39TH YEAR—ISSUE NO. 14,227 TWO CENTS

International Labor Mobilizing for Great Industrial Battle Comons Formally Approves Treaty of Peace With Austria

ATTORNEY-GENERAL RECEIVES PROOFS FROM LEAGUERS

Meanwhile Majority Figures for Prohibition Continue to Arrive.

As each outlying constituency is heard from the majority in favor of a dry Ontario is increasing with monotonous regularity. It was factually stated by referendum headquarters that the adding machine in use by the prohibitionists broke down under the heavy strain of negative totals, and the fact that no more totals or estimated totals will be issued by the committee until the final official returns are published seems to provide proof of the accident.

There are no further developments in the Liberty League plea for a recount, and Rev. Ben Spence yesterday would give no information as to the course the Dominion Alliance would pursue in the event of the recount being authorized. Proofs of alleged misstatements and irregularities have been compiled by the Liberty League and presented to the attorney-general. Meanwhile official returns are still coming in and they show in the main that the verdict of Ontario is prohibitive.

CONVENTION MADE CHURCH HISTORY

Detroit, Oct. 24.—Adjourning to meet in Portland, Ore., in 1922, the triennial general convention of the Protestant Episcopal Church in America today ended with the most momentous session in its history. The convention just closed made church history, leading men of the Episcopal Church declare, and adopted legislation destined to place the communion on a broadened plane in the eyes of the entire Christian world. In this connection they cite the following four general points:

MINERS STRIKE ORDER STANDS MEN TO WALK OUT NOV. 1

Last Minute Appeal From President Wilson Fails to Bring Peace to Conference of Employers and Workmen.

Washington, Oct. 24.—The last government effort to avert the coal strike set for November 1 failed utterly tonight and half a million miners will quit work on the very eve of winter with the nation's bins running dangerously low. Even an appeal from President Wilson, sick in bed at the White House, was not enough to bring peace to a conference that was torn and on the breaking point at the time it began the day. Charges and counter-charges flew thick and fast as the outburst of operators and miners flared in the meeting, which began somewhat hopefully four days ago.

PEACE TREATY WITH AUSTRIA RECEIVES FORMAL APPROVAL OF THE DOMINION PARLIAMENT

During Debate on G.T.R. Bill, Rowell Admits Government is Passing Measure Now Because of Growing Strength of Opposition Forces.

Canadian Press Despatch. Ottawa, Oct. 24.—After a brief discussion the house tonight formally approved the peace treaty with Austria. The league of nations covenant and the labor clauses, the minister of justice explained, were identical with those in the German peace treaty. Mr. McKenzie, while declaring that he was prepared to offer objection to the passage of the resolution, yet maintained that it was unnecessary. In effect, he approved the treaty by concurring in the senate amendments to the bill to put the German peace treaty into effect. Mr. Macke of Edmonton urged delay that the provisions of the treaty might be further studied, but the motion for approval carried.

During the greater part of the day the house was in committee on the Grand Trunk bill, and the bill will be further considered in committee. In the course of the discussion, the minister of railways stated that the proposed amendments to the bill to put the German peace treaty into effect, Mr. Macke of Edmonton urged delay that the provisions of the treaty might be further studied, but the motion for approval carried.

Mr. McKenzie asked if the minister of railways replied that it would not be fair for him to make any statement other than to say that in its action the government was following the recommendation of the Drayton-Acworth report.

Mr. McKenzie asked what there was to arbitrate about this \$15,000,000. It was good Canadian money and there should be no question as to the value of the Canadian dollar. The minister of railways replied that the arbitrators were to consider the value of the road, and to divide that value between the two parties.

Washington, Oct. 24.—What may prove one of the greatest industrial battles in history was believed by some observers here to be forecasted by the announcement today of Samuel Gompers that a conference of the heads of the 112 international unions affiliated with the American Federation of Labor would be held in Washington in the "near future" to discuss present and impending disputes.

Co-operation of the four big railroad brotherhoods and the farmers of the country, as well as the labor organizations of Canada, probably will be sought, it was said, in furthering whatever program the union chiefs decide upon.

Borden May Return to Ottawa To Aid Passing of G. T. R. Bill

Special to The Toronto World. Ottawa, Oct. 24.—The situation in the senate is causing some uneasiness to the government. Not only are Unionist senators opposing the Grand Trunk bill, but they are also bucking the civil service bill and threatening to throw out the temperance legislation which will be put through the house next week. The Robert Borden has been communicated with and may return to the capital. All the senators insurgent on the Grand Trunk bill were appointed by this government, and the personal appeal of the prime minister should be effective. Some of the Unionist members of the government are in favor of the government opposing to the country on a platform favoring the abolition of the senate, the enactment of prohibitory legislation, and the extension of the civil service act.

BRITISH CABINET NEED NOT RESIGN, IS GENERAL VIEW

Unless Vote is Reconsidered Britain May Have to Denounce Pact With France.

London, Oct. 24.—Political experts and the editorial utterances in the papers this morning generally express the view that no one expects the government to resign as a result of the adverse vote in the house of commons yesterday, and that the circumstances of the defeat of the bill's amendment in no wise need entail such a step. The incident, however, is regarded on all sides as one which has given the administration a severe shock, and a position of which it could hardly survive.

The vote is generally described as an assertion of the independence of the house of commons, and a revolt against the alleged dictation of ministers—a determination to reassert the supremacy which the commons surrendered to the cabinet during the war.

WESTERN ONTARIO HAS MORE BRIEF VISITS BY PRINCE

Big Reception in Galt, Where People Tumble Over in Eagerness.

Canadian Press Despatch.
En Route With Prince of Wales' Special Train, Oct. 24.—Reluctant to part with their visitor, the people of Ontario have surrounded the prince and Wales today with marks of their affection and admiration. Successive groups have waited upon him in a number of towns along the route. It has been a heavy day for the prince, following on several previous heavy days. Altogether, there have been seven different receptions, long and short, within three days, and today four receptions left the prince little time to rest. But at the end of his grilling day, Galt, found the prince keen and responsive to their eager welcome, and, as usual, he won all hearts.

Within ten minutes of his setting foot in Galt, the townspeople were tumbling over themselves in their eagerness to show him some mark of their appreciation of his visit. Crowds followed him about as he drove in the falling light thru the handsome old town to the soldiers' memorial home, where he paid a short and animated visit. The laying of the corner stone of the new assembly hall was performed, when the prince, accompanied by veterans and held a reception for the relatives of fallen soldiers. A civic address of welcome was read and responded to before the prince left for Kingston, after a crowded hour in Galt.

