TOWN COUNCIL.

Meeting Held Last Wednesday Evening.

WATER SERVICE

Discussed and Meter Rates Fixed.—Other Business.

The meeting of the Town Council last Wednesday was called to order by Mayor Morrison promptly at 8 o'clock. There were present: His Worship the Mayor and A. W. H. Henson, Hennessy, Lawlor, Stables and Phinney. Clerk read communication from John McDonald in reference to his account for dumping sand on street. Secretary was requested to write Mr. McDonald. The petitions of Mrs. Adams and James Robinson, re taxes, James Brown estate, and Arch. Wright were referred to committee on petitions. The return of the Police Magistrate was read. This was certified correct and ordered to be placed on file. The three months fines amounted to \$8. The Bye Law Committee submitted the following bye law which after discussion was adopted:

The following bills were ordered to be paid:

Anselow Bros.,	\$45.25
Henry Ingram,	2.00
Meter Inspection,	21.25
T. McAvity & Son,	9.25
F. D. Ryan,	155.43
Jas. Robertson Co.,	39.40
Daniel Hogan,	22.48
Assessors,	183.14
R. R. Call,	119.91
Canada Gen. El. Co.,	443.61
McLean Oil Co.,	17.59
Pickard Electric Co.,	21.38
H. H. Lamont,	124.41
F. J. Desmond, refund,	1.25

Alderman Hickson said that as yet no meter rates had been made. He read the rates set in Chatham and thought that they were about right up to the million mark but above that mark they were low. The town could not afford to pump water for less than 7 cents a thousand gallons. He also said there were about eighty users of water yet there were 60,000 gallons of water used every day, which was a most outrageous amount, nearly 1,000 gallons per user. He was of the opinion that many were allowing their water to run and that there was an undue waste throughout the entire town. He spoke of observing one place where a half inch pipe was running full into a sewer and upon investigation he found that it was being used to cool beer. He strongly urged that meters be installed in a few places so that the quantity being used could be arrived at. Ald. Hickson moved that the following water rates by meter be adopted:

Up to 100,000,	10 cents.
" 500,000,	9 cents.
" 700,000,	8 cents.
Over 700,000,	7 cents.

This motion was carried. As there were two vacancies on the School Board, one to be appointed by the Council, the other by the Government, the Council appointed M. Bannon, and recommended J. R. Lawlor to the Government for reappointment. Council then adjourned.

BAD FISHING.

St. John's, Nfld., Aug. 15.—American, Canadian and French fishing vessels returning from the Grand Banks report that the fisheries there continue a complete failure. Owing to the scarcity of bait more than 250 vessels are now in Newfoundland waters. It is estimated here that the total catch of the cod fisheries of North America for the present season will be the smallest in twenty years. The French have fared the worst, their catch being only about one-third of the average.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects.

WAS IT MURDER?

Startling Facts Disclosed at the Inquest on Urquhart's Remains

Fredericton, Aug. 15.—The coroner's inquest on Wm. Urquhart's death last night disclosed strong evidence of a murder. Wm. Sanders, of St. Mary's swore that between two and three o'clock on Sunday morning he saw a crowd of rough men. St. Mary's end of the highway bridge. Among them were F. H. Henson, Chas. Ryder and Frank Hughes and two or three more fellows from Fredericton, whose name he did not know. He saw R. H. Henson and Urquhart knock him down twice and kick and beat him on the head that he (Sanders) approached and rescued Urquhart, who was quite badly cut and bleeding but persisted in his intention to come to Fredericton. Charles Henson, of Fredericton told of hearing Hughes say to Ryder, "If you see that old fellow again chuck him into the drink." The jury returned the following verdict: We, the undersigned, empanelled jury sworn to enquire into the death of the late Wm. Urquhart, after hearing the evidence of all the witnesses, have reasons to believe that deceased came to his death by being thrown from the wooden bridge across the St. John river at Fredericton on the night of Saturday, August 8, and we further believe that Thos. Ingraham, Chas. Ryder and Frank Hughes were implicated in the cause of his death.

Ryder appeared as a witness before the jury in obedience to subpoena, but when sworn said he could not remember a thing about the affair. All were under the influence of liquor. Hughes went to Woodstock by train on Monday or Tuesday and Ingraham left last night. Connor McNally sent the depositions to Clerk of the Peace Henry B. Ramsay this morning. The police are awaiting orders for Ryder's arrest.

Fredericton, Aug. 16.—Charles Ryder and Frank Hughes were arrested last night on a charge of being implicated in the murder of William Urquhart, whose body was found floating in the river on Thursday last.

GENERAL ELECTIONS.

Government and Grand Trunk are Getting Their Forces Rapidly in Order to Contest the Country.

OTTAWA, Aug. 16.—The general elections will take place within the next few months. In the department of railways and canals clerks are busy getting business in shape to allow the incoming minister to get out into the country. In other branches of the service a similar condition of affairs exists. Conservatives all over the country need to look sharp and get their candidates in the field. The government will endeavor to spring a surprise, and statements to the effect that no election will be held should be disregarded by opponents of the liberal party. It is known that Laurier wants to make his final appeal to the electorate before the Grand Trunk Pacific job can be really appreciated by the electorate. Liberals are afraid of it, and appreciate the great gains the conservatives have made in the country within the last few months.

SMALL VESSELS SCARCE.

"There seems to be a scarcity of small shipping just at present," remarked a Halifax ship broker. "I have orders for a large number of small vessels, which at present remain unfilled. The Port Hood Coal Company want between fifteen and twenty small and medium vessels to load coal at Port Hood for various ports in the Maritime Provinces and elsewhere, but as I say, there is scarcely anything in the line of small shipping offering at present."

PREPARING FOR WAR.

Roumania Orders Ammunition.

BUCHAREST, Roumania, Aug. 17.—Acting War Minister Bratianu has ordered the government powder factory and small arms ammunition depot to prepare large quantities of ammunition immediately. CONSTANTINOPLE, Aug. 17.—An imperial decree has been issued calling out fifty-two additional battalions of troops (about 52,000 men) from the European provinces of Turkey in consequence of the spread of insurrection in Macedonia. These troops comprise twenty battalions of reserves of the first class from the Adrianople and Salonica army corps. The balance are reserves of the second class.

DIED.

Suddenly at St. Luke's Hospital Wash. Wash. Wilfred J. Tozer aged 31 years second son of Wm. W. Tozer of Williams-town N. B.

LIVE MOOSE.

John Connell and R. H. Armstrong

HAVE CONTRACT

To Capture Live Moose For Newfoundland Government.

Some time ago the Premier of Newfoundland communicated with the Hon. L. J. Twiss with respect to procuring seven live moose from the New Brunswick wilds which were intended for breeding purposes in the ancient colony. Last spring Mr. Armstrong had an interview with the Surveyor General and other members of the local government, and a price for the animals was set, which was accepted by the Newfoundland government. Mr. Armstrong and John Connell were given the contract of capturing these specimens of our forests. They are to be four cows and three bulls.

They expect to begin the order this fall and winter. Mr. Connell is probably the best expert on the work in the province, and has already made some progress in his preparation. In conversation with Mr. Connell it was learned that the deer and deer continue to increase at the rate they have during the past six years, they will become a nuisance to the farmers in the outlying districts. They have become unusually bold and Mr. Connell, who is an enthusiastic amateur photographer has some splendid pictures of these big game. He has succeeded in taking during his tramps through the country.

