FISH OIL. Notwithstanding her large fishing fleet, Canada is behind Norway, Newfoundland and even Japan in supplying the United Kingdom with fish oil. Since 1918 Norway and Japan have greatly increased their exports of fish oil to the United Kingdom, but Canadian exports have decreased. Newfoundland has exported large quantities during the last eighteen months to the United States and Great Britain. According to the report of the Trade Commission, it is "an industry worthy the attention of Canadian producers, but it would have to be organized on a proper basis so as to ensure a product acceptable to the medical profession."

# Prohibition in Canada

## An Open Letter to the People of Canada

**T**HIS STATEMENT is being published in the Daily Papers in every Province of Canada in order to call attention to the following facts:

- First fact:** Every Province in Canada now has a Temperance Law in force with the exception of Quebec. On May first, 1919, the Quebec Temperance Law will come into force.
- Second fact:** The Dominion Government passed Legislation under the powers granted in "The War Measures Act," which prohibited for the period of the war and twelve months thereafter, Importation, Manufacture and Interprovincial Shipment of liquor for drinking purposes. This Legislation is necessary to make effective that of the Provinces.
- Third fact:** The people of Canada want this Legislation continued in effect until

the Citizens of Canada, including all the soldiers, shall have had an opportunity to vote on the question of making it permanent.

**Fourth fact:** There is an insidious and far-reaching propaganda now being carried on which aims to discredit the Prohibitory Laws and restore liquor-drinking for the personal profit of the Liquor-Seller.

**Fifth fact:** The requisite number of State Legislatures in the United States having adopted the Prohibition Amendment, Canada must act in harmony with it or become the dumping ground for liquor and its unfortunate victims.

### Who Want Prohibition?

- Ask—**
1. The Business men and Industrial leaders whom you know.
  2. The working men and working women whom you know.
  3. The Mothers, Wives and Children whom you know.
  4. The Soldier Citizens of Canada whom you know.
  5. The farmers whom you know.

### We know that

1. Every Church and Religious Denomination in Canada has pronounced in favor of Prohibition through its Executive Boards and Church Leaders.
2. Practically all School-teachers, Doctors, Public Health Officers, City Relief Officers and Social Workers in Canada are in favor of Prohibition.
3. The Provincial Governments, the Courts and the Police have learned that Prohibition reduces crime and disorder and promotes Peace and Prosperity.

### Some Significant Contrasts

The Liquor People are looking for immense profits. WE HAVE NO SELFISH INTEREST TO SERVE.

The liquor Interests hide behind indefinite names and work by underground methods. WE SIGN OUR OWN STATEMENTS AND WORK IN THE OPEN.

They hope to win by a Lobby. WE WANT THE PEOPLE TO DECIDE.

They are reactionaries. WE ARE IN THE PATHS OF HUMAN PROGRESS.

They are circulating throughout the country a prescription for influenza, that is purported to come from the world celebrated Mayo Clinic, Rochester, Minnesota.

Here is what Dr. C. H. Mayo says: "The prescription which is alleged to have been written by us is a fake. Alcohol or whiskey have no place in the treatment of influenza."

## Temperance Platform

The Dominion Prohibition Committee are asking:

1. That the Prime Minister and Government of Canada be requested to take the steps necessary to continue in effect the provisions of the Order-in-Council of March 11th, 1918, (P. C. 589) by having the same embodied in Legislation to be enacted by the Parliament of Canada.
2. That the legislation so enacted be continued in effect until such time as a vote of the electors of the Dominion of Canada shall have been taken on the question of its continuance or discontinuance.
3. That the vote on this question be taken at a date to be fixed by the Government of Canada at least six months prior to the day of voting and with due respect to the restoration of civil life in Canada of the Canadian soldiers now overseas.

### Platform of the Liquor People

**The Distillers say:**  
We do not want the Bar back but we want the Interprovincial Traffic restored.

**The Brewers say:**  
We want the percentage of alcohol in Beer increased from 2 1/2% to 5% or 6% or even 10%.

**The old time Hotel Keeper says:**  
We cannot run a Hotel without a Bar and if we cannot sell whiskey, we must at least have a "Beer and Wine" license.

### Methods of the Liquor People:

1. They have already sent men and literature overseas in the vain hope of prejudicing many of the Canadian Soldiers.
2. They are behind a propaganda in the ranks of Labor that seeks to show that Prohibition is generally opposed by working people. This is a slander on Labor.
3. There are appearing letters signed "Wounded Soldier" or "Returned Soldier" or "Church Worker" or "Lover of Liberty" or "Soldier's Wife" or "Officer's Widow" or other camouflage names. In some cases such letters are made up and soldiers or others are asked to sign—sometimes for a consideration.
4. False stories of suffering for lack of liquor for the sick are circulated although the Law provides fully for Doctors' prescriptions.

