

### PERSHING IS FIRM FRIEND OF THE ALLIES

Fourteen Thousand Persons Crowd Hall to Hear Him Denounce Traitors.

### AMERICA NO PLACE FOR PROPAGANDISTS

"We Abhor the Intriguer Who Would Secretly Plot Against Our Interests."

New York, March 18.—General John J. Pershing, speaking before a crowd which packed Madison Square Garden tonight at one of the greatest patriotic demonstrations here since the signing of the armistice, bitterly denounced persons of foreign birth who seek the freedom of the United States to spread "political and war-like propaganda" to weaken the ties of friendship between the United States and her allies in the late war.

Fifteen minutes before the meeting was called to order by Colonel Fyank Galbraith, national commander of the American Legion, the fire department officials ordered the doors of the garden closed to bar further admissions.

General Pershing, paying tribute to foreign born citizens who served under him in the Philippines, Mexico and France, declared it was entirely proper that foreigners should cling to the folk lore, literature and music of their birth places, but he assailed those who seek to decide questions and political policies in this country by the standards of their fatherlands.

"We do not object," said General Pershing, "to the foreign-born citizen who attempts to determine a policy of this country because of foreign prejudice, whether he be German, or Irish, Italian, Hungarian or Russian, but we do object to the propagandist who seeks to influence the minds of our citizens by the use of political or war-like propaganda in foreign countries."

"In the United States there can be no place for those who, claiming citizenship with us and enjoying its privileges under our flag, yet continue their allegiance to another country. We welcome all those who honestly desire to become citizens and adopt this country as their own, but we abhor the intriguer, who at the same time, would secretly plot against our interests."

"Are we to forget the years of yesterday? Is the wanton destruction of France and Belgium and on the seas to be condoned? Shall subtle propaganda again lift its person-political tentacles to weaken our friendships? The United States shall remain steadfast in her attitude against aggression and insist that outlaw nations be held to full responsibility for the full penalty for their misdeeds."

Similar sentiments were expressed by other speakers. Letters endorsing the meeting were received from President Harding and patriotic organizations in all parts of the United States.

Helmsfors, Finland, March 18.—General Koestovskiy, leader of the Russian revolutionaries, who was forced to evacuate Kronstadt before the repeated assaults of the Bolsheviks, gave an account of the rising today.

On March 2, he declared, the Kronstadt Government informed the Petrograd authorities it did not recognize the Soviet Government. The Soviet commissaries and leaders of the fleet were arrested and a committee of sailors and workmen elected.

Former officers offered their services, and on March 3 a Kronstadt Government was formed. The military members proposed an attack on Oranienbaum on the Gulf of Finland, opposite the Soviet Government. The provisional committee refused and the garrison began the defense of its fortress.

The hostile attacks became fiercer and fiercer daily. General Koestovskiy said, and yesterday the garrison, unable to repulse them longer, was forced to retire.

Prices are down. Omaha, Neb., March 18.—Reductions ranging from 5 to 30 per cent on the price of certain foods sold on its dining cars have been made, it was announced, by the Union Pacific Railway today.

### Quits The Commons

SIR HERBERT AMES.

who has resigned his seat in St. Antoine-Montreal in the House of Commons because he is financial adviser to the Council of the League of Nations. He is a son-in-law of Sir John Kennedy, of Montreal.

### EAST HAS MORE PRISONERS THAN WEST PROVINCES

Penitentiaries Will Cost for Next Year About \$1,371,000 Estimate.

### WARDEN MEIGHEN COMMISSION CHOSEN

Criticize Gov't for Paying Bigger Salaries to Warden Than to Farm Experts.

Ottawa, March 18.—Alleged indiscriminate distribution of Government pamphlets was attacked in the Commons today by Dr. Michael Clark, Red Deer, who declared that were he to attempt to read those which he received he would read his entire time occupied.

The estimates of the Department of Justice followed. The first item of \$10,000, deputy minister's salary, was criticized by A. B. Cope, Westmorland, remarking that it indicated the position given to agriculture that the deputy minister of the agricultural department should receive \$6,500 per annum and a house.

A. B. Cope, Westmorland, criticized the system by which secretaries in the Department of Justice received a bonus in addition to their salaries. The salaries of the department, totaling \$100,000, an increase of \$5,153 over the previous year were passed with contingencies of \$25,000, also an increase of \$1,000. Two items, miscellaneous expenditures \$13,200 and department costs \$20,000 were also carried. Exchequer court estimates of \$8,324.34, a decrease of \$500 over 1920 estimates were passed.

After several minor items from the Department of Justice the House went into the estimates for penitentiaries, which shows an increase of \$275,000 compared with last year.

Replying to many questions, Hon. Mr. Doherty said there was an increase in the number of penitentiaries inmates in the Eastern provinces, but not in the West. Most of the convictions in the past few months had been for crimes of violence. Last year penitentiaries cost the country \$1,096,600; this year the estimate is \$1,371,000. The cost per inmate was \$1.51 per day.

At one o'clock the House was still considering penitentiary estimates. Just before the dinner adjournment the minister informed A. B. Cope, Westmorland, that the appointment of Wm. Meighen to the wardenship of Dorchester penitentiary was made by the Civil Service Commission and on the basis of promotion.

### Hon. C. C. Ballantyne Sick in Montreal

Merchant Marine Statement Will Be Delayed Until After Easter Recess.

Ottawa, Feb. 18.—Hon. C. C. Ballantyne will not make a statement on the operations of the Canadian Government Merchant Marine until the House of Commons re-assembles after the Easter recess.

The minister is confined to his house in Montreal with a severe cold. Reports received here are to the effect that his condition is improving but it is considered unlikely that he will attend sittings of the House until after Easter.

### Adopts Reparations

London, March 18.—The House of Commons tonight passed the third reading of the Reparation Bill. The bill provides for a levy of 50 per cent on German goods, but this provision will not be effective until March 31.

### FORD TOURING CAR OFFER TO END TONIGHT

Which Standard Contestant Will Win It? Returns Can be Mailed Monday.

### LAST OF EXTRA CLUB VOTE BALLOTS

300.00 Extra Votes for Each \$35 Turned in During This Week—Read Closing Rules

Tonight at midnight ends the close of the last extra club vote offer in the Standard's contest. The big automobile special offer in the Standard's Automobile and Movie Star Contest.

Which contestant will win the new five-passenger Ford Touring Car? It is a special prize which is offered for the best work done during a three-week period which terminates tonight.

Midnight tonight also marks the close of the last extra club vote offer in the Standard's contest. An extra vote ballot good for 300,000 votes will be given with each and every \$35 worth of subscriptions secured by midnight tonight.

The manager of the Automobile and Movie Star Department announces that contestants who fail to take advantage of the last extra club vote offer which is in vogue this week, will be just 400,000 votes short for each and every \$35 worth of subscriptions they secure after midnight tonight.

No returns brought or mailed to the Automobile and Movie Star Department on Tuesday of next week will count on the Ford offer. Read the closing rules for the Ford offer carefully. They will be found in today's contest ad.

### AT THE IMPERIAL TODAY—MAY MILES MINTER IN "SWEET LAVENDER"

AT THE QUEEN SQUARE TODAY—Shirley Mason in "The Little Stranger"

AT THE UNIQUE TODAY—Tom Mix in "The Texan"

### AT THE OPERA HOUSE TODAY—High class vaudeville and feature pictures.

Two of the prizes to be given away in the Standard's big contest are opportunities to become Movie Stars with the Universal Film Company, Fitzgibbon's largest and most progressive Moving Picture Company.

### RAID LIQUORS FOR A. F. OF L.

Denver, Colo., March 18.—State and federal agents today raided the headquarters of the entertainment committee of the American Federation of Labor here, confiscated twenty-one gallons of whiskey and arrested two members of a committee charged to provide entertainment for the national convention of the order here next summer, on a charge of violating the prohibition laws.

### Roundabout Way For N. B. Meats

Westmorland Beef Goes to Montreal Before Going to Dorchester Penitentiary.

Ottawa, March 18.—In a criticism of the way in which purchases are made for the penitentiaries of Canada, some strong remarks were made in the House this evening by A. B. Cope of Westmorland, N. B., in reply to the Minister of Justice, the Hon. C. J. Doherty. Mr. Cope claimed that methods were being used of which the Minister of Justice did not have knowledge. He cited the case of Dorchester penitentiary in New Brunswick, where, he said, the purchasing officials neglected the New Brunswick business firms in favor of Montreal and Ottawa houses.

Case in Point. Meat originally purchased in Westmorland County and shipped to the Montreal market was purchased by dealers and re-shipped to Dorchester. Only one merchant in his constituency had sold a substantial bill to the Eastern institution.

The Minister of Justice promised to supply Mr. Cope with detailed information showing that all goods for the institution in question were purchased by contract.

### DEFEAT RATIFICATION BILL.

Hamilton, Bermuda, March 18.—A motion to ratify the Canada-West Indies trade agreement was defeated in the House of Assembly today by a vote of 16 to 11.

### WORLD NEWS TODAY

CANADA. A rumor is current that the entire directorate of the Canadian National Railways will resign about April 3.

Further hearing of the charge of murder against Eskiel Berry, of Forest Hill, N. B., has been postponed until next Monday morning. One killed and two injured in railway accident near Pictou Junction, N. S.

UNITED STATES. General Pershing, before 14,000 persons in Madison Square Garden assails foreigners of the United States who would make trouble between the Allies.

BRITISH ISLES. Resignation of Andrew Bonar Law likely to produce great demand for general election.

Three Sinn Fein members of the House of Commons are alleged to be leaders in attacks made in Dublin on the Crown forces.

EUROPE. French and Belgians move more armies into Germany and occupy more cities.

Belgians urged at presence of armed ships of the Allies in her ports.

Six men deported from the United States are refused entrance into Russia.

### Ill in London

SIR ADAM BECK. Head of the Ontario Hydro-Electric Commission, who is reported ill at his home in London, Ont.

### ENTIRE BOARD OF C. N. R. MAY RESIGN EARLY

Ottawa Rumor Declares They Will Quit Posts Soon After April 9.

### G. T. R. NEGOTIATIONS NEARING AN END

Reorganization of Entire National System Likely to Follow End of Hearing.

Special to The Standard. Ottawa, Mar. 18.—It is understood here tonight that reorganization of the Canadian National Railways board of directors will be carried out shortly after April 9. That is the date on which the Grand Trunk arbitration proceedings are due to come to a close.

It is also learned that a request has come from the Grand Trunk for an extension of time in the proceedings, but there is reason for believing that this request will not be granted. While no official statement has come from the government with regard to Canadian National Railway board reorganization, it may be taken that the report has foundation.

All May Quit. Just how that reorganization is to be carried out is not indicated, but it will likely include the retirement of all members of the board. The personnel of the C. N. R. board of directors is as follows: D. B. Hanna, President and General Manager; A. J. Mitchell, Winnipeg, Vice President; R. T. Riley, Winnipeg; Robert Hobson, Hamilton; E. R. Wood, Toronto; Sir H. Leonard, Montreal; G. A. Bell, Deputy Minister of Railways; Colonel Thomas Cantley, New Glasgow; A. P. Barnhill, St. John, N. B.

The statement is also made that consolidation of the entire system will be gone forward with immediately the Grand Trunk is taken over.

### Married Men Are Given Mine Work

New Waterford, N. S., Mar. 18.—All the married men among the 300 employees recently laid off at No. 15 colliery here were today given employment by the Dominion Coal Company at its other collieries in this district. The policy of the company is to keep the married men at work as long as possible, laying off the unmarried men, if necessary, to provide places for them.

### MOVE ARMIES FURTHER INTO GERMAN LANDS

French Troops Are Now Within Two Miles of City of Essen.

### GERMANS EXCITED OVER ARMED SHIPS

Belgian Forces Have Been Advanced Into Speldorf and Mulheim-on-Ruhr.

Dusseldorf, March 18.—The occupation area has been extended from Duisburg to stations all along the railroad running from Duisburg to Essen to within two and a half miles of Essen. The central freight yard at Wedau, the largest in the Ruhr district and Mulheim stations are guarded by French troops. Dusseldorf is quiet.

Armed Ships Excite. Berlin, March 18.—The recent entry of some armed British ships in German harbors, it was announced in the Reichstag today, is seriously engaging the attention of the German Government in view of the gravity of the principle involved. Chancellor Peinreich urged the speedy passage of the disarmament bill warning that delay, for which neither he nor the government could take the responsibility, would entail danger.

Belgians Move Up. Berlin, March 18.—Franco-Belgian troops have occupied the Western quarter of Mulheim-on-Ruhr and the railway station at Speldorf. Other small allied troops have occupied the west railway station at Oberhausen and Ipkis in the vicinity of the Escher canal.

### ENGINEER KILLED IN TRAIN WRECK AT PICTOU JCT.

Express Train Ran Into Open Switch and Engine Turned Over.

Dead Railwayman Was a Resident of Pictou—Fireman Among Victims.

Pictou, N. S., March 18.—The short line express No. 34, from Oxford Junction to Pictou ran into an open switch at Urquhart's Sliding, about two miles from Tatamagouche tonight. The engine turned over and crushed to death the driver, John J. Ferguson, of Pictou, and badly injured Dick Almond, the fireman. James Rogers, the baggage man, was also badly shaken up. The two cars next to the engine left the rails, and went over at an angle of 45 degrees. The first and second class cars held the rails and some of the passengers were injured. A wrecking train was sent out from Stellarton to clear the line.

### Jail And Lashes For Hero Veteran

Refused to Work in German Shop—Comes Home to be Found Guilty of Robbery.

Vancouver, B. C., March 18.—Joseph Keboe has been sentenced to five years in the penitentiary and twenty-four lashes, for robbery with violence. There were eight charges against him. As a prisoner of war, he was sentenced to sixteen years imprisonment by the Germans because of his refusal to work in a munitions factory but was exchanged because of his physical condition.

Returned soldiers organizations met today to frame a petition to have the flogging omitted.

### Soviets To Reject American Deportees

"At Sea at Present Bound 'Nowhere' Says Hapless of the Hapless Lot.

New York, Mar. 18.—An unsigned telegram from Moscow, stating that the Soviet Government had refused admittance to six men deported from this port February 29, was made public here today by Isaac Shatz, who acted as their attorney. The message added that the deportees were "at sea at present, bound nowhere."

The six were among 87 persons ordered deported to Russia on the steamship Zealand, which conveyed them to England where they were taken aboard another ship bound for Libau by way of the Baltic.

### Flays Foster Party

HON. J. E. M. BAXTER.

Leader of the Opposition in the New Brunswick Legislature, who reviewed the Government work in a speech in the House yesterday. See page 7.

### GERMANS AND POLES CLASH IN U. SILESIA

Several Killed in Fights Between Rival Nations in Disputed Territory.

### ARMED FORCES ARE RALLYING ON FRONTIER

Germans Appeal to Inter-Allied Committee for Protection Against Bands.

Berlin, March 18.—Reports of isolated clashes in a number of Upper Silesian districts have caused the German Government to protest to the inter-Allied Committee in Opheln, against the revival of what it terms "Polish terrorism."

In official quarters, it was declared today that several outrages were committed in the Zybkow district in the last few days, houses having been burned, one man murdered and others beaten, but that news of the incidents had not been made public here in the "fear that it would adversely affect the tide of German voters pouring into the plebiscite zone."

Not Made Public. For this reason the contents of the Government's note of protest, which cited specific instances, has not been made public.

Officially, it is reported, the situation in Silesia generally is quiet, but rumors persist that armed German and Polish forces are gathering on the frontiers in anticipation of fighting. The German plebiscite propaganda organization has put out a statement declaring the Poles have begun agitation for an extension of the Allied penalties to upper Silesia in the event that the Germans win.

Officially, it is reported, the situation in Silesia generally is quiet, but rumors persist that armed German and Polish forces are gathering on the frontiers in anticipation of fighting. The German plebiscite propaganda organization has put out a statement declaring the Poles have begun agitation for an extension of the Allied penalties to upper Silesia in the event that the Germans win.

### NO SPRING STRIKES LIKELY IN TORONTO

Everything Will Be Satisfactory Unless There is a Wholesale Cutting of Wages.

Toronto, March 18.—Labor unrest in Ontario is generally in a quiet, but unless there is a wholesale attempt by employers to reduce wages. The Carpenters' union is the only organization of the building trades industry that has not closed an agreement since 1921. The metal trades union will not ask for increases in wages this year.

Representatives of the packing house workers' union and the meat packing companies are negotiating on the question of wages.