Short Call at London.
Leaving Windsor this morning after a round of formal ceremonies, the prince found a crowd awaiting him in the ten-minute stop he made at Chatham and London. In both towns he has been royally entertained, and the people came back to crowd about his train and shake hands again. At Chatham he talked with evident pleasure with a veteran of the imperial army, who had served once as servant to the Duke of Clarence, the King's brother-in-law. In the London station a crowd had gathered to meet the royal train and an informal reception was held for ten minutes.

Hamilton, Niagara, Brantford, Guelph, Stratford, Woodstock, Chatham, London, Windsor, Galt, besides numerous short stops at small towns. For five days the prince has breathed the tide of western Ontario's enthusiasm and has evidently enjoyed every minute of it. "I don't suppose I could keep it up if everyone were not so kind," he said today, discussing the week's program.

The royal train stood in the Toronto station tonight en route to Kingston, where an elaborate program awaits the prince for the week-end. Brockville Monday morning will be the last town of his Ontario tour, which has been a whirlwind of joyous enthusiasm on the one hand and profound appreciation and interest on the other.

TIRES STOLEN OFF STRANDED TRUCK

Body Set on Fire—Police Make Two Arrests.

Alleged to have stolen tires from a motor truck stranded in a ditch on the road between Aurora and Newmarket, and to have set the body of the truck on fire, Alfred Archibald, 1085 Dundas street, and Gordon Richardson, 19 Ashland avenue, were arrested at midnight by Detectives Nicholls and Courtney. A large motor truck owned by the Wilder Cartage Company, Dundas street, broke down last Wednesday, and was towed to the ditch running off the road until mechanics arrived to repair it.

Late in the evening two farmers driving to Newmarket from Aurora were attracted by the flames from a burning truck. They saw another motor car standing on the roadside with all of the lights turned out, and two men working at the wheels of the flaming truck.

Telephoned Police.
The farmers drove on to Newmarket and telephoned the Toronto police, in a story of their seeing a burning truck and the men demounting the tires. The following morning the remains of the burned car were found, with the tires missing and the rims lying scattered about the ground.

Detectives Nicholls and Courtney claim to have received information that Archibald and Richardson were in the vicinity where the theft occurred in a motor car. They arrested them on charges of theft and intend investigating the case further, as they are of the opinion that both prisoners had been driving by in the daytime, and, seeing the abandoned car in a lonely spot, returned at night to get the tires.

It is only nine years ago since this same land, on which the Dominion Bank stands, was offered for sale at \$3 per foot.

EVANGELIST DRAWS CROWDS

Rev. Dr. Honeywell, the Chicago evangelist, who is conducting a special mission at the Central Methodist Church, is drawing large crowds to this church every night. The services are attracting all classes of people. The massed choir, led by Mr. George Preston, and the solo singing is a special feature.

Rev. E. Crossley Hunter, pastor, has made arrangements for the attendance of St. David's Presbyterian members, as well as the Bloor Avenue Baptist Church and the pastors of these churches, Rev. C. A. It was decided to request the city council to place a board sidewalk on West Bloor street from Runnymede road to Willard avenue. Matters of local interest were also discussed.

Controller Ait. Maguire, in a brief address, stated he was a strong supporter and advocate for transportation and said instead of spending the people's money on the housing scheme without consulting the people, the money could have been spent in extended transportation to better advantage. Civic officials should not take the responsibility of putting this work or that work. "If the works commissioner cannot carry on we will get a man who can, and if the finance committee cannot find the money we will also get a financier who can find the finances."

RUNNYMEDE COUNCIL APATHETIC

Fail to Attend Meeting of Community Club to Discuss Important Matters.

North Runnymede Community Club held its semi-monthly meeting on Thursday night in North Runnymede Hall.

D. Brunton, president of the Community Club, said that it was expected that the members of the township council would have attended the meeting in response to invitations sent to them, but much to the disgust and anger of the ratepayers, who were also present, and the members of the club, they did not put in an appearance.

Several subjects for discussion with the council were on the bill for the evening, and Mr. Brunton said it would have been to their advantage to be present, as some of the subjects were of the utmost importance to the health and welfare of the district.

"The absence of the members of the council seems to indicate," said Mr. Brunton, "that they either have no interest in this particular district—more especially as one councillor lives within a few minutes' walk of the hall—or that the council are afraid to come before the ratepayers, and their absence gives the impression that North Runnymede is the deserted child of the township."

DANFORTH TRIAL LIGHTS SATISFACTORY.

The trial lights recently installed on Danforth avenue between Donlands and Greenwood avenues on both sides of the thoroughfare, are giving satisfaction to the residents. The illumination is evenly distributed, and is far superior, it is stated, to the old style lights.

An excellent musical program was contributed by well known artists, and W. R. Mothersell, president, occupied the chair. Among those present was Rev. W. L. Baynes-Reid, rector. A most enjoyable time was spent.

LABOR IN LONDON SEEKS NEW HONORS

Success in Defeating Beck Leads to Try for Municipal Offices.

Special to The Toronto World.
London, Ont., Oct. 24.—Hubert B. Ashplant, one of this city's political Labor chiefs, announced tonight that the Labor party would make a strong run to put their candidates in the municipal offices at the January elections. "You may rest assured there will be enough Labor candidates in the municipal field this year to make it interesting," he said. "I do not think we want to capture everything, but we will have a mayor in the field and several aldermen." Labor candidates will be brought out for other offices, including the board of education and the public utilities commission.

This attitude of the Labor party is due to the unqualified success of electing Dr. Hugh A. Stevenson to the Ontario house by a majority of nearly 2000 over Sir Adam Beck.

Mayor C. R. Somerville, shortly after Nov. 1, will make clear whether he intends to run for office for a third time or quit.

WIDDIFIELD'S MAJORITY.

The majority for J. W. Widdifield in North Ontario was 680, not 400, as reported.

FAIL TO RECONCILE CAPITAL AND LABOR

Industrial Conference in Washington Dissolves With Recommendation to President.

Washington, Oct. 24.—With a recommendation to President Wilson that he create a commission to carry on the work which the national industrial conference was unable to accomplish, the public group, the last remaining vestige of the body, finally adjourned tonight.

Despite two attempts by Mr. Wilson to save from dissolution the gathering, which reported to the acting president the close of the conference, called by the executive to find some common ground of co-operation between labor and capital on the outcome of which were held in abeyance strikes affecting the entire industrial life of the nation.

The report of the public representatives, declining to assume the task of which the original gathering was called, was transmitted to the White House thru Chairman Bernard M. Baruch, in the form of a thousand-page report. No information was forthcoming from the White House as to the president's next move to bring industrial peace to the country.

Also the report, which was made public, it was learned that the document summarized the proceedings of the fourteen days the conference was in session, but the stamp of approval on the plan for industrial boards suggested by Secretary of Labor Wilson and recommended the calling of a national conference of industrial experts to undertake the peace adjustment.

