WINE LEADERS RECOMMEND STRIKE TERMS

VOTE TO REFER GOVT OFFER TO COAL DISTRICTS

Acceptance of Proposals is Urged Upon Unions

BALLOT FIGURES

432,000 in Favor of Stipulations While 325,000 Voted Against Them

LONDON, Nov. 13.—Delegates representing the striking coal miners, in conference here today, voted to refer the government's strike settlement proposals to the various districts with the recommendation that they be accepted.

VOTE FAIRLY CLOSE

The card vote of the delegates were 432,000 in favor of accepting the terms and 325,000 against the proposals.

BALDWIN'S TERMS

The government's memorandum of settlement, which has been described as its "last word," touches the main point at issue, that of increasing the miners' hours of work beyond the statutory seven hours daily and the contingent question of wages.

STEAMERS CARRY PILOTS OUT TO SEA

Terrific Hurricane Prevails at Father Point, With Sea Very Rough

QUEBEC, Nov. 13.—A terrific hurricane which has prevailed at Father Point for the last two days with the wind attaining a velocity of 70 miles an hour, was reported by Pilot J. A. Bernier, president of the Quebec Pilots' Union on his return from Father Point. Owing to the weather conditions the pilot tender was unable to leave her station with the result that four Quebec pilots were unable to disembark from as many outward bound steamers, and proceeded to sea.

Family Group Photo Is Passe In Britain

LONDON, Nov. 13.—Family groups are a thing of the past in British photograph galleries. Mothers, fathers and all the children no longer present themselves to be lined up in angular awkwardness before the camera. Neither do wedding parties pose in their thirties any more.

THREE HELD FOR ATTACK

WINNIPEG, Man., Nov. 13.—John Williams, farmer of Vanguard, Saskatchewan, on Thursday night, when holdup men beat him brutally and robbed him of cash and checks to the value of \$800. The police withheld announcement of the robbery until they had arrested three men alleged to have been the thieves. The men held are Alexander and Peter Acheson, brothers, and Michael Adams, all with police records. They will appear in police court tomorrow.

National Prohibition Party Slated For Consideration At British Columbia Meeting

VANCOUVER, B. C., Nov. 13.—Formation of a Canadian political party having as its object a "bone dry" Dominion, will be considered at a representative convention of British Columbia prohibitionists in January, it was decided at yesterday's session of the British Columbia Prohibition Association in convention here.

WEATHER IS IDEAL FOR CONTEST TODAY

Wanderers-U. N. B. Clash Today at Capital Attracts Large Crowd

FREDERICTON, N. B., Nov. 13.—Whether Ritchie McCoy will play with Halifax Wanderers against U. N. B. this afternoon, will not be definitely decided until game time, President Guy of the Wanderers announced shortly before noon.

MUSSOLINI CAUSES MUCH UNEASINESS

France and Turkey Watching Every Move Very Closely These Days

LONDON, Nov. 13.—Premier Mussolini's activities are still causing the greatest uneasiness both in France and Turkey. French newspapers reflect an attitude of great vigilance towards him and his movements, while the Turks are almost panicky in the fear that he will suddenly attack them.

REFUSE NEW TRIAL

Quebec Appeal Court Turns E. Bigaouette Down

QUEBEC, Que., Nov. 13.—Eugene Bigaouette, who had been found guilty of the murder of his mother, was refused a new trial by the appeal court of the Province of Quebec today. Two judges were dissident and the case will go to the Supreme Court of Canada.

Montana Auto Bureau Operated By Convicts

HELENA, Mont., Nov. 13.—Montana's experiment in using prison labor to operate the automobile license bureau apparently has proven successful. With the peak of the year's business passed and \$500 more cars licensed than last year, the expense has been cut almost 50 per cent.

Women Here Happier Than Anywhere Else, Says Marie

ST. LOUIS, Mo., Nov. 13.—Queen Marie has been seen to convince her that the position of "women in America is happier than anywhere else." The reason for it, she told St. Louis women, who were her hosts at luncheon, is that "you men allow the women to do their share to a much larger degree than in my own country. I am struck with the wonderful lives of the women here. I shall take home a vision of the wonderful work that women do here, while at the same time, they are having a glorious time of it."

IMMIGRATION CONFERENCE IS URGED ON FORKE

Suggestion Made by Various Welfare Organizations WANT ACTION

Minister Intimates He Will Take Matter Into Early Consideration

OTTAWA, Nov. 13.—The calling of an immigration conference at the earliest opportunity was suggested to Hon. Robert Forke, Minister of Immigration, yesterday. The suggestion was made by representatives of welfare organizations of Protestant churches, who waited upon Mr. Forke.

The delegates were of the belief that the conference should include representatives of the Dominion and Provincial governments, the churches, all voluntary organizations interested in immigration and the transportation companies.

GREAT FUTURE FOR CANADA SEEN BY WILLINGDON

Chair in Honor of J. R. Booth Likely for Queen's University

KINGSTON, Ont., Nov. 13.—Citizenship and Canada's duty to the motherland, the British empire, and the world formed the keynote of Viscount Willingdon's address at the annual fall convocation of Queen's University held last night in Grant Hall.

OUR women readers are telling us that Ethel Hays' cartoons can't be beaten.

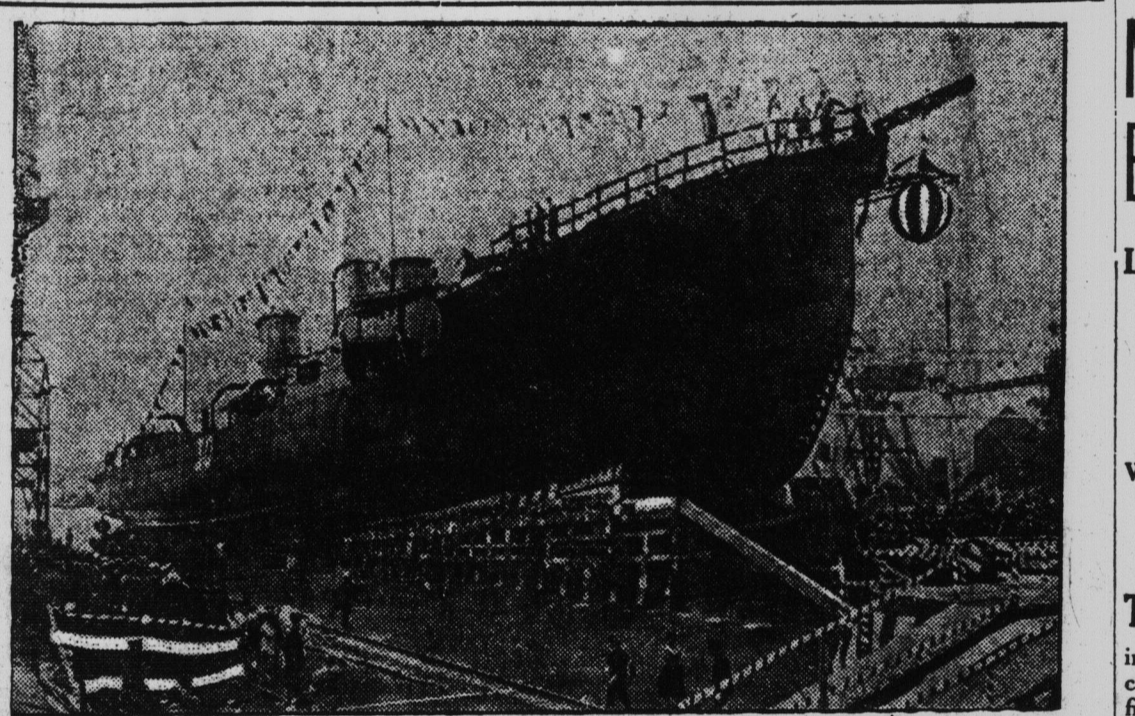

We have thought so for a long time and are pleased to know that the efforts of this foremost girl cartoonist are being appreciated here in Saint John.

Ethel draws girls that men like, and a lot that girls like. There is a man of snap to every drawing she turns out.

Her drawings are a regular feature in The Evening Times-Star and once you start reading them you will be watching for them.

This new unit for the navy of Japan, designated as Destroyer No. 30, is said to be one of the most powerful additions made to the Japanese fleet in some time.

CHINESE PIRATES ROB FRENCH LINER OF \$50,000 BULLION

RUM RUNNERS ARE NOW USING SUBS

Undersea Craft Seized at St. Albans, Vt., With Cargo of Ale

ST. ALBANS, Vt., Nov. 13.—An undersea rum-running craft described by the customs authorities as "a submarine without motors," was seized on Lake Champlain last night with 4,000 bottles of ale, it was reported here today.

MINERS PAID OFF

Stabilization at Springhill Leads to Action

SPRINGHILL, Nov. 13.—About 70 Australian and Slav miners, who were held out to the Cumberland Railway and Coal Co. in accordance with the arrangement made for the stabilizing of employment made necessary by the flooding of No. 2 colliery, it is understood that the majority of the men released from the Springhill Mines will be absorbed into the forces of the Dominion Coal Company in other Nova Scotia areas.

HONORED BY FRIENDS

FREDERICTON, N. B., Nov. 13.—(Special)—About 35 friends of Mrs. John Bolster waited upon her last night at her home in Barker street, Devon, and tendered her a surprise party on the eve of her departure for West Enfield, Me., where she will join her husband, Mrs. Bolster was presented with a handsome umbrella and a tablecloth.

Valuable Shipment Of Foxes To Quebec

QUEBEC, Nov. 13.—Thirty-six pairs of silver foxes, valued at \$50,000, reached Quebec yesterday afternoon en route to Chiboutini. The foxes had been shipped from fox breeders of Belle St. Paul to breeders at St. Honoré, Chiboutini county.

TAKE \$20,000 LOOT FROM PASSENGERS

Turn Liner Toward Bay After Attack and Then Abandon Her

HONG KONG, Nov. 12.—Twenty-six pirates boarded the French steamer Hanoi at Kwangchowwan, south of here, shot and killed a guard, assassinated the captain and passengers, and abandoned the ship, taking \$20,000 worth of bullion, \$20,000 in loot from the passengers, and a large quantity of guns and ammunition, it was learned here today.

KILLED THE GUARD

After killing the guard, the pirates tossed his body overboard and proceeded to loot the ship, encountering no further resistance. Eleven rifles, ten revolvers and thousands of rounds of ammunition made up the haul in guns and cartridges. The boarders then turned the Hanoi toward the bay and abandoned her.

U. S. Bank Is Closed Following Robbery

DETROIT LAKES, Minn., Nov. 13.—The mysterious shooting of two bankers in the Citizens State Bank of Gullaway, Minn., was followed yesterday by the closing of that bank and the security state bank here because of depleted reserves. Physicians said another 24 hours must elapse before they will permit authorities to question W. J. Norby, stockholder of the bank and Frank Murphy, its cashier, found in the bank Tuesday suffering from bullet wounds.

SENTENCED AT BANGOR

BANGOR, Me., Nov. 13.—Max Galpert of Bangor was sentenced to a year and a day in the federal penitentiary at Atlanta by Judge John A. Peters in the U. S. District Court today on an indictment for conspiracy. Galpert was the head of extensive rum running operations. He pleaded guilty. Simon Bell, indicted with Galpert and believed to be an employe, paid a fine of \$500. Fred Boulter of Millinocket indicted for conspiracy paid a fine of \$500.

Spanish Count Challenges Primo de Rivera To A Duel

PARIS, Nov. 13.—A duel between Premier Primo de Rivera of Spain and Count Romanones threatens to settle the long-standing political controversy between the two gentlemen. Count Romanones, who frequently attends a bull fight in Madrid and frequently the Premier in the applause he receives from the people, wrote Rivera Friday from Paris and asked satisfaction on the field of honor. He said that statements Rivera made on Nov. 5 were responsible for the challenge. The Premier on the day in question explained the reasons for a national assembly with only limited powers. He called on Romanones and other opposition leaders to express themselves on the question, but as far as is known made no personal attack on the Count.

ACCLAMATIONS NOT EXPECTED BY THE LEADERS

Lists Likely Filled Next Week Before Nomination Day

PREMIER SPEAKS

W. F. Nickle Tendered Prohibition Label for East Hastings

TORONTO, Nov. 13.—Today, exactly one week from nomination day in Ontario, 218 candidates of various party affiliations or independent, are in the field. While this number is almost sufficient to provide a contest in each of the 112 ridings, a half dozen or so are still uncontested and in a few others only one candidate is so far campaigning. The lists will probably be filled next week, for there is no definite expectation of acclamations by the leaders.

Premier Ferguson at London last evening gave his definition of the question Ontario electors have to decide on December 1. "They have to decide whether liquor, including poisonous concoctions, shall be allowed to percolate through all sections of the province through bootlegging activities, or whether we shall direct the liquor through one channel, where we shall know every one who buys, how much he buys, and have the means available to cut off his supply if he abuses the privileges extended to him."

MRS. EMILY GALLOP WINS NEW TRIAL

Appeal Court Holds Judge Wrongly Advised Jurors in First Case

QUEBEC, Nov. 13.—In a judgment rendered this morning the Court of Appeals has decided that Mrs. Emily Sprague Gallop, who had been found guilty by the jury on the charge of having poisoned her husband, shall have a new trial. The judgment declares that the address of Hon. Judge Gibbons to the jury at the trial that was held at Roberval, was illegal and that it wrongly advised the jurors. No date has been set yet for the new trial.