### BANDITS ROBBED UNION CASHIERS

Detroit, March 18.—Three armed bandits this afternoon held up two women employees of the United Brotherhood of Maintenance of Way employees and railway shop laborers and escaped with \$6,000 in cash. The holdup occurred in front of the Brotherhood headquarters here.

### WESTERN TRADE BETTER

Winnipeg, March 18.—A canvass of leading business men in the west shows that they, most without exception, claim that within a few months conditions will have regained their normal course, states the weekly trade report of the Canadian Credit Men's Trust Association.

### WANDERER TO DIE

Chicago, Mar. 18.—Carl Wanderer, today was found guilty by a jury of the murder of the "Ragged Stranger" shot to death in the alleged hold-up and the penalty fixed at death.

### SINN FEINER M. P.'S LEADING DUBLIN RAIDS

Three Irishmen Who Are Members of House of Commons Named by Crown.

### FIFTY ATTACKS ON TROOPS SINCE JANUARY

Limerick Council Declines Sympathy of Crown for Shooting of Mayor.

Dublin, March 18.—An official statement issued from Dublin Castle this afternoon, charges Cassola Burgess, Richard Mulcahy and Michael Collins with responsibility for the organization and control of attacks on forces of the Crown in Dublin. The three are Sinn Fein members of the British parliament and thus far succeeded in evading arrest. Attention is called to the economic loss due to imposition of the curfew order, necessitated by attacks which it declares are only "slightly successful."

Fifty Dublin Outrages. Since January 1, according to the Castle announcement, there have been fifty attacks in Dublin in which one soldier was killed and seven soldiers were wounded; four policemen killed and eight wounded and seven civilians including women and children, killed, and forty wounded. It is suggested that citizens take the opportunity to influence their elected representatives to cause Burgess, Mulcahy and Collins to cease their attacks.

Attacks on Police. Throughout Ireland during the week ending March 14, the statement says, seven policemen were killed and ten wounded; eight members of the military forces were wounded and seven civilians suspected of giving information to the police, were murdered. These figures do not include the former mayor of Limerick, whose death at the hands of assassins is being investigated. There have been ten terminations. The house of Mrs. J. W. Lindsay, near Macroom was burned today. It is supposed this was done by Sinn Feiners who suspected that she gave information to the police.

Declines Sympathy. Limerick, March 18.—The corporation of Limerick, in response to letters of sympathy from the commander of military headquarters and the divisional commissioner of the Royal Irish Constabulary in Limerick, has sent letters, signed by every member of the corporation, declining to accept the extended sympathy, and charging the killing of the mayor and the former mayor to Crown forces. The letters also accuse the police and military of negligence, saying they could have traced the perpetrators of the crimes.

### DOVER MAN IS MURDER GUILTY

Killed His Wife and Mother-in-Law With Rifle in Their Home.

Dover, Maine, March 18.—Edward Lapointe was found guilty tonight of the murder of his wife, Gladys, and mother, Mrs. Albert Higgins, at Sebec on July 30, 1920. The jury was out an hour and three-quarters. No testimony was presented by the defence. The two women were killed by shots from a rifle at Mrs. Higgins' home, to which Mrs. Lapointe had gone to live. The only witnesses to the shooting were her two children, both less than four years old. A confession alleged to have been made by Lapointe to a deputy sheriff, was excluded from the trial.

### PROFESSOR COMPLAINS OF OXFORD SALARIES

No Increase in Pay Since 1880 He Tells the House of Commons.

London, Mar. 18.—Sitting until three o'clock in the morning the House of Commons read the coal control bill for the third time today. The House also discussed the proposed £200,000 bonuses for civil servants. An incident of this debate was the bitter complaint of Professor Oman, member for Oxford University, that salaries in the University had not been increased since 1880.

### Mrs. Perry Wants Murderer Found

Yarmouth, N. S., March 18.—"It is rather hard that they have suspected me, for this suggestion to my mind, is ridiculous," said Mrs. Clara Perry, widow of Captain George H. Perry, who was murdered at the threshold of his home, in an interview with a newspaper correspondent today. Mrs. Perry brought up the subject herself, and she talked quite frankly about the crime. She voiced a strong determination to assist the authorities in every way possible to bring the murderer to justice.

### STEEL MEN ARE DIVIDED ON AN EIGHT-HOUR DAY

#### Independents Doubt Success of New Policy Said to be Contemplated.

### FAILURE IN SWEDEN HAS BEEN CITED

#### Drift of Labor to Plants Working Longer Hours is Predicted.

(Copyright 1921, By Public Ledger.)

Pittsburgh, March 18.—Intimation that the shorter-working-period policy said to be contemplated by the United States Steel Corporation will result in failure and that there will be a drift of workmen to independent mills which retain the longer day was heard in comment today by leading independent steel men of the Pittsburgh district.

While admitting there are two sides to the question, James A. Campbell, president of the Youngstown Sheet and Tube Co., largest independent in the Mahoning valley, declares he is opposed to a general eight-hour day because, as a general proposal, men cannot earn more than a living by eight hours' work, whereas they should have opportunity to "put something aside for emergencies and old age." He illustrates his point by citing the experience of Sweden, where the Socialist parliament inaugurated an eight-hour day only to bring the admission, since that it is a failure.

The independents point out that if their plants were to retain the longer work day, employees would be able to earn more wages than in eight-hour mills, and there might consequently be a drift to the independents of men who desired the advantage of the additional compensation.

Lately the eight-hour day has been in effect at many independent plants, but only because it is desired to divide what work there is as equitably as possible.

Mr. Campbell says he believes there

### TORPID LIVER FOR OVER 4 MONTHS

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

When the liver becomes lazy, slow or torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow.

Milburn's Laxative Pills quickly remove the secretions, clear away the waste and effete matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood and cause so many troubles.

Mr. Alice Mohill, Napawa, Ont. writes: "I was very badly run down and had a torpid liver for four months. I tried several remedies, but got no relief. One day my husband brought me home a box of Milburn's Laxative Pills, and before I had used half of it I was much better. I only used two vials, and I am a different person today. I can safely recommend Milburn's Laxative Pills to any one troubled with liver troubles."

Milburn's Laxative Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Deposed Priest To Be Absolved Now

Rome, March 18.—Bishop Fallon of London, Ont., has been authorized by the Holy See to absolve Rev. Philip Gaam, a priest who was excommunicated by a consistorial decree in May, 1914.

The case arose when Father Gaam, who was in charge of the parish at Wrentham, Ont., questioned the right of Bishop Fallon to remove him to another parish.

The case dragged through the civil courts and was carried to Rome when Father Gaam committed a breach of church law in calling the papal delegates before a civil court as a witness. Father Gaam was excommunicated.

Later he admitted that he was in the wrong and made a public apology recently and has been reinstated, and is now in charge of the parish at Aylmer, Ont.

### SUBMARINE RE-FLOATED

Westerly, R. I., March 18.—The United States submarine No. 8, which ran on Watch Hill reef, while manoeuvring yesterday, was floated early today, and taken in tow for the New London submarine base. She was apparently undamaged.

### ST. JOHN MAN CHOSEN

Ottawa, March 18.—At the annual convention of the public works Federation yesterday, officers elected included President T. G. Mathison, Toronto, and vice-president H. F. Bennett, St. John, N. B.

are instances where the eight-hour day should be enforced. In the sheet mills, for instance, where operations must be continuous in order to keep rolls at an even temperature, and where the work is constant, as well as hot and hard, he believes the eight-hour day is a necessity. He also is opposed to the long hours in other departments requiring continuous operation, such as blast furnaces and coke works, and has suggested that some arrangement be worked out whereby a sixty-hour week could be inaugurated.

Jonathan Warner, president of the Trumbull Steel Co., said that company has generally adopted the eight-hour day in all departments.

There is a general belief among independents that the seven-day week and the twenty-four-hour turn in changing shifts should be abolished.

S. P. Kerr, president of the Sharon Steel Hoop Co., says three elements enter into adoption of the eight-hour day by the steel industry—attitude of the affected workmen, labor supply in normal times and the housing situation.

"It is a question," he says, "whether the workmen themselves will accept the reduced wage rate which it may be necessary to pay in cutting hours. Unskilled labor, as a class, is more interested in the amount of compensation than the length of the work-day."

### Housing a Serious Problem.

"The housing situation I regard as the most serious difficulty confronting the general adoption of the eight-hour day. In a center such as Youngstown, thousands of additional workmen would be required to operate existing establishments. There are hardly enough houses and apartments now to supply the demand. Now the housing needs of many thousands of additional workers could be speedily met is a question I am not prepared to answer."

The majority of the leading independents are uncertain as to what effect the institution of the shorter day would have in the industry, although almost to a man they are heartily in accord with the movement to abolish the seven-day week and the long shifts at turn changes.

Thomas A. Bray, president of the Republic Iron and Steel Co., and James H. Goss, head of the Briar Mill Steel Co., which ranks with the leading independents of the country, expressed sentiment not unlike Mr. Campbell and Mr. Kerr.

### Fancy Styles Dye In Men's Footwear

#### Visible Eyelets, French Toes, Ball Strapping, Colored Stitching Among Novelties.

(Copyright 1921, By Public Ledger.) Boston, March 18.—Some manufacturers completing Easter orders, and post-Easter work, are trying to stimulate summer trade with a style production not equalled in many years in the men's line of shoes.

The men's trade is still slow, and most of the merchants are trying to move leftover stock by injecting novelties into it. Manufacturers and retailers have co-operated in this effort. Three types, especially, are coming in to favor among dealers for exhibition in the near future.

There is a revival in the visible eyelets, renewed interest in the customs last, but the great feature will be the modified French toe. The chief characteristics of this is that it is square at the end, with a slight recess from the end and a slightly walled side. Another new last gives a short vamp, medium toe and outside and inside ball-stroke extension edge which gives a spade effect at the shank. One of the modified French toe last factories in Rockland, Mass., has already received orders for about 45,000 pairs.

### Many New Styles.

There is such a profusion of fancy patterns in men's shoes for the coming season, showing perforations, pinking, ball straps effects and colored stitching that the coming fall season will sparkle with style ideas. Present indications are that the high-grade shoes will be selling on the retail market at between \$13 and \$15, and the medium grade will range between \$8 and \$12. More new styles in the medium grades than in the high grades.

In the leather markets the business is quiet and apathy. Tanners are getting orders for only small quantities of sole leather and upper leather business is rather slow, as the manufacturers are well covered on their Easter orders.

The demand for calkins continues to be brisk, particularly in the light shades of tans for women's footwear. Smooth finished calf leather in men's weights ranges from forty to fifty cents and women's weights can be had from forty-five cents down on regular shades.

Bedford-Johnson factories are reported to be running nearly to full capacity, producing about 30,000 pairs a day, largely of the lower grades and medium grades, and heavy workmen's shoes.

### Kidney Disease

If you would guard against chronic diseases of the kidneys or bladder, take Gin Pills at the earliest sign of kidney trouble. Whether it is backache, pains through the groin, swollen joints, constant headaches, restless nights, brick dust deposits or painful urination, heed the warning and act at once.

If Gin Pills do not give you genuine relief, we will refund you the purchase price. Sixty cents a box everywhere. Sample free. If you write to: National Drug & Chemical Co. of Canada, Ltd., Toronto, Ont., P. O. Box 100, Toronto, Ont. Address: 305 Main St., Buffalo, N.Y.

### FREE TO MEN Would You Like to Be a Strong, Husky, Manly Fellow Once More? New Method Without Drugs

The attached coupon entitles you to one illustrated copy of my pocket compendium and guide for the self-restoration of lost strength. (See description below.) Upon hearing from you, this valuable little book of private information for men will be sent by return mail in plain, sealed envelope. Please call or write today.

There is a new and marvelous method for restoring lost manly strength for re-creating vigor, which every man should know of, a self-restoration which operates without the use of drugs or medicines, a new way to treat your self for your fits and weaknesses. See description below.

Please remember that a man is not one day older than he actually feels, and therefore no matter what your age, if you are young or elderly, married or single, large or small, if I can show you, reader, how you, yourself, may actually add to your system, nerves and blood the very nerve force or vigor which may have been drained away, and which is necessary to make you strong, vigorous and capable again, then I have shown you the real secret of perpetual strength, and how you can again be filled with vigor, and again be just as powerful in your influence and just as thoroughly manly in your capacity as the biggest, fullest bloomed, most successful fellow of your acquaintance.

The new self-treatment for the restoration of manly strength, to which I refer above, is a little light-weight VITALIZING Appliance of my invention, which is now meeting with a tremendous demand, and being used by men everywhere all over the world. This little VITALIZER, weighing only several ounces, is comfortably buckled on the body and worn all night. It is so small and so compact that even a room-mate would not suspect that you were wearing it. It, however, this VITALIZER is small in size it is not small in power, for it generates a great tangible FORCE which can be measured on scientific instruments a POWER which I call VIGOR or NERVE ENERGY, and sends this marvelous FORCE into your blood, organs and nerves while you sleep. All you have to do is to lead a decent, manly life, free from excess and dissipation, then use the VITALIZER, nothing more. If this is followed out and the VITALIZER does for you what these others say it does for them, then all the pain or weakness will disappear from the middle of your back—possibly from the first night's use—and you will be restored to a strong, vigorous, manly, capable man, without a single ache, pain or weakness. Please remember, I am not asking you to buy one of these VITALIZERS, but merely request you to first send for the free book described below, a section of which is devoted to an explanation of this VITALIZER, and gives you its whole wonderful story, so that you may know what intelligent young and elderly men everywhere are saying about it.

This is the Book You Get Free My 88-page illustrated booklet (pocket size) was compiled by me to answer fully and correctly those questions which are asked privately by any man needing new strength and who seeks personal advice pertaining to the ailments and weaknesses he wishes to overcome. The book, fully illustrated, with photo reproductions, contains much that a single or married man should know. It also fully describes my VITALIZER and tells how you may secure one to use in your own case, should you decide you want to use one. Remember, the book is sent absolutely free in plain sealed envelope. Why not write for a copy today? Satisfaction guaranteed in every case.

### A PAGE OF NEWS ABOUT THE MARITIME

#### BAXTER AND FAWCETT FLAY FOSTER PARTY WHICH HAS HALF HOUSE IN OPPOSITION

Leaders of the Opposition and the Farmers in the Legislature Tell Government That Public Debt Has Been Greatly Increased and Express Little Faith in Promises for Development.

Special to The Standard  
 Fredericton, N. B., March 19.—Hon. J. B. Baxter, leader of the Opposition, and A. Chase Fawcett, leader of the Farmers' party, spoke in the debate on the address in the Legislature today.

Hon. Mr. Baxter has long been recognized as an exceptionally able parliamentary debater, but seldom has he been more effective than today. He charged the Government with giving itself fulsome adulation in the speech from the throne when the results of the elections showed that the people had not approved of the acts of the Government.

**Restigouche Election**  
 He dealt with the situation created by Restigouche being deprived of representation, charging the Chief Law Officer of the Government with putting political advantage before the law of the land and the rights of the people.

The House and the country, he declared, demanded a frank statement by the Government. He invited the Government to state its failure in performance in spite of the contents of the speech from the throne, said that if Dr. Curran, the mover of the address, had been looking for restigouche "monster born in blunder," he would have looked towards the Transcontinental Railway built by a Liberal Government through the centre of New Brunswick, while the St. John Valley was neglected, and gave some startling facts showing that the Public Works Department last year had spent \$225,000 over its appropriation, which, he said, led to the belief that "elections are expensive."

**No Majority**  
 Both speakers pointed out that the business of the province is being carried on by a Government which had come back from an election with its strength reduced and which had lost all to elect a cabinet of members. In fact, Mr. Fawcett went so far as to say that the Government should not have gone on with the awarding of extensive contracts for highway construction and hydro-electric development after the election without first of all waiting to see whether the Government had sufficient support in the house to enable them to carry on. He condemned the road policy of the Government and the agricultural policy as well.

The adjournment of the debate was moved by Premier Foster, who will speak on Tuesday.

When the House met, Hon. Mr. Foster from the committee appointed to examine all standing and general committees submitted their report.