The industrial board plan of Secretary Wilson provides for boards of employers and employees in each industry with a general board of appeals and as a first step, probably, will correspond to an umpire chosen by the parties to the dispute, or from a standing list of twenty named by the president.

Sir Thomas White Drives "Loan Drive" in Brantford

Brantford, Oct. 24.—"The homely virtues of industry and thrift" were extolled by Sir Thomas White, late minister of finance for Canada, in an address which he delivered at the inaugural gathering of the Victory Loan canvassers for Brant. He stated that Canada's financial position in the world was second only to that of the United States, and needed but to continue to have industry combined with thrift to maintain that position.

PRINCE TO CUT SHORT VISIT TO WASHINGTON

Washington, Oct. 24.—Due to the illness of President Wilson the stay of the Prince of Wales in Washington, which was to have lasted next month, will be somewhat shortened, it was learned tonight. The visit of the prince, it was said by officials, probably will correspond in length with that of King Albert and Queen Elizabeth of Belgium, who will spend three days here next week.

Edward Guyan of Toronto Is Crushed in London Mishap

London, Ont., Oct. 24.—Edward Guyan, aged fifty, 417 Essex Gerrard street, Toronto, is lying in Victoria Hospital in a somewhat critical condition the result of being crushed between two steel rivets during the operations on Loew's new theatre. His back is believed to have been fractured. An x-ray was taken late tonight, but the result will not be known for several hours. He is resting as quietly as can be expected.

VETERANS SEEK EASIER DIVORCE

G.W.V.A. Concerned Lest Bill Be Lost Following Nickle's Resignation.

An increasing number of applications for relief from the burden of obtaining divorce under the existing legislation have been received during recent weeks by the Ontario Command of the G.W.V.A. As a result of this, instructions have been sent to the G.W.V.A. officials at Ottawa, asking that they increase vigilance with respect to the bill introduced by W. F. Nickle, late M.P. for Kingston.

It is feared by the Ontario officials of the G.W.V.A. that since the resignation from the house of the federal member for Kingston, the bill may be lost sight of, and the association is anxious that it should not meet with that fate after meeting with its second reading.

While the veterans in the prairie provinces have been able to obtain provincial legislation to meet their needs in this respect, there is apparently no hope of any such action in the province of Ontario, as it is recognized to be a purely federal matter, so far as the older provinces are concerned.

Working Since 1917.
Since its formation early in 1917, the G.W.V.A. have made numerous efforts to secure the simplification of divorce proceedings in Ontario. This action was inspired because of the need of such legislation to meet cases that have arisen out of the war. At the provincial convention of the association in Hamilton in May, 1918, the following resolution was unanimously adopted: "That the Ontario Provincial Command of the G.W.V.A. in convention at Hamilton, Ontario, favors changes in the British North America act, which will give jurisdiction to the provincial courts in the matter of divorce, or that the present procedure be made less expensive by remitting the parliamentary fee, limiting advertising to one local paper, and by sending evidence locally in reference to the provincial judges."

While the figures have been placed at 600, W. E. Turley, provincial secretary of the G.W.V.A., is of the opinion that there are at least 300 soldiers and soldiers' wives who would immediately avail themselves of the opportunity to sever uncongenial marital relations by a simplified divorce procedure. Mr. Turley stated that the Ontario command were excitedly awaiting action in this respect as a result of recent telegraphic communication with officials at Ottawa.

LIBERTY LEAGUE INTERVIEW CABINET

Request a Special Committee to Hear Objections to Prohibition Bill.

Special to The Toronto World.
Ottawa, Oct. 24.—The morning session of the Citizens' Liberty League from Ottawa and Toronto, with the league's counsel, T. L. Monahan of Toronto, appeared before the cabinet on Oct. 23, before the Hon. C. Doherty, minister of justice, and Hon. N. W. Rowell, president of the privy council, to urge upon the government the appointment of a committee of members of the house of commons to hear the objections of the Citizens' Liberty League to the proposed legislation preventing the manufacture and importation of liquor into a province voting in favor of such prohibition by the privy council; also that the league's counsel that such legislation was ultra vires of parliament under sections 91 and 121 of the B.N.A. act, as it interferes with and prohibits inter-provincial trade, and is not in any sense a regulation of trade and commerce, but a prohibition of such trade and commerce.

HISTORIAN OF WAR CRITICIZES FRENCH

Says Field Marshal Descended to Inaccuracies and Ludicrous Misrepresentations.

London, Oct. 24.—John William Fortescue, who is writing the official history of the war, has contributed to the Quarterly Review articles dealing with the controversy regarding Field Marshal Viscount French when he was in command of the forces in France.

"The fact, we fear, is," says Mr. Fortescue, "that on the 26th of September, 1914, Lord French and his staff completely lost their heads, and that in a vain endeavor to conceal this he has taken leave of all sense of accuracy."

Further, referring to General French's treatment of General Sir Horace L. Smith-Dorrien, commander of the second army in France, Mr. Fortescue says: "General French has descended to misstatements and misrepresentations of the clumsiest and most ludicrous kind in order to injure the reputation of a subordinate who is forbidden to defend himself. Coming from one in his high position this brings shame and dishonor not only upon the field marshal himself, but upon the army."

SOPHOMORES WIN ANNUAL RUSH

Pre-War Scrap, Revived at University Campus, Was Exciting Affair.

The annual scrap staged between the first and second years in medicine took place yesterday morning in the vicinity of the medical building. Due to the fact that the sophs, by strategy, had secured the supply of eggs and other ammunition belonging to the frosh, they were well equipped for the fray. The two first years had united forces and by means of a series of war-whoops and well-directed eggs of ancient origin, managed to draw the sophomores from their rendezvous in the basement of the medical building. Upon their appearance, the first-year men charged and by reason of their superior numbers, managed to make a slight gain. However, the second year men were not disheartened, but, after holding a council-of-war, charged the "poor frosh," as he is generally known. The freshmen were unable to withstand the onslaught and retreated to a safe distance in Queen's Park, where they again formed up in battle array. The sophs, not content with their temporary success, again charged, but on this attempt met with more strenuous opposition. Hand to hand conflicts were the order of the day, and the battle waged fast and furious. Shirts and other unnecessary articles of clothing were the trophies desired, and, as a result, numerous freshmen and sophs will either have to purchase new wardrobes or remain under cover for the time being. Various new artistic designs were worked by embryonic artists upon the head, neck and back of the semi-nude frosh, the materials at hand being called upon to furnish the necessary coloring effect, such same being shoe-polish, ink and flour, to say nothing of the rich black soil in the neighborhood of the buildings. The scrap would in all probability have gone on indefinitely had not C. C. Grant of the students' council appeared on the scene and declared the war ended. After hearing the terms of the armistice, namely that the frosh were to banquet the sophs, said being agreeable, both hostile parties lined up on the steps of the biological building and faced a battery of cameras, and after rendering the air with their various yells, dispersed, and peace once more settled over the medical building.

