Senators May Lose Titles

## IN SPRING WEST **WILL BE BACK** TO GOOD TIMES

Financial Conditions Show Steady Improvement, and Money is Getting Easier

WILDCATTING IN REAL ESTATE DEAD

While People Generally Are Conserving Money, Business is Not at All Bad.

(Special to The Sunday World.) WINNIPEG, Dec. 13. - Financial conditions thruout the Canadian west gradually becoming easier, as proceeds of the splendid crop get into circulation. The general opinio among financial men is that by spring among financial men is that by spring the situation will be about back to normal and money will be readily available for legitimate purposes of

investment and speculations. There is comparatively little movement in Winnipeg real estate, and similar conditions prevail thru all the western provinces. Few big deals are being recorded, and most sales are of residential property intended as homes and of inside property which will never lose anything in value. They who expected to pick great bargains in western realty this year have been disappointed, for prices have held firm.

Wild Catting Dead. Financial stringency has, however, pretty effectively killed exploitation of have lapsed, but holders of good property are hanging on, sure of profits

Most builders, despite the financial handicap, have been able to secure funds for their operations, and Winnipeg's building permits for the year

eventually.

times here are mostly exaggerated. Mayor Deacon estimates that 3000 men in Winnipeg are out of work, and it is probable that this figure will compare most favorably with the number of unemployed in any city of similar progress was very mixed and gave size in the country.

Mild Weather Helps. and the feeling exists that money somewhat detracted from the exciteshould be conserved wherever possible ment, altho this riding has never yet to meet possible emergencies before returned a Grit representative to either spring. The mild weather has meant house or legislature. During the day thousands of dollars in the pockets of speculation as to the prospects of tle necessity of expenditure for coal of conversation. People asked how an and winter clothing. On the other outsider could possibly expect to gain hand, this same condition has meant any votes but those of "cranks" and serious loss to wholesale and retail the "kids" in a good Conservative merchants. For instance, there has riding such as Lanark has always been, been a decrease of one-third of a million dollars in the sale of furs in Win- ginning seemed to boil down to a

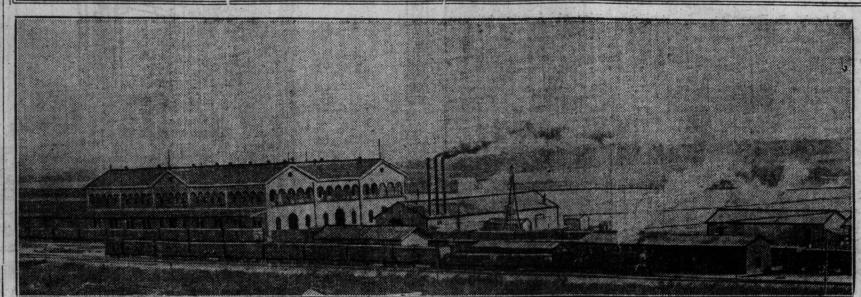

and less expensive furs. An interesting feature of the situation is that the Santa Claus fund coitar date. Even charity feels the effects as each town put up a candidate the possibly greater this year than here-

Municipal financing for the most part is in good shape, and money bylaws at municipal elections have usually met with good reception.

Real Estate Speculation Doad "I am much surprised to hear the stories of bad state of business being circulated in regard to Vancouver." said F. W. Peters, the general superintendent of the Canadian Pacific British Columbia division, who is in the before the battle. city. Peters says that business of all kinds is good at the coast, the only depression being in real estate speculation, which he believes is dead.

## AN ANALYSIS OF POWERFUL MOTIVES BEHIND PRESENT IRISH LABOR SITUATION

Strikers of Dublin Are Now Little Worse Off Than They Were in Employment—Were in Mood to Be Lead By Man of Courage and Sense-Survey of the Labor Con-

LONDON, Dec. 13.—The labor situation in Dublin during the past few weeks has attracted so much attention that we seem to be losing our grip of general principles, and a suivey of the whole position seems to me to be necessary. The question of men striking against sweaters, batoning people in the streets; of the starvation of multitudes in Dublin, has been almost lost sight of in the popular clamor about one man—James Larkin. The whole has been overshadowed by the part, and I think it may be as well to consider why this has happened, especially as Mr. Larkin has just been busy raising a "fiery cross" and generally rousing a popular strike opinion in this country.

In the first place, labor in Ireland is in a different position to that in which it finds itself here. Big industries are not so widely developed. Commercialism has not taken such firm root. The workers have never been imbued with the same trade union spirit as has prevailed among wage earners in this country. The exactions of landlords, the tyranny of the moneyed classes, has driven the best of Ireland's workers abroad. Emigration has taken awily the agitator, and those likely to be influenced by him. Consequently as Ireland's modern industries grew, when the spirit of combination and mutual

modern industries grew, when the spirit of combination and mutual helpfulness, in the modern trade union sense, winged its way across the Irish sea, it found a different soil to the in which it has been regard.

in England.

Right Man For The Job.

That was the reason why men of the temperament of Larkin, and his lieutenant, James Connelly, got to the head of the Irish movement. They head of the Irish movement. They were the right men for the job lying to hand. There was a horde of work-ers who had been crushed and driven by their masters; whose ranks had een continually divided by religious, olitical, and other differences. They had to be drilled into a realization that their aims were identical so far as their work was concerned; that their differences of creed and character had no marked effect upon their earning capacity or the amount they heating because no kind of fuel were paid for the work they performed. Besides which, constant underfeeding, life in insanitary homes, all the concomitant horrors of sweating and exploitation had rendered them desperate without rousing in their lands of the same research in the concomitant of the same research in the same research in

tered forces of these warring elements together, and turn them into the direction of concerted efforts for better conditions, must be a man who had realized the sordid, pitiful position in which they were placed; who had himself felt the slings and arrows of that outrageous fortune which contact outrageous fortune which will be directly affect economically into himself felt the slings and arrows of that outrageous fortune which condemned them to lives of penury and ignoble toil, and who, at the same time, had a message of hope and deliverance, and the strength and courage to deliver that message in face of the biggest odds, the mos shameless bigotry, and the most vicient rebuffs. Such a man was Larking the strength and the strength an

Plight No Worse Now.

That is why Larkin has dominated the Irish movement. He had courage he has grip, he has sense. More than any other man in Ireland, he realized that the workers of Dublin were stout at heart, were ready for a lead, and that the lead must come from a man who had no fears, no doubts, no hesitancy, and, in a way, no scruples. He saw that the plight of Dublin wageearners was so sorry, that it could not well be worse. In the slums of the city he had seen sights and sento be an unfortunate tendency to go back to thin-soled, narrow-welted shoes, which are worse than useless in the kind of weather we have been having lately. Nothing is more likely to bring on neuralgia than sitting about with wet feet."

A West End shoemaker agreed that the tendency to heavy, "mannish"

under sentence of death at Sing Sing for the murder of Herman Rosenthal, the gambler; attempted suicide last could bring. In normal times he knew that the lot of Dublin workers was so terrible that hell could hold no terrors for them, so he determined that he would slip the leash from the necks of the dogs of industrial war, if it the tendency to heavy, "mannish" the tendency to heavy, "mannish" said she was seized with extreme nershoes on the part of women, so noticeable a year or two ago, has largely died out. "Women are returning said she was seized with extreme nerof the dogs of industrial wat, it is
lay within his power so to do, and

hell of Dublin, on strictly commercial principles, of course—some meahell of Dublin, on strictly commer-cial principles, of course—some mea-sure of justice for his brothers in poverty and strife. And he was suc-

> So there was industrial war in Dub-n. The police were let loose to try to club citizens into a realization that freedom in Ireland is but a word. Troops were promised to the c.vil authorities, and there were unmistakable signs that the employers were determined to go to any lengths to drive their labor power back to its work. And for all this, or nearly all. this, Larkin was responsible, and for this he deserves all the encomiums that have been heaped upon him. But now comes another point. United Kingdom has been affected by the Dublin struggle. With commendable zeal and generous hearts British trade unionists have sent food and money over to help the Dublin work-ers in their fight. Without the help received from this side of the Irish sea, either the workers would have been baten in Dublin or many of them would have starved to death. That is

But that is not the man required here. The tactics of Dublin are not the tactics of Britain. What has been successful in Ireland will not neces-sarily be successful in England. The English Situation.

The whole position here is different. It is said that the railway men should strike. There is talk of combination between some of the big unions for militant action. But before any move is made, should not the whole British position be carefully considered? Take the railwaymen. For good or evil they have at present a scheme of conciliation boards. I know that no. tice has been tendered to terminate them, but that notice will not expire for a year. So for one year railway-men have a certain type of machinery for settling their own affairs with the railway companies. The mners are the same. They have their own beards, and, unsatisfactory as they are in many ways, still, they are there, and they must be used for a time. They must be the means of dealing

New Land of Promise Exceedingly Prosperous and Improvements Are Being

To make the Russell completely comfortable was our aim. That we have succeeded is shown by the wide-spread adoption of many features which we pioneered a year ago.

By a clever, exclusive arrangement, we utilize the heat of the exhaust gases to warm the tonneau. The value of this feature in our severe Canadian winter is apparent.

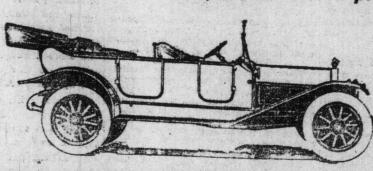

"I was at the Rugby match at Ottawa," said a prominent owner of a Russell Six. "It was a bitter day. My friends could not see how we were able to sit in comfort in our open car, while they found it unbearably cold in their limousine. I explained the Russell Heating System-how by running the engine slowly the car was most comfortably warm the whole afternoon."

The Russell rear windshield, too, is a wonderful help in protecting the tonneau occupants from dust and biting winds. It is an original Russell feature-now widely copied.

Nothing less than complete comfort, as embodied in the Russell-Knight, should satisfy Russell owners not merely pleased, but enthusiastichave voluntarily written these fine letters.

Russell Motor Car Co., Limited 100 Richmond Street West - - -

Head Office and Factory: - West Toronto Branches: Montreal, Hamilton, Calgary, Winnipeg, Vancouver, Melbourne. "Made up to a standard, not down to a price"

Winnipeg, Nov. 18, 1913. Russell Motor Car Co., Limited

346 Donald Street Gentlemen-It may be of interest to you to know that I am very pleased with my Russell-Knight "28," purchased from your Company last spring. All being well, I hope to have a second car of your make next year.

One cannot say too much of the comfort of your "28"; it surely has no superior, is a very smooth operating car, and sasy riding. I desire to express my fullest recognition of the quality of the Russell-Knight Car, and bespeak for you continued

## FLETCHER ORDERS **ALL AMERICANS TO** LEAVE TAMPICO

SUNDAY MORNING

Five Hundred Transferred to U. S. Battleships Before Night-Aguila Co. Employes Safe

ALL PRISONERS TAKEN HAVE BEEN EXECUTED

Mexican Minister of Finance Sailed for Paris to Try and Raise a

Loan. OJINAGA, Mexico, Dec. 13 .- The

federal forces were at a loss today to know what had become of Gen. Salvador Mercadeo. It was feared that he, with 1000 federals, had been inter-cepted by rebels in a mountain pass at La Mula, outside of Ojinaga, and that he would be attacked by superior forces before the rebels attack Ojin-

aga. Mercadeo left the fort here to escort Mercadeo left the fort here to escort in somestraggling refugees.
Perchedon, the hill of Ojinaga, which commands a sweeping view of the nearby desert and canyons, the federal army today has its guns trained in expectation of an attack by the 4000 or 5000 rebels who are rapidly surrounding the town.

ing the town.

The commanding position of the federals, with trenches and forts fixed for resistance, will make it impossible for the rebels to storm the place without heavy loss of life. The rebels will have to climb almost straight up to the town and be constantly exposed to fire except for a slight shelter efforded by mesquite bushes.

The 4000 federals garrisoned here, after their retreat from Chihuahua, have resigned themselves to the expected attack, and the rebels, under Gen. Herrera, have announced their intention of attacking from three sides to force a surrender or to drive the enemy across the river into the United States.

Four more troops of United States cavalry reinforced the border patrol at Presidio today. The American military authorities have notified both

military authorities have notified both sides that no shots must be fired across

Americans Leave.
WASHINGTON, Dec. 13.—Rear
Admiral Fletcher cabled from Tampico under date of 1 a.m. today that at
4 p.m. yesterday he had ordered all
Americans out of the city, and that
before midnight he had transferred
about 500 who were about the Wheel about 500, who were aboard the Wheeling and Tacoma to the battleships Virginia, Rhode Island and New Jersey.

Admiral Fletcher's despatches were withheld from publication till after they had been submitted to Secretary of State Bryan and secretary of the of State Bryan and secretary of the navy Daniels. The battleship New Jersey has been ordered from Tuxpam to Tampico to join the American fleet pico to join the American fleet

In the fighting zone.

Shot Prisoners.

The navy department later issued "A cablegram has been received from Rear Admiral Fletcher, sent from Tam-pico, Mexico, 2 p.m. Friday, which conveys the information that there has een no cessation of fighting, but that the fighting is not serious. Aguilar was reported to have just arrived with 8000 men, and taken a position on the right bank of the river. That there were en route to Tampico the Mexican gunboats Vera Cruz and Progresso..
Admiral Fletcher has received information that both federals and constitutionalists have snot or hanged all prisoners taken, numbering about 65. Three of these men were hanged in the forenoon from within the federal lines in full view of the shipping and city. Admiral Fletcher made formal protest in the name of humanity against the practice. He reports that no foreigners or property have been in-

jured, and that the New Jersey is en route to Tampico.
"The army transport Sumner, leaves

"The army transport sumner, leaves Galveston today for Tampico. Ar rangements have been made to care for all Americans at Tampico. They number about 500."

Despatches from Rear Admiral Fletcher at Tampico, received here early today and sent late last night, say the fighting was continuing there, but made no mention of a report that the American admiral had peremptorily ordered the fighting to stop.

Spaniards to Leave.

MEXICO CITY, Dec. 13.—Acting on the suggestion of Senor Cologan, y Cologan, the Spanish minister, most of the Spaniards at Monterey are preparing to leave there on a special train for the capital. Fearing that Monterey will be taken by the rebels the minister is anxious that all the Spaniards get out of the town in order to obviate a similar experience to that they underwent at Chihuahua.

The war office says that fighting at Tampico continues and that the advantage is on the side of the federals.

Fedrals at Tuxpam.

MEXICO CITY, Dec. 13.—The oil district of Tuxpam, which for nearly a mon'h has been controlled by the rebeis under General Candido Aguilar is now in the hands of the federal troops, commanded by General Joaquin Maas, jr., according to reports received today by the war office.

General Maas has advanced with his column as far as Juan Casinio to the north of Tamlahua on the way to Tampico without encountering any rebeis, and it is assumed that they have gone to assist in the attack on Tampico.

Employes Safe

NEW YORK, Dec. 13—The 75 or 100 employes of the Aguila Company, a Pearson concern, at Tampico, Mexico, ire safe. None have been hurt in the fighting between the federals and constitutionalists. This was announced here today by the Anglo-Mexican Petroleum Products Company, which had received the following causegram from its agent it Vera Cruz:

"Dr. Z. W. Hayes, first vice-president of the Aguila Company, informs by wireless' from Tampico all Aguila employes safe. Please reassure relatives."

RAISING FUNDS

NEW YORK, Dec. 13.—Adolfo de la Lama. Mexican minister of finance, and Salvador Dohagary salled for Paris to-lay to negotiate for the impossible, a loan or the Hierta Government. Senor de la Lama jeft Mexico City December 4 So ar as could be ascertained he made no iffort to raise funds here.

ATTACK EXPECTED

VERA CRUZ. Dec. 13—There is every indication that the City of Monterey may be heavily attacked by the rebels at any moment, according to a despatch from United States Consul-General Banna here The telegram was filed this morning by way of Tampico and was sent from that seaport to Vera Cruz by wireless telegraph. A considerable federal army is belived to be concentrated at Monterey.

## SINGLE BANDIT ROBBED A TRAIN

freight at Harahan and I expect he got away on that train.

"After 'Fleming' left I crawled to the door and shouted for help. I believe the robber was after the \$100,000 that went out on an earlier train, but there were four armed guards in the express car and when 'Fleming' saw them he changed his mind."

The sheriff's posse and special agents of the Southern Pacific and detectives from New Orleans were given a full description of the robber by Lord.

## FIRE DESTROYED LE PAS BUILDINGS

New Theatre and Hotel Fell Prey to Seventy Thousand Dollar Blaze.

LE PAS, Man, Dec. 18 .- (Special.)-Fire, driven by a strong northwest wind, which originated in the second storey of the Imperial Hotel, at 5 o'clock this morning, destroyed a whole block og buildings on ischer avenue, with property loss exceeding \$70,000.

Buildings which fell prey to the flames were: Lyric Theatre, owned by J. M. Wanless, in operation one week, loss \$7500, insurance \$5000; Imperial Hotel, just completed owned by H. A. Schultz, \$24,000, insurance \$15,000; Pasdrug store, loss \$3500, insurance \$2500; Dreamland, owned by Easton & Moore, loss \$7500, insurance \$4500; Haight House, occupied by Dr. Smythe, loss House, occupied by Dr. Smythe, loss \$2500, insurance unknown; Haicrow poolroom, and Mercer's jewelry store, loss \$28,000. insurance on pool room \$13,000, insurance on jewelry store un-

All the plate glass windows in the stores across the street were broken by the intense heat. Great fears at one time were enter-tained for the new Opasquia Hotel, on Edwards avenue, and a row of houses in line with the fire, but fire was got inder control, averting any further

Guests of the Imperial Hotel had just sufficient time to vacate the prenises in scant attire.

CIVIC WORKS THIS YEAR.

C mmissioner Harris states in his annual report that this year 54 miles of pavement have been laid, 68 miles of concrete sidewalks, 23 miles of sewers and 29 miles of private drains.

Ward Seven Candidatets.
Frank Whetter, of Whetter Bros., butchers, is considering possibilities in the aldermanic field in ward seven. The retirement of Ald. Anderson has caused a need for a good running mate for Ald Ryding. Other candidatets in ward seven who are mentioned are: A. M. Wilson, M. D. Armstrong, and J. Mc-Lennan.

# Pimples Flee

After You Have Used Stuart's Calcium Wafers and Rid Your Blood of All Its Impurities.

The abolishing of all skin disorders must begin with the blood. Lotions, salves, cosmetics, etc., will do no material good. The trouble comes from within and there the remedy must be applied.

If you really desire quick action and at the same time a common sense, natural, harmless blood purifier, then Suart's Calcuim Wafers is this remedy.

After Using Stuart's Calcium Wafer My Pimples Went Away Like Magic."
The correct and bost blood puriner known to science is—Calcuim Sulphide. This great cleanser is contained in proper quantities in Stuart's Calcuim Wafers and that is why all blood troubles and kin blemishes rapidly disappear after their use

sults.

here is no need for this condition if you will take Stuart's Calcuim Wafers daily and keep all salves, lotions, cosmetics and other harmful preparations from clogging the pores.

Every first class druggist in this country carries Stuart's Calculm Wafers, which are pleasant to take, harmless, and may be obtained for 50 cents a box.

Beat Messenger of Southern Pacific Train and Stole

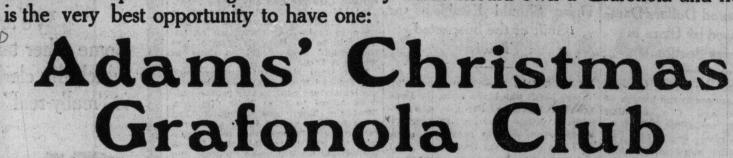

NEW ORLEANS. Dec. 13.—(Can. Press.)—The express car of a Southern Pacific train, which left here at 11.30 last night, was robbed of \$4000 in cash by a loan bandit, who bent the express messenger into unconsclousness and then escaped by leaping from the car at Harahan about ten miles from here. A special train with deputy si criffs left here shortly after midnight for Harahan to take up the pursuit of the robber. \$57 to \$1500,

That the bandit had expected to get \$100,000, which, however, was sent out from here on another Southern Pacific train earlier last night, was the belief of L. C. Lord, the injured express messenger, who was brought to a hospital here early this morning.

"I was talking with an acquaintance at the station just before my train left," said Lord. "This avquaintance introduced me to a man named 'Fleming' as a fellow-Canadian and a railroad man. A few miles out from the city I felt a blow on the head and collapsed to the floor. When I regained consciousness 'Fleming' was standing over me, beating me with a club.

"He took the keys from my pocket, unlocked the safe and took out two packages of \$2000 each and jumped from the car near Harahan. There was an Illinois Céntral northbound freight at Harahan and I expect he got away on that train.

"After 'Fleming' left I crawled to

tors to a complete evening's concert. Every home should own a Grafonola and here

is designed to make it very easy for home folks to make a gift to the home of one of these matchless entertainers. The terms of membership in this Club are so simple as to be too easy to hesitate about.

Only \$5 to Join---and Weekly Dues of \$1

By very special arrangement with the makers we succeeded in securing for this Club Sale 100 of their latest model Grafonolas—the "Jewel," which we are supplying to Club members, together with 12 selections (or six double disc records), and box of 200 needles for nearly \$20 less than an instrument of equal merit can be purchased regularly on the easiest of terms.

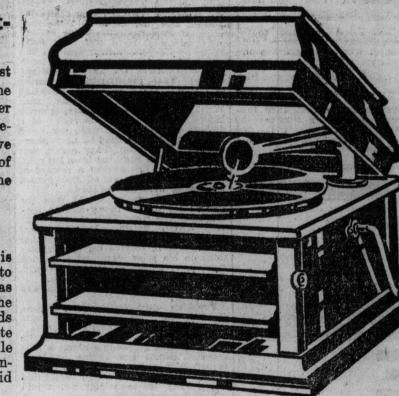

## The Club Outfit Complete

Consists of one latest model Grafonola—the "Jewel" - together with six double-side records, giving you twelve selections and box of 200 needles, all for the very special price of

## Only \$55.00

The complete outfit is sent immediately to your home as soon as you pay \$5.00 to join the club. You afterwards pay balance at the rate of \$1.00 per week, while you have the use and enjoyment of this splendid

instrument.

## Thousands of Records to Choose

All the music of all the world's best operatic singers. violinists, pianists, bands and orchestras are contained in the Columbia Catalogue, from which Club members are entitled to select 12 pieces, or six double-side records.

## Special Offer

Ten additional selections will be given Absolutely Free to all purchasers who pay up balance of Club Dues on or before January 31st, 1914.

Exchange Privilege

Any of the standard outfit of records supplied with this club offer may be exchanged within three days of date of delivery for other records, provided that they are returned in perfect condition.

## The Latest Model Grafonola--the "Jewel"

Which Together With 12 Selections (Your Own Choice) is Delivered to You at Once. The new "Columbia" Grafonola furnished to Club Members is a notable combination of high quality and low prices. The mechanism is fully cabineted; the reproducer operating beneath the lid, and the sound waves being led through the tone arm to the tone chamber, where they are greatly amplified and then thrown out through the opening, subject to a reduction at your will by the partial or complete closing of the small shutters. The cabinet work is of the best, the wood used being handsomely finish quartered oak. Embodies all the latest "Columbia" features—the perfected "Columbia" reproducer, tapered tone arm, continuous tone chamber, etc. A powerful double spring noiseless motor plays three selections at one winding, and may be wound while playing. Its speed is regulated on a gradual dial. This is the first time a high-grade cabinet instrument has been offered at less than \$65.00. It is capable of the tone quality of \$250.00 models. Plays all sizes of flat disc records—both "Columbia" and "Victor."

GUARANTEE.—Every "Jewel" Frafonola is guaranteed mechanically perfect. We protect you from any just cause for dissatisfac-

1000 Will Want to Join This Club---Only 100 Can

Doubtless there are hundreds who have wanted to possess a genuine Grafonola, but felt they couldn't afford to meet the usual terms, who will now hasten to join this Club. No one should need to be urged to join quickly, but there are sure to be many disappointed—don't be one of them.

suffereed a loss of \$1000.

The fire burned fiercely for hours has had charge of the "Mona Lisa" The fire burned hercely for mounts had charge of the mount it, spent itself at 4.30, leaving case from the beginning, "as it does only a mass of smoking ruins.

The Joyner family, mother and three not fit into the facts as we know children, one a baby in arms, escaped them. 'La Joconde' was taken before in their night clothes, all they have decorators, of whom Perugia was one,

## TRAMWAYS BILL IN TYPE WAITING TO BE RUSHED THRU

Montreal People Warned to Be on Guard or They'll Find Themselves Sold Out Again.

MONTREAL, Dec. 13—(Special.)— The Montreal Herald which has been vigorously fighting the efforts of the vigorously fighting the efforts of the local Tramways Company to grab a new franchise to run for forty years, publishes a long despatch from Quebec to the effect that a bill will be rushed thru the legislature at this session imposing such a tramways franchise upon the city, and editorially says:

"In spite of the assertions of Mr. E. A. Robert, president of the Montreal Tramways Company, that the company has not discussed or prepared any bill to be submitted to the legislature this session, the impression that such a bill will be presented at the last minute and a desperate effort that such a bill will be presented at the last minute and a desperate effort will be made to jam it thru at the last hour not only persists but actually gains ground at Quebec. It is asserted that the bill is actually in type at the present moment schedules and all, and that its promoters are waiting only for the proper moment to introduce it.

Has Been Done Before.

"This sort of thing has been done before, as Mr. Armand Lavergne took care to point out to Mr. Robert. The memory of the last time a bill drafted by the same crowd was railroaded

care to point out to Mr. Robert. The memory of the last time a bill drafted by the same crowd was railroaded thru a complacent legislature at the very last minute is still fresh in the minds of Montrealers. It may be attempted again despite the virtuous denials of Mr. Robert and his henchmen. The session so far as it has gone has given us ample evidence of just how much some individuals at Quebec care for this city or its interests. If a bill embodying the whole of the Tramways' outrageous demands were to make its appearance at the last minute Mr. Robert's gang of 'get the dough' boys would be there to whoop it thru. ON "MONA LISA"

whoop it thru.
"Not until the lieutenant-governor has finished the formal prorogation of the legislature can the city representatives afford to relax their vigilance. That the Tramways Company has done nothing so far is an additional done nothing so far is an additional reason for watching every move made with the greatest posible care. Unless we do this we will wake up some fine morning and find that the gang at Quebec has sold us out again."

## FIREMAN KILLED BY TRAIN WRECKERS

Deliberate Attempt to Derail Train Was Partially Successful.

decorators, of whom Perugia was one, entered the Louvre."

People formed a bucket brigade and fought the flames. Had it not been for the heroic efforts of the volunteer firemen the whole village would probably have been wiped out, including the Merritt House.

The only thing saved from the section burned was a trunk and some bedding.

The only thing saved from the section burned was a trunk and some bedding.

The only thing saved from the section burned was a trunk and some bedding.

The original formally for the mannewin which the "Mona Liza" case was handled.

CLIEVIELAND, O., Dec. 13.—(Can. Press.)—That the partial derailment of train No. 16 on the Lake Shore and Michigan Southern Railroad, near Wickliffe. east of this city, shortly before midnight, was the result of a deliberate attempt at train wrecking was handled.

Spikes had been removed from the rails, and the road has offered a reward of \$1000 for the arrest of the person tampering with the roadbed.

Attached to train No. 16 was the private car of the newly-elected president of the New York Central System. Alfred Smith. President-elect Smith, after a visit to his aged mother in this city to receive her congratulations on his prometry.

in this city to receive her congratula-tions on his promotion, and a hurried western trip, was returning eastward. The private car was not derailed. The fireman of the locomotive was killed.

killed.

President-elect Smith, after a conference with the engineer of the train, Joseph Lamb, issued this statement:

"The engineer told me that while the train was proceeding about a mile from Wickliffe the engine suddenly leaped into the air, indicating very plainly that an obstruction that could not readily be seen and yet would plainly that an obstruction that could not readily be seen and yet would cause derailment, had been on the track. The accident is very mystifying, in view of this and the added fact that it was a perfectly straight stretch where the wreck occurred."

After the wreck President-elect Smith himself helped to operate a handcar four miles up the road to a telegraph office to summon aid.

## MR. MOYES MUST PROVE CONTENTIONS

Has Been Invited to Speak at Board of Trade Meeting.

A small element in the board of trade, evidently in opposition to the street railway purchase, has requested the president, Col. Brock, to invite John W. Moyes to address the board on the purchase. Mr. Moyes will give the address next Wednesday. the address next Wednesday.

An interview in the Telegiam credits Mr. Moyes with stating that the street railway purchase at \$22,000,000 would be inadvisable unless the system continued to be operated only within its present area of operation for the next eight years. As he is to take the platform in support of his contention he will have to run the gauntlet of criticism of his deduction. He was associated with Bion J. Arnold in valuating the street railway. nold in valuating the street railway.
Mr. Arnold has declared that the purchase at \$22,000 000 is a sound business proposition. Mr. Moyes will have to disprove Mr. Arnold's deduction to

prove his own. HON. JOHN COSTIGAN'S HEALTH IMPROVES

OTTAWA, Ont., Dec. 13.—(Can. Press.)—A rumor that Hon., John Costigan, who has been in poor health for some time, was in a critical condi-tion, was denied at his residence this morning. It was stated that he had shown great improvement during the past week, and that there was no cause for alarm.

# HONESTY IS THE BEST POLICY

# Our One Price is Unadulterated Honesty

It's the volume of our business and the fact that we deal direct with the mills that makes our fifteen dollar made-to-order clothes the best value in the world.

Other tailors, small and large, have attempted to produce superior clothes such as ours at our price, but they have failed simply for the reason that their output was necessarily small and they were handicapped by middlemen's profits. We began large with the Mills behind us, and we have increased the quality and workmanship of our clothes as the very small profits accumulated by force of the volume of our trade.

We are likewise famous for having everlastingly stuck to the one price proposition. Some other tailors have the one price on the sign-board and an elastic scale of prices. which the clerk can pull on at leisure. Honesty is the best policy and our one price is "really-real" honesty.

# Choice of any Suiting

mers of any suit or overcoat in the

you within doors and then have the clerk smoothly pull a list of urgent extras upon you. Our salesmen are there simply to show you the cloth and explain the weaves, then you go to the cutters. No price need be mentioned, for there is but keeper-if it came my way there would be trouble for some one.

You see, therefore, that our price s something indelible: that you are protected every way. For this figure of Fifteen Dollars, no more no less, you will get the greatest clothes ever offered.

Special to The Sunday World.

NAPLES, Dec. 13.—Fifty Italians, who allege they were locked in the hold of the steamship Adriatic for three days without food or water, on the trip from New York, appeared today as witnesses against 25 of the Adriatic's crew, who are held on charges of swindling. The sailors were arrested when the Adriatic arrived here from New York last night. The Italians said that the members of the crew offered to take them to Italy for \$20 cach. The money was paid and they were smuggled aboard the vessel at night, they said. They were locked in the hold and given nothing to eat of drink. After three days they broke out, and denounced the fraud to the captain. grave on the occasion of the double drawning tragedy here some weeks

## WARD ORGANIZATION COMMENCEMENT ON JOB FOR SIMPSON

mote the candidature of James Simp-son for the board of control. The room in which the meeting was held was too small to accommodate the enthusi-astic men who rallied to Mr. Simpson's support.

Friday evening. The auditorium was filled to its utmost capacity when the principal. R. A. Gray. B.A., opened the proceedings. On the platform were several members of the board of education and the staff of the institute.

the increase continues for additional extensions.

The program was opened with a piano solo. "Valse Arabesque," rendered in a skilful manner by Miss Myrtle Captains are anxious to receive the names and addresses of those willing to volunteer for work in the interests.

Water Supply.

WELLAND, Ont., Dec. 13 .- Sewerage problems formed the subject of a decidedly interesting address given before the Niagara District Medical Association at the Welland Club by Dr. J. W. McCullough of Toronto, provincial officer of health. The address was previously timely age. dress was particularly timely, as the question of sanitation is a live one here just now. The government is en-larging the Welland Canal and this will cut off the source of fresh water supply of the cities and towns along A. the route.

Dr. McCullough stated that he had

pr. McCullough stated that he had positive assurances that the government would build a pipe line from Port Colborne all along the canal to supply fresh lake water. The intake would be about a mile out in Lake Erie. Dr. Old of Port Colborne heard a repetition of the leakage troubles experienced in Toronto if the pipe line were laid thru the Port Colborne harbor as proposed. The speaker stated bor as proposed. The speaker stated that a government commission was we will amply protect your interests," said Dr. McCullough. He concluded ugh. He concluded his address with an interesting account of his recent trip thru Europe, when he made an extensive study of the sewerage systems of European

After the address the association elected the following officers: President, Dr. E. T. Kellam. Niagara Falls; first vice-president, Dr. E E. Binns. Welland; general secretary, Dr. G. M. Davis, Welland.

## ROLLER TOWEL BANNED IN WELLAND SCHOOLS

J. Laughlin, Railway and Realty Man, Marries Buffalo Girl.

Special to The Sunday World.
WELLAND, Dec. 13.—A death sentence has been passed on the common roller towel so far as its existence in the Welland public schools is concerned. At the meeting of the board Mr. McPherson, one of the members, charged that the offender was responsible for the spread of disease among children, for all were not so natural that they habitually shunned soap and water.

The board will replace the unsanitary towel with proper paper towels.

C. J. Laughlin Takes a Bride.

C. L. Laughlin, vice-president of the Niagara, weiland and Lake Eric Rail-way, which operates the local street railway, was married in Buffalo to Way, was married in Buffalo to Miss Uela Lee Vradenburg, daughter of the Rev. Judson Vradenburg of that city. Mr. Laughlin about six months ago secured a divorce from his first wife. Mr. and Mrs. Laughlin have taken apartments at the Hotel Touraine in

Buffalo and will be at home there after Jan. 1.

Mr. Laughlin came to Welland about three years ago and since that time has built the local street railway and conducted a very successful real estate.

Life fortune has grown rapbusiness. His fortune has grown rapidly and he is now estimated to be

worth about a quarter of a million.

Mrs. Cooper's Reception. Mrs. R. Cooper was hostess at a brillant social function on Wednesday afternoon at the handsome new mansion now being occupied by Mr. and Mrs. Cooper on North Main street. The reception room and drawing room and tea room were profusely and beauti-fully decorated with Killarney roses and chrysanthemams. An orchestra played benind a great bank of ferns. Mrs. Cooper was assisted in the reception of her guests by Mrs. James McSloy of St. Catharines.

## CUSTOMS OFFICERS WILL WORK LATE

position in city engineer's department.

## EVERY BULLET HAS ITS BILLET

The following poem was written by George Hughes, 37 Conduit street, and was dedicated to Dr. Norman Allen, who acted as host at the Hunters' Banquet, given by the Commercial Lodge, Sons of England, at the Grand Undon Hotel last Thursday evening. The meat served at the dinner was all shot in the northland this fall and was presented by Dr. Anderson, while all the guests were members of various hunting trips during the open season.

That every bullet has its billet is a saying true and quaint, But it doesn't always follow that the shooter's aim is straight; If you stop just for a minute to think the matter over, You will always find some other weed is mixed in with the cleves. You could not sleep upon a bed of roses if you would: Because your language of the flowers would be misunderstood. And instead of blissful thoughts inspired by nature's fragrant couch. You would rise up from your thorny bed with nothing but a grouch. So stop that ancient longing and to ambition call a truce—Every bullet has its billet—still you do not get a moose.

You leave the busy city and you doff the modern styles, To fiy into the hinterland—to prehistoric wilds. Bedecked with coarse-cut garments, and looking wondrous wise, Your dog will sniff ahead of you—close by you sniffs your guid You wander on in silence; your guide will do the same; The mind becomes unbalanced and you see all kinds of game. One speck on the horizon looks like a buffalo; Another on a distant rock sets your heart aglow. You tell us that you saw a herd of caribou or moose, But you don't produce the evidence—you only make excuse.

After patient years of planning, how best to make a show Of your prowess as a hunter, and how you brought the monarch low. You will spend a lot of money on the latest shooting irons, Prepared to capture anything from squirrels up to lions. You buy expensive outfits, and make the greenhorn stare At your stories of the scenery, and the lovely, balmy air.
You walk for fifty miles or more thru autumn-tinted wood,
And tell us that you reached a spot where no other mortal stood.
You brave all kinds of danger, and let imagination loose—
Every bullet has its billet—why don't you get a moose?

Young, Mrs. Garvin, Mrs. Warnock Mrs. Alexander Laird, Mrs. Scholfield Miss McCausland, Mrs. Charlesworth, Mrs. Murray Alexander.

Mrs. Edward Hagarty will receive in honor of the bride, Mrs. Reginald Hagarty. on Tuesday. Dec. 16, from four till six-thirty o'clock.

Mr. and Mrs. Van der Heyden, Rotterdam, Holland, who are making an extended tour of America, are the guests of Dr. and Mrs. A. S. Vogt.

A felephone euchre party of the Toronto Suffrage Association will be given at the residence of Mrs. Stanley Floyd, 75 Crescent road, on Wednesday afternoon, Dec. 17.

Mrs. Sheard gave a little theatre party on Wednesday evening following the wedding of Miss Alice Ramsay to Dr. Charles Sheard, Jr. The guests included Miss Van Hodgson. Miss Marjorie Norris, of Ottawa; Dr. Smirle Lawson, Mr. Paul Sheard and Mr. Joe Sheard.

Friday, for the first time since her marriage, at her home in Alcorn avenue, when she wore her beautiful wedding gown of brocaded crepe de chene, the bodice of shadow lace embroidered with pearls, a diamond necklace and a corsage bouquet of pink roses and lilles. Mrs. McIndoe, who received with her wore a very handsome gown of amethyst chiffon velvet, diamond and amethyst ornaments, and a corsage bouquet of orchids. Mrs. Powis, Hamilton, assisted in the drawing-room, and in the tea-room. Mrs. William Mr. Joe Sheard.

Mr. J. M. Harper, M.A., Ph.D., F.E.I.S., the well known author and educationist. Quebec, is the guest of Mr and Mrs. Richard A. Stapel's, in Roxborough street, during his stay in town.

Ilton, assisted in the drawing-room, and in the tea-room. Mrs. William Bailey and Mrs. Arthur Meredith presided at the polished table, which was centred with lace and a cut glass bowl of stevia and Richmond roses, with four smaller glass bowls at the corners filled with the same flowers. The girls assisting were Miss Powis, Hamil-

It is hoped that in time the entire joint will be covered with connecting tissues, which will be grown over the silver. thus making a perfect substitute for the original elbow.

The dog did not fare so well. Shortly after the operation he was stricken with distemper and died. The joint of the anesthetized animal's left hind leg had been sawed, leaving the nerves, tendons, veins and arteries intact. The ends of the upper and lower bones, left exposed, were fitted into a silver socket and securely riveted. Muscles, flesh and skin were then replaced, concluding the operation. The dog was nursed for several hours before being given his freedom. He immediately became active, and, baring a slight stiffness. Als movements appeared natural.

After the dog's death Dr. Clark separated the silver joint from the tissues and examined it. He also examined the

Joint.

Dr. Milton Francis Clark, of Sp. Francisco, has recently performed some feats of surgery which, it is claimed, are likely to revolutionize that branch of the medical profession. Popular Mechanics reports that Dr. Clark has operated upon two pets, thereby furnishing a dog with a joint in the hind leg and a monkey with a ball and socket joint of silver and chilled steel.

The experiment upon the monkey was a complete success. Under ether the animal's elbow joint was removed, being sawed off with fine care for the preservation of sinews, muscies, nerves, veins and arteries, none of which were injured. Bach of the exposed bones was attached to cup-like arrangements on the silver joint and securely fastened by rings. No screws or other forms of pins were introduced into the bone. The monkey was not permitted the use of his arm for over a month. to allow the sinews time to heal perfectly. It is hoped that in time

# CAUCUS CONTROL **USED AGAINST HIM**

Opposers in Currency Issue Are Quoting Continually From President's Book

BILL DENOUNCED AS "CLOSED DOOR WORK"

Five Bills Dealing With Currency Question Now Before Senate.

WASHINGTON, Dec. 13.—(Special.)

The United States Senate has before
t something like five bills dealing with it something like five bills dealing with the currency question. There is the Glass-Owen bill as it passed the house, the Democratic bill as reported from the finance committee by Senator. Owen, the Republican bill as reported by the minority of that committee, the bill introduced by Senator Berton of Ohio, establishing a big central bank, with branches and sub-branches thruout the country, and finally, the bill as agreed upon by the Democratic senatorial conference.

The last named bill is the one under consideration, and is now being proceeded with clause by clause. All

consideration, and is now being proceeded with clause by clause. All amendments offered are directed towards that bill which it is believed will pass the senate some day next week. Senators Hichcock, La Follette and Cummings are vigorously denouncing the bill as the worst form of caucus legislation. As a matter of fact, no binding caucus was held, but all the Democrats except Hichcock of all the Democrats except Hichcock of Nebraska are said to have informally agreed to pass the bill and to accept no amendment. This does not, of course, mean that the bill may not be radically changed by the conferees of the two houses.

Against Caucus Rule.

Nevtrtheless, Repuglican senators and the irreconciliable Nebraskan, are budly declaiming against caucus rule, loudly declaiming against caucus rule, and quote continually from the utterances on this subject against "government behind closed doors," to be found in 'Woodrow Wilson's history of the American People. Today Mr. Hichcock read from the volume which has become the gospel of the administration followers, if not the administration leaders, quotations urging "open discussion" and "legislation in the open" as the cure for the evils which beset the United States brought about by "deliberations behind closed

about by "deliberations behind clo doors" and the shaping of laws "How much worse it is," said Mr. Hitchcock, " to enact legislation in a secret party caucus, behind closed doors, where there are no representa-tives of the minority present, than in lieve that the Democrats, many sheep are to be seen.

On that day, says a writer in The Wide World Magazine, the great market is given over to a throng of

miscellaneous traders, whose wares

miscellaneous traders, whose wares provide the most amazing contrasts imaginable. There is nothing in the whole gamut of human devices and needs which one may not come across displayed in some odd collection set forth on the cobblestones.

The traders use few counters or stalls; each of them, whether he has a stock worth three or four hundred pounds or a few rusty old bolts and spindles which one might reasonably expect to purchase for a shilling or two, dumps his wares on the pave-ment of the market Market Market and from this volume, my colleagues will stultify themselves by submitting to a caucus decree in a situation like this."

Can Be Changed.

The senator declared that he declined to consider the measure completed by the Democratic caucus as unalterable.

"I venture to suggest, at the time that the tariff bill was under consideration," said Senator Gallinger, "that that measure was enacted in the manner described by the senator from Ne-

two. dumps his wares on the pavement of the market. Moreover, at this remarkable place there are markets within markets each taking its that measure was enacted in the market ner described by the senator from Nebraska."