5. Efforts are being made to discredit Administrators of the Liquor Laws and even Members of Governments who are known to be in favor of Prohibition.

6. The Liquor cause is being upheld by insidious advertisements, news despatches, articles and moving picture films.

7. Drafts of bills acceptable to the Liquor Interests are being urged on the Governments.

8. The Liquor Interests are working behind the scenes in the political parties, and by underground methods, to discredit and oust from office any public man who is an outspoken prohibitionist. Watch for the evidence of this and prevent the success of their schemes.

### What You Can Do to Help the Cause

The Dominion Parliament must consider the question of Temperance Legislation in some form at the next session. We are asking Parliament to embody in an Act, the Provisions of Orders-in-Council now in force with suitable provision for its submission to the people.

As a Citizen of Canada write to your Member of Parliament urging his active co-operation with the Government in carrying out this policy. Put your ideas in your own way and send your letter to your Member's home address as soon as you read this Statement.

Members of Parliament and National Policies are influenced by Public Opinion. Your action will be one of the ways of indicating what the people think.

We desire to warn our friends against any weakening of resolution at this critical moment. The liquor interests are at work in every Province trying to give the impression that there is a general dissatisfaction with existing laws and are using what is done in one Province to foment unrest in the others. Don't let the enemies of Prohibition do all the agitating.

If any information comes to your notice that the Central Committee should have, write at once to D. B. Harkness, General Secretary, 905 Kent Bldg., Toronto.

**EPICURUS' HOPES RISE.**  
Expect Soon to Have European Olive Oil, Cheese, and Sausages.

(New York Times)  
This has been a long, cruel war for the epicures in America. With olive oil quoted at from \$10 to \$12 a gallon and little assurance that it is pure even at that price, dainty salad flavors have been hard to get, and spaghetti dressed

with oil and garlic even more rare. The Italians and Americans who dote on their culinary art have missed the real Roman cheese, which can be found now only in private larders and sells, when sold at all, at from \$4 to \$5 a pound—100 cents used to be a high price. Imported curry powders worthy the name are practically out of the market, and, of course, the canned pork and sausage delicacies from Germany and Austria are known here no more, to say nothing

of the paprika and plum paste that made Hungary famous. American imitations of foreign cheeses are not enough to the real thing to pass muster, though not a few palates will be tickled with the return of Gargoula, Roquefort and the soft cream cheeses of Europe.

Now that the fighting is over there is hope for the salad devotees who have been experimenting for four long years with cottonseed oil, corn oil, coconut

oil, and other substitutes for the fat of the olive. Spain has been making far more oil than her people needed, but has been unable to ship it abroad for lack of vessels. Reports from Malaga say that a good average yield of olive oil is looked for in Spain this season, the production being estimated at about 300,000 tons. The net stock of olive oil available for shipment from the two previous crops is calculated at 180,000 tons. As all available storage space is taxed

to the utmost, the problem of finding storage facilities for this year's crop is causing anxiety to growers and shippers.

**MILITARY NOTES.**  
Lieutenant-Colonel Good, who has been leave officer, has been appointed to a commission on the conducting staff, and attached to the clearing service commission at Quebec. Lieutenant-Colonel Good went overseas with the first

contingent and was attached to the army command in garrison at the 140th Battalion, has been struck off the list.

Major J. T. McGowan has been appointed officer commanding the conducting staff. Both officers will go back and forth on trans-Atlantic steamers during the movement of troops.  
Major H. Priestman, formerly with the 140th Battalion, has been struck off the list.  
Major F. H. Rowe, of the district

depot at Fredericton, has been transferred to the reserve list. He is now employed with the civil re-establishment staff.

**MAYOR OF AMHERST.**  
Amherst, Jan. 28.—Civic nomination papers were filed today resulting in the election of H. W. Rogers as mayor for the ensuing year without opposition.

Page Discusses Recent Baseball Legislation

The Salary Limit

ites of National Proposal—The Action of the Minors in Breaking Away on Draft Rule Criticized

(By Joe Page.) The joint meeting of the American and National Baseball Leagues held at the Hotel New York, recently concluded with the American League managers who control the destinies of the minor leagues, have shown themselves business far more capable of guiding the interests of the baseball game than the major league players and owners.

and all, from Ban Johnston down, American League delegates have been by their action that they believe the baseball game is due a big revival, even though business conditions are to a great extent unsettled by the war.