Yes 13,463

In the week of December 1, the convention centres will be at Edmonton, Calgary, Vancouver, London, St. John, Halifax and Charlottetown. Rev. H. C. Priest, secretary of the missionary education movement, has been named convention secretary to assist Rev. Dr. Braithwaite in completing the inter-church organization.

BY INTELLIGENCE, NOT PULL

Teachers' Institutes representing seven inspectorates and 1,400 teachers closed their two days' convention yesterday. Meetings were held in various schools and in the afternoon a joint gathering of inspectorates 1, 3 and 5 was held at the Technical School. An interesting address on imagery in poetry was given by S. J. Radcliffe, principal of the Normal School.

Dr. P. Sandeford of the faculty of education, spoke on the nature and measurement of intelligence, the speaker pointing out that tests might seem like wasting time, but even among normal people there are grades and that these distinctions learned by tests, were made use of in selecting officers for the American army, instead of the method of "pull."

PAPE CAR LINE

Railway Board Issues Order to Commence Work Not Later Than April Next.

Construction of the Pape avenue car line extension by July 16 next is called for by an order issued yesterday by the Ontario Railway and Municipal Board. Construction is to begin not later than April 15 next. The order was made in reply to the city's application made some time ago. Corporation Counsel Geary raised the point that as there are a number of Toronto Electric Light poles on the route of the proposed car line extension, the board's approval of the plans might give the electric light company a semblance of right to leave the poles there, although the privy council had ruled otherwise. "They can't get a franchise by implication," replied Chairman McIntyre. With this reservation, Mr. Geary accepted the plans on behalf of the city.

EIGHT TO ONE ON GASOLINE ISSUE

Only McBride Opposes Resolution Permitting Approval of Approved Pumps.

Gasoline and Controller McBride are apparently not good friends, as at yesterday's meeting of the board of works committee the controller objected strongly to the way "gas" was supplied to the public on this occasion...

"That this committee approve the policy of permitting the sale of gasoline from approved pumps located on the public streets, always subject to the approval of the commissioner of works as to type of pump, location, installation, etc.," was the resolution...

Under Commissioner of Works. "And, be it further resolved, that hereafter the commissioner of works be authorized to deal with all applications for the installation of gasoline tanks and pumps upon the public streets, without reference to the committee or the city council."

A large deputation of gasoline supply men were on hand, but hearing the wording of the resolution at once assented to accept it as overcoming their objections.

Noise from Cars. The controller read a letter he had received from a citizen complaining of the noise on Close street owing to cars pulling up night and day to obtain gasoline.

As luck would have it the very next matter to be dealt with was a petition requesting the removal of a tree at standard on Close avenue near Queen street.

On a division being taken the resolution was carried by eight votes to one.

To Manufacturers, Clergymen, Locomotive Drivers and Others:

At 9 o'clock Monday morning please ring your bells, sound your factory whistles, blow off your hooters and in general make a big noise for a few minutes to let all Toronto know that the Victory Loan selling campaign is on.

IDA AT THE CITY HALL

BY IDA L. WEBSTER.

Monday's election returns were not of the order to make the minds of the city fathers rest any too easily.

The board of control will undoubtedly have many new faces; that is, it will have at least three.

Ex-Alderman Gibbons has been seen around the hall quite a lot of late, and at the last meeting of the city council he was one of the most interested listeners, as was ex-Alderman Dr. Hisk.

The latter with regard to the labor candidates, from what we have heard, they will likely be absolutely new men in the field, and if the party continues to feel on the subject as they do now, there will not be the usual "split," but instead they will unite, so that they may be well represented in the council.

As a soldier candidate, with a wonderful war record, has already been selected for the mayoralty, the hero in question is also a business man of the most ability, and if the present indications are to be taken for anything, he will make a clean sweep, as already the various members of the council have started to organize with a view to making a city-wide canvass.

Toronto having "subscribed" more soldiers than any other town in Canada, very naturally has a right to make a place for the men who made good, and, in selecting a veteran for mayor, the returned men are doing only the natural thing.

Only too long has the city been controlled by politics. There is no municipal institution in the world which should be held absolutely by any one political party.

The first day of January will show some folks just what democratic government means. It will also be an epoch in the life of the city, because it will turn out of office the "ward-healers" and put in their places men who have done things for the good of the world.

Mr. Smith declared that the Yonge street was full of pockets, and that it was absolutely dead between Dundas and Gerrard streets, but Mr. Nixon said he knew for a fact that \$4000 a foot was offered for one corner property, just a block north of Simmons' corner site, which was assessed at \$1650, and part of it only at \$1350.

COMMITTEE PASSES MILLING MEASURE

Federal Body Agrees to Bill to Prevent Adulteration of Bran.

Canadian Press Despatch. Ottawa, Oct. 24.—Four representatives of the Canadian millers were in attendance this morning when the house committee on agriculture and colonization to consider the bill to prevent adulteration of bran and shorts met in this city.

Mr. Sutherland called attention to the fact that the bill had been before the house all session and the millers had given plenty of time on the bill.

Mr. Davis, Neepawa, moved in amendment that bran and shorts should not contain anything that is not a by-product of grinding wheat into flour or grits as corn into flour or meal.

PROCLAMATION

CHANGE OF TIME Saturday, Oct. 25th, 1919 at 12 o'clock midnight.

THOMAS L. CHURCH, Esquire, Mayor of the City of Toronto.

WHEREAS, in response to a request from the City Council, the Board of Trade, the business organizations and many other public bodies and the citizens at large, I issued a Proclamation giving effect to a daylight saving measure effective the 30th of March, 1919, the said change having been already adopted by the Canadian railways;

AND WHEREAS the various railway systems will be operated on Standard time on and after 2 a.m. on Sunday, October 26th, it is, therefore, on this and other grounds advisable and necessary that the city should also revert to Standard time;

These are therefore to request all citizens to set back their clocks and watches one hour at midnight on Saturday, the 25th of October instant.

In issuing this Proclamation I feel that reference should be made to the great advantage and pleasure which the adoption of the daylight saving plan has given to the citizens during the past summer season and to express the hope that in future years the plan will be generally adopted during the summer months throughout the Dominion.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, which the kidneys strive to filter out.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, faint, or you are obliged to seek relief two or three times during the night, this is your signal that the weather is bad.

