list for Monday is: Reume v. Windsor, Bailfour v. Bell Telephone Co., Pewtess v. Thompson, Chapman v. Chapinann, McDonald v. Devon Lumber Co.

CUT OFF LICENSES IN GERMAN CLUBS

Quick Action Taken by Provincial License Board Yesterday.

MUCH PUBLIC FEELING

Board Declares That Conditions Demand Removal of Privileges.

The Ontario License Board has made a policy of granting no new licenses in the province this year. In cases where retiring local boards have sanctioned the opening of new places for other tavern or shop sale little hope can be held that the licenses will be issued. Chairman Flavelle stating yesterday that they had established their policy in this regard. In the same connection announcement was made that the license of two German clubs in this city had been canceled during the period of hostilities, although negotiations for their opening would be received after the war had ended. Argument was heard before the board on behalf of both the Lieberkrantz and Deutsche Verein clubs, although in neither case did the representatives plead strenuously for a continuance of their licenses. The point they endeavored to make was that in both cases the buildings were being closed for the period, and that the purpose of the license board would be as well served by allowing the licenses to stand, as by canceling them. In this view the granting of privileges after peace had been declared would be unnecessary, and their chances would not be prejudicial whatever.

Lieberkrantz Losses. The position of the commissioners was that the temper of the public at the present time demanded the cancellation of the license of the Lieberkrantz club, and that a discussion as to the merits had been made after a private consideration. In appearing for the Lieberkrantz J. W. Bain stated that he would hardly call the club German in nature. Of the 157 shareholders 37 were Canadian-born, 73 were naturalized British subjects, and only 47 were actual Germans. Of the 1083 members only 21 were Germans. He stated that the club membership was of the opinion that all the Germans in it should be excluded. He was not opposing cancellation, but argued for holding the license in abeyance.

"We don't want to excite public opinion," said Mr. Flavelle, "and we think it desirable that the license be cancelled now, and if necessary be reconsidered at the end of the war. But we make no pledge as to our future action. The department could return the unused portion of the license." The action of the commission in the case of both clubs was received with good feeling, and the judgment will be acted on at once.

OVERTIME VICTORY FOR CLYMER'S BOYS

Cuban League Scored the Winning Run in the Tenth—Cook Made Good.

Special to The Toronto World.
NEWARK, N.J., May 14.—By taking today's game 2 to 1 after ten innings, the Toronto Maple Leafs got the jump on the Newark Redskins in the lid-lifting contest of the series, which will continue with a game on "Henry Smith Day" tomorrow and a doubleheader Sunday.
Newark's entire populace did not take the afternoon to witness the contest, but about 100 citizens, many of whom succeeded in corraling free passes from city officials and bill-posting clerks journeyed to Wiedenmayer's Park to spend the afternoon. Over in Harrison, where the Newark Federal League club has entrenched itself for baseball war on the International, a crowd of more than 1000 gathered. The small crowd at the Indians' park today is in keeping with the average week-day attendance.
Altho Newark broke into the game with a run in the opening round, the Leafs kept steadily after Johnny Enzmann and beamed him for the tying tally in the sixth, later putting over the winning counter in the tenth. Brown's wonderful return of Wittner's long drive in the first inning, on which Mowe scored with the Indians' only tally, cut off Tooley, who was thundering homeward, Graham, after singling to left and being boosted to third by Brown's single, scored later on Heckinger's error.
The winning run was brought in by the Cuban League, after a good deal of fancy work on the part of the Indians, who went wild about the work of picking Luque and Kelly off the socks.

LEAFS HOME ON MONDAY.

Only two more days and the International baseball season will open at the island with Jack Dunn's Richmond Club playing the Leafs here on Monday at the stadium at 2.15. Herbert and Jack Kelly are the only two members of last year's team on the present aggregation, and as it takes some time for team play to be worked up on a ball club, especially among a collection of players who have not played together before, the fans must give them a chance to show before passing judgment. McGuire has shown all the earmarks of a grand twirler this year, while Cook showed good form yesterday. Then there is Herbert, Coehran, Luque and Blancko to hear from. The reserve seat plan is at 35 West King street.

HUGHES BLEW UP CARDS BEAT CHAMPS

St. Louis Scored Five Runs in Ninth and Nosed Out Boston.

