To Unite in Heart as Well as in Name Chamberlain's Aim in His Trip to Africa

Ovation Tendered by Birmingham—Calls Wife Trustee Counsellor—Britain Will Relieve All Suffering—Differences to Be Healed as They Were in Canada.

London, Nov. 17.—Colonial Secretary Chamberlain received a great ovation at Birmingham, where a farewell banquet on the occasion of his departure for South Africa was held in his honor. Members of all parties joined in the demonstration, as the affair was of a non-political character. Mr. Chamberlain was accompanied by his wife and his son.

Responding to a tremendously enthusiastic welcome, the Colonial Secretary paid an affectionate tribute to his American wife, who, he declared, "had sustained him by her courage, and cheered him by her sympathy. He had found in her his best and truest counsellor."

Referring to his trip, he said it was to be a matter of business, and not a mere parade. He could not expect that all the bitterness in South Africa would be out, but he could say this for the government, that they would relieve all suffering.

He was bound on a new venture, and there was a possibility of failure. The government's desire was

to make South Africa one united nation, united in heart as well as in name. Greater differences, he said, had been healed, and he mentioned Canada as an instance.

High Commissioner Milner still retained the confidence of the government. Mr. Chamberlain said he hoped to see the representative of every political section in South Africa. He could then learn more in three days than in a month's study of despatches in the blue books.

He believed that he would be met half way, and that he would gain the friendship of the King's new Boer subjects. He took a very optimistic view regarding the future of South Africa.

On the conclusion of Mr. Chamberlain's speech, a torchlight procession and a fireworks display were held. The streets were packed with thousands of people, who at one point broke thru the barrier erected to keep the crowd back. This incident created some excitement and resulted in slight injuries to a few persons.

Students Will Pay Fines For Three City Policemen

Desire to Show That They Were Not Actuated by Vindictiveness in Their Prosecution of the Mounted Officers.

The medical students of Toronto University yesterday wish to show the citizens of Toronto that vindictiveness was not the motive of their charges against the three policemen accused of assaulting them. This will mean \$18. They refuse to offer their good offices to Sgt. Goulding.

At a special meeting of the Medical Faculty Society of Toronto University yesterday morning, with President George Wilson in the chair, John Leason moved, and John Ferguson seconded, a motion, which carried unanimously, that a subscription list be opened to collect a fund to pay the fines of Policemen Ide, Ward and Guthrie.

The meeting was largely attended. The general sentiment was that the students should be content with their moral victory over the policemen, and that the fines should be assumed by the students. It is not difficult for the society to raise the money, for a membership of 400 and an entrance fee of \$1 a head there are funds in the treasury. They believe that the students will pay the fines and look to

subscriptions around the halls to replenish the treasury.

Dr. Mackenzie, spoken to in regard to the action of the students, approved it.

Policemen Ide, Ward and Guthrie went before Chief Grassett yesterday morning and asked for permission to appeal to the Board of Police Commissioners against the finding in so far as it affects their good conduct pay and their standing for promotion. Chief Grassett thought the request reasonable, and arranged to have the matter discussed at the next meeting of the commissioners. The three policemen, it is understood, have considered the whole matter very carefully, and have made up their minds to tender their resignations if their request is not complied with. They are all young men and of the class that the Board of Police Commissioners find it hard to get just at the present time, when there are so many openings in other lines of business. There are no popular men on the force than Policemen Ward, Ide and Guthrie, and their comrades would be very sorry to lose them. Sgt. Goulding, who was in charge of the mounted squad, and who was also fined, is also highly spoken of by the rank and file of the force. Sgt. Goulding declared last night that he had no ill-feelings against the students, and he believed he could say the same for his men.

OVER \$11,000 FOR MISSIONS

Result of an Appeal to Carry on Work in Manitoba and the Territories.

H. A. MASSEY ESTATE GAVE \$5,000

Address by Hon. Clifford Sifton on Growth of the West—New Settlers Will Remain Loyal.

Contributions amounting to \$11,800 came from a comparatively small gathering in the Metropolitan Church on Monday evening, a substantial evidence of sympathy among Methodists with the movement to raise \$50,000 for missionary work in Manitoba and the Northwest Territories. Of this amount, \$5,000 was subscribed by the Hart A. Massey estate. It was a most encouraging and gratifying response to the appeal, made in aid of the fund for that purpose, and such as to imbue those active in the raising of the fund with the strongest confidence that the sum coming for, if not more, will be forthcoming in the near future.

Chas. D. Massey presided, and among those on the platform were: Rev. Dr. Carman, Rev. A. Sutherland, Rev. Dr. Dewar, N. W. Rowell, K. C. Hon. Clifford Sifton, Rev. Dr. F. J. Senator, Rev. Dr. Briggs, Rev. Dr. F. J. Senator, Rev. Dr. J. E. Jones, Rev. Dr. W. H. Sparrow, and Chancellor Burwash.

Go in Large Numbers.

F. H. Torrington gave an organ recital at the opening of the meeting. Rev. John Potts led in prayer. The chairman then explained the object of the gathering, and called upon Dr. Carman, who spoke on the action of the General Conference in regard to the fund. He pointed out that they had all arisen to the importance of the situation in the west, and the need of approved of the report of the committee. They all felt that immediate action was warranted, because people in the west were not doing as well as they should. When they turned lunatics they did so in a way that was not only a disgrace to the people of Ontario, but also a disgrace to the people of the Empire.

An Immense Field.

N. W. Rowell, K. C., followed with a practical address on "The Home Mission Problem." As an instance of the immense territory that lies to the west of us, he pointed out that from the west of us to the Pacific coast there was an area of land as large as that of old Ontario, not speaking of the frigid zone. The west was bound to be the dominant factor in the future of this Dominion. Nature had planned it so, and the great problem was the question of Imperial defence, important as that question was, but the problem of tariff reform, not the problem of transportation, was the great problem was: What was to be the religious and moral character of the people inhabiting our great west. It was the realization of this that led the Methodist conference last January to take the move it did.

Stand by the Conference.

"The Duty of the Hour" was the title of an address delivered by Rev. A. Sutherland. The reverend gentleman pointed out that the duty of the hour was to stand by the action of the general conference. While they would try to see that their foreign fields would not suffer, but they must stand by the action of the conference. Their main strength would have to be in the home missions, in view of the rapid settlement of our country. In conclusion, he stated that the Methodists of Quebec had expressed their willingness to uphold the action of the conference, as well as those of St. John, N. B., and expressed pleasure at the Presbyterians showing a similar organ unity with them in the work.

Unity of Unhappy Importance.