Before the court of revision yesterday John S. Simmons, a Yonge street florist, declared that the building of the Bloore street viaduct had made part of Yonge street dead so far as business was concerned, and therefore appealed against an increased assessment on his business.

Mr. Smith declared that the Yonge street was full of pockets, and that it was absolutely dead between Dundas and Gerrard streets, but Mr. Nixon said he knew for a fact that \$4000 a foot was offered for one corner property, just a block north of Simmons' corner site, which was assessed at \$1650, and part of it only at \$1350.

Meed of Just Praise.

The Union government long since passed the danger point where all men speak well of it. But that it has become easier to count its friends-in-general, it is on that account the more pleasing that ministers have done so well in the commons Grand Trunk debate.

To those who a few years ago felt the biases of disapproval which used to come from old-time partisans whenever public ownership was mentioned to a stiff-necked house, it is particularly gratifying to see ancient stalwarts like Dr. Reid daring opponents to say they do not believe in the once-decided, and now-accepted, article of political faith.

Mr. Meighen, who was the loyal conductor of negotiations, and who drafted the bill, has spoken after the manner of his parliamentary youth, when he was a rising hope of the low-tariff men. Mr. Rowell has discoursed like a Liberal who needs not to be ashamed.

One swallow does not make a summer, and one good stroke may not resurrect the government's infant popularity. But signs of grace are blessed, even if they be not entirely of grace abounding. They will be marked with indelible chalk upon the public mind.

The senate route may prove to run thru a veritable musk, with the danger of a broken rail or a few de-cayed ties. Three ministers adorn the chamber which reveals in periodical fits and starts of wakefulness. They are scarcely expected to be a trio of champions of public ownership, for the postmaster-general belongs to Montreal.

Sir James Lougheed can be relied on to play up to the commons' lead. His loyalty will be staunch, if not passionate. The chief anomaly of the senate is the minister of labor, Mr. Robertson. He has a great chance to justify his title, and will surely be shrewd enough to make the most of it.

Western Rural Revolution, Too. At the Toronto Board of Trade, election returns were announced to a big crowd on Monday evening. Many received them at first with glee and at last with gloom. The earlier farmer gains were regarded as a diversion; the later, which buried the Hearst government forty fathoms deep, were accepted as a disaster.

for Saskatchewan, and was one of the originators of the grain growers' movement, is pretty certain to lose his deposit. He has not even been able to rally to his support the Saskatchewan cabinet ministers, who, like himself, were Laurier partisans in 1917.

The Saskatchewan grain growers have started a political party which is not quite as identical with the Grain Growers' Association as the victorious farmers' party in Ontario is with the U.F.O. But it champions the platform of the Canadian Council of Agriculture, as President Halbert, the U.F.O. federal candidate, does in North Ontario.

One of the bulwarks of the partyism on which the old-line machine men relied was the campaign fund, and the presumed impossibility of financing elections except thru the big interests. They laughed at the idea that the average man would ever find money for the average election.

That notion must go the way of a good deal of other political piousness. The local expenses of every U.F.O. candidate were met locally. The funds of U. F. O. headquarters were drawn on for only a thousand dollars, and entirely for speakers' out-of-pocket expenses.

In Assinboia an entirely new departure was made. Farmer Gould was nominated by a convention of four hundred electors, each of whom was the delegate of ten subscribers to the campaign fund. The farmers of Assinboia have subscribed seven thousand dollars for the election.

It is too late to laugh at "these farmers." And the country isn't going mad. In 1917, only twelve Saskatchewan seats out of sixteen were contested. The Unionists polled 87,741 votes and the Liberals only 32,182. And yet, in less than two years, the Unionists do not run a candidate in a riding where their majority was 4524.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

THE DREAM CONTINUES.

CHAPTER XVIII. "Harry made what he called a 'couch' for Louise by spreading out his sweater and hers, with an extra coat he brought along, so that she could stretch out comfortably in the sun on the warm surface of the rock."

"This sort of thing ought to do you a lot of good," he said, at last. "You've been so tired with all the excitement leading up to the wedding, that you haven't been yourself at all."

Louise nodded lazily. The sun as it warmed her body was making her feel deliciously relaxed. The months of social activity were like some feverish dream from which she had just awakened.

Louise's face lighted, as it always did when Harry spoke in terms of understanding. "We could tell father we wanted to stay on, and he could send us a check."

Louise rose up suddenly and kissed him. She adored him with his chin raised at the proud angle at which he was holding it.

But Harry looked worried. "We had no right to take this little trip. My last savings went into it. We're going home with nothing to live on, but my salary and that isn't large."

"Oh, we'll be economical," Louise observed comfortably. "We'll have to be, I'm afraid. More so than you think. We're going to an empty house Sunday, you know. Not a thing in it to begin living on."

mean furniture and food. Well, to show you how practical I am, you'll find everything necessary already there. I had mother promise to send over the old furniture from the attic, so we'll have tables and chairs and beds, at least."

"Not now," protested Louise. "I'm too lazy to want to use my head. And I hate figures. Some other time! This is too perfect to bring in material things like budgets and figures."

"All right, Princess," he smiled. "What a romantic boy he's getting to be!" Louise exclaimed, and held out her hand to him.

Harry kissed the hand, glad that it was no longer nervous and cool. A few minutes later he looked down and found she had fallen fast asleep.

He sat there for a long time, sometimes looking down at her thin face, soft and relaxed as a baby's when it naps, her hair pretty against the blue background of her sweater.

"Poor little tired Princess," he murmured once, and after a time he pulled part of the coat over her shoulders. "Little sleeping Princess," he whispered.

He was afraid to disturb her, knowing how worn-out she had been, so he sat by quietly while the shadows deepened into twilight and soft sounds came out of the woods. And he planned all the great things he was going to accomplish for the Princess who slept at his side.

GERMAN OPERA SINGERS UNDER DIFFICULTIES. New York, Oct. 24.—German opera is affording New York police extensive training in riot duty.

After having on several previous nights this week battled with crowds of angry service men and civilians, several hundred policemen tonight took their stations around the Lexington Theatre, reinforced by a detachment of beach guards.

These minute police soon went into action, arresting six sailors who became too enthusiastic in their denunciation of German opera. Incipient rioting outside the house accompanied the performance. Held back several blocks by police lines, the crowd "booped" managers, singers, audience—and police, pausing occasionally to toss a milk bottle at a policeman. At one time the jeering throng became so unruly that mounted police charged into its ranks and drove it back.

What's the matter with Your Dollar? In 1914 One Dollar Bought To-day One Dollar Buys

33 pounds of flour or 5 pecks of potatoes or 4 pounds of bacon or 2 1/2 dozen eggs or 285 pounds of coal

9 pounds of flour or 2 1/2 pecks of potatoes or 2 1/2 pounds of bacon or 1 1/2 dozen eggs or 166 pounds of coal

These figures, based on accurate average of prices obtained in 60 cities, show plainly how the dollar is shrinking in value. Is the insurance you considered adequate five years ago, enough to maintain your dependents in comfort now?