KING EDWARD ANNOYED

By the Curious Crowds Which Followed him all day.

VICTORIA, Aug. 15.—King Edward's first day at Marlborough, where he came to take the waters, was not particularly pleasant. His majesty expressed great annoyance at the persistent curiosity of the crowds who surrounded him during his walk. The police tried in vain to induce the people to disperse, but the fact they could do was to secure a passage for the king through the throngs.

PRELIMINARY EXAMINATION

The investigation into the Mann murder has been in progress at New Carlisle during the last week and the case for the crown was finished, the defence having chosen not to call their witnesses at present. The charge was made out and all pleaded not guilty. The Murray brothers, Mike, Gerard and Dick, were committed for trial for the murder of Mann at the next term of the criminal court. An effort will be made to have a special session of the court in September, as the next regular session will not take place till January.

TO DAIRYMEN.

Your attention is directed to the unusual by generous prizes for Dairy Products which will be awarded at the Fredericton Exhibition, September 21st to 25th, 1903. Open to the Maritime Provinces. Prize Lists and any further information may be had on application to Mr. W. S. Hooper, Secretary, Fredericton, N. B.

VOTE OF THANKS.

The following vote of thanks, all in pen work by Sisters of Chatham Convent has this week been forwarded to New York. It was in some high grade work as Address to Duke of York on his late visit. The wording was as follows:

At the Annual School Meeting in Douglastown N. B., held June 20th, 1903, the following resolutions were unanimously adopted.

Whereas we, the people of Douglastown N. B. and particularly the younger generation, are indebted and grateful to the Hon. Samuel Adams for a contribution of 500 volumes to our free school library.

Therefore be it resolved, that we hereby tender to our benefactor an expression of our profound gratitude for his kindness in thus placing at our disposition a valuable store house of knowledge, instruction and pleasure.

Further resolved, that we look upon this benefaction as an example of noble impulse and generosity, reflecting additional honor on the already honored name of our philanthropic compatriot, the Hon. Samuel Adams.

NEWCASTLE, AUGUST 19, 1903.

MR. BLAIR ON THE RAILWAY MEASURE.

Mr. Blair's speech on the Grand Trunk bill is one of the events of the session. It is sure to be more fully reported and command more attention than the address of Sir Wilfrid Laurier explaining and defending the measure. Mr. Blair has this advantage over his former leader that he discussed the matter before the house while Sir Wilfrid Laurier delivered an oration on a variety of subjects more or less remotely connected with the subject. Where the premier was vague and rhetorical Mr. Blair was definite and practical. Where Sir Wilfrid was ignorant Mr. Blair produced the facts. When the first minister suggested all sorts of fanciful motives for the government action, Mr. Blair pinned the ministry down to hard substantial reasons. Sir Wilfrid made a hysterical appeal for sudden and swift action without consideration and enquiry. Mr. Blair recommended a study and inquiry into the conditions, and some consideration of the problem before the country is committed to this costly project.

Some of the points made in Mr. Blair's statements and criticism may be thus briefly presented.

The measure has been adopted without knowledge, inquiry or consideration.

There is no crisis, and no condition of affairs which demands such hasty and precipitate action.

Sir Wilfrid's statement that time and tide do not wait means only that Senator Cox cannot wait.

All the first Minister's talk about possible disasters and complications as the result of delay is made because there are no other arguments to support the measure. The danger of the loss of the bonding privilege is a bogey conjured up to frighten the house into accepting a bad contract.

Even if the bonding privileges were taken away we have already two all-Canadian routes from the Atlantic to the Pacific.

The cabinet has adopted this measure without consideration.

The house has not had time to study it.

The country and the press are

How an abscess in the Fallopian Tubes of Mrs. Hollinger was removed without a surgical operation.

"I had an abscess in my side in the fallopian tube (the fallopian tube is a connection of the ovaries). I suffered untold misery and was so weak I could scarcely get around. The sharp burning pains low down in my side were terrible. My physician said there was no help for me unless I would go to the hospital and be operated on. I thought before that I would try Lydia E. Pinkham's Vegetable Compound which, fortunately, I did, and it has made me a stout, healthy woman. My advice to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once."—Mrs. I. S. Hollinger, Stillville, Ohio.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

It would seem by this statement that women would save time and much sickness if they would get Lydia E. Pinkham's Vegetable Compound at once, and also write to Mrs. Pinkham at Lynn, Mass., for special advice. It is free and always helps. No other person can give such helpful advice as Mrs. Pinkham to women who are sick.

not in possession of the information required for intelligent discussion.

In the West there is no demand for such a measure. There the people are unanimously in favor of a railway owned and operated by the government.

In Ontario there is no such demand.

None has come from the east. Senator Cox and the Grand Trunk people are the authors of the demand, of the crisis and of the panic.

The only demand in British Columbia is for railways in the Southern part of the province, hundreds of miles from the proposed route.

The demand in the prairie region is for railways to carry the produce from the settled country to the lakes, and that will not be accomplished by this route.

In Ontario and Quebec the people know nothing of the northern country through which this measure goes. They have never asked for such a road. What is needed is a grain route from the lakes to Montreal and the winter ports, and this the proposed railway does not furnish.

The government ought to extend the Intercolonial to Georgian Bay, which could be done at a trifling cost compared with the proposed expenditure.

The Intercolonial is capable of doing a through business.

The government has spent \$15,000,000 in seven years to make it a transportation route. This policy the government not only abandons, but condemns.

The proposition absolutely wrecks the Intercolonial, and will make government ownership impossible for all time to come.

Running rights over the Grand Trunk railway are impossible. You cannot send a government train thousands of miles over a company railway. No such thing as running rights is known or can be exercised over a long railway, because among other reasons engines must be looked after and cooled, and train crews must be changed and lodged and fed.

If it is sound principle to own your road through the wilderness and unsettled and unknown country, it is equally sound principle to own it in the prairie country.

If some one has a crisis in his pocket he ought to produce it.

The Intercolonial has cost \$70,000,000 and it is now proposed to spend many more millions to destroy it.

Intercolonial earnings have

increased from \$3,000,000 to \$7,000,000 in seven years, and it is now proposed to destroy the whole business.

The session was half through before this plan was evolved.

The proposed route from Lewis to Edmonton cannot be followed. If the government build by the route indicated it will be necessary to slip into United States territory in order to have a line suitable for traffic.

The saving in distance between Quebec and Halifax will not be 120 miles, but only 77 miles. Probably it will be less than that.

If the Grand Trunk Pacific scheme is a success, Moncton will be side-tracked, its workshops deserted, and half the railway men employed there will be dismissed.

Not a single member of the Intercolonial staff has been consulted as to the effect of the scheme on the government line.

If the shortest route to the sea is wanted there is no necessity of building to Moncton. If you are going to give the shortest route do it, if not, say so.

The position of the Canadian winter port nearest to the west has been ignored by the government in the \$100,000,000 transcontinental scheme.

The road to be built by the government from Winnipeg to Moncton will cost \$65,000,000. The guarantees for the rest of the

SPECIAL INFORMATION ABOUT
OGILVIE'S FLOUR.

Ogilvie's Flour is made from the choicest Mount St. Helens Hard Wheat carefully selected by Ogilvie buyers through the Ogilvie system of grain warehouses, one hundred in number. Ogilvie's Flour contains the largest proportion of gluten and phosphates of any flour manufactured in America. Baked alone, it gives the largest possible returns in bread of the best quality. Bakers who are using it say that, compared with other flours, it is the best and cheapest that they can use.