"That was a different thing," said Mr. Hitchcock. "The tariff was a parallely and the control of the regular turn and place during the day and then packing up and vanish-day and then packing up and vanish-rency bill is not.

day and then packing up and vanishing. The market was opened by Prince Albert, Queen Victoria's consort, about sixty years ago. The first important parliamentary clash over the currency problem drew near today when the senate began the reading of the Hitchcock amendment. Senator Hitchcock declared that the plan for four regional reserve banks was much sounder than the plan for twelve, if the central bank idea was to be rejected, and predicted that some of the smaller regional banks proposed by the administration bill would be closed soon after they have been established because they will be too weak to be of any service to the member banks that will be dependent upon

> Want Central Bank.
>
> The same idea was expressed by Senator Burton, who spoke in support of his bill for a central bank "The Democratic plan." he said, "plunges a sword into the present system and attempts to divert banking from the normal channels in which it has moved. San Francisco, for example, which can now depend upon New York or Chicago in times of stress, will be cut entirely off and be Want Central Bank. stress, will be cut entirely off and be thrown upon the resources of the re-gion of which it will be the centre." gion of which it will be the centre."
>
> Senator Root introduced amendments to the currency bill, striking out the deposit guarantee provision and bringing the reserve against demand liabilities up to 50 per cent, and imposing a graduated tax when the reserve falls, below that amount.
>
> He also introduced an amendment providing that whenever the federal reserve notes and national bank notes exceed \$900,000,000 no further issue shall be made unless backed by 100 per cent gold or lawful money, and that a tax be imposed on notes in excess of this amount.

SOUTH AMERICA

German Newspapers Declare That States Intend to Adopt Protectorate Over

South America.

Roosevelt and Wilson Have

United to Work Out an

Imperial Policy Assertion.

BERLIN. Dec. 13 .- German newspa-

pers are deeply distrustful of the at-

titude of the United States toward the

republics of South America. Articles

are published regularly in which America is accused of cherishing the idea

of eventually establishing a protect-orate over all South America, and with

the approach of the opening of the Panama Canal their appearance is becoming more frequent. A characteristic article is published by the Tageblatt from its correspondent at Buenos Ayres. This correspondent

"South Americans are beginning to perceive that with the opening of the Panama Canal an era of economic and political guardianship by the United States, coupled with the forcing out of Europe, will be inaugurated in all the twenty Latin-American republics. This realization gained such ground lately that it seemed necessary to the

lately that it seemed necessary to the far-sighted Yankees to send their lead-

far-sighted Yankees to send their leading statesmen on speaking tours, in order to dispel the suspicions of their sister republics. As a result the political opponents, Roosevelt and Wilson, have united to defend the interests of the union and divert South American suspicion upon Europe. Theodore Roosevelt interrupted his triumphal propaganda trip to Buenos Ayres at Rio de Janeiro and sang there an inspired song of praise of the Monroe Doctrine, the strict upholding of which, he said, was a vital question for all South American states. True

which he said was a vital question for all South American states. True to his soothing purpose, he quietly abandoned the aggressive imperialistic form of the doctrine as formulated by himself, and said the union had no thought of territorial conquests, but had in mind only a policy of mutual trust, in the sense of a Pan-American community of interest directed against the old world. In spite of this, he claimed for the union the right to 'exercise the international police power' against the South American republics, in other words 'annexation.'

republics, in other words 'annexation,' in case the South Americans should

show themselves incapable of upholding 'civilization.' Speaking further on his policy of leaving Europe out in the cold, Roosevelt declared that the

nineteenth century was the century of North American development, and

that the twentieth belongs to South

"Where Roosevelt confined himself

Where Roosevelt confined himself to defending the union against suspicions of imperialistic purposes. President Wilson proceeded directly to the attack by picturing Europe as the real enemy of South America. His address before the commercial congress at Mobile was really directed at South America. The aims of the union, he said, had naught to do with pecuniary considerations, but were

pecuniary considerations, but were decided solely by 'the demand of morals.' The principal enemy of these common American morals, however,

was foreign or European capital-from which the South American states

must emancipate themselves. The Panama Canal, he declared was the

chief bulwark of Pan-America's common interests against this destructive outside influence, and would facilitate the emancipation of the South Am-

ericans from the foreign mammon. In this they could depend upon the aid

"In Brazil and Argentina the peo-

ple are just now somewhat under the spell of Roosevelt. There is no lack, however, of important South Ameri-

can personages who see the Panama Canal and the Yankee friendship in

Claus Says:

# "Let This Be a Musical Xmas!"

To those who rightly interpret the spirit of Christmas, music will make its strongest appeal, and will in some form or other be found in their homes on Christmas Day.

# A Novel Xmas Plan

Buy Your Gifts in a Group and Save Money

Here is a novel Christmas suggestion that came to us through one of our patrons. It will save time and worry in your small purchases.

This is the idea: Everyone has several kiddies or young folks or friends to whom they will send a little gift. Under this "Group" plan you purchase a number of suitable articles in a group at a substantial reduction in price and thus complete considerable shopping at a single purchase. The groups have been selected very carefully to cover a diversified appeal, and are arranged in classes divided for the "Kiddies," "Young Folks," and "Friends." They are also graded in value to meet any demand. Any of the articles in these groups may be purchased individually if desired.

# Records for Xmas

If you have a Victrois or have friends who own one, a few records will indeed be appreciated for Christmas music.

We have some splendid Victor Christmas Records, as well as the latest popular hits and newly-made Grand Opera Records by prominent artists—Caruso, Melba, Tetrazzini, Farrar. Records make a very acceptable token that will be appreciated for a long, long time. We will be very pleased to assist you in the selection of beautiful records and very probably if you tell us for whom they are intended we can tell you just what sort of record they would prefer, as they may be one of our regular customers.—Second Floor.

# **BRIBED TO QUIT**

The Two Years of Relaxed Authority Has Given Them Exceptional Opportunities.

**USED TO GIVE THEM GOVERNMENT POSTS** 

Wildness of Country and Immense Distances Make it Difficult to Proceed Against Them.

PEKING, Dec. 13 .- The recent exloits of White Wolf, the robber chieftain of Hupeh Province, have drawn attention generally to brigandage in China. At the present time it is being pursued as a profession, with more or less success, in several parts of the country, and the old-time method of stopping a robber's depredation by giving him a high governmental post has not always been successful.

In Mongolia a considerable band is forming under an outlawed Mongol rince named Tao Shi-tao, apparently one of the numerous Mongol chiefone of the numerous Mongol chief-tains whose extravagance has brought them to ruin with Chinese money lenders. Hunghutze—red haired rob-bers—are indigenous to Mongolia, and of these Prince Tao is reported to have collected 15,000 in Eastern Inner Mon-golia to rayage the Manchurian and golia to ravage the Manchurian and Chihli frontiers. An army has been sent against him and more will doubt-

sent against him and more will doubtless be heard of him.

In Manchuria there appears to be a chronic state of brigandage—as indeed for fifty years past. But numbers of the outlaws are being constantly taken and executed.

At Funing, in Kiangsu Province, there is a well organized band whose purposes are not indiscriminate killing and robbing, but the systematic despoiling of the rich. These men, however, are being relentlessly pursued by General Chang Hsun, who only a few days ago caused the execution of fifty-six of them at one time.

In the south may be noted one

In the south may be noted one Choo, who tried unsuccessfully to loot Canton and fled to Fushau. Unfortunately some of the soldiers sent against him threw in their lot with him, and Choo is at present driving a brick hydrogen. brisk business.
Associated with White Wolf was at

one time a formidable bandit chief named Wang Tienchung, but he succumbed to the proffer of a lucrative government position. Today he is rendering valuable service to his new masters.

The famous "Tiency Hay" was another. The famous "Tiger Hsu" was another well-known robber whose claws were cut by an attractive offer. White Wolf was made a similar proffer but refused. He is not only against the present, but against every government that savours of reform, his ment that savours of reform, his ideas and actions having their roots TWO MILLIONS A

in the Taiping rebellion. The immense distances, the wildness of many regions of China, and the want of even passable roads make it extremely difficult to proceed successfully against these bandits; and to some extent China has always suffered from such. But it cannot questioned that two years of revolution and relaxed authority have given them exceptional opportunities, and the terrorism they exercise is badly

## ENGLISH LITERATURE POPULAR IN CHINA

Over Two Thousand Books Have Been Translated Into Tongue.

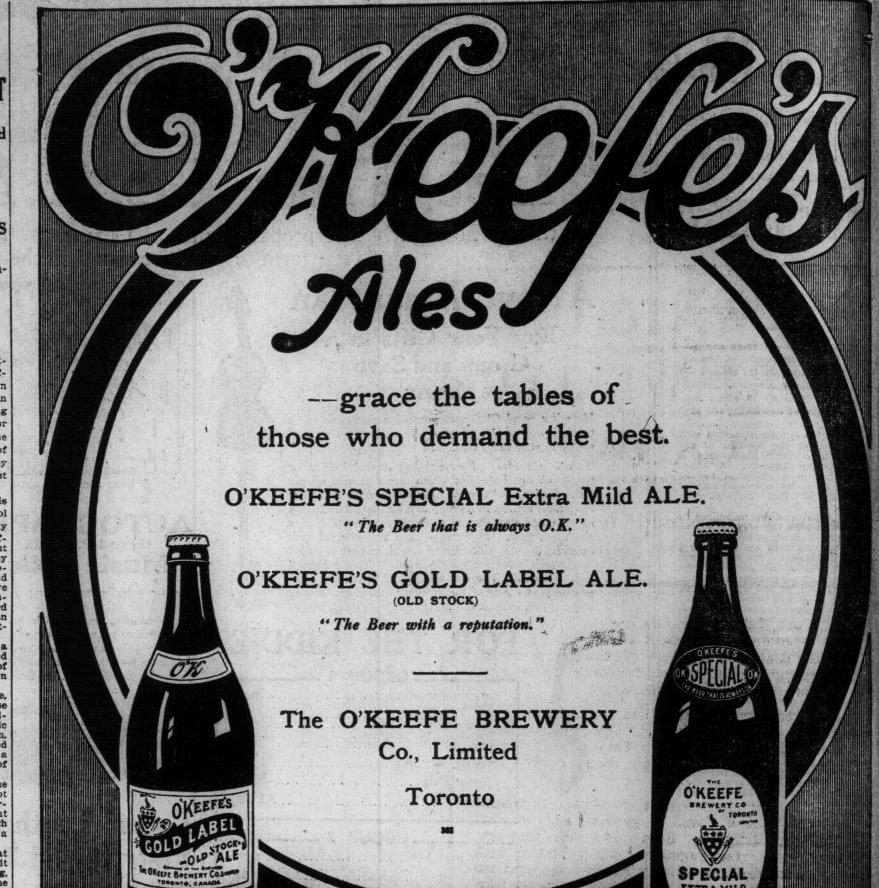

PEKING, Dec. 13.—The Chinese translation of Bryce's "American Commonwealth" has become a classic in this country, a fact which accounts for the close copying by the new Chinese government of American political institutions. Young China western literature, and every Chinese student is now familiar with the works of Rosseau, Montesquieu, Spencer, Huxley, Darwin, Mill and Adam Smith thru the medium of excellent trans-

The Chinese always have been a literary people and since the abolition of the literary examinations of the incient regime in Chinese classics, ney have thrown themselves into the study of law with astounding energy. Standard text books in Chinese schools and colleges consist of Bryce's "Amrican Commonwealth." Lowell's "Govments and Parties in Continental rope," and Burgess' "Political Scince and Comparative Constitutional

In almost every Chinese home may e found light literature translated from every European language. Scott's "Ivanhoe" and Stevenson's "Treasure Island" are popular favorites. It is said that a total of 2000 different books by the best authors of America Usworth Colliery, Durham, found a pendence of Holland, the president of dead pony standing erect on its legs, the second chamber, M. Goeman BorThe Mane and tail were perfect, while gressus, in a speech, expressed the conChina has a chance to know the bard from Lamb's "Tales of Shakspere."

## **VACANT LAND IS SELLING AGAIN**

The World Leads in Realty News

On September 4 The World announced the sale of the corner of Adelaide and Toronto streets to the Excelsior Life Asstreets to the Excelsior Life As-surance Company. Four days later further particulars were given, including the fact that the company would erect a tall office building on the site. Not till the last three days have the other Toronto papers given their readers these facts.

These instances can be dupli-cated in scores of important transactions in city property. The World always leads in real estate news; and the news it gives is well founded—accurgives is well founded—accurate. The realty and construction reports in The World are unquestionable. And ninety percent, of important transactions are first told in The World realty column.

Property owners, real estate dealers, builders, insurance and mortgage agents who realize the full value of early and dependable information keep in touch with changes and devel-

touch with changes and devel-opments by reading The World.

every mortgage corporation is interested, have been met much more promptly than was anticipated. Naturally this has placed considerable money at their disposal.

The easing of the mortgage loan conditions at this time will prove very helpful to builders of houses. Those contractors who were in the fortunate position to be able to carry on their business without financial assistance last summer, are now anxious to realize on their operations. To assume mortgages on their properties would, in many instances hamper their build-

sub-divisions on the market. Having class of buildings to be erected, the man who desires to build his house piece-meal, or, as his financial con-ditions permit, has taken advantage during the next few months the prospects are for lower rates next spring than have been prevalent during the summer just closed. With this in view 1914 will no doubt be a greater building year than the season now practically closed. arines pour in many cases down-town workbut in many cases down-town workers intend to make their future homes
there. Since the operation of the St.

## **NEW SOO CANAL** IS GOVERNMENT'S **NEXT BIG WORK**

12

Appropriation, it is Expected, Will Appear in Estimates. -Part of Great Waterways Scheme

MAKE IT THIRTY FEET DEEP LIKE WELLAND

Link in Chain of Route to Carry Ocean Boats Up to Head of Lakes

Special to The Sunday World. OTTAWA. Dec. 13 .- The next great waterway scheme which the government will construct will be the new Sault Ste. Marie Canal. It is understood that an appropriation will appear in the estimates of the minister of finance to begin the work. The new Soo Canal is part of the great scheme of the government to fashion a waterway from the Atlantic to the head of navigation on the Great Lakes, so that the huge ocean freighters will be able to carry their cargoes for the west from Europe and other parts of the world right to Port Arthur and Fort William. And on return voyages

the freighters will carry wheat from Port Arthur to the old lands. The first section of the great scheme is the rebuilding of the Welland Canal, making it thirty feet deep, and now that its construction is well on the way the Soo Canal can be started next. It will also accommodate vessels of thirty feet draught. The necessary land at Sault Ste Marie was expropriated last summer by Hon. Frank

The hardest section of the huge undertaking will be the deepening of the St. Lawrence canals. This will be St. Lawrence canals. This will be undertaken after the Soo Canal is well on its way. An interesting part of the expropriation of land at the Soo is the fact that in 1906 White Fish Island, and valuable powers which go with it, were secured by James Conmee. The Town of Sault Ste Marie protested to the late government but without avail and it looked as if these rights were irretrievably lost to the Canadian people. However, A. C. Boyce, M.P., who fought for the retention of the island by the Dominion, made the prophecy on the floor of the house that one day Conservative government would be n power and they would secure again or the people their lost rights. The rophecy has now come true

## RAPHAEL TUCK CO.'S **ARTISTIC PRODUCTS**

## **MINE FUGITIVE** WILL DIE GAME

Man Hunt in Utah-Apex Mine Continues — Pursued Spoken to By Friend

BINGHAM, Utah, Dec. 18 .- (Can. Press.)-Stimulus was given to the man hunt in the Utah-Apex mine for Ralph Lopez by a story told to the sheriffs early today by Sam Rogers. a mine shift boss, who said he had seen and talked with the desperado yesterday and the day before. The work of searching sections and then bulkheading them off from the re-

mainder of the mine was continued. The sheriffs accepted the statements of Rogers as authentic. Rogers said he had agreed to meet Lopez again today. He said the fugitive had declared he would die fighting.

"I know they have me cornered in his mine," Lopez is quoted by Rogers as telling him Thursday. "This is my grave. I've made up my mind to that I am not going to commit suicide. I am going to wait here for the end and I shall fight whenever I have to. I could have killed more men than I have. Time and again I have followed posses and heard their plans for killing me. I easily could have killed every one of them. Nobody would have known I was in here if it had not been for Julio Corrello been for Julio Corrello and Mike Stefano who I thought were my friends. If I could kill them both I would die happy."

## "BLACK HAND" **CARRY OUT THREAT**

Wealthy Contractor Shot Dead After Ignoring Two Demands for Money.

NEW YORK, Dec. 13 .- (Can. Press) Two "Blackhand" death threats received by Giuseppe Cuccio, a wealthy contractor, were followed last night by execution of the sentence upon him for failure to pay the money demanded. An unidentified man who crouched in a doorway fired upon the elderly Cuccio as he walked thru an upper East side street. Cuccio dropped dead with a bullet in his brain. His two sons stood just across the street and witnessed the shooting. One of them went to his father's assistance, while the other gave chase to the murderer, who was too fleet, lowever, and except the shooting while the other gave chase to the murderer, who was too fleet, lowever, and except the street and witnessed to the murderer, who was too fleet, lowever, and except the street and witnessed to the murderer, who was too fleet, lowever, and except the shoot in the street and witnessed to the murderer, who was too fleet, lowever, and except the shoot in the street and witnessed to the murderer, who was too fleet, lowever, and except the shoot in the street and witnessed the shoot in the street -Two "Blackhand" death threats reto the murderer, who was too fleet, lowever, and escaped.

## BOMB KILLED THE **WRONG PERSON**

Police Hunting for Foreigner Who Sent Infernal Machine to Bottling Co.

NEW YORK, Dec. 13 .- (Can. Press). NEW YORK, Dec. 13.—(Can. Press).

A young foreigner, swarthy and clean-shaven, was sought today by detectives as the sender of the infernal machine which killed Ida Anuoewitz yesterday as she opened it at her desk in the office of the O. K. Bottling Company.

Dr. Van VI ck Found Genuine David Which Is Healing

pany.
From a patchwork of clues the polic wove overnight a theory of motive for the crime. The slain girl, they believe, was not the victim for whom the bomb was intended; William H. Callahan, the proprietor, was in business rivalry, and this, the police believe, prompted the

PARIS, Dec. 13.—Joy killed Him.
PARIS, Dec. 13.—Joy kills, if seldom, yet sometimes. At the Vincennes races, M. Georges Besars had placed what was, for him, a large sum of money on the favorite. Innovation As his horse passed the winning post several lengths ahead Retion. As his norse passed the win-ning post several lengths ahead, Be-sars shouted "Innovation wins!" then he threw up his hands and fell back dead. The excitement had killed him.

Artist Models Scattered. PARIS, Dec. 13.—Artists' models of PARIS, Dec. 13.—Artists' models of the Land quarter are in despair, complaining that harsh action by the police is rendering it impossible for them to earn their living. For years artists and their models have gathered at the corner of the Boulevard Mont Parnasse and the Rue de la Grande Chaumiere every Monday morning, for the purpose of settling the week's sittings. the week's sittings.

Residents and shopkeepers have complained to the police of the nuisance caused by the crowd, and the police have forbidden the weekly "hiring fair," and will not allow the models to congregate at their accustomed place. tomed place. Duped, Commits Suicide.

## VALUE OF WIRELESS **WAS DEMONSTRATED**

Of the Nineteen American Vessels Lost in Great Lakes, None Had Equipment.

WASHINGTON, Dec. 13 .- (Can, ress.)—The value of wireless has been demonstrated, according to the department of commerce, by the fact that ione of the 19 American vessels lost in the storm which swept the great lakes last month, were equipped with wireless, whereas the vessels which had wireless received warning of the coming storm and sought safety. This information has come to the department from its radio inspectors at Chicago and Cleveland.

About 50 vessels are preparing to install wireless equipment, the inspectors report, as a result of the lesson. The Cleveland inspectors say that just before the storm three vessels cleared from Detroit, one with wireless, two

is repurchasing American railroad notes, but some difficulty is now being experienced in placing such short term obligations here.

Your government's threatened extension of the Monroe doctrine, to prevent the granting of business comcessions by the Spanish American States to European investors in their securities, is occasioning grave-anxiety in thoughtful quarters, and if aggressively pressed, may cause your own securities to become highly unpopular. Cables from London corressiondents in New York, stating that your currency bill is likely to become law by the middle of January and approving its general provisions, have been read with interest. The optimism over its manner of operation is not fully shared here, tho you must remember that our criticism is tempered with a slight tinge of financial jealousy. Nevertheless, the best observers consider that the compulsory rediscounting part of the scheme may yet occasion trouble.

## PREPARE TO FORCE **COLD STORAGE MEN**

Government Will Likely Pass Legislation to Prevent Hold-Ups When Supplies Are Scarce.

(Special to Sunday World.) OTTAWA, Dec. 12.—It is probable that legislation will be introduced at the forthcoming session of parliament to provide for federal supervision and inspection of the cold storage plants thruout the country.

Certain jurisdiction is at present exercised over cold storage plants that are in receipt of a federal subsidy, but there are many other independent cold storage plants in which there is only spasmodic inspection by boards of health, and it has been found unsatia-factory.

It is understood that by the bill which will in all probability be introduced this session no effort will be made to limit the time of storage, but provision will be made by which the government will know exactly at all times the quantity of foodstuffs that are stored away.

It has been alleged that while there has been at times a scarcity of food-stuffs, with high prices prevailling, cold storage plants have been overflowing with supplies. Investigations have shown that in many cases the allegations have been well founded. It is believed that with a possession of the knowledge of the quantity of food-stuffs in storage it would not be difficult to compel distribution.

## To Get Rid of Wrinkles and Bad Complexions

(Frem Beauty's Mirror.)

It is more important now than during the period of profuse perspiration, to keep the pores clean. All cosmetics clog the pores. In winter this interferes greatly with elimination of waste material, injuring instead of aiding the complexion. Ordinary mercolized wax serves all the purposes of creams, powders and rouges, giving far better results. It actually peels off an offensive skin, at the same time unclogging the pores. Minute particles of scarf skin come off day by day, causing not the least pain or discomfort. Gradually the healthy, younger skin beneath peeps out, and in less than a fortnight you have a lovelier camplexion than you ever dreamed of acquiring. Mercolized wax, obtainable at any drug store, is spread on nightly like cold cream and washed off mornings. One ounce usually suffices.

For removing wrinkles, without stop-

Magle Still Hath Charme. PARIS, Dec. 13.—It seems strange

at this time to find that the belief at this time to find that the belief in the occult powers or witch or seer still exists; but that it is so the records of the French courts this week prove. A notary charges an astrologer with having caused the former's wife to leave him and brings suit for divorce. The husband is not so anxious about the return of his wife as he is about the return of her fortune, which amounts to \$1,000,000, "I was first a hawker and then a conjurer!"

and which, should her divorce be successful, would no longer be at his disposal.

## BE A GOOD FELLOW TO SOME LITTLE CHILD

Play Santa Claus to a Kiddie That Is Going to Be Without the Good Things of Christmas Unless You Call-Names of Poor Youngsters Are Now Being Sent Out-It's Your

Your own children or your own little friends are looking forward to a Your own children or your own little friends are looking forward to a Merry Christmas. They will not be disappointed.

But what of the thousands of little ones who cannot expect the good things of Christmas—toys, warm, fine clothing, food.

Think of the children of the hardest hit unemployed, of the children in homes where poverty always holds sway, where sickness, or perhaps death, has added to misery and sorrow. Think of the feelings of poor parents who realize that they can give their kiddles not even a little warmer fire on Christmas Day.

Would you like to help little children to a merry Christmas?

Brass Tacks Sympathy.

Become a Good Fellow. Look after some little child or some family at Christmas time. Learn the depth of joy of giving to those who most need sympathy—good-natured sympathy that comes with gifts in its hands—bringing good cheer where only cold and want and hopelessness before Send your name to The Sunday World Good Fellow. He will at once mail you the name of some little kiddle who needs you, and the address will be near to you, if possible. Few people know that poor people live

Send this:-Sunday World Good Fellow:

Send me the name of a child that needs a Good Fellow for Christmas.

If you think you can look after more than one child we can put you In touch with as many as you like. The workers who are listing the needy ones of Toronto estimate the number at ten thousand. Not Long Distance Benevolen ce.

Remember, this is personal giving and it means also giving time on your part. But you will be well repaid.

A good way to help in this big-hearted game is to organize a few of your friends into a little Good Fellow Club, and between you arrange to look after a couple of children or a family. Get in Touch With the Poor.

Everyone who knows anything about Toronto realizes, although the average person is prosperous, that there are many who are at the very opposite extreme. There is, therefore, no need to publish any of the hundred sof distressful letters and reports received.

Put your good intentions into motion and send in your name.

## WAS 23 YEARS WITH N.W.M.P. IN YUKON, YET BEING SANTA CLAUS IN BIG STORE TIRES HIM OUT

Idol of Thirty Thousand Chil dren in One Day Finds Task Fatiguing-Veteran of S outh African War Thinks His Job a Great One, However-Most Interesting Work on

he has greeted over one hundred thou-sand kiddies, and asked them what they want for Christmas. Saturday 30.000 adults and children filed pas 30.000 adults and children filed past his chair, and, altogether, there are 20.000 names signed in his book.

"How do I like it?" asked Mr. Mc-Lelland, "Why it's the most interesting work on the earth." For 23 years he was a mounted policeman in the Yukon district. He received his honorable discharge as sergeant-major. He was one of the police sent to King Edward's coronation, and he saw active service in the South African War, receiving four clasps and a medal. He receiving four clasps and a medal. He was a bachelor until 18 months ago. His usual occupation in the store is

santa is such a big man that there is no need of pillows or air bags. His clothing, tho, bears a semblance of exceptional thickness, its in reality very light. He works six hours every day, beginning at 3.30 in the morning and finishing at 4.30 in the afternoon completely tired out.

Delights the Children. "Well. what do you want?" he will ask one catching him by the arm and drawing him up against his knee. The little one looks right into Santa's eye with a real expression of worship and wonder.
"I want a hockey sthtick and puck," "Alright." says Santa, putting him

"And what will you have?" he asks a little girl picking her up in his

"A rooster and a singing top," chirps up the next. Another wants a steam yacht. The next will be satisfied with a sleigh. A few want a whole lot of things, including an engine and real horses and raisins.

Two Thousand Sometimes Wait.

Any of the little ones that want to hug or kiss Santa are in no wise discouraged, only when two or three

ouraged, only when two or three mousand are waiting; they must harry.

Being a real Santa Claus is a great job thinks W. A. McLelland, of 34 Gerden avenue. Since he arrived in his cave on Albert street a month ago he has greated even are handed them. They wanted to talk to Santa them. They wanted to talk to Santalike the others, but they had to go round in the little gate again.

Gave Santa Jam.
Once in a while the kiddles the they have offended Santa and the come back to make it up. One stated that she still had all the things Santa sent her last year, she had saved up some money Santa to use on some other little s and she proceeded to pour nearly fifty cents into his hand. Anyone who writes to Santa gets a

Anyone who writes to Santa gets a reply, in which Santa says that he has seen the name on his good book, and will try to get around Christmas nighwith his four reindeer, whose names are "Nemo," "Buster," "Hans." eat, "Fritz" "Perhaps I can take the right into Toyland with me. I will pethinking about you so be a good child till I come," Signed. Your old friend Santa Claus.

Hints for the Children.

The reindeer were actually taken in
to Toyland, but in spite of extende
training and civilizing influences the
became a little too frisky, and had t be sent back to the farm. Santa often tells the children, as they come up to him during the day, to be sure and leave some cocoa and biscutts on the dining-room table for him, because he works so hard to get around to all the places, and gets awful hungry.

Most of the girls ask for dolls, or dresses for dolls, and furniture for dolls' houses. Once in a while they will ask for clothes for themselves, and one day no less than ten of them asked for bibles. The boys as a rule, ask for skates and bob-sleighs; however, attake and machanical toys come

next in order.

Early Become Credulous

Belief in Santa is very strong children up to the age of six and se eight The children themselves, when they find out who Santa is, feel as if the foundations of the world have Santa gives them a resounding smack when they suggest that they would like it. A couple of extra small youngsters, when coming suddenly on Santa yesterday, gave a shriek of alarm.

## Scope of Lloyd George's Insurance Scheme Enormous

LONDON, Dec. 13.—The enormous scope of Lloyd George's insurance scheme is shown by the figures for the first nine months of its operation, which are just now available. Here they are: Persons insured, 13,700,000; insurance committees, 233; approved societies and branches, 23,500; medical visits, 22,000,000; doctors, 20,000, cases treated, 12,000,000; sanatorium cases, 36,000; doctors and medicine, 22,500,000; sick pay, 25,000,000, maternity

## PRESIDENTS HAVE TO WORK AND PLAY

in Keeping Daily Calendar Clear.

Presidents have to play as well as Roosevelt way was to have only a general daily program, which he revised at will, accepting interruptions as they happened to arise, but, nevertheless, accomplishing a large task. When the clock struck 4, no matter what public or private business might

Taft's way was to enter his office in the morning and sit there till he was the morning and sit there till he was tired, letting his callers consume all the time they wished; and, even when one had exhausted reasonable hospicality and started to withdraw, the chances were that the president would still detain him to listen to a funny story or answer questions entirely alien to the purpose of his visit, while a dozen other persons, waiting in the anteroom under engagements made for an hour long past, chafed and fretted, and perhaps went away unsatisced, and perhaps went away unsatis-fied. When he had had enough, Taft would go for a walk, or a ride, or a

President Wilson's way differs from both of these. His day is carefully ordered in advance, and the order is lived up to with a regularity almost mechanical. His morning is passed in receiving visitors by appointment. Even members of his cabinet make their engagement for an interview. Visits of all sorts are limited, unless otherwise specified to five minutes. otherwise specified, to five minutes apiece; and the visitor who has not the grace to go when his time is up has his memory jogged by the sudden appearance of Secretary Tumulty with a handful of documents described. appearance of Secretary Tumulty with a handful of documents demanding the immediate attention of the president, who rises in token that the interview is at an end. Thanks to this rule, Mr. Wilson is able to keep his appointments at the hours specified, and clears his calendar every day. At 4, or soon thereafter, he leaves his office for the afternoon, thus enabling the clerical force to wind up their work and go home for dinner betimes, instead of waiting as they used to under the last administration, on the possibility of administration, on the possibility of the president's return.

St. Mirren 18

Burslem v. Darlington. ... Merthyr T. v. Stalybridge. North Shields v. Chesterfield. Luton v. South Shields. Luton v. South Shields.
Brentford v. Southend.
Blackburn's Fall.

Hats off to Oldham, who, by walloping Blackburn Rovers on Saturday, enabled their near and dear neighbors, Manchester United, to mount to the leading position in the English League standings. Blackburn have held this position from the start, and are still level with the United on points, but are handicapped by the fact that they have two more games played than their rivals. Now that the United have assumed leading position, they may be depended on to walk very carefully, as there are others besides Blackburn who are close at their heels, and who will try to trip them up, Sunderland, Bolton. West Bromwich and Oldham are all in favorable positions for putting them down from their high perch,

Five Drawn.

Perch,

Five Drawn.

No less than five of the English first division games were tied on Saturday, one point being credited to each of the functibes involved. Burnley sent the "Citizens" of Manchester home defeated, and Preston North End excelled themselves by beating Derby County, but all results paled before that recorded by West Bromwich Albion over Sheffield Wednesday, and on the latter's own ground, too.

## SIX-DAY RACE HERE IN MARCH

While the papers are full of the doings of the pedal-pushers in the big six-day bicycle race at New York, it is not too soon to put in a good word for the grind that is to be held here early in the spring. Manager Solman of the Arena Gardens closed with the riders yesterday, and a six-day race will be put on here just as soon as the hockey season is over. All the cracks that are now appearing in New York will be here, and eight hours a day will be the program for the week. The grind made a big hit here last year, and if the riders pull off a few "jams" early in the week the Arena will be packed.

## PRO TEAMS HOLD FIRST PRACTICES

Torontos and Ontarios Trot Out Good Squads-St. Mikes on the Job.

Winter is here. The first hockey prac-ices of the season were held at the rens yesterday, the two pro. clubs hav-ing the honor to be the first on the 'ce. t was a hurry up call, and only 'he players at the Arena at the time took part in the workouts.
Jack Mershall trotted out a nice looking bunch for Toronto's initial stunts. Jack Walker, the Port Arthur boy who came to the Blue Shirts from the Maritime Pro. League, made a hit with the railbirds. He is an exceptionally fast skater and a pretty stick handler. He should have no trobule in catching a regular berth. Minnie McGiffen, Frank Foyston, Harry Cameron, Al. Davidson, Harry Holmes and Cully Wilson were the other men out. Manager Jack Marshall kept them at it for an hour, and all were shy on the wind when the closing whistle blew.

St. Michaels were the first smateur team to take to the ice, and the Saints had a lively workout between five and six o'clock. All of last year's favorites were out, and with the indoor work put in py the senior runners-up of last year, all were in good shape.

The regular practice hours will go into force on Monday as follows:

10.00 to 11.00—Ontario pros.

11.00 to 12.00—Toronto pros.

12.15 to 1.15—Osgoode Hall.

3.00 to 3.30—St. Michael's College.

3.30 to 5.30—Varsity teams.

5.30 to 6.30—St. Michaels.

6.30 to 7.30—Toronto Rowing Club.

7.30 to 8.30—Argonauts:

8.20 to 9.30—T.R. and A.A.

9.30 to 10.30—Toronto Canoe Club.

10.30 to 12.30—Bank teams.

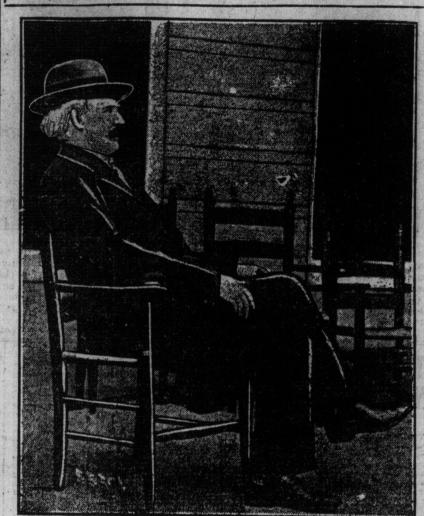

Owing to several students taking, their examinations it is hardly likely that Osgoode Hall will hold their first workout until next Saturday.

There will be public skating at the Arena Tuesday night.

St. Johns, of the Beaches League, will hold a meeting in their club rooms, Kingston read, Monday evening at eight o'clock. All members are requested to be PUBLIC UTILITY LEAGUE

The Public Utility Hockey League organized for the coming season with the following teams: Bell Telephone Co., Consumers' Gas Co., Toronto Electric Ligat Co., City Hall, and the Toronto Hydro-Electric System

## IN CASE YOU NEVER SEE HIM

## BONESETTER REESE OF YOUNGSTOWN

at 17-he has not had time for a vacation in years, but recently he found time to do a little fixing for himself and took a jaunt to Hot Springs for a rest. It was there this picture was taken. He has now returned to Youngstown and is again ready to knead muscles and replace tendons with those powerful hands and that canny intuition that has made him famous.

Geniuses do things by instinct and Reese is a genius in his line. Reese has no degree of medicine from an institution of learning. The theory of surgery is secondary, but the practical is everything. And Reese got his training not in a clinic, but in a steel mill.

Here is the story of this remarkable man, whose ability to set bones and replace dislocated tendons and muscles has won him a national reputation.

Reese was born in Wales, and came to America when he was 32, heading straight for Pittsburg steel mills. He was an ordinary workman, but had strong, deft fingers and a little practical knowledge of how the human frame is put together—and he had a natural gift for setting bones.

In the mills, opportunities to mend brroken bones and replace tendons were frequent—so frequent that before long Reese was paying more attention to his fellow-workmen than to the work for which he was paid. His experience gave him confidence to quit the mills, after five years and move to Youngstown and take up natural surgery. Almost at once he acquired a big practice.

Deals With All Athletes.

The Bonesetter has repaired so many ball players, boxers and men in other lines of sport, that he had difficulty in recalling individual cases.

But he does remember Tommy Leach. "Tommp the Wee" sprung a tendon when the Pirates were having a neck-and-neck finish in the flag race. In fact he sprung the tendon twice in two weeks, and his baseball career seemed ended.

In the end Pitishurs won the flag and no man did more to bring this about

don when the Pirates were naving a neck-and-reck miss in the larg race. In fact he sprung the tendon twice in two weeks, and his baseball career seemed ended.

In the end Pittsburg won the flag, and no man did more to bring this about than Leach, the cripple, able to play marvelous ball, thanks to Bonesetter Reese, who sent the jumping tendon back where it belonged, every time it hopped. Reese also remembers Ed. W. Geers, world-famous reinsman. Geers was thrown from his sulky and a broken ankle resulted. After the doctors were thru he went to see the Bonesetter for relief. He found Reese's house after difficulty, but saw no shingle, and when he finally saw Reese he allowed that a patient ought to be able to discover where a doctor lived without having to climb to the front door to read his name on a two-by-four door plate.

Three years ago the "Silent Tennessean" revisited Reese with a broken wrist, and now swears no one compares with him. Geers' advice is that any one who contemplates breaking a bone, had better do it while Reese is in business.

Not long ago Reese had a patient in the person of Battling Nelson, to whom he refers as the most mussed-up piece of humanity in the lead. He thinks the Dane's name should be "Battered," instead of Battling.

The mere mention of Nelson's broken hand brought a sigh from the Bonesetter. The veteran boxer carries such a choice collection of fractures that he is beyond help. Although the gamest man in the ring, Nelson flinched in the hands of the Bonesetter, who grins as he tells of it.

Hands Show His Power.

One look at Reese's hands betrays his secret. Large, sinewy and knotty, they are the sort you'd expect to see upon a steelworker. The very sight of them creates an impression of power, but gives no hint of the wonderful delicacy of touch that enables him to locate instantly a displaced muscle or a tiny broken bone.

A callous on the knuckle of each middle finger is significant of the great number of cases Reese has treated. These callouses, about the size of a five-c

## **BRIGDEN CUP TO SUNDERLAND DEVONIANS ARE DEFEATED**

Play Close at All Stages — Trophy Presented to Winners at End of Game - Good Crowd See Fine Soccer

winners of the semi-"hal sames. Devonians and Sunderland, battled for the final of the Brigden Cup today. Brilliant weather prevailed, and, with both teams at full strength, a great game was played. The Sunderland team were by far the heavier, but the pluck and persistency that has been the feature of the Devonians play all thru the competition stood them in good steady today. The teams lined up as follows:

Devonians—Goah Hunt; backs, Collett and McKenzie; half-backs, Green, Leonard and Swift; forwards, Hamilton, Tapper, Hopper, Burns and Train.

Sunderland—Goal, Day; backs, Stewart and Polly; half-backs. Charlton, Simmons and Brown; forwards, Sturch, Norman, Griffiths, May and Moffitt.

Referee—Sid Banks. Linesmen—E. Spencer and F. Mitchener.

First Half.

Devonlans won the toss and elected to play with the strong sun at their backs. Griffiths kicked off and play settled down in midfield, Hopper started a passing movement, but at the critical moment the ball was kicked outside.

Sturch broke away for Sunderland and got past McKenzie, but his centre was cleared. Leonard was playing well, his passes beling perfect. Devonians got down and from a pass by Burns, Leonard sent a good shot outside. Sunderland were playing good combination, but the Devonians developed cup-tie tactics and shad the best of the first quarter of an hour's play. Hopper twice put in good shots and from one Day exceeded his space limit and the referee awarded a free, which was cleared.

The Devonlans' goal had a narrow escape immediately after Moffitt centring right across the goai, but nobody was there. Norman and Sturch indulged in some pretty passing, but could do nothing with the resolute defence put up by Swift and McKenzie. Another exciting movement took place in the Devonians soal, Moffitt heading just over the bar.

From a free against Sunderland Tapper notched the first point for Devonians, heading the ball in the net quite out of Day's reach. Spurred by this reverse Sunderland immediately got down and from a pass by Moffitt scored,

By a Staff Reporter.

ROSEDALE GROUNDS, Dec. 18.—In a presence of about 1000 spectators, the mairs of the semi-first games, Devonise and Sunderland, battled for the final the Brigden Cup today. ## WANDERERS CLIMB TOBOGGAN SLIDES

Fast and Slow Events-The Results.

Riverdale toboggan slides presented an animated scene on Saturday afternoon, when the Wanderers' Motorcycle Club held their annual hill-climb. Ideal weather and general interest in the motorcycle brought out a large crowd, which thronged the course from the foot of the hill to the top and finishing point, and the audience was kept constantly occupied watching the little two-wheelers make the grade under every condition. Nor did they stick entirely to the sildes, but breasted the heights from all points. The program, which was a varied one, included fast and slow climbs for single and twin classes, and a climb for side car machines.

Tommy Smith, riding an Excelsior, made the fastest time in both sole events, and also in the side-car class, while Roy Thompson made a wonderful climb when he took 119 seconds to make the grade in the slow event.

The surface of the sildes became somewhat soggy under the heat of the sun, and there were somis spectacular skide on the soft spots, but nothing serious happened, and the results were very satisfactory to the officers.

Excelsior riders easily carried away the aggregate of points, taking sil five events, which netted them 20 points. The Triumph got live points and the Merklet three. The summary:

Turned Back More Thieves Longest Motor Boat Race on in National Than Any Record is Proposed Other Receiver.

By Ernest J. Lanigan.

Will Killifer of the Phillies, who might still be on the St Louis American League Club were it not for the fact that Jim McAleer fired him from that team in 1909, was the best throwing backstop in the National League last season. He thwarted 130 attempts to steal, and was one of three men who averaged one or more men thrown out per game. The other backstops who had a record like Killifer were Mike Simon of Pittsburg, and Jimmy Archer of Chicago, the last named, like Killifer, being an American League discard. Hugh Jennings was the manager in the Johnson organization who shipped Archer back to the minors.

Simon averaged 1.04 victims to the game, and Archer 1.02, the Pittsburger flagging 36 men in 92 contests, and the Chicagoan 105 in 103. Johnny Kling of Cincinnati ranked fourth among the windpaddists when it came to pegging out men who tried to steal; lvy Wingo of St. Louis, fifth; Otto Miller of the Superbas. sixth; "Chief" Meyers of the Glants, seventh; Bill Rariden of the Braves, eighth; Will seventher and western sections of the American Power Boat Association are carried out, the longest motorboat race on record will be held in 1915. It is planned to hold a race from New York to San Francisco via the Panama Exposition committee.

At a recent meeting of the California section of the association and the Panama Exposition committee.

At a recent meeting of the California section of the association the matter was approved and details discussed. Secretary H. L. Bureson, who spent some time in the east just before this meeting, found the sentiment in New York and the east generally in favor of the race.

It is expected that inviting trophies will be put up for this ocean to ocean race, and in view of this some of the motorboat enthusiasts are already indicating what they will do. One San Francisco man has already signified his intention of putting \$40,000 into the construction of a boat, and east error boatmen, it is said, will also spend big sums to get the best possible boats for the ra

Willie Fitzgerald Passes Up Fight Game After a Long Session.

NEW YORK, Dec. 13. - Willie Fitzgerald, the "Fighting Harp," has at last bowed down to Father Time, and announces his retirement from the oxing game, after 18 years of yeoman service. Willie was recently stopped by Soldier Bartfield at one of the local clubs in eight rounds, and that defeat is the cause of the famous "Fighting Harp" retiring from

the game forever.
Willie retired twice before, but each Willie retired twice before, but each time, after a short absence, returned to the roped arena. Fitz says the retirement this time is for good.