**Amend Motor Act**  
 Hon. Mr. Veniot introduced a bill to amend the act respecting motor vehicles. He explained that under the measure it was proposed to increase the fee for motor vehicles and motor trucks, and that the same would be retroactive to January 1st of this year. The fee on automobiles was now eighty cents per cwt., and it would be increased to \$1 per cwt. in future. A truck weighing two tons and not more than three, would be charged \$25 with 50 cents additional for carrying capacity. Motor trucks having a carrying capacity of more than three tons will not be permitted to use the highways of the province unless the owner shall have first obtained a special permit from the Minister of Public Works. In case such permit is issued the fee for a truck weighing three tons, and not less than four tons shall be \$40, with 70 cents per hundred pounds for carrying capacity. Under the bill the minister explained, it was proposed in the future to license garages. The fee in cities would be \$20, in incorporated towns \$10, and in villages, 45.

The bill will provide for a fee of 40 cents per hundred pounds weight on tractors or tractor engines. In the case of tractors in use on farms the fee will be \$1.

**Annuity Act**  
 Hon. Mr. Foster introduced a bill to

#### Childhood Constipation

Constipation is one of the most common ailments of childhood and the child suffering from it cannot thrive. To keep the children well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are absolutely safe and never fail to relieve constipation and indigestion, colds and simple fever. Concerning them Mrs. Jules Faugereau, Nonington, Que., writes: "My baby was terribly constipated and suffered day and night; I was advised to give him Baby's Own Tablets and from the first they helped him and now at the age of thirteen months he is a big, healthy, happy boy." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Comment on a recent news item out in the Fresh Air districts

instance of the Government, yet the statement was made that there was no return from the Sheriff. The case had been decided adversely by the court, not because of any wrong on the part of the successful candidate, but because of the mistakes of the Sheriff. The matter was not under appeal and was a matter of regret that a frank statement had not been made to the House.

**Made Crops Good**  
 He noticed in the speech from the throne that the crops were abundant and prices were satisfactory, except in the case of several commodities. Having claimed the credit for making the crops good, the Government might have seen to it that the price of the crops was satisfactory. He thought that if the Government confined itself to assisting the agricultural industry, the markets would take care of themselves. The farmers had been told that while potatoes had dropped in price, fluctuations in other commodities had brought about a readjustment, but he thought it would be poor consolation to farmers who had lost their money in potatoes.

**Lime Crushing Work**  
 The speech had set forth that the lime-crushing industry established by the Government had been successful and would advise the Minister of Agriculture to devote a little more attention to the much lauded enterprise in which the Government had engaged. His speech was of opinion that about a 50 per cent. lime result had been obtained for a 100 per cent. price. He noticed that the lime industry was being developed in the province.

**Flax was useful in the manufacture of rope, and rope was useful for hanging purposes. If members of the government were disposed to have no objection to the flax industry, it would be raised.**

**Water Powers.**  
 Hon. Mr. Veniot: That will be the only way you will ever get into power.

Mr. Baxter continuing, said the mover of the address had stated that \$800 h.p. was being developed on the Musquash River and that 12,000 additional would be available on the Levesque when required. He had understood him to say that of the eight thousand h.p. one customer would take a large quantity and there would be sufficient left for commercial purposes, but he thought it would be a pity if the Government was of opinion that a more prudent for the government to have first developed the twelve thousand horse power rather than to have two thousand of which would supply all needs and leave a surplus. He would like to see the water powers developed, but when the power was turned on the general survey cover or ten years, as some contended would be the case, he could see the vanishing of the one-third reduction in cost.

**Education.**  
 Education also had been referred to. The proposals seemed to be that the government will introduce an act to make loans to students to attend the normal school who may be in need of financial assistance. He hoped that no girl or boy whose parents had voted for the administration would be overlooked. Those whose parents support

Farmer Party wished to give some facts as to why the farmers appeared in the house as a separate body. The farmers of the province had felt that they were unable to get legislation in the best interests of their industry. A change had occurred and they had decided to take matters in their own hands. He felt that the government had been remiss in its duty in a democratic country in bringing on a general election at the time it had, particularly because of conditions which had confronted the agriculturists. The election had come at a time when the farmers were really heart-broken on account of conditions and were doing their utmost to save what was left of crops seriously damaged by the weather. The election had resulted in the return of twenty-four supporters of the government, and twenty-four opposition members were returned.

**Roads Useless.**  
 The Premier had given out in his manifesto that the government should be returned because of the intended expenditure on hydro-electric development, and the extension trunk highways. He believed the development of motoring was responsible to a great extent for the deficit of the Canadian National Railways. The encouragement of agriculture was avowed, but this road policy had encouraged the farmers of the back district to remove to the towns or to districts along the trunk roads. He wanted to see good roads in the rural districts and from town to town, but the wrong principle had been adopted.

**Back Roads Needed.**  
 If large expenditures on highway construction were to continue he would suggest that they be made on the roads of the back districts. Farmers did not expect thousands of dollars per mile to be spent upon such roads.

**Financial Problems.**  
 On October 31, 1917, after being in power several months, the total indebtedness of the province, omitting sinking funds, was \$16,797,050.50. In the present government were included. On October 31st, exclusive of sinking funds and housing act expenditure, the total indebtedness was \$22,062,894.41, an increase of \$5,265,843.91 in three years. The actual increase had been \$6,416,522.98. For the past year the estimated expenditure, \$2,497,722.64, making an estimated surplus of \$31,771.52, the Valley Railway \$252,351.02, leaving about \$73,000, which would have been a surplus clear of everything. In only three minor items did receipts fall below estimates. The total revenue was \$2,100,548.53, some \$270,000 in excess of the amount estimated. If the government had followed the thrifty policy of spending no more than income, they could have provided for the Valley Railway expenditure and had a surplus. There was one particular member of the government, the Minister of Public Works, who with an estimated expenditure of \$482,000 had actually expended \$811,810.67, making an over-expenditure of \$329,810.67. He had swallowed up the entire surplus.

**School Inspection.**  
 Much was made of medical inspection in schools. An incident in a town near St. John city had been called to his attention. A child suffering from mumps had been inspected and the official had advised that teeth and tonsils be removed. In the course of time the child recovered from the mumps and teeth and tonsils remained. That was one example of shams drawing salaries.

**Valley Railroad.**  
 There was the announcement of the intention to fund the Valley Railway interest. "A monster born of blunder," was the term used toward that railroad. What did the representatives from Carleton and Victoria think of the expression? If his friends opposite wished to see a blunder let them observe the siltous trail of the Trans-Continental Railway, of benefit to no one, except possibly, Nova Scotia. The Premier and himself had attended meeting after meeting for the purpose of

**Ship's Officers Are Not To Blame**  
 Captain Did Not Know That Forchu Head Light Had Been Extinguished.

Halifax, N. S., March 18.—Captain Robert Owens and the officers of the steamer Kadama, which stranded on Pot Rock off Forchu Head on Feb. 23, are exonerated from blame in the sailing by the report of the official board of inquiry which was made public this morning. Capt. George Lindsay, commissioner, and Captain C. L. Wilson and Neil Hall, who composed the board, expressed their opinion, however, that the risk undertaken by Capt. Owens in navigating so close to land under existing conditions was not justifiable under the circumstances, and cautioned him against being influenced by ice reports (some what belated) which are liable to continue and rapid changes. The court also is of the opinion that had Capt. Owens been aware of non-existence of the light on Forchu Head, the accident would not have occurred, and recommends listing of lights extinguished in winter as such in the "light lists."

**Fear The Cost.**  
 As far as hydro-electric development was concerned, the farmers would be favorable if assured that the cost would not be excessive. He had little confidence in the government's estimate of cost. Judicial administration should produce cheaper power by hydro-electric development. Such power should be carried to all farming districts possible where it would prove cheaper than existing power and of great benefit. Consistent with the financial position of the province the farmers would favor such development.

**GEESSE ARE OUT.**  
 Chatham, N. B., March 18.—Two flocks of wild geese are reported to have been seen in the Bay last Sunday by down river people.

**Let FLOWERS carry the EASTER message**  
 Everyone admires a "dressed-up appearance." What could be more "dressed-up" than a flower? Fresh as a spring morn—the dainty growths are sure to bring the donor a grateful response. Since the world began flowers have been man's token of admiration to those possessing feminine charm.

or \$1.50 per month for helpful medicine. It is a safe, secure, and reliable treatment if you take Hood's Sarsaparilla, known in thousands of homes as the best reconstructive tonic. For nearly half a century this good medicine has stood in a class by itself in curative power and economy. Hood's Sarsaparilla gives more for the money than any other. It tones up the whole system, creates an appetite, promotes assimilation, so as to secure for you 100 per cent. of nutrition in your food. More than this, it purifies and enriches the blood, eliminates poisonous matter after diphtheria, scarlet and typhoid fevers, eradicates scrofula and catarrh, relieves rheumatism and makes the weak strong.

**Hood's Sarsaparilla**  
 IS PECULIAR TO ITSELF IN EFFICIENCY AND ECONOMY.

# Styles For Men

## What New Yorkers Will Be Wearing

Soft Hat Coming Back—New Trousers Have Pleated Fronts—Fibre Silk Shirts.

In the matter of slight variations in style, peculiar to this season in Gotham, there is a noticeable vogue for the preference of the soft hat over the bowler for every occasion on which either of these two types is correct. It is also worthy to note that the formal tail coat is worn less and less for formal occasions and especially by the very swanky young Gothamites. On the other hand, a white waistcoat, said to be the very latest vogue from London, is decidedly popular, it is cut straight across the front, with no suggestion of the old pointed waistcoat, so as to show the very exaggeratedly full pleated front to peasant trousers.

The trousers worn by fashionable New Yorkers this season are very full in the leg and across the belt line in front there are as many as six or eight full pleats.

Incidental with the recent Pilgrim celebration there has sprung up quite a business in hand-loomed materials and those manufactured to resemble such fabrics. The vogue had its start in New York in connection with women's outerwear. It has now spread over into men's wear, and such materials are being utilized not only for sports wear, but also for business suits. Hand-loomed chevrons and homespun, worsted, crabbies and tweeds have created quite a place for themselves in the smart shops about town. The loose garment designs in fashion are said to help the exploitation of such materials.

After some unsatisfactory experience with the lack in wearing quality of low silk shirts, Gothamites seem to be leaning now toward fibre silk garments according to reports current in men's wear circles. The wearing quality of an artificial silk shirt, so its supporters contend, is as much as twenty times that of the low grade silk article. Manufacturers have prepared some new designs in fibre silk shirts for spring, and combinations of this material with linen and cotton also are to be offered the public. Fibre silk stripes have been used with cotton and linen bodies, so that the stripes may last as long as the rest of the material.

## Frock Coat Coming Back Into Favor

All Signs Point to a Revival of It as a Morning Coat.

Will the frock-coat return? asks a British trade journal, and says that there are signs that this fashion of 1890 will be re-introduced shortly. The latest British overcoats resemble the old frock-coats. The double buttons are set closely together, the skirt is full and the waist narrow. These coats are very popular.

## Big Demand For New Collar Shapes

Change in Styles of Starched Collars Revives Sale—Young Men Buying Freely.

Revived interest in starched collars has already resulted from the introduction of the new low shapes. Retailers have been stocking them generously, and the showing of new models is expected to still further help along their vogue. One collar house is reported to have as many as five new shapes of this character on the way.

As a business producer, the radical difference between these collars and the long point styles that have been in vogue, should be a boom to the merchant. They are a fine warm weather collar, it is true, but it has been pretty well proven that this consideration does not count for as much as the element of vogue. Once they are adopted by the young men who want to wear the newest style, it does not matter much what the season is—the collar that sells is the one that is announced to be the latest. Some of the new collars are quite extreme but these only tend to emphasize the fact that low front collars are the new style.

## Clothing Prices Being Slashed

Suits and Overcoats Radically Reduced in Price All Over Country.

In many of these shops men's and women's suits and overcoats are being featured at \$19.00, said to be all wool garments. Junior suits are being offered at \$8 on a downward revision from \$15 to \$35. It is said in many of these stores that \$40 to \$45 suits and overcoats have been reduced to \$25, and \$50 and \$55 suits and overcoats to \$35. Two-pant suits are being sold for \$28 and \$27 on the \$40 and \$45 grades, and \$35 on the \$50 and \$55 goods. Other popular price stores are featuring 50 per cent. off on \$30, \$40, \$50 and \$60 suits and overcoats, with a horizontal cut applied to all other merchandise in stock. This includes fur-lined overcoats.

WHOLESALE PRICES FALL  
Ottawa, March 18.—Wholesale prices continue to fall, according to statistics published in the Labor Gazette. The index number of wholesale prices for February was down to 270.97 as compared with 281.3 for January; 245.5 for February 1920; 272.8 for February, 1919 and 136.8 for February, 1914.

KILLED WIFE—THEN SUICIDE  
New York, March 18.—After firing six shots from a revolver into the body of his wife, Louis Sidoris, of East Orange, N. Y., cut his own throat with a knife and jumped from the fourth story window of a West Side apartment house yesterday. He died soon after arrival at a hospital and his wife was not expected to live.

## LOWEST PRICES Hunt's BEST OF QUALITY EASTER SUGGESTIONS

## Your Easter Clothes

Easter is the "dress-up" day of Spring— "everybody who is anybody" dresses just as well as he can on Easter Sunday—it's been done every year for years and it's going to be done again this season.

### 20th Century Brand Clothes

will fit you as no other ready-tailored clothes have ever fitted you before—perfectly, precisely, accurately—make you a better dressed man—and provide all these advantages at the same price you'll pay for ordinary clothes. Sold exclusively here.

Spring Overcoats and Suits  
\$25 to \$60

SPRING NECKWEAR as radiant and attractive as the Spring itself. The sparkling new designs will appeal to you with a force that cannot be resisted. Narrow shapes are among the newest.

DENT'S GLOVES—every man knows them—a good selection recently opened.

**Gilmour's, 68 King Street**  
Clothing, Tailoring, Furnishings

## There's a Certain Romance About Furniture

A feminine novelist of note once said "Everything is a story—everything in this world."

Using this word "story" in the sense of true romance many pleasant stories grow out of experiences in a Furniture Store like ours.

Here new homes are being furnished in a more pictorial way than the blushing bride has ever dared to dream. And here also are old homes having unfulfilled desires realized.

By pursuing a modern merchandising policy and spending more than ordinary caution in the selections of furniture we are enabled to give to our patrons better furniture than could be otherwise possible under a more lax system.

Just at present our store contains a most happy and diversified array of timely furniture and a cordial invitation to visit is extended to all—both present and prospective housekeepers.

Absolutely no obligation entailed—naturally.

### Why Not Let A Vacuum Cleaner Do Your Spring House Cleaning?

By the way here Spring is once again upon us and the women-folk know at once what that means. Why not be modern and let the "harnessed lightning" do your housecleaning for you? You will find in this store a wide variety of Electric Vacuum Cleaners, and at an equally wide price range.

## A. Ernest Everett

THE HOUSE FURNISHER

91 CHARLOTTE STREET — ST. JOHN

# Spring Footwear

## Spring Styles In Fine Footwear

### Oxfords Are Again Popular Favorites for Street Wear—Ideal Shoe for Walking.

Once again, Master Time is here, and Millady must have her new footwear, and again she has a great diversity of New Styles and patterns to choose from.

This year, Oxfords are again the popular favorites for street wear. Mainly featured is the English Brogue, which is made on an easy wide-fitting last with low heel, and makes an ideal shoe for walking or for sport wear. Brogues are shown at the leading stores of the city in Dark and Light shades of Tan, Black, in Black Calf and in Patent.

Featured this season in New York

is a very light Tan Calf Brogue, which has become immensely popular, and makes a very natty appearance, when worn with a Brown, Blue or Green Tailored or Sport Suit.

Next in popularity for early spring wear is the plain brown calf Oxford with tip, and having a military or evening, or a very high heel, and shown in Gun Metal Calf and Black and Brown Kid.

One and two eyelet ties with medium short vamps and high Cuban heels, are being freely shown for afternoon wear, and the one eyelet tie with medium long vamps and English or military heels, in brown and black Kid and Patent Kid.

Another style which is very popular for afternoon or evening wear, is being shown by the new pump with one or two straps over the instep, and shown in black and brown Kid and Patent with Louis heels.

This same style for growing girls, is being shown by some of the stores, with low flat heels, and makes a very dressy shoe for the young girls.

Probably the newest novelty of the season, is the "Anklet," which besides

having a strap over the instep, has also a strap up the back and around the instep.

Another very popular novelty is the "Cross Strap" made in all leathers and with the medium Cuban heel or the French Louis.

Black Suede has again come into favor with the ladies and will be featured very strongly, in the lighter weight footwear, in ties, one strap, and cross straps, and later on towards the summer months, Gray Suede and White Buck will be very popular.