Every man who wishes to provide for his dependents must take into account the declining value of the dollar. The amount of his insurance should be increased as money's purchasing power declines.

RIVERDALE AND MALVERN STILL UNDEFEATED

Will Fight It Out for Eastern Group in School League.

The high school games yesterday resulted as follows: Senior—Oakwood.....12 Parkdale.....8 Riverdale.....8 North Toronto.....6 Malvern.....11 Jarvis.....0 Oakwood.....5 Parkdale.....11 Commerce.....5 Technical.....17 Malvern.....0 Jarvis.....23 The High School League has reached an interesting stage. The battle for the senior honors in the eastern section will be decided next Friday, when Riverdale and Malvern clash. The latter team won all their games to date, while Riverdale in the western section, Oakwood have only to defeat Cumberland to clinch their group.

Oakwood High School defeated Parkdale, 13 to 8, in a senior game at Trinity College grounds. The winners were much pleased with their victory. Parkdale played clever football, and leading at three-quarter time, 8 to 5, looked as they would win out, but they tired badly on end. Oakwood's victory made the Hill boys favorites for their group. They have only to beat Humboldt to earn the right to play off with the winners of the other group for the championship.

Parkdale juniors defeated Oakwood, 11 to 6. Reid's youngsters showed some nice trick plays. It was a tight battle between Parkdale and Commerce for the group honors, and it will be decided next Friday, when these two meet. Riverdale seniors kept their sheet clean by downing North Toronto, 4 to 1, before starting Riverdale on the road in the third quarter. Two rouges completed the work and won the game. Tech's four points were scored in three runs in the first quarter and one in the second. The Riverdale back line played faultlessly.

Technical juniors showed a heavy team and had no trouble in downing Riverdale, 17 to 0, in a senior game. Malvern seniors defeated Jarvis, 11 to 0. Hughes, the Malvern half, was a bright shining light. Jarvis juniors simply romped away from Malvern, winning, 23 to 0. Commerce and North Toronto had a city struggle in their senior fixture. Commerce emerged winners, 8 to 6, by consistent work. Keeler went over for the only try in the first quarter. The time score was 6 to 4 for the winners. Mason was the best man for North Toronto.

Commerce juniors won by default, and have won all their games to date. N. BULL BEAT SCHOELL IN TEN-ROUND BOUT

Great Crowd Attend Highlanders' Show at the Armories.

Before a crowd that packed the armories last night Frankie Schoell turned the tables on Frankie School, who recently gave him a trimming in Buffalo. It was a great ten-round bout with something doing every minute. Schoell proved himself to be a good two-handed fighter with lots of steam behind his punches, and in the first three rounds made it decidedly interesting for the Toronto boy. In the remaining rounds Bull was the aggressor and scored repeatedly with a straight left and right hook, and the decision in his favor was well received.

Scooby Linsner put up one of his real good fights in the eight-round semi-windup against Chip Davis of Buffalo. This was another rattling good bout, and Scooby had a lead in the first two rounds, but the margin was so close that the crowd would have been satisfied with a draw. Fred Crompton, the old Toronto battler, hooked up with Frankie Coran, another rattling good Buffalo boy, and up to the fifth round looked good for a draw, but in the sixth round came strong and put him out.

Sgt. Jim Shaw of the 8th Highlanders had all the better of Q.M.S. Jim Stockie and easily earned the decision. The following players will represent the Willys-Overland Club in the Bridgen Cup tie against the Old Country Club, to be played at the Dunlop field, kick-off at 4 p.m.: H. Stanfield, J. Tweedie, A. West End Y. Starts Classes For Basketball Referees

The West End Y. M. C. A. is starting out on a new venture. Realizing the great need for more competent basketball referees, the physical department has taken the plunge and organized a training class for all men over the age of eighteen years who would like to become basketball referees, or any referees who would like to further their ability in handling basketball games. Mr. Thos. Hildreth, the physical director at the West End Y. M. C. A., is in charge. He gives an invitation to all leaders of clubs and any other men interested in this study to be out on Wednesday November 5, at 7 p.m. to join this class. It is not necessary to be a member of the Y. M. C. A. to enjoy this privilege, and it is absolutely without any charge of any sort.

The indoor athletic season broke in at the West End Y. M. C. A. on Wednesday night. The standing broad jump finished with R. Wily and B. Atchison, both new men at the same, winning first and third place, respectively. Geo. Chisholm, who holds the Canadian championship in this event, did not exert himself to take second place. Wily jumped 9' 1 1/2" and Atchison 9' 1/2". There were many others who just finished outside the money by an inch or so, and with a little more practice will develop into crack jumpers. The 50-yard dash was very close. G. Chisholm, L. Crofoot and C. Hall all running in six and one-fifth seconds. Wily, R. A. Richardson, L. Goldsmith, W. Blake and G. Carnell all made the grade in 6.2 secs.

Practice for the basketball team is in progress. The O. B. A. on Wednesday night brought out many experts at basketball. Among them were Jack Tait, Harry Cook and Phil Hamm. The boys had a good live workout and are all anxious for next Wednesday and are when they practise again at 7 p.m.

What Prominent Ontario Women Say

Tillsberg, Ont.—"I found Dr. Pierce's Favorite Prescription very beneficial in curing my nervousness. I felt quite better, and I was able to eat and sleep again. My appetite returned, and I felt strong and healthy. I had always been so. I consider 'Favorite Prescription' a great help to the nervous mother and am glad to recommend it."

Hamilton, Ont.—"A few months ago I was stricken down and was confined to bed about ten days. My strength all left me. It was my first illness since a child. I lost five pounds and felt awfully weak afterward. I could hardly do my work. I was advised to try Dr. Pierce's Favorite Prescription in tablet form. I tried a couple of bottles and before I knew it, I was well and strong and had gained 9 1/2 pounds. I can recommend Dr. Pierce's Favorite Prescription to build one up."

A HAMILTON WITNESS

After suffering pain, feeling nervous, dizzy, weak and dragged down by black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable, contains no alcohol.

Plays, Pictures and Music

Bertha Kalich. The appearance of Bertha Kalich in "The Riddle Woman" at the Royal Alexandra, next Monday night, but serves to introduce here in a sort of role radically different from any other in her long and distinguished repertoire, such as the tragic heroines of the "Sonata," "Marta of the Lowlands," and the exquisite "Monna Vanna."

