In itself a tonic and table water par excel-
lence-mixes perfectly with the most deli-
cate wines and liquors, adding zest without
affecting flavor. Perfect also in combina-
tion with milk.

GRUBS OF COMFORT

Which The New York Tribune
Has Been Able to Find.

SINGLE QUESTION SETTLED

Is Ample Justification for the Exist-
ence of the Commission.

Value of the Negotiations Not to Be Measured by the Number of Questions Settled—The Spirit Has Been Conciliatory and Amicable—Commissioners Have Met as Friends and Good Relations Have Been Strengthened and the Way Made Easier for Future Negotiations.

New York, Feb. 17.—Referring editorially to the reported failure of the Joint High Commission, The Tribune today says: "In enumerating the controversial issues at the time of the first meeting of the commission, we remarked that it was scarcely to be expected that all of them would be satisfactorily disposed of. It was not reasonable, indeed, to suppose they would be. The amount of work involved in exhaustive investigation and discussion of them was seen to be too great for a single commission to perform within the time at this one's disposal. Commercial reciprocity, Behring Sea sealing, North Atlantic fisheries, the Alaskan boundary, Klondike mining laws, alien labor laws, fisheries and shipping in the Great Lakes, the railroad bonding system, are all questions of first-rate importance, and there are as many more of secondary rank. To ask a single commission to settle all these questions in a few months is to ask the impossible. The settlement of them all in an omnibus treaty would be to ask the discovery of Eltopia."

"But, if only a few, or even a single one, of the matters shall be settled, the work of the commission will not be in vain. Consider how much time and labor and expense have hitherto been expended on a single one. Over the Behring Sea business we had negotiations and conferences and an international court of arbitration, and even then the question was left unsettled. There was a few years ago far more discussion and work over the North Atlantic fisheries than this commission has given to all the questions put together; so, the settlement of only one or two disputes will be a not unsatisfactory conclusion of the commission's work. But there is still ground for expecting more than that—for expecting, indeed, that only a few, perhaps only one or two, of the questions will be left unsettled."

The Spirit to Be Considered.
"The value of the commission's work is, moreover, not altogether to be measured by the number of questions settled. The spirit in which things are conducted must be taken into account. It may be stated confidently that the spirit has been conciliatory and amicable. There has been on both sides an earnest desire to reach an agreement. The commissioners have met as friends, not as enemies; and, however much or little actually has been or shall be transacted, friendly relations between the countries have been strengthened and the way made easier for future settlement of questions which may now be left unsettled. That is a feature of the case which it is well to keep in mind, and if that be done there will be little talk about the 'failure' of the Joint High Commission."

Negotiations Still Pending.
London, Feb. 17.—In the House of Commons today, Mr. Charles K. D. Tanner, M.P., asked if the Anglo-American commission dealing with the fisheries had "fallen through."

The Parliamentary Secretary of the Foreign Office said the negotiations were still proceeding, adding that he was unable to make any further statement at present.

ANOTHER POSTPONEMENT
Is Now Talked of—Alaska Port Conceded—Mr. Foster Goes South

Montreal, Feb. 17.—(Special.)—The Herald publishes the following special from Washington, dated to-day:
All the members of the Anglo-American Joint High Commission met as usual at 10 o'clock this morning. The Canadian Commissioners, however, contrary to the rule observed for several days, did not leave the meeting immediately, but remained in conference with the American Commissioners for two hours. The impression was given after the meeting that very little progress was made, the discussion being somewhat narrowly confined to the subject of British rights in Alaska, without reaching any conclusion.

The important statement was made this morning that in all probability the commission would cease its labors for the present within a short time without having prepared a treaty for submission to the United States Senate. If such proves to be the case the commissioners will not allow the announcement to go forth that the negotiations have failed permanently. It will be stated, rather, that the negotiations have been suffered to rest for a while, the postponement of the official consultation being indefinite probably.

Alaska Port Granted.
Whether this will in the end prove to be the failure of the negotiations is a matter of opinion. The American Commissioners have consented to grant a port to the British Government on the Lynn Canal in Alaska, but the unexpected result of this concession was not to satisfy the Canadian members of the Joint High Commission. All the propositions of the Canadian members are now being submitted in writing as the points come up for discussion, and

Special Note Room
nothing of the kind was presented for oral presentation. The propositions in favor of each. This accounts for the fact that for some time the joint meetings of the commission have been of short duration. Such oral discussion as takes place is of a supplementary kind.

Foster Goes South.
John W. Foster of the American Commission will leave Washington to-day for Florida for the benefit of his health. He will be absent about two weeks, and it is said by a member of the commission that the negotiations will probably be ended or suspended for the present before his return.

MAKING STEADY PROGRESS.
An American Commissioner Says—Conclusion at Ottawa.

Washington, Feb. 17.—The Canadian Joint High Commission was in session to-day. There was nothing whatever in the proceedings to give rise to the belief that any disagreement had been reached which would involve the dissolution of the conference at this point. On the contrary, according to one of the American commissioners, the commission is making steady progress.

The Americans are still considering the proposal to arbitrate the Alaskan boundary dispute. Senator Fairbanks announced that he would not be able to give an answer before to-morrow. An hour was spent in general discussion. Sir Wilfrid Laurier declared that he could stay in Washington but a few days longer. Unless the negotiations could be speedily concluded the commission would have to adjourn.

Several suggestions are now under consideration, among them the proposal that two or three members of the Canadian Cabinet be brought from Ottawa to Washington. In this way preparation may be made for the opening of the Dominion Parliament without necessitating the immediate departure of Sir Wilfrid Laurier and his colleagues for Ottawa.

If there is an adjournment, the negotiations will be concluded at Ottawa. At this moment the commissioners are unable to arrive on any definite line of action. There are urgent reasons for the ratification of the Behring Sea settlement. Unless the sealers are given some assurance that the indemnity will be paid within a few weeks, they will at once resume pelagic sealing, which means more American patrol with its attendant irritation and expense. The proposal has been made that such questions as are settled, or can be settled at once, be inserted in a treaty, leaving the Alaskan boundary dispute and perhaps reciprocity for future consideration. Just now the commissioners are in a quandary. The only satisfactory solution of the difficulties is an immediate reply from the Americans concerning the Alaskan boundary.

No Instructions to Herschell.
London, Feb. 17.—Mr. Amshel, Private Secretary to Colonial Secretary Chamberlain, says Mr. Chamberlain has not instructed Lord Herschell to make concessions on behalf of Great Britain or anything of the kind. The Foreign Office authorities look forward to an amicable arrangement as a result of the work of the commission. The only difficulty is the Alaskan question, which the Foreign Office believes is to be satisfactorily settled.

THE WORLD'S BUSINESS TRACK
Is Worth Money These Days—How Mr. Treble Is Said to Be a Winner.

The world spoke to a prominent business man yesterday, who discussed the proposed moving of the G.T.R. offices to the Lawler building, in the premises now occupied by Mr. J. M. Treble.

WILL THE VAULT BE OPENED?
Court of Queen's Bench Grants an Order to Prohibit Druce Vault From Being Tapped.

London, Feb. 17.—The Queen's Bench Division of the High Court of Justice to-day granted a rule to prohibit the order of the Secretary of State for the Colonies, allowing the opening of the Druce vault in Highgate cemetery, being carried into effect without the sanction of the Secretary of State for Home Affairs. The attitude of the Home Secretary is not yet known.

EIGHTY-ONE LOCOMOTIVES.
The Baldwin Works Have a Large Order From China.

Philadelphia, Feb. 17.—The Baldwin Locomotive Works have just closed a contract for the building of 81 locomotives, the largest single order ever received by the company. The locomotives are for use on new railroads now under construction in China, the contract was under consideration about a year ago, but the breaking out of the war with Spain opened up such an element of doubt regarding the safe delivery of the engines that the matter was dropped for the time. Negotiations were recently renewed, and have just been brought to a conclusion.

Edwards and Hart-Smith, Chartered Accountants, Bank of Commerce Building, G.E.

To-Day's Program.

BRITAIN'S PACIFIC PLANS.

Esquimaux is to be Put on the Same Solid Fighting Basis as Halifax,

AND A BIG MILITARY ENTREPOT

Is to Be Established There and 4000 Men to Be Stationed at Work Point.

Victoria, B.C., Feb. 17.—A large garrison, consisting of 4000 or 5000 men and representing every arm of the service, excepting that of the cavalry—a system of fortification, submarine mines, and other engineering works sufficient to make Esquimaux one of the very strongest posts in the world, wide system of British military stations—and a depot of supplies in every way equal to the strenuous demands upon it which a war in Eastern waters and Oriental lands would involve—these are among the developments which show in a position to prognosticate a great future for Esquimaux, three or four years of arrangements now being perfected in the War Office at London.

War Department to Do It.

Five years ago an arrangement was made with the Admiralty by the War Office, whereby they provided for the garrison at Work Point, a detachment of the Royal Marine Infantry. That arrangement expires on March 31, about six weeks hence, and as the Admiralty are understood to be opposed to a renewal of the arrangement, other dispositions will have to be made for the proper manning of the forts by the authorities at home, and there seems little reason to doubt that a regular detachment of garrison artillery will shortly be on the way to supply the place vacated by the Marine Artillery, who shortly return to England.

A Great Naval Depot.

This large force will not at once be dispatched here, and it is unlikely that the transfer is made in March a larger detachment than one or two officers and a handful of men will march into quarters at Work Point. But if the opinions of military men are to be relied upon, the force will be steadily augmented until the station assumes the proportions of a great naval depot, with arms and munitions of war sufficient to equip the forces, which may have to be supplied from here.

An Important Point.

One reason why the contemplated change will not take place at once is because the accommodation at the Point is at present so extremely limited that a larger force than the present one cannot be quartered there. But the principal reason, perhaps, is that England is just now paying particular attention to strengthening her position at Wei-Hai-Wei, and is concentrating her energies upon making that point equal in strength to those of her other Asiatic military stations. But the forbidding aspect of her foreign relations in that quarter only emphasizes the importance of Esquimaux as a tactical base, and as a depot of supplies for the fleet and land forces which it may be found necessary to employ in that quarter.