SENTENCE MONDAY

Oromocto Indians Before Magistrate at Capital

FREDERICTON, N. B., Nov. 13.—(Special)—Peter Atwin, an Indian from the Oromocto reserve, charged with carrying firearms in the woods without a license was acquitted by Police Magistrate Limerick on that charge but was found guilty of refusing to give information to a game warden when found by him in the woods. He was sentenced to 30 days in jail.

EXPULSION OF GARIBALDI

PARIS, Nov. 13.—Expulsion of Rictotti Garibaldi and Francisco Macias, who were allegedly involved in the recent unsuccessful Catalan plot, is understood to have been decided upon by the Minister of Justice, Louis Batheux. It is planned to put the men over the Belgian frontier tonight. Mr. Batheux is said to consider this the best means of getting rid of the whole insignificant affair.

WILLINGDON ACCEPTS

OTTAWA, Nov. 13.—Lord Willingdon has accepted the office of honorary patron of the Army and Navy Veterans' Association to which he was elected at the recent convention of the association.

BRAND NEW FROM START TO FINISH

Dumbells Show a Composite of English and American Hits of the Hour.

The Plunkett Dumbells show, which plays at the Imperial a week from Monday-Tuesday, is described by the Upper Canadian and western papers as a complex version of the hits of English music halls and the best American and Canadian vaudeville, interpolated with specially-written and cleverly conceived songs, sketches and scenes suited to the talents and physical comicalities of the well-known soldier artists. Ross Hamilton, Al Plunkett, Fred Newman, Stan Bennett, Pat Rafferty, all the stars will appear in their own stuff, songs and "routines" suited to their special line of entertainment. The whole show has been rebuilt as to staging, the sketches are side-splitting, the songs, dances and ensembles snappy and last-words. The Jass Orchestra is this trip to have a sensational new phase. The celebration of the Gyro Club anniversary next Monday, with Dumbells as dinner guests, and dance guests and the show sandwiched in between with all present in the theatre—a block of about 200 seats—is going to give the occasion a dash of social brilliancy quite unobtainable elsewhere. The ticket sale is so far in advance the average. The box office sale starts next Thursday. Checks or money orders must accompany mail orders.

THE DETOUR OPERA HOUSE ON MONDAY

Archie Marks to Present Owen Davis Play Here— It Tells Strong Story

One of the most humane plays ever written is The DeTour, from the pen of Owen Davis, who is considered to be America's best writer of appealing dramas. Miss Archie Marks and her clever company will appear in this dramatic masterpiece for three days next week, Monday, Tuesday and Wednesday. The DeTour will be seen with all its detail, and it will be the first time ever shown in Canada at stock company prices, which should guarantee capacity houses. If you want to hear a strong story, have a hearty laugh, shed a tear, and see the curtain fall on one of the best written plays in years, do not miss The DeTour.

Williams Keeps His Corn-Husker Title

ELMIRA, Ills., Nov. 13.—Elmer Williams, national champion corn husker, who shucks with an old-fashioned hickory peg and prays before he enters the contest, upheld his title here yesterday in a field of 16 contestants, with a record of 28.8 bushels of corn husked in one hour and 20 minutes. The world's record made by Williams last year was 36.8 bushels.

IMPERIAL A MONTH AHEAD ON MONDAY

First National Pictures can always be depended upon. The big feature at the Imperial Monday-Tuesday is "The Prince of Tempers," a sumptuously-mounted story of an English youth called from holy orders in an Italian monastery to succeed to a dukedom and how the social wilds of the aristocracy and the many allures of women might have caused his downfall if a strong character and spiritual ascendancy had not withstood the test. The picture is slated for release Dec. 26, over a month hence, and in showing it Monday the Imperial will again be ahead of all North American release dates. By the first of the year "The Prince of Tempers" will be a mild sensation on Broadway and in the big centres, which makes it difficult to impress Saint John people in advance how good a picture it is. We usually wait down here for the premiere criticisms. This is a regular picture engagement.

RENEWED INTEREST IN THE "Y"

The business men's recreation centre for light exercise, swimming, bowling, billiards and social intercourse—is the Y. M. C. A. and the ranks of older citizens are swelling yearly at this institution. The bowling league of business friends is already in merry operation. Physical instructor Clark has classes well lined up, making them convenient for business men at special hours. The young business men and youths of the ten ages are in great force at the "Y" this winter while the little fellows bid fair to break all attendance records. Indeed the Y. M. C. A. with its many attractive features, aside from the basic idea of Christian living, is considered by family folks to be a wonderful investment for father and son alike at the cheap membership rates ranging from \$2 to \$18 in easy stages. The old custom of making Christmas gifts of "Y" tickets at this early date is still being observed, so that recipients will receive the full season's benefits.

Holds \$30 Bill Put Out In 1778; Is O. K.

NEW BRITAIN, Conn., Nov. 13.—A bona fide \$30 bill is held by Bernard L. Hoppe of this city. Local banking houses pronounce it authentic, and Hoppe has refused many times its face value. The note, dated September 26, 1778, and signed by "A. Lawrence, Secretary of the United States Treasury," is numbered 217,305. It is about one-fourth the size of a modern dollar bill. Bankers say it is still legal tender.

Krupps Unable To Get Turk Contract

CONSTANTINOPLE, Nov. 13.—Negotiations for the construction of three railway lines in Anatolia are being carried on by the Turkish government. Two German, a Belgian and a Swedish group of interests have been competing for the contract, which has not yet been awarded. A decision is expected at the end of this month. The Krupp interests of Germany were among those competing for the contract. Friedrich Von Buelow, Berlin representative of the Krupp, yesterday said that negotiations for a Turkish railway contract in Anatolia had been unsuccessful.

VETERANS HAVE OWN TOWN FOR Waning Years

"City of Dreams" in Kansas People By Old Timers

DODGE CITY, Kan., Nov. 13.—There is a "city of dreams" near here, populated by a handful of elderly men and women who live almost entirely in the past.

It is Fort Dodge, Kan., where veterans of the Civil and Spanish-American wars live a tranquil, undisturbed life with their wives, and where the widows of those who fell during or after the battles, live.

Fort Dodge is a picturesque little village. There is a drowsiness about it which imparts an air of peace even to the casual visitor. There is no bustle of business there, quite in contrast to the town of a few years ago when Fort Dodge was one of the most important of all the government trading posts.

There are two modern buildings recently erected at the entrance to the Fort, but the rest of the place is nearly as it was in the 80's. The white-haired women move sedately about their affairs in the dress of several years ago and their white-haired husbands wander over the grounds in the uniforms which were used for ceremonies and dress parades.

Peace emanates from the very trees over the ground. "Contentment" seems to be written over the area as the visitor catches his first glimpse of the vine-covered porches where the white-haired veterans smoke their pipes and discuss the glories of the past.

Award To Shaw Is Cause For Surprise STOCKHOLM, Nov. 13.—Award of the 1926 Nobel prize for literature to George Bernard Shaw, British author and dramatist, caused surprise in Swedish literary circles, but it nevertheless meets with general satisfaction.

It is understood that when the Swedish minister in London notified G. B. S. of the award, the latter replied: "It can't be true—I haven't written anything worth mentioning for several years." Commenting yesterday on the award, the leading Liberal papers say Shaw's works contain wit, paradox, sarcasm and irony, with a strong current of social paths. It terms him "The Voltaire of our age."

LONDON.—The nationality committee of the imperial conference is seeking to safeguard the position of a girl of British nationality who marries an alien. With regard to the case of a Canadian girl who marries a citizen of the United States difficulty lies in the United States law, which does not admit such a girl to American soil. It is suggested that such a case might be met by allowing the girl to retain her British citizenship if she wishes.

Great Wastage of Water In Saint John Shows Need For Watching Small Pipe Leaks

How much aqua pura, or just plain water, do you think you use every day? Just 350 gallons for every man, woman and child in this city. People might smile broadly if they were told that they personally were responsible for the use of this amount of water but nevertheless it is a fact, for whether they use it or destroy it, it goes just the same.

The daily usage of water in the city of Saint John is 16,000,000 gallons per day for every day of the year. In the winter time the quantity is still greater, owing to the fact that people leave their taps running and use just 3,000,000 gallons more every cold night. People might be very much surprised to hear this but the meters of the city water system tell no lie.

DETERMINING THE AMOUNT This city is supplied with water by three mains, two of them being 24-inch mains and the third a 12-inch main. This water is obtained from Loch Lomond, which passes through Lake Robinson, thence through Lake Latimer and into the different mains. The amount of water that pours through the two larger mains is 6,000,000 gallons a day each and 3,000,000 through the smaller main.

SOME OTHER FIGURES The city of Boston uses 850 gallons per capita, but through its mains it leaks mains this was reduced to 100 gallons per capita. The city of London, England, uses 27 gallons per capita, which is considered small as against 850 gallons per capita in Saint John. Asked the reason for this local official stated that it was not due to leaky mains, as the mains are in first-class shape and during the last few years over 50 per cent of the mains in Saint John had been repaired. When opened up these mains were found to be in good condition.

WATCH THE SMALL LEAKS It may be surprising to know just how much water is lost annually through small leaks in taps, valves and ordinary drip from a tap and see what it amounts to. It is estimated that while a single drop of water during the eight gallons are lost a day, 50 gallons a week and 2,920 gallons a year. How many such leaks are there in this city? In a 1-16 inch leak, 840 gallons are lost a year, 6,948 per week and 209,888 gallons a year. In a 1-8 inch leak, 18,560 gallons are lost per day, 96,432 per week and 4,971,400 gallons every year. It would only require four such leaks as a 1-4 inch leak to equal the total consumption of water in this city a day.

DO NOT WASTE WATER Officials do not blame proper use of water and place no restriction on its amount, but they do not wish to see water wasted in great quantities because it reduces pressure on hydrants in case of fire and reduces pressure on taps in the higher levels of the city.

LADIES! Don't wave your hair daily—or even every week. Here's a way to keep it wavy for days at a time. BEFORE you use your iron, or curlers, DAMPEN the hair with DANDERINE. Just a few DROPS on comb or towel. Your locks will then behave for a MONTH! Of course, you know what Danderine does to dandruff; dissolves every speck, within five minutes of rubbing into the scalp. But as a wave-preserver on the hair itself, Danderine is a JOY. The best dressing in the world because it doesn't show. Any permanent wave or water wave lasts much longer and looks much nicer when Danderine is used instead of water to "set" the wave.

ASK YOUR DRUGGIST Get a bottle of Danderine and start its benefits today. Every drug store has it, for only 35c. For the finest dressing in the world, find and the best aid to hair health yet discovered, just try—

SAINT JOHN, N. B., NOVEMBER 13, 1926.

NATIONALIZATION

IT IS understood that the City Council and Board of Trade are devoting some attention to the question of the nationalization of the harbor. This matter is the most important that has been brought before the citizens of Saint John for a long time.

LAKE SHIPPING MONOPOLY

THE Manitoba Free Press devotes a long and illuminating editorial to the question of our shipping laws on the lakes and their interpretation. Briefly, the law gives the monopoly of freight carrying on the lakes to Canadian shipping companies; it has, however, been held that the Government may by order-in-council suspend these laws, and as a matter of fact they have been regularly suspended in one particular case.

Which should be done is a matter to be examined closely from the national economic standpoint as well as from that of the shipowners. To start with generalities, it is agreed by all economists that flag discrimination, while possibly conferring temporary benefits, has an eventually pernicious effect on shipping.

NOT MUCH EXPERIENCE (Montreal Star) IN THE true sense of the word there is but little "experience" guidance of cities in Canada. It is unfortunately the fact that great numbers of men are placed in important civic positions largely through influence, and precious little heed is given to qualifications.

THE LATE R. C. ELKIN

ANOTHER link with the old shipbuilding days in Saint John was broken this morning with the death of Mr. Robert C. Elkin, head of a firm of ship brokers which bears his name.

Since 1878, the year following the great fire in Saint John, Mr. Elkin had been a prominent figure along the waterfront, as well as in the civic affairs of the community. For a time he was a member of the council of the Town of Portland, just before that section was taken into the city.

By the members of Main street Baptist church, news of Mr. Elkin's passing will be received with special regret, on account of the fact that, for nearly 30 years he had been one of the most active and energetic workers in the congregation.

Marshal Pilaudski reviewed his troops on Armistice Day from the back of a chestnut mare, his charger during the War. There is something particularly appealing about an animal war veteran, especially a charger. The Marshal's mare was at least fifteen, even if she was only a seven-year-old when hostilities ceased.

Rev. E. B. Wylie, whose utterances started the enquiry into allegations of moral laxity in Ottawa schools, states that he is dissatisfied with the result of the enquiry; that he tried to substantiate his charges by credible evidence, but that several of his witnesses became afflicted with "conveniently bad memories."

If the miners in Great Britain continue to return to work at the rate of 5,000 to 8,000 daily, as they are now said to be doing, it will not be necessary to worry much longer about the strike. However, terms of agreement will probably be arranged within the next few days so that all the men may return to work.

There is a great waste of water in Saint John, but there would be very great difficulty in preventing it. There are so many ill-constructed houses, into which the frost penetrates during our severe winters, that tenants must choose between allowing the water to run at night and having the pipes freeze and leave them without a water supply. Fortunately the source of supply is ample. If it were not, heroic measures would be necessary.