Willie, in his day, was one of the greatest lightweights that ever donned a glove. He always fought on the level, and tried his hardest to win every time he battled. The "Harp" always had a good word for his opponent, whether he won or lost. Fitz gave that Grand Old Master, Joe Gans, one of the toughest battles that the colored marvel ever engaged in. Willie met Joe when the scientific negro was at his best.

gaged in. Willie met Joe when the scientific negro was at his best.

It would fill a book to teil about the "Harp's" famous battles with the great fighters of the Horton haw days. Willie's first attempt at the comeback stunt was a sensational one. The "Harp" weighed in the neighborhood of 200 pounds, Willie put himself under the management of Jim O'Loughlin, and the latter matched him with the best welterweight around here, He was successful in all his bouts, and then retired again, but only for a short time, again, but only for a short time,
His second attempt at the comeback stunt was not as successful as
the first, altho he won a few bours; ut it could be plainly seen by many hat his days so a good one were over. Barmield was the first better to stop Fits. That defeat was the finish

of a one-time great fighter,
Willie can be proud of his great
record. He was born in Brooklyn, and
it will be a good many years before this borough will see another
Fitzgerald.

# What Organization Has

Done for the Fight Game

Secretary of the New York State Athletic Commission. It is the Real Sport.

NEW YORK, Dec. 13.—Boxing has now been established under legal sanction for two years, and experience in that period has demonstrated that all that this splendid pastime really needed was the restrictions imposed by regulation and control to place it among the standard sports of the nior metropolitan games that he got LOSE CRACK WALKER.

LOSE CRACK WALKER.

his heart into the sport again. Following walking in his oldtime form at the "Mets," where he was beaten a bare yard by Dick Gofford of McCaddin Lyceum, Kalser trained for the seven-mile championship, and in that race he cleaned up in handsome style.

The present law, known as the Frawley Law, was signed by Governor Dix on July 25, 1911, and the State Athletic Commission, composed of three commissioners, officially organized on August 18, 1911. The first bouts were held under this law on August 29, 1911. A similar law had been introduced by Senator Frawley in the New York State Legislature for all years preceding this time and SPORTSMAN LOST William Gidlow, Formerly of six years preceding this time, and twice it had passed both houses of the legislature, but failed of signature of the governors then in office.

strong enough, he will not hesitate about sacrificing the honors that he wins on the cinderpath for better business prospects. Fred has long taken part in the walking races under a big handicap, because of the fact that he holds down a hard job during the day and goes to night school during the evening.

After making a poor showing in the Stockholm Olympic games last year Kaiser lost much of his enthusiasm for athletics, and it was not until he went to Traver's Island last August at the earnest request of the New York A. C officials and trained hard for the Boxing is of the strenuous type of sports in line with flootball and baseball; but having been previously conducted without legal supervision, had been open to more or less criticism.

With the introduction of this comnission, new rules governing the port were adopted, abolishing all the bjectionable features, and safeguard-ng both the public and contestants.

Boxers, before entering the ring, must now be examined by reputable physicians of five years' standing.

Nothing less than five-ounce gloves No decisions are allowed to be given,

and no betting is allowed. The old-time garabler, with his tainted roll, is an unwelcome visitor at our shows these days.
One hundred and thirteen licenses have been issued by the commission since its organization, of which about

55 clubs are still operating thruout the state.

Clubs and contestants must enter into written contracts, and each is held strictly accuntable for the fulfilment of same. This is a wide departure from the old days of bare knuckle, prize ring battles, as, under the present law bouts are conducted in buildings under orderly restrictions, where no liquors are allowed to be sold and boisterous conduct is not permitted.

International Weights.
After the New York State Athletic
commission had established itself, it was decided to effect, if possible, an international organization, which would control and conduct boxing thruout the world. This commission

took the initiative, and the secretary got into communication with the governing bodies of England, France and Australfa, looking to the adoption of rules which would standarize weights and recognize penalties and rulings.
Negotiations are still pending with the countries named, and Belgium, Denmark and Switzerland, as well as other European countries, have come forward, and are ready to join such an organization.

organization.
Following the lead of New York State, Wisconsin and Montana have adopted similar laws to the Frawley Law, and boxing in those states is now conducted under legal restriction, as in New York State.

The experience of the past two years

has demonstrated that all that boxing needed was supervision and control under a body legally constituted, which orced such recognition, as the boxers and the clubs, realizing that they are cocuntable to this body for strict incerpretation of law, rules and regula-lons, have brought the sport to a point where it is generally commend-d. Every official connected with a lub, from the owner to the referees, rekeepers, principals, seconds, and, a fact, everygody, even to the specia-ors, are under control of the commision and subject to its rules, and from the to time the commission has aken action punishing those guilty of airactions of its rules, whether the ffender was a club member, a boxer, r a spectator, the penalty in most ases being that the offender was arred from admittance to any

voke a quarrel, as he is fully confident of his powers to defend himself at any and all times, and, consequently, is ordinarily one of the most modest of men; and this quality is what augurs well for the future of Young America, as it has been demonstrated absolutely that this sport innoculates a spirit of honesty and good sportsmanship, which, with its splendid chances for physically perfecting the youth, makes it one of the most desirable of sports, all show a far greater list of fatalities and injuries than the sport one of the wery ling, not mentioning automobile racing and aviation. which, probably are not really considered in the line of sports, all show a far greater list of fatalities and injuries than the sport of boxing.

A notable improvement is the type of boxer in professional ranks who has attained championship honors today. In the old days the champions were careless fellows who dissipated both their health and money, in many cases finishing physical and mental

For some time it has been suggested and in the public schools of the cities in this state, and in my opinion the time is not far distant when the public schools, as well as the private institutions of learning in this country, will gladly adopt the sport of boxing as one of the features of their athletic program. Take for instance, the youngster who is naturally retiring and timid. If this sport is naturally retiring and timid if this is naturally retiring and timid if this sport is naturally retiring and timid. If this sport is naturally retiring and timid if the community in which they reside. For some time it has been suggest-ed that boxing be introduced in the

him the feeling of self-dependence and confidence, thus making him certain that if at any time assailed, he'd feel fully capable of properly defending himself without resorting to deadly weapons. Teach the school boy box-

## JESS WILLARD IS NOT HOPELESS, ALL THAT HE LACKS IS PEPPER

Gossip.

a fellow like Willard. Smith fought Morris like the veriest sucker. He never side-stepped the glant, and in every clinch Morris pulled and mauled him until his strength was gone, and to begun to show his present great the bout. Smith was so tired that he didn't appear to have an ounce of fight left in his body.

To get back to Willard. As badly as he fought he proved beyond all question that he can beat Morris. And there are few white heavies who can say as much if Manager Tom Jones succeeds in injecting a little more ighting into his big charge it is here for Willard.

of the game than Morris, yet he can't seem to work up enough interest in his job to fight as if he was in earnest. Only at times would he show flashes of the ability he possesses.

That he defeated Morris no one who

saw the contest can doubt. That he could have put Carl out had he followed up his numerous advantages appears beyond dispute. Whenever Jess did cut loose he showed he knows how to deliver a punch—something

add cut loose he showed he knows how to deliver a punch—something Morris does not and probably never in the east, where Arthur was seen at its worst, is there an evidence of bopular unbellef in his provess.

On all form Smith should win easily but the same, not excepting the walloping "Gunbat" For he shook big Carly several times, and had he seen fit to go on about his business there is little doubt he would have won with a clean knockout. Cerl was in bad shape several times during the bout.

Morris looked good in his battle with "Gunboat" and the holed was an and shape several times during the bout on a foul. He looked very bad against Willard. He entered the ring in a worried state, and this was not improved when he found that his manuling methods were of little avail. Against the "Gunboat" Morris realized that his great bulk and strength were of inestimable advantage to him, and that if he could avoid the "Gunner's" pille-driving right for a few rounds his chances for gradually wearing down and tiring out his opponent would give him a splendid chance to will. Will have the showed with Morris Peiky man of practically his own weight and build.

I believe I could take "Gunboat" well the sports at large. Only her in the east, where Arthur was seen at his worst. Is there an evidence of popular unbellef in his provess.

On all form Smith should win easily. But then Tommy Burns has seen him in "hepped" to the "Gunners" to the Gunners' believe as a propell the foxy Thomas will give him a splendid chance to will be showed with Morris Peiky man will in the weight has been boxing in Paris the last year is due to arrive in Side last year is d

Arthur Pelky and "Gunboat" Smith are matched for New Year's Day, This tion of the sports at large. Only here in the east, where Arthur was seen at

my Clabby as the daddy of the middleweights, because he beat Sailor Petroskey and Frank Logan, two box-

We know Clabby to be a pretty classy boy, but before passing on his claim to the championship title would Jim Corbett Thinks the Big Smith in hand and make him a sure winner over Morris. But Smith would have to adopt an entirely new system of fighting. As gaited at present, his only chance of beating Morris would lie in his luck in getting a deadly punches on New Year's Day—Fight Gossip.

Claim to the championship title would like to see him go against George Chip or Frank Klaus, or some one of the real tough ones of the east. Only once did Jimmy box in New York, and at that time he made a medicore showing. I don't think he has ever showing. I don't think he has ever met the men regarded in this section as the leaders in the division, among them the pair named above, Jack Dillon, of Indianapolis, and Eddie McGoorty, the Oshkosh fighter. True he once earned a verdict over Mike Gibons, but at that time Gibbons had

like our friend Doc Munyon, I believe there is hope for Willard.

Willard is more or less of a puzzle. Willard is more or less of a puzzle. He has a great deal more knowledge of the game than Morris, yet he can't seem to work up enough interest in seem to work up enough interest in

Arthur Pelky and "Gunboat" Smith are matched for New Year's Day, This bout will have considerable bearing on the heavyweight situation, as Smith is popularly regarded as the "class" of the bunch, while Pelky, since the accidental win over Luther McCarty, has gone up several pegs in the estimation of the sports at large. Only here

IMPROVED ROLLING AT T.B.C. ALLEYS

Improved rolling has marked the work of both Toronto Bowling Club Leagues at the College alleys during the past week, and with it has come the rounding to form of the older members, whose nes are not quite so limber as in seasons gone by, but who nevertheless can always make it a little more interesting

always make it a little more interesting for the younger fry as the season advances with the old kinks gradually working out.

This improvement is more noticeable in the Fivepin League, where the Senators, a team who might have been Oslerized many seasons ago, have come to the aront with a jump that has completely taken the breath out of all rivals; however, good hard work on the part of Manager Tom Litster and Captain Jack McKinley had its reward, especially Jack, who is a tower of strength on the coaching lines, while his own work in the game is always a feature. Bill Clarke's Millionaires also, altho not flaunting the old age hanner, have reason to be proud of their many years usefully spent by being right up with the Senators and the team now to beat out for the first series of other minnant possibilities.

tionals have yet to be reckoned with, a postponed game with Canalites and the Saturday night fixture with Paragons having to be accounted for before a true line of dope can be had on the new addition to the league this season under the management of Harry "Sis" Hopkins. In regard to the postponed games Sam McBride's All Stars and "Feather" Aylesworth's Canalites should take a hint and cut out pink teas and bridge parties on their scheduled night. The "Feather", however, has promised amends by making his team take part in a grind Monday night when the Sewer Pipes and Nationals will be taken on, therefore, with the series about half finished finds the first seven teams in this league all fighting hard and a good chance for anyone of the seven landing first series honors.

fighting hard and a good chance for anyone of the seven landing first series honors.

In the Business Men's Tenpin League the front runners have all retained their positions, Maybee & Co. still holding down the top rung, altho given a scare Friday night when R. G. McLeans, who have been burning up the alleys of late forced the stockers to roll their best with a horse shoe thrown in to nose them out in the odd game. J. Curry Co. in second place fattened their position but not their averages in taking all three games from MacLean Publishing Co., the latter having the best chance of the season of defeating the Bankers and Brokers in one or more games when only one game over the 800 mark was recorded. R. S. Williams and R. G. McLeans, however, in third and fourth place respectively seem to have the edge on the front pair, and with the the musicians, who stuck in a 914 count against I. A. Steamfitters, meeting the leaders during the coming week and R. G. McLean clashing with Lang Mack Co., the end of the week, should find the first four teams in this league almost tied for the top.

Wealthiest Housewives of Toronto Give Personal Care to Quality and Prices of Their Kitchen Needs.

I

F you have a neighbor, friend or acquaintance, if you know anyone by sight, you are almost certain to see her at the market, any Saturday morning, between the hours of nine and twelve. That is, providing that neighbor, friend or acquaintance be of the feminine genus.

And it is true that the St. Lawrence Market

And it is true that the St. Lawrence Market is the meeting-place of the best Toronte

It does not take the market keepers long to learn who are the regular frequenters. It does not take them long to know what are the regular necessities of the frequenters. Necessities, like church, ofter become a habit.

Toronto citizens go marketing in automobiles, carriages, street cars and good faith. It would be possible to market without the assistance of the first three encumbrances, certainly not without the last. Some women take the family along with them. Sometimes the family can be made use of. To carry the baskets from the carts and stands to the motors, carriages or street cars, as the case may be. Often they are not supposed to render assistance. In which case may be mentioned the charming children of F. H. Schmidt. They all go to market regularly, with mother, nurse and a maid. Nurse and the maid do the actual shopping, while mother remains with the children in the motor car.

ANY families have been buying vegetables, eggs and butter from the same woman for years. An example is Lady Melvin-Jones. Although she does not attend the market herself, her daughter, Mrs. Crawford Brown, may be seen there every Saturday morning. Sometimes there are two cars belonging to

The little woman who has sold butter for the last five or six years, said: "Good morning. I've kept your butter for you. And I haven't much leit Butter seems scarce this morning. I have some nice Devonshire cream today, too, and plenty of eggs; but I kept your share out."

She delivered the large crock of butter, also the eggs. Then turned to interview the next customer.

"That's a regular customer of mine, Mrs. W. K. Murphy. Every Saturday I bring in her butter and eggs. That shows they're reliable, ma'am. Would you like to try the butter?"

NOTHER woman who goes down to Saturday morning activity is Mrs. R. A. Smith. The early hours are the best, she thinks. So she finds time to inspect her vegetables, personally, before choosing them.

George A. Bingham's ar is a regular Saturday morning visitor to the market. The fruits, vegetables, butter and eggs, which it carries home, are also personally

chosen.

The bright-faced woman who has her cart near the entrance to Front street, greets you as you stroll thru.

"Do you like horse radish? I have some particularly fine horse radish, if you care for that kind of thing. And some fresh eggs, too. Oh, good morning Mrs. Coulson. Do you want your chickens?" And, as her customer goes out to her walting car, "There's a regular customer of mine. Comes every Saturday. Did you say you'd have some of the horse radish?"

R. BROCK'S household is usually represented by a servant, but it is represented every weekend. And pyramids of fresh vegetables are carried from stall to motor.

carried from stall to motor.

So, also, is Hon. A. E. Kemp's, and D. Landan has enough confidence in his chauffeur to allow him the responsibility of choosing the Saturday produce.

Someone steals up in an electric brougham. She brings her car to a standstill at the Church street entrance. Then she steps out. There is a spacious basket in the bottom of the brougham. She takes it out; and she proceeds to make the rounds of the stands, first the vegetables and fruits, then the butter and eggs, ending finally with the flowers. She chats friendly with the market women, and they seem to brighten at sight of her. She is Mrs. George Rutter. She has been a regular visitor at the Saturday market for six or seven years.

S OMEONE else steals up in a coupe. It is not an electric one, though. She is a debutante of a year. She thinks it a great lark to go marketing. And she knows how to market. She can drive the car as well as her mother. She is Miss Gladys Huestis. And others you will see there regularly are: Mrs. J. A. M. Alley, Mrs. H. Alley, Mrs. George Chadwick, Mrs. Charles Michie, Mrs. Kleiser, Mrs. Worts

Stuart, Mrs. Ashton Smith, and Mrs. Edward Gooderham.

A row of chauffeurs sit idly wishing the hours away, while the occupants of the rear seats gather up the next week's produce. One of them is the chauffeur of W. G. Lumbers; another G. H. Doherty; still another drives the car of Joseph Shenstone. Sometimes the servants do the marketing, sometimes the mistress, who has shown the servants how to do it. There is no regular rule. It depends on the other routine of the household.

A DENATOR'S WIFE GOES SHOPPING

EOPLE who have the idea that the luxurious classes live in indolence and indifference to practicalities, should pay a visit to the market some Saturday. They would change their views. They might see Mrs. A. P. Burritt choosing the next week's vegetables, or Mrs. G. F. McGuire transacting the business of the Sunday dinner. They would have the satisfaction of knowing that Mrs. Gerhard Heintzman personally saw to it that her next week's supply of fruit was not neglected, and that Mrs. A. R. Clark ordered her Sunday roast herself.

Mrs. A. R. Clark ordered her Sunday roast herself.

Mrs. W. R. Johnson goes to market, too. Her car is one of the first in line on Saturday mornings. There is a great line-up of them, too. It would almost seem that there was a place for each car, and each car always

Mrs. Joseph Wright is another Saturday visitor, and now and then, if he chance to be near there, Dr. Elliott motors into the Front street entrance, stops a few minutes at the curb, then disappears. He comes back carrying a bulky parcel. Thus is the problem of telephoned meat and vegetables solved.

HAVE to come to town on Friday night. I come from up north, beyond Richmond Hill. I stay at the hotel, pay express on my things, get my meals and pay for getting the things brought up from the station. It takes more than five dollars to pay my expenses. So you see, I have to sell quite a lot of stuff before I can begin a make any profit."

"But at the price things are now it doesn't take long."

"Not so long. But then, the best way is to have regular customers. That's what we all depend on

And the stall-keeper turns to see one of them coming.

She puts a large parcel of something on the table.

"Here is your butter, Mrs. McCaffery. I have it all ready for you."

And another motor car receives its bundle of butter.

S fast as one motor car moves from place, another steals up into it. The whole proceeding might be called the reception of the produce-makers. Wm. Rogerson's car moves away to make room for James Randall's. The produce, which later is stowed into these two cars, is not left to the judgment of a servant. It is

personally chosen by the mistress of the house.

Miss Phyllis Sandford comes along. She carries a basket. She chooses cauliflower and Brussels sprouts like a connoisseur.

And then, Mrs. Owen Smiley. The market is crowded with buyers, many of whom might send their servants into the crush, if they wished.

Along come Mrs. Claude Fox, Dr. and Mrs. Hood, Mrs. W. H. Cross, Mrs. A. R. Capreol, Mrs. Alfred Wright, and the Misses Rogers.

Lady Pellatt does not do her own marketing. She sends her housekeeper. She is there early, chooses what she wants, and leaves room for another motor to slip into the Pellatt place. Mrs. J. K. Kerr, wife of the senator, comes down to Front street, and slips out of her car with two baskets beneath her arm. F. A. N. Powell's car carries home a load of vegetables; and George Walton's. In fact, it would be difficult to mention anyone in Toronto's motor set whose car does not visit the market every Saturday.

And many there are who take home their market stuffs in taxis. And some in hired carriages. Toronto is well represented there, the motor set, the non-motor set, the carriage set, and the trolley set, all anxious to help on the sale of Canadian produce by choosing for their tables the best and freshest of food stuffs.

1

yards, and wondering just what their ambition is. I read Miss Blank and Mr. Blank Blank in their original tango.

STILL PUTS HER DIGHT FOOT OVER HER LEFT AND I

Now there must be a demand for these muscle developing steps or everybody would not be doing the all the papers would not be printing pict So, as I said before, I shall stop trying to bring the world around to my way of tangoing, and go the way the wind blows, or, perhaps it would be better to say, the way the feet go.

I have given the correct way to do the tango of South America, and if there are still those who don't like it then it is up to me to give them what they want if I can. O, believe me, I am not immune from originating those lying down sort of steps-in fact, I have made them up so full of dips and slides that I could not execute

My great stunt is to make up steps for my dances that I do on the stage at night after I get into bed, and it really is funny to see me trying to do some steps with my feet that seemed perfectly simple for my mind. I often have to modify them to make them danceable. # #

## No Slow Music for This.

I have called this article "The North American Tango," as I don't want it to be thought the same dance as the South American, for, as I told you, the real tango can be done in a drawing room, and for these new and showy steps I should advise a tennis court or baseball diamond for practice purposes. One does this dance to the same tango music, but played a shade faster, because if the music gets temperamentas and slurs while you are down on one knee, with the other leg somewhere about and trying to look perfectly comfortable—well, if it slure then it is apt to leave you kneeling.

The position is the same (I've written that line so much that I feel like introducing some new neck hold) as in the one step, and now here is where we will send the man backwards, just to see if he can go that way. He steps backward with his left and the girl forward with her right. Walk four steps with a rather springy step if possible. The count in this dance is always one, two, three, four, although sometimes more than one beat to a step. Fer instance, after the walking four steps the man extends his left leg in front of him, with the toe just touching the ground. The girl swings her right foot back at the same time, just touching the toe. Count two with the feet in this position, then the man brings his foot back of him, keeping the leg stiffened and touching the ground behind him with his toe, and the girl puts her right foot forward, just touching the toe. That makes the count like this: Man walking backward four, then left foot forward and back. Girl walking forward four and right foot back, then forward. Walk again one, two. three, four, etc. You can do this step as many times as you like, and it is much more effective and dippy if you swing the body as you put your feet back and forward. with her right foot, walks deliberately around him.

## # # Ring Around Rosie.

Here is an easy one: The man stands quite still and stiffens his legs, otherwise it is nothing. Eight steps crosses his right leg over his left, and with the right toe around him will bring the girl right in front of him pointing as much to the left as possible, he holds the gir! again, and then they walk one, two, three, four.

ANOTHER EFFECTIVE STEP IS DONE.
THIS WAY MAIN MICHS TO LEFT
WITH HIS RIGHT LEG AND THE GIRL
MICHS TO HER RIGHT WITH LEFT LEG
THEY THEN SWING THEIR LEGS
BACK LINE THE PENDULUM OF A CLOCK

Miss Elsie Jonis.

counting eight, or, if it is easier, count four twice. In this way the man is turned right around as the girl walks around him. That is, if he gets upon his toes and

counting one, two, three, four-man counts one left,

counts two right. Sinking down until the right knee

In all these variations there is no rule for how many

times to do a step. That is up to the dancers, and how

# #

Put Zip in the Tap.

The next step starts exactly the same-you walk for-

ward with the same old feet (I'm sure you did not hope

for new ones), and count like this: Man count one left,

count two right, count three left, foot thrown forward,

they like the step they are doing.

HERE IS AN EASY ONE - MAN STANDS nearly touches the floor, count three, erect again, with-QUITE STILL CROSSES HIS FEET AND out changing the position of the feet, and on four bring THE CIRL WALKS EIGHT STEPS
AROUND HIM TURNING HIM AS SHE DOES SO the left foot right out in front, the same as the hands, THE OTRI, WALKS EIGHT STEPS with the bodies absolutely facing one another. For the

allows him to turn her around, while he with his arm resting lightly and holding her right hand in his left walks around her eight steps. That brings him back in front of her again, and they again go into the walk. In fact, the walk is the only thing to do between steps.

This last step is not quite as easy as it sounds, because it is quite a strain on the muscles of the leg, but once learned it is pretty and showy. The girl can look so attractive as she walks around the man if she will stan! erect, with head well up, and lift her feet a little as she walks, sort of saying to herself, "Look at me. I'm turning this big boob around." Some feat, eh? What?

A rather nice little change can be made like this: The dancers assume that walking position of the tango. With his right arm about her waist, her left hand on his with toe touching the floor, and immediately back with

ittle tap of the toe is quite important to this step,

be done with a certain amount of zip. A good thing to think of when doing it is the old fashioned heel

couple stand facing each other, and I have tried this step, counting one, two, three, four, and one, two, three, and have decided that the latter is the most simple, so we will be simple. Count one, man kicks to the left with righ leg, pointing toe, count two allows leg to swing back like the pendulum of a clock. Count three turns leg so that it is pointing to the right, at the same time turning his body. The easiest way to do the latter is to turn on your heel. The girl kicks to her right with her left leg, keeping the toe well pointed, then swings it back, turns on her heel, and, turning the body and toe at the same time, is facing to the left.

As this is the most baffling step in this article, I will devote some of the pictures to explaining this step. Now, all together, face each other. One, swing legs over, two, swing back, three, turn on heel, face the other way. placing the foot that has done all the kicking on the ground, ready for action. Not so fast. That's not all. When you've done that, start right off with that same foot and walk three steps, then do the same thing, only the other way around. Man swings left leg across right. then back, now on heel to bring the body facing left, the same as the leg. Then walk three steps again, and so on as long as your legs will hold out, or rather swing out.

The girl this time swings her right leg across. While you are doing this leg swinging keep as close together as possible, and then as you swing back separate a little Don't get discouraged about this step. It can be done. and I've taught it to many people I've danced with.

I shall try to make the pictures look less like a Chinese puzzle than the description would lead you to believe. If you try all these you will be tired, and if you learn to do them you will be wondering what makes your legs so stiff, so I don't think I will give you any more now. \* \*

## Playing Follow the Leader.

I went to a dance the other night and really had a most amusing time. Before I began to try to write steps on paper I used to be perfectly satisfied to dance right along and never know what any one else was doing. Now, I take great pleasure in sitting out now and then watching the others and seeing if I can "snitch" anything new to hand on to my readers.

Really, there is no more ridiculous sight than a crowd of perfectly sane people, good business men and their wives, trying new steps. One couple over in a corner, counting one, two, three, like their lives depended upon girl, step forward on right count one, forward with left it, her hair is falling and his collar has fallen, but they count two, and let the left knee almost touch the ground. get that step. That shows our inconsistency. If any Erect again on count three, and on four swing the right one made us work like that you could hear the wall of foot straight out in front, with the toe turning in, and complaint over on the River Nile, but it's for pleasure, absolutely face your partner. Then start right off again.

and that's different. We had a lot of fun playing follow the leader at this dance the other night. One couple led, and we all agreed to do anything they did, and all went well until they did a step that they had just made up. Answer, much rough house. One couple was doing a sort of refined edition of the old Texas Tommy, that was lots of fun. I tried it, but I won't tell you about it now, as I have written the required amount, and I prefer to cut my own stuff rather than turn it over to the hard hearted editors. However, that Thomas from Texas version of the Texas Tommy will come under the head of old steps

brought up to date, an article that I will write later. You the girl cets begcharee. She stops still and puts shoulder, and their other arms held straight out in from the touching behind on four. Then right on again. The advice to prize fighters than dope on dancing. Bag it Next Sunday we have a lot of work before us, so bny

## en Thousand Could Have Work If We Closed The Chinese Laundries

Expert Says That Many Canadians Would Find Employ-ment—Chinese Laundries Have Greatly Increased in Five Years, and They Now Take in a Million Dollars

of control is preparing to thereoverhaul the laundry system now The most radical change is ely to be a redoubling of the fees or a license making them \$50, inrs ago, when there were only 250 English laundries. Since that time ndries have increased by 98. The conclusion that can be drawn these figures is that antiquated and Oriental labor have been dily crowding out the efforts of own people, with all our vaunted inery and supposedly superior inigars and riding bicycles and eating, enty of chicken and pork chops, heir advance in business methods has own great activity. After Big Business.

nd they are willing to adopt any andy expedient to get it. Their fondss for the cream of the laundry siness, which consists of collars and hirts, has resulted in a 20 per centunt to student fraternities. They ave also found it expedient to run redit accounts for some of their pat-Undoubtedly, however, the Chinaman owes the great bulk of his mrt-and-collar business to the fact hat he can launder these articles at lower rate than his English comittors. An equipment of 40 to 60 On Women hines in use in steam laundries and a terrific output has not been a collar or 8 cents a shirt, the Canadian prices being regularly a little higher on each article. The reason for this condition is partly explained in the low standards of living among threequarters of the Chinese of the city. Plant Costs Little.

Chinamen are after big busines

city. And their clothes do not come erally virtuous; and she is generally abused because she is devoted to one the charms of which all wish priamas and slippers, and, perhaps, to enjoy.

Following on an intimation to the sum equivalent to about 10 cents, it is a fact that Chinamen have just as much aptitude for tailoring, circumstances alone having made laun-

In this country.

The laundry business is the seventh largest industry in the United States and pays the third highest wages. In Rochester and some other cities the Chinese have been banned as unprofitable to the community, the laundry work going exclusively to the steam plants. "The absence of Chinese laundries in Toronto would mean employment for 10.000 more people, at wages up to \$18 a week," stated a local man.

Anxious to Get License.

Whether attempts on the part of the city council to make it more difficult to get a laundry license will have any effect on future extensions, is not absolutely certain. But it is not the price that sticks the Chinese. They are willing to go the price, if they can get a situation in any reasonable community. One of them even stated that he would be willing to rent a place, and have some Chinese live in it for two years, in order to get the people around used to Chinamen, if he could have any reasonable hope of attaining a license at the end of that period.

LIPSTAIRS IN THIS UNLIKELY BUILDING AT CHURCH AND LOMBARD STREETS IS THE HOME OF AESTHETICS

ex-storehouse, with visible rafters, has evolved itself into a fascinating studio, with wicker chairs, marble busts and Japanese tea caddies.

Miss Florence Wyle and Miss Frances Loring are sculptors. Hence the marble busts. They are believers in the ancient rite of tea-drinking, hence the Japanese caddles. They are artists, hence the comfortable atmosphere which pervades the whole place.

Every profession has some natural birth. Who knows, probablly the mere fact that Frances Loring, when a child, was an adept at making mud pies was the beginning of her profession? At any rate, she must have had exceptional success in this childish vocation for the other little mixers of mud dough used to eat the ples made by Frances, their dark-eyed chef.

## Started to Become Doctor.

Miss Wyle did not begin to show designs so early, altho she might have been no less proficient in the concoction of clay delicacies. She began shaping a career for herself in a medical college. The result seems natural enough. Probably the number of badly formed bodies she saw decided her on her profession. Why not make perfect people of marble, to counteract the great number of imperfect ones of flesh?

At any rate, she decided that the crusts and crumbs of a sculptor were infinitely more interesting than the exaggerated prosperity of the family physician.

She began to study sculpture in Chieago. Just about the same time, Frances Loring, a girl living in an entirely different angle of the country, decided that the modelling of a fountain, sun dial or bust in marble would be infinttely more interesting than the drawing of a fountain, sun-dial or bust, on a sheet of heavy paper.

So she gathered up her frocks and enthusiasm and hied herself to Mu-

She stayed there for three years, and

decided to go to Paris. Miss Loring was dealing in threes. She remained in Paris for that number of years. Three years of art and good-fellowship and congeniality! But everything must have some sort of end. Miss Loring left the Quartier, and booked a passage to America. Fate, and the Twentieth Century Limited, took her to Chicago.

## Friends at First Sight.

Someone in Chicago told her of someone else. They met-the two girls who were both burning their incense at the same little altar of de. votion. They met and talked. The

While Miss Wyle gathered up her aprons, middles and unpaid bills in Chicago, Miss Loring sped away on the same Twentieth Century Limited and began hunting a large studio in New York.

This they found in MacDougall Alley, the street which stands for art and Bohemianism in New York. For three years the two girls lived there, enjoying the true freedom

of artists. Also the suppers of pork and beans, imported bologna and roquefort cheese, with an occasional tin of mushrooms on the side. And they worked too. Worked hard, and, what's more to the point, sold a great deal of their work.

One day the neighbors in Mac-Dougall Alley saw a great man go into the studio occupied by the two girls. He remained all afternoon, went home, and came back the next afternoon. And the next and the next. And another day they saw someone take a large, bulky parcel away from the studio. It was the bust of Eugene Bertstein, the planist.

This is one of Miss Loring's best pieces of work. Nucleus of Art Centre.

Miss Wyle has a very fine head in her studio. It is the head of Jerome Blum, a well-known painter of Chi-

And they did many practical pieces of work, too, such as the modelling of fountains, fireplaces, sun-dials and all sorts of ideas for decorative purposes. New York today is the possessor of a large number of fountains designed and modelled by these two

And then, Toronto the Good. The artistic spirit is an erratic spirit, who is never content to remain long in one

girls. And many of New York's homes

contain the tangible results of their

Now comes more mention of the charming studio, with the visible rafters. As yet, Toronto is in the swad-

dling clothes stage of studio life. But there are a few people with ideas, who are endeavoring to make the clothes of the infant shorter. And it looks as if Toronto might yet develop into a lusty-lunged youngster of art, providing the forces of development do not become indifferent. The studio occupied by Miss Wyle

and Miss Loring is proof positive that Toronto, in time, will become quite intelligent in the understanding of art. Heaven knows, that studio was hard enough to convert from a ram-shackle storehouse to an ideal workshop of art and comfort. It has a fireplace, electric light, a Russian samovar for brewing tea, and is surcharged with hospitality. Except in working hours, no one is allowed in until after the grayness of

twilight has drawn its curtain down over the window of day. Do Their Own Chiseling.

Usually a sculptor sends his models to a marble factory to be cut in marble. Not so these workers. The process of their work is very interesting. First, as all artists do they model the figure, or whatever it is they are working upon, in clay. Then, the model is cast in plaster. This the girls do themselves. A large barrel full of plaster is witness to this fact.

And now comes the critical moment. If the model is to be a bronze one, the plaster design is sent away to the bronze factory. All sculptors send their plaster models to be cast in bronze. And, usually, all sculptors send their plaster models to an Italian cutter to be cut in marble. But not Miss Wyle and Miss Loring. They cut their own marble. It is quite easy to understand that this is necessary,

if the sculptor wishes to get the effect he has been striving for. Miss Loring has a very firm piece of bronze work which had its intellectual being from the poem of Keats. It is

Miss Wyle has a beautiful marble design of mother and babe. Or. at least, she had until someone saw it and realized its worth. Then Miss Wyle was obliged to part with it. She also has a very fine relief of R. L. Borden. And more wonderful is her work in it, when one realizes that it was accomplished in two sittings of the busy prime minister.

## A Toronto Model.

Sitting quite serenely in a corner up near the rafters is the bust of an old man. You look at it, then look again-There is something familiar about the crouched-up shoulders and patriarchal

Then, probably, the newsie's call out

in the street catches your attention Somehow the newsie's cry seems to have some relation to the old man-Ah, you have it! The crouched-up shoulders and long beard belong to the old man who stands at the corner of Adelaide and Yonge, singing

> monotone. "Globe, Mail. World!" Miss Loring modelled the old newsie Both girls must divide their atten-

and all such practical uses. New York is the general market place for their work. New York seems to appreciate the finesse and art of the portrait work, and the art and practicality of the decorative. And Tiffany's, that trade mark of everything most worth while, await the completion of each new design or figure, to place in their magnificent studios; which fact, in itself, were enough to place the stamp of excellence on any achievement.

And another branch of their cleverness deserves special mention—their ability at carpenter work. Probably the mere association of the place has something to do with it, for the exstorehouse was used as the receptacle for doors, windows and all newly and cuted products, from the carpenter's

Small wonder they do such excellent work. The whole place is an inspiration and a second service and and

called Lamia. away the hours in a dull, cackling

## tion between large designs and models, and smaller statuettes. For here the greatest market is for portrait work, while many western cities, having heard of the clever sculptors from the east, clamor for fountains, fireplaces

saws down below.

Probably it was association, probably the ability to construct in wood as in clay. At any rate, there are many evidences of their carpenter prowess in the form of bookshelves mantel-pieces, and long-legged stools-

# His Life Like a Regular Nickel Novel

the shore.

Georges Boucher was recently arrested in Paris. He was arrested as a deserter. When questioned he told his life history to the police. His story is more thrilling than even the most thrilling nickel movie.

Boucher was born in the slums of Paris 30 years ago. He was deserted by his mother and adopted by wealthy people. He was kept in luxury until he was ten years old. He was indulged in every whim. Then the man of the family died and the woman married again. The new foster father did not take kindly to the boy. He was taken to an orphan asylum. A year later he was adopted by a woman

later she died. Georges became a stray walf. On the streets of Paris he met a gang of burglars. At 13 he was a regular member of the gang. The years following were full of crime and adventures. He was sentenced seven times in France and four times

in Belgium for various offenses. In 1905 Georges enlisted in the Fifth Battalion, light infantry. stationed in Africa. Adventure followed. But Georges was not an obedient soldier, and soon found his way to military prison.

In September, 1906, he escaped from prison, and, after a series of thrilling adventures, returned to France. He was arrested the next year and taken to Marseilles, where he was lodged in the Fort St. Jean until he could be transferred to Algeria. While out for exercise he broke from his captors and flung himself from the battlement into the Mediterranean, over 100 feet below. Striking out, Boucher gained

At length he was taken prisoner. Three months ater while he was awaiting his trial by court-martial. he again escaped. This time no one knew just how he did it. This was in July, 1908. He returned to Paris, where he was arrested after

more thrilling adventures, during which he posed as a Russion count. Once more Boucher was taken to Africa. He burrowed his way thru the ceiling of his cell and fled by way of the desert toward Tripoli. For three days he marched steadily under

## IF YOU COULD START LIFE OVER AGAIN WOULD YOU DO THINGS DIFFERENTLY?

66 FI STARTED LIFE AGAIN, how would This is a question which has come to most of us at some time or other; as we lay awake in bed in the middle of the night, as we walked in forest solitudes, or whenever we had opportunity to hold communion with ourselves. And what has the answer usually been? It is safe to say that every man must admit to himself that he has made serious mistakes in his life-planning—but it is only human nature that he should not be willing to admit it to any other person, not even to his most intimate

SUNDAY MORNING

An English paper recently undertook to secure opinions from a number of well-known people on the subject. Nearly every reply was to the effect that while the interrogated person might have acted differently on certain occasions, had he foreseen the inevitable results, on the whole he was quite satisfied with the choice of career he had made for life. Some of them declared that they were sorry they had elected to remain in England, instead of emigrating to colonies where they would have found greater opportunities, but the great majority, especially the Londoners, insisted that they were quite satisfied with the environment they had chosen.

A canvass of some of the well-known men in Toronto revealed similar opinions. Those interviewed, of course, have all been more or less successful in their life work, and it is, perhaps, only natural that they should make no ungrateful comments on the rewards of Providence. A symposium compiled from inmates of lodging houses and wards of the Salvation Army would, oubtedly, have different results.

Dr. Cody Is Satisfied.

The Venerable Archdeacon Cody, rector of the newly dedicated St. Paul's, was one of the first

"I cannot truthfully say that I would choose a different career if I started life again," said Dr. Cody. "My life has been a singular one in this respect—it has been lived all in one piece, so to speak. It was not my original ambition to become a minister of the gospel. When I entered Wycliffe College, many years ago, my intention was to fit myself for an academic career. I supposed that after I had secured my degree I would take a position with some educational I supposed that after I had secured my degree I would take a position with some educational institution, and proceed to teach the young idea how to shoot. But gradually it dawned upon me that the church would afford me a larger field of usefulness. While I was yet in the seminary I occasionally preached at St. Paul's, and when I was graduated it was there that I took up my

"I have never been connected with any other congregation, and in this respect I think my experience is a record one. There were many occasions when I was invited to transfer my labors elsewhere. I was frequently invited to accept an academic position of the sort for which I had originally trained myself, and there were many offers of administrative positions in the church, but something always restrained me from accepting. My sense of duty told me that the proper field for me was right here in Foronto, and even when I was offered a bishopric,

"Toronto has been a growing city, and it has been a delight to me to watch it grow and develop into one of the metropolitan centres of the continent. But in this marvelous growth there terialism which needed to be counteracted by the beneficent influences of religion, and I have been grateful to have had a part in emphasizing the other side of life. I cannot think of any other field in which I could have been more useful, so I cannot say that I would have acted differently, if I started life again. Of course, I realize that I have made mistakes, as all of us have, but I would not change the general plan of my life."

Canada Best, Says W. R. Brock.

Mr. W. R. Brock, a merchant prince, is also satisfied, on the whole, with what he has made Canvass of Some of Toronto's Best Known Men Reveal Fact That They Are Well Satisfied With What They Have Done, But Perhaps That Is Because They Have Been Successful.

SOME REGRET THEY DIDN'T COME TO CANADA SOONER

"As a man grows old," said Mr. Brock, "it is natural for him to think that he might have made more of his opportunities in life, but looking backward sixty years, as I do, and knowing the history of Canada, as I do, I can only say that while I would have changed certain conditions as they existed from time to time, as far as my business is concerned, I would have acted just as I have done. There is no place in the world where there are better concentrations. acted just as I have done. There is no place in the world where there are better opportunities for the economical man, willing to work, than there are in Canada, and I am glad that I was born in this Dominion. Those people in Eng-land who thank God that they never left the old country simply don't know what they are talking about. Of course, if I were in financial business. I would prefer to be located in Lonbusiness, I would prefer to be located in London, for that is the financial centre of the world, don, for that is the financial centre of the world, but in mercantile and other lines a man is far better off in Canada. This Dominion is fast becoming the great producing centre, and this is where the money will be made in the next few decades. There is no reason why any man with good health and a willingness to labor should be a failure in Canada. If I were to be given my concernities over again. given my opportunities over again, I would still take advantage of them as I have."

D. B. Hanna Has No Regrets. Mr. D. B. Hanna, vice-president of the Can-adian Northern, who has spent his life in rallway work, ridiculed the idea that a man is better off in the old country than here.

"If I started life again," he declared, "I couldn't ask for any more satisfactory experience than I have had. I was myself born on the other side," he said, "and I will never regret that I came to this wonderful new land. If everybody remained in London who is born there, enthusiasts quoted in the London paper would change their tune. There would be such a congestion and such poverty that they would soon be ready to go to the ends of the earth to

"My only regret is that I didn't come to Canada sooner. As far as a man's life work is concerned, I couldn't ask for any more interesting than the one I've followed. We have been developing a vast dominion, an empire almost unparalleled, and it has been an enterprise to inspire one. What could be more fascinating than to be identified with an enterprise which has placed more than 500 new towns upon the map of Canada in the last sixteen years, and has added between six and seven thousand miles of railway to the transportation facilities of the

measured in dollars and cents, but I feel that if, in addition to making money, a man has been instrumental in materially benefitting his fellow-countrymen, he has every reason to be saterally, many men are, of course, more fortunate than I am, but I cannot feel that I have any rea-

Rev. John McNeil Not Sorry.

Altho he has been in Toronto only a few months, the Rev. John McNeill, pastor of Cooke's Church, is not sorry he left the old country, and if he had his life to live over again, there are "We often rebel at circumstances, which, in the end, work out for our best good," said Mr. McNeill. "Before I entered the ministry I put in eight long years as booking clerk in the rail-

in eight long years as booking clerk in the rall-way service, and many's the time I bewalled my fate, and thought I had brought my pigs to the wrong market. But I've realized since that the experience had its value. The years of dealing with the public thru the little window of the booking office taught me patience and a great deal about human nature. The British public is often an ass, and it was great discipline to handle the beast in all its moods—discipline which has belied me in the church cipline, which has helped me in the church. Any tram conductor or policeman will tell you

"After eight years with the railway, I spent eight years studying for the ministry. Of course I accumulated no money in those sixteen years, and, perhaps, I accomplished little good, but they were not wasted by any means. I would be willing to do it all over again.

would be willing to do it all over again.

