Excitement on the River.
A stiff nor-easter and a choppy sea created a furor of excitement at Woodman's Point, on the river, yesterday, for as victims of the capricious breeze no less than two sturdy craft were overturned and their occupants rescued, while a half-score, half laughing crowd of summerers gazed from the shore.

Excitement on the River.
The first boat to be overturned was that of Will Belyea, of Belyea's Point, a half mile above Woodman's. He was carrying about apparently free from care, until something happened to the jib. He stepped forward to remedy the defect, but neglected to let go his sheets, so a squall that quickly followed had no difficulty in overturning the craft.

FELL TWELVE HUNDRED FEET.
ST. LOUIS, Aug. 28.—Releasing his grasp on a trapeze attached to a parachute at the level, the wind blowing in a 1,200 feet above the ground, John Williams, 38 years old, fell to his death at Red House Park, near Cokokia. The tragedy is said to have been the result of the victim's determination to make a balloon ascension.

ITALIANS HELD UP STREET CAR.
WAKEFIELD, Mass., Aug. 28.—A number of Italians who had been tending a christening in the North Saugus woods, held up an electric car of the Boston and Northern line to-night, nearby the place of their festivity. Conductor Peterson, who says the men had been drinking, attempting to put them off the car. They turned upon Peterson who fled into the woods where he was forced to remain for an hour or more.

ELMER YOUNG, CRITIC.

Mr. Elmer Young, liber of the child who was murdered at Digby and of the one who would have been killed had the murderer been successful, is not satisfied with Nova Scotia justice.

"Talk about speedy trials and quick decisions of juries," he exclaimed to the Boston American's correspondent.

"Why, what would they think in the United States if a jury to try a murder case was impaneled in an hour, and after hearing circumstantial evidence of the most precarious nature came to a unanimous decision inside of another hour?"

"I have been a detective for years and have been identified with many legal actions, yet I never saw anything that sailed under the name of justice conducted as this trial has been."

On questions of justice and of decency Mr. Elmer Young would perhaps not be regarded as the highest authority, either in Boston or Digby.

The fact that he is a detective has not much bearing on the subject except that it seems to emphasize the fact that he is not known to have made use of his gifts and acquirements in that field to discover the person who killed his little daughter.

The complaint that a Digby jury was empaneled in one hour, and that less than two days' trial, will likely give Boston some respect for Nova Scotia justice.

In some notable United States trials many days were spent in obtaining a jury, while weeks passed in hearing expert and other evidence and in the wrangling of counsel.

Under similar circumstances the people in the United States would probably think that the jury was right.

ST. JOHN STAR, MONDAY, AUGUST 28, 1905

NEWS OF SPORT.

St. Johns Defeated the Presque Isle Team in a Good Game—Future Won by Ormandale—Moosepath Raos.

BASEBALL

ST. JOHNS STILL WINNING.

The St. Johns pulled out ahead in a well earned contest Saturday with the Presque Isle team by the close margin of 2 to 0. The game was essentially a pitcher's battle, and a fine exhibition of twirling was given by both Goode and McEachern. St. John showed up slightly better in the field, and it was due to this that the locals won. Though McEachern pitched a splendid game, doing some of the best work he has done this season, the Presque Isle man went him one better and had received as good support as the St. John team accorded their twirler, the boys in grey and maroon would not have had either of their runs in the first eight innings.

Goode, who has a record of nineteen strike-outs for one game, did remarkably well Saturday, getting twelve to his credit, with three bases on balls and five safe hits. The visitors could not touch McEachern at the critical moments only three hits being made off him in the entire game, and he held them as he wished when a hit would have been decisive. His finest achievement was in the fifth inning, when Presque Isle had Thibedeau on third base, Upton on second and Burgess was at the bat, with three balls. A hit would have tied the score, but Don sent in three beauties which caused Burgess to fan each time, and the island boys never connected with the home plate. Goode did not seem to put over the plate the ball he was credited with being able to fool the hardest hitter, a sort of underhand floater, but his speed and his control were exceptionally good, his drop ball having a really wonderful dip to it. He was at all times cool, and though not subjected to the same running fire of remarks as the visitors poured on McEachern, yet what efforts the locals did bestow on him had no apparent effect, and he seemed to take a delight in making the batter fan at such times.

dozen contents. On the finish came the Ormandale colt, guided by Redfern's steady hand, disposing of one after another of the colts and fillies who challenged his lead.