Every banana plantation in the eastern half of the island has been devastated. The situation in the western half is unknown. Considerable injury was done to property in Kingston and the suburbs. The roof of the electric light works was blown off and the machinery, was disabled. Traffic was interrupted and the street cars were stopped, and many houses damaged by falling trees. No loss of life is yet reported.

New York, Aug. 12—The Commercial Cable today announced the restoration of communication with Jamaica by way of Bermuda.

MOTHERS DO NOT FAIL TO SEE that you obtain the original and genuine McLean's Vegetable Worm Syrup—safe, pleasant and effective at all times. At all reliable dealers. Do not be deceived; obtain the reliable McLean's Vegetable Worm Syrup.

Husband—I wish I could borrow some money to tide me over.

Wife—Well, haven't you lots of friends?

Oh, yes. But they don't know yet that I need the money.

Mrs. Tower—Frankly, John Tower, I think you are the meanest man I ever saw.

Mr. Tower—I wouldn't say that, Gustv. you know you've said hundreds of times that you have been the making of me.

THE REASONABLE PROPOSAL.

Some of Hon. Mr. Blair's newspaper critics have sought to create the impression that he stands opposed to any further railroad construction under any circumstances, and have otherwise distorted his speech. The former Minister of Railways believes in building as rapidly as the necessities of a country demand, but he would first be sure that the new construction is planned according to sound business principles and in the best interests of the country which is to pledge its credit to meet the bills. He appealed to the calm reason of the people. His speech was constructive as well as destructive. To quote one passage:

"Now, Sir, my proposition is this: We ought to have come before parliament as a government, and we ought to have said to parliament and to the country: We are favorably impressed with the importance of the early construction of another transcontinental railway; but, as business men, as prudent and cautious men, we think that the proper course for us to take is to get an appropriation from parliament in order that this whole country which is proposed the railway shall traverse in so far as it has not been officially explored, and in so far as we have not been made familiar with its conditions, shall be ascertained and made known to the people of Canada, laid before parliament at a later day; and then if these reports are favorable it is our fixed purpose to ask parliament to justify us and authorize us to go along with railway construction in that territory. My idea would be that we should go as far as we could reasonably and as the necessities would justify, and when we got through that we should then call a halt until the necessity arose for further extension through the western country. We would have our officials on the alert and they would see when the growing needs and prospects of the country would justify a further extension, and when that time came, then if nobody else entertained it, and even if they did, my idea would be that we should continue our road along; go right along through; go along just as required to do it in the true interest of the country. Then this discussion, which I have said was so necessary, would have taken place. The public press would take the project up; the public platform might perhaps be used to some extent, parliament would discuss the matter in all its bearings, and you would get the ideas of the people as to whether government ownership and government operation, or company ownership and company operation would be the most desirable, and the arguments would be brought pro and con and you would have the people of Canada put in possession of all the facts of the scheme which was to be adopted before they were irrevocably committed to its adoption."

What practical man is prepared to say the foregoing proposal is not reasonable? The delay advised is in no sense formidable. It can impart no interest of importance. It is in the interests of Canada and of the

Liberal party. It may not be welcome to the railroad promoters, but, in theory at least, the plan is to build for the people, not the promoters.—Telegraph.

THE THRILL OF EMPIRE.

Mr. A. R. Colquhoun has an article in the North American Review on Mr. Chamberlain's new fiscal policy from which we take the following extract as making a new suggestion to account for the Colonial Secretary's pronouncement:

"The Colonial Secretary has always stood to his fellow Britons, admirers or detractors, as the type of audacious, successful and not too scrupulous cleverness. He has, moreover, acquired a reputation for backbone which has commended him to men in the Colonial service, who had suffered from the waddling of previous chiefs, and in the same way to the unconventional and daring Colonials in all quarters, who have no sympathy with kid-glove diplomatism. There is good reason to believe that Mr. Chamberlain counted on this reputation when he took the bit between his teeth and made the announcements which have plunged the whole country into confusion; but this motive for acting as he has done seems to me to be simpler than is usually supposed. He has been so long credited with Machiavellian designs that even some of his quondam supporters, who condemn his action as a tactical mistake, are casting around for some deep-laid scheme in connection with it.

"My own belief is, that Mr. Chamberlain has fallen under a spell which all of us who know Great Britain at first hand must feel, sooner or later. For some time, his connection with Colonial affairs had been modifying his views on many matters; but a visit, even a brief one, to the 'illimitable veldt' came as a vivifying flash to his brain. The change of focus in his views of which he spoke in one of his speeches, is a thing many of us have felt. Downing Street ceased to be the centre of the universe and became a mere dot on the horizon of Empire. Those of us who have breathed this wider atmosphere can appreciate the difference it made to a man ripe with experience of Colonial affairs, able to read into the whole the spirit of a single part. We see, therefore, no longer the taciturn, adroit, successful party leader, but the statesman with a great idea, ready to stake all on a single throw; for there can be no doubt that on this issue will depend Mr. Chamberlain's future career.

"There is, of course, a half-expressed thought in the minds of many of the opponents of the new proposal, even if—a very big 'if'—we lose the self-governing Colonies, what will it matter? We shall still be an Empire, with India, the Crown Colonies, our world-wide trade and our unrivalled navy. It is difficult for me to enter into the spirit of this contention, perhaps because I have lived so much on the fringes of our Empire, and have always felt myself integrally a part of the whole, that I cannot imagine Britain as a more successful Spain, a richer Holland. And I look to our overseas dominions as the nurseries of our race, as the heritage of our children, who will, I think, be immeasurably the losers, if the fact which drives them from this overcrowded Island forbids them to live in white man's countries under the British flag.

"My hair nearly all came out. I then tried Ayer's Hair Vigor and only a few hairs came out. Now my hair is growing again. I feel a little better."—Mrs. L. M. Smith, Boston, N. B.

Thick Hair

"For this reason, and because I am convinced that we need a new policy to rectify our Empire, a new bond to bind it closer, and a new spirit to animate the whole British people, overseas and at home, I welcome Mr. Chamberlain's proposals. In the inquiry which has already begun, we shall take stock of our Empire, we shall learn how we really stand and what our possibilities are."—Halifax Chronicle.

THE RAILWAY PROJECT.

The debate on the transcontinental railway project of the government clearly develops that the House of Commons is in favor of the scheme. Even the opposition speakers do not dispute the need for another railway so much as they criticize details. If the government plan had been to have a road built only from the western terminus of the Grand Trunk to the prairie wheat fields, the opposition would have been busily engaged demonstrating that all grain which would be brought out of the West would go to Portland. The scheme devised by the administration to bring the grain and other products to Maritime Province ports in winter finds no sympathy with the opposition, but their criticisms are largely an effort to demonstrate that the government should do something definite in regard to route. Appeals are made to sectionalism, and the attempt is made to show that if some other route than a short direct route was chosen it would be "much better." In the meantime public opinion is steadily growing throughout Canada in favor of the undertaking. It is to be expected that in a great measure of the kind there will be opposition to some details, but these do not affect the general principle. There are many persons since the ex-Minister of Railways promulgated the view at Vancouver that one other transcontinental railway will be necessary and that middle aged men might live to see three or four such lines, who have become full believers in that doctrine. That such a vast undertaking cannot be carried out without some difficulty and with some difference of opinion as to methods goes for the saying of it.—Globe.