When the offering had been taken up, Hon. Clifford Sifton, Minister of the Interior, was called upon, and was greeted with applause. At the outset, Hon. Mr. Sifton stated that it was his duty to know that the Methodist Church was adapting its machinery to the conditions and circumstances of the day. Unity with the Presbyterians in the west was the west of the utmost importance. It was to show the growth of Manitoba and the Northwest Territories during the past ten or twelve years, and to show that the increase in population since April last was equal to the total increase of ten years previous to 1901. By the 1st of July, 1902, he predicted that there would be less than 700,000 of a population in Manitoba and the Northwest Territories, with a possibility of it being nothing short of a million. Some newspapers have given a reason for the influx of settlers from the United States, that it was because the United States was all exhausted. Such was not the case, but it was because the people of that country were commencing to become acquainted with the possibilities of our west. They were showing such a growth in population there as the people of Canada hoped for ever since they expended their money in opening

SHOT SEEKING BURGLARS.

Son of Bursar Jaffray of Central Prison Carries a Bullet.

Norman Jaffray, son of Alexander Jaffray, bursar of the Central Prison, accidentally shot himself in the leg while searching for supposed burglars at his home, 17 Pacific-avenue, about midnight last night. The bullet entered the calf of his leg.

Jaffray, who is 20 years of age, thought he heard burglars in the house, and, pulling on his trousers and putting a revolver in his hip pocket, he proceeded to investigate. When he got to the rear door downstairs he found it open and reached for his revolver to be prepared for an emergency. As he did so the weapon was discharged.

The family physician, Dr. J. E. Elliott, was called. Jaffray was removed to the General Hospital, where the bullet was extracted. Young Jaffray is a nephew of Robert Jaffray, president of the Globe Printing Company.

ONE VICTIM OF STOCK CRAZE

Charles H. Cornell Worried Over His Losses and Shot Himself in the Mouth.

DROPPED \$800 IN HIS LAST DEAL

Conducted Prosperous Business Until He Was Caught in Vortex of Speculation.

Fluctuations of the stock market are responsible for the suicide on Monday morning of Charles H. Cornell, at one time a prosperous butcher in this city. Cornell shot himself twice and died in less than half an hour. The dead man was a heavy loser some years ago, and in spite of the advice of his friends he kept on speculating until a month ago, when he lost everything he had left, amounting to \$800 or \$1,000. Since that time Cornell had been very despondent.

Chose Secluded Spot.

The scene of the tragedy was on the Rosedale ravine drive, just west of Huntley-street. A little before 11 o'clock Albert Edward Keaton, 209 Sackville-street, John McLeish, 711 Murray-street, and John Cleaver, 1 Jersey-avenue, were crossing over the Huntley-street bridge. They looked down into the ravine and saw Cornell stagger a few paces. He held in his right hand, in his mouth and attempted to fire it off. The bullet did not explode, and after firing thru the motions of pulling the trigger back again he once more fired into his chest. The three men rushed to his side. Cornell was still living, but gasping for breath and died before Dr. Rose, the ambulance arrived. Policeman Brihan of No. 5 division took charge of his effects, which consisted of the \$2,000 revolver, a little over \$5 in money, a monthly statement from the brokerage firm of J. C. Smith & Co., 11 Leavelle-bldg., and a telegram dated St. Louis, Oct. 20, from the Rialta Grain Securities Co., which read: "I bought the thousand December corn, expect further advance this week."

The body was taken to the Morgue, and coroner J. Milton Cotton was notified of the death. An inquest was held on Monday. The coroner's verdict was that Cornell was suffering from a rupture of the heart, caused by the fall of the heart, caused by the fall of the heart.

REV. HIGH PRICE HUGHES DEAD.

Celebrated Wesleyan Preacher Died in London Yesterday.

London, Nov. 17.—Rev. High Price Hughes, the celebrated Wesleyan preacher, died suddenly in this city yesterday. He was one of the most prominent clergymen in England, and represented his church at the last Ecumenical Conference in Washington.

George Ritchie Maxwell was born at Stonehouse, South Lanarkshire, Scotland, in 1837. He was educated at the parish school and at Glasgow University, and was ordained to the Presbyterian ministry at Wishaw, Lanarkshire. He took great interest in the Social Purity Movement, the Liberal House for Social Philanthropy, and the Katherine House Residence for Young Women. He was president of the Wesleyan Conference of 1898-00, and editor of "The Methodist Times."

BRITAIN HOLDS THREE KINGS

Portugal's Ruler Arrived at Windsor Last Night and Was Greeted by King Edward.

EMPEROR WILLIAM STILL HUNTS

Will Take Luncheon with Lord Rosbery on Friday on Way Home.

London, Nov. 17.—The King of Portugal arrived at Windsor to-night from France to pay a visit to the King and Queen of England.

King Edward, who had come directly from Sandringham, met him at the station. The two monarchs embraced one another most cordially, and then drove to the castle. A great banquet was given at Windsor Castle in honor of the royal guest.

As the present is the first occasion on which King Edward has visited the town of Windsor since his illness, the inhabitants of the royal borough gave him an elaborate reception.

The other ruler at present in England, the German Emperor, had good shooting to-day on the estate of the Earl of Londesdale, whose guest he has been at Lowther Castle since Saturday.

The Emperor will take luncheon with Lord Rosbery at the latter's seat at Dalmeny, the call on Friday, on his way back to Germany. The German Emperor has conferred on the Earl of Londesdale the Order of the Prussian Crown of the first class.

HEART RUPTURED BY FALL.

Edmund G. Tancock's Death Caused by Being Jostled.

London, Nov. 17.—Edmund G. Tancock, formerly of New York City, and a brother of the Rev. H. Tancock of this city, died this morning. Mr. Tancock was a man of 40, and was sufficiently to leave his bed and walk about the hotel. Now he is all intents and purposes a man, although somewhat emaciated. Such rapid recovery from so serious gun shot wounds is rare in the annals of local surgery.

WILL CALL BOYCOTT OFF.

Resigned Monday.

Schenectady, N. Y., Nov. 17.—To-night's developments indicate that tomorrow night the Trades Assembly will probably rescind the order boycotting the Schenectady Railway Company. Forty-two of the members of the Trades Assembly have signed a petition for a meeting, the call expressly stating that the purpose is to reconsider the action taken last Wednesday night, when the boycott was proclaimed. President Jackson stated emphatically to-night that the meeting would declare the boycott off. Later, after an exciting meeting of the Boycott Committee, he was not so emphatic, saying that it was probable that such action would be taken.

EXPLOSION BURNS FIREMEN.

Natural Gas Causes a Fire at Medicine Hat, N.W.T.

Medicine Hat, N.W.T., Nov. 17.—By an explosion of natural gas in the Cotter Terrace to-night, Mrs. Nichols was badly burned. Firemen were called to the scene, and while putting out the fire that had resulted were the victims of another explosion, that hurried them from the second storey window. The ground, James Rae, B. White and J. Nichols were severely burned.

WIRE HER SISTER WAS DEAD.

But Woodstock Man Discovers Chicago Swindlers After Her Him.