In the last sixteen Timber was closing, and a great shout went from the stands, but Redfern, riding a strong fish with hands and knees, sent Ormandale over the line with a good bit to spare.

The ovation was a great one. It was Redfern's first Futurity. Helmer was well up all the way and finished a good third. Flip-Flap, after being bumped about after the first turn, came with a rush in the stretch and ran into fourth place. Others of the seventeen were strung out for quite a distance.

THREE PERISHED IN HOTEL FIRE. Guests at Maranacook, Maine, in a Panic

MARANACOOK, Me., Aug. 28.—Three persons perished and five others were burned or injured in a fire which destroyed the Hotel Maranacook, in this town, early today. Over four score guests and employes escaped in night attire after they had been awakened by the hotel clerk, many of them leaping from the windows. That there had been a loss of life was not known until a search of the ruins during the afternoon revealed the charred bodies. There was apparently no means of identifying the dead, the hotel register had been burned and other means of identifying were missing.

The fire, which is supposed to have been caused by a defective chimney, spread rapidly through the two and one-half stories of the wooden structure. The hotel clerk, Robert Boutwell, discovered the flames and rushing through the corridors, aroused all the guests. In doing this he was seriously burned, and later while attending to the guests in the cold air of the morning, contracted a severe cold, which it is feared will develop into pneumonia. None of the guests had time to seize personal clothing and many of them were unconscious by the time they reached the open air. The injured people were hurt by jumping. Nearby cottagers provided clothing and shelter for the guests, and physicians summoned from Winthrop and Readfield attended the burned and injured.

The hotel was built 27 years ago and was owned by the Maine Central Railway.

The hotel management believe the bodies are those of Mr. and Mrs. E. A. Martin and child of Boston, for the reason that the names of the bodies correspond with theirs. The bodies were found in the middle of the debris.

DR. JAMES I. GOOD Principal of Philadelphia Seminary Preached in St. David's Church.

The pulpit of St. David's church was occupied last evening by Dr. James I. Good, principal of the German Reformed Theological Seminary in Philadelphia.

Dr. Good in his introduction spoke of his close friendly relations with Rev. Dr. Watters, a former pastor of St. David's, and who has been much beloved by the congregation.

Dr. Good took as his text 1st Timothy, 6th chapter and 20th verse: "Timothy! keep that which is committed to thy trust."

Dr. Good gave another rendering of which the text was capable as "Timothy! keep the deposit, in the sense of a treasure deposited in a bank. His spoke of the treasure that was committed to Timothy. Paul had received the gospel from Jesus Christ to preach. Timothy was Paul's beloved friend, and Paul at the close of his life had given that treasure to Timothy.

Dr. Good went on to explain what that treasure is for us. First as a national treasure or the blessing received from Jesus Christ to preach. Secondly, as an ethical or moral treasure given in the Word of God to the church to commit to others. Each denomination stood for some great principle; God has given to us a peculiar treasure, a deposit for that use. He illustrated what these were in the case of the Presbyterian and German Reformed churches.

Thirdly, missionary, a world wide treasure given in order that we carry it to others. The church is a missionary organization, and should not live merely for itself.

FREDERICTON NEWS. Miss Edna Austin in Run-away Accident.

FREDERICTON, N. B., Aug. 26.—What might have been a much more serious accident occurred last evening on University avenue and the particle about seven very lucky to escape as easily as they did.

On the Victoria yesterday afternoon they arrived here the Misses Strong of New York and Miss Edna Austin of St. John. They were met by F. Wayland Porter, who took them for a drive about town with a pair of horses and a double seater carriage.