A Battalion of Infantry.

In addition to the Engineers and Garrison Artillery, it is considered probable that a battalion of infantry as well will, in two or three years, contribute part of the garrison here. Such a step would involve the construction of a small town of barracks rooms, hospitals, store rooms, etc., and would make things exceedingly lively there. Work is being steadily prosecuted at the Point, and quick-firing batteries are now in course of construction on both sides of the harbor. These will be mounted as soon as the guns arrive from the Ordnance department at headquarters.

Whatever course may be adopted at present by the home authorities the impression is well defined among the force here that this point will shortly be placed on the same fighting basis as Halifax, and will be manned and equipped in a manner consistent with its great importance to Imperial interests in the North Pacific and the Far East.

SPEAKER A COAL MINER
Joe Martin Keen a Thing of Two When He Selected Thomas Forster as the Man.

Vancouver, B.C., Feb. 17.—The Provincial Legislature has just elected a man who was until recently a coal miner to be its next Speaker. He is Thomas Forster, a Northumbrian by birth. Many other well-known British Columbian men of prominence started life in the coal mines, but Mr. Forster stuck to his work until only a few years ago, when he was returned by his co-workers to represent them in the Legislature.

A Diphtheria Epidemic.
Woodstock, Feb. 17.—The several cases of diphtheria prevalent in Burgessville and vicinity have caused some alarm amongst the villagers. The Woodstock doctors who have been in attendance on one of the cases say that there is an epidemic. A 15-year-old daughter of Mr. Stark was the first victim, and yesterday no less than three cases developed in the home of John Pollard, about two miles from Burgessville.

Electric Railway Wires Tapped to Drill the Outside Door of Bank Vault.

Possibility That Such Will Be Accomplished Before the Year is Out.

SAFE WAS BLOWN TO PIECES, SEVERAL CANADIANS AND AMERICANS

But They Failed to Get at the Cash, Evidently From Lack of Time.

Overin, Ohio, Feb. 17.—Oremsmen gained entrance to the vault of the Oberlin Banking Company between midnight and 3 o'clock this morning. The robbers connected the trolley wire of the Cleveland, Berea, Elyria and Ohio Electric Road, which runs directly past the bank, to a drill machine to operate on the outside door of the vault. After forcing this door the robbers inserted a big charge of powder and blew the interior of the vault into a thousand pieces. The walls on all sides were badly shattered, plastering was torn off and the vault doors were blown over 20 feet out of the fittings. However, no money was secured, as the robbers failed to get into the big safe, evidently for lack of time. The papers and books inside the vault were damaged beyond recognition. The perpetrators are unknown.

A VALUABLE SPANIEL.
A Philadelphia Man Imports Bridford Morda for the Dog Show.

Philadelphia, Feb. 17.—The prize winning field spaniel Bridford Morda has just arrived here from England. She was imported by Marcel A. Vill of this city for breeding as well as exhibition purposes, and is from the kennel of Mr. Woodland, which is admittedly the best field spaniel kennel in England.

Rossland News.
Iron Colt, Evening Star and Other Properties Under Development—Stocks Advancing.

Rossland, Feb. 17.—(Special.)—Work was resumed to-day on the Iron Colt property. It is proposed to cut out a station in the tunnel on the 320-foot level, and sink a shaft 100 feet.

Back From Tampa.
The boys will be back to-day just in time to take advantage of our big sale. Any tie in our store 25c, except our regular dollar ties. These we will sell at 50c each. Don't miss this chance. Assortment of suits, shirts, bowties and neckties, all one price 25c. Suspenders, 50c.

COOK'S Turkish and Russian Baths.
Open all night, 247 and 248 King St. W.

Today there is an announcement of a reception of the newest styles for the winter season of men's early spring hats, at Dime's. There are new soft felts and stiff shells, in round and square crowns, in various colors, and in all the latest styles. These hats of the regular spring styles are made in choice, dressy effects, and the qualities are richer than any that have ever been offered at the prices—\$2.50 and \$3. Gentlemen who prefer a removal of water-weights through the raw months of early spring will find some very choice quality hats at Dime's, which were sold at 50c a week ago, marked down to 25c and 25c to-night. Dime's remains open until 10 o'clock.

With warmer weather in sight a lady's gloves will not be so easily gotten out of the mind as you like to know that your gloves are clean looking. We clean gloves in the most satisfactory manner—no artificial and exciting dyes. We clean them in the most satisfactory manner—no artificial and exciting dyes. We clean them in the most satisfactory manner—no artificial and exciting dyes.

Important to Builders.
Choice residence and factory sites in all parts of the city, from \$10 to \$50 per foot frontage, any required depth. Terms to suit purchasers. Necessary financial arrangements made. J. L. Troy, 50 Adelaide east.

A SURE CURE FOR GRIPPE.
Dr. Evans' Laxative Grippe Capsules cure Grippe in a few hours. First dose gives relief; 25 cents, all druggists.

Armeda Tea has the Flavor.

WHO'LL BE THE NEXT?

Three Candidates Named for the French Presidency.

M. LOUBET THE FAVORITE

But the Military Party Appears to Favor M. Meline.

Senators Consider Loubet Sure of Election—Premier Dupuy Also Has Friends, But Declines to Stand Against Loubet—Something About the Opposing Candidates—Loubet's Past Record Against Him, But Fortunately He "Has No History."

Paris, Feb. 17.—At a meeting of the Leftist Senators to-day M. Loubet, the President of the Senate and former Premier, was unanimously nominated for the Presidency of France, in succession to the late President Faure. The Senators consider M. Loubet's election assured.

M. Emile Loubet, who is about 61 years of age, was born in the Department of Doune, and began his political career in 1878. In 1892 he formed a Ministry, but was overthrown on account of the Panama revelations. He was re-elected President of the Senate on Jan. 12 last.

Meline Has Friends.
Paris, Feb. 17.—At a meeting of 80 Progressist Republicans to-day the candidature of M. Meline, the former Premier, as a successor of the late President Faure, was adopted.

Later in the day it was announced that M. Meline, in spite of the objections of his supporters, had withdrawn his candidature in favor of M. Loubet.

Dupuy Will Not Stand.
Paris, Feb. 17.—M. Dupuy has declined to enter the Presidential contest against M. Loubet. At the meeting of the Cabinet this afternoon M. Dupuy announced that 6000 photographs of the Duc d'Orleans had been seized on the frontier.

Feeling is Divided.
Paris, Feb. 17.—Although M. Loubet, possessing the almost unanimous support of the Senate, is so strong a favorite for the Presidency it would be rash to predict his election. In the election of 1895, when M. Faure was chosen, M. Waldeck-Rousseau was an almost equally hot favorite; but in the first ballot he obtained only 185 votes, as against 644 cast in favor of M. Brisson. The precedents, therefore, are unfavorable to M. Loubet.

Army Wants Meline.
Furthermore, there is a large section of Deputies who are strongly in favor of M. Meline. When, at the meeting of Progressive Republican Deputies to-day, Mr. Meline announced his withdrawal on the ground

Continued on Page 5.

\$150,000 FOR KITCHENER.
British House of Commons Will Be Asked to Vote That Sum for the Strider.

London, Feb. 17.—The Chancellor of the Exchequer, Sir Michael Hicks-Beach, announced in the Commons to-day that the House would be asked to vote \$150,000 for Gen. Lord Kitchener of Khartoum, which sum would probably be invested for his benefit.

BUFFALO WANTS CHEAP GAS.
Appeals to the New York Legislature for a Reduction in Price of Lighting.

Albany, Feb. 17.—Assemblyman Kane introduced two bills for Buffalo to-day by unanimous consent, one fixing the price of illuminating gas there at 80 cents and fuel gas at 60 cents, and one to compel the Buffalo street surface railway companies to equip cars with electric heaters.

Feb. 17th, 1899.
The World Up to Date. Electrical N.Y. Review.

One of the liveliest daily exchanges that come to this office is The Toronto, Can., World. It keeps almost up to the times technically as well as politically.

Mildness Continues.
Meteorological Office, Toronto, Ont., Feb. 17.—(8 p. m.)—Pressure is lowest tonight over Lake Superior and highest in the southern States. Mild weather prevails generally, and there is no indication yet of any change.

Minimum and maximum temperatures:
Kamloops, 28—42; Calgary, 22—42; Qu'Appelle, 18—30; Winnipeg, 18—30; Fort Arthur, 28—38; Pelly Sound, 18—30; Toronto, 20—42; Ottawa, 14—40; Montreal, 24—40; Quebec, 6—38; Halifax, 26—38.

Lower Lakes, Georgian Bay, Ottawa Valley, Upper and Lower St. Lawrence, Gulf and Maritime—Moderate to fresh southerly to westerly winds; generally fair and comfortable; a few light, scattered showers.

Lake Superior—Cloudy to fair and occasional mild, light local showers.
Manitoba—Fair and mild; higher temperatures.

Ont. Hill clothiers are making an early display of light and medium weight overcoats for gentlemen, which embody all the latest ideas of style and material. The best coats shown at this King-street case are equal in all respects to the best custom work at about half the price.

A TRAIN TOOK OFF A MAN'S ARM

York Township Agricultural Society's Officers - Many Items From York County.

Toronto Junction, Feb. 17.—(Special)—Fred Gunn of 127 Beccross-st., who was employed as a wiper on a sounding engine in the G.R.P. yards here and at Parkdale, fell off a freight train when passing over the corner of Humbert-st. and Dundas-st. this evening at 5.30, and narrowly escaped serious injury. He had been laid off work for some little time, and got on the train at Parkdale with a chum, for the purpose of trying to get work here again. His chum noticed that he did not seem very sure-footed and tried to warn him, but the wiper was so heavily laden with a box-car to another car that he fell backwards. The train was going at a good speed, and the wiper was hurled into the air, falling with a crash. His right arm was also broken and he was otherwise bruised. The injured man was taken to the hospital, where it was expected that he would be able to get up in a few days.