Woodstock, Nov. 17.—Julius Debrule, lineman of the Great Northwestern Telegraph Company, received a telegram last Friday from a party in Chicago stating that his sister, Mrs. Josephine Lombard, had died in the county hospital. Mr. Debrule wired back to have the body sent on here and received a reply to the effect that such work as stated had occurred at the hospital in question. He consequently thinks that the party who sent the telegram was endeavoring to dupe him out of his money. It is a couple of months since Mr. Debrule heard from his sister. Her husband died recently. Being ignorant of her address he was unable to communicate with her. He does not believe that she is dead.

HAD TO TAKE BRITISH OATH.

U.S. Residents in Yukon Territory Forced to Swear Allegiance.

New York, Nov. 17.—A special to The Commercial from Tacoma says: About 20 Americans employed in responsible positions at Dawson under the government of the Yukon territory have been required to become naturalized British subjects or step out. A number have taken the oath of allegiance, thereby securing their retention. The government's action resulted from a visit to Dawson this summer of James Smart, Deputy Minister of the Interior. Upon his arrival vigorous complaints were made by the Canadian element against employing Americans.

SIR SANDFORD ON CABLE.

Advocates an All-British News Service—Wants Lower Rate.

Ottawa, Nov. 17.—At a meeting of the Board of Trade this afternoon, Sir Sandford Fleming delivered a speech thanking the board for a motion passed at a previous meeting congratulating him on the completion of the Pacific cable. Sir Sandford strongly advocated an all-British news service, and said that while he was not in a position to sell the cable service at so low a cost, he thought it could be given at a lower rate than that at present obtained. He wanted to see the cable utilized to rid the public of the inconvenience and annoyance of the Eastern Extension Company.

HATCHET IN HIS HEAD.

Chinese Tailor Walks Up and Finds He Has Lost \$100.

Victoria, B.C., Nov. 17.—Look Den, a Chinese tailor and lessee of Chinese Theatre, had his head split with a hatchet as he slept this morning. He will probably die. His assailant stole one hundred dollars from a hiding place beneath the bed, which gives the police the impression that the assailant was well acquainted with his victim, who has been an invalid for some time.

NEARLY DOUBLE IN 4 YEARS

Toronto Bank Clearings Will Exceed Eight Hundred Millions This Year.

PERMANENT MANAGER NECESSARY

Facilities for Handling Exchange Will be Increased in View of Immense Business.

Activity in banking circles as a result of the extraordinary increase in the volume of business has caused the Toronto Clearing House Association to enlarge its facilities for handling the exchange. With the additions of the Royal, the Metropolitan and the Crown banks recently organized the association will number among its members twenty strong financial institutions.

Permanent Manager

At the meeting of the Board of Directors of the organization last week the question of appointing a permanent local manager for the Clearing House was discussed. Two applications were received. The subject was deferred for settlement until the association is ready to occupy its new quarters. At present the clearing house is handled by a permanent secretary to the board and a manager, who is supplied for a month or a time by alternating banks. Many Toronto bankers maintain that this method of the business now warrants a permanent manager.

Heavier Than Montreal

Toronto's Clearing House was established in 1851. The volume of business the following year showed in round numbers three hundred millions cleared. As an evidence of the increase in local banking business, the total clearings in 1902 were \$272,271,336. For the ten months of 1902 ending Oct. 31 the clearings are \$204,624,215. This means that for the full year the clearings will exceed \$800,000,000. This substantial increase is heavier than that of Montreal or any other Canadian city in the ten years covered.

Increase Business

Last week Montreal showed twenty-four millions cleared and Toronto sixteen. With the volume of the clearing house the detail work will be largely increased but the total of the clearing will not be proportionately increased for obvious reasons. At the same time the advent of three big banking establishments is calculated to very substantially increase the general volume of banking business done at Toronto.

Expanded Quarters

In order to handle the increased business the Toronto Clearing House Association is remodeling and enlarging its quarters. The large building immediately over the Bank of British North America is to be turned into a modern establishment as a home for the clearing house. It will give a floor space of 30 by 40 feet. The entire building will be brought up to modern ideas, an elevator installed and other necessary adjuncts. This work will consume some six months. In the meantime the business of the association will be transacted in temporary quarters on Yonge-street. The quarters are now being prepared.

TOOTH LOSING

The old method of extracting teeth has done more harm than good. By a simple introduction into the gum of a harmless anesthetic the local nerves are deadened temporarily, and in this instant the tooth is removed without loss of senses and without the least pain.

So the only thing to dread in tooth losing is the losing of the tooth—when early care might have prevented it.

HAMILTON TO NEW LAWS FOR ART SCHOOL

No Teacher or Paid Officer Can Become a Member of the Board.

GAS COMPANY WANT HIGHER RATE

Refuse to Light the Civic Buildings on a Flat Scale—Inspector's Salary.

Hamilton, Nov. 17.—A meeting of the life and annual members of the Art School was held this evening to consider the revised constitution and by-laws prepared by a special committee. About a dozen persons were present. Ald. Pettigrew was appointed chairman. Hon. J. M. Gibson explained the changes. The constitution was on the lines already reported, placing the management of the school in the hands of a board of governors as follows: The Mayor, chairman of the Board of Education, and chairman of the Library Board, all ex-officio; two appointed by life members; one by annual members; one by the City Council, and one each by the Education Board of Trade and the Trades and Labor Council. The by-laws abolish the old plan of the principal being secretary and simplify the business proceedings. Both constitution and by-laws were approved and adopted. On motion of Stannard Barker, M.P., an extra clause was put in to prevent any teacher or paid officer becoming a member of the board.

Short speeches were made by Mr. Gibson and Mr. Millard, in which they spoke optimistically of the school's future.

Must Pay More.

At the meeting of the Markets Committee this evening the decision of the Gas Light Company not to light the civic buildings on a flat rate was considered. President Gates was present with a statement showing that the company received \$850,000 for gas had been consumed, and for it the rate is \$1 a thousand feet. Ald. Whyte, Baird and Nicholson were appointed to look into the matter. In the mean time gas will be paid for by the meter. The question of providing furniture

Religion of New Settlers.

The question of the religion of the new settlers was the strongest denomination, numerically, in Manitoba, with the Methodists next. In Ontario, with the Roman Catholics were the strongest, at the last census, but he did not know how it was since the recent large addition to the population. The people going in were about equally divided between the United States, on the one hand, and from Europe on the other. Those from England were mostly adherents of the Church of England; those from Scotland, well, Presbyterian, and the others from the Continent equally divided between Roman Catholics and Protestants. Those from the United States were nearly all Protestants.

An Education Problem.

Hon. Mr. Sifton went on to say that there was a great educational problem for them to deal with there, as there was in every new and sparsely populated country. Then the subject was to be a religious work to be carried on among them if we were to have citizens who were intelligent, inspired by the same ideals and government.

Scotch and Canadian Combined to Insure a Great Musical Triumph.