At Boston.—Held to two hits and without runs for eight innings, St. Louis in the ninth overcame Boston's lead and won, 5 to 4. Five singles, an error by Maranville when a double play, which would have retired the side without score, was possible, and two misplays by Cather, contributed to the visitors' string. Hughes batted hard. He knocked the ball into centrefield for a home run, and again rapped it for a double against a sign on the leftfield fence offering \$25 for any ball striking it. Score: R.H.E. St. Louis.....0 0 0 0 0 0 5-5 7 2 Boston.....1 0 0 1 2 0 0-4 5 4 Batteries—Saltee, Robinson, Griner and Snyder and Gonzalez; Hughes and Gowdy.

At New York.—The New York Nationals made it three out of four from Cincinnati, winning the last game of the series by a score of 3 to 1. Toronto pitched a steady game for New York while the Giants bunched hits on Lear. Score: R.H.E. Cincinnati.....0 0 0 0 0 0 1-1 0 1 New York.....0 0 2 0 1 0 0-3 7 3 Batteries—Brown, Lear and Clarke and Wingo; Torreau and Meyers.

At Brooklyn.—Chicago made 23 hits for a total of 35 bases off three Brooklyn pitchers, and won by 19 to 4, the season's record score for Ebbets' Field. Twelve Cubs went to bat in the second and hammered out eight runs off six singles and two triples. Williams hit to deep left for a home run in the ninth. The score: R.H.E. Chicago.....2 8 5 0 2 0 1-19 23 1 Brooklyn.....0 0 0 2 0 0 1-4 10 6 Batteries—Strandridge and Breannah and Harrave; Aichison, Cadore, Appleton and McCarty and M. Wheat.

At Philadelphia.—Philadelphia overcame a lead of 3 runs, which were secured by Pittsburg on errors, and won yesterday's game by hard hitting in the seventh and eighth innings. The score was 5 to 3. Score: R.H.E. Philadelphia.....3 0 1 0 0 0 0-3 7 1 Pittsburg.....3 0 1 0 0 0 2-3 12 1 Batteries—Mamaux, Adams and Schang; Chambers, Rixey, Mayer and Killifer.

TO THE PEERLESS PRESIDENT.

President Barrow of the International League, Joe Kelley, scout for the Yankees, and Sammie Lichtenstein of Montreal, are among the latest to wire their acceptance of invitations to attend the banquet on Monday night at President McCaffery of the Toronto Ball Club. The Ontario cabinet will be represented by one or more of the ministers. Sir Alan Aylesworth will also be present, as will a number of other citizens. The affair promises to develop into an evening of surprises. A genuine sensation is promised the guests of honor, and those present may confidently look forward to one of the most enjoyable functions of the kind ever extended to a local devotee of sport.

ONTARIO AMATEUR LACROSSE GAMES

Schedules Drawn Up for the City Groups—Practices Today.

Young Torontonians alone responded to the call of a meeting of city clubs at the L'roquois last night. Maitland, Weston and Iroquois have dropped out. Young Toronto will play off with Brampton and St. Catharines for the Globe shield, the schedule for No. 1 being as follows:
June 12—Young Toronto at St. Catharines.
June 26—St. Catharines at Young Toronto.
July 1—Young Toronto at Brampton.
July 15—St. Catharines at Brampton.
July 29—Brampton at Young Toronto.
Aug. 12—Brampton at St. Catharines.
Convenor—W. L. Tegar. Representatives—Young Toronto, W. McArthur; Brampton, T. Henry; St. Catharines, Frank Dixon.

BEACHES LACROSSE CLUB.
The Beaches Lacrosse Club's Junior and Intermediate O.A.L.A. teams will practice at Scarborough Beach on Saturday of this week at 8.30 when all last year's players and any new ones desirous of joining a fast junior team are earnestly requested to turn out.

ROSEDALE LACROSSE NOTES.
The first practice of the Rosedale will be held this afternoon at the north and ground. Every player is requested to be out early.
Rosedale looks to have the strongest defence of the two-city clubs, with Holmes, Hawkins, Yeaman, Ben Green and Braden and the Indian home will have some trouble to get made.
The home of the Rosedale looks to be a weak spot. Should Warwick and Dandera be called to play, the team will be well balanced.
Fete Barnett, Joe Green, and Barber will round out a pretty strong field for the northenders.
Geo. Kalls, the clever little home player from St. Catharines, has not decided to play. He may, however, be seen with the Rosedales against Tecumseh on the holiday.