WASTE OF WATER.

At the present time altogether too much water is being used in the town of Newcastle. Now this is hardly correct, it is being misused. With not one hundred connections, and the most of them for only one tap, the pump at the power house has to pump about 60,000 gallons of water every twenty-four hours, or over 600 gallons of water per connection per day. Why this wilful waste? It seems that our citizens do not realize that it costs dollars and cents to pump this water and the more they waste the more it will cost to run and maintain the service.

If this much water is used now what will be the consumption when the cold sets in. In looking at some of the connections made this summer we notice some that have no protection from the frost, the pipe coming out of the ground under buildings

which have no basements. How are these to be prevented from freezing unless they are allowed to run. An inspector should be appointed at once, one who understands plumbing, etc., and who does not want too high wages, whose duty it shall be to inspect all such places, and see that the bye-laws regulating the use of water are adhered to.

If a few examples were made of offenders it would serve as a wholesome lesson to others.

Where the Ladies Propose. Between the mountains of India and Persia is a powerful tribe, among whom an extraordinary custom prevails. Women's rights have apparently received full recognition, for the ladies of the tribe can choose their own husbands. All a single woman has to do when she wishes to change her state is to send a servant to pick a handkerchief to the hat of the man on whom her fancy lights, and he is obliged to marry her, unless he can show that he is too poor to purchase her at the price her father requires.

Not a Student of Form. Teacher—Willie, if one horse can run a mile in two minutes and another horse can do it in three minutes how far apart will they be at the end of eight miles? Willie—Madam, I was brought up strictly. Above all things, my parents have warned me to avoid horse racing. Consequently I cannot answer your question.

Those Educated Sandwiches. College idiot (in the lunch room)—There's one good thing I can say about these sandwiches. Kibol Friend—What's that? College idiot—That they're college bread.

One of the most important things in the education of a boy is that he should learn to keep his lips together.—Boston Globe.

Live with the wolves, and you will learn to howl.—Spanish Proverb.

An Exception. "Do you believe," asked young Dunderbush, who is only five feet tall, "that brevity is the soul of wit?" "Not in your case," replied Miss Bif-fington in a tone redolent with acrimony.

Sympathy. Missionary—Our situation was so remote that for a whole year my wife never saw a white face but my own. Sympathetic Young Woman—Oh, poor thing!

A GRAND Bazaar & Fancy Fair

Will be held by the congregation of St. Michael's Pro-Cathedral, Chatham in the

Johnson House and Grounds, From Tuesday, Aug. 11th, till

Monday, Aug. 24th. To aid in providing funds for the New Cathedral, to be erected in order to meet the pressing need for larger Church Accommodation. It will also be a memorial of the late venerated Bishop Rogers, who for more than forty years ruled the Diocese so well.

The Bazaar will be open each day from 5 o'clock until 10 o'clock, except the first and last days, when it will be open from 2 o'clock.

Useful and fancy articles will be on sale at the different tables during the Bazaar. Refreshments, suitable to the season, will be on hand. Amusements and games of all kinds, tea each evening from 5 o'clock. The band of St. Michael's C. T. A. Society will attend each evening. Admission 10 cents. There will be entrances to the grounds from St. John and Canard streets.

For Sale.

Farm of one hundred acres, house and barn thereon, situated in Protectionville, Parish of North Ek. Apply to Wm. CAMPBELL, C. I. Road.

There is a SOMETHING about VIM TEA that is to be found in no other tea so said a Saint John lady to a grocer the other day. She did not know exactly what or how to describe the difference only there was something VIM TEA had that other teas lacked. That something was a little more quality

The Country.

An Epitome of Events
Gathered by
ADVOCATE Reporters

UPPER BLACKVILLE.

On Sunday afternoon, the 9th instant, after an illness extending over a year, Mr. Eljah Arbeau died peacefully at his home here. Mr. Arbeau was about 77 of age and was respected by all who knew him to which the largely attended funeral bore evidence.

Haying is nearly completed here, and every farmer reports an unusual heavy crop. There will be about one hundred tons of hay for sale here, and of a quality unsurpassed.

The board and cedar fence enclosing churchyard has been removed and replaced with a new one, resulting in vast improvement to appearance of church and surroundings. Much credit is due to Mr. Joseph Arbeau and William Donald, who collected the funds, and to the people contributing so liberally.

The trustees of our school board have not been able to obtain a teacher for the present term but are yet on the trail of one.

Mr. and Mrs. B. F. Duffly and family who have been visiting at their former home here started for their home in Montana last Monday.

A gay driving party comprised of about sixteen of the best looking boys and girls of Blackville drove on Monday evening and spent an enjoyable three hours' call on Miss Jennie Dunphy. Unfortunately a tame elephant belonging to the party was lost. We hope they will favor our town with another call.

WHITNEYVILLE.

Quite a number of the men have gone to the Mondays to work at their hay, but owing to rainy weather, are not progressing very rapidly.

The schools opened again on Wednesday. We hope the pupils feel much refreshed after their vacation and are anxious to resume their studies. Miss Stella O'Shea has charge of Whitneyville school, Miss McRae at Allison, and Miss Edgcombe at Redbank. We wish them every success.

Mr. W. J. Forsythe paid a flying visit to Millerton last Sunday evening.

Miss Maud Menzies who was visiting friends in Nelson, returned home.

Mr. W. L. Steeves of Salisbury preached a very interesting sermon from Daniel V. 27 last Wednesday evening. He is in company with Mr. G. H. Beaman holding services in Derby, and we understand much good is being done.

Miss Ida Whitney is spending her vacation at her home here.

Miss Mabel Clouston, Derby, was the guest of Miss Lillian Forsythe, on Wednesday last.

We are pleased to hear that Mrs. A. Forsythe is improving.

POKESHAW.

POKESHAW, Aug. 14.—There not being any correspondence from here I thought I would try and send a few of the most important happenings, hoping you will excuse my first literary effort as I hope to improve by practice.

Haymaking is progressing rapidly weather being almost perfect. Hay is not a heavy crop but is a fine quality. All other crops are looking good.

Miss Maud Satter has started a store for W. S. Leggie & Co., at St. Joseph's. Blue jeans will be the principle trade there and as A. & R. Leggie have also opened a store, there is no doubt but that as usual there will be competition with Miss Satter will have the greater amount of trade as she seems a favorite with all.

John Frey and two children have been visiting at Mr. Foley's old home here for some time. Mr. Foley has made his home in Wisconsin and appears to have been prosperous.

Mr. and Mrs. Finlay Forsythe drove to Grand Anse Sunday.

Lombard and Co. have opened a new Grindstone quarry at Grand Anse and hopes are entertained that it will prove better than the old one.

Work on the new R. C. church at Grand Anse still continues but it does not seem to be progressing as rapidly as last summer.

Rev. S. J. Duncanson has been absent from Grand Anse last week.

LOST.

A ladies' black cloth coat lost between Thos. Power, Derby, and M. Jardine's, Northesk. Finder will confer a favor by leaving at the

ADVOCATE OFFICE,
1st p.d. Newcastle.

BATHURST.