The Canadian tour of Jessie MacLachlan through Canada is proving a very remarkable success, this famous Scottish artist being greeted with large houses wherever she appears. At the present time she is touring in Western Ontario and the reports all tell of uniform and large success. In all her great concerts Miss MacLachlan follows the invariable rule of visiting artists, and is using her talent on her grand tour of the old firm of Heintzman & Co. This artist, frankly admits the great pleasure it has been to her to have had the opportunity to use one of these fine Canadian-made instruments, which to-day occupy a foremost place with the pianos made anywhere in the world.

A Distinguished Pianist Coming.

Madame Zelle De Lussan and Albert Jones will give a grand piano concert at Massey Hall on Friday evening of next week, the 28th inst. Madame De Lussan is a French soprano, who was heard here several years ago in opera. Latterly she has been with W. C. Gilbey and prior to that had alternated with Melba for several seasons in principal roles. She is a magnificent artist, and her program is one of great interest. Albert Jones was heard here for the first time last year, when he gave the Grand and created a very marked impression.

Six inmates Got Away.

Six inmates of the Industrial Refuge have escaped within the past two weeks. On Nov. 5 Mand Long climbed over a fence and vanished. A week later Gerlie Long, Lily Gray and Nellie Woodcock followed. Two others, Eric Lisouille of Pickering and May Madigan of Hamilton, cleared the fence on Sunday night. The police have notified of the escapes, but none of the prisoners have been recaptured.

CONSTITIATION IS CURED BY IRON-OX TABLETS

is probably the most common of all ailments. When neglected it becomes chronic and frequently leads to hemorrhoids and other serious consequences.

CONSTITIATION IS CURED BY IRON-OX TABLETS

This Remedy is not a purgative, but by mild action upon the organs restores their natural functions, thus entirely avoiding the debility following the use of cathartics, which, if taken frequently, are almost always harmful.

It returns old and makes new. It is the only medicine that has been found to cure all cases of constipation, indigestion, and all other ailments of the digestive system.

PLURIBUS UNUM. Newspapers across the line persist in repeating the erroneous statement, that Canada maintains an "unjust" tariff discrimination against the United States and in favor of Great Britain. The New York Commercial is a recent offender in this respect, and once more the World takes the trouble of pointing out the foolishness of this contention.

The United States is a nation consisting of a number of sovereign states, having mutual interests and formed together in a free-trade federation with a uniform tariff against the rest of the world. Products entering the State of New York or Kentucky from Oregon or Texas are admitted free, but articles coming into these states from foreign countries are subject to the Dingley tariff.

The British empire likewise consists of a number of individual sovereign states bound together by mutual interests. These several states have not as yet established, and, perhaps, never may establish, absolute free trade amongst themselves and a common tariff against the rest of the world, but each state surely has the right as a member of the empire to grant special trade preferences to its sister states—and that without being under the imputation of unfairly treating foreigners.

Because Canada grants the Mother Country a preferential tariff, Johnny Canuck is accused of "unjustly discriminating" against Uncle Sam.

As well might New York State be accused of discriminating against Canada, because it admits free from Pennsylvania goods which, coming from this country, are subject to a heavy duty. The idea which our cousins across the line have yet to grasp is that the British empire is a unit, and that the legend "e pluribus unum" applies to it just as properly as to the American Union.

VERY STRIKING FIGURES.

Toronto's importance as a financial centre is emphasized by the fact that the local bank clearings have well nigh trebled within ten years. In 1891, when the Toronto clearing house was first established the volume of business reached \$300,000,000, in 1898 the figures reached \$437,000,000, and in 1901 they had jumped to \$625,000,000. For the first ten months of this year the clearings were \$674,500,000, and a proportionate increase thru November and December will make the total clearings at the Toronto Clearing House for 1902 run over \$800,000,000.

These figures constitute a striking exhibit. An increase of 46 per cent. in the seven years between 1891 and 1898 might be considered a fair enough showing, but a further growth of 43 per cent. in the three years, 1899 to 1901, was still more satisfactory, and another increase on top of all this of nearly 30 per cent. for the current year alone will be sufficient to justify the most optimistic predictions heretofore made concerning Toronto's commercial prospects.

These figures indicate that Toronto is going ahead faster than even Montreal, and the addition of several new banks to our circle of financial institutions should lend a fresh impetus to the city's material advancement and to the growth of the local bank clearings. That the banks themselves appreciate the development of the volume of business is shown by the facts that the local Clearing House facilities are being enlarged, and that the appointment of a permanent manager for that institution is under consideration.

THE POLICE AND THE STUDENTS.

The World has passed very little comment on the issue that has arisen between the students of Toronto and the police of this city. We are sorry that the dispute has arisen, and that a great deal of ill-feeling and misunderstanding seems to have resulted from it. We are glad to recognize that Toronto has become a great student city, and that there are thousands of students who are law-abiding citizens of this place. It is incumbent on students to be law-abiding as it is on all others; and while liberty ought to be allowed, there is no doubt that an effective check must be kept on parties who start out, to use a strong but fitting expression, "to raise hell"—a thing we are sorry to say that can be done very easily once a mob starts out to do it.

What we fear is that the youths of this country, once the news of this incident spreads, will get it into their heads that they can go and do likewise in their own respective villages, towns and communities, and the net outcome of the whole unfortunate affair will be that our boys, who are unruly enough now, and have already too much disregard for law, and many of them very little regard for elders, are encouraged to show increased disrespect for authority. In other words a very bad example to the younger boys of this country has been set by the students of Toronto. There is nothing for anyone in being a hoodlum, and there is less than anything in it when still smaller boys are encouraged by bigger ones to try it.

THE GIRLS AND THE COUNTRY.

The Daughters of the Empire wish to form chapters of their organization among the girls attending the Toronto Public Schools, and we do not see any reason why they should not be allowed to do so. These school girls are the future mothers of the country, and as such will wield a far-reaching influence on its political destinies, and it would, therefore, be well to see that during the formative years

of their lives they are imbued with proper patriotic ideals. If the formation of the chapters suggested would conduce to a genuine and not to a dogmatic love of Canada and the empire amongst our school girls, what is the objection to the Daughters of the Empire being allowed to go ahead?

MODERN SPIRITUALISM.

Editor World: Rev. Dr. Austin says he prefers clergymen and university teachers of science instead of a committee of the City Council, as I proposed, to test the truth of modern spiritualism. I will consent to that, and am willing to accept Prof. E. B. Atter, Amyot and Dwyer, gentlemen holding very high degrees and lecturers at Toronto University; Rev. Dr. Canon of Knox College, Rev. Dr. Clark of Trinity University, Rev. Dr. Teedy of St. Michael's College, and Rev. L. Berman, who has given scientific studies a great deal of attention. Considering that I have \$500 at stake, and a very important religious principle to be settled, I think there should be as many on the committee as in an ordinary jury case, counting the two lawyers and the judge, say fifteen. I will name eight more well-known clergymen, who minister now (or recently) to very large congregations in this city, viz.: Rev. Dr. Potts, Vicar-Gen. McCann, Rev. Dr. Thomas, Rev. G. M. Milligan, Rev. J. L. Hand, and the Rabbi of Holy Blossom Synagogue, John Hanrahan.