For those who prefer the high shoe, black kid made in the prevailing high cut lace style with either Louis or High Cuban heels, is the correct thing though dark brown Calf is still very popular for a walking boot.

The models for the gentlemen this spring show very slight changes over last season. The English Recede Toe with low heel made in Gun Metal or dark brown Calf being the most popular. Many of the brown shoes shown, however carry wing tips and perforations. The English Brogue for men is still quite popular.

## Bonar Law's Exit Starts Great Crisis

### Even Hinted That Premier Lloyd George May Follow Him Into Retirement.

London, March 18.—A political crisis of the first magnitude has been created by the retirement of A. Bonar Law, from the British cabinet, it is declared by the London Times.

Other newspapers, while less emphatic, agree in saying that Mr. Bonar Law's resignation is certain to have considerable political effect, and that it probably will materially weaken the coalition government. It is pointed out that the successor to Mr. Bonar Law is not likely to work so well with Premier Lloyd George and the British Empire League as Mr. Bonar Law did. It is also pointed out that Mr. Lloyd George is called upon to face a prospect of unpopularity, as the coalition government is generally considered to be a failure.

### Who Will Be Leader?

There are many forecasts relative to the new Unionist leader, whom the party will elect on Monday. Amongst Chamberlain, the president of the Board of Trade, and Sir Edward Carson, are given more prominence as being probable successors to Mr. Bonar Law.

People close to Mr. Lloyd George have indicated that Sir Robert Horne might succeed Mr. Chamberlain as Chancellor, while the presidency of the Board of Trade might be taken by Sir P. Lloyd George, at present Parliamentary Secretary for the Board, or Stanley Baldwin, Financial Secretary of the Treasury.

### CHANCERY COURT

In a case of Wetmore vs. Gilbert, in the Chancery division of the supreme court yesterday morning, before His Honor Chief Justice Haen, in chambers, the matter of a bill of specific performance to sell a property in Mill street, was taken up, but judgment was reserved. H. A. Porter appeared for the plaintiff, and K. A. Wilson for the defendant.

### Schooner Sunk

After a futile search of Trepassay Bay for trace of the missing schooner Tipperary, the tug Ingramport returned to St. John's. It is presumed that the schooner sank when the ice opened up during Friday night. Captain McLennan and crew of the abandoned schooner arrived by the Ingham. According to the captain the Tipperary was in a very bad condition when abandoned. For several days the schooner had been in the ice and her bows were cut through, she had been leaking for some time and when the crew left St. John's there was seven feet of water in the hold. Capt. McLennan thinks the vessel went down shortly after being abandoned.

### Good Towing

Talk about smart towing, the tug G. S. Mayes, Captain Bittell, which is back in Halifax from Liverpool, towed the three-masted schooner Favourite from her anchorage in Halifax harbor to the long beach at the Quaeas County port in eight hours. The Mayes is one of the Furness-Witby fleet of tugs.

### The G. S. Mayes was built in St. John.

Mr. Joseph Walker of Mill Hill, London, who has died at the age of 80, was sexton at the church for 56 years and served under ten vicars.

### IN THE EDITOR'S MAIL

St. John, N. B., March 17, 1921. To the Editor of The Standard, Sir.—I notice that in your paper discussing the political situation in New Brunswick, it would be inferred that I favored a Conservative Convention on old Conservative lines. This is not my attitude. Believing that there will be a general election early in the coming year, or perhaps sooner, I believe that it is the duty of the party supporting the Government in New Brunswick to have a convention, with representatives from every part of the province, elect officers, and arrange for organizing the different counties as well.

This convention should be for the supporters of the present Government, now called "National Liberal Conservative Party." Unionists, old Conservatives, and Liberal supporters of the Methen Government throughout the province should be called together. Personal or individual interests should be eliminated by a rotating convention in support of the present administration.

Yours, etc., etc. W. H. THORNE

## Income Tax Forms At Post Offices

The local inspector of taxation has received advice from Ottawa that forms for income tax returns will be available for citizens at various post offices and sub-stations of the postal service throughout the district.

The forms reached St. John on Thursday evening. Returns must be filed not later than March 31, in the case of trustees, employers, corporations and individuals who are required to give information and returns on income.

Every person who is required to make an information return, who received 1,000 or more in 1920; all individuals who received \$2,000 or more in 1920, and every corporation and joint stock company who in the fiscal year ended in 1920 had profits exceeding \$2,000 come within the act.

Every person who is required to make an information return, who falls to do so within the time limit, shall be subject to a penalty of \$10 for each day during which the default continues—and all such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are

### NEED NOT REPORT MORE

Yarmouth, N. S., March 18.—Mansfield Ross, who three weeks ago found Capt. George Perry lying in the snow in the rear of his home here, suffering from injuries from which he subsequently died, and who has been reporting daily to the police, since that time, was informed today that he would not be required to report further.

Ross is the fiancee of Eleanor Perry, daughter of the murdered man and had returned to the Perry house from a picture show, just previous to the discovery of the tragedian.

### assessed and collected.

Every person required to make an income return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per cent. of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information when requested to do so, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the minister, shall be liable, on summary conviction to a penalty not exceeding \$10,000, or to six months' imprisonment, or both fine and imprisonment.

# THE WELL-BEING OF THE COUNTRY

## DAIRY CATTLE PREEMINENT IN THE MARITIMES

Provinces Particularly Adapted for This Industry Now.

**BEEF HERE HAVE NOT BEEN PROFITABLE**

Lack of Export Outlet Has Mitigated Against This Branch of Farm Work.

By DR. M. CUMMING, Secretary for Agriculture, Nova Scotia.

Extremes of success or failure are both unknown to Maritime Province agriculture. Year in and year out the farmer can always count on paying crops and although the profit in any one year may not be large, yet the regular accumulation on the right side of the ledger every year has gradually built up a sound, though not sensation-making business.

The most serious hindrance to an extremely prosperous agriculture, and every country has some hindrance, is that the soil is just of average fertility. This has been determined both in the chemical laboratory and by field experiments.

Under these conditions it is not hard to understand that live stock should occupy a most important place in the farm economy of the country. And it does, except in certain fruit and potato growing areas where the tendency is to place more dependence upon commercial fertilizer than on barnyard manure.

Of all kinds of live stock dairy cattle stand preeminent first. In fact, the writer, considering that, except in a few special localities, farmers are wasting time by raising other divisions of live stock when with the application of a little more care and energy, they could greatly increase the returns by depending upon the dairy cow.

Just to show the growth along dairy lines we quote herewith a few figures from Nova Scotia and may say that these figures might be duplicated in other parts of the Maritime Provinces.

In the year 1905, the year in which the Nova Scotia Agricultural College was opened, all the Nova Scotia creameries produced 2,390,714 lbs. of butter, whereas in 1920 one single creamery produced 625,000 lbs. and all the creameries together produced 2,490,118 lbs., an increase in 15 years of nearly 1,000 per cent.

Now, it must be stated that this is not all the increase to the province, for to a considerable extent it represents just a transfer from home to factory dairying. None the less, there are numerous creamery patrons who in the last few years have more than doubled the product of their cows and we have a record of one farmer who last year received a check for \$3,000 from the creamery who had only made \$300 from his whole herd of cows ten years ago.

Here and there are some first class beef herds and a little excellent beef production. But the beef of the Maritime Provinces is not of export character. There is not sufficient grain produced in the country to finish cattle on and the cost of the imported feeds will in general consume all the profit and some more that might be made from beef raising.

## Silo Important To Farm Industries

Dairying and Corn Growing Own Expansion to Use of Ensilage.

Not only are the organized milk producers making special effort just now to encourage increased consumption of their raw product, as indicated by the promise of a publicity campaign on a large scale to start at an early date, but the general trend of opinion among farmers in the general farming districts is in favor of extended operations in the line of milk production.

Nowadays, the principal crop for supplying succulents in the winter ration of both dairy and beef cattle, and to some extent sheep, is corn used in the form of ensilage. Not only does corn allow of cheaper cultivation than does the root crop, but it is more easily and cheaply handled at feeding time.

Not only as a storage for corn is the silo considered now, however, as indicated by Dr. Cumming, in his remarks on dairying in the Maritime Provinces, silos are coming into general use in Nova Scotia as storage places for silage made of oats, and peas and vetches in sections of the country where corn cannot be grown successfully.

Under these conditions it is not hard to understand that live stock should occupy a most important place in the farm economy of the country. And it does, except in certain fruit and potato growing areas where the tendency is to place more dependence upon commercial fertilizer than on barnyard manure.

## Feeders Prefer Raising Baby Beef

Small, High Quality Cuts of Meat Appeal to the Consumer.

Feeders show an increasing tendency toward finishing off their best cattle at younger ages. In general, this tendency is created by two factors: First, consumers are demanding small, high quality cuts of meat; second, the cost of production of beef, due to the advance in land values, feed, labor and taxes, has increased to such an extent that feeders and breeders can seldom hope to produce at advanced ages at a profit.

General conditions in the past few years have indicated that no class of beef yet produced more nearly fulfills the requirements of both producer and consumer than "baby beef," and the feeding of baby beef has been increasing in popularity.

First consider the approximate acreage of grain, hay, pasture and hedges which will be required; next consider the quality of soil which is on the farm. Then decide what rotation would be most suitable for the farm.

The following rotations have given good results:

**A Four Year Rotation.**  
Hoed crop; grain; clover hay, timothy hay. This rotation has proved to be very satisfactory, although it requires a large area of land.

**A Five Year Rotation.**  
Hoed crop; grain; clover hay; timothy hay; grain. This rotation gives a very good proportion of the various crops. It is very satisfactory.

**A Three Year Rotation.**  
Hoed crop; grain; clover hay. This rotation has a very large area of hoed crops and provides no pasture land. It is, therefore, unsuitable to most farms.

There are, of course, many other rotations, but the above mentioned have perhaps the most general application. It is quite probable that portions of the farm, on account of being either too wet or too light and sandy, may have to be farmed under a separate cropping system.

Under such conditions it is not too large a system, a field of poor soil may be increased in fertility by a short rotation of crops and by larger applications of manure. A field of low wet land may be left longer in hay. One consideration should not be overlooked: The fields should be made large in order to reduce the cost of producing crops and to decrease the depreciation and repair of fences. The rotation should be planned so that the horses would be kept busy as much as possible throughout the year because it costs money to have horses standing idle.

## AGRICULTURE OF PUBLIC CONCERN

Agriculture in all its phases is a matter of deep public concern. Instead of being regarded by publicists mainly as the source of cheap food for cheap labor, and of raw materials good for commerce and for manufacture—both of which are of importance to the balance of trade upon the right side of the ledger—agriculture should figure constantly in the public mind as the fundamental industry of the nation.

The farmer himself has been generally considered as an unskilled laborer, rather than a typical citizen. To be sure, the statistician and the speculator know something about farming, but not about the farmer, for their interest is limited to the market value of the corn of mill, the bushels, and does not extend to the manner of their production, the welfare of the producer or the effect upon the land. Agriculture is more than farming. The public must be party to any policies affecting the production. It took the management of its lands or the social and economic welfare of its people.

Until almost the opening of the present century, men, women and children on the farm worked willingly, and often joyfully, without money and without price, for the sake of developing out of nature's gifts a new material of their own. Conditions have changed. There is no longer the impulse to labor only for something better than money. The farmer nowadays, like other people, has to reckon his income in terms of cash. He demands recognition as a factor in the business of the nation.

## To Grow Sunflowers All Over Alberta

Said to be the Coming Food for Stock—Makes Excellent Silage.

If the forecast of several dairyman and stock-growers is realized Alberta in the near future, will be known as the "Sunflower" province. The dairymen and stock-growers, who visited the Canadian Pacific Railway experimental farm at Strathmore, after seeing the manner in which the cattle there have come through the winter on this particular feed, that an enormous impetus will be given to the cultivation of this plant.

It will undoubtedly be one of the things which will only require the publicity of facts already achieved to induce every stock grower in the province, and indeed through the West, to make it his principal winter feed for cattle, more especially in those sections which are subject to drought. It will undoubtedly be one of the things which will only require the publicity of facts already achieved to induce every stock grower in the province, and indeed through the West, to make it his principal winter feed for cattle, more especially in those sections which are subject to drought.

## Keep Seeds Free From Insect Pests

It is very annoying to find that seeds which have been selected with care and put away to grow better crops next year have become infested during the period of storage with insect pests. Insects are prevented from developing in home-stored seeds by treating with carbon bisulphide. A tablespoonful of carbon bisulphide to each quart capacity of the container is poured into a shallow, open dish in an insect-free field of the house. The container is then tightly covered and set away for 48 hours. The germinal power of seeds is not impaired by this treatment.

## FLAX DISEASE

(Experimental Farms Note.)  
Flax is one of those plants which fortunately is not very seriously affected by insect pests. However, it is subject to a number of diseases which, under certain conditions, cause considerable loss through reduction of the yield and quality. The most important of these diseases in Canada is the flax wilt. The fungus causing flax wilt lives in the soil, and attacks young plants chiefly during the seedling stage. It may also attack older plants which turn yellow and die slowly. If flax is continuously grown in the same field, the fungus spreads to such an extent as to make the crop almost worthless. This fungus not only lives over in the soil, but is spread by its spores clinging to the seed from diseased plants.

This disease can be successfully controlled by adopting three precautionary measures: First, by the use of clean plump seed, grown in a field which has shown no sign of the disease, and treated before sowing with a solution of formalin, 1 pound in 40 gallons of water. It takes about one half gallon of this solution to treat a bushel of seed, and it is most advantageous applied by spraying it on the seed as it is being shovelled over until the entire surface is damp. The seed should then be frequently raked over to aid in thorough drying.

Second, by adopting a system of rotation which would eliminate the growing of flax on the same land in successive years.

Third, by growing those varieties of flax which have been shown to be resistant to the flax wilt in that neighborhood. The flax is also attacked by a rust which is caused by a fungus which can be recognized by small, yellow or orange masses of spores which serve to spread the disease in the field. At that stage of the development of the rust lives over the winter and becomes the source of infection the following spring. This disease is not usually severe in Canada and can be prevented by a proper rotation and the destruction of waste straw and flax refuse that may harbor the disease.

## Dairy Farming Is Due For Expansion

Steady Returns Prove Attractive in Period of Lower Prices.

Though live stock farming generally is given credit for being the basis of good farming, it must be allowed that dairying, as a class of farming, is more to be relied on than any other for making "two blades of grass grow where only one grew before."

In times when cash is free and profits large, the farmer is apt to turn to lines of production that yield the greatest cash returns, regardless of the welfare of the farm, such procedure being more unusual when labor is short and expensive. Such a period is just passing in fact, has passed to a great extent. It cannot be claimed that any cash returns to the farmer during the war were secured without strenuous efforts on the farmer's part; but, from now on, even closer application to business will be necessary to success.

## DUST VERSUS SPRAY FOR CONTROL OF INSECT PESTS

Mixed with kaolin to give the poison bulk, 40 per cent. strength nicotine sulphate applied in dust form has been found wonderfully effective against melon, cabbage and pea aphids, onion thrips and cucumber beetle. All these insects are hard to reach with ordinary sprays, but dust settles on the under side of the leaves as well as on the surface. A second point in favor of the dust application is that of these the dust is treated in less time than is required for spraying.

## LIME AS A SOIL BUILDER

Fertile soils contain sufficiency of the three essential elements for growing plants nitrogen, phosphorus and potash. Should any of these be lacking, plants cannot grow satisfactorily. The two latter elements are also in the mineral soil particles and also in the vegetable matter that is in the soil. The former—nitrogen—is found in the vegetable matter that is in the soil. The former—nitrogen—is found in the vegetable matter that is in the soil.

## BEAUTIFYING THE FARMSTEAD

Suitable plantings are necessary to unite the parts of a farmstead into a pleasing, homelike, whole. Trees are used for windbreaks, as frames for the buildings or a background for them, and to give shade. Shrubs are needed in abundance to hide partially the foundation lines of buildings, support their corners, give realness to the landscape, and to screen unsightly objects. Native trees and shrubs and those known by trial to thrive in the locality are best to use.

## NOTES OF INTEREST

Test all seeds now. It is not a good plan to sow untested seeds. Get only the best from reliable firms. It pays.

## TABLE OF EQUIVALENT

In following recipes where the portions are given in pounds, ounces, quarts, pints, etc., the housewife is sometimes confused as to the amount of each ingredient to use, not having scales or measures to use. The following table should be posted up somewhere in the kitchen where it can be referred to as required. All measurements are level:—

## WATCH BREEDING FLOCK

Watch the breeding flock carefully and see that the fowls keep in good breeding condition.