The weather during the past week has been very uncertain, so much so that in most districts of the North Shore farmers have had considerable difficulty with their hay, although fortunately the bulk of it was stored in the barns before the weather broke and the general report is that there will be quite sufficient good hay in the county for the needs of the consumers including the large lumbering concerns who use more generally than the district can produce.

The grain and root crops are doing finely in Gloucester county. The new potato show on the market being of superior quality and fairly plentiful.

As previously reported the heavy storms in the latter part of July practically put the outside salmon fishermen out of business, and the angling season for salmon closed on Saturday, fifteenth instant. Consequently salmon fishery is over for this season. We may mention that the appeal of the coast fishermen to the minister of Marine and Fisheries against the decision of the Magistrate on the recent cases for alleged violation of the Sunday closing regulations, &c., has resulted in the quashing of the prosecution so far. The net fishermen naturally feel very much elated over their success, although no doubt they are all considerably out of pocket for legal advice, etc., as well as for loss of time in attending the trials, procuring evidence and other incidental matters.

Considerable interest, particularly among our Acadian population, at present centers on the meeting to be held in Carleton this week.

It was reported that for St. Wilfrid Laurier and other prominent politicians from Ottawa would be at Carleton for the occasion, but there seems to be some doubt at present as to whether those gentlemen can attend or not. It is said, however, that there will certainly be some good speakers present. A large number from the parishes of Bedford and Bathurst are leaving for Carleton by special train provided by the Carleton railway and by private teams. No doubt there will be a great number of people at the meeting.

The mills at Bathurst are doing first rate work and shipments of lumber are being procured with very rapidity. Up to date the following vessels have cleared: June 2nd S. S. Helberg; July 2nd, S. S. Dora; July 7th, S. S. St. Vincent; July 9th, Barkentine Birtha and Sarrant; July 24th, S. S. Hedvig; July 31st, S. S. City of Belfast; Aug. 8th, S. S. Sigfred; Aug. 7th, S. S. Ida; Aug. 15th, Barkentine Otto. Besides these, two of the above have again returned from England for a second cargo, and there are three other large vessels in port, making five. This makes good times for the working men, in fact the laborers for mill work and vessel loading are in demand in Bathurst this summer, and by present appearances will be until the season is over. Already, however, we hear much talk of lumbering operations for the coming winter, and soon it will be time for cruising out chances or places in which to plant the larger camps and crews. What a great industry our lumbering is, and how little we, who have lived among it all our lives realize of what importance it is to our people, and how much we owe to it. There is no doubt but that it is and has been for all kinds in New Brunswick.

The death of Reginald McDonald, son of Senator MacDonald, and lately manager of the Peoples Bank of Halifax in Bathurst, which occurred in Montreal last Monday, was a great shock to hosts of friends in Bathurst and Gloucester county generally. The late Mr. McDonald was a splendid young man, in fact, one of more an ordinary promise. Coming as a stranger to Bathurst he by his general disposition and straight forward business ability made friends with everyone who met him either in business or socially. It was at once seen that while he had the interests of the institution who as officer he was, thoroughly of heart, still he wished to do all he possibly could for his customers. Ever ready for anything in the shape of other social pleasure he endeavored himself to the people of the community. Old and young, rich and poor will mourn the loss of what promised to be one of the brightest business men we have had in Bathurst. Mr. McDonald married a daughter of the late J. M. Mallin, for many years manager at Bathurst for the late Sir John Poirer, and the young lady recently made a widow has the sympathy of the entire community.

Mr. Henry White, uncle of M. McDonald and other friends from Bathurst attended the funeral which took place in Charlottetown, P. E. I., on Thursday.

Doctor Gordon Duncan, of Bathurst Village, met with a painful accident last week. The doctor was instructing a new servant man in the art of mowing, and while the man made the first sweep with the scythe, the scythe did not get away from him quickly enough and was cut very badly just above the knee. The wound was dressed by Dr. G. M. Duncan, the doctor's father, and probably Dr. Gordon will be able to attend to his regular business in a short time.

A promising young man named Norman Davis, of Truro, who has been attending to his father's business, was examined by Doctor Bishop a few days ago and his friends decided that it would be better to have him sent to the Lunatic Asylum in St. John. It is hoped the man may be cured temporarily and that the young man, who was a general favorite, may be able to return to his friends completely cured.

Mr. F. W. Bishop, of Boston, who has been spending his holidays at his old home, Bathurst, has returned to his duties in the city.

Mr. Homer Forbes, of St. John, is visiting Mr. and Mrs. Ernest Blair.

Miss Kaye, of St. John, is visiting Mr. and Mrs. A. Norman DeBrisay.

Miss Evans of Montreal (nee Miss Maud Bishop) who has been spending several weeks in Bathurst, returned to Montreal last week.

Mr. Robert Bishop, of Boston, is visiting friends in Bathurst and renewing acquaintance with many old friends.

M. S. W. E. Stewart of St. John, and Mr. and Mrs. Arthur of Newcastle, were registered at the Robertson House on Saturday last.

Mr. Freeman Galtier, who has, during the past year, done considerable lumbering in Gloucester, has returned from his home here in Albert County, bringing Mrs. Galtier and their daughter with him. They are at present staying at the Robertson House.

Messrs. George Gilbert and Sydney DesRivais of Petit Rocher, spent a few days last week salmon fishing on the Nepisiguit, camping at the Pabreux Falls. Their friends are gratified over the distribution of the fish, which did not take place as promised.

Yesterday morning, at the Cathedral of the Immaculate Conception, the Rev. C. P. Carleton united in marriage Dr. Philip Cox, of Chatham, and Miss Jennie M. Mowatt, daughter of Johnson Mowatt of this city. The groom was supported by his brother, Edward Cox, of Margerville. The bride was becomingly attired in a traveling costume of grey cloth, with white hat, yellow and black trimmings. The bridesmaid, Miss Julia Lawlor, was gowned in grey voile, and hat to match with pale blue trimmings. Dr. and Mrs. Cox will tour Nova Scotia before taking up their residence in Chatham.—Telegraph, Aug. 13th.

There will be sold at PUBLIC AUCTION in front of the Post Office in the Town of Bathurst in the County of Northumberland on Friday, the first day of August, instant, at 12 o'clock noon, all the prize or unmarked logs at North West Boom.

Dated this 10th day of August, 1903.
GEORGE BURCHELL,
President North West Boom Co.

I. H. PHINNEY,
Newcastle.

No Vacations

Because of cool summers, High position open to Sea Breezes, Perfect Ventilation, Study is just as pleasant now as in winter. Students can enter at any time.

S. KERR & SON

A PAGE OF INTEREST TO FARMERS.

THE FIGHT WITH WEEDS

We read in Grecian mythology of a contest between Hercules and the giant Antaeus, son of Mother Earth, and famed for his strength and skill in wrestling. Although Hercules was able to throw his antagonist to the ground, from each fall Antaeus would rise from mother earth stronger than before. Hercules finally killed him by lifting him from the ground and squeezing him to death. The struggle of the farmers to free his field from the domination of noxious weeds has been appropriately likened to that of the Greek fable. Everyone who is interested in agriculture knows well the great extent to which weeds exist in our cultivated lands. Hitherto our farmers have been about as successful in their fight against weeds as Hercules was in the earlier stages of his contest with Antaeus. They have been fighting away blindly, treating all kind of weeds in the same way with the result that some weeds killed, some are merely kept in check, and some flourish and increase. If they are ever to be eradicated entirely, their habits of growth, their strong and weak points must be studied by the cultivators of the soil, even as Hercules studied the weakness of his adversary.