Uncle Joe Cannon, with his inevitable cigar, has passed out of the picture. Those whose memories of American politics go back thirty years or more have a lively recollection of the sayings and doings of this man, who attained an influence in Congress equalled by that of no other man of his time.

The request of the Commissioners of the General Public Hospital that they be paid the full amount of the warrant issued in their favor by the municipality is a reasonable one, and will no doubt receive favorable consideration.

News and Views From The British Capital

LONDON, October 28, 1926.—Aeronautical experts are seriously considering the obviously growing and urgent need for a commercial air language. With the rapid development of long-distance flying, and air services covered in a single journey many different countries, something of the sort is a necessity.

China and Back in a Week! Already it is possible to travel by this service from Crofton by day to Berlin, on to Königsberg by night, and thence to Moscow by day. And the latter expert has just returned from an air survey from Moscow to Peking, with the intention of extending the service right away from London in the West End.

The Jabberwock? It sounds incredibly absurd that a serious expedition should be setting forth for the Congo in quest of the prehistoric brontosaurus. Yet such is the actual case, I am told, and some veteran explorer almost, if not quite, beyond regular work, though, of course, many have been useful when far past that age.

Valerian Tragedy The full story of the disaster to the white ensign slooper Valerian reveals a sea tragedy of the sort that was a familiar name in the days of the "sweep" Bermudian waters. In the old sailor times the British Navy lost many a good ship in those regions as the hard-hitting big game business respectively sails fished from the oceans, and modern shipwrights wrought their miracles of steel and boiler.

A Hot Phone Number It was only last night, when I heard someone ringing up at a district office, that I learned that I must now the latter arrange their "phone numbers. Every business man knows the importance of a hard-hitting big game business respectively.

The British Way (New York Times) THE question of "equality of status" among the Dominions of the British Commonwealth seems to have become a subject of great interest in British circles. There was much enthusiastic prediction that the Government would be asked by the assembled representatives to amend their own Constitution and to settle their own law cases absolutely, cutting off the appeal jurisdiction of the Privy Council.

Queer Quirks of Nature

THIS TELLS WHERE GRASSHOPPER GOES IN WINTER By Arthur N. Pack

IN the fable, the ant reviles the grasshopper because he passes the summer in feasting when he should be gathering provisions for the winter. When the winter came the poor musician is represented as repenting of this improvidence, and begging the winter and provident ant for a little provision to keep him from starving.

Grasshopper

old Mother Nature takes care of her children. Some, indeed, must lay up stores to live, others may sleep, and to many she has given the power to hibernate through the winter.

THEIR SEASON OF LIFE Some she gives to understand that as they may, they cannot live beyond the warm season, and these she bids sing, but charges them that, ere the summer is gone, they must make sure their offspring will next year carry on the race.

HOLE FOR THE EGGS The mother grasshopper digs a hole for her eggs; the ovipositor itself doing duty as a digging tool, and lays in the pit a great number of longish eggs. Long after she has laid the tiny grasshoppers hatch out, and are able to care for themselves from the start.

Timely Views On World Topics FOR VOLSTEAD ELECTION (By Robert F. Wagner, Senator-elect of New York)

I REGARD my election and the result of the referendum as a man date for me to try at once to get modification of the Volstead law. That is one of the things that I promise during my campaign, and I intend to keep my promise. At the same time I am not so foolish as to believe that I can go down to Washington with my amendment under my arm, intending to declare that Congress accept it.

CHICAGO WATER DIVERSION UP AT WASHINGTON

Is Blamed for Higher Lake Rates by Parties at Hearing

WASHINGTON, Nov. 12.—Testimony that Chicago's drainage diversion burdened navigation on the Great Lakes system as far as St. Lawrence tidewater near Quebec, was presented today in the Supreme Court Lake Level hearing.

CARGO CAPACITY REDUCED

A fall ranging from four to six inches in the water level of the Great Lakes has reduced the cargo capacity of some 400 lake vessels by from 80 to 110 tons for each inch or each of 38 cargoes in the average season.

CHICAGO RATES HIGHER

Because of the shallow channel in Chicago harbor lake rates on anthracite to Chicago are 10 to 15 cents higher than rates to South Chicago, where the facilities permit heavier cargoes.

THE KITTY-KATY LETTERS

Confidential Communications Between Two Charming Girl Friends—One Married

DEAR KATY:—Tom says "Penny-ante" must be some Latin word which Mr. Ellsworth learned at Frederick. He said he often wished he had had the chance to go to college too—then he would not look so dumb when anyone threw a Latin word at him.

Tom is just crazy about me although we have been married nearly a year. He says I'm actually too good for this world. I wish I were as good as he thinks I am. He gave me another \$500 and said "Go buy yourself some pretty dresses." His business is doing wonderfully.

He offered to drive me over to Calais tomorrow to shop but I told him that going out of town to buy things was all foolishness as our local stores displayed just as nice dresses. I picked out two to start with—one is a flowered lawn with black background, pink flowers. It is the kimono style, you know, flare sleeves and circular skirt. The other is a Canton Crepe ensemble dress in the new blonde shade, flare skirt, belted waist-line. And I bought blonde satin slippers to match.

Lovingly, KITT.

NOTE.—So "Penny-ante" is a Latin word? More on this subject Monday

ACROSS CANADA

MONTREAL—Jas. Ewing, president of the town planning institute of Canada, is dead here. He died in Scotland 62 years ago.

TORONTO—Edwin Newson, colored, convicted in Police Court on five charges of house-breaking and three charges of receiving, was sentenced to five years in Portsmouth penitentiary.

TORONTO—Samuel Bucker, 86, who was the sole survivor of nine men who founded the Sons of England society in Canada, died here Friday. His brother, Charles, and F. B. Smith, two others of the nine founders, died recently.

WINNIPEG—Reprimanded by his wife for drinking, Gustav Vonich, 60, a local farmer, walked a short distance from his home, tossed a rope over a tree branch and hanged himself. There will be no inquest.

CALGARY—Revenue from taxes for the first 10 months of this year amounted to \$2,950,807, a decrease of approximately \$106,360 as compared with the corresponding period of last year, according to figures released by the city treasurer's department. The reduction in the levy is responsible.

THREE HILLS, Alta.—Ralph Pooley, of Timmins, Ontario, while working in the Pallade mines was fatally hurt by a shaft falling on him and crushing both legs. He also received internal injuries. He lived only 10 hours after the accident. He was a harvest hand and was trying to earn enough to take him home. He was 22 years old. His father and mother are in Florida.

VICTORIA—E. A. Morris, Limited, was fined \$100, the minimum under the act for a company, and John Harris \$500, when Magistrate Jay handed down a judgment in the city Police Court, finding the accused guilty of selling liquor in the candy form known as "rum chocolates," and similarly flavored delicacies. Mr. Harris has indicated that it may be carried to the court of appeal.

TORONTO—Fourteen cases of smallpox have been reported to the city health authorities since last week, and are alleged to have originated in a bowling alley. One of the pin boys there was the first sufferer, while the manager of the alley is now among those ill. The only sufferer so far found who had ever been vaccinated was a man of 22 years who was vaccinated as a boy.

CALGARY—Sarah Murray, 18, was seriously injured early Friday night, when she was struck down and rolled under a street car in the heart of the city. Afraid to move forward or backward, it was a quarter of an hour before the car could be jacked up and the girl released. Meanwhile, the streets were jammed with people horrified by the girl's screams. She was removed to a hospital, where her injuries are serious. It is said the girl started to run across the street to meet a friend, when struck.

TORONTO—George J. Woods, said to be over 70 years of age, who is being sued for alimony by his wife, 30 years his junior, told Mr. Justice Rose that his wife had threatened "to throw coal oil on me and set fire to me." The case is proceeding.

Japanese Return To Gold Expected

NEW YORK, Nov. 12.—The steady rising value of the yen on the foreign exchange market and the heavy purchases of Japanese government bonds by the Stock Exchange, is taken today as an indication of the early return to the gold standard by Japan. The Japanese 6 1/2 per cent. bonds that were sold here after the Japanese earthquake at 22 touched and then crossed par today under buying said to have come from Japanese sources.

FOUND DEAD

COLEBROOK, N. H., Nov. 12.—The body of Sam Brackley was discovered in a blood-stained bedroom of his home today, and a few hours later his wife was found in the woods across the Connecticut River with a slight cut on her throat. She told the officers she had tried to commit suicide.

"NUISANCE" IS TERM USED FOR ITALY'S LEADER

British Paper Raps Mussolini For His Actions

LONDON, Nov. 12.—"International nuisance," "Italian nightmare" and "little revolutionary moustache" are some of the terms used to describe Premier Mussolini in an astonishingly vitriolic editorial by the Laborite Weekly, the "New Statesman."

Denouncing Mussolini's "measures of reprisals against foreigners," the paper declared that "even Moscow never dared go so far as regards foreigners."

BECOMING NUISANCE

"What is Mussolini about?" it asks, and then gives the answer: "His present actions suggest something almost akin to the romantic condition which commonly precedes the disease known as general paresis of the insane. At all events he is rapidly becoming an international nuisance and sooner or later will have to be dealt with as such."

"The western world cannot calmly stand by and watch Italy relax into semi-barbarism. Mussolini is an Italian nightmare. It is necessary to the peace and general economic recovery of Europe that Italy should be brought under the control of a sane and reasonable man. It is necessary to the peace and general economic recovery of Europe that Italy should be brought under the control of a sane and reasonable man. It is necessary to the peace and general economic recovery of Europe that Italy should be brought under the control of a sane and reasonable man."

DANGER OF FRICTION

The Spectator, Nation, and Saturday Review print editorials pointing in moderate language to the danger to European peace of friction between Italy and France, and according to the Nation, "still more through Italy's anti-foreign measures."

"We don't believe," says the Nation, that Mussolini desires a foreign war. The records show his bark is worse than his bite, but there is great danger should we fail to dominate the situation, and that is just what the revolutionary dictator says. New decrees in Italy remind one of France in 1792."

THE T.R.I.D. OUT WOMAN

Needs the Help of Dr. Williams' Pink Pills for Pale People

No mother should allow nervous weakness to get the upper hand of her; if she does worry will mar her work in the home, and her nerves in her mind and body. The monotony of the average housewife's daily toil is enough to cause nervousness. Now there are other causes, as every mother knows, that tend to weaken and make her nervous. Now a change and rest might improve her health, but best of all for jaded women is a course of Dr. Williams' Pink Pills. These pills make new blood, rich with the elements on which the body and nerves thrive.

The value of Dr. Williams' Pink Pills when the blood is weak and watery, and the system run-down is shown by the experience of Mrs. C. W. Jackson, R.R. 1, Gilford, Ont., who says: "Before beginning the use of Dr. Williams' Pink Pills I was completely run-down and could hardly walk across the floor. As the mother of young children with the usual household duties to perform, my condition was one of despair. I had seen Dr. Williams' Pink Pills advertised and decided to try them. This was a happy decision as I had not been taking the pills very long before I began to feel better both in body and mind. I continued the use of the pills for a couple of months and now feel like a new woman, able to perform all my household duties. I would not be without the pills in the house and I recommend them to all run-down people."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Local Red Cross Executive Holds First Meeting In New Rooms and Plans For Winter

The newly elected executive of the Saint John Red Cross Society held its first meeting of the season yesterday afternoon at its new room, 28 King street, with Mrs. I. F. Longley, president, in the chair. Arrangements were made for having the room open each morning from 10 o'clock to noon with a volunteer worker in charge and to hold sewing meetings each Friday afternoon, from 3 to 5 o'clock, when members can work on garments for the society supplies.

The regular meeting of the local branch will be held in the room on the afternoon of the fourth Wednesday of each month and all of the members are asked to attend at that time. It was decided to make use of the room also by renting it for bridges and teas to other organizations.

Those present at the meeting were Mrs. Longley, Mrs. Walter Hall, Mrs. Alfred Morrissey, Mrs. W. H. Downie, Mrs. Bert Gordon, Miss Price, Miss Helen Frith, Miss Ethel Hazen Jarvis, Miss F. Stetson and Miss J. Burns. Miss Ethel Hazen Jarvis returned yesterday from visiting two of the latest organized of Red Cross branches, those at Marysville and Oromocto. At both centres she gave her illustrated address on the peace time policy of the Red Cross Society, and was heard with much interest by large audiences.

She spoke in the Dawson Club at Marysville where a silver collection for Red Cross work was taken. A hearty vote of thanks was extended to Miss Jarvis on the motion of Mrs. Wren, seconded by Mrs. Horwood. While in Oromocto Miss Jarvis' address was given at a special Armistice Day meeting in the vestry of the Baptist church and Miss Estabrook, president of the branch, was chairman. The vestry was filled to capacity. Rev. Mr. Currie moved and Rev. Mr. Chapman seconded the very hearty vote of thanks extended to Miss Jarvis. The lantern was most efficiently managed by Ronald Smith, and the tank for the lantern was kindly loaned by a Fredrickson firm. Miss Jarvis was the

guest of Miss Estabrook during her stay in Oromocto. The Oromocto branch was formed during the summer.

THE JUNIORS Reports of the activities of Junior Red Cross branches often contain some interesting new ideas and among the latest of these activities reported is the providing of milk for a crippled returned soldier.