HEAVY HITTING IN THE FEDERAL

At Baltimore.—Brooklyn defeated Baltimore yesterday afternoon 12 to 4. Quinn retired the first 12 men in order. In the fifth and sixth innings the entire team batted and Quinn was relieved after the first three men in the seventh hit safely. Score: R.H.E. Baltimore.....0 0 0 4 6 2 0-12 16 Brooklyn.....1 0 1 0 0 0 1-4 7 2 Batteries—McConnell and Wilson; Allen and Berry.

At Buffalo.—Buffalo lost their fifth straight game yesterday when Newark won 5 to 1. Schulz's wildness and errors by the infield in the pinches threw away the game. Score: Newark.....0 0 0 0 0 1-5 7 3 Buffalo.....0 0 0 0 0 0-0 5 1 Batteries—Moseley and Ruden; Schulz, Anderson and Allen.

At Pittsburg.—A pitchers' duel between McConnell and Allen ended in the ninth inning when the Pittsburg twirler went to pieces and Chicago made six runs, winning the game 6 to 0. McConnell had the local batters at his mercy all the way. Score: R.H.E. Chicago.....0 0 0 0 0 0 6-6 9 1 Pittsburg.....0 0 0 0 0 0-0 5 1 Batteries—McConnell and Wilson; Allen and Berry.

ROYALS BEAT THE LEAGUE LEADERS

At Providence.—Montreal beat Providence 3 to 1, chiefly thru McGraynor's fine pitching, the Grays being held to two hits. Score: R.H.E. Montreal.....0 2 0 0 0 1-3 6 1 Providence.....0 0 0 0 0 0-1 2 2 Batteries—McGraynor and Howley; Cooper and Haley.

At Richmond.—In a loosely played game Richmond beat Rochester 7 to 6. Errors played an important part in the scoring. Score: R.H.E. Rochester.....2 0 0 2 1 0 1-6 7 2 Richmond.....0 1 0 0 4 0 2-7 7 4 Batteries—Huenke, Palmero and Williams; Andrews, Harper, Russell, Schaurie and Kritchell.

At Jersey City.—Buffalo shut out Jersey City 3 to 0. Bader held the Skeeters safe at all times. Score: R.H.E. Buffalo.....1 0 0 0 0 0 1-2 5 1 Jersey City.....0 0 0 0 0 0-0 8 1 Batteries—Bader and Casey; Terhout, Sherman and Reynolds.

KNOTTY'S LEAFS WIN.
GUELPH, May 14.—Niagara University ball team played an exhibition game with Knotty Lee's Maple Leafs this afternoon and were defeated by 6 to 1 in a well-played game before a small crowd. Kirby and Garney did the pitching for the Leafs and performed in good style, while Sheridan of the Collegians also pitched well. The Leafs are fast rounding into shape and will be ready for the bell next Wednesday against the Ottawa champions.
Marty Killilea, the Leafs' regular second baseman, reported to Manager Lee tonight and Red Fisher is expected to be at any time. Both players are in good shape to start the season. Lee is after one more pitcher with experience and he will then be well fortified in all positions. He expects to use a few tin cans the first of the week. Score: R.H.E. Niagara Univ.....0 0 0 0 0 1 0-6 1 1 Buffalo.....3 0 0 0 0 2 0-6 1 1 Niagara Univ.....0 0 0 0 0 1 0-6 1 1 Batteries—Kirby and Garney; Jordan; Sheridan and Brennock; Umple—J. Cookman.

On Thursday evening, at Riverdale Park, Queen's Park Junior F.C. and Bell Telephone F.C. met in a friendly game, the outcome being a 2-1 victory for the Bell Telephone. The first half was in favor of the juniors, who opened the scoring thru Bray in the first five minutes of the game. The Bell Telephone equalized towards half-time, and scored the winning goal three minutes from whole time. Murray, in goal for the juniors, gave a fine display of goal-keeping. The backs were always there when wanted, and Chester played a sound game. Murray and Boover played a fine combination on the left wing, being backed up by Race, Giffen, Bray and Goodwin played a good game in the first half, but fell off towards the end of the game.

Dunlop Athletic Association are to be commended in closing only the entrance fee to cup tie games played on their ground. We are convinced the attendance will justify such a decision.

All signed players of the Hlawatha F.C. are requested to be on hand for a practice game with the Sons of Scotland cup tie game.