MUTILATED COINS.

Editor World: I refer to an item printed in your issue of Nov. 14, regarding "dirty bills." The writer explains very clearly how to get away with the bills which are not fit for circulation, but after reading his letter I was under the impression he would have hit the nail on the head if he had taken mutilated silver into consideration and explained as fully how a person could dispose of it to advantage. He must be aware that there is a large quantity of it about that is disfigured by being punched or battered, so that business men generally will not accept it. If there is any way of getting rid of this nuisance, I am satisfied it would meet with the approval of the general public to have it made known. Constant Reader.

CANADA AND THE STATES.

Canada is too large a customer of ours; we buy too little of her to let present conditions remain.—Senator Dewey.

New York World: This remark of New York's progressive representative in the National Senate suggests a glance at Canada's commerce and our share therein. Canada's total foreign commerce, exports and imports both included, for the year that ended June 30, 1902, amounted to \$414,431,831. This was an increase of \$35,000,000 over the preceding year. Two-thirds of that large increase was imports.

Senator Dewey's reference to Canada as one of the large customers is amply borne out by the following figures, which show that of her total imports more than one-half were bought from the United States: Imports (1902) from Great Britain 49,215,000 United States 120,809,956 Imports (1902) from all other countries 32,785,944 Total \$272,811,206 No people in the world buy so largely of us as the Canadians in proportion to their numbers. Nevertheless, our share of Canada's great foreign trade—which, by the way, is much larger in proportion to her population than that of Germany, France or any other great European nation, excepting Great Britain, and larger than our own—is not nearly so large as it might and would be if the Dingley tariff bars were lowered by a reciprocal policy on the lines evidently favored by Senator Dewey.

Young Liberal Club.

The Young Liberal Club met in St. George's Hall on Monday evening, when the following were elected to the Executive Committee, the other officers being elected at a previous meeting: S. H. James, Dr. J. E. Elliott, H. W. Livingston, R. McKay, J. G. Ramsden, H. C. Kingston, W. J. Elliott, Thomas Reed, H. M. Mowat, J. W. Malton, T. C. Robinson, T. Winterberry. A notice of motion was given by J. G. Ramsden, that a resolution be passed favoring compulsory voting on all public questions. A lively discussion ensued over a motion by J. G. Ramsden, that the newly-elected officers who were absent from the meeting be suspended. Feeling was strongly against it, however, and he substituted one censuring the officers instead for their absence. A notice of motion was given by W. J. Elliott, that the club meet every Monday, instead of every other Monday.

Million Morphine Users in U.S.

New York, Nov. 17.—A report just received by the Inter-denominational Committee on the Suppression of Drug Addiction, shows that the drug habit is increasing, and that at present there are more than 1,000,000 morphine "fiends" in the United States. It is asserted that one person in every hundred is addicted to the use of drugs.

No Higher Education for Them.

Pottsville, Pa., Nov. 17.—Statistics gathered by the United Mine Workers from the Schuylkill region for presentation to the arbitration commission show that only 4 per cent. of the graduates of the local high schools are sons of miners.

He There a Will Wisdom Finds the Way. The sick man pines for relief, but he dislikes sending for the doctor, which means hours of drugs being consumed. He has not the resolution to load his stomach with compounds which smell vile, and only taste worse. But if he have the will to deal himself with his ailment, wisdom will direct his attention to Parmentier's Vegetable Pills, which, as a specific for indigestion and disorders of the digestive organs, have no equal.

No! No! No! No!

This word is used four times by Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, in reporting the result of his analyses of Sunlight Soap. "No unsaponified fat"; that means no waste. "No free alkali"; that means no damage to clothes or hands. "No loading mixture"; that means every atom is pure soap. "No adulteration whatever"; that means pure ingredients. Try Sunlight Soap—Octagon Brand—and you will see Prof. Ellis is right. He should know. 292

Tillson's Oats Pan-Dried. A Food, not a Fad.

And in the beginning of the twentieth century, man, having departed from the ways of living and the manner of eating which his grandfathers practised, became possessed of a stomach that gave him much pain, not to say inconvenience;

And by reason of these pains the man of the early twentieth century often declared that while his father or grandfather lived 'to be threescore and ten or fourscore years, he himself would not likely see more than fifty or sixty.

And he took many kinds of medicine to get relief from that pain in his stomach.

Also to that end many makers of "health foods" began to grind up barley and wheat and corn and wild rice and whatnot and to cook them by machinery and predigest them by "processes," and to mix with them divers things, of which no man knew the meaning or wherefore;

And whereas these freak foods were cleverly and loudly advertised, many men and women did buy and "eat them cold," whereat their stomachs did pain the more.

Now it is a fact that all fads must have their day, and so the "eat-it-cold" fad went the way of all others.

And with it disappeared the "peptonized" "pre-cooked" automatically "pre-digested" breakfast, and— Then came Tillson's Oats—Pan-dried.

—The kind of food a hundred Scottish battles have been fought upon; —The kind which for centuries has nourished heroes of war and peace; —The food which was the chiefest of a Burns; —The breakfast of a Scott; —That nourished the Bruce; —That was and is chief of Scotia's food.

—A food that contains more life-giving albuminoids and less stomach clogging starch than wheat, that has more carbon, more sugar and nearly three times as much fat food as wheat.

And Tillson's Oats, as made by Tillson's Pan-dried process, are as far in advance of "ye olde time" oatmeal as Glasgow trolley cars are in advance of the stage coaches of their Scotch forbears.

Whereas Burns' porridge had many hulls, and contained the seeds of the weeds of the field; And whereas Scott's porridge could not have been PAN-DRIED by the modern Tillson method, it must have lacked that sweet, nutty flavor which ONLY Tillson's Oats can have.

Now, Tillson's Oats are the oats of Scottish centuries WITHOUT the hulls and foreign seeds, but with the same old nourishing, health-giving, vitalizing elements—with a flavor that ancient oats could not have had. In fact, Tillson's Oats are Scotchmen's oats CANADIANIZED, grown in Canadian soil, made in a Canadian mill by Canadians.

Destined from this day to be the breakfast of all Canadians who want warm, nourishing, sensible food for breakfast, who are tired of the "eat-it-cold" fad;

Who want a food that is all food, not something that is a cross between a food and a quack nostrum;

For those who want a food that gives the stomach its natural and legitimate work of digestion to perform;

For those who want a food that makes brain, muscle and brawn;

A food that nourishes out of existence the ills of "stomach troubles" and sets men, women and children every morning on a solid foundation for the day.

A bowl of Tillson's Pan-Dried Oats is a soothing, refreshing, substantial beginning for the day.

It is pleasant to eat, easily digested, a natural, wholesome food, with plenty of carbon to create heat and energy.