## Proper Package Helps Marketing

Appearance Counts Largely in the Case of Fruits or Vegetables.

Because he failed to recognize the fact that appearance counts for much in marketing, a certain producer recently suffered a loss of \$50 on a single shipment of butter. This farmer shipped in tub unsalted butter of good quality that scored 89 points. The tubs were old and dirty, and the dealer was unable to interest buyers in the commodity. Realizing that his tubs were unable to sell in that condition, he salted and reworked the butter and then packed it in boxes. Although the butter had deteriorated by this time, the appearance of the packages commanded the attention of buyers and the butter was promptly sold.

The loss to the shipper was practical-ly eight cents a pound, or over \$50 on the shipment—a loss that would have been avoided in the first place had the shipper packed the butter properly. The packages that were used had been greater had not the receiver done so. A small country creamery forwarded a sample shipment of five fifty-pound tubs of butter to a commission firm and received an offer for future shipments. In the next shipment, the creamery used the same tubs, but instead of bright, clean, attractive packages such as were used in the first shipment, although the butter scored 92 points, the commission firm was unable to dispose of it as first-class butter, and the shipper was compelled to take a loss of five cents a pound on the shipment. Appearances counted downwards.

## MANGE IN HORSE

The cause of mange in the presence of insects, which live in or upon the skin. Mange is to be dreaded, on account of its contagiousness. In all cases the utmost precautions should be taken to prevent the disease spreading. A very serviceable mange dressing is made from the following mixture: Iodine, half an ounce; iodide of potassium, one-fourth of an ounce; one ounce; lard, eight ounces. The parts should first be oiled and washed with warm soap and water, to remove the crusts, dirt and scales, before the ointment is applied or otherwise it will not reach the insects, especially the varieties that burrow into the skin.

## Some Birds Used in Test Over Five-Year Period Proves Contention.

It is thought that farmers keep hens until too old for profitable winter egg production, and it is also a common belief that late hatched pullets commence to lay only during the following spring. To throw some light on this subject, it was decided in 1915 to compare early pullets, late pullets, yearling hens, and old hens as winter layers at the Cap Rouge Experimental Station.

## Weight of Eggs.

It is sometimes objected that, though early pullets lay more eggs than yearling or older hens, the size of the eggs is such that they would bring much less if ever eggs were sold by weight. Taking the figures from the present experiment we find that for the same weight of eggs, when it cost \$1 to produce them with early pullets, it cost \$2.25 to produce them with yearling hens, \$2.50 with late pullets, and \$3.10 with old hens. It will be seen that, as expected, the weight of eggs from hens was a little larger than that from early pullets, but the difference does not materially change the figures for the cost per dozen.

## Some Birds Compared.

The birds used for this experiment were not specially bred for egg production, so that the early pullets put in each year were not from better stock than the yearling or older hens. Two seasons of yearling hens were used for this experiment were the same birds, with the exception of a very few, which had died, as the ones in the early pullets of the previous year, and in both cases they were for cost of production, below the new lot of early pullets taken indiscriminately in the farm flock.

## Early Pullets Best.

That early pullets are the cheapest producers of winter eggs has been said and written so often that it is like an old story. But a carefully conducted experiment, the results of which are set forth in the following, shows that farmers of a well-known fact when they often seem liable to forget.

## TRANSPANTING RULES

In transplanting, the rules to be observed are: Keep the plants from becoming dry while out of the ground, if necessary, protect the entire plant from sun and air; conserve plant vitality by reducing the proportion of surface tissue, and promote vigor by securing equality between root and branching.

## SELECTING SETTINGS

Eggs that are abnormally small and poorly shaped should not be used for incubation; neither should eggs that have thin or very porous shells. If possible, eggs should be set when fresh, and it is never advisable to use for hatching eggs that are more than two weeks old. One of the quickest ways to obtain uniformity in the offspring is to select uniformly good-sized eggs of the same color.

## COSTS \$225 TO RAISE COLT.

An experiment to ascertain the amount of feed necessary to produce for a colt's upkeep until it can earn its own living, started three years ago at the Cap Rouge Farm, Que., shows that it costs \$225. This takes into consideration all costs of feeding up to the age of 34 months and 9 days, but does not include the service fee, loss of time by the dam, barn, bedding, labor to care for colts and dams, and risk of accidents or deaths.

## EARLY PULLETS BEST WINTER EGG PRODUCERS

Experiments Demonstrate Their Superiority for Purpose.

PRODUCTION COST VERY MUCH LESS

Some Birds Used in Test Over Five-Year Period Proves Contention.

It is thought that farmers keep hens until too old for profitable winter egg production, and it is also a common belief that late hatched pullets commence to lay only during the following spring. To throw some light on this subject, it was decided in 1915 to compare early pullets, late pullets, yearling hens, and old hens as winter layers at the Cap Rouge Experimental Station.

## The Experiment.

The experiment began on the first day of November and ended on the last day of February during five consecutive years. The number of birds in each pen was about twenty-five, and the whole lot occupied the same house. A strict record was kept of all feed consumed, also of the pullets produced by every pen. At the beginning and at the end of each experiment the birds weighed so that in the spring the gain or loss in weight could be credited or debited to them.

## The Results.

If the cost of production of one dozen of eggs during winter is taken as 100 for early pullets, hatched before May, it would be represented by 249 for yearling hens, by 280 for late pullets, hatched after April, and by 348 for old hens. In other words, when pullets hatched before May produced a certain number of eggs at a cost of \$1, yearling hens produced the same number at a cost of \$2.49, pullets hatched after April at a cost of \$2.80 and old hens at a cost of \$3.48.

## Weight of Eggs.

It is sometimes objected that, though early pullets lay more eggs than yearling or older hens, the size of the eggs is such that they would bring much less if ever eggs were sold by weight. Taking the figures from the present experiment we find that for the same weight of eggs, when it cost \$1 to produce them with early pullets, it cost \$2.25 to produce them with yearling hens, \$2.50 with late pullets, and \$3.10 with old hens. It will be seen that, as expected, the weight of eggs from hens was a little larger than that from early pullets, but the difference does not materially change the figures for the cost per dozen.

## Some Birds Compared.

The birds used for this experiment were not specially bred for egg production, so that the early pullets put in each year were not from better stock than the yearling or older hens. Two seasons of yearling hens were used for this experiment were the same birds, with the exception of a very few, which had died, as the ones in the early pullets of the previous year, and in both cases they were for cost of production, below the new lot of early pullets taken indiscriminately in the farm flock.

## Early Pullets Best.

That early pullets are the cheapest producers of winter eggs has been said and written so often that it is like an old story. But a carefully conducted experiment, the results of which are set forth in the following, shows that farmers of a well-known fact when they often seem liable to forget.

## TRANSPANTING RULES

In transplanting, the rules to be observed are: Keep the plants from becoming dry while out of the ground, if necessary, protect the entire plant from sun and air; conserve plant vitality by reducing the proportion of surface tissue, and promote vigor by securing equality between root and branching.

## SELECTING SETTINGS

Eggs that are abnormally small and poorly shaped should not be used for incubation; neither should eggs that have thin or very porous shells. If possible, eggs should be set when fresh, and it is never advisable to use for hatching eggs that are more than two weeks old. One of the quickest ways to obtain uniformity in the offspring is to select uniformly good-sized eggs of the same color.

## COSTS \$225 TO RAISE COLT.

An experiment to ascertain the amount of feed necessary to produce for a colt's upkeep until it can earn its own living, started three years ago at the Cap Rouge Farm, Que., shows that it costs \$225. This takes into consideration all costs of feeding up to the age of 34 months and 9 days, but does not include the service fee, loss of time by the dam, barn, bedding, labor to care for colts and dams, and risk of accidents or deaths.

The life of cut flowers may be lengthened considerably by dipping their stems into melted candle wax, after they have been in water for several hours. When a small knob of wax has formed on the end of the stem, it will keep them from wilting for some time, even if kept out of water some treatment.

Motto: Kindly Deeds Make Happy Lives

Weekly Chat

Dear Chums:— This is just to be sure a "hello" ... Let me call your attention to the very interesting letter written by one of our new members...

Answers To Letters

GRACE B. P.—I think the snow has come and gone again since you wrote your letter. ... ROZANNA M. S.—We are very pleased to have you join our C. C. and also pleased to know you have enjoyed the page so much.

PIE AND PATRONAGE

The piazza hammock sagged as Ross Hayward settled down to it. ... "Um-hm!" he cried appreciatively. ... "I know you say you hate to give advice, Aunt Lucinda; so I haven't asked for it; but, oddly enough, you've answered just the question I wanted to ask."

This magnificent site is just 200 feet from the main road, 1,000 feet from the St. John river, two minutes from store and station, and represents one of the best possible opportunities for a live farmer to make money on land which yearly increases in value, and in a few years may be subdivided into more than 100 lots.

A Ready Market for All Produce. to be found within a few minutes' walk. PRICE and TERMS Reasonable.

Apply to F. G. SPENCER, 87 CHATELAIN ST. or ALFRED BURLEY & CO. LTD., 48 PRINCESS ST.

BANKRUPT SALE.

Notice is hereby given, that there will be sold, at Public Auction at the Woodworking Factory premises, lately owned by Macintosh Brothers, in West Bathurst, Gloucester County, on Thursday the thirty-first day of March next, 1921, beginning at the hour of ten o'clock in the forenoon, the following mentioned properties, forming parts of the bankrupt estate of Macintosh Brothers, that is to say:

1. The plant and mill and Woodworking Factories, situate fronting on the west side of Bathurst Basin, in West Bathurst, near the western end of the Station Bridge, so called, consisting of a lot of land with factory or mill building, drying kiln, blacksmith shop, office, dwelling and barn and stable, with woodworking and other machinery, shafting, belting, saws, etc., in said mill and other buildings and attached thereto, forming part of the real estate, subject however to the following claims and liens.

(a) A mortgage of \$4,000 to Albert Payne, dated 20 June, 1920, payable three years after date with interest at seven per cent.

(b) A second mortgage to Maynard Smith dated 26 October, 1917, upon which there is owing the sum of \$3,865 but which may be reduced, before sale, to \$3,165.

(c) A conditional sale lien for \$60.50 held by Canadian Whaling-Boat Company Limited upon certain electric motors in the mill.

(d) A conditional sale lien for \$306, held by P. B. Yates Machine Co., Ltd., upon various and rip saw machines named therein. The property will be sold subject to all of above liens and encumbrances, upon which there will also be some interest due. Full particulars of the property, and of amount of encumbrances will be given at sale.

2. The right of Macintosh Brothers to purchase a lot of land, adjoining the factory property, 234 feet wide by 135 feet long with warpage in front, extending about 310 feet, subject to the payment to the vendor of balance of \$58.25 due on the purchase price; full particulars will also be given at the sale.

3. A portable, rotary saw milling outfit, consisting of engine, boiler, saw bed, carriage, trimmer, lathe machine and some other machinery, and shafting, belting, saws, etc., particulars of which will be given at the sale, subject to a conditional sale agreement upon the boiler of the outfit, upon which there is \$250.00 due, to E. Leonard & Sons Limited, now situate and being upon a lot of land at Imhoff's Settlement, Tetagouche, Gloucester County, N. B.

4. About 250,000 superficial feet of spruce and fir saw logs, and hard wood saw logs, situate at or near the above mentioned mill at Imhoff's Settlement.

5. A considerable quantity of camp and mill supplies and heavy groceries, and woods rigging and tools, which will be sold in convenient parcels.

6. Two horses, which will be sold separately.

7. A number of articles consisting of stoves, stove pipe, cart, stencils, trawls, shovels, peavies, axes, compasses, chairs, scales, typewriter, stationery, blankets, springs, mattresses, etc.

8. A considerable quantity of hardware consisting of locks, hinges, screws, emery paper, sand paper, sash cord, brushes, catches, hasps, latches, keys, rabbit, bolts, speed indicator, door bells, hooks, files, brackets, sash pulleys, door springs, nails, brads, used belts, belt lacing, some new rubber belting, 94 bundles rock faced shingles, 100 bundles of shingles, 100 bundles of shingles, 100 bundles of shingles, number of rolls tarred and brown and other building paper, rolls screen wire, a quantity of paint, varnish, creosote, shalac, window sashes, quantities of fire brick and buff pressed brick, sheet iron, sash and other iron, chain, nuts, bolts, washers, raw rope, tar paper, and a number of other articles of hardware, also trousers, overalls, haversacks and many other articles, roofing cement, 6 fire extinguishers, 200 lb. single ties. Bel-lows, saws, vises, bushings, saws, tools, etc.

9. Farm near Tetagouche falls, containing about sixty acres.

10. About seven acres cleared land with house, at Imhoff Settlement.

11. Stampage rights on several lots of wood land in Tetagouche.

12. Ford touring car.

13. All the interest of the Bankrupt Estate of Macintosh Brothers in a considerable quantity of dry lumber, consisting of birch, ash, pine, and spruce, some being partly manufactured into building materials of various kinds, also a considerable quantity of shingles and a small quantity of cedar and other logs, now situate and being upon or near to or stored in the mill premises, mill buildings and other buildings, and mill-yard of the above mentioned woodworking factory at West Bathurst, subject to a lien of Bank of Montreal under a provision of The Bank Act, of \$10,233. This lumber could all be used in connection with a contracting or woodworking business, and the purchasers of the factory may find it very advantageous to purchase this lumber.

Properties will be sold in separate or convenient lots or parcels. Full particulars may be seen at the office of Canada Permanent Trust Company, St. John, N. B., or at the office of J. B. H. Storer, Water street, Bathurst, and properties may be examined by intending purchasers at all reasonable times, on application to Mr. Storer.

Terms of sale of personal properties cash. Real estate, thirty per cent. at time of bidding, balance on delivery of deed, within one week after sale.

Dated this twenty-third day of February, 1921.

THE CANADA PERMANENT TRUST COMPANY, Assignees in Bankruptcy of Macintosh Brothers.

# STANFIELD'S Unshrinkable UNDERWEAR

1921

## A Canadian Industry Built on an Ideal

1921 is the Jubilee of Stanfield's Unshrinkable Underwear. It is a far cry to the magnificent mills at Truro—models of modern equipment and efficiency—from the tiny building in Prince Edward Island where the late Mr. C. E. Stanfield began the evolution of an ideal in 1856.

The late Mr. C. E. Stanfield learned the woollen trade in his uncle's mill in Bradford, England, then as now a center of the woollen industry. But the pride he took in his work developed ambition. He wanted to start out for himself. Canada was much talked about in the Old Country and he decided to come to the new world across the Atlantic.

He built his first mill at Tryon, P.E.I., in 1856. So successful was he that a wider field was sought and he chose Truro, Nova Scotia, locating there in 1870, moving from the original mill to a larger one, and finally in 1882, constructing a new plant on the bank of the Salmon River, the site of Stanfield's Limited, and beginning the nucleus of the present Stanfield mills.

In 1896, the late Mr. C. E. Stanfield decided to retire and sold out the growing business to his two sons, John and Frank, who are now President and Vice-President of Stanfield's Limited, a corporate company.

Stanfield and woollens are synonymous. A hundred years ago, Charles Stanfield was a woollen manufacturer in Bradford, England. He taught the business to a nephew, the late C. E. Stanfield, who made the first Cardigan jackets and Bannockburn tweeds in Canada. He, in turn handed down his knowledge to his sons, John and Frank, the active heads of the business to-day. Thus, Stanfields are carrying out the best of the old British traditions of trade—one generation following another in the same line of endeavour—adding knowledge and experience, building on the old foundations, broadening and strengthening, making the family name synonymous with all that is best in the trade.

That this vocational tradition is a good thing for business and for the world at large, is proven in the case of the Stanfield family, for it was due to the efforts of John and Frank Stanfield that Unshrinkable Underwear was made possible. These two experts, born in the business and absorbing the best traditions of the trade, evolved a process that took the shrink out of wool before the garments were woven, giving Stanfield's Unshrinkable Underwear to the world and making it the outstanding feature of the Stanfield products.