RAIL BIRDS WATCH WORK AT WOODBINE

Biggest Crowd of Year—Lady Curzon Full of Running—Trial Summary.

Probably the largest crowd of railbirds that has visited the Woodbine this spring to watch the horses getting their prize at the race meet, which commences a week from today, was at the course yesterday morning.

The jockeys, Lady Curzon, Beau Cheval and O'Brien, were given their first work since their arrival at the track. Lady Curzon, accompanied by the four-year-old, Beau Cheval, broke from the barrier and covered three-eighths in 37.4, and a half in 1:16.2, and the mile in 1:45.2.

King's Plate Favorite And Owner Krausmann

William Krausmann owns Hampton King, at present popular choice for the King's Plate, to be decided next Saturday at Woodbine Park.

TORONTO BUSINESS OUTLOOK IS GOOD Manufacturers and Wholesalers Speak Hopefully of Conditions. LEATHER IN DEMAND Embargo on Wool Exports Will Work Out to Advantage.

Toronto reports to Bradstreet's say that manufacturers and wholesalers speak optimistically of business, not merely of the future, but of the present. Some there are who claim that this spring trade has not been equal in volume to last spring, some dry goods and hardware firms being among this class, while other dry goods men, leather and boot and shoe concerns as well as grocers, state that trade has been better than last year with them. An order for 60,000 shoes of good quality has been distributed in Ontario by the Federal Government and arrangements are being made for an order for the Russian Government of 2,000,000 pairs of shoes of a cheaper grade, also for Ontario concerns. Leather dealers are excessively busy. War orders in hands of, and coming to all industries interested in leather, and leather goods are more than making up for lack of ordinary orders from the trade. In this way they are able to stand indifferent to the trade that does not pay up. They are not losing ground, and their financial position is improving every day, as back accounts are paid. This touches every institution that has plenty of war orders.

Break in Wool Prices. Wool prices declined, 4 cents to 10 cents per pound at the close of last week, following the embargo on wool from Canada, except to nations of British connection. This was done for a purpose, for the wool of a Canadian farmer will be needed, and disinterested authorities promise better prices than are quoted at the moment. Some dry goods houses are doing more than last year, others are doing a little less. Deliveries from abroad are slow and rates are increasing. The trade will have to turn to home mills for supplies. In ladies' dress goods, plain blue and gray patterns are in demand, and in men's goods, worsteds and wools are especially popular. Stocks at big wholesale houses are getting low in the popular lines. Building materials are moving very slowly from wholesale houses, but spring and summer goods are going fairly well. Grocery trade still business about normal, but bad accounts are more numerous than a year ago. Cheese advanced 4 cent in a tight market. Butter is easy, but rates are getting low. Dressed meats advanced, a cent per pound and butcher cattle were up 25c per hundredweight over last week.

GENERAL WEAKNESS IN MONTREAL STOCKS Business Light With Buyers Showing Disposition to Hold Off. MONTREAL, May 14.—Prices sagged in all directions on the stock exchange today, but business was again so light and tentative that a market of the time had the appearance of being stagnant rather than heavy or weak. Interest on the buying side has died away, and there is more than nominal amount of stock on the market from sellers. The little advance in prices, however, is sufficient to give a downward trend to prices. If prices have been displaying anything that could be called a trend just now, it is the three stocks, Bridge, Iron and Steel, and the National Bank, which are showing a slight upward movement. The National Bank is up 1/2 cent, Bridge 1/2 cent and Steel 3/4 cent. The latter is up 1/2 cent. The National Bank is up 1/2 cent, Bridge 1/2 cent and Steel 3/4 cent. The latter is up 1/2 cent.

Red Cross Society Suggests This as a Better Way to Celebrate Empire Day. A circular which says in part as follows is to go to all the schools and Sunday Schools in Ontario, and every one is asked to co-operate enthusiastically with the suggestions: "Who feels inclined to spend money in toy crackers, while our soldiers are lying wounded with shrapnel? Who would wave flags for fun, now that the world means so much more for us? How would you boys and girls like to celebrate by sending hand-knit socks to the soldiers? Forty cents buys enough wool to make a pair. The committee of the Ontario Red Cross Sock Fund sends wool to women all over the province, who make it into socks, and offer in their turn a gift to the soldiers. The socks will be sent to France and will be marked 'Empire Day Socks from the Boys and Girls of Canada.' A corollary to the above is the proposition that the graves of the soldiers which are usually decorated with hot-house flowers on Empire Day be this year decked with the hand-picked wild flowers and home-made wreaths of the children, and that the money annually brought for the flowers be collected as usual, but diverted to the channel of increasing the fund, which goes to the purchase of soldiers' socks. Teachers are especially asked to enter warmly into the project.