WOODSPLIT PULLEY IS WITHOUT QUESTION The Standard Wood Pulley

The world over. Some dealers with an axe to grind will tell you they have something just as good as a little less money. This is positively not so. We are proud to prove that the "Dodge" pulley has no name of the bad features so prominent in many of the cheaper makes. Interprising purchasers should avail themselves of our standing offer to call upon them and demonstrate that the "Dodge" pulley is beyond question the "Standard" wood pulley, and away beyond comparison with any other in the line in this market.

GERMAN TO STRIKE AGAIN

The Member for Welland Wants More Definite Information From Premier Hardy

ABOUT THAT POWER MONOPOLY

He Claims That Some of the Figures Given to the Legislative Assembly Were Incorrect.

In conversation with The World yesterday Mr. German M.P. said he was not at all satisfied with the Attorney-General's answers to his questions regarding the Canadian Niagara Power Company...

GOAL IN YUKON DISTRICT.

William Joel is on the way to Ottawa to secure rights on a Location Near Dawson.

Victoria, B.C., Feb. 17.—The steamer Amur arrived this morning. She had news of the discovery of a rich coal mine by William Joel, who was on the steamer en route to Ottawa...

WHERE IS REV. CHARLES KNAPP?

It is a Very Mysterious Case of Disappearance and Cannot Be Understood.

London, Feb. 17.—A mysterious case of disappearance is that of the Rev. Charles Knapp, a clergyman, who, owing to falling health, was obliged to return to England from St. John's, Newfoundland...

WHO OWNS THE CARCASE?

An Interesting Dispute at Paris, Ont., Over the Purchase of a Mare.

Paris, Feb. 17.—Messrs. Archie and John Wilson of Paris purchased a mare from Dr. R. Hamilton on Feb. 1, for the sum of \$80, paying \$5 earnest money...

NOTES FROM KINGSTON.

Work Begun on New St. George's Cathedral—Volunteers Quit Fort Henry Without Notice.

Kingston, Ont., Feb. 17.—Rev. Harold Horser, Ottawa, son of the chief of police, has been called to the pastorate of Calvary Congregational Church, Charles-street, this city.

Last night chicken thieves completely emptied seven hen roosts on Cherry-street.

The workmen began operations on the St. George's Cathedral this morning. Work will be pushed.

This afternoon George Birch, carpenter, George-street, died from pneumonia.

Mrs. Stokes, wife of Capt. R. H. S. Stokes of the Royal Navy, returned to Kingston yesterday and spent a short time with her father, Isaac Simpson, King-street.

Eleven volunteers of No. 2 Company, 47th Battalion, quit Fort Henry this morning. They claim they were not properly clothed, fed and quarantined.

They went to bed hungry and spent sleepless nights trying to keep warm. The men belong to Kingston, though the Sydney Company. They say they were not sworn in and had not signed the roll. They will likely be court-martialed.

TIRED OF THE STATES.

The Outlook is That There Will Be a Big Spring Rush From the U. S. to Manitoba.

Winnipeg, Feb. 17.—The spring rush of immigration seems to have set in earlier than usual. The authorities were so somewhat puzzled to find accommodation for a number of settlers who arrived from different points...

A number of English immigrants and a family from Minnesota went to Dauphin; and a detachment from Wisconsin and Missouri, composed of George Davis and George McAllister of Madison, Wis., R. Davis from Mansfield, Wis., and W. McAllister and H. McAllister of Swan River district.

They intend entering for homesteads in that section, and have authority to make entries for a number of their friends. The present indications are that there will be a large number of immigrants from the United States to Manitoba this spring.

A Presentation. On Thursday evening last about 200 members of the St. George's Young Men's class in Trinity Methodist Church, met in the parlors of the church and presented Miss M. A. McCullough, A.T.C.M., with a beautiful gold watch and chain, hand-embroidered by Miss McCullough, has acted as organist and secretary of the class for the last ten years, and the members took this opportunity of showing their appreciation of her faithful services.

Another Little Tot. A one-month-old female infant was found last night by Miss Woodward on the steps of 111 Grace-street. The police were notified and the foundling was taken to the Infants' Home. It was warmly clad.

The Dyke Cure for Alcoholism is a healthy, safe, inexpensive, no-pain treatment. No hypodermic injections, no pills, no loss of time from business and no confinement.

DR. McTAGGART, 428 Park-avenue, London, E.C. References as to Dr. McTaggart's professional standing and personal integrity permitted by Sir W. B. Meredith, Chief Justice; Hon. G. W. Ross, Minister of Education; G. W. Yarker, Banker; H. S. Strath, Manager, Traders' Bank.

MILLER IN THE LEAD.

Gimm Second and Slated to Soon Take First Place—Pierce Only Sixth.

San Francisco, Feb. 17.—At the end of the 67th hour thirteen riders still remain in the international six-day bicycle race. Gimm's lead over Miller and the lead has been reduced slightly. He is now 32 miles in front of Miller, but is riding strong. In the 68th hour, when 24 miles to the good, Gimm left the track for an hour's sleep. On returning he took the initiative, and started a gallop for Miller. The Calabazon tired of following and tried to run away. Gimm trailed, the game he had worked so persistently since the start of the race. Pierce, in the 67th hour, started a lively sprint. Gimm trailed the Canadian, and Miller and another hare chase. Then Miller left the track for a rest. He claims that team work is being done against him. The recovery of Pierce came as a surprise to many, who had thought him out of the race. Aronson is doing good work. Fredericks is gaining form. The riders are all in splendid shape.

The score at the 67th hour, compared with the record of 1002 miles 737 yards made by Miller, is as follows: Gimm 1583.7, Miller 1171.3, Fredericks 1123.8, Aronson 1123.2, Hale 1022.2, Pierce 983.2, Nawn 1076.6, Albert 1033.7, Barnaby 1033.5, Piddington 968, Lawson 970.2, Ashinger 923.3, Johns 883.7.

CRESCENT A. C.'S 40 ROUNDS.

Evenly-Matched Boxing Bouts for Next Saturday Night's Show.

The Crescent A.C.'s boxing bill for next Saturday night promises to be the best of the season, though 40 rounds seem a long game for one entertainment. The club gave the show to try out its three champions.

Andy Ward promptly accepted his match, although Joe Youngs is an old campaigner, with a long string of victories, and their 15 rounds should prove a hard and fast fight, especially as the winner is to be matched with Jim Popp.

Ed, Lenny, who meets Luke Burke, is one of the best of his class in the business. Jimmy Dougherty, who trained Jack Bennett for his bout with Kerwin, is Lenny's manager, and is confident that his boy will beat Burke. A lot of Philadelphia money will be here to bet against Burke. General satisfaction is felt over this match, as the pair are well together, clever and hard hitters. Barry may not take on Jesse, in which case Lenny and Burke will go 20 rounds.

Baseball Brevities.

Eight men on the Boston team receive the salary limit or more. Tenny, Lowe, Lonz, Gollins, Bergen and Hamilton get \$2400, Captain Duffy \$2750 and Nichols \$3000.

Manager Seale of Boston is trying to sign Bug Holliday of Cincinnati for the Worcester Eastern League team, and not to play with the champions, as first reported. Many exchanges. And still they say Worcester is not a Hub farm.

Billy Cramer will probably be a member of Buffalo's Western League team this year. This announcement by President Franklin will be received with delight by the local fans, with whom "Derby Day" has always been popular. He is the best pitcher they had won twice previously. Dr. Harry of Kingston refereed the game in a highly satisfactory manner.

Belleville's Corby Cup.

Belleville, Feb. 17.—The final game in the Quinte Hockey League, which decides the league championship and the ownership of the Corby Cup, was played here to-day between the local team and Napanee. At a very fast and exciting game the home team won by 8 goals to 6. This gives them the ownership of the Corby Cup, which they had won twice previously. Dr. Harry of Kingston refereed the game in a highly satisfactory manner.

Glencoe Has a String of Victories.

Glencoe, Feb. 17.—Glencoe's long string of victories has one more added to it to-day. The team of Chicago, makers of the intermediate series of the west. The playing of Corby was fast but brilliant combination work of the Glencoe forward line placed the game in favor of the home team, with the whistle sounded by a score of 5 to 3.

BEAUTY IN BICYCLES.

Messrs. Bertram, Wilson & Co. Show Some Exceptionally Fine '99 Models.

One of the best displays of bicycles made by any firm in Toronto this season is that of Messrs. Bertram, Wilson & Co., of 53 Yonge-street.

In addition to being the exclusive wholesale agents for (namely, Quebec, New Brunswick, Nova Scotia and Prince Edward Island, for the Gormully & Jeffrey Manufacturing Company of Chicago, makers of the Rambler, and the Shelby Cycle Manufacturing Company of Shelby, Ohio, makers of the Ideal, Messrs. Bertram, Wilson & Co. are also the Toronto representatives of the Pope Manufacturing Company, makers of "the Columbia." In the Pope Manufacturing firm in America, both firms have secured prominent positions in the cycling circles for the past score of years.

Messrs. Bertram, Wilson & Co.'s trade list is a very extensive one. In a large staff of travelers have been on the road since Nov. 15 last, with the result that their wheels are placed in nearly every city and town on their large territory. They have four flats at their premises at 53 Yonge-street that at the present time are pretty well taken up with bicycles, with more arriving almost daily.

As a whole, the bicycle business is, however, they do not propose in any way to neglect the retail trade, and offer prospective customers an exceptionally large assortment in Ramlbers, Columbias, Ideals, and juvenile wheels.

They are located just a few doors below King-street on Yonge-street, and will be pleased to welcome visitors.

SUREST OF ALL

Diamond Dyes Excel all Other Dyestuffs.

FAST TO SOAP AND LIGHT.

These World-Famed Dyes Are Home Favorites.

We have tried to use other dyes, but they did not give us satisfaction. Bought eight packages of your Diamond Dyes to dye our Woolen Yarns; the work was perfect. For dyeing Carpets and Cotton Goods, Diamond Dyes are unequalled.

MRS. FRED. PECK, Windsor, Ont.

Schouberg At Home.