During the last year or two a great deal has been done by the agricultural departments through the medium of newspapers, bulletins and agricultural meetings to disseminate information on this subject. The process of education however, is necessarily slow, and it seems to be the general opinion of progressive farmers institute meetings all over the country, that the time has come when a herculean effort must be made to lift this giant of weed domination from the earth and destroy it. This is why the bill regarding the inspection and sale of seeds, recently introduced by the Hon. Sydney Fisher was pronounced by Mr. Girard of the Department of Agriculture as the best of the kind.

with the evil. The proposed bill which required that seeds offered for sale be tested for purity and vitality and graded according to quality, has the result of two years careful study, and he did not think it would interfere with legitimate trade. However, he was desirous of having the details threshed out in committee and was quite willing to accept such amendments as the House might deem desirable. In the course of the discussion member after member, Conservative as well as Liberal, spoke of the seriousness of the weed problem and expressed approval of the principle of the bill.

About the only objections to the principle of the bill were raised by one or two members who seemed to have no practical knowledge of agriculture and who failed to realize the gravity of the subject. The details of the proposed legislation came in for considerable criticism, which was to be expected, in view of the fact that it is based upon the systems of seed control which have proved successful in other countries and with which few of the members appeared to be familiar. It was pointed out by Mr. Ross, Ontario, that as this year's crop of seed will be harvested, threshed, and in the market for sale at an early date, it would be impossible for the trade to offer seed such as the bill called for by the first of September, the date specified in the bill. The Minister of Agriculture and the Committee generally agreed with this view, and concluded that it would not be advisable to bring the bill into operation until next year. A similar procedure was followed in the case of the Fruit Marks Act, the details of which were rather severely criticised on its introduction, but which time has shown to be of inestimable benefit to the fruit interests of Canada.

Before the committee arose to report progress the Minister of Agriculture summed up the results of the debate in the following language:

I think I have accomplished what I had hoped for in the discussion. I have had the advantage of the opinion of the members of the house which I asked for when I first introduced the Bill in committee. I am sure that these opinions and the discussion which has arisen here will assist very much in the perfecting of the law. If its passage is delayed for another year, the discussions which have taken place this session will not be lost by any means. I trust that as a consequence of the discussion the people who are interested in the seed trade, the purchaser, the men who handle and the sellers who grade the seeds, will study the proposed law, and will give the benefit of that study, and I trust that, as a result of all this, the law will be more perfect than it could otherwise have been made on a first attempt at legislation of this kind.

Then Mr. Bruce of Hamilton the well known seaman and a member of the opposition, closed the debate with the following words of tribute to the spirit in which the subject has been handled by the Minister: I desire to thank the hon. Minister of Agriculture for the painstaking and careful way in which he has listened to every suggestion that has been offered.

SLOYD SCHOOLS.

A feature in connection with the Fredericton exhibition which is already creating considerable interest, is the competition open to scholars attending manual training (Sloyd) schools in the maritime provinces. Valuable gold and silver medals will be awarded for the best work in the various grades. Prize lists containing all particulars may be had upon application to W. S. Hooper, secretary, Fredericton.

Worse to Come.
Mr. Nag—Well, I won't dig up the past, Matilda, because it's disagreeable.
Mrs. Nag—No, and you'd better not look into the future either, or you'll find that a great deal more disagreeable.

Who Knows This Man?
"Oh, he is a born debater!" said one friend to another the other day. "There is nothing he likes better than an argument. He won't even eat anything that agrees with him."—London Tit-Bits.

The art of saying appropriate words in a kindly way is one that never goes out of fashion and is within the reach of the humblest—Faber.

A BREAK OF NATURE.

Wonderful Travelling Sand Hills That Are Found in Peru.

After passing another "town" of three or four mud huts we enter the famous desert of Islay, on which are what I consider the most remarkable natural curiosities to be seen on this globe, for we are now among hundreds—nay, thousands—of pure white sand crescents on a plateau of 4500 feet above the level of the sea and fifty-four miles from the coast, where all else is of a dark red or chocolate color. Whence comes this sand and why always in a crescent shape? Professor Bailey told me that scientific men do not agree as to the reason why the sand always forms the same crescent shape, although it is generally believed that the whirling eddies hereabout are responsible. Some, however, argue that this is not the case since each of these crescents has an opening toward the northeast. At any rate, the inner circle is an almost perpendicular wall of the finest pure white sand, and from the upper edges the crescents slope gradually away on the outside. They average about twenty feet in height, the inner circle having a diameter of some fifty feet, although I have seen one at least a mile and a half in diameter, which was, however, not much higher than the average. These crescents move, it is estimated, at the rate of three inches every twenty-four hours, and when on the slow journey one comes near the railroad it becomes necessary to shovel the sand across the tracks, after which it travels on, forming new crescents or mingling with some of the others.—Ernest C. Root in Harper's Magazine.

Dwellers in the Ice.

The Eskimoes, or "Arctic Highlanders" of Ross, live in ice caves within the vast glacier cap which covers all northern Greenland. Theirs is perhaps the most wretched and isolated existence it is possible to conceive.

Their "dwellings" are always wet, owing to the melting of the ice walls and floor. For full six months of the year the darkness of the arctic night envelops them. The ice is around them, beneath them, above them. In nine cases out of ten if they venture abroad they breathe the frozen particles, and the sensation is akin to that which comes from inhaling the blast of a furnace.

Nevertheless they refuse to move farther south with the approach of winter, as do all the other Eskimo tribes. They take a sort of perverse pride in their loneliness as in their misery. "What matter," they say, "if we are cold and hungry? We are the last of all peoples. We dwell literally at the end of the world. To the north of us there is snow, there is ice, but there is no land, and there is nothing that lives, breathes or has independent movement."—Pearson's.

Dumas the Prolifer.

"As a rule, I do not begin a book until it is finished," the clever Dumas used often to say. And certainly the pace at which he put his works on paper seems to bear out the statement. No fewer than sixty volumes of his appeared within a single year, a record probably never equaled before or since.

On one occasion he made a wager of \$100 that he would write the first volume of a new book he had planned within seventy-two hours, including the time for meals and sleep. The work was to occupy seventy-five large foolscap pages, each page containing forty-five lines and each line fifty letters—a total of 3,375 lines. He won the bet with ridiculous ease, accomplishing the task in six hours less than the specified time.

Flowers That Harm the Sick.

Botanists and others who have made a life study of flowers have recently discovered that the perfume of blossoms is often increased by growing them under colored glass. They state also that some plants are fragrant only at night and others only in the hot sunshine, that the season affects the odors and that some perfumes powerfully affect the human organization, sometimes giving rise to serious nervous troubles. Flowers of delicate perfume quiet the nerves of invalids, it is asserted, but the violet, lily of the valley and carnations are really harmful to the sick.

Plausible.

"What's the derivation of the word 'college'?"
"I give it up."
"But surely the word must mean something."
"Oh, I guess it was just faked up by some poet who needed a rhyme for 'knowledge'."

Nature's Remedy for Diarrhoea

and all Summer Complaints in Children and Adults.

FULLER'S BLACKBERRY CORDIAL

Price, 25 cents

THE BAIRD COY., Limited
PROPRIETORS
WOODSTOCK, N.B.

Two brothers went to the same school. They were absent about a fortnight and then one returned alone.