"As far as leaving England to come here, I only wish that I had been called to Toronto ten years ago, but then, of course, the same city wasn't here ten years ago. I believe in Providence, and if it had been my Master's will, I would have been here sooner. Now that I have come, I am enthusiastic over the field for work. In my congregations Sunday after Sunday I have English, Irish, Scotch, Welsh and Canadians. I couldn't find a more cosmopolitan audience anywhere else, and it is inspiring to audience anywhere else, and it is inspiring to preach to them.

"It is really a waste of time for us to think what we would do if we started life again. As a matter of fact, we would probably do just as we have done."

Would He Build Another Casa

Sir Henry Pellatt, when asked for an opinion on the subject, made a characteristic reply.
"If I started over again." he remarked, "why, I'd just start, and do as I've always done, the best I can. I've made mistakes, as we all have, but I'd make mistakes again—not the same ones, perhaps, but they would likely be just as unfortunate. If I were able to choose the scene of my activities in life, I'd certainly begin again in Toronto. I can't imagine a more fruitful or inspiring field for any red-blooded man who wants to live an active life and accomplish

Asked if he would build another Casa Loma on the Hill if he started life again, Sir Henry laughed, and shrugged his shoulders.

Sir Edmund Has No Complaint. Sir Edmund Osler seems satisfied with what

"Of course we all know of things in our experience which we would change if we had a chance," he said, "but I don't believe in crying over spilled milk. I may not be the happlest man in the world, but there are so many unfortunates on every side that I would be an ingrate to complain." he has made of his life.

Ministers and successful men of affairs are not the only ones who appear well pleased with what they have made of themselves. John Drew, member of a famous theatrical family, was in town during the week, and he didn't hesitate to say that he was perfectly well satisfied

that I should spend my life on the stage," he said. "Both my father and mother, to say nothing of other relatives, were in the profession, and I never thought of becoming anything else than an actor. I never regretted the choice. In my opinion the stage is just as great an uplifting force in the community as the pulpit, and, nowadays none denies its educational value. If I started over again I think, on the whole, I would do no differently, except," and Mr. Drew smiled, "I would take jolly good care to avoid some I'm satisfied with my own work, but I'm sure certain playwrights might, with profit, start

"A Most Unkind Nail."

The most embarrassing moment in my life happened while I was a teacher in a country school, Knowing my falling of being extremely near-sighted, the boys were constantly on the alert for amusing things to happen at my expense. On this particular morning I wished to hang up in front of the class a large map of the world. I fancied I saw a black headed nail in a convenient spot above the blackboard and advanced to hang up the map on its cord. But when I reached the nail the map came down with a crash and the "nail" sailed away to a distant part of the room, while I looked after it in astonishment. It was a fly!

At the same time I also wrote to a mine thanking him for

# Most Impressive Beggar Plies Profitable Trade

No Class of Petty Criminal So Sticks by Old Tricks, Altho They Are Worn Threadbare—Good-Natured Public at Christmas Time Is Easy Prey to Men Who Are Really Not Hard Up.

At Season When Want Is

By Will E. MaoDonald. tried to single out one action in the

was. Seven is the beggars' magic number.

Probably it did not occur to you to follow the beggar and view with joy the pleased expression on the face of his wife when he brought home food with the money you gave him. It is just as well for your state of mind that you did not trail him. Without doubt the chase would have ended at the hotel around the corner and you would have seen that coin pass over the bar for a "scuttle of suds." If you did not follow the beggar then you went on your way, happy in the belief that you had helped out "some poor devil." Yes, you likely helped the hotelman on the corner to buy gasoline for his son's motor car. Every little bit helps, you know.

Not All Rascals.

One Worn-Out Trick.

Some beggars make an appeal to human sympathles. That is they tell of the starving condition of their wife and children, of sickness in the family. of inability to get work and sundry other troubles which they claim are rapidly driving them to their last resting place. This trick has been worn threadbare and even Mr. Way-back now sees thru it.

Occasionally a beggar will adopt bold methods of collecting money.

For daring, none equals the signature trick. When getting funds by this scheme, the beggar goes along an almost deserted street, preferably in the evening, until he meets a pros-

that you had helped out "some poor devil." Yes, you likely helped the hotelman on the corner to buy gasoline for his son's motor car. Every little bit helps, you know.

Not All Rascals.

Do not judge from the above that all beggars are rascals. It is safe to say that ninety-nine per cent. of them are. Once in a year you meet a man who needs the money and who will buy food with it, but that is seldom. There is no need in Toronto or any other large city for a man to stand on the streets and beg funds. The Associated Charities and other institutions are in existence for the very purpose of looking after the poor and any person can secure help without advertising the fact thruout the length and breadth of the land.

While many people may think that they are helping the beggar by giving him money on the streets they are entirely mistaken. Professional beggars should not be helped. But they are hold not be helped. But they are hold not be helped. But they are hold not be helped. But they are should not be helped. But they are hold not be helped. But they are hold not be helped. But they are should not be helped. But they are and refuses to take the pin, or whatever valuable it is. The beggar appears to be very much touched at

in the flowers.

I was shocked beyond words a few tys later when I received from the tyng man a handsome cheque acmpanied by words which one would trurally expect to follow.—H. W. I., ormal School.

PRIDE HATH A FALL.

I looked well—I knew it; better till, I felt it. Did I not have on my tow winter coat one of Dame Fashn's latest models? Wouldn't any toman be proud of such a possession? The provided from the streets they are entirely mistaken. Professional beggars are as cute and clever as criminals and succeed in working their game despite the vigilance of the detectives and the police. The methods used by the professional beggars are astonishingly bold when one considers them. The regularity with which they work these tricks nets them big returns and many a professional beggar on the city streets today is making more money than the man who goes down in his pocket to help out an alleged unfortunate.

must be efficient. It takes more than nerve to make a successful beggar. The person who ekes out a livelihood on what he gets on the streets must have exceptional ability. Getting money from other people is no easy task even when you do it legitimately. Therefore the man who lives by his wits must, indeed, be a deep one, a rogue who stops at nothing short of violence in soliciting monetary aid.

too heavy. Once the location is secured the rest is easy for a profes-

## If You Felt Like a Nickel You May Make a Dollar.

Nearly everybody has been embarrassed. We have received so many letters that we can't commence to print them all at once. But we want plenty more good funny incidents. Every mail brings us in the news of some embarrassing situation that makes us laugh, and we hope will make our readers Laugh. makes us laugh, and we hope will make our readers laugh.

The way the story is written counts a good deal more than the story itself. We have had to throw out a large number because they were too long. Make them short and snappy, just as short as you can; write on one side of the paper, and addrass them to the Embarrassment Column of The Toronto Sunday Werld, If your story is printed you will receive one dollar. They must, however, be genuine embarrassments, not faked, and net mere humorous stories.

Perhaps you were hurrying along one of the city streets when the heavy hand fell upon your shoulder. Instantly your past life ran thru your mind like a motion picture film and you tried to single out one action in the

of the class a large map of the world. If anceled I saw a black headed nail in a convenient spot above the blackboard and advanced to hang up the map on its cord. But when I reached the nail the map came down with a crash and the "nail" sailed away to a distant part of the room, while I looked after it in astonishment. It was a fly?

D. W. H.

"The Mean Thing."

The most embarrassing time of my life was when a girl friend of mine said that she was going to have a party. I at once went to the dress-maker's to have my dress made, and when the time for the party came I was not invited.

M. P. D.

"THE CHECK CAME."

While staying at the seaside last summer I found my private funds growing rather small. I wrote home to father asking to be reinforced. My letter ran—

Doar Old Duckle My purse is growing the most of the will you send me some money as soon as possible? Etc., etc.

I fanceled I saw of the days gone by which would justify to the days gone by which would justify wour arrest. Some sixth sense warned you after the days gone by which would justify with a coll and the map came down with a crash and the "nail" sailed away to a distant part of the room, while i looked after it in astonishment. It was a fly?

D. W. H.

"The Mean Thing."

The most embarrassing time of my life was when a girl friend of mine said that she was going to have a party. I at once went to the dress-maker's to have my dress made, and when the time for the party came I was not invited.

M. P. D.

"THE CHECK CAME."

While staying at the seaside last summer I found my private funds growing rather small. I wrote home to father asking to be reinforced. My letter ran—

Doar Old Duckle My purse is growing thin. He clist the stranger of his sad plight. He came down town to look for a job, got one, but could not get to the place only on the street car tan intersection and sides up to much you saw at a glance. None were in sight, that much you saw at a glance. None were in sight, that much you saw at a glance. None were get to the place only on the

ever valuable it is. The beggar appears to be very much touched at this generosity, and asks the individual to inscribe his name as a special favor.

Endless Chain of Fraud.

bold when one considers them. The regularity with which they work these tricks nets them big returns and many a professional beggar on the city streets today is making more money than the man who goes down in his pocket to help out an alleged unfortunate.

Beggars Need Brains.

There is an art in begging. The people who engage in the business of grafting on the earnings of others must be efficient. It takes more than nerve to make a successful beggar. The person who ekes out a livestate of the streets of the st such purpose.

And still there are other frauds practised by the professional begger. When one will not work, he tries another, and when none will produce money, he hunts up a new one. The writer has had some very peculiar experiences with the professional beg-

short of violence in soliciting monetary aid.

Many are the schemes of the beggar. The public cannot appreciate the lengths he will go to in an attempt to attain his end. Prevarication is his trump card. He will, as, a rule, swear that black is white and set out with you to prove it. In short, he is a natural liar. And again we must call attention to the fact that there are exceptions, but very few.

Beggars generally work singly and on streets where the police are not likely to become aware of their tricks. In most instances they select a thorofare where people of means pass up and down but where the traffic is not too heavy. Once the location is setook hold of the man's arm. He tried to pull away, but did not succeed before the writer and the clerk had pulled part of the cloth from his arm. The beggar cursed them both heartily and sped out into the street. He had had his arm wrapped in stiff paper, and then had cloth rolled over the paper. Claim to Be Educated.

Crutches are often used by beggars, when they are as able-bodied as any other healthy person. The moment they get out of sight they walk without the crutches and make a becline for a hotel. The majority of beggars claim to be well-educated men. They glibly recount their earlier experiences, affairs of the heart, and the like, and work on the victim until he parts with some money. In short, beggars are the most original liars to be found. Every misfortune which has overtaken man has been loaded onto the shoulders of the beggar, according to his own contention.

The planiclothesman and police of

The planiclothesman and police of the city have been doing their utmost to remove the professional beggar from the streets, and, altho their work has brought results, the evil has not abated to any great extent. Near Christmas time, when everyone has a feeling of good-will, beggars do a thriving business, and succeed in getting money from nearly everyone that they tackle.

People make a big mistake when they hand out money to beggars in the belief that they are helping them, the belief that they are helping them. The begagr does not need to go out and ask for money. The charities of the city are quite capable of looking after the needy. Any individual who has been in the habit of giving away money on the street will find that a much better plan is to send it to some worthy institution where the wants of the paor are attended to.

# Milliners Alarmed at Prospect of Toronto Crusading Against Aigrette

If Lead of President Wilson's Wife Is Followed and Local partment of a King street store, Women Begin Campaign, and if Canada Accedes to the States' Request, Women Here Will Have to Wear the Hen's Feathers Instead of Paradise Plumes.

Should Milady of Fashion be al- | else. There is a sad side to this lowed to dress just as she wishes? story. hould her smiling, winsome charms

Yes, but this is getting away from plumes? Not the tail feathers extracted from some unlucky rooster beped by cruel man? It is a terrible crime, committed by man, and our lady of fashion is behind him, and urges him on. Her vanity says he must do it, and he, as usual, gives in.

But he is now beginning to rebel. And, strange to say, our cousins across the line are the first to break away from the shackles.

"Woman, thou shalt not wear foreign feathers." the American has decreed. He has placed this mandate upon his law books, and has appointed an army of gallant and exceedingly tactful customs, and other officials, to see that the whims of the President's wife and a few others are carried out.

Yes, this affects us in Toronto each year, quite a bit. For Uncle Sam, as usual, has some advice to give. He tells us that he wishes us to follow, or rather, it would tickle him if we should follow in his footsteps, and, of course, we are always anxious to do that.

As a result of this little skit of

It comes from the miliners. They unlucky peacock for they exempt dobe displayed and decorated as she are wise to the ways of the world, mestic fowls. would? or, Shall mere man put in a and sympathy is just what they are be thrown out of work should the the passage of that legal prohibitory the subject. The real question is sale of these osprey and paradise measure. Never in the history of nest Shall we allow our fair ones to decor-ate their millnery with real bird wail a story, or rather, a picture, of suffering and poverty and hard times attained such celebrity. No, not even in the days of Chanticleer were the and bankrupt actions, and a hundred feathers of the purely domestic fowl in every concelvable way to juggle fore he was marched in triumph other things, and set it up alongside worn with such grace and distincupon a silver platter, but real feath- the "supposed cruelty to a few worth- tion! ers taken from a luckless beastle trap- less birds." ## **PAVLOWA GODDESS** OF THE BALLET

Her Dancing Is Described as a Compound of Sunlight, Joy and Poetic Glow.

Pavlowa. who has just finished a week's engagement in New York, more than repeated the wonderful success won on her former visit to that city. As this noted artist is to appear in Massey Hall, the last two days of this year, the following, taken from The New York Tribune is interesting: "As there were kings before Agamemnon, so there were probably queens before Pavlowa. Taglioni and Fanny Ellister are names that live in memory because great poets sang of them, and their names go down in the history of the dance as immortal, as those of their great sister artists of drama or of opera. If Anna Pavlowa is fortunate enough to live in an age that contains poets such as sat in the audience of the past, she too, will live among the favored children of the goddess of the dance. If any such poets were at the Metropolitan Opera. House yesterday afternoon or evening they will surely sing of Pavlowa. It was Miss Pavlowa's first appearance in New York in three years, and at last, she came to us with a setting at least a little worthy of its jewels. The ballet provided is composed of artists, everyone, and the scenery is an example of what the latest European school of theatre artists is doing. The impressionistic back drop of the opening afternoon number, and even Leon Bakst's "Oriental Fantasy," must have been appreciated by all. As for the dancing of Miss Pavlowa, of her male associate, Mr. Novikoff, and of the minor soloists there can be only praise. Pavlowa is not only a great dancer but a great actress. Her motions flow one out of another as water, or, rather, like sunlight; her dancing is without effort, is compounded of joy and fire, and even when the mood is one of utter sensuality, is uplifted by a poetic glow which robs it of offence. With M. Novikoff, she danced the famous Glazounow "Bacchanale" until the audience fairly shouted with contagious joy. Surely, ilifted by a poetic glow which robs it of offence. With M. Novikoff, she danced the famous Glazounow "Bacchanale" until the audience fairly shouted with contagious joy. Surely, that was how it was danced in the Dionysian mysteries two thousand years ago. M. Novikoff proved himself a splendid dancer, and special words or praise should also be said of M. Berge, M. Cecchetti and Miss Plaskowiczka, and especially for the dancing of the ballet in the various Polfsh and Hungarian dances. A large orchestra under the direction of Theodore Stier, played better than the one of past seasons. The audience, both afternoon and evening, taxed the capacity of the house.

Mabel Beddoe, the Toronto con tralto, sang at a special Thanksgiving concert given for the benefit of the irmates of Sing Sing prison. Her numbers included several of the old songs, among them being "Suwanee River" and "Annie Laurie."

Dr. Harvey Robb, the brilliant planist, gave a recital assisted by Mrs. Robb, a charming coloratura soprano, in the new Y. M. C. A. Building last Thursday evening. Dr. Robb's playing evinced a fine technical grasp of

New York, says in his last letter that he recently heard a young Canadian baritone sing who had a most remarkable voice—one of warm, sensuous beauty, not the brill ant kind—altho he has unlimited power withal." The singer referred to is W. Wright Symons of Ottawa. For the past two years he has been studying singing with Jean de Reszke in Paris, and years he has been studying singing with Jean de Reszke in Paris, and acting with Roberto Villani, the latter now being located in Milan, where Mr. Symons makes his debut in "The Symons makes his debut in "The Wisp." Spross; "An Open Secret," Woodman, and several encores. The choir of Parkdale Presbyterian

Church, under the leadership of Edmund Hardy, organist and director, gave a very enjoyable concert on Thursday evening at Zion Methodist Church. The choir sang both accompanied and unaccompanied and the announcement that he will be assisted by Alexander Savine and Adolf Schmid, the artistic triumph of the coming opera season would seem assured.

Church. The choir sang both accompanied numbers with their usual finish. Selections were also given by the Misses Hill and Breckenridge and Messrs Bradley, MacBean, Veal and Fenwick. Mildred Lotz, pupil of Mr. Hardy, gave an excellent pianoforte rendering of the March from "Tannhauser," and R. Lock e's fine violin playing was much appreciated. Rev. A. L. Geggie gave a numerous reading in his native poric, and after the program closed all were entertained at supper. The Edison Disc Phonograph came in for its usual share of applause, as did the Victrola and Amberola.

The Leck e's fine violin playing was much appreciated. Rev. A. L. Geggie gave a humorous reading in his native poric, and after the program closed all were entertained at supper. the Rev. John Coburn expressing his appreciation of the splendid program provided.

Viggo Kihl, one of the recently appointed teachers at the Toronto Conservatory of Music, gave his first Toronto recital last week in the music hall. The audience was large and included a number of prominent musicians and his performance won unstinted applause. In adding Mr. Kihl to the staff of the Toronto Conservatory Dr. Vogt has contributed considerably to the promotion of the highest art in plano playing, as Mr. Kihl gave undoubted evidence of his mastery of all those qualities that combine in making him not only a distinguished

The National Opera Company of Canada with its many new stars of international fame, will 'visit Toronto this season, early in the new year. Max Rabinoff, managing director of the National Opera Company, has just announced that the repertoire for Toronto will be made up of the big successes of the Montreal season. In laying out the initial repertoire for Montreal, Mr. Rabinoff, states that he has endeavored to vary it as widely as possible. In order to please openalovers of all tastes and preferences but that the repertoire for Toronto will be chosen by the regular subscribers form among the operas which prove to be the most successful during the season of eight weeks in Montreal which began November 17. The entire list of operas to be given in Montreal by the National Opera Company which will play the "Pastoral" of the church will play the "Pastoral" of the dwarf) was pronounced. In French-Saint Saen's "Samsan et Bizet's "Carment": Massenet's "Harodiaga"; Massenet's "Harodiaga"; Massenet's "Harodiaga"; Massenet's "La Navarraise"; Bizet's "Carment": and Puccinis" "La Boheme."

Mational Opera Company of Company has just and Tononic and a 'cello by Cappa will make up the ensemble.

The Central Methodist Church Choir, under the direction of J. M. Sherlock, is preparing a fine musical service for Christmas Sunday, espective f John McCormack has been engaged by Lilli Lehmann to sing in "Don Giovanni" at the Mozart Festival in Germany next August.

Mabel Beddoe, the Toronto con
Guinian Opera satieu from England, his Mime (the dwarf) was pronounced the most interesting of all the performances in singing and acting. In contrast he is also a very fine Don Jose in "Carmen" and he is a very popular recital artist as well.

River" and "Annie Laurie."

Franklin Riker, the tenor, recently of Toronto, who is now Milan correspondent to the Musical Courier of New York, says in his last letter that the recently heard a young Canadian marked by emotion controlled by incomplete the controlled by incomple played a voice of great purity and made a distinct impression upon the

The following is a press criticism of Frederick Phillips' singing after a Hambourg concert in which he was the soloist: "To succeed as a singer before the public requires not only superior talent but intelligent direction The Aeolian Male Quartet which magnetism of his personal bearing.
The average concert audience is coldly

Pickering, Cannington and Oshawa. On Tuesday evening last Luigi von

Kunits gave a lecture on "The Study of Musical History" at the Canadian Academy of Music. Mr. Von Kunitz reputation as a musician is well known but few in the representative audience present were prepared to hear such a logical and profound resume of the subject as he gave that evening. He showed how necessary and helpful the study of history is for the correct understanding of the extraordinary developments in music of the present day; also how futile and unreasonable were the demands made on modern composers to compose music like that of Mozart and Beethoven. Evolution is inevitable in music, altho it does not necessarily follow that each development must be of more lasting value than its predecessor. The next lecture will be on "The Art of Counterpoint," and it is to be hoped that on the completion of the series Mr. von Kunits will have them published as such contributions to the study of music are too valuable and authoritative to be thoroly grasped at one hearing.

The fall term of the Conservatory School of Expression closed with two recitals. On Tuesday evening three charming playets, "The Superior Sex." "The Piper Plays," and "A Bit of Nonsense," were exceedingly well presented by 18 members of the junior class. On Friday evening the senior students presented with fine literary and artistic appreciation the following excellent program of well-contrasted numbers: Klein, scene from "The Lion and the Mouse," Laura I. Glichrist; Shakspere, "As You Like It." act I, scene 3, Madeleine Chisholm; Ian MacLaren, "Crossing the Flood," Jessie Slater; (a), Chaminade (vocal). "Sur la plage; (b), Nutting, "In My Little Garden," May Wilkinson, pupil of Dr. Albert Ham; Tennyson, "Guinevere," Dora Adams; Maeterlinck, scene from "The Blue Bird," Mabel Murphy; Belesco, "The Girl from the Golden from "The Blue Bird," Mabel Murphy; Belasco, "The Girl from the Golden West," Urith Cameron Taylor; Shakspere, "Much Ado About Nothing," act 4, scene 1. Cast of characters: Friar. Kathleen Burns; Claudio, Dorothy S. Beattle; Dom Pedro, Mina Loucks; Don John, Dora Adams; Leonato. Mildred Bedell; Benedick, Melita Rothery; Hero, Freda O'Brien; Beatrice, Mary Laughton; Ladies in Waitng, Gladys Stafford, Pearl Christie.

The eighth of a series of special analytical lectures, which are being given fortnightly by Mr. Healey Willian, in the concert hail of the Toronto Conservatory of Music, will be delivered on Wednesday morning next. December 17, the subject being "Chopin as Harmonist." In order to adequately illustrate this lecture, a number of the preludes will be drawn upon by Mr. Willan, it being felt that in this particular form of composition Chopin's marvelous genius as a harmonist was convincingly demonstrated. Besides the preludes Nos. 1, 2, 3, 4, 5, 6, 7, 8, 14, 16, 20 and 23, the great polonaise in A flat, op. 63, will be played by Mr. Viggo Kihl of the conservatory plano faculty, who will be associated with Mr. Willan in this

Stuart Barker, of the Hambourg Con-servatory of Music, gave a very in-teresting and instructive talk upon the "Science of Voice Production," at the Conservatory Hall last Wednes-day evening. Many were present, and all seemed to feel that the speaker had a most thoro and comprehensive grasp of his subject. Mr. Barker will give several more of these talks after the New Year.

Madame E. Varty-Roberts, teacher of singing, has joined the faculty of the Canadian Academy of Music. She is specially qualified to teach, having not only an excellent voice which has been splendidly trained under teachers of the highest repute, such as: Mdlle, Louise Douste and Education of the Carrows averages of the decourse of the control of the such as: Mdlle, Louise Douste and Edouard Garceau, exponents of the famous Maurel method; but also a first-class general musical education. She studied piano for five years under Prof. Dannreuther, at the Royal College of Music, England, and is an Associate of the Royal College of Music, London. sic, London.

## MARIE RAPPOLD LIKES CANADIANS

Famous Prima Donna Made a Great Impression on Montreal Music Lovers.

Probably the most outstanding fearunning in Montreal is the marked im- Quartet in popularity, or in artistic pression that has been made on the excellence. At their first New York Marie Rappold, prima donna soprano of the Metropolitan Opera Company. Musical America in its report of the opening opera said: "Mme. Rappold made a profound impression, and was recalled time and again at the conclusion of each act." The fame of Mme. Rappold has also sured to Musical America says: "Their performance was unsurpassably beautiful. To a technical finish so perfect that it eludes notice, to continence of style, to microscopic refinements of shading, and to a due sense of the Rappold has also spread to Toronto, and much interest is being evinced in her first appearance here, which will be with the National Chorus at its

Mme. Rappold is one of the most sought after concert artists of the present day, the beauty of her voice, her method of singing, and her personality uniting to win for her a unique place on the lyric stage. She has appeared with the Metropolitan Opera Company every season but once since 1905, and will sing there again this year. In addition, she has a list of over sixty concert engagements, including recitals in Washington, Utica, St. Louis, Kansas City, Milwaukee, New York, Brooklyn and Chicago. She will also appear with the Boston Symphony in Boston and Providence, and with the Minneapolis Symphony Orchestra. She is highly popular with

Dec. 15. will be as follows: Overture, "Barber of Seville," Rossini; Andante and Finale from E flat Symphony Orchestra to be given at Massey Hall on Monday evening next. Dec. 15. will be as follows: Overture, "Barber of Seville," Rossini; Andante and Finale from E flat Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popular concert of the Toronto Symphony Orchestral program for the first popu phony, Mozart; Trio for flute, clarinet and English horn—(a) "Humoreske" (arr Leo Smith). Dvorak; (b) Negro Melody, Arr. Leo Smith, Messrs. H. H. Bradfield, J. Dineen and O. W. Hoffman; March from the Pathetique

Symphony, Tschaikovsky.

The soloist of the evening will be Winnifred Hicks-Lynn, but it is intended that several of the players in the orchestra will be given special parts, chief among which will be the trio referred to above.

The popular concerts of the Toronto Symphony Orchestra have always been greeted with considerable interest, and there is no doubt that this opportunity afforded for those who wished to study the orchestra in its more

al attention.

The price of seats has been made extremely low as usual, the prices being 50c and 25c.

The students' recital on Saturday afternoon at the Canadian Academy of Music attracted a large and very appreciative audience. An excellent program of vocal and instrumental solos and ensemble numbers was given by advanced students. The uni-formly good standard of performance was an eloquent testimony to the splendid teaching of the faculty, and also to the exceptional talent the academy possesse in a number of the students. Those taking part were: Laura Spencer, Ruth Trebilcock, Edith Turnbull, and Florence McKay, pianists; Marjorie Latimer, Lillian Grey, Ruth Coryell, M. Blankstein, violinists; Roy Webster, 'cellist; Marjorie Mar-tin, Lulu Calder, Mary Hunter, Wm. Greatrix, and Arthur George, vocists. Another recital will be gion Saturday afternoon, Dec. 20,

yourger students.

"Where are you going?"
"To the department of agricul-ture," replied the city man who had bought a farm. "I want them to set-tle a dispute between my wife and me about the best way to milk a cow. I think it would be sufficient to tie pillows round the cow's feet, but my wife insists that the only practical way is to give the cow chlore-

Should a Woman Propose? Is a Question Often Asked Where Women Predominate

In a Big City Where Eligible Young Men Are Less in Number Than Marriageable W omen, Question Opens Up a Big Problem to Which S olutions Are Suggested.

By Flora MacD. Denison. Not only am I a firm believer in sand more women than men in New York City, and more than that difmarriage, but I do not believe that a man or woman can work out their destiny satisfactorily unless mated. Next to the call of hunger (and we admit that self preservation is the first law of nature), the call for a York City, and more than that difference in London.

Manifestly numbers of women cannot fulfil their "manifest duty" and destiny. How many hundreds of women go to summer resorts, hoping that possibly they may meet their fate?

As a matter of fact there are almarriage, but I do not believe that mate is pre-eminent—a dominant vital

call in every normal human being. Undoubtedly nature intended "the female of the species," to be the aggressive mate chooser, but society has sadly twisted the sex relations, and instead of the male flaunting himself in gally bedecked garb to attract the female, we find women wearing all sorts of fine and highly colored tog-

gery to strut before the male. The peacock spreads his gorgeous tail hops on a high fence and flaunts and fusses to attract the attention of the modestly dressed peahen, whose the modestly dressed peahen, whose attractiveness as a prospective mother of little peachicks is all sufficient. Chanticleer crows not so much for the sun to come up as to attract the money and vitality from their victures and leave weakened wrecks in-English pheasant.

Just when or how the twist came stead of men in their trail.

in it is difficult to say, but it probably came along with the selfish idea Woman Wants Home. of private property, and when women and mother was the highest female are scarce and where they have what destiny.

destiny.

So they sat about and waited for some man to woo them, and even this might have been quite satisfactory had the wooers always arrived. BUT many of the bravest and best of England's sons got sick of the inane attitude of the clinging vines, and came to America and married squaw wives who bore the brunt of the pioneer life with them, and never returned to Prescilla and Rebecca, with their curls and smelling salts.

So they sat about and waited for should be their right, the choice of competing suitors.

I believe that the day is not far distant when a self-respecting, self-supporting woman (and soon no woman can be self-respecting unless she is self-supporting any more than a man can be), will find it quite as much her prerogative to seek a life mate as it is for a man to seek one. There need be no lack of modesty in a frank confession of wanting to fulfill one's highest destiny. There should no more be lack of modesty in a

New Ways Are Better.

primal mission of woman is to get married and have children, but we are beginning to know and to feel that the old fashioned ways of our mothers might be materially improved upon by the new fashioned ways of our daughters.

If duty and have children, but we are beginning to know and to feel that the old fashioned ways of our mothers might be materially improved upon by the new fashioned ways of our daughters.

Man Proposed.

ways ten women to one man at all summer resorts.

Now, why should women not go to South Africa or to Canada's north-

in the majority?

After all. it is a poor disconsolate place where there are only men, and the stories that could be told about the mines and the lumber camps, where men grow coarse and hard for the lack of the softening and refining influence of good women. (No-good is not the word, I mean women with brains enough to have a definite set purpose—women who can be pals and comrades to the boys.) If women have

Any normal woman wants love and were considered property it was "up to thim" to attract and be the property of the most desirable male. Things reached an extraordinary climax in the early part of the last century, when poor fainting, simpering are competing for a minority of men. women had all kinds of hypocritical modesty, and would not admit for the men have become cautious, self-opinionated, coxcomby and world such an unladylike thing as intolerant, and condescendingly choosthat they wanted to be married. At es a woman with a "look, how many the same time they would frankly ad-mit that to be a faithful virtuous wife But what a difference where women

New Ways Are Better.

Today we may still admit that the

our daughters.

If duty and happiness, and all the reasons that go to make out a case of mutual profit and satisfaction for the sexes, proclaim that woman's destiny is to marry, then why not set about it in a frank open, whole-hearted way?

The vexed questions of "Should a woman propose?" and "Is marriage a failure?" will be largely solved by women making the intelligent choice and making marriage the magnificent estate it is possible for it to be. Religious failures are member of the proposed to set the same of the proposed to the prop

prince Albert and history tells us there was no failure in that marriage. I would like to see bands of those of ultured English women come out to our northwest with the frank and honest intention of marrying, if they could "strike it right." What a splendard to the men of our northwest.

Women are certainly needed to help the many and thing for the women left behind and for he men of our northwest, ways of convention and prejudice. They must start out and make new paths, they must dare they must do, they must start out and make new paths, they must dare they must do, they must start out and make new paths, they must dare they must do, they must start out and make new paths, they must dare they must do, they must be. Boston boasts of her "bacelor spit clubs," and they may have much to recommend them for we are quite aware that many able and satisfactory lives have been lived in single blessedness but if we would touch the heart of hearts of the race, but the heart of hearts of the race, but would keep to the front the finest and most delightful of all relations freedom but "John Anderson my Jo John," "We want no sex antagonisms, we want no sex agreesiveness or sex respections of med on both sides. The study of eugenics and hysiene, and physoclogy, the study of our social problems by our university boys and striks is doing much to create a healthy sex atmosphere devoid of maudin ronal standard is being challenged as mever before, and change work in opening the sex almosphere devoid of maudin rome and the came of the other. Our and the came of the other way and the proposed of maudin romany and the came of the other. Our and the came of the other way are also the proposed of the many the proposed of the other way and the proposed of the proposed of the other way the proposed of the other way and the proposed of the other way the proposed of the other way and the proposed of the other way of the proposed of the propos It is claimed that there are fifty thou-

"Too much loose gossip about companies and conditions is being indulged in by men who are only gossiping and who lack facts to back the stories," says Automobile Topics. "Good sound companies, which are going ahead with their 1914 plans in a conservative way and are in excellent condition for the coming year, find themselves embarrassed by idle stories that they are going to go out of business or go into receivership. Sometimes the stories take a milder form and indicate that the company is to change wholly its product or is to make a clean sweep of its sales department. It is a pity that men in the trade cannot exercise more discretion in gossiping about trade conditions and will not confine themselves to what they are reasonably sure is true. Every small town themselves to what they are reasonably sure is true. Every small town sewing circle is a demonstration of the gratification that is felt by the retailer of the latest bit of gossip in commending attention and creating stir and surprise, but grown men in the

is now "Made in Canada" in this New Million Dollar DOMINION Tire Factory.

THE demand across the Line for the "Nobby Tread" Tire keeps four great American factories busy. Its superiority has been clearly demonstrated both there and in Canada.

We could see no reason why Canadian motorists should not be able to get the same incomparable tire, "Made in Canada," by Canadians.

So we secured the Canadian rights to all the patented designs and exclusive processes which have made U.S. 'Nobby Treads" the world's best. Then we erected the big factory you see below, and equipped it with duplicates of all the special machines used in the four great factories of the

U.S. Tire Company.

The product of this Factory, the DOMINION "Nobby Tread", is certainly the best tire that has ever been made on Canadian soil, and has no superior in any other country.

There is nothing experimental about it—every feature, every manufacturing process has been thoroughly tried out and proven satisfactory.

It has the same absolutely Non-skid "Nobby Tread" which was worked out in co-operation by the Morgan & Wright, Hartford, G. & J. and Continental Tire people. It has the same uniform bull-dog strength in every part of the carcass, because we build it on the same machines, by the same exclusive processes.

So keen is the demand for DOMINION "Nobby Treads" that we have had to cut down some of the largest orders so as to be able to supply some, at least, to every dealer in Canada. To avoid delay, get your order in with your dealer

Motorcycling

to penetrate where an automobile will

the hill whenever the occasion offers Briefly, the motorcycle is the most 20th century. The cleverness of many brains has been concentrated on the job of bringing it to its present perfection, and their efforts have brought and will continue to bring health and happiness to countless thousands who

would otherwise be couped up in large cities, and forced to travel, if at all, in stuffy cars and trains. The great majority of the human race are naturally of a roaming disposition and until you own a motorcycle you cannot realize the opportunities you are missing or realize the unlimited possibilities of the popular little gasolin bicycle.

With the Wanderers' Motorcycle Club.

A very good crowd turned up at the special meeting of the Wanderers' Motorcycle Club, which was held Wednesday evening, Dec. 10, at the club rooms, with nominations for officers for the coming year, 1914, as the main issue.

Another one of those pleasing features took place when the President, H. Hodgkinson, on behalf of the members presented a handsome cut-glass water set to Joe. Barlbeau, the retired racer, as a wedding gift. Mr. Barlbeau replied in a very neat speech his appreciation of the wedding gift. Mr. Baribeau replied in a very neat speech his appreciation of the good wishes of the members. Reviewing some of his racing adventures, but claims getting married has it all over any of them like a tent. Mr. Baribeau was also made an honorary member, for which he again replied, thanking the members for the great honor bestowed upon him. The members gave him a rousing reception. Nominations were opened for officers for the coming year, with the President reviewing the business of the past year, showing how successful they were, and making special note for the members to be careful to select their officers at the coming elections. The following were

coming elections. The following were elected by acclamation:
President—L, J. Turofsky.
Secretary—S. C. Olmstead.
Treasurer—F. McKeys.
Tour Master—H. Hodgkinson.
Leaving the balance of officers to be elected next meeting, which has been called for Wednesday evening, December 17.

sidecar attachment to his motorcycle, but tho Mrs. Long likes sidecar riding immensely, she prefers to take this trip riding on the tandem seat of her husband's machine.

A motorcycle wedding which proved a great surprise to guests at a St. Louis hotel, was that of Paul Leistner and Eugenia Groslaub, who, clad in The new Constitution, which was adopted as read, covers a lot of new articles which have been omitted in the old one.

The banquet, which takes place Jan. 9, 1914, has been arranged by the committee,

## OUTSELLS **BECAUSE OUTSERVES**

To-day Dunlop Traction Tread outsells all other makes of antiskids. That came about through outserving all other makes. Dunlop Traction Tread removed the fear of skidding, the need for chains

ime back to buy' a motorcycle, the year 1914 will present the best opportunities yet afforded in the fascinating two-wheeler. The past few years have developed the motorcycle from a "hit and miss vehicle," which when you started to tour usually forced you to walk or run the greater portion of the journey, to a luxurious mount with every facility and which is absolutely reliable and dependable under all conditions. Today the motorcycle is used commercially almost as frequently as for pleasure. And this is one of the strongest proofs of their thoro reliability, for the business man doesn't adopt any new device, without first testing its ability to "make good."

During the past few weeks two encrmous motor shows have been held, one in Chicago, Ili., and the other in the great Olympia, London, Eng. And the latter brought out an even greater display than the American show, which was devoted entirely to motorcycles and their accessories. Who would have imagined such a thing five years ago? The present trend on the part of the manufacturer is to bring his product to the highest plane of comfort, and the adoption of spring frames and three-irch tires, together with complete electrical outfits has placed the motorcycle on the same level of luxury as the high priced automobile, but at a price within the reach of all. Two and three speed clutches have also added to their perfection and enabled them to penetrate where an automobile will never reach.

The Addition it the reasonable pur-

home. Motorcycleman Barr was despatched to the Walker home and by the time Mrs. Walker had got upstairs from the telephone the officer was hurrying across the law; not dreaming that sufficient time had elapsed for the cost of one automobile tire.

The corr seets two persons the denger for a sixt to be out lets at the sufficient time had elapsed.

## MOTORCYCLING DE LUXE

MR. EDWARD BUFFUM, MANAGER TORONTO BRANCH HENDEE MANUFACTURING CO., OUT FOR A SPIN. HIS PASSENGER IS MR. E. J. GREEN, ALSO OF THE HENDEE CO.

In addition to the reasonable purchase price, the low cost of up-keep is another "winner" in favor of the motorcycle. In these days of high-prices this has a wonderful effect on a would-be purchaser, and the fact that even in the highest powered motorcycles an average of from fifty to seventy miles is obtained on a gallon of gasoline, as compared to twenty in the case of the auto, is certainly worth considering. The tire question is another outstanding point. You may provide your motorcycle and ide-car with a complete new outfit for the price of one new automobile tire. Then there is the fascination for the game. The entire independence from street cars and railway trains when going to business or traveling thru the country. The rider makes his own schedule, and starts and stops when he wishes.

Motorcycles that in McBean's Hall, College street and Brunswick avenue. Nominations were opened for the various offices for 1914, and a great number of candidates were trotted out. Stameers were nominated for the president for the president joint. You may provide your motorcycle and ide-car with a complete new outfit for the price of one new automobile tire. Then there is the fascination for the game. The entire independence from street cars and railway trains when going to business or traveling thru the country. The rider makes his own schedule, and starts and stops when he wishes.

Motorcyclists differ from car owners in the undoubted fact that they are about one hundred pog cent more entusiastic. They do not envy the big car owner, but rather take a tremendous pleasure in trimming him on the big car owner, but rather take a tremendous pleasure in trimming him on the hill whenever the occasion offers. The Count of Monte Cristo"

"RIGHT OF WAY" AT CARLTON THEATRE

"Right of Way." an exceptionally strong drama in two parts is to occupy the chief position on the pro-gram of the Carlton Theatre. Par-

for the Beaver pony, this competition looks like being an immense success.

The program supplied at this theatre during the past week was certainly of high-class order. The vaude-ville acts were exceptionally fine, and the motion pictures were all of the very best.

For Monday. Tuesday, and Wednesday, of this week, Manager Joy has secured Burling and Urban, in a high-class dancing act; Bush de Vere, in a musical singing novelty, and Charlie Saunders, a singing and talking comedian.

The management of the Ritz Theatre has made special arrangements with the Famous Players Service Company whereby there are to be the first theatre on Yonge street to show their films. The first of these will be shown on Thursday and Friday, when patrons of this house will have an opportunity of seeing "Tess of the D'Urbervilles," which features such a well-known actress as Mrs. Fiske. AT LA RETA THEATRE

"ROBERT OF SICILY"

AT ROYAL GEORGE

The Royal George Theatre, St. Clair and Dufferin, is one of the very few houses on the outskirts of the city which can boast of special high-class features. A new feature is added to the program every other night, making the entertainment the very best procurable.

For Monday and Tuesday "King Robert of Sicily," that famous historical drama, will be the chief attraction. This is a story which has been pronounced as almost perfect in every way. The acting is fine, the scenery beautiful and the costumes true to the period. The story itself is too well known to need telling.

As an extra special attraction the management has secured "Dash for Liberty," a particularly fine two-reel drama, for Wednesday and Thursday.

At LA RETA THEATRE of such as specially fine week of features has been arranged by the management of the La Reta Theatre, Gerrard and Pape.

On Monday and Tuesday a particularly thrilling drama will be the attraction. entitled "Justice of the Wild." in two parts.

On Wednesday and Thursday, as an extra special attraction. "Evil Power," a story dealing with a man who has the power of hypnotism, who uses it to lure women into his house. The story is exceptionally thrilling, the final fight between a wronged husband and the hypnotist being the greatest fight scene shown on the screen.

On Friday and Saturday the leading feature will be a powerful drama in two parts, entitled "Steel."

These features, combined with the usual excellent program, for which this house is neted, should make a record-breaking week for this theatre. patrons.

This new house positively has the best seating arrangement of any in Toronto. The very best machine has been installed, making the pictures absolutely filekerless. The whole house contains an atmosphereof refinement and should be greatly appreciated by the public, who desire the very best of everything.

"FLIGHT OF THE CROW" AT KING GEORGE

RITZ THEATRE MAKES

IMPORTANT DEAL

The King George Theatre, Bloor and Bathurst, have secured several really high-class features to be added to their programs for this week.

The program is changed every Monday, Wednesday and Friday, and each change includes an excellent feature which is secured at considerable expense.

pense.
On Monday and Tuesday the big feature will be "The Flight of the 'Crow,'" a really high-class production. This picture scored an immense success wherever it has been shown and has been pronounced by all who have seen it as an exceptionally fine play. The story is in two parts.

ASTER THEATRE HAS STRONG PROGRAM

One of the most popular theatre in the Dundas and Arthur district is the Aster Theatre Not only are the programs of exceptional quality, but no expense has been spared to make this the most comfortable house in

"TRAIL OF LOST CHORD" this period, but the play is exceptionally fine.
This house is sparing no expense

to maintain the popularity which it has secured in this district, and the Three features of exceptional merit has been secured by the management program for this week should in no of the Iola Theatre, the popular Danforth avenue house.

GREAT FEATURE AT BLUEBELL THEATRE

The management of the Bluebell
Theatre Parliament street, have been to considerable expnse to provide their patrons with two of the very finest features ever present to the Toronto public.

