WM. GIBSON, Jeweler, Fine Watch Repairing a Specialty.
Honor Graduate of the Canadian Optical Institute. Eyes tested Free and Glasses Scientifically fitted at Moderate prices

PREFACE.

In presenting to our patrons and the public our fourth Directory of Ingersoll, we have endeavored to make the work as complete and concise as possible. A thorough canvass has been made from house to house, and if any names are missed it will be found that persons so missed are much to blame, as our canvassers have been careful to ask for all names in the houses. We are much gratified at the result of our labors as it will show that the town is in a flourishing condition.

The Postal revenue, which is very large for a town of this size has increased in the last decade more than one third, and our factories, of which we have a fair share, are all active and prosperous.

During our canvass very few vacant houses have been found, which in itself will indicate that the town will compete very favorably with any in the country.

The town will be found ranking very high in the matter of insurance, as it has one of the best Waterworks Systems and Fire Brigades to be found in Canada.

Being beautifully and conveniently situated, and having good shipping facilities, good Electric and Water power, a number of large factories employing a large number of men are located here.

Thanking our patrons for their encouragement, and the Citizens generally for their civility and assistance, and hoping the town will continue to prosper, we remain,

Yours Respectfully,
THE PUBLISHERS.

If You Want to Obtain the Best Results for the Least Premium, It is Necessary to Hold a Policy in the CANADA LIFE Assurance Co.

ACCOMMODATION.

The Ingersoll Collegiate Institute has recently been remodelled and enlarged so that it is now in convenience and accommodation equal to any institute in the province. Besides five ordinary class rooms, a room 25x32 ft has been specially fitted up for the teaching of Science. It is completely equipped for individual experimental work by students in Physics, Chemistry, Zoology and Botany. Each Cabinet is provided with pneumatic trough, water, gas, drawers, lockers, and full set of apparatus.

LIBRARY.

There is a well-selected library in the school, containing a large number of standard books of reference in the various subjects of study and also many volumes of Travel, Adventure, History, Biography, Fiction and General Literature. Students are encouraged to use these freely as supplementary to their text books, and to cultivate a love of good literature

GYMNASIUM.

For the use of the boys there is a gymnasium equipped with standard apparatus, in the use of which the boys receive daily systematic instruction and exercise. In the new Assembly Room of the Institute the girls are exercised in the use of bar bells dumb bell's and Indian Clubs.

COURSES OF STUDY.

The courses of study lead to the Examinations required for Matriculation in Arts, Law and Medicine, and for First, Second and Third-Class non-professional Teachers' Certificates. While special attention is given to students preparing for these examinations, the interests of the general student, who is aiming at a good English and Commercial education, are carefully and thoroughly considered. Students are not required to take Greek, Latin, French or German, unless preparing for examinations at which these languages are obligatory. The general student is thus free to devote more time and attention to other subjects.

TEACHING STAFF.

The teaching staff consists of five masters, who are all specialists in their departments and teachers of experience, whose work is graded First-class by the High School Inspectors.

TUITION FEES.

The fee for tuition is seventy-five cents a month, payable during the first week of each month to the Principal. At the High School Entrance Examination each year two Scholarships conferring exemption from tuition fees for two years are offered for competition, one open to candidates from Ingersoll Schools, the other to candidates from rural schools of Oxford County.

Good board at private residences can be procured at reasonable rates.

Full information concerning text books, courses of study and other matters connected with the institute may be had on application to the Principal.

STOCK COMPANIES.

THE NOXON CO. LIMITED, THAMES ST.

Established in 1856 and incorporated as a Joint Stock Company in 1873 the business of this Company has steadily grown until to-day The Noxon Co Limited, of Ingersoll, is recognized as one of the oldest and most reputable firm engaged in the manufacture of Agricultural Implements. Customers may rest assured that this Company is to-day better prepared than ever to serve them with the very latest and best line of seeding and harvesting machines to be found in any country.

Their plant, in its entire equipment for producing first-class goods in their line, is most excellent, and while they do not pretend to have factories as large as some others, they have large capacity and can make machines very rapidly and economically, and for the coming season are showing the most complete and up-to-date line of machines manufactured by any Firm, Canadian or American.

The officers of the Company are :—

R. H. COTTER, President and General Manager.

C. W. RILEY, Vice President, Secretary and Treasurer.

THOS. DOUGAN, Superintendent.

The Evans Bros Piano & Manuf'g Co Ltd. Wm Watterworth, President
W R Dunn, Manager.