Nothing "faddy" or medicinal about it. Just a good, wholesome, well-made, nutritious, pure, old-fashioned food made by Tillson's Pan-dried process.

The Class Struggle. Phillips Thompson spoke on "The Class Struggle" to Socialist League No. 6, at the Temperance Hall, Bathurst-street, last evening. The chair was occupied by Comrade Ayers. He contended that all the machinery of government and the formation of public opinion, including the political parties, press, colleges, and churches were controlled by capitalism. The workers were duped by those who professed to be their friends, and would continue to be so until they became class-conscious. The exploiting class would never give up their unjust privileges until forced to do so by the workers, who should take independent political action. The speaker quoted numerous instances of legislation and judicial decisions as showing the undue influence exercised by capitalism. Socialism was the true interests of all classes, for even the wealthy, under the present system, might lose all they possessed and become paupers. An exhibition of British and Dutch paintings and water colors of more than ordinary interest is now on view at the art rooms of Messrs. C. J. Townsend & Co., 65 and 68 East King-street. The pictures show at once the masterly touch, and one may spend until Thursday a pleasant hour. The subjects are pleasing, depicting the English sea coast and landscape in all the reality and grandeur of nature, of examples shown many of the names are amongst the front rank in the world of art. The whole will be disposed of by auction Thursday at 5 p.m. Libelled the Pope. ALDERMEN ARE INDIGNANT

Say They Are Unjustly Blamed for State of Affairs at Court-street Station.

GRADED FEE FOR LAUNDRY LICENSE

Recommendations of Board of Control Turned Down at Monday's Council Meeting.

On a question of privilege at the opening of Monday's meeting of the City Council, Ald. Spence entered a vigorous protest against the action of some newspapers and some people in placing into the Council about the disreputable condition of the police cells at Court-street Station.

He stated that the Council was responsible, and said the blame rested with the Police Commissioners. If there was one department that was the Police Department, and the expenditure was governed by a body not responsible to the electors, he pointed out the growing increase in the cost of the Police Department. In 1888 the expenditure was \$145,000. In 1890 \$243,870 and in 1901 \$282,013. He did not think any other city on the continent supplied its police so well. If the cells of No. 1 Station were so bad, why did the department not use the cells in other stations, which were most of the same size. There are eight isolated cells at Agnes-street, six at Wilton-avenue, six at Pabikdale, ten at Ossington-avenue, but with all this accommodation, mostly unoccupied, the police were placing uniformed men in the filthy hole at Court-street. Then there were \$10,000 worth of cells in the new city buildings. There was no reason why the authorities should not use the good accommodation they have.

Should Know Facts First. Ald. Crane agreed entirely with Ald. Spence, and he was astonished at the remarks of proachers in politics and S. H. Blake in condemning the aldermen before investigating the circumstances.

Ald. Richardson said the aldermen were to some extent to blame, but he was sat on by Ald. McMurrich,

and told that any delay on the part of the Council was caused by him, as chairman of the Property Committee.

Ald. London said that the work of remodeling the Court-street Station was practically under way, as the money was ready and the plans were being prepared. The Board of Control had acted as quickly as possible.

The Mayor was inclined to defend the Police Commissioners, and the Council also.

To Use City Hall Cells. The following motion by Ald. Spence carried: "That the police authorities be requested to refrain from incarcerating or detaining in the cells at the Police Station any persons apprehended by them until the said cells are put into a thoroughly sanitary condition, and to provide for the accommodation of any such persons in the other police stations and in the cells in the Police Department of the City Hall and Court House building."

Graded License for Laundries. After occupying another hour of the Council's time, the license for laundries was fixed. Ald. Hall said decidedly that the request for a high license fee was made in order to give the license out. The aldermen, by an overwhelming majority, thought a graded scale was the only way in which to deal fairly with all the laundries, and on the motion of Ald. Hubbard a bylaw will be prepared to provide for all laundries employing not more than three persons the fee shall be \$5. From three to ten persons \$10, and all over that number \$20. The license fee is for the inspection of the laundries.

A letter was received from W. D. Hare of the Wellesley Laundry, which said that a \$20 fee would pike into the hands of the combination of large laundries to shut out the small ones.

The Board of Control recommended the submission of a bylaw to provide for an issue of debentures for \$50,000 to aid in the establishment of a sanatorium for the treatment of residents of Toronto who are suffering from consumption. The City Solicitor recommended as to the form in which the bylaw shall be submitted.

In Committee of the Whole, the recommendation was knocked out, but in Council it was reinstated on this vote:

Yeas (10): Ald. McMurrich, London, A. Stewart, Woods, Bell, Urquhart, Hill, Oliver, Burns, W. T. Stewart, Nays (7): Ald. Crane, Lynd, Foster, Dunn, Hubbard, Sheppard, Spence.

The chief opposition was on the ground that the money could not be voted on the proposition contained in the petition.

Dr. Playter wrote that Highfields Consumption Sanitarium will be removed to a most desirable locality on the north side of the city, and will then be prepared to treat all the city consumptives—not incurable cases being now received by the city hospitals, and far advanced in the disease at Gravenhurst—thus saving the city the cost of a special sanitarium.

Will Use Pitch Lake. A heated exchange of views between Controller Crane and Ald. Sheppard on the asphalt question followed the motion of Ald. Woods that the Consumption Sanitarium be now permitted to use Trinidad Pitch Lake asphalt in lieu of California asphalt, which their tenders were accepted on Marlboro-avenue, Walmer-road and Widmer-street, providing the cost does not exceed their present contract price and the Legal Department and City Engineer will sanction the change.

Ald. Crane spoke bitterly of the monopoly which he had helped to crush out, and he would compel them to use California asphalt. It was argued that they could not get it of proper quality, and therefore, would use Trinidad asphalt, which Ald. Sheppard said, everyone admitted was by far the best asphalt in existence. The motion carried on the following division:

Yeas (10): Ald. McMurrich, London, Woods, Lynd, Foster, Hill, A. Stewart, Curry, Dunn, Hubbard, Sheppard, W. T. Stewart, Burns.

Nays (8): Ald. Graham, Crane, Bell, Urquhart, Spence, Ward, Oliver, Lamb.

Contract Not Awarded, Yet. Without much ado, the recommendation of the Board of Control that the contract for an electric generator and engine for the City Hall be awarded to the Canadian General Electric Company at \$2330, over the tender of the United Electric Company at \$1900, on the same specifications, was sent back to the board for further consideration. This is the second time it has been referred back.

Railway Report. The Board of Control spelled what progress was being made in the direction of preparing a draft agreement, which would comprehend in a general way the terms upon which radial and other railways may be added to the city, and it was expected that the question would come up at next meeting. Ald. Curry said that a more comprehensive scheme than that embodied in the engineer's draft would have to be submitted, and he thought a broad hint to that effect should be conveyed to the engineer. More information was demanded by

It is pleasant to take.