The party visited the University and while coming down College Hill on the return one of the traces came undone and the horses got away from Mr. Porter's control. The fery steeds dashed out University avenue at a lively rate and just before Charlotte street was reached the pole dropped. When the pole dropped the horses broke away and then the carriage was overturned, coming down on top of its occupants. The horses were caught by W. J. McCormick, while Mr. Porter and friends repaired to D. Lee Babbit's residence. Dr. Bridges was called in and looked after the injured, but outside of a bad shaking up and some bruises everybody was all right. It was a lucky escape.

Mrs. Maguire is remaining for the present at her son's residence in Fairville.

It is reported that last week the Montreal jobbers began offering mills in the upper part of the province, at less than the current prices. This is because of some friction among the Montreal jobbers and manufacturers. Saturday the wholesale hardware people of the city met to discuss the situation, but as some of the parties interested in the business are not at home nothing was done. It is quite possible there may be a small drop in the price of mills next month in the sections of the province affected.

POLICE IN THE DARK.

Have as Yet No Clue to the Identity of the Parties Who Entered the Dunlap-Cook Store Saturday Night.

Up to the present no arrest has been made in connection with the attempt at burglary on Saturday evening at the premises of Dunlap, Cooke & Co. and the National Cash Register Co., on King street. There can be no doubt that whoever it was was disturbed by hearing Mr. Quinn of the Cash Register Co. trying to open the door, and that a hasty exit was made in consequence. Mr. Quinn told the Star that after putting his key in the door he found that something was preventing the door from opening wide. He then forced it and entered to find a gimlet in the crevice of the obstruction. Having switched on the lights he observed the broken window in the back of the shop. Putting his hand through the opening he pulled in two new valises and then found a basin of paste. On the floor of the shop was lying the broken pieces of window glass, over which was pasted the front page of Saturday night's Star, the story of Detective Killen, which was published with his photo being the piece chosen—accidentally or otherwise—the newspaper's headliner.

Chief Clark told the Star this morning that the police are working hard on the case and have suspicions as to the perpetrators. Nothing was taken in their hurried flight.

HER CLOTHES CAUGHT FIRE.

Mrs. L. Odell, whose home is in Geo. Downey's house, 390 Main street, had a very narrow escape from a most agonizing death about noon last Friday. She was using a gas stove in the kitchen range, when the liquid came in contact with the smoldering fire. In a second her clothing and several other household articles ignited. Mrs. Odell caught up a large mat and wrapped it around her, which was about the wisest thing she could have done. The fire was put out before it had made much headway. Others in the house had in the meantime become alarmed, and the firemen at the 5th station, which is situated only a few doors from the Odell house, were notified. It was hardly necessary to bring out the department, but they rendered good service by promptly extinguishing the last of the fire.

BEGINS TONIGHT.

Prof. Crocker's Troupe of Horses at the Opera House. The opening performance of Crocker's remarkable horses commences tonight at 8:15, when they promise to be a treat to the audience. The horses, and the remarkable attraction they proved to be at Halifax was no doubt repeated in St. John. They are twenty-four in number and look in the pink of condition. No one has ever held in the art of training the position that the professor has attained. The staging and scenery will be on the same scale that gained him his popularity, together with the novel and unique performance of his equine pupils as given in European cities. The horses will parade the city today at noon.

TWO BOYS AND A HORSE.

A young lad by the name of McLaughlin, living on Brunswick street, together with a companion, hired a rig on Saturday from Hogan's livery stable and went out the Marsh road. Near Brookville they collided with another team, and with sufficient force to break their wagon and tear the shafts from the body. The boys did not return to Mr. Hogan. In fact he says he has not yet seen them. The horse was found on Saturday by Mr. Ryan of Brookville, and learning that it belonged to Mr. Hogan he sent in word, and horse and rig were secured by the owner.

THE BELL WAS RINGING.

Wilson Gregg, the keeper of the Beacon Light, has informed the Star that the bell is rung during all thick weather and that when the West India steamer grounded and the Calvin Austin got out of her course he was ringing the bell vigorously. The bell he says is less than a year old, weighs 2100 pounds and hangs on the vessels should have heard the alarm. Mr. Gregg says he would court an investigation.