GERMAN SUBMARINE RAMMED AND SUNK? BRITISH SKIPPER BELIEVES HE ACCOUNTED FOR CRAFT IN NORTH SEA. BLYTH, Eng., May 14.—A German submarine is reported to have been sunk in the North Sea. The captain of the steamer Collairine on reaching port today stated that his vessel apparently had destroyed the submarine by running it down on the Northumberland coast. No submarine was seen, but the captain said his ship struck a submerged obstacle. A large quantity of oil subsequently appeared on the surface, and the conclusion was drawn that a submarine had been run down. Presentation to Soldier Teacher. The staff of Dufferin School gave a mid-day luncheon at the school yesterday in honor of one of the teachers, A. W. Archibald, who is going with the third contingent as a member of the machine gun section. Mr. Archibald was presented with a wrist watch by his fellow teachers, while G. H. Armstrong gave him a compass.

FRENCH TRADE SHOWS A NATURAL SHRINKAGE Virtually Whole Reduction Stated to Be in War Materials.

MAKE SOCKS INSTEAD OF FIRE CRACKERS. PARIS, May 14.—The value of imports of France during the first quarter of 1915 was less by \$183,400,000 than in the corresponding quarter of 1914. Exports diminished \$258,000,000. Virtually the whole of the reduction was in raw materials. Imports of manufactured articles increased during the first quarter \$27,800,000. The figures for April show that imports of manufactured goods increased to the amount of \$20,200,000 over April of last year. There was an increase of \$1,000,000 in foodstuffs. April exports were lower by \$64,400,000.

WALL STREET IS CLOSE TO PANIC

Fear of War With Germany Caused Another Severe Break.

WEAKEST AT CLOSE

Losses Ran From Three to Ten Points on Moderate Dealings.

NEW YORK, May 14.—Anxiety over the outcome of the international situation, more particularly the tense relations between this country and Germany, was the all-pervading feature of today's stock market. Prices fell three to five points in the representative group and five to ten points in those issues which have come to be designated as "war stocks." Lowest quotations were made in the final hour, with only the most meagre recoveries. Some comfort was extracted from the fact that selling was at all times moderate and unattended by any of the excitement which accompanied recent declines. To what extent actual liquidation figured in the day's operations is necessarily a debatable question, but selling for the short account was frequently in evidence.

Extreme caution urged. Actual news developments so far as they affected domestic conditions, were mostly favorable, but these elements were overshadowed by the restraint which affected all circles. Bankers and other substantial interests commonly assumed to be in close touch with all phases of the foreign situation, counseled extreme caution. To such an extent was this policy observed that the more conservative brokers were not only advised their clients to close out speculative accounts, but in some instances refused to engage in new purchases of this character except for cash.

Unloading difficult. One plausible reason advanced in explanation of the day's moderate business was that large amounts of stock could not have been disposed of without serious depression of the market. It was regarded as significant also that banks were scaling down values of special stocks offered in loans. In line with this attitude a firm tone was noted for all long-time maturities, even the call money was in free supply. Total sales of stocks amounted to 120,000 shares, and the foreign and Italian remittances were unchanged from their recent low figures.

Domestic bank earnings made favorable comparison with a year ago, and banks gaining decidedly over this period of the past two years. Bonds were weak, with total sales, par value, \$2,800,000. United States and Panama bonds declined from 1/4 to 1/2 cent on call.

TOWN OF TIMMINS' RAPID PROGRESS

Increased Pay Roll of Canadian Mining Company Helped Swell Town.

BUILDING NEW ROADS

Graveled Highway Will Run Many Miles Direct to Dome Mines.