ANDER CHEMICAL CO., BOSTON, MASS.

Council in regard to the recommendation of the Board of Control that M. Hutchinson be allowed a \$2500 extra on his \$1000 contract for carpentering on the northern portion of St. Lawrence market.

Distinction of claims for extras from other contractors loomed up, and the matter was sent back to the Board of Control.

To Disinfect Money. Ald. Foster moved that the Medical Health Officer be requested to report on the advisability of daily disinfection of all money received at the banks in order to prevent the spread of disease. The resolution also covers the disinfection of next books in the schools before they are distributed at the commencement of each session. The motion was sent to the Board of Health.

There is still need of more room at the Western Cattle Market, and Ald. Burns moved that the Board of Control negotiate for the acquisition of the property occupied by the City of Toronto under a lease from the city. The matter was sent to the Property Committee for report.

Wants Estimates Early. Ald. Foster moved that the Board of Control be instructed to consider the advisability of the heads of the various departments being ordered to prepare the estimates for 1903 at once in order that they may be ready for the first regular meeting of the next year's committee, and thus provide ample time for careful consideration. After a lengthy squabble as to the propriety of this year's board interfering with the work of next year's the motion carried.

Municipal Fuel Yard. Ald. Hubbard moved that application be made to the legislature for power to enable a municipality to establish and maintain a municipal fuel yard for the protection and benefit of the people. The motion was referred to the Legislation Committee.

City Solicitor Caswell reported that the city could not without special legislation directly or indirectly purchase for park purposes any land acquired at tax sales. The selling is required to be done by the City Engineer, which has been issued, based upon the arrears of taxes.

A communication was received from the Grand Trunk Railway asking permission to lay a railway siding across Front and John-streets in order to reach property recently acquired by them for freight purposes.

The Town Council of Penetanguishene forwarded a copy of a resolution adopted by that body calling attention of the Mayor and Council to the fact that the school next Wednesday evening.

For the convenience of patrons of St. Lawrence Market the Council, accepting the report upon the advisability of running street cars of the Queen, Parliament and Broadview routes and other lines of the Metropolitan Street Railway Company, expressed the opinion that the Minister of Railways should be requested to take such action as to effectually compel the company to live up to the needs of the country.

BACK TO PRINCIPLES. Paris, Nov. 17.—The Chamber of Deputies commenced to-day a debate on the bill introduced by the Socialist party, which provides for the dividing of the House into a number of standing committees to deal with a variety of matters. The results of the balloting would seem to indicate a majority of two hundred in favor of the bill, which, if it is passed, will be a long stride in the direction of a return to the legislative methods of the first French Republic.

New York, Nov. 17.—Maris Dressler, the actress, who has been ill for some weeks with typhoid fever, has had a relapse and her condition is dangerous.

At a meeting of the Concert Committee of the County Orange Lodge last night the program for the annual concert on Jan. 10 was adopted.

At the Toronto Ministerial Association yesterday Rev. Dr. Chown and Rev. J. A. Macdonald expressed the belief that the referendum would carry.

More Municipal Reform. Ald. Urquhart wants to have all committees of the Board of Control, the latter body to be elected by the whole city and perform the duties at present prescribed for the various committees. He would have eighteen aldermen elected, and the duties of the Board of Control given notice that he will move that application for legislation be made to carry out the changes he suggests.

City Hall Notes. The Legislation and Reception Committee met Monday afternoon and endorsed the program suggested by the Manufacturers' Association for the entertainment of the delegates from the British Chamber of Commerce on Thursday and Friday.

Assessment Commissioner Fleming recommends that the land asked for by the Grand Trunk Railway Company for extension of their factory be sold to the company for \$3000, the purchaser to indemnify the city against claims for damages.

City Engineer Rust has prepared a new street railway time-table, which, with the exception of the Queen-street route and the Dundas-street route. In the past the company has not treated the Engineer's time-tables very seriously.

WELSH COAL HAS ARRIVED. Word was received by the Mayor from Montreal Monday night, that the Welsh coal for Toronto had arrived there and that transshipment to Toronto would commence this morning.

Some of the Scotch coal is expected in the city to-day. Wood is arriving more freely at the civic fuel yards.

PHONE COMPANY'S APPEAL.

Right to Put Up Poles and Lay Conductors in Toronto Involved in the Dispute.

WITHOUT THE CITY'S PERMISSION

Mr. and Mrs. Cochrane Awarded \$870 Damages in Their Suit Against the City.

The Bell Telephone Company's appeal, involving the right of the company to put up poles and lay conductors without the consent of the city, was before the Court of Appeal on Monday. The company appealed against the decision of Judge Street, denying the right, and the main ground of their right, and the main ground of the appeal was that their Dominion charter gave them the power. The city, on the other hand, claimed that these are local works, and are governed by the act of the Ontario legislature, and this act gives the city authority in the matter.

The decision of Mr. Justice Lount, awarding John Birnie \$105 as salary as manager of the Toronto Milk Company, has been upheld by the Divisional Court on the ground that Birnie was never appointed manager at all. The divisional court, which heard the appeal, was composed of Mr. Justice Lount, Mr. Justice Gieseler, and Mr. Justice Gieseler.

MUSICAL FESTIVAL FOR TORONTO

Conducted by the Famous English Composer, Sir Alex. Mackenzie.

Toronto is to have a great musical festival in April, lasting three days, conducted by Sir Alexander C. Mackenzie, the famous English composer, and principal of the London Royal Academy of Music. Our city is to inaugurate the great cycle of festivals which Mr. Charles Harris has organized all over Canada. The artists will come specially from England to take the solo parts of the Chicago Symphony Orchestra, and a second festival chorus, under Sir Hald. The project is creating much comment owing to the stupendous nature of the scheme, which involves the performance of large choruses in all of the principal towns in Nova Scotia, New Brunswick, Quebec, Ontario, and British Columbia. These festivals will be fashioned on the lines of the musical festival of the Birmingham, Leeds, Norwich, Gloucester, Worcester, Hereford, Bristol, and Liverpool, London.

HOUSE BUILT OF CONCRETE.

A New Method That May Revolutionize Building Trade.

On Empress Crescent, just west of Dundas-avenue, there is a pretty little house, the walls of which are built of concrete. There is not a joint or a crack in them, and it is the first house of its kind to be built in this way. It was built by Mr. W. H. Essey, of Dundas-avenue, says that there is not a dollar's worth of skilled labor on the house, outside of the carpentering and plumbing. The window sills and chimneys are of concrete also, and the builder, W. H. Essey, says that the concrete is not a dollar's worth of skilled labor on the house, outside of the carpentering and plumbing. The window sills and chimneys are of concrete also, and the builder, W. LAW MUST TAKE ITS COURSE.

Herbert, Self-Confessed Murderer, Must Suffer for His Crime.