The Bluebirds of Scotch Settlement are one of the most active of the Junior Red Cross branches in the province and they recently conducted most successfully an evening concert and ghost walk and during the evening ice cream, fruit, home-made candy and peanuts were sold. The ghost social wound up the evening's enjoyment. The whole affair realized \$34.25 and was conducted under the leadership of the director of the branch, Miss Vera M. West, the teacher of the school. The branch in writing to the Junior Red Cross office in Saint John announced that part of the sum realized was to be given to the crippled children's fund and the remainder would be used to buy school equipment.

It was the Forest City, N. B., branch which undertook to provide milk for a crippled soldier. The teacher of the school had each of the Juniors write a letter to the provincial supervisor telling of the Forest City branch work and

their own views on Junior Red Cross ideals.

The branch recently held a Halloween party which realized \$20.83 and from that sum \$8 is to go to the crippled children's fund, \$8 to buy a map and among other items which the remainder of the sum is to meet, is the provision of milk for the crippled soldier.

Shortly after 10 o'clock last night the fire department was called out by an alarm from box 5 for a fire in a room at the rear of the Olympic fruit store, 10 Dock street, conducted by Gregory Hages. The fire was caused by the boiling over of a pot of syrup on an oil stove. One young man, who was in the store at the time, had his right hand slightly burned while trying to put out the fire. On arrival of the firemen the blaze was quickly extinguished with the chemical. The walls of the room were scorched, the syrup was destroyed and considerable smoke entered the apartments of Mr. Hages over the store. The damage is covered by insurance.

The motor engine at No. 3 fire station, Union street, was called out yesterday afternoon on a still alarm to Burn's Hill, near Rockwood Park, to quench a grass fire. The fire was ex-

tinguished by the chemical and there was no damage to any adjoining property.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donatville, Alta., writes:—"Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down."

I spent a lot of money using medicines from the doctor, but it did not do me any good.

At last a friend told me to use MILBURN'S NERVE-PILLS and after using a couple of boxes I was not the same woman. I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to all those I know who are suffering from heart trouble."

Dorothy Dix

"Mothers, You Can Either Make Yourselves a Piece of Tapestry on Walls for Your Children to Admire or a Doormat for Them to Walk On—It's Up to You—But Don't Blame Children for Trampling On You if You're a Doormat Mother," Warns Dorothy Dix.

A MOTHER who has always made a doormat of herself for her children complains because they put her to the predestinated and foreordained use of doormats, and, figuratively speaking, wipe their feet upon her.

AND it is not because these children are monsters of selfishness and lack of all feeling. It is because they have never really thought of their mother as a human being at all.

IT WOULD really give the youngsters quite a turn to find out that their mother had desires and impulses like their own—that she loved pretty clothes and longed for pink silk lingerie just as much as Mamie does.

IT DOESN'T occur to them any more to suddenly make a fuss over mother than it would to take the battered old kitchen table and install it in the place of honor in the drawing room.

WHEN children are selfish to their mother, when they fail to show her proper honor and respect, it is always and invariably her own fault, and she has nobody but herself to blame.

THE moral of all of which is that you can either make yourself a piece of tapestry on the wall for your children to revere and admire, or a doormat for them to walk over. It is up to you.

IF SHE begins by being the abject slave of her babies, her children will regard her as merely an upper servant when they are grown.

ON THE contrary, if, from the time they are old enough to know anything at all, she teaches them to look up to her, to admire her, to think that she is the fountain of wisdom and beauty, and that her, who can be ashamed of her own children.

THE moral of all of which is that you can either make yourself a piece of tapestry on the wall for your children to revere and admire, or a doormat for them to walk over.

Home-made Supply of Fine Cough Syrup Better than any other cough syrup, and saves about \$2.00. If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this home-made syrup, easily prepared in a few minutes. Get from any druggist 2 1/2 ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup, or clarified honey, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily \$2.00. Tastes pleasant—children like it—and never spoils. This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the throat tickle and heals the irritated membrane so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and it is splendid for bronchitis, hoarseness and laryngeal asthma. Pinex is a most valuable concentrated compound of genuine Norway pine extract and palatable guaraco, which has been used for generations to break severe coughs. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions. Guaranteed to give you absolute satisfaction or money refunded promptly 7 cts. a tin. Pinex Co., Toronto, Ont.

The greatest Gift you can get, the one that looks like a lot of money—but really doesn't cost money at all, when you come to count up. First, it saves a hundred dollars a year in heat economy alone. So every husband can afford one alright. In fact he can't afford to let you go on cooking on an old idea stove—they are all so wasteful compared to Moffat Electric. Second, the low monthly installments are about covered by the difference in your fuel bill. Third, the cost of all wiring is borne by your Hydro. Nicier, Easier Cooking And now about yourself. Wouldn't you just love a Range that works on turning a handle—high heat, medium heat or low heat under any particular pot, the oven or the warming oven. And all gleam in a dress of Porcelain, Nickel and Enamel—even the oven lining. A Range that is always right, the liquid thermometer proving it again, holding enough heat to cook for hours after the current is turned off. My, what a Range so sure as that. Everything baked evenly all over, through and through. No cleaning up, no fumes, no chores of any kind. Instant action. Hours a day saved and a far prettier kitchen. Just talk it over with your Husband in a general way. Let him see what he saves and what you save—and how it is as much help to one of you as the other. Then get him around to the Christmas notion. EXCAVATIONS AT SCHECHEM WILL REVEAL PAST

Historic Bible City Scene of Important Operations Now

LONDON, Nov. 12.—The secrets of forty centuries may be revealed by a party of archaeologists who are now engaged in excavation work at Schechem, the famous city of the Holy Land. It is anticipated that their efforts will bring to light startling records of the old patriarchs of Israel, and will confirm the Biblical story as recorded in the early chapters of the Book of Genesis.

It was at Schechem that the patriarch Abraham built an altar and marked a great oak as sacred. It was at Schechem that Jacob purchased land from the children of Hamor, and in sum erected an altar. Here he dug a well in the solid rock, nine feet in diameter and nearly eighty feet deep.

But Schechem, son of Hamor, who had sold Jacob the land, fell in love with Jacob's daughter, Dinah, and persuaded her to live with him before marriage. Her brothers took an awful vengeance, slaying the Schechemites in cold blood, and Jacob was forced to quit the spot.

Before he left he ordered his followers to cast into a great pit all the gods and tokens of strange worship they had brought with them. The present expedition is concerned with finding the buried gods and treasures and thus gaining definite proof of the Biblical story.

WELL OF JACOB. The well of Jacob at Schechem is still pointed out, and is one of the best authenticated relics of sacred history. It is stated that the body of Joseph was brought from Egypt and buried here, but the tomb has never been examined, because of Arab ownership of the site.

Dr. Ernest Sellin, chief of the present expedition, has obtained permission to examine the tomb, and hopes to find the embalmed body of Joseph and possibly payori with it that would establish definitely the name of the Pharaoh of the oppression. As the excavators dig into the great mound under which the idols and jewels of Jacob's followers are supposed to be buried, they uncover later layers of civilisation. Already the remains of an immense building have been uncovered, and this, in the opinion of archaeologists, is the palace built by Jeroboam I, when he established himself as ruler of the northern kingdom of Israel.

DISCOVER ALTAR. Another discovery is that of an altar, very plainly one of which the goddess Ashtaroth or Asherah was worshipped by the Canaanites, and also by the recent Israelites. Schechem is one of the oldest sites in Palestine, being connected with the first appearance of the Hebrews in the land of Canaan. Such discoveries are anticipated from the present work of excavation would fill in some of the gaps of Old Testament history.

GUIDE—It took nearly two thousand years to build that pyramid. Tourist—I believe you. Our workmen at home are just as slow.

Million Dollars Worth Foxes Are Shipped From Maritimes To Winter Show at Toronto

MONTREAL, Nov. 12.—One of the most valuable shipments of live stock to be handled through Montreal in some time—a million-dollar cargo of silver-black foxes—passed through Bonaventure Station in a special express car destined for Toronto, where they will appear on exhibition at the Royal Agriculture Winter Fair. The car containing these valuable animals arrived from the Maritime Provinces.

Attached to the same train were special sleepers carrying a party of 50 fox ranchers from Prince Edward Island, who will exhibit their charges at Toronto.

The exhibitors who passed through Montreal included Peter G. Clark, president Canadian Silver Black Fox Association; George Calbeck, who is later going to Denver, Colorado, where he will act as judge at the fox exhibition there; G. S. Sharpe, John A. Lea, Dr. Lockhart, A. A. Lockhart, A. W. Callaghan, A. E. MacLean, Thomas Crowthers, C. Black, W. B. MacArthur, Norman MacLead, W. R. Timney, secretary-treasurer of the Canadian Silver Black Fox Association, Colonel A. MacKinnon, G. Brown, James Squaridge and O. R. Morrison.

Berlin Divorce Mill Working Overtime

BERLIN, Nov. 12.—Berliners are rushing to divorce courts with nearly twice the frequency they sought those tribunals before the war. At the same time the number of marriages shows a slight falling off. Statistics reveal some 8,000 divorces in 1925 as against 4,900 in 1918, while marriages dropped from 38,000 in the year before the war to 35,100 last year.

INTERNATIONAL OFFICIALS VISIT AT DALHOUSIE

Pulp Mill Plans Seen in Inspection of Place Recently

DALHOUSIE, Nov. 12.—A. H. White, chief engineer of the International Paper Co., New York, accompanied by Major Bruce, of Fraser, Bruce, Ltd., Montreal, and J. W. Brantley, general manager of the machine branches of the International Paper Co., paid a visit to Dalhousie this week. Mr. White was also accompanied by his assistant, Mr. Hutchins. The visit of these gentlemen was presumably in connection with the erection of the proposed pulp and paper mill at this point. While nothing definite has been given out, speculation is rife.

A staff of engineers under the direction of J. A. Hamilton Henderson, C. E., of Montreal, made a survey of the proposed water supply. It is common report that they found more than enough water for their requirements and possibility for a satisfactory pipe line by gravitation from these sites on Charlo River to the long lumber mills here.

Fraser, Bruce, Ltd., have already constructed power plants and mills for the International Paper Company at Three Rivers and Chatham, and is considered an indication that an early start will be made in this locality.

KENT WOMAN IS BURNED TO DEATH

Mrs. Stanley Fram Falls on Stove in Faint at Dundas, Yesterday

MONTGOMERY, Nov. 12.—Mrs. Stanley Fram, a highly respected lady of Dundas, Kent county, was burned to death this morning by falling over the kitchen stove in a faint. Dundas is between 15 and 20 miles from this city on the McLaughlin road.

According to the story told to a Telegraph-Journal representative tonight by Mr. Fram, his wife had been in failing health for some years and was subject to fainting spells and heart seizures. For a time she had remained in bed until 9 or 10 o'clock in the mornings, but this morning had departed from her usual custom and awoke about daylight. Mr. Fram had planned coming to Sunny B. to bring an aunt of his wife's to his home to look after her.

FINDS LIFELESS BODY.

After breakfast, Mr. Fram said, he went out to milk the cows and do some other work around the barn before departing for Sunny B. He was horrified to find the lifeless body lying across the stove. He thought he was taken with a fainting spell or a heart seizure and had fallen over the hot stove. No shout cry was heard by the husband, who was working only a short distance from the house.

THE SURVIVORS.

Mrs. Fram was 68 years of age, and leaves her husband, Stanley Fram, four sisters, Mrs. Ian Estabrook, Mrs. M. Estabrook and Mrs. Bliss Ayer, all of Brooklin, Mass.; two brothers, Henry D. Manchester, of Brooklin, Mass., and Robert Manchester, of Boston, Mass.; also survive, R. D. Fram of this city, is a brother-in-law of the deceased.

The funeral will be held Sunday afternoon with services at the house, after which the cortege will proceed to Glendale cemetery where interment will be made.

EVENTUALLY, when all our present population become office-holders, we shall have to admit more immigrants to pay the salaries.

FUND TO RESTORE PALACE OF POPES

AVIGNON, France, Building to be Reconstructed by Tourist Fees

AVIGNON, France, Nov. 12.—Funds gleaned from tourists, mostly Americans, are making possible restoration of the historic Palace of the Popes here. Built in the Fourteenth Century, the famous structure which has been the residence of several Pontiffs, fell into decay during the Nineteenth Century when it was used as a military barrack.

Poverty of the Municipal Treasury had made it impossible to restore the palace until two years ago when a society for the purpose was organized.

OUTLOOK GOOD

Dalhousie's splendid harbor, which the residents consider one of the province, has no doubt been one of the deciding factors in the choice of locations and the company's large holdings, including what was known as the Moffat limits and those recently acquired from the Bay Charles mills, opposite Campbellton, together with a recent purchase from the P. Q. Lumber Company, have secured a sufficient supply of raw material for years to come, to say nothing of

RADIO WAR BETWEEN EASTERN STATES

Fans Suffer as Result of Russian-Rumanian Aerial Rivalry

BUCHAREST, Nov. 12.—A radio war, to all intents and purposes, is in progress between Russia and Rumania. The offensive was taken, according to Rumanian officials, by the broadcasting stations of Moscow, Odessa and other cities near the frontier of Bessarabia, the annexation of which by Rumania the Soviets have never recognized.

They are accused of attempting to lecture Rumanian listeners on the deficiencies of their government and of trying to broadcast revolutionary propaganda.