"The Prise of the Lost Chord," which is without in the control of the Lost Chord," which is without in the control of the Lost Chord," which is without in the control of the Lost Chord, which is without in the control of the Lost Chord, which is without in the control of the Lost Chord, which is without in the control of the Lost Chord, which is without in the control of the Lost Chord, which is without in the control of the co

On Monday and Tuesday "The Prisoner of Zenda." a photo play in four parts, taken from Antony Hope's famous book of the same title, will be the attraction. This play is presented by Daniel Frohman, and features James K. Hackett in the double role of Rudolph, and the King of Ruritania.

MONTE CRISTO" AT COLONIAL THEATRE MOTION PICTURE

DIRECTORY than Dumas' famous novel, "Le Comte d'Monte Cristo." Dumas has written some fine novels but nothing has approached this splendid adventure. The Famous Players Service have

Beaver Theatre, Dundas Street
Acter Theatre, Dundas and
Arthur.

The Famous Players Service have been the means of placing this book into play form and this picture will be shown at the Colonial Theatre, Queen west, thruout the entire week.

The title roll is played by James O'Neill, the famous actor, and it is said that his rendering of the character is particularly fine. Several attempts have been made to place this story into motion pictures but they have been more or less failures, the most important reason being that they have not devoted enough film for so long a story. In the Famous Players' attempt 5000 feet of film has been used. It deals with the adventures of the count from his arrest. It shows his imprisonment in the castle and his thrilling escape after being thrown in a sack from the top of the castle. This should make an exceptionally fine story.

RYAN'S THEATORIUM
HAS BIG FEATURES

Three features of exceptional quality have been secured by the management of Ryan's Theatorium, West Bloor, for this week.

On Monday and Tuesday "Dixey Mother," a powerful Southern war story will be the chief feature.

On Wednesday and Thursday "The Fallure of Success," a particularly interesting drama in two parts has been secured as a top liner. There is no feature that is more thrilling and yet maintains the interest thruout the entire production.

On Friday and Saturday another attraction of the same quality has been secured. No actress is better known than Mme. Sarah Bernhardt and she will be shown in what is without doubt, her masterpiece, "Queen Elizabeth."

It should be necessary to go early to this theatre on these days if you do

"THE VAMPIRE" AT CUM-BAC THEATRE

IDLE HOUR THEATRE programs of exceptional quality, but no expense has been spared to make this the most comfortable house in the city.

There is no house in the city which has improved under new management as the Idle Hour Theatre, East Queen by the company of the company, and Tuesday the leading attraction will be "Rove Lute of Romany," a particularly fine story, in two parts. This play is full of interesting and thrilling incidents, and is acted by several of the very best players in the motion picture business. This alone should be a great draw-

players in the motion picture business.

This alone should be a great drawing card to this popular house.

"CASTE" A FEATURE

Many famous novels have recently been transformed into motion picture plays, and not the least attractive is "Caste," which will be the chief attraction at the Midway Theatre. Ger.

To give every person present a full the Cum Bac Theatre. Other special features will be added to the program on Wednesday and Friday, which, togother with the usual lengthy and attractive programs, should make an entertainment of exceptional merit.

The program is always of high class order. The leading features for the week are as follows:

Monday and Tuesday "Green Shadow," a particularly powerful drama in two parts.

The program of the Cum Bac Theatre. Other special features will be added to the program on Wednesday and Friday, which, togother with the usual lengthy and attractive programs, should make an entertainment of exceptional merit.

MAPLE LEAF THEATRE

plays, and not the least attractive is "Caste," which will be the chief attraction at the Midway Theatre, Gerrard and Highfield avenues, on Monday and Tuesday.

This is particularly an attractive feature, well acted and set to perfect scenic effects. The story is far too well known to need explaining at the story of the least attractive is dow," a particularly powerful drama in two parts.

Wednesday and Thursday "The Theafre, Danforth avenue, is making a strong bid for the patronage of the theatre goers of this district.

In addition to the usual lengtry program, which is changed at least three times a week a special arrangement for the Maple Leaf Theafre, Danforth avenue, is making a strong bid for the patronage of the theatre goers of this district.

## COMING TO THE PRINCESS

Cassar" Mr. Faversham teaped at one bound into the very forefront as a notable producer and interpretor of classic drama. At the time of the initial success of his presentation of "Julius Caesar" Mr. Faversham announced that he intended to follow that success with even more remarkable productions of other Shaksperian plays. This promase to the Royal Alexandra Theatre on Dec. 29. to remain two weeks. During that time he will offer spectacular productions of "Romeo and Juliet," and "Othello," and also, in response to many requests, present for a few performances his presentation of "Julius Caesar." Discerning critics have more han once remarked during the past year that Mr. Faversham seems destined to secure for himself the illuspances, will play the heroines. Not counting those who stood around on the hills back of the Greek Theatre of the University of California when Margaret Anglin recently played "Electra" on that classic stage, it is estimated that ten thousand persons watched the performance. Other hundreds were turned away, unable to secure seats. While it may be a question which of the two performances was the greater, her "Antigone" of three years ago, or "Christmas and New Year's holidays he will make his positively last tour of the principal eastern cities. In which itinerary this city is included. His repertoire includes "Hamlet," "The Merchant of Venice," "Othello," "The Light That Failed." "Mice and Men." "The Passing of the Third Floor Back," followed by "The Sacrament of Judas." and George Bernard Shaw's "Caesar and Cleopatra." He is supported by his wife (Gertrude Elliott) and his entire London company from Drury Lane Treatre Royal.

Moving Picture Plays

Night Shadows of New York.

"Night Shadows of New York" is an exceptionally interesting drama, dealing with a pache life in the great American city. The acting is realistic making it doubly interesting. The story deals with a young girl. Nell, who is a swetheart of Dago Mike the leader of a gang of New York apaches. She secures employment as a maid, reconnoitres the premises, and then notifies her lover and his men. In trying to cover their tracks after the robbery, she is apprehended and sent to prison. Months pass. She comes out from behind the bars to find Mike's interest centred upon snother representations.

There are few sporting drams.

In trying to cover their tracks after the robbery, she is apprehended and actor, and needed him very badly. For some time the Sphinx Company had devoted itself to the so-called "western" picture. The 15 hard-riding cowboys who composed their staff served admirably for this purpose. Most Sphinx pictures consisted of a series of views of the above-menting cowboys galloping at full tilt after one of their number, who was variously cast as a horse their staff served admirably for this purpose. Most Sphinx pictures consisted of a series of views of the above-menting cowboys galloping at full tilt after one of their number, who was variously cast as a horse their proble problem to be sure, but even the two the sufficient to make them look English. They must have a typical so good.

## POSITIVELY LAST TOUR

## "FRECKLES" CHRISTMAS WEEK.

have been among the most interesting productions the stage has had. Among the most successful producers of book plays is A. G. Delamater. whose "Quo Vadis," and "Beverly of Graustark" are well remembered by hundreds of thousands of theatregoers. Both were most interesting plays, and clean ones. Delamater will have nothing to do with any other kind of production; above all, the play must be clean and respectable, so theatregoers will be pleased to know that he has arranged to produce Gene Stratton-Porter's delightful nature play, "Freck'es," at the Grand Christmas week.

## "OMAR. THE TENT MAKER."

when "Omar, the Tentmaker," will be presented at the Alexandra Theatrepresented at the Alexandra Theatre. It will be an elaborate production of what is said to be a most interesting play. Certainly the subject is interesting enough, because few men have had so wide a popularity as the Persian poet who is the central figure of this play. His Rubaiyat is familiar in every civilized land.

"Omar, the Tentmaker." will be played here by a cast headed by Guy Bates Post. The seat sale will open on Wednesday. Dec. 17.

Gail Kane, who appeared for three short weeks in a play called "The Model 2." then disappeared for a while, has put in an appearance again. She is playing in "Seven Keys To Baldpate," a new play by George M. Cohen.

two-reel comedy, staged in an excep-tionally fine manner. It deals with a motion picture company, who needed an actor, and needed him very badly.

## IN "THE INNER SHRINE"

JUSTINA WAYNE, WHO WILL BE SEEN AS DIANE EVELETH IN "THE INNER SHRINE" AT THE GRAND THIS WEEK.

It seems almost that Shakspere has come into his own. This year Margaret Anglin is playing four of his plays, William Faversham three, Sothern and Marlowe seven, and John Kellerd several.

Mona Limerick the first leading wo-man of the Repertory Theatre, opened by Miss Horniman in Manchester, is at present in America, for the purpose of leading a new company in the Fine Arts Building, Chicago.

Louis Mann is appearing in a three-act play by his wife. Clara Lipman. Last week's Sunday Press told the touching story of how this young couple used to pinch and save, and

Ada Lewis is an optimist, both on and off. The story of poor Frankie Ford is proof positive of it.

She related this touching narrative the special stocking narrative of the spacious dressing-room waiting to transfer her mistress into another costume, said dressing-room being exactly five and three-fifths by six and seven-ninths, in spaciousness of dimensions.

"If I weren't an optimistic soul I'd be worried to death about poor Frankie Ford. He always travels with me wherever I go. What is he? Why, a motor car. But no baby would be more cherished, I assure you. I went right into a shop in New York and bought him one day. Yes, just like that, 'I want that car in the window, says I, thinking that they'd put the best cars in the window. 'You can't have it for two or three days,' said the salesman. 'Then the sale is spoiled. For if I don't have it now, I won't

Miss Lewis started her career in medodrama, going from that to Shakspere drama, straight comedy, and finally found herself in musical plays. She tells an amusing story of her first imitation. She was to give two imitations, during one performance, one of Mrs. Fiske and the other of Mrs. Pat Campbell.

She spent a long time making up for the Mrs. Fiske part of the bill. She was rather nervous it being her very first attempt at burlesquing. She arrived in the wings. Another member of the company was standing on the opposite side of the stage. Miss Lewis asked her what she thought of the makeup.

"Splendid! splendid! I think it's really wonderful!"
"Come over here "Come over here and tell me in de-tail what you think of me." Miss Lewis

called.
The girl came"Why, anyone in the world would swear that you were Mrs. Leslie Carter. I think it's wonderful."
"And you can take it from me, my dear, that's the very last time I insisted on detailed opinions 'Let well enough alone,' is an excellent motto."

Ada Lewis is a fatalist. All of her family have been priests and nuns and the like, she alone taking the vows of eternal Thespianism. It simply thrusts itself upon one, she thinks. One's vocation, that is. And her best training has been in fields other than the ones in which her present duties wander. The melodrama, the straight drama, the Shaksperean productions she has appeared in; all the other parts have helped her to broaden her comedy and see the comedy from many differnt points of view.

wonderful part of "Disraeli" in that play. He will appears at the Princess this week.

## John Mears Took a Short Run Around the World Players like Toronto as well as To-

GERTRUDE RHEAD IN 1869

ERTRUDE RHEAD IN 1865

That was very serious. For he had only a limited time to catch a boat somewhere around Harbin, in Man-

There was only one thing to do. Bribe someone to make up time. The

Bribe someone to make up time. The someone was the engineer. Mr. Mears went to him, and offered him, thru an interpreter, twenty roubles for every hour he would make up. That helped some. Helped to the extent of six hours. Then the chef de train found out about it. The chef de train is the conductor. He gave orders for the speeding to stop.

Something else had to be done. Mr. Mears started cabling. He cabled the American consul at one place, the Japanese consul at Washington, the official of a Japanese railway here, the head of the Manchurian Railway somewhere else, the head of the Steamship Company at Vladivostock, and all sorts of important people, with the ultimate result that he arrived in time to catch his boat, and arrived at Yokahama three hours before he was to set sail for America.

Mr. Mears swears by Japan. He

A coahama three hours before he was to set sail for America.

Mr. Mears swears by Japan. He calls them the Yankees of the East. They gave him private cars to ride in, across their country, they entertained him here and there, sent a guard to meet him and escort him to his train. In short, they made him the Great Mogul of Japan, if such a thing there could be.

He also has some very complimentary things to say about the C. P. R. Hearing that he was hurrying across the land of cherry blossoms, the head of the C. P. R. Steamship Company at Yokahama gave orders that the Empress of Asia was to be held for him, no matter how late his train might be in arriving. But, as was stated before, he had three hours to the good, to stroll around the streets of Yokahama.

As one might guess, the trip was

As one might guess, the trip was not supposed to be a trip of sight-seeing. It was rather a trip of quick moving. Thirty-five days from New York around the world and back again. York around the world and back again, is not a very long space of time.

Mr. Mears met many interesting people. Marconi was his traveling companion across to London. While there he was lunched by the lord mayor, and sat at the same table with Bonar Law, Keir Hardie, Asqutth, Redmond and other such celebrities.

Japan he considered the most interesting country he visited. They are energetic, he says, wide awake and know how to entertain. He did not have time to thing of any national problems, his trip being one of swiftness rather than observation. Altho, BENSON PLAYERS WILL RETURN TO TORONTO Evidently the Stratford-upon-Avon

ronto likes them, for they have de-John Henry Mears, who manages
John Drew and his company, has been all around the world since last he piloted that popular star on a tour.
And what's more, he has made the record trip around the world, traveling from New York, thru London, St. Petersburg and Yokahama, back across the American Continent, in thirty-five days, most interesting amongst them being the washout in Siberia, which caused him to lose eighteen preclous hours of his race across continents.

That was very serious. For he had only a limited time to catch a boat serves here a round. Health in Mark 18 mere than the piloted that popular star on a tour. And what's more, he has made the record swiftness, he says. The suffragettes are the worst problem of the day, in his opinion.

The average speed he made was five hundred and eighty-seven miles a day, and the total expense, eight hundred and thirty-six dollars and forty-one cents.

Naturally, he saw many sights in those thirty-five days, most interesting amongst them being the washout in Siberia, which caused him to lose eighteen preclous hours of his race across continents.

## What the Theatres Offer This Week

"The Glad Eye" Alexandra.

The Glad Eye," new from a London run of 15 months at three West End London theatres, arrives here via France at the Royal Alexandra this The tour is an all-Canadian one; extending from Montreal to Vancouver, and the object of it on the part of Mr. Louie Meyer is to discover whether the "all-red" route for the atrical companies is practicable. In addition to owning the Strand Theatrical companies is practicable. In addition to owning the Strand Theatre, London, and having a half share in the Garrick Theatre, Mr. Meyer has extensive interests in Australia and South Africa, in conjunction with the most stable managers there and, with his producing centre in London, he reckons he can turn out four successes a year. The fare to Australia. esses a year. The fare to Australia s some \$400. Via Canada to Van-ouver, and from thence to Australia couver, and from thence to Australia is little more. Taking a company via Canada to Australia means that, compared with sending a company to each, the fares are at least cut in half, or, mathematically, one gets practically a 1-cent rate on the Canadian railway. Another feasibility in the scheme is, that the autumn is Canada's best season; the spring is Australia's, and, coming from there to South Africa we again get the

At this period he is no more the spectacular young Jew, the author of startling waistcoats, but an astute statesman whose warmth of Oriental imagination has turned into one channel, the males. statesman whose warmth of Oriental imagination has turned into one channel, the making of his country an imperial world power. The historic incident of the buying of the Suez Canal from the dissolute Khedive of Egypt, and the saving to England thereby of the short route to India, is chosen by Mr. Parker as the central theme of his play. Disraeli knows that the Khedive is ready to sell his shares of canal stock to the highest bidder. He knows too, that Russia, altho not anxious at the moment to spend the millions necessary to procure these millions necessary to procure these stocks, is watching him thru spies in his own household, and is ready to rush in the moment she finds he is maknig a move toward secur.ng the shares, and to outbid England for in session and the only way the premier has of raising the necessary money is thru a loan from the Bank of England or thru private bankers. The president of the Bank of England refuses to listen to him. He play will be seen at the first with first with he breath and virility of the open west, is one of the latest words in the silent drama that tells a story which may be read as it runs. The play will be seen at the first wind and vital, in-replaces the hides in a hole and replaces the earth. The next move is to report "cattle missing." The sheriff is summoned and the ranch owner distory which may be read as it runs. land refuses to listen to him. He

Disraeli often call to his aid—he convinces Probert that he can, as premier, compel him to honor the check, altho in reality he has no such power. The premier carries his point, however, which results in saving the canal control to England and bringing high honors to Disraeli. Vaudeville.

Shea's. Manager Shea offers at Shea's Theatre next week Jesse L. Lasky's latest production, a vividly-colored musical comedy called "The Redheads," in which James B. Carson is featured. "The Redheads" is a musical spectacle and Mr. Carson is assisted by a company of twenty girls, who sing and dance and add to the general attractiveness of the offering. This is the first time "The Redheads" has been seen outside of New York.

The special extra attraction on the bill for the week is the Merkel Sisters, four young women gymnasts. These girls perform a routine of gymnastic and contortion feats which are always exciting and at times sensational. An added charm is given to their perform-

added charm is given to their performance by their grace and beauty. The Merkel Sisters have one of the best acts of the sort that has been sent

A pleasing feature of the week's bill is McDevitt, Kelly & Lucey, "The Plano Movers and the Actress," The actress, Miss Lucey, finds the rough plano movers are musicians and danplano movers are musicians and dancers and a merry and entertaining act is evolved by the three.

Leon Kemberly and Hasley Mohr present their original singing novelty, "Clubland," a story in rhyme and song. The advisability of the marriage knot is the theme of "Clubland."

The scene is laid in the interior of a clubbourg and the characters are the is Canada's best season; the spring is Australia's, and. coming from there to South Africa, we again get the best season. Starting at Liverpool, then, a company could do a year tour, embracing all the British empire, and make it pay better than organizing a separate company for each country. "The Glad Eye" success has made this dream of a young man of 34 years of age possible. Out of "The Glad Eye" success has made this dream of a young man of 34 years of age possible. Out of "The Glad Eye" Louis Meyer has made over a milion. His luck is still in, for, following the 15-months' success of this joyous comedy, he has just produced "Who's the Lady?" running in New York as "Madame La Presidente" to enormous business, and another of Meyer's playe just now is "Mr. Wu," an Anglo-Chinese play, with a future, so they say.

Arliss As Disraeli.

Princess.

Benjamin Disraeli, that brilliant, exotic statesman, who was in his time the best loved and most hated man in his country, will again be visualized before Toronto audiences at the Princess on Monday evening, at the Princess on Monday evening, the Princess of a bump for a laugh.

was not unduly shocked.

It Has the "Punch."

few days with a new second act. I rives and finds the actress who, to avoid explanation, is introduced as "Madam President," which gives the have been told it was a fairly so.

But tickets were not sold—you joined the medical organization and got the tickets as a bonus. Active members paid two dollars dues and got orchestra seats. Associate members paid one dollar and were seated in the balcony. I don't know what membership entitled the gallery gods to their seats.

Are such plays commendable? That statue. depends on whether or not one re-gards the stage as a fitting place to gards the stage as a fitting place to carry on propagandas and crusades. Personally I do not think it is, but that is merely my individual opinion and is unimportant. The plays are York than her father.

Margery Maude still continues to entertain the audiences at Wallack's. It appears that this charming young girl has made a biggar hit in New York than her father.

to my mind, commendable if they entertain. "The Lure" does that, it makes people think. That is good. When I saw it last there was little aplause, and, even between the acts, the persons who had paid their money for seats—had paid their money for seats—had paid their money presumably to be entertained—sat almost silent: If they conversed it was in nearly hushed tones.

Bear in mind that there is nothing "suggestive" about the play. It does not make vice alluring; there is not a line in it to which objection can be found—fault may be found with the subject treated, but not with the manner. And no man will witness the play and go away from the theatre with his mind bent on evil.

It seems to me that the average musical play with its scantily clad and beauteous maidens, its sensuous music and its appeal to the senses is likely to have a more dangerous effect on the sensitive young man than such plays as "The Lure," and "Damaged Goods." Very often the lines and situation of these musical plays are suggestive; but even when they are clean so far as plot, lyrics and libretto go, they certainly do not tend to turn a man's steps church-ward.

A Warm Franch One

A Warm French One.

And those French' farces; Let me mention one, "Madame President." It is at the Garrick and has done so well that it is to stay there some weeks longer, the few plays last many weeks at that theatre. Fannie Ward, a woman of much personal pulchritude is the star. She is alluring, is Fannie. She looks good. But her conduct—well, that's different.

Fannie plays the role of an actress.

conduct—weil, that's different.

Fannie plays the role of an actress, whose behavior in a small town causes the president of the village to order the hotel man to eject her. Being without a place to sleep she goes to the president's home, arriving there just after his wife has departed for Paris, and decides to stay all night. She makes love to the somewhat aged and extremely punctilious president and he shows signs of life. Then the minister of justice unexpectedly ar-

It Has the "Punch."

The brother was there, all right, and, I have been told, it was a fairly accurate potture. There was a fairly accurate potture. The second accurate potture and tumbs fight be part of the government spent, and George Probert, who portayed in the part of the government spent, and George Probert, who portayed in the part of the government spent, and George Probert, who portayed in the part of the government spent, and George Probert, who portayed in the part of the government spent, and George Probert, who portayed in the control of the second accurate the potter in the fair of the second accurate the potter in the fair of the second accurate the second accu

But it was not a play. It was a dia-logue, a preachment, a crusade. but not a play. It was press-agented cleverly, was first given "for one per-formance" on an afternoon, was later put on again "by request," and then started for a run. matic writers praised the play. And hypocritical New York took "Madam President" into its heart while the

## Society Notes

Mr. and Mrs. Braybooke Bayley and family have moved from Highlands avenue to 77 Castle Frank road.

Mr. and Mrs. J. J. Kerr Coulter, Duggan avenue, Deer Park, announce the engagement of their third daughter, Winnie Aileen, to Mr. Herbert S. Moore, son of Mr. and Mrs. George Moore, Euclid avenue. The marriage will take place quietly early in Janwary.

Miss Nan Hodgson gave a girls' tea on Tuesday afternoon in honor of Miss Alice Ramsay, the very popular young bride-elect of Wednesday. Mrs. Hodgson, wearing black lace and white brocade with orchids and illies, received the young guests. Miss Ramsay was looking lovely in a gown of white satin and coral. Miss Nan Hodgson was in apricot chiffon velvet with shadow lace and mink. The drawing room and reception hall were beautifully decorated with sunset roses, mauve chrysanthemums and autumn leaves. Miss Hodgson, in a smart orange dress, assisted in the reception room. In the tea room the table was centred with a cloth of Pointe de Venice, on which stood a rustic basket of bronze chysanthemums with strappings, and shower of gold. Mrs. Stanley Moss and Mrs. Clarence Soloman, two young brides, poured out the tea and coffee, assisted we Miss Kathleen O'Neill,

## **Unnecessary Fat**

Mankind was intended to be shapely—
not too fat, not too lean, but just the
happy medium between the two—symmetry. Any addition to this is unnecessary. There is no reason why the people
with double chins, too ample bosoms, too
generous waist lines and hip measurements, cannot decrease their weight and
become slim without the necessity of dieting, violent exercise, or the danger of
becoming wrinkled or flabby. The famous Marmola Prescription (known the
world over) has been used successfully by
so many stout people that it is hardly
possible you have not heard of it. It
will be good news to you that this harmless obesity remedy is now sold in tablet
form. Each one of the Marmola Prescription Tablets contains an exact dose
of the same safe, effective ingredients as
the original prescription and, like it, reduces at the uniform rate of a pound or
more a day. The cost of slimness is moderate. A 75c case lasts a long time and
gives dasting benefit to any overfar mar
or woman. Get it from your druggist or
the Marmola Co., Farmer Bldg., Detroi'
Mich. Here is an opportunity to los
your unnecessary fat safely at a nouninal expense.

MISS EVELYN JARVIS' TEA

Miss Evelyn Jarvis was the hostess of girls' tea at her house in Oriole road. will take place quietly early in January.

The We Be Glad Club have issued invitations to its first dance this season in St. Mary's Hall, on Friday. December 19.

Mrs. J. T. Merrick entertained the Even Twenty Club at her house. 735 Dovercourt road, on Tuesday evening. Those present were: Mr. and Mrs. F. McBride, Mr. and Mrs. T. Allen, Dr. and Mrs. Russell, Mr. and Mrs. F. McBride, Mr. and Mrs. F. McBride, Mr. and Mrs. F. McBride, Mr. and Mrs. Swain, Miss Keetch, Mr. J. Allen, Mrs. H. Allen, Mr. Quarrington, Miss Coleman, and Mr. Aitchison. The prizes were won by Mrs. T. Allen, Mr. F. Fry. Mrs. Merrick was assisted by Miss M. Le Page and Miss Mary Merrick.

Mr. and Mrs. W. P. Taylor and their family, Calgary, who are spending the winter in Toronto have the with her daughter, and locked very pretty in a gown of taupe creepe de chine, trimmed with lace and a necklace of pearls. Mrs. Jarvis received with her daughter, and locked very handsome in black satin, with overdress of black chiffon embroidered in jet. The pretty rooms were bright with flowers and the tea table which was presided over by Miss Caroline Jarvis and Miss Matheson, was centred by a large sliver basket of pink snapdragon and spirea, and lighted with candles in silver holders. The assistants were Miss Jean George, Miss Adeline Jarvis, Miss Dorothy Sinclair and Miss Bessie Bell.

A few of the guests were Mrs. Warren, and Mrs. Mrs. Thompson, Misses Wishart, Miss Keith Boulton, England; Miss Laura Ryerson, Misses Eaton, Mrs. Thompson, Mrs. Thus Mrs. Thompson, Mrs. Thus Mrs

Miss Keetch, Mr. J. Allen, Mrs. H. Allen, Mr. Quarrington, Miss Coleman, and Mr. Aitchison. The prizes were won by Mrs. T. Allen, Mr. F. Ery. Mrs. Misses Marjorie Fellows, the Misses Weishart, Miss Ketth Boulton. England; Miss Laura Ryerson, Misses Keefer, Miss Johnson, Misses Eaton, Mrs. Thompson, Misses Eaton, Mrs. Thompson, Misses Keefer, Miss Johnson, Misses Eaton, Mrs. Thompson, Misses Keefer, Miss Johnson, Misses Eaton, Mrs. Thompson, Misses Keefer, Miss Johnson J. Foy entertained the Runnymede Travel Club on Tuesday afternoon. The president Mrs. G. M. Jones, B.A., occupied the chair. There was a large attendance of members, who enjoyed the interesting program on Norwegian topics, which was rendered. "Liquor Laws, Fisheries," was outlined in a paper by Miss Mary Watson. "Drontheim Cathedral" was portrayed by Mrs. J. B. McCuaig. "Norwegian Artists" was dealt with by Mrs. Garner; and Miss Mavety, in an able paper, described the life and works of Edward Greig and Ole Bull. The music, selections from Norwegian composers, given on a victrola, was enjoyed. Current events An Norway were dealt with at some length. The club will not meet again this year, but early in the new year will have the pleasure of listening to a lecture Christian."

CHRISTIAN—D'ESPARD

CHRISTIAN—D'ESPARD

CHRISTIAN—D'ESPARD

The marriage of Miss Kathleen Imogen D'Espard, Picton, Ont., to Dr. Jack Russell L. Christian, Edmonton; took place very quietly at four o'clock on Wednesday afternoon in St. Simon's Church. The bride's brother, the Rev. Gerald D'Espard, Aurora, perparty and dance was held at the house of Mr. and Mrs. Massie, 52 Joseph avenue, North Toronto, by the Rebekahs of Oriole Lodge No. 104, on Tuesday evening the 9th instant.

Viola Rebekah Lodge No. 53 will celebrate its 17th birthday on December 17th, in the central rooms, College and Yonge streets, by giving a birthday party for its members and friends at 8.15 o'clock. A library contest will be a feature of the evening. looked lovely in her weeding gown of white satin, the corsage being of shadow lace and pearls. Her tulle veil was arranged in a cap, with wreath of orange blossoms, and she carried an ivory prayer book, the gift of Dr. J. A. Macdoniad. The bride's little niece, Miss Margaret D'Espard, daughter of Mr. and Mrs. William D'Espard, was her only attendant, and was frocked in lingerie and lace, with ping sash, and carried a basket of pink roses. The ushers were Mr. Gordon Macdonald and Mr. Frank Barber. After the ceremony a reception was held at which only the immediate relations were present. Owing to recent bereavement in the bride's family, at the home of Mrs. W. H. D'Espard, in Binscarth road, Rosedale, when she wore a becoming gown of blue Irish poplin, with lace, a black velvet hat, and a corsage bouquet of illy of the valley and pink roses. Later the bride and groom left for their home in Edmonton, visiting enroute Winnipeg and Calgary. The bride traveled in amethyst duvetyn with hat to match and black fox furs.

## NISBET-DAY

A very quiet wedding was solemnized in St. Clement's Church, Eglinton, the Rev. A. J. Fidler officiating, when Beatrice Rosamond Denmark, daughter of Mr. and Mrs. George day, became the bride of Mr. Colin Skinner Nisbet, The bride, who was given away by her father, was wearing a gown of sapphire blue chiffon velvet, with hat to match, and carried a shower bouquet of roses and lilies of the valley. Miss Kathleen Day was her sister's bridesmaid, and carried pink roses, and Mr. and Mrs. Allan Nisbet supported the groom, and Miss Osler presided at the organ. Mr. and Mrs. Nisbet will reside at 382 Merton road.

ROSARY HALL AT-HOME

The officers of Rosary Hall held their econd annual at-home on Tuesday aftertion, when Miss Marie Macdonnell retived the guests, in a becoming gown of black and white chiffon, with amethyst ecklace and a black velvet hat with blumes.

plumes.

Among the guests were Lady Falconbridge, Miss Clarke, Miss Lamb, Miss Fraser, Mrs. Loure, Mrs. Moore, Mrs. Dingman, Mrs. Law, Miss Grant, Mrs. Herson, Mrs. Angus Macdonnell, Mrs. Plunkett Magann, Mrs. Barry Hayes, Miss Josephine Doherty, Miss Marguerite Doherty, Mrs. Ambrose Small, Miss Cronin, Mrs. Cronin, Mrs. Salter, Mrs. Kelley, Mrs. Loosemore, Mr. and Mrs. Long, Mrs. Dillon, Mrs. Phelan.

TOWNERS TO A CONTROL OF THE CONTROL OF THE PARTY OF THE P

SCHEUER'S

There is scarcely any article of merchandise that lends itself so easily to misrepresentations as Diamonds.

For over forty years I have been in the Wholesale Diamond trade in Canada, and I have vet to be accused of the slightest misrepresentation.

BE SURE THE DIAMONDS YOU BUY ARE REALLY WHAT THEY ARE REPRESENTED TO BE.

We cast no slur on any Diamond dealer's claims that all the diamonds he sells are of one and the same color, and that every one is perfect.

Without making such claim, we can honestly and conscientiously assert, and can prove by comparison, that the Diamonds we offer for sale have as absolute a right to be classed as perfect, as any collection of precious stones anywhere in the world.

Add to this the fact that we sell our Dtamonds at WHOLESALE PRICES, that we guarantee satisfaction in every instance, that we cash any diamond we sell for \$30 and over, less ten per cent., within one year from date of purchase, and you must arrive at the conclusion that the best place to buy Diamonds is

## Town Planning and Better Roads

Last month an important conference took place in London, England, on the question of main arterial roads in relation to town planning schemes. It comprised representatives of local authorities in greater London, architects, engineers, surveyors and other officials, and was convened at the request of the prime minister. Mr. John Burns, president of the local government board, presided, and in the course of his opening address, made some highly interesting statements regarding highways, transportation, and incidentally, the rapid growth of the City of London. He began by pointing out that roads and traffic had hitherto been dealt with by various departments and local authorities, acting separately, independent of, even ignorant of, each other's plans, proposals and desires. In consequence there had been a lack of unity and enormous tracts of land had been covered, roads had been developed and streets made not quite so well as would have been the case if a considered and harmonious idea over all the districts of the various authorities had prevailed. Mr. Burns, however, also recognized that there might be too much unity, because, without variety there game monotony.

Within the past ten years no less than \$500,000,000 have been spent on highways in England and Wales, London alone spending \$9,000,000 a year, and for 1913-14 probably over \$10,000,000. Traffic, Mr. Burns remarked, is wonderfully on the increase both in volume and in speed; vehicles are larger, wider and heavier and he described width as essential in certain areas for economy in time, safety and transit. Speed has expanded so rapidly in London that Outer London, he said, must be saved from the ultimate cost of heavy charges for widening, which London itself now pays because fifty years ago there was no conference like that just held in the Guildhall. The president of the local government board urged that their object must be to save money in the ultimate future and the immediate future in Greater London, which is rapidly filling up.

Here in Toronto we are prone to think that the city's increase is phenomenal and relatively to population it is so. But London and all metropolitan cities are faced with much the same problems. Mr. Burns, in this connection, stated that in Greater London in six years only there have been 1,100 streets constructed, and 75,000 houses erected; over 300,000 acres have been in process of absorption into urban conditions. In other words, he said, this activity in the distribution of population in six years represents a city of nearly 400,000 people, in 75,000 houses, in 1,100 streets, or nearly two counties of Middlesex. Many of these houses and the roads and streets have been placed and constructed often without relationship to old roads, to beautiful amenities and to natural features that ought not to be swept away even at the dictates of squalid commercial interests. But signs are now apparent that the London and district councils are establishing a greater grip of the road and town planning

Four years ago Mr. Burns was instrumental in passing a town planning act which added materially to the powers of the government and of the local authorities both in matters of planning and of road construction. In this address he particularly mentioned Birmingham as a model of method, plan and procedure. That city has used the act, not only for the widening of the alignments and diversion of existing roads, but for the making of roads, and under its scheme has been enabled to benefit reciprocally town planning, to help housing and to improve traffic. What is more important still, it has been able to prevent the establishment and stereotyping of the slum. When recommending a plan of this kind to the London and district councils, Mr. Burns promised the sympathetic assistance of the local government board and urged that cash was less needed than ideas and generous cooperation. There is much in the president's address that applies equally to Canadian as to English cities.

## Supervision of Public **Departments**

Theoretically public officials should need no organized watching of their work. Practically they are found to need it and this without reflection upon their intentions or capacities. There is no official in the city government whose business it is to view all the responsibilities and concentrate upon the way they are discharged. This of necessity is supplied from the outside and it is only supplied effectively when the men who concern themselves in public affairs organize and employ some person or persons to keep up the inquiry, Cities are not exceptional in their need of the well directed public inquiry that is constant and sustained.

There was an old fashion among the people of the cities o elect men to office amid great controversy and with glowing assurances of their quality and then leave them quite unobserved until the approach of another election made issues out of their acts. It was a poorly balanced way of meeting the obligations of citizenship. It has yielded to the vogue of boards of inquiry, typified in the municipal research bureau of Springfield, Mass., which supplies a platform for organized watchfulness over city government that might well be adopted in every city. Privately organized, it has for its purpose the daily investigation of the city's official departments with a view to laying their conditions and their needs, both of favor and correction, before the people.

LEFT AT THE DOOR

## Nationalizing Railways

By a curious. hnt logical evolution the railway companies of the United States have come to favor railway nationalization. They are so loaded down with fixed charges, largely based upon watered securities, that they cannot finance improvements imperatively demanded or even keep their systems in condition. They are asking permission to increase their rates, but even a concession of this kind would be of little permanent

In offering to surrender their properties to the Federal Government, the railway companies anticipate that Uncle Sam will give them government bonds in exchange for their nineteen billion dollars of securities. But of the nineteen billion dollars represented by American railway securities, only ten billion dollars went into the properties. It is not therefore likely that the people of the United States will consent to take over the railways at anything like the face value of their stock and bond issues. However, the interstate commerce commission is making a physical valuation which should be completed by 1916.

## Co-Operation Will Help Farmers

Speaking the other day at the closing session of the Corn Exchange National Bank's corn show and agricultural conference at Philadelphia, Mr. Gifford Pinchot made a forceful and progressive plea for cooperation on the part of the American farmer in the distribution and sale of farm pro- body of men who perform the funcducts. He is well qualified to give advice on the matter of being recognized as a leading authority on agricultural economics and thoroly conversant with agriculture in the United States and in Europe. In his opinion the great waste of foodstuffs on this continent was due almost entirely to a defective system of distribution. That waste can only be eliminated and the high cost of living lowered thru organization on the part of both farmers and consumers. The reason, said Mr. Pinchot, why the farmer is getting about one-half of what the consumer pays is because he is not organized, and the farmer will remain at the mercy of whoever chooses to use him until he unites with other farmers in his community in a plan of cooperation for the proper marketing and delivery of his products.

## Direct Nomination Is Bound to Come

The first effect of the forthcoming redistribution of parliamentary seats will be the correction of glaring inequalities which now exist. It is little short of a scandal when 9,000 in Soulanges have the same political power as 130,000 in Winnipeg, or 170,000 in Maisonneuve. Even though we permit the cities to be to some extent under-represented the balance everywhere must be more evenly adjusted in remaking the map. As time goes on the parliamentary ridings in Eastern Canada will cover more territory, and unless the house of commons is to become unwieldy we will soon have to agree upon some unit of representation which will even more greatly reduce the number of members from the eastern provinces.

It must, therefore, happen that candidates for parliament will come to be nominated, not informally by neighbors and personal friends, but by thousands of voters scattered over a large district. To permit the people to really choose their representatives in parliament, some different plan must be devised from the one which now generally obtains thruout the Dominion. When we come to have rural ridings in Ontario, consisting not of a few townships, or even of an entire county, but of several counties joined together, the demand will become more and more insistent for a method of nomination which will give every Conservative or Liberal voter, as the case may be, a voice in deciding who shall be his party's nominee.

Nearly everyone will agree on the prin-

ciple that every member of the party should have a say in selecting the party nominee. At present no method seems to have been devised to carry that principle into effect except the primary or direct nomination system. In many districts, so strong is party allegiance, the nomination of devised the primary or direct into effect election. In still other ridings, where the vote is close, the personal popularity of either candidate may turn the scale. Yet we know that the sitting member is often placed in nomination for re-election when nearly everyone in the riding, except himself, is convinced that his nomination means a party defeat, which could be avoided by the selection of some other candidate. A primary election, in which every voter

belonging to the party could take part, would do away with this sort of thing. It would also open the way for every ambitious party man to enter public life, if his services were really desired by the people of his constituency. To permit or require each political party to select its candidate in this direct manner would in no way conflict with our present political institutions. It would, indeed, give them a spring and vitality which they do not now possess. We have already quite departed from the British method, insomuch as the candidate is almost invariably a resident of the district. It would, therefore, be out of the question to have candidates nominated by any central organization at Ottawa. Each party in every district must select its candidate for that district, and generally speaking, from among the party men of that district. Can any reason be stated why the Conservative and Liberal voters alike should not themselves directly nominate instead of leaving the matter to the executive or a convention?

## CRUSTS AND CRUMBS By Albert Ernest Stafford

I made up my mind many years ago pulpits. So. I think that the priestthat there was more truth in Tennyson's lines: "God fulfils Himself in function and established itself in the many ways, lest one good custom press, and the scribes of today get the should corrupt the world"—than in al- experience therein which thousands most any other suggestion of the of years ago they might have had in method of life made by poetry, phil2 the temples of Egypt or elsewhere.

the old dominations, the old guides are to be recognized by the work who has studied the records of the ancient temples, say, of Egypt, and considered the place the priesthood of those days occupied in the life of the people, will readily understand that the priesthood of the present day fulfils an entirely different, because more confined and limited, function. The old priesthood cherished the science, the philosophy, the hygiene, the politics, the literature, the amusement, of the people. Everything that had to do with the thinking of the nation came within their scope They encouraged thought; they spread knowledge; they conserved learning; they stimulated the arts; they were identified with the culture of the people. What priesthood does all this topriesthoods of today are antagonistic o these things. They are narrowed down to certain phases of thought which are separated from all the other phases, and detached from the practical life of the time.

real priesthood of today, that is, the right or wrong. For, after all, people tions formerly exercised for the nat for themselves gained the experience as individuals which a career of that kind yielded, to what body of men today should we turn, exercising simlar functions, gaining the invaluable opportunities of knowing life for themselves in such intimate relations with the lives of others. There is but one body of men which furnishes the parallel. They dominate the thought of the world today. They organize and operate its political activity. They preach the sermons that are read every morning at breakfast. They mould opinion. They disseminate information. They popularize science, philosophy, religion. They set the fashion in amusements. They dictate the methods of charity, and censor both its ministers and its recipients They make reputations and destroy pretensions. In their best types, they rival the sages and prophets in their influence. In their decadence they are est types of the corrupt priesthoods of the past. They do not generally realize their own power, and they have little consciousness of responsibility, and, with scarcely an exception, they have absolutely no knowledge that they constitute the priesthood of to the ordinary, everyday life of the people. The extraordinary influence of obscure and anonymous journalists is one of the very striking things of our what it might be, if some of the men who are scarcely ever heard of, rovealed their confidences. But they secrets die with them. in priest-like secrecy, The papers are constantly abused for the stories they tell, People should know the pages of the Judgment Book, of which journalists do not infringe copyright.

# LITERATURE, SCIENCE, EDUCATION

EW PERSONS are qualified to write authentically of the Eskimo, but I regard Vilhjalmur Stefansson as one of the few. It is not merely because he is a skill-ed scientific ethnologist but rather because of his method of study. When he writes "My Life With the Eskimo" he means to the full what the preposition "with" implies. deed, he might have written it "My Life As An Eskimo." for he literally became an Eskimo during his expedition among these people—he adopted their habits of eating, dressing, and living so that they regarded him as one of themselves. He tells us that the Eskimos east of the Mackenzie River believed him to be a member of one of the tribes who

dwelt about the Mackenzie. This mode of ilfe would naturally, bring the best results in studying the Eskimo, for he would not be inclined either to pose or to surround himself with reserve as he might if he felt that he were the subject of The book is a record of the ex-

were threats of shooting, but they eventually moved to the woods and stayed there all winter. "In the spring they came back, and." Stef-ansson says. "their daughter was, apaprently, cured and when I saw her she looked as well as any woman

GAIN, the Eskimos at the A mouth of the Mackenzie have mouth of the Mackenzie have suffered severely because of their attempt to imitate white men's ways by building frame houses. They cannot begin to keep these dwellings as comfortable, even with great labor, as they do their own snowhouses. In which a couple of seal-oil lamps make all the heat necessary, while there is always a steady supply of fresh air. Civilization does not always produce the best results by substituting new habits or customs for old, and this seems to be especially the case among the Eskimo.

Mr. Stefansson explains in some detail the attitude of the Eskimo to-wards religion "In general the Es-

during which Stefansson visited Eskimo villages from the northern coast of Alaska as far east as Vic-toria Land and south to Great Bear Lake, in the winter of 1910-11.