The spacious parlors of the Richardson House presented a pretty appearance last night, when the members of Schouberg L.O.L., 212, and their many friends gathered for the annual "at home." A varied program of dances, interspersed with vocal and instrumental music, constituted the evening's enjoyment. The artists were Miss Carr, Miss Frances Evans, Miss Jennie Evans, Prof. Bohner and Messrs. Alexander and Napolitano. An excellent supper was supplied by Samuel Richardson. The committee in charge of the arrangements was composed of County Master John Hewitt, John H. Pritchard, John Mills, George Chambers, William Somers, John Reeves, Alfred Whitcombe, J. M. Lukeman, N. Richardson, R. J. Cooper, Thomas Moffatt, Daniel Stone, Wray, Phillips and E. J. Walker.

200 Boxes of Tumblers, plain blowdown glass, fine quality, regular price 60c a dozen. Monday a box of half a dozen for... .20

Dare not say much about Glassware. We can't open it out fast enough to satisfy the demand. If you haven't had your share yet, better attend to it at once.

New Spring Dress Stuffs for 1897.

It would be impossible to show everything that's new in Dress Stuffs. What we can do, and are doing, is to gather the best and most worthy fabrics for you, besides giving you a wider and better range to choose from, than you'll find anywhere outside this store in Canada. This must be your best dress goods store. It has been so for many seasons in the past. This year we are going to discount our past efforts at every point of comparison. Watch the department, keep yourself posted on what we are doing, and you'll find your best expectations and our fondest hopes fully realized.

Just now we are showing plenty of novelty and newness that is winning heaps of praise from those who are in a position to judge. We take pleasure in inviting you to come and see the spring stuffs represented by these items:-

48-inch Redfern Cashmere Suitings, a heavy, fine finish material, in new colors of blue, brown, green and grey... 85

48-inch Fine French Venetian Broadcloth Suitings, in splendid range of all new colors... 75

60-inch Jeddburgh Suitings, in plain and two tone combinations and very complete range of shades... 1.00

60-inch Priestley's Covert Suitings, in leading new colors, Ripley finish, unobtainable... 85

48-inch English Venetian Suiting, in new two tone colors, will not shrink or spot with water... 75

Shopping by mail solves the Dress problem for thousands of out-of-town customers. We send samples free of charge to any address and fill orders by mail promptly and satisfactorily.

Three Dollar Trousers at \$1.90. Not many left. So we slice a good bit off the price, and sell them in this way on Monday morning:-

90 only Men's Trousers, of imported English colored worsteds, in dark grey, also grey and black striped patterns, three pockets, good trimmings, sizes 21 to 38 waist, regular price \$3 a pair, Monday... 1.90

A TARIFF, NOT A TREATY, WANTED Canada cannot make the Americans give up anything by means of a treaty. The six months' negotiations at Washington have fully demonstrated that fact, although most of us knew it previously. The only way we can reach them and make them appreciate our arguments is by means of the tariff. Our tariff, although it is only mildly protective, has nevertheless had the effect of bringing into Canada branches of many an American industry. The latest victory of protection over American selfishness is the proposed establishment of two iron smelting furnaces in Ontario, one at Belleville and the other at Midland.

The former is to be started by three or four Americans in company with a couple of local business men. The American gentleman came from Norwich, Connecticut, where they were in the smelting business. They propose now to take up their plant at Norwich and transfer it bodily to Belleville. If Sir Wilfrid Laurier would place an export duty on nickel matte the owners of the New Jersey nickel refinery would follow the example of the Norwich people and either move their plant to this province or duplicate it here. The parties interested in the Midland furnace are from New York, Buffalo and Montreal.

The capacity of the smelter is to be sixty tons of pig iron per day, and the works are to employ 70 men throughout the year, together with over 100 men necessary to handle 40,000 cords of wood per annum, the fuel supposed to be required annually in the production of the necessary charcoal. Presumably this furnace will smelt iron ore from the Canadian beds near Lake Superior. We import from the United States about eighty million dollars' worth of goods a year. Instead of spending his time uselessly at Washington Sir Wilfrid Laurier should be at Ottawa devising a policy to compel the Americans to manufacture the bigger part of these imports in Canada, instead of in the United States. By the adoption of a vigorous protective policy Canada can reduce this excessive bill of imports from the United States by fully 50 per cent. If the Government had sense enough to duplicate the United States tariff for Canada, American firms would be tumbling over one another to get a location in this country. As we have repeatedly told Sir Wilfrid Laurier negotiations with the Americans should be conducted exclusively in Ottawa.

BRAVO, MR. STRATTON! The speech of Mr. Stratton on Thursday during the debate on the address, or the letter part of it at any rate, was a noteworthy one. It was a trumpet call to the Legislature to rise to something higher than mere party squabbling, and address itself to the task of developing the natural resources of New Ontario, of the agricultural, mineral and forest wealth, which there awaits the awakening touch of industry. In dealing with this subject, Mr. Stratton showed the grasp of a statesman, combined with the careful attention to details of the level-headed business man. Upon the development of the Lake Temiscaming, James Bay and Rainy River countries, he held that the future welfare of Old Ontario depends. But he did not stop when he had said this. He showed how this vast territory could be developed and how this development could be made to enrich and build up Canada and particularly Ontario.

In these days trade and population follow rather than precede transportation development, and Mr. Stratton rightly urged that the first step must be to build the needed railways, construct and develop available waterways and open up all necessary means of communication. He dealt with this branch of his subject in no narrow, parochial way. The Ontario and Georgian Bay Railway, the Ottawa and Georgian Bay Canal, railways to open up the James Bay and Rainy River country; the Trent Valley waterway, would all be for the benefit, not of New Ontario alone, but the whole Dominion, and he invited the Legislature to consider the question of their construction in a broad national spirit. He warned the members that while they were discussing such questions as whether a certain sixty thousand dollars should be called "interest" or "subsidy," and while small matters and mere party politics were engaging the attention of our public men, the people of Quebec were moving to enter upon and secure the trade of the vast territory which is naturally ours. As to the cost of the needed transportation lines he showed that it would be paid many times over by the natural wealth they would render available. Evidently Mr. Stratton has closely studied the question of how Ontario's latent wealth can be best developed for the benefit of her people. His declaration that our pulp wood and our minerals should never be exported in the raw or semi-manufactured, but always in the manufactured, state was a wise national economic platform in epitome. He did not, however, content himself with laying down the principle.

Unless the proper precautions are taken, death will lurk in every home. It does the footsteps of husband and wife and children alike. If the husband is an ambitious man, the chances are that he will neglect his health, and take insufficient time to rest, eat and sleep. At first he may feel that trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the nerves and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It cures 98 per cent of all cases of chronic, lingering, bronchial, throat and lung affections. All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of wifehood and maternity. There is an unending cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It fits for wifehood and motherhood. They are sold at all medicine stores. During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babies by Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. SKINNED WITH RED FUR

Was Sighted by the Alesia Two Hundred Miles Off Halifax in Disabled Condition.

ALESIA HAD A ROUGH VOYAGE

Thompson Liner Hurona Being Towed in—Gaspesia Still in the Ice Grip.

Halifax, N.S., Feb. 17.—The Hamburg-American liner steamer Alesia, from Hamburg for Boston, which put in here late last night, and came up from quarantine this morning, reports passing a large first-class steamer in a disabled condition yesterday morning.

The Alesia had a desperate passage of 20 days from Queenstown, her decks being frequently swept by snow.

The Hurona in Tow. The big four-masted steamer American, Capt. McConkey, was sighted in the offing by the Alesia at 2 o'clock this afternoon.

The Gaspesia Still in Ice. A frosty breeze prevents seeing the steamer Gaspesia this morning. The ice is close packed and the wind blows from the southwest.

A SHOCKINGLY SUDDEN CALL.

John Burns, of the Firm of Dudley & Burns, Died Last Night After a Brief Illness.

After lying in a paralyzed state since Wednesday night, Mr. John Burns passed peacefully away last night at 11:15 o'clock at his late residence, 238 East Gerrard-street.

The taking-off of Mr. Burns was sudden, he having been ill for only three days. Last Wednesday Mr. Burns went to his office on Colborne-street, feeling in his usual excellent health.

At 1 o'clock he complained to his partner, Mr. Dudley, of being unwell. He walked only a trifle, and returned to his home that night and after having supper sat up for several hours.

At 10 o'clock Mr. Burns was seized with a stroke of paralysis, while kneeling, and he toppled over to the floor. His children quickly carried him to his bed and Dr. Cameron was immediately summoned.

At this time Mr. Burns was asked as to what physician he wanted, and he replied that he can be taken care of as to who was called.

These were the last words he ever uttered, as his body became paralyzed.

As time wore on his case became hopeless. His family and a number of relatives were all present at the end.

The life of Mr. Burns had been an interesting and useful one. He was born in Newmarket, England, 80 years ago and came to this country at an early age.

He was connected with several small firms, and was a member of the old house company that first instituted Toronto's telephone exchange many years ago.

In 1865, in company with Mr. James Dudley, a printing house was established and deceased was a member of the firm up to the time of his death.

During his 34 years in the printing trade Mr. Burns gained many friends through his affable manner and strict adherence to business. For a number of years he was returning officer for Ward Two. He was a member of Maple Leaf Council, Royal Arcanum, and a constant attendant of Jarvis-street Baptist Church. He leaves a widow and four children, John, William, Sarah and Olive.

His aged father also lives with the family, and a brother, William, is in the Customs House. The funeral will likely be held on Monday afternoon.

"D" Co., Highlanders. D Company, 48th Highlanders, held their annual meeting last night in the Armouries.

A Noted Worker. Mr. Robert E. Speers, the young and talented secretary of the Foreign Mission Board of the Northern Presbyterian Church, is coming to Toronto on Feb. 28, under the auspices of the Presbyterian Volunteers.

Donkshaws Leave Halifax. Halifax, N.S., Feb. 17.—The steamer Lake Superior, which has been in quarantine with 200 Donkshaws for the past three weeks, sailed this afternoon for St. John, where her passengers will be landed and despatched to the west.