So modern that it is best described as up-to-the-minute, "The Riddle Woman" has its scenes laid in Denmark, its characters belonging to the smart and smartest of the aristocratic society of Copenhagen. As the play was written by Charlotte E. Wells and Dorothy Donnelly, specially for Madame Kalich, by all accounts it is the building of "big" scenes which only an artist of the Kalich calibre could hope to rise to. In the character of the whole play, Kalich has her long and distinguished career. "See it, if you seek for the shades of the Riddle Woman, the critic of the Chicago Post. 'Kalich tackles her part like a virtuoso. She embellishes it with the whole of her art, it eats it alive—and you love it.'"

"The Riddle Woman," as interpreted by Kalich is the drama par excellence. Madame Kalich is supported by an excellent cast, headed by Charles Millward, the well-known English actor and former leading man of the Lyric Theatre, and including also Jack Roselleigh, Esther Morgan, Alice Haynes, Paget Hunter and Lottie Salisbury.

Clity Gordon, the famous international beauty, will again be seen on the stage of the Royal Alexandra Theatre next Monday night, when she will appear in the latest of musical romances, "Love For Sale," under the management of Joseph M. Gaiter, and will be on sale next Thursday morning. William Gillette in "Dear Brutus." In the same delightful comedy in which he appeared the whole of last season at the New York Empire Theatre, William Gillette enters upon a week's engagement at the Princess Theatre, Monday evening. His play is "Sir James M. Barrie's" "Dear Brutus," of which much glowing report has been heard in advance. In addition to the wholehearted engagement in New York, "Dear Brutus" has to its credit a run of a whole year in London, where Gerald Du Maurier is playing the role enacted in this comedy. William Gillette and Hilda Moore, Mr. Du Maurier's original woman, and an actress of great distinction and charm in England, play the parts of "Dear Brutus" in the original London production of Barrie's comedy.

In addition to Mr. Gillette and Miss Moore, the Charles Frohman company has supplied a most distinguished and capable company to interpret "Dear Brutus." The company includes in the hands of such well-known players as Violet Kemble Cooper, Marie Walworth, Midge Bellamy, Frances M. Williams, and others. William Podmore, Grant Stewart, Fred Russell, Thomas A. Braiden and others.

"Dumbbells" Are Coming. Fathers, mothers, sisters, brothers, wives, sweethearts and friends (and who in Canada does not include one's self in this category) are to have an opportunity of seeing for themselves just how our Canadian boys were entertained by the soldier-actors in France. "The Dumbbells," the popular group of these entertainers, have been brought to Canada in their original form, under the personal direction of Captain M. W. Flinn, the Canadian star, and their biggest success, "Biff, Bing, Bang," at the Grand Opera House next week. These boys have a record of over a hundred performances near the front lines in France, as well as a month at the Coliseum in London, and a special engagement by royal command, shortly after the armistice, for which they were presented with a medal and address by the king of the Belgians. A decided Canadian star, the fact that all the beautiful girls who are played by real soldiers who have done their bit. They have been seen by the burlesque line in London and Paris, and it is little wonder that the boys used to remark upon the courage of our wonderful entertainers, who near the front lines in France, as well as a month at the Coliseum in London, and a special engagement by royal command, shortly after the armistice, for which they were presented with a medal and address by the king of the Belgians.

"The Million Dollar Dolls." Something entirely new, quaintly original and thoroughly entertaining, the burlesque line is being presented at the Gayety Theatre next week, when "The Million Dollar Dolls" Company make their initial bow here this season. A sparkling musical comedy, full of comedy spirit, has been compiled especially for this production by A. Douglas Leavitt, and it is entitled "In Whirl of Pleasure," a musical comedy in two acts and twelve scenes, produced and staged under the personal direction of John G. Jermon. It is said that no family farce thing has ever been written. The characters are all capably outlined and vividly contrasted. Each emphasizes a peculiar and humorous trait, making the whole palatable and refreshing. The producers have realized the need of replacing the trappings of the theatre with a really splendid production with elaborate scenery and stage settings. The chorus is also away above par, all of the members having individual numbers.

Mystery Week at Loew's. Patrons of Loew's Yonge Street Theatre and Windsor Gardens are requested to come next week prepared to ask Mile Zenda, the outstanding feature of Loew's production of "Concentration," the incomparable Mystery Band, any question which might be troubling them. After having for fifteen years stood the test of the world's eminent scientists and students of psychical phenomena, Zenda is today a greater mystery than ever. There is no one who does not interest in matters involving the mind, particularly her remarkable demonstrations of mental ability. So utterly baffling is the problem that Zenda presents that she has left her investigators decidedly at a loss what to make of her. The incomparable Mystery Band, each member of which is blindfolded, so as to prevent the exchange of signals while Mr. George Lovett, in his role of "Concentration," presents to the audience asking questions, will play any melody called for by thought transference. Pauline Frederick will appear as the unhappy wife in the feature film, "Bonds of Love." The vaudeville roster embraces the Wheeler Trio, equilibrist; Wahmsley and Keating, the comedy duo; Wayne and Allen, presenting "In and Out"; Ferguson and Sunderland, steps and stories; and Merton Brothers, paperiole.

"The Miracle Man" at Regent. Welcome "The Miracle Man." For months Toronto has been hearing of George M. Thurston, the Canadian announcement that this tremendous production, by George Loan Tucker, dramatized by George M. Thurston, and written by Frank L. Packard, will appear now it is within two days of its first appearance, when the Regent Theatre will be the centre of all activity, and will play to vast throngs of people. The popularity of the story, it is advisable that those who can will attend during the early performances. The theatre will open at 11.15, and the feature will be shown then and again at 1.30, 5.10, 7.15 and 9.15 p.m. There will be other features, notably the comedy "The Canadian Star," and its overture and other selections, as well as in its accompaniment of the picture.

Thurston is Coming. Few incidents of the regular theatrical season stir more general interest than the coming of Thurston, the famous magician, who will appear at the Princess Theatre the week of November 3rd.

It is said that every trick of every magician who ever lived is known to Thurston. He makes no pretense at exposing any particular faith or fad in his new program for this year, but the so-called apparitions or spirit manifestations Thurston duplicates right before you.

It takes a joint of beef to make a bottle of Bovril

Bovril contains the goodness of the beef. THE vital elements that give beef its special place and value as a food are concentrated and stored in Bovril.

Just as the equivalent light of 32 candles is concentrated in one electric lamp, so the vital elements of beef—of many pounds of beef—are concentrated in a single bottle of Bovril.

But Bovril is not merely a precious food in itself; it possesses the peculiar power of enabling you to extract more nourishment from other foods. This gives Bovril its wonderful body-building power, proved by independent experiment to be from 10 to 20 times the amount taken. Bovril, therefore, in the true sense of the word, is a Great Food Saver.

Always keep Bovril in the house.