On the other hand the National League, with the exception of New York and Chicago, have shown the disregard for the best interests of the baseball game from any angle one possibly view their attitude before the joint conference of the National League and American League managers met and, notwithstanding that the American League had at its meeting in December decided to go as before on the player salary question, they voted for a salary limit of \$11,000 a month, equivalent to a season's salary per team of twenty-one men \$231,000, or divided equally among that number of players, a salary \$11,000 each a month.

On the whole it looks very much as if the minors have put their foot in it, and before long will be more than glad to resume business on the old lines. Question is will the majors stand for it?

With Alexander, Killifer and one other eating into the proposed limit to the extent of about \$80,000, it would leave the balance for their eighteen comrades of less than \$2,000 each for the season's play.

Should this law have applied in the American League, it would have been shown up far worse with the limit cut \$11,000 a month and Cobb, drawing \$4,000 a month from Detroit, I wonder if the other twenty players would not be whole be satisfied with the remaining \$7,000, or \$350 each for a month's salary?

To a great extent this same applies to other teams that have high priced stars such as Tris Speaker, Ralph Johnston and others of lesser light. It is better than an even bet that the National League will be forced to side-trace at this Bolshevik piece of legislation before the present month is out.

The National Association of professional minor leagues after being in session for some hours put up several thrilling battles for liberty. Their committee, headed by President Al Tierney of the defunct Three-Eye League appeared before the directors of the National and American leagues, with President Herrmann in the chair. With more force than eloquence in that famous "you know me Al" style, President Tierney demanded the abolition of the draft laws, to the extent of allowing the major leagues the privilege of taking—rather forcing them to take only one player from each Class AA club at a price of \$7,500 on the first of September.

Should the player so bought prove to be of no use to the major club by Oct. 1 a short month, said player was to revert back to the club for a price of \$2,500. Should they not care to take him, other class AA clubs had the privilege of taking him at \$1,000 and so on down the line until Class D was reached when they could have the player for \$75.

Without batting an eye-lash Garry Herrmann politely informed the hold-up minors' committee there was "nothing doing." As a result the national agreement, in existence since 1908, becomes a dead letter.

One thing more. This bright and keen body (the minor league committee) ask very politely to be allowed to disband and to take care of their own business in their own way, which was cheerfully granted by the major leagues, with the proviso that the various clubs would respect each other's reserve list up to the limit of twenty-one men.

The minor leagues may have accomplished a good piece of business by having the draft laws abolished. One thing sure, it will have a tendency to kill off the farming of players. But on the other hand the big minors will find themselves very much in the hole when they want to gather together a permanent winning aggregate, without the outlay of far more money than they have been called on for gathering such permanent winning teams in previous years.

On the whole it looks very much as if the minors have put their foot in it, and before long will be more than glad to resume business on the old lines. Question is will the majors stand for it?

Miss Rice will be buried beside her mother in the Wickham, Queens county, churchyard.

**A SAD WESTERN TRIP.**  
Word has reached the local branch of the Specialty Film Import Company (Pathe film interests) that little Miss Alice Oulmet, the thirteen-year-old daughter of L. E. Oulmet, general manager, died suddenly in Los Angeles, Cal., on last Saturday, soon after arriving after a transcontinental trip from Montreal. The little girl, with her two smaller brothers, her mother and aunt, were to sojourn in the sunny clime for the remainder of the winter as a health quest. The news to Mr. Oulmet was overwhelmingly sad and he left immediately for the west. The child was a favorite with her father's many employees in various sections of Canada to which points she had traveled with him at times. At the Monday meeting of the Exchange Managers' Association in this city a resolution of condolence was passed and forwarded to Mr. Oulmet, who is a frequent visitor to this city.

**ST. JOHN SOLDIER SENDS CAKE HOME—IT'S WEDDING CAKE**

At least one St. John soldier has reversed the general order of things by sending delicious cake home to his folks from across the water. Usually it is the other way. However, Private Henry G. Spearman, formerly employed here with A. L. Goodwin, fruit merchant, had a special purpose in mailing his cake, for it was a wedding token and relatives and close friends here have partaken of it. Private Spearman was married at Halesmere, Surrey, England, the day before Christmas to Miss M. Collins, popular young lady of the same town. The ceremony was performed in the Anglican church, and the young people repaired to Deal and afterwards to Essex county on an eight days' honeymoon. In both places the groom has relatives, as he is a native of England and came to Canada less than ten years ago. His mother, Mrs. Samuel Spearman, two sisters and a brother, reside in St. John. The soldier and his bride were generally remembered with useful and ornate gifts, which are being shipped to Canada as soon as possible. The groom gets his discharge from the 7th Canadian Reserve into which unit he was drafted from the 140th battalion recruited here.