Ottawa Is in It. Ottawa, Feb. 17.—Since Toronto declined to hold a military tournament this year, the military men of the Capital have been hustling. It has been decided to hold a big military tournament in this city in June.

Big Catch in Aymer Lake. Ottawa Children: Mr. Louis Durocher of Hull is highly elated and proud over his success as a fisherman. He and Mr. Joseph Lottewick went fishing in Aymer Lake Wednesday, and a big stone loach weighing 34 lbs. was the day's catch.

The Robert SIMPSON Co., Limited

Stylish and Seasonable Garments for Men.

NON-COMBATANTS FITTING HERALD'S SIDE OF THE CASE TOLD

Application of a Filipino Congressman for Passports for His Family.

ALL IS QUIET ALONG THE LINE Heat Affecting American Soldiers — U. S. Jurisdiction Will Be Extended at Once.

Manila, Feb. 17.—(11.20 a.m.)—Mr. O. F. Williams, the former U. S. Consul here, is in receipt of an application from a member of the rebel Congress at Malolos for a pass to enable his family, consisting of twelve persons, who are desirous of taking refuge in Manila, to enter the American lines.

Except for a few shots fired at a small body of rebels who were attempting to destroy the railroad bridge near Calocan, all was quiet along the line last night.

The heat is affecting the American soldiers in the open country to some extent, otherwise the health of the troops shows a marked improvement since the hostilities began.

Will Extend Jurisdiction. Washington, Feb. 17.—The Administration has determined rapidly to extend the jurisdiction of the United States over the whole of the Philippine group, acting on the theory that delay in this case is dangerous, and that anarchy and a general paralysis of such interests as the islands support will be brought about through a failure promptly to replace Spanish sovereignty over the islands by that of the United States.

Mr. Barlow Cumberland Wants to Have It Preserved as a Relic. Ottawa, Feb. 17.—Major-General Hutton is of the opinion that the Old Fort property at Toronto is of great historical interest and that it could be advantageously disposed of, but as yet the Minister of the Interior has not been able to make a formal proposition with that end in view and no proposal has been received for the purchase of the property.

SNATCHED FROM A TROLLEY. Chas. M. Henderson Rescues Little Jimmie Coyne.

The eight-year-old son of Mr. James G. Coyne, of the Toronto Electric Co., was rescued from a trolley on the Bay Street line by Charles M. Henderson, the auctioneer, who called him out of a trolley on the Bay Street line yesterday afternoon.

WHERRA AND FULDA BOUGHT For the Yukon Steamship Company by Mr. H. Mattland Kersey.

New York, Feb. 17.—H. Mattland Kersey, now of the Yukon Steamship Company, was a passenger on the Tropic from Liverpool which arrived to-day. While abroad Mr. Kersey negotiated the purchase of the steamships Wherra and Fulda, and as soon as those boats have been fixed up they will be run from the Pacific coast to Alaska.

Y. M. C. A. Notes. Mr. Arthur Burson will conduct the men's tennis tournament at the Y. M. C. A. building on Thursday, March 2. Mr. W. Taylor has been appointed to take charge of the tennis department in the absence of Mr. J. T. McLean, who has gone to the hospital to undergo an operation.

Sweet Revenge for Fivelle. Orillia, Feb. 17.—Fivelle got his revenge to-day by beating Mah by one shot. The game was played on the Mahobah train at noon, and lasted an hour and a half, leaving for home on the Midland Railway at 4:30. The game was close and exciting. The final score being 13 to 12.

Emburo Captures the Trophy. Emburo, Feb. 17.—The fourth annual Ross trophy bonspiel took place here yesterday and to-day, the Emburo club carrying off the trophy and a pair of curling stones. The following clubs were on the ice: Bright, Woodstock, Tilsonburg, Emburo, Plattsville, owing to sickness among its members, defaulted to Emburo. The scores are as follows, with the Tilsonburg name friendly: Emburo, 10; Bright, 10; Woodstock, 10; Plattsville, 10; Tilsonburg, 10.

Brampton Beat Milton. Brampton, Feb. 17.—A friendly curling match was played here to-day between Milton and Brampton, with following results: Brampton, 10; Milton, 10.

LADY HALLE CONCERT

Plan on Tuesday next, 9 a.m. Third of the Six Great Concerts.

MR. KINNEAR AT DEATH'S DOOR.

The Well-Known Cattle Dealer's Trouble the Physicians Think Will Prove Fatal.

A feeling of adhesion was cast over the Cattle Market yesterday when it was known that P. Kinnear, the popular and well-known cattle dealer, was at the point of death.

Mr. Kinnear was on the market last Friday and Saturday, doing business as usual, yet he complained of a chilly sensation running all over his body. His doctor told him if the pains and the chills remained to him he would die.

They continued to sicken Mr. Kinnear and Dr. Cotton called a consultation on Monday. A consultation of physicians was held on Tuesday. The operation was being performed, but the patient was found badly perforated, so the need of continuing the operation was at an end. It was seen that it was impossible for the patient to recover.

Mr. Kinnear was born 53 years ago and came to Canada with his father 28 years ago. He and his father for many years engaged in the grocery trade for a few years, but eventually returned to his first occupation.

William Kinnear and Thomas Kinnear of P. Kinnear & Co., grocers, are brothers of P. Kinnear.

Later last night the physician said the patient was a little brighter, but hopes for life were very slim.

Dangerous Coal Gas. The family of Adam Bailey at 11 DeFoe-street narrowly escaped suffocation early yesterday morning by coal gas which escaped from an open stove door.

At 2:30 o'clock by the alarm clock, and if it had not been for that none of the family would have been roused. The gas was full of gas and all the inmates were very sick. They were all roused and soon in a few hours, with the exception of one son, who was in a serious condition for some time.

AN ANTIPIOR ALDERMAN Has a Word of Welcome for the Little Life Savers.

Alderman W. M. Howe from personal experience gives them public endorsement.

From every town and village in the Dominion comes the same story. Prominent people everywhere testing the merits of the little life savers and publicly endorsing them.

This time the attraction centres in Antipior, Ont. People in that town having weak, palpitation, throbbing hearts, troubled with dizziness and dizzy spells, nervousness, sleeplessness or weakness.

Suffering from anemia, pale and sallow complexion, neuralgia, paralysis, St. Vitus' Dance or general debility—Are being cured thoroughly and completely.

Are you making known for the public benefit the way in which they were restored to health.

Mr. W. M. Howe, the well-known Alderman and business man, made the following important statement: "For a long time I have been troubled by a nervousness, sleeplessness and a debilitated condition of the system."

"I have used Milburn's Heart and Nerve Pills with very beneficial results and from my own personal experience can recommend them very highly."

Everybody Milburn's Heart and Nerve Pills are receiving the highest endorsement from the best people. Everywhere they are curing the severest diseases of the heart and nerves and saving many lives.

MINES AND MINING STOCKS

Yesterday's Market Irregular With Advances in Some Issues and Losses in Others.

SOMETHING ABOUT THE PAYNE.

General Mining News - Quotations and Sales on Yesterday's Morning and Afternoon Boards.

On the local mining market to-day Payne and Gold Star each had a set-back of about 10 points and Minnehaha was also easier. Smuggler, White Bear and Rambler-Cariboo were among the issues that maintained an upward tendency.

The Payne Mine.

The mines owned by this company are situated in the Slocan division of British Columbia. So far only one of the four claims owned by the company has been worked and out of this claim the company have already paid \$1,000,000 in dividends, besides paying for all costs of development and equipment out of the earnings of the mine. Of this amount \$400,000 was paid during the eight months ending Dec. 31, which is at an average of \$500,000 a year, an amount which is equal to 10 per cent. on a question of \$5,000,000, being 50 times higher than present quotations. As a matter of fact, the actual net earnings of the mine are now equal to about \$100,000 per month, or \$1,200,000 a year, which leaves a large balance in reserve after dividends at this rate. These dividends have been paid in spite of the fact that all of the ore has been shipped to the United States, the cost of treatment averaging \$2 per ton, besides duty. To give an idea of the amount paid in duty, the company paid up to April 30, 1898, over \$220,000 for this purpose. At the present moment the Hall Mines Company at Nelson, B.C., are erecting a silver lead smelter, and the Canadian Pacific Railway have material at Trail, B.C., and expect shortly to have their silver lead smelter in operation. This will greatly reduce the cost of treating the ore and correspondingly increase the net earnings of the company. The mine has a record for having paid the largest dividends of any company in British Columbia, the last standing dividend being \$250,000, and the War Eagle dividend with less than \$500,000.

The controlling interest is now owned by Canadians, with James Ross, the street railway magnate, at the head of the syndicate. Other interested parties are Hon. J. Penner, Hon. G. A. Tubbs, Hon. R. Wilson-Smith, ex-Mayor of Montreal, Hanson Bros. & Ferguson and McDougall, Byrre & Co.

New Rossland Line Projected.

A. Cassette, B.C., advice received. There is strong talk of the construction of a narrow gauge railway to run from Rossland to the new mining town of Gladstone, which is the place of importance on the Robson-Pentleton branch of the Columbia & Western Railway, between Robson and Cascade. It is said that plans are maturing for the new line, although the matter is being kept quiet for at an early date. The proposed line would run via Norway Mountain, and a rich mineral belt on route, besides giving a second outlet to the rich Burnt Bush mines adjacent to the town of Gladstone, and also giving Rossland a shorter and more direct route into the Boundary country. A gentleman who claims to be in a position to know says that the new road will be constructed during the coming summer, and will possibly be in operation in the fall. The gauge rolling stock now in use between Rossland and Trail, which will not be needed when the standardizing of that line is completed.