To prevent this the Rumanian government has taken such measures as to prohibit the development of all foreign apparatus is prohibited. For "the security of the State" no radio receiving sets are allowed near frontiers and to install a set anywhere in the country one must secure a special permit. When the Rumanian owner of a permit has succeeded in turning in the opera at Vienna, Rome or Paris, he is almost certain to receive a barrage of propaganda from Russia. At the first word from Moscow, the Rumanian military stations cut loose with a counter attack, which makes it impossible to hear anything.

New England Crop Of Apples Large

WAKEFIELD, Mass., Nov. 12.—New England, outside of Maine, generally has a heavy crop of commercial apples this year, said the New England Crop reporting service today in reporting 2,110,000 barrels was estimated on Nov. 1, as compared with 2,064,000 barrels last year. The short Maine crop is more than offset by the large crop in Southern New England.

Pictures of Health

They conquered the common ills—found glorious vital health—by eating one simple food

NOT a "cure-all," not a medicine—Fleischmann's Yeast is simply a remarkable fresh food. The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active, daily releasing new stores of energy.

Eat two or three cakes regularly every day, one before each meal: on crackers, in fruit juices, water or milk—or just plain, in small pieces. For constipation, dissolve one cake in food-time. Dangerous habit-forming cathartics will gradually become unnecessary. All grocers have Fleischmann's Yeast. Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days.

And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept. L-741, The Fleischmann Company, 208 Simcoe St., Toronto, Ont., Canada.

A trainer of another university team recommended Fleischmann's Yeast. Soon after giving my players Yeast the boils began to disappear. Tom Thorp, Rockville Center, L. I."

"MY ENERGY BEGAN TO FLAG. I became nervous and irritable. Then I discovered Fleischmann's Yeast. I ate three cakes a day and in six weeks, marvel of marvels, I found I was not so tired. I was no longer nervous and irritable." Ethel Y. Gins, Indianapolis, Ind.

"I HAD BEEN TROUBLED WITH INDIGESTION accompanied by dizzy spells. I tried Yeast and it brought great relief. My dizziness disappeared in a month or so. I felt better in every way. Now I just take the Yeast occasionally to keep my stomach in really good condition." Harry Linsinger, Miami, Fla.

"SINCE MY LITTLE BOY HAD PNEUMONIA I have given him Yeast to build him up. He has improved rapidly. I find too that I never have to give him a laxative. With Yeast he is absolutely regular." Mrs. Felix Griffin, Baltimore, Md.

"CONSTIPATION WAS MAKING ME ILL. I suffered from intestinal pains at all times. One of my friends suggested that I take Fleischmann's Yeast. Now the pains are gone and I feel one hundred per cent better." Julius C. Andrews, Hopewell, Va.

Many Canadians In Maine Jails Awaiting Deportation, U. S. Officials Say

25 DETAINED IN HOULTON FOR ILLEGAL ENTRY

More Than Sixty Have Been Held Up Since Early in Summer POTATO DIGGERS ARE NEARLY ALL RETURNED

One Saint John Man Behind Bars Since Early in October

SINCE June 1, more than 60 persons, passing from New Brunswick into the United States, have been detained by the immigration authorities on the Maine side of the border, and remained in jail there, pending deportation, for periods varying from 30 to 40 days.

POTATO HARVESTERS BACK

An arrangement for easy entry of Canadian labor was made in Montreal. A person entering the country to engage in the potato fields did not have to pay a bond or visa fee. About 2,000 took advantage of this regulation, and nearly all have returned to Canada. But a number tried to get into the United States without reporting at the border and many of them were caught and placed in county jails or immigration detention quarters.

ONE HELD SINCE OCT. 2

At the present time, it was reported, there was being held at Houlton a man who claimed he was a native of Saint John, and, although the Canadian department has been dealing with his case since October 2, it has not yet been determined definitely that he is a native of Canada, in spite of the fact that he is said to have been deported from the United States on a previous occasion.

AN EXPLANATION

Speaking with a Times-Star reporter, Messrs. Angevine and MacRobert's desired to have it understood that this delegation of footballists represents McGill's exponents of the English rugby game, and is not the official McGill football team, as the game is played in collegiate circles on this continent. In other words, it is simply a branch of sport upon which the university as a whole does not concentrate. The team is without a coach and its play is largely one of self-instruction. However, this is not in any sense offered as an apology or alibi, so-called, but to guide the public mind as to the proper place of the English rugbyists in the Montreal scene of learning. The boys expect to give a good account of themselves.

Plan of Districts in Toronto City Under Experiment in Mail Distribution

Some time ago the postal authorities divided the City of Toronto into districts testing out distribution of mail and the local post office has now received copies of the Toronto postal district number directory. The district comprising 10 postal districts, and the directory shows in what district is each street of the city. These directories will be distributed throughout Saint John by the local office and will be sent to business firms, merchants, newspapers, financial establishments and all those who conduct a large correspondence with Toronto. Distribution will be commenced soon. Toronto is the only city that has been split up into numbered districts so far. It is an experiment, and if successful, probably will be introduced elsewhere. In addressing mail to the city number of the district, such as "Toronto 87," should be placed immediately under the street address.

Some time ago the postal authorities divided the City of Toronto into districts testing out distribution of mail and the local post office has now received copies of the Toronto postal district number directory. The district comprising 10 postal districts, and the directory shows in what district is each street of the city. These directories will be distributed throughout Saint John by the local office and will be sent to business firms, merchants, newspapers, financial establishments and all those who conduct a large correspondence with Toronto. Distribution will be commenced soon. Toronto is the only city that has been split up into numbered districts so far. It is an experiment, and if successful, probably will be introduced elsewhere. In addressing mail to the city number of the district, such as "Toronto 87," should be placed immediately under the street address.

**Movie Architects Called On To Display Much Ingenuity**

NEW YORK, Nov. 13.—Architects also are engineers' shack, and later a church and garden. The drawings were made by Laurence HB, studio art director, and the mountains were painted by William Sauter, scenic department chief. Close views of Thomas Meighan, Renee Adoree and Allen Pringle were made at Ausable Chasm, N. Y., and the backgrounds were matched exactly.

**MOUNTAIN RANGES.**

An example of an architectural creation in a motion picture studio is the mountain range, arched bridge, ravine and river constructed on the lot back of the Paramount Eastern studio. The mountains were reproduced from photographs of a range in South America. On the side of a mountain was seen a road in a pursuit and jump across a chasm sixty feet deep.

Novel Inventions Exhibited At International Show, London

LONDON, Nov. 12 - The Central Hall, Westminster, is bristling with novel ideas, the annual International Exhibition of Inventions having been opened by Lord Asquith, the president. A press representative who paid the Hall a visit found just the thing to keep the dinner-hot for seven hours without spoiling it at a cost of not more than two cents. It looked like a safe, made of a shiny, white metal and containing receptacles for vegetables, sauces, soups, chicken, and a joint, all fitted in three sliding racks, with another rack at the top for the plates. At the bottom was a small drawer in which the slow-combustion carbon fuel burned and kept the entire meal for six people quite hot from the time it was cooked in the morning until the late evening. Restless and bad sleepers who often wake in the night and find the bedclothes on the floor should find a boon in one exhibit called the "Bed Closer." As its name might imply, this device ensures that, however much a sleeper may wriggle, twist and turn, he will always remain "tucked-up." The device automatically grips any thickness of bed clothes without tearing or tightening, and instantly grips or releases. It adjusts itself to the sleeper's movements and also to the depth of the mattress. The dandle in motor head-lights seems to have been satisfactorily eliminated by another device. It consists of a frame containing a number of blue strips of glass set in a special metal. It produces a daylight effect, giving the owner clarity of vision, outline, and detail of distant objects. It is claimed that harmful rays are cut out, and the usual blinding effect after passing is thus abated.

How Shot Is Made

LONDON, Nov. 13 - There are few more ancient businesses in London than the making of small shot. Every day hundreds of thousands of Londoners see the two towers that stand like sentinels on the Surrey side of the Thames, east and west of Waterloo Bridge, and have no idea that it was the making of small shot that called them into being more than a century ago. The manufacture of small shot requires a long drop. The taller of the towers, which is circular and is surmounted by a flagstaff, is nearly 200 feet in height. ETERNAL FIRES Eternal fires burn in the furnace at the summit of the tower where the lead is heated. Thence the molten metal passes into a colander, a metal box with perforations, ranging from less than one-hundredth of one-fifth of an inch in diameter. It runs through these to fall nearly 200 feet into a cistern of water at the bottom. The fall cools the metal, while the friction of the air makes it perfectly round. There is more than one platform in the tower. The larger the shot, the longer the drop. The larger tower is still in regular use. The pigs of lead are hauled up to the summit by machinery, but the top of the tower may also be reached by a spiral staircase of 327 steps. There are only five shot towers in the whole country, the others being at Newcastle, Chester, and Bristol.

NO. 13 YOUNG JUDEAN TROOP. The Young Judeans met on Wednesday evening with 20 boys present. As Scoutmaster Boyner was attending a meeting in East Saint John, this meeting was in charge of M. Ellman and the inspection was very close and it was impossible to find a winner, as the Scouts and Beavers were also very close, but the Owls lived up to the meeting with an interesting talk and instruction in first aid, given by M. Ellman, several boys passed their Kings Game.

NO. 8 MISSION TROOP. The Mission Troop combined with the St. Paul's Troop met on Tuesday evening in the Mission church hall, where an enjoyable hour was spent in the inspection. Vincent Sedovsky was invested as a Scout. He is the patrol leader of No. 8. Received his Second Class badge. At 7:30 p.m. the two troops marched to the Natural History Museum where they were joined by the Trinity Troop at a lecture given by Dr. McIntosh. The lecture was in charge of District Secretary W. E. Hoyt, assisted by Troop Leader J. Peacock. A. Sedovsky and the district secretary, W. E. Hoyt. Knot-tying was the work for the evening. Scout songs were sung and new Scout games were enjoyed. Arrangements were completed for a lecture given by Mr. Taylor, of East Saint John, on Thursday evening in the Sunday school room. Two of the staff of the "Outlook" were present, Douglas MacLennan and William Edwards, and they spoke to the boys regarding the paper.

NO. 15 PORTLAND UNITED TROOP. This troop held a very enthusiastic meeting on the 8th with 12 boys present, although the weather was very disagreeable. Four boys passed their Tenderfoot Tests and the troop is making a fine record. The meeting was under the supervision of E. H. Ritcey. For Nov. 20 a hike is being planned.

NO. 7 STONE TROOP. This troop held an excellent meeting on Thursday evening, when about 12 boys gathered. An excellent program of Scout games and other activities was presented under the direction of Clifford Sancton, assisted by N. G. Smith, Scoutmaster of St. Andrew's Troop, and the district secretary, W. E. Hoyt. Knot-tying was the work for the evening. Scout songs were sung and new Scout games were enjoyed. G. P. H. REQUIRES FULL AMOUNT OF CITY WARRANT

Mayor White Hints Cut Likely in Estimates Next Year

The Commissioners of the General Public Hospital will bring to the attention of the City Council the fact that unless the city pays the full amount of its warrant to the hospital this year there will be a deficit in the hospital accounts.

scarlet fever was epidemic and specially prevalent in the North End and West Saint John. Some of the cases in the annex were slated for early discharge.

He did not anticipate any over-taxing of the annex, but if it should occur there was a room in the main building which could be used. Additional staff and equipment would be needed in that eventuality.

RECOMMENDS PURCHASE

Dr. White recommended the purchase of basal metabolism apparatus, approved by the doctors attending the meeting of the American College of Surgeons. It was decided to purchase the apparatus, which will cost \$250, and the medical board was to be asked to name one of its members to be responsible for its care and operation.

DENTAL SOCIETY REQUEST

The request of the Dental Society that four of its members be appointed to the hospital staff and a dental department opened was discussed at length. There are now two dentists attached to the hospital staff, but dentists cannot have private patients at the hospital. They may come in to attend private cases on the invitation of a staff doctor.

The dentists wished to utilize the hospitals as surgeons do, it was said but that, it was pointed out, it would be impossible.

Rules and regulations for the operating room, drafted by the medical board, were taken up and adopted.

Dr. C. M. Pratt was appointed commissioner for the ensuing month.

Dr. R. A. Hughes' application for appointment on the medical staff was referred to the annual meeting.

Dr. W. F. Roberts, as head of the department of physiotherapy, asked that Miss Vera Roberts, a high school graduate now in Grade 12 who is no relative of his own, should be appointed as technician for the department.

Dr. Case endorsed the recommendation.

SUPERINTENDENT'S REPORT

The superintendent's report showed 897 patients were under care in October and 100 remained at the end of the month, the average number being 144.

There were 16 deaths, 62 operations in the operating room and 192 in the outpatient department, where 691 treatments were given.

Miss Rita Underhill, of Fredericton, entered a six months' course as pupil dietitian on Oct. 1. She is a graduate of Acadia. Mr. Gale had attended the annual convention of the American Hospital Association in Montreal.

Painting of exterior woodwork and the main floor interior of the Nurses' Home was completed and made a marked improvement.

During severe rain storms the annex roof leaked and emergency repairs were made. The plaster in one cubicle fell and was replaced. Good progress was made in installing the new boiler in the power house.