Attorney-General Gibson on Monday said that he could not see that anything else could be done other than to let the law take its course in connection with Walter Herbert, the self-confessed murderer, who was the chief witness in the Sifton case. "He has confessed his crime to a qualified jury," said Mr. Gibson, "and it does not seem to me that any other course is open to the law."

HER HUSBAND WAS A DRUNKARD

A Lady Who Cures Her Husband of His Drinking Habits Writes of Her Struggle to Save Her Home.

A PATHETIC LETTER.

"I had for a long time been thinking of trying the Tasteless Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and that would ruin my home. I hesitated for nearly a week, but one day he came home very much intoxicated and his usual nearly all spent in a fit of all fear and determined to make an effort to save our home from the ruin I saw coming, I bought a bottle of your Tasteless Samaria Prescription, and put it in his coffee as directed last morning. He was very happy and contented, and at noon I gave him more and also a supper. He never suspected a thing, and I had discovered something that every nerve in my body tingled with hope and happiness, and I could see a bright future spread out before me. He has not drunk since, and I am writing this letter to tell you how thankful I am, and how much I believe it will cure the worst cases."

DIED FROM A FLY BITE.

Little 3-Year-Old Boy Inoculated With Erysipelas Germs.

New York, Nov. 17.—Herman Kaufman, three-year-old son of a tobacco dealer, living in the Bronx, has died from the effects of a fly bite inflicted last Wednesday. A few hours after a small spot made by the bite developed to a swelling, which extended over the entire cheek. The swelling continued to spread until the whole upper portion of the child's body was distended. The doctors were powerless to give relief, and finally the victim died. The child's playmates say the fly was an ordinary "bluebottle." The physicians believe the insect was infected with erysipelas germs.

A \$40 Fur-Lined Coat for \$25

Now here is a chance for gentlemen whose profession entails much driving—medical men for instance.

Twenty-five M. D.'s can buy fur-lined Overcoats here to-morrow away below the orthodox price.

A small Montreal fur manufacturer was pushed for spot cash—there's the story and here are the Coats:

25 Men's Fur Lined Coats, shell of fine imported beaver cloth, black or navy blue shade, lined, including sleeves, with dyed muskrat flaps and mink, dyed Russian squirrel, collars of German otter and seal, lapel style, all made in first-class style, latest cut, extra good value at \$35 and \$40. Wednesday, your choice for \$25.00

Pilot Cloth Reefers, \$2.95

We have 65 Pea Jackets as prizes for punctual 8 o'clock attendance to-morrow morning. The man who wants a short, warm Coat should try to be here. It's a discounted purchase of ours, but they're splendid \$4.00 Coats. \$2.95 is their figure to-morrow. \$8.00 Overcoats for \$4.95 will share the programme.

65 Only Men's Heavy Navy Blue Pilot Cloth and Nap Cloth Reefers, made double-breasted, with high storm collar, good strong checked linings, sizes 36-44, regular \$4.95, on sale Wednesday \$2.95

55 Only Men's Cheviot Finished Tweed and Thibet Cloth Overcoats, in dark grey shade, also navy blue beaver cloth, made in box back and single-breasted, Chesterfield style, good durable farmers' satin linings and well finished, sizes 36-44, regular \$6.50, \$7, \$8, Wednesday \$4.95

Men's Heavy Domestic Fleece Liners, in dark grey and heather shades, made double-breasted, with storm collar, good warm checked linings and strongly sewn, sizes 36-44, special Wednesday \$5.00

Men's Heavy Dark Oxford Grey Cheviot Winter Overcoats, a double woven material, with fancy checked gilet back, made in the fashionable long Raglanette style, with vertical pockets and cuffs, narrow silk velvet collar, handsomely tailored and perfect fitting, special Wednesday \$9.50

4-Ply Collars, 5c Each.

Last of that mis-branded lot of which we told you. Branded with their brother's names. All you want to be careful about is next time—don't order the same collar if you want the same collar. Confusing, isn't it? That's why we want to get rid of them. 5c apiece to-morrow.

1500 Men's Four-Ply Linen Collars, all strictly first quality, the lot consists of straight standing and the stylish turn-point or wing style, all hand laundered, and hand-made button holes, sizes from 14 to 18, regular price 15c and 20c, on sale Wednesday, to clear at each .5

See Window Display.

120 Men's Heavy Striped Galatea Shirts, navy ground, with white and red stripes, collar attached, strongly sewn, large bodies, full length, an excellent working shirt, sizes 14 to 17, regular price 50c, on sale Wednesday at \$39

A Clear-Up in Gloves.

A couple of lines before our new shipments go into stock. Here you see exactly what it means to you.

150 pairs Men's Fine Dress Kid Gloves, two domet, tan shades, plique sewn and overseas, sizes 7 to 8 1/4, "Duke," ones of our \$1 gloves, Wednesday, per pair \$1.50

\$1.25 Slippers, 99c.

Many men wear size 7 in an evening House Slipper, and we have about 100 pairs of this size on hand that we will clear at a price the manufacturer would not sell them to us for in regular stock; they are worth from \$1.25 to \$2 per pair, and are in Everett, Romeo and opera cut styles, chocolate and black Dongola, special Wednesday, \$99c per pair

See Window Display.

200 pairs of Men's Casco Call Laced Boots, with standard screw soles, full round toe, but only sizes 7 and 8, regular value \$1.25 per pair, special Wednesday, \$99c

Wool Carpet Samples, 15c.

Bank Stock Items for To-Morrow. Each of these sample pieces is one yard square. Some of the Carpets sell at \$1.00 a yard. We sell all of the samples at 15c apiece. Another point—many of the patterns are represented by half a dozen or so samples. You may pick out quite a strip that way. We'll sew them for you at a little extra, or you can have them sewn at home. Wool Carpet is easily sewn. However, this is only one item. Read the full programme:

TRAVELLERS' SAMPLES CARPET PIECES AT 15c.

We have secured another lot of travellers' samples in Wool and Union Carpet, just one yard square, and reversible, many of these samples are alike, consisting of union, two and three-ply wool, that would sell regularly at 50c to \$1 per yard, your choice Wednesday, \$15c day, each \$4.50 UNION SQUARES FOR \$2.48

18 only Extra Heavy Union Art Squares, 3x3 and 3x1 1/2 yards square, good patterns and colorings to select from, very suitable for a bedroom or to lay on another carpet, regular value \$4.50, on sale Wednesday \$2.48

GOOD THINGS IN FURS

1864 — OUR SUCCESSFUL HISTORY IS YOUR GUARANTEE — 1902

To-day we begin our winter campaign of fur sales. To-day you should purchase your furs if you have not already done so, because our show cases have been just stocked with the "best that is" and because we have not as yet put in force the higher winter prices. We would specially call your attention to our several lines of ready-to-wear Jackets in the commonest kind of furs and to our special lines of Ruffs, Scarfs, Capelines and Boas. These goods, though ready-to-wear, are made in our own workrooms from the very best fur procurable and every effort to make them perfect in workmanship and finish was expended by us.