Mitchell, Wallace & Co.'s Review. We are pleased to say that so many of our clients secured Golden Star at low prices. On Monday last this stock began its upward movement, and on Thursday sold at 75. It reacted several points yesterday. Hammond Reef is very firm at the advanced price. This stock is very scarce, and therefore the volume of speculation is restricted. All the cheap lots of Smuggler were absorbed, and a good inquiry exists which may lead to higher prices. The silver-lead stocks were in active demand. Noble Five showed the most improvement. This stock is held firm at almost twice the price which prevailed thirty days ago. Rambler-Cariboo was bid up several points. This company will probably pay dividends this winter. The Slocan silver-lead mines ship their product to better advantage in the winter months, the ore being placed in sawhides and drawn down the mountains by mules to the nearest railroad station, where it is shipped to the smelter. Dardanelles has held its own, reports received from the mine being favorable to its making a good showing. Camp McKinney stocks are still to the fore. Minnehaha and Waterloo are in demand at higher prices. Interest in the Rossland lead has revived. Victory-Triumph doubled in price in a few days on the rumor that the company had arranged for the sale of a block of treasury stock to some English parties at a

Reasons for Buying!

OLIVE.

BECAUSE it has been paying REGULAR DIVIDENDS since October. Its capitalization is only 1,000,000 of which nearly one half still remains unaid and in the treasury, and consequently does not rank for dividends. It has the richest ore in the Rainy River District. Mill runs averaging \$40, has larger reserves of ore, is well equipped, carefully managed, and has gone up steadily in price on its merits, never declining a single point since we first put it on the market. It has never been boomed and will go much higher.

GOLDEN STAR.

Because it has entered the list of dividend payers. Has very rich ore, extensive workings and good equipment. Is situated in the same rich district and only about four miles distant from OLIVE. J.O. 41 adjoining Golden Star is also a good buy.

ATHABASCA.

Because it has shown itself one of the richest free milling properties in B.C., is a THOROUGHLY PROVED, FULLY EQUIPPED, READY PRODUCER run by a strong London, Eng. corporation, and has now enough ore in sight to pay dividends for three years, and is adding to its reserves daily. Its dividends will start not later than April, probably with a 2-2 1/2 per cent. dividend.

DARDANELLES.

Because it has been shipping ore containing 200 to 250 ounces of silver and 50 to 60 per cent. lead, has now nearly 600 feet in depth, has improved all the way, and will pay DIVIDENDS inside of three months.

HALL & MURRAY

TEL. 60. (Members Toronto Mining Exchange) 12 TORONTO ARCADE

P.S.—THERE ARE OTHER GOOD BUYS such as NOBLE FIVE, EVENING STAR, B.C. GOLD FIELDS, ORO, VICTORY TRIUMPH, etc. We shall be glad to give full information and quote prices.

Reference to ORO—Just before sending this advertisement to press we received a telegram from the manager at Oro, saying that Stamp Mill will be ready to run in 12 days, and asking for funds to pay off a number of men. This means that the heavy work of roadmaking, erecting buildings and installing machinery is ended, that expenses will be cut down and still more energy put into developing of the company's mines. We have sold a great deal of this stock recently and have plenty of funds in the treasury.

BUY ORO MINING AND MILLING COMPANY

A telegram received a few days ago advises that Oro's Stamp Mill will be working in three weeks. The Oro's Saw Mill has been running some time. The Oro's Golden Wedge claim has about \$20,000 worth of ore blocked out and every additional foot of work done improves the showing. Recent working assays from South Drift No. 1 tunnel gave \$16, \$24.80, \$30, \$69.20. The rich ore of No. 1 tunnel has just been struck in No. 2 tunnel, 100 feet in depth below No. 1.

HALL & MURRAY

TEL. 60. (Members Toronto Mining Exchange) 12 TORONTO ARCADE

NOTE—Just before sending this advertisement to press we received a telegram from the manager at Oro, saying that Stamp Mill will be ready to run in 12 days, and asking for funds to pay off a number of men. This means that the heavy work of roadmaking, erecting buildings and installing machinery is ended, that expenses will be cut down, saving wages of 25 to 30 men, and still more energy put into developing the company's mines. We have sold some very large blocks of this stock this week, and there are plenty of funds in the treasury.

MAUREL, Esq., Fairview, B.C. President. A. R. McINNIS, Esq., Mining Broker, Toronto, Ont.

"BLACK HAWK." A large amount of development work has already been done, and is being proceeded with as rapidly as possible. A large ledge of rich ore cuts this claim in two, and only a limited amount of work will now be necessary to expose enough ore to supply a 50-ton plant. The ledge is well defined and continues across the whole length of the claim, varying in width, but in no place becoming too narrow to accommodate a good sized working shaft or tunnel. The tunnel will be driven to a length of 200 feet, when it will cross-cut the ledge at a depth of 300 feet. When this has been done the company will be ready for a mill with a capacity of 50 tons per day. It is estimated that only six months will be required to develop this property sufficiently to make it a regular dividend payer. Assays all along the workings on the ledge run from \$200 to \$250. A mill cost of about 100 tons will be made as quickly as the ore can be taken to the mill. Arrangements have been made for this run with the Fairview Gold Mining Co., whose mill is situated only one mile from the Black Hawk, the road to the mill being over a level country, and in excellent condition the year round. The location of the Black Hawk, being only a few yards from the river, the position of the ledge on the property (it being accessible at a depth of 300 feet) and a fine mill site immediately at the tunnel's mouth, all go to make this as fine a mining proposition as could be desired.

THE ORE IS MOSTLY FREE MILLING, about 70 per cent. being subject to amalgamation. It contains about 4 per cent. of sulphur, which are readily concentrated and easily saved. The veins have every appearance of being true fissures; the dip is even, strike quite regular, showing gouge between walls. Treatment by the free milling process can be done at a cost of about \$1.50 per ton, while the ore should be mined and delivered at the mill for not more than \$1.25, making total cost of mining and milling \$2.75 per ton.

A SAMPLE OF ORE taken from the dump at the shaft on the 12th of November, 1898, showed an assay value of \$17.90 per ton, and surface samples, picked promiscuously from croppings, have assay values of \$40.20 and \$17.90. The tunnel which is now being driven will cross-cut the ledge upon which the shafts are sunk, at depths of 400 and 500 feet, when length of workings reach a point below the shafts.

Unlike the majority of the mining properties now before the public, this is not a mere untested prospect, but is a property on which substantial development has been made, and results have been obtained amply sufficient to warrant the confidence of investors, and to promise extremely handsome returns. The White Owl, a very promising claim, adjoining the Black Hawk, has also been purchased by the company, and adds much to the value of its stock, in that the dip of the veins carries the ore into this property, giving the company absolute control of the ore body to an enormous depth.

"SILVER NUQUET." Situated about three miles west of Mcnamous Junction, on the main line of the C. P. R. Tests of ore from the workings on a three-foot ledge gave 68 per cent. of lead, and from \$8 to \$11 in silver. The location of the property is most advantageous being along the bank of Shuswap Lake and the track of the Canadian Pacific Railway. The workings are within fifteen feet of the track, and with a short spur from the main line, ore can be loaded upon the cars without adding to the expense of ordinary mining. Transportation charges from this point to the smelters at either Tacoma, Everett or Nelson are about \$4 per ton, while duty and treatment will amount to \$11 more. Add to this the cost of mining, say \$2 per ton, and it will leave a profit over all cost of production and reduction of about \$34 per ton. Work will be begun upon this claim immediately.

Pooled shares are about all taken up, and a small block of treasury stock is now offered at 10 cents per share.

THE ROSSMORE ABANDONED THEY WANT TO DO AS DONE TO

Johnston Liner Was So Battered by the Waves That She Could Not Keep Afloat.

CREW RESCUED BY THE TROJAN.

Rossmore Had Tempestuous Weather From the Outset and Had to Succumb.

New York, Feb. 17.—The Holland Line oil tank steamer Rotterdam, which arrived this morning from the port of the same name, brought 42 members of the crew of the steamer Rossmore, Liverpool for Baltimore, who were rescued in mid-ocean.

The Rossmore, which belonged to the Johnston Line, left Liverpool Jan. 23 for Baltimore with a small cargo of salt and china clay.

A tugger Virginia hauled the Rossmore to the pier, and the vessel was taken to the pier.

The Trojan Appeared.

On Feb. 8 the British steamer Trojan, from Newport News for Glasgow, bore in sight, and in answer to signals, approached and took off the first and third officers and seven crew members.

A Leak Was Started.

Captain Duncanson says that the Rossmore strained and labored so violently in the tremendous seas that started a leak, which could not be stopped, and that when abandoned considerable water was in the holds.

A Very Sad Case.

Belleville Notes.

Belleville, Ont., Feb. 17.—Mr. W. H. Dingle, professor of music in Albert College, and organist of Bridge-street Church, has accepted the position of choir-master in the Douglas Church, Montreal.

Canada Life Assurance Company

52nd ANNUAL MEETING A PROSPEROUS YEAR'S BUSINESS.

Mr. A. G. Ramsay Unanimously Re-Elected President.

AND MR. F. W. GATES VICE-PRESIDENT.

Large Majority of Ballots Cast in Favor of Toronto as Head Office.

There was a large number of shareholders present at the annual meeting of the Canada Life, held on Tuesday last at head office, Hamilton.

At the close of Company's 52nd year the Directors have, to submit their Annual Report, along with the usual Statements of the year's Receipts and Payments, and of the Assets and Liabilities, as at the 31st December last.

During 1898 the applications for assurances were 2380 in number for the sum of \$6,152,704.75. Of these 181 were declined, for \$308,000, the lives not being deemed desirable for the Company's acceptance, and 150 for \$310,845, not being completed, the actual issue of the year was 2049 policies for \$5,473,319.75.

The total business in force at the 31st December last was \$75,256,241.35 of Assurances, under 24,733 policies, with 25,464 lives. The amount paid to policyholders, or their representatives, for policies which became claims by death during the year was \$881,808.88, and for endowment policies which had matured \$120,603.67.

The reserve necessary on account of all the Company's policy risks, and all other liabilities and Capital Stock, as shown by the General Abstract, with the addition of \$225,000 set aside as a special voluntary provision, towards the higher reserve basis to which the lower rates of interest now obtainable make it prudent to look forward, and adding \$30,000 to the Contingent Account, there is left a surplus over all Liabilities amounting to \$1,818,747.89.

During the past year the Company sustained a very great loss by the death of Col. Sir Casimir S. Gzowski, K.C.M.G., who had been on the Board of Directors for twenty-five years.