PATENT EXPERT AT ELECTRIC CLUB

Herbert J. Dennison Explains Value of Protecting Ideas.

Herbert J. Dennison, the patent expert, addressed the Electric Club at luncheon yesterday on "The Value of a Patent." He recalled the fact that he had helped to build the first electric motor car ever constructed in Toronto. It was built on Yorkville avenue by a Mr. Still, and Mr. Dennison said he had drawn it down Yonge street for the first time one Victoria Day.

The object of a patent was to protect one's property in one's invention, and that property had to be defined to show what "advance in the art" had been made with which the patent was concerned. That advance is the patentable property in the invention.

It is of the highest importance to note whether any new device does embody a real advance on all previous methods, and Mr. Dennison gave an instance in his own experience when he provided an improvement on the method of removing and replacing motor tires.

Patents were often at fault in the poor language in which the device is described. It is a statement of what has been invented, and there should be no difficulty in settling this if the general principles on which patents are granted are understood.

A patent should never be invested in until it is thoroughly investigated. The question had been raised whether a patent attorney should be a better lawyer or a better mechanic. He ought to be something of a mechanic, something of a chemist, and something of an electrician.

When an employe creates an invention a question has arisen whether it belongs to the employe or the employer. The law is very clear. Unless there is a specific contract to the contrary the patent of an employe is his own property.

Dental student members of Newman Club and their lady friends to the number of two hundred held a very successful dance last evening in their clubrooms on St. Joseph street.

Get Into the Habit of Drinking a Glass of Hot Water Before Breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles, according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon rising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure.

People who feel good one day and badly the next, but who simply can not get feeling, but who are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

In his letter Mr. Biggar says in part: "The memorial will remind us lest we forget that it was thru these brave, loyal patriotic souls, who for humanity and the peace of the world gave their lives, and now lie in Flanders fields, where poppies grow between the crosses row on row, who for our tomorrow gave their today."

R. A. Cassidy, the campaign director, stated yesterday that the campaign fund was swelling rapidly and that the objective would be reached with ease.

Publishing a Great Magazine Without Typesetters

The members of the typographical union, which prints THE LITERARY DIGEST and practically all other magazines published in New York City, presented demands to the employing printers on October 1st which were so radical that they could not be acceded to. While negotiations were still pending, the typesetters, without notice, went on a "vacation" and are still out, in direct defiance of the order of their own union chief to return to work.

The International heads of the typographical union have disavowed the action of the New York local union men and have refused International support.

For this reason it has become necessary to issue THE LITERARY DIGEST *without the assistance of typesetters*. We believe this is the first case on record where a million copies of a great magazine of eighty pages, with handsome colored covers, have been issued without the typesetters. How the "Digest" for October 25th was published will be readily understood by those familiar with modern typographical practise. To others it will be an interesting puzzle which we will not spoil as yet by explanation.

Revolutionizing the Publication Business

There is one phase of this experiment, however, that has deep significance, not only for the publishing fraternity, but to the public at large. As stern necessity is oftentimes the mother of invention, it is not impossible that in this age of marvels the whole future of magazine publication may be revolutionized by the elimination of what has hitherto been its costliest operation—the typesetting. The present departure, as shown by the "Digest" in this week's issue, now on sale, will certainly furnish a basis for many other experiments to this end.

Whenever any class of men or women refuses to keep faith with society, refuses to carry out the terms of its written contracts, society will somehow find ways nevertheless to get its business done.

This is one lesson of the present situation—and a wholesome one.

Wholly aside from its novel appearance, the October 25th number of the LITERARY DIGEST is of unusual interest. It is packed from cover with live news, covering many fields of human endeavor.

RAILWAY STOCKS AGAIN IN DEMAND

New York Market is Less Active, But Shows Steadier Tendency.

New York, Oct. 24.—The most reassuring feature of today's less active but far more orderly stock market was the greater ease of money and the steady accumulation at substantial advances of high and low-grade railroad shares.

Call money opened at 5 per cent., the lowest initial rate in several weeks, and more noteworthy since all loans held over until next Monday.

The demand for transportation was so general as to give rise to the impression that developments of the highest importance affecting those properties may soon issue from the office of Director-General

Outstanding features of the railroad list included Reading, which advanced 1/2 at gains of three to five points.

Prices in the general list were irregular at the opening, pressure being exerted by the short interest, probably as a result of the dissolution of the industrial conference, with its attendant complications.

The bond market was again irregular, with moderate reactions in several of the rail and industrial issues.

Hollinger Makes Strong Rally—Wave of Selling Depresses Beaver.

Trading in the mining market yesterday was more active than on any previous day of the week, nearly 150,000 shares changing hands, and the tendency toward firmness, with, however, sufficient number of soft spots to give variety to the proceedings.

Hollinger displayed a strong rallying trend in the last ten minutes of trading, closing at the top, McIntyre was quiet but firm at the top of the company's meeting yesterday, a report of which will be found elsewhere.

TORONTO MARKET'S ACTIVITY SLACKENS

Maple Leaf and N. S. Car Preferred Strong—General Trend is Irregular.

The bull drive in stocks on the Toronto, as on the Montreal market, lost most of its momentum yesterday. Local activity slackened in activity, rather than a reactionary tendency measured by the growing weakness of traders, and while 34 issues, exclusive of mining stocks, were dealt in, many of them were represented by broken lots only.

Cement, Barcelona, Steel of Canada and other issues were the only stocks to attain the dignity of a market in the sales list. The first named reacted 1/2 to 7/8, while Barcelona had its undermost to a point to 3/4.

Maple Leaf and N. S. Car preferred were the outstanding strong issues. The former rallied three points to 84, but is still five points below its recent high.

Announcement several days ago that a deal in the N. S. Car figures is again on the tapis, caused no flutter whatsoever, but yesterday the preferred stock had a better rise of 1/2 to 45.

On the curb Waygamacq distinguished itself by coming strong at 82 1/2, shooting up to 89, following the lead of Montreal, where 6200 shares were traded.

The war loans were in better demand than on Thursday with prices steady. The N.Y. A.Y. B. Car figures is again including 550 mining stocks; war loans, \$176,700.

Are You Following the Upward Trend of SILVER METAL PRICES?

STUDY THE CHART

It graphically portrays Silver's wonderful upward swing. Since 1915 the price of the precious white metal has advanced about 140% and Silver is still headed upward.

From an average price of 48.7c per ounce in 1915, Silver has been steadily climbing, a few days ago reaching \$1.10 per ounce, the highest figure in decades.

Why Is Silver Going Up? Because the world faces an annual shortage of 100,000,000 ounces. Whereas the demand for 1919 is estimated at between 400,000,000 and 500,000,000 ounces.