D EMEMBERING the somewhat acrimonious discussion which arose in the press upon Stefensson's return from this expedition because of his supposed condemna-tion of civilization and missionar-les. I was interested in finding just what his attitude really was as set down after careful reflection in cold print And much of what he says seems to be quite logical and reasonable Tuberculosis, we know, ravages severely the civilized Indian. We do not for a moment stop to think that the Indian was really healthier when living in his ram-shackle "teepee" than when housed in a dwelling which his civilization made him feel necessary. Yet Stef-ansson proves clearly that for the Indians of the Mackenzie Valley the old-fashioned lodge, which stood in one place only two or three weeks at a time was far more sanitary than the log cabin or house which he avers "soon becomes filthy (among the Indians), and remains so." To quote a further concrete argument: Mr. Marsh (the missionary), saw these conditions and attempted to remedy them, but the Indians had ome so used to the warmth of the house that they refused to go back to their old tenting habits. family, in particular, had a daughter grown to womanhood who, in the spring showed symptoms of tuber-culosis. In the fall, when they wanted to move back from their summer camp into their filthy cabin, Mr. Marsh gave the father a lecture on the unsanitariness of the house and n the necessity of living in a tent that winter if they wanted to save, their daughter's life. But the arguments did not appeal to the Indian.
He could not see the germs that the
missionary talked about, and did not
believe the cabin had anything to do with it Mr. Marsh was apparently a very husky as well as an enlightened sort of missionary, for one lay he came along and threw the Indian with his family and belongings outdoors and nailed up the doors and windows, told them that he

wille again until spring. There

kimo's own religion consists mainly in a series of 'prohibitions or ta-boos.'" With him religion is princi-pally a doctrine of "thou shalt not," and the misfortunes that come are the result of the breaking of these When they adopt Christianity then they acquire a new set of taboos which they use along with the old ones. Dr. Marsh, the missionary in the Mackenzie delta district at the time of Stefansson's visit there was a somewhat broadminded missionary, but he proved too much so for his Eskimo congregation, so that complaints from them finally led to his recall.

Sunday observance is a very trong point with the Eskimo. Dr. Marsh got into disgrace with his congregation over Sunday and the whaling season. The whaling season at Point Barrow lasts but six weeks. Whales are almost a matter of life and death in the economy of the Eskimo. They have to go to the edge of the ice-floe with their boats and await the coming of the whales. They may be encamped for a week without seeing any, and then scores of whales may pass in one day—often that day may be Sunday. But the Eskimos would commence Saturday afternoon to pull up their boats on the ice; it took till Monday noon to get back to position again. Thus, they lost two days in seven from a harvest season of only six

weeks in the year. Dr Marsh pointed out that they were losing the chance of getting whales, and that they might lose their boats and whaling gear if a storm came up while they were ashore. "But can't you see to it," they asked him. "that the whales do not come on Sunday, and that a northeaster does not blow too hard when we are away from our boats? God controls the wind and the movements of the whales; can't you ask Him to have the whales come on week days only, and cas't you ask Him to keep our boats and gear

. . . THE finding of the "blonde Eskimo" was to Stefansson the most memorable thing of the expedition. In fact, he writes as if were the most interesting discovery of his whole life. The strange thing about it is that while the Eskimo race are short of stature, and bear such a resemblance to the

northern Asiatic races that it is generally conceded that they must have come from Asia, these blond Eskimos are tall, bearded, and resemble Europeans having particularly the characteristics of the Scandinavians. Stefansson's theory is that the colony of Scandinavians which was founded in Greenland in 985, and which had entirely disappeared from there about the close of the fifteenth century explains the "blond Eskimo" of Victoria Land. History records the destruction of some of these Greenland settlements by the Eskimo, but there was a long gap in which there was no communication between Greenland and Europe and it is thought that some of these colonists may have during that time migrated further west-ward.

His discovery led to researches among the records of other explorers, and it was found that Nicholas Tunes, captain of a fishing vessel who in 1856, sailed up into Davis Strait to 72 degrees north latitude, saw two different sorts of people. One kind he described as very tall well built of rather fair complexion, swift of foot; the other was much smaller, with clive complexion, and short, thick legs. Sir John Franklin records meeting in 1824 an Eskimo who had much the apeparance of a European. Desse and Simpson also record meeting a party of Eskimo in 1837, one of whom "looked much like a Scandinavian."

THE running narrative of the author's journeyings combines with it much information as to the manner habits customs, religion language, of the Eskimo. The book is profusely illustrated from the author's original photographs, so that taken in all, this is the most the Eskimo that has been published. Appended to the narrative is Dr. Anderson's report on the natural history collections of the expedition, including notes on minerals, plants, trees, and animal life. One is surprised to notice the large number of birds which are to be found so far north. Maps of the Arctic coast show the course of the expedition. A careful index completes this large, handsome and interesting volume (Published by the Macmillan Co., Toronto)

Timid Man of Antiquity Visits Modern Babel.

By S. RUPERT BROADFOOT

Men of Babel, come to Toronto!
Hear the traffic shriek and roar.
Let your ears, long used to riot,
Hear some noise unknown of yore.

You, who with fantastic vision Thought to build to reach the sky. See our latest office building, Towering sixteen storeys high!

History shows on pages olden Swinging cycles of events— Here's at last your tower of Babei. Leased at truly modern rents. Here's a crowd of every nation,

Quotas from each land and clime-still the noise, but less confusion. See the long result of time! You must feel at home on Yonge street

Where it intersects with King; Here again the hordes are striving And the busy hammers ring. Buy some accident insurance Timid man of ancient days, Let us watch the tall policeman Speed the Pilgrims on their ways.

We admit the Big Street's narrow Planned by men who never knew Visions of a great Toronto. "Laws! How Muddy York has grew."

Intermitting clank and clatter, Fleming's chariots pass and cross. You who braved a hundred battles

Rattle on from early dawn Halting far from rattling taxis.

Back to whence you came, old stranger, Times have changed a bit and so Leave us with our Modern Babel, Business presses. Watch us grow!

Motorcycles, trucks and wagons
Dodge when clangs the black patrol:
Mid the rush the dazed old timer Shrinks within his timid soul.

Telephone From Holland to England. SUBMARINE telephone be laid between Holland and England. The cable will be 105 miles in length and the total expense is estimated at more than \$3,000,000, which will be borne conjointly by the two countries. On the Holland side the starting point will probably be Westkapelle on the is-land of Walcheren. The English terminal has not yet been decided

## 11.-- Spencer's Faerie Queene

His

S PENSER'S great poem was were much rarer than now, when the world had more to read them, else he would not have planned a giganthe poem of twenty-four books. He completed but six of the proposed books, and indeed, altho these are much admired from a literary point. of view, it is doubtful if many persons have really read them all. Nevertheless, it is well worth the while of readers of poetry to make the acquaintance of at least one of the books, and to get an idea of the general plan of the rest of the poem. general plan of the rest, of the poem. In a letter to Sir Walter Raleigh, with which the author prefaced his poem, he outlined his purpose at some length. The main points we quote: "This booke of mine, which I have intituled "The Faery Queene, being a continued allegory or dark conceit... the general end of all the booke is to fashion a gentleman or noble person in virtuous and gentle discipline." Each of the "books" into which the whole poem is divided recounts the adventure and triumph of a knight who represented a moral general plan of the rest of the poem. In a letter to Sir Walter

counts the adventure and triumph of a knight who represented a moral virtue. The six books which were completed celebrate the triumphs of holiness, temperance, chastity, friendship, justice, and courtesy. From the introductory letter already mentioned we get the information that the Faery Queene holds a 12-days festival. On each day some distressed person appears unexpectenchantresses, or the like, and asks for a champion to right the wrong and deliver the oppressed. THE first day came a lady attended by a dwarf and complained that her father and

mother, a king and queen, had for many years been shut up in a brazen castle and kept there by a huge dragon. The Red Cross Knight volunteers to release the imprisoned ones. So Book I, begins with a deones. So Book I, begins with a description of the knight, follows with that of the lady, and continues with the story of their adventures. To give a brief outline: The Red Cross Knight and Una. with her dwarf, caught by a storm, are forced to seek shelter in a wood, which turns out to be the wood of Error. Here the knight encounters Error, half serpent, half monster, in her den. He attacks and slays the monster. After this they encounter an aged attacks and slays the monster. After this they encounter an aged sire, who turns out to be the enchanter, Archimago. They do not know this, and they go home with him. By witchcraft he makes the knight believe Una is unfaithful to him. The knight flees away under darkness, accompanied by the dwarf, and encounters the false Duessa calling herself Fidessa. The Duessa, calling herself Fidessa. The Red Cross Knight slays Duessa's companion, Paynim Sansfoy, Dues-sa wins the knight by her wiles; in the meantime Una is seeking him. There are numerous adventures, thru which the knight comes victorious, and finally, like the "happy ending" of a modern novel, the old dragon is overthrown, and the knight and Una are betrothed.

The melody and picturesqueness of Spenser's style is very well shown in the opening stanza which will afford also an example of the poetro. of the poet's own invention — the Spenserian stanza. This stanza consists, as you may observe, of nine lines—rather an unusual number—eight of the lines have five feet and the ninth has six, the extra foot giving a peculiar closing swing to the whole stanza. There are three rhymes to each, stanza, arranged, numbering by lines, 1, 2, 1, 2, 2, 3, 3, 3. We retain the Spenserian spelling (if the typographer lets us) to show that the English of Spenme was not quite modernized altho, to tell the truth, Spenser made it purposely a little quaint-er than it really was, just as our present day poets use words which

French seamstress. Considerable of the same simplicity and charm will be found in "Rue and Roses," by Angela Langer. Anna, the heroine, is intensely Teutonic she is an Austrian girl of poor family, who begins her way in life as general

Wi erein old dints of deepe woundes did . The crue! markes of many a bloody fielde; Yet armes till that time did he never angry steeds did chide his foming As much disdagning to the curbe to yield; Full jolly knight he seemd, and faire did sitt. did sitt,
As one for knightly glusts (jousts) and
flerce encounters fitt.

The allegorical plan of Book I requires the Red Cross Knight to be considered as representing holiness, and the Lady Una representing religion. Their contests are symbolical of the world-wide struggle between virtue and faith on the one hand, and sin and heresy on the other. Overlaying this is the idea that the Faery Queene represents the glory of God, and is also symbolic of Queen Elizabeth. Spenser's letter asserts. "In that Them." bolic of Queen Elizabeth. Spenser's letter asserts: "In that Faery Queene I mean gory in my generall intention, but in my particular I conceive the most excellent and glorious person of our soveraine the Queene." So, too it seems that the glorious person of our soveraine the Queene." So, too, it seems that the Red Cross Knight stood for Sir Philip Sidney, the model Englishman. With less justice Arthur stood for the Earl of Leicester. Una is sometimes religion and sometimes the Protestant church; while Duessa represents Mary, Queen of Scots, or general Catholicism.

belong to past centuries, just to give an antique decorative touch.

A Gentle Knight was pricking on the

plaine, Ycladd in mightie armes and silver

. . . HE following passage shows skill in harmonizing material with the form and thought.

soft,

A trickling streame from high rock tumbling downe,
And ever-drizing rains upon the loft,
Mixt with a murmuring winds, much like the sowne
Of swarming bees, did cast him in a swowne.

No other noyse, nor peoples troublous towne,
Might there be heard; but careless
Quiet lyes,
Wrapt in eternal silence faire from

wrapt in eternal allence fairs from chimyes.

Spenser's life was one of dependence, and, to some extent, forced exile on account of that dependence. Poor the he was, he obtained a good education, and at Cambridge received wide classical traiting and acquaintance with the Italian poets, who expenses influence did much to give to English poetry of the time its variety and grace of form. He came variety and grace of form. He came under the wing of the Earl of Leicester, and later was granted an estate in Ireland. It was at Kilcolman Castle, his Irish home that he wrote "The Faery Queene." There, too, he married a beautiful Irish girl named Elizabeth, and celebrated his marriage with his "Bpithalmion" a wedding hymn of unusual beauty. A rebellion broke out under Tyrone, and Spenser's home was among the first te be destroyed. He and his family barely escaped with their lives. His closing days in London were spent in obscurity, if not in were spent in obscurity, if not in great poverty. He died in an imp at Westminster in 1599.

Face Indicates Voice. THE FACE is so much more than the index to the soul that it tells to those that it tells to those who have eyes to see even what the acquired physical accomplishments of the owner may be. One of the former tenors of the Boston Opera Company, Mr. Umberto Sorrentine, asserts that he can tell by looking at the face whether the possessor has a singing voice or not, and further what kind of a voice it is, high or low. S OME time ago the reading world was charmed by the simple record of the life of a

servant in a family which was almost as poor as her own-too poor to pay but a small portion of the small wages agreed upon. Her career in life rises no higher than the station of nursery maid or governess, and she endures the usual fate of governesses, being either bulled by mistresses or made love to (much against her desires) by masters. But her intellectual capacities are higher than that of an ordinary nursery maid. She analyzes closely her states of consciousness; she writes poetry; she sciousness; she writes poetry; she studies English, and in time, makes studies English, and in time, makes her way to London. She loves, and, in a way, her love is returned; but the love is never consummated — a peculiar situation makes the purity of the reciprocal passion the reason why Anna remains. "like the daughter of Jepthah, a predestined virgin, who does not like her Hebrew prototype, bewail her maidenhood among the mountains, but accepts it with grave resignation as her lot in life." (Bell & Cockburn, publishers.)

MERICA AS I SAW IT," by
Mrs. Alec. Tweedle. (Macmillan Co., publishers) is a
good-humored book; that is to say,
it was written in good humor, and
it will put the reader immediately
into one, In this latter respect it
is quite different from the many
volumes that have been produced by
visitors to this country. Like
others who have written of the
United States and its people, Mrs.
Tweedle finds many things to critloize, but also much to praise. MERICA AS I SAW IT," by icize, but also much to praise and paradoxical as it may seem, that which in her eyes is most com-mendatory is not that in which we ourselves take pride, and vice

4 2 2

There is hardly a spot in the broad land, from New York to California, from north to south, hardly a person of importance in United States public life, that does not come under the author's penetrating analysis. United States dinners, clubs, educational systems, transportation facilities, our home life, theatres, books, art, all are dissected, and upon them Tweedie verdicts are passed. Of course, the work is to be taken seriously, but not too seriously. Mrs. Tweedie would be analysis. United States dinners. seriously. Mrs. Tweedie would be offended if we did not laugh at her cajolery; that is what she wrote for.
In splendid keeping with the sprightly notes are the cartoons, of which there are nearly 30. There are also about 15 other pictures.

OHN GALSWORTHY, the English novelist, is a skilled but ruthless dissector of the inmost motives of human beings in their relations as sex with sex. And, whether you care or not for the exhibiton given in his psychological laboratory, you cannot help being charmed by the deftness and ease with which be uses his instruments baring the veins and arteries of the mind, as it were, until you can see thru their walls the pulsating blood currents and the processes by which they renew life-laying naked the quivering nerve so that you can trace the messages as they race back and Warth along the threadbrain to the effective muscle. In "The Dark Flower" he exhibits this skill in presenting three crucial ensodes in the emotional life of the hero—Spring is the idyll of youth when the dark flower of passion is brought to bloom by the influence of a woman old enough to be his mother; summer is the passage of young manhood; autumn is the time when youth calls again, but the discretion of age brings a spirit of responsibility and sacrifice. And yet, as I stand and admire the wonderful dexterity of the surgeon. I feel inclined to ask: "Was the operation necessary?" and if so, "What good have you achieved by it?" (Copp, Clark Co., publishers.) like pasageways from the governing

VIRNA SHEARD'S name as a writer of verse is pretty well known to readers of Canadian, British, and United States magazines. The present collection "The Miracle and Other Poems," (J. M. Dent & Co.) is, therefore likely to receive more than passing attention. The themes are varied including many phases of Canadian natural scenery and seasons. There are also poems dealing with religious topics—the title-poem. "The Miracle," is a particularly fine presentation of the story of Bartimeus, the stored by Jesus:

Up from the templed city of the Jews The road ran straight and white To Jericho, the city of the palma. The city of delight.

Then spoke the voice again. Oh, mys-tic words

Of a compelling grace: The curtain rose from off his darkened He saw the King's own face. What the the clamoring crowd echaed His name.
Unto its utmost rim;
He only saw the Christ and in the

# What Shall I Read?

Good Old Books

Christmas Carol, by Charles Dickens. The most famous Christmas story in English literature. If you haven't read

Alfred the Great, by Jacob Abbott. The biography of an early English king, whose achievements mark them as a From the Earth to the Moon, by Jules Verne. The scientific story of a very

imaginative expedition. Verne's fictions of a preceding generation have, in many cases, become realities of the present.

Guillver's Travels, by Dean Swift. A satire on the political and social conditions of the England of the eighteenth century, sugar-coated as a tale of fantastic adventure. tastic adventure.

Ride to Khiva, by Major Burnaby.
Daring travel in Central Asia, when to
travel was to risk one's life.

Golden Book of Coleridge, edited by
Stopford Brooke. A careful selection of
the best work of the famous post of
the superantural in literature. Best New Books

America As I Saw It, by Mrs. Aless Tweedies All phases of life in the neighboring republic seen from an intimate and good-natured viewpoint. The Book over's London, by A. St. John Adcock. A descriptive, critical anecdotal, gossipy chronicle of parts of old London, which have been made famous in literature.

Theodore Rooseveit, an autobiography. Striking passages in the life of a man whose personality is an outstanding one of the times.

Love and the Universe, by A. D. Watson. A volume of poems by a Canadian writer, whose innate musical sense produces verse of highly finished technique. Roughing it in the Bush, by Mrs. Susarns Moode. A record of ploneer life of early Ontario. New in the sense that it has been out of print for some time, and therefore, little known to readers receilly. Attractively illustrated.

Early Days in the Yukon, by William Ogilvie. As an eye-witness of the Klondike gold rush, the author gives a splendid picture of the early difficulties, and of the motley army of explorers.

## The Sanitary Awakening of India By Dr. Helen MacMurchy

THE WESTERN world, possibly with good reasons, is wont to feel a marked sanitary superiority to the east. Perhaps that may not always be so. In Quebec and Ontario no more important event ever happened in our sanitary history than the division of the whole province into sanitary areas, with a permanent district medical health officer at the head of each. This great step was taken by the government of Queebc, and the government of Ontario in the same year, 1911, and a moderate, but still fairly reasonable salary is guaranteed to each of these die is guaranteed to each of these district health officers, viz., (in tario) \$2,500 per annum, with ex-

We were not, in this, the most modern, and most enlightened of our sanitary plans, much ahead of the Government of India, which has now undertaken the very same policy, by appointing twelve deputy sanitary commissioners, three of whom are for Bengal, two for Mad-ras, two for the United Provinces, two for Behar and Orissa, one for Burmah, one for the Punjab and one for the North West Frontier Province. There are also to be appointed forthwith 143 municipal health officers, half of whose salary is to be paid by the Central Government of India, the remainder by the municipality. This is a plan which has been found to work well in England. not tried it yet in Canada. It seems a good plan.

. . . LEADING native of India, Mr. Sivasawmy Iyer, recently stated that the sanitary consciousness of the people of India themselves is being aroused. This is good news, and means far more

than armies for the public weal.

With the thoroness which characterizes British doings, the advisers of the Indian government have pointed out that the best chance for educating parents, present and future, is in the schools. House hygiene was placed on the school curriculum last February and it was at once recognized that this pesupposes the careful instruction of the teachers in all branches of domestic hygiene. This is now being arranged for and the St. John's Ambulance .Association, .thru its branches, will co-operate with the educational authorities. Nothing can be productive of more immediate good results than such sanitary instruction and organization. . . .

E VERYONE remembers the brilliant success of the Right Hon. Joseph Chamberlain's attempts to make the schoolchild a sanitary reformer, when, as secretary of state for the colonies in 1895, he suggested that in the Crown Colonies in Africa, the teachers should have special demonstrations on the wonderful discoveries of Manson, Ross and others about the mosquito carrying malaria parasites and transmitting them to man. These discoveries had then but just been made, and were by no means universally accepted in the medical and scientifice world. So it came to pass that the little native children in Africa knew more about the practical prophylaxis of malaria as they caught "wigglers" in bottles and studied them in schools, than did the unbelieving doctors who knew too much about malaria to be wifling to learn about it all over

It is to be hoped that similar excellent results will be secured by the present sanitary plans in India. Native children in India practically

all harbor malarial parasites and it would not be difficult to administer quinive in connection with the instruction of teachers and the system of medical inspection of schools that is evidently part of the sanitary plan for Instru

S EVEN'TY-FIVE per cent, of the population of India is engaged in the cultivation of the soil and the application of the principles of wal sanitation can well be made by district sanitary officers thru the teachers and All this, of course, has not just "happened." It is the fruit of long

experience, superior intelligence and keen interest in inverial and Indian welfare. Sir Parder sukis, director general of the Indian redical Service has been intimately identified with the provinces. with the progress of preventive medicine in India and has had no small share in plans for obtaining the co-operation of the people of India, as well as in initiating and stimulating sanitary inquiry, re-search and administration. The fact that a "Coronation Anti-Malarial Society" was founded at Jes-by Rai Jadunath Mazumdar Lanadur to work in the villages for the prevention of malaria by clearing jungles, securing "water tidi-ness," distributing quinine and as-sisting the propagation of bats and other natural enemies of the mosquito, is a sign of the times and of the new temper of the people of India. These things are also the fruit of the good work of the general malarial committee and the malarial conferences, at Simla in 1909, Bombay in 1911 and Madras in 1912. A fourth malarial conference meets in January, 1914, at Lucknew, The Indian Research Fund Association, another associated sanitary activity, maintains a central research

institute and medical bureau at Kassauli where there is a museum laboratory and reference library and where medical officers may go for special instruction.

ONE EXAMPLE may be given of the scientific ability and foresight of the directors of the research fund. Two years ago Major S. P. James of the Indian Medical Service was sent to those regions of Central America where yellow fever is endem.c. All kinds of mosquitoes are in India trained. of mosquitoes are in India, including the stegomyla, which is the only mosquito that carries yellow fever. With the Panama Canal open, and yellow fever in that part of the world, and the stegomyla flourishing in Indian ocean ports, what is there to prevent a valley force. there to prevent a yellow fever epidemic being carried thru the Panama Canal from Central America to our Indian fellow-subjects Verily, nothing. Nothing but the sikll, judgment and power of our first line of defence—the health officers. Fortunately the result of Major James' researches and enquiries has been reassuring. He finds that the precautions taken at Honolulu are so thoro and the climate from Honolulu to Hons Kong so unfavorable to mosquitoes that the danger is not so great as it was thought to be. Nevertheless the Indian government is "taking no chances." Specially trained sanitary officers are making a mosquito survey and census of the chief Indian ports with a view of exterminating the stegomyla when they are at it if such a thing is possible. Their reessentially a house mosquito, and so it all comes back to the place where nearly every sanitary ques-tion and every other question, too comes in the end and that is to the

singeth a weather-master of earlier We in Canada usually have right royal weather on our Christ-mas Day. At least we never have the fog and darkness of a London Christmas. It speaks well for the great feast that weather has little or nothing to do with it, for never have we known more Christmassy Christmas than those spent in the heart of the world. In the old days, Yuletide was the festival of snow and ice, the carnival of Jack Frost, but, owing to the world getting off its "axle," as the old Wiit-shire farmer put at, King Fog took London to his clammy breast. Who cares a snap-dragon for the weather as he listens to the Yule log crackle on the hearth, and sees the pudding come in in a blaze of brandy, with little horns of almond sticking out all over it? Outside in the dim world, Waits sing the Christmas carol:

"In Bethlehem, in Jewry.
This blessed Babe was born, And laid within a manger Upon this pleased morn; The which His Mother Mary Nothing did take in scorn." but within all is warmth and gladness, and the joy of having given to some poor and lonely bro-ther in honor of the lonely birth in

A Christmas Book TO BEGIN with, it ought to be in every boy's stocking tho it is not about Christmas at all but because it is essentially a boy's book, and a Canadian boy's book above all. The name of it is "In the Wake of the Eighteen-Twelvers," by C. H. J. Snider (Bell & Cockburn, Toronto), and it is a story book about "all that occurred the last war on the great

We have read with always increasing delight little newspaper sketches by the author of this book delightful reading, easy, humorous and quaint, so it was with keen pleasure we halled the arrival of a "real book" from Mr. Snider's pen. The illustrations-many of them the artist-author, are worthy of the story. In fact, it is many a day since we had such a Canadian book from a Canadian

The story deals with the war of

1812-13. It begins with a vision of the Eighteen-Twelvers, seen in mirage on Lake Ontario by one who was gifted at birth with the second of the poet, and the imagination of the dreamer. A stately pro-cession of brig and schooner flying Yankee flag, and blood-red jack, fading in the mist; illusion ships every one, fighting again in dreams and sinking with the death cries of the perishing beings ring-ing across the lonley waters of the great lake. In vivid racy language the author tells the splendid story of the Burlington races, when Yeo, with his little DR. MARIA MONTESSORI, ORIGINATOR OF WORLD-FAMOUS METHOD of schooners leaped the bar, grazng thru the cut leaving Chaucey Specially-posed photograph of Dr. Montessori the originator of the wondering how they got there, as he "thrashed back to Niagworld-famous method of teaching kindergarten children, made at the Holland House, N.Y., where the famous educator is stopping. She will ara from the perils of the lee Niagara Sweepstakes, when nineeen ships played hide-and-seek upon an inland sea; that of "How Took Oswego," and the story of the ship which ended the war without firing a shot.

Mr. Snider tells these stories

with minuteness, yet with a dash that carries the interest of the reader to the very last word. To quote at length is impossible; to a tate would rob quotations of al value. He has collected many little anecdotes and opisodes, which have a real value in helping us to form a ue estimate of those far-off days during adventures and splendid failures. The golden thread of humor runs thru all the tales, nor are they without many a touch of true pathos. The illustrations are quaint and fitting, and the whole work savors of the poet and the artist. We find ourselves thinking of Conrad and Jacobs, as we close the covers. It is a book that should find a place in every Canadian schoolhouse, on every boy's bookshelf, and, as we said before, in every boy's Christmas stocking.

2 2 2 "A Little Child, Said Ye?" Christmas cards were going out of fashion if you could see the stacks of them that are beng sent forth from the big wholesale London houses to every part of the world. Every ship from now on to the blessed week caries a ton or so of Christmas wishes to exiles beyond the seas from those who remain at home. I remember how the thought of all

was swinging solemnly thru the night, and the snow was slanting on the heavy waters in a troubled blinding mist. The driving ship wallowed slowly hither and thither, the captain stood anxious and watchful upon his little bridge. Then, with a bellow, the wind rose, and the sea roared in mighty chorus. The cross-drifts eddied and whirled, and the foam lashed in volleys thru the air. Down below in the warmth and light, a woman was crooning to a little sick child of how it was the feast of Christmas, the won-drous night, when the Greatest among all children opened His eyes in the bleak shelter of a stable, All the night the vessel pitched, and rolled, and flung from one gray wave to the other. Christmas night upon the lonely sea, with the sick child drifting out upon those dark-er and unknown waters which we call Death-and presently, in all the churches upon land, the Christmas bells would ring in the birth chimes of the Christ-child, and happy mothers would gather close in theh arms the little human creatures who need so much love and care. while at sea, upon a wild, gray, desolate day, there is a small soul passing, and a tiny body drifting down to the floor of the great ocean. Not every Christmas is merry.

Christmas Everywhere.

UT INTO the most wretched slums of the ed slums of the great cities — of London, or Glasgow or Dublin, Christmas finds his way. There everybody is willing to share with a poorer neighbor. There are charitable institutions looking after the destitute, and the children of the very poor. Even Mr. Bumble, the parish beadle, has his Christmas togo on. Every relief department is crowded. Some parishes deal out double rations for Christmas day. There are decorations even in the work-house, and a smell of very weak plum-pudding, fortified by a strong odor of boiled cabbage. In country houses oldladies are giving out the Christmas doles—a packet of tea and sugar, and a roll of fiannel for each old woman. Thousands of dolls are sent to the hospitals for sick where the doctors dressed up as black soldiers with flerce mus-tachois and flercer noses, or as weird animals, make a grand pro-cession thru the wards, distributing gifts and sweeties to the small, sick souls, the king of them all—Old Santa (in the Toronto hospital, kindly John Ross Robertson himself), walking in their midst, and bending over the little cots with a word of cheer and gladness. Milllons of crackers go on drays thru the streets carefully covered up lest we should see them, and go mad with longing; tons of sweets. Everywhere there is giving and giving-of goods, of food, of pleasure, of delight. The whole earth thrills with the beautiful, unselfish feast. The old gospel of good-will is singing thru the world. For Christmas is at hand, the time of fairyland for the children, of promise and fulfilment for the young, of memories tender and exquisite for the old. and of sadness not to be assuaged by tears-for the many.

#### SOME NEW SACHETS FOR CHRISTMAS GIFTS

On every woman's Christmas Hist there are the names of many persons who have to be "just remembered" with some trifle, and to meet this perplexity, there is nothing more satisfactory than the sachet. Prettlest among the newest sachets is the butterfly, havink wired-out wings of brilliantly shaded silk and a rather corpulent body to hold the perfumescented cotton batting. Of course, if time isn't an object (there's never enough of it round about Christmas) the silken wings may be hand-enbroidered, but practically the same effects may be obtained by using Oriental ribbons or the bits of brocade which are so expensive to buy by the yard, but which the fashionable dressmaker's porter sweeps out along with the rest of the workroom trash. Your dressmaker will glad-ly give you enough scraps of emroidered chiffon, flowered net plain malines to make the gauzy wings of scores of butterfly sachets, I and handkerchief boxes lovely to stick upon pin cushions and upon window draperies.

The good-will that somebody had less and passed along.

# Amateur Nursing

STRANGER in a strange land, is not more lonely the not more lonely than an invalid, after the novelty of the situation has worn off. The family has settled back into its usual rut, the trained nurse has gone, perhaps because the expense was too heavy for the head of the house, or perhaps be-

the patient "just as well."

No one member has been assigned any particular task in the sick room, consequently everything is done by fits and starts, to the detriment of the invalid, whose nerves are naturally on

Quick recovery is very often delayed by lack of management in this matter. In some instances it is not economy to dispense with a nurse so soon or the competent person, engaged specially to attend to the patient's wants. In a household, where there are sev-

eral grown-ups, occupied in outside work during the day, or perhaps a child er two, making a noise about the house, the invalid is liable to be neg-

At the very first sign of illness that is liable to be of any duration, a room should be specially prepared for the

Where it is possible, the carpet should be removed from the floor, and the latter scrubbed, all heavy hangings, in the way of curtains, taken down, all "truck" and odds and ends removed from the wall, the paint wiped with ammonia and water and the windows cleaned if they need it.

The following pieces of furniture are sufficient for the sick room. One bureau or chest of drawers, a washstand, a small table, several chairs and a single iron bed, if possible, as the patient is much more easily handled in this than in a larger one.

S EE that the windows have shades so that the light may be tempered so as not to be annoying; there should be a screen of some light material to protect the invalid from draft. A light enameled bowl and pitcher are much more practical than the heavy china ware, and easier scalded and kept in

The room should be on the sunny side of the house, and boast at least

The little table should be within reach of the invalid.

two windows. All clothing that does does not belong to the inmate should be removed from the closet and bureau drawers and all useless articles from the washstand, so that the patient may be undisturbed by the aimless trailing in and out of the various members of the family in search of "misplaced articles." The patient should feel that the room belongs strictly to her, and that her sickness has not made her a stumbling block in the household routine. Sufficient linen should be laid aside for her especial use, so that both bed and patient may be always neat. A large piece of oilcloth, over which has been laid a strip of old flannel, should be placed beneath the bottom sheet, to protect the mattress. The under sheet should be stretched very taut, as any wrinkles annoy the invalid. The blankets should be warm and light, an extra one for the evening, when the patient's temperature is lower. This may be spread over the foot of the bed, so that the weight of it comes across the baseboard. The pillows should not be too full of feathers, as nothing is more uncomfortable than a hard headrest. There should always be a small atra one to tuck in wherever needed.

NEVER allow any soiled linen to remain in the room. A supply of old soft linen should be always on hand to be used in an emergency. All blankets should be bound across the top. by a wide strip of white thin cloth, basted loosely to the wool. When soild, this may be removed, washed and placed.

The bed should be placed on the opposite side of the room from the windows, in order to avoid draft. The gas jet should have a shade to it, so that the patient's eyes may not be troubled with the glare, and yet be able to see "what is going on."

to the bed, so as to be within easy nurse or attendant goes off duty and reach of the invalid. There should be the day nurse comes on. It is the duty a nest white cover on it, a little vase of the day attendant to see that the

tumbler and small pitcher of cool water, should be changed when wearied of. These little things add so much to the comfort and enjoyment of anyone who is ill. Well folks scorcely realize what it is to lie day after day with nothing o occupy the mind. Reading at any length may be impossible, but tooking at pictures is always a diversion.

One of the luxuries in serving meals is the bed tray

sion may be placed on the stand to be "played with" in idle moments. All these things tend to keep one cheerful, and are harmless.

In order that the nerves may not be unduly jarred, small rugs may be placed where the traffic is heaviest. The bed should stand away from the wall, leaving both sides free of access. The screen, a light one easily moved. should be so placed as to shield the bed from any possible draft from the door. This latter should be open most of the time, unless the household is a isy one, as the patient feels less

bed tray. This costs comparatively little, and will pay for itself many times over. It does away with all effort on the part of the invalid to hold the tray steady "so's not to spill anything." And be served. It is just an extra large tray, with an edge to prevent the dishes from being shoved off, and stands on short legs that rest on the mattress on each side of the patient.

Anyone who has been ill knows how unhandy everything seems at meal times, where the average tray "will wobble and mess everything all up." No ordinary tray was ever large enough. and the dishes had to be set around most anywhere, and because of this difficulty in feeding oneself, half the pleasure of the meal is lost.

LI, dishes should be removed as A soon as the meal is over. One untidy dish will make a room seem cluttered, and odor of food after a meal is not agreeable.

Light curtains, of some washable material, may be used at the window in addition to the shades.

If the physician deems it necessary for the nurse or attendant to sleep in the room, a cot, or couch, may be placed at her disposal, but under no circumstances should she sleep on the same bed with her patient. This would be detrimental to both. If a regular night nurse is on duty.

the family should see to it that the gas is turned out and a night lamp used in its place; all graduate nurses know this rule, but some are not so considerate as others. It is difficult even for a well person to sleep when a light is burning.

Some light refreshments, with a cup of something hot, should be taken by anyone who is sitting up all night with a patient. It gives strength and helps to keep one from becoming drowsy. Those on duty during the day cannot be expected to take the night watch.

If the person seeing to the patient's comfort sleeps in an adjoining room, a beil should be placed on the invalid's table within reach.

Be very sure to consult the doctor as to the advisability of waking a patient to administer medicine at night, especially. In some cases sleep is the best medicine. In others, the regular dose must be given at certain stated times. All medicine bottles should be kept out of the sight of the patient, as they have a depressing tendency.

E 1GHT o'clock in the morning is the usual "getting up time" for the The little table should be close enough average patient. At this hour the night

invalld is properly bathed and groomed for the day. The general routine of work is smoothly carried out-if the attendants are trained nurses, but where those in charge

are friends or relatives, there are liable

First of all before offering your services, be very sure that you can stay the full time you promise, be it a half hour or a whole day. Nothing is more annoying to an invalid, or more disconcerting to the household in general, than to have a volunteer nurse "go back on her job." It makes the patient nervous, and turns the "system" topsy

I think the hardest hours to be gone through with for the invalid are those in which she gets settled for the day. With a careless family she is often left "floating" longer than is advisable for her welfare, to say nothing of her comfort!

N the hustle and bustle of rising, and breakfast, the family often forgets that "dear Mary" may need, and would appreciate, a little early attention. There is a saying that "When we are dead, we're a long time dead." And some families seem to think that when we're sick, we're a long time sick, and that they need not be in a

urry to wait on us. Everything is levely, so long as the povelty lasts, but as the weeks pass, the days commence to drag, and we shirk, or forget the little attentions that mean so much to the one who is

To avoid this deplorable condition of things, each member of the family should have certain tasks to perform. No set of rules can be laid down for this as all families differ. But it should be the duty of some one, to see that 'Mary' starts the day right. As soon as the patient awakes, the

should be aired and set to rights. This will not be difficult, if the preceding instructions as to furnishings have been followed. The bed must be aired and remade. This can be accomplished by wrapping the patient in a thick blanket, removing the top covers, shaking them well, and laying them over chairs by the open window. The same treatment should be given the pillows, one at a time, so as not to rob the patient of all visible means of support. See that the lower sheet is smooth. Then replace the upper sheet and blankets. Fill the basin with warm water, put a towel around the patient's neck, have soap, washcloth and towel handy. If the patient is able, she would much prefer washing her member that face and hands are flesh and blood, so don't go at them too This will require very gentle treatment, as the head is probably sensitive. If the hair has been braided the night before, the snarls will be few. Begin at the ends and work towards on it much more attractive meals may the roots. I wish that I could write that in capitals a foot high.

> After the hair has been combed, it might he tied with a cheerful ribbon. A little bit of primping never did any harm, and it gives an invalid a vast amount of satisfaction to know that she "looks nice."

I give advice as to the frequency of the bath for the body, affecting patients differently, as it does. After finishing the bair, whether a bath be given or not, the nightgown should be changed to a fresh one, and a light dressing sack put over it to

HE physician is the only one to

protect the shoulders and arms from The patient should brush her teeth

there are matters to discuss. be sure they are fought out

well, and if the tongue be heavily coated, a silver table knife may be scraped across it to remove the thick coating. If this be done, the taste of breakfast will be vastly improved. Carefully remove all evidence of the bath from the room and have everything in apple-pie-order before the breakfast is ordered.

Again the menu must depend upon the doctor's orders, but the family can do much to make it attractive. Hot things should be hot, and cold things cold. The dishes should be properly seasoned and arranged to please the eye. See that things are not burned, or undercooked, that the dishes and linen used are clean and white, and above all that

cellent plan to have the coffee, tea or cocoa served in an enamelled pot, where it can be placed on a small alcohol stove in the patient's room and thus be kept piping hot until required. Coffee has a bad habit of getting chilled. If off the stove very long, especially the second cup. Arrange the dishes on the bed tray, fix the patient comfortably with pillows, and "let her eat in peace." She'll call you if she needs anything. An valid does not like to be stared at and ted questions, at meal times, any more than a well person; be in the room if you like, but for goodness' sake don't sit and watch her.

After breakfast has been disposed of, if the patient is not nervous or excitable, letters and the morning paper may be read. A sick person enjoys having her own newspaper separate from the family. Nothing is more trying than having to wait until others are

Do not exclude the patient from all voice in the household, but be very sure that only the pleasant things come to her ears. Never under any circumstances argue with her about anything. She needs all her strength for her own use. If there are matters to discuss, be sure that they are fought out below stairs, out of reach of the patient's keen ears. Nothing tends to make one nervous, so much as a whis-

There are many "dont's" that the family could observe in connection, with the invalid, but the following should be strictly carried out.

1.-Don't cry in the room, ever. 2.-Don't every few minutes ask the patient how she feels.

3.—Don't let her know that her sickness is an added expense, perhaps 4.-Don't walk on tiptoe, if not nec-

5.—Be considerate, pleasantly off-hand, but, don't fuss. 6.—See that she gets little bits of in-

teresting news from the outside world 7.-Don't all crowd in the room at once, nor stand in the doorway with

8.—Debar depressing relatives, who "mean well" but are lacking in tact Use force if necessary.

9.—Avoid all friction from any source. Never under the most trying circum-

stances allow the patent to feel for one

moment that she is a hindrance. A FTER a tasty luncheon has been served, and the patient has had a short nap and has been tidied for the afternoon, pernaps it would be pleasant for her if a friend could "drop

For a little while after supper the family may drop in casually for a visit

in' to see her for a short while. To be beneficial these visits must, of necessity, be "short and sweet," but they help wonderfully to break the monotony of the day, even though the visit be cut to the size of the regulation hospital piece of toast!

It is much better to have an hour when your friends can come to see you than to have them dropping in unawares.

If the patient likes to be read to, select some bright, up-to-date short story. that does not require much effort to follow.

A friend of mine used to knit, by way of diversion. She was a young girl who had always been active. The needles were large and the wool coarse, and sometimes only a few stitches a day were accomplished. But it kept her happy. The work was easily held and not a labor, and filled in the time. Selfforgetfulness is one of the greatest helps towards regaining health.

FOR a little while after supper the family may drop in casually for a visit, but should not stay too long at any one time, as a lot of people, trying to be pleasant, generally end in being stiff and fussy.

Don't make the patient morbid by being too solicitous about her condition. . If you want to know, ask the doctor, but for goodness sake don't remind the patient every few minutes that she is on the sick list!

Before she goes to bed at night the room should be thoroughly aired and put in order, the hair combed and braided, the hands and face washed, the nightgown changed, the bed clothes aired and replaced, the pitcher refilled with coolnot ice-water, the extra blanket put in place, the gas turned low-not outthe shade so arranged as to exclude all light from the bed, and the room made quiet. If the invalid likes perfume, a little may be sprayed around the pillow wade agreemed fine body. This will attitude

induce sleep. Sleep should come on gradually, the patient never having that nervous feeling of being wholly in the dark and expected to "go to sleep." If there is a piano in the house, at some distance from the invalid's room, sometimes a little music will do much to quiet the nerves at the end of the day. Some pretty lullaby, some twilight song is all that is needed. Before you know it, Mary has drifted off to dreamland. The gas may then be turned out, the night lamp lit, the door left ajar.

It is very important that that first

It is very important that that first sleep should not be disturbed. So it is best for the night attendant to sit for a while in an adjoining room, where she can keep an eye on the patient from the doorway, avoiding the risk of disturbing her by walking about in the room.

As the rest of most patients is more or less broken at night, be very careful not to disturb her more than necessary, in order to carry out the doctor's instructions. A patient may undergo tortures because the night attendant wears squeaky shoes or rattles the spoon in the glass unnecessarily, or snores or wheezes while asleep on the watch. . . .

T IS essential that the patient have perfect confidence in the physician who is in attendance. If the usual family doctor does not

seem congenial, call in some one

when the doctor comes in the morning, always allow the patient a few minutes conversation alone with him, as it is very important that there should be perfect frankness between them, which is more or less withheld when others are present. If you wish to consult the doctor for any reason, do so out of sight and hearing of the patient. . . . .

may be ill, never let her see that the family is weary of being in attendance. They couldn't possibly be half so weary as she is. They can seek other society out of doors, but the poor invalid is cooped up against her will in the bosom of her family, a condition which sometimes leaves much to be desired.

desired.

Be sensible in your efforts to make the patient happy.

If you have a canary, bring it into the room for its morning bath, which is interesting, but do not leave it in the room too long, as the continual singing is sometimes nerve

Family pets should, as a rule, be excluded from the room, that is for a visit of any length. A small jar of goldfish will afford the sick one a great deal of pleasure, and does not require much care.

## DISCOVERY

By Charlotte B. Jordan

Things are not like they used to be When I was very small, And some things 'bout old Santa

There used to be just only one, Who came the night before And climed right down our chimney place And filled our stockings four.

But now—oh, my! I saw today Six standing round in town, And one was dressed in red and

And two in pink and brown! One wore a pointy white fur cap
And held a plate for money
Which said "To feed the Christmas

poor." He looked most gay and funny! And one who stood in my toy store Shook hands with me so kind, And hoped I'd find a Christmas tree Just suited to my mind!

And once I spied a real Saint Nick,
Who gave me quite a wink
And popped right down the chimney big
Before I'd time to think.

And at our Sunday school last night. The gifts from off the tree. Were passed by still another one, As jolly as could be.

And Christmas day is not here yet;
It's some days off, you know,
And yet the town is full of these
Kriss Kringles in the snow!