FINANCIAL ABSTRACT FOR YEAR 1898.

Table with 2 columns: Description and Amount. Includes Premium Income (Net), Expenses, Taxes, Balance, ASSETS JAN. 1st, 1899, LIABILITIES, and Surplus over all Liabilities.

The President, Mr. A. G. Ramsay, in moving the adoption of the report, said: "The annual report by the Directors and the accompanying statements tell the story of the Company's fifty-second year. It is the twenty-fourth year in which I have had the honor as President of submitting a report to you, and it is with the same satisfaction and confidence as I have happily had upon these occasions, and indeed during all the forty years of my connection with the company, that I am able to point to the success and the sound position which the company occupies."

Do as Done to. Mr. Beck of Pentangulishene concurred in the opinion of the previous speakers and thought the Dominion Government should impose a duty on lumber equal to that imposed by the United States Government.

Relieve an Alleged Injustice. The following resolution was then unanimously adopted: That this association reiterates its opinion formerly expressed, that, in the absence of reciprocity in lumber between the United States and Canada, the Dominion Government should impose an import duty on lumber corresponding to the duty imposed by the United States, and thereby remove an injustice which at present exists to Canada and Canadian lumbermen, and that the Management Committee be authorized to press these views upon the Government in the event of the reciprocity negotiations at Washington.

Officers Elected. President: John Bertram; vice-presidents, Mr. James Scott and J. E. Murphy; secretary, W. B. Potter.

After the election Mr. Bertram spoke upon the importance of reforesting the timber districts. The interests of America and Canadian lumbermen were then variously discussed.

Mr. F. W. Gates, Vice-President, seconded the adoption of the report, which was unanimously carried.

On motion, a vote of thanks to the President and Directors for their attention to the interests of the Company during the year was unanimously carried.

A full discussion took place upon the proposed removal of the Head Office of the Company to Toronto and it was moved by Hon. Geo. A. Cox, seconded by Z. A. Lash, Q.C., that in the opinion of this meeting it would be in the interests of the Canada Life Assurance Company that its chief place of business should hereafter be in the City of Toronto.

ENGLEDEE DEAL A FAILURE?

Minister of Crown Lands 'Tells the Assembly That Nothing Was Discovered TO WARRANT ANY DEVELOPMENT.

Government Has Paid Nothing Towards the Sidewalks Surrounding the Normal School.

The Engledee deal is said to have turned out a failure. In the Legislature yesterday afternoon, Mr. Tucker enquired of the Minister, "How much money has the Engledee Company expended during last year in development purposes? Has the company purchased all or any of the 64,000 acres?"

Hon. Mr. Gibson, Minister of Crown Lands, said in reply that \$45,000 had been expended during 1897 and 1898, \$24,970 being expended on Block B. He regretted to say that the prospecting and explorations had not, so far as he had learned, resulted in the discovery of anything specially valuable.

Normal school sidwaks. Mr. Powell asked if the Government had paid for all or any portion of the sidewalks surrounding Toronto Normal and Model Schools. The answer was that no payment had been made.

That Common School Fund. Mr. Matheson asked: "Was the \$63,631.70 of Common School fund, transferred to the Dominion during the past year, paid in cash? If not, what was the date of the order-in-Council authorizing the Dominion to charge the sum as a debt owing by the Province to the Dominion; or, if no such order-in-Council was passed, what authority was given to the Dominion authorities to charge the sum as a debt owing by the Province to the Dominion?"

The Printing Contract. Col. Matheson wants a lot of information from the Government regarding the printing contract and he gave the following notice of motion:

Order of the House for a return of copies of all papers and documents, in relation to the proposed contract for public printing, including specifications, tenders and a comparative statement showing the different

Infuses deliciously—and is harmless to the most sensitive nerves.

Shop early. Encourage grocers' early closing movement.

tenders for each item of the specification, and the estimate of quantities required; also, the total estimated amount of each item.

YESTERDAY'S PETITIONS.

London Y.M.C.A.'s petitioning for incorporation. The Town of Cobourg wants power to exempt from taxes summer hotels, thus encouraging new buildings and improvements also that such hotels should have liquor licenses granted to them for the summer season.

Whitby is applying for permission to loan \$10,000 to a tannery company.

Mr. Fox has handed in a petition from the Incorporated Synod of the Diocese of Toronto praying that an Act may pass empowering the Bishop of the Diocese to suspend or remove an incumbent of any rectory, parish or mission when the interests of the church require such removal and for other purposes.

ASSEMBLY NOTES.

Mr. S. T. Bastedo left last night to arrange difficulties among fishermen in the Essex Peninsula. He will also investigate international conditions.

A large deputation, representing the Gravestock Sanitarium, waited on the Hon. Messrs. Dryden and Davis yesterday urging that the Government make an annual grant of \$10,000 to the bacteriological laboratory, which Mr. Massey has established for the investigation of tuberculosis in Canada.

The Board of Health was notified yesterday that a case of smallpox had broken out in Irish Creek. The nurse, who had been sent from Ottawa to attend the patients, is ill now. All the patients are progressing favorably.

THE PARIS PAPERS SAY

President Faure's Death Commented on in Various Ways, With Some Criticisms.

WAS A LOVER OF CEREMONIAL. A Worthy Man, Obliging and Charitable—Did Much Harm, Says a Republican Sheet.

PARIS, FEB. 17.—All the morning newspapers contain comments upon the sudden death of President Faure last night. They are apparently dictated rather by their own peculiar views of the political situation than by any other considerations.

The Echo de Paris, in the course of a eulogistic obituary, points out that, while President Faure's love of ceremony caused smiles, his attitude was always constitutional. It adds: "The French people will render to the dead Chief of State a tribute of homage and respect, and will express sincere regrets at his death."

The Journal says: "The judgment will be 'honore to his memory.'"

The Petit Parisien says: "Those who knew M. Faure will mourn him. He was a worthy man, obliging and charitable. It was in his nature to be kind to all. He was a former workman, and he lived in the same manner as if he had always lived on the steps of a temple."

The Echo de Paris, in the course of a eulogistic obituary, points out that, while President Faure's love of ceremony caused smiles, his attitude was always constitutional. It adds: "The French people will render to the dead Chief of State a tribute of homage and respect, and will express sincere regrets at his death."

It adds: "The French people will render to the dead Chief of State a tribute of homage and respect, and will express sincere regrets at his death."

The Journal says: "The judgment will be 'honore to his memory.'"

The Petit Parisien says: "Those who knew M. Faure will mourn him. He was a worthy man, obliging and charitable. It was in his nature to be kind to all. He was a former workman, and he lived in the same manner as if he had always lived on the steps of a temple."

The Way to be Well.

If you are ill it is not you alone who suffer, but those who depend upon you, those to whom you are dear—whether you are a man or a woman.

The worst diseases in the world are slight ailments at first. If you are feeling weak, nervous or run down—if you are at all unwell, take

DR. WILLIAMS' PINK PILLS for PALE PEOPLE

and be made bright, active and strong. Recommended by the liberal minded doctor and the trained nurse. But you must get the genuine—substitutes never cured anyone.

CONSTANT FEELING OF LASSITUDE.

From Parrboro, N.S., Leader: There is scarcely a man, woman or child in the busy mining town of Springhill, N. S., who does not know Mr. Moses V. Boss, the trusty agent of A. R. Fulton, dealer in carriages and farm implements.

Two years ago the writer first met Mr. Boss, and was struck with the extreme pallor of his countenance. He seemed, in fact, like one in the deadly grip of consumption.

Recently business again brought him to the home of the writer, but a remarkable change for the better had taken place in the interval. Upon enquiry it was learned that falling health first induced Mr. Boss to go upon the road as salesman in the hope that a change of scene would be beneficial.

The food he ate distressed him, and the weakness and feeling of lassitude became intensified. To use his own words, he was so weak and nervous, and used up, that he felt that he "could have dropped down and gone to sleep anywhere."

Driving tired him and when at home the slightest labor about his farm was irksome. He was in this hopeless and discouraged condition when a friend recommended Dr. Williams' Pink Pills.

He decided to try one box, and before they were gone he found some benefit from them. He then bought four boxes more, and each week found an improvement in his condition.

His stomach ceased to trouble him, the feeling of lassitude troubled him no more, and his labors were no longer irksome. By the time he had finished his fifth box, his health was fully restored, and he has since continued to be excellent, and he is not backward in telling his friends the sterling worth of Dr. Williams' Pink Pills.

The Genuine are sold only in Packages like the one enclosing. WRAPPER PRINTED IN RED.

At all dealers, or direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50.

Weaknesses of men result usually from a long continued abuse of Nature's laws.

Excesses and indiscretions during the tender years of youth and dissipation in after life produce certain private symptoms, covered in a general way by the term Nervous Debility.

In other words, the nerves, glands and organs generally are affected. The treatment MUST, therefore, be one which reaches the entire organism.

The above I submit as based upon my experience of 30 years in the treatment of weaknesses of men. I have here described a condition which drugs can't reach, simply because those which must be employed only stimulate. I use Electricity because it does NOT stimulate.

I use it on account of its being a great natural strengthener. It gets 'way down at the foundation, and builds up gradually, but surely, without danger, and the results I promise to be permanent.

There would be more profit for me in giving you drugs, but I couldn't give you value for your money.

I don't say the ordinary battery will cure. It cannot, because it doesn't generate sufficient volume, nor can you apply it long enough. I am the inventor of the DR. SANDEN ELECTRIC BELT, the great home self-treatment for weak men.

It is a perfect and ideal remedy, because in it I have overcome all the objections to the ordinary battery. It has 18 double cells. Currents instantly felt, though controlled by regulator screw.

You wear it all night for two or three months, and it sends a pleasant, soothing current through the weakened parts. Over 5000 cures during 1897.

Drop in and consult me free of charge, or send for free book, "Three Classes of Men," which explains all. Sent in plain sealed envelope.

DR. C. T. SANDEN, 140 YONGE STREET, TORONTO.

Office Hours—9 to 6.

The Grip wrenched possessed by so many people nowadays has been identified by an expert as the old "Wiley cough."