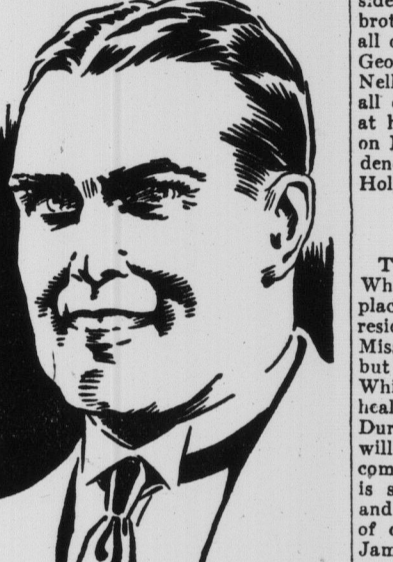

MONTHS RECEIPTS.

The financial statement showed receipts of \$14,457.97, including city chamberlain \$6,626, county \$2,000 and county warrant \$14,081, pay patients \$6,629.50, X-ray \$1,076.50, and salaries in August and September \$2,927. The total debit balance was \$6,391.86.

Miss Margaret Murdoch, superintendent of the hospital, reported that in October, 1926.

dent of nurses, reported eight graduates and 88 pupil nurses enrolled of whom four were in Montreal, four in the County Hospital, three in the annex and two were ill. The Misses Mary Clarke and Marguerite Belding graduated during the month.

APPOINTED SUPERVISOR.

Miss Louise Peters, a graduate of the school, was appointed supervisor of the second floor and Miss Ward had taken charge of the out-patient department.

Miss Helen Hoy, who had been night supervisor for over four years, had tendered her resignation to take effect Dec. 1. Classes were resumed on Oct. 1. The meeting approved the appointment of Mrs. Grace Lewin to succeed Miss Hoy.

Dr. F. T. Dunlop, for the medical board, reported the work had been carried on satisfactorily.

Dr. O. B. Evans, for the out-patient department, reported 300 patients treated as compared with 195 in October, 1925, but the number of visits was 414.

Miss Helen M. Wetmore, dietitian, reported 29,568 meals served at a slightly increased cost over that in September, but slightly less than that in October, 1925.

MATRONS REPORT.

Miss E. J. Mitchell, matron, reported on household staff changes and cleaning up of 202 new articles supplied the linen room.

The training school board report recommendations that were adopted, included the re-admission of two pupil nurses to complete their training and resigning Dr. L. M. Curren had resigned as lecturer in surgery, Dr. D. C. Malcolm should be appointed lecturer in this subject and Dr. C. L. Emerson, lecturer in V. D. Information had been secured, that McGill University was the only institution giving a special course for nurses to qualify them to become instructors.

Bismarck's Best Was One He Never Smoked

BERLIN, Nov. 13.—"The cigar I never smoked was the one that tasted best," was Prince Bismarck's invariable reply in his later years to the question of what brand he most esteemed.

Norris Busch, in his book on the life of the Iron Chancellor, recalls this enigmatic reply and the explanation taken from an incident Bismarck himself related after the Battle of Koenigsgratz in the Austro-Prussian War of 1866.

"I had only one cigar in my pocket and was cherishing its smoke like a miser," said Bismarck. "But I miscalculated, for lying helplessly nearby I saw a wounded dragoon begging for refreshment. I looked through all my pockets. Money? Of course that would do him no good. Stop! I still had my cigar. I lit it, put it between the teeth of the unfortunate man, and at once could see his face beam with thankfulness."

Deaths

Edward T. Flynn.

Edward T. Flynn, aged 21 years, fourth son of Mr. and Mrs. William Flynn, passed away on Nov. 12 in this city. He had been ill for the last four or five weeks. His passing will be keenly regretted by many friends.

Besides his parents he is survived by three brothers, Joseph, Cornelius and James, all of Saint John, and five sisters, Mrs. Geo. Hinkle, Mrs. Francis Hines, Miss Nellie Flynn and Miss Lydia Flynn, all of New York, and Miss Margaret, at home. The funeral will take place on Monday morning from his late residence, 59 Somerset street, at 8:15 to Holy Trinity church.

Late Mrs. H. Durout.

The death of Mrs. Henry Durout, of White's Cove, Queens county, took place on Friday evening, Nov. 5, at her residence. Mrs. Durout was formerly Miss Mary Jane Walsh, of Saint John, but had spent all her married life at White's Cove, and had been in failing health for the past two years.

Mrs. Durout numbered many friends and will be greatly missed throughout the community. Besides her husband she is survived by one sister, seven sons and one daughter, and a large number of other relatives. The sister is Mrs. James Moore, of Portland, Me. The sons are William of White's Cove; James, of Saint John; Fred, of Kiersey Falls, Me.; Ernest and John, of Portland, Me.; Malcolm, of San Francisco, and Judson, of White's Cove. The daughter is Mrs. Joseph Burr, of Ashcroft, B. C. The funeral services were held on Monday afternoon. After prayers at the house a service in the Methodist church at White's Cove was conducted by Rev. Mr. Stebbings.

Interment took place in the cemetery adjoining the church. Among those attending the funeral from outside points were James Durout, of Saint John; Ernest, John and Fred Durout, of Portland, Me. the latter a grandson, and Mrs. Farris Reicker, of Millidge avenue, Saint John, a granddaughter.

Mrs. H. W. Hughes.

Many friends in this city and province will be sorry to learn of the death of Mrs. Horace W. Hughes, which occurred at Houlton, Me. on November 8. She was the daughter of Rev. Calvin Currie, of Fredericton, and leaves to mourn besides her father, her husband, Horace W. Hughes, a member of the Fogg Hardware Co. in Houlton, two sons, Frank, of the U. S. Naval Service, and Ralph, in New Zealand, as well as Mrs. J. A. Needham and Mrs. T. B. Mullin, cousins, both of this city. Mrs. Hughes was very popular in musical circles, not only in Houlton, but other cities of Maine and New Brunswick, where she delighted her friends with her talent.

Mrs. H. Freeman.

PORT ELGIN, Nov. 12.—Mrs. Henckiah Freeman died at the home of her son, Joseph Freeman, at Bale Verte, on Thursday morning following an attack of pneumonia. She was 76 years of age and had lived for the greater part of her life at Shemogue. About six years ago she moved to Bale Verte. Her husband died three years previously.

Mrs. Margaret A. Campbell.

Margaret A., widow of Capt. George Campbell, of Dipper Harbor, N.B., passed away at the General Public Hospital on Thursday, Nov. 11. Mrs. Campbell was the daughter of the late Daniel D. Brown and Katherine I. Knapp, of Westmorland Point. The funeral took place from W. E. Brennan's funeral parlor, 103 Prince street, West Saint John, this afternoon at 3 o'clock.

Ham, corned beef, tongue and all meats that are not to be served hot are all improved if they are allowed to cool in the water in which they are boiled.

The Sparkling Eye of Health and Beauty

STYLES of beauty may change. But whether straight lines or curves prevail there must be good vitality to give grace and elasticity of movement and the vivacity which makes beauty most appealing.

This is the day of the healthy, athletic girl. If you are lacking in strength and energy and vitality you can turn to Dr. Chase's Nerve Food with the strongest assurance that it will give you exactly what you most require.

In a way Dr. Chase's Nerve Food is more like a food than a medicine. It forms new rich blood, builds up nervous energy and thereby instils vitality into every organ and member of the human body.

It is a beautifier in the truest sense because it restores the bloom of health to the faded cheek—best proof that the blood is rich and red.

Tired feelings, headaches, irritability, sleeplessness and all the accompaniments of nervous exhaustion disappear when this great restorative treatment is used.

CONFLICTING PRICE MOVEMENTS FEATURE OPENING OF MARKETS

HEAVY SELLING IN BRAZILIAN AT MONTREAL

Demand for Low-Priced Motor Shares in Wall Street

MONTREAL, Nov. 12.—Heavy selling in Brazilian was the feature of the early trading on the local stock exchange this morning, but, in contrast with yesterday's five-point loss by this issue, it revealed a strong tone. Opening with a gain of one-quarter at 102 1/2, Brazilian touched 102 1/2 for a net advance of one-half point. Winnipeg falls was active and soft, selling being down half a point at 80 1/2. Power was steady at 72 1/2. The rest of the list was quiet.

NEW YORK, Nov. 12.—Conflicting price movements marked the opening of today's stock market, with a demand for low-priced motor shares offset by realising in some of the leading industrial stocks such as Baldwin, United States

Saint John Man Heads Two New Firms

The three men pictured above, two of whom are natives of Saint John, are the principals in two new financial firms which started business last week in Montreal. Mr. Barnes, son of Mr. and Mrs. J. Pope Barnes, of this city, is vice-president of Flood, Barnes & Co., Ltd., and of the firm of Flood, Potter & Co., members of the Montreal Stock Exchange. Mr. Flood, son of Herbert C. Flood, former agent for Marine and Fisheries here, is president of both companies. Mr. Potter is a member of the firm of Flood, Potter & Co.

ROCKWELL TO HOLD SALES COURSE HERE. Dr. Charles J. Rockwell, of Chicago, noted author and lecturer in the field of life insurance, will conduct a three-day course in life insurance salesmanship at Saint John, Jan. 10, 11 and 12, as one of a series of 16 such educational courses to be held from coast to coast throughout Canada.

Morning Stock Letter. NEW YORK, Nov. 12.—We consider the selling in the last hour yesterday purely of a profit-taking character and we do not think the recession is more than a temporary setback. At the same time there is no question that the technical position of the market was weakened considerably in the last day or two. The short interest was as large and more scattered than two weeks ago. We think the short interest has been decreased in the last two days of trading. Therefore, we would not be surprised at some irregularity today and possibly Monday. We think that the buying in some stocks is of such a character as to indicate higher prices for this movement than have yet been reached. We expect U. S. Steel to maintain its position as leader in the steel market. It will continue to be a support for the market. We still higher, particularly in Porto Sugar and Manana, and believe on any weak spot these two stocks can be purchased. The tip to sell GMO for a 10 to 20 point decline has been widely spread over the street and has resulted in a great deal of short selling. We do not think any tip general will work out. We rather low to see GMO sag of several points today, and then be followed by an advance against the short interest that is being built up in it again. We still feel bullish on Cons. Gas, Allied Chemical and the three or four of stocks which we have been recommending.

Brokers' Opinions. NEW YORK, Nov. 12.—Brimley looked for as the professional are bearing for a turn. Baldwin denotes the extension of bullish activities in other directions and we would expect that the strength in this stock would be maintained. One of the most attractive members among the equipments, we think, is American Locomotive. We are bullish in the belief that higher prices will be soon, especially in the railroad and oil groups. Clark Childs—"A resumption of steel buying by auto makers is expected to develop without much delay."

Babe's Body Found At St. Stephen, N. B. ST. STEPHEN, Nov. 12.—The body of a baby boy, perfectly formed, was found dead this morning on the bench of St. Croix, underneath the cellars of local stores near the international bridge. The body was found by a local merchant who had gone down into his cellar. He summoned Chief of Police Hill, who immediately summoned Coroner Dr. J. D. Lawson and a jury who viewed the body. The body was taken to the hospital, where a post mortem was held. The jury then brought in a verdict that death was caused from exposure owing to the negligence of the mother, as from evidence heard their assumption was that the mother of the child was Margaret Kilpatrick. An arrest will follow.

SAINT JOHN SUPPLY OF COAL IS GOOD. Asked about a reported shortage of hard coal in the United States and an embargo on shipments to the Canadian seaboard and to Canada, a leading coal merchant of this city said this morning that Saint John citizens need not worry for some time at least, as there was a good supply in the city at present. He was inclined to think that any embargo on shipments was because of lack of cars rather than shortage in coal supply, as the mines were producing about 2,000,000 tons a week now, and this about cared for the market.

Orange Lodges To Have Debate Series. Representatives of the Orange Lodges in the city met last night in Orange Hall and discussed ways and means of increasing the interest in the lodge meetings and the work of the order in general. It was decided to hold a series of fraternal visits and a series of debates between the various lodges. A committee, of which John Gullid is chairman and Walter Brown, vice-chairman, was appointed to make the necessary arrangements. The first of the debates will be held next week.

KNIGHTS OF ST. JOHN. Kenneth S. Barnes, who is a member of both the new firms, also is a Saint John boy, being a son of Mr. and Mrs. J. Pope Barnes, a number of years ago. He is a graduate of the University of New Brunswick, and has had considerable experience as either director or secretary of a number of power companies in various parts of Canada.

OPEN CONNECTIONS. The stock exchange firm of Flood, Potter and Company, Mr. Flood's associate is Thomas G. FORMER SAINT JOHN BOYS IN TWO NEW FIRMS. H. Carson Flood and Kenneth S. Barnes Join in Stock Enterprise. GET MEMBERSHIP IN MONTREAL EXCHANGE. Thomas G. Potter, of Montreal, is Third Man in Dual Arrangement.

A further rise in the financial world of Canada has been made by two former Saint John men when the newly formed firms of Flood, Barnes and Co., Ltd., investment bankers, and Flood, Potter and Co., members of the Montreal Stock Exchange, commenced business in Montreal last week. Both these firms are headed by H. Carson Flood, who received his early financial training in this city. He is a son of Herbert C. Flood, who was at one time agent here for the Marine and Fisheries Department and now purchasing agent at Ottawa for the same department. His mother, who died three years ago, was a daughter of the late Thomas McAvity, founder of the firm here of that name.