I 'most begin to think I think
That all folks—even I—
Could be a kind of Santa Claus
If I should only try. What fun it is to find it out!
What fun to try this year
To help Kriss Kringle pass arou
His stock of Christmas cheer!

I'm glad the world is full of us!
I'm glad to know that we
Big folks and little children, too,
Like Santa Claus can be!

## The Art of Handling Flowers

be at first supposed in the process of making up a bouquet. It is essentially an art of the maîtresse de maison who likes to receive and give bouquets, and to see her drawing-room adorned with a profusion of flowers. In short, it is a woman's art, be the woman a whose trade is to ply deft fingers in the making up of bouquets. There is a certain deftness and a certain taste in this matter which seems to belong especially to French fingers, as they most certainly do to feminine ones.

To set a man to make up a bouquet would, in a general way, be very like turning a bull into a clover field. As the bull would trample down the clover blossoms, so would man's fingers and thumb crush the beautiful blossoms without being able to the contraction. beautiful blossoms without being able to turn them into any account in the formation of a bouquet. Women easily become proficient in the art, without having learnt it; and speaking in a general way, the Paris fleuriste surpasses them all. A certain faculty here comes into

play, in which taste for combining and eye for color have place. Countless French women possess a distinct artistic sense, applicable in general to small things only.

Is this business of making up bouquets to be classed among the small things? Perhaps—as it roight also develop into a matter of considerable importance. For artistic

# A Yuletide Incident

By Carolyn Aronsohn. COMMERCIAL traveler, one of the first of her sex to go out on the road, passed thru the great doors of a department store, with no thought of her own work, but with the simple intention of finishing up her Christmas shopping. It was not an atmosphere of peace or good will in which she found herself. On the contrary, she was appalled by the rush and excitement and competitive struggle of the customers around the bargain counters. It was not, however, the dislike of merging herself in the nervous crowd of shoppers that deterred this girl from turning "up the aisle to the right," as she was directed in order to go to the glove counter. Her eyes were caught by brass bird cages, pendant from the ceiling of the store as holiday decorations. The canaries were shivering in the drafts made by the continual open-ing and shutting of the doors of the various entrances to the shop and she noticed a distinctly unpleasant

"It happened," said this girl, "that I was somewhat interested in birds, because on the list of articles sold by the drug firm for whom I was traveling, there was a certain bird food. In spare time, in reading up about the stuff which I had to sell, I had managed to learn a great deal. I had managed to learn a great deal I had managed to learn a great deal relating to the doctoring and caring for birds. For, tho the profits from this food were almost negligible to the firm, I loved pets and learned about them easily. So, when I saw how these poor creatures in the cages were suffering, I found my way to the manager of the store, and asked him if he knew in what conditions they were. I suggested that if he would permit me, I would personally clean out his cages and show him how they could be made

show him how they could be made babitable by the tiny occupants.

He was a kindly man, and the quite surprised at my suggestion, taking me for a philanthropic leave. taking me for a philanthropic lady of leisure, he gave me "carte

blanche" to do what I pleased. I at once set about a systematic cleaning, and with the help of the boy sent to my aid, constructed a small wooden screen for the protection of each cage against draft. Their bad condition was due to the fact that they had been hung exactly as they had been received from shipment.

One funny thing happened to interrupt my work. On the second day an officer of the Humaine Society came to me, saying his visit

clety came to me, saying his visit was due to a complaint he had got-ten about these very birds. But as long as he saw we were doing our best to remedy conditions, he would turn in a good report of us. I thanked him, and explained nothing. Nor did I mention the incident to the manager. When I had finished my self-ap-

pointed task, before leaving town, I reported its completion to the manager. He asked who I was. "A commercial traveler, passing thru," I told him laconically.
"Why didn't you tell me you came to sell?" he asked, amazed.
"Because," I retorted, "I didn't. I sell only to wholesale jobbers. It

sell only to wholesale jobbers. It was pity and love of the birds that prompted my offer to come to their relief, rather than your relief."

"Anyhow," he said, after further explanation, "I believe I can give you a large enough order for your bird food to interest you. Besides, I have a splendid idea. There must be thousands of people who, like myself, know nothing about the care of the birds, and would like to learn. Would you be willing to stop here on your. you be willing to stop here on your return route and stay in the store for a week, provided I advertised your presence as a consultant for the doctoring of birds and their care?"

I doubted if my firm would like the proposition, but to my surprise, they granted their permission. You can have no idea of the throngs who came in response to that advertise-ment. It seemed that no one had ever furnished these people, eager for information the they were, with

### A SAFE AND SANE **CHRISTMAS**

-BY HEBE-

T IS SUCH a temptation during the holidays season to throw discretion to the winds and eat all the good things which appear to tempt us. I have heard women boast that they do not care for candy, that they never touch pastry, that they have no fondness for this or that indigestible dainty, but it is usually proven that most people have a liking for some one particular article of diet and that this appetite is indulged except in unusual cases.

of diet and that this appetite is indulged except in unusual cases.

No one is willing to admit that a favorite tidbit is indigestible. It must be something else that has produced that blemish and causes distress after eating. There is always an epidemic of mottled complexions after the Christmas holidays and it is not surprising when one reads of the enormous amount of money spent upon candy in Canada.

Candy—pure candy—is not injurious in itself, but like everything else taken in excess it can do mischief to a gourmand. Its principal damage to the teeth is caused by its excessive presence in the stomach producing injurious acids in the mouth. As far as direct contact with the teeth is concerned sticky candy is excellent for loosening the fillings and hard candy can chip enamel. It has a way of finding sensitive places in the teeth whether there is an actual cavity or not. But on the whole, candy does not directly injure the teeth, provided that the mouth is washed out with a neutralizing fluid within an hour after the candy is eaten. The best mouth wash to overcome the after effects of sweets is a teaspoonful of baking soda (bi-carbonate of soda) dissolved in a pint of water. This should be bottled and used several times a day, a mouthful or se at a time, to rinse out the mouth.

T SEEMS such a pity that people so often feel justified in allowing the children free rein in the matter of sweets during the holidays, accepting the inevitable billious attack afterward with a philosophical "I told you so."

Of course, if a child is once allowed an overdose of sweets the same indulgence is looked for the next time and the next the remonstrance becoming weaker each time.

next time and the next the remonstrance becoming weaker each time, and the "sweet tooth" becoming more and more pronounced until at the age when looks begin to count, the complexion, teeth and stomach are seriously and perhaps permanently damaged.

I do not pretend to say the human taste for sugar is unnatural for there is no doubt but that we do require a certain amount of sugar in the system, but there are times and seasons.

The other day I came up in the car with a sallow-faced young mother and an equally unhealthy looking child, the latter barely two years old, and holding a grimy bag of chocolate drops in its hand. Mother and child munched away and, I have no doubt, that little or no substantial lunch was eaten after the couple reached home. Now, it was nearly time for the midday meal and the two had obviously been on a shopping expedition—probably, the mother had to take the baby because she had no one at home with whom to leave it. But can you imagine the effect of that rich sweet chocolate upon the tired empty stomach of that child?

THE great trouble with candy is that it is rarely eaten at the right time, and when it is eaten, it is in such quantities that it interferes with the next meal. Personally, after the Christmas fostivities. I have a plebian longing for plain mashed potatoes and beesteak, and since the latter is becoming such a luxury perhaps it will some day become as acceptable a gift on Christmas as a box of candy. Certain it is that an unlimited feast of goodies leaves one still hunsry because it is not one's usual fare and after a while a desire for substantials becomes manifest.

Meanwhile if you cannot curb your appetite for sweets? do not fail to practice more than your usual vigilance in the care of the teeth and skin. Clean the teeth carefully after each meal as well as at night and in the morning and run dental floss between the teeth once a day—preferably at night. Take a laxative daily.

Do not omit your daily better and Do not omit your daily baths and

complexion massage and make up your lost sleep as fast as possible. Keep the face clean in order that the pores may emit the surplus rich-ness as fast as possible and try to eliminate any prospective blemish by antiseptic. If the threatening spot does develop however do not fuss with it until it is quite ripe or an ugly mark will result.

Where there are young children do not have a display of forbidden

where there are young children do not have a display of forbidden fruit in evidence, or at least provide a special box of the plainer kinds and dole it out in homeopathic coses immediately after meals, but never just before.

The lassitude which is apt to follow the inverse transfer of the contract of the cost of the The lassitude which is apt to fol-low the joyous season is quite as much due to upset routine both in living and diet as it is to reaction. Even grown people do. I regret to say, get out of sorts after such ex-citement and it certainly is hard upon the school contingency, who must go back to a hard month of preparation for the Echanya. preparation for the February "exams." Does it pay to crowd every sort of excitement into ten days of two weeks and then end up with a bad headache and a fit of temper?

. . . It is too bad to preach at Christmas time, but it is so easy and so much more satisfactory in every way to have a sane Christmas. We talk about a sane Fourth but we have yet far to go before these two adjectives can be applied to the midwinter celebration.

pot-au-feu to French people, if

far from their own country,

would be most unkind, for they would

take this to mean the decline of the

whole world of ideas which makes up

the national life of France. The pot-

au-feu is not only a matter-of-fact

domestic reality, but a symbol of far-

reaching significance. It is the house.

hold god that traditionally presides over

the domestic virtues. Its graceless

rotundity cherishes, protects and stimu-

lates the respectability of the family.

But it must not be put on the kitchen

shelf as an ornament, because its most

devoted admirers cannot call this squat

earthenware vessel of dreadfully com-

monplace appearance aesthetic; it is

merely useful and faithful and to be

relied upon, if properly treated. It

cooks the food that is more endeared

to the French by tradition and as-

sociations than any other food, and this,

too, is called the pot-au-feu, but whe-

ther in honor of itself or the pot it

would be hard to say. The pot-au-feu

consists of a piece of beef boiled slow-

ly, with vegetables such as carrots,

turnips and parsnips, all nicely basanc-

ed; but there must be no potatoes, be-

cause the pot-au-feu is expected to pro-

duce a clear soup or bouillon. This is in

fact the bouillon worshiped by genera-

tions of French people. This liquor is

garnished with the over-boiled vege-

days. It seems a simple dish enough,

ever yet been quite successful at it.

What a world of contentment the pot-

Mu-feu has brought to an infinite num-

ber of middle and working-class families

in France! The highest in the land have

not despised the bouillon, although in

their case the beef has been left for

servants to contend with. It is, how-

ever, as the most characteristic of plats

bourgeois that it is so eminent. Its sub-

stantiality, combined with cheapness,

and the domestic qualities which its

concoction calls into play, have rendered

It symbolical of middle-class respect-

ability and a home-loving character in

woman. Hence it is that the phrase:

"Elle est tres pot-au-feu" comes so

readily to the lips of a woman who

wishes to speak, with a point of con-

cels in the ardor of her domestic at-

imptuous malice, of another who ex-

IMMIGRANT PENWIPERS served first by itself and then the beef. Immigrant penwipers are among the tables, is served. Saturday is the usual latest "desk" fads. All you need do is day chosen by the maitresse de maison to decide which type of immigrant you for the making of this bouillon, and prefer and then dress her-it is always enough of it is made to last two or three a "her" because she must of necessity have skirts. The German woman is but few people except the French have popular, because her skirts are very full and long and nearly always she wears an apron that makes a square patch on the front of her dress, and a shawl that makes a deep point far below her waist at the back. The Irish immigrant also, is strong on shawls, and so is the Scotch woman; but neither is prone to wear aprons, ornamental or otherwise, and that detracts somewhat from their picturesque appearance. The charm of the immigrant penwiper is that she doesn't need any legs. In fact, she mustn't be permitted to have any, but must be supported on a block of wood or on a big cork. The rest of her is a sawdust-filled body and a china head, the latter covered partly with a kerchief. She's easy to dress, the Immigrant Doll, and almost any man would rather have her to wipe his pens upon than the gorgeously arrayed Martha Washington, Marie Antoinette tachment. It does not mean at all that or Dolly Varden. How about using the woman so spoken of is shaped like her as a favor?

the three-quarters of a pound of but-

Mother came in the living-room Sunday night, announcing that we might have our fruit cake party on Tuesday. "You may each ask one friend, which will make six in all, quite enough for the dining room table."

Then we each thought of our best friend. We considered it quite an honor to be asked to this party. The little sister of eight asked her little friend, Marion, Bob his friend, Billy Wetson, and I invited Peggy James. With many a gay laugh, we donned the aprons mother had ready for us, and were told we might go into the

Here, the nuts were given to the boys to crack, and as soon as the almonds were shelled, they dropped them in the chafing dish of boiling water and the little girls, with many shrieks, spooned them out and rolled the skins off in a tea towel, leaving the nuts blanched and these they cut in half. In the meantime, Peggy and I were at our particular tasks.

"Why Sallie, dear, what am I to do with selssors and citron? Why, they don't both begin with a 'C,' though they sound as if they might."

"Oh, Peggy, I, with my temperamental spelling, might add the 'S' to citron or take the 'C' from seissors, but you, who know so much about the kitchen and cooking, you amaze me! Why cut the citron in long strips with this knife and then in small even pieces with the scissors?" I answered her and watched her carefully cutting the citron.

S HE EXCLAIMED a few minutes later, with scissors snipping the citron, "Well, this is really fine to do and not nearly the sticky job it used to be." Then turning to mother, "I do think, Mrs. Williams, you are the cleverest person! You are always thinking of the easiest ways to do the horrid jobs. Now to think of making a party of this tedious work of cake making!" 'Why Peggy dear,," Mrs. Williams answered, "I have always loved to do these things and thought it a shame

to deprive the children of the same

fun. We as children did the same thing for my mother. Sally, dear, those raisins are clean enough now, I am sure, you may pick over and wash the currants. Then flour them well, so they won't fall to the bottom of the cake. Now boys, you can beat the cake with a stronger, younger hand than I. So. Billy you may beat the pound of sugar and

"Marion, dear, here are ten eggs, open one at a time in this saucer, and now that Billy has the sugar and butter so nicely creamed, let him keep on beating while you add one egg at a time to the

Eleanore added the lemon and orange rind and then grated the nutmeg and added that. Then the little girls sifted flour several times, and mother brought the spices, there were 1/2 ounce cinnamon, 1/2 teaspoonful of ground wes and 1/2 teaspoonful of ground allspice. These were sifted in the flour. Just here Marion whispered, "I am ire, Eleanore dear, this isn't enough flour for all that fruit and nuts."

"Oh yes, it is," answered the sophisticated Eleanore, "eight pounds to one of flour, is that not right mother, dear?" "Yes, it is a fruit cake receipt of my reat-grandmother's. Now Sally dear, you take the bowl from Billy and you. Peggy, pour in the molasses while Sally stirs. Then the fruit, nuts and flour and last each one of the rest may add the contents of those wine glasses."

T was getting quite heavy to beat now, so Mrs. Williams took the bowl, while the little girls had great fun cutting the paper to fit the cake tins, greasing it and then lining the pans. There was a large cake Christmas and a smaller one to be saved for Easter.

Just then the door bell rang and the baker's son called for the cakes. They were covered carefully and he went off with them. "Now Mrs. Williams please tell me

why you do not bake them yourself, for your cakes are always such a joy to look at, such a beautiful brown?" asked Peggy. "You must have a very good reason. Why, dear, we have always had

this baker bake our Christmas cakes. His father used to bake them for grandmother. You see, after they draw the fire from their big ovens, the heat is at an even temperature for some time. Then it slowly diminishes. This is an ideal oven in which to bake a fruit cake slowly and evenly."

WE all helped to "clean up." Such fun washing the dishes to the latest music on the Victrola. Then off to the large living room to throw the ter together until they are light and nut shells one at a time on the burncreamy while Bob and Eleanore grate ing log fire and toast marshmallows the rind of those two lemons and that till tea time. When it began to grow dark the children put on their warm wraps and said "good-bye" to Mrs. Williams. She handed each one an envelope with the instructions to "give to your mother and to help her as you have helped me."

On opening the envelope, each mother found the following receipt for the wonderful fruit cake of olden days. One pound of sugar, three-quarter pound of butter, cream these.

Ten eggs added one at a time. One pound flour, sifted several times. With one-half ounce of cinnamon, one utmeg, ground, one-half teaspoonful ground cloves, one-half teaspoonful all-

Now add two pounds seeded raisins, two pounds currants, one pound citron, Then add one wine glass wine, one

vine glass brandy, one wine glass rose One cup molasses and the rind of one orange and two lemons.

FROZEN CUSTARD

WITH ALMONDS Heat one quart of milk in double boiler. Add to this four well-beaten eggs. Stir constantly with wire egg peater until this thickens. Sweeten to taste and set aside to cool.

Take one pound of almonds, shell and blanch. Spread over a pan, add one teaspoonful of olive oil, place in a hot ven and allow them to get very brown. Cool and then put through a meat chopper. Add to custard also one-half teaspoonful of almond extract. When the stard is quite cold, freeze.

Peanut Bars.

Boil together four cups of New Orleans molasses, two cups of brown sugar, two easpoonfuls each of butter and vinegar. Rub the skins from the peanuts, spread them in greased pans about an inch thick, and when the molasses etc., has reached the "crack" degree, pour i: over the nuts. When partly hardened, cut into bars.

ather cases to hold them, key rings chains are suggestions for the cking, if this frolic is kept up among older members of the family. One of the nicest presents for a man a year's subscription to a periodical some subject upon which he is

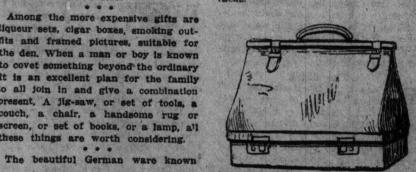

issors in cases, penknives and

Among the more expensive gifts are liqueur sets, cigar boxes, smoking out-fits and framed pictures, suitable for the den. When a man or boy is known it is an excellent plan for the family to all join in and give a co present. A jig-saw, or set of tools, a couch, a chair, a handsome rug or

for men. As many of you know this is of some hard wood inlaid with metal in wonderfully fine designs. A tobacco jar at \$6.00 has a Greek effect in a group of athletes around the outside, and there are exquisite conventional patterns on trays, picture frames and book

### **Up-to-Date Utensils**

modern store caters to the mo ern housekeeper, and so it should for look what an important persons she is! Here are a number of this which she will be glad to know about

Apple Corer.

There's a new apple corer that will be well liked. It can do two things at once. It is a little wheel-shape affair of metal. The rim and spokes are rounded and smooth on the top, but ground to sharp knife-edge on the lower side. When this is pressed hard into the top of an apie the rim will core it and the spokes will cut the apple into sections just ready for cooking. Both things are done "at one fell swoop." One can easily see what a convenient sort of thing this would be.

hard-boiled egg into just the shape bits that are nice to use as a garnish

Glass and Enamel Sanitary Covers. Glass and enamel sanitary covers.
Glass and enamel sanitary covers which will fit twenty-one different sizes of bottles, glasses, or bowls can be gotten at a small price. The usefulness of these will be readily appreciated by the housekeeper, who delights in keeping an immaculate refrigator.

Vegetable Boiler. nother nice utensil is the vegetable her of heavy block tin or aluminum containing a removable drainer. This can be raised and hooked onto the edge of the boiler until all the fluid has been drained off and the vegetables then slipped off into a dish. These is an egg-slicer, which will cut up a and they are far nicer to handle.

### Concerning the Casserole

S ONE of the greatest Winter cooking conveniences, the cas-serole is worthy of serious conleration as a Christmas gift, suitable

and acceptable to any housewife.

They come in many styles and prices but like patent leather shoes and taftetas, none are guaranteed. There is a picturesque squatty clay casserole with a glaz d lining which selis in the two quart size for as little as sixty cents; then there is an attractive oval holding the same quantity, for \$1.25; and between these prices come innumerable shapes at every possible variety of price. If the brown ware with its creamy lining is not thought sufficiently attractive, silver filigree casseroles are obtainable, to say nothing of those in solid silver and nickel plate.

A casserole of any make or description must be heated before using. Let hot water stand in it a few minutes before filling with the meat or vegetables to be cooked, cover closely and place in a moderately hot oven. The long slow cooking necessary for good results spells freedom for an afternoon at least to the woman who would rest, do her shopping, or attend a bridge party or

ROM an economic standpoint there is also an advantage: this method of slow cooking not only makes meats more tender, but makes it possible to use many of the cheaper cuts by bringing out their juices and flavor. Finally, the casserole permits of the cooking of fish, onions, and other odoriferous foods in the oven-a boon to sensitive nostrils. While chicken and vegetables, with

all necessary water, should be put immediately into the casserole, it is best, as a preliminary step, to sear meat on both sides in a frying pan, in order that all juices may be conserved. All dishes may come on the table "piping hot," and, furthermore, will rer so throughout the meal.

Guinea Hen en Casserole. ELECT a young guines hen and S cut into pieces of serving dredge with flour, sprinkle with salt and pepper, add a slice or two of onion. pared raw potatoes, and a cup of stool or hot water. Cover and bake until tender (about forty-five minutes).

F A RICH GRAVY is desired, pour I the liquor from the guinea hen into a frying pan, thicken with flour or cornstarch, add milk and a bit more salt, and cook for a few minutes Theoretically, every housewife has, or should have, a stock pot, but it is a myth in most small families. Indeed, It is quite as satisfactory and economical for them to buy a reliable brand of canned soup for this purpose, as to

be constantly throwing away soured stock. Tomato soup and conse can be used for so many purposes that it is a good plan to take advantage of grocery bargain sales and lay in a supply.

Crab Meat en Casserole Crab meat can now be bought in most cities the year round, and by many epicures this is considered one of the most appetizing ways of prepar-ing it; it is certainly one of the easiest. Pick over crab meat, removing bits of shell and fiber. Add a white sauce, cover with bread crumbs, dotted with butter, and bake until brown. If a higher seasoning is desired, powdered parsley and onion juice may be added

### Ye Old Time Xmas Puddin

The favorite dessert for the Christman dinner has been plum pudding ever since our English forefathers first carried it to the feast, rich in color, full of currents and spice, and with the burning alcohol sending out grateful odors as it was carried in triumph to the festal board.

Many cooks still use the rich old recipe that will never fail to please. It is particularly good, because the pudding can be kept for weeks afterward and re-served should there be any left after Christmas day. The following recipe will be found a most excell

One and a quarter pounds raisins, stoned and chopped, quarter pound citron, one pound currants, half pint milk, quarter pound candied orange and lemon peel, one pound sugar, one gill brandy, one pound bread crumbs, half pound suet, two large spoonfuls cinnamon, one teaspoonful sait, two large spoonfuls nutmes, one teaspoonful cloves, eight eggs, two teaspoonfuls spoonfuls nutmeg, one teaspoonful cloves, eight eggs, two teaspoonfuls mace, one gill wine, one quart flour.

This recipe may be halved. The suet should be chopped fine. The whites of eggs are put in last. Use only the thin outer peel of lemons and oranges. This pudding should be rolled in a thin piece of muslin, pinned securely at the ends and boiled for three hours. Serve with brandy or hard sauce, as you prefer.

Plain Christmas Pudding. An economical pudding, and one that is not rich, is as follows:-

Two quarts stale bread, without crusts, break in small pieces and dry them in slow oven. Pour over dried crumbs two quarts milk, let soak one hour; six eggs, one cup minced suet or two-thirds cup butter, one cup sugar, one cup molasses, one and a half pounds seeded raisins. one teaspoonful cinnamon, half nutmeg, half teaspoonful cloves, half teaspoonful mace, two teaspoonfuls salt. Butter a large pudding dish, pour in pudding, bake slowly three or four hours, covering to keep from getting too brown. Serve with wine

### A Forecast of the Fashions

An arrangement has been made with Madame Marie Loup, who is an artist and designer, to send each week during the Winter for this section, a letter from Paris.

HILE the loose gowns and wraps of the season hang straight from straight from 'he shoulders, beneath must be slender. The fashion insists on the slender sliho and of course women are all demanding the means of producing this slenderness But when they wear the corset, on which depends the desired slenderness they must at the same time appear uncorseted. This may sound like a riddle, but it is not. The corset is loose like the gown or wrap. Everything is easy and natural. The "debutante slouch" as you Americans are saying is the carriage de rigueur, and everyone has "slumped" in the approved manner.

The Blouse.
The blouse is loose unto bagginess with kimona sleeves starting at the waist line-that is if one can approximate the waist line. This myster ous line may be anywhere from 'shoulder to knee." as one couturier remarked. It is true, for the waist line may be under the arms or down ground the hips. So Madame is sure to be suit-

The Skirt. BUT one thing is certain, the skirt must never fit-for that matter there is little fit to any of Madame's garments this season. Skirts drapped and usually gathered around the waists are met by baggy blouses so that the valst is barely recognized. The slit, I'm afraid is doomed for it has been universally developed in the ready-towear garment. What is to be the fate of the new skirt without the slit is more than I can say.

There is much to say about the sleeves. They are either very long or antirely eliminated. The last is especially true of the evening dress. The debutante with her youth can well be pleased with this fashion. The long sleeves are very long ones indeed. They are pushed up from the wrist, where they fit rather snugly. The upper portion is cut on more ample lines which is very attractive. They end often in a fur band or in a lace frill.

The Corsage. ND THE corsage! So much at-A tention has been given to skirts, to their drapings and fullness, to their narrowness and slits, that they have quite overshadowed the corsage, which is in danger of disappearing altogether. It is more transparent than ever, made often of one thickness of tulle over an under bodice of pink or yellow chiffon or tulle. This tulle is not the frail or perishable tulle one usually thinks of. It is a net, thick but firm, and launders

The Tunic Blouse There is one very attractive fashion. It is that of the tunic blouse, It is fashioned of many materials and is used for almost any or all occasions. One skirt often does duty for several tunics. A black satin or velvet skirt is the dutiful one. Over this may be used the plaid tunic blouse of vivid colors for mornings, the fur bordered chiffon for afternoons, and the one of lace for

evenings. For afternoon wear, short jackets of metallic brocade, with skirts of black er dark-colored velvet are much worn.

Popular Colors. All tones and shades of green are popular and attractive. Especially when combined with chinchilla, squirrel, fitch or "Baron Duki," the Russian chipmunk. Tete de negre, a nut brown purple, bronze, tomato red, smoke grey, a tawney orange and mustard color are the colors most often seen. These colers are wonderfully combined with the dyed and natural colored fura. Furs.

URS ARE more in evidence than ever before in the history of fashion. Fox, dyed in soft pink and s creamy yellow, is the only dyed fur favored by the fashionable woman. These colors are very beautiful. Most of the dyed fur is crude and ugly. "Baron Duki." the Russian chipmunk, is mighty attractive in the blending of grey and golden brown with stripes of seal brown.

Chinchilla squirrel is an inexpensive trimming, Sable, seal, ermine and broadtail are seen in luxurious abundance. Muffs, which in the beginning of the season were quite small, have assumed huge proportion and are variously and oddly shaped. A golden brown velvet suit had collar and cuffs of sable. A more magnificent combination would be

Soft Silk for General Wear. The demand for the soft silk dress for general wear has sounded the knell of the demi-tailored serge frock. The conturiers at once realized that the soft woolen frock, if presented at the proper time, would be welcomed for less formal occasions.

The Coiffure. THERE is much to tell you of the coiffure. Too often does one see the American of the many combs and pins who changes the arrangement of her luxurious locks with every breath of fashion. The Parisienne is not so easily led. She knows the secret of her charm. Simplicity and individuality are two weapons hard to overcome when wielded by her experienced hand. The American would do well to study colffures, and when she has found one that is becoming and simple, let her persist in wearing it, even though the

MARIE LOUP.

Now one might say that styles are "a little more so," since the present somewhat startling effects are but a de-

velopment of the first ideas cautiously advanced during the early Fall. The turn-down collar is here to stay, and while the up-turned plaiting softens the effect in many cases, there is no sign of the stock as yet. Knife-plaitings, however are in abundance, and while those of plain net are reasonable, it s not really an inexpensive fad since they are fragile and do not stand many wearings with a top coat or furs to

With furs, however, a standing ruche is quute a protection against stains upon the neck, and this is a decided advantage. This up-standing flare or ruff is seen upon every conceivable sort of gown, even for evening wear with a regular decollete gown. One of the latter cut so low as to show the shoulders had a two-inch plaiting of net instead of lace as a binding.

But to return to neckwear, the two plaited pieces running from turn-over collar to waist, are seen in many new and charming variations. Sometimes the whole turn-over, vest, ruche, jabots and all are attached to a net sleeveless guimpe which can be worn with any gown and easily cleaned. THERE is an increasing tendency to I have the separate neck ornamenta-

A New Black

Lace Waist

For the woman who must consider the

cost of her dressing, the new black lace

waist comes as a boon. Black they are

over flesh color and white linings of net,

chiffon or lace. The all-white waist, that

was such a help to a woman, will no

longer have the first place and it is this

touch of black lace that will make the

more dressy ones of last season, into the fashionable ones of this year; and best of all, they will so with any com-

bination of color or fabric in the ac-

companying suit, as well as the conven-

have the black chantilly used only as a

facket or bolero, and others are draped

something on the order of the jumper

oùtline, leaving the lower section of the

sleeves and the front of the waist in

GIFT GARTERS

Fancy garters to go with embroidered

silk stockings and jewel-sewn satin slippers are among the most alluring of the minor accessories of the toilet.

Masiest to fashion are the strips of wide elastic covered with pale-toned, plain satin ribbon thickly sewn with

P ANCY vests of pique, brocade, flow-ered ribbon or the wonderful figured velvets are having a vogue all their own. These vests are quite small, scarcely larger than the knit folders worn some years ago to protect the collar from soil, but the effect is very good with the present style of coat, when one does not want to wear one of the larger vests, which are really sleeveless waists.

These touches of bright color are es-

DLAIDS are used in every conceivable way, and the result is usually cellent. When they are utilized in belts and other waist draperies, the pleces run as high as fifteen or twenty dollars. Of course, these expensive waist scarfs are of plaid velvet, lined wth satin and finished with tassels. But there are many much less expensive designs in regular belting or ribbon.

Skirts of plaid with coatees of a plain color are fetching, and where so much latitude is allowed as in the one-piece frocks, the plaid may be used in a variety of ways either as trims as a basic material. If the plaid is used for collar and belt, it is possible to have the high ribbon loops in the hat of the same plaid.

### Novelties in

Hair Ornaments

Much attention is being centered upon the coiffure and its ornamentation, in the last couple of weeks, and many of the exclusive shops in New York are devoting whole window spaces to wax figures, displaying the fashionable mode of arranging the hair, and showing the manner in which the new combs and ornaments may be used to advantage, and the season will be con-spicuous for the number and types of air ornaments. Casque combs and pins in various de-

signs are much in vogue. Bandeaux also in almost limitless variety are shown for every occasion; the most attractive of which are the ones for dressy occasions. These are generally flexible and made of rhinestones set in um, and strung with invisible elastic. They may be arranged to tuck into the coiffure or spread out over the entire head, making it appear a mass of twinkling brilliants. An unusual novelty is a combination of barrette and a feathery shaped ornament, to be used separately, or combined and when they are together the effect is the same as the feather up the back of the hat. and the upright ornament may be adjusted to the back of the head and spray itself into the coiffure.

Silk-covered Hairpins. A clever invention just placed on sale is a hairpin, three-quarters covered with woven silk, with the points heavily enameled. The covering is put on so moothly you cannot tell where wilk-

and in mauves with grays. The sets include eleven pieces—a hair dozen oval shirtwaist stude of moderate size, butten cuff links, a hair's width larger leaves off and enamel begins. The hairpins come in seven shades of brown, in black or white, in different sizes, and sell at five cents a dozen. They are scarcely visible when in the hair, the covering prevents rust and slipping out of the hafr,

### Vagaries of the Muff

Are you sure that you can tell a must at a glance? Some of the newest muffs look like huge bags of fur amed with fur and a few of them are composed of satin, velvet, fur and embroidery with perhaps a frill of lace or chiffon or malines for good measure. Among these oddities—all of them are fascinating and modish—is the wheel muff, usually made of dark velvet and trimmed on the front side with narrow bands of short-haired fur, match that outlining the small opening at either side of the top curve, into which the hands are to be thrust. Only the upper half of this contrivance is really a must. The lower half is a pocket to which access is gained through a slit at the back of the velvet wheel.

The Poiret muff, like everything made by the gifted French "clothes artist," is beautifully simple. It is merely a yard long strip of fur with rounded ends which come evenly together when the ength of pelt is folded. This piece of satin-lined fur is tacked loosely over a narrow and very thin satin pillow; to banded with a strip of long-haired pair and at the ends is trimmed with clus ters of roses in dull red, rose, mauve A muff, native to New York, which

has made a tremendous hit because while it appears fashionably large it is really of moderate size and easy to handle, is envelope shaped and sligntly curved at the lower side. The perfectly figt backing usually is of silk, vel-vet or duvetyne; whereas the front of fur is given the effect of bulk by means of a great bow in velvet, having two knees when the muff is held against the hips. A good way to eke out a short neckpiece in fur is to use one of these big bows of velvet. By securing the centre fold-to the untrimmed end of the

### Bouquets for Winter

To make the big must of long-haired für look particularly chic, there should be affixed to its front side-near the center or near one corner-a large nch of flowers in velvet of darkest toned red, purple or blue, surrounded by large leaves of darkest green or bronze silk, veined and edged with fullest silver or gold tinsel threads. Both flowers and leaves are very flat

to the fur so that only at close range can they be distinctly discerned. If a long and broad scarf in pelt is worn, that also may carry a bunch of matching flowers and foliage, but they must never be prominent accessories or worn upon any but the darkest of furs. On any white, yellow or gray pelt, these fabric excites are conspicuous and consequently not appear to be a second to the second to th

### New Styles

in Shoes

Long before a woman buys her Fall shoes the makers have planned the styles for the following Spring—so far in advance of fashion is the wholesale

hoes will be worn next Spring, that patent and kid leathers will be used mostly and that heels have a tendency

a craze for the almost heelless shoes of the Summer just sone-far from it. The newest heel will be a low Louis instead of the Cuban we have known. For girls the little heel will be good always, and for outing wear the heel-less, rubber-soled low shoe will be as popular next Summer as it has been. Turned-sole shoes will be used extensively, and such tans as will be seen will be in dark shades—light tan only

in outing styles. dict a vogue of fancy shoes; that is, black or dark tan vamps, with colored suede tops, these to match the gown or suit, if preferred.

Speaking of rubber-soled shoes, they were a boon in that they were soft and flexible, but they were heavy to the foot, and some say too heating for

There is just out on the market, and will soon be purchasable in shoe stores, a new sole leather, tanned by a spe cial process that makes it as flexible as rubber, yet light in weight. For women with sensitive feet this will be a real boon.

In the evening slippers, beyond the fact that black satin will be very popular and the colors will run to vivid tones, there will be little change. Vamps will be slightly longer and the general use of rich, metallic brocades on gowns will be extended to slippers as

### NEWEST IN FANS

All sorts of things might be written about the witchery of the new fans for milady to coquette with this Winter. More charming than ever are these models-"Tango fans" and fans made from great feathers—cagle feathers they are called, though one is inclined to suspect the barnyard turkey of having furnished the quills.

Of course, the new dances might be expected to invade even the realm of gauze and ivory sticks. In place of the graceful couples that bow ceren ly to each other within an oval, framed of gilt and painted roses, are our tightly clasped couples that practised the latest step across the filmy surface of the fan. Gone even are the graceful ballet nymphs and Greek clad nymphs that used to decorate milady's fan. Everything has given way before the craze of tango-ing.

Then those fans of eagle feathers. They are quite striking in appearance, particularly against the pale colors of our evening gowns, where they show better than the celluloid and gauze affairs of past seasons. They are never quite symmetrical in shape—they bulge out at the top, or grow to a point at the side or perhaps two feathers protrude three or four inches beyond the edge of the fan proper. Often these are tipped with red and have the tiniest imaginable tassels attached, like the great feathers in an Indian warrior's headdress.

#### GIRDLE TUNICS

A clever way to bring into style a inst year's dress is to add one of these girdle tunics. They are made of velvet. wrapped high around the figure with a bow and sash ends at the back with a full and accordion plaited tunio attached. The tunic is made of satin in black and various colors to match a contrast to the gown, the velvet girdle as a rule is black, and lined with the satin, the color of the tunic, which shows in the way of pipings and little

#### ANTIQUE VELVET

what is known as antique we wet is predicted. Paris already has felt it, which means that in a few here LONG towards Spring a fad see months it will be popular over here.
Antique velvets are merely velvets in soft tones that have the appearance of being delicately faded like an exquisite. piece of material that is half a century

To complete the antique appearance artificially whitened hair is becoming increasingly popular. Indeed it is easy to understand a fad like this since white hair is so remarkably become to all sorts of women; a contrast of black eyes and eyebrows, and snow-white hair is almost startling. Of course, in a case like this, the woman who whitens her hair uses quanti of liquid white powder to give a snow, appearance to her skn. The whole heef is not whitened, but only the part are is not whitened, but only the part around the face, which is liberally treated with a specially prepared powder. The colle of the hair and the curls that form the coiffure are made as dark as pes-

Certainly this seems to be a style that is chiefly for brunettes, and young ones at that. White hair would not give a particularly youthful appearance to a face that is already showing signs of age.

#### New Bead Necklaces.

Bead necklaces have grown up. The modest little beads we have been we ing strung on necklaces are a thing of the past, or soon will be. The bead necklaces of to-day are great affairs that hang around the neck in a way that suggests prison chains and mana-cles. The beads they are made of, come in every imaginable shade of red, blue, rose, violet, green and orange, and starting in at the class graduate slowly in size until the central book is about three-quarters of an inch

appearance. They are no longer either round or oval, but are cut into strange shapes, reminiscent of the animals we tried to form from mud in our childhood days. Usually, they are interspersed with tiny beads of sliver and gold fillere, merely to vary the design. Three or four colors of beads usually come in one necklace. come in one necklace.

Continued From Last Sunday.

"Yes, spoiled it," the wife went on passionately. "If I had understood, if I could have dreamed that I could ever care—Oh, Dick, I would never have married you for anything in the world."

"But now you do realize," the young man said quietly. "The thing is done. If we make a mistake, it is for us to bring happiness out of that error."

"Oh, can't you see?" came the stricken lament. "I'm a jail-bird!"
"But you love me-you do love me, I know!" The young man spoke with joyous certainty, for some infection of her voice had told the truth to his heart. Nothing else mattered. "But now, to come back to this hole we're in here. Don't you understand, at last, that you can't beat the law?" If you're caught here tonight, where would you get off-caught here with a gang of burglars? Tell me, dear, why did you do it? Why didn't you protect yourself? Why didn't you go to Chicago as you planned?"

"What?" There was a new quality in Mary's voice. A sudden throb of shock masked in the surface in-difference of intonation.

of shock masked in the surface indifference of intonation.

Dick repeated his question, unobservant of its first effect.

"Why didn't. you go to Chicago as you had planned?"

"Planned? With whom?" The interrogation came with an abrupt force that cried of new suspicions.

"Why, with Burke." The young man tried to be patient over her density in this time of crisis.

"Who told you that I had arranged any such thing?" Mary asked.

Now the tenseness in her manner got the husband's attention, and he replied with sudden gravity, apprehensive of he knew not what.

"Burke himself did."

"When?" Mary was standing rigid now, and the rare color flamed in her cheeks. Her eyes were blaz-

in her cheeks. Her eyes were blaz-

"Less than an hour ago." He had caught the contagion of her mood and vague alarm swept him.
"Where?" came the next question, still with that vital insistence.
"In this room."

"Burke was here?" Mary's voice was suddenly cold, very dangerous. "What was he doing here?"

"Talking to my father." The seemingly simple answer apeared the last straw to the girl's burden of frenzied suspicion. Her voice cut flercely into the quiet of the room, imperious, savage.
"Joe, turn on that light! I want to see the face of every man in this

Something fatally significant in her voice set Garson a-leap to the switch, and, in the same second, the blaze of the chandelier flamed brilliantly over all. The others stood motionless, blinking in the sudden radiance—all save Griggs, who moved stealthily in that same moment, a little nearer the door into the passage, which was nearest to

But Mary's next words came totally irrelevant to this instant of crisis. Yet they rang a-throb with

an hysterical anxiety.

"Dick," she cried, "what are those tapestries worth?" With the question, she pointed toward the draperles that shrouded the great octagonal

The young man was plainly astonished, disconcerted as well by the obtrusion of a sordid detail into the tragedy of the time. "Why in the world do you-?"

he began, impatiently.

Mary stamped her foot angrily in protest against the delay.
"Tell me—quick!" she commanded. The authority in her voice and manner was not to be gainsaid. Dick yielded suilenly.

"Oh, two or three hundred dollars, I suppose," he answered. "Why?"
"Never mind that!" Mary exclaimed, violently. And now the girl's voice came stinging like a whiplash. In Garson's face, too, was growing fury, for in an instant lumination he guessed something of the truth. Mary's next question onfirmed his raging suspicion.
"How long have you had them,

now, the young man himself sensed the fact that something my-steriously baneful lay behind the frantic questioning on this seem-ingly trivial theme.

"Ever since I can remember," he replied, promptly. Mary's voice came then with an intonation that brought enlightenintelligences of Dacey and of Chicago Red.

"And they're not famous master-pieces which your father bought recently, from some dealer who smuggled them into this country?" So simple were the words of her inquiry, but under them beat something evil. deadly.

The young man laughed contemptuously.

"I should say not!" he declared indignantly, for he resented the implication against his father's hon-

Mary's words came with accusing

There was aonther single step made by Griggs toward the door into the passage. Mary's eye caught the movement and her lips soundlessly formed the

"Griggs!"

The man strove to carry off the situation, tho he knew well that he stood in mortal peril. He came a little toward the girl who had accused him of treachery. He was very dapper in his evening clothes, with his rather handsome. well-grouped face set in lines of innogroomed face set in lines of inno-

"He's lying to you!" he cried forcibly, with a scornful gesture toward Dick Gilder. "I tell you, those tapestries are worth a million cold." Mary's answer was virulent in its sudden burst of hate. For once, the music of her voice was lost in a discordant cry of detestation.

"You stool-pigeon! You did this "You stool-pigeon! You did this for Burke!"

Griggs sought still to maintain his air of innocence, and he strove well, since he knew that he fought for his life against those whom he had outraged. As he spoke again, his tones were tremulous with sincerity—perhaps that tremulousness was born chiefly of fear, yet to the ear his words came stoutly enough for

"I swear I didn't! I swear it!"

Mary regarded the protesting man with abhorrance. The perjured wretch shrank before the loathing in her every

"You came to me yesterday." she said, with more of restraint in her voice new, but still with inexorable rancor. "You came to me to explain this plan. And you came from him—from—Burke!"

"I swear I was on the level. I was tipped off to the story by a pal." Griggs declared, but at last the assurance was gone out of his voice-He felt the hostility of those about Garson broke in ferociously.

"It's a frame-up!" he said. His tone came in a deadened roar of On the instant, aware that fur-

On the instant, aware that further subterfuge could be of no avail. Griggs swaggered defiance.