Obsequies Next Thursday.

Paris, Feb. 17.—The Premier, M. Dupuy, has fixed Feb. 17 for the National Assembly, or Congress, in which the obsequies will be held for a President of the Republic.

The body of the late President, Felix Faure, who died on Feb. 16, will be laid to rest in the Pantheon at 10 o'clock to-morrow afternoon at Versailles.

The obsequies will take place next Thursday in the Cathedral of Notre Dame, and will be followed by a funeral procession to the cemetery of Pere-Lachaise.

M. Casimir Perier, the former President of the Republic, has been elected to the office of President of the Chamber of Deputies.

MR. MCKINLEY'S SYMPATHY. Transmitted by Secretary of State Hay—Mr. Morgan's Expression.

Washington, Feb. 17.—The following was cabled at midnight last night from the Department of State to Ambassador Porter at Detroit:

The President of the United States desires you to convey to the family of the late President McKinley, the sincere and affectionate sympathy of the United States, and this country has a great and noble share in the sorrow of her sister Republic.

Senator Morgan's Motion. Mr. Morgan (Alabama), addressing the Senate, moved that the public works of the late President Faure be placed under the control of the Senate.

CURE DRUNKARDS. Eloquent Words From a Wife Who Rescued Her Husband From a Terrible Habit.

Secretly Gave Him a Remedy in His Coffee and He Now Respects With Her.

Who can doubt that there is a cure for drunkenness when we have such an eloquent and emphatic statement from Mrs. Kate Lynch, 320 Ellis-street, San Francisco, Cal.?

She says: "My husband was a hard drinker, and I never was able to get him out of his habit until I was introduced to a certain medicine. Like most men who drink he was violent and generous when sober, but the rum he usually had the better of him and his wife had to suffer. One day I concluded to try a remedy called Golden Sledge, which I had heard of in a newspaper. I bought a bottle and used it for a few days and put it all in the stocks, and I was cured. I am now a happy wife and my husband is a better man than he was when he was drunk."

The House Stands Vacant. Oakville Star: A remarkable coincidence has occurred in connection with the Patterson family at Drummond. Within a month three Postmaster Pattersons, his wife and housekeeper—have passed away, and the house now stands vacant.

The Same Cough. The grip wrenched possessed by so many people nowadays has been identified by an expert as the old "Wiley cough."

FROM THE LOWER YUKON. Provisions Are Scarce at Rampart City and Fort Hamilton, But Nothing Serious.

Seattle, Wa., Feb. 17.—Advices from the Lower Yukon up to Nov. 26, have been received here. They indicate a scarcity of supplies at Rampart City and Fort Hamilton, but there is no serious shortage.

The stock of butter and sugar will need careful husbanding. There are about 200 people at Fort Hamilton and about 2000 at Rampart City. The general health is excellent.

THE LOSS IS ABOUT \$400,000. Fire in Philadelphia on Thursday Night Caused Serious Destruction of Property.

Philadelphia, Feb. 17.—Fire last night destroyed three six-story buildings on Market-street, below 13th, and a number of smaller structures in the rear, entailing an aggregate loss little short of \$400,000.

Firemen Searching in the Ruins Were Killed—Wanamaker's Store Was Threatened.

Philadelphia, Feb. 17.—Fire last night destroyed three six-story buildings on Market-street, below 13th, and a number of smaller structures in the rear, entailing an aggregate loss little short of \$400,000.

Had a Pleasant Time. Messrs. Corigan, Wilkinson, Dane, Barker, Reburn and Ross, members of the Ladies' Aid, gave a tea and entertainment in the schoolroom of New Richmond Methodist Church, McCaul-street, on Thursday evening.

A Brand New Light. The Queen's Hotel, always in search of what is original, is now turning night into day after the principle of the perpetual daylight lamp.

Icehouse Collapsed. Greenwood, B.C., Feb. 17.—Several men were injured here by the falling of the roof of McKee's icehouse. It was a serious accident, and his leg broken above the knee.

German Sympathy. Berlin, Feb. 17.—The Imperial Chancellor, Prince Hohenlohe, at the opening of the Reichstag to-day, expressed the sympathy of the German people and Emperor with England, "which," he added, "was the desire of a man who, as chief minister, had never forgotten the great interests of peace and concord and the welfare of nations."

Paragraph for Musicians. Montreal, Feb. 17.—Mr. Samuel Aitken, the Honorary Secretary of the Associated Board of the Royal Academy of Music and the Royal College of Music, will arrive here to-day to complete arrangements for the holding of the examinations in music in the different centres in Canada.

Welcome Gifts. Gifts of tobacco appeal strongly to the hearts of all men who love to smoke. There are many of the Royal Academy of Music and the Royal College of Music, will arrive here to-day to complete arrangements for the holding of the examinations in music in the different centres in Canada.

University Senate. The University Senate met last night and discussed routine affairs. Several matters of importance were not brought up, as the President was not in attendance.

THREE FIREMEN ARE DEAD.

Fire in Philadelphia on Thursday Night Caused Serious Destruction of Property.

\$2,500,000 MICHIGAN TELEPHONE CO. Consolidated Mortgage Gold 5 p.c. Bonds.

Part of an Authorized Issue of \$5,000,000. Dated January 2, 1899. Denomination \$1000. Due January 1, 1929.

The bonds are in coupon form, with provision for registration of the principal. They are practically a First Mortgage, as only \$285,000 of the \$750,000 First Mortgage Bonds originally authorized will remain outstanding.

Table showing average net earnings for five years and subscriber statistics for the Michigan Telephone Company.

We offer the above issue of bonds for subscription at 99 1/4 and accrued interest to date of delivery, payable as follows: 3 per cent. or \$30 per bond on application. 96 1/4 per cent. and accrued interest upon delivery March 15th.

Application will be made to have the bonds listed on the New York and Boston Stock Exchange.

PROPERTY-The structural value of the property as shown on the books of the Company, December 31, 1898, was \$2,127,001.81, upon which Messrs. Stone & Webster, Electrical Engineers, reported at that time.

MANAGEMENT-Control of the Michigan Telephone Company has recently been secured by the Electric Telegraph and Telephone Co., whose proposed policy is outlined in the following letter to us from Mr. Charles J. Glidden, the President of each of the above-mentioned companies:

GENTLEMEN: February 6, 1899. The Board of Directors and Executive Committee of the Michigan Telephone Company authorized the proceeds of the sale to you of \$2,500,000 Consolidated Mortgage Bonds, to be applied as follows:

MORTGAGE-The trust deed provides for a total issue of \$5,000,000 bonds as follows: \$2,500,000 now offered for extensions and to immediately retire \$250,000 First Mortgage Bonds. \$2,500,000 to be reserved by the Trustee for future extensions, and to retire the remaining First Mortgage bonds now outstanding.

LIVERPOOL WHEAT FIRMER.

But the May Option Declined Over a Cent a Bushel

And the July Delivery Followed Suit - Continental Markets Sluggish - Corn More Freely Delivered and Lower in Price - Lent's Effect on Provisions - Local Markets - Notes and Gossip.

Friday Evening, Feb. 17. Liverpool wheat market showed a better tone to-day and futures closed 1/4 cent above yesterday's last quotation. Continental markets were dull and inclined to be heavy. An error in the quotations furnished as yesterday Thursday's closing price of May wheat at Chicago was given as 72 3/4, whereas the figure should have been 73 3/4. Chicago's market to-day (Friday), was heavy, almost from the opening. The volume of trading was lighter than usual. The selling side, as reports from several sources failed to show much damage to crops from the recent cold weather. Both the May and July options closed at near the low point for the day and something like a cent below yesterday's final figures. Liverpool maize futures to-day closed 1/4 cent lower than yesterday. Chicago corn closed in sympathy with wheat and on firmer offerings from the country. Land declined 3/4 at Liverpool to-day. Total clearances to-day: Wheat and flour equal to 276,442 bushels. Exports at New York to-day: Flour 9004 barrels and 1290 sacks; wheat 187,133 bushels. Argentine shipments of wheat this week aggregated 1,246,000 bushels, and corn shipments 80,000 bushels. Wheat receipts the past three days at Liverpool 230,000 tons, including 220,000 tons of American Corn, same quantity, 120,000 tons. Receipts of wheat at Minneapolis and Duluth to-day 304 cars, against 275 cars a year ago.

Michigan Farmers Hold Wheat. Farmers in Michigan are estimated to have sold since Aug. 1, about 10,800,000 bushels of wheat. The Michigan estimate of the wheat crop of 1898 in that state was 34,000,000 bushels. It would appear from these figures that the Michigan farmers have been holding their wheat with something like the same tenacity as has been shown by the farmers of Ontario.

The Increase Explained. The large increase in the visible supply during last week was a surprise to the trade. In view of the large wheat exports from the Atlantic seaboard. The reason appears that the increase was largely fictitious, and arose from the fact that 800,000 bushels of wheat were taken into the report from another elevator at Buffalo, which previously had not been regular. According to Street's compilation of the visible supply, east of the Rockies, has increased 1,375,000 bushels during the week last week, as compared with a decrease, same date, of 6,475,000 bushels. The exports of corn and wheat from the United States, during the week ending Jan. 31, 1899, are reported by the Chief of the Bureau of Statistics at Washington, 10,724,900 bushels of wheat, 1,096,749 bushels of corn, as compared with 10,867,749 bushels of wheat and 1,143,822 bushels of corn during the corresponding period of last season. The flour trade.

The Flour Trade. The flour trade of the Western States is reported as in anything but an encouraging position, not even a fair demand from domestic buyers. Demand from buyers across the waters.

Leading Wheat Markets. Chicago, Feb. 17. Market 80 7/8. St. Louis, Feb. 17. Market 81 3/4. Duluth, No. 1, Feb. 17. Market 80 1/4. Toronto, No. 1, Feb. 17. Market 81 1/2.

GRAIN AND PRODUCE. Flour-Ontario patents, in bags, \$3.00 to \$3.80; straight flour \$3.10 to \$3.25; flour-in-bags, \$3.10 to \$3.80.