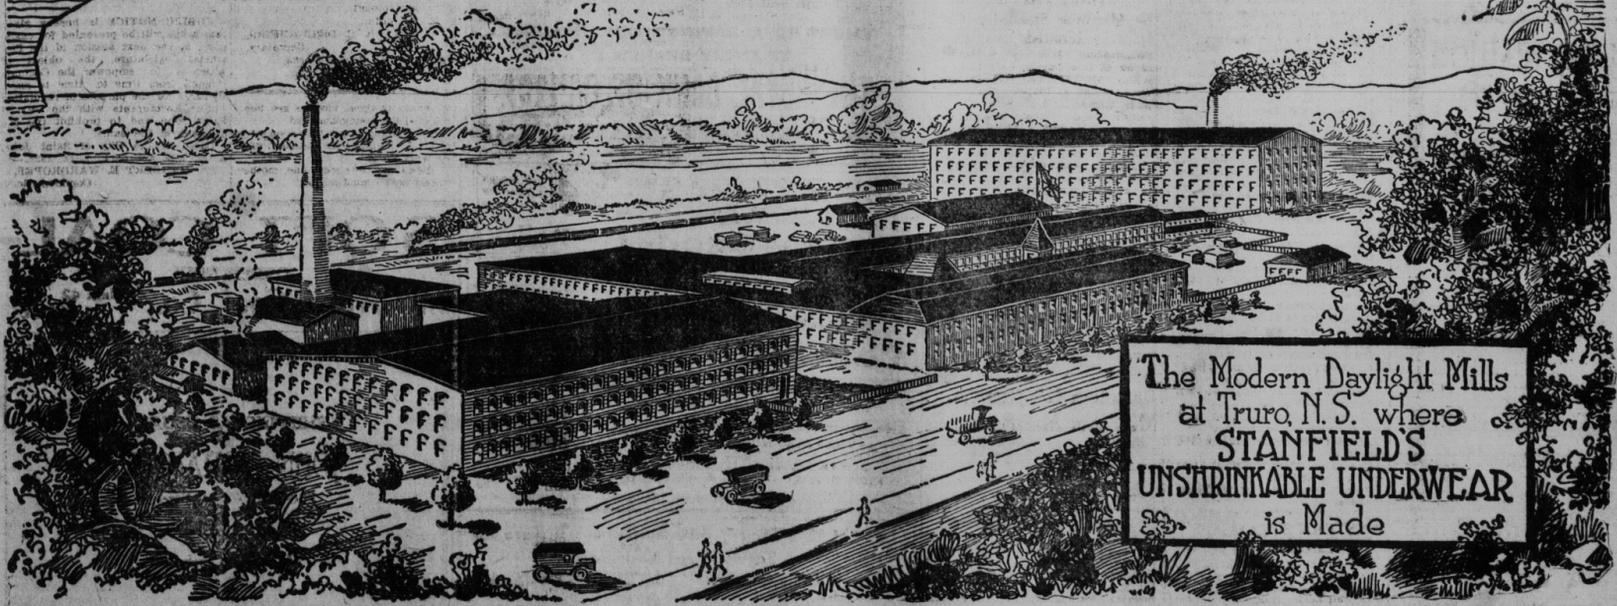

Stanfield's Unshrinkable Underwear was manufactured first for men who work outdoors—farmers, fishermen, trawmen. As towns developed into cities and the cities into worlds within themselves, Stanfields began to make finer underwear, in weights suited to men who worked indoors and were not so much exposed to the rigors of winter. Then came the addition of silk-and-wool and extra fine woollen underwear for women; and finally, Stanfield's Adjustable Underwear for children. To-day Stanfield's Underwear is a family affair both from the standpoint of wearers as well as makers.

Stanfields have steadily held to the original idea behind the business—to avoid fads and to make underwear of a quality demanded by the majority of the Canadian people, with quality kept up to a standard and prices kept down to a minimum consistent with quality.

It is this unwavering adherence to an ideal of quality that has built up a market for Stanfield's Unshrinkable Underwear that more than equals the supply, and has given a reputation to the name "Stanfield" that is an asset which cannot be valued in mere dollars and cents.

The Jubilee of Stanfield's Limited crowns with success the achievement of a Canadian institution which occupies its present proud position because of a rigid adherence to the fundamentals of sound business—making an essential article, making it better and keeping the price right.

### Windsor Mayor Must Guarantee "Pussyfoot"

City Will be Held Responsible if Any Damage is Done to Armoury.

Windsor, Ont., March 18.—As a result of the visit of General Panet, General Officer Commanding Military District Number One, to Windsor yesterday, permission for the use of the armories for the proposed "Pussyfoot" Johnson meeting has finally been secured.

In conference with Mayor H. W. Wilson, General Panet stated that the armories might be used for the meeting, but that the city would be held directly responsible for any damage that might result should any violence occur.

### Millionaire Caught With "Wet" Supplies

Acquitted, However, When Porter on His Car Confessed to Securing Stock.

Miami, Fla., March 18.—The case against Harry St. Francis Black, of New York, in whose private car local authorities seized sixty cases of intoxicating liquor was dismissed today by United States Commissioner Graham, when the capitalist was brought before him for arraignment. Black had been arrested both by the state and federal authorities, and charged with violating the prohibition laws.

The case was dismissed and the private car ordered released, when a negro porter testified that he had placed the liquor aboard it without the knowledge or consent of the car's owner.

### Took One Drink— Found All Guilty!

One Brave Jurymen Took a Drink of Evidence With Disaster to the Prisoners.

Tampa, Fla., March 18.—The jury looked dubious when evidence in a liquor seizure case involving the Cuban schooner *Bampiano* was presented for its inspection today in court. "Have a drink boys, and see for yourselves if it is not the real stuff," said the district attorney, handing bottle of whiskey, brandy and wine, part of 3,000 quarts seized aboard the vessel, into the jury box. The jurors did, except one who merely sniffed and were convinced, promptly voting the captain, mate and two deckhands guilty.

### No One Named Yet To Talk To Irish

Lesson, Mar. 18.—Premier Lloyd George has not named any members of the Dail Eireann to attend a conference having the purpose of bringing about peace in Ireland, notwithstanding reports to the contrary printed in the United States and Canada.

The premier Thursday in the House of Commons said that as soon as definite proposals for a peace conference were made the government would be prepared to name members of the Dail Eireann who would be guaranteed a safe conduct to attend it.

### More Gold Arrives

New York, March 18.—A gold shipment worth more than \$1,000,000 consigned to the banking firm of Kuhn, Loeb and Company, arrived here today on the steamer *Mercator* from England. The steamer *Laplant* is bringing another consignment valued at nearly \$1,000,000, making a total of approximately \$1,800,000 received by this concern during the present movement.

### More Railroads Reduce Wages

New York, March 18.—Managements of the Delaware, Lackawanna and Western and Lehigh Valley railroads today formally submitted to representatives of their marine workers a schedule of wage reductions of 14 to 20 per cent, effective April 20. The employees took the matter under consideration and will report back at another conference next week.

### Indict Eighteen For Postal Robbery

Toledo, O., Mar. 18.—Eighteen individuals, two of them women were named in indictments returned by the Federal grand jury here late today in connection with the robbery of the Central Post Office last February 17, when five armed men held up three railway mail clerks and escaped with mail sacks containing more than \$1,000,000 in cash and negotiable papers.

### CREDITORS MET.

A meeting of the creditors of the St. John Typewriter & Specialty Co., Ltd., was held yesterday morning in the offices of the trustees, the Canada Permanent Mortgage Corporation, W. J. Simpson and T. Louis McGowan were appointed inspectors and the disposal of the assets was left to the inspectors and the trustees. According to a statement submitted by the company, the assets and liabilities are about the same amount.

### ANNOUNCEMENTS IN THE COMMONS

Premier Explains Why Sir Herbert Ames' Resignation is Presented Now.

Ottawa, March 18.—Asked in the House this afternoon why the announcement of the resignation of Sir Herbert Ames, Conservative member for St. Antoine Division, Montreal, had been delayed until yesterday when Sir Herbert had announced his decision in writing on February 14, Premier Meighen said that prior to leaving for Europe, the member for St. Antoine had written his resignation and left instructions that it was to be brought down on a certain date.

### Prison Bill.

First reading was given the bill to amend the prisons and reformatories act. Hon. C. J. Doherty, minister of justice, explained that the amendment would advance the age at which a minor could be sent to a penitentiary from 16 to 18 years.

### Have Disappeared As a Result of Treating the Trouble Through the Blood.

The chief symptom of rheumatism is pain. The most successful treatment is the one that most quickly gets rid of the pain. Many rheumatic people suffer pains that could be avoided by building up the blood, when rheumatism is associated with thin blood it cannot be corrected until the blood is built up.

### Nova Scotia Mined 5,687,970 Tons of Coal

Increase in 1920 Was 684,213 Tons Over Previous Year's Record.

Halifax, N. S., March 18.—During the brief session of the House of Assembly today a few private bills were brought down and two petitions presented after which the House adjourned until Monday. The report of Hon. E. H. Armstrong, commissioner of works and mines, which has been tabled in the House, shows an increase of 684,213 tons in the production of coal in Nova Scotia for the year ending September 30, 1920, over the previous year. There was also an increase in the sales of 623,096 tons. The total production for the year was 5,687,970 tons. The royalties derived from the mineral resources of the province for the year totalled \$699,517.72.

### Food Prices Down

Washington, March 18.—Food costs of the average family declined nine per cent in February as compared with January, the United States Bureau of Labor statistics announced today. All of 44 articles reported except hens, decreased in price, the figures show, hens having increased less than five-tenths of one per cent.

### NEW STEAMSHIP SERVICE.

Montreal, March 18.—It is understood that J. W. Norcross, president of the Canada Steamship Lines, Limited, who is due to arrive in New York on the Aquitania tomorrow has concluded arrangements, under which his company in conjunction with the American Mail Steamship Company and a Norwegian Steamship Company will run a service between Canada, the Hook of Holland and Norwegian ports.

### Does Your Back Ache?

Have you swollen hands, aches, feet, due to a dropsical condition, often caused by disordered kidneys? Naturally when the kidneys are deranged the blood is filled with poisonous uric acid, which settles in the tissues of the feet, ankles, wrists or back as uratic salts.

It is just as necessary to keep the kidneys acting properly as to keep the bowels active to rid the body of poisons. The very best possible way to take care of yourself is to take a glass of hot water before meals and an "Anuric" (anti-uric acid) tablet.

This "Anuric" is a new discovery made by Dr. Pierce of the Invalide Hotel, Buffalo, N. Y. All druggists keep it, or if you prefer send 10c for trial package to Dr. Pierce and write for free medical advice.

### Jury Disagrees in The McDonald Case

Twice Sent Out by Judge in Endeavor to Secure a Decision.

Special to The Standard. Fredericton, March 18.—In the York county court this afternoon the jury in the case of Edmund W. McDonald, after remaining out for over two hours and a half to arrive at a verdict came in and stated that they had disagreed, eleven being for conviction and one against. They were sent out again, and in 35 minutes returned stating that they could not agree. They were discharged until Monday at 2 o'clock, and the prisoner McDonald, was ordered to remain in jail. J. F. Winslow for the defendant made application for bail. The Crown prosecutor, H. G. Finlay claimed the prisoner's recognizance was of no value, as he was not a Canadian citizen. Judge Wilson adjourned the court until tomorrow morning at 10 o'clock when he will decide whether bail will be accepted for the prisoner or whether he will be remanded to jail to await another trial before a different jury.

### "Pain's enemy" -I'll say it is!

### LEGISLATURE AT QUEBEC

Quebec, March 18.—It is now expected that the Quebec legislature will close on Saturday. The work of the session it is expected, will be completed this evening.

### Rheumatic Pains Have Disappeared

Mr. Ed. Hall, Main-a-Dieu, N. S., suffered from rheumatism for years, but was more fortunate than many victims of the disease, for he found a remedy that he is now free from rheumatism. Mr. Hall says: "I was taken down with rheumatism, and at times was under the treatment of several of the best doctors in Cape Breton, but they held out no hope for my recovery from the trouble. I was confined to bed for three years and a helpless cripple from the trouble. I could not move, and had to be turned in sheets. My legs and fingers were drawn out of shape, and sore developed on my body as the result of my long confinement to bed. I was in this serious condition when a friend advised the use of Dr. Williams' Pink Pills and I began taking them. The first benefit I felt from the pills was an improved appetite, and then I began to feel stronger, and was finally able to get out of bed and go about on crutches. I continued taking the pills for months, slowly but surely getting new strength, and finally I was able to lay the crutches aside. I will always be lame, as the result of my long stay in bed my left leg has shortened somewhat, but otherwise I am feeling fine and able to do my work as Fishery Overseer. I may add that when the rheumatism came on I weighed 140 pounds, and when I began going about on crutches I only weighed 87 pounds, and now I am at normal weight. There are many here who know and can vouch for the truth of these statements. You can get these pills through any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Convicts Making Ballot Boxes

Hon. Mr. Doherty Explains That They Are for the Ontario Referendum Vote.

Ottawa, Mar. 18.—Convicts in penitentiaries throughout Canada are working on election ballot boxes, it was intimated by Hon. C. J. Doherty, Minister of Justice, during the debate on estimates in the House this afternoon. "Will the boxes be used pretty soon?" queried Thomas Vein (Liberal) amid some laughter. "They are for the temperance referendum in Ontario," was the minister's reply.

## Wilson Receives Large Purse

### World's Middleweight Champion Got \$42,500 for Defeating Mike O'Dowd.

New York, March 18.—Johnny Wilson, who successfully defended his title as middleweight champion, in the fifth round bout with Mike O'Dowd at Madison Square Garden last night, today received as his share of the receipts \$42,500.

Wilson was an unknown a year ago, and his admirers recalled today that it was only a few years ago that he received \$11 for fighting K. C. Sweeney.

The Boston boxer is the fourteenth to wear the middleweight crown, the initial holder being Tom Chandler, in 1847-1848.

O'Dowd, the former title holder received a guarantee of \$20,000. The contest was witnessed by 13,000 persons. It was announced today by Wilson's manager that the title holder fought with a strained right hand. This morning O'Dowd reiterated statements that he had been struck in the groin in the fight. He said his physician, who examined him, corroborated this.

## Local Bowling

**Y. M. C. A. SENIOR LEAGUE**

In the Y. M. C. A. Senior League last night the Blue Birds won all four points from the Mohawks. The scores follow:

Blue Birds	420	416	428	1274
Mohawks	390	382	390	1552

**COMMERCIAL LEAGUE.**

The Post Office clinched all four points in the league game rolled on Black's alleys last evening. The opponents were Ames Holden. The scores follow:

Post Office	455	445	451	1351
Ames Holden	455	445	451	1351

**CITY BOWLING LEAGUE.**

The Sweeps took all four points from the Ramblers in the City League rolled on Black's alleys last night. The scores follow:

Sweeps	460	477	457	1394
Ramblers	455	445	451	1351

## Championship Chess Match

**Game Between Dr. Lasker and Jose Capablanca Resulted in Draw.**

Havana, Mar. 18.—The second game in the world's championship chess match between Dr. Emanuel Lasker, the German master and Jose R. Capablanca, the Cuban expert, resulted in a draw tonight after the fourth move. The first game played Tuesday and Wednesday nights, likewise resulted in a no decision.

The third game will be played Saturday night.

## City Basketball League Closing

### Final Games Take Place in Y. M. C. I. Tonight and Something Doing Every Minute.

The grand wind-up of the City Basketball League is to take place in the Y. M. C. I. this evening, and a programme fitting one of the biggest nights in the basketball season is booked up for the fans. Two interesting Senior Girls games and two fast intermediate games will be the feature of the evening.

The Y. M. C. A. and Y. M. C. I. Intermediates will meet in the eventful game of the intermediate section of the city league. A win for the Y. M. C. I. will throw the leadership of this end of the league into a fight between the three leading teams, the High School, Y. M. C. A. and themselves.

If the Y. M. C. I. should win tonight's game, and the protested game with the Orioles, a three cornered tie will result in the intermediate section of the league. If the Y. M. C. A. wins, they clinch their title for first place. High School takes second and Y. M. C. I. third. Close competition has featured the majority of the intermediate games this season, and for this reason the games have been followed with more interest possibly than the more one-sided games of the Senior section.

In the other intermediate game, St. David's are to play the B. B. C. Both squads should give a good exhibition.

The Senior Girls games will prove particularly interesting to those who have been closely following the girls' games this season. The Y. M. C. I. Senior Girls are to meet the Y. M. C. A. Young Ladies' League and Y. W. C. A. Senior Girls are to play the Philvite Baptists. A play-off between the winners should prove the Senior Girls Basketball championship of the city, as the four teams entered represent the strongest girl teams in the game this winter.