Dr. Charles J. Rockwell, of Chicago, noted author and lecturer in the field of life insurance, will conduct a three-day course in life insurance salesmanship at Saint John, Jan. 10, 11 and 12, as one of a series of 16 such educational courses to be held from coast to coast throughout Canada.

Dr. Rockwell, and his books and material are in use throughout the world—in England, Belgium, Italy, South Africa, India, Australia, South America, China and Japan, from some of which countries students have come to take his course of study.

The congresses are under the joint auspices of the Life Underwriters Association of Canada and the local association of Canada and the local association of Canada. Dr. Rockwell will cover: Making life insurance attractive; telling the insurance story; principles of closing; insurance for personal needs; insurance for the business; insurance for the same of life; insuring the income, and arranging an insurance program.

ELECTRIC CURRENT FOR SPRINGHILL

Sunday is Day Set to Turn on Juice From Harrison Take Plant.

SPRINGHILL, Nov. 12.—Electric current will be turned on Sunday over the Canada Electric Company Power line which is to furnish Springhill and other points with electric current from the company's plant at Harrison's Lake. The first transmission will be made as a test, but it is probable energy will be immediately available to the various units which the new plant will supply.

At the Cumberland Railway and Coal Co. everything is in readiness to turn on the power to their distribution plant. For the present, and until the heavy electrically driven pumps are installed there will be only a light load necessary for the coal company plant.

SPRINGHILL LATER. The anticipated dry service for the town of Springhill from the Edison Electric plant which is to be supplied with current by the new power line will not be opened for some time yet. The necessary machinery to handle the current which must be installed at the Edison plant has not yet been delivered, and the latest information is that the shipment of part was made November 9, and a further shipment will be made on November 15. It will probably be December 1 or later that the Edison Company will be ready to take current from the new line.

LIGHTING SCHEME. Among the changes to be made in the Edison will be the distribution for street lighting. Several systems are under consideration and among them one known as the group system which is controlled by a series of automatic switches. This is the latest plan for street lighting and will probably be adopted.

To Bar Broadcasting Before Crime Trial. Canadian Press. LOS ANGELES, Calif., Nov. 13.—Jack Evans, state senator of Montana said yesterday he was preparing a bill to be introduced at the next session of the legislature to prevent radio stations from broadcasting opinions, details, statements or assumption of fact, dealing with a pending criminal case. Senator Evans said the bill was not aimed directly at Alcee Sipple McPherson, evangelist, who has put on the air from time to time "bulletins" concerning the criminal conspiracy charges against her. The bill would be designed, he said, as a measure to safeguard justice.

BOTH TEAMS CONFIDENT OVER OUTCOME OF FREDERICTON GAME

WANDERERS FAVORITES IF M'COY PLAYS

Odds Will Shift to U. N. B. if Stellar Back Cannot Participate

FREDERICTON, N. B., Nov. 13—The English rugby season in Eastern Canada reached the first of a series of climaxes today with the final of the home and home games between Halifax Wanderers and University of New Brunswick.

This series is not for any trophy, but it has attracted more attention than any football played in the Maritime Provinces in many years and has emphasized the opportunity for development of inter-provincial championships.

Wanderers arrived last night from Halifax and entered the game today with an eight point advantage gained in the opening game last Monday at Fredericton. They are also slight favorites in the betting to win today, as a result of their expressions of confidence in their ability to at least maintain if they do not increase their advantage.

However, it is conceded that much depends upon whether Richie McCoy, the star of the Wanderers back division, will be able to play today, following injuries received in the Thanksgiving Day game at Halifax. If it should be determined that McCoy, despite his own announcement upon arrival here last night that he would play today, is unfit; then odds, it is predicted, will shift so that U. N. B. would be favorites to win today.

MONDAY'S GAME Following upon the heels of today's game, the U. N. B. team play McGill University's English Rugby team here on Monday in the MacTier Cup final. U. N. B. won the trophy a year ago at Montreal and are to defend the trophy against McGill, winners of the Quebec-Ontario section. The U. N. B. team was invited to go to Montreal to play the MacTier Cup final, but that invitation was declined with a suggestion that U. N. B. make the trip next year, and McGill team is to make a flying visit to the Montrealers today after the game to leave that evening on the return to Montreal again.

FIELD FROZEN College field, where both games are to be played, has been frozen hard and sheets of ice mark the places where a few mud puddles used to be, so that with hard tackling players will have some casualties than before the cold weather came.

John P. McCarthy, coach of the Mount Allison University squad, is referee of today's game between U. N. B. and Wanderers and also of the MacTier Cup final game on Monday.

Will Probably Form Football Conference NEW YORK, Nov. 12—Expressions of approval from leading universities and a receptive attitude prevailing at three others today gave added impetus to agitation for the launching of an eastern football conference as an outgrowth of the Princeton-Harvard break.

Taking the lead in the movement, Pennsylvania and Brown lined up in favor of organization. Undergraduate feeling at Columbia, Cornell and Dartmouth was declared as favorable to the conference plan.

Hornsby Will Stay A Card

ST. LOUIS, Nov. 13—Denying rumors that he would be traded to the New York Giants because of friction known to have existed between him and President Sam Breadon of the world's champion St. Louis Cardinals, Manager Rogers Hornsby said today he would rather play in St. Louis than any other city.

"The question of Mr. Breadon and I conferring on our terms for next year is our private business," he said. "I can only say that I would rather play in St. Louis than in any other city."

JIM DELANEY WINS OVER JOHNNY RISKO

Sammy Mandell Beats Duffy—Billy Wells Wins—Other Results

MINNEAPOLIS, Minn., Nov. 12—Jim Delaney, St. Paul, outpointed Johnny Risko, Cleveland, in a fast ten round fight here tonight. Delaney weighed 133 1/2; Risko 130.

TOLLEDO, Nov. 12—Sammy Mandell, lightweight champion, outpointed Jack Duffy, Toledo, in a 12 round bout here tonight. In the opinion of newspaper men.

WORCESTER, Mass., Nov. 12—Tony Carney, of New Bedford, was awarded a decision over Lew Parfetti, of New York, in their 10 round bout tonight. It was a terrific battle all the way with neither fighter letting up at any time. It also was one of the closest bouts ever seen here. Carney weighed 123 1/2; Parfetti weighed 124 1/2.

MONTREAL, Nov. 12—Armando Shekles, claimant of the Belgian lightweight boxing title, won the decision in a 10 round fight here tonight.

MCGILL ENGLISH TO ARRIVE MONDAY

Will Return Immediately to Montreal—Entertainment Cancelled

FREDERICTON, Nov. 12—The University of New Brunswick's second rugby team made its low in a match today, defeating the Wanderers of the Saint John City League, 6 to 0. The college team scored a try in each half.

The game was witnessed by a small attendance and proved very interesting. The field was frozen pretty hard, but in spite of that no serious casualties occurred. The Saint John team fielded fifteen players, and worked hard. The University team had the superiority in team play. Both the sides were made up of good back-field players.

In the first half Chalmers got over after the three-quarter line and handled the ball, passing and running in good style. The other try was made late in the second period, Powers scoring after a good run by the three-quarters after the ball was heeled from scrim. Neither try was converted, the attempts being wide.

The play of the Saint John team was largely of the individual variety, and they seldom had the college goal-line danger. Croft and Carey combined for a number of runs. University of N. B.—Seconds, full-back, Jackson; three-quarters, Simpson, Lockhart, Powers (Capt.), Chalmers; halves, Thompson, Currie, Foster; forwards, Wishart, Stratton, Hudson, Skinner, Frites, McLagan, Slipp; reserve forwards, Wightman, Seely, "Yyyyan".

ARE MAKING PREPARATIONS

Quebec Hockey Association Getting Ready for Season—McGill Plans

MONTREAL, Nov. 13—It is expected that the schedule of the Senior Group of the Quebec Hockey Association for the 1926-27 season will be ready soon, the schedule committee awaiting the announcement of the Inter-collegiate hockey dates so as not to have conflicting games for McGill and also until the Victoria of Montreal come to some arrangement regarding the question of whether they will play the year-end game at the Mount Royal Arena as per contract or whether they will again play off their contract for the year-end game at the Forum.

McGill has sent out its call for the first hockey practice, the students desiring to try for places on the first team having been asked to file their names with the hockey club manager. Fourteen will be asked to report at the Forum Monday evening, and a similar number will be called out for the next training period that some line may be obtained on the material available for the red team this season.

Ralph St. Germain, Jack Mickles, Smith, Rog McMahon and McGerrige are among last year's first-string lot, who are still available for hockey at McGill. With Herb Murphy, McGerrige, McGill is still a goal-keeper and unless a dark horse offering for the nets, the red and white is likely to find the goal question its most formidable handicap this winter.

A few games may be played in the Senior Group before the Christmas season, but generally the league will not get properly under way until the beginning of the new year.

NON-CITIZENS MAY BE BARRED

A. A. of United States to Deal With Important Matters Today

NEW YORK, Nov. 13—A divided vote on the question of barring non-citizen athletes from amateur athletic competition here probably will be registered by the Metropolitan Athletic Union's annual convention, which gets under way today in Baltimore.

It became known following a meeting of the twelve local delegates who will attend the convention in Baltimore, that the meeting some of the delegates expressed themselves in favor of the amendment to the constitution proposed by Dr. J. J. Walsh, of the St. Anselm's A. C., others were in favor of the measure with modifications, and still others were unalterably opposed to the legislation.

In his proposed amendment Dr. Walsh urges that American competitive ranks be closed to non-citizen residents here who, after a lapse of three years, fail to take out citizenship papers, or in the case of foreign athletes resident here who take out first citizenship papers, the competitive fields be closed to them unless the citizenship is completed within three years.

OTHER MATTERS This bit of legislation will form one of the principal subjects for action at the convention. Other matters of importance to come up will be the action of the National Registration Committee on applications for reinstatement by athletes who have been disqualified or deemed ineligible for this season or rejection of important records by the Records Committee and the awarding by the championship committee of next year's title fixtures.

CITY LEADS IN THIS BRANCH OF AMUSEMENTS

Now Are 155 Teams Taking Part With More to Start Soon

TWENTY-THREE bowling leagues, consisting of 155 teams, are in operation in this city, according to figures obtained at the various local bowling alleys. This makes the bowling season of Saint John a banner one and places it far above any other town or city in the Maritimes.

Ninety are available for the use of the public, although leagues are only operating in eight at present. An executive meeting of Saint Peter's Y. M. A. will be held tomorrow morning at 11:30 o'clock, when it is expected that plans for the formation of one or more leagues will be made.

At the Central Bowling Alleys there are six leagues in operation, composed of 82 teams. They are the I. O. O. F., Manchester Unity, League, with 12 teams; the Modern Bowling League, with 12 teams; the Weekly Bridge Club League, with eight teams; the M. H. A., with 10 teams; the Nashwak Pulp and Paper House League, with eight teams; and the New Brunswick Telephone Company Ladies' League, with 10 teams.

Five leagues are in operation at the Imperial Alleys. The Inter-Association, with 10 teams (this league also operates at the G. W. V. A. alleys); the Civic and Civil Service League, with eight teams; the Progressive League, with four teams; the I. O. O. F. League, with four teams; and the Imperial League, with five teams.

The Victoria Alleys operate three leagues: The New Brunswick Telephone Company League, with four teams; the C. N. R. League, with 12 teams; and the Printers' League, with four teams. The high single string record for the alleys is 171, held by Fred Gill.

Two leagues operate on the Y. M. C. I. Alleys: The House League, with four teams; and the Inter-Society League, with eight teams.

The House League, with four teams, and the Business Men's League, with eight teams, operate on the Y. M. C. A. Alleys.

On the Garrison Alleys one league, the Permanent Force House League, with four teams, is in operation. Two more leagues, the Fusillers' and Machine Gunners' League, will be in operation within a few days.

At the G. W. V. A. Alleys the Inter-Association League, with 10 teams, is the only one in operation.

The North End League, with four teams, and the Commercial League, with 12 teams, bowled on Black's Alleys. The former league has become so successful that four more teams are being admitted and the schedule is being rearranged.

ST. DUNSTON'S WIN. CHARLOTTE TOWN, Nov. 12—Completely tying up all endeavors of the half line to get going in today's football tussle, the St. Dunstan's University Xavier team defeated the Saint Francis Aggie team here today by a score of 5 to 0.

Wills-Persson Match Talked

NEW YORK, Nov. 13—The prospect of a heavyweight battle between Harry Persson, Swedish giant, and Willie Parris, New Orleans negro veteran, in Madison Square Garden, loomed here when Promoter Tex Rickard declared his intention of opening negotiations immediately with Paddy Mullins, manager of Wills. If the match is arranged it cannot be held before February.

The top liner for this card is "Kid" Melanson and Gordon Paris, two shifty boxers, with the winner matched against Johnny Nemis. The semi-final will bring Louis Donovan, conqueror of George Barber, and "Kid" Somers in action over the 10-round route. The opening preliminary will be between Pat Whipple, who put Bobby Mason away recently, and Bobby Melanson, brother of Kid Melanson.

MAINE GUIDE DIERS. GREENVILLE, Me., Nov. 12—Hiram Coombs, Moosehead Lake guide and sporting camp proprietor, died at his home here today. He conducted the West Quillet camps for many years and was widely known, having entertained sportsmen from all over the country.