"And what if it is true?" he drawled with a resumption of his aristocratic manner, while his eyes swept the group balefully. He plucked the police whistle from his waistocat-pocket and raised it to his waistocat-pocket and raised it to his

He moved too slowly. In the same moment of his action, Garson had pulled the pistol from hsi pocket, had pressed the trigger. There came no spurt of flame. There was no sound—save perhaps a faint clicking noise. But the man with the whistle at his lips suddenly ceased movement, stood absolutely still for the space of a breath. Then, he trembled horribly, and in the next instant crashed to the floor, where he lay rigid, dead.

"Damn you—I've got you!" Garson sneered thru clenched teeth. His eyes were like balls of fire. There was a frightful grin of triumph twisting his mouth in this minute

In the first second of the tragedy, Dick had not understood. Indeed, he was still dazed by the sudden-ness of it all. But the falling of Griggs before the leveled weapon of the other man, there to lie in that ghastly immobility, made him to understand. He leaped toward Garson—would have wrenched the pistol from the other's grasp. In the struggle, it fell to the floor.

Before either could pick it up, there came an interruption. Even in the stress of this scene, Chicago Red had never relaxed his professional caution. A slight noise had caught his ear, he had stooped listening. Now, he straightened and called his warning. "Somebody's opening the front

onal window. even as Dick took possession of the pistol.

"The street's empty! We must jump for it!" His hate was forgotten now in an emotion still deeper, and he turned to Mary. His face was all gentleness again, where just before it had been evil incarnate, afiame with the lust to destroy. "Come on, Mary." he cried.

Already Chicago Red had snapped off the lights of the chandelier, had sprung to the window, thrown open a panel of it, and had vanished into the night, with Dacey at his heels. As Garson would have called out to the girl again in mad anxiety for haste, he was interrupted by Dick:

"She couldn't make it. Garson," he declared coolly and resolutely. "You go. It'll be all right, you know. I'll take care of her!"

"If she's caught——!" There was an indescribable menace in the forger's half-uttered threat.

"She won't be." The quality of sincerity in Dick's voice was more convincing than any vow mgiht have been.

"If she is, I'll get you, that's all." onal window, even as Dick took pos-

Then he glanced down at the body

he said viciously to the dead. "You damned squealer!" There was a supremely malevoler: content in his

Within the Toils. The going of Garson left the room deathly still. Dick stared for a moment at the space of window left uncovered by the draperies now, since the man had hurried past them, without pausing to draw them after him. Then, presently, the young man turned again to Mary, and took her hand in his. The shock of the event had somehow steadled him, since it had drawn his thoughts from that other more engrossing mood of concern over the crisis of his own life. After all, what mattered the death of this crook? his

A whisper came from her quiver-A whisper came from her quivering lips. Her face was close to his, else he could not have caught the uncertain murmuring. That face now was become ghastly pale. The violet eyes were widened and dull. The muscles of her face twitched. She rested supinely against him, as if bereft of any strength of body or of soul. Yet, in the intensity of her utterance, the feeble whisper struck like a shriek of horror.

"I—never saw any one killed."

The simple, grisly truth of the words—words that he might have spoken as well—stirred the man to the deeps of his being. He shuddered, as he turned his eyes to avoid seeing the thing that lay so very near, mercifully merged within the shadows beyond the gentle radiance from the single lamp. With a pang of infinite pity for the woman in his arms, he apprehended in some degree the torture this event must have inflicted on her. Frightful to him, it must in truth be vastly worse to her. There was her womanly sensitiveness to enhance the innate hideousness of the thing that had been done here before their eyes. There was, too, the fact that the murderer himself had been the man to whom she owed her life. Yes, for him, Dick realized with polgnant sympathy, the happening that night was terrible indeed: for her, as he guessed now at last, the torture must

be something easily to overwhelm all her strength. His touch on her grew tender beyond the ordinary tenderness of love, made gentler by a great underlying compassion for

her misery.

Dick drew Mary toward the couch.
there let her sink down in a huddled attitude of despair.

"I never saw a man—killed be-fore!" she said again. There was a note of half-hysterical, almost childnote of half-hysterical, almost child-ish complaint in her voice. She moved her head a little, as if to look into the shadows where it lay, then checked herself violently, and looked up at her husband with the pathetic simplicity of terror.

"You know, Dick," she repeated, dully, "I never saw a man killed be-fore."

Before he could utter the soothing words that rose to his lips, Dick was interrupted by a slight sound at the door. Instantly, he was all alert to meet the exigencies of the situation. He stood by the couch, bending forward a little, as if in a posture of intimate fondness. Then, with a new thought, he got out his cigaret-case and lighted a cigaret, after which he resumed his former leaning over the woman as would the ardent lover. He heard the noise again presently, now so near that he made sure of being overheard, so at once he spoke with a forced cheerfulness in his inflection.

inflection.
"I tell you, Mary," he declared,
"everything's going to be all right
for you and me. It was bully of you
to come here to me like this."

The girl made no response. She
lived still in the nightmare of murder—that nightmare wherein she
had seen Griggs fall dead to the

again, his voice rose to loudness, as he continued. "Why, I've been trying all day to see you. And now, here we are together, just as I was beginning to get really discouraged. . . . I know my father will eventually..."

He was interrupted by the swift swinging open of the hallway door. Burke stood just within the library, a revolver pointed menacingly.

"Hands up!—all of you!" The Inspector's voice fairly roared the command.

command.

The belligerent expression of his face vanished abruptly, as his eyes fell on Dick standing by the couch and Mary reclining there in limp helplessness. His surprise would have been ludicrous but for the seriousness of the situation to all concerned. Burke's glance roved the room sharply, and he was quickly convinced that these two were in fact the only present spoil of his careful plotting. His face set grimly, for the disappointment of this minute surged flercely within him. He started to speak, his eyes lowering as he regarded the two before him.

But Dick forestalled him. He spoke

But Dick forestalled him. He spoke in a voice boldly repellent.

"What are you doing in this house at this time of night?" he demanded. His manner was one of stern disapproval. "I recognize you, Inspector Burke. But you must understand that there are limits even to what you can do. It seems to me, sir, that you exceed your authority by such an intrusion as this."

Burke, however, was not a whit dismayed by the rebuke and the air of rather contemptuous disdain with which it was uttered. He waved his revolver toward Mary, merely as a gesture of inquisitiveness, without any threat.

"What's she doing here?" he asked.

"What's she doing here?" he asked. There was wrath in his rough voice, for he could not avoid the surmise that his shrewdly concocted scheme to entrap this woman had somehow been set awry. "What's she doing here, I say?" he repeated heavily. His keen eyes were darting once more about the room, questing some clue to this disturbing mystery, so hateful to his pride.

Dick's manner became that of the devoted husband offended by impertinent obtrusion.

"You forget yourself, Inspector," he said, icily. "This is my wife. She has the right to be with me—her

Tsorbassi For Dinner? Pavlowa Does The Inspector grinned sceptically.

He was moved no more effectively by Mary's almost hysterical effort to respond to her husband's leading.

"Why shouldn't I be here? Why? Why? I—" FAVORITE RECIPES OF THE GREAT RUSSIAN DANCER

lurke broke in on the girl's piti-Burke broke in on the girl's pitiful histrionics ruthlessly. He was
not in the least deceived. He was
aware that something untoward, as
he deemed it, had occurred. It
seemed to him, in fact, that his finical mechanisms for the undoing of
Mary Turner were in a fair way to
be thwarted. But he would not
give up the cause without a
struggle. Again, he addressed himself to Dick, disregarding completely the aloof manner of the

young man.
"Where's your father?" he questioned roughly.
"In bed, naturally," was the answer, "I ask you again: What are you doing here at this time of night?" Burke shook his shoulders pon-derously in a movement of im-patience over this prolonging of the

"Oh, call your father," he directed

disgustedly.

Dick remonstrated with an cellent show of dignity. "It's late," he objected.

"It's late," he objected. "Id rather not disturbe him, if you don't mind. Really, the idea is absurd, you know." Suddenly, he smiled very winningly, and spoke with a good assumption of ingenuousness.

"Inspector," he said briskly, "I see, I'll have to tell you the truth. It's this: I'vo persuaded my wife to go away with me. She's going to give all that other sort of thing up. Yes, we'ro going away together." There was genuine triumph in his voice now. "So, you see, we've got to talk it over. Now, then, Inspector, if you'll come back in the morning....."

The official grinned sardonically He could not in the least guess just what had in very deed happened, but he was far too clever a man to be bamboozled by Dick's maunder-

"Oh, that's it!" he exclaimed, with obvious incredulity.

"Of course," Dick replied bravely, though he knew that the Inspector disbelieved his pretenses. Still, for his own part, he was inclined as yet to be approved by

disbelieved his pretenses. Still, for his own part, he was inclined as yet to be angry rather than alarmed by this failure to impress the officer. "You see, I didn't know—"

And even in the mmoent of his saying, the white beam of the flashing searchlight from the Tower fell between the updrawn tapestries of the octagonal window. The light startled the Inspector again, as it had done once before that same night. His gaze followed it instinctively. So, within the second, he saw the still form lying there on the floor—lying where had been shadows, where now, for the passing of an instant, was brilliant radiance. There was no mistaking that awful, motionless, crumpled posture. The Inspector knew in this single instant of view that murder had been done here. Even as the beam of light from the Tower shifted and vanished from the Tower shifted and vanished from the room, he leaped to the switch by the door, and turned on the lights of the chandelier. In the next moment, he had reached the door of the passage across the room, and his whistle sounded shrill. His voice bellowed reinforcement to the blast.

"Cassidy! Cassidy!"

As Dick made a step toward his wife, from whom he had withdrawn a little in his colloquy with the official, Burke voiced his command viciously:

"Stay where you are—both of

"Stay where you are both of other detectives. He was plainly surprised to find the room so nearly empty, where he had expected to behold a gang of robbers. "Why, what's it all mean, Chief?" he questioned. His peering eyes fell on Dick, standing beside Mary, and they rounded in amazement.

To Be Continued Next Sunday.

## Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

How the Remedy for Catarrh Was Discovered.

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the vicious germs that cause the trouble have been left to circulate in the blood, bring the disease back as fast as local

treatments could relieve it C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he

could not prevent the trouble beginning all over again. The Elixir, taken into the stomach, has a direct influence upon the mu-On test cases, he could of Catarrh from nose and throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Catarrh would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a remedy that

Kills the Germs in the Blood and immediately gives re-lief to the nose and throat.

Her to the Rose and throats

He perfected the New Combined Treatment, since admitted to be the logical, sure, scientific method.

Recse Jones, of Scranton, Penn., says that after trying many other treatments, he used this new method and—"My nose is now entirely clear and free and I am not bothered by the disease any more. The New Combined Treatment is worth its weight in gold."

Temporary relief from catarrh may be obtained in other ways, but the New Combined Treatment must inevitably be accepted for \*\*permanent\* results.

Sarah J. Cape. Mount Pelia, Tenn., says. "I suffered the pains and distress of catarrh for thirteen years and needless to state, tried nearly every method. But by your new method I was completely cured and you cannot imagine the joy that has come over me."

"Oh," said the milkman, who has "A pint, if you please," said the mikman, who has just been graduated from Purque and is not to be stumped by any Butler College pedagogue, "their sustenance is wholly of vegetable origin, rich in chlorophyl and opulent in butyraceous qualities."

"A pint, if you please," said the professor.

"Git up!" said the milkman.

The Price of Truth. D. Cady Herrick, at a luncheon in Albany, said of the truth:
"The truth is rarely palatable.

Albany, said of the truth:

"The truth is rarely palatable. They who would bring overmuch truth to bear on their profession or trade are usually corrected after the manner of young Jones.

"Young Jones, a cub reporter on the Cinnaminson Scimitar, wound up an article about a town meeting with the words."

up an article about a town meeting with the words:

"'Mr. Smith then rose and made a few feeble remarks, during which the audience dispersed."

"The editor of the Cinnaminson Scimitar snorted when he saw that sentence. He dashed his blue pencil thru it fiercely; then he wrote in its place:

"The last speaker was our emin-ent fellow-citizen, Mr. George Wil-liam Smith, who, in crisp and wellchosen sentences, reviewed the subplect under discussion, giving to it that clear, well-considered and logi-cal treatment which has made

"Well, good-bye, old chap. When will you do us the pleasure of dining with us again?"
"Now if you like!"—Le Rire.

Colonel Smith one of the foremost orators of our state. The audience dispersed after expressing warm ap-proval of his polished and eloquent utterances.'

"'There!' said the editor. 'That's how to do it!' "But the reporter sullenly retorted,
"The difference between our versions, sir, is the difference between
the true and the false."

"No!' snorted the editor. It's the difference between old Smith stopping his paper and cutting me out of seventy-five cents a year or comnig in here and buying one hundred marked copies to send round to his friends."—Washington Star.

"Pa, I don't see why I have to study algebra. I hate the stuff!"
"I know, my boy; but keep at it. You may have to figure out your income tax some day."—Detroit Pree Press.

Somebody on the Job. Wise Fresh: "No woman ever made a fool of me!" Senior: "Who did?"

One Requirement.

"I don't see how it is," Jenkins began, eyeing the tramp and his performing dog with frank envy. "Here is this mongrel of yours doing all these tricks, and there is my dog, with a pedigree a yard long, that can't be taught a single thing! I've hammered at it till I'm tired, and he can't even be trusted on to roll over when he's told to."

"Well, sir, 'tain't so much the dog," the tramp replied confidentially. "You have to know more'n he does, or you can't learn him anything."

Merchant: "Have you collected tha tbill of Smith's?" Collector: "Have I collected it? I called at the house and found that seven Smiths lived there. Six declared they owed nothing, and the seventh kicked me out of the house."

Merchant: "That's the one! Go back and get the money!"

Oh! Those Husbands! Oh! These Husbands!

Mrs. Muggins: "My husband is the laziest man on earth!"

Mrs. Guggins: "Dear me! I wonder if he is lazier than Mr. Guggins."

Mrs. Muggins: "Indeed he is! Why. he even ordered soft coal for the furnace, because he thought it would be easier to shovel than hard coal!"

Upsetting Ducks.

While visiting his uncle in the country, Wee Willie was much interested in watching the ducks "tipping up" in a pond.

"They're most all young ones, aren't they?" he observed to his uncle." "Why, no, boy; they're old ones. What makes you think they are young?"
"I thought they were young," Willie explanded, "becusea they don't seem to be able to swim with-

The Neighborly Spirit The neighborly spirit is an excellent thing to cultivate, altho not,
perhaps, as it is cultivated in the
following story;

"How do you like your new
home?" a friend asked a man who
had recently moved into the village.

"Pretty well!"

"Have you called on your neighbors yet?"

bors yet?"

"No," the newcomer admitted "I haven't! But I'm going to, if any more of my wood is missing."

Von Ratz: "Yer know, I haven't paid out a cent for repairs on my old car." O'Catz: "Yes, so the owner of De Stew's garage told me."

A Tryout. Mrs. Newrich (who has advertised for a Christmas planist): "So you are the music teacher that answered my advertisemnt?"

Pianist: "Yes, ma'am!"

Mrs. Newrich: "Well, sit down and play a couple of duets, so that I can see what you can .do!"

Judge: "And you mean to say that you opened the pen and stole those sheep, and didn't know a thing about it? Why, man, where were your wite?" your wits?"

Culprit "I don't know, your honor. They must have been wool-

gathering!" Very Different. "Thirty cents a word for this stuff?" exclaimed the editor. "I wouldn't think of it"

"Sir. I am a famous author."
"That's just it. You are a famous author, not a famous pugilist or a successful spitball pitcher."

"They tell me you've lost your hired man. "Yep; best farmhand I ever had."
"Sho! What wuz th' matter?"
"Nothin'. John's a German, you know, and these here Germans hev what they call the wanderlust. It's somethin' thet keeps 'em movin' from one place to t'other, an' don't let 'em stay long appyrhance." 'em stay long anywheres."
"How long had John been with

"Only eleven years."

Every One. "Every one has some secret sorsow," said the philosophic friend. "Yes, even the fattest and jolliest of us has a skeleton in his midst'

A Free Thinker. Tommy-Paw, what is a free Paw--An unmarried man, my son.

How He Got it.
"I understand Whipple has adopted a political career." "It was the other way about. A political machine adopted Whipple. and now his career is assured."

How He Did It. "How do you always keep the office clock right?" the foreman was ask-"I set it in the morning by the time the boss arrives and set it again at noon and night by the time the help quits."

"It is wrong for an old man to marry a young fool." "But how is he to know that she is a fool?" When she says yes to his proposal, he ought to know it."

Sequence. Teacher: Now, children, can you tell me what are the national flowers of England? Class: Roses.
Teacher: And France?

Teacher: And Spain? (Silence for a minute—then small voice at back of the schoolroom:) "Bullrushes, ma'am."

Sometimes It Is. It was the hour of the spelling lesson, and the teacher was pronouncing the words while the small persons in front of her laboriously wrote them down. According to the usual custom, she called for volun-teers to define each word as it was "Lunch," she said. "Now, who

There was a long period of silence, then a hand went up. "Well, Johnny, you may tell us what lunch is." "A lunch," said Johnny, "is what you have for dinner when your father is away."

can tell me what 'lunch' means?"

The Reason.

A little girl of seven or eight years stood one day before a closed gate. A gentleman passed slowly. The little girl turned and said to him: "Will you please open this gate for me?"

The gentleman did so. Then he said kindly: "Why, my child, couldn't you open the gate for yourself?"
"Because," said the little girl, "the paint's not dry yet"

When She Began to Think.
"Biddy," said Pat timidly,
ye iver think o' marryin'?"
"Shure now," said Biddy, look demurely at her shoe—"shure now, the subject has niver entered me mind at all, at all." "It's sorry Oi am," said Pat, and

he turned away.
"Wan minute, Pat, said Biddy, softly; "Ye've set me thinkin'."

Royal Gorge. "Did you have a merry Christ-"Yes, ma'am," replied Willie. "They had to send for the doctor."

What It Means. Hip: "What does it mean to say that a girl is as pretty as a pic-

Gigantic Laborer: "Oh, doin' yer dooty, was yer? Well, Nelson
lorst 'is eye thru doin' his dooty, didn't he?"

He Had His Opinion. Willie: Grandma, I like Santa Claus better than God; he gives us nicer things. Grandma: Why, dear, God gives us our hair, our teeth, and our eyes

to see with. Willie: He didn't give you much hair, and you bought your teeth ,and you can't see without your glasses. She: But God gave me lots of hair and nice teeth, but I lest them.
Willie: How did you lose them?

She: Well-er-God took them back. Willie (solemnly): Grandma, God must be a awful lnjun giver!

An Important Point. Travel invariably adds charm to the conversation of an agreeable

person, but sometimes renders a bore more tiresome than ever.

"And I stood there, Aunt Bessie," said the old lady's slow-speaking, but long-winded nephew, who had been talking on incessantly for the past two hours about his summer in two hours about his summer in Switzerland, until the old lady's ayes began to droop in the lamp-light—"and there I stood, Aunt Bessie, with the abyss yawning in front of me."

"Francis," said Aunt Bessie, speaking as one who has kept long silence, "was that abyss a-yawning before you got there, or did it begin to yawn afterward?"

The Other Kind.

The captain of one of the ocean liners was showing a young lady friend of his over the ship during one of his eastward trips. As they passed thru the steerage, he called his fair companion's attention to a big, husky Irish emigrant, who was putting away with knife, fork, and spoon a bountiful supply of corned beef and cabbage, combined with other articles of diet. The captain, eyed him for a moment, then, addressing the young lady, said:

"Just look at the enormous amount of food that fellow is consuming."

"I supopse, captain," said the fair young, girl, with a haming amile.

young girl, with a beaming smile, "he is what you sailors call a stow-

She Knew. Fashionable Lady: "Give me five yards of this goods, please."
Clerk: "But madam will not need more than half a yard for a veil."
Fashionable Lady: "I don't want it for a veil. I want it for a dinner gown!"

"Yes," said the retired insurance agent. "I once got a man to take out a £10.000 life policy only the day before he was killed, and it took a lot of coaxing to do it." "I expect you wished your persu-

asive powers had not been so suc-"Well. hardly. You see, I married New Line of Art.

The red-headed and dissatisfied boarder was a large man, with a large appetite. After dinner he went out into the narow yard, shook both his fists at the slivery moon, hurled several imprecations toward the congress of the stars, and burst forth into a picturesque and voluminous flood of abuse, which was devoted entirely to the land-lady.

One of the other boarders. who had been at the house a long time, thereby accumulating a pallid lock and a palate with corns on it, drew near timidly and ventured to ask what the special kick was.

"What's the mitter" echail the large man. "That old dame's the first woman I ever knew who could literally paint food on a plate!"

Heme Campaign.
"Our stenographer is a wise one."
"How now?"
"While the other girls were fooling around at the sea-shore, getting themselves engaged to ribbon clerks, she remained on the job and got affianced to the boss."

"Waiter," said Gloom, who had waited fifteen minutes for his soup, "have you ever been to the Zoo?"
"No, sir!"
"Well, you ought to go. You'd enjoy watching the tortolses whiz past."

"And is she really homely?" we ask.

"Homely!" is the reply. "Why, she's so homely that if you'd go to Canada to make love to her they'd surely deport you as looney!"

The Right Material.

Parent: "Agatha, I feel that you wer unwise in refusing young Mr. Simplisims." Agatha: "Why. mother, he's such a weak little man!"

Parent: "Exactly! The meek way in which he accepted his dismissal proved that he is of the stuff from which satisfactory husbands are made!"

Good Business.

Crawford: "So you approve of the custom of exchanging presents?"

Crabshaw: "Most assuredly!

When we were married we got 17 sets of nut picks as wedding gifts, and we've managed to work them all off as Christmas presents."

Stage Property. pretty things that were on the Christmas tree?"

Freddie: "Not much I didn't! They gave me only the ones they couldn't put away for next Christmas."

Aunt: "Bobby, how can you be so selfish with your apple? Don't you know that a pleasure shared is a pleasure doubled?"

Bobby: "Yes, but an apple shared is a pleasure doubled?" Different. ed is halved!"

Unreliable. "What do you call your dog?"
"Stock market."
"What a peculiar name! Any par-

"I should say so. Most unreliable dog you ever say. You can never tell what he's going to do next." Reducing the Tax.

Manufacturer: "What we must do now, my boy, is find some way of reducing the tax on silk stock-

ings."
His Son and Heir: "I have father! Give a bottle of anti-fat with each pair." Magistrate: What! You knew that the lady's necklace was made of imitation pearls! Then why did

you steal it?
Swll Mobsman: Well, you see, I knew how pleased she would be if anyone took it for the real thing.

Advertising Pays.
"Does advertising pay? I lost a five-dollar bill on the street."
"Well?" "I advertised, and so far I have received three five-dollar bills."

Subbubs-What kind of people are the Nextdores?
Outaways—He's negligent and shiftless The garden hose he loans me is full of holes, and he never thinks of fixing it!

Next Move? He: "Since you lost that bet, I think I can claim the forfeit."

She: "I really don't know what you mean; and, besides, some one might see us!" I suppose," said the sympathetic neighbor, "that you will erect a handsome monument to your husband's memory?" "To his memory?" echoed the tearful widow. "Why poor John hadn't any. I was sorting over some of his clothes today and I found a pocketful of letters I had given him to post."

A Bulgarian officer who had lost a leg in the recent campaign was complaining of his hard case to a civilian. "At all events." the latter said, consolingly, "you have the happiness of thinking that by your efforts your countrymen were enabled to plant a foot in Turkish territory." "Perhaps." replied the officer, "but I still regret it was mine."

Film Company's Manager: Well, what can I do for you?
Caller: I have here a tragedy in blank verse, sir, which I sent to Sir. Herbert Tree, but he has returned it with the note that the lines would be the sent to the sent t

He: "Women have better dexions than men." she: "Naturally!" He: "Oh, no, artificially-

"Waiter," ordered the fussy-looking customer, sniffing the air suspictously, "never mind bringing that
order. I never can eat when there's
a smell of fresh paint around."
"If you'll just wait a few
minutes," replied the waiter, "them
two young ladies will be going."

Serene Confidence. "I suppose," said the employer.
"you think you could teach me to
run my own business."
"Probably," replied young Mr.
Freshwell. "But it would take time."

Even Worse.

Husband: "My love, we must get rid of that cook. Did you ever see a worse-looking chop than the one I've just put on my plate?"

Wife: "Yes, dear; the one you've just put on steel"; just put on mine!"

"James, there's a burglar stairs! I'm going for help." "Wait a minute. I'll go with you."

Hostess (to young guest): You won't have another piece of pie. Bobbie; why, you must be suffering from loss of appetite.

Bobbie: No'm; I'm suffering from a promise to my mother.

Poor Papa!

Mrs. Crawford: "How's year
Christmas money coming out?"

Mrs. Crabshaw: "Splendidly! Ive
all my presents bought except one
for my husband, and I've thirty
cents left."

Falsely Accused.

A benevolent old gentleman was walking in the park when the loud sobs of a little girl arrested him. "What is the matter, my child?"

"Boo, hoo, hoo! I've lost my penny!" cried the little girl.

The benevolent old gentleman drew a penny from his pocket, and extending it, he said with a beatific smile. "Here's your penny, my dear child

And now stop crying."

The little girl instead of thanking the benevolent old gentleman gratefully, stamped her foot and said with scornfully flashing eyes:

"Oh, you wicked old man, you had my penny all the time!" my penny all the time!"

Friend: "We've come to see if we can't persuade you and Bob to make it up even at this late hour." Fair Prospective Divorcee: "Simply impossible—why, I've got the very duckiest gown for the occasion."

ED BY C.A.MACPHIE

Question Mark Tells Turvey Why the Noise The Horse Makes Is Called Neighing, the Noise the Cow Makes Is Called Bellowing, the Noise the Dog Makes Is Called Barking, the Noise the Cat Makes Is Called Meowing, the Noise the Crow Makes Is Called Cawing and Why the Dog Barks At the Moon.

Now! I hope you are listening. Well! once upon a time

if the horse, cow, dog, cat, or crow neighed, bellowed, barked, meowed or cawed, some one would say "Listen to that

animal SNOOSHING." That was the ONLY word for the sound made by the horse, cow, dog, cat or crow; that is, they did not have different words for different sounds made by different animals, so if the horse neighed (as we call it now) in those days he just snooshed:

hawed! hawed! till he was learly sick.

if the cow bellowed (as we call it now) in those days she just snooshed, and so on the dog, the cat, and the crow all they had as many as- thirty could snoosh, was no joke. going at once, and, of course, they had judges to say which

was the best. If any of the fires got too had a pile of damp bark near BELLOWS." to throw on, and that smoth-

cred the flame out. I am going to tell you about what it was all about. the fires were elegant, in fact As she got to where they

evening, after every one had danced around the fires and sang "Auld Lang Syne" the judges were called upon to say which fire was brightest, and the horse and cow went over by themselves to talk the thing over. Now, just as they walked away the Beaver grabbed up a pair of bellows, lying near, went over to one of the fires, blew it up a bit, and the cow saw him do cat.

WE

COME.

At first the horse and cow talked very kindly about the matter. The horse said, "Which do you think was brightest, dear cow?" and the cow said, "I think No. 13 was brightest, dear horse."
"Oh, no!" said the horse. "I thing No. 23 was brightest,

cow." "Oh, no!" said the horse. "I think No. 13 was brightest, horse."

"Now, you silly cow," said the horse, "No. 23 was certainly brightest." "Now, you foolish horse," said the cow, "No 13 was

certainly brightest." Well! one word let to another, till they were both smooshing (that was the only word, as I told you, for the noise they made), they were both snooshing as loud as they

could snoosh. "NAY! NAY!" snooshed the horse, "No. 23 was bright-

est." "Oh! you silly loon," snooshed the Cow. "I saw the cat use the BELLOWS on No. 23, just as I left."

By this time you may be sure that the noise was fast just snooshed. In those days and furious; to hear a horse a great idea they had was to and cow snooshing at one make big bon-fires, sometimes time, and as loud as they

All you could hear was: "NAY! NAY!" (which means no! no! of course) and "I say the Cat used the BEL hig or dangerous they always LOWS, the Cat used the

Of course, Puss was at the entertainment, and when she Well! the night I am going heard the Cow saying. "The to tell you about (now I hope cat used the BELLOWS," she you are listening,) the night came running over to see

they were simply beautiful, in were the Cow snooshed at the words they were SUPER- top of her voice, "I tell you ALAGLORIOUS, and the that Cat used the BELhorse and cow were appointed LOWS," and the cat know indges, to tell which fire was ing that she had NOT used the BELLOWS. whined All the creatures were there. 'ME-HOW did I use the

Adventures of the Twins and Mutt--John Tries to Pull Out the Loose Tooth and What Happened.

John had a loose tooth. His Pa, Ma and everybody said it should have been out long ago, and you could almost see it wobble when he talked; all the same, I don't believe it was quite as loose at it appeared to be, but, anyway, no matter what you said, John would not have that tooth taken out.

His Pa said, "I'll see that you get the pony." His Ma said, "I'll take you to the circus." His brother Tom said, "I'll give you my box of soldiers," but, No Sir! he wanted to keep that tooth in his head.

Now, one fine day, what do you think John and Tom did? Why, they sent their names in to the "SMILING FACE CLUB," and in a short time received three S. F. C. Buttons. (One John says:

Now, all the club members know that anyone who wears an S. F. C. button must always try to smile, no matter what happened, and also, obey his or her parents, so that day when Pa came home to luncheon he said "Ho! Ho! what is this I see?—two boys with two smiling face buttons; how very nice for your Ms and me;" then, after he had looked hard at John for a minute or two, he said: "I think this is a very good time to have that loose tooth out, for to get a tooth out and smile at the same time is hard for almost anybody, but for an S. F. C. member, why! it should be as easy as easy can be.'

John pulled, Tom pulled, and Mutt pulld—then what happened?

John almost lost his smile, just for the moment, but when he remembered who and what he was, I wish you could have seen him; it kid, John is.

His Pa said: "Now, how do you want it done? Shall I do it or would you rather do it yourself?" And John answered, "I-I w-w- hard toast the other day, and out the tooth would r-r-rather do it myself."

That was only natural, because you or I, or at all. I wish all teeth would come out that anybody with a speck of sense, would rather way, don't you? pull their own tooth out than have someone else do it for them.

Well! Pa went off to work, and John stood

she stopped the horse began,

"NAY! NAY! fire 23 was the

BARK."

for quite a long time thinking; no doubt he was trying to decide on a good way to do the job, and at least he said to his brother, "All right! get me a long piece of twine." Tom ran very quickly, and got him the long piece of twine.

"Now," said John, "tie that end to the lamp chain," so Tom tied one end to the lamp chain.

"Now," said John, "tie this end 'round the loose tooth," so Tom tied the other end 'round the loose tooth.

"Now," said John, "you hold me 'round the waist." So Tom held him 'round the waist. "Now," said John to Mutt, "you grab Tom's coat behind." So Mutt grabbed Tom's coat

"Now," said John, "One, two, three, PULL!!—they all gave one awful tug—and guess what happened! Why! CRASH! BIFF! BANG! down came the lamp, over went John, Tom and Mutt, and there was the tooth still in John's head, with the lamp hang-

ing to the end of the string.

Mind you! besides all that, John fell against Tom's nose and poor dear kind Mutt's tail went into the fireplace, and he burned about ten or eleven hairs off it.

I suppose you think that there was a great hullabaloo; that John cried, Tom yelled, and Mutt hereled. No Sighthere was no such thing!

Mutt howled. No, Sir! there was no such thing! and why ! because they all had S. F. C. buttons on; what other reason could there be ?

Poor little John SMILED as he untied the would have made anyone laugh. He is a dear little Tom SMILED as he held his poor little nose, and kind dear Mutt SMILED as he licked

his poor sore tail. As for the tooth: John went to bite a bit of dropped right on his plate without any trouble

P. S.—Little frog you see in the picture is Mutt's best chum.

#### MAKING THE AC-QUAINTANCE OF THE BIRDS

Was It a Dream? By GERTRUDE M. NEIL

sad as I sit bundled up on the and as I sit bundled up on the verandah, taking my sum-bath. Suddenly I hear a sweet voice sing out
"Cheer up, cheer up!" I looked up
into the bare limbed maple which
grew in front of the house, and there
sat the fattest, reddest vested robin
I ever saw. "Cheer up, cheer up!"
he called, and every time he called
he bobbed his tail up and down.
I smiled at him and he called
"That's right! cheer up, cheer up."
Then he flew sway and I grew a
little drowsy. Then after a while
he flew back to see if I had kept
"cheered up," and I spoke to him.
"Oh! yes, you fine, big, fat robin,
I am cheered up all right, but if you
are sincere about wishing me to
keep so you might entertain me by
telling me about yourself."

"Well, I don't mind," says Mr.
Redbreast. "I haven't started my
home building yet, so I can give you
am hour. My wife and I just returned the 12th of March from the
south, and we are looking for a
place to build, for our last building
place has been cut down. You know
we always so back to the same
place if we are well used. I believe we will settle around here
somewhere, since you seem so
friendly."

"I will be glad to have you I am
sure," I answer, "and there andah, taking my sun-bath. Sud-

friendly."

"I will be giad to have you I am sure," I answer, "and there is a lovely crotch in that tree there, and I will put a bunch of feathers out for you to use for your feather bed."

He thanked me and asked if there were any cherry trees or strawberry beds about. "We have a strawberry bed," I answered, "and I will be glad to share with you and your family."

"Thank you," he replied, "but, of course, we do not take things for nothing. We will rid you of all the insects we can. Last summer I had a broom thrown at me in a strawberry patch and it nearly finished me."

"Well, if I see anyone throwing at you I will report him. I assured him. "You know we have a law for your protection. I think you are the best beloved bird here in Canada," I continued. "We love you for yourself and because your ancestors covered up the poor little babes in the woods. Since you are a gentleman bird, Mr. Robin would you mind tailing me. in, would you mind telling me your age I would not dream of asking the question of your wife."

"I am twelve years old," answers my friend, "and I have known a robin who lived to be seventeen."

Just then Mr. Red-breast's wife flew to the tree in which he was and they talked a few minutes, and he showed her the place I had recommended to him for building. Then they both looked towards me, called Cheer up! cheer up!" and flew a.wav.

Do you know someone touched my shoulder then and told me I had been asleep, but I told them I had not for I had been talking to a robin. and told them what all he had said. They laughed at me and told me I had dreamed it, but I couldn't have. for that very pair of robins have

#### Miles of Pins

are that you would not stoop to pice it up. And yet the wire made u into pins in this country in a sing year would reach thirteen time around the world. Your eyes will stick out in surprise when ye know that we use nineteen billiopins every twelve months. What lot of them! Where do they all so And besides these, there are all the hairpins and safety pins, and the hatpins and the pins used to faste horse blankets on. Nobody know many miles more of wire worked up into these pins. An probably no one could tail us the value of all the pins we need thold ourselves together with, but the men who keep track of such thins tell us that the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make and use are valued at more than the common pins we make the saw one on the walk the abo make and use are valued at more than a million dollars. There are men and women who make it a rule to stop wherever they see a pin pick it up. Did you ever hear

All the day you'll have good luck"! "If you please" makes people willing to help you and serve you.
"If you please" makes people sweeter and happier.
"If you please" is the key which unlocks more doors of kindness than all the cross words in the whole dictionary.

ARE YOU AN ARTIST? Am sorry that so many of the

A great many, while very good, have not been drawn with the proper ink for reproduction, and others I have been able to

use by going over some of the

Your picture must be drawn on heavy white paper. Higgins waterproof ink should be used. all the lines must be distinct and clear, and your work should be mailed flat, not folded. Drawings should be original Also please give age.

# GIPUS that can be

1. Candle shade made on a six-inch wire frame in the Empire style. The foundation is of white silk with pink fose garlands. Either brocade or may be done in water color. The shade is then veiled with pink mousseline de soie, finished with crystal or pink bead fringe; use art braid or French garlands at top and bottom of the shade.

2. Kewpie doll for holding hair pins. The dress and cap are crocheted in plain scallop stitch. Make the dress with a double skirt and finish with scallop edge.

The hair pins-are to be stuck through the meshes of the skirt. The tiny muff holds pins. a. The blotter is of heavy water color matting.
The design may be appliqued or painted. Blotting pads to correspond in color with the designs, are used.

5. A spray for the hair or corsage.

The roses are of mousseline, which is a departure from the silk and satin flower work.

Cut the material into three-inch squares, fold cornerwise and form into petals, using five petals to a rose attach the petals to a prepared rose centre and finish the stems with silk ribbon or tissue paper; add leaves and buds according to size of spray.

a. The candle screen is made on a wire foundation. Thin silk or parchment paper is used for the back. Use heavy silk in desired color for the \*op, make it perfectly plain, cut out the centre and add one of the little French prints obtainable in Art Shops. Finish with art braid or garlands around edge of the screen and around the picture.

7. The coffee pot stand is of perforated brass in conventional design, the rim being of wood. The brass can be obtained stamped for perforating in combination with the wood or by the sheet unstamped.

The brass center is held in place by means of tiny brass tacks. The materials for this article can be obtained in the pyrography degartment of the Department Stores, or in Art Stores.

Our illustrations herewith give but an idea of the character of our selections, where Platinum—the metal so admirably adapted for Diamond Jewelryshows to much advantage.

Kents' Limited DIAMOND JEWELRY
144 SPECIALISTS
144 Yonge St., TORONTO

CHRISTMAS! the time of special new gift-giving, of merriment and of good will.

Gifts that appeal as particularly appropriate for the occasion are those where diamonds—the King of Gems—predominate.

If there is one Department of our store that we are just a little bit more than ordinarily proud of, it is in the one devoted to Diamonds and precious stones, generally.

The accompanying illustrations give but a very modest idea of what we actually show. Still, even here, is there not a suggestion of superiority; Platinum-mounted Jewelry is the modern way of fashionable society in the wearing, and of skilful artists in the designing of fine Diamonds.

We show a most attractive array of beautiful "first-water" gem designs, not only smartly fashioned according to our own ideas, but continually complimented upon by connoisseurs and visitors from the world's leading jewelry centres. "Not outside Tiffany's have we seen such magnificent splendour as your windows display and your values are certainly very tempting," was an opinion expressed by one of a party of tourists recently. Yes, for upwards of forty years we have been continuously situated in about the same and one locality, patronized by the very first families of Toronto. By this we mean that class of buyers who want the best; until to-day "Kents" is a bye-word and a familiar name in most Canadian homes where High-Grade Jewelry is possessed. We show for Xmas buying a most remarkable selection, where a reasonable outlay is only necessary.

For instance, a pair of Gent's Cuff Links, with small, pure, perfectly cut Diamonds, costs but \$10.00.

From this price up, including a most select and chaste Lavalier of simple design in platinum, containing but three single diamonds, one as large as a man's thumb nail and costing \$3,500.00, our stock contains a long list of desirable gifts.

Between \$1.00 and \$15.00 an almost unlimited variety of gift-like suggestions may be availed of all too long a story to successfully enumerate. One must come and see for one's self.

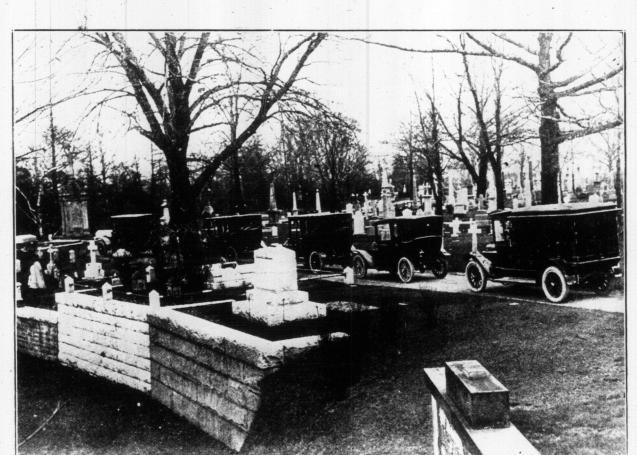

So we invite you to do so before our asssortments are invaded, and secure

THE POPULAR STORY

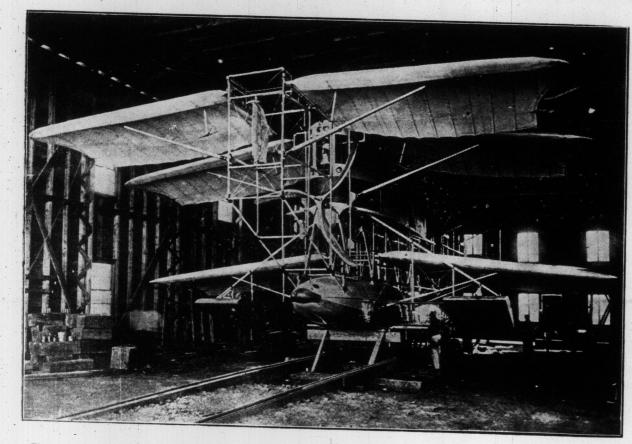

CECILE YEOMANS

STAGE PRODUCTION OF

JUSTINA WAYNE AS "DIANE EVELETH"

CAPABLE CAST

XMAS WEEK-AN EQUALLY POPULAR NOVEL "FRECKLES" BY GENE STRATTON PORTER-XMAS

The mysterious twelve-winged craft, built in Savannah, Ga., which is expected by its inventor, Capt. Matthew A. Batson, of the U.S. Cavalry, to cross one Atlantic. It is a triple-motored multiplane with a speed capacity of from forty-five to sixty miles an hour on water and one hundred miles an hour in the air. It is seventy-four feet long and weighs about 9,000 pounds. The present plan is to make a preliminary flight from Savannah to New York, and then to try to cross the Atlantic.

DESPITE STIRRING EVENTS IN ENGLAND, DUBLIN IS STILL MUCH THE CENTRE OF THINGS EXCITING. CONVEYING THE STRIKE PAY FROM THE DUBLIN BANK.

JUSTINA WAYNE, WHO WILL BE SEEN AS "DIANE EVELETH" IN THE FAMOUS BOOK PLAY, "THE INNER SHRINE," AT THE GRAND ALL THIS WEEK.

THE INNER SHRINE.

It was a pleasure to read Basil King's fascinating story. "The Inner Shrine."

It is a joy to see Channing Pollock's dramatization, with all the splendid "The Inner Shrine" is essentially a love story. The "old old tale." and "the light that never was on land or "The Inner Shrine" is essentially a love story. The "old old tale." and "The Inner Shrine" is essentially a love story. The "old old tale." and "The Inner Shrine" is essentially a love story. fascinating story. "The Inner Shrine." ly Diane Eveleth in her search for happiness, will want to peruse Basil King's pages after seeing this intense-King's pages after seeing this intensely interesting drama. "The Inner Shrine." has been attracting large and enthusiastic audiences everywhere. They watch the great love story unfold its perilous course and win. despite all obstacles. despite malicious slander and gossip, and they come away satisfied. In writing "The Inner Shrine," and in getting it ready as a theatrical production, its mak-

ers keep forever in mind Coleridge's famous line "All are but ministers of love, and feed his sacred flame."

characters reproduced on the stage.

If one has read this tale of love and intrigue, he will find its new setting. intrigue, he will find its new setting even more delightful. Those who did not follow the adventures of the love-ly Diane Eveleth in her search for this has been mankind's absorbing theme since the world began.