## Investigation Into 1919 World's Series

### Started Yesterday Before Cook County Grand Jury—Surprise Expected.

Chicago, March 18.—A second investigation into the 1919 world's series which Chicago White Sox players were charged with throwing to Cincinnati was started today by State Attorney Robt. E. Crowe, before the Cook county grand jury.

Mr. Crowe told the jurors in outlining his plans, that he would bring new evidence which would justify re-indictment of the men whose cases were dropped or taken off the court last year, and also would indict men not indicted at the inquiry. He added that "the public may be more surprised at the result than it was at the original indictments."

Mr. Crowe desired to call B. B. Johnson, before the jury today, but could not reach the American League president.

## Ketchel Holds The K. O. Record

### Scored 21 Knockouts in Succession—Only 15 Opponents Went Limit With Him.

George Chaney, the Baltimore veteran, is in the midst of a knockout streak that is attracting a great deal of attention. Chaney has stopped 11 opponents in succession and it looks as though he is going to continue indefinitely, for none of the good light weights cares to tackle him and the second raters are easy for his south-paw slams.

Scoring eleven knockouts in succession is no mean feat. It has seldom been surpassed. Stanley Ketchel holds the knockout record. The Michigan Assassin had a run of twenty-one to his credit, the longest in ring history. Ketchel began his remarkable run of knockout victories in May, 1905, and it lasted until May, 1907. This happened just before his battles with Joe Thomas that directed general attention to his way. Ketchel's longest run equals that of Chaney. In 1903 the great hitting Mexican sent eleven of his opponents to sleep before his run of knockouts was interrupted by Louis Long, who succeeded in holding him to a draw in twenty rounds.

Sam McVey, the negro heavyweight, comes next with a run of ten. However, most of his opponents were Kingfishmen and Frenchmen. It was during one of his trips to Europe that his long run occurred. It was interrupted by a victory over him by Joe Jeannette.

Jack Dempsey, the present heavyweight champion, may equal Ketchel's record. Jack has stopped his last nine opponents and his longest run of opponents appear to have a chance with him.

Dempsey holds the one-round record, when he knocked out Willie Moshea in four rounds.

## McGoy's Long Run

Other famous fighters who have scored nine knockouts in succession are Kid McCoy and Joe Choynski. McCoy's longest run occurred in 1908, when he was at the top of his form. There were no high class men among the victims of the corkscrew wallop and his longest bout lasted only four rounds. McCoy's run was checked when he met and defeated Gus Rubin in twenty rounds.

Choynski's nine successive knockouts were scored during 1901-1902. His feat surpassed that of McCoy because the men he met were of higher class. Among them were Billy Woods, Joe Godfrey, Jack Hart and George Godfrey. In most of his bouts Choynski had to concede weight to his opponents.

Bob Fitzsimmons, probably the best hitter of his weight the ring ever saw, scored eight knockouts in succession. This run covered a period of

## Grand National Steeplechase

### Shaun Spadah, Hundred to Nine Shot, Won at Aintree Yesterday.

London, March 18.—The Grand National Steeplechase, run today at Aintree, was won by Shaun Spadah, 100 to 9.

The Hare, 33 to 1, being third. Turkey Buzzard was the only other horse to finish the course. Thirty-six horses started.

## House Cleaning In Canadian Sport

### Dominion-Wide Investigation Into Amateur Sport in Canada Aided at Hockey Assn.

Winnipeg, Mar. 18.—The Amateur Athletic Association of Canada, President Dr. Bruce Macdonald, will be requested to appoint a commission of three to conduct a Dominion-wide investigation into amateur sport in Canada according to a decision made by the delegates attending the annual meeting of the Canadian Amateur Hockey Association here this afternoon. This decision was made after Dr. Macdonald had made a plea on behalf of a general house cleaning in Canadian sport, offering to appoint a commission.

## Communists Can Stage Demonstrations

### Always Draw Bigger Crowd Than Do Monarchists When Parade Announced.

Copyright 1921, By Public Ledger.

Berlin, March 18.—The German monarchists might well take lessons from the Communists. Announcement of a red gathering always brings forth thousands of workers from all parts of Berlin but the much talked of monarchist demonstration against the London conference failed to attract more than two or three hundred this morning. It had been rumored that this would be a review of the monarchist army which might end in a "putsch" if the demonstrators were more than participants. If this can be taken as an indication of the monarchist strength here, there is nothing to be feared.

tending from April, 1920, to June, 1921, and it was Choynski who brought it to an end by boxing five rounds to a draw with him in a Boston ring.

However, Fitzsimmons always maintained that he really should be credited with a knockout over Choynski, as the police stopped the bout, which was supposed to be merely an exhibition, but wound up in a desperate fight. Fitz accused Choynski of trying to slip one over on him. If that affair is thrown out, Fitz's run would consist of ten knockouts and would place him next to Ketchel. Among the men Fitz stopped were Joe Godfrey, Jim Hall, Dan Creedon and Peter Maher.

Tommy Burns, who once posed as the heavyweight champion, had a run of eight knockouts to his credit. It was while he was in England that the stunted Canadian scored his long run. None of the men he met had any ability to speak of and they were bowled over in a hurry.

Morris Well Up.

Joe Jeannette had a run of seven knockouts in 1912. His victims were all set-ups. Carl Morris, the original white hope, had a run of seven scored during the period in which he was being built up as a possible opponent for Jack Johnson. His run of knockouts was interrupted when little Jim Flynn fairly slaughtered him in a gory affair at the Garden back in 1911.

Luther McCarty was another white hope to score seven knockouts in succession. None of the men McCarty felled during this spell was of any standing. He also had a run of five in which he knocked out Carl Morris and a run of four during which he stopped Al Kaufman, Tom Flynn and Al Palmer.

Tom Sharkey had a run of six in 1900. After losing to Jim Jeffries in the latter part of 1899, Sharkey came back and felled Joe Goddard, Jim Jeffries, Jim McMorris, Tommy Conroy, Joe Choynski and Yank Kenney. Gus Rubin put an end to the run by beating him in fifteen rounds.

## Art Staff Won From Norval Baptie

### Pittsburgh Professional Ice Skater Wins Chance to Meet McGowan in Boston.

Pittsburgh, March 18.—Art Staff, of Pittsburgh, professional ice skater, won three out of four races here tonight from Norval Baptie, New York, who today gave Staff the right to meet Everett McGowan, of St. Paul, Minn., in a series of races at Boston March 29.

Staff won the 230 yard race in 20 seconds. In the second event Staff fell on the first lap and Baptie won, the time being 1 minute, 20 3/4 seconds.

Staff was injured, but after doctors worked over him for half an hour, he said that he would go on the ice again.

In the one mile event the Pittsburgher finished in 3 minutes, 53 3/4 seconds.

Baptie fell on the 19th lap of the two mile race, which Staff won in 6 minutes, 7 seconds. Baptie was about half a lap behind Staff when, on the 19th round, the latter upset a chair while making a turn. Baptie fell over the chair but quickly recovered.

## Al Reich Out In The First Round

### Tommy Gibbons of St. Paul Floored Opponent Twice Before the Knockout.

Cleveland, Mar. 18.—Tommy Gibbons of St. Paul knocked out Al Reich of New York after two minutes and 33 seconds in the first round of a scheduled ten round bout here tonight. Gibbons floored Reich twice before the knockout for a count of nine and eight. Gibbons weighed 152 pounds and Reich 219.

Ed Mahoney, of Chicago knocked out Joe Hurley, of Syracuse, N. Y., in the seventh round of the ten round semi-final.

## King And Queen Witness Carpentier

### With Prince of Wales and Others of Royal Family Attend Steeplechase & Boxing

London, March 18.—King George, Queen Mary, the Prince of Wales and other members of the Royal Family and various other persons who are being entertained at a house party by the Earl of Derby at Knowsley, near Liverpool, attended the Grand National steeplechase today.

Afterwards they witnessed a sparring exhibition by Georges Carpentier and his boxing partner and then attended a private moving picture exhibition.

As a protest against the additional charges, Hampton Wick (Middlesex) District Council have decided to displace with the telephone.

## Mike Gibbons After Wilson

### Says He Still Declines to Regard Johnny as a Champion and Repeats a Challenge.

St. Paul, Minn., March 18.—Mike Gibbons, of St. Paul, today repeated his challenge for a match with Johnny Wilson, middleweight champion, who defeated Mike O'Dowd, of St. Paul, in New York last night.

"I still decline to regard Wilson as a champion," Gibbons said. Gibbons has been in training here for several weeks.

Frederick Cheek, aged 16, of New Southgate, who was sentenced at Highgate Court to three months' imprisonment in the second division for stealing a cinema machine, \$100 worth of films and a motorcycle, was stated to have set up a cinema show in a shed in his father's garden for his playmates.

## Tommy Gibbons of St. Paul Floored Opponent Twice Before the Knockout

### Ed Mahoney, of Chicago Knocked Out Joe Hurley, of Syracuse, N. Y., in the Seventh Round of the Ten Round Semi-Final.

Copyright 1921, By Public Ledger.

Berlin, March 18.—The German monarchists might well take lessons from the Communists. Announcement of a red gathering always brings forth thousands of workers from all parts of Berlin but the much talked of monarchist demonstration against the London conference failed to attract more than two or three hundred this morning. It had been rumored that this would be a review of the monarchist army which might end in a "putsch" if the demonstrators were more than participants. If this can be taken as an indication of the monarchist strength here, there is nothing to be feared.

tending from April, 1920, to June, 1921, and it was Choynski who brought it to an end by boxing five rounds to a draw with him in a Boston ring.

However, Fitzsimmons always maintained that he really should be credited with a knockout over Choynski, as the police stopped the bout, which was supposed to be merely an exhibition, but wound up in a desperate fight. Fitz accused Choynski of trying to slip one over on him. If that affair is thrown out, Fitz's run would consist of ten knockouts and would place him next to Ketchel. Among the men Fitz stopped were Joe Godfrey, Jim Hall, Dan Creedon and Peter Maher.

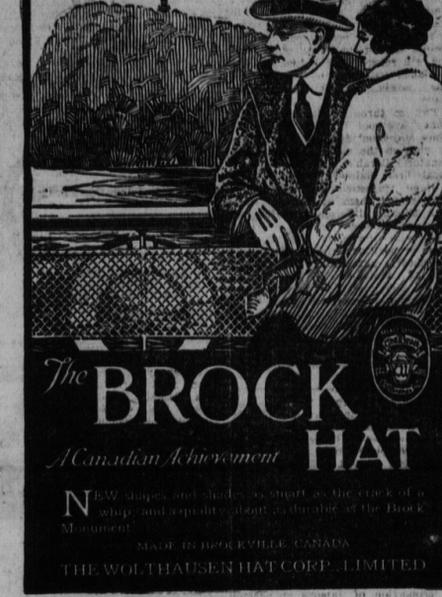

Tommy Burns, who once posed as the heavyweight champion, had a run of eight knockouts to his credit. It was while he was in England that the stunted Canadian scored his long run. None of the men he met had any ability to speak of and they were bowled over in a hurry.

Morris Well Up.

Joe Jeannette had a run of seven knockouts in 1912. His victims were all set-ups. Carl Morris, the original white hope, had a run of seven scored during the period in which he was being built up as a possible opponent for Jack Johnson. His run of knockouts was interrupted when little Jim Flynn fairly slaughtered him in a gory affair at the Garden back in 1911.

Luther McCarty was another white hope to score seven knockouts in succession. None of the men McCarty felled during this spell was of any standing. He also had a run of five in which he knocked out Carl Morris and a run of four during which he stopped Al Kaufman, Tom Flynn and Al Palmer.

Tom Sharkey had a run of six in 1900. After losing to Jim Jeffries in the latter part of 1899, Sharkey came back and felled Joe Goddard, Jim Jeffries, Jim McMorris, Tommy Conroy, Joe Choynski and Yank Kenney. Gus Rubin put an end to the run by beating him in fifteen rounds.

## FACTS CAST NEW LIGHT ON PLANS FOR JAPAN'S NAVY

Present Programme Will Make Fleet Equal United States Soon.

### SUPERIOR TO THE BRITISH IS PLAN

Great Dreadnoughts of Most Modern Type to be Built at Once.

(Copyright, 1921, by Public Ledger.)  
When national resources are taken into account, Japan's "eight and eight" naval programme is the most ambitious scheme of naval expansion ever undertaken in time of peace by any modern nation, probably by any country in history. It imposes on the Japanese people an effort greater than that of Germany in 1914, when her war preparations reached their maximum. In fighting power it aims at placing Japan nearer the United States than Germany was to England in 1914. It will make Japan the close second, almost the equal, of America, and will relegate the British navy, as it stands today at the height of its war power, definitely to the third place.

Two or three outstanding propositions are put forward in virtually every statement made by Japan's public men on the naval situation since Senator Borah's naval holiday proposal first alarmed world attention. Without injustice to the men who have stated them at various times, with slightly different phrasings and emphases in each case, but nearly all ways with the same general effect, these propositions can be stated thus: Whatever agreement for the limitation of armaments is entered into, Japan must be allowed to complete her eight-eight programme.

The eight-eight programme is an old scheme of naval expansion, for decades only, demanded by the necessity of protecting the ocean-borne commerce of Japan and the coasts of the empire.

The completion of this programme will still leave Japan far behind the United States—and Japanese leaders also are behind Great Britain—in naval power, even though the United States completed only the expansion programme of 1917.

Protestation Open to Question.  
A careful study of the eight-eight building programme and what it means in fighting ships of the latest type, apart from any comparison with other proposed fleets or the share of the national income it will claim, leads to a questioning of at least the sense of proportion of Japan's spokesmen.

When his programme is considered in its relation to the national income, foreign trade and merchant marine, and in this light is compared to the programme of the United States and Great Britain, the claims of the Japanese leaders come still more into question.

Sixteen New Sea Monitors.  
The eight-eight programme provides that Japan must have eight super-dreadnoughts and eight battle cruisers all less than eight years old. Many writers have been assuming that this programme included at least four of the super-dreadnoughts in the present Japanese navy—the Fuso, Iyazumi, Ise and Yamashiro—and four of the present battle cruisers—the Hiyoko, Kongo, Kirishima and Haruna. It does not. All these ships are relegated to the second line in the calculations of the eight-eight programme, although today they are as fine fighting ships as afloat.

The four super-dreadnoughts named are larger than any in the British navy; the four battle cruisers are the equal of the British Tiger and larger than the Hesperus and Albatross. The United States navy has at present no battle cruisers—nothing to compare with the Kongo and her sister ships.

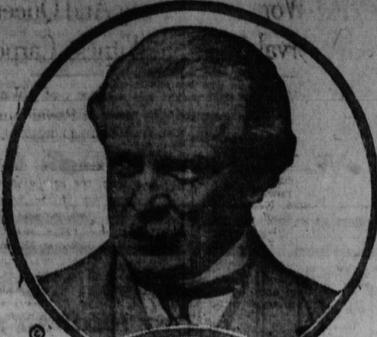

The first two of the eight new battle cruisers have just been started, their keels having been laid in December. They are designed to be the equal of the British Hood and the American battle cruisers of the Lexington class, 45,000 tons in displacement, carrying 16-inch and possibly 18-inch guns and having a speed of 33½ knots.

The eight-eight programme means that Japan's expansion begins where Britain's left off. Her new battle ships will at least equal the biggest and best of the United States navy. The first of the new battle cruisers will equal the best of the American. The last four of these giant ships Japan is planning, designed two or three years hence, will probably go beyond anything America will build under her present programme.

Exceed Britain, Equal U. S.  
The eight-eight programme means sixteen post-Julian capital ships in the Japanese navy within the next seven years. England has only one and is building none. The United States navy will have at most eight, unless the present programme is expanded.

The eight-eight programme requires that all Japan's present facilities for the construction of capital ships must work at top speed and at full capacity for the next seven years to complete it.

The eight-eight programme means that in 1922 Japan will have a navy virtually the equal of the American navy in case the expansion of the American navy does not go beyond present authorized plans. Taking eight-

### WEDDINGS.

**Mylop-Bavans.**  
Yesterday afternoon at the residence of the bride's parents, Mr. and Mrs. Daniel Bavans, 27 Newman street, their daughter, Miss Christina Bavans, was united in marriage to Emory Willis Mylop of this city, who is from Mylop, N. B. The bride was bridesmaid, and W. A. Colbert acted as the groom. The ceremony was performed by Rev. Isaac Brindley, in the presence of immediate friends and relatives. After a short honeymoon trip to Moncton and other parts of the province, Mr. and Mrs. Mylop will reside in St. John.