### NOVEL WAY TO AUCTION FRUITS

#### Desire for Secrecy Results in Use of Electric Indicators

LONDON, Nov. 18.—Electricity is to be the handmaiden of commerce in a very novel form when the extensions to the Spitafields fruit and vegetable market, costing \$10,000,000 are completed next year.

The scheme is to have a sales room like a Roman amphitheatre, with numbered seats in tiers.

Before the auctioneer, on his rostrum in the arena will be a table for samples. When one lot of samples of fruit and vegetables has been disposed of the table will disappear to the basement, thanks to an electrical device and will rise again with a new load.

To meet the desire for secrecy in

bidding, bidders, instead of shouting out their offers, will press a button on the ledge in front of their seat. An electric indicator at the auctioneer's side, and visible to no one but himself, will record the bid.

There is a fixed scale at which bidding increases—for the sake of illustration, say \$250 a time. Say the bidding starts at \$50. The man occupying a seat No. 20 presses his button, and No. 20 will be recorded on the electric indicator, thus showing that he is willing to buy for \$250. No. 25 will record the bid, and the auctioneer will know that No. 25 will give \$55.

The blind auction will continue until no more bids are received, and the goods are knocked down to the highest bidder, as recorded on the indicator. Only the successful bidder and the auctioneer will know the purchaser.

### GIRL WINS RACE IN DIAMOND CLAIM

#### Trains For Event and Beats Out Men in South Africa

LONDON, Nov. 18.—Usually it is the poor, but ambitious male who sets out in quest of fame or fortune so that he may marry the lady of his choice. But the usual order of things is reversed in the romance of Miss Mary Douglas, one of the girls successful in the latest race for new diamond claims in South Africa.

Miss Douglas, who is a typist employed in a Cape Town shipbroker's office, was engaged to a young man named George Barker, who was working patiently to build up a business in motor parts. When she read about the diamond claims she urged her lover to go into training—so that he might

Together, with love as a staff, thrashing their way up the long hill to the golden light . . . striving . . . struggling . . . sacrificing . . . to find the beacon that points the way for true lovers—the NEW commandment.

From the novel "Invisible Wounds," by Col. Frederick Palmer.

Out of a crackling bolt of flame, a winged steel messenger: the NEW commandment.

There in the mud of France the girl who had fled from the wolves of Montmartre, and the boy who had tried to reshape a wealth-warped life, grope their way hand-in-hand toward happiness.

A THRILLING, HILARIOUS FARCE-COMEDY-ROMANCE in which MacLean is forced to prove himself a big game hunter before he wins the girl. The story begins in New York but winds up in darkest Africa. Douglas MacLean is as clever a comedian and pantomimist as the screen possesses today. He is always funny no matter what the material he has to work with, but in this instance he has a story that offers full scope for his inimitable laugh-provoking talents.

## FERRY TROUBLE NOT PECULIAR TO PRESENT DAY

### Letter of 1837 Tells of Saint John Harbor Problems

They had their ferry troubles in the old days in Saint John as well as at present. Just now, in view of Commissioner Bullock's recent statement on harbor crossing travel and expenses, the following is of interest. It is from the Saint John branch of the Archives Department, Princess street, and is a copy of a letter published in a newspaper of November 1837 from a popular letter writer of that and later days, "Pro Bona Publica." It reads:

### TAKING CHANCES

"Mr. Editor,—In approaching the populous and thriving city of Saint John, a most formidable barrier is presented to the traveler all along the eastern side of the harbor from Reed's Point to Inlandtown. At the shore ferry he is landed on private property in Portland, about 60 feet from the highway, where he may be thrown back by the proprietor into the river again with his team, or left to work his way up the bank without any other aid than the rude, uneven bank in its natural state. If he crosses the long ferry he may find the boat in the upper and lower pond, or on the east side of Navy Island, as the tide may happen to suit, and after landing at the South Market Wharf, on the stairs, which are always slippery either by the summer tides or by the winter frosts, he may have to contend with horse teams unloading ships, with huge piles of salt, coals, and merchandises, with various obstructions stowed on a narrow wharf or pathway, together with large groups of laborers, travelers or immigrants, horses and carts, and unless he steps into a store for a rest, he can find neither safety nor rest, he can find the Market Square.

### TWO PLACES SUGGESTED

"These difficulties in entering the city have long been justly and loudly complained of and too often caused bitter invectives against the city authorities, who have been accused of a want of energy and enterprise in improving the ferry by making it profitable and comfortable. In the present improved state of navigation it is rather a matter of astonishment that there should not be one or two comfortable steamboats on the ferry always ready to take over both team and footmen, but the subject is generally waived with the common observation that the great flow of the tide presents a formidable obstacle to such an undertaking. Now, sir, there are two places where boats might with safety, expedition and profit. The one is the short ferry from Carleton to Portland and the other is that from Reed's Point to Sand Point and I will pledge myself to furnish the undertaking with a snug and convenient landing on either shore at any time of the tide which shall fully obviate any difficulty that is supposed to arise from the great flow of the tide.

### PRIVATE OWNERSHIP

"If the privilege is given up to individual enterprise, it will soon be undertaken without expense to the public, providing the undertakers can be secured in the privilege.  
"If there was any prospect of the bridge being completed on the current another year for that, or if that company which the privilege supplying the ferry with steamboats, instead of a bridge, I would gladly see that privilege yielded to them as a reward for their well-meant though unfortunate enterprise; but if the bridge is not to be erected, the ferry should no longer be neglected.

### POINTS TO RIVER

"I am well aware that many start the objection that such an undertaking would not pay. I would remind these persons that in 20 years the same observation was made of steam navigation up the river Saint John, and for some time the privilege was fulfilled, for one boat did not pay, but of late years half a dozen boats pay well.  
Mr. Editor, the geographical situation of Saint John is such that it must in a few years be a very large and wealthy city and the period is not far distant when the suburbs may exceed it in population. The western shore of the harbor is peculiarly situated for wharves and warehouses and we may soon see comfortable streets and stately wharves and warehouses on the mud flats of Carleton!"

### To Investigate Road Work Expenditures

E. C. Rice, barrister, of Pettitodac, was in the city last night en route home from Fredericton, where he has been on business for the provincial government as commissioner to investigate certain alleged irregularities in expenditures in connection with work under the department of public works during 1925, in the counties of Queens and Northumberland.  
Mr. Rice, who is clerk of the Westmorland County Circuit Court, will attend sessions of the court which open at Dorchester on Tuesday, after which he expects to get underway with actual work in connection with the investigation of the charges.  
Asked how long the investigation would take, Mr. Rice said it would likely take up most of his time for the next three months. His court will be an open one and sittings will likely be held at Gagetown and Newcastle. The sessions will be open to the public.  
After all the evidence has been taken the finding will be prepared and presented to the provincial government before the next session of the legislature.

## FEE ASKED FOR TREATMENT OF SAILOR CASES

### Doctors to End Service at G. P. H. When Contract Expires

The treatment of sailors at the hospital was under discussion at the meeting of the Commissioners of the General Public Hospital yesterday. Mayor Dr. W. W. White, who has been taking up the matter, said there were two phases of the subject, the request that higher fees be paid the hospital by the Federal Government for caring for sick mariners and sick immigrants, and the request of the local practitioners for some remuneration for their services in attending sick sailors.  
Dr. J. M. Barry was admitted to speak on the matter. He said at a conference with the Deputy Minister of Health, Dr. Goodwin, and Dr. White, it was learnt that hospitals in Vancouver and Halifax allow a fee of 50 cents a day to the physician attending sailors. This was paid from the government provision. The Saint John doctors declined to treat the sailors after the expiry of the present contract in the spring unless they were paid the 50 cent fee.  
**GOVERNMENT PAYMENTS.**  
It was stated the government pay \$3 a day for sailors and the maintenance cost in the hospital is \$3.47. The hospital was now losing 47 cents a day on each sailor, and paying the doctors 50 cents would mean a loss of about \$1 a day to the hospital.  
There are six to seven sailors a day in the hospital, and there was some calculation of how the care of sailors affected the hospital overhead.  
Last year \$6,196 was received for the care of sailors, and in some years as much as \$8,000 has been received.  
**IS OF GREAT ASSISTANCE.**  
It was said this money was a great assistance in financing, and that the beds might have been used by non-paying residents. Dr. Pratt raised the question whether the care of sailors was not required for local patients, and Mr. Gale, the superintendent, said that every morning there were only three beds available.  
J. King Kelley said the government might put in a doctor in charge of all sailors care.  
Dr. White said the suggestion had been made that the hospital in the Lancaster Hospital, and he thought it possible this would be done, if the G. P. H. asked for the fee for doctors.  
He said, however, it appeared that if the board consented to the request it would lose \$1,000 a year, and if the sailors were removed the hospital would lose about \$2,000 a year.  
Dr. Barry said the doctors felt if there was a fund to pay for hospital care it should extend to medical care also.  
**MOVES RESOLUTION.**  
Mr. Kelley thought there ought to be negotiations with Ottawa. Dr. White moved the resolution which carried that the doctors be informed the justice of their claims was realized and an attempt would be made to have an increased grant. In the event of the grant not being obtained it would be necessary to assess the government for an additional \$1,000 yearly. He did not believe, in view of the strained financial conditions in the municipality, the authorities would approve that additional assessment.  
Dr. White undertook to take the matter up with the federal authorities and communicate with Dr. J. H. King, Minister of Health.

### FINANCES ENGAGE PLAYGROUNDS MEET

Money Matters Decision Goes Over to Another Session—Boys' Club Discussed  
The question of finances was thoroughly discussed at the meeting of the Playgrounds Association held yesterday afternoon at the Health Centre, with F. T. Lewis, president, in the chair. Special attention was given to the estimated expenditures for the balance of the year.  
Expenditures were calculated in connection with the operation of the playgrounds throughout the season, the operation of the Boys' Club since its opening and for the remainder of the year, and the cost of the All-Union grounds. The association has conducted the All-Union grounds throughout the season, the fact that it did not receive the usual grant from the common council was a matter last for the operation of these grounds as it had done in the previous year.  
The association, it was pointed out, had assumed this burden rather than close the grounds, as it was felt that the closing of the grounds would be a distinct loss especially to the athletic clubs who desire to make use of the grounds to a very considerable extent.  
**NO DECISION.**  
No definite decision with regard to finances was arrived at and the matter will be brought up again either at the meeting of the East End Boys' Club on Tuesday of last week and there was a general discussion regarding the activities of the club for the coming season.  
Besides Mr. Simms there were present at the meeting Hon. R. J. Ritchie, James H. Hamlin, R. P. Hamlin, G. Fred Fisher, L. M. Farquhar, Mrs. George Disher, Mrs. M. H. B. Good and Miss E. Heffer.  
**AS HIRAM SEES IT**  
"There's Injuns in war paint agin," says I to the town feller, platin' to some canoes crossin' the patch of moonlight on Long Reach.  
"Them," says he, "is the ghosts of some of Abbe Le Loure's gang o' redskins on the warpath. That 'ud be in 1744. In that year England an' France went to war agin'. Jist afore the war broke out the Saint John river Injuns sent spies over to Annapolis. They pretended they wanted to make an agreement to help the English if war did come. What they really wanted was to find out how strong the place was. They went away an' lined up with more of the Injuns with the Aves or the head come back in three weeks an' killed all the English they could find outside the fort—killed cattle—burnt houses—an' hung around till troops come from New England to chase 'em away. It was along about that time Gov. Shirley of Massachusetts offered a hundred pounds for an Injun's scalp, fifty pounds for a squaw's or a papoose's—an' five pounds more for one of 'em taken alive. That warmed things up. Them was the ghosts of some of Le Loure's Injuns we jist seen in the moonlight on the river."

### TEACHERS MEET AT VOCATIONAL SCHOOL

Address Given by Fletcher Peacock and Building is Inspected  
The Saint John Teachers' Association meeting last night was held in the Vocational school on the invitation of Fletcher Peacock, director. Mr. C. Ricker, president of the association, was chairman of the meeting and made feeling reference to the loss sustained in the death of Miss Edith McBeath, for many years a teacher in the city schools and a member of the staff of the Vocational school.  
The program of last night's meeting was in charge of the teachers of King Edward school. Mr. Peacock gave a very interesting address tracing the development of the vocational education movement since its inception in Massachusetts, and gave in review the progress of vocational education in New Brunswick, with special reference to the progress in Saint John and the local school.  
At the close of the address the members adjourned to the cafeteria where delicious refreshments were served. Following the supper the teachers were taken on a tour of the building, and in each room they found the instructor on hand to explain the equipment and the courses given there.  
For many of the teachers it was a first inspection tour of the school, and they were greatly interested in everything they saw.  
The program for the December meeting of the association will be in charge of the special teachers, those of the manual training, domestic science and music departments.  
**HONORED AT SHOWER**  
Mr. and Mrs. George Alloway who were recently married were guests of honor at a shower given in the Bay View Hall, Red Head road on Thursday. They received many useful and beautiful gifts. A pleasant evening was spent and delicious refreshments were served by Mrs. Dorey, Mrs. Vaughan and Mrs. Mass.  
**RUMMAGE SALE HELD.**  
A successful rummage sale was held this afternoon under the auspices of the Philathea Club of the Central Baptist church, of which Mrs. W. H. Downie is the president. The sale was held in the mission room of the church and Mrs. Downie was assisted by members of the club.