Where is your brother Thomas?

He—Sir, he's laid up with a sprained arm. We were trying to see which could lean out of the window farthest, and Tommy won.

Did Biggs have any luck hunting lions in Africa?

Yes. Great luck.

How?

Didn't meet any.

She—Certainly you have some friends.

He—Yes, but it takes every cent I can rake and scrape.

The lessons of life are lost if they do not impress us with the necessity of making ample allowances for the immature conclusions of others.

Mr. Soulsave—Don't you know you oughtn't to be fishing here on the Sabbath?

Johnny—I know it. I'm a darn fool. They ain't bitin'.

We collected a hundred dollars at our church last Sunday for the leprosy.

Dat's jes mah luck. I done not converted two weeks ago.

And so this is your gymnasium? asked the guest. "And where are your gymnastic appliances?"

I don't need any, was the reply. I find that I get all the exercise I need just getting into and out of my athletic suits.

Do you believe that old numbers are lucky?

Well, I'd rather be the father of twins than triplets.

What, inquired the psychological student, do you regard as the chief end of man? Well, answered Mr. Blykins, it depends on what you want the man for. If you want him to do brain work it's his head; but if you want him to run errands it's his feet.

A Famous New York Bank.

Early last century a charter was granted a company to set up a chemical works in New York, and in consideration of the boon these works would be a clause was added granting banking privileges. The astute men at the head of the concern saw possibilities of development on banking lines not apparent in the manufacture of chemicals and decided to make the business a banking one. To retain the privilege, however, it was necessary to manufacture chemicals, and so then, as today, an admirable pretense was made of doing this. In the fine establishment of the great Chemical National bank on Broadway a little shop is apportioned to a manufacturing chemist, who potters about mixing ingredients. He is not much troubled with business, but now and again a New York citizen will startle a visitor by taking him into this fine bank and asking for a dime's worth of castor oil—which is supplied. This was the only bank which did not suspend specie payments during the civil war.

Military Geese.

Even the geese in Germany march with military precision, which may be the reason why the famous drill style of the German infantry is called the "goose step." A writer in Travel thus describes the great goose armies which are so interesting to the health seekers at Bad-Naubeum:

"It is worth while to go to Ober-Moeren at 6 o'clock in the afternoon to see these geese returning home from the fields. The village is white with them; hundreds and thousands, regiments and brigades of geese, marching along with military precision. As they near home they separate of their own accord; sixteen to the right, twelve to the left, a detachment up a lane, and so on—all quacking loudly, but bearing themselves with that keen sense of order and discipline which distinguishes the waterland."

Why Corn Pops.

Finally a scientific sharp comes to our rescue and in science explains the phenomenon of the popping of popcorn in an extremely lucid and interesting manner. The learned gentleman says:

"The starch polygons are of such nature and construction as to facilitate expansion and render it explosive in character. There is a fracture of a particle along its two radii, the endosperm swelling very considerably, the peripheral portions cohering with the hull, but the fractured quarters turning back to meet below the embryo."

And there you are. Deliciously simple, isn't it?

The WHIRL of the TOWN

SUBSCRIBERS will kindly watch the date opposite their names on the **ADVOCATE** each week, for two reasons—to note when they are in arrears, and help the Publishers by paying up promptly, and when paid up to see that the date is changed.

The Advocate from now until Jan 1th for 25 cents.

A few pairs of boys' sneakers only 50c. at McMillan's Shoe Store.

Don't forget the picnic on St. Mary's church grounds to-day.

It's easier than writing letters. Send the Advocate to your friends, 25 cents to Jan 1th.

Mrs. Chas. Sargeant has been appointed organist of St. Andrew's church, Chatham, and entered upon her duties Sunday last.

Boys' and Misses' wigmans only 50c. a pair at McMillan's Shoe Store.

We have a quantity of odd ends of paper in pads of hundreds at 10 cents a pound. Just the thing for office scribbling pads.

Soiree and Electrical display at the picnic to-night. Don't miss them.

The grand Bazaar and Fancy Fair opened in Chatham yesterday and will continue the balance of this week. Read adv. in another column for particulars.

Messrs F. P. Yorton, A. E. Shaw and O. N. Brown spent a day at the Big Hole last week and had good sport, catching three grise and a salmon.

The death of Catherine Scott took place at her residence Southesk a Sunday. The funeral was yesterday at 2 o'clock, interment being in St. James' cemetery.

The Steamer Rustler will make a special trip to Church Point for the benefit of the people of the Northwest. Boat will leave Redbank at 6.30 o'clock Saturday morning if it is fine and return in the evening.

Next Wednesday, Aug 26th is the date set for the picnic at Renous. This is a date we all should keep in mind if we care to spend an enjoyable day in the country. A special train will leave Newcastle in the morning returning at night. See adv. for particulars.

So many people last spring took advantage of our trial subscription to the Advocate that we have decided to again make those already a regular reader of the Advocate this will give you an opportunity of trying it for the balance of the year. One of the conditions of these trial subscriptions is that they will be promptly discontinued when the time expires unless they have previously been renewed.

A meeting of some well known citizens, and others from Newcastle, Doaktown, etc. was held in the hall of St. Andrew's church on Tuesday evening, to discuss the desirability of organizing a Y. M. C. A. at various centres throughout the county. Mr. Thomas Clarke was called to the chair. Mr. Fraser Marshall, Maritime Secretary was present to represent the Maritime reunion. After a long and free discussion, it was resolved to organize Northumberland county and a large and representative committee appointed to attend to the necessary details and report to a general meeting. The Chatham members of the committee are: Rev. D. Henderson, Mr. W. B. Snowball and Mr. A. F. Bentley.—World.

The sad news of the death of Mr. Alexander Brown was received in Chatham on Thursday. Mr. Brown had not been well for the past seven or eight months and went to Montreal two weeks ago, for medical advice. An operation was decided upon, and performed on Wednesday at the Victoria Hospital, at that city. He died at 3 o'clock the following morning. The remains arrived here Friday morning. The deceased was well known and highly esteemed by a large circle of friends. He ceased was a member of the firm of Brown Bros., which, some years ago, conducted an extensive hardware business in Water St. Mrs. Brown (a daughter of Dr. John S. Benson), and two children survive, for whom much sympathy is felt by the community.—World.

Schools reopen one week from today.

Ladies' Dongola Kid Slippers only \$1.00 per pair at McMillan's.

Messrs. Miller Bros. have the foundation of the new building completed.

Another span has been successfully placed in the Southwest bridge.

Dinner and supper served at St. Mary's church grounds to-day.

WANTED.—A smart boy about 16 years of age to learn the printing business. Must have a fair education.

The moonlight excursion on the Rustler last Thursday evening was very largely attended. A pleasant sail was enjoyed.

Messrs. Steeves and Beaman are holding special evangelistic services in the Baptist Church each evening this week at 7.30.

The Newcastle Division and friends are planning to hold a picnic to Bay du Vin on Labor day.

The government cutter Brant, Capt. Kenny, which is inspecting lighthouses and buoys spent Sunday here.

The county of Kent, for the first time in eighteen months, is entirely free from smallpox. The last house in quarantine was released by the board of health on Monday.

The result of Friday's combat for the championship of the world, between Jeffries and Corbett, resulted in a victory for Jeffries in ten rounds.

The first Harvesters excursion will leave for the West this week. We hear of a number of our young men who have decided to take the trip.