The large and constantly increasing payroll of the Canadian Mining and Finance Company has resulted in very marked progress at the Town of Timmins during the past year. In fact it is the most lively burg in all Canada. It is owned by the company named, and is also managed by the Hollinger and owners of 51 per cent of its stock, as well as owners of the Miller and some Mines. In conjunction with the municipal authorities of Tisdale Township this company is now building a wide well gravelled highway from Timmins direct to the Dome mines, a distance of 2 1/2 miles. This road will cross the Millerton, Porcupine, North Thompson, Vipond, Porcupine, Nipissing, Apex and West Dome roads. From the Dome to South Porcupine there is already a first-class driveway, and in a short time automobiles and vehicles of all kinds will be able to run direct to Timmins by the new road passing thru the very centre of the miller belt and following in a general line the line between the first and second concessions of Tisdale.

Lack of Transport. The present wagon road is about a mile north, and outside of the miller belt, and consequently out of close touch with the working mines. The T. & N.O. Railway runs between the two roads as far as Timmins, but in future, travel, except by the railway, will be thru the central miller belt, and outside of the miller belt, and consequently out of close touch with the working mines. Those who wish to travel between the two roads as far as Timmins, but in future, travel, except by the railway, will be thru the central miller belt, and outside of the miller belt, and consequently out of close touch with the working mines.

At the Dome there is a "glory hole" 25x300 feet, which is now being blasted down to level. The ore from this is being hauled to the mill without sorting or selection, so it is mainly schist or country rock. Nevertheless, the present 80-stamp mill is about to be enlarged. It is absolutely profitable. In the interior no wood or combustible material of any kind can be procured. In fact, there is nothing but pillars and beams of massive machinery in constant motion. In point of efficiency this mill cannot be surpassed. No expense has been spared and no recent improvement disregarded in its construction.

In reviewing the operations at Porcupine during the past five years it is apparent that the ore bodies go to great depths. In fact it is now generally believed that the camp will live thru many decades and eventually become the most productive on the continent.

REGULAR DIVIDEND.

General Electric Company has declared the regular quarterly dividend of two per cent.

Dr. Chase's Ointment Proved to Be a Permanent Cure.

The old idea of eczema being a disease of the blood has been pretty well exploded by the record of cures made by Dr. Chase's Ointment.

Some doctors still advise internal treatment, but the results are slow and uncertain, and too often a lamentable failure. With Dr. Chase's Ointment it is different. You apply the ointment to the sore parts. It cleanses the sores and soon sets up the healing process.

"Since then we have always kept Dr. Chase's Ointment in the house, and find it invaluable for chafing, chilblains, insect stings and burns. I would not be without it if it cost \$5 a box."

It is wise to look after your general health, keep the bowels regular and the blood rich, but you can depend on Dr. Chase's Ointment to cure the eczema if you will do your part and apply it regularly.

Mr. W. H. Roberts, Charlottetown, P.E.I., writes: "I can recommend Dr. Chase's Ointment to anyone suffering from itching skin disease. I had eczema on my leg and suffered terribly from the itching. I had a doctor treat me for four months without relief, and I was getting worse all the time. A second doctor gave some relief for a time, but made no cure. I tried several advertised treatments, but without relief until I used Dr. Chase's Ointment. This ointment cured me in a month. That was twelve years ago, and I have never had a sign of the old trouble since."

Dr. Chase's Ointment, 60 cents a box, all the drug stores, Edmondson, Bates & Co., Limited, Toronto.

Another Shipment of Clothing for Belgium

All Supplies Should Be in Hand by Friday Next - Food Wanted.

There will be a shipment of clothing for Belgium relief from 84 Bay street on Saturday, May 22, and it is most necessary that all supplies be in by May 21 as this will be the last shipment for some time.

The response to the appeal for clothing for Belgium has been so generous from all quarters there is now sufficient for some months.

Food is, however, very urgently required in daily increasing quantities, and a strong appeal comes from the Central Relief Commission for funds for the purchase of wheat and condensed milk which are most essential.

The Belgian relief committee at 94 Bay street will continue to receive contributions of money and foodstuffs that are easily transported, but no more clothing should be sent after May 21, till further notice.

Investive Genius Is Born of a Vigorous Brain.

Dear Sir—This free offer will interest you, just as it is interesting to me. I believe I may be able to help you in some way.

There is a new way to get in line for the self-restoration of your health and strength, and for the self-recovery of that element generally supposed to belong to youth, but which in reality should be a natural part of every healthy, vigorous person throughout life.

My dear reader, is the night and glorious power which you can obtain from this Electro-Muscular, and tell you what it will cost for a thorough test. If you live in or near this city, I should be pleased to have you call and get a free demonstration of the vitalizer, otherwise write. Yours very truly, RANDY Author.