### Radicals Welcome; Uruguay Unafraid

**President Brum Says Labor is Contented, With Laws Protecting Workers.**

Montevideo, Uruguay, March 17.—President Baltasar Brum believes that Uruguay is well in the forefront of advanced legislation in many respects and that it will soon take steps which will lead eventually to full suffrage for women.

The laws enacted by the Uruguay Congress for the protection of working men, he said, had made labor contented in this country. One of the laws now pending provides that labor cannot be employed in the country districts for less than \$20 a month—with board and lodging. In the city the minimum is set at approximately \$46 a month.

"We also have a law," said Dr. Brum, "giving an obligatory day of rest each week, and this has been made to include domestic servants. Our labor is satisfied. Ship all your agitators here; we are not afraid of them. They will not find congenial soil in which to work."

In regard to woman suffrage, he said the constitution of Uruguay provides for votes for women, but that the machinery for their balloting has not yet been provided by the act of Congress. He believes that within two years women will get the right to vote for municipal representatives, which would lead to complete suffrage for them.

Dr. Brum spoke with some pride of the educational facilities of Uruguay, saying it was now possible for a child to be educated from the time when he begins to learn to read, through the national schools, and university until he receives his degree as a lawyer, without having to pay any kind of fee. With regard to prohibition, the President stated that there was quite a strong feeling among the legislators of the nation in favor of curtailing the facilities for the sale of alcoholic beverages, as well as their distillation. This tendency apparently was in favor of allowing the people to consume wines and beer, but to restrict to a large extent the sale of spirits containing a large percentage of alcohol.

### Jubilee of Stanfield's Limited

A Quarter of a Century of Progress and Prosperity.

F. W. MACLEAN,  
Who is in Charge of Sales for Stanfield's Limited in New Brunswick.

The Jubilee of Stanfield's Limited was also the greatest year in the history of the firm in point of sales. The sales for 1920 totalled over three million dollars, an increase of over \$400,000.00, the biggest increase of any year.

This table will give an idea of the growth of Stanfield's Limited under the present management:

	1914	1920
Employment	17	600
Capital	\$1	\$1,550,000
Sales	\$250,000	\$3,100,000

Stanfield's Limited has a most efficient Sales Force, in constant touch with the retail trade from coast to coast. By this way, the mills are kept constantly informed of the needs of those who actually wear Stanfield's Unshrinkable Underwear.

### Huge Amount of Goods Distributed

(Copyright, 1921, by Public Ledger.)  
Berlin, March 18.—Food supplies worth 20,000,000 pounds and valued at approximately 200,000,000 marks, and clothing valued at 100,000,000 marks, were received from foreign relief agencies and distributed in Germany during the last year by the German Red Cross, according to estimates published here this week. Included in these supplies which were distributed by German agency in addition to those given out by American and other foreign relief organizations having branches here were 12,000,000 ounces of milk, 4,000,000 pounds of sugar and 5,000,000 pounds of flour.

The American cows which were released from quarantine at Bremen a few days ago are expected to be an important factor in reducing the milk shortage. The twenty allotted to Berlin are to be placed in stables on the municipal farms and the milk used exclusively to feed tubercular children.

Judged on a time basis the American people must be commencing China.

## REBUILDING WRECKED AIR LEVIATHAN

Signor Caproni Nowise Disheartened by the First Mishap.

### MOTOR ARRANGEMENT CAUSED ACCIDENT

Machine Rose in Air But Refused to Obey Controls and Sunk in Lake.

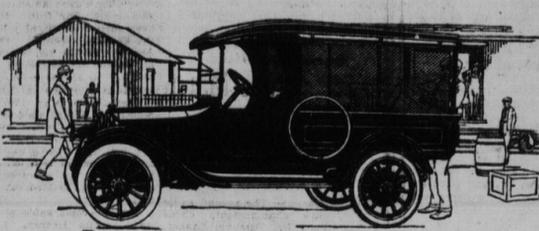

(Copyright, 1921, by Public Ledger.)  
By WYTHE WILLIAMS.

Paris, March 18.—Although the first flying trial of the 5,500 horsepower, 10-ton Caproni airplane resulted disastrously, it is now being rebuilt preparatory to further tests. This is the largest flying machine in the world destined for cross-Atlantic service, carrying 96 passengers. An eye-witness, an air expert, just arrived in Paris, gives the following first news—until now suppressed—of tests of the air leviathan: "What appears to be little more than wreckage of the great machine now lies at Lake Maggiore. The original trial on water without an attempt to rise was made from Sesto Calende on the banks of the Ticino River by Signor Calambo, after which Signor Salambrino, flying alone in the bow of the craft, took her out.

Get Up 200 Feet.  
"After a long run the great machine rose into the air and flew at an altitude of 200 feet for more than a mile when some structural weakness was manifested. Salambrino endeavored to bring the flying ship safely to the surface of the lake. It answered the controls for the volplane, but when he attempted to straighten it out on the water the controls refused to act and the machine dived straight into the lake and under the surface. He was able to escape from the pilot's post unhampered by any wires or struts and to move himself, but the airplane sank. It was afterwards salvaged.

Due To Structural Weakness.  
"It seems the cause of the accident was due to the structural arrangement of the motors 5,600 horsepower liberty motors were used and there were no passengers aboard, but that of several tons being employed instead. Signor Caproni regards the accident as a minor matter and already has begun construction and seems likely to succeed.

"Meantime he has commenced to build a flying ship of twice the proportions of the original giant."

**DODGE BROTHERS BUSINESS CAR**

That the lightness of the Business Car is united to great strength is proven by the splendid service it is rendering everywhere under widely varying conditions.

The lightness of the car keeps the gas and oil costs down, and its sound construction renders repairs infrequent.

# OLIVEINE EMULSION

back to the old price

## \$1 a bottle

The same big bottle. The same pure ingredients—the finest that the world produces. The same wonderful tonic, body-builder and health restorer. The same Grand medicine that relieves Coughs, and heavy Colds; that makes flesh and good, red blood; that improves digestion and appetite; that strengthens the nerves and builds up the whole system. The same reliable dependable medicine you have always bought, at the same old price, \$1. a bottle.

The ingredients used in "OLIVEINE EMULSION" come from the four corners of the world. Because they are hard to get their prices have remained very high. But—owing to the improved ocean freight service, larger quantities of drugs, oils and flavorings are reaching Canada and the prices are becoming lower. This is why we are able to give you the same large bottle—and the same extra fine ingredients in "OLIVEINE EMULSION" and sell it at the old price—\$1. a bottle.

Sold by druggists and general stores.

**FRASIER, THORNTON & CO. LIMITED**      **COOKSHIRE, Que.**

THE WEATHER. Toronto, March 18. The weather has been fair and somewhat colder today from Ontario eastward and mild in the Western Provinces.

AROUND THE CITY. BUSINESS PURCHASED. A. P. Stevens has sold his grocery business at Coldbrook to Mr. Phillips, who will take it over the first of next month.

SUPPER AND SALE. A successful bean supper and candy sale was held in the Brookville Methodist church Thursday evening and about fifty dollars was realized for the church fund.

POLICE COURT. Hazel Hargrave was charged in police court yesterday afternoon, on a charge of assault. Mary Brennan, colored, was before the magistrate for using insulting and abusive language to William Petrie. She was represented by E. S. Ritchie, and her case was stood over until today.

EMPEROR OF FRANCE. The C. P. O. E. liner Empress of France will arrive off the island about six o'clock this morning, according to a radio advice received at headquarters yesterday. She is coming from Liverpool and has approximately 100 cabin, 500 second cabin and 700 third-class passengers, in addition to royal mail and freight. J. O. Apple, general manager agent, is in the city yesterday from Montreal to meet the Empress.

PROBATE COURT. In the matter of the estate of Mrs. Bridget Agnes Gerow letters of administration cum testamento annexo were issued to her brother, John C. Ferguson. The estate was probated at \$4,000 realty and \$4,007 personally. By her will, which was dated in 1894, her sister, Miss Annie R. Ferguson had been appointed executrix, but she is now deceased. J. A. Barry was probator.

The will of Rev. J. C. Herrle was probated at \$2,869.93 personally. His daughter, Mrs. M. H. B. Good, was appointed executrix. W. Nelson was probator. In the matter of the estate of Catherine Nagle, her son Thomas was appointed executor. The estate, which consisted of \$9,919.14 personally, was left to her son and others of the family. J. C. Belyea was probator. The will of Annie E. Smith was proved appointing Sheriff A. A. Wilson and Hartley Smith executors, personally \$3,800. After various bequests to relatives and friends, she left the income of \$500 to be invested in trust securities for the pastor of Pentfield Baptist Church and out of her residuary estate made bequests to the Waterloo street Baptist church and the United Baptist, Women's Missionary Union. K. A. Wilson was probator.

PERSONALS. Miss Vera Dean, who has been attending the funeral of her father, John Dean, returned to Montreal last evening. While in St. John, Miss Dean was the guest of Mrs. J. H. Jenner, west side.

Rev. J. L. Hillman of the Merrimack Adventist Academy is spending a few days in the city, a guest at the Dufferin.

H. A. Scovill of St. Stephen was in the city yesterday. W. C. Sharp and J. L. White of Grand Falls are at the Victoria.

His Honor Judge Chandler of Moncton, arrived in the city last night from Edmundston where he presided at the St. Pierre murder trial, on route to his home in Moncton.

A. C. Sackville is at the Royal. Mr. and Mrs. J. B. Hetherington and Miss Virginia Hetherington of Cods are visitors in town.

Mrs. G. J. Ozma of Hillsboro is a guest at the Royal.

DIED. WEST—In Montreal, on March 18, 1921, Franklin S. West, in the 64th year of his age, leaving four sons and one daughter to mourn.

FUNERALS. The funeral of Mrs. Melvina Courtenay was held yesterday afternoon from her late residence, 70 Waterloo street, to Fernhill. Service was conducted by Rev. L. G. Gray.

Hear the celebrated New Brunswick Phonograph Records on Sale at the C. H. Townsend Piano Co., Ltd. Borden's St. Charles or Jersey Milk "with the cream left in" is just pure cow's milk evaporated to the consistency of cream. A richer, purer milk for all cooking uses.

Y. M. C. A. JUNIORS WON. The F. M. C. I. Juniors trimmed the Trail Rangers of St. Mary's church, in a basketball game in the Y. M. C. A. gym, yesterday afternoon by a score of 25 to 0.

Prominent Soldier Dies In Hospital

Sergeant Sterling R. Parlee was Taking Course Here—Was Only Ill About a Week. Sergeant Sterling R. Parlee, aged 21, son of the late Charles Parlee, of Sussex, died at the Lancaster Military Hospital at three o'clock yesterday afternoon. He leaves a mother and three young brothers, Clarence, Ronald and Sherman. His death was due to complications caused by quinsy and pneumonia.

Father and Son Banquet Success

Nearly Two Hundred Fathers and Sons at Ludlow Street Baptist Church. The Father and Son banquet held in the Ludlow Street Baptist Church Sunday school last evening proved a splendid success. Nearly two hundred fathers and sons attended in a banquet hall that had been attractively decorated for the occasion.

Runaway Auto Injured Woman

Truck Knocked Down Iron Railing in Front of Centennial School. A motor-truck belonging to the James Robertson Co. was being unloaded in an alley between the Centennial school and the Brussels street church yesterday morning, and for some unknown reason the car started with nobody aboard, and gathered momentum as it travelled down the grade towards the street, striking the iron railway, tearing away a large section of it as well as the corner post which supported it.

Many Men Looking For Employment

Forty Have Applied at Office of Mayor in Few Days—List Totals 350. This last week has seen a revival of the rush at City Hall of men who are out of work and want jobs, no less than forty having made application to the mayor's clerk. In the past few days, the list of men now registered at City Hall numbers about three hundred and fifty and no jobs of sight for them.

Board of Trade Council Meeting

Recommend Lightship be Placed at Sambro Head—Other Matters Discussed. Several matters of interest to the business community were discussed at the meeting of the council of the Board of Trade held yesterday. The recommendation of the Halifax board, to the Marine and Fisheries Department, that a permanent lightship be placed at Sambro Head, at the entrance to Halifax harbor, was endorsed and a communication ordered sent to the Marine Department.

Paid Tribute To Faithful Member

Coburg Street Church Scouts and Wolf Pack Made Presentation to Harry Skinner. The Coburg Street Christian Church Boy Scout troop together with the Wolf Pack met in the church basement last night prior to the evening service to pay tribute to Harry Skinner one of their faithful members who is leaving in the near future for his home in Pennsylvania.

Many Cases Heard In Police Court

Liquor, Profanity, Thieves, Assault and Obstructing Officers Among Charges. The Hyman Taxer liquor case, which has involved some few charges in St. John liquor cases, was up for judgment yesterday afternoon, but again postponed. J. A. Barry acted for the defence, and W. M. Ryan for the prosecution.

Military Plans For Training

Militia in This District Train at Various Local Camps—No General Camp at Sussex. According to information received from Ottawa at military headquarters yesterday it is expected that training will be held this year by the militia in this district, at the various local camps. Cavalry, rural infantry, engineers and medical units will train for nine days, while field artillery will train at the local camps with horses six days, and the usual firing detachments will go to Petewawa for five days.

St. Patrick Social Greatly Enjoyed

High "Y" Club and Friends Spent Pleasant Time in Y. M. C. A. The H-Y Club and their lady friends numbering some thirty couples enjoyed a very pleasant St. Patrick social in the Y. M. C. A. Boys' Department social rooms last evening.

Old Country Club Whist and Drive

Hundred and Fifty People Present at Very Enjoyable Affair Last Night. One hundred and fifty people gathered at Orange Hall, Germantown street, last evening when the Old Country Club held one of their deservedly popular whist and drive parties. Sixteen tables of whist were played, the winners being Mrs. C. F. Plante, Mr. U. P. Plimier, consolation prize, Mr. J. Reed, Mrs. Hawkins.

Kindergarten In The Public School

Matter Discussed—Some Teachers Opposed to System—Taken up Monday. At a meeting of the Board of School Trustees last Monday night a delegation from the Kindergarten Commission asked the Board to take over the Kindergarten in connection with the public schools.

Domestic Problem

A difficult domestic problem requiring the court's adjustment was taken up in the case of James Hunt, M. J. Place, charged with assaulting his wife. The complainant testified that last Monday the accused came home to supper, and finding no bread in the house took her by the neck and put her outside. When she returned he attempted to eject her again, but failed. Before this he had kicked her, torn her clothes and had even threatened to kill her.

Special Week-End Sale of Blouses at F. A. Dykeman & Co's.

All women interested in pretty waists, and who is not with Easter so near, should see this special at Dykeman's today. This sale marks the end of a week specially devoted to the display and sale of the new styles in Blouses—Georgettes, Crepe-de-Chine and White Habutai Wash Silk, are the materials employed—Colors, White and Flesh Pink, some prettily embroidered in the bright silks, are so popular. Others in a plainer mode. Choice of regular or New Shimmey styles—Special at \$3.98 and \$4.98.

The Seafoam Electric Washer

Does the Same Work at HALF THE PRICE. Why pay from two hundred to two hundred and fifty dollars for a washing machine when you need pay but half that price, at most, for the Seafoam Electric Washer which will do exactly the same work as the more expensive ones? Efficiency, quality, durability and simplicity—the really vital features of washing machines—are embodied, to the highest degree, in the Seafoam Electric Washer.

ALUMINUM The Kitchen's Brightest Ware. A Kitchen without Aluminum would be a dull place indeed. Our new displays of Aluminum will enable the housewife to choose needed utensils at saving prices. All good quality, long-wearing Aluminum. A VERY LARGE ASSORTMENT TO CHOOSE FROM. Our stock includes such well known makes as "WEAR-EVER" "RELIANCE" "VIKO" "WRICO". EMERSON & FISHER, LTD. 25 GERMAIN STREET.

Men's and Young Men's Spring Suits. These are suits of exceptional quality. The prices are very moderate, but it's really the high character of materials and workmanship that is the assurance of economy. The assortment includes styles for men and young men, made of beautiful fabrics in the newest spring patterns. Form-fitting and more conservative models, featuring longer coats are in the favored colorings for the new season patterns that won't grow tiresome. If you want the kind of economy that comes for clothes which have lasting quality, which have the endurance to hold out against long wear, here's your chance. \$25.00 to \$49.50 (Men's Shop—Second Floor.)