Forms close for our illustrated edition the latter part of this week. If you have not already decided to have your advertisement among the announcements of wide awake business men do so at once.

Why will correspondents neglect to sign their communications. We have received an interesting budget of news from Church Point but as there is no name attached they have been consigned to the waste basket.

Mr. John McKeen has received a letter from H. Price Webber to secure a hall for his company to show in here about the middle of November. We trust that the new hall will be ready for that date and that Mr. Webber will open it as he did the Masonic hall some thirty years ago. Mr. Webber's many friends will be glad to learn that he intends to visit Newcastle again.

We notice that a light has been placed at the junction of the street and ally running by and to the rear of the Express office. This was much needed. Another dark ally is that running from Castle Street through to Henry, near the residence of Mrs. Park. A light placed in that ally would be much appreciated by residents in that quarter.

A special meeting of the Edmonston Presbyterian church Tuesday for the ordination of two Candidates for the ministry. A. M. Ross for Belmont, Sturgeon district and W. J. Johnston, B. A. for Riviere qui Parle district.—Edmonston Bulletin.

Some of the fish dealers resent our remarks in reference to the catching of grise and their shipment to U. S. markets. They claim that no such fish were caught in the tidal waters of the North or Southwest, and that they never ship grises as they spoil so quickly. This may be true but we are confident that large numbers of grise were caught, and were offered for sale here in town.

Newcastle was favored with two band concerts last week. Tuesday evening the Orange band played a lengthy programme. This was the first time Mr. Howard Cassidy, cornet soloist, publicly used his new silver Besson cornet and the tone proved true and clear. A concert solo by Mr. Cassidy was finely rendered.

Friday evening the C. M. B. A. band played and a large crowd listened attentively. The music was much enjoyed.

READ STATEMENT FIRST CLASS TEETH BIG SET

Dental Notice.

Dr. Cates, Dentist, owing to the increased business at his home office will be obliged to visit his Newcastle branch office every three months beginning with September next 26th to last, also DECEMBER, MARCH, JULY, and SEPTEMBER, on the same dates. I will make a DISCOUNT OF 20 PER CENT ON ALL DENTAL WORK. Set of teeth \$10.00 etc. Will pay patients to wait for first class dental work that has been tested and proven for the last twenty years on the Miramichi. Long experience and ample proofs warrant this statement. People want value for their money and this opportunity will not be neglected by those who know as I do not feel like leaving my patients for who I have worked for so long. Above discount it made to pay in part for waiting until I can visit them which will be often enough to give teeth proper attention.

Social and Personal

Stewart Demers is spending his vacation visiting friends in New Hampshire.

Miss Josie Wheeler and Miss Susie Harriman are visiting in Montreal.

Mrs. A. McLean and son Lorne who were visiting Mrs. John Ferguson, returned to Boston Saturday.

Miss Edward has returned to Rexton. She was accompanied by Miss Lizzie Doucet.

Mrs. Wm. Fairman and children, of Brockton, Mass., are visiting Mrs. Fairman's home.

Mrs. Pratt spent a few days with Mrs. Fleigher on her way home to Melrose, Mass.

Mrs. F. A. Glidden and Miss Grace Glidden of Woodstock, are visiting friends in Newcastle and Blackville.

Miss Edie Hayward of Lincoln, Sunbury county, is visiting Miss Lina Clark.

Chas. F. Flett and family and Wm. J. Flett and family are visiting their old home at Nelson. This makes a large family gathering, there being fourteen Fletts at the old homestead.

Rev. A. M. McLeod of Upper Canada N. R. was visiting friends here last week.

Mr. F. Watson of Fredericton is spending his vacation with friends at Douglastown, where he for some time made his home. His many friends here are pleased to see him.

Mr. Jas. Troy who is engaged in Dalhousie spent Sunday and Monday here.

F. W. Fleigher spent a few days visiting friend in Neguac last week.

Mrs. John Clark who has been visiting her daughter, Mrs. W. H. Robbins, Bridgeville, N. S., has returned home.

Mr. James Whalen spent Sunday and Monday in town.

Mr. and Mrs. R. T. D. Aitken spent Sunday in Youghal.

Miss Rano Aitken and little sister Laura are visiting friends in Moncton.

Mr. Graham Jardine of the Royal Bank of Canada, is spending his vacation at his home in Rexton.

Miss Mamie Sheagreen of Lawrence, Mass., is visiting her former home.

Wm. Kerr, Esq., of Chatham, was in town Saturday.

Miss Annie England was visiting Miss Fleigher.

H. H. Bray, of Campbellton, was registered at the Waverley on Saturday.

Mr. and Mrs. R. H. Armstrong and children returned Saturday from Camp Adama where they had been enjoying the fishing for some time.

Mr. J. W. Nash who has been spending the summer here has returned to New York.

Miss Lenard of West Virginia was visiting Mrs. Fleigher recently.

Mrs. Harris and Miss Harris left yesterday for Winnipeg via St. John.

Mr. Hugh Harrison is visiting his parents here.

Mr. George W. Mersereau was in town yesterday.

Mr. H. P. Doyle of Charlott was registered at the Waverley on Monday.

Miss Nan Quinn arrived home Friday night from a very pleasant visit to friends at Liverpool, N. S.

J. F. Moir of Boiestown was in town Monday.

P. S. Wilkinson, who has charge of the advertising of the Fredericton Exhibition was in town yesterday.

Frank S. Sandler, Esq., of the Crown Land Office, Fredericton, was here yesterday. Mr. Sandler is a Miramichi boy and his many friends were pleased to see him.

Invitations are out for the marriage of Miss Bessie Margaret Bell of Newcastle and Mr. Arthur Bliss Copp, M.P.P. of Sackville, which is to take place in St. James' Church at 8.30 o'clock, Thursday evening, Aug. 20th.

Relief from the pains and aches caused by decayed or imperfect teeth, can be had by placing yourself in our hands.

Remember this and call on

Dr. C. B. Mcanus, Over Creaghan's store. Newcastle

RED BLOOD.

Healthy blood is always a bright red color and its tint is reflected in the face. Pallor means impure or impoverished blood, and this is a condition beset with peril. The healthy hue of the blood is due to the iron it contains. Every deficiency of iron should be promptly supplied.

DALTON'S BEEF IRON and WINE

is the remedy to use. It supplied the form of iron needed. It is taken up without any tax on digestion, and its work is supplemented by the Beef and Wine. It is good to take, and results as gratifying as the taste.

50 AND 75 CENTS.

NEWCASTLE DRUG STORE,
F. R. DALTON, Proprietor,
Between Post Office and Waverley Hotel.

We are selling

The balance of our Trimmed Hats at greatly reduced prices.

White Pique Skirts at \$1.10, \$1.40 and \$1.75, worth double the money.

In stock, Night Gowns, Corset Covers, Drawers and Underskirts at lowest prices.

MRS. H. A. QUILTY.
THE SARGEANT STORE

School!!!

School will soon reopen. We are prepared for the event with a full line of school books, writing books, drawing books, slates, pencils, crayons and all school requisites.

We will also have the most complete line of scribbles and exercise books ever shown here. We have been making a specialty of these out and efforts have been appreciated.

Send the boys and girls along early and we will fit them out.

During the early part of September we will GIVE AWAY blotters and rulers with copy books, readers etc.

Our grocery trade advances small profits and no credit is our motto.
